Sept. 9–13, 2002	New Transfer Student Follow-up Session. First term transfers should make an individual follow-up appointment with their advisor to review schedules.		

UNIVERSITY NOTICES

Equal Opportunity and Pluralism Statement

The Florida State University reaffirms its commitment to a policy of equal opportunity and pluralism, thus enhancing diversity and assuring a campus climate that values and respects the worth and dignity of all persons. The concept of pluralism, a state or condition of society in which individuals of diverse backgrounds are willing “to affirm each other’s dignity; are ready to benefit from each other’s experience; and are eager to acknowledge each other’s contribution to the common welfare and progress for all,” serves as a foundation for all programs, services, and activities affecting students, faculty, staff, employees, applicants and others affiliated with the University.

In pursuing its mission of excellence as a comprehensive, graduate-research university with a liberal arts base, it is the policy of the University to create and maintain a positive work and educational environment conducive to the betterment of the University and, thus, society at large, in the interest of public service and international education. The Florida State University realizes that there is advantage in incorporating diversity from all realms: cultural, positional, social, among others. Further, it is the aim of the University in all lawful ways to carry its stance by:

- removing barriers that restrict people from realizing their potential;
- implementing policies, procedures, and programs that ensure opportunities are available equitably to all;
- building a multidimensional, diversified workforce reflective of the community;
- fostering leadership and direction that guarantees an accountable, highly participatory, effective institution of higher learning at all levels; and
- communicating the same to all in various formats as applicable.

To foster pluralism and maintain diversity for the mutual benefit of the University and the public, the University President has appointed a Director of Equal Opportunity and Pluralism. That administrator’s key focus is to help create an ideal environment of excellence encompassing fairness, respect and trust—free from mistreatment, discrimination and harassment—by utilizing a flexible, yet, balanced approach, to optimize the aims of all stakeholders in conjunction with the University’s objectives.

The Florida State University’s designated Director of Equal Opportunity and Pluralism is: Dr. Freddie L. Grooms, Executive Assistant, (850) 644-5283, email: fgrooms@mailers.fsu.edu.

Persons with Disabilities

The Florida State University adheres to Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 (ADA) in prohibiting discrimination against any qualified person with a disability. Any student with a disability may voluntarily self-report the nature of the disability and identify needed special assistance to the Student Disability Resource Center, 1st Floor, Kellum Hall. The Florida State University’s designated ADA Coordinator may be contacted as follows: Mr. Robert Pullen, Human Resources/Office of Diversity Enhancement. Self-evaluation reports are available for review upon request in Human Resources/Office of Diversity Enhancement.

This publication is available in alternative format upon request by contacting the Student Disability Resource Center, (850) 644-9566, or from the University ADA Coordinator, (850) 644-8142.

HIV/AIDS Policy

Students, employees, and applicants for admission or employment at The Florida State University who have or who may become infected with the HIV virus will not be excluded from enrollment or employment or restricted in their normal responsibilities and access to University services or facilities due to their HIV/AIDS status, unless individual medically-based judgments establish that exclusion or restriction is necessary for the welfare of the individual or of other members of the University community. That is, the University will not discriminate against otherwise qualified HIV-infected applicants, students, or employees.

The Florida State University Committee on HIV/AIDS is responsible for monitoring developments with regard to HIV/AIDS, acting upon and administering the policies of the State of Florida, Division of Colleges and Universities and the University concerning HIV/AIDS and coordinating the University’s efforts in educating the University community on the nature and prevention of the disease. In addition, The Florida State University Committee on HIV/AIDS meets as needed to consider special problems related to HIV/AIDS which require University action.

The University will be guided in its implementation of this policy by current authoritative medical information, applicable federal and state law, the State of Florida, Division of Colleges and Universities’ HIV/AIDS Policy, and the guidelines suggested by the Centers for Disease Control, the Public Health Service, the American College Health Association, and the Florida Department of Health.

The Florida State University has designated HIV/AIDS counselors who are available to the University community. These counselors are: Celeste Paquette, M.D., Medical Director Thagard Student Health Center, 644-9498; and James Hennessey, Ph.D. Student Counseling, 644-2003.

Sexual Harassment Policy

1. Policy Statement. Sexual harassment is a form of discrimination based on a person’s gender. Sexual harassment is contrary to The University’s values and moral standards, which recognize the dignity and worth of each person, as well as a violation of federal and state laws and University rules and policies. Sexual harassment cannot and will not be tolerated at The Florida State University, whether by faculty, students, or staff, or by others while on property owned by or under the control of the University.

2. Coordinator Of Sexual Harassment Resolutions. The Office of the University’s Coordinator of Sexual Harassment Resolutions (the “Coordinator”), within the Office of the Inspector General, is designated to receive and investigate sexual harassment complaints as set forth in this policy and to maintain the records pertaining thereto.

3. Definition. Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature directed at an employee or student by another when:

- a. submission to such conduct is made either explicitly or implicitly a term or condition of employment, academic status, receipt of University services, participation in University activities and programs, or affects the measure of a student’s academic performance; or,

¹ For the purposes of this policy, the term “supervisor” shall be deemed to include vice presidents, deans, directors, department chairs, unit heads, supervisors, principal investigators, etc.; faculty when acting in a supervisory capacity or within the faculty-student role; and graduate research assistants, teaching assistants, lab technicians, residence hall coordinators, etc.

b. submission to or rejection of such conduct is used as the basis for a decision affecting employment, academic status, receipt of services, participation in University activities and programs, or the measure of a student's academic performance; or,

c. such conduct has the purpose or effect of unreasonably interfering with employment opportunities, work or academic performance or creating an intimidating, hostile, or offensive work or educational environment.

4. Examples of Sexual Harassment. Incidents of sexual harassment may involve persons of different or the same gender. They may involve persons having equal or unequal power, authority or influence. Though romantic and sexual relationships between persons of unequal power do not necessarily constitute sexual harassment, there is an inherent conflict of interest between making sexual overtures and exercising supervisory, educational, or other institutional authority. Decisions affecting an employee's job responsibilities, promotion, pay, benefits, or other terms or conditions of employment, or a student's grades, academic progress, evaluation, student status, recommendations, references, referrals, and opportunities for further study, employment or career advancement, must be made solely on the basis of merit. Examples of sexual harassment include, but are not limited to, the following, when they occur within the circumstances described in Section (3) above:

a. use of gender-based verbal or written language offensive or degrading to a person of that gender, whether or not the content is sexual;

b. inappropriate display of gender-based pictorial images offensive or degrading to a person of that gender, including but not limited to sexual posters, photographs, cartoons, drawings, or other displays of sexually suggestive objects or pictures;

c. use of inappropriate gestures or body language of a sexual nature, including leering or staring at another;

d. unwelcome requests or demands for sexual favors or unwelcome sexual advances;

e. inappropriate nonconsensual touching of another's body, including but not limited to kissing, pinching, groping, fondling, or blocking normal movement; or

f. Sexual Battery. (**Note:** some acts of sexual harassment may also constitute violations of criminal law, e.g., sexual battery, indecent exposure, sexual abuse, etc. In such instances, the Florida State University Police Department is to be notified immediately and will provide assistance to the victim and initiate an investigation of the crime. For additional information, please refer to the University's Sexual Battery Policy.)

5. Disciplinary and Other Actions. Sexual harassment is prohibited at The Florida State University. The University will take appropriate action against any person found to be in violation of this policy. (**Note:** a person who has sexually harassed another or retaliated against another may also be subject to civil or criminal liability under state or federal law.)

a. **Disciplinary Actions.** Any employee who has sexually harassed another employee or a student, retaliated against such person for bringing a complaint of sexual harassment, or otherwise violated this policy shall be guilty of misconduct and subject to disciplinary action up to and including dismissal, in accordance with applicable law, rules, policies, and/or collective bargaining agreements. Any student, except when acting in the capacity of an employee, who has sexually harassed another student or an employee, retaliated against such person for bringing a complaint of sexual harassment, or otherwise violated this policy shall be subject to disciplinary action up to and including expulsion, pursuant to the Student Code of Conduct. The term "employee" includes all persons employed by the University including faculty and graduate teaching assistants.

b. **Other Actions.** The University will take such corrective action against any non-students or non-employees found to have violated this policy as may be appropriate under the circumstances.

6. Retaliation. Retaliation against one who in good faith brings a complaint of sexual harassment or who in good faith participates in the investigation of a sexual harassment complaint is prohibited and shall be a violation of this policy and shall constitute misconduct subject to disciplinary or other action as described in Section (5) above.

7. Filing of False Sexual Harassment Complaint. Knowingly filing a false sexual harassment complaint is prohibited and shall be a violation of this policy and shall constitute misconduct subject to disciplinary action as described in Section (5) above.

8. Reporting Required. Any student or employee who has witnessed what is perceived to be a violation of this policy should report that conduct to the Coordinator, who then will proceed as appropriate. Any supervisor¹ who has witnessed or becomes aware of the alleged occurrence of sexual harassment by, or who receives a complaint of sexual harassment involving, a person within that supervisor's purview is required to take prompt corrective action as appropriate, and to report the matter to the Coordinator. Failure of the supervisor to take appropriate corrective action or to report the incident shall be a violation of this policy and shall constitute misconduct subject to disciplinary action as described in Section (5) above.

9. Complaint Procedure.

a. **Filing of Complaint.** Any student or employee who believes that he or she is a victim of sexual harassment in viola-

tion of this policy is encouraged to promptly notify the alleged perpetrator (the "respondent") verbally or in writing that his or her conduct is unwelcome. Such action may cause the unwelcome conduct to cease as well as help to maintain an environment free from sexual harassment. Assistance and support is available from the Office of the Dean of the Faculties (for faculty), the Office of the Dean of Students (for students), or the Department of Personnel Services (for non-faculty employees). Regardless of having given notice to the respondent, the student or employee (the "complainant") may initiate a complaint under this policy by bringing the matter to the attention, preferably in writing by completing the complaint form, of any of the following:

- The Coordinator;
- The Office of the Dean of the Faculties;
- The Office of the Dean of Students;
- The Department of Personnel Services;
- A student's school or college dean; or,
- An employee's immediate or next immediate supervisor.

b. **Contents of Complaint.** The complaint should provide the following information to facilitate a prompt and thorough investigation:

- The names, addresses, telephone numbers, administrative unit, and position or status of the complainant and the respondent, if known;
- Specific acts alleged, including dates, times, and locations;
- Names, addresses, and phone numbers of potential witnesses;
- The effect the alleged acts have had on the complainant;
- Actions the complainant may have taken to attempt to stop the harassment;
- Complainant's suggestion of proposed action to address or resolve the harassment; and
- Other information the complainant believes is relevant.

c. **Transmittal of Complaint to Coordinator.** The complaint shall immediately be forwarded to the Coordinator. If the complaint is verbal, the person receiving the complaint shall make a written summary thereof on the complaint form and request the complainant to sign it.

d. **Initial Review of Complaint.** The Coordinator will make an initial determination whether the alleged perpetrator is a student or employee. If the alleged

perpetrator is identified as one who is not a student or employee, then the Coordinator will refer the matter to the Office of the General Counsel for appropriate action. If the Coordinator determines that the alleged perpetrator is a student or employee, the Coordinator will review the complaint to determine whether the acts complained of, as stated by the complainant, constitute a violation of this policy, and if not, the complainant will be so informed. If the Coordinator determines the alleged acts may constitute a violation of this policy, investigation will proceed as set forth in Section (10) below, unless the matter is satisfactorily resolved as in the following paragraph (e).

e. Notification to Respondent and Supervisor; Informal Resolution; Withdrawal of Complaint. The Coordinator will notify the respondent and his or her appropriate supervisor of the allegations contained in the complaint and the complainant's suggestion of proposed action to address or resolve the alleged harassment. The respondent will be offered the opportunity to accept the complainant's proposed resolution or to propose another possible resolution. If the matter is thus resolved informally to the complainant's satisfaction, or if the complainant chooses to withdraw the complaint, the complainant will sign a statement releasing the University from taking any further action. If the matter is not resolved at this stage to the satisfaction of all parties, including the University, the complaint will be investigated as set forth in Section (10) below.

10. Investigation. The following procedures will govern all investigations of complaints alleging violations of this policy:

a. The Coordinator will thoroughly investigate complaints alleging violations of this policy with the assistance, as needed, of the following: the Office of the Dean of the Faculties, the Department of Personnel Services, and/or the respondent's supervisor(s), except in cases where the respondent is a student. If the respondent is a student, the Coordinator will forward a copy of the complaint and any associated materials to the Office of the Dean of Students, which will, if appropriate, adjudicate the matter under the Code of Student Conduct. The Dean of Students will notify the Coordinator of the outcome.

b. The investigation should include interviewing the complainant and witnesses suggested by the complainant who may have knowledge of the offending behavior.

c. The respondent will be given an opportunity to respond to the complaint verbally and in writing and may suggest additional witnesses.

d. The investigation should also include interviewing such other witnesses as are deemed appropriate under the circumstances.

e. The investigation should include a review of any files and records of previous sexual harassment complaints against the respondent and any other documents deemed relevant.

f. All witnesses who provide relevant information will be asked to submit a written, signed statement attesting to their knowledge of the subject circumstances.

g. Confidentiality of the investigation will be maintained to the extent allowed by law.

11. Report of Coordinator. The Coordinator will prepare a report setting forth the Coordinator's findings, with relevant exhibits attached, as appropriate. The report will contain the Coordinator's conclusion as to whether this policy has been violated and include a recommendation as to whether disciplinary action should be initiated or the complaint should be dismissed. The report should be completed within 120 days following the filing of the complaint, where practicable, and will be submitted to the appropriate vice president of the respondent's unit or department.

12. Subsequent Action. The vice president will make a determination, upon review of the Coordinator's report, consultation with the Dean of the Faculties or the Director of Personnel Services, and consideration of any other relevant information, including aggravating or mitigating circumstances, whether disciplinary action is warranted under the circumstances. If the vice president determines that disciplinary action should be initiated, then, consistent with due process requirements, the respondent will be notified in accordance with applicable Florida Board of Education and University rules and policies and collective bargaining agreements, and appropriate disciplinary procedures as provided therein will be followed. Regardless of whether formal disciplinary action is initiated, the University may take such informal corrective action as may be appropriate under the circumstances. The vice president will notify the Coordinator of the outcome. The Coordinator will notify the complainant of the results of the investigation and subsequent disciplinary or other corrective action taken, if any, to the extent allowed by law.

13. Distribution of Policy. Copies of this policy shall be furnished to all current and future employees and students at The Florida State University, and will be made available in alternative format upon request. Any person involved in the process under this policy needing accommodations for a disability should notify the Coordinator.

14. Applicability. This policy supercedes any and all prior University policies regarding complaints of alleged acts of sexual harassment that occur after its effective date.

15. Effective Date. The effective date of this policy is July 1, 1998.

Mission Statement (Approved by BOR, July 28, 1988; Updated 1998, Revised May 21, 1999)

The Florida State University is a comprehensive, graduate-research university with a liberal arts base. It offers undergraduate, graduate, advanced graduate, and professional programs of study, conducts extensive research, and provides service to the public in accord with its statewide mission. The University's primary role is to serve as a center for advanced graduate and professional studies while emphasizing research and providing excellence in undergraduate programs.

In accordance with the University's mission, faculty members have been selected for their commitment to excellence in teaching, their ability in research and creative activity, and their interest in public service. Among the faculty are recipients of many national and international honors, who have included five Nobel laureates and nine members of the National Academy of Sciences.

Given its history, location, and accomplishments, The Florida State University anticipates refinement of its mission with concentration on its strong liberal arts base and on quality in its teaching, research, and public service. The University has established its reputation upon areas of strength by building excellence in the four components of the Science Development Program—physics, chemistry, psychobiology (now neuroscience), and statistics—together with the physical, biological, earth, and mathematical sciences closely related to them. Excellence in these and related areas, particularly materials science, resulted in relocation of the National High Magnetic Field Laboratory to Florida State. Enhancement of the fine and performing arts began with the establishment of the Center for Music Research in the already prestigious School of Music and includes prominent programs in Theatre, Dance, and the Visual Arts. Within the areas of humanities, the Departments of English, Philosophy, Religion, and Humanities are particularly distinguished. Special emphasis in the policy sciences has been directed to the College of Social Sciences' Departments of Economics, Geography, Political Science, Urban and Regional Planning, and the Reubin O'D. Askew School of Public Administration and Policy and to its Policy Sciences Center and the public policy components of the School of Criminology and Criminal Justice, the School of Social Work, and the College of Education.

The University's location in the State's capital city provides great opportunity for service and interaction among governmental agencies and the social science and professional schools, especially the Colleges of Business and Law and the Pepper Institute on Aging and Public Policy. Special resources, such as the Supercomputer Computations Research Institute and the Augustus B. Turnbull III Florida State Confer-

ence Center, enhance its ability to deliver such service. The University is strongly committed to its mission in international education. It provides study-abroad opportunities for its students and faculty through the Florence and London Study Centers, which it operates for the State of Florida, Division of Colleges and Universities, and through programs in Barbados, Costa Rica, the Republic of Panama, Switzerland, Russia, Spain, in Cetamura, Italy, and Oxford, England, and in Central and Eastern Europe. The University co-sponsors Florida bi-national linkage institutes in Costa Rica and France.

As a comprehensive residential state university, The Florida State University attracts students from every county in Florida, every state in the nation, and 139 foreign countries. The University is committed to high admission standards that ensure quality in its student body, which currently includes 577 National Merit, National Achievement and Hispanic Scholars, as well as students with superior creative talents. It also provides alternative admission and highly successful retention programs for special student populations. Most students pursue a full-time course of study in normal progression from high school or undergraduate institutions. Graduate students, who comprise 17.8 percent of the student body, are enrolled in over 204 graduate degree programs of which 72, covering 133 fields, are doctoral. The median age of all students is 23.7 and approximately 12.5 percent, mostly graduate students, are at or over 31 years old.

A Summons to Responsible Freedom

Values and Moral Standards at The Florida State University

The moral norm which guides conduct and informs policy at The Florida State University is responsible freedom. Freedom is an important experience which the University, one of the freest of institutions, provides for all of its citizens: faculty, students, administrators, and staff. Freedom is responsibly exercised when it is directed by ethical standards.

As the Florida public university most deeply rooted in the liberal arts tradition, The Florida State University not only focuses on intellectual development, but as a community of moral discourse it also recognizes the need for the development of the whole person. The University maintains a comprehensive educational program ranging from classroom instruction to research and creative activities at the frontiers of human knowledge. These modes of searching for the truth are mutually enhancing and provide the context for the liberating experiences students gain from contact with ideas and individuals. Education based in the liberal arts provides an opportunity for students to learn to express themselves; to think critically both quantita-

tively and qualitatively; to gain an understanding of and respect for self and others; to understand the world by knowing more about its history, the role of science and technology, and social and cultural achievements; and to develop specialized talents for a vocation. This opportunity is provided with the conviction, as reflected in the University seal, that through such an educational experience one can come to a clearer understanding of the complex moral issues inherent in human life and can develop the knowledge and skills for effective and responsible participation in the world.

The Florida State University shares a commitment to the dignity and worth of each person and is guided in its many endeavors by that underlying value. Through academic activity, community involvement, social interaction, cultural experience, recreational and physical activity, and religious involvement, students find many avenues in the University community for the development of the whole person.

The University shares this society's commitment to the rule of law and expects members of the community to abide by the laws of the city, state, and nation, as well as University rules and regulations.

The University aspires to excellence in its core activities of teaching, learning, research, creative expression, and public service and is committed to the integrity of the academic process. The Academic Honor Code is a specific manifestation of this commitment. Truthfulness in one's claims and representations and honesty in one's activities are essential in life and vocation, and the realization of truthfulness and honesty is an intrinsic part of the educational process.

The University is a place of both assent and dissent and is committed to academic freedom and civil dialogue. In a free and vigorous academic community an ongoing clash of ideas is to be expected and encouraged. The University has a special obligation to see that all have an opportunity to be heard.

The Florida State University is committed to nondiscrimination in matters of race, creed, color, sex, national origin, age, and disability. This commitment applies in all areas with students, faculty, and other University personnel. It addresses recruiting, hiring, training, promotions, and applicable employment conditions. It is also relevant to those aspects of the University concerned with the choice of contractors, suppliers of goods and services, and with the use of University facilities. The University believes in equal opportunity practices which conform to both the spirit and the letter of all laws against discrimination.

A responsible student recognizes that freedom means the acknowledgment of responsibility to the following: to justice and public order; to fellow students' rights and interests; to the University, its rules, regula-

tions, and accepted traditions; to parents, teachers, and all others whose support makes one's advanced education possible; to city, state, and national laws; to oneself; and to the opportunity for specialized training and continuing education toward the ends of personal fulfillment and social service. Students are urged to use their freedom in the University community to develop habits of responsibility which lead to the achievement of these personal and social values. Responsible student behavior requires observance of the Student Conduct Code, which is based on respect for the dignity and worth of each person and the requirements for successful community life.

Relations among all persons should be characterized by mutual respect and equality. Sexism, sexual harassment, and sexual coercion of any sort are wrong and constitute a violation of fundamental moral requirements and state law. Minimally responsible behavior requires that no one take sexual advantage of another.

The University enforces all laws relevant to alcohol and controlled substances and further strongly discourages the use of illegal substances at any time. The University disseminates and encourages the dissemination by others of information concerning the responsible use of alcohol.

The cultural, ethnic, and racial diversity of the University community provides an opportunity for learning about those different from oneself. The University expects each individual to make a special effort to ensure that all are treated with dignity and respect and accorded the full opportunities of the University. Racism, whether in assumptions, attitudes, acts, or policies, is incompatible with the concept of responsible freedom as espoused by The Florida State University.

The University is a compassionate community. In its treatment of students, it recognizes the wisdom both of letting students experience the consequences of their actions and of providing the opportunity to learn and grow in ways that can overcome past difficulties. The University provides ongoing student support through the health center, counseling services, and the academic advising process.

The university experience is a time for adventure, fun, excitement, the making of new friends, and the discovery of new possibilities. There are numerous individual and organized opportunities for students to develop and to learn in the course of their university years to exercise newly acquired freedom liberately and responsibly.

Matriculation to The Florida State University, then, is a summons to the exercise of responsible freedom in a community of teaching, learning, and discovery.

Policy for the Use of Photographs and Videos in University Publications

The Florida State University randomly and routinely photographs and makes videos on the main campus, branch campi, and the international and departmental programs for educational and promotional purposes. These photographs and videos appear in official University publications and materials, which include but are not specifically limited to, *General Bulletin* (undergraduate and graduate), *Registration Guide*, Office of Admissions brochures, international program materials, departmental and college brochures, University websites, and other University information publications. For further information contact Media Relations at 644-4030.

Integrity in Research and Creative Activity

It is the policy of The Florida State University to uphold the highest standards of integrity in research and creative activity, and to protect

the right of its employees to engage in research and creative activity. Detailed policies and procedures can be found in the *Faculty Handbook*.

Notification to All Applicants for Admission and Students Attending The Florida State University

This *General Bulletin* is not a contract, either expressed or implied, between the University and the student, but represents a flexible program of the current curriculum, educational plans, offerings and requirements which may be altered from time to time to carry out the administrative, academic and procedural purposes and objectives of the University. The University specifically reserves the right to change, delete or add to any provision, offering, academic curriculum, program or requirement at any time within the student's period of study at the University. The University further reserves the right to withdraw a student from the University for cause at any time. Students are on notice that admission to the University or registration for a given semester does not guar-

antee the availability of a course at any specific time. Likewise, admission to the University or registration for a given program of study within the University, or a department or college of the University, is not a guarantee of a degree or of certification in a program.

Garnet E-Mail Accounts for All Students at The Florida State University

The official method of communication at The Florida State University is the ACNS Garnet e-mail account. In order to stay informed and aware, students are required to set up and maintain their account, and check it three times per week. Students may choose to forward their Garnet account to another e-mail account; however, they still will be responsible for all information distributed by the University to their Garnet account. For more information (including how to set up an account,) log on to <http://cars.acns.fsu.edu> or call the Office of Technology Integration Help Desk at (850) 644-8502, extension 1.

The Florida State University Statement for Students on the Unlawful Possession, Use, or Distribution of Illicit Drugs and Alcohol

Standards of Conduct

State of Florida statutes declare that it is unlawful for any person under 21 years of age to possess or consume alcoholic beverages. Consequently, no one under the legal drinking age may consume, distribute, or possess alcohol on University properties or as part of any University activity.

It is unlawful to sell, give, serve, or permit to be served alcoholic beverages to a person under 21 years of age. Furthermore, servers can be held civilly liable for damage caused by underage drinkers to whom they provided alcoholic beverages.

It is unlawful to be under the influence of, to use, possess, distribute, sell, offer, or agree to sell, or represent to sell, narcotics, hallucinogens, dangerous drugs, or controlled substances, except as where permitted by prescription or law.

Legal Sanctions

Alcohol Offenses Common Alcohol	Typical Penalty	Maximum Penalty
Offenses (Leon County)	First Offense	First Offense
Possession or attempt to purchase alcohol by a person under 21 years of age.	Diversion program; \$180 fine; 10 hours community work program.	60 days jail; \$500 fine.
Using a false driver's license ID or allowing someone to use your driver's license for an ID card.	Diversion program; \$180 fine; 10 hours community work program.	60 days jail; \$500 fine.
Providing alcohol to a person under 21.	Diversion program; \$180 fine; 10 hours community work program.	60 days jail; \$500 fine.

Illicit Drugs Offenses

The penalty for possession (second-degree misdemeanor) is 60 days jail and \$500 fine. Penalties for trafficking (first-degree felony) range up to 30 years imprisonment and fines of \$500,000.

Risks Associated with the Use of Illicit Drugs and the Abuse of Alcohol

Alcohol consumption causes a number of marked changes in behavior. It may increase aggressiveness, lower inhibitions, cloud judgement, reduce resistance, and hamper the ability to make decisions. The effects of alcohol are related to dose, rate of intake, body size and percentage of body fluid, expectations, social environment, physical conditions (disease or more common hormonal cycles can be factors), enzyme differences, and concentration of alcohol in a drink. Alcohol first affects the area of the brain responsible for higher functions, such as decision-making and social inhibitions, suppressing an individual's self-control. Alcohol in the blood slows reaction time, reduces muscle coordination and impairs eyesight, contributing to deficits in performance, judgement, memory, and motor skills. Even low doses significantly impair the judgement and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in a crash. Moderate doses of alcohol may increase the odds of a variety of aggressive acts (violent crimes), including murder, rape, assault, vandalism, spouse and child abuse, and drunk driving. High doses of

alcohol often cause marked impairment in higher mental functioning, severely altering a person's ability to learn and remember information, leading to blackouts and a general suspension of cognitive abilities. Heavy use may lead to various types of traumatic injury, chronic depression, suicide, fetal alcohol syndrome, respiratory failure, alcohol poisoning, and death.

Prolonged, heavy consumption of alcohol can result in long-term medical problems, including high blood pressure, increased risk of heart attack, pancreatitis, various cancers, cirrhosis of the liver, infectious diseases, mental disorders, and impairment of the central nervous system, all of which may lead to early death. Consistent use of alcohol can lead to tolerance, which is an indication of the body's adjustment to regular drinking, and is a warning sign of alcohol abuse. High tolerance may be an inherited function, which many researchers think is a sign of genetic predisposition to alcoholism. Sudden cessation of alcohol intake by alcoholics is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions, which can be life-threatening.

Illicit drugs all have some health-threatening qualities — some more than others. Examples include increased heart rate and lung damage from marijuana; central nervous system disorders from cocaine, heroin, and hallucinogens; and liver, lung and kidney damage from inhalants. AIDS also is spread widely among intravenous drug users. Even infrequent use of drugs can result in physical afflictions, such as hangovers, cardiovascular damage, digestive problems, tremors, impaired sexual response, and injuries due to lost coordination. Other possible effects include reduced alertness and impaired performance at school or work, interpersonal conflicts, and financial difficulties. Dependence and addiction are constant threats to users of illicit substances. Regular abuse of these substances generally expose users to criminal elements, which may lead to involvement in further criminal activities.

Information on Alcohol and Drugs and Treatment Referral

The Department of Health Enhancement, (850) 644-8871, in the Thagard Student Health Center, provides educational workshops for any audience on request. It has an extensive reference library and refers students seeking assistance with alcohol and drug matters.

The Tallahassee Telephone Counseling and Referral Service phone number is 224-NEED, Narcotics Anonymous is 599-2876 and Alcoholics Anonymous is 224-1818.

The Florida State University Marriage and Family Therapy Clinic (644-1588) provides limited treatment. Students may also receive counseling at the Student Counseling Center, 644-2003.

Additional Information is available on the Internet at the following websites:

1. Children of Alcoholics Foundation at <http://www.coaf.org>
2. National Association for Children of Alcoholics at <http://www.health.org/nacoa>
3. Alcoholics Anonymous at <http://www.alcoholics-anonymous.org>
4. Families and Friends of Alcoholics at <http://www.al-anon-alateen.org>

University Disciplinary Sanctions for Alcohol/Drug Offenses

The disciplinary function at The Florida State University is an integral part of the educational mission of the University. Students in violation of state laws, city ordinances, or University policies will be reported to The Florida State University authorities for disciplinary action. Disciplinary processes are outlined in the *Florida State University Student Handbook* which gives the University authority to impose sanctions including suspension, dismissal, and expulsion.

THE UNIVERSITY

University History

The Florida State University, one of the largest and oldest of the eleven institutions of higher learning in the State of Florida, Division of Colleges and Universities, had its beginning as early as 1823 when the Territorial Legislature began to plan a higher education system. In 1825 the Federal Government reserved two townships for the purpose of maintaining two such institutions in the territory, and in 1845 the United States Congress, supplemental to the act admitting Florida as a state in the Union, added two more townships. This led to an 1851 act of the Florida Legislature establishing two seminaries, one to be located east and the other west of the Suwannee River.

By 1854 the city of Tallahassee had established a school for boys called the Florida Institute with the hope that the state could be induced to take it over as one of the seminaries. In 1856 the Legislature of Florida chose to accept the offer of the Institute's land and building and designated Tallahassee as the site of one of the state seminaries because of its railway connections, its "salubrious climate," and its "intelligent, refined, and moral community."

Francis Eppes, who spent his formative years on the estate of his grandfather President Thomas Jefferson at Monticello in Virginia, and who shared his grandfather's views of the importance to a democracy of a liberally educated citizenry, was the Mayor of Tallahassee who made the offer. Eppes served as President of the Seminary's Board of Education for eight years and instilled in the institution the Jeffersonian ideals that characterize it today.

In February 1857, the institution began offering postsecondary instruction to male students as the Seminary West of the Suwannee River. The school first became coeducational the following year when it absorbed the Tallahassee Female Academy, begun in 1843 as the Misses Bates School. Thus the West Florida Seminary, founded in 1851, began operating in 1857, only 12 years after Florida achieved statehood. It was located on the hill where the Westcott Building now stands, which has been the site of an institution of higher education longer than any other site in Florida.

Classes were held at the West Florida Seminary from 1857 until 1863, when the state legislature changed the name to The Florida Military and Collegiate Institute to reflect the addition of a military section which trained cadets. During the Civil War, cadets from the school, ranging in age from 12 to 18, fought in the Battle of Natural Bridge and helped make Tallahassee the only Confederate capital east

of the Mississippi not captured during the war. As a result of the brave action of the West Florida cadets in this battle, The Florida State University Army ROTC cadet corps is today one of only three in the nation authorized to display a battle streamer with its flag, a streamer which bears the words "Natural Bridge 1865." After the end of the war in 1865, however, Union troops under General McCook descended upon Tallahassee and occupied the city (including campus buildings), remaining for more than a month.

Following the war, the institution entered a period of growth and development. In 1884 the first diplomas, Licentiate of Instruction, were awarded, and by 1891 the Institute had begun to focus clearly on what we would today call postsecondary education; seven bachelor of arts (BA) degrees were awarded that year. By 1897 the institution had evolved into the first liberal arts college in the state, and in 1901 it became Florida State College, a four-year institution, with the first master's degree offered in 1902. That year the student body numbered 252 men and women, and degrees were available in classical, literary, and scientific studies. In 1903 the first university library was begun. The following quote from the 1903 Florida State College *Catalogue* adds an interesting footnote to this period:

In 1883 the institution, now long officially known as the West Florida Seminary, was organized by the Board of Education as The Literary College of the University of Florida. Owing to lack of means for the support of this more ambitious project, and also owing to the fact that soon thereafter schools for technical training were established, this association soon dissolved. It remains to be remarked, however, that the legislative act passed in 1885, bestowing upon the institution the title of the University of Florida, has never been repealed. The more pretentious name is not assumed by the college owing to the fact that it does not wish to misrepresent its resources and purposes.

In a 1905 reorganization of Florida's educational system by the legislature, the University of Florida in Gainesville was established and designated a men's school, and the Florida State College became a women's school called the Florida Female College. The male student body moved from Tallahassee to Gainesville, taking with it the fraternity system and the College football team, which had been state champions in 1902, 1903, and 1905. In 1909 the name of the college was changed to Florida State College for Women, an institution which grew to become the third largest women's college in the nation during the 1930s. The College became fully accredited in 1915, and a chapter of the national honor society of Phi Kappa Phi

was installed in 1925, the year after the College was placed on the list of standard colleges and universities approved by the Association of American Universities and became a member of the Association of American Colleges. In 1935 the first chapter of Phi Beta Kappa in the state, Alpha Chapter of Florida, was installed at the College, a mark of its status as a true liberal arts college.

The year 1947 saw many changes. Demand by returning World War II veterans had brought men back to the campus in 1946 with the establishment of the Tallahassee Branch of the University of Florida and in 1947 caused the Legislature to return Florida State College for Women to coeducational status and name it The Florida State University. A permanent president's residence was acquired. The student body, numbering 4,056, chose a new alma mater and selected the Seminole as its mascot. The Flying High Circus was born, and football was started again when the first home game since 1905 was played in October. Three years later Campbell Stadium was built. The first Student Union was established and housed in the "O Club" on West Campus, a former Army Air Base which mainly housed male students and provided some classroom space three miles west of the main campus.

The 1950s brought significant development and expansion to the University. To the colleges and schools that had existed since the Florida State College days—Arts and Sciences, Education, Home Economics, and Music—were added Library Science, Social Welfare (later split into Social Work and Criminology), Business, and Nursing. A student in the Department of Chemistry was awarded the University's first doctor of philosophy (PhD) degree in 1952. A new building was completed for the Developmental Research School, which in 1905 had evolved from the High School and the College Academy of earlier days as the Observation and Practice School created to provide on-site opportunities for experience and research to students in education. Tully Gymnasium, Strozier Library, and the Business Building were completed to enhance the education of the ever-increasing student population.

In the 1960s the University acquired the Shaw Poetry Collection, established the Institutes of Molecular Biophysics and Space Biosciences, and constructed nine new buildings, including the Oglesby Union and the Fine Arts Building. During this period, the Panama Canal Branch was opened, and the Program in Medical Sciences was established. The first black student enrolled in 1962, and the first black PhD candidates graduated in 1970. Programs in African American Studies and Women's Studies were established. Continuing the liberal arts tra-

dition begun in the 1890s, the Liberal Studies Program required of all undergraduates was expanded and strengthened.

In each succeeding decade, The Florida State University has added to its academic organization and now comprises 17 colleges and schools. It has expanded from the original few acres and buildings to over 484 buildings on nearly 1,423.2 acres, including the downtown Tallahassee main campus of 463.4 acres; a farm, which for many decades supplied the Florida State College for Women with food; the Seminole Reservation—a recreational facility; the Marine Laboratory on the Gulf Coast; the FAMU—FSU College of Engineering facility; the University Computing Center and Division of Research at Innovation Park; and the branch campus in Panama City, Florida. The Florida State University celebrated its 50th year as a university in 1997, with a student population of over 30,000, and recognition as a major graduate research institution with an established international reputation.

The fall 2001 enrollment totaled 35,462 students from all 50 states and over 139 countries. The breakdown by class included 6,815 freshmen, 5,384 sophomores, 7,447 juniors, 7,479 seniors, 696 law students, 2,020 special students, and 5,621 graduate students. Of the student body, 43.57% are men, 56.43% women. The faculty totaled 1,956.

The Panama City Campus is located on beautiful North Bay, 100 miles west of Tallahassee, near the Gulf of Mexico. The campus, with its modern classrooms and offices, has been designed to utilize the natural landscape of the site, creating an aesthetic and effective educational setting.

University Organization

The Florida State University is one of eleven units of the Division of Colleges and Universities of the Florida Board of Education. The Florida Board of Education (FBOE), established pursuant to Chapter 229, Florida Statutes, on July 1, 2001, oversees Education Governance in the state through the Secretary of Education, who serves as Secretary of the FBOE. It oversees the 13-member Boards of Trustees for each of Florida's public universities through the Chancellor of Colleges and Universities. The Florida State University Board of Trustees sets the University's policies and goals and serves as its legal owner and final authority responsible for efficient and effective use of its resources.

The main campus of the University is located in Tallahassee, the state's capital. The Florida State University also offers degree programs in Panama City, Sarasota, and the Republic of Panama; instructional programs in London, Florence, and Valencia; and research, development, and/or service programs in Costa Rica, Croatia, and Italy.

The chief executive officer of The Florida State University is the President. He is assisted by the Provost (who is also the Vice President for Academic Affairs), the Dean of the Faculties and Deputy Provost, the Vice President for Finance and Administration, the Vice President for Student Affairs, the Vice President for Research, the Vice President for University Relations, the Director of University Communications, and the President of the Faculty Senate.

The Division of Academic Affairs is responsible for the operation of the academic program of the University. It includes the Office of the Dean of the Faculties and Deputy Provost, which is responsible for the administration of all faculty personnel matters and academic rules and regulations and facilitates the operation of the Faculty Governance System of the University; the Office of Graduate Studies, which is responsible for the recruitment and advising of graduate students; and the Division of Undergraduate Studies, which is responsible for undergraduate advisement, retention, and special programs. Further support is given by associate vice presidents and directors, who are responsible for such academic matters as continuing education, international programs, computing and information resources, learning systems, libraries, the Office of the University Registrar, the Office of Financial Aid, and the Office of Admissions.

The Division of Finance and Administration maintains the physical plant, administers the personnel program, and receives and disburses nearly all University funds.

The Division of Student Affairs offers and coordinates programs that provide housing, career guidance, health care, recreation, child care, self-governance, and enhancement of academic skills to students. It is also responsible for programs and services for international students, disabled students, and student activities and organizations.

The Division of Research coordinates all research programs and mediates between extramural sponsors and faculty conducting research, development, and training under such sponsorship.

The Division of University Relations coordinates alumni affairs and the solicitation of external funds to support scholarships and loans for students, capital construction, excellence in academic programs, and intercollegiate athletics. University Relations also coordinates programs to improve understanding and support of University academic programs and activities through its units, including governmental relations.

University Communications coordinates efforts to improve the public's understanding of the University's academic programs and activities through internal and external media, both print and electronic. It includes the Public Broadcast Center (public radio, public television and public access channel), Publications and Media Relations.

The Faculty Senate is an elected, representative body of faculty that establishes academic policy regarding admission and graduation of students, curricula, and academic standards, and advises and recommends about all matters affecting the academic program of the University.

Panama City Campus

In 1982, the Florida Legislature established a campus of The Florida State University at Panama City. Located 100 miles west of Tallahassee on beautiful North Bay, the Panama City campus provides opportunities for undergraduate and graduate study in nine programs leading to the bachelor's degree and 16 programs leading to the master's degree. To complement the local community college, the Panama City campus offers no courses at the freshman and sophomore levels. Applicants for admission must complete the first two years of college work elsewhere.

The Panama City campus strives to offer a personalized university experience. Classes are relatively small, thereby permitting an individualized approach to instruction and facilitating interaction between students and faculty. About 80 percent of the courses are taught by faculty who teach at both the Panama City campus and the main campus. This ensures a quality of instruction reflecting the standards and values that are predominant on the main campus.

Colleges and Schools

The academic organization of the University comprises 17 colleges and schools. One of these, the College of Engineering, is a joint program of the Florida Agricultural and Mechanical University (FAMU) and The Florida State University. The colleges and schools offer courses of study in 25 major disciplines. In addition to the associate in arts (AA) certificate, they offer 96 authorized baccalaureate degree programs covering 196 fields, 101 authorized master's degree programs covering 192 fields, 30 authorized advanced master's and specialist degree programs covering 35 fields, two authorized professional degree programs covering eight fields, and 73 authorized doctoral degree programs covering 134 fields. The following outlines the academic divisions:

College of Arts and Sciences

Departments: Aerospace Studies; Anthropology; Biological Science; Chemistry and Biochemistry; Classical Languages, Literature, and Civilization; Computer Science; English; Geological Sciences, History; Mathematics; Meteorology; Military Science; Modern Languages and Linguistics; Oceanography; Philosophy; Physics; Psychology; Religion; Statistics.

Interdisciplinary Programs: American and Florida Studies; Asian Studies; British Studies; Chemical Physics; Classics and Religion;

Cognitive Science; Critical Theory; English and Business; Foreign Language and Business; Geophysical Fluid Dynamics; Humanities; Italian Studies; Latin American and Caribbean Studies; Molecular Biophysics; Neuroscience; Program in Chemical Physics; Psychobiology; Neuroscience Research; Russian and East European Studies; Secondary Science and/or Mathematics Teaching; Women's Studies.

College of Business

Departments: Accounting; Finance; Dedman School of Hospitality; Management; Management Information Systems; Marketing; Risk Management/Insurance and Real Estate.

Interdisciplinary Programs: Business Administration and Law; Multinational Business.

College of Communication

Departments: Communication; Communication Disorders.

School of Criminology and Criminal Justice

College of Education

Departments: Educational Leadership and Policy Studies; Educational Psychology and Learning Systems; Elementary and Early Childhood Education; Middle and Secondary Education; Sports Management, Recreation Administration and Physical Education; Special Education.

FAMU—FSU College of Engineering

Departments: Chemical Engineering; Civil and Environmental Engineering; Electrical and Computer Engineering; Industrial Engineering; Mechanical Engineering.

College of Human Sciences

Departments: Family and Child Sciences; Nutrition, Food, and Exercise Sciences; Textiles and Consumer Sciences.

Interdivisional Programs: Marriage and Family; Independent Living for Persons with Disabilities.

School of Information Studies

College of Law

Interdisciplinary Programs: Law and Business Administration; Law and Economics; Law and International Affairs; Law and Public Administration; Law and Urban and Regional Planning.

College of Medicine

School of Motion Picture, Television, and Recording Arts

School of Music

Interdisciplinary Program: Music Research.

School of Nursing

College of Social Sciences

School: Reubin O'D. Askew School of Public Administration and Policy.

Departments: Economics; Geography; Political Science; Sociology; Urban and Regional Planning.

Interdisciplinary Programs: Asian Studies; African American Studies; Health Services Administration and Policy; International Affairs; Pepper Institute on Aging and Public Policy; Marriage and Family; Economic Policy and Government; Study of Population; Russian and East European Studies; Program in Social Science; Urban and Regional Planning and Public Administration.

School of Social Work

School of Theatre

School of Visual Arts and Dance

Departments: Art; Art Education; Art History; Dance; Interior Design.

Interdisciplinary Program: Arts Administration.

Institutes and Research Centers

The work of the colleges and schools is facilitated by institutes and centers in which faculty and students from throughout the University work as interdisciplinary teams on research and service projects. The centers and institutes are heavily supported by external funds. They serve as actual and potential sites for cooperative projects staffed by faculty and students, and personnel from business and industry, and are significantly involved in supporting state agencies through research, development, and training.

The following are the Florida Board of Education's approved institutes and research centers:

Professional Development and Public Service

Center for Intensive English Studies
Center for Professional Development and Public Service

Learning Systems

Center for Academic Services and Distance Learning
Center for Performance Technology
Learning Systems Institute

Science and Public Affairs

Beaches and Shores Resource Center
Center for the Advancement of Human Rights
Center for Biomedical and Toxicological Research and Hazardous Waste Management
Center for Economic Forecasting and Analysis
Center for Prevention and Early Intervention Policy
Center for Tobacco Education
Czech/American Joint Center for Environmental Research
Family Services Center (also under College of Human Sciences)
Florida Center for Public Management
Florida Growth Management Conflict Resolution Consortium
Florida Institute of Government
Florida Resources and Environmental Analysis Center
Florida State Climate Center
Hungarian-American Joint Center for Environmental Research
Institute for Health and Human Services Research (also under School of Social Work)
Institute for International Cooperative Environmental Research
Institute for Law and Society
Institute of Science and Public Affairs
Polish/American Joint Center for Environmental Research
Russian/American Joint Center for Environmental Research

International Programs

Florida–Costa Rica Linkage Institute (FLORICA)
Florida–France Linkage Institute
Middle East Studies Center

College of Arts and Sciences

Antarctic Marine Geology Research Facility
Center for Materials Research and Technology
Center for Ocean–Atmospheric Prediction Studies
Center for the Study of Values
Cooperative Institute for Tropical Meteorology
FSU Sensory Research Institute
Geophysical Fluid Dynamics Institute
Institute for Cognitive Sciences
Institute for Fishery Resources Ecology
Institute for Future Resources
Institute of Molecular Biophysics
Institute on Napoleon and the French Revolution
Institute on World War II and the Human Experience
Nuclear Services
Polar Desert Research Center

Research Center on Sea Level Changes
Southeast Archaeological Center
Statistical Consulting Center
Terrestrial Waters Institute

College of Business

Carl DeSantis Center for Executive Management Education
Center for the Advancement of Procurement
Center for Banking and Financial Institutions
Center for Information Systems Research
Center for Insurance Research
Center for Personnel and Human Resource Management
Institute for Business Research and Service
International Center for Hospitality Research and Development
Jim Moran Institute for Global Entrepreneurship
Marketing Transportation
Real Estate Research Center
Small Business Institute

College of Communication

Communication Research Center
International Center for the Advancement of Political Communication and Argumentation
L.L. Schendel Speech and Hearing Clinic

College of Education

Center for Educational Research and Policy Studies
Center for the Study of Technology in Counseling and Career Development
Center for the Study of Values in College Student Development
Comprehensive School Health Program Training Center
Melvene Draheim Hardee Center for Women in Higher Education

College of Human Sciences

Center for Family Services (also under Institute of Science and Public Affairs)
FSU Family Institute
Marriage and Family Therapy Center (also under School of Social Work)
Resource Materials Center

School of Information Studies

Information Use Management and Policy Institute

College of Law

Dispute Resolution Center

College of Medicine

School of Motion Picture, Television and Recording Arts

Institute of Motion Picture, Television and Recording Arts

School of Music

Center for Music of the Americas
Center for Music Research

College of Social Sciences

Center for African-American Culture
Center for the Study of Population
Claude Pepper Center
DeVoe L. Moore and Family Center for the Study of Critical Issues in Economic Policy and Government
Florida Public Affairs Center
The Gus A. Stavros Center for the Advancement of Free Enterprise and Economic Education
The LeRoy Collins Center for Public Policy
Middle East Studies Center
Pepper Institute on Aging and Public Policy

School of Social Work

Center for Social Work Research and Practice
Institute for Family Violence Studies
Institute for Health and Human Services Research (also under Institute of Science and Public Affairs)
Marriage and Family Therapy Center (also under College of Human Sciences)
Traumatology Institute
Trinity Institute for the Addictions

School of Visual Arts and Dance

Institute for Contemporary Art

Research

Center for Instructional Development and Services
Institute for Academic Leadership
School of Computational Science and Information Technology

Other Instructional Units

Reserve Officers Training Corps

The University includes among its offerings both an Air Force and an Army Reserve Officers Training Corps (ROTC) program; students of The Florida State University may apply for admission to the Navy ROTC Program offered through Florida Agricultural and Mechanical University. Interested male or female freshmen and sophomores are encouraged to enroll in one of the basic curricula for four courses. The graduate who completes the Professional Officer Course is awarded a commission as an Ensign in the Navy or a Second Lieutenant in the Marine Corps. The Air Force ROTC program is offered to students at FSU, FAMU, and TCC. The classes are listed in this *General Bulletin* under "Aerospace Studies." For additional information, visit our website at <http://www.fsu.edu/~rotc>, call (850) 644-3461 or stop by 211 Harpe-Johnson Hall. The Army ROTC Program is offered to FSU and TCC students. The classes are listed in this *General Bulletin* under "Mili-

tary Science." For additional information, visit our website at <http://www.fsu.edu/~armyrotc/> or visit in person at 201 Harpe-Johnson Hall.

Naval Science

The Naval Reserve Officers Training Corps (NROTC) program at Florida Agricultural and Mechanical University (FAMU) is open to both men and women of The Florida State University through the FAMU—FSU Cooperative Program. The NROTC Program at FAMU is administered by the NROTC staff. This program affords the opportunity for selected men and women to receive instruction in naval science courses, which, in conjunction with a baccalaureate degree, will qualify them for a commission in the United States Navy or the United States Marine Corps. Students enrolled in the University who are physically qualified, and who are United States citizens, are eligible to apply for the NROTC program.

The FAMU NROTC Unit offers five programs: 1) the Navy–Marine Corps College Program (non-scholarship); 2) the four-year Navy–Marine Corps Scholarship Program; 3) the two-year NROTC College Program; 4) the two-year Scholarship Program; and 5) the Tweedale Scholarship Program. Navy-Marine Corps College Program students are eligible to compete for available Chief of Naval Education and Training (CNET) scholarships anytime after one semester of participation in the program. Selection is based on academic achievement and military aptitude. Scholarships include full tuition, lab fees, and a textbook allowance of \$250.00 per semester. Additionally, a stipend of \$250.00 (freshmen and sophomores), \$300.00 (juniors), or \$350.00 (seniors) is paid per month to help defray the cost of living expenses. Navy-Marine Corps College Program students, when selected for advanced standing in their junior or senior year, receive a \$300.00 or \$350.00 per month stipend, respectively.

The **Tweedale NROTC Scholarship Program** was established to provide NROTC scholarships to outstanding technical major college students with no prior affiliation with the NROTC program. To qualify for a Tweedale Scholarship, students must have completed at least one, but not more than four academic terms of college course work with a cumulative GPA that places the student above the peer mean (like major), or 3.00, whichever is higher. The student's transcript must reflect a grade of "C" or better in all course work attempted. The transcript must also show that the student has completed an academic term of college level math or science and has the ability to complete successfully all of the NROTC academic requirements.

The NROTC Unit is located in the Perry-Paige Building on the FAMU campus. For additional information, visit our website at http://www.famu.edu/acad/colleges/cesta/navy_rotc.

Written requests for information should be addressed to: *Recruiting Officer, NROTC Unit, Florida Agricultural and Mechanical Univer-*

sity, P.O. Box 6508, Tallahassee, FL 32314-6508; or call either (850) 599-8412 or 599-3980; or email navyrotc@famu.edu.

FSU—Panama

Director: Jeremy Brown

The Florida State University International Programs Division administers a permanent campus of approximately 400 full-time students in the Republic of Panama. Offering a full program of courses at the lower-division level and selected majors, FSU-Panama offers the associate and the bachelor's degrees. The campus serves US citizens and residents in Panama, Panamanian citizens, and visiting scholars from throughout the world. Courses are taught by regular and adjunct faculty as well as rotating faculty from the Tallahassee campus; students from the Tallahassee campus also study at FSU-Panama, taking advantage of the resources of Panama and the ease of receiving full academic credit from the University.

Special programs, such as the FSU International Programs and the Institute for Tropical Medicine and Health Sciences, attract scholars and researchers worldwide. Internships are arranged for Tallahassee students majoring in fields ranging from biology to international business. A full range of facilities is offered at the FSU-Panama campus, including housing, an athletic complex, a library and computer classrooms. The campus is located at the Pacific entrance to the Panama Canal and a few miles from the center of Panama City, the nation's capital.

FSU-Panama also offers additional courses and cultural activities of special interest to US students who seek a one-semester term of overseas studies. For further information, please consult the campus' website, <http://www.fsu.edu/panama>, or our office at A5528 University Center; we also may be reached via phone at (850) 644-3505 or 644-7822.

Center for Professional Development and Public Service

Director: William H. Lindner

The Center for Professional Development (CPD) provides continuing education and other outreach activities locally, statewide, nationally, and internationally on behalf of The Florida State University. Activities include academic programs, professional programs, technical training and e-media services for lifelong learners. These activities can be delivered face to face or via distance technologies. All of the center's programs and activities support its mission to extend the resources of the University to promote lifelong learning.

The center is housed in the Turnbull Building, which is located on the southeast edge of the campus and just six blocks from downtown. The Turnbull Building offers an auditorium, meeting rooms, and a dining room to facilitate

meetings, workshops, and symposia for The Florida State University community. This facility provides state-of-the-art audiovisual equipment, access to teleconferencing, and experienced continuing education staff. Continuing education coordinators assist with program development, budgeting, marketing, logistics, technical assistance, and on-site management.

Components of the Center

Academic Programs. In conjunction with the University's academic departments, CPD coordinates degree and certificate programs for non-traditional, part-time students—adults who cannot set aside job and family responsibilities but desire to further their undergraduate or graduate studies. These programs provide lunchtime, evening, and weekend classes that lead to degree completion at a pace that is comfortable to the part-time student. Programs can be found throughout Florida, from Pensacola to Miami. A number of programs are delivered via distance technologies. In addition, credit classes and degree programs can be made available in the workplace.

The center administers **Returning Student Services** to assist non-traditional students. Services range from advising and registration to information about childcare and financial aid. The center sponsors several scholarships for returning students, which provide tuition scholarships to selected candidates. CPD also manages the State of Florida, Division of Colleges and Universities' Independent Study by Correspondence Program on behalf of The Florida State University.

Professional Programs. CPD develops, promotes, and administers a wide range of noncredit programs and certifications via both traditional classroom settings and distance technologies. Lifelong learners can remain current in their fields and can maintain licensing and Continuing Education Unit (CEU) requirements by accessing CPD's instructor-led and online course offerings. (One CEU is defined as ten [10] contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction. The Office of the University Registrar records and maintains CEUs on a permanent, confidential transcript that can be issued at the request of the participant.) The center provides synchronous and asynchronous online learning opportunities that make it possible for adult learners to study and learn in the comfort of their homes or offices.

Within the professional programs unit, CPD has two categories of offerings — career skills development and personal enrichment. Examples of career skills development are the following: Certified Financial Planner Online (in conjunction with the College of Business); Mental Health and Substance Abuse Training Center Online (offered through the School of Social Work); and Continuing Legal Education Online (in partnership with the Florida Bar and the College of Law). Personal enrichment classes include health and fitness, Spanish, and stress management.

Technical Training. CPD's technical training unit offers the latest in industry certified training programs that can be customized to individual learner or employer needs. Current technical training course offerings include Oracle, FSU certified webmaster, Linux, MCSE, and A+ certification. Classes are offered at the Turnbull Center, at the FSU Development Research School (Florida High) in Tallahassee, in Panama City and in Melbourne, Florida. CPD also delivers technical training at a client's workplace or site.

E-media Services. The e-media services unit of the Center for Professional Development works with clients within and outside the University to develop and disseminate comprehensive and customized educational programs. Their web-based media services include the following: information and database designs; user interfaces for online professional development and credit programs; and online registration, payment, and course evaluation tracking systems.

The Center for Intensive English Studies (CIES). CIES provides intensive instruction in the English language to non-English speakers. Its primary target audience is international scholars who are preparing to pursue degree work in American colleges and universities. CIES also provides English-as-a-second-language services for the spouses of regular students at The Florida State University as well as for some already admitted international students who are experiencing difficulty in mastering the English language. Enrollment is full-time (24 hours weekly). Interested parties should contact the *Center for Intensive English Studies, 918 West Park Avenue, The Florida State University, Tallahassee, FL 32306-4170.* Phone: (850) 644-4797. E-mail: cies@mailers.fsu.edu.

Anyone interested in obtaining further information regarding the Center for Professional Development's services or programs should contact the *Center for Professional Development, The Florida State University, Tallahassee, FL 32306-1640.* The center's website can be accessed at <http://learningforlife.fsu.edu>. Phone: (850) 644-3801.

The Florida Center for Public Management

Interim Director: James R. Anderson, Jr.

The Florida Center for Public Management (FCPM) was established in 1978 to provide assistance to elected leaders and public managers in state and local governments in Florida. Its staff of full-time, experienced management consultants is available to help these officials improve their operations through a variety of services, including executive development seminars, organizational improvement diagnoses, survey research and feedback, integrated information systems planning, leadership and staff team-building workshops, and various problem-solving techniques. As such, FCPM complements the academic instruction of the

University's School of Public Administration and Policy, the departments of Management, Communication, and Educational Leadership, and related disciplines.

To obtain further information about FCPM and its services, write or call: *The Florida Center for Public Management, The Florida State University, HMB 102, Tallahassee, FL 32306-2821. (850) 644-6460.*

Learning Systems Institute

Director: Laura B. Hassler

The Learning Systems Institute is a multi-disciplinary institute dedicated to the improvement of human performance. For over thirty years the Learning Systems Institute (LSI) has been a recognized world leader in applying instructional systems design (ISD) in schools, business, industry, and military settings. Over that thirty-year period, the Learning Systems Institute has brought more than \$130 million in externally funded research to The Florida State University, providing a wealth of opportunities for graduate students to gain first-hand experience with cutting-edge research. LSI faculty and students have worked in over two dozen countries around the world, in addition to leading major research and development in the United States.

There are several areas of research that serve as the current focus for LSI:

1. K-20 education research and development;
2. Needs assessment and planning;
3. Improvement of training and learning through distributed learning and other technologies;
4. Performance technology;
5. International development through improved learning systems; and
6. Change management.

To obtain further information about LSI, contact *Learning Systems Institute, 4600 UCC, Tallahassee, FL 32306-2540. (850) 644-2570.* The institute's website may be accessed at <http://lsi.fsu.edu>.

Office for Distributed and Distance Learning

Acting Director: R. C. Lacher
Associate Director: Sandy Calhoun

Main Office: (850) 644-8004

The Office for Distributed and Distance Learning (ODDL) supports online teaching and learning for the Florida State University community, and assists faculty in their pursuit of instructional excellence. ODDL supports on-campus students in enhancing learning through the following methods: course websites; assisting distance students in completing courses and

degree programs via technology; and aiding faculty in advancing the design, delivery, and assessment of classroom and web-based instruction. See <http://online.fsu.edu> for detailed and current information.

Student Support

On-campus students. If you are an on-campus student who needs support in using the University's electronic campus or a course website, instruction and solutions are available online at <http://online.fsu.edu/student/> or via e-mail at problems@campus.fsu.edu.

ODDL provides on-campus students:

- Online instruction in navigating course websites
- Contacts for technical support
- Schedules of web-supported courses

Students learning at a distance. If you have an associate's degree or higher, you can use a computer and the Internet to earn a bachelor's degree in Computer Science, Information Studies, Interdisciplinary Social Science, or Nursing. As a distance-learning student, you will receive individualized attention through course mentors who will guide you through course work and monitor your progress. For more information, contact Kimberly Amos-Tata at kamostata@oddl.fsu.edu.

ODDL provides students learning at a distance:

- Online guidance from application to graduation
- Online orientation
- Online instruction in navigating course websites
- Schedules of online courses

Faculty Support

Electronic campus support. Faculty integrating a course website into an on-campus class or teaching an online course may receive comprehensive support from ODDL in developing, delivering, and managing an online environment. The University has developed one of the most advanced and easy-to-use electronic campuses in the country. For more information, contact the following: Mike Barker, mbarker@oddl.fsu.edu; John Braswell, jbraswell@oddl.fsu.edu; or Gerardo Garcia, ggarcia@oddl.fsu.edu.

Online teaching workshops for faculty:

- Developing and managing course websites
- Teaching via the Web
- Customized workshops for departments

Online teaching services for faculty:

- Planning, designing, and managing course websites and enhancing face-to-face courses with web support

- Creation and conversion of fully online courses
- Developing Forms 2s and online tutorials on delivering course websites
- Ongoing problem solving and support
- Applications development (e.g., SUSSAI, automated Blackboard enrollment debugger)

Online teaching and learning resources:

- Technical support at <http://online.fsu.edu/onlinesupport/>
- Learning resources at <http://online.fsu.edu/learningresources/>

Instructional support services. Faculty can further their planning, teaching, and technology skills through workshops and individual consultation offered by Instructional Development Services (IDS.) IDS also assists graduate teaching assistants in improving their academic leadership and teaching skills. For more information, contact the following: Walt Wager, wwager@oddl.fsu.edu; Bonnie Armstrong, barmstrong@oddl.fsu.edu; or Michelle Chandrasekhar, mchandrasekhar@oddl.fsu.edu.

Instructional services programs:

- Faculty Support: Consults with full-time faculty and offers classroom observation to enhance instruction and integrate technology.
- Program for Instructional Excellence (PIE): Assists graduate teaching assistants in academic leadership and teaching skills.
- Preparing Future Faculty (PFF): Prepares graduate students who anticipate careers in academe through mentoring opportunities with educators and administrators.

Instructional services resources:

- Instructional services and contacts at <http://online.fsu.edu/instructor/teachingenhancement>
- Reference materials on college teaching, higher education, and use of technology in the classroom
- Camcorders available for instructional analysis

Digital media production. Faculty who are enhancing online teaching and learning through multimedia are supported by the Digital Media Production Group (DMPG), with services ranging from producing online course components to promoting student recruitment and image awareness for distance degree programs. For more information, contact the following: Joanna Southerland, jsoutherland@oddl.fsu.edu; or Dave Simpson, davesimpson@oddl.fsu.edu.

Digital media services include:

- Website design and webcasting
- Digital audio and video production and streaming

- Graphic design, animation, digital imaging and photography, and design and layout of print media
- Developing interactive CD-ROMs

Digital media resources:

- Online request form at <http://online.fsu.edu/digitalmedia/>
- Searchable image database

External relations and development. Faculty interested in finding external funding for instructional technologies projects are assisted by the External Relations and Development staff. The staff also seeks strategic partnerships with community colleges and other educational institutions. For more information, contact Carol Hayes at chayes@oddl.fsu.edu.

Testing and evaluation services. Faculty may receive support for assessment needs through Evaluation Services. From administering to scoring tests, the service can streamline and secure the testing process. For more information, contact Ray Frost at rfrost@oddl.fsu.edu.

Services include:

- Mark-sense scanning and test scoring and analysis
- Administering University and department faculty evaluation instruments (SUSSAI, e-SUSSAI, SIRS), and administering national and state testing programs for FSU and the outlying community
- Technical support for data collection and analysis in faculty and student research

Institute for Cognitive Sciences

Acting Director: Dr. L. J. Kohout

The institute was founded in 1984 for the encouragement of interdisciplinary research, communication, and graduate study in the cognitive sciences. Its members include faculty and graduate students from the fields of computer science, psychology, philosophy, linguistics, education, business, and physics. Research has involved computer modeling of memory and problem solving, artificial and computational intelligence, knowledge-based computer systems, fuzzy logic and soft computing (e.g. genetic algorithms and neural networks), computer diagnosis of novice difficulties in problem solving, similarities and differences between human and lower-animal cognition, cultural aspects of cognition and language, linguistics and cognition, formal and natural languages, philosophy of knowledge and cognition, philosophy of artificial intelligence, study of the brain, robotics, education, and vision. Recently, research into cognitive aspects of the management of technology and of the perception of its affordability/cost has been included. A certificate is offered for graduate study in cognitive sciences.

L.L. Schendel Speech and Hearing Clinic

Director: Juliann Woods, Ph.D.

The dual mission of the speech and hearing clinic is to provide effective community service to improve the communication abilities of clients, and to provide a teaching and clinical research laboratory to develop exemplary assessment and treatment procedures for use by The Florida State University students in speech language pathology and audiology. Specific services include:

- Comprehensive Speech-Language Assessment and Therapy
- Hearing Assessment and Services Related to Hearing Impairment
- Assistive Communication Lab
- Dialect/Accent Evaluation and Reduction

Services are provided by graduate students under the direct supervision of faculty members. All professional staff members are licensed by the Florida Board of Speech Language Pathology and Audiology and certified by the American Speech Language Hearing Association.

Fees vary according to the nature of services. Students, faculty, and staff receive a reduced rate. Further information is available by writing or calling: *L.L. Schendel Speech and Hearing Clinic, 107 Regional Rehabilitation Center, The Florida State University, Tallahassee, FL 32306-1200; (850) 644-2238 (Voice and TDD), Fax (850)644-8994*

Libraries

The Florida State University libraries are the intellectual center of the University, providing students, faculty, and staff with resources and services to facilitate learning, teaching, and research. The Florida State University libraries include the Robert Manning Strozier Library (the main library), the Paul A.M. Dirac Science Library, the Mildred and Claude Pepper Library, the Harold Goldstein Library Science Library, the Warren D. Allen Music Library, the Law Library, and the Medical School Library. Library materials and services also are available at The Florida State University's off-campus sites, including the Ringling Museum of Art, the Panama City campus, and the study centers in London, Florence, and the Republic of Panama.

The libraries support the University's educational and research missions through extensive collections and a wide range of services available to the campus community and to distance learners. The libraries' resources include more than 2,441,000 books and periodicals, over 962,000 government documents, more than 8,000 films, videos, and DVDs, and over 6,758,000 microforms. Access to over 350 sub-

scription databases, 17,000 e-books, and more than 10,000 electronic journals covering a wide variety of subjects is available from offices, dormitories, and other remote locations, as well as in the libraries. The online catalog, available on the library's website, provides access not only to the University's collections, but also to those of the other ten state universities. Worldwide information resources are available readily through the Internet. Access to materials and resources in other libraries is available through interlibrary loan and document delivery.

Members of the library staff assist students, faculty, and staff in making the best use of information resources by providing research guidance and information assistance, offering one-on-one instruction and instructional classes, and developing research guides. Professional research assistance is available in the library, by telephone, and via the Internet.

A state-of-the-art media center provides equipment and facilities for listening to or viewing multimedia materials. The libraries provide Internet-accessible computers, printers, and photocopiers for convenient use. Additional computers for research and word-processing are available in a student computer center located in Strozier Library. Adaptive equipment and software for students with disabilities also are available.

The library is a member of the Association for Research Libraries (ARL), the Center for Research Libraries (CRL), the Research Libraries Group (RLG), and the Association of Southeastern Research Libraries (ASERL).

The **Robert Manning Strozier Library**, the University's main library, is located strategically in the center of the main campus and occupies seven floors. Its collection supports research in the humanities and social sciences. The library serves as a regional depository for federal and Florida government documents. Its Special Collections Department houses rare and unique materials for research and study. The library's website is located at <http://www.fsu.edu/~library>.

The **Paul A. M. Dirac Science Library**, located in the heart of the Science Center complex, consolidates the library's scientific and technical books and periodicals in one central location. The library's website is located at <http://www.fsu.edu/~library/brdept/dirac.html>.

The **Mildred and Claude Pepper Library** contains the personal and professional papers and mementos of one of Florida's best-known political couples. Reconstructions of United States Representative Pepper's Senate and House offices are in the building. Log on at <http://pepper.cpb.fsu.edu/library/default.htm> for more information.

The **Warren D. Allen Music Library**, located in the School of Music, contains a collection of recordings and scores, in addition to books and periodicals. Facilities also include listen-

ing and viewing booths. The library's website is located at <http://otto.cmr.fsu.edu/~library/home.html>.

The **Harold Goldstein Library Science Library**, located in the School of Information Studies, contains a collection of professional library science materials and reference materials, as well as juvenile materials and picture books. Visit <http://goldstein.lis.fsu.edu> for more information.

The **Law Library**, operated by the College of Law, has a collection containing over 435,000 volumes and volume equivalents, with more than 152,000 cataloged titles; continuing subscriptions number approximately 5,000. Legal research is complemented by an array of electronic databases, including the LEXIS and WESTLAW legal research databases. Log on at <http://www.law.fsu.edu/library> for more information.

The **Medical School Library**, located in the College of Medicine, provides access to a number of electronic medical databases and a growing collection of books and journals. Visit <http://www.med.fsu.edu/library/> for more information.

Undergraduate Education

The Florida State University provides for undergraduate students a strong liberal arts-based baccalaureate experience. The University is a concentrated resource of classroom-directed learning, research facilities and intellectual talent that seeks to develop within each student the ability to view problems from many different perspectives and to find creative and humane solutions. Through the Liberal Studies Program, required of all undergraduates, students are introduced to the broad array of disciplines at the University. The freshman and sophomore years enable students to explore the breadth of the curriculum and to find the de-

gree program most appropriate to their interests and abilities. The Florida State University strives to teach students to think logically, to analyze clearly, and to communicate with precision and power.

Graduate Education (see *Graduate Bulletin* for details)

Emphasis at The Florida State University is placed upon advanced degree programs entailing extensive research activities and preparation for careers in science, the arts, the humanities, the professions, and technological fields. The University's diverse curriculum leads to graduate degrees with flexible options that allow students to form the program most suited to their academic and career goals. Talented faculty ensure a steady exchange of ideas, information, and technical skills. Research and teaching assistantships are available to allow graduate students the opportunity to work with these leaders in their fields while furthering their education. The exceptional research facilities available, together with the Robert Manning Strozier Library, its four branch libraries including the Paul A.M. Dirac Science Center Library, and the Law Library, keep the University on the leading edge of graduate education.

Faculties

It is the official policy of The Florida State University to recruit the most talented faculty from leading centers of learning throughout the world. The University faculty has included five Nobel laureates and ten members of the National Academy of Sciences. Many of its members have received national and international recognition, and the University enjoys national ranking in a number of disciplines. The diversity and quality of the educational backgrounds of the faculty are reflected in the institutions

that have granted their graduate degrees. A complete listing appears in the back of this *General Bulletin*.

Affiliations

The University participates in the Traveling Scholar Program (for graduate students), Academic Common Market, and Cooperative Programs within the State of Florida, Division of Colleges and Universities. The Florida State University is a member of the University Research Association; the Oak Ridge Associated Universities, Inc.; The University Corporation for Atmospheric Research; The Southeastern Universities Research Association; EDUCOM; The Interuniversity Communications Council; the American Association for Laboratory Animal Science; the State University System's Institute for Oceanography; the University Space Research Association; and CAUSE: The Association for the Management of Information Technology in Higher Education.

Accreditation

The Florida State University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (*1866 Southern Lane, Decatur, Georgia 30033-4097*; Telephone number *404-679-4501*) to award associate, bachelor's, master's, and doctor's degrees. For departmental/field accreditations, refer to the respective college or school's chapter in this *General Bulletin*.

Carnegie Foundation Classification

The Carnegie Foundation, in its 1994 report, ranked The Florida State University in the Research Universities I category, its highest category for a graduate-research university. The Florida State University is one of eighty-eight American universities to earn this designation.

RESEARCH FACILITIES AND SPECIAL PROGRAMS

Research and Research Facilities

Since its designation as a university in 1947, The Florida State University has built a reputation as a strong center for research in the sciences, the humanities, and in the arts. In fiscal year 2000, faculty at The Florida State University secured its highest level of external funding in the University's history: \$130.2 million. These external funds, derived through contracts and grants from various private foundations, industries, and government agencies, are used to provide stipends for graduate students, to improve research facilities, and to support the research itself.

Many members of The Florida State University faculty are renowned scholars in their fields. In the natural sciences, The Florida State University is perhaps best known for its basic research programs in physics, nuclear science, chemistry and biochemistry, biology, psychology, meteorology, and oceanography. Its programs in geology, mathematics, computer science, and statistics also have strong research components, both basic and applied. The University also has a joint program in engineering with Florida Agricultural and Mechanical University (FAMU) in Tallahassee.

In the humanities, the University is a nationally recognized center of excellence in graduate training. A number of humanities faculty members have distinguished themselves through service as heads of national academic organizations in philosophy, English, history, and religion. In recent years, several of these departments have won national acclaim and today are considered among the best in the South.

The arts at The Florida State University have been an important and integral part of the University's mission since its early development as a premier liberal arts institution in the early 1900s. The schools of Music, Theatre, Visual Arts and Dance, and Motion Picture, Television, and Recording Arts contribute to this mission in several ways. They provide leadership for the cultural development of the state, and they provide state and national service to their professions through research programs, creative activities, and various continuing educational services. The arts schools also contribute a wide spectrum of public service and outreach activities by offering extensive performances and exhibits both on campus and throughout the state, and by bringing leading arts professionals to Florida through special festivals and national and international meetings of professional organizations.

The arts disciplines at The Florida State University are among the most comprehensive of any university in the nation. They provide extensive and varied academic offerings, both for general University students and for students who wish to pursue professional careers in the arts, whether as creative artists, performers, scholars, or educators.

Researchers in many disciplines take advantage of the University's location in Florida's capital city. Graduate students in such diverse fields as urban and regional planning, criminology, social work, business, governmental affairs, population studies, public administration, and law have ready access to state government information and to many internships offered within state agencies.

Computing and information technology are widely used at The Florida State University for both research and instruction. A high speed computer network reaches throughout the campus and connects the University to the Internet. **Academic Computing and Network Services (ACNS)** provides free accounts for computer and Internet access to all students, faculty, and staff. ACNS also operates general purpose computing servers and supercomputers that are available to the entire campus, and provides open-access computer laboratories for students.

Special Programs

A number of The Florida State University's special programs have won national or international distinction in research. These include the following:

The National High Magnetic Field Laboratory, which opened in 1994, is one of the nation's newest research laboratories and the only user facility of its kind in the Western Hemisphere. The laboratory develops and provides a variety of research magnets at the highest fields available in the world. The laboratory plays a major role in the international race to enhance scientific disciplines as diverse as biology, chemistry, engineering, geochemistry, materials science, medicine, and physics.

This unique facility, home to Nobel Laureate Robert Schrieffer, supports an extensive in-house research program that advances its scientific and technical capabilities. The in-house research program is built around leading scientists and engineers who concentrate on the study of strongly correlated electron systems, molecular conductors, magnetic materials, magnetic resonance, cryogenics, and new approaches to measuring materials properties in high magnetic fields. Research at the laboratory is opening new frontiers of science at high

magnetic fields, which have enormous potential for commercial and industrial applications. The laboratory also has one of the world's foremost magnet and science technology groups, which designs and builds this new generation of magnets. In 1999, the lab brought on line a new 45-Tesla hybrid magnet, the most powerful magnet of its kind in the world. The National High Magnetic Field Laboratory has many exciting research opportunities for graduate students who wish to pursue research at the edge of parameter space in any area of science utilizing these world-class resources and instrumentations.

The Florida State University has established an interdisciplinary **School of Computational Science and Information Technology (CSIT)** to support graduate education and research, to provide a leading-edge high-performance computational facility, and to contribute to a high level of computational culture beneficial to the nation and the state.

CSIT embraces all of the possible inferences drawn from its name: its scope includes the science and technology of performing, analyzing, and archiving large-scale computations over wide-area networks, and its goal is to employ large-scale computer and network resources in pursuit of scientific and technological research goals. Both the tools and content of computational science are embraced by the educational mission of the school.

The Computational and Information Science Laboratory (CISL) provides the infrastructure for the interdisciplinary research and education programs. Through the acquisition and maintenance of the state-of-the-art computing, visualization, and high-bandwidth network connections to other major national centers, the laboratory provides support for The Florida State University's existing and future user-base of large-scale high-performance computing. A user services staff proactively inculcates a high-performance computing culture through consulting services and short courses.

The Center for Materials Research and Technology (MARTECH) is a collaborative program in materials science involving members of the University's physics, chemistry, biology and engineering departments. The center's rapidly expanding facilities include several thin-film preparation labs, a light-scattering facility, a fast Fourier Transform Far Infrared spectrometer laboratory, facilities for fabricating nanostructure materials, including a clean room, extensive surface analysis equipment including XPS, helium-scattering and scanning probe microscopy and equipment for the study of electrical transport and magnetic as well as superconducting properties of complex materials.

The **Program in Nuclear Research** is highly ranked nationally, with emphasis on nuclear structure physics; radioactive beam studies; studies of nuclear reaction mechanisms using polarized Li beams; accelerator based atomic physics; electron scattering; and relativistic heavy ion reactions. A large part of the program in experimental nuclear physics and atomic physics uses The Florida State University's Superconducting Linear Accelerator Facility, which ran its first experiment in 1987. The facility consists of a Super-FN tandem Van de Graaff electrostatic accelerator which injects into a heavy-ion superconducting linear accelerator. This facility, with state of the art instrumentation, provides forefront nuclear research capability and is unique in the southeast.

The **Institute for Molecular Biophysics** is recognized as a national leader in basic, interdisciplinary research in biochemistry and physical chemistry. A large effort based in the IMB is its Program in Structural Biology, begun in 1990. The primary research focus of this group is the elucidation of the three-dimensional structures, functional properties, and assemblages of biological macromolecules using biophysical techniques (e.g. X-ray crystallography, cryoelectron microscopy, electron diffraction, computational modeling, EPR and NMR spectroscopy).

The **Florida State University Marine Laboratory** is located 45 miles south of Tallahassee on Apalachee Bay. This research facility gives scientists from all over the nation immediate access to the pollution-free marine environment of the north Florida coast. Facilities include a fleet of research vessels, classrooms, saltwater-equipped laboratories, guest housing, and a dive locker. The Academic Diving Program, which is part of the laboratory, provides support for and oversight of all scientific and educational compressed-gas diving conducted under the auspices of The Florida State University.

The **Cooperative Institute for Tropical Meteorology** was created in 1993 through a partnership between The Florida State University and the National Oceanic and Atmospheric Administration (NOAA), the parent agency of the National Weather Service. The Institute brings together faculty at The Florida State University with research and operational meteorologists at forecast offices throughout the southeastern United States and Puerto Rico. Faculty also work with scientists at the National Center for Environmental Prediction in Washington, D.C. and the National Hurricane Center in Miami. Taking advantage of one of the historical strengths of the Department of Meteorology, faculty, students, and researchers outside of The Florida State University benefit from the many interactions produced as a result of the Institute.

The **Center for Ocean-Atmospheric Prediction Studies**, headquartered at the University's research park, trains oceanographers and meteorologists in research focusing

on the impact of tropical and mid-latitude ocean dynamics on global weather patterns. COAPS scientists specialize in climate prediction on scales of months to decades, air-sea interaction and modeling, and predictions of socioeconomic consequences of ocean-atmospheric variations.

The **Center for Music Research** is a leading unit in the application of computers to music psychology, to computer-based instruction in music, and to music hardware and software interfaces. Computing facilities at the CMR include a local area network served by a Sun MicroSystems computer, a computer resource center, two laboratories, and several music psychology research facilities. CMR offers a certificate program in Computers in Music consisting of seven courses (16 semester hours).

The **John and Mable Ringling Museum of Art** located in Sarasota, Florida, is the designated State Museum of Florida. Recently the Legislature shifted administration of the museum to The Florida State University in recognition, in part, of the growing trend to maximize the educational value and potential of museums and, in part, to take advantage of the University's commitment to the arts. That potential is especially evident through this new association with the Sarasota community due to mutual strengths in the areas of the fine and performing arts and corollary interests, such as the American circus. The Ringling Museum, the home of an internationally renowned art collection, occupies sixty acres of beautiful bay front property including the museum of art, the historic Asolo Theatre, and the Circus Museum. Together with The Florida State University Performing Arts Center, which lies adjacent to the art museum, it holds center stage for The Florida State University Ringling Center for the Cultural Arts which was created by the Florida Legislature in the year 2000.

The Florida State University **Institute of Science and Public Affairs** is a multifaceted institute of public service and applied research which helps government and private agencies solve problems ranging from hazardous waste disposal to conflict resolution.

Research centers within the institute are designed to respond to public and private sector needs. Specialists in the fields of biology, chemistry, geography, education, planning, public administration, physics, economics, law, and other areas carry out the University's public service responsibility through programs in education, training, and applied research. The overriding objective is to successfully apply resources—human and technical—to policy problems within the state of Florida.

The institute provides university students the opportunity to work on specific projects in institute centers under the supervision of experienced faculty and staff. These projects provide training for students in problem-solving envi-

ronments. Government agencies and private sector organizations benefit from this dynamic source of trained and skilled personnel.

Since 1951, students and faculty of The Florida State University have benefited from its membership in **Oak Ridge Associated Universities (ORAU)**. ORAU is a consortium of eighty-seven colleges and universities and a management and operating contractor for the U.S. Department of Energy (DOE), located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members. Through the Oak Ridge Institute for Science and Education, the DOE facility that ORAU manages, undergraduates, graduates, postgraduates, as well as faculty, enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines, including business, earth sciences, epidemiology, engineering, physics, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the *Resource Guide*, which is available on the World-Wide-Web at <http://www.orau.gov/orise.htm>, or by calling either of the contacts below. ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU's members, private industry, and major federal facilities. Activities include faculty development programs, such as the Junior Faculty Enhancement Awards and the Visiting Industrial Scientist Program, and various services to chief research officers. For more information about ORAU and its programs, contact Dr. Raymond E. Bye, Jr., ORAU Council Member, at 850-644-3347; contact **Monnie E. Champion, ORAU Corporate Secretary**, at 423-576-3306; or the ORAU home page at <http://www.orau.gov>.

A long-time member of the Southeastern Universities Research Association, Florida State University also is a new member of a seven-university consortium, headed by the University of Tennessee, that serves as an advisory group to the new managers of the Oak Ridge National Laboratory (ORNL). The group's mission is to work with ORNL's new not-for-profit management company, UT-Battelle, to set scientific and engineering research priorities for ORNL. The Florida State University joins UT, the University of Virginia, Virginia Tech, Duke University, Georgia Tech and North Carolina State University in this capacity.

INTERNATIONAL PROGRAMS

International Commitment

The Florida State University recognizes that a great university ideally builds and extends its service, its potential for research, and its scholarly standing, and enhances its contribution to the education of students and citizens of the state by providing an international dimension to its educational programs. This is true in the professions, the sciences, the arts, and the humanities.

The University recognizes that in our interdependent world, the welfare of the state and the well-being of its citizens are linked to the welfare of all peoples. Thus, it is urgent that the teaching, research, and service of The Florida State University support the economic and social development of the state, the nation, and other countries; protect the world environment; lead individuals and groups to better understanding of themselves and others; and contribute toward international understanding, world peace, and community self-awareness.

The University, in serving the community, recognizes its major responsibility is to educate students in a manner that provides them with the understanding, skills, and knowledge that will allow them to be creative and useful citizens not only of the state, but of the world. In this process of education, students from other countries who study at our campus and The Florida State University students who have studied overseas play an important role.

To accomplish these goals, The Florida State University encourages and seeks students from abroad for its undergraduate and graduate programs, and professional colleges and schools in such numbers, and with such geographic origins, as to have an impact on the achievement of the University's educational goals. It also seeks to provide opportunities for study abroad for its students and to afford them guidance and assistance in integrating these experiences with regular University study. Finally, the University encourages the development of an international dimension in the teaching, research, and service through the exchange of persons, ideas, and materials with other countries.

The Florida State University seeks to accomplish these objectives through evaluation of existing and proposed international programs and services and by both short- and long-range planning for continued improvement and innovation to further the goals of international education in the University. Consistent with these goals, the University resolves to make available its facilities and resources to offer diversified international educational programs of quality and usefulness for all its students.

The financial support needed for the accomplishment of these goals will be provided by University resources and is actively sought from state, federal, and foreign governments, as well as from international organizations, foundations, private organizations, and individual donors.

Beyond Borders: International Service and Cultural Exchanges

Coordinator: Roberta Christie, International Center

Beyond Borders is a university-to-university exchange program that provides opportunities for students to engage in intensive, short-term intercultural experiences while performing community service. Currently, The Florida State University has exchanges with the University of Costa Rica, Atlantic Branch (Turrialba, Costa Rica) and the University of the West Indies, Mona Campus (Kingston, Jamaica). Participants live with local families or in university facilities and serve as volunteers in projects organized by the host institutions, which also arrange for housing and most meals. Air travel, required health insurance, special trips and some administrative costs are paid by participants. All The Florida State University's students are eligible to apply; groups are limited to 10-12 students. *107 South Wildwood, Tallahassee, FL 32306-4240; (850) 644-1702; rchristi@admin.fsu.edu; http://www.fsu.edu/~fsu-isc/.*

International Programs

Director: James E. Pitts
Associate Director: John B. Brennan

The Florida State University offers a wide variety of opportunities for students to study overseas, both during the regular academic year and in special summer programs. Students learn not only from their exposure to the cultural resources of the host countries but also through their firsthand observations and participation in the political, economic, and social changes taking place outside the United States.

Further assistance in applying for any of these programs may be obtained by writing or calling *International Programs Office, A5500 University Center, Tallahassee FL 32306-2420, (850) 644-3272, (800) 374-8581. Fax (850) 644-8817. Email: intprog@www.fsu.edu. Website: http://www.international.fsu.edu.*

Year-round Programs

Florence/London/Valencia/ Republic of Panama

Director, International Programs: James E. Pitts;
Florence Resident Director: Victor Carrabino;
London Academic Director: Paul R. Elliott;
London Administrative Director: Mary Balthrop;
Valencia Administrative Director: Ignacio Messana;
Panama Director: Jeremy Brown

The University has operated international study centers in Florence, Italy, since 1966, in London, England, since 1971, and in Valencia, Spain, since 2000. The FSU—Panama campus has operated through The Florida State University since 1957. At each of these locations, the Florida State University faculty and approved adjuncts conduct liberal studies as well as specialized courses during each of the Fall, Spring, and Summer semesters. The centers are open to students from all state universities in Florida as well as other U.S. institutions.

All of these year-round centers offer courses which enable students to make normal progress toward their chosen degrees. In Florence, the courses usually offered are in the areas of art history, classics, English writing and literature, history, the humanities, Italian language, and politics. Students also may complete an interdepartmental Italian Studies Florence Center minor. The London center offers courses in the areas of art history; education, English literature, history, music, politics, social sciences, theatre, and select areas which fulfill some general studies area requirements. The School of Theatre also offers a *Theatre Experience* program for majors. The Department of Art History co-sponsors a program in *Museum Studies in London*. There are numerous internships available. Students may also complete an interdepartmental British Studies London Center Minor. In Valencia, courses are offered in English literature; the humanities; music; Spanish language; literature and civilization; and select areas, which fulfill some general studies area requirements. Internships are available for a variety of majors. Courses in Valencia are taught by The Florida State University faculty and approved local adjuncts. Courses in Florence and London are taught by regular faculty and instructors from the State of Florida, Division of Colleges and Universities, and approved local adjuncts. For further information on the British Studies or Italian Studies Minors, refer to the "Academic Departments and Programs" section of this *General Bulletin*. Internships and research opportunities are available.

Summer Programs

San Jose, Costa Rica

This program offers one six-week session during the summer in Costa Rica. Classes are taught by Florida State University faculty supplemented by approved Costa Rican adjunct faculty. Courses generally cover Spanish language, literature and civilization; history of Mexico, Central America and the Caribbean; business; and politics.

Dubrovnik, Croatia

Thirty years ago, The Florida State University established an educational link with the then-Yugoslavia to forge further understanding of a rapidly evolving Southeast Europe. This linkage has changed with the dynamics of the democratic region, and is now an ongoing summer program in the coastal city of Dubrovnik, Croatia. On the program, students will explore the topics of politics, culture, and transition through coursework and excursions in and around the region. Studies will be based at the historic Inter-University Centre.

Prague, Czech Republic

In cooperation with the faculty of Charles University in Prague, The Florida State University offers a summer program that is typically six weeks long. Course offerings vary and cover a broad range of academic areas including comparative criminal justice; comparative politics; history and culture; and elementary language.

Paris, France

This six-week program offers courses that typically include elementary, intermediate and advanced language; contemporary French culture, and civilization; art history and English writing and literature courses. Courses will be taught by Florida State University faculty and approved local adjuncts.

Munich, Germany

A recent addition to our summer offerings, this four-week session takes place within the rich artistic culture of Bavaria's historical capital. Course offerings vary and include courses which fulfill some general studies area requirements. Faculty include both Florida State University professors and approved adjuncts.

Accra/Kumasi, Ghana

In cooperation with the Institute of African Studies at the University of Ghana, Legon, The Florida State University offers an intensive six-week program. Students will have the opportunity to sensitively conduct photography projects within the atmosphere of Africa's urban culture. This workshop will include class work examining the various approaches used to photograph people and culture while exercising knowledge and sensitivity. Students also will be offered a course in West African aesthetics among the Ga and Ashante peoples of Ghana.

Chalkidiki, Greece

Led by Florida State University faculty, studies in this summer program generally includes courses in art history, classics, literature, and humanities. Typically, this program lasts four weeks and, in the past, has included visits to Thessaloniki, Mount Olympus, Petralona, Mount Athos, and Athens. The program also incorporates a study cruise to various areas of classical cultural significance.

Dublin, Ireland

Housed within the prestigious Trinity College, this four-week summer program gives students the opportunity to take courses taught by distinguished Florida State University and University of Dublin faculty. Courses focus on Irish life and culture, humanities, theater, and history. The program typically includes an introductory exploration of the city and its surroundings. Longer course-related field trips are made to Galway, the Aran Islands, and prehistoric New Grange.

Moscow, Russia

This six-week program is based in Moscow with a program enhancement excursion to St. Petersburg. Students are housed in and take classes at Moscow State University. Courses are taught by Florida State University faculty and approved faculty from Moscow State University. No previous knowledge of Russian is required. Language classes are offered for beginning through advanced students. Other courses include Russian literature, culture, and civilization.

Johannesburg, South Africa

Based in Johannesburg, this four-week summer program offers undergraduate students an intimate understanding of some of South Africa's most important contemporary artists and art professionals. The course work integrates formal presentations, informal seminars, studio visits, and lectures provided by visiting art professors and members of the cultural community. The students' experience will be deepened by cultural excursions around the country, including possible ventures through Gauteng and around Cape Town.

Leysin, Switzerland

A summer offering since 1970, this program offers both hospitality administration majors and interested non-majors the opportunity to explore the heartland of Europe's hospitality and tourism industry. The program offers students an ideal educational balance of lectures, seminars, and on-site industry observations. The student's experience will be enhanced by travel to nearby destinations.

Ho Chi Minh City, Vietnam

This six-week summer program gives students the opportunity to take humanities, music, language, and interdisciplinary social science courses in the heart of Southeast

Asia's evolving economy. Students will take weekend and day trips around the country, enhancing their studies and gaining a new perspective of one of the world's least-known and most unspoiled nations.

For further information on any of the Summer programs, contact the *International Programs Office, A5500 University Center, 32306-2420. (850) 644-3272, (800) 374-8581. Fax (850) 644-8817. E-mail: intprog@www.fsu.edu. Website: <http://www.international.fsu.edu>.*

Law Programs

The Florida State University traditionally conducts international law programs in two locations: Oxford, England, and Bridgetown, Barbados. Whether it is in the prestigious academic atmosphere of Oxford University or the young democratic island of Barbados, these programs utilize their unique settings to enhance the study of international and comparative law. The summer programs last from five to six weeks. ABA-approved law courses are taught by a combination of Florida State University College of Law faculty and approved local adjunct professors. The programs are available to students in good standing at an ABA-approved law school who have completed at least one year of study.

Specialized Summer Programs

In addition to specific offerings to students of law, The Florida State University offers a rapidly expanding selection of specialized study programs. These programs are special interest, major-oriented programs. London, England, hosts the majority of these programs, with Valencia, Spain, being the second most popular site. In addition, a number of programs utilize multiple locations around Europe for their studies. A wide variety of special topics and areas of interest are represented. Historically, The Florida State University has offered programs with emphasis in such areas as social work, interior design, international affairs and many more. If you are interested in obtaining specific information about the specialized courses of study available this summer, please contact the International Programs Office, *A5500 University Center, 32306-2420; (850) 644-3272; or consult our website: <http://www.international.fsu.edu>.*

Other Programs

Archaeology Programs in Italy

Director: Nancy T. de Grummond

The Department of Classical Languages, Literature and Civilization conducts archaeological excavations at two Etruscan/Roman sites in Italy — Cetamura del Chianti, near Siena, and San Venanzo, near Orvieto. Each summer the department sponsors field schools of approximately six weeks at these sites. The field schools are open to students from colleges and universities throughout the state of Florida and

constitute a significant part of the master's degree program with a concentration in classical archaeology. For further information, contact the Department of Classical Languages, Literature and Civilization, 205 Dodd Hall.

Florida–Costa Rica Institute

Co-director: Joan W. Cassels

The Florida State University and Valencia Community College co-administer The Florida–Costa Rica Linkage Institute on behalf of the state's higher education systems.

The Florida–Costa Rica Linkage Institute (FLORICA) is one of the three original linkage institutes established by the Florida Legislature in 1986. The International Linkage Institute Program has expanded since that time to include a total of 11 Institutes throughout the state.

The intent of the Florida Legislature is for the Florida–Costa Rica Linkage Institute to offer opportunities at both the university and com-

munity-college levels for education and training; state development; curriculum development; collaborative research; technical assistance; cultural, faculty, and student exchange; intensive Spanish instruction; library materials exchange; computer linkage; and joint commercial ventures. These activities are to be undertaken in conjunction with Costa Rica's four public universities, its Ministry of Education, and the State of Florida's 11 state universities and 28 community colleges.

Florida–France Institute

Co-director: Joan W. Cassels

The Florida State University, the University of South Florida, and Miami-Dade Community College co-administer the Florida–France Linkage Institute on behalf of the state's higher education system.

The Florida–France Institute was established in 1989 and is one of 11 Florida bi-national linkage institutes created by the Florida Legisla-

ture to promote business, educational, cultural, and scientific exchange among Florida and other nations and regions of the world. France is a major trading partner with Florida and has growing business and investment interests in the state. Similarly, Florida seeks new opportunities for business in France, especially with its sister region Languedoc-Roussillon and the French Caribbean.

The intent of the Florida–France Institute is to serve a multitude of interest groups in Florida and France by providing opportunities for education, training, activities related to trade and business promotion, cooperative research, and mutual technical assistance, as well as educational and cultural exchange. Its purpose is to link the resources of the State of Florida's 11 universities and 28 community colleges with those of state governments and business to forge a network of partnerships with French educational, governmental, and private-sector institutions.

ACADEMIC DEGREE AND CERTIFICATE PROGRAMS

The Florida State University offers degree programs through the following colleges and schools. Consult the college or school for currently active programs.

B — Bachelor's Degree M — Master's Degree

ADMISSIONS

Director of Admissions: John Barnhill, Jr.;
Associate Directors: Richard Burnette III,
Janice Finney

General Policies

The Florida State University encourages applications for admission from qualified students regardless of gender, culture, race, religion, ethnic background, national origin, age, or disability. Admission of students to The Florida State University is within the jurisdiction of the University, but subject to the minimum standards adopted by the Florida Board of Education. The admission requirements stated below are minimum requirements. Admission shall be on a selective basis within curricular, spatial, and fiscal limitations, and satisfaction of minimum requirements does not guarantee admission to The Florida State University.

An application for admission may be obtained from the Office of Admissions, The Florida State University; from Florida high schools and community colleges; from all universities in the State of Florida, Division of Colleges and Universities; and at the following website: <http://admissions.fsu.edu/online/>.

An application should not be submitted earlier than one year prior to the term for which admission is desired. The Office of Admissions reserves the right to return all applications received after the published deadline for a particular term or after any enrollment limit or program limit is reached.

The Office of Admissions will mail decisions regarding admission or denial on a rolling basis. Admission is for a **specific** term. If the student is unable to enroll for the term indicated in the letter of admission, the Office of Admissions should be informed immediately. An applicant should not assume that admission is automatically deferred to a future term.

Offers of admission to the University are often contingent upon the subsequent receipt of official college, university, or high school transcripts indicating satisfactory performance, and verification of high school graduation. Failure to submit such documents before the end of the second week of classes of the initial academic term may result in the cancellation of admission.

Undergraduate applicants who are denied admission to the University may appeal the admission decision to the University Admissions Committee if they feel that because of some extenuating circumstance or unrevealed data the admission decision was inequitable. Applicants are requested to appeal in writing to the Admissions Committee through the Director of Admissions.

An application or residency statement submitted by or on behalf of a student that contains false, fraudulent, or incomplete statements may result in denial of admission or denial of further registration and/or invalidation of The Florida State University credit and related degrees.

Every student must complete the student health history form provided by the Office of Admissions when admission is granted. The form must be forwarded to the Thagard Student Health Center prior to registration. The Florida State University reserves the right to cancel the admission of any applicant whose health record indicates the existence of a condition which may be harmful to members of the University community.

The Florida Board of Education requires all students entering the state university system born in or after 1957 to provide proof of rubeola and rubella immunization. There are further restrictions regarding the age at which, and year in which, immunization was received; students should contact the Thagard Student Health Center for complete details.

Admission from Secondary School

Any applicant who desires admission as a beginning freshman student after graduating from high school and before attending an accredited post-secondary institution must provide the Office of Admissions with the following:

Application for Admission. The completed application for admission and a nonrefundable \$20 fee payable to The Florida State University should be submitted as soon as possible at the beginning of the senior year, preferably in October, November, or December. Although it is the policy of the University not to defer or waive the application fee, this fee might be waived for applicants who can document that they have received a fee waiver from the American College Testing Program or College Board.

Secondary School Record. An official high school transcript (sent directly by the high school to the Office of Admissions) reflecting work from the beginning of the 9th grade through whatever portion of the 12th grade has been completed at the time of application is required.

College Transcripts. Students who have registered for any course work at a community college, four-year college, or university through dual enrollment or special student status must submit an official transcript from that post-secondary institution.

Test Scores. Results from the ACT or SAT I are required of all applicants for freshman admission. Either one or both of these tests should be taken no later than the February testing date of the senior year. Since the highest combination of scores is always considered, students should feel free to repeat a test.

Auditions. Auditions are required of all applicants wishing to major in music, dance, or the bachelor of fine arts (BFA) degree program in theatre. In addition to submitting the application for admission and other supporting information, prospective students should contact the School of Music, the Department of Dance, or the School of Theatre for details.

Departmental Application. A departmental application is required of all applicants wishing to major in motion picture, television, and recording arts. In addition to submitting the application for admission and other supporting information, prospective students should contact the School of Motion Picture, Television, and Recording Arts for details.

Deadlines for Applications and Supporting Documents for Secondary School Applicants

Spring semester 2003	November 1, 2002
Summer semester 2003	March 3, 2003
Fall semester 2003	March 3, 2003

The University reserves the right to close admissions early if warranted by enrollment limitations and the quantity and quality of applicants.

International students should refer to the "International Student Admission" section of this chapter.

Admission Requirements

Required High School Course Units

Specific high school course units are required for admission to the freshman class. An academic unit is the equivalent of a yearlong course that is not remedial in nature. Upon graduation from high school, applicants must have earned four (4) units of English (at least three [3] with substantial writing requirements); three (3) units of mathematics (algebra I and above); three (3) units of natural science (at least two [2] with laboratory); three (3) units of social science (includes history, civics, political science, economics, sociology, psychology, and geography); two (2) sequential units of the same foreign language;

and four (4) elective units (preferably from the English, mathematics, natural science, social science, or foreign language areas).

Academic Qualifications

Most Florida students accepted to the University present at least a "B+" average in all academic subjects (grades 9 through 12) and test scores of at least 24 (composite) on the ACT or 1100 (verbal plus math) on the SAT I. Non-Florida applicants will ordinarily be held to higher standards. When applicants do not meet these qualifications, a variety of additional factors are considered. These include a written essay, the pattern and quality of courses and curriculum, grade trends, class rank, educational objectives, extracurricular activities, leadership, and school recommendations. Applicants who bring to the University community other important attributes may receive additional consideration. These include talented writers and performing artists, skilled athletes, applicants having special ties to the University, and students with significant life and career experiences.

Center for Academic Retention and Enhancement (CARE)

Through the Center for Academic Retention and Enhancement (CARE), the University offers a special admissions program dedicated to assisting students who have been disadvantaged due to economic, educational, or cultural circumstances. CARE provides a comprehensive program of orientation and academic support designed to ease the student's transition from high school to college, and to build a strong academic foundation. The majority of applicants selected to participate in CARE will be first generation college students from financially disadvantaged backgrounds who have demonstrated a strong desire to succeed. Students admitted to the University through CARE will begin their studies in the summer. Interested students should submit the application for admission to the University, a supplemental CARE application available from the Office of Admissions, a one-page essay describing the student's educational goals, and two (2) letters of recommendation (one should be from a high school guidance counselor).

Freshman Scholarships

All freshman applicants who are admitted to the University are automatically considered for merit-based scholarships. Recipients are selected based upon high school grades and test scores.

Early Admission

The Florida State University provides an opportunity to outstanding high school students for entry into the University. The following

guidelines are used to consider these students: 1) sufficient maturity as evidenced by age at the time of admission and/or written recommendations pointing out the candidate's maturity; 2) a 3.5 or better weighted high school grade point average in the academic subjects; 3) a minimum score of 27 on the ACT or 1180 on the SAT I; 4) sufficient strength in the academic units as evidenced by the high school transcript; 5) evidence of a lack of curricular opportunity in the existing high school setting; and 6) three (3) letters of recommendation, one of which must be from the high school principal or a representative of the principal.

Admission by Transfer

Applicants desiring admission by transfer from other colleges or universities must provide the Office of Admissions with the following:

Application for Admission. The completed application for admission and a nonrefundable \$20 fee payable to The Florida State University should be submitted from six to nine months prior to the term for which admission is desired. It is the policy of the University not to defer or waive the application fee.

College Transcripts. Official transcripts from each college and university attended must be submitted to the Office of Admissions. Transcripts are considered official when they are sent directly from a college or university to the Office of Admissions and contain an official seal and/or signature. Transcripts bearing the statement "Issued to Student" or transcripts submitted by the applicant are not considered official.

Secondary School Record. An official high school transcript is required of all transfer applicants who have less than sixty (60) semester hours of transferable credit (as evaluated by the Office of Admissions) or who are verifying completion of the foreign language admissions requirement with two (2) sequential units of the same high school foreign language. The transcript must reflect work completed from the beginning of the ninth grade through the twelfth grade and the date of graduation.

Test Scores. Results from the ACT or SAT I are required of all transfer applicants who have less than sixty (60) semester hours of transferable credit (as evaluated by the Office of Admissions). Arrangements should be made for the test results to be forwarded directly to the Office of Admissions.

Auditions. Auditions are required of all applicants wishing to major in music, dance, or the bachelor of fine arts (BFA) degree program in theatre. In addition to submitting the application for admission and other supporting information, prospective students should contact the School of Music, the Department of Dance, or the School of Theatre for details.

Departmental Applications. Departmental applications are required of all applicants wishing to major in communication; communica-

tion sciences and disorders; education; motion picture, television, and recording arts; or nursing. In addition to submitting the application for admission and other supporting information, prospective students should contact the College of Communication; the College of Education; the School of Motion Picture, Television, and Recording Arts; or the School of Nursing for details.

Florida College Level Academic Skills Test (CLAST). The Florida CLAST is an achievement test of the communication and computation skills expected of all students by the time they complete their sophomore year of college. All students, including transfer students and international students, are required by Florida statutes and rules of the state Board of Education to satisfactorily complete the Florida CLAST or an approved alternative to the CLAST before the granting of admission to upper-division status at The Florida State University. It is the responsibility of the applicant to have Florida CLAST scores forwarded to the University. International students seeking a waiver from CLAST should refer to 'Minimum Criteria for Eligibility for CLAST Waivers in the Communications Area for Non-native English Speaking Students' in "Undergraduate Degree Requirements" for more details. Transfer students admitted directly to baccalaureate degree programs who have not completed the Florida CLAST must register for and take the Florida CLAST prior to or during the first term of enrollment. Refer to the "Undergraduate Degree Requirements" section of this *General Bulletin* for more details.

Deadlines for Applications and Supporting Documents for Transfer Students

Spring semester 2003	November 1, 2002
Summer semester 2003	March 3, 2003
Fall semester 2003	July 1, 2003

The University reserves the right to close admissions earlier if warranted by enrollment limitations and the quantity and quality of the applicants.

International students should refer to the 'International Student Admission' section of this chapter.

General Admission Requirements

Applicants who have received an associate in arts (AA) degree from a Florida public institution **immediately prior to transfer** and who have applied to a non-limited access program will be admitted to The Florida State University, provided an application and all supporting documents have been received by the deadline. This includes verification of two (2) sequential units of the same foreign language in high school or at least eight (8) semester hours of the same foreign language (or equivalent proficiency as demonstrated by passing AP, IB, or CLEP examinations) at the college level. Admission to

the University is not guaranteed to programs designated as limited access or teacher certification, or to those programs requiring auditions.

Applicants With Less Than Sixty (60) Semester Hours of Transferable Credit (As Evaluated by the Office of Admissions) Must:

1. Meet The Florida State University freshman criteria for high school academic grade point average, academic units, and test score (refer to the 'Freshman Admission Requirements' section of this chapter);
2. Have at least a 2.5 (on a 4.0 scale) grade point average (GPA) on all college work attempted; and
3. Have at least a 2.5 (on a 4.0 scale) GPA on all college work attempted at the last institution attended, if more than one institution is attended.

Applicants With Sixty (60) or More Semester Hours of Transferable Credit (As Evaluated by the Office of Admissions) Must:

1. Have at least a 2.5 (on a 4.0 scale) grade point average (GPA) on all college work attempted;
2. Have at least a 2.5 (on a 4.0 scale) GPA on all college work attempted at the last institution attended, if more than one institution is attended; and
3. Have verification that two (2) sequential units of the same foreign language have been successfully completed in high school or that at least eight (8) semester hours of the same foreign language (or equivalent proficiency as demonstrated by passing AP, IB, or CLEP examinations) have been completed successfully in college. Verification is by an official transcript or score report.

Teacher Education Programs

All students planning to pursue a teacher education program at The Florida State University must be formally admitted to teacher education. Admission to teacher education is administered by the Dean of the College of Education and assigned to the Office of Academic Services. Application for admission to teacher education is distinct from admission to an upper-division college or school and is made in the Office of Academic Services, 108 Stone Building.

State Board of Education Rule 6A-5.066 and The Florida State University Council on Teacher Education require that all students seeking admission into undergraduate teacher education programs at The Florida State University must meet the following requirements **prior** to entering the program:

1. Have at least a 2.5 (on a 4.0 scale) grade point average (GPA) on all college work attempted; and

2. Have a grade of "C-" or better in each required general education English and each general education mathematics course; and
3. Take and achieve a passing score on all sections of the CLAST (**this requirement cannot be waived or met by alternative means**).

Note: there is no longer a required minimum composite score on the ACT or SAT for admission to teacher education. However, programs with limited enrollment status may require submission of the score, and may use that score in determining which students will be admitted.

The following curriculum requirements must be completed prior to entry into the degree program (upper-division):

1. Forty-five (45) semester hours in teacher preparation general education core curriculum (see the "College of Education" section of this *General Bulletin* for specific requirements). **Student should consult with an advisor to determine how to simultaneously satisfy the thirty-six (36) semester hours in liberal studies and the teacher preparation general education core curriculum requirements.**

2. State of Florida Common Course Prerequisites which include: a) three (3) education core courses of EDF 1005, EDG 2701, and EME 2040; and b) fifteen (15) semester hours of general program prerequisites specified for each degree program (see degree program sections for specific prerequisites). **Note:** in addition to EDG 2701, students must take six (6) additional hours with an international or diversity focus. These may be satisfied as part of the University multicultural requirement.

Common prerequisites and total program length for state-approved teacher preparation programs are subject to revision based on changes in State Board of Education Rule 6A-5.066, Approval of Preservice Teacher Preparation Programs, as amended August 7, 2000.

Limited Access Programs

A limited access program utilizes selective admission to limit program enrollment. Limited access status is justified where student demand exceeds available resources (student/faculty ratios, instructional facilities, equipment, or specific accrediting requirements). Criteria for selective admission include indicators of ability, performance, creativity, or talent to complete required work within the program. Admission to such programs is governed by the Articulation Agreement and by the State Board of Education administrative rules.

For a number of degree programs, access is limited at the upper-division level to those students meeting certain additional criteria. These additional criteria are applied equally to AA degree transfers from Florida public community/junior colleges, AA degree transfers from other state universities in Florida, and rising juniors at The Florida State University.

Limited access programs fall into three (3) major categories: performing and visual arts, teacher education programs, and limited enrollment programs.

Performing and Visual Arts

- Dance (audition required for all majors)
- Interior Design (departmental interview and minimum GPA)
- Music (audition required for all majors)
- Theatre (audition required for BFA degree program)
- Visual Arts (portfolio review for BFA degree program)

Limited Enrollment Programs Requiring a Higher Grade Point Average

Admission to these undergraduate degree programs requires a cumulative GPA above the level of 2.0. The specific GPA minimum for each program is determined annually on the basis of student spaces available and the number and quality of applicants for those spaces. For specific requirements for admission to a particular department, college or school, refer to the appropriate section of this *General Bulletin*.

Limited enrollment programs at The Florida State University include the following:

- College of Arts and Sciences
 - Computer Science
 - Psychology
- College of Business (all programs)
- College of Communication (all programs)
- College of Education
 - Early Childhood Education
 - Elementary Education
 - Emotional Disturbances/Learning Disabilities
 - Mental Disabilities
 - Recreation and Leisure Services Administration
 - Visual Disabilities
- School of Motion Picture, Television, and Recording Arts
- School of Nursing
- School of Visual Arts and Dance
 - Interior Design

Categories of Limited Access Programs

- ** = Limited access and limited enrollment (capped)
- + = Limited access and limited enrollment (capped) by specialized accreditation or licensure requirement

++ = Limited access and limited enrollment by audition or portfolio review (special talent)

Transfer Scholarships

Associate in Arts (AA) degree recipients from Florida public community colleges who enroll directly at the University and who display high academic achievement are awarded academic scholarships on a competitive basis by The Florida State University. Applicants with cumulative grade point averages of at least 3.8 will be automatically considered.

International Student Admission

Applicants to The Florida State University are considered international if they are not U.S. citizens, dual citizens, or Permanent Resident Aliens.

International applicants must provide the Office of Admissions with the following:

Application for Admission. The completed International Application for Admission and a nonrefundable application fee of \$20 in U.S. currency must be submitted. The check or money order must be drawn on a U.S. bank and made payable to The Florida State University. The application will not be processed without the application fee and under no circumstances will the University waive or postpone this fee.

Academic Records. Official or certified copies of all academic records and/or examination results from **every** institution attended are required. Records are considered official only when sent directly from an issuing institution, and must bear the original seal of the institution or the original signature of the institution's records official. All documents must be issued in the native language and accompanied by certified English translations.

Test Scores. Results from the ACT or SAT I are required of all freshman applicants or transfer applicants who have less than sixty (60) semester hours of transferable credit (as determined by the Office of Admissions after an evaluation has been submitted). Arrangements should be made for the test results to be forwarded to the Office of Admissions directly from the American College Testing Program or the Educational Testing Service.

English Proficiency Test. If an applicant's native language is not English, the applicant must take the Test of English as a Foreign Language (TOEFL) before applying for admission. A minimum score of 550 on the paper-based test or 213 on the computer-based test is required. TOEFL scores are considered official when they are sent directly to the Office of Admissions from the Educational Testing Service. Examinee copies are not considered official.

Certification of Financial Responsibility. The University is required by federal regulations to verify the financial resources of each applicant prior to issuing the certificate of eligibility (form I-20 or IAP-66). Therefore, it is important that the applicant knows the costs of attending the University and has the necessary funds available for the entire period of enrollment.

The Certification of Financial Responsibility form must be completed, signed by the sponsor and the applicant, and verified by the sponsor's bank or financial institution. The to-

tal amount of funds available to the student must be listed for each year of planned attendance and must equal the total estimate of annual costs.

Auditions. Auditions are required of all applicants wishing to major in music, dance, or the bachelor of fine arts (BFA) degree program in theatre. In addition to submitting the application for admission and other supporting information, prospective students should contact the School of Music, the Department of Dance, or the School of Theatre for details.

Departmental Applications. Departmental applications are required of all applicants wishing to major in motion picture, television, and recording arts and all transfer applicants wishing to major in communication, communication sciences and disorders, education or nursing. In addition to submitting the application for admission and other supporting information, prospective students should contact the College of Communication; the College of Education; the School of Motion Picture, Television, and Recording Arts; or the School of Nursing for details.

Florida College Level Academic Skills Test (CLAST). Refer to the "Admissions by Transfer" section of this chapter.

Transfer Credit. An official course-by-course evaluation is required for all academic records from non-U.S. institutions. We recommend the evaluation be done by one of the foreign educational credential evaluation services listed in the International Brochure or found at <http://admissions.fsu.edu/intl/transfer.htm>.

Deadlines for Applications and Supporting Documents for International Students

Freshmen (first-time-in-college and undergraduate transfer applicants with less than twelve [12] semester hours of transferable credit as determined by the Office of Admissions after an evaluation has been submitted):

Spring semester 2003	November 1, 2002
Summer semester 2003	March 3, 2003
Fall semester 2003	March 3, 2003

Transfers (applicants with twelve [12] or more semester hours of transferable credit as determined by the Office of Admissions after an evaluation has been submitted):

Spring semester 2003	September 6, 2002
Summer semester 2003	February 3, 2003
Fall semester 2003	May 2, 2003

The University reserves the right to close freshman and transfer admissions earlier if warranted by enrollment limitations and the quantity and quality of applicants.

Admission Requirements

Freshmen

Admission to The Florida State University requires graduation from a recognized secondary program with certain academic units, an overall performance average in those academic units, and appropriate ACT or SAT I scores. Four (4) units of English, three (3) units of mathematics (algebra I and above), three (3) units of natural science, three (3) units of social science, and two (2) sequential units of the same foreign (non-English) language are required. A unit is the equivalent of a yearlong subject that is not remedial in nature. Applicants from non-English speaking countries must also present a minimum TOEFL score of 550 on the paper-based test or 213 on the computer-based test.

Most students accepted to the University present at least a "B+" average in all academic subjects and test scores of at least 24 (composite) on the ACT or 1100 (verbal plus math) on the SAT I.

Transfers With Less Than Sixty (60) Semester Hours of Transferable Credit Must:

1. Meet The Florida State University minimum freshman admission requirements of secondary school academic performance (academic courses only), test scores, and academic units;
2. Have at least a "C+" average (2.5 GPA on a 4.0 scale) on all college work attempted;
3. Have at least a "C+" average (2.5 GPA on a 4.0 scale) on all college work attempted at the last institution attended, if more than one institution is attended;
4. Submit an official course-by-course evaluation of all academic records from each non-U.S. college and/or university attended(ing); and
5. Submit a TOEFL score of at least 550 on the paper-based test or 213 on the computer-based test if the applicant is from a country where English is not the official language.

Transfers With Sixty (60) or More Semester Hours of Transferable Credit Must:

1. Have at least a "C+" average (2.5 GPA on a 4.0 scale) on all college work attempted;
2. Have at least a "C+" average (2.5 GPA on a 4.0 scale) on all college work attempted at the last institution attended, if more than one institution is attended;
3. Submit an official course-by-course evaluation of all academic records from each non-U.S. college and/or university attended(ing);
4. Verify that two (2) sequential units of the same foreign (non-English) language have been completed successfully in high school (secondary program) or at least eight (8) semester hours

of the same foreign (non-English) language (or equivalent proficiency) have been successfully completed at the university level (required if the applicant is from a country where English is the official language); and

5. Submit a TOEFL score of at least 550 on the paper-based test or 213 on the computer-based test if the applicant is from a country where English is not the official language.

Applicants who have received an associate in arts (AA) degree from a Florida public institution immediately prior to transfer and who have applied to a nonlimited access program will be admitted to The Florida State University, provided an application and all supporting documents have been received by the deadline. This includes the financial guarantee and verification of two (2) sequential units of the same foreign (non-English) language in high school (secondary program) or at least eight (8) semester hours of the same foreign (non-English) language (or equivalent proficiency) at the university level. Admission to the University is not guaranteed to programs designated as limited access or teacher certification, or to those programs requiring auditions.

For a number of undergraduate degree programs, access is limited at the junior year to those students meeting certain additional criteria. Limited access programs are described in the previous section, 'Admission by Transfer.'

Notice of Admission

Formal notification of admission to The Florida State University is sent by the Office of Admissions with the appropriate immigration form. Admission to the University is for a **specific** term. If the student is unable to enroll for the term indicated in the notice of admission, the Office of Admissions should be informed immediately. If the student wishes to be considered for entrance to a different term, the Office of Admissions must be advised in writing.

Finances

Before a United States Consul will grant a visa, international applicants must prove that they will have sufficient funding to meet all of their expenses while studying in the United States. Applicants must document the source of funds and guarantee that they will receive funding for the duration of the program before a student visa will be awarded.

If government restrictions limit the amount of money that may be sent to students in the United States, the applicant should make sure that sufficient funds will be available. When applicants leave their country, they must have enough money to pay for traveling expenses to the University, fees for the entire term, living expenses until more money arrives, and the return fare to their home country. Students must be sure that they will have sufficient financial resources to cover all costs during their stay at the University. If the applicant's government requires verification of enrollment before

money can be forwarded, the student may request verification from the Office of the University Registrar after registration is completed at the University.

The costs given are estimated minima and are subject to change. The following estimates are based on one academic year (two semesters — fall and spring) and are for an unmarried student with no dependents. Additional funds must be included for spouse or family (\$3,000 for spouse and \$1,000 for each child per year). Biographical data must be provided for each family member accompanying the student to the United States. The data should include complete name, date of birth, place of birth, citizenship, and relationship to the student (wife, husband, son, or daughter). Approximately one-half of the estimated annual costs should be available at the beginning of each semester since University fees must be paid upon registration at the start of each term.

Annual Estimate of Costs for Undergraduate International Students

The annual estimated costs listed below are for the 2001–2002 academic year. Costs for the 2002–2003 academic year were not available at date of publication.

Tuition/Fees ¹	\$10,402.00
Books and Supplies	700.00
Room and Board ²	7,530.00
Insurance ³	486.00
Miscellaneous	2000.00
Total	\$21,118.00

Note:

¹ The tuition and fee estimate is based on fifteen (15) credit hours for an undergraduate international student attending two (2) terms per year. (International students must register for a minimum of twelve hours each term.) It is estimated that an additional \$3,120 will be necessary for tuition and fees if the student will be attending summer school. Contact the Office of Admissions or refer to website <http://admissions.fsu.edu/intl/> for the approved 2002–2003 fees.

² Includes annual mid-range costs for on-campus residence halls (does not include Alumni Village) and most popular meal plan, allowing students up to fourteen (14) meals per week. Contact the Housing Office or refer to website: <http://www.housing.fsu.edu/> for the approved 2002–2003 rental costs. Contact FSU Dining Services or refer to website: <http://sodexhomarriott.fsu.com/> for the 2002–2003 actual costs.

³ All international students who are admitted to the University must maintain a health insurance policy for the duration of their enrollment. Estimated annual health insurance costs: student — \$486; student and spouse — \$2,195; student and child — \$1,102; student and family — \$2,810. These figures are subject to change. Please contact the Thagard Student Health Center for current costs.

Passports and Visas

International applicants will need a current passport from their own government and a visa from the United States Consulate to enter the U.S. Applicants should apply for a passport as soon as possible, although in some countries it will be necessary to provide proof of admission to a United States school before a passport will be granted.

To apply for a visa, applicants should take their passport, Certificate of Eligibility (Form I-20 or IAP-66) issued by The Florida State University, and proof of adequate financial support for annual costs to the nearest United States Consulate.

If students are coming to the University specifically for the purpose of studying, they will probably wish to apply for a Student Visa (F-1.) Undergraduate students holding this visa will be required to carry at least twelve (12) semester hours each semester.

Health Insurance

The University's Thagard Student Health Center provides basic outpatient care. Because students are likely to incur costs for medical care beyond that provided through outpatient services, adequate health insurance coverage must be obtained. Insurance coverage for dependents is also available.

International students are required to demonstrate that they have adequate medical insurance coverage for illness or accidental injury before they will be permitted to register for

classes or to continue enrollment. International students must comply with all health insurance requirements. International students who will be accompanied by dependents are required to purchase health insurance coverage for them. An adequate medical insurance policy will meet a number of requirements, including that the insurance proceeds are payable in U.S. currency. For more information regarding health insurance, contact the Thagard Student Health Center, (850) 644-4250.

International applicants are required to bring a medical history to campus which describes previous illnesses and/or surgery prior to enrollment. If students have ever had tuberculosis (or scars appearing on chest X-rays) or other serious infectious diseases, they must have thorough medical studies made before coming to the University and bring the medical reports from those studies to campus. International applicants must also be immunized, and show proof of such immunization, prior to registration.

Intensive English Program

English is the language of instruction and communication at the University. International applicants who lack sufficient English preparation must correct this deficiency before being admitted to the University. Students may do this in their home country or in the United States at a school that offers an intensive English language program. The Florida State University offers one such program. For further information, write to: *Center for Intensive English Studies, 918 West Park Avenue, Tallahassee, FL 32306-4170, U.S.A. (website: <http://www.fsu.edu/~cies/>).*

Note: admission to the Center for Intensive English Studies does not in any way imply that admission to The Florida State University will be approved.

Admission to Graduate Study

Admission to graduate study involves admission to the department, school, or college in which the applicant expects to study; therefore, final admission to the University is subject to approval by the specific program. While there are minimum University admission requirements, the departments can, and frequently do, set admission standards higher than these minima. The student should determine departmental requirements first and then determine the University admission requirements. Consult the *Graduate Bulletin* for complete details.

Admission to Panama City Campus

Transfer students who have sixty (60) or more semester hours of transferable credit and are interested in attending the Panama City campus should apply directly to: *Office of Admissions, The Florida State University, 4750 Collegiate Drive, Panama City, FL 32405-1020.* Information may also be obtained through their website: <http://www.pc.fsu.edu/>.

The same policies, procedures, and requirements that pertain to the Tallahassee campus apply to the Panama City campus.

FINANCIAL INFORMATION, TUITION, FEES, AID, SCHOLARSHIPS AND EMPLOYMENT

University Controller: Larry D. Reese;
Associate Controllers: Perry W. Crowell;
Marcia Murphy

General Information

Tuition and fees are collected by the University Controller's Office of Student Financial Services. Payment of registration fees and tuition detailed below is an integral part of the registration process. Academic progress may be stopped and official University documents and services (transcripts, diplomas, registration etc.) withheld if tuition and fees are not paid within the established timeframe listed.

Tuition Payments and Arrangements. The student's web name and password are required to access the Online Billing Statement at <http://www.fees.fsu.edu>. Tuition and fees are due according to the posted deadline at <http://www.sfs.fsu.edu>. Financial aid is disbursed during the second week of the semester, and as received thereafter. Due by the fifth day of each semester are all third-party agency billings, departmental billings, FSU employee scholarships, state employee tuition vouchers, and Veteran's deferments. Outstanding tuition and charges from a previous semester will be deducted from financial aid received during a current semester, if registration is permitted.

Assessment of Fees. Fees are established by the Florida Board of Education and the Florida State Legislature and are subject to change. The University will calculate and assess the charges to be settled for fees due based on the fee rates authorized by the Florida Board of Education and the student's schedule. Students should review their Student Assessment Payment Schedule on the Internet at <http://www.fees.fsu.edu> to verify the accuracy of the charges. At the time of payment, students should also review their payment receipt to verify the payment made, any outstanding charges owed, or any arrangements outstanding. Credit and debit card payments can be made through the Internet at <http://www.fees.fsu.edu>.

Panama City Campus. Students who intend to enroll at the Panama City campus of The Florida State University are to pay their fees at: *Controller's Office, 4750 West Collegiate Drive, (Barron Building, 1st Floor) Panama City, FL 32405.* This office will answer any questions concerning fee payments and financial aid distribution. For further information, please call (850) 644-2090, ext. 175. Inquiries and payments can be made through the Internet at <http://www.fees.fsu.edu>.

Residency Requirements for Tuition Purposes

At The Florida State University there are three offices responsible for the initial review of residency for tuition purposes under Florida Statute 240.1201 and Florida Board of Education Rule 6C-7.005. These offices are: 1) The Office of Admissions, 2) Law School Admissions, and 3) the Office of the University Registrar. The first two offices determine residency for all first-time-on-campus students; the Office of the University Registrar is the only office to which students can apply for changes in residency once they are enrolled. First-time-on-campus students will be classified in accordance with the information on their applications, including the "Florida Resident Affidavit" on the last page of the application, providing no other information is available calling into question the information on the application. To qualify as a Florida resident for tuition purposes in accordance with Rule 6C-7.005 of the Florida Administrative Code, students must be a United States citizen, resident alien, parolee, Cuban national, Vietnamese refugee, or other refugee or asylee so designated by the United States Immigration and Naturalization Service.

And

Have established a legal residence in this state and maintained that legal residence for 12 months immediately prior to the term in which they are seeking Florida resident classification. **Students' residence in Florida must be as a bona fide domiciliary rather than for the purpose of maintaining a mere temporary residence or abode incident to enrollment in an institution of higher education,** and should be demonstrated as indicated below (for dependent students as defined by Internal Revenue Service regulations, a parent or guardian must qualify),

And

Submit the following documentation (or in the case of a dependent student, the parent must submit documentation) prior to the last day of registration for the term for which resident status is sought (**Note:** the various summer terms are considered one semester for the purpose of establishing residency):

1. Documentation establishing legal residence in Florida (this document must be dated at least one year prior to the first day of classes of the term for which resident status is sought). The following documents will be considered in determining legal residence:

- a) Declaration of Domicile.
- b) Proof of purchase of a home in Florida which you occupy as your residence.
- c) Proof that the student has maintained residence in the state for the preceding year (e.g., rent receipts, employment records).

2. Documentation establishing bona fide domicile in Florida that is not temporary or merely incident to enrollment in a Florida institution of higher education. The following documents will be considered evidence of domicile even though no one of these criteria, if taken alone, will be considered as conclusive evidence of domicile:

- a) Declaration of Domicile.
- b) Florida voter's registration.
- c) Florida vehicle registration.
- d) Florida driver's license.
- e) Proof of real property ownership in Florida (e.g., deed, tax receipts).
- f) Verification of employment by the employer, employment records, or other employment-related documentation (e.g., W-2, paycheck receipts), other than for employment normally provided on a temporary basis to students or other temporary employment.
- g) Proof of membership in or affiliation with community or state organizations or significant connections to the state.
- h) Proof of continuous presence in Florida during periods when not enrolled as a student.
- i) Proof of former domicile in Florida and maintenance of significant connections while absent.
- j) Proof of reliance upon Florida sources of support.
- k) Proof of domicile in Florida of family.
- l) Proof of admission to a licensed practicing profession in Florida.
- m) Proof of acceptance of permanent employment in Florida.
- n) Proof of graduation from high school located in Florida.
- o) Any other factors peculiar to the individual which tend to establish the necessary intent to make Florida a permanent home and that the individual is a bona fide Florida resident, including the age and general circumstances of the individual.

3. No contrary evidence establishing residence elsewhere.

4. Documentation of dependent/independent status (copy of Internal Revenue Service tax return). **Note:** federal income tax returns filed by resident(s) of a state other than Florida disqualify such students for in-state tuition, unless said student's parents are divorced, separated, or otherwise living apart and either parent is a legal resident of Florida.

Or

Become a legal resident and be married to a person who has been a legal resident of the state of Florida for the required 12-month period,

Or

Be a member of the Armed Forces on active duty stationed in Florida, or a spouse or dependent,

Or

Be a member of the full-time instructional or administrative staff of a state public school, community college, or university in Florida, or a spouse or dependent,

Or

Be a dependent and have lived five years with an adult relative who has established legal residence in Florida,

Or

Be a person who was enrolled as a Florida resident for tuition purposes at a Florida institution of higher education, but who abandoned Florida residency and then reenrolled in Florida within 12 months of the abandonment,

Or

Be a Latin American/Caribbean scholar,

Or

Be a United States citizen living on the Isthmus of Panama and have completed 12 consecutive months of college work at FSU—Panama, or a spouse or dependent,

Or

Be a graduate student of the Southern Regional Education Board's Academic Common Market attending Florida's state universities,

Or

Be a full-time employee of a state agency or political subdivision of the state when student fees are paid by the state agency or political subdivision for the purpose of job-related law enforcement or corrections training,

Or

Be a qualified beneficiary under the Florida Pre-Paid Post-secondary Expense Program per 240.551 (7) (a),

Or

Be a McKnight Fellowship Recipient,

And

Make a statement as to the length of residence in Florida and qualification under the above criteria. Students wishing to change from out-of-state to in-state residency for tuition purposes shall apply to the appropriate admissions office if they have not yet enrolled, or to the University Registrar if they are already enrolled.

Tuition and Instructional Fees

The "Academic Calendar" appearing in the *Registration Guide* each term sets forth the beginning and ending dates of each term and all deadlines.

Assessment of Fees

The following fees and charges are based on proposed rates; however, since the *General Bulletin* must be published in advance of its effective date, it is not always possible to anticipate changes, and the fee schedule may be revised. Every effort will be made to publicize changes for any semester in advance of the registration date for that semester. Current information is available on the Internet at the "Money Matters" section of <http://www.studentsfirst.fsu.edu>.

Students are assessed fees based on the level of the course as established by the Florida Board of Education and the Florida State Legislature. Rates applicable to the main campus for fall term, 2001, and spring and summer terms, 2002, are used as a basis for estimating course charges per credit hour for Florida and non-Florida residents. **Fees applicable to 2002–2003 had not been confirmed by the Florida Legislature at the time of the publication of this document.**

Actual Course Fee Charge Per Credit Hour 2001–2002 Schedule

Course Level	Florida Students	Non-Florida Students
Undergraduate	\$ 80.92	\$343.84
Graduate	\$163.10	\$570.26
Law	\$182.30	\$606.40
Repeat Course Fee per credit hour (under-graduate only)	\$185.34	\$185.34

Note: course fees may vary depending upon course location.

Students enrolled in cooperative education courses with zero (0) semester hours will be charged for one (1) semester hour of Florida resident undergraduate work, unless also enrolled in other credit courses at The Florida State University during the same academic term.

Students registered in courses for zero (0) semester hours (master's comprehensive examination, master's thesis defense, dissertation defense, or other graduate-level zero [0] semester

hour courses) will be charged for one (1) Florida resident graduate semester hour, unless also enrolled in other credit courses at The Florida State University during the same academic term.

Special Fees, Fines, and Penalties

Application Fee: \$20.00. Applicants for admission are assessed a nonrefundable application fee.

New Student Orientation Fee: \$25.00. This fee is assessed when new students register to attend the required University orientation program. This is a nonrefundable fee.

Special Student (Orientation) Fee: \$15.00. The charge will be included on the first-time special student's schedule and can be paid through Student Financial Services.

Late Registration Fee: \$100.00. A late registration fee is assessed when a student does not begin registration during the time provided under the academic calendar.

Late Payment Fee: \$100.00. (Rate subject to change.) A late payment fee is assessed against students who do not pay their tuition in full by the required due dates (see the "Academic Calendar," in the *Registration Guide*).

Florida State University Identification Card (FSUCard): This fee is assessed against first-time FSUCard recipients, including high school students. This fee may be paid when tuition is paid.

Replacement FSUCards: A fee for the preparation of a new card is assessed against those students, including high school students, who lose their FSUCards.

Duplication/Photocopying Fee: At cost. A fee is assessed for duplicating or photocopying documents.

Standard Tests Fee: At cost. A fee is assessed for test materials and related factoring or grading charges levied by an external agency used in standardized tests, such as the Graduate Record Examinations.

Transcript Fee: \$5.00. This fee is assessed for each official transcript issued.

Installment Contract Fee: This fee is assessed for executing an installment contract for tuition payment available during fall and spring semesters only.

Transportation Access Fee: This fee is assessed per credit hour to all main campus students. It covers all modes of transportation on campus such as sidewalks, bikes, mass transit (on- and off-campus buses) and vehicles. Revenue generated by this fee is used to improve the overall infrastructure of campus for all students. For additional information about parking locations, rules, regulations and rates, go to <http://www.vpfa.fsu.edu/parking/>.

Returned Check Charge, Stop Payment Charge: \$25.00 or five percent (5%) of the amount of the check, whichever is greater (rate subject to change). A returned check/stop payment charge is assessed against a student's account who has a check or electronic authorization for payment returned by the bank to The Florida State University. The Florida State University automatically submits all personal checks twice for payment if the check was returned once for insufficient or uncollected funds. This is an automated process and the second submission cannot be stopped; however, there is no charge assessed by The Florida State University for this second submission.

Returned check charges are assessed for all personal checks written and electronic payments authorized for tuition, fees, or any services provided by the University that are returned to The Florida State University for insufficient funds, uncollected funds, wrong account numbers, closed accounts, and stop payments placed on checks. In addition to the returned check charge, if the initial payment is for tuition and redemption of the returned item is not made prior to the tuition payment deadline, a late payment fee is assessed to tuition. The Florida State University places a hold on accepting any personal checks or electronic payment authorizations from anyone on the student's account for 90 days after redemption for any services, tuition, or fees that are owed to the University if a personal check or electronic payment is returned. Redemption must be paid with cash, money order or cashier's check. If a second check is returned or a stop payment is placed on it, the student will be permanently listed on all department's ACCEPT CASH ONLY list, and **no personal checks will be accepted from anyone on the student's account from that day forward.**

Notification will be sent to the student via mail to the address on the check or to the last maintained address in The Florida State University's records. A copy of the notification letter will be sent to the maker of the check at the address on the check, if the student is not the person on whose account the funds are drawn. After notification that a check has been returned, redemption including the service charge must be made by seven (7) working days with cash, money order or cashier's check. The Florida State University forwards all returned checks to the State Attorney's office for redemption and prosecution after collection efforts are exhausted. After a returned check is forwarded to the State Attorney's office, redemption of the check will not prevent prosecution.

Thesis and Dissertation Fees: A graduate student submitting a thesis or dissertation is assessed a binding fee at cost (extra charge for oversized copies). In addition, doctoral students submitting a dissertation are assessed a microfilming fee and may pay a copyright fee, if desired.

Binding Fee: At cost.

Microfilming Fee: At cost.

Copyright Fee: Optional.

Loss and Damage Fees: At cost. Students who lose or damage equipment may be assessed a breakage or loss fee to pay for breakage or loss of equipment. Upon completion of the course, the instructor will prepare a listing of the cost of all such lost and damaged equipment and assess the student a loss or damage fee. The charge varies, based on the cost of the item, and generally applies to students taking laboratory courses.

Scientific Laboratory Fees: Varies. Students enrolled in certain laboratory courses are assessed a fee which is used to offset the cost of scientific materials or items that are consumed in the course of the students' laboratory activities. These fees are assessed based on the course.

Library Fees

Fines for Late Return: (per book or unit, per day): \$0.25. A fine for the late return of a library book will be assessed against students as well as graduate teaching assistants and associates who do not return library books by the due date.

Fines for Overdue Reserve Library Books: (per book, per library hours): \$0.25.

Fines for Failure to Respond to a "Recall Notice" (per book or unit, per day): \$0.25. A fine for the failure to respond to a "recall notice" will be assessed against Faculty and A&P who do not return library books by the recall due date specified in the notice.

Borrowing Privileges Revoked: Faculty and A&P have a "grace period" of 30 days for late returns, at the end of which borrowing privileges (including the renewal of all loans) will be revoked.

Housing Costs

For complete descriptions of housing facilities, services, costs, and how to apply for University housing, refer to the "Housing" chapter of this *General Bulletin*.

Annual Estimate of Cost

The annual estimated costs listed below are for the 2001–2002 academic year. Costs for the 2002–2003 academic year were not available at date of publication.

Undergraduate	(In-state)	(Out-of-state)
Tuition and Fees+	\$2,513	\$10,402
Housing *	2,970	2,970
Food #	2,352	2,352
Books	700	700
Total	\$8,535	\$16,424

+ The tuition and fee estimate is based on fifteen (15) semester hours for an undergraduate student attending two (2) terms (fall and spring) per year. Contact the Office of Admissions or refer to website <http://admissions.fsu.edu/> for the approved 2002–2003 fees.

* Annual mid-range cost for on-campus residence halls. The range is \$2,770–\$4,050. Contact the Housing Office or refer to website <http://www.housing.fsu.edu/> for the approved 2002–2003 rental rates.

The most popular meal plan allows students up to fourteen (14) meals per week. Other annual options range from \$2,194–\$2,844. **Note:** these figures are subject to change. Contact FSU Dining Services or refer to website at <http://sodexhomarriott.fsu.com/> for the 2002–2003 actual costs.

Note: international students should refer to the "Admissions" section of this *General Bulletin* for an estimated cost of attendance.

Payment of Fees

Payment of registration fees and tuition detailed below is an integral part of the registration process. Registration (including payment of fees) must be completed on or before the proper due date. The appropriate University office must be provided a properly executed authorization to defer fees prior to the deadline published in the academic calendar in those cases where fees are to be paid by a previously approved loan, scholarship, or other third-party arrangement. Florida Prepaid does not pay the full amount due, nor do Intern Participation Certificates. Students must pay the remaining balance due by the published deadline.

Method of Payment

Students who enroll must pay fees and tuition in full, or initiate an installment contract by the tuition payment deadline. All waivers, agency billings, and department billings for all students, including those receiving financial aid, must be submitted by the fifth day of the term. If tuition is not paid or arrangements have not been made by the posted deadlines, a late payment will be assessed. The University does not send out a bill. Students can, however, get the amount of their tuition and fees due on the Internet at <http://www.fees.fsu.edu> or when they register for classes by telephone or through the web. Other options include kiosks located on the first floor of *University Center A Building* and second floor of *Union-Krentzman Lounge*, by calling (850) 644-9452, or going to the published fee payment location.

Students may pay by check, cash, money order, cashiers check or FSUCard when paying in person. The Florida State University does not accept two party checks or foreign checks for payment. Make checks payable to The Florida State University and include the student's social security number, local phone and address on each check. We accept FSUCards, American Express, Discover, MasterCard and electronic checks. Visa has elected not to participate in our web payment service. Payment methods are described below. Credit card payments can only be made through the Internet at <http://www.fees.fsu.edu> or at kiosks located around campus. There is a convenience fee for the online payment option.

Automated Debit to FSUCard for Tuition Payment. The Florida State University offers a free online payment service to students with FSUCard accounts at SunTrust for the payment of tuition and fees, and other University charges. Students may authorize charges to be deducted from their FSUCard bank account by going to the online billing feature at <http://www.fees.fsu.edu> and clicking on the option: "Would you like information about automatic debit payment from your FSUCard?" This payment option is available for a limited time during Fall and Spring semesters, and certain restrictions are applied. Additional information is available on the Internet.

Installment Contracts. Students incurring tuition fees greater than \$150.00 are eligible to execute an installment fee payment agreement for the fall and spring semesters (not available for summer semesters). The initial payment, which must be one half of the total tuition, plus a \$10.00 fee (subject to change), is due by the tuition payment deadline. The second half of the installment payment is due by the sixth week of class, as specified on the agreement. This option is not available on the Internet. Failure to pay the balance of tuition by the due date will result in a late payment fee and a financial hold on your account. Students should appear in person to initiate the installment agreement. A \$10.00 fee (rate subject to change) will be assessed at the time of first payment for this option. Once an installment contract is executed, any course added at a later date must be paid in full within 5 days. It will not be covered under the previously executed contract. Failure to pay tuition in full for such a course will result in the assessment of a late payment fee. Installment contracts may be initiated through the mail or drop box, with a letter attached requesting the installment contract and the \$10.00 fee included with the first installment.

Convenient Drop Box for Payments. The Office of Student Financial Services has kiosks for student use at the first floor of the University Center Building A, near our offices at A1500, and in the Krentzman Lounge at the Student Union. Students may verify the amount due for tuition and fees (at the kiosks or through the Internet at <http://www.fees.fsu.edu>), insert a check, money order or cashier's check in the provided envelope and put the envelope in the drop box. Payments are processed the next business day. Payments received in the drop box by close of business on the tuition payment deadline will not be considered late. Please do not deposit cash. We will not process foreign checks or two party checks. Make checks payable to Florida State University and write your social security number, current address and phone number on the check. Checks not completed properly will be considered late.

Mail-In Fee Payments. When paying fees by mail, send a personal check, money order, or cashier's check for the full amount of fees due. Please do not send cash. We will not process foreign checks, checks not completed properly, or two-party checks. Payments must be received no later than the tuition payment deadline. Make checks payable to Florida State University and

write your student identification number, current address and phone number on the check. Payments should be mailed to *The Florida State University, Office of Student Financial Services, A1500 University Center, Tallahassee, FL 32306-2394.*

Agency Billing, Department Billing. Students who are having their tuition paid by an agency or by department billing should submit the required documents no later than the fifth day of the term. Any remaining balance due must be paid by the tuition payment deadline. Forms are available at <http://www.sfs.fsu.edu>. Outstanding tuition and charges from a previous semester will be deducted from financial aid received during a current semester. Accounts not paid by the agency by the end of the semester will be assessed a late payment fee, and the student is required to pay it before being granted other University services.

Florida Prepaid College Program

This program was created by the State of Florida to guarantee payment of tuition and may include optional dormitory contract guarantees. **The plan excludes local fees** (i.e., health, athletics, student activity, laboratory, transportation access, and books) which are to be paid by the student using one of the options described above and by the deadlines stated above. The student is to verify that the billing is being processed by going to <http://www.fees.fsu.edu>. The fees (FBOE approved 01/02 fees), excluding books, not covered by the Prepaid College Program total approximately \$17.71 per hour, plus lab fees ranging from \$3.25 to \$35.00, plus the Transportation Access Fee. **Students using the Florida Prepaid College Program are responsible for paying local fees by the tuition payment deadline of the main campus semester or they will be assessed a \$100 late payment fee. (Rate subject to change.) Fees applicable to the 2002–2003 academic year had not been confirmed by the Florida Legislature at the time this document was published.** Additional information may be obtained by writing: *Florida Prepaid College Program, P.O. Box 6448, Tallahassee, FL 32314-6448* or by calling 1-800-552-4723 or <http://www.fsba.state.fl.us/prepaid>.

Fee Liability

Liability is incurred for all credit hours remaining on a student's schedule at the close of the official drop/add period each semester. Out-of-state tuition and matriculation fee waivers will not cover dropped or withdrawn classes.

Repeat Course Surcharge

Section 240.124 Florida Statutes mandates that each student attempting the same non-repeatable undergraduate course more than twice be-

ginning with the Fall Semester 1997 shall be assessed an additional per credit hour surcharge beginning with the third attempt. Attempted hours include those hours dropped, withdrawn, and repeated under FSU forgiveness which are fee liable. Undergraduate level courses are numbered 1000 to 4999.

Effective Fall 2001 Semester, the repeat course surcharge was \$185.34 per credit hour.

(Subject to change for academic year 2002–2003).

The only exceptions:

- Any course taken prior to Fall 1997;
- Attempts taken at an institution other than FSU;
- Graduate level courses (courses numbered 5000 and above);
- Any non fee-liable course dropped or withdrawn;
- Excludes courses taken through cooperative education, military, waivers, and audits;
- Individualized study, courses that are repeated as a requirement of a major, and courses that are intended as continuing over multiple semesters. However, courses repeated more than two times to increase GPA or meet minimum course grade requirements are eligible for the surcharge.

Repeat Course Surcharge Appeal

Section 240.124, F.S. and FBOE Rule 6C.7.001(4)(c), F.A.C. provide authority to universities to consider appeal of the repeat course surcharge based on documented evidence of financial hardship. Appeal forms are available in the Office of the University Registrar, A3900 University Center, Tallahassee, Florida 32306-2480, (850) 644-3403. Appeals must be submitted to the Office of the University Registrar no later than the last day of classes for the term in which the surcharge is assessed.

Delinquent Fees

Students who have amounts owed to the University may not complete their registration, participate in graduation ceremonies, receive a diploma, receive an associate in arts certificate, or receive a transcript until all amounts owed to the University have been satisfactorily settled. This includes library charges, health center charges, parking fines, and University debt. All payments will be applied to the current tuition first and then to the oldest outstanding debt. Non-refundable collection fees are added to a student's account if the student has had an outstanding debt for 120 days or longer.

Registration Stop for Outstanding Charges

A “stop” is placed on the registration of all students who have outstanding charges due to the University. Students owing any amount, including current semester tuition, are not permitted to register for classes. The “stop” will not be removed, and such students will not be permitted to register or receive other University services until the debt is cleared.

Tuition Waivers

Out-of-State

In the interest of the general welfare of the State of Florida, and in order for Florida to contribute to the fulfillment of national and international obligations, the Florida Board of Education authorizes the University to waive portions of out-of-state tuition for a limited number of students in specific categories. Students in the following categories may apply:

1. Out-of-state graduate students having at least a one-quarter time assistantship (teaching or research) or a fellowship equivalent in value to at least a one-quarter time assistantship;
2. Foreign student programs, or student exchange programs;
3. Students having special skills in music, dance, theatre, or athletics;
4. Graduate students with outstanding academic credentials and abilities. Special and part-time students at the undergraduate and graduate level are not eligible for out-of-state tuition waivers. Tuition waivers must be submitted by the appropriate college or school preferably by the fourth day of each semester but definitely no later than the fifth class day of the semester. Tuition waivers do not cover the total amount of fees due and may have an effect on financial aid awards. For information regarding out-of-state waivers, undergraduate students should contact the Dean of the Faculties, graduate students should contact the Dean of Graduate Studies.

Florida Residents Over 60 Years of Age

When registering to audit courses, all fees are waived for citizens 60 years of age and older who are Florida residents. All requirements pertaining to auditing courses must be met, and, in addition, proof of age and residency must be presented. For further information, refer to the “Office of the University Registrar” section of this *General Bulletin*.

Policy Concerning Late Fees

A student may request a waiver of the late registration fee at the Office of the University Registrar. Documentation supporting University error or extraordinary circumstances will be required.

A student may request a waiver of the late payment fee at the Office of Student Financial Services if payment was not made by the established deadline because of a University error, administrative error, or extraordinary circumstances beyond the control of the student. Supporting documentation is required. **Note:** lack of funds or not applying for financial aid on time is not a valid reason for waiving the late fee. Request to waive late fees must be made by completing a waiver request form. If the request is denied, the student may appeal to the Late Payment Fee Appeals Committee by contacting the Office of Student Financial Services at (850) 644-9452. The committee meets once a month, or as needed.

The **Late Payment Fee Appeals Committee**, which consists of representatives from the Office of the University Registrar, Office of Financial Aid, and the Office of Student Financial Services, provides an opportunity for students to appeal a denial of their request for a late payment waiver. The appeals committee’s decision is the final step in the University’s late payment appeal process. The attendance of the student is recommended. Forms are available through the Internet at <http://www.sfs.fsu.edu>.

Deferments and Financial Arrangements

Financial aid is disbursed during the second week of the semester. Students must pay, or make arrangements to pay, all fees due by the end of the tuition payment deadline.

Financial aid deferments are authorized by the Office of Financial Aid. Departmental billings are authorized by the school or college issuing the billing. Agency billings are authorized by the approved agency to pay fees on behalf of the student. The billings are to be completed by the student at *A1500 University Center* no later than the fifth day of the term. Outstanding tuition from a previous semester will be deducted from financial aid received during a current semester. A refund will not be processed until payment is made by the agency or department. Agency billing forms are available through the Internet at <http://www.sfs.fsu.edu>.

Veterans’ Deferments. A student in training under the auspices of the Veterans’ Administration receives an education and training allowance each month from the federal government. Since the first subsistence checks are sometimes delayed, it is advisable for the veteran to be prepared to meet all expenses for about two months.

Tuition and health fees for students receiving assistance from the Veterans’ Administration in accordance with provisions of Section 240.235, Florida Statutes, 1983, may be deferred each time there is a delay in the receipt of benefits. This deferment is not automatic and must be explicitly requested by eligible students, through the Office of Veterans’ Affairs, Registrar’s Office by the fifth day of the semester.

Note: if a student receives a veterans’ deferment and tuition is still not paid by the deferment expiration date, the student will be assessed a \$100 late payment fee and will not be eligible to receive a veterans’ deferment in the future. Registration, transcripts and diplomas will not be processed until debts are paid in full.

Application Fee

Individuals who make application for admission to The Florida State University shall pay a non-refundable application fee of \$20.00. This fee may be waived for applicants who can document that they have received a fee waiver because of economic need as determined by the College Board or the American College Testing Program.

Refund of Fees

Regulations Concerning Refunds of Fees Paid

A student incurs a liability for all credit hours that remain on the student’s schedule of courses as of the end of the official drop/add period. The amount of this liability is identified on the Student Assessment Payment Schedule. Any amount paid in excess of the amount owed (assessed fee and outstanding University charges) during the term will be carried forward and may be applied against subsequent University charges incurred or may be refunded by request.

Full refunds of tuition fees may be granted in instances of withdrawal from the University under the following conditions:

1. Involuntary call to active military duty;
2. Death of the student or death in the immediate family (parent, spouse, child, sibling);
3. Illness of the student of such duration or severity, as confirmed in writing by a physician, that completion of the term is precluded;
4. Cancellation of the course by the University;
5. Exceptional circumstances that could not have been foreseen and were beyond the control of the student, as approved by the University refund committee.

Students who drop a course without fee liability after their tuition and fees are paid may be eligible for a tuition refund. Any amount paid in excess of the amount owed to the University during the semester/term will be carried forward and may be applied against subsequent University charges incurred or may be refunded upon request. **Any outstanding charges owed to the University will be deducted and the balance will be issued as a refund.** At the beginning of a semester, refunds will not be processed until the end of the third week of class to ensure that all checks have cleared the bank. Refunds requested during the fiscal year close-out, during the last two weeks of June, will not be processed until the first week of

July. The refund will be processed as a credit to the student's FSUCard account for currently enrolled students, unless the student requests a check to be mailed to the address on file. However, payments made by credit card will be refunded to the credit card. Checks will be mailed to those students who are no longer enrolled. Refund request forms are available at the Office of Student Financial Services, A1500 University Center or online at <http://www.vpfa.fsu.edu/control/forms/printonly/mp371.pdf>.

Students who withdraw after the fifth day of the semester/term, but prior to the end of the fourth week of the semester (or for Summer sessions by the first twenty-five percent [25%] of the term) are eligible for a twenty-five percent (25%) refund of tuition and fees. After this period, students who withdraw are held fully liable for fees. Students who withdraw and have received federal financial aid (Title IV programs), state or university aid may be required to repay to the aid source the amount of unearned financial aid funds disbursed to them as of their withdrawal date as described in the section on 'Withdrawals and Return of Financial Aid.' In the case where a withdrawal petition is approved, a refund only can be provided if the refund withdrawal request is submitted within six months after the end of the semester/term in which the withdrawal occurred.

An application for a request for refund of fees should be submitted as follows:

Tuition Fees. *Office of Student Financial Services, A1500 University Center.* <http://www.sfs.fsu.edu>.

Food Plan. *Director of Food Services, 144 Oglesby Union.*

Housing Fees. *Director of Housing, 109 Student Life Building.*

Parking Decals. *Director of Parking, C2300 University Center.*

Textbooks. *Manager of Florida State University Bookstore, Parking Garage, Main Level.*

Withdrawal and Return of Financial Aid

Effective Fall 2002, students who withdraw and have received financial aid will be required to repay to the program source the amount of **unearned** financial aid funds disbursed to them as of their withdrawal date. Programs include Pell Grants, Perkins Loans, Supplemental Educational Opportunity Grants (FSEOG), Stafford Loans (subsidized and unsubsidized), and Parent Loans (the Federal PLUS program), and other awards. The **unearned** amount of program funds is calculated based on the percentage of the semester completed before the date of withdrawal. Both the University and students receiving financial aid are required to return **unearned** financial aid to the aid source. The University is required to return the **unearned** portion of the financial aid funds it re-

ceived from withdrawing students that was used to pay institutional charges such as tuition, fees, housing and other educationally-related expenses assessed by the institution. The funds returned to the aid source by the University will be credited against the student's total liability of **unearned** funds. However, students will owe the University the amount returned to the aid source for institutional charges.

Students must repay the unearned Title IV funds to any Title IV loan program in accordance with the terms of the loan. For Title IV loan programs, **unearned** grant program funds are considered overpayments and students are required to return 50 percent of the grant. Students who owe grant overpayments remain eligible for Title IV program funds for 45 days if during those 45 days the student: 1) repays the overpayment in full to the University; or, 2) enters into a repayment agreement with the University. However, entering into a repayment agreement does not mean the student is eligible to register for additional classes, receive a transcript, diploma, etc. Students can lose financial aid eligibility if they do not comply with the options above. **These are new requirements for financial aid programs and students should consider their repayment responsibilities for these programs as part of any withdrawal decision.**

Student Cancellation of Schedule

A student may cancel registration during the first five days of a semester or summer session by submitting a written request to the Office of the University Registrar, A3900 University Center or to Withdrawal Services, A4300 University Center. Students who cancel their registration within this time frame are not liable for tuition; if tuition has been paid, such students should request a full refund of fees. Beyond the fifth day of the semester a student cannot voluntarily cancel registration but must apply for withdrawal from the University. Students who cancel their registration and are not enrolled for the following term (not enrolled for two consecutive terms) must apply for readmission.

Financial Aid

Director, Office of Financial Aid: Darryl Marshall

General Information

The Florida State University recognizes the high cost of education today and makes every effort to offer financial assistance through a variety of programs to qualified students. In addition to providing funds on the basis of demonstrated financial need in the form of grants, work awards, and loans, the University offers scholarships to recognize and reward talent, academic achievement, and meritorious performance.

The Office of Financial Aid is committed to serving and guiding students through the process of applying for financial aid. Students are urged to begin investigating the following avenues of help promptly:

A brochure, *Financial Aid at Florida State University* (updated yearly), is included in the financial aid packet. This brochure explains the requirements and processes of application for financial aid. It may be obtained by writing *The Florida State University, Office of Financial Aid, A4400 University Center, Tallahassee, FL 32306-2430*, or by calling (850) 644-0539. Information on financial aid is also available on our website at <http://www.fsu.edu>.

Help in completing the financial aid forms is available from professional financial aid counselors located in the University Center and at workshops held regularly during the month of January on campus and periodically at other locations in the greater Leon County area.

To obtain information on financial aid and the status of their application, students may access their status online through <http://www.studentsfirst.fsu.edu/>. Access is available through <http://www.fsu.edu> or they may call the Express Telephone System (ET) from 8:00 a.m. through 6:00 a.m. (22 hours per day) at (850) 644-0539. The hours of operation for the Office of Financial Aid are 8:30 a.m. to 5:00 p.m., Monday through Friday. Counseling is available by phone or at the information center Monday through Friday, 8:30 a.m. to 5:00 p.m.

The Student Aid Resource (STAR) Center. A complete description of the center's services follows under 'Additional Sources of Financial Aid.'

Panama City Campus

Students who intend to enroll at the Panama City campus and are in need of financial support should contact: *Coordinator for Financial Aid/Veteran Affairs, Office of Student Affairs, 4750 West Collegiate Drive, Panama City, FL 32405.*

Undergraduate Students

Undergraduate students may apply for many types of aid including scholarships, grants, work study and loans. To apply for federal and state grants, federal work-study and/or federal loans, students must complete the Free Application for Federal Student Aid (FAFSA). Students who have previously completed a baccalaureate degree may not be eligible for all types of aid when seeking a second undergraduate degree.

Graduate Students

Graduate students may apply for federal loans and federal work-study by completing the Free Application for Federal Student Aid (FAFSA). Graduate fellowships and assistantships are handled through the Office of Graduate Studies and Research, and the respective academic departments.

Deadlines

The federal financial aid application period for the 2002–2003 year begins January 1, 2002, and ends June 30, 2003. Some federal and institutional grant funds and federal work-study funds are limited, so students are encouraged to apply as soon as possible after January 1, 2002. The Florida State University priority deadline is February 15, 2002. Students may still apply after this date, but some program funds may be exhausted. Estimated student/parent tax data is allowed for completion of the FAFSA document. The University requires a separate application for Summer financial aid, which may be obtained from the Office of Financial Aid.

Students may apply for the Florida Student Assistance Grant (FSAG) by submitting the FAFSA.

Financial Aid Application Process

To apply for federal, state and institutional aid at The Florida State University, students must complete the Free Application for Federal Student Aid (FAFSA). Students are encouraged to apply directly over the Internet by accessing the following web page <http://www.fafsa.ed.gov>.

Internet applications can be completed from any home computer with secure Internet access, or through Internet capable computers in many libraries and schools. Students in the Tallahassee area may use computers at The Florida State University to submit their application. Continuing students have access to various computer labs on campus. Prospective students may use computer terminals located in the Office of Financial Aid's Information Center. Paper applications are available from any high school or post-secondary school.

Whether a student applies with a paper or an Internet application, the following materials will be necessary to complete the data required:

1. The student's social security card and driver's license;
2. W-2 forms or other records of income earned;
3. Student's and student's spouse's (if married) Federal Income Tax Return (estimated figures are acceptable for application before filing of return);
4. Student's parent's Federal Income Tax Return if the student is required to file as a dependent student (estimated figures are acceptable for application before filing of return);
5. Records of other untaxed income received, such as welfare benefits, social security benefits, TANF, veteran's benefits, military or clergy allowances;
6. Current bank statements and records of stocks, bonds and other investments;
7. Business or farm records, if applicable; and
8. Student's alien registration card, if student is not a U.S. citizen.

Note: students may apply for financial aid before applying for admission to The Florida State University, but while early application for aid is recommended (as soon as possible after January 1) a student can not be awarded aid until he/she is officially accepted for admission to The Florida State University.

Loan Entrance Counseling Sessions

Federal regulations require all students receiving a Federal Stafford/Unsubsidized Stafford Loan or Federal Perkins Loan to participate in a loan entrance counseling session prior to receiving the first distribution of the loan. No Federal Stafford loan or Federal Perkins loan can be disbursed until this requirement is met.

A student accepting a loan award for the first time at The Florida State University can complete the loan entrance requirement by accessing The Florida State University Office of Financial Aid web page at <http://www.fsu.edu> and clicking on the loan entrance counseling link. This will connect the student with an official loan entrance counseling site, where the required information will be covered. The student will be asked to provide certain information, including reference addresses for future use. Students are strongly encouraged to print a copy of the completion confirmation page to retain for their records. Students who prefer an alternative format, or who have questions about loans or the loan entrance counseling information process may contact the Office of Financial Aid.

Fees and Financial Aid Students

The University distributes aid in two ways for all registered financial aid students whose funds are available to the Office of Student Financial Services. Students must complete a Disbursement Authorization Statement (DAS) choosing one of the following two ways to receive financial aid:

1. By Electronic Funds Transfer (EFT) to your FSUCard Account at Sun Trust. Approximately 90% of the student body receiving financial aid at FSU have chosen to process their aid electronically and take advantage of the latest technology in banking services; or
2. By a check mailed to your local address. It is the student's responsibility to keep his or her address record current with The Florida State University. Checks are not forwarded by the post office.
3. **Exceptions:**
 - a. Students who have a hold on their funds must clear it by the posted deadline. Loans must be returned to the lender within three (3) weeks of receipt. The University will make every effort to contact students by phone and e-mail. Students whose aid has not been processed by the end of the second week of the term should contact the Office of Student Financial Services at sfs@admin.fsu.edu or in person at A1500 University Center. In

order to receive aid, a student must be enrolled for the required number of hours; and

- b. Students whose financial aid has not arrived by the beginning of the semester should receive a tuition deferment if application was made by August 1 of each year. After the initial distribution dates at the beginning of the semester, additional funds that become available will be disbursed daily and mailed or sent to the FSUCard account in accordance with the selection made on the student's Disbursement Authorization Statement (DAS).

All financial aid students must check their financial aid status at <http://www.fees.fsu.edu> or by calling (850) 644-0539 on the scheduled call-in date. If their message says they have a deferment or their tuition has been paid, they do **not** need to come to the Office of Student Financial Services. Students required to clear a financial aid hold should report to the Office of Student Financial Services, A1500 University Center, on the published dates and times.

Note: if you do not receive a message, cannot get through using this phone number or on the Internet, or if you need a financial aid deferment, you should report to the Office of Student Financial Services, A1500 University Center on the dates as posted. Please do not get this date confused with your telephone call-in date.

Your message will not appear in your voice mail box until the call-in date. After entering your social security number and your registration PIN, follow the voice instructions.

Failure to confirm that financial aid has been processed by the deadline may result in a late payment fee assessment of \$100. (Rate subject to change.) There is a message for those students who have chosen to have their financial aid processed using EFT and their FSUCard account. This message will provide a detailed description of each debit and credit involved in the transaction. Call 1-800-SUNTRUST for bank account details.

If you have any questions, please call (850) 644-9452 at the Office of Student Financial Services, via e-mail at sfs@admin.fsu.edu or go to <http://www.sfs.fsu.edu> for more information.

Deadline: if the financial aid is not sufficient to cover all charges, the student is responsible for paying the balance by the tuition payment deadline (see date on the "Academic Calendar" in this *General Bulletin*). After this date, a \$100 late payment fee is assessed and grades will be held at the end of the semester until fees are paid in full.

Note: financial aid students who are having their tuition paid by an agency or department billing should submit the required documents no later than the fifth day of the semester. Intern Participation Certificates and the Florida Prepaid College Program do not pay the full amount of tuition. Students must pay the remaining balance due by the tuition payment deadline. Outstanding tuition and charges from

a previous semester will be deducted from financial aid received during a current semester, if registration is permitted.

Deferments, Loans, and Check Cancellation

Deferments

Students must confirm their application is complete during the first week of the semester by going to <http://www.studentsfirst.fsu.edu> and clicking on the appropriate category under “check financial aid status” subheading in the “Money Matters” section.

Financial aid deferments will be processed automatically for all financial aid students who meet the following criteria:

1. The student has completed the financial aid application process by the published deadline (indicated in the Financial Aid Application Packet); **and**
2. The student does not have financial aid available during financial aid distribution (the second week of the term).

Financial aid students who do not receive a financial aid deferment must pay their tuition in full by tuition payment deadline. See the dates published in the “Academic Calendar,” included in each semester’s *Registration Guide*. Failure to pay by the published deadline will result in a late payment fee assessment.

Note: financial aid deferments expire before the end of the semester. See the *Registration Guide* for the expiration date. Students must confirm their financial aid has arrived and all requirements have been met by the deferment expiration date. Go to <http://www.fees.fsu.edu> and log in; you will then see your courses and fees detailed. To view your deferment amount and deadline, click on the “Details” button next to “Arrangements.” With your temporary deferment, your total balance may show \$zero for the Current Term Tuition. When your financial aid arrives, the screen will show how much has been paid toward your tuition. You must ensure your financial aid pays your tuition by the deferment deadline. If you have questions, contact us at sfs@admin.fsu.edu or (850)644-9452. Also, check your financial aid status at <http://www.studentsfirst.fsu.edu>. If the student’s aid is not available by the expiration date, it is the student’s responsibility to pay tuition in full. Failure to pay by the expiration date will result in a late payment fee assessment of \$100. Additionally, registration will not be permitted and transcripts and diplomas will not be mailed until debts are paid in full.

Delayed Delivery Loans

Students who have need of funds as a result of financial aid being delayed may apply for a delayed delivery loan. To be eligible for a delayed delivery loan, a student’s financial aid appli-

cation must be complete by August 1 of each year. Eligibility for the loan will be determined by the type of aid awarded and the hours enrolled, and the student’s account status is not delinquent. A picture ID is required in order to receive a delayed delivery loan. Students must have either paid or deferred their full amount of tuition in order to be eligible for short term loans. Delayed delivery loans are due when the financial aid arrives, or by the financial aid deferment deadline. Debts not paid will prohibit students from using University services such as registration, transcripts, etc.

Delayed delivery loans **are not available** until the financial aid distribution period. Students should come prepared to buy books and make deposits for housing, as financial aid distribution does not take place until the second week of the term.

Emergency Loans

Students who have emergency situations such as death in the family or unexpected major medical or dental bills may apply for an emergency loan at the Office of Financial Aid. Documentation and a picture ID is required to receive an emergency loan. Loans must be paid by the due date and university services will not be granted until paid in full.

Check Cancellation

Any Stafford Loan check available at financial aid distribution that is not picked up by the check cancellation deadline will be returned to the lender for cancellation.

Loan Cancellation and Refusals

Students should notify the Office of Financial Aid to decline or refuse an awarded loan (Perkins, GSL, UGSL) prior to it being disbursed to the student. Financial aid is processed at the end of the first week of each semester and as it arrives thereafter. If the loan has already been disbursed, the student is required to notify Student Financial Services in writing within 14 days that they do not want part or all of the loan they have received. A form can be completed at the Office of Student Financial Services and repayment can be made to The Florida State University by FSUCard, cash, cashier’s check or money order, or the original check can be brought to our office. Students who want to refuse loans after the 14 day notification period must contact their lender for repayment.

Exit Interviews

Loan Exit Interviews

Federal and University regulations require that all recipients of federal loans participate in an exit interview counseling session upon graduation, withdrawal from the university, or dropping below six (6) semester hours. These loans include Perkins (NDSL), subsidized Stafford (GSL), Unsubsidized Stafford (UGSL) and SLS loans. Failure to complete this procedure will

result in the withholding of diploma, transcripts, and other University services. To complete this requirement, students should go to the “Money Matters” section of <http://www.studentsfirst.fsu.edu> and select the “exit interview for financial aid” option. Students will need their Social Security Number and registration PIN or web name and password to sign onto the session. Students planning to continue their academic studies at The Florida State University should contact the Office of Student Financial Services at *A1500 University Center* to ensure that their exit interview stop is removed.

Additional Sources of Financial Aid

The **Student Aid Resource (STAR) Center**, located in the Office of Financial Aid, is a multimedia resource center designed to provide additional information about sources of financial aid and private scholarships.

The center provides current website assistance, books, pamphlets, articles and other materials as resources for alternative types of financial aid for all individuals.

Scholarships

The Florida State University recognizes and rewards high academic achievement and awards scholarships on a competitive basis. All eligible students will automatically be considered at the time of their admittance for these scholarships, which are administered by the Office of Admissions.

In addition, the individual departments described in the “Academic Departments and Programs” section of this *General Bulletin* list scholarships, as well as assistantships, available for students of specific majors.

Contingent upon funding, need-based scholarships are available based on eligibility for financial aid and criteria set by donors. Please contact the Student Aid Resource (STAR) Center in the Office of Financial Aid for further information.

The Florida Department of Education, located in Tallahassee, FL, offers a multiplicity of programs for scholarships, grants, and loans to help defray a student’s cost of education. These programs are generally available to Florida residents. Contact the Florida Department of Education at (888) 827-2004; <http://www.firn.edu/doe>. Residents of other states should check with their state’s Department of Education for additional aid that may be available to them.

Students receiving scholarship checks directly from a benefactor must bring them to the Office of Student Financial Services for processing at *A1500 University Center*.

Student Employment Services

Last year, over 1000 students found work in Tallahassee through **Student Employment Services (SES)**. This program provides opportunities for part-time employment for students and is a comprehensive source for jobs in the private sector, at state agencies and on-campus. SES facilitates the job search process by offering an array of job locator services. Students do not need to be eligible for (or even apply for) financial aid in order to use the services of Student Employment Services.

Job Boards offer a variety of job listings grouped by category (e.g. accounting, computers, retail, clerical, child care, state/county/city

agencies). These listings can be accessed on the web at <http://nwrdc.fsu.edu:1204/fsyjpr01>. Listings are updated daily.

The Federal Work Study Program (FWSP) is a federally funded financial aid program, administered by the Office of Financial Aid, that enables students to earn a portion of their financial aid award. This program offers a positive alternative to loan indebtedness through meaningful part-time employment. Weekly work schedules are mutually determined by the student and the employing department to suit the student's class/exam schedule, and the employer's needs. By federal regulation, the work schedule cannot interfere with a student's schedule.

Students may also utilize their Federal Work Study awards by participating in community service through the Community Service Learn-

ing Program (CSLP). This program is designed to locate and develop off-campus community service jobs and offer referrals for eligible students. Community service improves the quality of life of local residents, as well as encourages student awareness and continued participation in society at large. Students assist with programs related to health care, child care, literacy training, education (including tutoring), welfare and social services. Some students may serve as mentors for educational and recreational activities, or work as counselors in areas such as career counseling.

To determine eligibility for the Federal Work Study Program and CSLP, students must apply for financial aid at The Florida State University by completing the *Free Application for Federal Student Aid (FAFSA)*, and by submitting all other required documentation.

HOUSING

Director of University Housing: Rita Moser
109 Student Life Building

Residence Halls

The **Office of University Housing** is responsible for all on-campus housing facilities and programs for residents. The office provides living accommodations for full-time, degree-seeking, fee-paying students. All assignments are made without regard to race, religion, or national origin. Some rooms and apartments are adapted for residents who have physical disabilities.

University facilities on the main campus include 14 residence halls accommodating approximately 4,300 single undergraduates; one apartment facility with 40 single-occupancy efficiencies and 40 townhouses housing four students each; and one apartment facility with 94 one-bedroom, double-occupancy apartments reserved for single graduate students. The following chart lists each residence hall; its visitation policy; whether the facility's residents are male, female, or coed; and the special programs available in each residential area.

For the security of the residents, entrances to residence halls are locked at all times. Residents must use either keys or FSUCards to enter, and visitors must use the telephones at the main entrances to request admittance.

Each room is furnished with a bed for each resident, study desks, chairs, dresser space, a small refrigerator, a telephone line providing local service, and a direct computer connection line for each resident. Residents must provide their own linens. Bicycle pads for parking are situated outside each hall, but residents must provide their own lock and chain.

Alumni Village

Single graduate students, older undergraduate students, and students with dependents are eligible for housing in Alumni Village, an apartment complex one and a half miles from campus. Alumni Village offers 791 one-, two-, and three-bedroom furnished apartments. Residents have access to a preschool, laundry facilities, a recreation building, and playgrounds on the premises. The Alumni Village Office provides assistance and coordinates programs for residents.

Costs

Residence Halls for Single Undergraduate Students

Semester rate includes mail service, local telephone service, direct computer connections and refrigerator rental:

Standard double
Air-conditioned room: \$1485.00*

Note: a limited number of single and double rooms with private baths are available at an additional cost per semester. Payment schedules are outlined in the housing agreement.

Apartment Housing for Single Students

Rogers Hall (apartments) monthly, per student (Including utilities and local telephone): \$330.00*

McCullum Hall (apartments), per semester, per student (Including utilities and local telephone): \$1,567.00*

Alumni Village

One-bedroom furnished apartment: \$300.00–\$324.00*

Two-bedroom furnished apartment: \$325.00–\$349.00*

Three-bedroom furnished apartment: \$475.00–\$523.00*

Note: monthly rate does not include utilities except garbage collection.

*All housing rental fees are established by The Florida State University and are subject to approval by the Florida Board of Education. University Housing is a self-supporting auxiliary and rental rates must reflect operating costs. Fees quoted are 2001–2002 figures and are subject to change.

Visitation Options

Non-Visitation. Students in this section will be assigned to an area of a residence hall in which no visitation by members of the opposite sex is permitted in student rooms or in living units at any time.

Limited Visitation. Visitation within student rooms by members of the opposite sex is permitted during the following hours: Sunday through Thursday, 11 a.m. to 12 midnight; and Friday and Saturday, 11 a.m. to 2 a.m.

Self-Regulated. Visitation within student rooms by members of the opposite sex is determined by mutual agreement among roommates or suitemates at the beginning of the year and whenever occupancy changes.

Full Visitation. Visitation in student rooms by members of the opposite sex is permitted twenty-four hours a day, seven days a week. Visitation means the periodic visits of guests and does not encompass cohabitation in a room, suite or apartment.

Applications

Upon notice of admission, students receive information about housing options. The Office of University Housing sends more detailed information about University housing options and applications to all admitted students at the appropriate time before each semester. It is not necessary to request application materials.

As space is limited, interested students are urged to submit their applications and advance payment as quickly as possible. Assignments are made on a priority basis: 1) returning students; and 2) all new residents—by the date application and payment are received in the Office of University Housing. Although applicants are given the opportunity to express preference, no guarantee can be given that specific room or hall preferences can be met.

Special Living Units

Although no student is required to reside in University housing facilities, entering freshmen are encouraged to do so to avail themselves of the opportunities provided by the University Housing staff. University Housing has developed a housing program that is committed to providing a comfortable environment that promotes and supports the educational mission of the University. Great effort is taken to provide students with a variety of alternatives and choices in residence hall living.

In addition to its variety of facilities, University Housing is committed to providing students with a wide range of activities and programs

RESIDENCE HALLS

HALLS	RESIDENTS	VISITATION POLICY	SPECIAL PROGRAMS/COMMENTS
Bryan	Co-ed	Self-regulated	Bryan Hall Learning Community; freshmen only
Broward	Co-ed	Self-regulated	Broward Public Affairs Learning Community; freshmen only
Gilchrist	Co-ed	Self-regulated	Honors Community
Cawthon	Co-ed	Limited	Education Learning Community; Music Learning Center
DeGraff	Co-ed	Limited	Wellness Lifestyle Program
Deviney	Co-ed	Limited	Cultural Awareness Program
Dorman	Women	Limited and nonvisitation	Community-style living
Jennie Murphree	Women	Limited	Women in Math, Science, and Engineering Program; semi-private baths
Kellum	Co-ed	Limited	Genesis Program
Landis	Co-ed	Limited	Honors Community
Reynolds	Co-ed	Self-regulated	Semi-private baths
Salley	Co-ed	Self-regulated	Suites: two students/room, four/study, four/bath; Career Development
Smith	Co-ed	Limited	Community-style living

APARTMENTS

HALLS	RESIDENTS	VISITATION POLICY	SPECIAL PROGRAMS/COMMENTS
McCollum	Co-ed	Full	Sophomores, juniors and seniors; efficiencies and townhouses
Rogers	Co-ed	Full	Graduates and older undergraduates: limited availability for undergraduate residence hall students

that are designed for their needs. Full-time student affairs professionals, graduate assistants, and student staff reside within the halls both to assist residents with academic and interpersonal problems and to organize social, recreational, and educational events. Residents are encouraged to be active in their communities through their hall governments.

Several special living units help to develop a sense of community among their residents. Here students join together to share personal and academic interests. Liberal studies honors students may reside in Landis or Gilchrist Hall, where staff and residents share a commitment to the honors program. The freshman leadership program, **Genesis**, is housed on one floor of Kellum Hall. Career development is the focus in Salley Hall, where residents receive special assistance in choosing their majors and careers. A graduate career counselor who lives and works in Salley Hall offers workshops and advice regarding all aspects of career development. Cultural awareness is promoted within Deviney Hall through an exposure to the differences in race, religion, and culture among students here at The Florida State University. Jennie Murphree's

Women in Math, Science and Engineering floor provides mentoring and support to women majoring in these academic areas.

The **Bryan Hall Learning Community** is designed to help students succeed during the critical first year of college. Students in Bryan experience the benefits of living in a close-knit, supportive community, get to know faculty on a personal basis, receive academic support as needed, and become involved in campus activities. The **Broward Hall Public Affairs Learning Community** is designed to give students with an interest in public affairs and international service the opportunity to explore the rich resources of the University.

Cawthon Hall is home to two learning communities: the **Education Learning Community (ELC)** and the **Music Learning Center**. The ELC is available to first-year students who may be majoring in education. The goal of this learning community is to provide a supportive environment where students will have the opportunity to meet other freshmen who are interested in education. Together, students will explore the field of education through their participation in Service Learning experiences. The

Music Learning Center in Cawthon provides first- and second-year music students the opportunity to live and study in a residential college environment. This program creates opportunities for students to evaluate the place and purpose of music in their lives, as a career, as a creative outlet, as a life-long avocation, and as a means of serving others and benefiting their community.

For additional information about special programs, please visit the housing website at <http://www.housing.fsu.edu>.

Agreements

The **Annual Housing Agreement** for residence hall students extends from the date the application is submitted through the end of spring semester and becomes effective when the advance payment is paid. All applicants who accept the Annual Housing Agreement and enroll in the University will be required to reside in the residence hall during any period of enrollment through the second term of the academic year (August through April) and may not cancel the agreement except as stated therein.

The Annual Housing Agreement will be mailed to the student upon confirmation of admission to the University. The agreement should be read carefully and retained as a permanent record.

Other Options

Students who are unable or choose not to live in University housing have several housing options. A considerable number of apartments and homes located near campus are available for rent. Greek organization houses accommodate some of their members.

The **Southern Scholarship Foundation** provides rent-free cooperative living houses for a limited number of students who have excellent academic records and financial need. Students share all household duties. Each foundation house is supervised by a head-resident upper-level student who resides with the students. Applications are accepted from undergraduate students at all classification levels throughout the year. *The Southern Scholarship Foundation, 322 Stadium Drive, Tallahassee, FL 32304; (850) 222-3833; <http://www.scholarships.org/SSF>.*

The **Off-Campus Housing Office**, a Student Government funded agency, serves as an information center, assisting students who seek off-campus housing. The office maintains a list of area houses, apartments, private residence halls, scholarship houses, and mobile homes. The information available includes rental cost, deposit, distance from campus, lease terms, and amenities. Roommate requests are posted on a bulletin board outside the office located at 229-230 *Activities Building, University Union*.

ORIENTATION

Orientation Center

Director: Sara Connolly;
Assistant Director: Carley Barnes

Attending an orientation, advisement, and registration session, coordinated by the Office of Orientation, is required of all new undergraduate students. During orientation, students are given essential information: the University's policies and procedures; community values and standards; and academic requirements and opportunities. Students also receive practical advice on consumer survival: where to buy books; open checking accounts; or meet other students with similar interests.

In addition to meeting faculty and administrators, students are assigned to small groups led by trained staff members—currently enrolled students who inform and guide the newcomers. Students must meet with their academic advisors before registering for classes.

Students may not register for their first term on campus until they have completed an orientation session. Although they may be admitted up to a year before they enter, students may only attend orientation immediately prior to their enrollment. The Office of Orientation provides sessions preceding each academic term.

Orientation sessions include a concurrent session for family members. During these sessions family members learn about the University, its services and academic programs, and meet with administrators and faculty. Family members and students share tours of residence halls and visit booths set up in a fair-like atmosphere, called **Seminole Showcase**. Seminole Showcase is an excellent way to view the diversity available at the University, from the University honors program, cultural clubs, and service organizations to sororities and fraternities.

All admitted undergraduate students receive by mail information and instructions about registering for orientation. Attendance is by reservation only, and participants must pay a non-refundable fee of \$25.

Persons with Disabilities. Any student in need of specific services and reasonable accommodations should contact the Student Disability Resource Center, *1st Floor, Kellum Hall; (850) 644-9566.*

International Center

Director: Roberta Christie; *Assistant Director/Immigration Advisor:* Kristen Hagen; *107 South Wildwood*

Orientation for new international students is held prior to each term. Orientation is required for both transfer students and for students coming directly from their countries. Students receive the *International Student Handbook* and other useful materials about University and community resources. Copies of immigration documents are made for University files. Students receive information and advice regarding insurance, immunization, and other health requirements. Returning international students address the concerns of students who have newly arrived from their countries.

International students receive notification of orientation dates and times from International Admissions, the International Center and via the IC website: <http://www.fsu.edu/~fsu-isc/>

Note: incoming international students are **not** allowed to register before presenting their immigration documents to the staff of the International Center and being cleared by Thagard Student Health Center, verifying insurance coverage and proper immunization.

Most departments hold orientation sessions for new graduate students during the week before classes.

All undergraduate students, whether U.S. or international, are required to attend Undergraduate Orientation (see 'Orientation Center' above.)

OFFICE OF THE UNIVERSITY REGISTRAR

University Registrar: Maxwell Carraway;
Registrar: Tim Martin;
Associate Registrars: Kimberly Barber,
Ron Henthorn, Yvette Herr, Pam McDaniel
A3900 University Center

The Office of the University Registrar is the official custodian of permanent academic records of all past and currently enrolled students at The Florida State University. It is responsible for registering students and for maintaining student and departmental records for the term in progress, readmitting students, preparing transcripts, scheduling academic space, maintaining and updating curricula, certifying eligibility to receive credit for Credit by Examination, certifying attendance for loan purposes, implementing and monitoring academic regulations, certifying eligibility to graduate, and providing services and information to students, faculty, and administration. Reports and certifications of attendance and grade point average are made to governmental agencies, such as the Veterans' Administration, with the student's permission.

Students should consult this office with questions concerning registration, locations and meeting times of courses, errors in registration records, dropping and adding courses, cancellation of registration, and grade problems.

Report immediately all changes in permanent and local addresses, name, social security number, divisions and majors, and residency, to this office.

Persons with Disabilities. Any student in need of specific services and reasonable accommodations should contact the *Student Disability Resource Center, 1st Floor, Kellum Hall*.

Registration

During each academic term, an official registration is held for all currently enrolled, degree-seeking students who expect to enroll for the following term. Students registering for their first term do so during their orientation.

Registration at The Florida State University is conducted by telephone and by web site. Through the use of a touchtone telephone or a PC, students are able to register for classes from the privacy of their own homes or from anywhere in the world. Using the telephone data entry and voice responses, or an Internet web site, students can register for all of their courses in a matter of minutes and can gain access to information concerning their tuition and fees. **Please note that by registering students ac-**

cept both fee and grade liability. Students are advised if the requested course is available and informed of other matters related to registration, such as variable credit. However, the registration system will not tell students if they have registered for classes meeting during the same time period. Therefore, it is important to plan very carefully before requesting courses. Students using the automatic redial button will always receive a busy signal. Registering in the evening or during the night will avoid overloaded circuits.

Students should be aware that phone calls to The Florida State University's interactive telephone network systems for course registration, CLAST registration, Office of Financial Aid or Office of Admissions services may be periodically monitored to insure that the appropriate quality control is maintained.

Registration Guide and Course Schedules

The Florida State University publishes the *Registration Guide* which includes registration worksheets. The *Guide* also contains a list of all registration deadlines, the final exam schedule, fee and payment information, and important announcements. A copy of the *Guide* can be obtained from the Office of the University Registrar's information desk (*A3900 University Center*) each term and is available on the website. This information is also published online at the Office of the University Registrar website at <http://registrar.fsu.edu>.

Lists of course offerings, with the meeting time and location of each course, and where possible the instructor who will be responsible for each course are made available online through the Course Look Up system. This system is available twenty-two hours a day, year round. To view class schedules, select the Course Look Up link from the web page of the Office of the University Registrar.

Students are advised to organize their material and plan their schedule before using the registration worksheets in the *Registration Guide*. Students must contact the appropriate departmental office for any clearances or authorization needed. Individual instructors should be contacted for courses requiring "permission of instructor." It is important to take care of any academic or administrative hold ("stop") before calling to register.

How to Find a Course in This Bulletin

The "Course Prefixes" section lists course subjects alphabetically by letter prefix. The column to the right contains the department(s) and/or program(s) offering that course subject. The departments/programs can be found, alphabetically, in the "Academic Departments and Programs" section, where each course offered in a given program is listed, including title, description, and credit hours.

Registration Responsibility

Undergraduate Studies students and first-time transfer students must see their academic advisers for assistance with their course selection prior to registration. New students may be required to register for preparatory mathematics and/or English courses to complete registration.

Students are responsible for meeting prerequisites and corequisites for each course in which they are enrolled. Students are also responsible for any changes made to their schedule without an adviser's approval through the drop/add process.

Students will receive credit only for those courses in which they are properly registered. Likewise, students will be held responsible for every course for which they register unless they officially drop the course or cancel registration.

Those students who register during late registration (normally the first two days of classes) will be assessed a \$100 late registration fee.

Registration Permits

All permits, such as underloads, overloads, directed individual study (DIS), satisfactory/unsatisfactory (S/U) grading, and requests to take a graduate course by undergraduate students, must be completed at the time of academic advisement. Many permits require the signature of the academic dean as well as the adviser. Students are responsible for ensuring that the Office of the University Registrar has copies of these permits on file.

Course/Credit Modification

Undergraduate course credit may be modified downward with the approval of the chair of the department that is offering the course and the appropriate academic dean. No

course may be modified upward. Any undergraduate student wishing to modify credit may obtain the necessary forms in the Office of the University Registrar.

Required Preparatory Courses

A student entering as a freshman who has a score of 410 or below on the Verbal Subtest administered as part of the Scholastic Aptitude Test (recentered SAT), 15 or below on the English section of the Enhanced American College Testing Program examination (ACT) or 82 or below on the Florida College Entry-Level Placement Test will be required during the first term of enrollment to take precollege work in composition, ENC 0020, offered on this campus by the Tallahassee Community College. Those students with a recentered SAT score of 410 or below, an Enhanced ACT reading section score of 15 or below, or 82 or below on the Florida College Entry-Level Placement Test (CELPT) will be required to enroll in a precollege course, REA 0010. A student entering as a freshman whose score on the recentered SAT Verbal Subtest is 420-470 or on the Enhanced ACT English is 16-18 will be required to enroll in ENC 1905r. Such students will not be allowed to register for ENC 1101 during the first term of enrollment by reason of their scores on SAT/ACT.

Students entering as freshmen who have a recentered SAT mathematics score of 460 or below, an Enhanced ACT mathematics score of 20 or below (or its equivalent) or 71 or less on the Florida CELPT must take the on-campus Supplemental Mathematics Skills test. On the basis of scores on the SAT/ACT mathematics tests and the Supplemental Mathematics Skills test, students will, as space permits, be 1) placed in MAC 1105, or higher; or 2) be required to take community college preparatory course work in mathematics offered by Tallahassee Community College on the campus of The Florida State University. Students completing MAT 0024 with a passing grade must in their next term of enrollment register for MAT 1033. Students taking MAT 1033 must pass this course with a grade of "C-" or better before registering for advanced math classes. All remedial course work must be completed with a passing grade and a satisfactory score on the CPT.

Stops to Registration

Registration is prevented if all academic and/or administrative requirements have not been fulfilled prior to the term. A "stop" may be placed on the student record if one or all of the following deficiencies exist: academic dismissal; incomplete admissions documents; fiscal deficiency; lack of satisfactory Florida College Level Academic Skills Test (CLAST) scores; or failure to process readmission papers after a withdrawal or after a two-term absence (includ-

ing the summer term) from the University. Also, failure to meet specific requirements of a University college, school, or department, the judicial office, or the office of special students, may induce a registration "stop."

Students notified of a "stop" should contact the notifying office immediately and arrange for removal to be allowed to register for classes, receive official transcripts, and/or receive a diploma.

If students with a "stop" on their record are allowed to register in error, they will be considered illegally enrolled in the University. If the "stop" is not removed after notification of such an error, the student's registration is subject to cancellation.

Registration Stop for Outstanding Charges

A "stop" is placed on all students who have outstanding charges due to the University. Students owing any fees are not permitted to register for classes. The "stop" will not be removed and such students will not be permitted to register until the debt is cleared.

Registrar Cancellation of Schedule

Students allowed to register in error will be cancelled by the Office of the University Registrar.

Students who are dropped or deleted from their last or only course by an academic department because of nonattendance the first day of class will be cancelled by the Office of the University Registrar. This cancellation will be without liability for tuition. A student whose registration is cancelled by the University Registrar must apply for readmission.

Student Cancellation of Schedule

A student may cancel registration during the first five days of classes for a semester or summer session by submitting a written request to the *Office of the University Registrar A3900 University Center* or to *Withdrawal Services, A4300 University Center*. Beyond the fifth day of classes, a student cannot voluntarily cancel registration but must apply for withdrawal from the University. Students who cancel their registration within this time frame are not liable for tuition; if tuition has been paid, such students should request a full refund of fees. Students who cancel their registration and are not enrolled for the following term (non-enrollment for two consecutive terms) must apply for readmission.

Drop/Add or Changes of Schedule

During the first four days of classes, individual courses may be added, dropped, or sections of a course changed. Students are financially liable for all courses that appear on their schedule after the fourth day of classes. Courses may be dropped through the fourth week of classes; however, tuition charges will remain. Approval by the student's academic dean is required to reduce the academic load below twelve (12) semester hours or increase an academic load above eighteen (18) semester hours (to a maximum of twenty-one [21] semester hours). Courses dropped during this period will not appear on the student's transcript. To add courses after the first four days of classes requires the academic dean's approval.

After the fourth week of classes, courses may be dropped only in exceptional circumstances. Dates are prorated for individual summer sessions. Approval is required by the academic dean. Such courses will appear on the student's transcript with the notation "WD." Students who register for courses but who do not attend the classes will receive grades of "F" if the courses are not officially dropped.

Directed Individual Study Courses

Students may enroll in courses directed by an instructor for individual study of a particular area. Individual academic departments or programs will determine directed individual study policies for undergraduate students. The directed individual study course title must be approved in writing by the instructor offering the course and the departmental chair, or representative, and will be posted on the student's record. Students enrolled in Undergraduate Studies must also have permission of the Dean of Undergraduate Studies.

Undergraduate Students: Permission to Register for Graduate Courses

A student of senior standing or an upper-division honors student may carry graduate courses for undergraduate credit provided the student 1) has earned either a grade point average (GPA) of 3.0, "B," or better, or has made a combined score on the Graduate Record Examinations aptitude test of at least 1000; 2) carries a course load of no more than fifteen (15) semester hours; and 3) has the advance approval of the dean, the department chair, and the instructor offering the course, prior to registration. Students must have eligibility certified in the Office of the University Registrar before seeking approval of those listed in item 3).

Students who wish to receive graduate credit for such course work must obtain approval of the dean, the department chair, and the instructor offering the course, prior to registration for the graduate course. After approval, up to twelve (12) semester hours may be counted toward a graduate degree at The Florida State University, provided the course has not been counted toward a previous degree.

Florida Agricultural and Mechanical University— The Florida State University Interinstitutional Registration

A full-time student at one institution may enroll in one or more courses at the other institution under the following conditions:

1. Permission is to be given by the academic dean of the student's home university;
2. Courses taken at the host university should be those normally not offered at the student's home university;
3. Within the policy of the student's home university, courses taken at the host university must be graded on a satisfactory/unsatisfactory (S/U) basis;
4. The final grade obtained by the student shall be reported directly to the student's home university for entering on the student's transcript. Grades, credits, and quality points are treated as home-institution work;
5. All tuition and fees are paid to the home institution; and
6. Faculty and full-time students at either institution have equal access to the library facilities at both institutions.

To register, see the FAMU—FSU Cooperative Program representative in the Office of the University Registrar. For engineering requirements, see the "FAMU—FSU College of Engineering" section of this *General Bulletin*.

Tallahassee Community College/The Florida State University Cooperative Program

A student at one institution may enroll at the other institution under the following conditions:

1. **Admission.** The student must obtain specific approval from the designated representative of each institution. At The Florida State University, the approving official for all areas is the Office of the University Registrar. Students of The Florida State University planning to take a course at TCC must also be cleared by their academic dean's office. The approving official at Tallahassee Community College is the Registrar;

2. **Registration.** Courses taken at the host institution must not be offered at the home institution. If there is a shortage of classroom space, interinstitutional students will be given lower priority for scheduling than "home" students.

Interinstitutional students will be expected to follow prescribed registration procedures at each institution. If academic term calendars of the institutions vary, students will be expected to attend all classes, complete examinations, and discharge other responsibilities normally required of students in accordance with the schedule of each institution;

3. **Fees.** The student will pay fees to the host institution;

4. **Records and Certification.** Each institution will maintain its own permanent record of courses taken. Unofficial grade reports will be exchanged by the institutions at the end of each term. Certifications of enrollment or progress will be made by each institution when requested by the student for Selective Service, Veteran's Administration, or other purposes.

Undergraduate Interinstitutional Transient Students

This program enables students to take advantage of special resources and/or programs not available at their home institution. An interinstitutional transient student, by mutual agreement of the appropriate academic authorities in both the sponsoring and hosting institution, will receive a waiver of admission requirements of the host institution and a guarantee of acceptance of earned resident credits by the sponsoring institution. Interinstitutional transient students must be recommended by their own academic dean, who will initiate a visiting arrangement with the appropriate dean at the host institution. Students will register at the host institution, paying tuition and/or registration fees established by that institution. The approval of one institution does not bind the other to comply.

Dual Enrollment of Leon County High School Students—School Board of Leon County/The Florida State University Cooperative Program

To receive dual enrollment credit, students must adhere to the rules and regulations of the Leon County School Board, the Florida Board of Education, the Florida Legislature, and the following conditions:

1. The student must currently be enrolled in a secondary school operated by the Leon County School Board and must be taking a course or courses from The Florida State Uni-

versity for which the student shall receive credit toward a high school diploma. The student must possess a grade point average (GPA) of 3.2 or better, certified by a high school counselor, classified as a high school junior or senior, and meet requirements established by the School Board, the University, and the Florida Legislature;

2. Students will be enrolled at no cost to either the student or to the school district. The University will provide books and materials to the student and arrange for the payment of all fees;

3. Parents or guardians are responsible for the student's transportation;

4. Courses taken at the University will under no circumstances duplicate courses offered in the student's high school. Physical education courses offered by the University will not be considered qualified courses. The University may cancel a course due to insufficient enrollment; and

5. To remain eligible, the student must obtain a 2.0 GPA in all University course work. Both the University and the School Board will maintain academic records of the student's course work. The University will determine the status and grades of the students and will provide records of the same to the School Board at the end of each term.

Students in Leon County public high schools interested in dual enrollment course work should consult their guidance counselor for further information. Academic advising and registration for dual enrollment students at The Florida State University are provided by the Office of Undergraduate Studies.

The above interinstitutional agreements and the dual enrollment agreement between the Leon County School Board and The Florida State University are on file at the University in the offices of the University Registrar and the Dean of the Faculties.

Special (Non-Degree Seeking) Students

At the time of fee payment, all new main campus special students will be required to pay a nonrefundable fee of \$15.

Registration as a special student for undergraduate course work may be approved for any high school graduate and for any postbaccalaureate student provided the student is not on academic dismissal from this or any other institution. Persons without a high school diploma may register with the permission of the Office of Special Students, Office of the University Registrar. All registration by special students is on a space-available basis. Because of excessive demand for some graduate courses, special students may be enrolled in such courses only with the permission of the graduate officer of that particular unit and with the Office of Special Students in the Office of the University Registrar, A3900 *University Center*.

Foreign nationals on a student visa may not use the special student status other than to fulfill prerequisite requirements, or for summer enrollment if full-time status has been maintained during the academic year. All other foreign nationals, whether intending degree or nondegree work, must obtain permission from the Office of Admissions. For more complete details, see the "Academic Regulations and Procedures" section of this *General Bulletin*.

Auditor Seating Privileges

All regularly enrolled students and persons not enrolled in the University are afforded seating privileges after registration on a space-available basis with permission of the instructor, payment of the prescribed fee for each course, and presentation of the appropriate form approved by the Office of the University Registrar. Since no credit is allowed for attendance via "seating privilege," admission to the University is not required. The course(s) taken will not appear on the student's permanent record.

Students are cautioned not to preregister for any course they intend to audit. They will have to drop the course(s) from their official schedule and will incur additional financial liability.

Citizens 60 years of age or older who are Florida residents may attend classes under "seating privileges" criteria, and fees are waived except for those courses requiring individual instruction.

Transcripts

The Office of the University Registrar will issue official transcripts at the written request of the student. Individuals needing official transcripts should make a written request directly to the transcript section of the Office of the University Registrar.

Transcript service may be denied if a financial or judicial stop has been placed on a student's record. Clearance from the Controller's Office or the Judicial Office must be obtained prior to the release of the transcript. Transcript service may also be denied if the request is made by a third party without the student's written consent.

A charge of \$5.00 will be assessed for each official transcript issued.

Enrollment Certification

All student certifications will be by official request only. Students in need of enrollment verification should make a written request directly to: *Certification Section of the Office of the University Registrar, A3900 University Center, Tallahassee, FL 32306-2480*, or go to <http://www.studentsfirst.fsu.edu>. Select "fill out a certification request." Follow the instructions on the screen in order to obtain your certification letter. Your letter will be processed the following business day.

Access to Records

Students have the right to have access to their student records on file in the Office of the University Registrar. Students requesting access to information in their file, or a third party requesting information in a student's file **with the written consent of the student**, has the right to a response from the Office of the University Registrar within 30 days. When the record includes information on more than one student, only the information on the student making the request will be given.

ACADEMIC ADVISING/ACADEMIC SUPPORT SERVICES

Purpose

Advising is a process that includes collection of information, interpretation of data, and dissemination of facts regarding educational programs, courses of instruction, resources, policies, procedures, and career options. Together, the advisor and the student can discuss educational goals and map out an academic program that will achieve the student's long-range goals.

The University takes academic advising seriously and accordingly has developed an official University policy.

University Policy on Advising

General Statement on Advising

To progress satisfactorily through a degree program, each student must have available ample and accurate academic advisement, tailored to individual educational needs. The Florida State University is committed to a strong program of effective academic advising for all of its students. The Florida State University understands academic advisement to be a function considerably broader than assistance with course scheduling. Academic advising is a process which helps students interpret the values and benefits of higher education, assists students in their choice of educational and career objectives commensurate with interests and abilities, and examines the consequences of possible short- and long-range goals.

The faculty and staff of the University affirm their responsibility to make available to every student information about academic policies and requirements, timely notification of changes either in the University's policies and curricula or in the student's academic standing, assistance in evaluating course options and in planning successful completion of educational goals, guidance in developing decision-making skills, and referral to the various academic and student support services on campus available to help the student make the most of educational opportunities. Further, the faculty and staff affirm their responsibility to inform students clearly about their own responsibilities in the advising process.

The Student's Role in Advisement

The Florida State University expects students to assume an ever-increasing responsibility for their own academic progress as they move through the University. To accomplish this goal, each student will:

1. Assume responsibility for knowing the rules, regulations, and policies of the University and the requirements pertaining to the student's degree program and will consult the University *General Bulletin* and *Registration Guide* for up-to-date information;
2. Furnish a current address and immediately inform the Office of the University Registrar of any changes of address;
3. Know the student's advisor, make timely contact with the advisor upon arrival on campus and during the first semester, and continue to see the advisor at least once a term until achieving junior status;
4. See the student's advisor or academic dean immediately after being placed on academic warning or probation;
5. Notify the appropriate dean's office of any change in intended major or any problems the student is experiencing with advisement; and
6. Recognize that the matriculation catalog (i.e., the *General Bulletin*) governs each student's graduation requirements—this catalog remains in effect for six years for the bachelor's degree unless the student elects to meet the requirements of any subsequent *General Bulletin* published during the period of enrollment.

The Faculty's Role in Advisement

1. Each college, school, or department will formulate its own plan to meet undergraduate advising needs and problems. The plan shall include attention to appropriate advising loads and to the method of recognizing and rewarding individual advisors' work in advisement for purposes of annual evaluation, promotion, and tenure. The plan, agreed upon by the appropriate unit, shall be filed with the Dean of Undergraduate Studies and updated whenever the unit makes significant changes in advisement policies.
2. Each unit shall designate one member of the faculty or administration as director, coordinator, or undergraduate advisor for the unit. This faculty member will serve as the unit's liaison with the Division of Undergraduate Studies to ensure that the advisors within the unit are kept abreast of changes in academic policies and procedures and to work with the Division of Undergraduate Studies to solve special advising problems. Units shall also monitor closely the quality of their advising and ensure that it meets the goals of the University.
3. The unit will not assign a first semester faculty member to advising unless there is ample evidence of prior college-level advising experience. Each advisor shall attend a workshop before beginning advising duties for the first time and at least every two years thereafter.
4. Recognizing that sound advisement and a successful undergraduate experience should begin even before the student arrives on campus, units shall communicate with students accepted as freshmen or transfer students who indicate an intended major, outlining requirements and preparatory work expected for specific degree programs. Such contact with admitted students shall be coordinated with the Office of Admissions.
5. Each unit will provide a planning guide for lower-division students working toward their majors—designed to help students understand course requirements, prerequisites, and sequences—to enable them to move into the major as efficiently and as well prepared as possible. A similar planning guide will be available for junior and senior students in the major. Both guides will be filed and updated annually with the Division of Undergraduate Studies.
6. Advisors should be aware that students transferring to The Florida State University after the freshman year have as great a need for detailed information as do freshmen. Extra care should be taken to inform these students of The Florida State University's rules and regulations, which may differ from their previous college-level experience.
7. Advisors should also be aware of the special needs of the undecided majors they advise. Directors or coordinators of advising in each unit should take care to inform advisors of the Center for Advising Undeclared Students, Curricular-Career Information Services (CCIS), and other services on campus available to such students.
8. Advisors should inform students who may have other special needs (e.g., part-time students, disabled students, returning students, minority students, etc.) of the student support services available to them. Directors or coordinators of advising in each unit will ensure that advisors are aware of these student support services.
9. Advisors should take a role in identifying students who are working toward certain majors which may be inappropriate (e.g., a student with low math test scores and/or poor math preparation seeking a major in computer science or engineering). Such students may be referred to the Center for Advising Undeclared Students for information about their academic options or to Curricular-Career Information Services (CCIS) in the Career Center for help in clarifying their interests and abilities.
10. Units should identify students who have declared a limited access major but who, it appears, are unlikely to be able to meet the special admission requirements of that major. Such students should be made aware as early as possible of the strong likelihood that their intended

major will be closed to them; advisors may wish to refer these students to the Center for Advising Undeclared Students (CAUS).

Advising Organization

The **Office of Undergraduate Studies** assigns all entering freshmen and lower-division transfer students to an advisor, with the exception of those accepted into the School of Music, the Department of Dance (School of Visual Arts and Dance), and the School of Theatre's bachelor of fine arts (BFA) program. In these programs, advisors are assigned by the dean of the respective schools. Typically, students are assigned to either full-time professional or faculty advisors. Advisors of freshmen and sophomores assist students with understanding liberal studies requirements and other University policies and procedures. (See the "Undergraduate Degree Requirements" section of this *General Bulletin* for a discussion of the Liberal Studies Program and other degree requirements.)

Upon entering a major, usually around the junior year, the focus of advising shifts from liberal studies to major and college requirements. In most cases, this means that the student is assigned to an advisor who will assist with all requirements for the chosen academic major.

Orientation Advising

The first academic advising experience for all students occurs during orientation. Due to time constraints, this session usually consists of brief general information and course selection. Students are strongly urged to contact their advisors early in their first semester for an individualized advising appointment.

Assignment of Advisors

Advisors are initially assigned based on information provided the University during the admission process. Incoming students may also declare an intended major or change previously provided information concerning their major during orientation check-in. The Office of Undergraduate Studies reviews information on intended major and career goals for lower-division students and assigns an advisor based on that information. Upper-division students are assigned advisors through the dean's office of their college or school.

The academic advising relationship should be a comfortable and personal one between the student and the advisor. Sometimes, due to personality conflicts or shifting academic interests, this relationship does not develop. Students in this situation may request reassignment to a different advisor through their dean's office.

Undeclared Majors

The Center for Advising Undeclared Students (CAUS) provides specialized academic advising for undeclared students. Services are designed to help students fulfill their liberal studies requirements and to settle upon an appropriate major. The Florida State University will allow students to remain undeclared until they have attempted seventy-five (75) semester hours; however, it is common for academic majors to require that specific courses be taken during the freshman and sophomore years. An advisor from the intended major is the best person with whom to discuss these requirements. Students should, therefore, declare their intended major as early as possible to ensure proper advisement.

Undeclared students should also contact The Career Center early in their academic program.

Declaring or Changing Majors

Students are encouraged to declare an intended major and request an advisor in that academic discipline. The declared major is extremely important because it may allow a student access to particular prerequisite courses for that major; having the wrong major code may keep a student from registering for required courses.

Lower division students are allowed to change their major at any time during the semester at the Office of Undergraduate Studies. Upper division students should contact their academic dean's office.

Advising Services

Center for Advising Undeclared Students

The Center for Advising Undeclared Students (CAUS) advises freshmen and sophomores who are not ready to declare an intended major. Undeclared students are advised to take appropriate liberal studies and introductory courses while exploring their available options. CAUS works closely with the Career Center to provide a unified academic and career approach for the undeclared student. For a description of the Career Center and its services, refer to the "Student Services" section of this *General Bulletin*.

CAUS supports the academic departments through advisor training and workshops. For more information, contact: *Center for Advising Undeclared Students, 3200 UCA, 644-3430.*

Department Advising

Each academic unit has designated someone to serve as the advising coordinator for that particular area. All freshmen and sophomores are required to see their academic advisor prior to

registration each semester. Some major departments prevent students from registering if they have not seen their respective advisors. The advising coordinator may be contacted by calling either the dean's office for the college or school or the academic department of the intended major. The Office of Undergraduate Studies maintains a list of academic advisors for lower division students.

StudentsFirst Advising

The University provides two conveniently located drop-in advising services. These services are intended to supplement the advising provided by academic departments, and are popular resources for quick answers about general University policies and procedures. In addition to being placed in high-traffic locations, these services also are available outside traditional office hours. The first site is located on the second floor of the Union in Krentzman Lounge. This location offers extended hours from Monday–Thursday. The second site is located in the basement of Strozier Library, next to the computer lab. This location is available on Sundays, and also maintains early evening hours from Monday–Wednesday.

Student Academic Support System (SASS)

The State of Florida has implemented a computerized advising system to help both the student and the advisor monitor academic progress. At The Florida State University, students will be provided copies of their report prior to registration each semester. The SASS report outlines requirements the student has already met and those the student has yet to complete. Reports typically will be available through the academic advisor, although some departments have alternative methods for distributing reports to their majors. Individual requests for SASS reports may be made at the *Center for Advising Undeclared Students, A3200 University Center*. Students may also view their reports on-line by selecting the "undergraduate graduation check" option on the following website: <http://www.ais.fsu.edu/ais/applications/student/index.html>

Preprofessional Majors

Prelaw students may major in many different fields and will have an advisor assigned to them based on their undergraduate academic area. Students planning to enter law school after earning a bachelor's degree should join the prelaw society, Phi Alpha Delta, where they will receive special information and services focusing on prelaw issues. Students may come to the Center for Advising Undeclared Students to obtain a list of advisors who specialize in working with prelaw students.

Pre-health profession students will also be found in a variety of academic fields. All students planning to enroll in a professional school of medicine, dentistry, optometry, pharmacy, veterinary medicine, or other health-related ar-

eas should contact the *College of Medicine, Pre-health Professions Advising Office, 104 Duxbury Hall*, or call (850) 644-1855.

Academic Support for Athletes

The **Academic Support Program** for student-athletes assists student-athletes with the transition into college and provides continued support in all phases of academic and professional development culminating with graduation, job placement, or graduate school. Program staff provide academic counseling, study skills development, and additional academic assistance through tutorial programs. This supplements the sound educational practices (class attendance, note taking, reviewing and preparing properly for quizzes and exams, actively participating in class discussions, and staying current with all assigned readings) that are imperative for academic success. *A6100 University Center, (850) 644-9201.*

Center for Academic Retention and Enhancement (CARE)

The Florida State University and the **Center for Academic Retention and Enhancement (CARE)**, formerly known as the Minority Academic Program (MAP) and the Multicultural Student Support Center (MSSC), are committed to recruiting, retaining, and graduating economically, educationally, or culturally disadvantaged students.

CARE is designed to provide first-time-in-college students from socially and/or economically disadvantaged backgrounds with services such as a limited number of exclusive, full-credit liberal studies courses, academic advising, tutoring, a computer lab, learning skills workshops, and cultural enrichment activities. The center promotes a caring environment for students to discuss their academic, personal, and/or social concerns with a friendly, supportive staff.

The center provides a high school-to-college **Summer Bridge Program**, beginning in the summer session, that includes: intensive academic and social orientation to the University; introduces participants to the responsibilities and opportunities of college life; encourages the development of useful study habits; and assists students with recognizing their potential for success. *A5400 University Center (850) 644-9699.*

Pre-Collegiate Programs

College Reach Out Program is a state-funded program established to identify, motivate, and prepare disadvantaged middle and high school students to pursue post-secondary education.

The **University Experience Program** is available for high school students from low socioeconomic backgrounds who would like to visit the campus for a week during the summer. Smaller groups of high school students are invited to visit the campus so that they may experience college life.

The **Upward Bound Program** (located at James A. Shanks High School in Quincy, Florida) is a federally funded program that serves high school students from low socioeconomic backgrounds. The UBP staff helps students develop academic skills and encourages them to complete high school and continue their formal education at the college or university of their choice.

Reading/Writing Center

The Reading/Writing Center provides individualized instruction in reading, writing, and study skills. The center offers ENC 1905-01, required for freshmen who score 450 – 470 on the verbal section of the SAT or 17 – 18 on the Enhanced ACT. It also offers directed individual study in reading and writing to undergraduate and graduate students at all levels. Students sign up for one to three (1 – 3) elective credits (ENC 1905-02) and undertake a course of study designed to meet their specific needs. Students may also receive short-term tutorial instruction on a no-credit, walk-in basis. Help in preparing for the Florida CLAST, GRE, and LSAT is also available.

Mathematics Help Center

The Mathematics Help Center offers tutorial assistance for mathematics courses MAT 1024, 1033; MAC 1105, 1113, 1140, 2233, 2311; MGF 1106, 1107; and limited help in MAD 2104 and MAC 2312 and 2313. The center offers a “practice” Florida CLAST several times each semester. Center hours are announced each semester by course instructors. The hours are also posted at the help center at *110 Milton Carothers Hall* and at *208 Love Building*.

Academic Support/Acceptance Program

The Academic Support/Acceptance Program (ASAP), located at *A3500 University Center*, provides an intensive one-semester counseling/advising program for third-year students who are having unusual difficulty in selecting or gaining admission into upper-division majors. Most ASAP students participate in a special section of SDS 3340r Introduction to Career Development, though other options are available. ASAP has been funded through a special grant for enhancing undergraduate education to address the special needs of these students. The contact person for this program is Linda Mahler, (850) 644-0387.

Curricular-Career Information Services (CCIS)

The Curricular-Career Information Services (CCIS) is a multimedia, self-service career resource with books, pamphlets, videotapes, slides, filmstrips, computers, and career advisors to help students choose a major and a career. Special equipment and materials are available for students with disabilities. Here students find answers to questions about occupations,

job outlook, vocational schools, graduate programs, job-hunting techniques, and many other career-related topics. CCIS holds frequent workshops and clinics.

Bryan Hall Learning Community

Participants in this program will enroll in a section of AMS 1363 which offers an introduction to the academic opportunities provided by a research university. Faculty research, scholarship and creative activities are emphasized in the context of the teaching, research and service missions of the University.

The First-Year Experience

The First-Year Experience (AMS 1363) is a one-credit-hour course offered only to first-time-in-college students and is coordinated by the Dean of Students Department and the American and Florida Studies Program. The class helps students to understand the importance of a liberal arts education, develop a framework for understanding their university experiences, and become more goal-oriented in their academic and extracurricular experiences. Students learn the history of The Florida State University, including the values of the institution, and explore the various University resources available to them. Faculty and administrators teach the course in small, seminar-style classes of approximately twenty students, and each group has access to a trained peer leader. Students may contact the Dean of Students Department, at (850) 644-2428, to learn more about the First-Year Experience.

Center for Intensive English Studies

The Center for Intensive English Studies, part of the Center for Professional Development and Public Service, provides intensive instruction in the English language to non-English speakers. Its primary target audience is international scholars who are preparing to pursue degree work in American colleges and universities. The center also provides English-as-a-second-language services for the spouses of regular students at The Florida State University, as well as for some already admitted international students who are experiencing difficulty in mastering the English language. Enrollment is full-time (twenty-four [24] hours weekly).

Center for Retention and Academic Support

The Center for Retention and Academic Support provides special assistance for students in academic difficulty or who are unable to decide on a major. The center also provides assistance for students having difficulty preparing for the Florida CLAST. The office of Dr. Patricia Stith, the University Director of Retention Studies, and Dr. Linda Mahler, Director of Academic Support/Acceptance Program, is located at *A3500 University Center*.

Office of Undergraduate Studies

Assistant Dean: Gregory Beaumont

The Office of Undergraduate Studies provides information and services on all academic matters, including exemptions with credit, information on liberal studies courses, academic standing, dismissal, readmission, remediation, correspondence study, enrollment in courses at other colleges and universities, and major changes for most freshman and sophomore students. The Office of Undergraduate Studies is located at A3400 University Center.

In addition to serving as the academic dean's office for most freshmen and sophomores, the Office of Undergraduate Studies performs three important academic functions:

1. The office evaluates all transfer credit to determine how it applies to The Florida State University's liberal studies requirements and prepares liberal studies check sheets for each undergraduate transfer student who enters without an associate in arts (AA) degree from a Florida public senior or community college. See the "Undergraduate Degree Requirements" section of this *General Bulletin* for details. Decisions about transfer credit applying towards a major requirement are made in the office of the dean responsible for that major;
2. The assignment of advisors is also the function of this office. Students who are accepted into the School of Music or into bachelor of fine arts (BFA) programs in theatre or dance are advised by their respective academic dean's office; and
3. Finally, the office monitors student progress in liberal studies through the Student Academic Support System (SASS) report. The

SASS report will be reviewed with the student at the time of formal declaration of a major for transfer to an upper-division program.

The Florida State University grants an AA certificate to qualified students upon request. The Office of Undergraduate Studies determines the eligibility of students for the certificate. See the "Undergraduate Degree Requirements" section of this *General Bulletin* for more information.

The cooperative enrollment program between The Florida State University and area high schools is administered by the Office of Undergraduate Studies. See the "Office of the University Registrar" section of this *General Bulletin* for descriptions of these cooperative programs.

Transfer from Undergraduate Studies to Major Advisement Program

Transfer from undergraduate studies to a major's advisement program in any college or school of the University is accomplished between the Office of Undergraduate Studies and the appropriate baccalaureate dean after the student: 1) has declared a choice; 2) has been certified as eligible for transfer; and 3) has been accepted by the appropriate baccalaureate dean. **Acceptance into a major advisement program does not constitute admission to the upper division of the University.**

Eligibility for Transfer to Major Advisement

Students will be considered eligible to transfer from the advisement program of the Office of Undergraduate Studies after satisfying the following requirements:

1. Completion of at least fifty-two (52) semester hours of credit;
2. Successful completion of at least one-half of the required semester hours in the Liberal Studies Program, including all required liberal studies courses in freshman composition and freshman mathematics (Areas I and II of the Liberal Studies Program—see the "Undergraduate Degree Requirements" section of this *General Bulletin*);
3. Achievement of a minimum adjusted grade point average (GPA) of 2.0 or above on work attempted at The Florida State University; and
4. Acceptance by a baccalaureate dean for admission to a major's advisement program.

A student who has attempted seventy-five (75) or more semester hours without fulfilling all of the above-listed requirements will not be allowed to register. Such students should consult the Office of Undergraduate Studies and the dean of the college or school in which the degree is to be sought **before** making final decisions on how to meet these requirements.

STUDENT SERVICES

The Florida State University seeks to provide students with opportunities outside the classroom that will stimulate social and cultural awareness, physical well-being, intellectual expansion, and spiritual and moral growth. The University wishes to address the needs of the total student. And with that perspective, the University is committed to creating a sense of community among students, faculty, and administrators that will extend to the public, whether in the state, nation, or other countries.

Division of Student Affairs

Vice President for Student Affairs:
Capt. Winston Scott;
Associate Vice President for Student Affairs:
Sherrill W. Ragans;
Assistant Vice President for Student Affairs:
Evelyn Ploumis-Devick;
313 Westcott Building

The goal of the Division of Student Affairs is to ensure that all students are able to take advantage of the formal and informal educational experiences offered by The Florida State University. The Vice President for Student Affairs and his staff are responsible for the following departments:

- Career Center
- Campus Child Care
 - Educational Research Center for Child Development
 - Alumni Village Child Development Center
 - Starlight Child Care Center
- Center for Civic Education and Service
- International Center
- Center for Academic Retention and Enhancement (CARE)
- Campus Recreation
- University Housing
- Student Counseling Center
- Dean of Students Department
 - Student Disability Resource Center
 - Office of Student Rights and Responsibilities
 - First-Year Experience (FYE)
 - Victim Advocate Program
 - Office of Orientation
 - Withdrawal Office
 - Greek Affairs
- Student Government
 - Center for Participant Education
 - Student Alert Force and Escort Service (SAFE)
 - Student Legal Services
 - Women's Center

- Thagard Student Health Center
- Campus Alcohol and Drug Information Center
- Oglesby Union
 - Flying High Circus
 - Student Campus Entertainment
 - Organization and Leadership Services

Some of these departments and their programs are discussed below; however, for more complete information, refer to *The Florida State University Student Handbook*. The *Handbook* is available at the Union Information Center.

The University also offers the following student service programs, which are administered by their individual offices or departments:

- Evaluation Services
- Food Services
- Parking and Bus Services
- Postal Services
- Public Safety
- Radio and Television
- Sports

For academic support services, refer to the "Academic Advising and Academic Support Services" section of this *General Bulletin*. For employment services, refer to the "Financial Information" section.

Career Center

The Career Center, located in the *University Center, A4100*, helps students in all phases of their career development. The center's Curricular-Career Information Service unit helps students explore their skills, interests, and values and select appropriate academic programs and occupations to reach their career goals. The Center's career library provides students access to both computer-based and print career assessment and information resources. The **Career Experience Opportunities Program** helps students explore career choices through various preprofessional internships and cooperative education work experiences. Students nearing the end of their academic programs find help in the **Career Placement Services** unit that administers the on-campus recruitment program and helps students develop effective job search techniques. Placement services are offered also through the Career Center in the colleges of Business and Engineering. For further information regarding Career Center programs and services, please visit our website at <http://www.career.fsu.edu>

Child Care

The **Educational Research Center for Child Development** provides, for a fee, care and educational experiences for a limited number of children from ages 2 1/2 to 5. Children of full-time Florida State University students are given priority for enrollment. Space is limited, so please apply early.

The Center is also a site for research by faculty members and graduate students in the areas of early childhood education and child development. In addition, it provides a laboratory setting in which students may observe or work with young children. For additional information, contact *Educational Research Center for Child Development, Division of Student Affairs, 370 Hull Drive, Tallahassee, FL 32306-4410, (850)644-1013*; website: <http://www.fsu.edu/~staffair/child/>

The **Alumni Village Child Development Center**, located in the University's family and graduate housing area, provides, for a fee, an educational child care program for children 2 1/2 to 5 years of age. Space is limited, so please apply early. A free after-school program is provided for residents of Alumni Village. This program operates Monday through Friday from 3:30 p.m. to 5:15 p.m.

The **Starlight Child Care Center** provides, for a fee, evening care for children ages three to eleven from 3:15 p.m. to 10:15 p.m. Monday through Thursday. Children of Florida State University students and faculty/staff will be accepted. Space is limited, so please apply early.

Community and Public Service

The Florida State University encourages students to become involved in community service and to broaden their academic experience through service learning courses. The University recognizes outstanding service through the President's Humanitarian of the Year Award. The Florida State University participates in **Campus Compact** and hosts **Florida Campus Compact** and the **Florida Office for Collegiate Volunteerism**, all of which have as their purpose the promotion of student involvement in the community and the advocacy of the importance of civic responsibility in student learning.

Center for Civic Education and Service

At The Florida State University, community involvement and civic responsibility are integral elements of a liberal arts education. The **Center for Civic Education and Service** promotes this vision by providing service opportunities for both students and faculty. The center operates a clearinghouse of service-related information, including a directory of service organizations in the community, a listing of classes that feature service-learning components, and a listing of student organizations that are available for service to the community.

The center also coordinates, advises, and supports many projects and programs related to service. Each semester students are trained as "America Reads" tutors and placed in area elementary schools. In the fall of each year the center coordinates a volunteer fair, an "Into the Streets" service project for freshmen, and a "Make A Difference Day" in October. The **Alternative Break Corps**, **International Medical Outreach**, and the **FSU Service Corps** are student organizations that are advised by the center. The Alternative Break Corps coordinates service trips during spring break to cities around the country. Participants eat, sleep, and work in the community they visit. The FSU Service Corps coordinates one-time projects while providing student leadership for many on-going service programs. The center continues The Florida State University tradition of working with the predominantly Hispanic community in Gadsden County by supporting the Gadsden English as a Second Language program. There are also many partnerships with urban agencies working with children, adults, and the elderly in Leon County. For additional information, contact: *Center for Civic Education and Service, Division of Student Affairs, 930 West Park Avenue, Tallahassee, FL 32306-4180; (850) 644-3342; Fax (850) 644-3362. Web site: <http://www.fsu.edu/~service/>; email: service@admin.fsu.edu*

Testing and Evaluation Services

Evaluation Services provides mark sense scanning services for test scoring, survey analysis, and data collection. The staff administers standardized tests, including the American College Test (ACT), Florida College Level Academic Skills Test (CLAST), College-Level Exemption Program (CLEP), Florida Teachers Certification Exam (FTCE), Law School Admissions Test (LSAT), Miller's Analogy Test (MAT), Medical College Admissions Test (MCAT), National Teaching Exam (NTE), Scholastic Assessment Tests (SAT-1), Applications for these tests and information about test dates are available at the *Evaluation Services Office 106 William Johnston Building (644-3017)*.

The **Assessment Resource Center (ARC)** provides testing services for certain biology and theatre courses. Students should direct questions to their course instructor.

StudentsFirst

StudentsFirst is a walk-up information and service counter located in the ground floor lobby of the *University Center Building A*. Students can ask questions about Financial Aid, Registration, Fee Payments, Admissions, and more. StudentsFirst staff will assist students and direct them to the office and personnel who can handle their specific problems. Students also may use StudentsFirst kiosks to access a variety of other self-service information. There are 15 kiosks in various locations around campus.

Students can now find and print more information than ever directly from the Internet. Some of the services include semester grades, unofficial transcripts, class schedules, and student account status. You also can change your address, view the status of your financial aid disbursement, and make payments using your FSUCard, credit cards or e-checks. Please visit our website at <http://www.studentsfirst.fsu.edu>

Food Service

FSU Dining Services manages the following food facilities located in the Union and throughout the campus: Athletic Training Table, Crossroads Dining Hall, Cyberwraps, Union Market Cafe, Java Blues, Stone Willy's Pizza, 2 Chick-Fil-A locations, Burger King, Pizza Hut Express, Club Downunder, Bagel Basket, SubCity, Barrister's, Food Court, Trading Post, Bubble Tea, and Far East Fusion. The various locations and meal hours provide students with convenience and the freedom from cooking or finding restaurants. Several different affordable meal plans are available, including an all-you-care-to-eat option at the Crossroads Dining Hall. Balanced menus ensure finding healthy food items that meet dietary requirements. The food service office is located on the ground floor of the Oglesby Union, or may be reached by writing: *FSU Dining Services, P.O. Box 67018, The Florida State University, Tallahassee, FL 32313*. You also can find out more information by visiting our website at <http://www.fsudiningservices.com>.

Health Care

All students are encouraged to check out the Thagard Student Health Center web page at: <http://www.fsu.edu/~thagard/> for more complete information, or call (850) 644-6230.

Thagard Student Health Center provides primary out-patient medical care to students and their dependents 13 years and older. Currently enrolled, fee-paying students are not charged for office visits. Additional services such as lab, x-ray and pharmacy and physical therapy are

provided at less than market rates. Services include urgent care, general medical care, gynecology, allergy, immunization, nutrition and health enhancement, lab, x-ray, pharmacy and physical therapy.

Clinical staff diagnosing patients consist of Board Certified Physicians and Advanced Registered Nurse Practitioners. The health center staff includes 80 full time employees and 30 part-time and student staff.

All students are encouraged to have insurance coverage. International students with F-1, F-2, J-1 or J-2 visa status **must** meet federal and state mandates and have insurance coverage. The Florida State University offers a reasonably priced policy that meets these requirements. All students are encouraged to visit our insurance office to obtain information about available policies or check out our website or call (850) 644-4250. Medical care outside the health center facility is the financial responsibility of the student.

All students must meet Florida Board of Education immunization requirements. Health history forms are mandatory for all registered students.

If students are interested in joining a student organization that can make a difference, consider the Health Center Student Advisory Committee. This committee meets at least once a month to make recommendations and give opinions to administration regarding health center policies and the needs of our students.

Thagard Student Health Center sponsors the **Partnership for Alcohol Responsibility (PAR)** project to work with community representatives toward changing campus culture regarding alcohol and how it is marketed to the Florida State University community. PAR is funded by the Robert Wood Johnson Foundation and the Harvard School of Public Health Study.

Counseling Services

The **Student Counseling Center** provides counseling programs and services to help students maintain or achieve a healthy state of mind, enabling them to function academically to the best of their ability. Individual counseling and psychiatric consultation are offered on a time-limited basis; group counseling is unlimited. These services are available to all fee-paying FSU students and to TCC students who purchase a health card. Students who are aware that they will require long-term treatment are encouraged to make arrangements for such care before entering the University; however the Student Counseling Center's staff will make referrals for ongoing treatment in the Tallahassee community, if necessary. Treatment outside the center will be at the student's expense. Initial visits are by appointment, except in cases of emergency. Records of visits to the Student Counseling Center are strictly confidential and are not included in the student's University records. Information concerning use of the cen-

ter will not be released to anyone without written permission from the student involved unless there appears to be clear and present danger to the student or others. Outreach programs on a number of topics are available to faculty, staff, residence halls, sororities and fraternities by contacting the Outreach Coordinator. The center also offers peer facilitator training to enable students to help each other by providing support and encouragement. The Student Counseling Center is located in the *Student Life Building, suite 201*. During Fall and Spring semesters the hours of operation are Monday through Thursday 8:00 a.m. to 6:00 p.m., and Fridays 8:00 a.m. to 5:00 p.m. During Summer, the hours of operation are Monday through Friday 8:00 a.m. to 5:00 p.m. Call (850) 644-2003 to make an appointment or come by the center. The Student Counseling Center is accredited by the International Association of Counseling Services.

The **Florida State University Psychology Clinic** provides therapy services for a variety of client concerns, including problems related to anxiety, depression, relationship issues, stress, and other personal issues. The clinic also conducts intellectual, academic, personality, and learning disability evaluations.

Therapy fees are on a sliding scale that is based on the client's financial resources, and fees for assessments are at a low, flat rate.

Clinic therapists are graduate students seeking their doctoral degrees in the Clinical Psychology Program and all work is closely supervised by clinical psychology faculty.

To apply for services, call the clinic at (850) 644-3006. The clinic is located in the *Regional Rehabilitation Center Building, 2nd floor*. Hours are Monday – Thursday from 8:00 a.m. to 9:00 p.m., and Friday from 8:00 a.m. to 4:00 p.m.

Housing

The **Office of University Housing** makes available living accommodations for full-time, degree-seeking, fee-paying students. Residence hall staff members seek to create living environments that promote the personal and intellectual development of resident students. For more information, see the "Housing" chapter of this *General Bulletin*.

International Center

The **International Center** serves international students, visiting scholars and their families by orienting them to the campus and community, and providing information and referral in personal, social, and financial matters. The center's international student advisors and the scholar advisor provide immigration counseling to students and scholars in F-1 and J-1 visa status and serve as the University's liaisons with the U.S. Immigration and Naturalization Service and the United States State Department. The immigra-

tion staff also processes H1B and permanent residence paperwork for University faculty and staff. The staff offers support to international student organizations and administers the center's programming and leisure activity areas.

The center sponsors and encourages international programming throughout the campus. Ongoing programs sponsored through the center are the following: **International Friends Program**, a program that links international students with community people; **Small World Speakers Bureau**, a service that arranges for international students to speak on campus and in the community; the **International Food Bazaar**; **Global Gatherings**, a weekly brown-bag discussion series on international topics; and **International Women's Group**, a social support group for wives of international students. **Beyond Borders**: International Service and Cultural Exchanges with the University of Costa Rica, the University of the West Indies and the Technical University-Dresden (Germany) are also coordinated through the center. The International Center is located at *107 South Wildwood*. Call (850) 644-1702 or consult the website: <http://www.fsu.edu/~fsu-isc> for information.

Center for Academic Retention and Enhancement (CARE)

The Florida State University is committed to recruiting, retaining, and graduating first generation college students who demonstrate a strong potential for success, but who may otherwise not have the opportunity to attend college due to economic, educational, or cultural circumstances. The Center for Academic Retention and Enhancement was established to help fulfill these goals.

The **Center for Academic Retention and Enhancement (CARE)**, administers two former programs — the Horizons Unlimited Program (HUP), and the Summer Enrichment Program (SEP) — which have been combined to form the **CARE Summer Bridge Program**. The Florida State University's pre-collegiate programs, including the Upward Bound Program and the College Reach Out Program are administered through this center as well. CARE introduces students to the responsibilities and opportunities of college life, encourages the development of useful study habits, and assists students in recognizing their potential for success. The center provides a caring environment for students to discuss their academic, personal, and/or social concerns with a friendly, supportive staff.

College Programs

The **Student Support Services Program (SSSP)** is a federal TRIO grant program that provides opportunities for academic development and assists FSU students in motivating them to successfully complete their post-secondary education. The goal of SSSP is to in-

crease the college retention rate and graduation rates of its participants and to facilitate the process of transition from one level of higher education to the next.

Pre-Collegiate Programs

College Reach Out Program is a state-funded program established to identify, motivate, and prepare disadvantaged middle and high school students to pursue post-secondary education.

University Experience Program is a two-week summer residential program designed to give selected disadvantaged high school juniors and seniors an opportunity to gain exposure to college life. Students receive verbal and math skills instruction in preparation for the Scholastic Achievement Test (SAT), which they take at the beginning and end of the program. They also participate in cultural enrichment and leadership activities.

Upward Bound Program (located at James A. Shanks High School in Quincy, Florida) is a federally-funded program that serves high school students from low socio-economic backgrounds. The UBP staff helps students develop academic skills and encourages them to complete high school, and continue their formal education at the college or university of their choice.

Parking and Bus Services

The **Office of Parking and Transportation Services** is responsible for the administration of the parking and transportation program on campus. The University requires students, staff, and faculty who want to park on campus to display a valid Florida State University parking permit. Temporary permits are available when needed. Enforcement hours are from 7:30 a.m. to 6:30 p.m., Monday through Thursday, and 7:30 a.m. through 4:30 p.m. on Fridays. Permits are distributed by the Student Financial Services located at *University Center A1500*, 8:30 a.m. to 4:30 p.m., Monday through Friday.

The office has the authority to ticket, tow, or boot (auto cuff) illegally parked vehicles and to charge for late payments of citations. Appeals of citations are reviewed by the Parking Violations Appeals Board, an administrative body representative of the University community.

Parking is extremely difficult on the University campus. It is suggested that students walk, bike, or use the **Seminole Express**, the University's free campus bus service. Students may park in the Campbell Stadium lot where buses pick up at ten-minute intervals and deliver students to the campus. The buses operate from 7:30 a.m. to 5:00 p.m., Monday through Friday. Students with valid IDs may ride the Free Fare buses on TalTran's (city of Tallahassee public transportation) designated bus stops within the city.

Bicycle Parking

In accordance with the Florida Americans with Disabilities Act of 1993, State of Florida Fire Marshal's Rules and Regulations and University rules, it is unlawful and dangerous to park bicycles in locations where they impede pedestrian or vehicular traffic. Prohibited areas include: 1) any area within six feet in front and to the side of any entrance to or exit from any building; 2) within any sidewalk; 3) on any access or egress ramp, steps, stairs or handrails; 4) in corridors; and 5) within any roadway or motor vehicle parking spaces.

The Florida State University Police is authorized to cut security chains and remove for impoundment any bicycle parked or stored in violation of this rule.

Any person whose bicycle has been impounded may claim that bicycle within thirty (30) days of impoundment by contacting The Florida State University Police. The burden of proving ownership shall rest upon the person claiming the bicycle. Bicycles not claimed within thirty (30) days shall be considered abandoned and will be disposed of in accordance with State and University rules governing abandoned property. For more information on bicycle registration, where to park your bike and how to operate it safely, please contact The Florida State University Police at (850) 644-1239. Regulations governing parking on campus, bus routes, and schedules are available upon request from: *The Office of Parking and Transportation, UCC 2300, Tallahassee, FL 32306-2650.*

Postal Services

All United States postal services, except COD, are available at the **University Post Office**. Dormitory students are assigned post office box numbers with their room assignments. If they subsequently move off campus, however, arrangements should be made with the University Post Office for continued use of the post office boxes. Students may rent a post office box at \$15.00 each term, \$30.00 a year. All students holding University Post Office boxes should notify the University Post Office of any change of address.

The **Union Copy Center** provides the following services: facsimile service; color copier service; card operated copiers, quick copy service. The center is open from 8:00 a.m. to 5:00 p.m.

Public Safety

The Florida State University's **Police Department** is responsible for all safety and law enforcement functions on campus. The four divisions of the department are administration, police operations, investigations, and support services. The office of police operations provide motor vehicle, bicycle, and foot patrol of the campus 24 hours daily. Campus police, all sworn law enforcement officers, promote cam-

pus safety by presenting public safety programs in classes, residence halls, and Greek and scholarship houses. The office of investigative services provides investigative expertise in matters involving violations on campus of municipal ordinances and applicable federal and state laws.

The Florida State University's *Seminole Safety Guide*, in compliance with the Campus Security Act of 1990, is published and distributed annually at orientation sessions and in the residence halls. The *Safety Guide* describes all safety programs and security services available at the University and contains safety tips and emergency telephone numbers. Copies are available through the FSU Police Department.

Student Government's newest affiliated project is the **Bicycle/Pedestrian Program**. Its purpose is to improve bicycling and walking conditions on campus. The program will sponsor a Bike and Pedestrian Safety Week, register bikes with The Florida State University Police and promote environmentally-safe transportation options for students. The office is located at *A3909 Oglesby Union. (850) 644-2925*

SAFE Connection provides several free services to all FSU students and faculty. SAFE Connection escorts students to and from all areas on campus and selected off campus locations. SAFE Connection hours of operation are from dark until 3:00 a.m. Please don't drink and drive; call *644-SAFE* and let SAFE Connection get you home safely.

The **Blue Light Trail**, composed of 242 strategically placed light poles with emergency call boxes, provides well-lighted pathways around campus; additional light poles currently are under construction as part of ongoing renovation and new construction projects. By pressing the call box button, students are connected with the campus police dispatcher. Students should take note of where the lights and call boxes are located and plan their routes at night accordingly.

Radio and Television

The University-owned and operated **WFSU-FM** and **WFSQ-FM** are Tallahassee's only listener-supported, noncommercial public radio stations. Weekly, listeners tune into classical music, jazz, big band, and new-age music on WFSQ, and local and state news and information programs through National and Florida Public Radio on WFSU.

Students at The Florida State University interested in a career in broadcasting are encouraged to participate in the stations' volunteer and internship programs. Participants are given an opportunity to work within a professional public radio setting and gain valuable experience in many facets of the station's operation, including programming, production, announcing, public relations, and management.

WFSU-TV is an award-winning, noncommercial public television station licensed to the Florida Board of Education and operated by The Florida State University. One of the fastest growing PBS stations in the nation, it recently extended coverage to the western area of the state transmitting on Channel 56, **WFSG-TV**, Panama City.

Both WFSG-TV and WFSU-TV broadcast PBS favorites and locally produced programs that offer news and feature stories, sports events, and community-interest spots.

Fund-raisers, staffed entirely by volunteers, give students an opportunity to gain broadcasting experience as members of the camera crew or production staff. Another way to learn production, public relations, or fund-raising techniques is through a professional-level internship, available only to a few students who are willing to invest a great deal of time and energy.

WVFS—the Voice of Florida State—is a student-run radio station sponsored by the Student Government Association. It serves two purposes: to supply the student body with music and information not available on other local radio stations, and to train The Florida State University students in the basic concepts of broadcasting and radio station management. WVFS also airs specialty shows, news and sports pertinent to University students, and all Lady Seminole basketball games.

Anyone enrolled at The Florida State University or in the FAMU/FSU Cooperative Program is eligible to work for WVFS. Most staff members work on a volunteer basis; however, in some instances college credit can be earned through a Department of Communication course. Students with writing, sales, public relations, accounting, and audio production skills are welcome. Six students also serve on the nine-member board of directors.

The FSU **Video Center** maintains Seminole Cable Vision Channel 17, the Student Government 24 hour Movie Channel. The center also provides VCRs and video cameras for student use, but these must be reserved. The center is always looking for new talent or for anyone interested in learning about its production assistant program. No experience is necessary. (850) 644-1800; Movie Request Line (850) 644-1888.

Recreation and Sports

The **Campus Recreation Office** encourages students, faculty, and staff to be involved in recreational sports through its intramural, extramural, aquatic, fitness and outdoor pursuits programs. On-campus recreational facilities are located primarily in the **Bobby E. Leach Recreation Center**. The center offers basketball, racquetball, and squash courts; a swimming complex; jogging track; whirlpools; and health bar. Several weight-training and fitness rooms are furnished with state-of-the-art equipment. Nearby, students have access to intramural fields, outdoor track and tennis courts, and an

Olympic-sized pool located in the center of campus near Oglesby Union. In addition, the University's 18-hole golf course of medium difficulty is nearby.

The **Seminole Reservation**, a 73 acre lakefront recreational facility, is located within five miles of the main campus. Here students may swim, fish, picnic, and camp. Students may rent sailboats or canoes and take lessons offered throughout the year. A challenge ropes course is provided for team building and leadership training. The reservation has conference room space available for meetings and retreats.

The **Intramural (IM) Office** is a resource for over 35 intramural programs. Separate divisions for various ability levels keep competition fair and fun. Coed programs and recreational divisions are designed for those who enjoy sport as a social activity. The office also hires students to officiate and to supervise intramural games.

Extramural sport clubs, more highly structured than intramural teams, compete with clubs from other universities. See the *Florida State University Student Handbook* for a list of clubs.

Through **Outdoor Pursuits**, students can snow ski, camp, canoe, white water raft, or be otherwise active in the outdoors. Trips, scheduled throughout the year, are open to students and the community.

Dean of Students Department

The primary focus of the **Office of the Dean of Students** is to support the academic mission of The Florida State University and the Division of Student Affairs by providing services, programs, resources and advocacy for the needs and interests of all students. This includes advocacy for students reporting alleged sexual harassment. Staff members provide educational opportunities for students to develop their values, decision-making skills, and leadership capabilities. For more information, contact Dean of Students Department at 4300A University Center, or call (850) 644-2428.

The **Student Disability Resource Center** is the primary advocate for students with disabilities. The SDRC staff monitor the environmental, social, and academic conditions affecting students with disabilities. They provide academic support services indicated by the student's disability, such as readers, note-takers, and sign language interpreters. Students may also receive assistance in registration and housing, and are offered information regarding community resources. The program provides on-campus transportation for persons with mobility impairments. The office maintains the **Theodore and Vivian Johnson Adaptive Technology Lab**, a facility housing computers and other devices that help students with disabilities successfully meet the requirements of their academic programs. For

more information, contact the Student Disability Resource Center, 08 Kellum Hall, or call (850) 644-9566.

The **Orientation Office** offers over fifteen different sessions each year to accommodate the needs of incoming students. Every undergraduate student new to The Florida State University is required to attend an orientation session prior to enrollment. During orientation, students are given essential information regarding University policies and procedures, academic opportunities and requirements, and community values and standards. They also meet with an academic advisor and register for courses. Additionally, orientation participants have a chance to ask questions or discuss their concerns in small groups, which are led by trained student orientation leaders. For more information about the orientation program at The Florida State University, call (850) 644-2785.

The **First-Year Experience** (AMS 1363) is a one-credit-hour course offered only to first-time-in-college students and is coordinated by the Dean of Students Department and the American and Florida Studies Program. The class helps students to understand the importance of a liberal arts education, develop a framework for understanding their university experiences, and become more goal-oriented in their academic and extracurricular experiences. Students learn the history of The Florida State University, including the values of the institution, and explore the various University resources available to them. Faculty and administrators teach the course in small, seminar-style classes of approximately twenty students, and each group has access to a trained peer leader. Students may contact (850) 644-2428 to learn more about the First-Year Experience.

The **Office of Student Rights and Responsibilities** administers student disciplinary procedures in accordance with the Student Conduct Code and maintains official disciplinary records. An emphasis is placed upon educating students about their rights and responsibilities as members of the University community. University codes and policies pertaining to students can be found in the *Florida State University Student Handbook* and the "Academic Regulations" section of this *General Bulletin*. For more information regarding student judicial procedures, call (850) 644-5136.

The **Withdrawal Services** staff provides advocacy for students and their parents when faced with the possible interruption of their University enrollment. The office analyzes student situations to explore possible alternatives, and advises students of the policies and procedures to assist them in making informed decisions. Once the decision to withdraw has been made, staff evaluate fee and grade liabilities according to regulations, and centrally facilitate the processing of all paperwork through the appropriate University officials. The staff also maintains all the necessary and/or confidential records of completed withdrawals. For more information, call (850) 644-1741.

Staff of the **FSU Victim Advocate Program** provide advocacy to victims of crime. An advocate is on call twenty-four hours a day to respond to those Florida State University students who are victimized, and to any person victimized on the Florida State University campus. The services offered include emotional support, instructor notification, referral to counseling services, and educational programming for the campus community. For information call (850) 644-7161 or (850) 644-2277. After hours, call (850) 644-1234 and ask for an advocate.

The Office of Greek Life

The Office of Greek Life oversees the governing bodies of 25 fraternities and 22 sororities, the Interfraternity Council (IFC), the Multicultural Council (MCC), the National Pan-Hellenic Council (NPHC), and the Panhellenic Council. Fraternities and sororities at The Florida State University provide students with an opportunity to establish a sense of community and build a strong support group, while furthering the ideals of scholarship, leadership, service, and social development. For information call (850) 644-2428.

Student Government

The Student Government Association is the student's voice at The Florida State University. Its budget allocates approximately \$5.8 million of activity and service fees. These funds support the activities of the Student Senate and the executive branch, Student Government agencies, and numerous student organizations and University units. Elected and appointed officials enjoy many opportunities to acquire leadership and administrative skills and to learn about their fellow students and the University.

The **Center for Participant Education (CPE)** is a free university that sponsors approximately 150 courses, as well as many films and speakers each semester. Volunteer instructors teach classes in social issues, creative expression, interpersonal relations, movement and exercise, sports, religion, and languages. The center's three Student Government-funded workshops—pottery, wood, and photography—are well equipped and open to students for a small materials fee.

The purpose of the **FSU Service Corps** is to act as a liaison between the students and service organizations within the campus and community. The center's goal is to provide students with opportunities that will help to develop new skills, new interests and new friends—thereby enhancing the quality of their college experience. The bureau is committed to providing the Florida State University students with quality volunteer experiences. (850) 644-0086.

The **Congress of Graduate Students (COGS)** is the representative body for graduate and professional students on campus. It offers travel grants to graduate students, sponsors programs, and acts as an advocate on their behalf.

Students looking for a place to live are invited to consult the **Off Campus Housing Office**. The office provides students with apartment listings, roommate referral, renter's rights guides, and listings for subleases. Students who have a room or apartment to either sublease or rent, come by and we will list it for you. 644-0089.

Student Publications annually produces the *Freshman Record*, and a variety of other student publications. Students write, design, layout, edit, and assist with sales and distribution.

Student Legal Services, a Bureau of Student Government, enables students to have three half-hour consultations a year with a participating attorney at no charge.

The **Women's Center** is a Student Government agency devoted to improving the quality of life for women students and to increasing awareness of the needs and concerns of all women. The center sponsors classes, discussion groups, speakers, films, and services that address social, educational, political, and economic concerns of women. The center also offers pregnancy counseling and serves as a referral agency to community resources. The **Women's Center Resource Library** has books, periodicals, newsletters, and reference files on feminism, birth control, women's health, and other related issues.

The **Alumni Village Child Development Center** provides day care for the Florida State University students and faculty with children between the ages of 2 to 5 years. The center is also an excellent source for work experience in early childhood development and observational research. (850) 644-8305.

The **Starlight Child Care Center** provides after school child care for the Florida State University students and faculty with children between the ages of 3-12. The center is open daily from 3:15 till 10:15 p.m. Workstudy and practicum students are always welcome. (850) 644-3096.

Oglesby Union, Student Life Building, and Flying High Circus

The **Oglesby Union** is the center of student activity on campus, hosting a variety of cultural, educational, social, and recreational activities. Union facilities include a student activities center; an entertainment club; restaurants; study and television lounges; an arts center and gallery; a bowling, billiards, and games room; ticket office; automatic teller machines; information desk; student organization offices; meeting rooms; auditorium; and ballrooms. Located in the Oglesby Union complex are a travel center, hairstyling salon, post office, copy shop, computer lab, and bicycle shop.

Another component of Oglesby Union is **Student Campus Entertainment**, a student-run organization whose members plan and produce a variety of entertainment experiences. Students participate in all facets of entertainment programming, including concert booking, movie scheduling, contract negotiation, security, catering, publicity, and advertising.

The **Office of Organizations and Leadership Services** provides student support services including a registry for clubs and organizations. Staff provide comprehensive leadership programs through "OLS Activities Council" and "Genesis."

The **Student Life Building** houses the Congress of Graduate Students (COGS), the National Pan-Hellenic Council (NPHC), University Housing and Counseling Center. It also has a 400-seat theatre, a cyber cafe with computer games and the Java Blues Cafe.

The Florida State University's **Flying High Circus**, a component of the union, is one of only a few collegiate circuses in the nation. Founded in 1947, the circus has delighted audiences at home and abroad with skillful aerial and floor routines. Students work as their own riggers, put up the big top, spread sawdust, and string lights. Performers can receive one academic credit, but no academic scholarships or tuition waivers are available.

Office of Veterans' Affairs

The **Office of Veterans' Affairs** serves veterans and their dependents by providing information about work-study employment and referrals to counseling, medical, and other community resources. The Office of Veterans' Affairs is located within the Office of the University Registrar.

UNDERGRADUATE DEGREE REQUIREMENTS

Degrees Offered

The Florida State University confers at the bachelor's level the bachelor of arts, bachelor of fine arts, bachelor of science in nursing, bachelor of music, bachelor of music education, and the bachelor of science degrees, the requirements for which are described in detail below. Students may find requirements for all graduate degrees (master's, specialist, professional, and doctoral) in the *Graduate Bulletin*.

Students pursuing a baccalaureate degree at The Florida State University must meet a number of state—and University—wide degree requirements as they progress through their course of studies. In general, freshman and sophomore students in most majors emphasize work in a broad-based liberal arts curriculum, described below as the Liberal Studies Program, and in consultation with their advisers select a major concentration. By the end of the sophomore year, all students should have completed at least half of the Liberal Studies Program including the composition and mathematics requirements in Areas I and II and passed the Florida College Level Academic Skills Test (Florida CLAST) or approved alternative.

At about the end of the sophomore year, students formally select a major and request acceptance by the college or school in which the major is taught. Students transferring into the University with an associate in arts (AA) degree from a Florida public community college or university, or transferring fifty-two (52) or more semester hours of credit, are admitted directly into the college or school of their choice.

Students at the junior and senior level complete the requirements of their chosen major and often of a minor field. They may also have to fulfill additional requirements specific to their college or school and/or certification requirements to engage in a particular profession for which their undergraduate major is preparatory.

Understanding these degree requirements is crucial to the smooth progression to graduation. Students are encouraged to consult with their academic advisers regularly throughout their undergraduate years to ensure that they are making appropriate progress toward their degree and to consult their academic deans' offices, the Center for Advising Undeclared Students (CAUS), StudentsFirst Advising, and the Office of the University Registrar for assistance and clarification of degree requirements.

Baccalaureate Degree Requirements: An Overview

The Florida State University will confer the bachelor's degree when the following conditions have been met. Restrictions may be found under 'Transfer Credit' in the "Academic Regulations and Procedures" section of this *General Bulletin*.

General Requirements

1. Satisfactory completion (a minimum adjusted grade point average of 2.0 on all courses used for liberal studies) of The Florida State University's Liberal Studies Program, thirty-six (36) semester hours, as follows:

Area I. Mathematics (six [6] semester hours)

Area II. English Composition (six [6] semester hours)

Area III. History/Social Science (six [6] to twelve [12] semester hours)

Area IV. Humanities/Fine Arts (five [5] to eleven [11] semester hours)

Area V. Natural Science (seven [7] semester hours)

For details, please see 'The Liberal Studies Program' of the "Undergraduate Degree Requirement" section of this *General Bulletin*.

2. Satisfactory completion of FAC Rule 6A-10.030, the "Gordon Rule," requiring specific course work in composition and mathematics. Students are expected to demonstrate proficiency in the use of spoken and written English in all of their University activities;

3. Satisfactory completion of the Florida CLAST or approved alternative;

4. Satisfactory completion of major requirements in a chosen degree program, including additional requirements set by the college or school offering the degree. The student's degree program will appear on the baccalaureate diploma. If a student satisfies the requirements for two majors, both degree programs may appear on the diploma;

5. A minimum adjusted grade point average (GPA) of 2.0 on all course work taken at The Florida State University and an overall 2.0 average on all college-level work attempted;

6. Successful completion of a minimum of one hundred twenty (120) unduplicated semester hours, only two (2) hours of which may be in physical education activity courses;

7. Completion of at least forty (40) semester hours in courses numbered 3000 and above;

8. Completion of the last thirty (30) semester hours in residence at this University. In cases of emergency, a maximum of six (6) hours of the final thirty (30) semester hours may be completed by correspondence or residence at another accredited senior institution with the approval of the academic dean. College-Level Examination Program (CLEP) credit earned may be applied to the final thirty (30) hour requirement provided that the student has earned at least thirty (30) semester hours credit at The Florida State University;

9. Sixty (60) semester hours of the work credited toward a baccalaureate degree must be earned in an accredited senior institution;

10. Students who have entered a university in the State of Florida, Division of Colleges and Universities, with fewer than sixty (60) hours of credit in the fall of 1976 or any time thereafter are required to earn at least nine (9) hours prior to graduation by attendance in one or more summer terms at one of the eleven State of Florida senior institutions. The University President may waive the application of this rule in cases of unusual hardship to the individual. Students wishing waivers submit written requests giving the details of their hardships through their academic deans to the Dean of the Faculties; and

11. Successful completion of coursework constituting the student's program of studies, minor, honors thesis, or certification examination does not guarantee award of the baccalaureate degree. Faculty judgement of the academic performance of the student is inherent in the educational process in determining whether the award of the baccalaureate degree or admission into a higher level degree program is warranted.

Note: for the purpose of establishing residency, the various summer terms are considered one semester.

Following is a full discussion of state- and University-wide degree requirements at the undergraduate level. Requirements specific to a particular college or school may be found in the section of this *General Bulletin* describing that college or school. Major and minor requirements may be found under the appropriate department in the departmental listings.

Division of Undergraduate Studies

Dean: Sandra W. Rackley; *Associate Dean:* Bruce Janasiewicz; *Assistant Deans:* Gregory Beaumont, Linda Mahler

The Division of Undergraduate Studies is responsible for the supervision and monitoring of all state—and University—wide degree re-

quirements as well as University-wide academic support offices. Overseen by the Dean of Undergraduate Studies, the division includes the Office of Undergraduate Studies (the academic home of most freshmen and sophomores), the Center for Advising Undeclared Students, the Center for Academic Retention and Enhancement (CARE), the University Honors Program, and the Center for Retention and Academic Support, and StudentsFirst Advising. For further information on these academic support offices see: 'Honors Program' in the "University Honors Program and Honor Societies" section, and 'Center for Advising Undeclared Students', the 'Center for Academic Retention and Enhancement', and the 'Center for Retention and Academic Support' in the "Academic Advising and Support Services" section of this *General Bulletin*.

Freshmen and sophomores have their programs and course work supervised by the Office of Undergraduate Studies. Exceptions to this placement are students accepted into the School of Music or into the bachelor of fine arts (BFA) program in theatre or dance. Students in these performance majors are advised and supervised directly within their own schools or departments. The Office of Undergraduate Studies is the dean's office that administers the academic and advisement program, regardless of intended major, for all other freshman and sophomore students.

The Liberal Studies Program

As one of its primary goals, a university education should foster in the student a spirit of free inquiry into humane values, while developing the mind as an instrument of analysis and synthesis. Essential to the student's quest for knowledge and to responsible participation in society is an understanding of one's self and of the natural and social environment. The Liberal Studies Program is intended, therefore, to provide a perspective on the qualities, accomplishments, and aspirations of human beings, the past and present civilizations they have created, and the natural and technological world they inhabit. The Liberal Studies Program, designed to ensure breadth in the student's academic experience, while at the same time affording flexibility in satisfying requirements, may be extended throughout the undergraduate years with the exception of Areas I and II. The five areas of liberal studies provide students with essential competencies and introduce the student to broad areas of knowledge.

Students are required to complete (or be exempted from with credit) a minimum of six (6) semester hours of mathematics and six (6) semester hours of English composition, six (6) to twelve (12) semester hours in social science/history, five (5) to eleven (11) semester hours in humanities/fine arts, and seven (7) semester hours in natural science (one course must be accompanied by a scheduled laboratory) for a total of thirty-six (36) semester hours.

Liberal Studies Requirements

The liberal studies requirements must be met by completion of appropriate course work or by combination of course work and credit by examination within the limits set below:

1. **Credit by Examination.** A maximum of thirty (30) semester hours of credit earned through examination may be applied to the liberal studies requirements;
2. **Course Work.** An overall 2.0 average or better is required for course work used to satisfy the liberal studies requirements.
3. To satisfy the requirements of The Florida State University for FAC Rule 6A-10.030, students must also earn a grade of "C-" or better in each of the courses used to fulfill the liberal studies requirements in Area I (mathematics), Area II (English composition), and four more liberal studies courses designated by the Undergraduate Policy Committee as requiring 3,000 words of writing (courses indicated with a "W");
4. Courses listed as "directed individual study" (DIS), "senior honors thesis," or "senior seminar" cannot apply to the Liberal Studies Program;
5. No course may be applied to more than one area of the program;
6. No courses taken on a satisfactory/unsatisfactory (S/U) basis may apply to the liberal studies requirement;
7. A student who transfers to The Florida State University from a Florida public community/junior college or senior institution will be deemed to have satisfied the University's liberal studies requirement if all general education requirements stipulated by the community/junior college or senior institution have been met and the student's transcript has been so marked; and
8. A course approved for liberal studies credit at the time the course was completed will meet liberal studies requirements, even if the course was not listed as a liberal studies course in the *General Bulletin* under which the student entered.

Courses for the Liberal Studies Program shall be selected from the following five areas. Students should check departmental curriculum listings to determine prerequisites and course duplications prior to taking courses.

Note: some students will be required to take preparatory course work prior to enrollment in English composition and/or mathematics courses. See 'Required Preparatory Courses' in the "Office of the University Registrar" section of this *General Bulletin*.

Area I. Mathematics

Students must complete (or be exempted from with credit) at least six (6) semester hours in mathematics. Eligible students will enroll, as

space permits, in three (3) semester hours in the Department of Mathematics during their first regular length term on campus and continue with the course until it has been completed. All six (6) semester hours of the mathematics liberal studies requirement should normally be completed by the end of the sophomore year.

Students must complete three (3) semester hours in the Department of Mathematics and three (3) additional semester hours in the Department of Mathematics or the Department of Statistics, or take a course from a list approved by the Faculty Senate and maintained by the Office of Undergraduate Studies.

Area II. English Composition

Students must complete (or be exempted from with credit) at least six (6) semester hours in English composition. All students, with such exceptions as have been or may be established by the Faculty Senate, shall complete the required English writing courses during their first academic year in residence at The Florida State University or must show exemption from six (6) semester hours of freshman writing courses. Each of these courses will require 6,000 words of writing. All courses used to satisfy this requirement (FAC 6A-10.030) must be completed with a grade of "C-" or higher.

Students must complete either ENC 1101 (or 1121) and a second course from the following list. Most students take ENC 1102 (or 1122) as the second course.

ENC	1101W	Freshman Composition and Rhetoric (3)
ENC	1102W	Freshman Writing About Literature (3)
ENC	1121W	Freshman Composition and Rhetoric: Honors (3)
ENC	1122W	Freshman Writing About Literature: Honors (3)
ENC	1142W	Freshman Imaginative Writing Workshop (3)
ENC	1144W	Freshman Article and Essay Workshop (3)
ENC	1145W	Freshman Special Topics in Composition (3)
HIS	1003W	Writing for History (3)

Additional courses may be approved and added to the above list from time to time.

Area III. History/Social Science

Students must complete six (6) to twelve (12) semester hours, including a minimum of three (3) semester hours of history and three (3) semester hours of social science.

History

AFH	1000xW	African History and Civilization (3)
AMH	1000W	American Civilization (3)

#Note: on credit limit for music series MUH 2051–2052 and for dance series DAN 3144 – 3145 – 3146; credit toward liberal studies requirements will be given for only one course in each series.

Area V. Natural Science

Students must complete a minimum of seven (7) semester hours. One of the courses must be accompanied by a corresponding laboratory.

ANT	2511x	Introduction to Physical Anthropology and Prehistory (3)
AST	1002	Planets, Stars, and Galaxies (3)
AST	1002L	Introductory Astronomy Laboratory (1)
AST	3033W	Recent Advances in Astronomy and Cosmology (3)
BSC	1005	General Biology for Non-majors (3)
BSC	1005L	General Biology Laboratory for Nonmajors (1)
BSC	2010	Biological Science I (3) For science majors.
BSC	2010L	Biological Science I Laboratory (1)
BSC	2011	Biological Science II (3) For science majors.
BSC	2011L	Animal Diversity Laboratory (2) For science majors.
CHM	1020	Chemistry for Liberal Studies (3)
CHM	1020L	Chemistry for Liberal Studies Laboratory (1)
CHM	1030	Survey of General Chemistry (3)
CHM	1045, 1046	General Chemistry I, II (3, 3) For science majors.
CHM	1045L, 1046L	General Chemistry Laboratories I, II (1, 2)
CHM	1050, 1051	Honors General Chemistry I, II (3, 3) For science majors.
CHM	1050L, 1051L	Honors General Chemistry Laboratories I, II (1, 2) For science majors.
CHM	2200C	Survey of Organic Chemistry (4)
GLY	1000	Dynamic Earth (3)
GLY	1000L	Dynamic Earth Laboratory (1)
GLY	1040	How to Build a Habitable Planet (3)
GLY	1042	Planetary Geology (3)
GLY	1070	Living on the Water Planet (3)
GLY	1102	Dinosaurs and Disasters on an Evolving Earth (3)
GLY	1892W	Environmental Issues in Geology (3)
GLY	2010C	Physical Geology (4) For science majors.
GLY	2022C	Geology for Pre-service and In-service Teachers (4)

GLY	2100L	Historical Geology Laboratory (1)
HUN	1201	The Science of Nutrition (3)
ISC	2003x	Global Change: Its Scientific and Human Dimensions (3)

ISC	2937rW	Natural Science Honors Seminar (3) For honors students only.
MET	1010	Introduction to Atmosphere (3)
MET	1010L	Introductory Meteorology Laboratory (1)
MET	2101	Physical Climatology (2) For science majors.
MET	2700	General Meteorology (3) For science majors.
OCE	1001	Elementary Oceanography (3)
PCB	2099	Human Physiology (3)
PHY	1020	Fundamentals of Physics (3)
PHY	1020L	Fundamentals of Physics Laboratory (1)
PHY	2048C, 2049C	General Physics A, B (5, 5) For science majors.
PHY	2053C, 2054C	College Physics A, B (4, 4) For science majors.
PSB	2000	Introduction to Brain and Behavior (3)
PSC	2800C	Earth Science for EC/EE Teachers (4)
PSC	2801C	Physical Science for EC/EE Teachers (4)

Note: certain restrictions exist regarding the allotment of course credit for the chemistry and geology courses listed above. Students should refer to the course descriptions of each department for specific credit information before registering for these courses.

How Transfer Credit Applies to the Liberal Studies Program

The Office of Undergraduate Studies evaluates transfer credits as they apply to the Liberal Studies Program. A liberal studies check sheet is prepared by this office for each undergraduate transfer student, and copies are distributed to the student, the student's academic adviser, and the appropriate academic dean. Students with the AA degree or General Education Statement from a Florida public senior or community college or other colleges with which The Florida State University maintains an official articulation agreement are exempted from the above evaluation.

The Multicultural Requirement

Students who would be truly educated must have an appreciation of the interrelatedness of and the diversity within cultural traditions. The multicultural understanding requirement recognizes and reflects the full range of human groupings and cultural perspectives as well as the complex relationships among them. Its role is to enhance students' self-understanding and their understanding of the contemporary cul-

tural context, a context characterized by a rich diversity of cultures and experiences in which the Western European intellectual tradition figures as one among many.

Multicultural courses include cross-cultural studies (those courses marked with an “x”) and diversity in Western experience (those courses marked with a “y”). All students who enter the University with fewer than sixty (60) semester hours must complete at least one “x” and one “y” course. Students transferring to the University with sixty (60) credits or more must complete one multicultural course from either designation. These courses may be taken as part of the liberal studies requirement or as electives or as part of a student’s major.

The multicultural requirement must be complete prior to the receipt of the baccalaureate degree.

Oral Communication Competency

Competency in oral communication is indicated by demonstrating the ability to transmit clearly ideas and information orally in a way that is appropriate to the topic, purpose, and audience. It also involves demonstrating the ability to discuss ideas clearly with others, to hear and respond to questions, and to assess critical response appropriately.

A student will satisfy the requirement for competency in oral communication in either of two ways:

1. Petition to have prior demonstration of oral communication competency accepted in place of an approved Florida State University course. Students may petition the Office of Undergraduate Studies to have prior demonstrations of oral communication competency accepted in place of a course at The Florida State University. Acceptable substitutes may include but not be limited to:

- a) A grade of "B" or above in a high school oral communication or speech class;

- b) Verified successful participation in a forensic or debate program in high school, community college, or college; or

- c) Passing with a "C–" or higher a course in public speaking or argumentation in another college or university (including community college).

The need for specific oral communication skills (such as formal lecture/presentation, interviewing skills, or group dynamics) will vary from discipline to discipline, and while a minimum level of oral competency is required, means of assessing such competency must remain flexible. Thus, several courses will be identified as including basic tests of oral competency and students passing these courses with a grade of "C–" or higher will automatically be assumed to have completed the requirement:

2. Earn a grade of "C–" or better in a course which has been approved by the UPC for oral communication competence credit:

- a) Earn a grade of "C–" or better in a course (1–3 semester hours) in the major or minor that has been certified by the Undergraduate Policy Committee as meeting the standards for oral communication competency; or

- b) Earn a grade of "C–" or better in one of the following courses: SPC 1016 Fundamentals of Speech, or SPC 2600 Public Speaking.

Departments may elect to require one of the three listed communication courses.

Regardless of the vehicle, to complete the oral communication competency examination successfully, the student must demonstrate the ability to:

1. Generate an original oral message which clearly presents ideas and/or information;
2. Make effective use of both vocal and physical delivery in the presentation;
3. Use standard American English;
4. Adapt the presentation to the particular audience; and
5. Be receptive to questions and/or criticism.

Courses in the oral performance of literature will not satisfy this requirement.

Currently Certified Courses

AFR XXXX	Sequence of courses (see department for details)
ECH 2050	Chemical Engineering Communication (2)
ECO 3004	Debating Economic Issues (3)
*EML 4551	Engineering Design Systems I (4) and
*EML 4552	Engineering Design Systems II (4)
*Note: both courses must be taken to satisfy the requirement.	
FIL 2110	Screenwriting I (3)

GEB	3213	Business Communication (3)
HEE	4054	The Educative Process (3)
HIS	1103	Speaking About History (3)
INP	4314	Advanced Topics in Performance Management (4)
MET	3940r	Weathercasting (1)
#MUE	3491	Choral Literature and Conducting (2) and
#MUE	3495	Music Education Laboratory (1)
#Note: both courses must be taken to satisfy the requirement.		
^MUE	3494	Band and Orchestral Literature and Conducting (2) and
^MUE	3496	Music Education Laboratory (1)
^Note: both courses must be taken to satisfy the requirement.		
MUY	4402	Music Therapy: Methods and Practium II (3)
NUR	3076	Communication in Health Care (3)
NUR	4642	Substance Abuse and Effects on Health, Family and Profession (3)
PHY	3091	Communication in Physics (2)
PHY	4990	Senior Seminar (1)
SOW	3350	Interviewing and Recording in Research and the Helping Process (3)
SPC	1016	Fundamentals of Speech (3)
SPC	2600	Public Speaking (3)
THE	2020	Introduction to Theatre for Majors (3)

Computer Skills Competency

All undergraduates at The Florida State University must demonstrate basic computer competency prior to graduation. The computer competency requirement may be satisfied in one of two ways:

- Take and pass a course (or course combination) which has been approved for computer competency credit:
 - Take and pass one of the following: CGS 2060 Computer Literacy or CGS 2100 Microcomputer Applications for Business and Economics.
 - Take and pass one of the courses in other departments which have been certified as providing computer competency (these may possibly be combinations of two or more courses which collectively satisfy the competency requirement).
- Demonstrate existing computer competency through a "skills certification" procedure that is provided by departments offering a course that has been approved for certified computer competency.

The need for specific computer competency skills vary from discipline to discipline, and while a minimum level of competency is required, means of assessing such competency must remain flexible. Thus several courses will be flagged as basic tests of computer competency, and students passing these courses with a grade of "C–" or higher will automatically be assumed to have completed the requirement. **Students are encouraged to complete this requirement early in their academic career, preferably during the freshman year.**

Regardless of the vehicle used to satisfy the computer competency requirement, students must demonstrate:

- Basic familiarity with computer hardware, operating systems, and file concepts;
- Working knowledge of a word processor or text editor and at least one other software application (e.g., spreadsheet, database, etc.); and
- Working knowledge of the World WideWeb (WWW) and electronic mail.

Currently Approved Courses

BSC	2010L	Biological Science I Laboratory (1)
CGS	2060	Computer Literacy (3)
CGS	2100	Microcomputer Applications for Business/Economics (3)
CGS	3408	Introduction to Programming with the C Language (3)
CGS	3460	FORTRAN for Nonspecialists (3)
COP	3502	Introduction to Computer Science I (3)
EEL	3705L	Digital Logic Laboratory (1)
EML	3002C	ME Tools (4)
EGN	2212	Engineering Statistics and Computation (3)
EME	2040	Introduction to Educational Technology (3).
MUS	2360	Introduction to Technology in Music (1)
NUR	3167	The Research Process for Professional Practice (2)

Statewide Graduation Requirements

Two Florida statutes apply to the rules for academic progress to be followed by students in the state universities of Florida: the requirements of minimum communication and computation skills as stated in FAC 6A-10.030; and the Florida CLAST. The requirements of these rules follow.

College-Level Communication Skills

FAC Rule 6A-10.030

Procedures. Students will satisfy the requirements of this rule by completing, with a grade of "C–" or better in each course, the liberal

studies requirements in Area I (mathematics), Area II (English composition) and four more liberal studies courses designated by the Undergraduate Policy Committee as requiring 3,000 words of writing (courses indicated with a "W"). These requirements must be completed prior to receipt of an associate in arts certificate from The Florida State University or admission to upper division. For more information, see 'Progression to Upper Division' in the "Undergraduate Degree Requirements" section of this *General Bulletin*.

Exemptions, Waivers, Advanced Placement.

A student shall be allowed to at least partially satisfy the mathematics requirement of Rule 6A-10.030 through exemption in one of the following ways:

- By scoring appropriately on an examination administered on campus by the Department of Mathematics;
- By obtaining a score of at least 680 on the mathematics test of the SAT or the equivalent score (30) on the mathematics test of the Enhanced ACT; or
- By satisfying College-Level Examination Program (CLEP) requirements in mathematics for postadmission exemptions of course work.

Any student who has satisfied CLEP requirements in mathematics and whose high school transcript shows successful completion of higher mathematics course work, including college algebra, trigonometry, and calculus shall be certified as having satisfied the computation requirement of Rule 6A-10.030, though the student may still be required to complete the mathematics requirement for liberal studies.

An Advanced Placement calculus score of 3 or higher will satisfy the second mathematics course for Rule 6A-10.030.

A student may also be allowed to satisfy the English component of 6A-10.030 through one of the following methods:

- Students who score 650 or higher on the verbal portion of the Scholastic Assessment Test (SAT-1) or 29 or higher on the English portion of the Enhanced American College Testing Program test (ACT)—25 on the old test— will be granted three (3) semester hours of credit equivalent to ENC 1101;
- For Advanced Placement (AP) scores of 3 on either English Language and Composition or English Literature and Composition a student will be awarded three (3) semester hours of credit for ENC 1101. A score of 4 or 5 on a single exam earns the student six (6) semester hours of credit for liberal studies and 6A-10.030.

Transfer Credits or Correspondence Credits.

Students transferring to The Florida State University who have been certified by The Florida State University as having completed the requirements of the Liberal Studies Program by virtue of having received the AA degree from their previous institution will be deemed to have satisfied the requirements of Rule 6A-10.030.

Students transferring from other institutions which come under the provision of Rule 6A-10.030 but who have not received the AA degree will be deemed to have satisfied the requirements of Rule 6A-10.030 if the previous institution indicates, by notation on the transcript or by some other form of written certification, that the student has satisfied the rule before leaving that institution.

Transferring students who do not fall into either of the above categories will be required to satisfy The Florida State University Plan for Rule 6A-10.030.

Courses taken by correspondence will be treated in the same manner as courses accepted for transfer.

Florida College Level Academic Skills Test

The Florida CLAST is required by Florida statutes and rules of the State Board of Education for the admission of students to upper-division status in the state universities of Florida. Students may take the Florida CLAST in the first term of enrollment or any term thereafter, but students who have completed or are completing their sophomore year in college and who are seeking admission to upper-division programs in state universities in Florida must present CLAST scores. Transfer students admitted directly to baccalaureate degree programs who have not completed the Florida CLAST must register for and take the Florida CLAST prior to or during the first term of enrollment.

Beginning January 1st, 1996, the following alternatives have been approved to meet statewide requirements of the Florida CLAST. **Students who plan to major in a teacher education program must take and achieve a passing score on all sections of the CLAST. This requirement cannot be waived or met by alternative means.**

1. Any student who achieves a cumulative grade point average of 2.5 or above, on a 4.0 scale, in postsecondary-level in English and mathematics coursework identified by The Postsecondary Education Planning Commission, shall be exempt from the requirement for passing the CLAST subtest in question.

2. SAT I (re-centered) Scores: any student who achieves a math score of 500 or above has satisfied the Computation section; any student who achieves a verbal score of 500 or above has satisfied the reading, English language skills, and essay section requirements of CLAST.

3. Enhanced ACT Scores: students who achieve a score of 21 or above in mathematics have satisfied the computation section requirement of CLAST; students who achieve a score of 22 or above in reading have satisfied the reading section requirement of CLAST; students who achieve a score of 21 or above in English have satisfied the English language skills and the essay section requirement of CLAST.

Individual student scores will become a part of the permanent record of the student. Passing scores for students taking the Florida CLAST during the period of August 1986 through July 1989 are as follows: Reading—270; English Language Skills—270; Computation—275; Essay—4. Passing scores for students taking the Florida CLAST during the period August 1989 through September 1991 are: Reading—295; English Language Skills—295; Computation—285; Essay—4. Passing scores for students taking the Florida CLAST during the period October 1991 through September 1992 are: Reading—295; English Language Skills—295; Computation—290; Essay—5. Passing scores for students taking the Florida CLAST after September 30, 1992, are: Reading, English Language Skills, Computation—295; Essay—6.

Note: because of a change in the grading scale, students not passing the Essay subtest prior to October 1, 1991 must earn a minimum score of 5 to complete the Essay subtest requirement.

All subtests of the Florida CLAST must be passed by the term a student earns ninety-six (96) semester hours of credit. Students exceeding ninety-six (96) semester hours without passing the Florida CLAST will not be able to continue in major course work until appropriate scores have been achieved.

Students must register for and take the Florida CLAST prior to completing their sophomore year. The following skills will be measured:

Reading Skills

- Recognizing main ideas
- Identifying supporting details
- Determining meanings of words
- Recognizing author's purpose
- Distinguishing between fact and opinion
- Detecting bias
- Recognizing author's tone
- Recognizing relationships within and between sentences
- Recognizing valid arguments
- Drawing inferences and conclusions

Writing Skills

- Determining the purpose for writing
- Limiting the subject to the requirements of time, purpose, and audience
- Formulating a thesis statement
- Providing adequate and relevant supporting details
- Arranging ideas in a logical organizational pattern with effective transition between parts
- Using words that convey the meaning required by context
- Avoiding slang, jargon, clichés, pretentious expressions, and wordiness
- Placing modifiers correctly
- Coordinating and subordinating sentence elements
- Using parallel expressions for parallel ideas

- Avoiding fragments, comma splices, and fused sentences
- Using a variety of sentence patterns
- Avoiding unnecessary use of passive construction
- Avoiding awkward constructions
- Using standard verb forms
- Maintaining agreement between subject and verb, pronoun and antecedent
- Using proper case forms
- Using standard spelling, punctuation, and capitalization
- Maintaining a consistent point of view

Computational Skills: Algorithms

- Adding, subtracting, multiplying, and dividing real numbers, including rational numbers in decimal and fractional forms
- Rounding measurements
- Calculating distances, areas, and volumes
- Applying the order-of-operations agreement
- Using scientific notation
- Solving linear equations and inequalities
- Using given formulas to compute results without geometric measurement
- Identifying information contained in graphs
- Determining the mean, median, and mode
- Selecting the sample space associated with an experiment
- Deducing facts of set inclusion or set noninclusion from a diagram

Concepts

- Recognizing the meaning of exponents
- Recognizing the role of the base number in numeration systems
- Identifying equivalent forms of decimals, percents, and fractions
- Determining the order relation between magnitudes
- Recognizing horizontal, vertical, parallel, perpendicular, and intersecting lines
- Identifying relationships between angle measures
- Classifying simple plane figures by recognizing their properties
- Recognizing similar triangles and their properties
- Identifying types of measurement (linear, square, cubic) for geometric objects
- Recognizing and using abstract properties of operations
- Determining whether a number is among the solutions of a given equation or equality
- Recognizing statements of proportionality and variation
- Identifying regions of the coordinate plane which correspond to specific conditions
- Recognizing the properties of the normal curve
- Recognizing samples that are representative of a given population
- Identifying the probability of a specified outcome
- Identifying simple and compound statements and their negations
- Determining equivalence and nonequivalence of statements
- Drawing logical conclusions from data

- Recognizing invalid arguments with true conclusions
- Distinguishing between fallacious and nonfallacious arguments
- Recognizing proof by contradiction
- Identifying characteristics of tasks that computers perform well
- Identifying human functions necessary to use computers
- Identifying possible abuses of computer use

Computational Skills: Generalizations

- Inferring relations between numbers in general by examining number pairs
- Selecting applicable properties for performing arithmetic calculations
- Inferring formulas for measuring geometric figures
- Selecting applicable formulas for computing measures of geometric figures
- Inferring relations among variables
- Selecting applicable properties for solving equations and inequalities
- Inferring relations and making accurate predictions from studying particular cases in probability and statistics
- Inferring valid reasoning patterns and expressing them with variables
- Selecting applicable rules for transforming statements without affecting their meaning

Computational Skills: Problem Solving

- Solving real-world problems involving perimeters, areas, and volumes of geometric figures; the Pythagorean property; the normal curve; and probabilities
- Solving real-world problems inviting the use of variables
- Solving real-world problems that do not require the use of variables
- Solving problems that involve the structure and logic of arithmetic and algebra
- Drawing logical conclusions when facts warrant them

Most courses regularly taken by freshmen and sophomores involve the reading skills covered on the Florida CLAST. Writing skills are specifically addressed in the Liberal Studies Program by the courses in written communication listed under Area II, English Composition. Special instruction is available in the Reading/Writing Center of the Department of English. Many of the computational skills in arithmetic, geometry, and measurement should be mastered before the student enters the University, but assistance in reviewing these skills can be obtained through the Mathematics Help Center of the Department of Mathematics or through a community college course. All computational skills beyond that level are included in the following set of courses: CGS 3062; MAC 1105, 1140; MGF 1106, 1107; and STA 1013. For specific details about which skills are covered in particular courses, students should consult the Department of Mathematics. Special instruction in these skills is also available in the Mathematics Help Center.

CLAST Waiver Criteria

Florida Statutes CH. 240.107(6) and State Board of Education rule 6A-10.0311(7) provide for a waiver of the passing score of a Florida CLAST subtest for students other than those with specific learning disabilities. A student is eligible to apply for a waiver of the passing score on the Florida CLAST if the student can demonstrate proficiency in the discipline of the appropriate subtest. A student who has failed a subtest of the Florida CLAST four (4) or more times but who also demonstrates proficiency in the discipline corresponding to the subtest may petition for a waiver with the student's academic dean. If the academic dean believes the student has demonstrated proficiency in the area of the failed subtest, the academic dean may request that the Committee on CLAST Waivers consider the student's appeal. The Florida State University President grants the waiver upon recommendation by the committee.

The Florida State University has adopted the following working definition of **proficiency**: proficiency in language ability generally means the ability to use the language acceptably and correctly in the four skill areas of listening, speaking, reading, and writing.

Minimum Criteria for Eligibility for CLAST Waivers in the Communications Area for All Students

1. Completion of undergraduate English communication liberal studies courses at The Florida State University with a "C" or better regardless of first language. This requirement applies to all transfer students and those students native to The Florida State University;
2. At the time of the consideration by the Committee on CLAST Waivers, students must have earned a minimum cumulative grade point average of 2.25.

Minimum Criteria for Eligibility for CLAST Waivers in the Communications Area for Non-native English Speaking Students

1. All international students transferring to The Florida State University from any institution of higher education will submit a TOEFL score of 550;
2. All Florida public community college students transferring to The Florida State University without the associate of arts degree whose first language is not English must present a TOEFL score of 550.

Minimum Criteria for Eligibility for CLAST Waivers in the Computation Area for All Students

1. Completion of two of the following undergraduate mathematics liberal studies courses: MAC 1105, 1140; MGF 1106, 1107; or STA 1013 or the equivalent courses with a "C" or better. The University will continue to accept completion of MAC 1102 and MAC 1141 or MAC 1102 and MGF 1207 with at least a "C" as one factor in determining eligibility for a waiver of the passing score on the Computation subtest. **Students should not be advised to take CGS 2060 as a second mathematics liberal studies course if they are having difficulty passing the Computation section of CLAST.** This requirement applies to all transfer students and those students native to The Florida State University;
2. At the time of consideration by the Committee on CLAST Waivers, students must have earned a minimum cumulative grade point average of 2.25.

Progression to Upper Division

For progression to upper-division status at The Florida State University a student must meet the following minimum requirements:

1. Completion of at least sixty (60) semester hours of college credit;
2. Presentation of appropriate scores on the Florida CLAST or approved alternative;
3. Achievement of a minimum adjusted GPA of 2.0 on all work attempted at The Florida State University. **Note:** some degree programs require a higher GPA for admission to upper-division status;
4. Students who began college work prior to October 15, 1982, must complete a minimum of one-half of the required semester hours from the required liberal studies curriculum, including English composition and undergraduate mathematics;
5. Students who began their college-level work on or after October 15, 1982, must complete a minimum of one-half of the required semester hours from the Liberal Studies curriculum, including courses fulfilling FAC 6A-10.030 ("Gordon Rule"). A minimum grade of "C-" is required in each of the courses used to fulfill FAC 6A-10.030;
6. Acceptance by a college or school for admission to a degree program.

Transfer from a lower-division major advisement program to an upper-division degree program is completed by the student's baccalaureate dean after the student has declared a choice and has been declared eligible for transfer under the above requirements. Transfer from undergraduate studies directly into a baccalaureate degree program is accomplished

between the Office of Undergraduate Studies and the appropriate baccalaureate dean under the same conditions.

All transfer students admitted to the University who do not meet the above requirements for admission to an upper-division degree program (except those students majoring in music, dance, or the BFA in theatre) and who have fewer than fifty-two (52) semester hours of transferable credit will be assigned to the Division of Undergraduate Studies. Students with fifty-two (52) or more semester hours of transferable credit will be assigned to the lower-division major advisement program under the appropriate baccalaureate dean unless they request assignment to the Division of Undergraduate Studies. Students requesting assignment to undergraduate studies must do so through the undergraduate admissions office at least one month prior to registration. All students—including transfer students—must have met the requirements for transfer from the Division of Undergraduate Studies by the time they have attempted a total of seventy-five (75) semester hours of college work.

Transfer Among Colleges and Schools for Upper-Division Students

For an upper-division student to change colleges or schools within the University, the student must meet the following requirements:

1. Obtain a signed approval form from the dean of the college or school to which the student wishes to transfer;
2. Obtain an approval signature on that form from the dean of the college or school from which the student wishes to transfer; and
3. Personally submit the original copy of the approved change form to the Office of the University Registrar.

The Associate in Arts

The associate in arts (AA) certificate may be granted through the Division of Undergraduate Studies to students who have completed sixty (60) semester hours with an adjusted GPA of 2.0 or better at The Florida State University and an overall 2.0 GPA on all college work attempted. A minimum of twenty (20) of the last thirty (30) semester hours of work must be earned in residence. Successful completion of the Liberal Studies Program with a 2.0 GPA or better and passing Florida CLAST scores or approved alternative are required for the AA certificate. Students beginning their college program January 1983 or later must also meet the requirements of FAC 6A-10.030.

Students **cannot** apply for both an associate in arts certificate and a bachelor's degree to be awarded in the same semester. Also, the associate in arts certificate cannot be awarded once a bachelor's degree has been conferred.

The awarding of the AA certificate does not alter the calculation of the cumulative GPA at The Florida State University. Certification for the AA certificate in no way affects the requirements of individual colleges/schools for the completion of the major/minor for a baccalaureate degree.

Students interested in receiving the AA certificate and who are completing or have completed all the requirements listed above must officially apply at the Office of Undergraduate Studies.

Teacher Education

State Board of Education Rule 6A-5.066(1), Approval of Preservice Teacher Preparation Programs, states that students planning to matriculate in a teacher education program at The Florida State University must: 1) Complete a sound liberal arts curriculum described below; 2) Take and pass the CLAST; and 3) Acquire a passing score on the professional knowledge and subject area test on the Florida Teacher Certification Exam (FTCE) prior to completion of program requirements. Students must also complete: 1) specified degree prerequisites referred to in the appropriate program sections of this *General Bulletin*; 2) specific admission criteria described in the "Admissions" and "College of Education" sections of this *General Bulletin*; and 3) the "General Requirements" described earlier in this section of the *General Bulletin*.

Note: students should consult with an advisor to determine how to simultaneously satisfy The Florida State University liberal studies requirements and the teacher preparation general education core curriculum requirements.

Teacher education liberal arts curriculum must include the following:

Mathematics:

Nine (9) semester hours in mathematics to include college algebra or above and geometry;

English:

Nine (9) semester hours in English to include writing, literature, and speech;

History/Social Sciences:

Twelve (12) semester hours in social sciences to include American history and general psychology;

Humanities/Fine Arts:

Six (6) semester hours in humanities to include philosophy and fine arts;

Natural Sciences:

Nine (9) semester hours in science to include earth science, life science, and physical science, with a minimum of one associated laboratory.

The Baccalaureate Degree

The Florida State University's general requirements for all baccalaureate degrees (bachelor's degrees) are listed at the beginning of this section under "General Requirements."

Graduation Checks

All undergraduate students must request a graduation check from the Office of the University Registrar, Graduation Section, A3900 *University Center*. This check will be an overview of university requirements needed for graduation. This request should be made at the time the student has earned ninety (90) semester hours of credit or **two terms** prior to the planned graduation date. Florida CLAST scores must appear on the transcript.

Request for a graduation check of major requirements must be made to the student's academic dean **one term** prior to graduation. If a graduation check has not been requested by the time the student reaches one-hundred ten (110) semester hours, a stop will be placed on the student's future registration.

Application for Graduation

Application for a degree must be made to the Office of the University Registrar by the date stated in the academic calendar in the *Registration Guide* during the term in which the student expects to graduate. If the student is unable to graduate at the end of the term for which application was made and the diploma was ordered, the student must again make application for degree no later than the deadline for the next term in which the student expects to graduate. The student must also bear the expense of the second diploma request.

The Bachelor of Arts Degree

The bachelor of arts (BA) degree requires all the general criteria listed at the beginning of this section, **and**

1) Completion of a classical or modern foreign language through the 2000 level (2200 or equivalent course); and

2) Nine (9) semester hours in the fields of humanities and history, in addition to the liberal studies and the foreign language requirement. Courses may be selected from the following schools, colleges and departments: School of Visual Arts and Dance; School of Music; School of Theatre; College of Communication (not including work in communication disorders), and the departments of Classical Languages, Literature, and Civilization; English; History; Modern Languages and Linguistics; Philosophy; or Religion in the College of Arts and Sciences.

Second Baccalaureate Degree

Students may receive a second baccalaureate degree provided that 1) the requirements for the major/minor as well as individual school

requirements for the second degree are satisfied; and 2) thirty (30) semester hours in residence are completed, in addition to the hours required for the first degree. The additional thirty (30) semester hours must be completed in residence after the completion of the first degree. Hours earned by the student during the completion of the first baccalaureate degree, over and above those extra credit hours actually required for the first degree, may not be included in the thirty (30) semester hours. There are no liberal studies or Florida CLAST requirements for the second degree.

Second Baccalaureates and Second Majors

Students should note the difference between a second major and a second baccalaureate degree. To obtain a second baccalaureate, one must meet all requirements of both colleges involved. To obtain a second major, one must meet all requirements of the college of the primary major but only the major requirements of the secondary major. For information about the second major see 'Second Majors and

Academic Regulations' in the "Academic Regulations and Procedures" section of this *General Bulletin*.

Degrees of Distinction

Three degrees of distinction are granted to graduating students, based on **all** college-level work attempted (excluding physical education activity courses) and including the term's work in which baccalaureate degree requirements are completed:

Cum Laude for an overall average of 3.500;

Magna Cum Laude for an overall average of 3.700; and

Summa Cum Laude for an overall average of 3.900.

Degrees with distinction are granted to transfer students who meet all three of the following requirements:

1. The student must complete at this University at least forty (40) semester hours of work, including the final term's work;

2. The student must have the required average on all work taken at this University; and

3. The student must have the required overall average on **all** work attempted, including any transfer credit excluding any physical education activity courses or vocational courses, regardless of how many years have elapsed since the credit was earned. Transfer credit cannot raise a student's Florida State University grade point average.

Graduation "With Honors"

Students who complete and successfully defend an upper-division honors thesis or equivalent honors projects (as defined by individual departments offering honors in the major) will graduate with the designation "With Honors." Students may graduate with one of the three degrees of distinction described above and "With Honors." The "University Honors Program and Honor Societies" chapter of this *General Bulletin* fully describes the Honors in the Major Program.

ACADEMIC REGULATIONS AND PROCEDURES

CREDIT AND CREDIT LIMITATIONS

Academic Honor System

A major concern of any educational institution, ranking with its concern for the advancement and dissemination of knowledge, is the maintenance of high standards of integrity and responsibility in the academic community. The Florida State University recognizes the responsibility of both faculty and students in developing and maintaining these standards.

The legal foundation for the coordinated efforts of faculty and students to uphold academic integrity and combat academic dishonesty is provided in the Academic Honor System (FAC 6C2-3.005), which can be found in the *Florida State University Student Handbook* and follows herein. The specific authority for FAC 6C-3.005, "Academic Honor System," is provided for in 240.227(1), 240.202(1), and 240.261(2) FS; and Florida Board of Education rule 6C-6.0105 "Student Discipline."

Academic Honor Code

The academic honor system of The Florida State University is based on the premise that each student has the responsibility:

1. To uphold the highest standards of academic integrity in the student's own work;
2. To refuse to tolerate violations of academic integrity in the University community; and
3. To foster a high sense of integrity and social responsibility on the part of the University community.

Violations of the Academic Honor Code

1. During examinations, violations of the Academic Honor Code shall include referring to information not specifically condoned by the instructor. It shall further include receiving information from a fellow student or another unauthorized source.

2. Regarding academic assignments, violations of the Academic Honor Code shall include representing another's work or any part thereof, be it published or unpublished, as one's own. It shall also include presenting or submitting any academic work in a manner that impairs the instructor's ability to assess the student's academic performance. For example, plagiarism includes failure to use quotation marks or other conventional markings around material quoted from any source.

3. Violations of the Academic Honor Code shall include obtaining, distributing, or referring to a copy of an examination which the instructor/department has not authorized to be made available for such a purpose.

4. Violations of the Academic Honor Code shall include any act which impedes the ability of other students to have fair access to materials assigned or suggested by the instructor. For example, removal or destruction of library or other source materials violates the Academic Honor Code.

5. Academic dishonesty shall include tampering with another student's work or impairing in any way the instructor's ability to assess the academic performance of another student.

6. Violations of the Academic Honor Code shall include alteration of grades or any other records related to the academic performance of students. This shall also include submitting any false records in order to gain admission to the University.

7. Violations of the Academic Honor Code shall include assisting, attempting to assist, or conspiring to assist another student in committing the offenses as outlined above.

8. Violations of the Academic Honor Code shall include attempting to commit any offense as outlined above.

Student Responsibility

1. Each student shall be responsible for abiding by the Academic Honor Code at all times. If required by the instructor, at the conclusion of each examination or submission of an assignment, each student shall sign a pledge that the student has neither given nor received aid from any unauthorized source during the examination or in preparing the assignment.

2. Any student who violates the Academic Honor Code is expected to report the violation to the instructor and/or the University judicial officer.

3. If a student observes cheating during an examination, the student should consult with the instructor of the course as soon as reasonable so that the cheating may be stopped. If a student otherwise observes or learns of another student's violation of the Academic Honor Code, the student shall either: (a) Ask the student to report the violation to the instructor of the course and/or the University judicial officer; or (b) Report the violation to the instructor of the course and the University judicial officer. In the event that a student asks another student to report himself/herself and such student does not do so, then the student shall report, as soon as practicable, the violation to the instructor of the course and/or the University judicial officer. The student should provide the name of such student or students involved, if known, and furnish such evidence as is available to support the charge.

Faculty Responsibility

1. Any instructor may require the students to sign a pledge at the conclusion of each examination stating that they have neither given nor received aid from any unauthorized source during the examination.

2. An instructor may further define in writing the instructor's specification of the acts which shall constitute a violation of the Academic Honor Code as set forth in Section 6b. The definition shall be explained to each class and shall be effective thereafter for that class.

3. When an instructor believes that a student has violated the Academic Honor Code in one of the instructor's classes, the instructor should discuss the matter with the student. The instructor and student may resolve the problem in a manner acceptable to both. The instructor may consult with or invite the participation of the department chair or dean in the effort to reach an acceptable agreement with the student. The student may discuss the appropriateness of any academic response with the instructor's department chair or dean. Any agreement involving an academic penalty shall be put in writing, signed by both parties concerned, and reported by the instructor to the chair or dean and, for information only, to the University judicial officer. The student shall not be further penalized based on this report alone.

4. If a satisfactory resolution is not reached at the departmental level, the instructor shall refer the matter to an Academic Honor System Hearing Panel. These panels shall consist of five members: one faculty member from the department (school) concerned and appointed by the chair (dean); one faculty member not from the department concerned but appointed by the Dean of the Faculties; and two students appointed through procedures established by the Student Senate. The panel shall be chaired by the Dean of the Faculties or designee, who shall vote only in case of a tie. Procedures of this hearing panel shall be in compliance with Florida Administrative Code Rule 6C-6.105. The University judicial officer may sit as an ex-officio nonvoting member of the hearing panel. The decision of this panel shall be final with respect to the student's guilt or innocence and the appropriate academic penalty, if any. The student shall have the right to continue in the course during the hearing procedures. Should no determination be made before the end of the term, the instructor shall record an appropriate grade to reflect the situation until a final decision is made.

5. The chair of the Academic Honor System Hearing Panel shall be responsible for reporting the decision to the student, the instructor, and the University judicial officer; the latter shall determine whether further action should be taken under the Academic Honor Code.

Academic Penalties

Academic penalties shall include but not be limited to one or a combination of the following: 1) a lower or failing grade in the course, 2) a lower or failing grade or score on the assignment or examination, or 3) additional work to provide evidence of the student's academic performance and/or evidence that the student knows and understands the course material.

University Judicial Officer Responsibilities

1. The University judicial officer shall explore the circumstances and determine whether, in the light of the severity and frequency of the student's violations of the Academic Honor Code, any disciplinary penalty should be imposed. The student may elect a hearing before the Student Supreme Court.
2. The University judicial officer shall determine, with advice from the Student Supreme Court, appropriate disciplinary penalties for students found guilty of violations of the Academic Honor Code.
3. In all cases referred to the Student Supreme Court, the University judicial officer shall submit the report from the chair of the Academic Honor System Hearing Panel and a record of the student's history regarding academic integrity. The University judicial officer shall report the disposition of each case to the student, to the Dean of the Faculties, and to the instructor involved.

Student Supreme Court Responsibilities

1. The Student Supreme Court shall be responsible for hearing all cases brought before it by the University judicial officer. These proceedings shall be conducted in accordance with the guidelines in the Student Conduct Code and other applicable University guidelines.
2. The Student Supreme Court shall, in the light of information concerning this violation and the student's entire history regarding academic integrity, hold hearings to determine a recommended disciplinary penalty in accordance with the procedures of the court.

Penalties

The following are the possible disciplinary penalties for violation of the Academic Honor Code, and they may be imposed singularly or in any combination.

1. **Dismissal**—an indefinite separation from the University. In order to be readmitted, a student dismissed for disciplinary reasons pursuant to the Academic Honor Code must file a petition for judicial clearance with the University judicial officer who will present the petition to the Honor System Committee for review and decision about whether or not the

student shall receive a judicial clearance. All students who receive a judicial clearance will be permitted to return to the University on a probationary basis if they have also met applicable readmission criteria.

2. **Suspension**—a separation from the University for a specified period of time, not to exceed two years. During the period of suspension, a student is excluded from classes and all other University privileges or activities. At the conclusion of the period of suspension, the student will be permitted to return to the University on a probationary basis if the student has also met applicable readmission criteria.
3. **Probation**—a conditional retention of student status until the student graduates from the University or is separated from the University for a period of not less than four years. During the period of the probation, a student's University privileges may be restricted at the discretion of the University judicial officer.
4. **Reprimand**—a written statement from the University judicial officer expressing disapproval of conduct.
5. Nothing in this code shall preclude the imposition of other reasonable sanctions or a combination of sanctions within the authority and discretion of the appropriate tribunal.
6. Disciplinary records shall be maintained under the auspices of the Vice President for Student Affairs.

Honor System Committee

An Honor System Committee shall be appointed by the University President. The committee shall consist of three faculty selected from a list of six provided by the Faculty Senate Steering Committee and three students selected from a list of six provided by the Student Senate. Student members shall be appointed to serve terms of one year and faculty shall be appointed to serve terms of three years. The committee shall keep students and faculty informed concerning the provisions of the Academic Honor System, monitor the operation and effectiveness of the Academic Honor System, and make recommendations to the Faculty Senate and the Student Senate that it may deem appropriate.

Amendment Procedures

Amendments to the provisions of the Academic Honor System may be initiated by the above named committee, by the Faculty Senate, the Student Senate, or by the Vice President for Academic Affairs. Amendments to the Academic Honor System must be approved by the Faculty Senate and the Student Senate. After approval, amendments shall be forwarded to the University for implementation.

General Academic Appeals Process

Grievance Procedure

Students who feel that academic regulations and procedures have been improperly applied in specific instances may have their grievances addressed through the general academic appeals process. In this process, the student brings a complaint first to the instructor, then to the department chair, and finally to the academic dean appropriate to the course involved, stopping at the level at which the complaint is resolved. After following this procedure if graduate students have not resolved their complaint, they must see the Dean of Graduate Studies prior to meeting with the Dean of the Faculties. If no resolution is reached, the student brings the complaint to the attention of the Dean of the Faculties for either resolution or referral to the Student Academic Relations Committee of the Faculty Senate. This committee has the authority to direct, through the Vice President for Academic Affairs, that corrective action be taken when justified.

University Ombudsperson

The Office of the University Ombudsperson provides students of the University community an avenue for confidential exploration of decisions regarding academic issues. Once all other appropriate mechanisms have been exhausted, students may present their case to the University Ombudsperson. The ombudsperson is a neutral facilitator and will assist students with any academic problem or grievance that may arise during their interaction with the University. While he/she may be an instrument for change, the ombudsperson does not resolve issues by any direct use of authority or power, but rather requests a reexamination of the problem.

Notification of Students' Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit to the registrar, dean, or head of the academic department (or appropriate official) written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student's education records that the student believes is inaccurate or misleading. Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is defined as a person employed by the University in an administrative, supervisory, academic, or support staff position (including law enforcement unit and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

*Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, S.W.
Washington, DC 20202-4605*

Students have the right to obtain a copy of The Florida State University's student record policy. You can obtain a copy of the policy from the *Office of the University Registrar, A3900 University Center, Florida State University, Tallahassee, Florida 32306-2480.*

Release of Student Information

The disclosure or publication of student information is governed by the policies of The Florida State University and the Florida Board of Education within the framework of state and federal laws, including the Family Educational Rights and Privacy Act of 1974.

The written consent of the student is required for the disclosure or publication of any information that is 1) personally identifiable of the student; and 2) a part of the educational record. Certain exceptions to that generality, both in types of information that can be disclosed and in access to that information, are allowed within the regulations of the Family Educational Rights and Privacy Act, as described in the following paragraphs:

A. Subject to statutory conditions and limitations, prior consent of the student is not required for disclosure of information in the educational record to (or for):

1. Officials of the University with a legitimate educational interest. A school official is defined as a person employed by the University in an administrative, supervisory, academic or support staff position (including law enforcement unit and health staff); a person or company with whom the University has contracted (such as an attorney, auditor or collection agent); a person serving on the Board of Trustees; or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility;
2. Certain government agencies;
3. Accrediting organizations;
4. Certain financial aid matters;
5. Certain research circumstances;
6. Health and safety emergencies;
7. A Court pursuant to order or subpoena, so long as the student is notified in advance of the University's compliance; and
8. As otherwise provided by law.

B. Subject to statutory conditions and limitations, prior consent of the student is not required for disclosure of certain types of information for:

1. Portions of the educational record for which the student has signed a waiver;
2. Portions of the educational record which are exempted by law including records of law enforcement agencies of the University; employment records of the student within the University; personal records of instructional, supervisory, or administrative personnel; and alumni records related to that student; and
3. Records transmitted to another school or school system in which the student seeks or intends to enroll, since the University generally forwards these on request.

Note: more specific information regarding such exempted information can be obtained by contacting the Office of the University Registrar, *A3900 University Center*. For the complete text of the applicable statutes refer to Section 228.093, Florida Statutes, 20 U.S.C. 1232g, and 34 C.F.R. §99.1, et seq. or write the U.S. Department of Education at *600 Independence Ave., S.W., Washington, D.C. 20202.*

C. **Prior consent of the student is not required** for disclosure of portions of the educational record defined by the institution as "Directory Information," which may be released via official media of the University:

1. Name, date, and place of birth;
2. Local address;
3. Permanent address;
4. Telephone number (if listed);
5. Classification;
6. Major field of study;
7. Participation in official University activities and sports;
8. Weight and height of members of athletic teams;
9. Dates of attendance at the University;
10. Degrees, honors, and awards received;
11. The most recently attended educational institution; and
12. Digitized photo (Florida State University Card).

Important: the information above, designated by the University as "Directory Information," may be released or published by the University without prior written consent of the student unless exception is made in writing by the student.

Request to Prevent Publication of Directory Information

Students may inform the University in writing of the student's desire to prevent publication of such "Directory Information" or release of such information except as required by law. Appropriate forms for such action are made available by the Office of the University Registrar.

Caution: until the University can develop the necessary sophistication in our data systems, a student's request to prevent the release of publication of some of the items of "Directory Information" may result in preventing the publication of all items on that list, including graduation lists, honors, and award lists. The student can help avoid such errors with a gentle reminder to the Office of the University Registrar.

For complete information related to the policies outlined above or concerning the procedures regarding waivers and consent forms, or to challenge the accuracy of the educational record, please contact: *The Registrar, Office of the University Registrar, A3900 University Center, The Florida State University, Tallahassee, FL 32306-2480.*

Class Attendance

Students who are members of an intercollegiate team are required to attend all scheduled class meeting times or scheduled online activities associated with the course delivery. Absences due to illness, personal/family emergencies or injury must be documented. Failure to adhere to the

attendance policy may result in sanctions up to and including suspension from the athletes' sport for the remainder of the season. This policy includes required attendance and completion of all final examinations or evaluations for each class in which the athlete is registered. Student-athletes must remain in good academic standing in order to maintain eligibility during post-season games, the upcoming semester and future competitive seasons. Arranging to make up work missed because of legitimate class absence is the responsibility of the student.

Within the University there are several categories of students that are expected to exhibit behavior that conforms to the group to which they belong. These units include, but are not limited to, ROTC cadets, academic honor societies, veterans, athletes and nursing majors. Membership within these units implies that the student agrees to fulfill the obligations of the organization.

A student reported for excessive absence in any course may be required by the academic dean to drop the course with the grade of "F."

Students reported absent for a period of two weeks or more may be readmitted only by permission of their academic dean. Upon readmission the dean may require a reduction of the academic load.

Religious Holy Days

The Florida State University policy on observance of religious holy days provides that students shall, upon notifying their instructor, be excused from class to observe a religious holy day of their faith. While students will be held responsible for the material covered in their absence, each student shall be permitted a reasonable amount of time to make up the work missed. Instructors and University administrators shall in no way arbitrarily penalize students who are absent from academic or social activities because of religious holy day observance. Students who feel that this policy has been improperly applied in specific instances may have their grievances addressed through the general academic appeals process. In this process, the student brings a complaint first to the instructor, then to the department chair, and finally to the academic dean appropriate to the course involved, stopping at the level at which the complaint is resolved. If no resolution is reached, the student brings the complaint to the attention of the Dean of the Faculties for either resolution or referral to the Student Academic Relations Committee of the Faculty Senate. This committee has the authority to direct, through the Vice President for Academic Affairs, that corrective action be taken when justified. Consult the 'General Academic Appeals Process' section of this chapter for a complete description.

Classification of Students

Students are classified on the basis of semester hours earned as follows:

Freshman, zero (0) through twenty-nine (29) semester hours, classification 1;

Sophomore, thirty (30) semester hours, classification 2;

Junior, sixty (60) semester hours, classification 3;

Senior, ninety (90) semester hours, classification 4;

Graduate, any student admitted to a graduate program, classification 5;

Special Non-Degree Seeking without Baccalaureate Degree, classification 6;

Special Non-Degree Seeking with Baccalaureate Degree, classification 7;

Provisional, classification 8 (graduate students only);

Transient, classification 9; and

High School Students, classification 0.

Special (Non-Degree Seeking) Student Regulations

All new main campus special students will be required to pay a nonrefundable fee of \$15 to Student Financial Services at the time of fee payment.

Academic rules governing regular students (e.g., fees, drop/add, withdrawal, grading policies) also apply to special students with the following exceptions:

1. Special students may enroll for fewer than twelve (12) semester hours (underload) without permission;
2. In place of the retention schedule system for regular students, special students in classification six (6) must meet the following requirement: after attempting fifteen (15) semester hours, undergraduate special students must have achieved and must maintain a 2.0 ("C") average in all courses attempted;
3. In place of the retention schedule system for regular students, special students in classification seven (7) must meet the following requirements: after attempting twelve (12) semester hours, graduate special students must have achieved and must maintain a 3.0 ("B") average in all courses attempted;
4. Failure to achieve or maintain the appropriate grade point average (GPA) will result in a loss of registration privilege;
5. Special students may register for any course or courses on an S/U basis. Special students selecting courses for enrichment or other reasons where grades are not essential are advised to register on an S/U basis or on an audit basis;
6. Work taken as a special student carries no degree credit. Students seeking reclassification from special student to regular student status should consult the "Admissions" section of this

General Bulletin. Up to fifteen (15) semester credit hours earned as a special student may be applied toward an undergraduate degree with approval of the appropriate dean at the time of reclassification, or later.

Consult the "Academic Regulations and Procedures" section of the *Graduate Bulletin* for policies relating to special student status at the graduate level.

Course Loads

The Florida State University regards fourteen (14) to fifteen (15) semester hours as a normal full-time load, and a student will not be considered full-time with fewer than twelve (12) semester hours. Students should take into account the requirement to take nine (9) semester hours of credit in the summer. A student who maintains a twelve (12) semester hour (low/normal) load will not graduate in four academic years unless a total of twenty-four (24) semester hours are taken during summer sessions.

A course load of more than eighteen (18) semester hours or less than twelve (12) semester credit hours must be approved by the academic dean, and in no case may a student register for or receive credit for more than twenty-one (21) semester hours. A student on academic probation must enroll for not fewer than twelve (12) and not more than fifteen (15) semester hours. Special students are not required to obtain an underload permit.

See the *Graduate Bulletin* for policies regarding course loads for graduate students.

Course Examinations

Final examinations in undergraduate courses are discretionary within any given department, but all students, including graduating seniors and graduate students, enrolled in an undergraduate course having a final examination are required to take the examination. The scheduling of a final examination, or a test in lieu of a final examination, at any time other than the regularly scheduled final examination period, is a violation of University policy. A final examination may not be given during the examination period at a time other than that which appears online at <http://registrar.fsu.edu>.

Courses meeting every day at the same hour and classes meeting for more than one time period will hold examinations according to the time and day of the first scheduled class meeting of the week. For example, a class meeting for the first period on Tuesday and for the second period on Thursday will hold its examination at the exam time scheduled for the Tuesday first period.

Under special circumstances, exceptions to final examination policies for individual students will be given consideration by the appropriate academic dean.

Exceptions to the Examination Policy for an Individual Undergraduate Student. Approval by the appropriate academic dean is required for any change in examination time for an individual undergraduate student. The student must first receive written permission from the instructor if the instructor is willing to give a make-up examination at a specified time within the exam week. The student must then petition the dean, giving the reason for the requested exception, and supported by the instructor's written permission. The dean will then notify the instructor in writing if approval is granted.

Make-up examinations are permitted for an undergraduate student when justified by illness, conflicting examinations, four or more examinations in a 24-hour period, or for certain emergencies. Arrangements should be made prior to the scheduled exam.

In case of conflicting examinations, group examinations take precedence over examinations scheduled by class meeting time. In the case of conflicts that cannot otherwise be resolved, the course listed first in the schedule takes precedence over a course listed afterward.

Exceptions to the Examination Policy for an Undergraduate Class. No instructor of an undergraduate course may give a final examination during the separate examination period at a time other than that which appears online at <http://registrar.fsu.edu>, unless the instructor has obtained prior approval from the undergraduate policy committee. Such approval must be requested, in writing, at least three weeks prior to the scheduled final examination. To reschedule a final examination without such approval places the instructor in jeopardy of administrative reprimand by his or her dean and the Vice President for Academic Affairs.

Grading System

Definition	Grade	Quality Points Per Credit Hour
Excellent	A	4.00
	A-	3.75
Good	B+	3.25
	B	3.00
	B-	2.75
Average	C+	2.25
	C	2.00
	C-	1.75
Poor	D+	1.25
	D	1.00
	D-	0.75

Failure	F	0.00
Pass	P	N/A
Satisfactory	S	N/A
Unsatisfactory	U	N/A
Incomplete	I	N/A
Incomplete Expired	IE	0.00
No Grade Received from Instructor	NG	N/A
No Grade Expired	GE	0.00
Withdrawn while Passing	W	N/A
Withdrawn with Dean's Permission	WD	N/A
Examination Credit	EC	N/A
Departmental Examination	ED	N/A

Grade Point Average

Quality points are assigned for each semester hour as listed above. In computation of the required grade point average (GPA) for retention and conferral of a degree, the total number of quality points is divided by the total number of semester hours for which letter grades are received.

All regulations tied to a specific grade average should be interpreted to mean the numerical average associated with that specific grade. Hence, the required "C average or better" on all liberal studies courses is interpreted as "2.0 average or better."

Dean's List

Undergraduate students who are registered for at least twelve (12) semester hours of letter-grade (A-F) courses are eligible for the dean's list. The required grade point average is 3.50, in all colleges and schools, for any given term.

Satisfactory/Unsatisfactory Grading

A. Undergraduate Courses Approved on a Letter-Grade Basis

To encourage liberal education and focus on learning, the University permits limited enrollment in elective courses outside the major, minor, and liberal studies areas on a satisfactory/unsatisfactory basis; the student must have at least second-semester freshman standing and at least a 2.5 grade point average. S/U permit forms must be obtained from and eligibility certified by the Office of the University Registrar by the end of the fourth week of classes. No undergraduate courses in the College of Business are offered under this option.

With the exception of courses in the College of Business, a course outside a student's major, minor, and liberal studies areas normally approved for letter grades, may be elected on the S/U basis and, if completed with an "S" grade, will count toward the minimum semester hours credit required for graduation and upper-division distribution but will not be included in the grade point average. The course grade will be recorded officially as satisfactory ("S") or unsatisfactory ("U"). Registration on an S/U basis is limited to one elective course per term (exclusive of physical education activity courses) and to a maximum total of eighteen (18) semester hours. (See exceptions under section B below.)

In addition to the one elective course, a student may elect to take concurrently a physical education course to be graded on the S/U basis by obtaining proper approvals prior to registration.

Students will be allowed four weeks to decide whether or not they want to take a course on a satisfactory/unsatisfactory basis. They may change to S/U from a letter grade at any time before the end of the fourth week of the term. Courses initially elected on the S/U basis may be changed back to a letter-grade basis until the end of the fourth week of the term.

Approval forms are available in the Office of the University Registrar.

B. Courses Approved on an S/U Basis

Certain other courses that are approved for S/U grades exclusively (practicum, internship, laboratory, student teaching, individual work, research) may be applied toward the major or minor. There is no student option for courses approved on the S/U basis; all students must be graded on an S/U basis. The credits earned in these courses are excluded from the total stipulated in section A (above) as permissible. Also, enrollment in a course offered on the S/U basis only does not exclude enrollment in an elective course under the S/U option (in section A above) in the same term.

C. Graduate Students

Policies and procedures for satisfactory/unsatisfactory grades for graduate students are explained in the *Graduate Bulletin*.

Grading Practices

At the end of each term, a report of each student's grades is made available via The Florida State University student access system and the FSYou website. Grades may be obtained by dialing (850) 644-8888 and selecting option 2 followed by the student's social security number and four-digit registration PIN, or by accessing the website at <http://www.ais.fsu.edu/ais/applications/student>.

Grades earned at another institution cannot be used to improve a grade point average or eliminate a quality point deficiency at The Florida State University.

A student who is passing a course but has not completed all of the required work in the course at the end of the term may, with the permission of the instructor, be assigned a grade of "I." This may include excused absences from final examinations. Grades of "I" are not assigned to any courses if a student withdraws from the University. Unless the instructor notifies the Office of the University Registrar of an extension in time, an "I" or an "NG" not removed by the end of the next term in which the student is enrolled will be recorded as "IE" or "GE;" both "IE" and "GE" are computed as an "F" in the student's overall GPA. An "I" will be changed to a final grade at the time the student completes the required work. Students may not re-register for courses in which an incomplete grade ("I") or no grade ("NG") is pending. If they do so, the original "I" or "NG" will automatically be changed to "F." This "F" grade is not repeatable under the forgiveness policy and is so indicated on the student's permanent record. A grade of "I" or "NG" in a course that is approved for "S" or "U" grades only which is not removed by the end of the next term in which the student is enrolled will automatically become "U," unless the instructor notifies the Office of the University Registrar that there is to be an extension of time.

Once a final grade in a course has been reported by the instructor to the Office of the University Registrar, it cannot be changed except in cases of error in recording. A change in a grade may be made only by permission of the department head and the dean of the college or school.

Grade Appeals System

The purpose of the grade appeals system is to afford an opportunity for an undergraduate or graduate student to appeal a grade the student feels was inequitably awarded, in that it involved a gross violation of the instructor's own specified grading standards, which the instructor has an obligation to announce at the beginning of the course. The student may appeal the grade in the following manner:

Step 1.

The student must approach the instructor in question to discuss the grade and attempt to resolve any differences. A student not in residence for the succeeding term or a resident student who is unable to resolve the differences with the instructor must file an appeal with the instructor's program or department chair, whichever is appropriate, within 60 days following the assignment of the disputed grade.

Step 2.

If still dissatisfied, the student may, after filing a written statement with the program or department chair explaining the basis for the appeal, appear before a board composed of three students nominated by the program or departmental student advisory committee or its counterpart. A negative decision by the board will end the appeal. A favorable decision will be referred to the departmental board described in step 3 (below). The

student advisory board acts as a screening body and determines solely whether the appeal is consonant with the criteria indicated above. The student advisory board must be appointed and its decision made within three weeks of the time that the written statement has been filed with the program or department chair.

Step 3.

A department board comprising three faculty members and two students appointed by the chair must be selected for each case. The departmental board must be appointed and its decision made within three weeks of the time the student advisory board has reached a favorable decision on the grade appeal. A unanimous decision shall be final and binding on all parties concerned. A majority opinion may be appealed by the student or the faculty member to a college-wide board appointed by the dean of the college from nominees supplied by the faculty and student advisory committees respectively. The appeal from the decision of the departmental board must be made by the dissatisfied party within three weeks of the time that decision has been made. The college-wide board must be appointed and its decision made within three weeks of the time that the written appeal has been filed with the dean of the college. The majority decision of this college-wide appeal body shall be final and binding on all parties concerned.

Each committee and board is charged with hearing the instructor in question, if the instructor wishes.

Forgiveness Policy

The grade point average (GPA) is computed by dividing the number of graded hours attempted at The Florida State University into the total number of quality points earned at this University.

Under the forgiveness policy of the Faculty Senate, an undergraduate student (degree seeking) may improve The Florida State University GPA by repeating a course in which a grade of "D" or "F" was received and requesting that the repeat grade be the only one counted in the calculation. Only two such requests are available to any student during the student's undergraduate career. The repeat must be in the same course, taken at The Florida State University.

A student is required to submit to the Office of the University Registrar a forgiveness repeat request using the FSU web site at <http://www.studentsfirst.fsu.edu> or the signed form for grade forgiveness by the midterm date of that term in which the course is being repeated. At any time prior to that midterm date, the student may also submit a written request to cancel the signed form for grade forgiveness for that course, but no change will be allowed after the midterm date. Specific deadlines are published in the University's academic calendar for each term.

Note: this policy affects internal GPA calculations only. The policy does not alter the permanent record (all attempts for a given course

and all grades remain on the transcript) and does not affect the GPA calculations of outside agencies or other institutions who will generally use both grades in their calculation of GPA.

Students may repeat courses in which they received a grade of "D" or "F" without using the forgiveness policy. Both the original and repeat grades will be used in the computation of GPA but credit for only one attempt will apply toward graduation.

A course taken on a letter-grade basis must be repeated on the same basis for the forgiveness policy to apply. A student will not be allowed additional credit and/or quality points for a course repeated in which the student originally made a "C-" or better unless the course is specifically designated as repeatable to allow additional credit. If a course listing is followed by an "r" it may be repeated, regardless of the grade received, for the number of times or hours stated.

Transient or special student course work previously taken at The Florida State University by a degree-seeking student may be repeated under The Florida State University Forgiveness Policy for degree credit purposes. Previous special student work, however, must have been approved for degree credit by the student's academic dean for forgiveness to apply. This change is effective for newly admitted students for Fall 1996 and is not retroactive. The two repeat limitation still applies.

Graduate students should refer to the 'Grading Practices' in the "Academic Regulations and Procedures" section of the *Graduate Bulletin*.

Academic Retention

All students must demonstrate satisfactory academic progress for retention and continued enrollment at The Florida State University. **Satisfactory Academic Progress** includes, but is not limited to, successful completion of credit hours and progression toward completing a degree. The University reserves the right not to retain students who do not demonstrate satisfactory academic progress.

Students should obtain from their academic dean or from the Office of the University Registrar a Retention Table indicating the necessary grade point average (GPA) on all course work taken at The Florida State University required for retention at the University. The Retention Table takes into consideration the number of semester hours the student has attempted and indicates the quality point deficiency which will place the student on academic warning, academic probation, or academic dismissal.

A minimum Florida State University GPA of 2.0 ("C") or better and an overall 2.0 GPA on all college-level work attempted is required for graduation. "College-level work" is interpreted to mean course work attempted for credit at the college level, not to include vocational, technical, or other courses not applicable toward a degree. Students should maintain at least

this minimum at all times to be in good standing. To be retained in the University, a student must achieve an overall Florida State University average at the end of each term which, in the judgment of the University, is sufficiently near 2.0 to permit reaching the 2.0 average by the beginning of the junior year.

Warning

As an aid to students in the Division of Undergraduate Studies and lower-division music, dance, and bachelor of fine arts (BFA) in theatre students (freshmen and sophomores), an “academic warning” will be included with grade reports at the end of the term if the cumulative average has fallen below 2.0 but not low enough to place the student on academic probation. A student will be dismissed if the student’s average falls within the dismissal range after a term of academic warning.

Probation

When any student’s grade point average (GPA) falls within the probationary range, the student will be placed on academic probation for one term. A student on probation must enroll for not less than twelve (12) and not more than fifteen (15) semester hours during the probationary term. If the student fails to remove the probationary status by the end of the term, the student will be dismissed.

Students whose averages were 2.0 or better, but whose averages within one term fall within the dismissal range, will be placed on probation for one term instead of receiving immediate academic dismissal.

Students on academic probation who elect to enroll in a Florida public postsecondary institution (or in an accredited institution within or outside the state) and who receive an associate in arts degree with an overall 2.0 average will have the probationary status and their previous Florida State University average removed upon application for readmission, and will be guaranteed a maximum of sixty (60) semester hours.

Dismissal

The dismissed student must consult the student’s academic dean about criteria governing possible readmission to the University. Students dismissed because of low grade point averages (GPA) may be readmitted by: 1) achieving the required minimum average through correspondence courses offered by the State of Florida, Division of Colleges and Universities; 2) attending and graduating with an associate in arts degree from a Florida public postsecondary institution (or an accredited institution within or outside the state) with an overall college average of 2.0 or higher; or 3) extraordinary approval of the academic dean. In the latter case, if the student fails to achieve the required GPA for unconditional retention during the first term of reenrollment, the student will again be dismissed. Students are not eligible for readmission after two dismissals.

Under option 2, students are guaranteed a maximum of sixty (60) semester hours and their Florida State University grade point average will start over upon readmission.

Grades earned at another institution cannot be used to improve The Florida State University GPA. A student cannot raise the GPA by taking courses at another institution after receiving the associate in arts (AA) degree.

Credit hours earned during any period of dismissal cannot be applied to the minimum one hundred twenty (120) semester hours required for graduation. The only exception made to this provision is for credits earned under option 2 above.

All students who enter The Florida State University are assured retention for their second term. Students may, however, be placed on academic probation at the end of the first enrolled term.

Graduate students should refer to ‘Suspension and Dismissal’ in the “Academic Regulations and Procedures” section of the *Graduate Bulletin*.

Readmission

Returning students who 1) have been dismissed from the University and have not been enrolled for one term or more (including the summer term); 2) withdrew or canceled their registration during a previous term of attendance; or 3) have been out of school for two or more consecutive terms (including the summer term), must submit an application for readmission to the readmissions section of the Office of the University Registrar. This application must be submitted at least 60 days prior to the beginning of the term for which readmission is desired. (Consult the “University Calendar” section of this *General Bulletin* for specific application deadlines.) Readmitted former students are subject to retention requirements in effect at the time of reenrollment. Students claiming classification as Florida residents must also reestablish their eligibility for this classification when applying for readmission.

Any student who attempts college work at any institution other than The Florida State University (including correspondence work) must have official transcripts sent to the readmission section of the Office of the University Registrar. Official transcripts issued directly to students are not acceptable for evaluation and entrance requirements. The University reserves the right to refuse readmission to any student who has an unsatisfactory academic, conduct, or health record. Students who are denied readmission to the University may appeal that decision by filing a written petition with the appropriate academic dean’s office.

Withdrawal From the University

All students, including regular (degree seeking), special (non-degree seeking) and all State of Florida, Division of Colleges and Universities

transient students, who wish to leave the University during a term must formally withdraw. Dropping all classes does not constitute formal withdrawal. Students who do not attend classes and fail to withdraw will be assigned grades of “F” for each course. Withdrawals are initiated in the withdrawal services section of the Office of the Dean of Students in the University Center.

The statement “Withdrew from the University” will appear on the transcripts of students who properly withdraw within the first four weeks of class. After that date, depending on the quality of work at the time of withdrawal, grades of “W” or “F” will be assigned by instructors and placed on the student’s transcript with the withdrawal statement. Under unusual circumstances and upon recommendation of the appropriate academic dean, a student withdrawing from the University may receive “WD” grades in all courses taken that term.

Students who cancel their enrollment during the first five days of classes for a term are not held liable for tuition and registration fees. Those who have paid are eligible for a full refund. Students who withdraw after the first five days of classes but prior to the end of the fourth week of classes are eligible for a 25 percent refund of tuition and registration fees, less the building and capital improvement fees; this deadline is adjusted for shorter summer terms. Students who withdraw after this deadline are fully liable for fees and are not eligible for a refund, except as provided in policies set forth by the Florida Board of Education and The Florida State University.

Should a student wish to register at the University at a later date, a formal application for readmission must be made at least 60 days prior to the beginning of the term in which the student wishes to re-enroll. (See ‘Readmission’ above.)

For further information on refunds, see ‘Refunds of Fees’ in the “Financial Information” section of this *General Bulletin*.

Medical Withdrawal

When a student has been granted more than one medical withdrawal, the Medical Withdrawal Committee will send a letter to the student noting that further withdrawal requests may not be considered. The student is requested to evaluate with their medical provider the number of hours they are capable of handling prior to registration.

FACTS Information

A new service is now available to all current and prospective students of higher education in the state of Florida, the FACTS (Florida Academic Counseling and Tracking for Students) web site. By logging on at <http://www.facts.org> you can perform a variety of tasks, including the following:

- view a map indicating the location of every participating college or university;

- search course catalogs from all public and many private Florida colleges and universities, as well as all state community colleges;
- apply to more than one university or college by entering in your date just one time;
- get questions answered about financial aid;
- plan your course of study, compare majors and degree requirements;
- get a copy of your unofficial transcript;
- investigate career options through your institution's career center; or
- find out general information about every participating college or university in the program.

Second Majors and Academic Regulations

Students pursuing a second major should be aware that the **primary major only** determines the selection of the student's academic dean for the purposes of academic regulations at The Florida State University. That is, rules regarding student dismissal, reinstatement, and all general academic qualifications at the University are governed and enforced by the primary major and that major's corresponding academic dean. Conflicts between primary and secondary major policies shall in all cases be resolved in favor of the primary major. Second major academic deans shall only be concerned with the student's completion of requirements for that second major.

Correspondence Study

The **University of Florida's Division of Continuing Education, Department of Independent Study by Correspondence** administers all correspondence instruction for the State of Florida, Division of Colleges and Universities.

College credit, high school credit, and continuing professional education courses are available anytime, anywhere through regular mail and fax (some by e-mail). Independent Study offers more than 150 courses to students who would like either a flexible schedule or an opportunity to take extra classes. It is possible to enroll any time during the year.

Regularly enrolled students may not engage in correspondence study while in residence at the University. Students who expect to take correspondence courses during a break in residence should discuss these plans with their faculty advisor and then obtain written approval from their academic deans.

Correspondence courses may be taken while a student is ineligible to return to the University for academic reasons, but such courses may not be counted toward an undergraduate degree.

College courses include Advertising, Chemistry, Economics, Education, English, History, Journalism, Management, Marketing, Political

Science, Psychology, Religion, Statistics, and more. **Continuing Professional Education** courses include a Business Leadership & Management Certificate, Dietary Management, Environmental Management Systems, Insurance, Legal Assistant Certificate Program, plus others. **High school** courses cover Accounting, Art, Foreign Language, Health, Humanities, Mathematics, Peer Counseling, Science, and Social Studies.

In 1996, the State of Florida revised General Provisions Rule 64-4.002 at the Bureau of Teacher Certification for the State of Florida. Any teacher in the State of Florida can now use credit correspondence courses, as appropriate, to apply toward the recertification of their teaching licenses. Moreover, there is no limit to the number of courses that may fulfill the requirements.

The current catalog details enrollment procedures, fees, and course information. Call or write now for your free copy: *University of Florida, Department of Independent Study, Division of Continuing Education, Suite D, 2209 NW 13th Street, Gainesville, FL 32609; (352) 392-1711 Ext. 200; or e-mail: Learn@nervm.nerdc.ufl.edu.* Additional information can be found at our home page: <http://www.doce.ufl.edu/indstudy>. Catalogs can also be picked up at The Florida State University's Center for Professional Development, Office of Admissions, or from the student's academic dean.

Experimental Undergraduate Programs

The undergraduate policy committee is empowered to authorize substitution of experimental courses or programs for any University-wide academic requirements, provided that:

1. No substitution continues for more than 18 months without full senate approval;
2. No student be enrolled in such an experimental program without the student's prior knowledge and consent; and
3. No requirement that a student has met by means of such an experimental program be affected, for that student, by subsequent decisions about the permanent status of the program in question, and that the undergraduate policy committee and the Office of the University Registrar be empowered to institute appropriate means for designating and recording the use of such programs on individual students records.

Transfer Credit

Transfer credit is normally allowed for courses completed at or through other regionally accredited institutions of higher learning. No credit, however, is allowed for technical, vocational, or subcollege courses or for courses completed with grades below "D-."

Credit earned from Florida public institutions will be evaluated on the basis of the Common Course Numbering System. Those courses judged equivalent will be accepted for transfer credit. Courses are judged equivalent when the prefix and the last three numerical digits of the course number are the same. Thus, THE 1234 taken at another institution is equivalent to THE 3234 at The Florida State University. Courses not judged equivalent may be accepted for transfer credit at the discretion of the baccalaureate academic dean.

All grades earned at other regionally accredited institutions are entered on a student's record at the time of transfer exactly as earned. Such grades are averaged separately from grades earned at The Florida State University.

The University accepts the associate in arts (AA) degree from Florida public institutions at face value. The student must earn at least sixty (60) semester hours at a senior institution in addition to the hours of credit earned for the AA degree.

Students entering The Florida State University without credit in college algebra will be required to take, or exempt, MAC 1105, MGF 1106, or MGF 1107.

Courses with the prefix "MGF" at or above the level of _106 will be accepted for transfer credit (hours allowed toward graduation). For students transferring from junior or senior institutions that stipulate the MGF course meets "Gordon Rule" requirements, the course will be accepted in partial fulfillment of FAC 6A-10.030. (See the "Undergraduate Degree Requirements" section of this *General Bulletin*.) Students not needing another mathematics course for their major may use this as their second course; students needing more mathematics will follow The Florida State University guidelines regarding their next course.

College work completed with satisfactory grades by a student at a regionally accredited institution of higher learning, prior to graduation from high school, will apply in the normal manner toward the baccalaureate degree at The Florida State University. The Office of Admissions must be provided an official transcript of such work.

An official course-by-course evaluation is required for all academic records from non-U.S. institutions. Students should refer to the 'International Student Admission' section in the "Admissions" chapter of this *General Bulletin*.

Graduate students should refer to the 'Transfer Credit' section in the "Graduate Degree Requirements" chapter of the *Graduate Bulletin*.

Credit for Nontraditional Courses, Including Short Courses

Nontraditional courses have many different purposes, including the recertification of persons for various subject matters and professional specialties. Short courses for credit shall have the same number of contact hours as do

regularly scheduled courses; i.e., a one-hour course must have fifteen (15) total contact hours; a two-hour course must have thirty (30) total contact hours; a three-hour course must have forty-five (45) total contact hours. Alternatively, other nontraditional courses/settings must have an appropriate substitute(s) for the above contact hours, e.g., distance learning might include student/teacher interaction, student interaction with professor-designed materials, or other appropriate interactions. In no case can credit be given with less student participation than the above hours stipulate. Any alternative course(s) must document equivalency with traditional course(s) when such traditional courses exist.

Courses that follow nontraditional scheduling patterns, such as running over from one term to the next, may be scheduled through the Center for Professional Development and Public Service or through the Office of the University Registrar. Course hours must be scheduled in keeping with the above policy on credit for nontraditional courses, including short courses, adopted by the Faculty Senate.

Programs for Acceleration

The Florida State University has established several avenues that permit a reduction in the normal amount of time required to complete the requirements for a baccalaureate degree. Each baccalaureate degree program is so designed that students may complete a minimum of 25 percent of degree requirements through the acceleration mechanisms discussed below.

Early Admission

See the “Admissions” section of this *General Bulletin* for early admission of high school students and the “Office of the University Registrar” section for cooperative programs with Florida Agricultural and Mechanical University, Tallahassee Community College, and the Leon County School Board.

Credit by Examination

The University recognizes the following examination programs for which students may receive academic credit or exemption in lieu of course work. These programs permit the qualified student to earn by examination up to thirty (30) semester hours of credit toward liberal studies requirements and up to sixty (60) semester hours of credit toward total baccalaureate degree requirements.

Students may not receive credit toward the baccalaureate degree for courses taken that are judged equivalent to credit received through one of the following examination programs.

Students earning credit by examination must still satisfy departmental major and/or minor requirements, the University’s course-work re-

quirement of forty (40) semester hours in courses numbered 3000 and above, and the FAC 6A-10.030 writing requirement (see the “Undergraduate Degree Requirements” section of this *General Bulletin*).

Any student may decline Advanced Placement (AP), International Baccalaureate (IB), College-Level Examination Program (CLEP), American College Testing Program/Scholastic Assessment Test (ACT/SAT) English and/or mathematics credit, or departmental examination credit; students desiring to do so must notify the Office of the University Registrar of this intention as soon as possible after successful scores have been received by the student. Students may not drop a course in which they are enrolled in anticipation of receiving examination credit. The successful score must be in hand at the time the student requests permission to drop an equivalent course. A student may not earn duplicate credit by examination through AP, IB, CLEP, ACT/SAT English and/or mathematics, or departmental examinations.

Advanced Placement (AP)

The Florida State University allows credit hours under the college entrance examination board’s Advanced Placement (AP) program. Students who have completed the high school advanced placement course and have achieved a score of **three (3) or better** on the subject matter examination will receive college credit.

Refer to the AP Table at the end of this chapter for college course equivalents and credits earned.

International Baccalaureate Program (IB)

Students receiving the IB diploma will receive up to thirty (30) semester hours of credit for scores of 4 or higher on both higher-level and standard-level examinations. Students who do not receive the IB diploma will receive credit for scores of 5 or higher on higher-level examinations only.

Refer to the IB Table at the end of this chapter for college course equivalents and credits earned.

College-Level Examination Program (CLEP)

The Florida State University grants credit in lieu of course work for the College-Level Examination Program (CLEP). Credits are awarded to any regularly admitted, degree-seeking undergraduate student.

At The Florida State University, CLEP examinations are administered through the Office of Evaluation Services, an open test center for CLEP. Eligibility to receive CLEP credit at The Florida State University will be verified by the Office of the University Registrar.

I. CLEP Test Score Requirements

Subject Matter Examinations

For specific information on the subject matter examinations, inquire at the Office of the University Registrar.

No credit will be awarded for a subject matter examination if the student has already earned **any** course credit in the subject area; e.g., a student may not earn credit in the American Government Examination if a course has been taken in college (junior or senior institution) in that area.

II. Transferability of Credits Earned Through CLEP Examinations

A. Transfer of CLEP for students who have received the associate in arts (AA) degree from a Florida public institution

In accordance with the articulation agreement, and because CLEP credit is regarded in the same category as transfer credit, students who have earned CLEP credit in partial fulfillment of the requirements for the AA degree from a Florida public institution will be awarded credit on the basis of their presentation of the AA degree. The Florida State University will not evaluate individually the credits on which the AA degree is based.

B. Transfer of CLEP credit for students who have completed general education requirements at a Florida public institution but who have not earned the AA degree

Transfer students who have completed a general education program at a Florida public postsecondary institution and whose transcript is so marked will be considered to have completed the Liberal Studies Program at The Florida State University. Thus, a second evaluation of CLEP credits in the liberal studies areas will not be undertaken at this University.

C. Other transfer students

CLEP credits for transfer students other than those identified in sections A and B above will be awarded according to the guidelines at The Florida State University listed under “CLEP Test Score Requirements” above.

The maximum number of CLEP credits accepted from any transfer student is forty-five (45) semester hours or sixty-seven and one half (67.5) quarter hours.

English Credit Through SAT/ACT

Students who score 650 or higher on the verbal portion of the Scholastic Assessment Test (SAT–I) or 29 or higher on the English portion of the American College Testing Program test (ACT) will be granted three (3) semester hours of credit equivalent to ENC 1101.

Mathematics Credit Through SAT/ACT

Students who score 680 or higher on the quantitative portion of the Scholastic Assessment Test (SAT–I) or 30 or higher on the mathematics portion of the American College Testing Program test (ACT) will be granted three (3) semester hours of credit equivalent to MAC 1105.

Departmental Examinations

Departments and programs of the University may offer examinations for academic credit in lieu of course work to undergraduate students upon request. Interested students should consult with their schools or departments concerning the availability of examinations in lieu of specific courses.

General Credit Limitations

Courses taken by correspondence through the State of Florida, Division of Colleges and Universities, approved off-campus courses, and/or courses evaluated and recommended as suitable for credit by the American Council on Education (ACE) may be accepted by the University. The number of hours of such courses acceptable in any individual case is at the discretion of the academic dean. The total number of such courses accepted cannot exceed thirty (30) semester hours.

Not more than two (2) semester hours in activity courses in physical education may be counted toward a degree.

An undergraduate student may be granted a baccalaureate degree under degree requirements specified in the *General Bulletin* at the time of admission, insofar as course offerings will permit, provided the student graduates within a period of six years from date of first entry to the University. A student may elect instead to meet

the degree requirements specified in any subsequent *General Bulletin* covering a period of the student's enrollment.

A student may meet liberal studies requirements by the satisfactory completion of a course approved for liberal studies credit at the time the course is completed, even if the course was not listed as a liberal studies course in the catalog under which the student entered.

Up to six (6) semester hours of cooperative education credits will be accepted provided they are certified as academic credits by the sending institution.

When credits are more than 10 years old they are subject to reevaluation by the appropriate dean before they can be applied toward graduation.

Transfer students must satisfy University requirements in liberal studies unless they have completed the general education requirements at a Florida public institution. For credit limitations on graduate degrees, see the *Graduate Bulletin*.

AP Exam Name, Scores, University Course Equivalent(s), Credits Earned, and Comments*

Foreign language exams are listed at the end of the table.

EXAM NAME	3	4	5	COMMENTS
ART HISTORY	ARH X000 (min. 3 credits)	ARH X050 and X051 (min. 6 credits)	Same as 4

ENGLISH A1	ENC X101	ENC X101 and ENC X102	Same as 5	
ENVIRONMENTAL SYSTEMS	ISC X050 (3 credits)	ISC X050 (6 credits)	Same as 5	ISC X050 is unique to this exam. Interdisciplinary environmental studies course.
FURTHER MATHEMATICS (Advanced Mathematics)	MHF X202	MHF X202 and MHF X209	Same as 5	MHF X209 is unique number for this exam.
GEOGRAPHY	GEA X000	GEO X200 and GEO X400	Same as 5	
HISTORY	WOH X030	WOH X030 and one semester (min. 3 credits) of lower-level History elective depending on student's choice of specialized subject.	Same as 5	All students study 20th Century World History. Higher-Level students also study a 100-year period between 1750 and the present in one of several regions. Standard-Level students do a project in any History subject.
MATH METHODS	MAC X105	MAC X105 and MAC X140	MAC X140 and MAC X233	
MATH STUDIES	MAT X033	MAT X033 and MGF X106	Same as 5	
MATHEMATICS	MAT X147	MAC X147 and MAC X233	MAC X233 and MAC X311	MAC X147 can substitute for MAC X140 and MAC X114
MUSIC	MUL X010 (3 credits)	MUL X010 and additional course determined by institution (6 credits)	Same as 5	Exam has music theory, history, and literature aspects. Emphasis is on post-Renaissance European music with significant additional coverage of alternating world music topics.
PHILOSOPHY	No direct equivalent (min. 3 credits)	Same as 4 (min.6 credits)	Same as 5	Course content is unlike most American university-level Introduction to Philosophy courses. Emphasis is on students' own philosophical skills rather than the philosophy tradition. Students select one major philosophical work on a given theme for Standard-Level, two works for Higher-Level.
PHYSICS	PHY X020C or PHY X020/X020L	PHY X020C or PHY X020/X020L and PHY X009	PHY X053C or PHY X053/X053L and PHY X054C or PHY X054/X054L	PHY X009 is a unique number for this exam.

*Currently under revision at time of printing. Section 240.4015, Florida Statutes, requires the Articulation Coordinating Committee to establish passing scores and course and credit equivalents for IB exams. All credits listed are minimum.

PSYCHOLOGY	PSY X012 or PSY X013	PSY X012 or PSY X013 and additional course determined by institution.	Same as 5	All students study core topics comparable to one-semester Introduction to Psychology. Higher-Level students study two specialized topics and conduct three studies. Standard-Level students study one specialized topic and conduct one study.
SOCIAL ANTHROPOLOGY	ANT X410	ANT X410 and an additional course determined by institution.	Same as 5	All students study core topics and three or four cultures. Higher-Level students have additional theoretical component.
THEATRE ARTS	THE X000 or THE X020	THE X000 or THE X020 and one semester (min. 3 credits) elective credit in theatre history, performance, stagecraft theory or literature depending on student's strengths	Same as 5	All students study core topics in dramatic literature, performance and stagecraft. Higher-Level students do an independent project in a Theatre Arts subject of their choice
VISUAL ARTS	No direct equivalent (3 credits)	Same as 4 (6 credits)	Same as 5	Content will vary widely for each student. All students do both studio work and research notebooks. Standard-Level students choose to emphasize one or the other. Higher-Level students emphasize studio work. Courses in ART and/or ARH prefix may be appropriate.

International Baccalaureate (all modern languages)

Language B

IB Diploma recipients (standard- or higher-level) earn a minimum of one semester (3 credits) of language credit at the Elementary Language II or equivalent level (usually 1121) for a score of 4. Diploma recipients (standard- or higher-level) and non-diploma recipients (higher-level only) who score 5–7 earn a minimum of two semesters (minimum 6 credits) of Elementary Language II and Intermediate Language I or their equivalent (usually 1121/2200) level. No literature credit should be awarded for International Baccalaureate Language B exams.

Language A2

No direct equivalent. Content of Language A2 varies widely. Minimum 3 credits language or literature for a score of 4 (Diploma holders only,) 6 credits of language or literature for a score of 5–7 (all exams for diploma holders, higher-level exams only for others.)

Language A1

No direct equivalent. Content of Language A1 varies widely. Minimum 3 credits in literature for a score of 4 (Diploma holders only,) 6 credits for a score of 5–7 (all exams for diploma holders, higher-level exams only for others.)

IB Latin

LNW X701. This is a unique number assigned to this exam. The IB Latin course includes a reading component and a selection of two out of four authors on a list that changes periodically. Minimum 3 credits for score of 4 (Diploma holders only,) 6 credits for score of 5–7 (all exams for diploma holders, higher-level exams only for others.)

UNIVERSITY HONORS PROGRAMS AND HONOR SOCIETIES

The Florida State University has a long history of providing recognition and support for outstanding students. Through honors programs and honor societies, the University encourages excellence in all of its students. On Honors Night and throughout Honors Week, the University salutes students who have received institution-wide recognition for academic achievement.

The University's tradition of holding a ceremony honoring students for their academic achievements extends back over 60 years. The first "Honors Day" was held on May 4, 1936, and Honors Night continues to be held on the Thursday of the next-to-last week of classes in each spring term. Students recognized include those elected to University-wide honor societies and those designated Outstanding Freshmen and Outstanding Upperclassmen. Special awards are bestowed by the societies. Honors Week is an extended period, centering on Honors Night, of scholarly awards and activities when departmental and college honor groups hold their individual recognition ceremonies. This cherished tradition is under the aegis of the Honors Week Committee, which comprises the presidents of the honor societies.

Some students first achieve academic excellence in high school, some in community college, and some after choosing a challenging major at The Florida State University. The University has such a wide range of honors programs and honor societies that it has the flexibility to recognize and encourage at every stage those students who demonstrate high academic achievement. The information below provides an overview of the University Honors Program and a brief introduction to the academic honor societies.

University Honors Program

Director: Kenneth A. Goldsby;
Associate Director: Diane J. Dowling;
Assistant Director: Debi Carruth

<http://www.fsu.edu/~honors>

The Florida State University Honors Program is nourished by strong liberal arts roots planted in the early twentieth century. Florida State University is the home of the first Phi Beta Kappa chapter in Florida, and the University Honors Program supports the University's long tradition of academic excellence by offering two intellectually challenging curricula—the Liberal Studies Honors Program and Honors in the Major Program. The University broadly supports the Honors Program, with more than 300 Florida State faculty members teaching honors courses and serving on honors thesis committees each year.

The University Honors Program also provides opportunities for The Florida State University's academically talented students to interact with each other. Students are invited to attend guest lectures, enjoy picnics, parties, other social activities, and volunteer for worthy causes. The honors program staff helps to arrange these opportunities, but most of the planning is done by the Honors Council, an elected board of honors students who act as a liaison between honors students, administration, and student government. They also represent the program at state and national conferences.

One of the benefits of being an honors student is that those who do very well in their freshman year are given advance notice in their sophomore year of postgraduate fellowship and scholarship opportunities. Prestigious awards such as the Rhodes, Fulbright, Marshall, Mellon, Goldwater, McKnight, and Rotary require much advance preparation, and the honors program gives early encouragement to some of its most promising students.

The following students comprise the University Honors Program student body:

1. Students who are accepted into the Liberal Studies Honors Program after being invited to apply (see below);
2. Students who pursue Honors in the Major (see below);
3. National Merit Scholars are invited automatically to apply to join the University Honors Program. If accepted, they remain members for as long as they meet honors retention guidelines and retain eligibility for scholarships.

Honors students are visible within The Florida State University for their academic attainments. They are sometimes called upon to represent the student body at official University functions, to work with prospective students, and to serve in a variety of other ways. Honors students have priority registration for all of The Florida State University courses, and receive advising and other support from the staff of the University Honors Program.

The University Honors Program comprises two honors curricula. The Liberal Studies Honors Program provides challenging courses for students who are pursuing the liberal studies and other University requirements. Honors in the Major provides a chance for students to do independent research or creative expression projects during their junior and senior years. Both programs are designed to allow academically talented students to develop to their fullest potential by encouraging independent thinking, "tailor-made" university experiences, and close interaction with faculty members.

Liberal Studies Honors Program

In the Liberal Studies Honors Program, students choose special, limited enrollment courses, all of which fulfill liberal studies or University requirements. The three basic types of liberal studies honors courses open to all honors students are:

Honors Seminars. These are three (3) semester hour, special topics courses that count toward graduation and fulfill liberal studies requirements in the humanities (HUM 2937r), natural sciences (ISC 2937r), or social sciences (ISS 2937r). Each seminar is typically limited to 15 honors students.

Honors Sections. These special sections of regularly scheduled liberal studies courses are offered to honors students only. Each section is typically limited to 25 honors students.

Honors-Augmented Courses. These are regularly scheduled courses open to all students in which the professor has agreed to engage in special projects with honors students for honors credit. Honors-augmented courses are arranged in advance by the University Honors Program.

The University Honors Colloquium is required for honors students in their first fall term at The Florida State University. This one (1) semester hour weekly forum features lectures by distinguished University faculty from across the scholarly and creative arts spectrum, as well as informative presentations from directors of academic programs that will be of interest to honor students. With the ongoing theme, "Art and Inquiry in the Modern University," the colloquium provides a common intellectual experience for new honors students, and also introduces students to the culture and opportunities of a modern research university.

Honors courses are listed on the honors website prior to each registration period. Honors-augmented courses are offered every term, including summer. Honors seminars and Honors-only sections normally are offered only in the fall and spring terms.

Admission Requirements

High School Seniors. To be considered at the beginning freshman level for the Liberal Studies Honors Program, a student must be invited to apply to the program. All high school seniors who have been admitted to the University with at least a 3.9 Florida State University-weighted high school academic grade point average (GPA) and a test score of at least 1300 on the SAT or a 29 on the ACT automatically are invited to apply. National Merit and National Achievement finalists also are automatically invited to apply.

Currently Enrolled Florida State University Students

Freshmen with a 3.8 GPA on at least twelve (12) semester hours earned in their first term at The Florida State University may apply to join the Liberal Studies Honors Program upon request. Applications must be submitted before the end of the drop/add deadline for the next academic term. University students, including transfer students, with more than eighteen (18) semester hours may ask about taking honors courses on a space-available basis if they have earned a 3.8 GPA after one college term or a 3.5 GPA after two or more terms.

Retention

Students remain in the Liberal Studies Honors Program as long as they maintain at least a 3.2 cumulative GPA and make progress toward completion of the program. Details about the Liberal Studies Honors Program, including registration and retention, are given at required honors session during orientation, and may also be obtained by contacting the University honors program office or going to the honors website.

Completion of Liberal Studies Honors

To finish the Liberal Studies Honors Program, a student must complete eighteen (18) semester hours of honors courses. Freshman students entering The Florida State University who transfer in three (3) or more semester hours of Advanced Placement or International Baccalaureate credits may count three of these semester hours as honors credit. Students complete their honors coursework at roughly the same pace as their liberal studies requirements. Students in certain majors may take up to four years to finish liberal studies and the Liberal Studies Honors Program; other students, especially those who bring in a significant amount of exemption credit or other college credit, may finish liberal studies and the Liberal Studies Honors Program in the first or second year.

To count toward completion of the program, an honors course must have been completed with a grade of "C-" or better. Honors-augmented courses will be counted toward completion if a grade of "B-" or better is earned and an honors project is completed satisfactorily. Students who successfully finish eighteen (18) semester hours in honors courses with a 3.0 honors GPA and a 3.2 overall GPA are designated as having "completed" the Honors Liberal Studies Coursework requirement; these students:

1. Remain members of the University Honors Program and retain priority registration until graduation;
2. Will have honors completion noted on the transcript;
3. Remain eligible to take honors courses on a space-available basis. Interested students should contact the University Honors Program Office during the official drop/add period.

Honors Housing

The Landis–Gilchrist Honors Residence Complex provides an excellent environment for honors students to socialize and study together. Since many students share the same courses, both planned and spontaneous study sessions are common. Landis–Gilchrist is also the setting for many honors extracurricular activities.

The honors residence complex is reserved for students who have been accepted into the Liberal Studies Honors Program. Students who hope to join the Liberal Studies Honors Program may ask to be assigned to Landis or Gilchrist, or they are free to choose other residence halls. Students who are accepted into the Honors Program and request Landis–Gilchrist will be assigned to the honors complex on a first-come, first-served basis. Preference is determined by the order in which housing applications are received by the Office of University Housing. See the "Housing" section of this *General Bulletin* for additional information concerning the Landis–Gilchrist Honors Residence Complex.

Bess Ward Honors Travel Scholarships

Both Liberal Studies Honors students (see above) and Honors in the Major students (see the next section) may be eligible to apply for Bess Ward Honors Travel Scholarships. These scholarships help cover travel costs and personal expenses for one semester for honors students attending one of The Florida State University International Programs. Guidelines are available online at <http://www.fsu.edu/~honors>.

Honors in the Major

Many colleges, schools, and departments at The Florida State University offer an honors curriculum in the major. Honors work at the major level consists of a thesis or project, which the student completes over a period of two or three terms with the aid of three faculty members whom the student chooses. Although the terms "thesis" and "project" are often used interchangeably in the program, a thesis is more precisely based on traditional library research and critical analysis and a project on primary research or creative activity such as that conducted by a scientist in a laboratory or an artist in a studio. An honors student who engages in empirical research is not expected to write a thesis, but a "project report." Honors work is available only in a department from which the student plans to earn a bachelor's degree. A double major must choose a single major for Honors work; however, the project may include themes related to the second major.

Honors in the Major is designed to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. Honors in the Major students work closely with faculty members in mentoring relationships that characterize the best teaching

at a major university. Successful Honors in the Major graduates find that the experience is especially useful later in graduate and professional school and in their careers.

Honors in the Major is available in the following schools and departments: Accounting; American and Florida Studies; Anthropology; Art; Art Education; Art History; Asian Studies; Biological Science; Chemical Engineering; Chemistry and Biochemistry; Classical Languages, Literature, and Civilization; Communication; Communication Disorders; Computer Science; Criminology and Criminal Justice; Dance; Economics; Electrical and Computer Engineering; Elementary and Early Childhood Education (elementary education only); English; Family and Child Sciences; Finance; Geography; Geological Sciences; History; Hospitality; Humanities; Industrial Engineering; Interior Design; International Affairs; Latin American and Caribbean Studies; Management; Management Information Systems; Marketing; Mathematics; Mechanical Engineering; Meteorology; Middle and Secondary Education; Modern Languages and Linguistics; Motion Picture, Television, and Recording Arts; Music; Nursing; Nutrition, Food, and Exercise Sciences; Philosophy; Physics; Political Science; Psychology; Religion; Risk Management/Insurance and Real Estate; Russian and East European Studies; Social Science; Social Work; Sociology; Special Education; Statistics; Textiles and Consumer Sciences; Theatre; and Women's Studies.

Note: if your major is not listed above, please contact the Honors Program office.

Admission Requirements for Honors in the Major

Since some departments set higher requirements, students should also check with their academic major advisors. The University Honors Program requires that the prospective honors student have at least sixty (60)—typically seventy-five (75)—semester hours and at least a 3.2 cumulative GPA. Transfer students must have a 3.2 overall GPA, including all transfer work, and a 3.2 GPA on at least twelve (12) Florida State University semester hours. Students should note that they may choose not to count credits that are five or more years old, as long as the most recent sixty (60) semester hours average 3.2 and the recent Florida State University GPA is at least 3.2 on twelve (12) semester hours.

The semester **before** starting the Honors in the Major Program, students are counseled by, and make formal application to, the University Honors Program. The application shows that the student has the required grades and credits, a proposed thesis topic, sufficient time prior to graduation to complete the project, a directing professor, and the support of the academic department.

As part of the application process, each student is referred to an "Honors Liaison" in the major department. The Honors Liaison is the faculty member in each department who gives advice on Honors in the Major, how the program fits into

the major, and any additional requirements the individual department may have for its honors students.

Completion of the Honors Thesis or Project

Typically, each Honors in the Major student works on the thesis or project for two or three terms. During each of these terms, the student must enroll in one (1) to three (3) semester hours of honors work. Honors in the Major students earn six (6) to nine (9) honors credits and must receive at least a “B–” in each of these courses. Honors in the Major students must also maintain at least a 3.2 cumulative GPA until graduation. Several departments have additional requirements; contact the honors office or the honors liaison for specifics.

Each honors student works with a faculty supervisory committee comprised of a directing professor from the major, one additional professor from the major, and one professor from another department. Students are generally free to choose the professors for their committee. The directing professor is the official teacher of the honors thesis course, but all three professors contribute their expertise. Committee members must be full-time tenure-track faculty or visiting scholars approved by the Honors Program.

A prospectus is due to the University Honors Program Office the term before the thesis is finished. This is a short paper that states the nature of the honors project, its scope, and its methodology. The prospectus must be approved by all three professors on the committee. Students also must submit a brief progress report at the end of each term they enroll in honors work prior to the term the thesis is defended.

The honors student defends the finished thesis or project in a meeting with the faculty committee. Following a successful defense, the student must submit one bound hard copy and one electronic copy of the completed thesis or project report to the University Honors Program office no later than the last day of classes of the term in which the student graduates. The bound copy must bear the faculty committee members’ original signatures. The Honors Program places the bound copy of the thesis in a permanent collection in the Strozier Library and the electronic copy is archived in the honors office. Further details and specific deadlines are available from the University Honors Program Office or at the honors website.

Students who participate in Honors in the Major are members of the University Honors Program and are eligible for all program activities. They are also eligible, on a space-available basis, for honors liberal studies courses (see above). Students who finish the program are recognized on their transcript and at commencement.

Courses

The following is an alphabetical list of the officially approved courses that students may take as they work on honors theses and projects.

ACG 4970r	Honors Thesis in Accounting	IND 4970r	Honors in the Major in Interior Design
AMS 4913r	Honors Work in American Studies	INR 4937r	Honors Work in International Relations
ANT 4914r	Honors Work in Anthropology	ISM 4970r	Honors Thesis in Information and Management Sciences
ARH 4815r	Honors Work in Art History	ISS 4907r	Honors Work in Social Science—Interdisciplinary
ART 4981r	Honors Work in Art	ITA 4935r	Honors Thesis in Italian Language
ASN 4970r	Honors Thesis in Asian Studies	LAE 4937r	Honors Work in Language Arts and English Education
BSC 4974r	Honors Work in Biological Science	LAS 4935r	Honors Work in Latin American and Caribbean Studies
CCJ 4909r	Honors in Criminology	MAN 4970r	Honors Thesis in Management
CHM 4906r	Honors Work in Chemistry	MAR 4970r	Honors Thesis in Marketing
CIS 4933r	Honors Work in Computer Science	MAT 4934r	Honors Work in Mathematics
CLA 4909r	Honors Work in Classical Languages, Literature, and Civilization	MET 4900r	Honors Work in Meteorology
COM 4908r	Honors Preparatory Seminar	MUS 4904r	Honors Study in Music
CTE 4970r	Honors Work in Textiles and Consumer Sciences	NUR 4975r	Honors Thesis in Nursing
DAN 4900r	Honors Study in Dance	PHI 4912r	Honors Work in Philosophy
ECH 4906r	Honors Work in Chemical Engineering	PHY 4970r	Honors Work in Physics
ECO 4934r	Honors Work in Economics	POS 4936r	Honors Work in Political Science
EDE 4970r	Honors Work in Elementary Education	PSY 4039	Honors Work in Psychology
EEL 4906	Honors Work in Electrical Engineering	REE 4970r	Honors Thesis in Real Estate
EEX 4970r	Honors Work in Special Education	REL 4932r	Honors Work in Religion
EIN 4934r	Honors Thesis in Industrial Engineering	RMI 4970r	Honors Thesis in Risk Management/Insurance
EML 4970r	Honors Work in Mechanical Engineering	RUS 4935r	Honors Thesis in Russian Language
ENG 4936r	Honors Thesis	SOW 4911r	Honors Work in Social Work
EUS 4970r	Honors Thesis in Russian and East European Studies	SPA 4970r	Honors Thesis in Communication Disorders
FIL 4975r	Undergraduate Honors Thesis in Film	SPN 4935r	Honors Thesis in Spanish Language
FIN 4970r	Honors Thesis in Finance	STA 4970r	Honors Thesis in Statistics
FLE 4937r	Honors Work in Foreign Language Education	SYA 4931r	Honors Work in Sociology
FRE 4935r	Honors Thesis in French Language	THE 4917r	Honors Work in Theatre
GEO 4932	Honors Work in Geography	WST 4970r	Honors Thesis—Women’s Studies
GER 4935r	Honors Thesis in German Language		
GLY 4989r	Honors Work in Geology		
HEE 4912r	Honors Work in Home Economics Education		
HFT 4970r	Honors Thesis in Hospitality		
HIS 4936r	Honors Work in History		
HOE 4972r	Honors Work in Family and Child Sciences		
HUM 4907r	Honors Work in Humanities		
HUN 4913r	Honors Thesis in Nutrition, Food, and Movement Sciences		
HUN 4931	Honors Seminar in Nutrition, Food, and Movement Sciences		

Academic Honor Societies

The Florida State University sponsors chapters of many academic honor societies, some University-wide, and some specific to individual disciplines. These societies recognize students who have excelled academically and in some cases provide opportunities for service to the University and community.

For complete details of activities and membership requirements, contact the individual organization. University-wide honor societies can be found through the University Honors Program website. Discipline-specific societies are under the jurisdiction of the appropriate college, school, or department.

Scholastic Societies

Phi Beta Kappa is a scholastic honor society for those in the liberal arts and sciences. The society was formed in 1776. The Florida State University chapter, chartered in 1934 and established in 1935, was the first in Florida. The chapter's activities include recognition of outstanding juniors and graduating seniors and sponsorship of visiting speakers of University-wide interest. New members are automatically invited each fall and spring based on major, grades (minimum 3.9 GPA for juniors and 3.6 GPA for seniors), language study, and other criteria.

Phi Kappa Phi recognizes academic excellence among undergraduates, graduate students, and faculty in all disciplines. The society was founded in 1897; the University chapter was chartered in 1925. The chapter recognizes outstanding student scholars and artists and recommends them for national awards. New members are automatically invited each spring. Second-term juniors must rank in the upper five percent of their respective colleges or schools. Seniors must be in the upper 10 percent of their respective colleges or schools. Graduate and professional students must rank in the upper 10 percent of their respective colleges or schools. All students must have at least twenty-four (24) earned credits at The Florida State University.

Phi Eta Sigma is a national honor society. Students are invited to join if they have at least a 3.5 cumulative GPA with at least twelve (12) graded semester hours at the close of any curricular period during their first year of college. The national organization was founded in 1923, the local chapter in 1955. The University chapter undertakes several service projects, including peer academic advising.

Founded in 1977, **Golden Key International Honour Society** honors undergraduate academic achievements. The Florida State University chapter was chartered in 1984. The University chapter awards the Outstanding Undergraduate Scholar Award twice a year and regularly sponsors projects in local schools and a number of community service projects. The chapter has been named The Florida State University Campus Organization of the Year and has been recognized for excellence by the national organization. Every fall the chapter automatically invites those students with at least sixty (60) semester hours (twenty-five [25] of which must be at The Florida State University) and in the top 15% of the junior or senior class.

The **W.E.B. DuBois Honor Society**, organized in 1991, is named for the black scholar, editor, and author of *The Souls of Black Folk*, who set high standards for educating African-Americans in the late 19th and 20th centuries. The purpose of the DuBois Society is to recognize academic excellence among African-American students and to support, guide, and encourage their involvement in other leadership and honorary organizations at The Florida State University. The grades of all full-time African-American undergraduate students will be automatically reviewed for eligibility each fall. If eligible, students will be in-

cluded to join the society. To qualify, candidates must have achieved a 3.0 cumulative grade point average at The Florida State University and must have earned at least thirty (30) semester hours at this university. Transfer students will be considered for eligibility on an individual basis. For more information, contact the *Undergraduate Studies Dean's Office, A3300 University Center, Tallahassee, FL 32306-2460* or call (850) 644-2740 or e-mail MAPhonors@admin.fsu.edu.

Leadership/Scholastic Societies

Omicron Delta Kappa is the national leadership honor society for faculty and students. The society was founded in 1914 and came to The Florida State University in 1950. The society recognizes achievement in scholarship; athletics; social, service, and religious activities; campus government; journalism, speech, and mass media; and creative and performing arts. Annual activities include a homecoming breakfast honoring outstanding Florida State University alumni and a Leadership Celebration. The Florida State University circle has been named "outstanding circle in its province." Applications are sought twice a year, and members are chosen on the basis of scholarship (upper 33 percent of junior, senior, or graduate class), leadership, and service.

Mortar Board is a national honor society for college seniors. The national organization was founded in 1918 and the Florida State University chapter in 1931. Each year Mortar Board sponsors activities to provide service, advance the spirit of scholarship, and facilitate cooperation among honor societies. Every spring, juniors in the upper 35 percent of their class are invited to apply. Members are selected on the basis of scholarship, leadership, and service.

Garnet Key Honor Society of the Panama City campus, founded in 1986, recognizes students primarily for service and scholarship, but also for spirit and leadership. Activities are generally service projects and functions for the Panama City campus. Applicants must have completed twelve (12) semester hours at that campus with a GPA of 3.5 or higher.

The **Oscar Arias Sanchez Honor Society** was formed in the fall term of 1992 to recognize academic excellence among students of Hispanic heritage. Membership into the O.A.S.H.S. shall be granted to those sophomores, juniors, seniors, and transfer students of Hispanic heritage who have attained a 3.0 GPA or above, and who have fulfilled the required service projects. The O.A.S.H.S. is a scholastic/leadership society. To become a member of this organization, contact *Undergraduate Studies Dean's Office, A3300 University Center, Tallahassee, FL 32306-2460* or e-mail CAREhonors@admin.fsu.edu.

Phi Theta Kappa is the honor fraternity of America's two-year colleges. The National Alumni Association offers former active members the opportunity to remain affiliated after they transfer. Phi Theta Kappa was founded in 1918; The Florida State University has had an alumni chapter since 1982. Chapter activities include University and community service and activities

that provide information to community college students and support to transfer students. Phi Theta Kappa members wanting to join the Delta of Florida Alumni Chapter should contact Danielle Miot at dmiot@admin.fsu.edu.

Garnet and Gold Key is a leadership honorary society unique to The Florida State University. It was founded over 50 years ago to recognize outstanding and diversified student leadership. The society's annual activities include Torch Night, to recognize the top 100 incoming freshmen and The Ross Oglesby Award, given to distinguish one outstanding faculty member who has dedicated 10 years of service to the University, its students and various community service projects. Juniors and seniors are able to apply twice a year for membership. Membership is granted on the basis of both grades (3.0 minimum GPA) and diversified leadership abilities (at least two separate areas of leadership.)

Academic Honor Societies Specific to Certain Disciplines

College of Arts and Sciences

Anthropology students are eligible to join **Pi Gamma Mu**. See "College of Social Sciences" below.

The honors organization of the **Department of Classical Languages, Literature and Civilization** is **Eta Sigma Phi**, founded in 1924 to promote the study and appreciation of classical languages and literature. The University chapter, organized in 1926, is the oldest active chapter in the United States. The chapter arranges lectures, poetry readings, slide presentations, movies, translation contests in Greek and Latin, and tours. New members are invited twice a year, based on a "B" average in Greek and Latin courses.

The **Department of Computer Science** sponsors a chapter of **Upsilon Pi Epsilon**, the honor society for the computing sciences. The society is student-run and works closely with the local student chapter of the Association for Computing Machinery (ACM). Undergraduate majors must have completed sixty-four (64) semester hours of study, including eighteen (18) semester hours in computer science, and have at least a 3.2 GPA overall and within the major. Graduate students in computer science must have completed twelve (12) semester hours of graduate work with a GPA of 3.5 or better.

The **Department of English** sponsors a chapter of the **Lambda Iota Tau** literary honor society. The society is open to majors and minors in English and **Modern Languages and Linguistics** who have GPAs of 3.0 and higher. The society is student-run, and activities change with student interests. Recent activities have included forums on applying to graduate and law schools, marathon readings of favorite texts, and an annual poetry contest for Leon County middle schools.

The **Department of History** boasts the fourth chapter in the nation (founded in 1926) of **Phi Alpha Theta**, an honor and professional society dedicated to promoting the study of history. The chapter sponsors speakers, seminars, and publications. Students, who need not be history majors, may apply for membership twice a year. Undergraduates need twelve (12) semester hours in history with a 3.2 GPA and a 3.0 overall GPA. Graduate students need twelve (12) semester hours in history and a 3.5 overall GPA.

The honors society of the **Department of Mathematics** is **Pi Mu Epsilon**, founded nationally in 1914 and at The Florida State University in 1956. Members are selected by invitation, based on national standards for mathematics credits and GPA, and overall GPA. Both undergraduate and graduate students are admitted. These exemplary students also participate in mathematics competitions and the department's three student organizations, The Florida State Mathematical Society, The Florida State Student Actuarial Society, and the student-led Graduate Student Seminar.

Chi Epsilon Pi is the honor society for outstanding students in the **Department of Meteorology**. The Florida State University chapter has existed since 1966. In order to be eligible for membership, graduate students must have nine (9) (thesis plan) or fifteen (15) (nonthesis plan) semester hours earned through the Department of Meteorology. The graduate student must also have a 3.25 or better GPA for meteorology courses and an overall GPA of 3.0 or higher. Undergraduate students are eligible upon completion of seventeen (17) meteorology semester hours if their GPA in meteorology courses is 3.25 or higher. Other criteria exist for junior level and special students. Students are inducted each spring.

The **Department of Military Science** fosters a chapter of the national organization **Scabbard and Blade**. The chapter participates in various civic and Reserve Officer Training Corps (ROTC) activities. Invitations are extended once a year based on membership in the Advanced ROTC Program, a "B" average, and standing in the top 50 percent of ROTC students. Initiation includes a service project.

The **Department of Modern Languages and Linguistics** has six honor societies, each with a different language of focus:

French. Pi Delta Phi has long been established at The Florida State University and inducts major and minor students on the undergraduate and graduate levels. Prospective members must have an overall GPA of 2.8 and 3.0 in French classes, with at least one French class on the 3000 level. The French faculty are all members of the society. Graduate students must have a 3.0 GPA in French as well as an overall GPA of 3.0, and must have completed one semester of graduate work in French.

German. Delta Phi Alpha has had a chapter at the University since 1979. New members may apply once a year. Minimum requirements include a 3.5 GPA in German and a 3.0 overall GPA, plus three (3) German courses completed or in progress with "A-" average.

Italian. Gamma Kappa Alpha was organized in 1983; the University chapter followed in 1984. The chapter sponsors a weekly Italian Table for students. New members are invited each spring. Membership is open to undergraduate Italian majors with a minimum 3.0 GPA overall and 3.5 in Italian.

Slavic (including Russian). Dobro Slovo was founded in 1926; the University has had a chapter since 1972. The chapter sponsors a high school language competition, lectures, and movies. Each spring, students apply, or are invited, based on two years of study of Slavic languages and related subjects with a "B+" average and an overall "B" average.

Spanish. Sigma Delta Pi is the honor society for students of Spanish, and has had a chapter at the University since 1935. Sigma Delta Pi offers students competitive opportunities to study abroad. Students are initiated once a year. Undergraduates must have a 3.2 GPA in Spanish and must rank in the top 35 percent of their class. Graduate students are also eligible.

Phi Sigma Iota, the International Foreign Language Honor Society, is the highest academic honor in the field of foreign languages, literature and cultures, including classics, linguistics, philology, comparative literature, and bilingual education. Membership is awarded to junior and senior undergraduates with at least a 3.0 overall GPA and at least one 3000-level language course. Graduate students must have completed at least one semester of graduate work and must have attained at least a "B+" average in all courses taken.

Sigma Pi Sigma is the national honor society in the **Department of Physics**. The organization was founded in 1921 and came to the University in 1954. New members are invited once a year, chosen from among physics majors who have at least a "B" average in physics as seniors or advanced juniors.

Alpha Epsilon Delta is the **Pre-Health Professional** honor society. The society welcomes members who are planning careers in medicine, podiatry, dentistry, veterinary medicine, optometry, pharmacy, and other medical fields. To be invited into the society, students must be in the second semester of their sophomore year and have an overall and a science GPA of 3.0. Freshmen and sophomores are encouraged to participate in activities of the society. The Florida-Beta chapter at The Florida State University was founded in 1946 and is one of the oldest chapters in the Southeast. The society invites speakers who represent the health professions, plans trips to area professional schools, and participates in community service.

The **Department of Psychology** fosters a chapter of **Psi Chi**, a national honor society founded in 1929. The University chapter, in existence since 1959, has concentrated on activities that help majors with their future plans. Students may apply for membership twice a year. Psychology majors or minors must have completed nine (9) semester hours of psychology with a 3.2 GPA and

a 3.0 overall GPA. Graduate students majoring or minoring in psychology or a related discipline may apply to this honor society.

College of Business

Beta Gamma Sigma was founded in 1913 and established at the University in 1962. Both undergraduate and graduate business students are eligible for election.

Beta Alpha Psi is the national scholastic and professional fraternity of the **Department of Accounting**; the University chapter was established in 1962. The society recognizes outstanding academic achievement in accounting, promotes the study of accounting, provides opportunities for interaction among members and practicing business professionals, invites speakers from the profession, and undertakes campus and community service activities. Prospective accounting majors, both undergraduate and graduate, who are currently enrolled or have completed at least one accounting course and have met grade point requirements in accounting, and overall, may apply for membership. New members are initiated in the fall and spring semesters.

Majors in the **Dedman School of Hospitality** are eligible for **Eta Sigma Delta**, the international hospitality honor society. The society was founded in 1978 and came to the University in 1981. The local chapter emphasizes career preparation activities. Students who are hospitality majors in the junior year with a 3.00 overall GPA are eligible to apply at the beginning of each semester.

A chapter of **Sigma Iota Epsilon**, a management fraternity, has been sponsored by the **Department of Management** since 1969. Both undergraduate and graduate students are eligible for membership. Undergraduates must have a 3.0 GPA and graduate students a 3.25 GPA, among other requirements.

College of Communication

Lambda Pi Eta, a national communication honor society, had its charter year at the college in 1989. The purposes of the society shall be to: 1) foster and reward outstanding scholastic achievement in communication; 2) to stimulate interest in the field of communication through community outreach and service; 3) to promote and encourage professional development among communication majors; 4) to provide an opportunity to discuss and exchange ideas in the discipline of communication; 5) to establish and maintain closer relationships and mutual understanding between communication faculty and students; and 6) to explore options for graduate education in communication. The criteria for being a member require a student to be a communication or communication disorders major; to have completed at least fifteen (15) semester hours in communication and sixty (60) hours overall; have a minimum of a 3.5 GPA overall and in the major, with no grades below "C-", no more than one incomplete (I) on a maximum of six (6) semester hours, and no unsatisfactory grades (U). New members are invited, at the beginning of each fall and spring semester.

School of Criminology and Criminal Justice

Alpha Phi Sigma is a nationally recognized honor society for students in criminology and criminal justice. The society recognizes academic excellence by undergraduates and graduate students.

To become a member, students must have completed one-third of the total hours required for graduation at The Florida State University. The student must be recommended by the local chapter advisor or a faculty member. Undergraduates must maintain a 3.0 overall GPA and a 3.2 GPA in their major courses. The student must also rank in the top 35% of their class and have completed a minimum of four (4) courses within the criminal justice curriculum. The honorary is open to students with a declared criminal justice major or minor.

College of Education

Kappa Delta Pi has had a chapter at the University since 1925. Students are invited twice a year, or may apply. They must have twelve (12) semester hours of professional education courses. Undergraduates must have a "B" in all college work and graduates a "B+." A minimum GPA of 3.0 is required for initiation.

Phi Delta Kappa has had a chapter at the University since 1953. The group sometimes participates in national research projects in education. Students are invited or may apply once a year. Members must have obtained a baccalaureate degree and be admitted to a graduate degree program or have five years successful professional experience. Members must have as their primary outcome professional involvement in education.

Rho Phi Lambda is the national honorary fraternity for the recreation, park, and leisure services profession. The original Rho Phi Alpha honorary fraternity was founded at North Carolina State College in 1958. In 1985, the eleven chapters of Sigma Lambda Sigma honorary fraternity (originally founded at The Florida State University in the 1960s) were merged with the six original Rho Phi Alpha Chapters to become Rho Phi Lambda; the society now has over 30 chapters throughout the United States. Membership is based on outstanding scholarship, leadership in service to the community and to the University, and service to the profession.

College of Engineering

Tau Beta Pi, the College of Engineering's most prestigious honor society was formed in 1985 as the Engineering Honor Society. It was chartered and installed at the FAMU—FSU College of Engineering on February 29, 1992 as the Florida Eta Chapter of Tau Beta Pi. The Tau Beta Pi Honor Society recognizes outstanding scholarship and exemplary character, with emphasis on community service and upholding the engineering canon of ethics. New members are invited twice a year to join Tau Beta Pi based on academic standards and exemplary character.

New members must be in the upper one-fifth of all engineering seniors or upper one-eighth of engineering juniors.

College of Human Sciences

Kappa Omicron Nu was established in 1990 with the consolidation of Kappa Omicron Phi and Omicron Nu. Omicron Nu was established at the University in 1922. The local chapter is Pi Chapter. Kappa Omicron Nu recognizes and encourages excellence in scholarship, research, and leadership. Undergraduates must have sixty (60) semester hours (at least eighteen [18] of which were completed at The Florida State University) with a minimum 3.3 GPA. Graduate students must have twelve (12) semester hours with a minimum 3.5 GPA. New members are initiated at least once a year.

School of Information Studies

Beta Phi Mu, the Library and Information Studies International Honors Society, was founded in 1948, with the headquarters housed in the School of Information Studies. In 1957, the school founded the Gamma Chapter representing local members. New members are invited to join once a year based on a 3.75 GPA and ranking in the top 25 percent of that year's graduating class.

College of Law

The **Order of the Coif** was founded in 1902 and came to the University in 1979. New members are invited once a year from the top 10 percent of the graduating class.

School of Music

Pi Kappa Lambda is an honor society dedicated to fostering scholarly interest in the theoretical and historical aspects of music and to the pursuit of eminent achievement in performance, composition, music education, music therapy, and research. Pi Kappa Lambda was founded in 1918 and established the Phi Chapter at the University in 1943. New members are chosen once a year based on scholarly achievement and musicianship. Juniors must be in the top 10 percent of the class; seniors, in the top 20 percent; graduate students must have an "A" in at least two-thirds of their courses.

School of Nursing

Sigma Theta Tau International, the scholastic honor society of nursing, was established in 1922. The University chapter, Beta Pi, was chartered in 1974. The society promotes health and illness prevention through the advancement of nursing leadership, scholarship, and administration. The society offers scholarships to graduate and undergraduate nursing students and lends partial support for alumni and faculty research and continuing education. Undergraduate nursing students are eligible for consideration once they have completed one-half of the nursing program and must rank in the upper 35 percent of their class, with a minimum GPA of 3.0. Graduate students

are eligible for consideration once they have completed one-fourth of the graduate nursing program, provided they have a GPA of 3.5 or better.

College of Social Sciences

Pi Gamma Mu is open to students in **anthropology, Asian studies, economics, geography, history, international affairs, political science, public administration, Russian and East European studies, social science, sociology, and urban and regional planning**. The University chapter was founded in 1975. Students must have a minimum of twenty (20) semester hours in the above subjects with at least a 3.0 GPA and no social science grade of F, and, except for graduate students, must be in the upper 35 percent of their classes. Prospective members are also expected to have extracurricular activities related to the social sciences.

The **Department of Economics** hosts the Gamma chapter of the **Omicron Delta Epsilon** International Honor Society in Economics. Undergraduate requirements for membership are: junior or senior classification; a minimum of twelve (12) semester hours of economics courses completed; a minimum overall GPA of 3.0; and a minimum 3.0 GPA in economics courses. Graduate students must have completed at least one semester of graduate work with at least a 3.0 GPA. Applicants from all majors are welcome.

Gamma Theta Upsilon is the honor society in the **Department of Geography**. The society was founded in 1931 and came to the University in the mid-1950s. The local chapter organizes lectures and field trips. Both undergraduate and graduate students are eligible, and invitations go out twice a year. A student must have a 3.0 overall GPA, must have a "B" in geography in at least three courses, and must have completed at least three semesters of college course work.

The honor society of the **Department of Political Science** is **Pi Sigma Alpha**. The society was founded in 1920 and a chapter was established at the University in 1954. Undergraduate and graduate students may apply if they have at least twelve (12) semester hours in political science (including public administration) with a 3.2 GPA and a 3.0 overall GPA.

Pi Alpha Alpha is the national honor society for the field of **Public Administration**. Twice a year new members in the top 10 percent of their class are invited.

School of Social Work

The **School of Social Work** was the national founding chapter of **Phi Alpha** honor society. Chapter members work for the benefit of community social service organizations. Applications are taken twice a year. Undergraduates must have a 3.25 overall GPA with twelve (12) semester hours completed in social work. Graduate students must have a 3.5 overall GPA with nine (9) semester hours completed in social work.

COLLEGE OF ARTS AND SCIENCES

Dean: Donald J. Foss;
Associate Deans: Timothy Moerland, Anne Rowe, George Weaver

A university education, properly realized, must be built upon an intellectually broadening program of study in the liberal arts. As critic Mark Van Doren has observed, "Liberal education makes the person competent—not merely to know or do, but also, and indeed chiefly, to be." The essential curriculum of a college education, Van Doren explained, teaches students to learn progressively the arts of investigation, discovery, criticism, and communication. The Florida State University's liberal studies curriculum, which is grounded firmly in courses offered by the College of Arts and Sciences, helps to develop these crucial intellectual values and critical skills in all undergraduate students. Majors in the College of Arts and Sciences, furthermore, enjoy the privileges and benefits of developing a richer appreciation of the humanities and the sciences—an appreciation that enhances the quality of students' lives morally, intellectually, and professionally.

The oldest college at the University, the College of Arts and Sciences has provided generations of undergraduate students instruction in the liberal arts disciplines that are essential for intellectual development and personal growth: English and mathematics, history, the humanities, and the physical, biological, and behavioral sciences. At the graduate level, too, the contributions of the College of Arts and Sciences have been integral with the growth of the University. The first recorded master's degree at the Florida State College for Women was awarded by the College of Arts and Sciences in 1911, and the first doctorate at The Florida State University was awarded in chemistry in 1952.

Over the decades, various professional schools have been established at the University, and several colleges and schools have separated from the College of Arts and Sciences to become individual administrative entities. Today, 75 percent of the Liberal Studies Program and over 40 percent of University instruction, generally, are offered by the College of Arts and Sciences. Furthermore, the college conducts a large percentage of the sponsored research at the University. Currently, the College of Arts and Sciences annually awards the largest number of doctoral degrees at the University.

The College of Arts and Sciences comprises 19 departments, 17 centers and institutes, and 11 interdisciplinary programs. In addition to awarding bachelor of science (BS), bachelor of arts (BA), master of science (MS), master of arts (MA), and doctor of philosophy (PhD) degrees, and heavily supporting the Liberal Studies Program, the College of Arts and

Sciences offers an extensive array of foundation courses for preprofessional and professional programs.

College of Arts and Sciences faculty have earned national and international recognition for research, teaching, and distinguished service to the profession. The faculty of the college has included seven members of the National Academy of Sciences, three Nobel Laureates, a Pulitzer Prize winner, directors of national commissions, university presidents, and numerous winners of other national or international honors. Locally, University committees have named several arts and sciences faculty Daisy Parker Flory and McKenzie Professors, and more than two dozen of the college's faculty have been selected University Distinguished Professors. More than 150 arts and sciences faculty members have won University Teaching and Advising awards, Developing Scholar awards, and Martin Luther King, Jr. Distinguished Scholar awards.

Students in the College of Arts and Sciences have been recipients of a wide variety of honors, including a Rhodes Scholarship, Time Magazine and Rotary awards, McKnight and Patricia Roberts Harris Fellowships, professional society scholarships, and other nationally recognized awards. Among the graduates of the college are scientists, writers, doctors, chief executive officers of major corporations, lawyers, school and college teachers and administrators, and other highly regarded professionals.

Facilities

The College of Arts and Sciences is housed in 21 buildings on the main campus and at off-campus field stations. Arts and sciences research activities are conducted at various locations around the world—from an archaeological site in Cetamura, Italy, to the Antarctic. Special facilities of the college include the **Van de Graaf Nuclear Accelerator**, the **Proton-Induced X-Ray Emission Laboratory**, the **Statistical Consulting Center**, and the **Marine Laboratory** on Apalachicola Bay. In addition, the **National Park Service's Southeast Archaeological Center** is a major repository of artifacts heavily used by anthropology majors. The college also staffs a large number of other specialized research and teaching laboratories: computer laboratories, radioisotope laboratories, a nuclear magnetic resonance lab, fluid dynamics and ocean modeling labs, language and writing labs, and other facilities. Faculty and students from several departments and programs in arts and sciences conduct research on the supercomputer and other large-scale computers at the **School of**

Computational Science and Information Technology. The **National High Magnetic Field Laboratory** at Innovation Park also provides superb research experiences for faculty and students. Many departments maintain their own libraries of journals, books, and reference materials.

Opportunities

Departments in the College of Arts and Sciences work with various programs, schools, and colleges to offer cooperative and interdisciplinary degree programs. For example, majors in the college may pursue bachelor of arts (BA) degrees in English or modern languages with an emphasis in business, and they may apply for the one-year joint baccalaureate/MBA program. Editing internships in the Department of English offer excellent preprofessional experience; the secondary science and/or mathematics teaching major certifies students to teach in two discipline areas, and several science departments provide hands-on research opportunities for undergraduates. Humanities, American studies, and Latin American and Caribbean studies majors are taught by faculty from several departments in the College of Arts and Sciences. An arts and sciences major may minor in journalism through the cooperative program offered with Florida Agricultural and Mechanical University. Students in arts and sciences help to edit and publish two campus literary magazines and often work on the staff of campus newspapers. Additionally, administrators, faculty, and students in arts and sciences are major participants in the Florence and London overseas study programs.

A Unique Residential Hall

The College of Arts and Sciences sponsors the **Bryan Hall Learning Community**, an academic opportunity available to first-year students. The Bryan Hall experience integrates residential life and academic life in a way that is unique on the University campus. Those seeking more information should inquire of the University Housing Office.

Scholarships and Awards

Students in the College of Arts and Sciences are eligible for various types of scholarships and grants administered centrally by the University. Specifically within the college, the Uhrhan Scholarship provides a two-year award for an outstanding rising junior majoring in mathematics, physics, or modern languages. The College of Arts and Sciences also gives an award to every major elected as a junior to

Phi Beta Kappa. All departments in the college administer undergraduate scholarship and award programs.

Requirements

All students must meet the University-wide baccalaureate degree requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*. In addition, all students receiving a degree from the College of Arts and Sciences must satisfy the requirements listed in the following paragraphs.

In order to enroll in the College of Arts and Sciences, an undergraduate must be certified by the Division of Undergraduate Studies or be a transfer student with fifty-two (52) or more semester hours of accepted credit. Successful completion of CLAST also is required. Admission to the College of Arts and Sciences requires at least a 2.0 grade point average (GPA) in prior academic work. Since individual departments may stipulate higher admission standards, students should consult the appropriate section of this *General Bulletin* for specific requirements.

Students who wish to pursue graduate study in the College of Arts and Sciences must apply through the Office of Admissions and must be accepted for graduate study by the intended department or program. Those interested in graduate work in the college should therefore consult the "College of Arts and Sciences" entry and departmental or program sections of the *Graduate Bulletin*.

Students enrolled in the College of Arts and Sciences may concurrently prepare for, and become certified in, various professional programs. This is made possible by the cooperation of professional schools within the University with various College of Arts and Sciences departments that have established programs with special emphasis in certain professional areas.

Requirements for Baccalaureate Degrees

Liberal Studies. All areas of liberal studies must be satisfactorily completed. Students must have an overall GPA of at least 2.0 in their liberal studies courses. Students who entered the upper division after summer 1983 must have a "C-" or better in each course in Areas I, II, and IV. **Note:** all transfer students must have completed at least **six (6) semester hours of English composition, three (3) semester hours of mathematics, three (3) semester hours of history, six (6) semester hours of humanities, and six (6) semester hours of natural sciences** in order to satisfy College of Arts and Sciences requirements. Students who did not complete these courses at their previous institution will need to do so at the University.

Foreign Language. The College of Arts and Sciences requires that bachelor of arts and bachelor of science students be proficient at the intermediate level in one language other than English. Students may satisfy the requirement by completing course work through the 2000 level (2200 or equivalent course) of a classical or modern foreign language. Those with a 2.5 GPA may take these courses on a satisfactory/unsatisfactory (S/U) basis, so long as they meet the University deadline for declaring this intention. A student taking course work to fulfill the college's foreign language requirement must earn at least a "C-." Hours used to fulfill the foreign language requirement may not be counted toward a major or a minor. For exceptions to this policy, students should contact the College of Arts and Sciences. Native speakers of another language and other students who wish to demonstrate proficiency by means other than course work should consult the Department of Modern Languages and Linguistics.

Please note that the college's classical or modern foreign language requirement is more extensive than the University's foreign language admissions requirement. It is important to understand that, although completion of two years of high school foreign language courses or two semesters of postsecondary foreign language will satisfy the University's admissions requirement, these courses **do not** satisfy the College of Arts and Sciences' foreign language graduation requirements for BA and BS students. Please consult the "Admissions" section of this *General Bulletin* for more information.

Beginning Fall 2002, all students who intend to continue study of a modern, foreign language at The Florida State University in which they have previous experience (such as high school study or study abroad) must be placed into the appropriate course by the Department of Modern Languages and Linguistics. Students in French, German, and Spanish who continue with the same language must take the placement test before they enroll in a course in the Department of Modern Languages and Linguistics. Students in other languages must consult the department for the appropriate placement procedures before enrolling.

The Florida State University does not currently offer modern foreign language or classical language instruction at the Panama City campus. Therefore, students pursuing BA or BS degrees in the College of Arts and Sciences at the Panama City campus may count as part of their sixty (60) semester hours of senior institution work a maximum of twelve (12) semester hours of courses taken at Gulf Coast Community College to satisfy the language requirement. These hours will count toward the sixty (60) semester hours only if they are taken subsequent to the students' enrollment as juniors and seniors at the Panama City campus.

Summer Requirement. Students who enter one of the eleven state universities with fewer than sixty (60) semester hours of transfer credit must complete nine (9) semester hours of course work during the summer at any of the eleven institutions of the State of Florida, Division of Colleges and Universities. Requests for waivers of the summer requirement (normally for reasons of regular summer employment) must be approved in the Office of the Dean of Arts and Sciences and by the Dean of the Faculties.

Upper-Level Course Work. Students must complete at least forty (40) semester hours of 3000/4000 level courses to receive their degree. Courses transferred from another school may count toward this requirement if the equivalent Florida State University course was numbered 3000 or above at the time the course was taken.

Senior Institution Hours. At least sixty (60) semester hours of course work must be completed at a senior institution (i.e., not a community college).

Repeated Courses. Credit can only be given one time per course. If, for example, a student receives a "D" grade in a course and then repeats it, even when doing so under the forgiveness policy, the student will not receive duplicate credit. This will most frequently affect a student's total hours and/or upper-level hours.

Physical Activity and Other Activity Courses. The University will allow a **maximum** of two (2) semester hours of physical activity courses to count toward a degree (e.g., tennis, sailing). Students who attended a community college and received an AA may have already taken two (2) or more semester hours in this area. The University will not take away any hours from an AA; however, any additional courses taken in this area after the AA may not count toward the total hours needed to graduate from The Florida State University. No more than eight (8) semester hours can be taken in applied music, physical activity, or office skills courses, combined.

Minor. Most majors in the College of Arts and Sciences also require a completed minor. Exceptions include Latin American and Caribbean studies/business, secondary science/math teaching, humanities, foreign language/business, English/business majors, and certain science programs with collateral minors. Students completing a double major do not have to complete a minor. Students pursuing two degrees (dual certificate or a second baccalaureate degree) must have a separate minor for each degree that is awarded by this college. If one of the degrees is to be awarded by another college in the University, that dean's office will specify any minor requirements. While many minors require only twelve (12) semester hours, others require as many as eighteen (18) semester hours. No courses used for satisfying liberal studies requirements or a major may also

be counted toward the minor. Normally, the student's minor will be in a different department than the major. In a few cases it may be possible to take the minor in a different program, but within the same department, as the major. Students wanting to pursue that possibility must consult with their departments.

Grade Point Average. The University requires students to have a GPA of at least 2.0 in order to receive a bachelor's degree. Certain programs have established required exit GPAs that are above the 2.0 level; please consult the individual departmental listings.

Residency. A student's final thirty (30) semester hours must be completed in residence at The Florida State University. Petitions for waivers of this requirement must document unusual circumstances and be submitted through the Office of the Dean of Arts and Sciences prior to a review by the Dean of the Faculties. Students taking courses at another senior institution or by correspondence must request that a final official copy of their grades immediately be sent to the University. These grades must be added to the University transcript before the degree can be posted.

Incomplete Grades. "I" grades completed after the degree is posted will not be recorded. The "I" will simply remain an "I."

CLAST. Unless students are exempt, they must show passing scores on all sections of the College Level Academic Skills Test. For exceptions, students should contact the College of Arts and Sciences Office of the Dean.

Course Load. In order to graduate in four years, students should take an average of fifteen (15) semester hours each fall and spring semester—unless they are affected by the nine (9) semester hour summer attendance policy. In this case, they can take fourteen (14) semester hours each fall and spring and nine (9) semester hours over one or more summer terms and still graduate in four calendar years.

Community College Course Work. Please note that students cannot earn transfer credit for community college courses after they have been awarded an AA degree from a community college. Also, even if students have not already earned the AA, they still may not earn transfer credit for any community college courses taken during their final thirty (30) semester hours at The Florida State University. See the "Foreign Language" section above for exceptions to this policy for students at the Panama City campus.

Requirements for the Major. Each candidate for the baccalaureate degree must complete major requirements in one of the following departmental or interdepartmental fields. The major normally consists of eighteen to thirty-six (18–36) semester hours depending on the department in question. See departmental entries for specific requirements.

If courses from the major department are used to meet the liberal studies requirements, no more than four (4) semester hours of these Liberal Studies courses may also be counted toward the major requirements.

Exit Interviews or Surveys. Each department in the College of Arts and Sciences is required to conduct appropriate exit interviews or surveys of graduating students. In some departments, eligibility for graduation may be based on completion of the exit interview or survey.

Departmental Majors

Humanities Area

Classics
English
French
German
Greek
History
Italian
Latin
Philosophy
Religion
Russian

Definition of Prefixes

ISC — Interdisciplinary Natural Science
PSC — Physical Science
SCE — Science Education

Interdisciplinary Science Courses

The following interdisciplinary courses are taught by science faculty from the College of Arts and Sciences. These courses may be taken as undergraduate elective credit. Some departments also include these courses among elective hours within the major.

ISC 2003. Global Change, Its Scientific and Human Dimensions (3). Prerequisites: Two years high school science, two years high school math. Global environmental change, scientific and human dimensions, and international public policy implications.

ISC 3121. Science, Technology, and Society (3). Prerequisite: Junior standing or instructor permission. The role played by science and technology in American society is considered by examining the organization of the scientific enterprise, the realities of scientific life vs. portrayals of scientists in the media, how science is funded, its economic and its intellectual significance, dilemmas posed by progress in science and technology, and societal conditions under which science flourishes. This course cannot be used as credit toward a major or minor in a science department.

PSC 2800C. Earth Science for EC/EE Teachers (4). This course is designed for prospective elementary and early childhood education majors. The course integrates geology, oceanography, and meteorology with the laboratory integral to the course. Students will work in groups in a hands-on, minds-on approach to learning earth science.

PSC 2801C. Physical Science for EC/EE Teachers (4). This course is designed for prospective elementary and early childhood education majors. The course integrates physics and chemistry with the laboratory integral to the course. Students will work in groups in a hands-on, minds-on approach to learning physical science.

SCE 4939r. Seminar in Contemporary Science and Science Education (1). Presentation on current or otherwise interesting issues in science, mathematics, or teaching methods. Content of course will vary from semester to semester. May be repeated to a maximum of four (4) semester hours.

Teacher Education Requirements

The College of Arts and Sciences secondary science and/or mathematics teaching major require students to complete the following for admission into its program: 1) the Liberal Studies requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*; 2) the State of Florida common course prerequisites described in the appropriate department section of this *General Bulletin*; and 3) the requirements for the teacher education program described in the "College of Education" section of this *General Bulletin*. **Note:** these are State of Florida and university-wide requirements for all students planning to enter a teacher education program. Common prerequisites and total program length for state-approved teacher preparation programs are subject to revision based on changes to State Board of Education Rule 6A-5.006, Approval of Preservice Teacher Preparation Programs, as amended August 7, 2000.

The Florida State University is committed to increasing the proportion of teacher candidates who have historically been underrepresented among Florida's public school teachers. Applicants representing such groups will be considered for exceptions to the general admissions criteria.

Requirements for the Second Baccalaureate Degree or Dual Certificate

A student completing a second bachelor's degree in the College of Arts and Sciences must complete at least thirty (30) semester hours at The Florida State University, in addition to the required hours for the first degree. The

student must complete a new major and a new minor (with no overlap between these and the first major and minor), the Arts and Sciences Liberal Studies requirements, and demonstrate satisfaction of the College of Arts and Sciences foreign language requirement.

Note: to distinguish between second baccalaureates and second majors, see the appropriate paragraph under "Undergraduate Degree Requirements" in this *General Bulletin*.

Honors Program

The College of Arts and Sciences offers honors in the major in all departmental and interdepartmental programs. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

COLLEGE OF BUSINESS

Dean: Melvin T. Stith;
Associate Deans: Joe D. Icerman, E. Joe Nosari, Pamela L. Perrewé

The College of Business is one of a select group of business programs in the country fully accredited by AACSB-International. This accreditation includes all undergraduate and graduate programs in business and separate accreditation of the programs in accounting.

Since its founding in 1950, the College of Business has provided quality business education to over 30,000 alumni who have gone on to positions in regional and national organizations. The college, through its faculty, curricula, and programs, is committed to educating and developing its students for careers as future business executives and leaders.

The mission of the College of Business is to provide high quality undergraduate and graduate instruction, high quality applied, empirical, and theoretical research, and significant quality service to stakeholders, our profession, and the world community. This commitment to quality is reflected in three essential areas: a talented and dedicated faculty; an outstanding student body; and a close relationship with the business community.

Over the years the College of Business has been successful in building a very capable and motivated business faculty. Faculty members throughout the several business disciplines are very productive researchers and effective teachers. These faculty members also maintain important contacts with the business community through various types of service and applied research activities.

As a result of its capable and dedicated faculty, the College of Business has been able to attract highly qualified students. Business students have strong analytical and communicative aptitudes and have a spirit of enterprise and creativity. The interaction of these students with highly qualified business faculty, coupled with well-designed business program options, creates a stimulating learning environment.

The achievements of the College of Business have been recognized by the business community in the form of development funds for scholarships, endowed chairs, professorships, teaching and research grants, and other program activities.

Programs Offered

The college offers curricula leading to the degrees of bachelor of science (BS), bachelor of arts (BA), master of business administration

(MBA), master of accounting (MAcc), master of science in management (MS), and doctor of philosophy (PhD) in business administration. The College of Law and the College of Business offer a joint-degree program leading to the juris doctor (JD) and the master of business administration (MBA) degrees.

At the undergraduate level, students may major in either accounting, entrepreneurship and small business management, finance, hospitality administration, human resource management, management, management information systems, marketing, multinational business operations, real estate, or risk management and insurance. Students may also pursue a double major by satisfying the requirements of each curriculum.

The master of business administration (MBA) program is a twelve month program designed for students who have an undergraduate business degree (or who have completed a specific set of prerequisite business courses). The program is offered on a full-time and part-time basis. The full-time program begins once each year in the summer term. The part-time program begins once each year in the spring term. Students are encouraged to have at least two years of work experience prior to entering the MBA program.

The master of accounting program is designed to allow the student to concentrate in either assurance services, accounting information systems, corporate accounting, or tax accounting. This program provides students with greater breadth and depth in accounting education than can be accomplished in the baccalaureate program.

The master of science in management program with a major in management information systems prepares students for careers in information systems analysis and design. The program is designed for students with a background in business who are looking to enhance their information systems development skills and/or change careers to management information systems.

The objective of the doctoral program in business is to prepare students for careers in university teaching and research, as well as for selected administrative and research positions in industry and government. Students receive the doctor of philosophy in business administration and concentrate in either accounting, finance, management information systems, organizational behavior and theory, strategic management, marketing, or risk management and insurance.

Institutes and Centers

The **Jim Moran Institute for Global Entrepreneurship** provides services to small businesses throughout Florida. It also provides students with opportunities to consult with and learn from successful entrepreneurs. The **Carl DeSantis Center for Executive Management Education** sponsors numerous outreach programs that strengthen the relationship between College of Business faculty and the business community. The **Institute for Business Research and Service** provides a broad mix of basic and applied research, workshops, conferences and publications to industry and government. Its activities are implemented through a number of centers in the following areas: human resource management; marketing; banking; information systems; hospitality administration; insurance; procurement; and real estate.

Facilities

The **Charles A. Rovetta Business Building** is ideally located near the center of campus adjacent to Strozier Library and the Oglesby Union. It contains modern classrooms, faculty and staff offices, and numerous support facilities. The **College of Business Technology Center** houses state-of-the-art computer laboratories and training rooms. It provides students access to the latest technology used in business. The **Business Placement Center** assists students in their employment search with services ranging from resume preparation to on-campus interviews with potential employers. The **College of Business Undergraduate Programs Office and Advising Center** provides students a wide variety of advising services.

The Dedman School of Hospitality is located in the South Building of the University Center, which provides for the specialized academic/training objectives established by the school. In addition to classrooms, this state-of-the-art facility provides hospitality students with teaching kitchens, a satellite technology center, a publication resource center, and a placement center. The building also contains an affiliated professionally managed city club that provides hospitality students with real-world food and beverage experience in elegant surroundings.

Opportunities

The College of Business programs are designed to provide high-quality business education to its students. This goal is accomplished through the following instructional objectives:

1. The curriculum instills in students a sense of ethical values and an appreciation of their responsibility for contributing to the continuing advancement of our culture and for dealing with emerging societal problems;

2. The curriculum provides a thorough understanding of the methods of analysis used in identifying and solving the more difficult intellectual problems met by professionals and/or managers who are involved in policy-making;

3. The curriculum develops within students a spirit of enterprise based on imaginative and creative ability so that they will be willing to venture into new business and organizational activities and to initiate new concepts of management;

4. The curriculum increases students' abilities to communicate ideas clearly and to appraise critically both written and spoken discourse and offers opportunities for in-depth study in the areas of the behavioral, quantitative, and information sciences.

Using these objectives as its guide, the College of Business has created an active, stimulating learning environment for both students and faculty. As part of this environment, students participate in independent study, research, laboratory experimentation, field experience, discourse, and scholarly writing.

Scholarships/Awards

Faculty

The College of Business possesses several eminent scholar chairs and numerous professorships. These prestigious faculty positions are occupied by outstanding scholars in various disciplines of business. These faculty not only conduct research, but teach at both the graduate and undergraduate levels.

Student Awards and Honors

A number of organizations are available to students in the College of Business. These organizations include service clubs as well as honor societies. The most prestigious honor society in business is **Beta Gamma Sigma**. This national honor society for business students was founded in 1913. The Florida State University chapter was established in 1962. Election to membership is the highest honor one can achieve in academics in the business area. Membership is available to both undergraduate and graduate students and is based upon outstanding academic achievement.

Scholarships

The College of Business offers several types of scholarships and financial aid for both undergraduate and graduate students. At the undergraduate level, the funding sources for the scholarships include the College of Business, specific individuals and firms, and various state and national industry associations. The amount

and selection criteria of each award vary according to the program the award supports and the funding source. In addition to scholarships, the College of Business and the University provide numerous opportunities for part-time work as student assistants.

At the graduate level, the College of Business provides a number of fellowships to master's and doctoral students. Graduate research and teaching assistantships are also provided to doctoral students and master's students.

Requirements

All of the undergraduate programs in the College of Business are designated as limited access programs. To pursue any major in the College of Business, students must meet the admission requirements for these limited access programs. All majors in the College of Business have the admission requirements listed below.

Students should complete the prerequisite courses required for admission during their first three to four semesters of college work. Students attending Florida community colleges should complete the prerequisite courses required for admission while fulfilling general education requirements leading to the associate in arts (AA) degree. Electives taken in the first two years, after fulfilling general education requirements and the prerequisite courses for business, should be in areas such as English, communications, social sciences, humanities, and analytical reasoning.

Admission Requirements

Admission to the limited access programs in the College of Business is based on availability of faculty and space by discipline. For each admission cycle (academic year), a minimum grade point average (GPA) is established by the College of Business that limits enrollment to a number of students consistent with the available faculty and space.

In order to be eligible for admission to one of the limited access programs in the College of Business, the student must complete the following requirements:

1. Must have completed at least fifty-two (52) acceptable semester hours;
2. Must have compiled the required GPA (based on all attempted course work at the college level) that is in effect for the term in which application is made; and
3. Must have completed all the State of Florida Common Course Prerequisites for Business Programs listed below except for ACG X071. All business students, except accounting majors, must complete ACG X071 prior to graduation, but not necessarily prior to admission to one of the limited access pro-

grams. Accounting majors at The Florida State University are not required to complete ACG X071 and may only take MAC X233.

State of Florida Common Course Prerequisites

1. ACG X021 or ACG X001 and ACG X011;
2. ACG X071 (not required of students majoring in accounting at The Florida State University);
3. CGS X100*;
4. ECO X013;
5. ECO X023;
6. MAC X233 or MAC X230;
7. STA X023 or QMB X100 (students at The Florida State University may substitute STA X014).

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Course Requirements

All undergraduate business students must complete 1) the University-wide baccalaureate degree requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*; 2) the State of Florida common prerequisites for business; 3) the general business core requirements; 4) the general business breadth requirements; and 5) the major area requirements for their chosen major.

General Business Core Requirements

All business students (except accounting majors, see note below) must complete the following five courses. A grade of "C-" or better must be earned in each course.

BUL	3310	The Legal Environment of Business (3).*
FIN	3403	Financial Management of the Firm (3).
GEB	3213	Business Communications (3).
MAN	3240	Organizational Behavior (3).
MAR	3023	Basic Marketing Concepts (3).

*Not required of accounting majors; accounting majors must complete BUL 3330 with a grade of "C-" or better as part of their major area requirements.

General Business Breadth Requirements

All business students must complete five (5) of the following courses. The specific courses that must be completed to meet general business breadth requirements vary by major. Please refer to the appropriate departmental sections of this *General Bulletin* to aid in se-

lecting specific courses to meet these requirements for each major. Each course selected must be completed with a grade of “C-” or better. No course may be used to satisfy part of the general business breadth requirements and part of the major area requirements.

FIN	3244	Financial Markets, Institutions, and International Finance Systems (3).
HFT	3240	Managing Service Organizations (3).
ISM	3011	Introduction to Management Information Systems (3).*
MAN	3504	Services Operations Management (3).
MAN	3600	Multinational Business Operations (3).
MAN	4720	Strategic Management and Business Policy (3).
MAR	3700	Professional Selling (3).
QMB	3200	Quantitative Methods for Business Decisions (3).
REE	3043	Real Estate (3).
RMI	3011	Risk Management/Insurance (3).

* May not be taken by management information systems majors.

Major Area Requirements

Students must meet the major area requirements for their chosen major. These requirements are described in the appropriate departmental section of this *General Bulletin*. Students may major in:

Accounting
 Entrepreneurship and Small Business Management
 Finance
 Hospitality Administration
 General Management (see Department of Management)
 Human Resource Management (see Department of Management)
 Management Information Systems
 Multinational Business Operations
 Marketing
 Real Estate (see Department of Risk Management/Insurance and Real Estate)
 Risk Management and Insurance

Academic Policies

1. Students are required to meet College of Business graduation requirements specified in the University *General Bulletin* in effect at the time they are admitted to one of the limited access programs in the College of Business, or subsequent *General Bulletins* including the *General Bulletin* in effect at the time they

graduate, provided they graduate within a period of six years from the date of first entry to the University;

2. Changes to this *General Bulletin* that have been formally approved prior to fall 2002, but not in sufficient time to meet publication deadlines, will be effective fall 2002. Students can receive information on these changes in the undergraduate programs office of the College of Business;

3. All students must complete an official pregraduation check in the undergraduate programs office of the College of Business during the first three weeks of the semester prior to the semester in which they plan to graduate;

4. All students must apply for graduation at the Office of the University Registrar during the first two weeks of the semester in which they plan to graduate;

5. A minimum of thirty (30) semester hours of the general business and major area requirements must be taken at The Florida State University.

6. Transfer of upper-level business courses must be from business colleges at other senior institutions, must carry prerequisites similar to those of the courses they are replacing, and must be approved by the Dean of the College

of Business. In evaluating this transfer credit, emphasis will be given to courses taken at other AACSB-International accredited business programs;

7. Students are not allowed duplicate credit hours for courses repeated in which they have made a “D” or better;

8. The only College of Business courses offered on a satisfactory/unsatisfactory (S/U) basis are ACG 3949; HFT 3949r, 4941; MAN 3949r; MAN 4941; and MAR 4941;

Requirements for a Minor in Business

Students majoring in areas outside the College of Business may receive a minor in general business. The general business minor consists of eighteen (18) semester hours, including ECO 2013 and 2023, and any four (4) business courses. At least two (2) of the four business courses must be completed at The Florida State University. Any business course taken at another institution must be approved by the College of Business before it will be counted toward a business minor. A grade of “C-” or better must be earned in each course in the minor.

COLLEGE OF COMMUNICATION

Dean: John K. Mayo;
Associate Deans: Gary R. Heald,
Jennifer N. Buchanan

American society is enmeshed in an all-encompassing and ever-expanding web of human and technological channels of communication. People encounter the changing terminology and technology of communication on a daily basis. The definition of this complex and ever-changing world of communication, the explanation of its assorted functions, and the understanding of its multitude of effects underlie the teaching, research, and service missions of the College of Communication at The Florida State University.

The roles of the College of Communication are: 1) to study the human communication process in all its ramifications through basic and applied research; 2) to transmit the knowledge thus acquired through undergraduate and graduate teaching; and 3) to serve the University, the state, the nation, and the world by applying its expertise to the solutions of human and institutional communication problems.

The college offers a unique and integrated series of communication degree programs at the undergraduate level. The curriculum covers the whole of human communication (both normal and disordered), speech and interpersonal communication, group and organizational communication, as well as mass-mediated and interactive, computer-based communication.

The College of Communication offers both academically and professionally-oriented courses of study. Each curricular sequence integrates knowledge about human communication from a variety of perspectives: physical; biological; social science; humanities and the arts; as well as business, government, and other related professional orientations.

The interests, perspectives, and activities of the College of Communication are extensive. Faculty members from the college serve as officers in professional and academic societies and associations. A series of journal publications, books, convention papers, and monographs have established a number of faculty as leaders in their respective fields.

Undergraduate Degree Programs

Programs of study leading to the bachelor of arts (BA) and bachelor of science (BS) degrees are offered through the Department of Communication Disorders and the Department of Communication. Each major within

the college is part of a limited access program requiring a separate application. Admission to each major is competitive. Interested students should indicate their major preference on their University application and seek advising through the College of Communication. See department entries of this *General Bulletin* for specific information regarding departmental application requirements. Candidates for the baccalaureate degrees also must comply with general University regulations governing these degrees and must complete the major and minor requirements of one of the departments identified above. (See departmental entries for specific area concentrations and requirements.) To be awarded the BA degree, the student must complete the special university-wide requirements for that degree.

Requirements for the Second Baccalaureate Degree (Dual Certificate)

A student completing a second bachelor's degree in the College of Communication must complete at least thirty (30) semester hours at The Florida State University, in addition to the required hours for the first degree. The student must complete a new major and a new minor (with no overlap between these and the first major and minor).

Note: to distinguish between second baccalaureates and second majors (also known as double majors), see the appropriate paragraph under "Undergraduate Degree Requirements" in this *General Bulletin*.

Honors in the Major

Both communication and communication disorders offer an honors program in the major. It is designed to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Dean's List

Students who in any term carry a full-time course load of twelve (12) or more letter-grade semester hours with a grade point average (GPA) of 3.5 or above earn the distinction of being on the dean's list.

Graduate Degree Programs

Students making application for admission to one of the departmental graduate programs must also apply through the University Office of Admissions.

Communication Disorders

Programs of study leading to the master of science, master of arts, advanced masters, and doctor of philosophy degrees are available in the Department of Communication Disorders (see the departmental entry of the *Graduate Bulletin* for complete descriptions).

Communication

The graduate programs in communication offer several specialized majors leading to the master of arts, master of science, and doctor of philosophy degrees (see the departmental entry of the *Graduate Bulletin* for complete descriptions).

Research and Service Facilities

The College of Communication offers students enriched learning experiences through a variety of teaching, research, and/or service laboratories.

The **Florida Government Performance Survey Research Center** helps Florida government agencies determine how well they are meeting the needs of their customers. It also offers strategies to improve communication and organizational performance of state and local governments. It conducts public opinion polls, work climate and other employee surveys, and web-based surveys, as well as media audience studies, readership surveys, message testing, focus groups, performance evaluation and communication audits.

The communication science laboratories provide facilities for the study of physical and psychological aspects of sound, speech, voice, and language. The **Speech Science Laboratory** has specialized equipment enabling analyses of duration, intensity, spectral, and fundamental frequency aspects of speech. Instrumentation and procedures for the forensic study of speech enable the detection of signals of noise and speaker identification from recorded speech samples. The **Voice Science Laboratory** includes computer-interfaced instrumentation for measuring vocal intensity and pitch, aeromechanical aspects of voice and resonance, and physiological functioning of respiration and the vocal apparatus. The **Hearing Science**

Laboratory utilizes computerized instrumentation for basic research on loudness, pitch, binaural hearing, and the temporal aspects of hearing, as well as for the study of hearing sensitivity using a variety of auditory stimuli. The facility includes two sound-attenuated suites and an electronics shop. The **Emerging Language Laboratory** includes equipment for recording, editing, and analyzing audio and video samples of speech and language discourse and social interactions. On-site recording facilities accommodate small groups of children and children with their parents. Portable equipment is available for field recordings. Software programs for analyzing language samples and summarizing results are available. The **Adult Language Laboratory** provides facilities for the study of social and communication problems associated with acquired brain injury and illness in adults. These facilities are equipped with evaluation instruments and materials, audio/video equipment, and computers to facilitate data analysis.

The **Speech and Swallowing Laboratory** includes instrumentation to study the physiology/kinesiology of the speech/swallowing mechanism. Measurement techniques include surface electromyography, acoustic measures, and measures of strength and endurance. Work in this laboratory is designed to develop or refine techniques for the evaluation and treatment of individuals with speech and swallowing impairments.

The **Augmentative and Alternative Communication Laboratory** provides student clinicians with opportunities to learn about the evaluation and treatment of children and adults with severe communication disorders. The facility includes dedicated electronic communication devices with voice output, switches, keyboards, software programs, and other computer-based systems.

The Florida State **Center for Autism and Related Disabilities (CARD)** was established in 1993 and is one of five similar centers in the state. Over 750 individuals with autism or related disabilities have been identified in the 18 Florida Panhandle counties served by The Florida State Center. The center provides services to eligible individuals for communication, social, and behavior problems, and provides information, consultation, and technical assistance to families and professionals. The center also trains professionals and pre-professionals who serve, or are preparing to serve, the client population.

Teaching Facilities

The **Production Center** is a state-of-the-art media production complex that supports the video and audio production activities of the Department of Communication. The Production Center houses a variety of equipment and facilities: a fully equipped television studio; video-editing suites in several formats, including DV, 3/4" SP, and Betacam SP; field production cameras and recorders in each of those formats; computerized on and off-line editing, digital video effects, and computer animation capabilities; non-linear editing; and on-site engineering and management support. The facility was designed around the principle that students need maximum exposure to the equipment to develop the competency required in media production fields.

The communication program has two lab facilities that are used for instruction and for the production of multimedia products. The mission of the program is to provide training and real-world experience to students in the Department of Communication. In fulfillment of this mission, the graduate program actively seeks partnerships with corporations, government agencies and other organizations interested in developing products and services that use technology in innovative ways to meet specific information, communication and educational needs. The graduate curriculum provides instruction in the integration of new communication technologies, e-commerce, social, organizational and educational arenas. Building on a solid base of research in communication and interactivity, students learn how to analyze problems and present practical solutions. To this end, the program pursues projects linking people through technology and assisting students with design projects in various areas, including website, CD-ROM and groupware development. Expertise in these areas will be among the most important skills of new communication professionals.

WVFS-FM (V-89) is The Florida State University's student-operated college radio station. Communication students work at V-89 for college credit and are responsible for programming, announcing, news and sports coverage, and all other station operations. V-89 is "the Voice of Florida State," providing campus information and alternative music programming. V-89 has been the recipient of several national

programming awards, and is now available on the World Wide Web through streaming video at: <http://www.vfs.fsu.edu>.

Seminole Productions is the Department of Communication's video production unit. Seminole Productions provides a variety of services to other campus departments. A major client is the athletic department. Seminole Productions also produces the weekly University sports highlight show, *Seminole Uprising*, which reaches over two million households in Florida via the Sunshine Network. Students have numerous opportunities to become involved with Seminole Productions.

The **L. L. Schendel Speech and Hearing Clinic** is the primary teaching laboratory for students enrolled in the communication disorders master's degree programs. This 40-room facility is the central focus of learning and service activity. Videotape laboratories, diagnostic audiology instrumentation, sound isolation rooms, electronic communication devices, and a complement of other clinical resources serve the program's needs for clinical management and instruction.

The College of Communication maintains seven fully-equipped computer laboratories. While some labs serve specific program areas, others are available for general instruction and research. The labs are equipped with a full complement of personal computers and laser printers, all of which are connected to the college's Microsoft Windows2000 network. Connectivity to the network allows faculty and students to share data and collaborate on projects.

The labs' personal computers include a full array of commercial software for word processing, spreadsheet development, database management and academic applications for statistical and content analysis. Some of the labs serving the Department of Communication include hardware and software for fully integrated desktop publishing and video applications. The Department of Communication Disorders offers labs equipped with hardware and software for language sample analysis, instructional material development and desktop publishing. Certain labs also include hardware and software for nonlinear video editing.

SCHOOL OF CRIMINOLOGY AND CRIMINAL JUSTICE

Dean: Daniel Maier-Katkin;
Associate Dean: Thomas Blomberg;
Director of Internship, Criminology, and Criminal Justice: Laura Bedard

The Florida State University has one of the oldest criminology programs in the world. Starting as a nondegree concentration in the School of Social Welfare in 1953, the program rapidly expanded and became the Department of Criminology and Corrections in the School of Social Welfare in 1956. The bachelor's degree program, master's program, and a joint doctoral program with sociology were established in 1956. An independent doctoral program in criminology was authorized by the Board of Regents in 1971. This doctoral program was the first PhD program in criminology established in the United States. In 1973 the department became the School of Criminology. In 1991 the school was renamed the School of Criminology and Criminal Justice. The School of Criminology and Criminal Justice is located in the Hecht House.

At The Florida State University, the discipline of criminology and criminal justice is viewed broadly as encompassing the scientific study of crime, criminals, the lawmaking process, the criminal justice system, crime prevention, and the treatment of offenders. The program is interdisciplinary and integrative in nature, drawing upon many different disciplines and paradigms for theoretical and methodological approaches. Among these disciplines are sociology, psychology, political science, economics, anthropology, geography, public administration, urban studies, demography, history, philosophy, biology, social work, and law.

The criminology and criminal justice program focuses both on theory and on practice in the belief that neither stands alone. Sound practice demands sound theory, and theories are developed and modified through careful study as they are put into practice. Based on this perspective, the undergraduate program prepares individuals for a career in the criminal justice system, or some related field, or for additional study at the graduate level in criminology or law.

The School of Criminology and Criminal Justice offers undergraduate and graduate programs leading to the bachelor of science (BS), bachelor of arts (BA), master of science (MS), master of arts (MA), and the doctor of philosophy (PhD) degrees. A distance learning master's of science degree program is available for professionals with at least two (2) years of experience. In addition to general criminology degree programs, a dual master's degree program is offered with the School of

Public Administration and Policy. For undergraduates, certificates are available in corrections, law enforcement, and security administration. Evening programs are offered for undergraduate and graduate students.

Students majoring in criminology and criminal justice have an important opportunity for hands-on experience that is afforded by the school's internship program. The Florida State University's location in Tallahassee affords direct access to extensive research and employment opportunities. Tallahassee is home to various state and federal courts as well as several state correctional facilities, drug treatment facilities, a federal prison, and a variety of private sector opportunities. The legislature, governor, cabinet, attorney general, and Department of Corrections, Probation/Parole, and Law Enforcement are located in Tallahassee. Study at the School of Criminology and Criminal Justice provides access to criminological facilities that match or exceed any in the nation.

Requirements

Admission for a Major

Students are eligible to major in criminology and criminal justice after completing a program of liberal studies with an overall grade point average (GPA) of 2.0 or above. Enrollment as a major in criminology and criminal justice requires no specific lower-division courses as prerequisites.

All students of The Florida State University must fulfill the Liberal Studies Program requirements set forth in the "Undergraduate Degree Requirements" section of this *General Bulletin*. Successful completion of CLAST is also necessary. Transfer students who have earned an associate in arts degree from a Florida public community college or state university will be considered to have met the liberal studies requirement.

Major Requirements

To major in criminology and criminal justice, a student must complete forty-five (45) semester hours in criminology, including five (5) core courses. An optional one-semester full-time internship (CCJ 4940) is available to fulfill fifteen (15) semester hours of the required course work. A minor is not required by the School of Criminology and Criminal Justice for completion of the major.

For students transferring from another four year university, at least twenty-seven (27) semester hours must involve courses taken

within the School of Criminology and Criminal Justice; the University requires the last thirty (30) semester hours prior to graduation be taken at The Florida State University. In addition, all regular University requirements must be met for both the bachelor of arts (BA) and the bachelor of science (BS) degrees.

Core Courses

The core courses are Criminology (CCJ 3011), Law Enforcement (CJE 3110), Courts (CJL 3510), Corrections (CJC 3010), and Introduction to Research Methods in Criminology (CCJ 4700). The core courses are expected to be taken at The Florida State University. A minimum grade of "C" (2.0) must be obtained in each core course.

Internships

A variety of internships are available at the local, state, and federal levels in the fields of law enforcement, courts, corrections, criminal justice planning, criminological research, and private sector opportunities. The internship is available for juniors and seniors who have completed the core courses (CCJ 3011, 4700; CJC 3010; CJE 3110; CJL 3510) and have satisfied the CLAST requirement. The intern receives a satisfactory/unsatisfactory (S/U) grade, and full credit is given upon successful completion of both the academic component and the work hours.

Students are advised that information pertaining to all matters of public record, such as arrests and convictions, may be required by the agencies accepting interns. Although a reasonable effort is made to place a student in an internship, the University will not be liable if a student cannot be placed. Students are usually responsible for all living and transportation expenses during the field experiences.

Minor Requirements

A minor in criminology and criminal justice may be obtained upon completion of the five (5) courses discussed above. The core courses are expected to be taken at The Florida State University. A grade of "C" (2.0) must be obtained in each core course.

Certificates

The School of Criminology and Criminal Justice offers three certificate programs: corrections, law enforcement, and security administration.

Honors in the Major

The School of Criminology and Criminal Justice encourages its honors students to participate in the honors in the major program. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Special Programs

Juvenile Justice Role Model Development Program (JJRMDP)

The Juvenile Justice Role Model Development Program was established to meet a critical shortage of trained professionals for programs that provide young people with strong, positive role models in their communities. The Role Model Program is committed to the belief that the best time to intervene in the cycle of delinquency is with our youth. The Program's missions are to provide a pool of professionals in the area of juvenile justice who are uniquely trained, and committed to

serving as role models to staff youth prevention, intervention, and redirection programs through the state and the nation.

Utilizing a specialized and innovative curriculum drawn from the disciplines of criminology, sociology, psychology, education, social work, and the humanities, role model students receive a unique blend of academic work and practical experience as volunteers in the community programs as well as in an internship.

Student Activities

The American Criminal Justice Association-Lambda Alpha Epsilon is devoted to continuing high levels of professionalism in all areas of criminal justice. Any student committed to the field of criminal justice is invited to participate. The chapter holds regular meetings to provide members opportunities to exchange ideas and information about their respective jobs and through the sponsorship of special programs of interest to the general membership. The Lambda Chapter of ACJA has much to offer students including a pistol team, a crime scene team, and an academic team.

Scholarships, Awards, and Financial Aid

There are several scholarships available to students majoring in criminology and criminal justice. Applications are available in the spring each academic year, in the Mary M. Harris Student Support Services Center in Hecht House. In addition to the application, students must supply an unofficial transcript. A faculty committee appointed by the dean selects the recipients.

Scholarships awarded to undergraduates include **Kelley R. Ivey**, **Ernest Kearns Ponce De Leon**, **Jerry A. and Carolyn S. Glass**, **Frank A. and Lynn W. Baker**, and **Rob Williams** memorial scholarships. In addition, the **Joe Harris Memorial Award** is presented yearly to an outstanding graduate teaching assistant.

Small loans are available to undergraduates from the **Vernon Fox Student Loan Fund** and the **Tompkins Student Loan Fund**. Further information on loans, grants, work-study opportunities, and scholarships are available from the school or from the University's Office of Financial Aid.

COLLEGE OF EDUCATION

The Florida State University's College of Education's conceptual framework is based on a model that engages faculty, professional partners and candidates in a continuing process of Preparing Educational Leaders for our global and diverse society. The Florida State University prepares educational leaders who uphold high professional and academic standards, and employ scientific inquiry and assessment as a basis for the continual improvement of student learning. They address the needs and abilities of diverse students through the use of appropriate instructional strategies and technology. These qualities are developed as candidates study and work within a community of professional partners.

Dean: Richard C. Kunkel;
Associate Deans: Robert Clark, Elizabeth Jakubowski, Lee Jones, Steve Rollin

The primary purpose of the College of Education is to prepare teachers and a variety of human services practitioners for a wide range of educational careers. The faculty of the College of Education provides the experiences that enable students to acquire professional competencies required in each field.

The college believes that all of its students should acquire a solid grounding in the liberal arts and an understanding of human learning and behavior and social action. The responsibility for meeting these academic goals is shared by the college and by other colleges, schools, and departments in the University.

The College of Education offers undergraduate and graduate degree programs in 27 fields of study. The programs prepare students for positions primarily in elementary and secondary schools, colleges and universities, vocational centers, and organizations that provide counseling services, recreational services, athletic training, and instructional design.

Programs of study leading to the bachelor of arts or bachelor of science degree include early childhood education, elementary education, English education, health education, recreational and leisure services administration, mathematics education, multilingual multicultural education, physical education, rehabilitation services, science education, social science education, and special education.

 Sports administration*
Recreation and leisure services administration +

Admission Standards for University Teacher Education Programs

All teacher education programs at The Florida State University are governed by State of Florida Board of Education Rules and the National Council for Accreditation of Teacher Education standards. These rules require that all students must meet specific criteria to be admitted into a teacher education program. See "Planning Guide to Teacher Education Programs" later in this section.

* graduate only
+ limited enrollment

In addition, early childhood education, emotional disturbances/learning disabilities, elementary education, recreation and leisure services administration, education of the mental disabilities, and visual disabilities are *limited enrollment* programs with capped enrollments. Students who satisfy the minimum requirements listed in this *General Bulletin* are not guaranteed admission to these programs. The programs will accept the most qualified students.

Many departments have retention and exit standards that exceed normal University requirements. Refer to the department section for specific admission requirements and check with a departmental advisor.

The College of Education is committed to increasing the proportion of teacher candidates who have historically been underrepresented among Florida's public school teachers. Applicants representing such groups will be considered as exceptions to the general admissions criteria.

Planning Guide to Teacher Education Programs

State Board of Education Rule 6A-5.066

The Florida State University teacher education programs have been designed to address the importance of democratic values and institutions, the contributions of various ethnic groups to society and to stress character development, which encourages appreciation of diversity in a pluralistic society. Students planning to complete one of the following undergraduate teacher education programs at The Florida State University must meet all the conditions listed below to be eligible to have a bachelor's degree conferred.

Undergraduate Teacher Education Programs at The Florida State University

Art education (School of Visual Arts and Dance)

College of Education (see listing earlier in this section of the *General Bulletin*)

Family and consumer science (College of Human Sciences)

Interdisciplinary sciences (College of Arts and Sciences)

Music education (School of Music)

Teacher Preparation General Education Requirements

Note: students should consult with an advisor to determine how to simultaneously satisfy The Florida State University liberal studies requirements and the teacher preparation general education core curriculum requirements.

Mathematics:

Nine (9) semester hours in mathematics to include college algebra or above and geometry;

English:

Nine (9) semester hours in English to include writing, literature, and speech;

History/Social Sciences:

Twelve (12) semester hours in social sciences to include American history and general psychology;

Humanities/Fine Arts:

Six (6) semester hours in humanities to include philosophy and fine arts;

Natural Sciences:

Nine (9) semester hours in science to include earth science, life science, and physical science, with a minimum of one associated laboratory.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for University degree programs. Specific prerequisites are required for admission into the upper division programs and **must** be completed by the student at either a community college or a state university prior to being admitted to these programs. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.**

The following lists the common prerequisites or their substitutions necessary for admission into upper-division teacher education degree programs:

1. Education Core Prerequisites

1. EDF 1005
2. EDG 2701
3. EME 2040*

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements. Contact department and/or advisor for details.

Note: courses marked with an asterisk (*) may have at least one acceptable substitute, depending upon department degree program. Contact the department for details.

2. Department/Program Prerequisites

See department listings in the *General Bulletin* for each department/program's common course prerequisites.

Common prerequisites and total program length for state-approved teacher preparation programs are subject to revision based on changes

in State Board of Education Rule 6A-5.066, Approval of Preservice Teacher Preparation Programs, as amended August 7, 2000.

Criteria for Admission to a Teacher Education Program

1. Have at least a 2.5 (on a 4.0 scale) grade point average (GPA) for the general education courses of the undergraduate studies; and
2. Have a grade of "C-" or better in each required general education (liberal studies) English and each general education (liberal studies) mathematics course; and
3. Take and achieve a passing score on all sections of the CLAST (**this requirement cannot be waived or met by alternative means**); and
4. Be approved by the appropriate teacher education department in accordance with departmental criteria; and
5. Receive final approval by the Office of Academic Services.

Note: these are minimum standards. Some programs may set higher standards.

Note: there is no longer a required minimum composite score on the ACT or the SAT for admission to teacher education. However, programs with limited enrollment status may require submission of the score, and may use that score in determining which students will be admitted.

Application Procedures for Admission to Teacher Education Programs

Admission to a teacher education program is administered by the Dean of the College of Education and assigned to the Office of Academic Services, 108 Stone Building. All students must contact this office regarding application into a teacher education program.

Subject Area Specialization/ Professional Education/Clinical Experience Curricula

1. At least thirty (30) semester hours completed in the subject specialization area as determined by the student's program;
2. Professional education coursework to include: a) reading-literacy acquisition for the appropriate certification level; b) integrated classroom management, school safety, professional ethics and educational law; c) human development and learning; and d) assessment to include understanding the content measured by state achievement tests, reading and interpreting data, and using data to improve student achievement;
3. A series of clinical experiences in diverse settings throughout the program that culminates with a full-time student teaching experience of at least 10 weeks duration in an approved setting.

Note: students should consult with a program advisor for specific course requirements.

Program Completion Requirements of a Teacher Education Program

Students must complete the following requirements to graduate from a teacher education program:

1. Maintain an overall GPA of 2.5 or above in all upper-division course work (some programs may require a higher GPA);
2. Maintain standards and specific course work requirements set by the program;
3. Meet all University graduation requirements, including requirements mentioned above under "Planning Guide to Teacher Education Programs";
4. **Pass the basic skills professional knowledge and subject area tests, which are required for teacher certification;**
5. Receive verification from the appropriate academic program of successful demonstration of the Educator Accomplished Practices at the preprofessional level, which includes the knowledge, skills and dispositions necessary to help all students learn;
6. Successfully complete the student teaching experience including the successful demonstration of the Educator Accomplished Practices at the preprofessional level; and
7. Obtain final approval of the appropriate academic program and the Office of Academic Services.

Recommendation for a Teaching Certificate

Upon completion of an approved teacher education program and conferral of the bachelor's degree from The Florida State University, students are eligible to receive a recommendation for a standard teaching certificate.

Honors Program

The College of Education offers honors in the major work in several departmental and interdepartmental programs. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Office of Academic Services

Director: Kenneth B. Tellis

The Office of Academic Services provides a wide array of professional and administrative services to students and faculty in the college and throughout the University. The primary responsibilities of this office are the following:

1) to provide centralized academic advisement for undergraduate studies students interested in majoring in education and to coordinate advisement services in the other areas of the college and University for students who are interested in pursuing teacher education curricula; 2) to process applications for admission and readmission to the College of Education; 3) to maintain the dean's academic records for all students who are pursuing curricula in education; 4) to monitor student's degree progress; 5) to screen and approve students for admission to teacher certification; 6) to conduct required graduation clearance and approve students for teacher certification; and 7) to provide consultative and administrative services for the students and faculty in the college.

Office of Clinical Education

Director: Charlotte Minnick-Boroto

The Office of Clinical Education is responsible for the assignment of students for student teaching experiences. The director of clinical education works with teacher education programs in the University and the public schools of Florida in the organization of student-teaching centers and the selection of supervising teachers for student teaching. Faculty members work with supervising teachers and student teachers in planning and carrying out the student-teaching experience. **The Office of Clinical Education is responsible for the final identification and screening of all students who make application for student teaching.**

Students are assigned for the student-teaching experience in those counties listed below at the rate of at least two representing the same academic program. Academic programs may, **at their discretion, establish a minimum group size greater than two and restrict placement to particular counties among those identified. Exceptions to this policy will be made only through successful appeal on the part of a student to the University Student Teaching Appeals Committee.** Student teachers representing the programs of social work, human sciences, communication disorders, visually impaired, music, and vocational home economics education will also be concentrated in those counties listed but may be placed in additional locations should program certification requirements dictate their use.

Placement Locations

Area I: Gadsden, Jefferson, Leon, Madison, Taylor, and Wakulla counties.

Area II: Bay, Calhoun, Jackson, Liberty, Okaloosa, Walton, and Washington counties.

Area III: Brevard, Orange, Seminole, and Volusia counties.

Area IV: Hillsborough, Manatee, Pasco, Pinellas, Polk, and Sarasota counties.

Area V: Broward, Dade, and Palm Beach counties.

Academic programs are expected to inform their students of departmental placement policies well in advance of the semester of student teaching so that students may have the opportunity to plan appropriately.

Applicants are specifically not guaranteed assignment to their home county nor to the immediate and general vicinity of the campus. Submission of an application by a candidate constitutes an agreement to accept assignment in the school and county where it is determined that the candidate's academic program objectives for student teaching can best be achieved.

A candidate is expected to meet professional standards as expressed in the pertinent school laws of the state of Florida. Candidates are also informed that, consistent with applicable law, information pertaining to all matters of public record, such as arrest and/or convictions in a court of law, may be routinely furnished to public schools as well as prospective employers. **Finally, fingerprinting, drug testing, and background checks may be required for placement in some counties.**

Admission to Student Teaching

An application for student teaching must be submitted to the Office of Clinical Education according to the following schedule:

Third Monday in September for spring semester student teachers;

Second Monday in February for fall semester student teachers;

First Monday in April for summer term student teachers (restricted).

Criteria for Admission to Student Teaching

1. Admission to teacher education;
2. Successful completion of at least one semester of residence at The Florida State University;
3. Successful completion of requirements in the subject area specialization and professional education prior to student teaching;
4. Achieve an overall GPA of 2.5 in all upper-division course work (a higher GPA may be required by some academic programs for particular core courses);
5. Successful completion of standards, specific clinical experiences set by the program or the University; and
6. Achievement of senior status.

Office of Student Access, Recruitment and Retention

Director: Bruce Daniels

The College of Education and the Office of Student Access, Recruitment and Retention (STARR) at The Florida State University have taken the lead to create a wholesome environment for underrepresented students. STARR supports the educational goals of underrepresented students by providing ac-

tivities that encompass the academic, social and professional realms of education. In addition, the STARR office is actively dedicated to recruiting, and more importantly, retaining the students who diversify the ethnicity of the College of Education. In accomplishing this goal, we have considered the national and state demographic trends in making the aggressive efforts necessary to address the demands of an everchanging student population.

The STARR office has a tremendous challenge and intends to work directly and indirectly with all minority students. However, every effort will be made to be responsive to the needs of all students. Some of the STARR opportunities for underrepresented students include a mentoring program, Foundation for Underrepresented Students in Education (FUSE) — a student organization, the Fuse student newsletter, and an end of year social. Activities such as these help to create a meaningful climate for our underrepresented students.

FAMU—FSU COLLEGE OF ENGINEERING

Dean: Ching-Jen Chen;
Associate Dean: Samuel Awoniyi;
Director of Student Services: Sheldon White

The accelerating pace of technological developments has created an ever-increasing demand for highly qualified, professional engineers to maintain the high-tech momentum already achieved and to extend and direct its course. Expanding population and corresponding demands for new products, structures, designs, and improved services have posed new challenges to present and future engineers. Accordingly, the College of Engineering, through its curricula, strives to educate and train engineers to use scientific knowledge and problem-solving skills to determine the best solutions to the problems of today and the future.

It is expected that students who conscientiously apply themselves and successfully complete one of the broad engineering programs will not only be technically trained, but also humanistically and socially educated, and thereby be well prepared to make a significant contribution to the world in which they work.

An engineering student can pursue any one of several career plans, according to personal ambitions, interest, and abilities. The student may pursue the bachelor of science (BS) degree or an advanced research-oriented graduate program leading to the master of science (MS) or doctor of philosophy (PhD) degrees.

An engineer usually works as a member of a team in solving a problem or designing products or processes. The engineer's responsibility may include some of the following: 1) the conception of an idea, including a careful delineation of the problem; 2) the design of an item or process, including operational and production requirements; 3) the selection of materials; 4) the determination of markets; 5) the assessment of sociological effects and determination of methods for controlling these effects; 6) the design or selection of machines for production; and 7) the control of costs. Currently, over two-thirds of all technical positions and a large percentage of managerial positions in industry are occupied by engineers.

History and Goals

The FAMU—FSU College of Engineering was authorized by the 1982 legislature as a joint program between Florida A&M University and The Florida State University. The joint nature of the college allows a student to register at either Florida Agricultural and Mechanical University or The Florida State University and receive a degree in any of the college's programs. A student entering the college applies

for admission through one of the two universities and must satisfy the admission and general degree requirements of that university. The degree is granted through the College of Engineering by the university where the student is registered while completing upper-division studies. All College of Engineering classrooms and administrative and faculty offices are housed in a modern engineering complex located at 2525 Pottsdamer Street adjacent to Innovation Park.

The mission of the college is to provide an innovative academic program of excellence at the graduate and undergraduate levels judged by the highest standards in the field and recognized by national peers; to attract and produce greater numbers of women and minorities in professional engineering, engineering teaching, and research; and to attain national and international recognition of the college through the educational and research achievements and the professional service of its faculty and students.

Programs and Degrees

The college offers professional programs of study leading to the bachelor of science (BS) degree, the master of science (MS), and doctor of philosophy (PhD) in chemical, civil, electrical, industrial, and mechanical engineering, a bachelor of science in computer engineering, and a master of science and doctor of philosophy in biomedical engineering. The college also offers interdisciplinary specializations in bioengineering, biomedical, environmental and materials engineering. The BS programs are accredited by the Accreditation Board for Engineering and Technology (ABET).

Facilities

The students at the FAMU—FSU College of Engineering have access to a large number and variety of computer systems. The college has three computer laboratories with more than 150 machines available for general student use. These labs contain Pentium III 933MHz color PCs and are open more than 100 hours per week. Two of these labs are equipped to function as classrooms to support undergraduate and graduate education. These two classrooms have more than 60 desktop computers and are prepared with multimedia equipment. Further, 18 PCs have been added to the college's atrium for general students use. Students are able to connect to the college's backbone using the wireless stations from the college's atrium. In addition, each of the five departments has specialized teaching and research laboratories; the description of these laboratories is given un-

der each department. Five additional classrooms are used for multimedia presentation. Laptops, VCRs, and ceiling-hung projectors are used for classroom presentations.

In addition to the general use computer labs, the Computing and Communication Services Division maintains computers in research labs, faculty offices, staff offices and the departments' computer labs. All the building's computers are connected to the college's LAN and to the Internet. Wireless stations have been added to the college's atrium. The network facility has been upgraded to a switch-based system which enables 100Mbps up to the desktop and a Gig connection to the backbone. A cluster of Sun servers supports the computing facilities at the college. The college computing facility is connected directly to The Florida State University campus backbone. In addition, the college maintains a RAS server with more than 48 modem lines for faculty, staff and student connections from their homes and residence halls.

The Multimedia and Distance Learning Division produces and maintains distance learning opportunities for select engineering courses. A live two-way videoconferencing link is established with the Panama City campus via a dedicated fractional T-1 line. Students also may elect to view classes by videotapes in campus viewing facilities. A Real Video G2 server is in place to provide live and recorded video and audio streams. Video conferencing capabilities also are available through the use of two Intel ProShare ISDN systems. The college utilizes a template provided by Blackboard technology for web course delivery.

The college has a web-based course delivery system which maps the activities in the real lecture to the web-based setting. Students are able to attend the lectures and participate as if they are sitting in the classroom. The Department of Mechanical Engineering has used this classroom for their online master degree program.

The college has C-band and KU-band satellite downlink capabilities for program viewing. Additionally, the college provides a modest video production facility with linear and non-linear editing capabilities in the creation and editing of various video formats.

Opportunities

A limited number of scholarships are available for qualified students. The college also has a satellite office of The Florida State University Career Center to assist students in obtaining internships, co-op jobs and permanent employment with employers nationwide.

Honors in the Major

The College of Engineering offers honors in the major in several departmental programs. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Prerequisites to Engineering Courses

1. Students must achieve a GPA of 2.5 or better in calculus I, calculus II, physics I, and chemistry I prior to enrolling in any 2000-level or above engineering course for which any of these courses are prerequisites. A maximum of one repeat of each course is allowed in meeting this requirement. Students who do not achieve at least a GPA of 2.5 in MAC 2311 Calculus with Analytical Geometry I (4) and EGN 1004L First Year Engineering Laboratory (1) may be directed to take additional academic work as determined by the college;

2. Any student who fails to earn a grade in the range of "C" or better in an engineering course on the third attempt is subject to dismissal from the engineering program;

3. Any student who exceeds thirty (30) semester hours of repeated course work is subject to dismissal from the engineering program;

4. Engineering majors must earn a grade in the range of "C" or better in all engineering courses and engineering core courses which apply toward the degree. This requirement may be waived by the academic dean upon recommendation of the department chair for no more than two (2) such courses;

5. Normal policy in the college is to allow two reinstatements. A third reinstatement may be approved in exceptional circumstances. Any student who fails to comply with the agreement approved by the department chair following reinstatement or fails to earn a cumulative GPA of 2.0 or better upon completion of the term is subject to dismissal from the engineering program.

Transfer Students

Students who plan to enroll in another institution for the first two years and then transfer into the college should use great care in selecting freshman and sophomore course work. They should include as many courses as possible from the engineering core. Students are advised to consult with the College of Engineering as early as possible concerning their first two years of study. In general, a transfer student must satisfy the same requirements in engineering and related areas as students who take all their course work at the College of Engineering.

Bachelor of Science Degree Requirements

A student who has taken a college preparatory curriculum in high school including algebra, geometry, trigonometry, physics, and chemistry can complete the requirements for the bachelor of science (BS) degree in four years and one summer with an average load of sixteen (16) hours per semester. A student with superior high school training may take advantage of opportunities for advanced placement through the University's programs for acceleration. In order to satisfy the State of Florida, Division of Colleges and Universities, requirement of summer attendance, it is recommended that students enroll in the summer session at the end of the first year. Students who are not prepared to begin with calculus I (MAC 2311) may need to attend one additional summer session.

The engineering curriculum is made up of four components: liberal studies, engineering core, required courses in the engineering major area and technical electives.

Liberal Studies

All students must meet University requirements for baccalaureate degrees stated in the "Undergraduate Degree Requirements" section of this *General Bulletin*. Of the thirty-six (36) semester hours required in liberal studies, thirteen (13) of these semester hours are automatically satisfied by the engineering core courses listed herein. Therefore, the student must take a total of twenty-three (23) semester hours in the areas of English, history, humanities, and social sciences. Students unprepared to begin calculus at the university level must, of course, also complete the necessary mathematics course work preparatory to calculus. All prospective engineering students should select humanities and social science courses to meet the above requirements.

Engineering Core

All graduates of the college must master a common body of knowledge about their profession. This has been addressed by the adoption of an engineering core for all students seeking the BS in engineering. Some of these courses may be completed at a community college that offers a pre-engineering track. Others are only offered within the college.

The engineering core, which consists of basic science, mathematics, and professional courses, ensures that every student is provided with a solid background education regardless of his or her option. The required courses are listed below:

CHM	1045	General Chemistry I (3)
CHM	1045L	General Chemistry I Laboratory (1)
EEL	3003	Introduction to Electrical Engineering*** (3)

EEL	3003L	Introduction to Electrical Engineering Lab*** (1)
EGM	3512	Engineering Mechanics** (4)
EGN	2123	Computer Graphics for Engineers* (2)
EGN	1004L	First Year Engineering Laboratory (1)
EGN	3613	Principles of Engineering Economy* (2)
EML	3100	Thermodynamics* (2)
MAC	2311	Calculus with Analytical Geometry I (4)
MAC	2312	Calculus with Analytical Geometry II (4)
MAC	2313	Calculus with Analytical Geometry III (5)
MAP	3305	Engineering Mathematics I (3)
PHY	2048C	General Physics A (5)
PHY	2049C	General Physics B (5)

*Except for chemical and mechanical engineering majors.

**Except for mechanical engineering majors.

***Except for electrical engineering majors.

Engineering Major Area

Course requirements for engineering major areas consist of additional mathematics and basic science courses, engineering science courses, and engineering design courses. A current statement of requirements for engineering major areas is available as advising materials in the academic departments.

ABET EC 2000

With regard to ABET EC 2000, the engineering core courses also service some learning tasks and graduate attributes common to all engineering BS programs. However, as each BS program has its own additional course requirements for ABET EC 2000, students are advised to obtain up-to-date information from their major departments.

Definition of Prefixes

EEL	—	Electrical Engineering
EGM	—	Engineering Mechanics
EGN	—	General Engineering
EML	—	Mechanical Engineering

Undergraduate Courses

EEL 3003. Introduction to Electrical Engineering (3). Prerequisites: MAC 2312; PHY 2048; Corequisite: EEL 3003L. This course is an introduction to electrical engineering concepts for nonelectrical engineering majors. It covers a broad range of topics, including basic circuit theory, semiconductor devices, microprocessors, instrumentation amplifiers, and machines.

EEL 3003L. Introduction to Electrical Engineering Laboratory (1). Prerequisites: MAC 2312; PHY 2048. Corequisite: EEL 3003. Laboratory in support of EEL 3003. Must be taken concurrently with first enrollment in EEL 3003. Must be dropped if EEL 3003 is dropped.

EGM 3512. Engineering Mechanics (4). Prerequisites: MAC 2312; PHY 2048. Corequisite: MAC 2313. Course topics include statics and dynamics of particles and rigid bodies using vector analysis, free body diagrams, equilibrium of particles and rigid bodies, particle and general rigid body motion, work/energy, impulse and momentum methods.

EGN 1004L. First Year Engineering Laboratory (1). An emphasis on student time management, a variety of products and processes, and computer-aided problem solving. Product/process involves sketching and drawing pertinent diagrams by hand, and learning the history and engineering concepts involved.

EGN 2123. Computer Graphics for Engineers (2). Prerequisite: MAC 2311. Course covers principles of engineering graphics: visualization, spreadsheet applications, graphical calculus, and descriptive geometry. Also introduces the engineering design process and CAD systems.

EGN 3613. Principles of Engineering Economy (2). Prerequisite: MAC 2313. An emphasis on discrete cash flow diagrams, cash flow equivalence factors, standard criteria for comparing project proposals, special cash flow topics, special analysis, and case studies.

EML 3100. Thermodynamics (2). Prerequisites: MAC 2312; PHY 2049. An introduction to engineering thermodynamics; basic concepts, properties of pure substances, work and heat; first and second laws of thermodynamics, closed and open systems, formulations, engineering applications.

COLLEGE OF HUMAN SCIENCES

Dean: Penny A. Ralston;
Associate Dean: Bonnie Greenwood;
Mack and Effie Campbell Tyner Eminent Scholars: Konrad Bloch (deceased), John Kinsella (deceased), William Ruben, William Jerome Vereen, Richard Lerner, James Banks, Richard Palmiter, Susan Watkins;
Dean Emerita: Margaret A. Sitton

The College of Human Sciences, which began in 1905, is the flagship program in human sciences in Florida, and has as its mission to address the health and development of individuals, families and communities. The college, which through its mission focuses on some of the most urgent issues in society, includes bachelor, master's and doctoral programs in three academic departments: textiles and consumer sciences; family and child sciences; and nutrition, food and exercise sciences.

The baccalaureate degree programs are sufficiently broad to provide graduates with choices upon entering the job market. The reputation of the programs through the years means that graduates are regularly sought for professional positions in corporations, human services, public schools, hospitals and other health agencies, among others.

Although the programs within the college are diverse, students graduate with an integrative approach in addressing societal concerns, critical thinking skills regarding issues affecting individuals and families, and fundamental competencies necessary to carry out professional roles. In addition, select programs require faculty supervised internships, which provide students with the experience of applying theoretical and research knowledge.

The various student organizations in the college provide opportunities to extend interaction with faculty and professional leaders through a variety of activities, including field trips, service projects, and seminars. Many students increase their leadership and communication skills through involvement in these organizations.

The college is fully accredited by the American Association of Family and Consumer Sciences and by the National Council for Accreditation of Teacher Education (NCATE) through the family and consumer sciences education program. In addition, the college has an American Dietetic Association approved Didactic Program.

The college has three endowed eminent scholar chairs, including the Mack and Effie Campbell Tyner Chair, the Bert Family Chair, and the Lincoln Chiropractic College Chair in Biomechanics. The Family Institute, which is housed in the College of Human Sciences, includes the

Center for Family Services, the Center for Marriage and Family Therapy, and the Inter-University Consortium for Child, Family and Community Studies.

Facilities

Special laboratories that enhance and enrich the student's education include: 1) the **Historic Costume and Textile Laboratory**, which houses the Carter Collection of Peruvian Textiles and the most extensive collection of accessories and children's and women's wear in the Southeast; 2) **Lectra Computer-Aided Design Laboratory**; 3) the **Burdines Merchandising Technology Laboratory**; 4) a resource and technology center which includes the **Allie Ferguson Resource Center** with collections of family and consumer sciences state-adopted textbooks, reference materials, tapes, and microfiche to extend the preparation of family and consumer sciences teachers and extension agents; 5) chemical, analytical, and microbiological laboratories for food and nutrition science majors; 6) an off-campus child development observation laboratory in conjunction with the **Gwen Cherry Child Development Center**; 7) the exercise physiology laboratory for monitoring the effect of exercise on metabolism for nutrition and fitness majors; 8) the motor learning/control laboratory for the study of cognitive processes and neural mechanisms controlling movement; 9) the textile evaluation laboratory; and 10) two computer laboratories, including a state-of-the-art multimedia laboratory.

Opportunities

Undergraduate students may participate in an honors program (see the "University Honors Program and Honor Societies" section of this *General Bulletin*) and may pursue a double major consisting of a combination of two degree programs. Internships are an integral part of degree programs in merchandising, housing, and family and consumer sciences education. Students majoring in child development may opt to have an internship if required academic criteria are met. Students in dietetics may intern in selected hospitals upon receiving the bachelor of science degree.

Scholarships/Awards

The college awards monetary scholarships annually. In addition, monetary scholarships are made annually by each department. Some of the awards are based on scholarship, some on need, and some on a combination of both.

Undergraduate Degree Programs in Human Sciences

Department of Textiles and Consumer Sciences

Clothing, Textiles and Merchandising with majors in:

Apparel Design and Technology;
 Merchandising;
 Housing; and
 Textiles

Department of Family and Child Sciences

Family, Child and Consumer Sciences with a major in:

Child Development
 Family and Consumer Sciences Education

Department of Nutrition, Food and Exercise Sciences

Foods and Nutrition with majors in:

Dietetics;
 Nutrition and Fitness; and
 Nutrition and Food Science

General Human Sciences with major in:

Exercise Science

Interdepartmental Programs

General Human Sciences

Core Requirements for all Baccalaureate Degrees in Human Sciences

To receive a baccalaureate degree from the College of Human Sciences, students must complete HOE 3050, FAD 2230, and a minimum of three (3) semester hours outside their own major in one of the three departments in the College of Human Sciences.

Bachelor of Science and Bachelor of Arts Degrees

Candidates for baccalaureate degrees must comply with the general regulations governing baccalaureate degrees. Students in the Col-

lege of Human Sciences may not receive more than nine (9) semester hours of credit toward the degree from courses in office skills and in applied music and music activities. Also, students may receive up to two (2) semester hours in physical education activities which can be counted toward the degree. Candidates for the bachelor of arts degree must meet the foreign language requirement and other special requirements of the University.

Although all students are registered in undergraduate studies for the first two years, students who expect to major in the College of Human Sciences should follow the curriculum outlined for their major during this time. This is to ensure readiness for advanced courses when students transfer to the College of Human Sciences.

To transfer from undergraduate studies into one of the departments in the College of Human Sciences, the student must have an academic average of "C" or better.

The University's requirements for liberal studies allow some selection of courses. These should be chosen in consultation with the academic adviser in the College of Human Sciences in order that the requirements of the major curriculum may be met.

General Human Sciences

This program provides a core of human sciences courses important in the undergraduate education of the student while allowing a wide choice of electives. Curriculum is planned with the academic adviser to provide special emphasis.

Definition of Prefixes

FAD — Family Development
HOE — Human Sciences: General

Undergraduate Courses

HOE 3050. Developments and Trends in Human Sciences (2). Professionalism, career awareness, the job market, and current trends and developments in human sciences research.

HOE 4972r. Honors Work (3). (S/U grade only.) Prerequisites: Upper-division majors with an overall grade point average of 3.5 and consent of instructor. Course provides students in Family and Child Sciences with an opportunity to undertake an independent and original research project in their particular area of interest. May be repeated to a maximum of six (6) semester hours.

Graduate Courses

FAD 5970. Special Project (3).
(S/U grade only.)

FAD 6917. Methods of Research II (3).

HOE 6916. Research Communications (3).

HOE 6938r. Proseminar in Human Sciences

SCHOOL OF INFORMATION STUDIES

Dean: Jane B. Robbins;
Associate Dean: Kathleen Burnett;
Faculty Administrator/Academic Administrator:
 Don Latham

The field of information studies includes some of the most diverse and fascinating professional opportunities available today. Graduates in this field work in positions ranging across a wide variety of disciplines such as design, implementation, or use of online information systems. Essentially, information professionals are engaged in the business of helping other people locate, use, and understand the information they need for daily living and decision making. The current emphasis on the information sector of our economy makes this an exciting field of study.

Information studies offers the opportunity to blend the basic human need for information with involvement in cutting-edge technology and systems for acquiring, storing, organizing, and delivering information. The tasks of fitting information systems to human needs rather than requiring human needs to fit information systems is the critical function of the information professional.

Information professionals are found in such areas as:

- Information Services and Support
- Network Administration
- Network Services
- Usability Analysis
- End-user Training
- Information Product Evaluation
- Information Technology Planning
- Website Development and Administration
- Data Security
- Information Research
- Information Architecture

This important and fascinating field has experienced tremendous growth in recent years. As such, it offers diverse and challenging opportunities for working with emerging technologies from a humanistic point of view.

The school offers a bachelor of science (BS) degree in information studies, a master of science (MS) degree in library and information studies, a specialist (S) degree, and a doctor of philosophy (PhD) degree.

The School of Information Studies at The Florida State University was established in 1947 as a professional school and has been one of the top-ranked programs in the nation for many years. The master's degree program is accredited by the American Library Association and the school is a member of the Association for Library and Information Science Education (ALISE).

Requirements for a Major

Students are eligible to major in information studies after completing a program of liberal studies with an overall grade point average (GPA) of 2.0 or better. All students of The Florida State University must fulfill the Liberal Studies Program requirements set forth in the "Undergraduate Degree Requirements" section of the *General Bulletin*.

Transfer students who have earned an associate of arts (AA) degree from a Florida public community college or state university will be considered to have met the liberal studies requirement.

Program Prerequisites are:

MAC 1105	College Algebra (3)
CGS 2060	Computer Literacy (3)
COP XXXX	Computer Programming course in C, C++ or Java (3)

For additional information concerning undergraduate degree programs, please refer to the school's website at <http://www.lis.fsu.edu>.

Core Program

To major in information studies, a student must complete a minimum of thirty-six (36) semester hours in information studies, including the core courses:

LIS 3201	Information Needs and Preferences (3)
LIS 3267	Information Science (3)
LIS 3353	Technologies for Information Services (3)

LIS 3602	Information Sources and Services (3)
LIS 4276	Quantitative Methods in Information Studies (3)
LIS 4351	Interface Design (3)

Requirements for a Minor

With the approval of the Academic Dean of the School of Information Studies and with the consent of the major department, a minor in information studies may be obtained upon completion of at least four (4) of the six (6) core courses required for the major. All courses must be completed with a minimum grade of "C-." All program prerequisites must be met for a minor in information studies.

Facilities

The School of Information Studies resides in the Louis Shores Building, which houses classrooms, computer laboratories and administrative offices. The **Mary Alice Hunt Learning Laboratory** is open to students and provides the use of PCs and Macintosh computers with a full array of commercial software (word processing, spreadsheets and database management) as well as full access to the Internet and student email accounts. The **New Technology (NT) Laboratory** includes small-scale Local Area Networks, experimental servers, digital video equipment, and other cutting-edge technology. It provides students an opportunity to gain hands-on experience in network administration, UNIX server administration, multimedia resource production, and is used for special independent and group projects under the supervision of information studies faculty and staff. Made possible in part by a grant from the Kellogg Foundation, the **Usability Center** is a fully equipped usability laboratory for conducting, observing, recording and analyzing usability evaluations. The **Harold Goldstein Library** on the main floor includes professional and reference materials as well as the juvenile and young adult literature collections. The library holds a book collection of approximately 85,000 volumes, a serials and journals subscription list of over 400 titles, audio-visual items, and computer resources for online searching.

COLLEGE OF LAW

Dean: Donald J. Weidner;
Associate Deans: Donna R. Christie,
 Mark B. Seiderfeld;
Assistant Dean: Stephanie W. Redfearn;
Director and Faculty Administrator:
 Nancy Benavides;
Director of Law Library: Edwin M. Schroeder

The College of Law educates students for the practice of law and develops in them the breadth of vision and qualities of character necessary for meeting the full responsibilities of the legal profession. Its aim is excellence in the preparation of students so that they will acquire the knowledge, comprehension, skills, and judgment essential to the performance of legal services in a complex and rapidly changing society.

Prelegal Education

The services in which a law graduate may become engaged are so diverse that no uniform prelegal undergraduate course is prescribed. A broad cultural background has been considered a desirable preparation for law study. A committee of the Association of American Law Schools has suggested these basic objectives of prelegal education: comprehension and expression in words; critical understanding of the human institutions and values with which the law deals; and creative power in thinking. A broader perspective rather than a too-detailed specialization is generally preferred. Students intending to pursue international law are encouraged to have knowledge of a foreign language as well as a familiarity of the history and culture of that nation. Other areas of law, particularly environmental law and intellectual property, are enhanced by a solid background in science or engineering.

Students from all majors have completed programs in law school. Regardless of major, however, the potential law student should have extensive writing experience. Analytical writing, particularly involving original research, is a critical element of both legal education and the practice of law. In addition, it is valuable for students to have a broad background in the liberal arts and sciences. Such fields as history, economics, philosophy, and literature figure prominently in legal analysis and ideally would be part of a rounded pre-legal education. In particular, knowledge of American history, microeconomics, and work in philosophy (whether courses in logic or various branches of philosophical thought) provides both the background and the habits of mind desirable in legal education. Some undergraduate majors lend themselves particularly well to this broad-based, writing-intensive model of education. Students whose majors do not provide many opportunities to write and to analyze texts critically should seek out elective courses that provide those opportunities. These courses are not prerequisite

to a legal education, but students with strong undergraduate backgrounds are more likely to succeed in law school. The study required for a baccalaureate degree, a prerequisite to study at the College of Law, ordinarily provides a suitable background. As law study is interrelated with many disciplines, more emphasis is placed upon how well persons have done and their intellectual development than is placed upon the particular subjects studied. Undergraduate students who are thinking about law school are encouraged to visit the College of Law. Tours of the school and class visitations may be arranged through the College Admissions Office, 210 B.K. Roberts Hall, (850) 644-3787, Admission@mail.law.fsu.edu.

Degree Program

The degree of juris doctor (JD) is conferred upon College of Law graduates. The requirements for graduation are the successful completion of eighty-eight (88) semester hours of law study, including required courses as determined by the faculty of the College of Law. Grade average must be "C" or above for graduation. For complete details of degree requirements, refer to the *College of Law Student Handbook*.

Requirements for Admission

All inquiries regarding admission should be sent to: *Admissions Office, College of Law, The Florida State University, Tallahassee, FL 32306-1601*. All registrants are required to have a baccalaureate degree from a regionally accredited college or university prior to commencing law study. Every prospective law student must take the Law School Admissions Test given by the Law School Admissions Services. Applications may be obtained from the College of Law or by writing: *Law School Admissions Services, Box 2000, Newtown, PA 18940*. Registration with the Law School Data Assembly Service is also required.

Applicants must furnish a transcript showing receipt of the baccalaureate degree prior to commencing law study. The Law School Admissions Test scores and the academic grade average are both considered among other factors in determining admission.

Interdisciplinary and Joint – Degree Programs

The College of Law offers joint-degree programs in cooperation with other colleges, schools and departments of the University. The joint-degree programs enable students to earn

two degrees concurrently, the juris doctor and the master's. Generally, joint-degree students spend their first year in the College of Law.

A specific juris doctor–master of business administration dual degree program has been established for graduate students with the College of Business. Dual degree programs have also been established with the departments/programs of Economics, International Affairs, Urban and Regional Planning, the School of Public Administration and Policy, and with the School of Social Work.

Additional information regarding law programs is contained in the University's *Graduate Bulletin* and in the *College of Law Student Handbook* (available in the Office of Admissions and Records) and on the College of Law website: <http://www.law.fsu.edu>.

Summer Program in Law at Oxford

Director: Edwin M. Schroeder

The College of Law conducts the oldest summer program in Oxford sponsored by an American law school. Since its establishment in 1973, law students from the United States and Canada and a limited number of graduate students in related fields, lawyers, and others have been taught by tenured members of the Oxford University and The Florida State University law faculties. The five and one-half week program begins annually on the Tuesday following Oxford's Trinity term.

For information write or call: *Director, The Florida State University Summer Program in Law at Oxford, Tallahassee, FL 32306-1600; (850) 644-4578; or log on at http://www.law.fsu.edu/academic_programs/jd_program/study_abroad/oxford* for additional information.

Summer Program in Law at Barbados

Director: Donna R. Christie

The College of Law conducts a summer program in law at the University of the West Indies in Cave Hill, Barbados, taught by members of the University of the West Indies and The Florida State University law faculties. The five-week program is open to law students and graduate students in related fields.

For information contact: *Director, The Florida State University Summer Program in Law at Barbados, Tallahassee, FL 32306-1601; (850) 644-4249*.

COLLEGE OF MEDICINE

Dean: Joseph E. Scherger, M.D.;
Associate Dean for Academic Affairs: TBA;
Associate Dean for Clinical Affairs: James O. Harris, M.D.;
Associate Dean for Health Affairs: Robert Brooks, M.D.;
Associate Dean for Student Affairs: TBA;
Director of Medical Library: Barbara Shearer, M.S.L.S., A.H.P.;
Associate in Medicine: Sarah Sherraden R.N., M.S.N.

The Florida State University College of Medicine, in partnership with local communities, employs interdisciplinary, team-based approaches and emerging technologies to train compassionate physicians to practice patient-centered medicine in rapidly changing health environments.

The mission of the College of Medicine is to educate and develop exemplary physicians who practice patient-centered health care, discover and advance knowledge and are responsive to community needs, especially through service to elder, rural, and other medically underserved populations. The curriculum is comprehensive, preparing students to enter residency training in any specialty; however, it does emphasize the priority areas identified in the college's mission.

Premedical Education

The practice of medicine requires a sound science background, and most medical schools have the same standard list of premedical requirements. Medical schools recruit, and the medical profession needs individuals from diverse educational backgrounds who bring to the profession a variety of talents and interests. Medical schools review personal qualities, academic qualifications, communication skills, and motivation when considering candidates for selection.

Students considering medicine as a profession should consider carefully their undergraduate major area of study. Students should select a major area of study that is of interest and that will provide a foundation of knowledge necessary for the pursuit of several career alternatives. Students who select a major area of study solely, or primarily, because of the perception that it will enhance the chance of acceptance to medical school are not making a decision in their best interest. A science major is not a prerequisite for medical school, and students should not major in science simply because they believe this will increase their chances for acceptance. According to the Association of American Medical Colleges (AAMC) data, the top six majors for the 2001–2002 entering class

included biology, biochemistry, chemistry, psychology, microbiology, and science/nonscience double majors.

The AAMC describes the medical profession as demanding in terms of the time, energy, and responsibility for other people's lives, and states that the commitment to continuing service and education is essential. The practice of medicine requires physical, emotional, and intellectual stamina; the desire to work with and for people; and, particularly, the ability to use critical thinking to solve problems. The undergraduate years should be a time for students to discover if they possess these characteristics.

Undergraduate students who are thinking about medical school are encouraged to visit or contact the *College of Medicine Pre-health Professions Advising Office, 112 COM, (850) 644-1855*, or email the school at: medinformation@med.fsu.edu.

Degree Program

The degree of medical doctor (MD) is conferred upon College of Medicine graduates. The Student Evaluation and Promotion Committee of the College of Medicine will review the overall academic and professional performance of each fourth-year student in determining recommendation for graduation. To be considered for graduation, a student must be judged to be in good standing after successful completion of four years of basic medical science and clinical medicine, including required courses as determined by the faculty of the College of Medicine. The grade average must be 2.80, the student must successfully have completed the Observed Student Clinical Examinations (OSCEs), and must have passing scores on the United States Medical Licensing Examination (USMLE) Steps 1 and 2. Further information may be found in the *Graduate Bulletin* and in the *College of Medicine Student Handbook*.

Admission Requirements

To apply to the College of Medicine at The Florida State University, an applicant should apply through the American Medical College Application Service (AMCAS) and should have taken the Medical College Admission Test (MCAT). To receive the FSUCOM formal secondary application, an applicant should be a legal resident of Florida, should meet academic standards predictive of success in medical school (academic grade point average and MCAT score) and should have completed the required prerequisite courses. A listing of pre-

requisite courses may be obtained by contacting the Pre-health Advising Office in the College of Medicine or on the College of Medicine website at <http://www.med.fsu.edu>. An applicant's MCAT score should be dated no more than three years prior to the beginning of the year of the application cycle. A bachelor's degree is required by the time of matriculation to medical school. If an applicant currently is enrolled in a degree program, the program must be completed and transcripts provided to the College of Medicine Admissions Office prior to the beginning of classes in May.

All inquiries regarding admission should be sent to *College of Medicine, The Florida State University, Tallahassee, FL 32306-4300*, or email the school at: medadmissions@med.fsu.edu.

The Pre-health Professions Advising Office

The Florida State University College of Medicine provides academic advising and counseling to students interested in pursuing careers in the health sciences. Currently, over one thousand students are enrolled in this advising program. Many of the students who seek advising in the advising office are pre-medical students. However, the program is open to all pre-health students including pre-dentistry, pre-veterinary, pre-pharmacy, pre-physician assistant, and pre-optometry. Full-time pre-health professions advisors meet regularly with these students throughout their college years, assisting with career goals, course scheduling, long-term academic planning, and professional school admission procedures.

In addition to one-on-one advising, the Advising Office also sponsors programs of special interest to pre-health students. Programs include panel discussions with admissions representatives from various medical and professional schools and workshops on succeeding in the application process and interviewing strategies.

The Florida State University has a competitive acceptance rate to medical and professional schools nationwide, and many of our graduates have been recognized for their outstanding contributions and achievements in the field of medicine.

To register with the College of Medicine Pre-health Professions Advising Office, call (850) 644-1855 or visit 112 COM to set up an appointment with a health professions advisor.

SCHOOL OF MOTION PICTURE, TELEVISION, AND RECORDING ARTS

Dean: Raymond Fielding

Established in 1989, the School of Motion Picture, Television, and Recording Arts (the Film School) is one of only seven university-based film conservatories in the country. It is currently ranked number three nationally among public university film programs and offers both a bachelor of fine arts and a master of fine arts degree to those admitted. Both programs provide state-of-the-art film equipment and studio facilities for production and postproduction. The two programs are served by a completely equipped production center. The Film School funds all student film and tape workshops and productions, including the graduate and undergraduate thesis films.

The expertise of the Film School's faculty reflects the direction and range the school will take in the future. Dr. Raymond Fielding, Dean of the School of Motion Picture, Television, and Recording Arts, has more than 40 years experience in the film and television industry as a writer, director, producer, editor, manager, and consultant. He is joined by 14 faculty members, all of whom are specialists in the areas of writing, directing, cinematography, editing, sound recording, and production management.

Undergraduate Degree Program

The program of study leading to a bachelor of fine arts degree is designed to lead students through the complete process of creating short films, while incorporating a well-rounded liberal arts education that includes writing courses. Major courses include producing, directing, cinematography, screenwriting, sound recording, editing, production management, film history, film theory, and film aesthetics. It is a **limited access** major; therefore, admission is selective. Students may be accepted into the program at the freshman level or transfer in once the majority of the liberal studies requirements have been completed.

Complete 16mm film production and editing facilities, a multitrack recording studio with music-scoring capabilities, screening rooms, a duplication center with on-site engineering and

management support, as well as a well-stocked video, laserdisc, and DVD library, aid in meeting the goals of the undergraduate program—to educate students in film and to help them become integral members of the academic community of The Florida State University, as well as responsible members of the entertainment profession and participants in a creative and professional enterprise.

Graduate Degree Program

The program leading to a master of fine arts degree has set the following goals: to provide the creative and technical environment for professional specialization; to ground students in the history of each medium's theory and practice; and to prepare students for careers as artists, managers, producers, and craftspersons in the professional film and video production industries. Students work in production teams on narrative/dramatic films with each film being written, storyboarded, produced, directed, production designed, shot, recorded, and edited by graduate students. In addition, students are educated on the financial, legal, distribution, and exhibition aspects of the film business. The graduate program is designed and scheduled as a conservatory. It is meant to create a flexible and disciplined atmosphere where individuals can hone their talents, develop a body of work, and sharpen their capacities to work in teams.

Admission to the Undergraduate Program

Admission to the School of Motion Picture, Television, and Recording Arts is limited access, making admission selective and competitive. Approximately 15 freshmen and 15 transfer students are admitted each year as film students. Applicants must make application to and meet the requirements of The Florida State University Office of Admissions, as well as submit a separate application to the School of Motion Picture, Television, and Recording Arts. A student seeking to enter the program must offer an acceptable grade point average and be eligible for admission to The Florida State University. Each applicant must submit a 500 word essay

describing his or her background, artistic experiences, creative influences, personal objectives and future career goals, as well as a resume, two (2) letters of recommendation, transcripts from all high schools, colleges and universities attended, and SAT or ACT test scores. All application materials must be received by the School of Motion Picture, Television, and Recording Arts by January 31 for the applicant to be considered for admission the following fall semester. Please refer to the "Academic Programs" section in this *General Bulletin* for further details on the application process.

Admission to the Graduate Program

Admission to the School of Motion Picture, Television, and Recording Arts Graduate Film Conservatory is also of limited access, with 24 students admitted each year. Prospective students must make application to and meet the requirements of The Florida State University Graduate Admissions Office and submit a separate application directly to the Graduate Film Conservatory. All applicants must submit a 500 word essay describing their artistic work, creative influences, personal objectives, relevant background and career goals, as well as three (3) letters of recommendation, a professional resumé, and GRE scores. All application materials must be received by the School of Motion Picture, Television, and Recording Arts by January 31 for the applicant to be considered for admission the following fall semester.

Health Insurance

Students seeking degrees in certain majors, including film, assume any exposure to the particular hazards associated with that major. As protection for our students, the Film School requires that majors present proof of health and accident insurance (name of insurer and policy number) prior to registration in the fall semester each year. Students are expected to maintain this insurance throughout their enrollment in the Film School. Registration will be administratively canceled at the end of the second week of classes for any students failing to provide proof of insurance.

SCHOOL OF MUSIC

Dean: Jon R. Piersol;
Assistant Deans: George Riordan,
Bentley Shellahamer

The School of Music is a vital, integral component of The Florida State University community. It serves as a center of excellence for the cultural development of the community, state, region, and nation, and offers a comprehensive program of instruction for all students who expect to become professional musicians: performers, composers, scholars, educators, administrators, and therapists. For the general University student, it offers a wide spectrum of opportunities for disciplined personal growth and creative achievement. Further, the school maintains the highest quality faculty, students, curriculum, and facilities.

Numerous concerts and recitals are offered by the School of Music throughout the school year. Performing organizations include the Baroque Ensemble, Brass Ensembles, Chamber Choir, Chamber Orchestra, Chamber Winds, Choral Union, Collegians (Men's Glee Club), Concert Bands, Duo Piano, Early Music Ensembles, Jazz Ensembles, Jazz/Pop Vocal Ensembles, Madrigal Singers, Marching Chiefs, Music Theatre Ensemble, New Music Ensemble, Opera Chorus, Opera Orchestra, Percussion Ensembles, String Ensembles, Symphonic Band, University Chorale, University Philharmonia, University Singers, University Symphony, Wind Orchestra, Woodwind Ensembles, Women's Glee Club, and World Music Ensembles. In addition, there are numerous student and faculty chamber-music groups. The School of Music sponsors many faculty solo recitals as well as a faculty chamber music series. Of particular interest to the music student are weekly student recitals, certificate and degree recitals, and programs sponsored by music honoraries. An artists' list and monthly calendar of School of Music programs and other cultural activities on campus are available upon request from the coordinator of music publicity in the School of Music.

The following honorary societies and professional fraternities are sponsored by the School of Music: the Phi Chapter of Pi Kappa Lambda; the Epsilon Iota Chapter of Phi Mu Alpha Sinfonia; the Beta Alpha Chapter of Sigma Alpha Iota; the Gamma Nu Chapter of Kappa Kappa Psi; the Alpha Omega Chapter of Tau Beta Sigma; the Alpha Chapter of Alpha Mu; the Beta Chi Chapter of Mu Phi Epsilon; The Florida State University Music Theory Society; New Music Consortium; The Florida State University Society for Musicology; and collegiate chapters of the Music Educators National Conference, the American Choral Directors Association, and the American Guild of Organists.

The School of Music has been a fully accredited member of the National Association of Schools of Music since 1930, and its degree requirements are in accordance with the latest published regulations of that association. Following are the undergraduate degrees offered by the School of Music:

Bachelor of music—performance

Piano, Piano pedagogy, Organ, Harpsichord, Voice, Strings (violin, viola, cello, double bass), Woodwinds, Brass, Percussion, Harp, Guitar (classical)

Bachelor of music—music theatre

Bachelor of music—composition

Bachelor of music—music theory

Bachelor of music—music history and literature

Bachelor of music—music therapy

Bachelor of music education

Choral

Instrumental

General

Bachelor of arts in music

In addition to the bachelor of music and bachelor of music education degrees, the bachelor of arts degree in music is offered through the School of Music. The bachelor of arts degree in music allows students the opportunity to tailor their degree programs to their specifications by combining other areas of interest with music studies, such as music criticism, church music, music and law, and jazz studies.

The School of Music provides a music minor for the divisions of the University that require a minor course of study. Admission to the minor program requires the following: 1) approval of the major department; 2) approval of the School of Music; and 3) an approved placement audition level on an acceptable instrument or voice. Detailed information can be obtained from the School of Music's undergraduate studies office.

The following are the graduate degrees offered by the School of Music:

Master of music

Performance

Accompanying

Piano pedagogy

Choral conducting

Instrumental conducting

Jazz studies

Music theory

Composition

Musicology (both historical and ethnomusicology)

Opera

Music therapy

Master of music education

Master of arts in arts administration

Doctor of philosophy in music education

Doctor of philosophy in music (specializations in historical musicology, ethnomusicology, or music theory)

Doctor of education in music education

Doctor of music in composition

Doctor of music in performance

The doctor of philosophy degree in humanities with an emphasis in music is available from the College of Arts and Sciences. Consult the *Graduate Bulletin* for information on the graduate programs offered by the School of Music.

Facilities

Music Facilities

The School of Music enjoys excellent teaching, research, and performance facilities. The two School of Music buildings are located on Copeland Street on the East side of the campus. The Kuersteiner Building, completed in 1948 and recently renovated, is a four-story structure that is connected to the Wiley L. Housewright Music Building, which was completed spring 1979. The School of Music also occupies a number of offices in the Longmire Building. These buildings house the administrative offices; teaching studios; classrooms; band, orchestra, choral, opera, and ensemble rehearsal halls; music education and music therapy research laboratories; electronic music studios; ethnomusicology studios; early music studios; concert and recital halls; the **Warren D. Allen Music Library**; the **Center for Music Research**; and 130 practice rooms. All music facilities are air-conditioned and are structurally designed for maximum effectiveness.

Concert Facilities

The **Opperman Music Hall** is a 430-seat recital hall located in the Kuersteiner Building. The facility is used for faculty and student recitals, concerts, and lectures. The **Ernst von Dohnanyi Recital Hall**, located in the Housewright Music Building, is a 218-seat facility used for recitals and lectures. The **Lindsay Recital Hall**, located in the Kuersteiner Building, is a 125-seat facility used for recit-

als and lectures. The **Owen F. Sellers Music Amphitheatre** is used for outdoor performances in the fall and spring. **Ruby Diamond Auditorium** is a 1,575-seat facility used for opera and major concert productions.

Music Library

The **Warren D. Allen Library** is conveniently located in the Housewright Building, where it serves the students and faculty of the School of Music as well as many users from other areas of the University. One of the major music libraries of the southeastern United States, the music library provides a pleasant setting conducive to the efficient utilization of the extensive collection of over 150,000 scores, sound recordings, video cassettes, books, periodicals, and microforms. Housed in 18,000 square feet of space with comfortable furnishings and excellent sound equipment, the music library provides students with impressive resources and surroundings for the pursuit of their studies. A librarian and other library staff are on duty to assist students and faculty in their use of the library.

Opera Shops

Built in 1977–78, the **Opera Scene Shop** provides 6,000 square feet of construction space with some storage area. The building features a drafting office, elevated grid area for constructing wagons and assembling scenic flats or drops, complete hand and table tools, and a wooden “stage” area for painting drops. An opera production is built there each semester, as well as sets for opera scenes and opera majors’ projects.

The **Opera Costume Shop** is located in the Kuersteiner Building. Costumes are constructed or alterations are made on rental costumes each semester. In addition, costumes are constructed for the 16th-century Madrigal Christmas Dinner and various opera workshop scene programs.

Organs

A 1975, 34-stop Holtkamp tracker (mechanical action) organ in Opperman Music Hall is used for recitals, concerts, and lessons. Practice organs include a 1976, 3-stop Holtkamp tracker; a 1973, 6-stop Wicks; a 1967, 4-stop Holtkamp; and a 1976, 4-stop portable continuo/chamber organ, also with mechanical action, by Holtkamp. A restored English chamber organ built by Hill and Davison in 1837–38 is available to organ students for practice and performance.

Opportunities

Honors Program

The School of Music offers honors work in several degree programs to encourage talented juniors and seniors to undertake independent and original research as part of the under-

graduate experience. For requirements and other information, see the “University Honors Program and Honor Societies” section of this *General Bulletin*.

Certificate Programs

In addition to the degree programs, the School of Music offers certificate programs that provide additional specialized areas of emphasis. The certificate programs offered include:

- Certificate in performance
- Certificate in church music (instrumental or vocal emphasis)
- Certificate in piano pedagogy
- Certificate in special music education
- Certificate in computers in music
- Certificate in early music
- Certificate in music of the Americas
- Certificate in world music
- Certificate in jazz studies
- Graduate Certificate in college teaching
- Graduate Artist Certificate in performance (opera, piano, violin, viola, violoncello)
- Graduate Certificate in the pedagogy of music theory
- Music therapy equivalency

Additional information regarding the certificate programs may be obtained from the School of Music’s undergraduate or graduate studies offices.

Special Events

The School of Music provides students an opportunity to participate in many special events and experiences each year. Students interested in receiving additional information should contact the School of Music’s publicity office or the school’s undergraduate/graduate studies offices. A partial listing includes the following:

The **Festival of New Music**. This biennial festival features recent works by composers from throughout North America.

Housewright Scholar Residencies. The School of Music enjoys the residencies of visiting scholars each year through the Lucilla and Wiley Housewright Eminent Scholar Chair in Music.

Shelfer Scholar Residency. The School of Music enjoys a continuing residency of a Professor of Voice through the Lucille P. and Elbert B. Shelfer, Jr., Eminent Scholar Chair in Music.

Summer Music Camps. Each year the School of Music provides a performance institute for high school and junior high school musicians.

Other Special Events. The School of Music regularly hosts various conventions and workshops, presents festivals, and gives special courses.

Work-Study. Students eligible for work-study through the Office of Financial Aid may request employment through the School of Music.

Faculty Citations. The School of Music may award faculty citations to outstanding students who are pursuing the baccalaureate degree or to graduates who hold a baccalaureate degree from the School of Music. These citations bear the names of distinguished former members of its faculty: the **Ernst von Dohnanyi** citation for excellence in performance or composition; the **Ella Scoble Opperman** citation for distinguished achievement in the teaching of music and outstanding leadership; and the **Warren D. Allen** citation for excellence in scholarship. With faculty approval, additional citations may be awarded to graduates who hold master’s or doctorate degrees from the School of Music.

Scholarships/Awards

School of Music financial assistance is available in the form of undergraduate music scholarships and out-of-state tuition waivers. These awards are available to undergraduate applicants who demonstrate superior musical ability and are normally renewable provided satisfactory academic and musical progress is demonstrated.

School of Music scholarship assistance ranges from \$500 to \$2,500 for in-state students and \$500 to \$8,000 for out-of-state students. All undergraduate music major applicants are considered for School of Music financial assistance when they audition, provided they audition no later than the deadline established annually by the School of Music.

Additional information regarding School of Music financial assistance may be obtained from the *School of Music Bulletin* or by contacting the School of Music’s undergraduate studies office.

Requirements

Undergraduate Studies

Program Director: Dr. Ted Stanley

All students working toward the bachelor of music degree, the bachelor of music education degree, or the bachelor of arts in music degree register directly in the School of Music.

Students enrolled in other divisions of the University may take courses in music with the approval of the instructor and the Dean of the School of Music.

Liberal Studies Program. Undergraduates are required to meet the liberal studies requirements as specified in the various music curricula.

Specific Requirements for all Music Majors

Placement Audition. All entering students are required to take a placement audition in applied music. All applicants must meet appropriate minimum standards through this audition before being granted admission to the School of Music. This audition is heard by a faculty jury and is closed to all except the area faculty concerned. Students are expected to be prepared to play or sing representative works of acceptable repertoire. Placement in the appropriate applied music course is based on the requirements established by the National Association of Schools of Music. If students meet the minimum standard requirement but are below freshman level, they must enroll in the applied music MV_101_ series until prepared for the MV_131_ or MV_141_ series. All students have the option of a reexamination for a higher course number at the end of any semester. Students may be given a temporary status in applied music during their first semester by placement in undergraduate coaching (MVO 1010, 2020, 3030, 4040). Students placed in undergraduate coaching must complete a jury exam at the end of their first semester of residence at the University for placement and advisement.

Jury Examinations. All students must meet the applied music proficiencies for their individual degree program each term for continuation in the music major. Jury examinations are **required** of all majors and principals at the completion of a two-semester sequence. **Note:** students placed in undergraduate coaching (MVO 1010, 2020, 3030, or 4040) must complete a jury exam at the conclusion of one semester. If a student placed in undergraduate coaching fails to take a jury exam, the student will be given an automatic placement of MV_101_. At their discretion, applied teachers may require a student to take a jury examination at the end of any semester.

Recital Examinations. Candidates for the bachelor of music degree in performance are required to present a joint recital during the junior year (MV_3970) and a complete recital in the senior year (MV_4971). An examination will precede each of these recitals by at least two weeks. The area faculty will determine the content of the examination. A candidate who passes the examination by a two-thirds positive majority (unless otherwise specified by the area or degree) is eligible to present the required recital.

Student Recital. All undergraduate music majors must enroll and receive a satisfactory grade ("S") in student recital attendance (MUS 1010r) for a total of six semesters during the undergraduate degree program. Attendance requirements for transfer students who were music majors at the institution from which the transfer is made will be determined by the School of Music in accordance with the number of semester hours completed.

Chamber Music. All woodwind and brass first-year and first-year transfer students must register for MUN 2460 Chamber Music during the first Spring and second Fall terms. String first-year and first-year transfer students must register during the first two Fall terms. Other transfers in these areas must register for MUN 2460/4463 during their first fall term at the University.

Curricular Regulations

Auditions. Placement auditions for all undergraduate majors and music minors are required prior to registration. Jury examinations are given following two semesters of study in each applied music series (MV_1311–4346 series for all majors except performance majors; MV_1411–4446 series for performance majors). Students may be given a temporary status in applied music during their first semester by placement in undergraduate coaching (MVO 1010, 2020, 3030, 4040). Students placed in undergraduate coaching must complete a jury exam at the end of their first semester of residence at the University for placement and advisement.

Liberal Studies Requirements. Liberal studies requirements for all undergraduate curricula are listed by areas in the "Undergraduate Degree Requirements" section of this *General Bulletin*. Undergraduate music majors will fulfill the Area IV Humanities/Fine Arts requirement by electing MUL 2110, Survey of Music Literature (two [2] semester hours), one year of MUH 3211-3212 Survey of Music History (six [6] semester hours,) and an approved literature course (a total of eleven [11] semester hours). Piano pedagogy, therapy, choral, instrumental, and general music education majors will elect PSY 2012 General Psychology as three (3) of the six (6) required semester hours in Area III History/Social Science.

All Music Majors. A candidate for a baccalaureate degree must satisfy the following University requirements:

1. Liberal studies cumulative grade point average (GPA) must be 2.0 or higher;
2. Cumulative GPA (overall—all college work) must be 2.0 or higher. Cumulative GPA for all music courses must be 2.0 or higher;
3. College Level Academic Skills Test (CLAST) must be successfully completed by sophomores prior to achievement of junior academic status;
4. Courses in liberal studies used to fulfill state FAC Rule 6A-10.030 must each be completed with a grade of "C–" or higher;
5. A minimum of sixty (60) semester hours must be completed at a senior institution;
6. A minimum of forty (40) semester hours of upper division must be completed (3000 and 4000 level courses);
7. The final thirty (30) semester hours must be completed at The Florida State University; and

8. A minimum of one hundred twenty (120) semester hours is required for graduation.

Each student is strongly urged to be knowledgeable of curricular requirements and University regulations that govern the student's selected academic program. Although a faculty adviser is assigned to aid and assist a student in academic advisement matters, it is imperative for a student to assume the personal responsibility regarding academic progress and successful completion of the program.

Because of its accreditation by the National Association of Schools of Music, BM and BME students in the School of Music must achieve certain competencies that have been established by NASM. These are normally built into the curricula for the various degree programs so that students are not required to register for extra courses. Three competencies are worthy of special mention: improvisation, conducting, and technology.

Students normally meet the improvisation requirement through the completion of the MVK 2121 Class Piano sequence, where improvisation is an integral component of the class. Conducting competency is automatically included in several degree programs, most notably music education; students in other majors normally take MUG 3104. A course in music technology is included in each degree program except music education. Music education students meet the technology requirement through registration in MUS 3934 and through other music education classes.

Contact the Undergraduate Office in the School of Music for additional information and the options available for meeting these requirements.

Curricula Leading to the Bachelor of Music Degrees

Note: students are encouraged to obtain specific curriculum guides from the School of Music undergraduate studies office.

Performance Majors. Candidates for the bachelor of music degree in performance must select an area of concentration—piano, harpsichord, organ, voice, harp, guitar, or a string, woodwind, brass, or percussion instrument—and follow the curriculum in the chosen area of concentration. Bachelor of music degree candidates in all areas of performance are required to present a joint recital during the junior year (MV_3970) and a complete recital during the senior year (MV_4971). An examination will precede every such recital by at least two weeks.

All performance majors except piano, harpsichord and organ majors are required to demonstrate proficiency in playing piano accompaniments of medium difficulty (completion of second-year class piano [MVK 2121r] requirements). Credit earned in class piano may be

used to satisfy the applied music secondary requirement. This requirement must be met before the end of the junior year.

Piano Performance Majors. Total of one hundred twenty (120) semester hours: thirty-six (36) semester hours and jury competency in applied music, including junior and senior recitals; six (6) semester hours in keyboard literature; twenty-four (24) semester hours in theory; ten (10) semester hours in music history and literature; four (4) semester hours of ensemble; eight (8) semester hours of piano pedagogy and piano accompanying; student recital attendance; two (2) semester hours of elective; one (1) semester hour of music technology; one (1) semester hour of conducting and thirty-six (36) semester hours of liberal studies.

Organ Performance Majors. Total of one hundred twenty (120) semester hours: thirty-two (32) semester hours and jury competency in applied music, including junior and senior recitals; two (2) semester hours in applied music secondary; six (6) semester hours in pedagogy and repertory; twenty-four (24) semester hours in theory; ten (10) semester hours in music history and literature; four (4) semester hours of ensemble; student recital attendance; twelve (12) semester hours of a foreign language; one (1) semester hour of music technology; one (1) semester hour of conducting; and thirty-six (36) semester hours of liberal studies.

Harp Performance Majors. Total of one hundred twenty (120) semester hours: thirty (30) semester hours and jury competency in applied music, including junior and senior recitals; four (4) semester hours in applied music piano or organ; six (6) semester hours of repertory/continuo playing and pedagogy; twenty-four (24) semester hours in theory; thirteen (13) semester hours in music history and literature; four (4) semester hours of ensemble; student recital attendance; one (1) semester hour of music technology; eight (8) semester hours of German, French, or Italian; one (1) semester hour of conducting; and thirty-six (36) semester hours of liberal studies.

If harpsichord is the principal or major instrument, the candidate must complete, by jury, the MVK 2321r–2323r series in either piano or organ in addition to the principal/major requirement in music secondary. Two (2) semester hours of ensemble involving harpsichord are required of all harpsichord principals/majors in partial fulfillment of the requirements in ensemble.

Voice Performance Majors. Total of one hundred thirty-two (132) semester hours: twenty-four (24) semester hours and jury competency in applied music, including junior and senior recitals; four (4) semester hours in applied music secondary; twenty-two (22) semester hours of theory; ten (10) semester hours in music history and literature; eight (8) semester hours of ensemble; student recital attendance; twenty-one (21) semester hours in diction/foreign language; four (4) semester hours of choral literature and conducting and vocal pedagogy; six

(6) semester hours of vocal solo literature; four (4) semester hours of opera/music theatre electives; one (1) semester hour of music technology; and thirty-six (36) semester hours of liberal studies.

Strings Performance Majors (Violin, Viola, Cello, Doublebass). Total of one hundred twenty (120) semester hours: thirty-two (32) semester hours and jury competency in applied music, including junior and senior recitals; four (4) semester hours in applied music secondary; twenty-four (24) semester hours of theory; ten (10) semester hours in music history and literature; twelve (12) semester hours of ensemble; student recital attendance; eight (8) semester hours of repertory and pedagogy; one (1) semester hour of conducting; one (1) semester hour of music technology; and thirty-six (36) semester hours of liberal studies.

Harp Performance Majors. Total of one hundred twenty (120) semester hours: thirty-six (36) semester hours and jury competency in applied music, including junior and senior recitals; four (4) semester hours in applied music secondary; four (4) semester hours in harp pedagogy and literature; twenty-four (24) semester hours of theory; ten (10) semester hours of music history and literature; student recital attendance; eight (8) semester hours of ensemble; four (4) semester hours of electives; one (1) semester hour of music technology; one (1) semester hour of conducting; and thirty-six (36) semester hours of liberal studies.

Guitar Performance Majors. Total of one hundred twenty (120) semester hours: thirty-two (32) semester hours and jury competency in applied music, including junior and senior recitals; four (4) semester hours in applied music secondary; twenty-four (24) semester hours of theory; ten (10) semester hours in music history and literature; four (4) semester hours of ensemble; student recital attendance; eight (8) semester hours in repertory and pedagogy; eight (8) semester hours of foreign language; one (1) semester hour of conducting; one (1) semester hour of music technology; and thirty-six (36) semester hours of liberal studies.

Woodwind, Brass, or Percussion Performance Majors. Total of one hundred twenty (120) semester hours: twenty-eight (28) semester hours and jury competency in applied music, including junior and senior recitals; four (4) semester hours in applied music secondary; six (6) semester hours in wind and percussion instrument literature and pedagogy; twenty-four (24) semester hours of theory; ten (10) semester hours of music history and literature; student recital attendance; twelve (12) semester hours of ensemble; six (6) semester hours of electives; one (1) semester hour of music technology; one (1) semester hour of conducting; and thirty-six (36) semester hours of liberal studies.

Composition. Approval by the composition faculty is required for admission to the program. Total of one hundred twenty (120) semester

hours: sixteen (16) semester hours and jury competency in applied music; six (6) semester hours in applied music secondary; thirty-two (32) semester hours of theory; eighteen (18) semester hours of composition; ten (10) semester hours of music history and literature; student recital attendance; senior recital of compositions; six (6) semester hours of ensemble; two (2) semester hours of electives; one (1) semester hour of music technology; one (1) semester hour of conducting; and thirty-six (36) semester hours of liberal studies.

Candidates for the bachelor of music degree in composition must pursue, and complete by jury exam, the study of a principal instrument through the MV_4341–4346 series. If keyboard is not chosen as the principal instrument, the candidate must fulfill the requirements of the completion of third-year (MVK 3131r) class piano. A recital of compositions by the composition major is required during the senior year.

Music Theory. Approval by the theory faculty is required for admission. Total of one hundred twenty (120) semester hours: sixteen (16) semester hours and jury competency in applied music; six (6) semester hours in applied music secondary; thirty-two (32) semester hours of theory; four (4) semester hours of composition; ten (10) semester hours of music history and literature; student recital attendance, two (2) semester hours of electives; two (2) semester hours of thesis; six (6) semester hours of ensemble; twelve (12) semester hours of German; one (1) semester hour of music technology; one (1) semester hour of conducting and thirty-six (36) semester hours of liberal studies.

Candidates for the bachelor of music degree in theory must pursue, and complete by jury exam, the study of a principal instrument through the MV_4341–4346 series. If keyboard is not chosen as the principal instrument, the candidate must fulfill the requirements of the completion of third-year (MVK 3131r) class piano. A senior thesis by the theory major is required during the senior year.

Music History and Literature. Approval by the music history and literature faculty is required for admission. Total one hundred twenty (120) semester hours: twelve (12) semester hours and jury competency in applied music; six (6) semester hours in applied music secondary; twenty-two (22) semester hours of theory; thirty (30) semester hours of music history and literature; student recital attendance; two (2) semester hours of thesis; six (6) semester hours of ensemble; one (1) semester hour of music technology; twelve (12) semester hours of German; one (1) semester hour of conducting; and thirty-six (36) semester hours of liberal studies.

Candidates for the bachelor of music degree in music history and literature must pursue, and complete by jury exam, the study of a principal instrument through the MV_3331–3336 series. If keyboard is not chosen as the princi-

pal instrument, the candidate must fulfill the requirement for completion of third-year (MVK 3131r) class piano.

Music Theatre. Approval by the music theatre faculty is required for admission. Total of one hundred twenty (120) semester hours: sixteen (16) semester hours and jury competency in applied music, including junior recital equivalency; four (4) semester hours in applied music secondary; sixteen (16) semester hours of theory; ten (10) semester hours of music history and literature; fourteen (14) semester hours of theatre studies; fifteen (15) semester hours of movement techniques/dance; four (4) semester hours of music theatre repertory; two (2) semester hours of ensemble; one (1) semester hour of major performance role; eight (8) semester hours of music theatre workshop; student recital attendance; one (1) semester hour of music technology; one (1) semester hour of conducting; and thirty-six (36) semester hours of liberal studies.

Music Therapy. Total of one hundred thirty-two (132) semester hours: twelve (12) semester hours and jury competency in applied music; six (6) semester hours in applied music secondary; sixteen (16) semester hours of theory; ten (10) semester hours of music history and literature; twenty-six (26) semester hours of music therapy; six (6) semester hours of other music; two (2) semester hours of senior project; student recital attendance; six (6) semester hours of ensemble; sixteen (16) semester hours of behavioral/health/natural science; three (3) semester hours of elective; and thirty-six (36) semester hours of liberal studies. Following the completion of the academic program, candidates must serve a six-month resident internship at an affiliated, approved clinical center. Certain courses may satisfy both liberal studies and degree requirements.

Candidates for the bachelor of music degree in music therapy who complete by jury exam the MV_ 2321–2326 level in the principal performance area may continue principal instrument study or may elect to study in two or three secondary performance areas. Dance may be used as one of the secondary performance areas. If piano is not the principal instrument, the candidate is required to meet the minimum internship requirements in piano either by completion of second-year class piano requirements (MVK 2121r) or by examination. A total of eighteen (18) semester hours in applied music is required.

Piano Pedagogy Majors. Total of one hundred twenty (120) semester hours: twenty-four (24) semester hours and jury competency in applied music, including senior recital; six (6) semester hours in keyboard literature; twenty-four (24) semester hours in music theory; ten (10) semester hours in music history and literature; two (2) semester hours in ensemble; sixteen (16) semester hours in piano pedagogy; three (3) semester hours of educational collateral; student recital attendance; five (5) semester hours of other music; one (1) semester hour of

technology; one (1) semester hour of conducting; and thirty-six (36) semester hours of liberal studies.

Curricula Leading to the Bachelor of Music Education Degrees

Music Education Majors. Candidates for the bachelor of music education degree in choral music must choose as a principal instrument voice, piano, harpsichord, harp, guitar, or organ. Candidates for the bachelor of music education degree in instrumental music will choose as a principal instrument piano, organ, guitar, harpsichord, or an orchestral or band instrument. Candidates for the bachelor of music education degree with an emphasis in music for the general student must choose as a principal instrument voice, piano, harp, guitar, organ, harpsichord, or a band or orchestral instrument. All music education majors must complete applied music requirements as specified in the respective curricula. All music education majors are required to meet the minimum requirements in class piano, class voice, and class guitar prior to internship.

Florida has placed the following requirements on entry to a teacher certification program:

1. SAT score of 960 or better or an ACT score of 20 or better;
2. Grades of “C” or better in all freshman English and basic mathematics courses; and
3. Additional requirements as stipulated by each department.

Admission to the Music Education Professional Sequence. The music education professional sequence comprises the following upper-division courses in the music education curriculum: MUE 3311, 3334, 3343, 3344, 3443, 3491, 3492, 3493, 3494, 3495r, 3496r, 4342, 4411, 4480, 4481, 4940; MUS 4970r.

Students pursuing the bachelor of music education degree in general, choral, or instrumental music may apply to the Internship Committee for admission to the professional sequence upon completion of the equivalent of forty-five (45) semester hours at The Florida State University or transfer of forty-five (45) semester hours from an accredited community college or senior institution. Students may not enroll in courses listed in the professional sequence prior to formal approval by the Internship Committee.

Qualification for admission to the professional sequence is based upon the following minimum criteria:

1. Cumulative GPA of 2.5;
2. Cumulative music GPA of 3.0;
3. Successful completion of MUE 2040;
4. SAT score of 960 or ACT score of 20;

5. Completion of liberal studies requirements in English and mathematics with minimum grade of “C–”;

6. Successful completion of the first semester of sophomore-level applied music (MV_ 2321–2326); and

7. Satisfactory faculty evaluations in the areas of music education, applied music, music theory, class voice/piano/guitar, and ensembles.

Transfer students who do not meet all of the above criteria may be admitted to the professional sequence on a provisional basis and may enroll in a maximum of five (5) semester hours of professional sequence course work during the first term of residence. Students assigned provisional status must complete all requirements and achieve a minimum overall GPA of 2.8 at the conclusion of the first term.

Students may be required to appear before the Internship Committee for an interview. The committee will approve or reject the petition on the basis of the criteria stated above as well as other factors that relate to teaching competency. Applicants denied admission may appeal during the subsequent semester. Those who re-apply must appear in person, document the removal of deficiencies that previously prevented admission, and present any other pertinent information to support reconsideration of the application.

Students applying for teacher certification in the state of Florida upon completion of the degree program should request that the certificate be assigned under the status of music education K–12.

Bachelor of Music Education—Instrumental. Total of one hundred thirty-four (134) semester hours: twelve (12) semester hours and jury competency in applied music; three (3) semester hours in applied music secondary; sixteen (16) semester hours of theory; ten (10) semester hours of music history and literature; six (6) semester hours of ensemble; student recital attendance; forty-five (45) semester hours of music education including internship (students intending to intern in an elementary school must complete MUE 3344 [3] the semester preceding internship); two (2) semester hours of senior project/recital; twelve (12) semester hours of education collateral; and thirty-six (36) semester hours of liberal studies.

Bachelor of Music Education—Choral. Total of one hundred thirty-four (134) semester hours: twelve (12) semester hours of applied music; five (5) semester hours of applied music secondary; sixteen (16) semester hours of theory; ten (10) semester hours of music history and literature; two (2) semester hours of senior project/recital; student recital attendance; forty-one (41) semester hours of music education including internship (students intending to intern in an elementary school must complete MUE 3344 [3] the semester preceding internship); seven (7) semester hours of ensemble; twelve (12) semester hours of edu-

cation collateral; one (1) semester hour of music elective; and thirty-six (36) semester hours of liberal studies.

Bachelor of Music Education—General Emphasis. Total of one hundred thirty-four (134) semester hours: twelve (12) semester hours and jury competency in applied music; six (6) semester hours in applied music secondary; sixteen (16) semester hours of theory; ten (10) semester hours of music history and literature; seven (7) semester hours of ensemble; student recital attendance; forty-one (41) semester hours of music education including internship; two (2) semester hours of senior project; twelve (12) semester hours of education collateral; and thirty-six (36) semester hours of liberal studies.

Curriculum Leading to the Bachelor of Arts Degree in Music

Total of one hundred twenty (120) semester hours: eight (8) semester hours and jury competency in applied music; sixteen (16) semester hours of theory; ten (10) semester hours of music history and literature; four (4) semester hours of ensemble; twelve (12) semester hours of upper-division music electives; student recital attendance; twelve (12) semester hours of foreign language; thirty (30) semester hours of electives/minor requirements; and thirty-six (36) semester hours of liberal studies.

Requirements for a Minor in Music

Admission to the program is by approval of the School of Music and by a placement audition at the principal level on an acceptable instrument or voice.

Music Minor. Total of twenty-five (25) semester hours: four (4) semester hours in applied music; twelve (12) semester hours of theory; seven (7) semester hours of music history and literature; two (2) semester hours of ensemble; and two (2) semesters of student recital attendance.

SCHOOL OF NURSING

Dean: Katherine P. Mason

The School of Nursing has been educating men and women for the practice of professional nursing since 1950. The school offers the bachelor of science in nursing (BSN), the master of science in nursing (MSN) and master's in nursing (MN). For further information on the master of science in nursing program, see the *Graduate Bulletin*. The undergraduate program is approved by the Florida Board of Nursing, and both programs are accredited by the National League for Nursing. The mission of the School of Nursing is to develop professional leaders in nursing for practice in diverse settings.

At the completion of the program, the student will have met all requirements for the bachelor of science in nursing. The generic graduate of the nursing program will have met the academic eligibility requirements for taking the state licensing examination.

The program is an upper-division major with required sequential course offerings and elective courses in nursing. The nursing courses are based on concepts and principles from liberal studies, the supporting biological and behavioral sciences, and nursing theory. This theoretical base is used with the nursing process in the systematic development of care plans for providing nursing care to individuals and groups in a variety of health care settings. The School of Nursing offers a program for registered nurses: RN to BSN/MSN. Students have the option of exiting at the baccalaureate level. The program is designed to capitalize on prior learning and experience of the registered nurse. The goal of the program is to provide registered nurses with the opportunity to attain further nursing education. Upon fulfillment of the prerequisite courses, the BSN program may be completed by the registered nurse in one year of full-time study (or part time in convenient blocks of study). The program consists of thirty to thirty-three (30–33) semester hours of nursing courses at The Florida State University. The term prior to enrolling in nursing concepts, the student will take a mobility test (cost approximately \$34, subject to change without notice) for diagnostic purposes. Some specific assignments may be developed in areas needing strengthening. Upon successful completion of the first semester courses and special assignments (if needed), the student may receive up to 30 semester hours of validated credit. The course work will include content that is unique to baccalaureate education. If the student desires to matriculate into the master's program, a maximum of three graduate courses may be included in the baccalaureate study.

Graduates with baccalaureate degrees in nursing, either generic or registered nurse, are prepared to provide quality nursing care to individuals, families, and groups in health care agencies in both urban and rural areas. These include general hospitals, health departments, nursing homes, and other community health centers. These graduates have the potential for assuming leadership roles in a variety of health care agencies and for pursuing advanced degrees in nursing.

The program objectives of The Florida State University School of Nursing undergraduate program are to educate students who will be:

1. Critical thinkers who demonstrate intellectual curiosity, rational inquiry, problem-solving skills, and creativity in framing problems;
2. Culturally competent people who provide holistic nursing care to a variety of individuals, families and communities;
3. Knowledgeable coordinators of community resources who facilitate individual family and community access to those resources necessary to meet health care needs;
4. Politically aware individuals who participate in the profession and the practice of nursing with a global prospective;
5. Individuals who practice within the ethical and legal framework of the nursing profession;
6. Effective communicators who are able to share accurate information;
7. Competent caring nurses who assume the multiple role dimensions required in diverse health care settings;
8. Professional role models who promote a positive public image of nursing;
9. Responsible managers who balance human, fiscal and material resources to achieve quality health care outcomes;
10. Professional nurses who assume a leadership role within the scope of practice in diverse settings.

The nursing program is an upper-division major with required prerequisites and a sequential ordering of courses in terms I, II, III, and IV and one summer term.

Facilities

There are a variety of clinical laboratory settings utilized for meaningful learning experiences. Tallahassee Memorial Regional Medical Center, Florida State Hospital, Elder Care Services, Apalachee Community Mental Health Center, Leon County Public Health Unit, Tallahassee Community Hospital, Leon County

Schools, Tallahassee Pediatric Foundation, Children's Medical Services, and other agencies in Leon and surrounding counties are used for the clinical component of the program. In addition, Wolfson Children's Hospital in Jacksonville, Florida is used for pediatric clinicals. All experiences are under the direction of the faculty of The Florida State University School of Nursing.

Opportunities

The School of Nursing offers honors work in the baccalaureate program. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Scholarships

Students requiring financial assistance should file an application with the Office of Financial Aid or confer with the academic adviser at the School of Nursing. Scholarships and loans from federal, state, and private sources are available.

Requirements

Students desiring to enter nursing should indicate their major preference on the University application and seek guidance from the academic adviser in the School of Nursing. A separate application to the School of Nursing is required for admission to the nursing program and should be filed during the sophomore year. Students applying to the nursing major must be able to speak, read and write English proficiently. The School of Nursing reserves the right to interview applicants at its discretion. Students who do not have the necessary proficiency will have their nursing enrollment discontinued. Application deadline for Fall is March 1st and for Spring is October 1st.

Admission to the School of Nursing is contingent upon the following:

1. Completion of liberal studies at The Florida State University and attainment of junior standing or completion of an associate of arts degree from a Florida community college or an institution of higher education within the State of Florida, Division of Colleges and Universities; and
2. Completion of the State of Florida Common Course Prerequisites (see the 'Nursing' entry in the "Academic Departments and Programs" section of this *General Bulletin*).

The School of Nursing is a limited enrollment program and admission is competitive based on previous academic performance and an applicant questionnaire. The Florida Board of Nursing and several state and/or private agencies require the disclosure of conviction records for misdemeanors and/or felonies; therefore, this information will be required at the time of application. Recent legislation aimed at protecting the public has made it necessary to require a level II criminal background check (this includes FDLE and FBI) for all applicants to the School of Nursing. The Level II report must be on file at the School of Nursing before students can enroll. If the background check reveals violations resulting in students being denied admission to a clinical agency and/or access to patients in the agency, and if a comparable assignment cannot be made to meet course objectives, the student will be denied admission to/progression in the School of Nursing. Applicants will be provided with fingerprint cards and waiver forms at the time they apply to the School of Nursing. Completion of the curriculum does not guarantee the Florida

Board of Nursing (or any other licensing body) will allow students with criminal records to take the licensing examination to become a registered nurse. The cost for the background checks is approximately \$50 and must be paid by the student. The required cumulative grade point average (GPA) for entrance into the program is 3.0, with a 3.0 in the required sciences.

While enrolled in the nursing major, the student is expected to exhibit behavior that conforms with the Nurse Practice Act of the State of Florida. The School of Nursing reserves the right to refuse or discontinue enrollment of any student if the student violates the Nurse Practice Act of the State of Florida or in the judgment of the faculty the student does not meet the school's standards.

Nursing majors are responsible for transportation expenses related to clinical experiences. They are advised to carry the University health and accident insurance. To safeguard the health of clients, nursing students are required to submit proof of health examination and immuni-

zations upon entry into the nursing program. Students must submit proof of basic cardiopulmonary resuscitation (CPR) certification (American Red Cross) and malpractice/negligence insurance in required amounts prior to enrollment in the School of Nursing. This CPR certification and malpractice/negligence insurance should cover the period of enrollment in the major. Students are required to submit proof of annual tuberculin skin testing.

Candidates for the bachelor of science degree in nursing must comply with University regulations governing baccalaureate degrees and must complete the following:

1. Liberal studies requirements and specific prerequisites as outlined above;
2. Required nursing courses; and
3. Testing is required throughout the program. A one-time nonrefundable fee of \$225 (subject to change without notice) must be paid at the time of admission.

COLLEGE OF SOCIAL SCIENCES

Dean: Marie E. Cowart;
Associate Deans: Robert E. Crew, Jr.,
Graham C. Kinloch

The University established social sciences as a separate college in 1973. The departments and programs that make up the college date from the earliest days of the University.

Dedicated to the study of people and society, the social sciences have served as part of the core of the liberal arts tradition at The Florida State University. This heritage continues in the college's key roles in providing instruction for the University's liberal studies requirement, in staffing the University's writing program, and in leading the University's international thrust and foreign area programs.

Many of the great names in the history of the University were associated with the social sciences. Raymond F. Bellamy, after whom the Bellamy Building was named, was the first person to teach courses in sociology in the state of Florida. He was a leading figure in the progress of academic freedom in the state. The Florida State University also was the site of the classic study of democratic values by the late James M. Prothro and the late Charles Grigg of the faculties of political science and sociology, respectively; in the late 1950s they established the modern study of democracy in the United States. One of the University's first Nobel Prize nominees, James Buchanan, was a member of the faculty in economics. Some of the leading women in academic life helped establish social sciences at the University. These include Marian D. Irish and Daisy Parker Flory. The college has provided officers of the University, such as the President, the Provost and Vice President for Academic Affairs, and the Dean of the Faculties; the former Chancellor of the State University System had her faculty appointment in the college.

The tradition of faculty excellence continues. Today the social sciences provide the University with faculty members who serve as the Mildred and Claude Pepper Eminent Scholar Chair in Social Gerontology, the Hope and Rod Brim Eminent Scholar Chair in Economics, the John and Hallie Quinn Eminent Scholar Chair for Renewal of American Heritage and American Free Enterprise, the Reubin O'D. Askew Eminent Scholar Chair in Public Administration, the Bernard F. Sliger Eminent Scholar Chair in Economics, the Gus A. Stavros Eminent Scholar Chair in Economic Education, the Jerry Collins Eminent Scholar Chair in Public Administration, the DeVoe L. Moore and Family Eminent Scholar Chair for the Study of Critical Issues in Economic Policy and Government, the Leroy Collins Chair in Civic Education, Leroy Collins Professor in Political

Science, Charles B. Nam Professor in Demography, the Daisy Parker Flory Professor, Mildred and Claude Pepper Professor, Abba Lerner Professor, Marian Irish Professor, James Gapinski Professor, Raymond F. Bellamy Professor, DeVoe Moore Professors (2), University Distinguished Research Professor, and numerous University Teaching and Advising Award winners. Members of the faculty have won prizes in their fields for research and service.

Study in social science develops knowledge of people and society. As such, it helps the student understand those aspects of the basic liberal arts that deal with the individual in social context. This understanding includes the role of social diversity, such as the complex world of foreign cultures, the wide range of cultural experiences represented in the United States, and the value of recognizing these differences in one's own intellectual growth. The social sciences also foster analytical and critical thinking to better equip the individual to live in and understand our increasingly complex society. Finally, the social sciences help students explain different patterns of political, social, cultural, and economic structures, their importance, and the basis for their change and growth.

Programs and Structure

The College of Social Sciences focuses upon both basic knowledge and the application of that knowledge to policy questions and public affairs. In applied policy, the college's interests center on regional, national, and international affairs, and it has a particular interest in state issues, befitting the University's location in the capital of the state of Florida.

The college consists of one school, the Reubin O'D. Askew School of Public Administration and Policy; five departments: Economics, Geography, Political Science, Sociology, and Urban and Regional Planning; a number of research units: the Pepper Institute on Aging and Public Policy, the Center for the Study of Population, the DeVoe L. Moore and Family Center for the Study of Critical Issues in Economic Policy and Government, the Collins Center for Public Policy, the Stavros Center for Economic Education, Florida Public Affairs Center, the Sterling Center; and interdisciplinary programs in Asian Studies, African American Studies, Social Science, International Affairs, Law and Society, Environmental Studies, Russian and East European Studies, Health Policy Research, Demography, and Aging Studies.

The instruction offered by the college meets a variety of needs within the University. Social science is a component of the liberal studies and Honors programs, and each of the depart-

ments offering a bachelor's degree has course offerings in liberal studies and Honors. Housed in Broward Hall, the social sciences residential program in public and international affairs also helps students develop the critical capacities necessary for active participation in the affairs of the state, the nation, and the international community. The college offers eight programs of study for the bachelor's degree, with departmental majors in economics and applied economics, geography, political science (including public administration), and sociology, and interdisciplinary programs in Asian studies, environmental studies, international affairs, Russian and East European Studies, and social science (which is offered interactively and in traditional classroom formats). In addition to these programs, undergraduate minors are offered in African American studies, law and society, public administration, and urban and regional planning. Many students in other colleges and schools of the University are either required to take some courses in the college as part of their program of study (e.g., all College of Business majors take two courses in economics) or choose to do so as part of their electives. The college encourages and welcomes diversity in student background in its courses. Finally, the college has a large graduate program, offering the master's degree in 18 areas, the doctor of philosophy in six fields, and six graduate certificates. For details of graduate programs of the college, refer to the University's *Graduate Bulletin*.

The college views its role in undergraduate education as having at least three main parts. First, in its contributions to liberal studies and its courses taken by students as electives, the primary objective is to introduce students to the methods and modes of thought of the social sciences. Second, in its undergraduate degree programs, the college seeks to prepare its students both to be responsible and informed citizens with an appreciation of how the world works and to be ready for employment. Third, the college seeks to prepare students for further study in the social sciences or professional schools. Each undergraduate program has a faculty member as director, and academic advice is provided by the faculty. The college also actively participates in the liberal studies honors program and offers honors-in-the-major in all of its programs. The College of Social Sciences' Residential Program in Public and International Affairs provides opportunities for students who live in Broward Hall to take courses on a variety of topics related to government and public policy. Participants involved in this living and learning community benefit from a variety of academic and social enrichments, and enjoy teacher-student and student-student interaction.

The college maintains a microcomputer lab equipped with personal computers (IBM and IBM-compatible) and printers, and an extensive software library. Use of the facility is free for all students in the college; priority is given to students working on assignments for courses taught by the college's faculty. The college also maintains the Bellamy Copy Center, equipped with high-volume and self-service photocopy machines, which are available (at cost) for use by students.

The **Center for the Study of Population** has a specialist population and demography library. The **Social Science Data Center** houses the FSU Survey Research Laboratory, a telephone survey center, and a state-of-the-art **Geographic Information System (GIS) Laboratory**. All are located in the Bellamy Building.

The Reubin O'D. Askew School of Public Administration and Policy, the Departments of Economics, Geography, and Political Science, and the Interdisciplinary Program in Social Science offer internship programs for qualified undergraduates. These are open not only to majors, but to other students who meet the programs' criteria (see relevant entries of this *General Bulletin* for details). The University's location in the state capital provides excellent opportunities for internships.

All departments and programs in the college engage in contract and grant research, and there are often opportunities for work-study employment for qualified undergraduates either on outside-funded research or on university-funded activities.

The college regularly sends faculty and students to the University's London Study Center, the Florence Study Center, and other international programs throughout the world. A semester in either the London or Florence center will usually fit into a student's program of study without delaying graduation and is very appropriate to most of the college's undergraduate programs. Other international activities include studies at the University of Costa Rica, the Republic of Panama, Japan, and the Netherlands. Students may take courses leading to the Interdisciplinary Social Science degree interactively through an agreement between The Florida State University and 16 community colleges across Florida.

Requirements

Undergraduate majors enter the college either from the University's Division of Undergraduate Studies or as junior-level transfers from other institutions or other colleges and schools within the University. The economics program is a limited access program, and students wishing to major in economics should consult the "Department of Economics" entry in this *General Bulletin* for specific entry requirements. Students in good standing (i.e., with a GPA of 2.0 or better) and eligible for upper division may declare other non-limited access majors within the college. Most majors do have some

required or recommended courses that are advisable to take in lower-division study. It is therefore useful for potential majors to consult the relevant program entry in this *General Bulletin* well before they become juniors or enter the college.

General Requirements

1. Compliance with general University regulations governing baccalaureate degrees;
2. For the bachelor of arts degree, completion of the special University-wide requirements for that degree;
3. Completion of a major and a minor, with the exception that interdepartmental majors, international affairs, environmental studies, Russian and East European studies, Asian studies, and interdisciplinary social science, do not require completion of a minor;
4. Not more than eight (8) semester hours of credit in typing, shorthand, similar office skills, and applied music and music activities, and not more than two (2) semester hours in physical education activities, may count toward the minimum credit-hour requirements for the baccalaureate degree. The limitation on applied music credit is not enforced on majors in the college with a music minor;
5. International affairs and Russian and East European studies majors must meet University foreign language requirements whether they wish to receive a BA or a BS; similarly, Asian studies majors must meet foreign language requirements in Chinese or Japanese whether they wish to receive a BA or a BS. Other majors in the college have no foreign language requirement if the student wishes to receive a BS.

Majors. Each candidate for the baccalaureate degree must complete major requirements in one of the departmental or interdepartmental programs listed below. The major consists of thirty to forty-two (30–42) semester hours. For specific requirements, refer to the individual departments in this *General Bulletin*.

Departmental Majors. Economics and applied economics, geography, political science (including public administration), and sociology.

Interdepartmental Majors. Asian studies, international affairs, environmental studies, interdisciplinary social science, Russian and East European studies.

Minors. Each candidate for the baccalaureate degree must complete a minor, unless he or she is pursuing an interdepartmental major. The minor may be taken in a program offered through the College of Social Sciences or through another college or school of the University. Minors are offered in the programs that offer majors, as well as the program in African American studies, public administration, law and society, and urban and regional planning. There is no minor in interdisciplinary social science. Students should consult their academic adviser on choice of appropriate minor(s).

The minor will consist of at least twelve (12) semester hours that meet both the requirements of the program offering the minor and the minor requirements of the student's major.

Work used in meeting minimal requirements for liberal studies or a foreign language requirement for the bachelor of arts degree may not be used for the minor.

Consult program and departmental entries in this *General Bulletin* for specific minor requirements.

Double Majors

The college encourages students to take two majors, i.e., a double major, rather than a major and a minor, and an increasing number of students follow this route to the baccalaureate degree. For a double major, the student must meet the program requirements of both majors, with the following exceptions: 1) The second major can count as the minor for the first major, and vice versa; and 2) If one of the majors is an interdepartmental major, semester hours in excess of thirty (30) taken for the interdepartmental major may be counted toward the minimum requirements of the second major. The second major may be taken in a college or school other than the College of Social Sciences.

Preparation for the Study of Law

Many of the college's graduates enter law school. There are no required courses for admission to law schools, and law schools advise strongly against attempts to construct "prelaw" majors. Appropriate law school preparatory study is, thus, very flexible, and all of the college's undergraduate majors are appropriate. Students intending to apply to law school may consult their undergraduate program director or the college's academic support program coordinator.

Preparation for a Teaching Career

In order to teach in the state of Florida, a student must complete a teacher preparation program. The teacher education program may be combined with a baccalaureate degree from the college; however, students must formally apply and be admitted to teacher education, administered through the College of Education's Office of Student Services, *108 Stone Building*. Admission to teacher education is distinct from admission to a college or school, or undergraduate major, and has different admission criteria. For details, consult the "College of Education" section of this *General Bulletin*. Undergraduates who may wish to teach should consider taking teacher education simultaneously with their major program.

Honors in the Major

The College of Social Sciences offers honors in the major in all of the college's programs. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Dean's List

Students in good standing who in any term carry a full-time course load of twelve (12) or more graded semester hours with a term grade point average of 3.5 or better earn the distinction of being on the dean's list.

SCHOOL OF SOCIAL WORK

Dean: Bruce Thyer;
Associate Dean: Thomas Edward Smith;
Assistant Dean: Pamela W. Graham

The social work program at The Florida State University has its origins in the early history of the institution with social welfare content first being introduced into the curriculum in the 1920s. By the mid-30s, during the Great Depression, undergraduate courses in case-work and group work were offered, as well as field placements at the Leon County Welfare Association and the Leon County Unemployment Relief Council.

In 1947, the year that the Florida State College for Women was named The Florida State University, the graduate program in social work accepted the first class of students. Two years later the master of social work program was accredited by the Council on Social Work Education and has earned reaccreditation continuously since that time. The undergraduate program was accredited in 1974, the first year that undergraduate programs were granted accredited status by the council.

The PhD program in social work was approved by the Board of Regents in 1974 and accepted its first student in the fall of that year. In June 1973, as part of an overall University structural reorganization, the social work program became identified as the School of Social Work and is now one of 23 schools in the United States that offers social work degrees at the baccalaureate, master's, and doctoral levels.

As the profession of social work begins the 21st century, there is an ever-increasing awareness of the impact of the many social changes that have taken place in our contemporary world. The School of Social Work is dedicated to the preparation of tomorrow's social workers. The school's curriculum is continually updated, recognizing and responding to the changing demands made on the profession. The curriculum is rooted in the ecosystems perspective, which serves as an organizing framework for the entire program, thereby providing an effective basis for studying people and their environment. The combination of class and fieldwork provides students with a rich educational experience and the opportunity for the integration of theory and practice.

The School of Social Work is committed to the pursuit and delivery of excellence in social work education. Through teaching, research, and service, the school educates its graduates for productive careers in diverse professional arenas, contributes to the knowledge base guiding social welfare practice and policy decisions, and offers expertise and energy to local, state, and national concerns.

The school's initiatives build on the traditional heritage of social work, and are guided by a commitment to community-based social services, including the development of caring communities. Recognizing that communities function as political, social, and familial entities, the school's efforts emphasize, but are not limited to, health care, mental health, and the special concerns of children; families; women; and the aged. In all of its capacities, the school recognizes and values achieving mutuality among diverse community groups, and promotes models of service delivery empowering the poor and disadvantaged and ensuring the social care of all community members.

Degree Programs

Bachelor of Arts and Bachelor of Science in Social Work

Undergraduate Program Director: Kim Maddox

The curriculum offered at the baccalaureate level is designed to enable students to provide services to individuals, families, groups, communities, and organizations at the beginning level of social work practice.

Master of Social Work (MSW)

MSW Program Director: Pamela W. Graham

The curriculum at the MSW level is designed to increase the skills of professional social workers to more advanced competencies in social work practice.

Doctor of Philosophy in Social Work (PhD)

PhD Program Director: Wendy Crook

The PhD program in social work is designed to advance the social work profession through the development of researchers/scholars and educators. Students choose a concentration area of study from among social policy and direct practice.

Overseas Study

The Florida State University offers students the opportunity to study abroad with the approval of the academic adviser. For information concerning eligibility, fees, and other details of these programs, contact the Office of International Programs. Social work majors are encouraged to consider these opportunities for study over-

seas. Cognates and electives outside the school can be taken at the overseas centers; occasionally social work courses are offered.

Requirements

Requirements for a Major

Admission requirements to the undergraduate social work program include completion of liberal studies at The Florida State University or completion of an associate in arts degree from a Florida public junior college and a minimum of a 2.0 grade point average (GPA) on all college work attempted. To continue in the program, students must meet the following requirements:

1. Students must complete the following Common Core Requirements necessary for the degree program. All of these courses must be completed, with a grade of "C-" or better, no later than the second semester as a declared major: 1) American Government (American National Government or American Government) or Political Science; 2) Biology (Human Biology or Anatomy and Physiology); 3) Economics (Microeconomics or Macroeconomics); 4) Introductory Psychology; and 5) Introductory Sociology/Social Problems or Anthropology.
2. Students must satisfactorily complete SOW 1502r, 3350, and 3203 (with grades of "C-" or better);
3. Students must complete a formal application as a social work major while enrolled or upon completion of SOW 1502r, 3350, and 3203.

In addition to the forty-nine (49) semester hours in required social work courses, social work majors must complete eleven (11) semester hours of elective course work. These may be in social work or in consultation with the School of Social Work, in related disciplines of anthropology, biology, criminology, economics, geography, political science, history, home and family life, psychology, rehabilitative science, sociology, and statistics.

A minimum of forty-nine (49) semester hours in social work, including a block field placement of twelve (12) semester hours, is required for graduation. It is expected that each student, with counsel from the adviser, will move through the required courses in a uniform pattern, observing cognate requirements and course prerequisites and corequisites. Required courses are SOW 1502r, 3203, 3350, 4104, 4232, 4323, 4341, 4348, 4403, 4414, 4510, 4522, and 4626 plus a required diversity course. Students must complete the required courses in sequence.

Students must maintain an overall GPA of 3.0 or better in the major. No social work course with a “U” or a letter grade below “C-” will apply toward a social work major.

The School of Social Work **does not** require a foreign language as part of its undergraduate program of studies. **However**, in order to graduate from The Florida State University all students must provide the University with verification of completion of two units of the same foreign language in high school or at least eight (8) semester hours of the same foreign language (or equivalent proficiency) at the college level.

Students are expected to have satisfied this requirement upon admission to the University, **or** during their first two years in college, **before** beginning their social work program of studies.

Students majoring in social work are not required to complete a minor in another department.

Field Instruction

Field instruction is a vital and integral part of the total curriculum. Through actual experience in the field, students are helped to link theory to practice. Qualified agency staff members serve as field instructors, and the field agencies selected by the school cover the broad spectrum of social work practice. Currently, the school is affiliated with more than 400 agencies across the state of Florida, in areas of the southeastern United States, and internationally.

Undergraduate field instruction, SOW 4510, is a twelve (12) semester hour course (512 clock hours) that requires the student to register for and complete successfully a thirty-two (32) hour per week field placement for one semester. Students must register concurrently for SOW 4522, Integrative Seminar. The field instruction course is designed to help students develop the skills necessary for generalist social work practice.

The course is restricted to social work majors and can only be taken after the completion of all courses necessary for the completion of the degree. The student must have a GPA of 3.0 or better in all social work courses and an overall GPA of 2.0 in order to register for SOW 4510.

Certificate in Aging Studies

Students who are either enrolled in an undergraduate, graduate, or advanced degree program, or individuals with a baccalaureate degree enrolled as special students at the University, may apply for the certificate program in aging studies. The certificate is administered and awarded by the Pepper Institute on Aging and Public Policy on behalf of The Florida State University. The School of Social Work provides course work that partially meets requirements for the

awarding of the certificate. Additional information can be obtained from the Pepper Institute on Aging and Public Policy.

The Institute for Family Violence Studies

The mission of the institute will be to act as a community-based research and development center for family violence studies. Although the institute will be community-based with established connections to local family violence centers, its scope will include state and national policymakers. To accomplish this goal, the institute will act as a clearinghouse, and implement demonstration projects related to the reduction of family violence.

Honors Programs

The School of Social Work encourages students to apply for the honors program. For requirements and other information, see the “University Honors Program and Honor Societies” section of this *General Bulletin*.

Student Organizations

The **Association of Student Social Workers (ASSW)** is an organization of and for social work students. It is open to undergraduates as well as graduates, and participation by all is welcomed. The association is a good vehicle for socialization into the profession and orientation to the school. It can be used as a channel for handling feedback to the school about the program and is an excellent way for students to get to know one another as well as to participate in a wide array of community service activities.

Scholarships and Awards

Bernhard Scher Award. This award was established by the family of Dr. Bernhard Scher to honor and memorialize this academic leader who contributed more than 40 years to the field of social work, including service as the Dean of the School of Social Work at The Florida State University, 1968–1973. The annual cash award is granted to an undergraduate major in social work who has maintained an overall GPA of at least 3.5. A faculty committee selects the awardee based upon an essay competition.

Coyle and Mabel Moore Social Work Scholarship. The Coyle and Mabel Moore Scholarship is to be awarded annually to an upper level undergraduate or graduate student at The Florida State University whose academic major is social work. The scholarship is aimed at encouraging and supporting social work students who demonstrate a commitment to the social work program.

James and Mary Koalska Award. The Koalska award is given to an undergraduate social work major whose parents did not attend college. The annual monetary award, established by Professors Paul and Elizabeth Piccard in honor of Elizabeth Piccard’s parents, is presented to students who submit a written application stating financial need and evidence that their parents did not attend college. Preference is given to students who are not receiving other financial aid. The awardee is chosen by a committee consisting of the Piccards and other social work faculty members.

Joanna F. Gorman Scholarship. The Joanna F. Gorman Scholarship in Social Work is awarded annually to an upper level undergraduate or graduate (master’s or doctoral) student whose academic major is social work. The scholarship, bestowed by Dr. Gorman’s family and friends, is intended to encourage and support outstanding, highly motivated students to specialize in the study of one or more of the following substantive areas: child welfare, community mental health, and primary prevention in health or mental health. Among other criteria, the awardee must have a high grade point average and show other evidence of outstanding academic achievement. A committee composed of social work faculty and a past recipient is responsible for the selection of the recipient.

Margaret A. Jacks Scholarship. This scholarship is presented annually to a MSW student who demonstrates a commitment to the field of aging. The award was established by friends and colleagues of Margaret A. Jacks, a distinguished social worker and successful pioneer and advocate for services for the elderly in Florida. A committee consisting of social work faculty and a community representative will select the scholarship recipient.

Mark DeGraff and Lula Hamilton DeGraff Scholarship. This scholarship is awarded annually to a senior undergraduate or graduate student at all levels “who is desirous of and intends to conduct research related to factors which influence the growth and development of youth, or who intends to and is desirous of working professionally with youth and their problems.” The awardee is selected by a school committee.

Sarah Sealey Morrill Scholarship in Social Work. Recipients of this award shall be selected by a scholarship committee of the School of Social Work. The scholarship awards are restricted to undergraduate and graduate students who plan to take course work at The Florida State University and/or plan to attend seminars or workshops on topics concerning social work education at The Florida State University. Selection will be made on the basis of financial need and good academic potential and/or ability. The scholarship will serve as a lasting tribute to Sarah’s life-long commitment to community mental health services.

Victoria E. Warner Scholarship. This annual award is to be presented to a master's level student who completed his/her undergraduate education at Florida A & M University (FAMU) and who enrolls in the MSW program at The Florida State University. The scholarship is bestowed on behalf of Dr. Victoria E. Warner, professor and head of the Department of Soci-

ology, Anthropology, and Social Welfare at FAMU, whose long and distinguished record as a prominent social work educator is being recognized. A committee consisting of social work faculty from both FAMU and The Florida State University will select the scholarship recipient.

Robert P. Hurrle Scholarship for Field Instruction. This scholarship is awarded each semester to one or more undergraduate or graduate social work students who demonstrate a commitment to practicing social work in either 1) the field of aging, or 2) on a military installation, and who will also be completing an internship in one of these areas.

SCHOOL OF THEATRE

Dean: Steven Wallace;

Associate Dean: Bill Byrnes, T. Lynn Hogan

Four different theatres serve future theatre artists in Tallahassee. **The Richard Fallon Theatre**, a 500-seat proscenium stage, is home of the school's Mainstage subscription series of classics, musicals, and contemporary plays for the community and the student body. **The Studio Theatre**, a 200-seat proscenium stage, offers graduate directors, designers, and technicians an opportunity to produce fully mounted productions as part of their degree requirements. **The Lab**, an intimate thrust stage of approximately 150 seats, is used for experimental work. **The Fine Arts Annex** contains a classroom/rehearsal space that doubles as a performance venue for the numerous independent student-produced works sponsored by the School of Theatre Student Advisory Council.

The School of Theatre's graduate FSU/Asolo Conservatory for Actor Training is located in Sarasota at The Florida State University Center for the Performing Arts. This exemplary master of fine arts program in acting is operated in conjunction with the Asolo Theatre Company, a leading LORT professional theatre. The Conservatory and the Asolo Theatre Company are both housed in a beautiful state-of-the-art facility, which features a 500-seat proscenium theatre, a 160-seat proscenium theatre, dance studios, classrooms, and rehearsal spaces.

In addition to its degree programs, the School of Theatre has created The London Theatre Experience, an extraordinary, full-semester curriculum in London for select theatre majors. The emphasis of the program is on classical theatre training and includes theatre-going, backstage tours, classes with leading theatre artists, special internships and performance opportunities. Students earn a full semester of academic credit while participating in a program that will make a real difference in their lives as students, artists, and human beings. Graduate credit is available only by special request.

Degrees Offered

The School of Theatre is a fully accredited member of the National Association of Schools of Theatre, and its degree requirements are in accordance with the latest published regulations of that association. The School of Theatre offers degrees and course work at both undergraduate and graduate levels. To major in theatre, a student must pass a screening process and maintain appropriate standards of achievement. The bachelor of arts (BA) is a flexible, broad-based liberal arts degree, providing a basic knowledge of, and experience in, theatre

arts. The bachelor of fine arts (BFA) offers an intensive program of in-depth training in either acting, design/technology or musical theatre. An honors program is available for qualified undergraduate students. For further information, contact the Associate Dean for Academic and Student Services, School of Theatre. The master of arts/master of science (MA/MS) degrees offer a blend of academic courses and production training on an advanced level. The master of fine arts (MFA) degree provides training to achieve professional-level competencies in either acting, directing, scene design, costume design, lighting design, technical production, or theatre management. The doctor of philosophy (PhD) in theatre is a research degree that indicates the perfection of individual skills in theatre scholarship.

Facilities

There are several performance spaces available for the production of plays. All include rehearsal space. They are: the Mainstage Theatre in the Fine Arts Building in Tallahassee; the Studio, or Augusta Conradi Theatre in the Williams Building in Tallahassee; The Lab Theatre in Tallahassee; the Free Works Theatre in the Fine Arts Annex in Tallahassee; and The Florida State University Center for the Performing Arts and FSU/Asolo Conservatory Theatre in Sarasota, Florida.

The **Mainstage Theatre** in the Fine Arts Building is a proscenium theatre with continental seating for 500 patrons. Stage equipment includes a turntable, a counterweight system, hydraulic orchestra pit, a computer lightboard, a four-channel sound system, light and sound shops, two large-group dressing rooms, and two private dressing rooms.

The Studio, or Augusta Conradi, Theatre is a proscenium house and seats 200 patrons. The stage equipment includes a rope system, a pre-set lightboard, a single channel sound system, a light and sound control booth, green room, two group dressing rooms, and a small scene shop. The auditorium is used as a lecture classroom and demonstration laboratory by the School of Theatre.

The Lab is a flexible theatre space used in proscenium, thrust, arena, and open configurations. There is a variable seating capacity depending on each production's staging requirements. There is a lighting grid, and portable sound and lighting equipment is utilized. Two subscription-season productions are mounted in the Lab Theatre each year. In addition, the space is used for student development and productions. There is an accompanying rehearsal hall next door.

The **Fine Arts Annex** is a small proscenium space with flexible seating. The space is used as a classroom space, rehearsal space, and as a performance space. The Free Works Theatre is operated by the Student Advisory Council as a venue for student productions.

Requirements

Admission To Upper Division

Students should contact the School of Theatre Office of Academic and Student Services regarding GPA and course requirements for admission to upper division.

Attendance Requirement for All School Events

All undergraduate students in the School of Theatre must register for THE 4990 every fall and spring in which they are enrolled as a theatre major. This course is a zero (0) credit, S/U course to insure participation at designated school activities. These include attendance at all school meetings, required plays, the design/tech exhibit, and other required events. Failure to comply with this requirement will jeopardize graduation eligibility.

Liberal Studies Program

All undergraduates in theatre are required to meet the liberal studies requirements as specified in the "Undergraduate Degree Requirements" section of this *General Bulletin*.

Theatre Laboratory Requirement

Theatre majors must complete three semesters of technical theatre laboratories. Courses must be taken every semester beginning the first semester in residence until the requirement is complete. Students transferring with a major in theatre may receive transfer credit for no more than one laboratory course.

Retention Standards

Not formally admitted BA students are advised by peer advisors. Formally admitted BA and BFA students are advised by a professional academic advisor. Students are required to meet with their adviser every semester during the official advising period. Failure to do so will result in a hold on registration.

A grade of "C–" or better is required in all major courses and prerequisites except THE 2020, which requires a "B–" or better. Students may

only retake a major requirement once in which a grade below the minimum was received. (THE 2020 may be taken only once.) The class must be retaken the following semester and a minimum grade of “C–” must be achieved for retention. BA students must maintain a minimum GPA of 3.0 in major requirements and a cumulative GPA of 3.0; BFA acting and music theatre students must maintain a minimum GPA of 3.0 in major requirements and a cumulative GPA of 2.5. BFA design/technology students must maintain a minimum GPA of 3.0 in major course work and a 3.0 cumulative GPA. If a student receives a “D” or “F” in a major requirement, or if the GPA falls below the minimum, the student will be placed on probation for the following semester. If the grade or GPA does not meet minimum standards by the end of the probationary semester, the student will be dismissed from the program.

The School of Theatre retains the right to refuse admission or terminate enrollment at any time if a student fails to maintain the standards of the program.

Honors in Theatre

The School of Theatre offers a program in honors to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the “University Honors Program and Honor Societies” section of this *General Bulletin*.

Bachelor of Arts Requirements

The bachelor of arts (BA) is a flexible liberal arts degree intended to offer a comprehensive knowledge of theatre arts. The program requires a balance of theatre core classes and electives which allow students the opportunity to explore selected areas of the theatre. Theatre core requirements include courses in acting, directing, voice or movement, technical theatre, design, and theatre history. Electives can be fulfilled with additional theatre courses or any other University courses. Liberal studies requirements for the baccalaureate degree must be met. Twenty-four (24) semester hours of course work must be taken outside of the major, in addition to liberal studies. Hours taken to satisfy the bachelor of arts foreign language requirement and the multicultural requirement (if not part of either the major requirements or liberal studies) may be part of that twenty-four hours. For more information, see the ‘Bachelor of Arts Degree’ subsection of the “Undergraduate Degree Requirements” section of this *General Bulletin*.

Major

A minimum of thirty-nine (39) semester hours of course work in theatre is required. Contact the Office of Academic and Student Services for a complete list of requirements.

Note: at least eighteen (18) semester hours of these required courses must be completed in residence.

Minor

A minimum of twelve (12) semester hours in theatre courses, six (6) of which must be in courses numbered 3000 or above. At least six (6) semester hours of theatre courses must be completed in residence.

Bachelor of Fine Arts Requirements

The bachelor of fine arts (BFA) is a preprofessional degree, with intensive, in-depth training. The goal is the development of both an understanding of theatre as a total art and the skills necessary for its expression. Students may concentrate in acting, design/technology or music theatre. The BFA program is designed to provide the necessary foundation for specialization at the graduate or professional level. Admission to the program is highly selective. A student seeking to enter the program must offer, in addition to an acceptable GPA, an acting and/or music audition or portfolio review and a resumé. Continuation in the program is dependent not only upon academic performance but also upon development of talent and skill potential as evaluated by faculty assessment. A student’s work and commitment are under continuous review, and any candidate who fails to maintain high standards will be dropped from the program. Although it is possible to complete all requirements within four years, it is likely that a successful course of study will take longer, since graduation depends as much on demonstrated proficiency as on credit hours.

Common Curriculum

Beyond the liberal studies requirements, BFA students are required to complete approximately seventy-four to eighty-six (74–86) semester hours in theatre and related courses. All BFA students are required to complete successfully core theatre courses and technical laboratories. Contact the Office of Academic and Student Services for complete degree requirements.

Concentration in Acting

Students with a concentration in acting must complete TPA 2248; TPP 2110r, 2111r, 2190L, 3510r, 3511r, 3710r, 3711r, 4112r, 4512r, 4712r, 4730, 4922r; THE 4260 and three (3) semester hours from THE 4110, 4111, 4233, 4236, 4244, 4245, or 4433; and eight (8) elective semester hours in performance.

Concentration in Music Theatre

Students with a concentration in music theatre must complete MUT 1111, 1112, 1241, 1242; MVV 3532r, 4542r; THE 4244, 4245; TPA2248; TPP 2110r, 2111r, 3510r, 3511r, 3711r, 4112r, 4512r, 4923r. A minimum of five (5) semester hours of private voice, keyboard, and dance are also required until proficiency is demonstrated in these skills.

Concentration in Design/Technology

Students should contact the School of Theatre for information about the BFA in design/technology.

SCHOOL OF VISUAL ARTS AND DANCE

Dean: Jerry L. Draper

The School of Visual Arts and Dance is relatively young within the history of the University. Founded in 1973, the school has existed largely as presently constituted since 1978 when the Department of Dance faculty joined the other components of the school: the Department of Art, the Department of Art History, the Department of Art Education, the Department of Interior Design, and The Florida State University Museum of Fine Arts. In 1990 the school assumed administration of the Appleton Museum of Art. These academic units offer an extensive program of instruction in all areas of the visual arts and dance. In fact, every level of undergraduate and graduate degree that a university can offer in these areas is represented within the school, including the established terminal degree in each discipline. Accordingly, the school is unique in the state of Florida.

Enhancement of the fine and performing arts is one of The Florida State University's specific goals as presented in its mission statement. The comprehensive nature and consistent quality of the school may be credited in large part to the recognition and support for the arts evident in the University. The very idea of arts training within a university context is held to be fundamentally important to an individual's education in today's society. The School of Visual Arts and Dance shares much in common with an independent art school, but the differences are more important than the similarities. The University strives toward education of the whole person, and it has a great variety of cultural and curricular resources to reach this end. Therefore, art students have the opportunity to benefit from the entire University, a warm and friendly residential college and major graduate research institution. There is no substitute for this environment.

The school promotes the visual arts and dance within this community. Its goal is to provide a broad-based liberal arts education for students, while at the same time training them to be dancers, artists, scholars, teachers, or other professionals in the field. It functions to enrich their lives and to provide them with the means of self-expression in an increasingly complex and impersonal technological society — a society ever more dependent upon visual language and information. The study and practice of art are therefore viewed as a necessary link in the educational system, both as a learning process and as a means of personal fulfillment. Measures are applied within the school — and indeed throughout The Florida State University campus — to keep the spirit of open inquiry vital and productive.

Regardless of the department of a student's major, the School of Visual Arts and Dance provides an unusual opportunity for working with a distinguished faculty of nationally and internationally recognized artists and scholars, all of whom teach undergraduate as well as graduate students.

Requirements of the School

By and large the school has few requirements which go beyond those stipulated by the University. As appropriate, these requirements are provided in the narratives describing the individual departments and programs. No minor is required by the school, although minors are offered. Two programs grant degrees categorized as "limited access" in the sense that they are proficiency based: 1) the bachelor of fine arts (BFA) in graphic design and in art (studio) and master of fine arts (MFA) in art (studio); and 2) the BFA and MFA in dance. Entrance is gained through portfolio review or audition.

Facilities

In addition to the lecture rooms, general classrooms, seminar rooms, and media-specific laboratories (e.g., printmaking, electronic imaging, ceramics, sculpture, photography, and the like), two specialized facilities merit particular mention. First, art students in designated degree programs are provided individual studios in two large "warehouses" at the edge of campus, making it possible for them to work in a healthy environment that promotes the cross-fertilization of ideas and constructive debate. Students at different stages of development learn from each other as well as from their professors, who regularly come to their studios for tutorials and critiques. Secondly, dance students train in spacious, comfortable studios and perform in their own dance theatre, a fully equipped professional facility located in the same building as their major classes.

Honors in the Major

The School of Visual Arts and Dance offers honors in the major in several departmental and interdepartmental programs. For requirements and other information, see the "University Honors Program and Honor Societies" chapter of this *General Bulletin*.

Study Abroad

The University offers many opportunities for international study open to all qualified state university students. Study-abroad programs range in nature from long-established study centers in Florence, Italy, and London, England, to recently developed programs in countries such as Spain, France, and South Africa. Operated by The Florida State University, they provide the opportunity for a truly rewarding educational and cultural experience. Representing as it does a collegial body of students of art, the School of Visual Arts and Dance has a particular affinity for the Florence program, one which has led to a history of involvement since the founding of the program in 1966, largely through the efforts of the art history faculty. In every year that it has existed, at least one member of the school faculty has taught in Florence, and the school has significant representation among the students studying there. More recently, greater emphasis has been placed on the opportunities at the London Center. Students of art, dance, design, and art history flourish in the rich, humanistic environments of these magnificent cities and cultural centers. This they can do usually without disrupting their sequence of courses and without loss of residency since the Florence and London campuses are true extensions of the Tallahassee campus.

Museum Studies

The School of Visual Arts and Dance is the academic home of The Florida State University's museum studies certificate program. Open to graduate students of all departments, the program offers theoretical, practical, and methodological training in museum management, curatorship, fundraising, collections management, education and interpretation, marketing, exhibition development, and other museum topics. The museum studies curriculum includes courses taught by full-time faculty and practicing museum professionals, internships, and special museum projects. Emphasis is placed on career guidance and finding a position in the museum profession. Students have opportunities for firsthand experience at the School's Museum of Fine Arts, the Appleton Museum of Art, the Ringling Museum of Art, and in other regional and national museums. The Florida State University's international programs offer museum internships at international institutions in cities such as London and Florence.

On the undergraduate level, students studying art history may obtain a concentration in museum studies.

The Florida State University Museum of Fine Arts

The Florida State University Museum of Fine Arts is first and foremost an extension of the teaching mission of the school. Large, modern, and spacious, it houses the permanent collection and several times a year hosts student and faculty shows. In addition, the school faculty and museum staff pride themselves on originating shows of national prominence, documented through professional catalogs distinguished for their scholarship. The Florida State University Museum of Fine Arts is a community resource of regional significance in the Southeast.

The Appleton Museum and Collection

The Appleton Museum of Art is a recent complement to the academic and cultural components of the University; it is adminis-

tered by the school. Located approximately three hours' drive from Tallahassee in Ocala, Florida, this beautiful museum was constructed in 1987 to house the extensive collection of the donor, Arthur I. Appleton. Works of art bridging many cultures over thousands of years form the core of the school's outreach program in central Florida and provide rich source material for students of art and art history. The museum was expanded in 1996 through the addition of the Edith-Marie Appleton Wing, which provides facilities for changing exhibitions, classes, workshops, and other educational activities.

The John and Mable Ringling Museum of Art

Beginning with the new millenium, The Florida State University has been charged by the State of Florida with administration of the Ringling Museum of Art in Sarasota, Florida. This incredible museum complex with its superb internationally renowned art collection, circus museum, and Ringling mansion, offers multiple opportu-

nities for students in the arts, museum studies, and the humanities. Programs are in the process of being defined which will derive from and enhance graduate education in the School of Visual Arts and Dance, as well as many other areas within The Florida State University.

Accreditation

The School of Visual Arts and Dance is fully accredited according to discipline as appropriate by the National Association of Schools of Art and Design, the National Association of Schools of Dance, the National College Association for Teacher Education, and the Foundation for Interior Design Education Research.

THE COMMON COURSE NUMBERING SYSTEM

Florida's Statewide Course Numbering System

Courses in this *Bulletin* are identified by prefixes and numbers that were assigned by Florida's Statewide Course Numbering System. This common numbering system is used by all public postsecondary institutions in Florida and by seventeen participating private institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions.

Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization. The course prefix and each digit in the course number have meaning in the Statewide Course Numbering System (SCNS). The list of course prefixes and numbers, along with their generic titles, is referred to as the "SCNS taxonomy." Descriptions of the content of courses are referred to as "course equivalency profiles."

Example of Course Identifier

Prefix	Level Code (first digit)	Century Digit (second digit)	Decade Digit (third digit)	Unit Digit (fourth digit)	Lab Code
SYG	1	0	1	0	
Sociology, General	Freshman level at this institution	Entry level general sociology	Survey course	Social problems	No laboratory component in this course

General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and same last three digits of the course number and are guaranteed to be transferable between the participating regionally accredited postsecondary institutions that offer the course, with a few

exceptions (Exceptions are listed below.) For example, a survey course in social problems is offered by 31 different postsecondary institutions. Each institution uses "SYG _010" to identify its social problems course. The level code is the first digit and represents the year in which students normally take this course at a specific institution. In the SCNS taxonomy, "SYG" means "Sociology, General," the century digit "0" represents "Entry-Level General Sociology," the decade digit "1" represents "Survey Course," and the unit digit "0" represents "Social Problems."

In science and other areas, a "C" or "L" after the course number is known as a lab indicator. The "C" represents a combined lecture and laboratory course that meets in the same place at the same time. The "L" represents a laboratory course or the laboratory part of a course, having the same prefix and course number without a lab indicator, which meets at a different time or place.

Transfer of any successfully completed course from one institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, SYG 1010 is offered at a community college. The same course is offered at a state university as SYG 2010. A student who has successfully completed SYG 1010 at the community college is guaranteed to receive transfer credit for SYG 2010 at the state university if the student transfers. The student cannot be required to take SYG 2010 again since SYG 1010 is equivalent to SYG 2010. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed which have not been designated as equivalent.

The Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix used to identify the course.

Authority for Acceptance of Equivalent Courses

State Board of Education Rule 6A-10.024(19), Florida Administrative Code, reads: "When a student transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the common course designation and numbering system, the receiving institution shall award credit for courses satisfactorily completed at the previous participating institutions when the courses are judged by the appropriate common course designation and numbering system faculty task forces to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or nonpublic control of the previous institution. The award of credit may be limited to courses that are entered in the course numbering system. Credits so awarded shall satisfy institutional requirements on the same basis as credits awarded to native students."

Exceptions to the General Rule for Equivalency

The following courses are exceptions to the general rule for course equivalencies and may not be transferable. Transferability is at the discretion of the receiving institution:

1. Courses in the _900 –_999 series (e.g., ART 2905);
2. Internships, practica, clinical experiences, and study abroad courses;
3. Performance or studio courses in art, dance, theatre, and music;
4. Skills courses in criminal justice; and
5. Graduate courses.

College preparatory and vocational preparatory courses may not be used to meet degree requirements and are not transferable.

Questions about the Statewide Course Numbering System and appeals regarding course credit transfer decisions should be directed to: *Florida Department of Education, Office of Postsecondary Education Coordination 401 Turlington Building, Tallahassee, FL 32399-0400.* Special reports and technical information may be requested by calling telephone number (850) 488-6402, or Suncom 278-6402.

COURSE PREFIXES, DEFINITIONS, AND LOCATIONS

How to Find a Course:

The following lists course subjects alphabetically by letter prefix. The column to the right contains the department(s) and/or program(s) offering that course subject. The departments/programs can be found, alphabetically, in the “Academic Departments and Programs” section of this *Bulletin*, where each course offered in a given program is listed, including title, description, and credit hours.

Course Symbols

Note: courses that may be repeated for credit are designated by an “r” immediately following the course number.

MOLECULAR BIOPHYSICS

ACADEMIC DEPARTMENTS AND PROGRAMS

Department of ACCOUNTING

COLLEGE OF BUSINESS

Chair: Bud Fennema; *Arthur Andersen Professor:* Hillison; *Deloitte and Touche Professor:* Morton; *Ernst and Young Professor:* McIntyre; *KPMG Professor:* Reimers; *Professors:* Hasselback, Hillison, R.C. Icerman, Jordan, McIntyre, Reimers; *Associate Professors:* Bathke, Dusenbury, Fennema, J.D. Icerman, Morton, Paterson; *Assistant Professors:* Billings, Dee, Dunn, Durtschi, Gerard, Rai; *Lecturers:* Pierno, Smith, Sudano

The Department of Accounting is committed to providing students the general education and technical knowledge necessary to enter the accounting profession and to pursue a successful professional career. The field of accounting offers challenging and rewarding opportunities in public accounting, tax accounting, industry, government, and not-for-profit organizations.

Prospective accountants must be prepared to work in an increasingly complex environment. In addition to accounting knowledge, the successful accountant must possess a broad knowledge of business. Other essential skills include the ability to communicate well verbally and in writing, the ability to work well with and motivate others, the ability to organize and manage tasks and other people, and the ability to use sound professional judgment.

The bachelor of arts (BA) or the bachelor of science (BS) degree in accounting provides students with the knowledge of basic accounting concepts, accounting applications, and the related functional areas of business necessary for a successful accounting career in industry, government, and nonprofit organizations. Students preparing for a professional career in public accounting or tax accounting, and others who wish to obtain more advanced and specialized knowledge in the field of accounting, should plan to complete the four-year undergraduate program followed by the one-year master of accounting (MAcc) program. The MAcc program allows students to specialize in one of the following areas: assurance services, corporate accounting, accounting information systems, or taxation. A detailed description of the MAcc program can be found in the *Graduate Bulletin*.

Students planning to sit for the Certified Public Accountants Examination in the state of Florida must complete a five-year education program (150 semester hours) with a concentration in accounting. Completion of the MAcc program satisfies this requirement.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. Specific prerequisites are required for admission into the upper-division program and **must** be completed by the student at either a community college or a state university prior to being admitted to this program. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.**

The following lists the common prerequisites or their substitutions necessary for admission into this upper-division degree program:

1. ACG X021 or ACG X001 and ACG X011;
2. ACG X071 (not required of students majoring in accounting at The Florida State University);
3. CGS X100*;
4. ECO X013;
5. ECO X023;
6. MAC X233;
7. STA X023 or QMB X100 (students at The Florida State University may substitute STA X014).

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Requirements for a Major in Accounting

All students must complete 1) the University-wide baccalaureate degree requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*; 2) the State of Florida common prerequisites for accounting majors; 3) the general business

core requirements for accounting majors; 4) the general business breadth requirements for accounting majors; and 5) the major area requirements for accounting majors. To be eligible to pursue an accounting major, students must meet the admission requirements of the "College of Business" These admission requirements are described in the "College of Business" section of this *General Bulletin*.

General Business Core Requirements

All accounting majors must complete the following four (4) courses. A grade of "C-" or better must be earned in each course.

FIN	3403	Financial Management of the Firm (3).
GEB	3213	Business Communications (3).
MAN	3240	Organizational Behavior (3).
MAR	3023	Basic Marketing Concepts (3).

General Business Breadth

All accounting majors must complete five (5) courses as follows. Each course selected must be completed with a grade of "C-" or better.

FIN	3244	Financial Markets, Institutions, and International Finance Systems (3).
ISM	3011	Introduction to Management Information Systems (3).
QMB	3200	Quantitative Methods for Business Decisions (3).

Plus two (2) electives from the following list of courses:

HFT	3240	Managing Service Organizations (3).
MAN	3504	Services Operations Management (3).
MAN	3600	Multinational Business Operations (3).
MAN	4720	Strategic Management and Business Policy (3).
MAR	3700	Professional Selling (3).
REE	3043	Real Estate (3).
RMI	3011	Risk Management/ Insurance (3).

Major Area Requirements

All accounting majors must complete the ten (10) courses listed below. In addition, accounting majors must complete a total of sixty-one (61) semester hours of nonbusiness courses.

To enroll in the required upper-level accounting courses (those with ACG and TAX prefixes), students must have completed ACG 2021 Introduction to Financial Accounting with a grade of "B–" or better. A grade of "C–" or better must be earned in all required upper-level accounting courses and BUL 3330.

ACG 3101	Financial Accounting and Reporting I (3).
ACG 3111	Financial Accounting and Reporting II (3).
ACG 3341	Cost Accounting I (3).
ACG 3351	Cost Accounting II (3).
ACG 4201	Financial Accounting and Reporting III (3).
ACG 4401	Accounting Information Systems (3).
ACG 4632	Auditing Theory and Application I (3).
BUL 3330	Law for Accountancy (4).
BUL 3350	U.C.C. Business Law Problems (3).
TAX 4001	Federal Tax Accounting I (3).

ACG	— Accounting
TAX	— Tax Accounting

Undergraduate Courses

Note: to register for any accounting course, students must have completed all prerequisite courses with appropriate grades.

ACG 2021. Introduction to Financial Accounting (3). Introduction to financial accounting concepts. Financial statements and how they reflect business transactions are emphasized.

ACG 2071. Introduction to Managerial Accounting (3). Prerequisite: ACG 2021 with a grade of "C–" or better. An introduction to managerial accounting concepts. Credit not allowed for accounting majors.

ACG 3101. Financial Accounting and Reporting I (3). Prerequisite: ACG 2021 with a grade of "B–" or better. In-depth study of financial reporting concepts and generally accepted practice including an overview of the accounting cycle assets and noncurrent assets. Emphasis on analyzing financial events and the consequences of financial reporting alternatives.

ACG 3111. Financial Accounting and Reporting II (3). Prerequisite: ACG 3101 with a grade of "C–" or better. In-depth study of financial reporting concepts and generally accepted practice for long-term liabilities, leases, pensions, income taxes, and stockholders equity and earnings per share. Emphasis on analyzing financial events and the consequences of financial reporting alternatives.

ACG 3171. Analysis of Financial Statement Presentation (3). Prerequisite: ACG 2021 with a grade of C– or better. Analysis of the assumptions and procedures underlying financial statements. The impact of accounting policies on the use of the financial disclosures made by business enterprises. Credit not allowed for accounting majors.

ACG 3331. Cost Accounting and Analysis for Business Decisions (3). Prerequisite: ACG 2071 with a grade of C– or better. Study of techniques of cost accounting and cost analysis for various business decisions. Credit not allowed for accounting majors.

ACG 3341. Cost Accounting I (3). Prerequisites: ACG 2021 with a grade of "B–" or better; MAC 2233. Planning and control of economic entities through cost-volume-profit relationships, job order, process and standard cost accounting. The relationship of accounting systems to decision making is emphasized.

ACG 3351. Cost Accounting II (3). Prerequisites: ACG 3341 with a grade of "C–" or better; QMB 3200. Planning and control of economic entities through direct and relevant costing, inventory management, decentralized operations, capital budgeting, and quantitative techniques. The relationship of accounting systems to decision making is emphasized.

ACG 3949. Cooperative Education Work Experience (0). (S/U grade only.)

ACG 4201. Financial Accounting and Reporting III (3). Prerequisites: ACG 3111 with a grade of "C–" or better; CGS 2100. In-depth study of financial reporting concepts and generally accepted practice for investments, business combinations, consolidated enterprises, and foreign operations and the statement of cash flows. Emphasis on analyzing financial event and the consequences of financial reporting alternatives.

ACG 4401. Accounting Information Systems (3). Prerequisites: ACG 3101 with a grade of "C–" or better; CGS 2100. An introduction to manual and computerized accounting information systems. Transaction cycles, internal controls, and flowcharting are emphasized.

ACG 4501. Accounting for Governmental and Not-for-Profit Entities (3). Prerequisite: ACG 3111 with a grade of "C–" or better. Pre- or Corequisite: ACG 4201. An introduction to fund accounting procedures and financial reporting requirements for governmental units and not-for-profit entities.

ACG 4632. Auditing Theory and Application I (3). Prerequisites: ACG 3111 and 4401 with grades of "C–" or better. Legal and professional responsibility of CPAs; generally accepted auditing standards; audit programs, procedures, and evidence; review and evaluation of internal controls.

ACG 4642. Auditing Theory and Application II (3). Prerequisite: ACG 4632 with a grade of "C–" or better. Theory of auditing and development of audit programs; procedures of obtaining audit evidence; auditor responsibility under Securities and Exchange Commission requirements; and auditing computerized systems. Subsequent credit for ACG 5635 is not permitted.

ACG 4901r. Directed Individual Study (1–3). May be repeated up to five times.

ACG 4930r. Special Topics in Accounting (1–3). Prerequisite: Permission of instructor. Content varies to provide an opportunity to study current issues in accounting and topics not offered in other courses. May be repeated with a change in content to a maximum of twelve (12) semester hours.

ACG 4970r. Honors Thesis (3). Prerequisite: Admission to the honors program. Six (6) semester hours of thesis are required to complete honors in the major. May be repeated to a maximum of six (6) semester hours.

TAX 4001. Federal Tax Accounting I (3). Prerequisites: ACG 3101 with a grade of "C–" or better. Concepts and methods of determining income of individuals for tax purposes; interpretation of Internal Revenue Code, related regulations, and tax advisory services.

TAX 4011. Federal Tax Accounting II (3). Prerequisite: TAX 4001 with a grade of "C–" or better. Concepts and methods of determining income of corporations, partnerships, estates, and trusts for tax purposes; interpretation of the Internal Revenue Code, related regulations, and tax advisory services. Subsequent credit for TAX 5015 is not permitted.

Graduate Courses

ACG 5005.	Accounting Concepts: Introductory (3).
ACG 5135.	Financial Accounting Theory and Standard Setting (3).
ACG 5308.	Accounting Concepts for Managerial Control (3).
ACG 5356.	Advanced Management Accounting (3).
ACG 5405.	Advanced Accounting Information Systems (3).
ACG 5505.	Government and Not-for-Profit Accounting and Auditing (3).
ACG 5635.	Auditing Theory and Application II (3).
ACG 5695.	Challenges in Professional Accounting (3).
ACG 5905r.	Directed Individual Study (1–3). (S/U grade only.)
ACG 5906r.	Special Studies in Management (1–3).
ACG 5915r.	Supervised Research (1–3). (S/U grade only.)
ACG 5935r.	Special Topics in Accounting (1–3).
ACG 5945r.	Supervised Teaching (1–3). (S/U grade only.)
ACG 6696.	Seminar in Financial and Auditing Research (3).
ACG 6835.	Seminar in Behavioral Accounting Research (3).
ACG 6845.	Seminar in Analytical Research (3).
ACG 6885.	Introduction to Accounting Research (3).
ACG 6895.	Seminar in Capital Market Based Accounting Research (3).
ACG 6916r.	Supervised Research (1–3). (S/U grade only.)
ACG 6939r.	Doctoral Seminar in Accounting (3).
ACG 6946r.	Supervised Teaching (1–3). (S/U grade only.)
TAX 5015.	Federal Tax Accounting II (3).
TAX 5065.	Research in Federal Taxation (3).
TAX 5105.	Seminar in Corporate Income Taxation (3).
TAX 5205.	Seminar in Partnership Taxation (3).
TAX 5405.	Seminar in Federal Taxation of Estates and Gifts (3).
TAX 5875r.	Special Topics in Taxation (1–3).

Program in ACTUARIAL SCIENCE

COLLEGE OF ARTS AND SCIENCES

Director: Bettye Anne Case (Mathematics); *Advisory Committee:* Beaumont, Cobbe (Economics); Eastman, Maroney (Risk Management/Insurance); Hollander, Leysieffer (Statistics); Icerman (Accounting); Nast (Finance).

This interdisciplinary degree provides broad instruction in the mathematical and statistical concepts underlying the operations of life, property and casualty insurers, governmental agencies, consulting and financial firms. Along

with strong mathematical and computational skills and a solid grounding in each of the component disciplines, the program is designed to enhance leadership ability and communications skills. The program is also flexible enough to provide background for graduate or professional study in many areas beyond actuarial science—e.g., business, economics, finance, law, statistics. It is the only actuarial science degree program in a state university in Florida, and it is classified by the professional actuarial societies as advanced undergraduate and graduate education.

Students in the program are assisted in moving forward professionally by tutorials which are provided to assist their preparation for national actuarial examinations, and by guest lec-

turers who are actuaries discussing the varied available employment. For statewide common course prerequisites and curriculum information, please see the "Department of Mathematics" section in this *General Bulletin*.

Department of AEROSPACE STUDIES

AIR FORCE ROTC

COLLEGE OF ARTS AND SCIENCES

Professor: Colonel Thomas C. Bowermeister; *Assistant Professors:* Captain Bailey, Captain McElroy

The Department of Aerospace Studies provides precommissioning education for qualified students who desire to serve as commissioned officers in the United States Air Force. The department offers one-year, two-year and four-year commissioning programs, each with its own special advantages. The one-year college program is designed for students graduating the following year to gain a commission into the Air Force. Upon enlistment, full scholarship and monthly stipend are available. The two-year program allows transfer students and other students with two academic years remaining, either in undergraduate or graduate status, and who have met required qualifications, to obtain an Air Force commission while completing their studies. The four-year program provides on-campus study during the freshman through senior years. All programs provide the opportunity to compete for full academic scholarships. The aerospace studies curriculum is divided into two phases: 1) the general military course; and 2) the professional officer course. Students are invited to write, visit, call the Department of Aerospace Studies, (850) 644-3461, or visit our web page at <http://www.fsu.edu/~rotc> to obtain additional information.

General Military Course

This program of instruction is open to any student and consists of the first- and second-year courses for students in the four-year Air Force Reserve Officers Training Corps (AFROTC) program. These courses deal with the Air Force in the contemporary world and the development

of air power. They strengthen interest in becoming a professional Air Force officer, develop knowledge of world military forces, and enable the student to understand how the United States Air Force supports national objectives and policies. Class enrollment size is limited and priority will be given to FSU/FAMU/TCC students enrolled in the AFROTC program.

Professional Officer Course

Aerospace studies courses offered during the third and fourth years must be completed by all students who seek a commission through AFROTC. Coursework continuity is designed to prepare college students to serve as active duty Air Force officers upon graduation and commissioning. The curriculum stresses national security in contemporary American society, leadership, management, and professionalism. Special emphasis is placed on developing the cadet's communicative skills. Students entering this course must be selected in accordance with the prerequisites listed below. Students not currently enrolled in the AFROTC program must have permission of the department chairperson prior to enrolling in these courses. Class enrollment size is limited and priority is given to those FSU/FAMU/TCC students enrolled in the AFROTC program

Prerequisites for Admission to the Professional Officer Course

1. Be at least 17 years of age at time of acceptance;
2. Be able to complete the professional officer course and graduate from a four-year university prior to reaching age of 30 if entering pilot training or before age 34 if entering a nonflying category;
3. Pass the Air Force Officer Qualifying Test;
4. Pass a physical examination;
5. Pass the three-event physical fitness test;
6. Pass height/weight standards;
7. Have a 2.5 GPA or higher.

Leadership Laboratory

Leadership laboratory is required for members of the Reserve Officer Training Corps, or students who are eligible to pursue a commission as determined by the chairman of the Department of Aerospace Studies. Leadership laboratory is the formalized phase of leadership training conducted by the cadets. It is scheduled for up to two (2) hours each week. All uniforms and equipment required for cadet activities are furnished.

Monetary Allowances

All students enrolled in the professional officer course or on academic scholarship receive a tax-exempt monthly stipend ranging from \$250.00 to \$400.00.

AFROTC College Scholarship Programs

Financial assistance may be available in the form of AFROTC academic scholarships. Under this program, the Air Force pays for full tuition and fees and provides an allowance for books, supplies, and equipment. Scholarships may be awarded for up to four years. Four-year scholarships must be applied for by December 1st in the year prior to enrollment as a freshman. Other scholarships may be applied for after enrolling in aerospace studies courses. Scholarships are available for students attending a historically black college or university if the student has a 2.50 or higher cumulative GPA.

Professional Officer Corps Scholarships: All juniors and seniors who maintain a 2.00 term GPA, pass the fitness test, and maintain weight standards, regardless of academic major, will receive up to \$3450 for tuition and textbooks, and \$200.00–\$400.00 per month tax-exempt stipend. There are also numerous national scholarships that students may compete for as a member of Air Force ROTC.

Field Training

Cadets in the two-year program must complete a five-week field training course before they may formally enroll in the professional officer course. This course includes career training, physical conditioning, and the general military course academics. Academic credit for up to four (4) semester hours may be given for cadets attending a five-week Field Training and who have not previously completed AFR 1101, 1102, 2130, and 2140. See the Professor of Aerospace Studies for further information and to apply for the credit.

Cadets enrolled in the four-year AFROTC program are required to attend a four-week field training course before they may formally enroll in the professional officer course. Field training provides a better understanding of the United States Air Force mission, increases the cadets' proficiency in junior officer training areas, and stresses the importance of physical conditioning.

All field training courses are conducted at active Air Force bases. Students attending these courses receive pay for the encampment plus travel allowances.

Officer Commissions

Upon graduation from the University, cadets who complete the professional officer course are commissioned as Second Lieutenants in the United States Air Force. All new lieutenants will be on active duty within thirty (30) days of commissioning. As graduates they incur an obligated active duty tour of four years for nonflyers, six years for navigators, and ten years for pilots.

Minor

A minor in aerospace studies is offered and may be selected by the student with the approval of the major department and the Department of Aerospace Studies. Requirement for a minor is twelve (12) semester hours in aerospace studies courses.

Oral Communications Competency

The Florida State University requires students to demonstrate competency in oral communications prior to graduation. Students who meet the specific criteria below may be awarded the competency through AFR courses.

1. Successfully complete (grade of "C-" or better) the verbal presentation portion of three AFR courses.

2. Apply to the department office assistant for award of the competency. Students should be advised that application alone does not guarantee that credit towards the completion of the oral communication competency requirement will be awarded. All applications must be reviewed prior to graduation.

3. All courses completed beginning with the Spring 1998 semester are eligible for consideration.

Note: students not currently enrolled in the AFROTC program must have the permission of the department chairman prior to enrolling in any AFR course. Class enrollment size is limited and priority will be given to FSU/FAMU/TCC students seeking a commission in the Air Force and needing AFR courses. Non-AFROTC program students are not eligible for scholarships, incentive pay or stipends as a result of enrollment in AFROTC program courses.

Special Activities

Special activities provide for the development of teamwork and esprit de corps. Included are the Arnold Air Society, a national honorary organization, and the FSU—FAMU—TCC AFROTC Silver Eagles Drill Team, an armed precision drill unit. Students who desire to fly can participate in a flying program with the Florida Civil Air Patrol.

Awards and Decorations

Awards and decorations, made available by national organizations, The Florida State University, and local/national military organizations, are presented to both general military course and professional officer course cadets each year. These plaques, trophies, medals, and ribbons symbolize superior achievement in AFROTC and other University academic courses and in outstanding campus and cadet corps leadership.

Definition of Prefix

AFR — Air Force ROTC

Undergraduate Courses

AFR 1101. USAF Strategic Forces (1). This course deals with the Air Force in the contemporary world through a study of the total force structure, strategic offensive and defensive forces, general purpose forces, and aerospace support forces.

AFR 1102. USAF General Purpose and Support Forces (1). This course is a continuation of AFR 1101.

AFR 2130. Development of Airpower I (1). This course, along with AFR 2140, is a study of airpower from balloons and dirigibles through the jet age, a historical review of airpower employment in military and nonmilitary operations in support of national objectives, and a look at the evolution of airpower concepts and doctrine.

AFR 2140. Development of Airpower II (1). This course is a continuation of AFR 2130.

AFR 2233L. AFROTC Leadership Lab (0). (S/U grade only.) For AFROTC cadets only.

AFR 2940. Basic Aerospace Internship (4). (S/U grade only.) (AFROTC Field Training.) Prerequisites: selection for the two-year AFROTC program and permission of the professor of aerospace studies.

AFR 3201. Air Force Management (3). This course is the initial semester of a study of leadership and management fundamentals. Material deals with general managerial and leadership concepts and theories and relates them to the Air Force junior officer. A block on communicative skills is included in this course.

AFR 3202. Air Force Junior Officer Leadership (3). Continuation of the study of leadership and management begun in AFR 3201.

AFR 4211. U.S. Defense Policy and Strategy Formulation (3). Prerequisite: AFR 3202. This course, along with AFR 4212, includes an examination of the need for national security, analysis of the evolution of the American defense strategy and policy and of the methods for managing conflicts, and a study of the formulation of American defense policy and strategy.

AFR 4212. Preparation for Active Duty (3). Prerequisite: AFR 4211. Continuation of AFR 4211.

Note: if stated prerequisites are not met, permission of the professor of aerospace studies is prerequisite to all courses.

AFRICAN HISTORY:

AFRO-AMERICAN STUDIES:
see African-American Studies

Program in AFRICAN-AMERICAN STUDIES

COLLEGE OF SOCIAL SCIENCES

Director: Dr. Patrick L. Mason

The African-American Studies program is an interdepartmental and interdisciplinary study of the history, culture, and socio-economic well-being of African-Americans. Knowledge and research methods drawn from several disciplines enable students to enhance their understanding of African-Americans' unique social circumstances and heritage, and acquire a deeper comprehension of the history and culture of the nation as a whole.

Requirements for a Minor in African-American Studies

The program minor requires the completion of fifteen (15) semester hours. Specific requirements are as follows: 1) AFA 3101 Theory and Dynamics of Racism and Oppression, **or** AFA 2000 Introduction to the Afro-American Experience, three (3) semester hours; 2) SOP 3782 Psychology of the Afro-American, three (3) semester hours; 3) subject to departmental prerequisites, at least six (6) semester hours selected from core courses; and 4) the remaining three (3) semester hours to be selected from special topics seminars, directed individual studies (DIS) in approved disciplines, or approved courses not previously chosen to fulfill the core requirements.

Freshmen and sophomore students who intend to minor in African-American studies should declare this intention with the dean of their college or school and their department advisor. Junior and senior students should notify their respective academic deans.

Definition of Prefix

AFA — African American Studies

Core Courses

These courses will count for the minor in African-American Studies Program.

AFA 2000. Introduction to the Afro-American Experience (3). An interdisciplinary examination of the form and content of Afro-American culture as an expression of its African heritage and a response to economic, social, and political oppression in the New World.

AFA 3101. Theory and Dynamics of Racism and Oppression (3). A conceptual, institutional, and historical analysis of the operation and inner logic of racism and oppression.

AFA 3330. Black Families in America (3). This course explores the social, economic, and cultural forces that have shaped the development of African American families. In examining historical and contemporary transitions in the structure and functioning of African American families, special emphasis is given to the bifurcation in the distribution of wealth and power in American society, as well as the role of racial stratification. The course also seeks to empirically examine contemporary policy and political debates on crucial issues confronting African American families.

AFA 3395. Cultural Pluralism and Community Service (3). This course presents students a theoretical framework for evaluating effective community service strategies, especially in response to the needs of African-American clients.

AFA 3930r. Special Topics (1-3). Varies with instructor, and semester. May be repeated to a maximum of nine (9) semester hours.

AFA 4905r. African American Studies Directed Individual Study (1-4). May be repeated during the same semester.

Other Courses

AFA 1003. Diversity and Justice (1). This course integrates African authors, pre- and post-Apartheid, to demonstrate the problems of living in a diverse world. It fosters awareness and acceptance of people different from students through the study of African-American culture, and stimulates an appreciation and respect for people of all cultures.

Note: descriptions of the following courses can be found under the individual departments in which they are taught.

AFH 1000.	African History and Civilization (3).
AFH 3451.	Sub-Sahara Africa Since 1800 (3).
AMH 1091.	The African-American Experience in the United States (3).
AMH 2096.	Black Women in America (3).
AMH 4571.	Black America to 1877 (3).
AMH 4572.	Black America Since 1877 (3).
AML 2600.	The African-American Literary Tradition (3).
AML 3682.	American Multi-Ethnic Literature (3).
AML 4604.	African-American Literary Traditions (3).
ARH 2521C.	Survey in African-American Art (3).
ARH 4118.	Archaeology of Ancient Egypt (3).
ARH 4523.	West African Art and the Diaspora: Brazil, Haiti, The United States and Suriname (3).
ARH 4583.	The Arts of Oceania, Africa and Native America (3).
CCJ 4662.	Minorities, Crime, and Social Policy (3).
DAN 3930r.	Special Topics in Dance (1-3).
ECP 3143.	Afro-Americans in the American Political Economy (3).

ECP 4613.	Urban Economics (3).
FRW 4770.	Black Literature of French Expression (3).
HIS 4930r.	Special Topics in History (3).
LIT 4329.	African-American Folklore (3).
MUH 3053.	Minority Musics in North America (3).
MUH 4801.	History of Jazz I (3).
MUH 4802.	History of Jazz II (3).
MUL 4931r.	Special Topics in Music Literature (1-3).
MUT 2641r.	Jazz Improvisation I (1).
PAD 4414.	American Public Service (3).
POS 3142.	Urban Politics (3).
POS 4624.	The Supreme Court, Civil Liberties, and Civil Rights (3).
POT 2502.	Politics and Ethics (3).
REL 3375.	Afro-Caribbean Religions (3).
REL 3936r.	Special Topics in Religion (1-3).
REL 4190r.	Undergraduate Religion and Culture Seminar (3).
SOP 3782.	Psychology of the African-American (3).
SOW 4622.	Social Work with Black Families (3).
SOW 4627.	Mental Health of Diverse Populations (3).
SOW 4935r.	Seminar in Social Work: Selected Topics (3).
SPC 4634.	The Rhetoric of Race Relations (3).
SPC 4651r.	Rhetoric of Contemporary Issues (3).
SPC 4710.	Interracial/Intercultural Communication (3).
SYD 3600.	The Community in Urban Society (3).
SYD 4700.	Race and Minority and Group Relations (3).
THE 4233.	History of African-American Drama (3).
THE 4433.	Gender, Race and Performance (3).
THE 4935r.	Selected Subjects in Theatre Studies (3).
URP 4741.	Introduction to Issues in Housing and Community Development (3).
URP 4936r.	Special Topics in Urban and Regional Planning (Neighborhood Planning) (3).

Note: courses are available at Florida Agricultural and Mechanical University (FAMU) that may transfer to the Florida State University program in African American Studies. Please see department for details and a list of approved courses.

Certificate Program in the PEPPER INSTITUTE ON AGING AND PUBLIC POLICY

COLLEGE OF SOCIAL SCIENCES

Director: Melissa Hardy (Sociology); *Mildred and Claude Pepper Eminent Scholar Chair:* Quadagno (Sociology); *Professors:* Charness (Psychology), Cowart (Urban and Regional Planning), Hardy (Sociology), Quadagno (Sociology); *Associate Professor:* Bourgeois (Communication Disorders); *Assistant Professors:* Reynolds, Taylor (Sociology); *Affiliates:* Barrilleaux, Ebner, Heron, Licht, MacPherson, Miles, Ralston, Serow, Shepherd, Toole, Vinton

The Pepper Institute on Aging and Public Policy has a multidisciplinary focus and plays a coordinating and facilitating role for the work in all academic units with interests in aging and social policy. As an internationally recognized site of multidisciplinary research, the institute reflects many of the strengths of The Florida State University. Through the College of Social Sciences, the Pepper Institute now offers a Master's Degree in Aging Studies. The institute supports a rigorous research program that mirrors the interests of faculty and their contributions to health policy, health care and health financing; retirement, pensions and income inequality; family structure, care-giving and end-of-life issues; social welfare policy and the special concerns of older women and minority group members. The institute also sponsors an exceptional educational outreach program for mature adults, the *Academy at*

FSU. As part of the broader University community, the Pepper Institute seeks to teach each new generation the importance of learning as a life-long activity and the value of service to others. The Pepper Institute offers an undergraduate and graduate Certificate in Aging Studies that can be completed by any student in the university. Application to the program is made to the Pepper Institute on Aging and Public Policy. For more information contact: slampman@mailier.fsu.edu

Requirements for the undergraduate Certificate in Aging Studies include a three (3) semester hour internship (ISS 4944r Practicum in Aging Studies) enabling students to gain experience in a setting associated with services for the elderly and the completion of an additional nine (9) semester hours of course work in aging from the list of approved courses.

Selected Course Offerings

AMS	3932r	Lecture Series in American Problems [Aging of America] (3-6)
DEP	4404	Psychology of Aging (3) [Prerequisite: PSY 2012]
ECO	3933	Special Topics in Economics [Economics of Aging] (3)
ECP	3530	Economics of Health (3)
FAD	4340	Later Maturity (3)
FAD	4936r	Special Topics: Family or Housing [Housing for the Elderly] (3-9)
HFT	3272	Senior Services Management (3)

ISS	4931	Special Topics [Aging Studies] (1-3)
ISS	4944r	Internship [Practicum in Aging Studies] (3-6)
NUR	4284	Dynamics of Aging (3)
PET	3932r	Special Topics In Wellness and Exercise Science [Physical Dimensions of Aging] (3-6)
PSB	4641	Pain and Suffering (3)
PSY	4930r	Special Topics In Psychology [Successful Aging] (3)
RCS	4930r	Special Topics in Rehabilitation Counseling [Social Psychology of Aging] (1-4)
REL	3191	Death and Dying (3)
SOW	4645	Aging and Old Age: Social Work with the Aged (3)
SOW	4935r	Seminar in Social Work: Selected Topics [Aging] (3)
SPA	4411	Acquired Language Disorders (3)
SYP	3730	Aging and The Life Course (3)
URP	4523	Introduction to Health Planning (3)

Other opportunities for concentrated study in aging are available by earning a minor in aging in conjunction with another discipline. The institute also offers a Master's Degree in Aging Studies as well as a graduate Certificate in Aging Studies. For details, please refer to the *Graduate Bulletin*.

Program in AMERICAN AND FLORIDA STUDIES

COLLEGE OF ARTS AND SCIENCES

Director: John Fenstermaker (English); *Advisory Committee:* Bearor (Art History), Green (History), Jumonville (History), Lhamon (English), Moore (English), Rowe (English)

American studies is concerned with the culture of the United States studied from cross-disciplinary interdepartmental perspectives. The aim of the program is toward enlarged dimensions of awareness rather than toward further refinements of disciplinary analysis. A wide variety of courses is available from many departments. The flexibility of the program gives students an opportunity to develop a curriculum commensurate with their own interests and needs.

In addition, students may focus on Florida Studies, that is, on "Florida in the Americas." The same cross-disciplinary mode of study is

utilized to interpret the "Florida experience," in the context of the way(s) Florida has been perceived by Americans, past and present.

Requirements

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*.

Major

Thirty (30) semester hours distributed in a way satisfactory to both the student and the director, not including courses used to satisfy liberal studies requirements. All students are required to take at least nine (9) semester hours in American studies courses, including a special topics course, and at least three (3) semester hours in each of the areas listed below. No more than twelve (12) semester hours in any one area may be counted toward the major. The areas of study are literature, history, fine arts, and social sciences. Any course in the University which deals primarily with the United States may be included under one of these ar-

eas. Interested students may obtain a list of courses generally used in the program from the director. In addition students must complete an approved minor — at least twelve (12) hours in an approved minor field.

Honors in the Major

American studies offers a program in honors in the major to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Graduate Certificate Program

The program now offers a graduate certificate in American and Florida Studies. This certificate gives graduate students at both the MA and PhD levels in other disciplines, particularly those in the American Studies core areas, an opportunity through interdisciplinary study to develop a deeper understanding of the

pluralistic society they inhabit and to learn new ways to conceptualize social issues, culture, and art throughout American history.

The certificate program in American and Florida studies requires twelve (12) semester hours in at least three disciplines outside the student's department and must include at least one AMS seminar. Ordinarily, students will select courses from a recommended list available from the American and Florida Studies office. Each student's final program of study must be approved by the director.

Minor

The minor in American and Florida Studies offers an excellent complement to a major in humanities, the social sciences, and fine arts. The minor requires AMS 3310, "Changing Concepts of the American Character," and AMS 3810, "The Life of the Mind in America," plus six (6) semester hours approved by the director in history, literature, fine arts, or social sciences.

Definition of Prefix

AMS — American and Florida Studies

Undergraduate Courses

AMS 1363r. Issues in American Civilization: The University (1–2). (S/U grade only.)

AMS 3310. Changing Concepts of the American Character (3). A study of the attitudes of prominent American authors toward the society in which they lived.

AMS 3364. The Liberal Arts Tradition (2). A survey of the origins, values, and rationale for the liberal arts. Students who receive credit for AMS 1363 are ineligible for enrollment.

AMS 3810. The Life of the Mind in America (3). This course addresses topics in American intellectual history.

AMS 3932r. Lecture Series in American Problems (3–6). May be repeated to a maximum of six (6) semester hours.

AMS 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

AMS 4905r. Directed Individual Study (1–3). May be repeated to a maximum of eight (8) semester hours.

AMS 4913r. Honors Work (3–6). May be repeated to a maximum of six (6) semester hours.

AMS 4935. Senior Seminar (3).

AMS 4941r. Internship in an Approved American Studies Field (3–9). (S/U grade only.) Must have completed one full semester of major courses [twelve (12) credit hours or more] before registering for internship. May be repeated to a maximum of nine (9) semester hours.

Graduate Courses

AMS 5809r. Seminar in American Culture (3).

AMS 5815r. Seminar in American Thought (3).

AMS 5908r. Directed Individual Study (1–3).

AMS 5915r. Supervised Research (1–3). (S/U grade only.)

AMS 5940r. Supervised Teaching (1–3). (S/U grade only.)

AMS 5942r. Internship in an Approved American Studies Field (3–9). (S/U grade only.)

For listings relating to graduate course work for thesis, dissertation, and masters examination and defense, consult the *Graduate Bulletin*.

Department of ANTHROPOLOGY

COLLEGE OF ARTS AND SCIENCES

Chair: Glen H. Doran; *Professors:* Doran, Falk, Grindal, Pohl; *Associate Professors:* Ho, Josseland, Marrinan, Peters; *Assistant Professors:* Faught, Parkinson, Uzendoski, Ward; *Professor Emeritus:* Paredesi; *Courtesy Professors:* Anderson, Fischer, Keel, McEwan, Purdum, G. Smith, R. Smith; *Adjunct Professors:* Gardner, Harmon, Hopkins, Shanafelt, Snadjr

Anthropology is the science of humankind in all its diversity. It includes the study of human origins, physical characteristics, adaptations, distributions, customs, artifacts, languages, beliefs, and practices. Anthropologists divide their work among four subdisciplines. Cultural anthropologists live among and study contemporary peoples, their social institutions, and the creative products of their social lives. Archaeologists study material objects left behind by prehistoric and historic peoples and document stability and change in human behavior over long time periods. Physical (biological) anthropologists study living primates; the fossil record of primates and early humans; comparative anatomy and osteology; forensic anthropology; and the evolutionary and biological bases for cognition and culture in humans. Anthropological linguists study the evolution and structure of human language and the relationships between language, culture, and society.

The department offers work leading to the baccalaureate, the master of arts (MA), the master of science (MS), and the PhD.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

Two introductory courses for six (6) semester hours in anthropology (ANT prefix). See the department for details.

Requirements for a Major in Anthropology

Please review all college-wide requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*.

Major

Thirty (30) semester hours in the department are required including the following: ANT 2410, 2511, 3101, 3610, and fifteen (15) semester hours of work at the 4000 level. No more than three (3) semester hours of credit in field-work courses and no hours of directed individual study (DIS) or satisfactory/unsatisfactory (S/U) credits may be used to meet the specific requirement of fifteen (15) semester hours of work at the 4000 level, except upon approval of a petition to the department chair. LIN 4030 and 4040 may be counted as equivalents of courses designated as ANT for purposes of completing the undergraduate major requirement of thirty (30) semester hours in the department, but no more than three (3) semester hours of LIN courses will be counted toward completion of the specific requirement of fifteen (15) semester hours of work at the 4000 level. No anthropology course for which the student receives a grade of "D" or lower may be counted toward satisfaction of the major requirements.

Minor

Twelve (12) semester hours in a related field.

Honors

The Department of Anthropology offers a program in honors in the major to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" chapter of this *General Bulletin*.

Requirements for a Minor in Anthropology

Twelve (12) semester hours to include either ANT 2410 or 2511.

Definition of Prefixes

ANT — Anthropology
LIN — Linguistics

Undergraduate Courses

ANT 2138. World's Greatest Shipwrecks (3). This course provides an introduction to the field of nautical archaeology through the excavation and exploration of ships and boats from 5000 years ago in ancient Egypt to the U.S.S. *Yorktown* of WW II. From *Titanic* to treasure ships, this global survey explores economy, technology, and society.

ANT 2410. Introduction to Cultural Anthropology (3). Origin and development of human lifeways with emphasis on non-Western societies. A comparative perspective is used to examine technology, language, social organization, religion, and values. Attention is also given to contemporary world problems.

ANT 2511. Introduction to Physical Anthropology and Prehistory (3). This course introduces theory and principles of genetically based evolution. It reviews fossil evidence for human evolution and competing ideas about the specific pathways to modern humans. It emphasizes the genetic unity of humankind and the universal features that underlie individual and cultural diversity.

ANT 3101. Fundamentals of Archaeology (3). This fundamentals course provides an overview of objectives, field strategies, basics of laboratory analysis, interpretative approaches to the record and what the threats to archaeological/cultural resources are. This includes a brief overview of the history of archaeology and the changes in strategies used to examine the prehistoric and historic archaeological records. An emphasis is placed upon developing an understanding of the fundamental objectives and methodologies used in modern anthropological archaeology.

ANT 3141. World Prehistory (3). This course outlines the major events in human cultural and social evolution and includes a brief presentation of general archaeological methods and objectives. The course focuses on the evolution of civilization in the Middle East, Europe, China, Africa, and the Americas.

ANT 3212. Peoples of the World (3). A survey of the world's known cultures by major geographic regions. The purpose is to familiarize the student with the range and variety of the human condition and at the same time instill in the student a respect and admiration for mankind. Lectures, readings, and visual materials are utilized.

ANT 3231. Introduction to Folklore (3). This course introduces students to the basic concepts, functions, theories, and methods of folklore. Major genres of folklore, such as myth, legends, folktales, proverbs, games, dance, drama, riddles, and folk arts and crafts will be given detailed analysis by using examples from cultures around the world.

ANT 3610. Language and Culture (3). An introduction to and examination of human language, its relation to perception and cognition, and its role in social interaction. This will include verbal as well as nonverbal communication modes, their variety and complexity, the evolution of language, and language change.

ANT 4034. History of Anthropology (3). This is a survey course for majors which reviews the development of the central ideas that have shaped the emergence of anthropology as a science. The approach is critical and objective, and while the presentation is somewhat chronological, the emphasis is to evaluate the scope and limitations of modern theories.

ANT 4082. Technology and Social Change (3). This course introduces students to anthropological approaches to the study of technology. The goal is to explore the systemic relationship between technological developments and economics, politics, and social structure both in the past and present.

ANT 4125. Paleonutrition (3). Methods in reconstruction of past economic behavior/diet. Includes lab work in identification/analysis of faunal remains.

ANT 4131. Techniques of Underwater Site Research (6). Prerequisite: PEN 1136. A classroom and field introduction to the techniques of underwater research in marine sciences, with a focus on archaeology.

ANT 4133. Introduction to Underwater Archaeology (3). A survey of the history, theory, methods, and problems of underwater archaeology, with attention given to the types of investigations and environments in which underwater archaeology is conducted and to the field's particular contributions to anthropology.

ANT 4134. Nautical Archaeology of the Americas (3). Students will study human interaction with bodies of water, particularly in the maritime environment. Illustrated presentations, readings, and discussions focus on a variety of cultures and watercraft built or used in the Americas.

ANT 4135. Nautical Archaeology: Global View (3). In this course, students will study human interaction with bodies of water, particularly in the maritime environment. Illustrated presentations, readings, and discussions focus on variety of cultures and watercraft from Asia, Australia, the Mediterranean and Europe.

ANT 4142. European Prehistory (3). This course introduces students to the archaeology of the European continent from its initial colonization by early hominids during the Lower Paleolithic through the archaic state civilizations of the Aegean Bronze Age.

ANT 4153. North American Archaeology (3). This course examines the prehistory of North America from the earliest big-game hunters who exploited extinct megafauna to the societies existing at the time of historic contact. Regional variation and continuity in subsistence and settlement patterns and material culture are examined.

ANT 4163. Mesoamerican Archaeology (3). Investigates the development of high civilization in ancient Mesoamerica. Evidence is drawn from archaeology, art, architecture, ethnohistory, and ethnography.

ANT 4166r. Regional Civilizations in Ancient Mesoamerica (3). Each topic focuses on a regional civilization of ancient Mesoamerica (such as Maya, Olmec, or Mixtec). Aspects of prehistoric society covered include subsistence systems, trade, social and political organizations, ideology, calendrics and astronomy, language and writing, artifacts, architecture, sculpture and painting. Format is seminar with presentations, research reports, and discussion. May be repeated to a maximum of nine (9) semester hours.

ANT 4167. Maya Hieroglyphic Writing (3). This course presents the principles of classic Maya hieroglyphic writing, its history, and methods of its decipherment. Classic Maya mathematics are also introduced, as are calendrics and astronomy, Maya grammar and text structure, and a survey of monumental texts from selected sites.

ANT 4227r. Topics in PreColumbian Art and Iconography (3). This course focuses on major PreColumbian art traditions, as evidenced in the material culture. Attention is paid to cosmology and the socio-cultural context of art in each society. Topics include classic Maya art and iconography; Mixtec codices; Central Mexican art and iconography. May be repeated, when topics vary, to a maximum of nine (9) semester hours.

ANT 4241. Anthropology of Religion (3). The cultural conceptions of supernatural reality, with emphasis on comparative understanding of myth and ritual, the religious experience, and religious evolution and revitalization movements.

ANT 4242. Symbol and Ritual (3). This course is an introduction to symbolic approaches in anthropology and the study of ritual. It critically analyzes conceptual mechanisms that anthropologists use in analyzing symbolic activity. Material comes from various parts of the world.

ANT 4269. Economic and Ecological Approaches in Anthropology (3). Seminar on current literature and theories in ecological and economic anthropology, including debate between cultural ecologists and structural Marxists, between archaeology and related disciplines (landscape geography, social anthropology). Selected topics related to consumption, commodities, exchange, and gender. Controversies over foragers and egalitarian societies.

ANT 4274. Political Anthropology (3). Examines political behavior and symbolism from a cross-cultural perspective. Areas of study include political theory, political ritual, conflict and conflict resolution, gender politics, evolution of political forms, and human rights.

ANT 4302. Sex Roles in Cross-Cultural Perspective (3). Sex roles in anthropological perspective with emphasis on data from archaeology and ethnology. Special emphasis on the interpretation of sex roles by anthropologists in the field.

ANT 4309. Conquest of the Americas (3). This course examines the conquest of the Americas. It explores the arts of domination, power, and resistance and specific historical encounters where such arts are employed.

ANT 4312. North American Ethnology (3). This course acquaints students with the variety of aboriginal North American cultures and languages (north of Mexico), anthropological problems in the ethnology of native North America, historic trends in native North American socio-cultural change, and recent developments among native North American peoples.

ANT 4323. Peoples and Cultures of Mexico and Central America (3). Provides an overview of Mexico and Central America and the multiplicity of cultural and linguistic groups within the developing modern nations from an anthropological viewpoint. Discusses cultural values and the problems of reconciling modern society with traditional peasant and indigenous ethnic groups, as well as institutions such as kinship and the family; technology, work, and ecological adaptations; social organization, political integration, religion, and ceremonial life.

ANT 4337. Peoples and Cultures of Amazonia (3). This course explores problems of similarity, difference, divinity and nature/culture with Amazonia. It addresses the conceptual problem of where one culture ends and another begins with regard to Amazonian peoples. Topics include regional networks of trade, similar knowledge systems, shamanism, rainforest ecosystems and social organization.

ANT 4352. Peoples and Cultures of Africa (3). A survey of African peoples and cultures, emphasizing the sub-Saharan region. Topics to be studied include geography, prehistory, history, religion, political economy, kinship, gender, and marriage. Contemporary issues in the anthropology of Africa.

ANT 4362. Peoples and Cultures of Southeast Asia (3). This course provides a brief survey and analysis of the configuration of peoples and cultures of Southeast Asia, with special attention to its ethnic diversity and unity, as well as the characteristics of each culture in its social and physical environment.

ANT 4363. Japanese Society and Culture (3). This course is intended to be an anthropological introduction to Japan. It aims to clarify the origins of Japanese culture and people, to interpret its cultural history from the earliest times to the present, and to account for the relationship among the components of culture such as ideology, social structure, personality formation, and economic development.

ANT 4364. Chinese Society and Culture (3). This course provides a general survey of the culture and social structure of China. Some of the topics to be emphasized include the origin of the Chinese culture, family and social organization, religion, ideology, and tradition vs. modernization.

ANT 4422. Kinship and Social Organization (3). This course surveys anthropological thought and practice (theory and methods) with respect to kinship and related forms of social organization, including the classification and analysis of kinship systems and associated terminology, patterns of marriage and residence, descent theory and alliance theory, and the role of kinship in different social systems.

ANT 4465. Introduction to Medical Anthropology (3). This course is an investigation of different medical systems and their practitioners, the ecology of health, illness, human adaptation, nutrition, and the life cycle.

ANT 4525. Human Osteology (3). Prerequisite: ANT 2511 or permission of the instructor. This course is designed to acquaint the student with each of the bones of the normal adult human skeleton. It is particularly appropriate for those students interested in archaeology and physical anthropology. Each bone is examined, followed by a review of abnormal variations. The uses of anthropometric instruments are demonstrated as are the methods of estimating age, sex, and racial origin.

ANT 4552. Primate Behavior (3). Prerequisite: ANT 2511 or permission of the instructor. Introduces the substantial scholarly literature on the behavior and ecology of free-ranging prosimians, monkeys and apes. Anthropological applications of recent findings will be emphasized.

ANT 4553. The Great Apes (3). Prerequisite: ANT 2511 or permission of the instructor. Focuses on the behavior and ecology of the large-bodied, non-human hominoids: chimpanzees, bonobos, gorillas and orangutans. Introduces the complexities involved in using this evidence to draw conclusions about human evolution.

ANT 4563. The Anthropology of Infancy (3). Prerequisite: ANT 2511 or permission of the instructor. An overview of human nature during this early phase of the life cycle. Uses data and theory from biological anthropology, primate ethology, evolutionary psychology and sociocultural anthropology to provide a nontraditional perspective on human development and its interface with the caretaking behavior of adults.

ANT 4586. Human Evolution (3). This course emphasizes a close examination of the fossil record for human evolution. It builds on basic principles and ideas presented in ANT 2511.

ANT 4640. Sociolinguistics (3). This course provides students with an understanding of the role language plays in society as a means of communication and as a social dialectic, as well as a primary vehicle of enculturation and acculturation. Topics include the methodology and theoretical foundations of sociolinguistics, linguistic variation in a social context, social and geographical dialects, bi- and multilingualism, and literacy and language planning, as featured in case studies from around the world.

ANT 4824. Anthropological Fieldwork: Archaeology (9). Prerequisite: ANT 3101. This course trains students in the principles and methods of archaeological fieldwork, including research strategy development, recovery, recording and controls, sampling strategy, mapping, surveying, laboratory analysis, quantification, and report preparation. This is an intern-type course, sometimes requiring the student to live off-campus.

ANT 4835. Anthropological Fieldwork: Underwater Archaeology (6). Prerequisite: ANT 4824. An introduction to the specialized methods and concepts of underwater archaeology. Successful completion of a certified divers program will be required of all students who wish to enter underwater environments. The course consists of both lecture and field sessions with reading assignments in selected texts. Specialists in various related disciplines will give presentations to the class as the course progresses. The field sessions will be at selected sites in the state of Florida and adjoining areas, and will involve diving activities at prehistoric Indian sites and/or shipwreck locations in Florida waters.

ANT 4907r. Directed Independent Study (1–3). May be repeated to a maximum of twelve (12) semester hours.

ANT 4914r. Honors Work (3). May be repeated to a maximum of six (6) semester hours.

ANT 4930r. Special Topics in Anthropology (1–3). Specialized subjects and topics in anthropology. Topics may vary. May be repeated to a maximum of nine (9) semester hours when topics vary. May be repeated in the same semester.

LIN 4030. Introduction to Historical Linguistics (3).

LIN 4040. Introduction to Descriptive Linguistics (3).

Graduate Courses

ANG 5001. Proseminar (1). (S/U grade only.)

ANG 5091. Seminar in Research Methods (3).

ANG 5115. Seminar in Archaeological Method and Theory (3).

ANG 5117. Core Seminar in Archaeology (3).

ANG 5127. Material Culture (3).

ANG 5134. Nautical Archaeology of the Americas (3).

ANG 5136. Ship Construction: Dugouts to Steamboats (3)

ANG 5137. Nautical Archaeology: Global View (3).

Department of ART

SCHOOL OF VISUAL ARTS AND DANCE

Chair: Roald Nasgaard; *Professors:* Blakely, Burggraf, Fichter, Nasgaard, Roche, Williams; *Associate Professors:* Bocz, Bowens, Garcia-Roig, Hartwell, Hook, Lindbloom, Messersmith, Odita, Rubini, Rutkovsky; *Assistant Professors:* Groeniger, Roberson; *Assistant in Art:* Wyatt-Magalian; *Professors Emeriti:* Bell, Wamsley

The Department of Art offers opportunities for creative development and expression, providing instruction in the skills necessary to artistic creation and guiding students to an understanding of contemporary issues in the visual arts. In conjunction with these pursuits, the department benefits from the University Fine Arts Gallery and Museum for student and faculty exhibitions. Additionally, the department serves as a resource to the rest of the University, providing foundation courses in studio skills and studio methods.

The Department of Art offers work leading to the bachelor of arts (BA), bachelor of science (BS), and bachelor of fine arts (BFA) degrees in studio art, and graphic design. Graduates may pursue studies leading to the master of fine arts (MFA) degree in studio art. Course selection encompasses history, theory, and practice. Major studies may include design, drawing, painting, sculpture, printmaking, ceramics, photography, electronic imaging, and video. Depending upon personal development, students may choose to work in a variety of media or to concentrate in an area of interest. Each degree program mandates specific entry requirements, a certain sequence of courses, and graduation requirements. Information on each program beyond that explained in this *General Bulletin* is available through the academic adviser, Department of Art.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common prerequisites or approved substitutions necessary for this degree program:

Studio/Fine Art

1. ART 1201;
2. ART 1202;
3. ART 1300;
4. ART 1301;
5. ARH 2050;
6. ARH 2051;
7. Six to nine (6–9) semester hours of 2000 level introductory media courses (ART prefix).

Graphic Design

1. ART 1300;
2. ART 1201;
3. PGY 1401;
4. ARH 2050 or ARH 2051.

Undergraduate Programs

The Core Program

The Department of Art requires that students receive a sound foundation in basic visualization and conceptualization skills and in the fundamentals of studio theory and practice. To this end, students must complete the core program, which consists of a sequence of basic drawing, studio methods, and specific media courses. The twenty-five (25) semester hours in media courses include beginning classes in painting, photography, printmaking, and ceramics or sculpture. Students are encouraged to complete their core-level courses, particularly in drawing and studio methods, by the end of the sophomore year.

The Bachelor of Arts Degree

The bachelor of arts (BA) degree is a fundamental liberal arts program totaling one hundred and six (106) semester hours. Requirements are as follows: liberal studies, thirty-six (36) semester hours; completion of the core program, twenty-five (25) semester hours; art history, nine (9) semester hours; additional studio, fifteen (15) semester hours; a modern language through the 2000-level (twelve [12] semester hours suggested); additional humanities, nine (9) semester hours.

The Bachelor of Science Degree

The bachelor of science (BS) program is ninety-seven (97) semester hours and is similar to the bachelor of arts, but there is a shift in emphasis from humanistic studies to extended technical studies in art. This may include, at the option of the student, a medium concentration. Major requirements are as follows: liberal studies, thirty-six (36) semester hours; the core program, twenty-five (25) semester hours; art history, nine

(9) semester hours; additional studio, fifteen (15) semester hours; and extended technical course work, twelve (12) semester hours.

Concentrations for the BA and BS Degrees

After completing the core, students majoring in Studio Art for the BA and BS degrees would take courses selected from the studio art media concentration course lists. Students who complete a minimum of twelve (12) semester hours (or fifteen [15] semester hours in graphic design) with a concentration in a media area, would have that area listed as their media concentration on their record by the Department of Art. For example, a degree under this system might be — BS in Studio Art: Concentration in Painting. Art majors who do not complete a concentration may choose an interdisciplinary concentration with permission from the department chair. Students should consult the Department of Art for specific information concerning the various concentrations.

The Bachelor of Fine Arts Degree in Studio Art

The bachelor of fine arts (BFA) limited access program is a one hundred-eighteen (118) semester-hour program with the most intensive work occurring in the final five semesters. It differs from the BA and BS degrees in that it provides the graduate with a more intensive background in professional skills and theoretical knowledge. The BFA degree seeks to develop in graduates an informed personal vision, a high level of competence in artmaking, and the ability to make sound artistic decisions. It is a proficiency-based program, characterized by continuous assessment. Upon completion of the twenty-five (25) semester hours in the core program, application for the BFA degree is by portfolio review of the faculty. The process includes an individual review of the student's portfolio by two faculty who may recommend that the work be submitted to the entire faculty for consideration. Course work includes thirty-six (36) semester hours of liberal studies, forty-five (45) semester hours of studio art courses and twelve (12) semester hours of art history. An important aspect of the program is that students are taught to make their own decisions with regard to media selection or concentration. Students enrolled in the BFA program are exempt from the language requirement, but they are required to maintain a 3.0 grade point average (GPA) in art and art history courses and to fulfill the additional requirements and responsibilities of this program, culminating in the advancement review and graduation show. The BFA adviser can provide additional guidance with regard to entrance and degree requirements.

The Bachelor of Fine Arts Degree in Graphic Design

The bachelor of fine arts (BFA) in graphic design is a limited access program for currently enrolled students at The Florida State University that requires one hundred eighteen (118) semester hours of coursework, with the most intensive work occurring during the final five semesters. It provides the graduate with a more intensive background in professional skills and theoretical knowledge in design and electronic media. Application is made when the student is at or near the end of the core course sequence and has completed GRA 2190C. The process includes an individual review of the student's portfolio by two faculty, who may recommend that the work be submitted to the entire faculty for consideration. Studio space is provided in the Design Shop in the *Fine Arts Building, room 303*.

Coursework includes thirty-six (36) semester hours of liberal studies; twenty-five (25) semester hours in the core program; twelve (12) semester hours in art history including GRA 2190C; fifteen (15) semester hours in graphic design/electronic media; and thirty (30) semester hours in additional studio courses in graphic design, electronic media or related studio art subjects. Students accepted into the BFA program in graphic design may choose courses from other areas in art, such as photography, printmaking, or sculpture, to complete their major; however, to receive the BFA in graphic design, they must have a minimum of fifteen (15) semester hours in graphic design/electronic media courses including GRA 4108, Contemporary Design Seminar.

GRA 2190C	Graphic Design I (3). (prerequisite)
GRA 3107	Design History and Theory (3).
GRA 3112C	Graphic Design II - Typography (3).
GRA 4108	Contemporary Design Seminar (3).
ART 4295Cr	Advanced Workshop - Design Issues (3).
ART 4926C	Media Workshop - Introduction to Web Design (3).
ART 4928C	Advanced Workshop - Design Seminar (3).

Requirements for Students Minor in Art

A minor in art requires eighteen (18) semester hours, which may include ART 1300C Drawing I (for nonmajors), ART 2010C Photography for Non-Art Majors, ART 2003C Survey of Studio Art Practices and ARH 2521C Survey in African American Art and Aesthetics. A student's minor program should be determined through consultation with the appropriate departmental adviser.

Graduate Program

The Master of Fine Arts Degree

The master of fine arts (MFA) in studio art is a two-year residency program with a minimum requirement of sixty (60) semester hours at the graduate level. In addition to University admission requirements, the department requires that all applicants submit a portfolio of slides or original work for review. The program includes a minimum of thirty-two (32) semester hours in studio art, eleven (11) semester hours of electives within or outside the department, a minimum of three courses (nine [9] semester hours) in art history at the graduate level, and a minimum of eight (8) semester hours toward preparation of the graduate exhibition and thesis.

For information regarding the MFA degree, please contact the academic adviser, Department of Art, and refer to the *Graduate Bulletin*.

Student Safety

Students in each course will be instructed in safe practice with both tools and materials, and will be responsible for following safety regulations.

ARH	—	Art History
ART	—	Art
GRA	—	Graphic Arts
PGY	—	Photography

Undergraduate Courses

Core Program

Note: the core program is required for all art majors. It includes a sequence of three drawing courses; one studio methods course; one beginning course in painting, photography, printmaking, and either a sculpture or craft design course; a seminar; and a tool safety course (twenty-five [25] semester hours total). For course descriptions and prerequisites, see Studio Courses below.

ART 1201C.	Methods and Concepts I (3).
ART 1300C.	Drawing I (3).
ART 2006C.	Artists Tools and Equipment (1). (S/U grade only.)
ART 2301C.	Drawing II (3).
ART 2330Cr.	Life Drawing (3).
ART 2500C.	Painting I (3).
PGY 2401C.	Photography I (3).

Note: students must choose one course from the printmaking series. Please see course descriptions and prerequisites under Studio Courses below.

ART 2400C.	Fundamentals of Printmaking: Relief (3).
ART 2430C.	Fundamentals of Printmaking: Silkscreen (3).
ART 2441C.	Fundamentals of Printmaking: Etching (3).
ART 3420C.	Fundamentals of Printmaking: Lithography (3).

Note: students must choose one course from craft/design or sculpture. Please see course descriptions and prerequisites under Studio Courses below.

ART 2701C.	Sculpture I (3).
ART 2752C.	Wheel Throwing (3).
ART 3764C.	Beginning Ceramics (3).

Correlating Courses

ART 1300C. Drawing I (for Non-Art Majors) (3). (See description under Studio Courses below.)

ART 2003C. Survey of Studio Art Practices (3). Demonstration, discussions, and slide/film presentations explore the way artists work in a broad range of media. Emphasis on visual perception and basic art making.

ART 2010C. Photography for Non-Art Majors (3). An introduction to camera operation and image making, with discussion of contemporary and historical work. Emphasis on 35mm slide projects rather than printing techniques.

ART 3949r. Cooperative Education Work Experience (0). (S/U grade only.) Internships in a variety of work situations are available. These internships are selected by the faculty to broaden the students skills and flexibility as artists.

Studio Courses

ARH 2521C. Survey in African-American Art (3). This course surveys special topics in African-American art and aesthetics. We will explore power dynamics, social protest, artistic accommodation, criticism, perception, content and motivation as historical and contemporary influences on and in African-American art.

ART 1201C. Methods and Concepts I (3). A foundation course in basic visual elements, with emphasis on two-dimensional methods and color theory. May be taken simultaneously with ART 1300C.

ART 1300C. Drawing I (3). Creative expression through a variety of drawing media. Emphasis is on black and white techniques and pencil, ink, and soft drawing media.

ART 2301C. Drawing II (3). Prerequisites: ART 1300C, 1201C. This course builds on the technical and conceptual skills learned in Drawing I. Artistic expression and communication through drawing in both black and white and color media.

ART 2330Cr. Life Drawing (3). Prerequisites: ART 1201C, 1300C, 2301C. The development of technical skills and self-expression through drawing the nude and clothed figure; course begins with anatomy studies, progresses to conceptualization of human form. May be repeated to a maximum of nine (9) semester hours.

ART 2013r. Contemporary Art Seminar (1). (S/U grade only.) This is a lecture and discussion course conducted by studio faculty. It provides students with insight into the current work by resident faculty and visiting artists. May be repeated to a maximum of three (3) semester hours.

ART 2006C. Artists Tools and Equipment (1). (S/U grade only.) This course is an introduction to safety practices, tools, materials, and processes used in making art. Completion or exemption of the course is required for admission to other classes and toolroom facilities.

ART 3420C. Fundamentals of Printmaking: Lithography (3). Prerequisites: ART 1201C, 1300C. An introduction to the basic lithographic techniques of graining, drawing, etching, and printing.

ART 2400C. Fundamentals of Printmaking: Relief (3). Prerequisites: ART 1201C, 1300C. An introduction to relief printing in wood block, linoleum block, and collagraph.

ART 2430C. Fundamentals of Printmaking: Silkscreen (3). Prerequisites: ART 1201C, 1300C. An introduction to the basic techniques of serigraphy.

ART 2441C. Fundamentals of Printmaking: Etching (3). Prerequisites: ART 1201C, 1300C. An introduction to intaglio printing in black and white through etching with nitric acid on zinc plates. Techniques include line etching, aquatint, cut plate and embossing, and softground.

ART 3764C. Beginning Ceramics (3). Prerequisites: ART 1201C, 1300C. Handbuilding processes and fundamental glazing techniques. Emphasis is on the development of a high degree of technical proficiency and a keen sense of form in ceramic mediums.

ART 2130C. Beginning Fiber/Fabric Design (3). Prerequisites: ART 1201C, 1300C. This is an introductory survey of fabric design. Traditional and contemporary applications of fabric are discussed. Nonwoven techniques, resist dyeing, and basic weaving are explored.

GRA 2190C. Graphic Design I/Introduction (3). Prerequisites: ART 1201C, 1300C, 2301C. A continuation of the basic concepts introduced in methods and concepts I and II as they apply to graphic design. Iconography, signs and symbols, and two-dimensional and three-dimensional compositions will be used as exploratory design problems. These problems extend the methodology and conceptualizing/problem-solving skills of design.

GRA 3107. Design History and Theory (3). Prerequisites: ART 1201C, 1300C, 2003C, 2006C, 2301C, 2330C. Corequisites: GRA 2190C. This course examines the historical development of design styles and techniques and their influences on contemporary culture.

GRA 3112C. Graphic Design II/Typography (3). Prerequisite: GRA 2190C. This course introduces students to typography and how type works as pure design creating form, value, direction, etc., as letter forms or marks, as well as on a communication level as a message carrier.

GRA 3193C. Graphic Design III/Production (3). Prerequisite: GRA 2190C; Prerequisite or Corequisite: GRA 3112C. Exploration of the design process through solving specific, existing design problems or fulfilling specific design needs. The process takes students from conceptualizing explorations to concept refinement to final implementation.

GRA 4108. Contemporary Design Seminar (3). Prerequisite: admission to BFA program. This course is intended to develop knowledge of the historical and social forces that have shaped and continue to shape art and design in contemporary culture.

ART 2500C. Painting I (3). Prerequisites: ART 1201C, 1300C. An introduction to personal expression in painting medium; emphasizes color, composition, and painting techniques through historical examples and technical demonstrations.

ART 2501C. Painting II (3). Prerequisite: ART 2510C. Development of skills/methods of collecting and considering images, along with in-depth study of painting techniques. Discussion of related contemporary and historical examples.

ART 3542C. Watercolor (3). Prerequisites: ART 1201C, 1300C. An introduction to transparent watercolor techniques through lectures and visual aids which demonstrate its possibilities.

ART 2701C. Sculpture I (3). Prerequisites: ART 1201C, 1300C. Introduction to basic sculptural processes of fabrication, carving, modeling, and casting. Emphasis on developing ideas through analytical responses to assignments.

ART 3710C. Sculpture II (3). Prerequisite: ART 2701C. Allows continued experience in more complex three-dimensional techniques; emphasis on individual projects and conceptual approach.

ART 3930r. Special Topics in Art (1–3). (S/U grade only.) Faculty develops topics of importance to students interests and needs. May be repeated to a maximum of three (3) semester hours.

ART 2752Cr. Wheel Throwing (3). This is a first course in which the student learns to throw on the potter's wheel. From the basic cylinder, the student learns to form a pitcher, covered jar, and other functional shapes. Some alteration of thrown forms is also covered. Experience with clay and glazing is helpful but not required. This course may be repeated to a maximum of nine (9) semester hours, with requirements increasing in difficulty each time.

ART 4800. Criticism Seminar (3). Aspects of contemporary art scene, galleries, and markets. Stress on developing portfolio/resume, critical attitude, and skills necessary for presenting work.

ART 4905r. Directed Individual Study (3–9). May be repeated to a maximum of nine (9) semester hours.

ART 4943r. Internship in Creative Art (1–12). (S/U grade only.) Prerequisites: Core program, B average in all related courses. Preference given to seniors. Internships in a variety of work situations. Must be approved by department chair. May be repeated to a maximum of twelve (12) semester hours.

ART 4981r. Honors Work (3). May be repeated to a maximum of twelve (12) semester hours.

PGY 2110C. Color Photography (3). Prerequisites: PGY 2401C and 3410C are recommended. Introduction to skills and understanding necessary to develop and print color materials. Emphasis on self-expression, historical and contemporary examples.

PGY 2401C. Photography I (3). Prerequisite: ART 1201C or ART 2010C. Photography as a creative means of expression. 35mm technology, fine black and white printmaking.

PGY 3410C. Photography II (3). Prerequisite: PGY 2401C. Photography as a fine art. Students develop a series of portfolios of images based on their personal vision and understanding of the medium.

Media Workshops

Note: the media workshops allow students to pursue intensive technical studies in one specific medium under the appropriate instructor. Workshops are divided into six basic areas, each of which serves as an extension of intermediate courses in corresponding media. Each may be repeated for a maximum of nine (9) semester hours.

ART 4920Cr. Media Workshop: Fibers (3). Prerequisite: ART 2701C or instructor permission. Includes three-dimensional and mixed media approaches to the use of soft materials in art making. May be repeated to a maximum of nine (9) semester hours.

ART 4921Cr. Media Workshop: Painting (3). Prerequisite: ART 2510C. Independent studies under painting instructors; emphasis on competence in medium and development of individual solutions to problems. May be repeated to a maximum of nine (9) semester hours.

ART 4922Cr. Media Workshop: Sculpture (3). Prerequisites: ART 2701C; clay sculpture workshop requires ART 3110C. Intensive studies under sculpture instructors; stresses competence in following areas: casting in nonfer-

rous metals, steel fabrication techniques, woodworking, and landscape sculpture planning and production, and clay sculpture workshop. May be repeated to a maximum of nine (9) semester hours.

ART 4923Cr. Media Workshop: Printmaking (3). Prerequisites: Appropriate courses in fundamentals of printmaking series; photo-silkscreen and photo-lithography workshops require PGY 2401C. Advanced techniques of silkscreen, relief printing, etching, and lithography, as well as photo-silkscreen, relief printing, and papermaking, depending on appropriate instructor. May be repeated to a maximum of nine (9) semester hours.

ART 4924Cr. Media Workshop: Photography (3). Prerequisites: PGY 2401C, 3410C. Various areas of photographic study, including nonsilver and advanced silver printing techniques, offset lithography, and conceptual approaches to image making. May be repeated to a maximum of nine (9) semester hours.

ART 4925Cr. Media Workshop: Word and Image (3). Prerequisites: ART 2230C, 3232C, 3233C. Intensive studies in intermediate graphic design.

ART 4925Cr. Media Workshop: Typography (3). Prerequisites: ART 2230C, 3232C, 3233C. Intensive studies in intermediate graphic design issues dealing with typography.

ART 4925Cr. Media Workshop: Design Production and Image (3). Prerequisites: ART 2230C, 3232C, 3233C. Intensive studies in intermediate graphic design dealing with issues in image and production techniques.

ART 4926Cr. Media Workshop: Electronic Imaging (3). Prerequisite: Instructor permission. Electronic imaging, video, computer graphics, animation. May be repeated to a maximum of nine (9) semester hours.

ART 4926Cr. Media Workshop: Video/Performance (3). Prerequisite: Instructor permission. The course explores video as a new genre in art. Will involve on-camera performance dealing with psychological, political, or cultural issues.

ART 4927Cr. Media Workshop: Metals (3). Prerequisite: ART 2701C. Includes sculptural methods and metal forming in a more expansive and versatile approach. May be repeated to a maximum of nine (9) semester hours.

Advanced Workshops

Note: the advanced workshops continue the intensive level of study of the media workshops while providing students with more flexibility. Under this workshop system, a student may work with any instructor, regardless of media affiliation, in any area of study. Instructors are designated by section number. Each course may be repeated to a maximum of twenty-seven (27) semester hours.

ART 4928Cr. Advanced Workshop (3). This is a tutorial course available only to BFA and BS students. May be repeated to a maximum of twenty-seven (27) semester hours.

ART 4928Cr. Advanced Workshop: Fibers (3).

ART 4928Cr. Advanced Workshop: Painting (3).

ART 4928Cr. Advanced Workshop: Sculpture (3).

ART 4928Cr. Advanced Workshop: Printmaking (3).

ART 4928Cr. Advanced Workshop: Photography (3).

ART 4928Cr. Advanced Workshop: Graphic Design Problems (3).

ART 4928Cr. Advanced Workshop: Design Production and Image (3).

ART 4928Cr. Advanced Workshop: Electronic Imaging (3).

ART 4928Cr. Advanced Workshop: Ceramics (3).

ART 4929Cr. Advanced Workshop (3). This is a tutorial course available only to BFA and BS students. May be repeated to a maximum twenty-seven (27) semester hours.

ART 4929Cr. Advanced Workshop: Painting (3).

ART 4929Cr. Advanced Workshop: Sculpture (3).

ART 4929Cr. Advanced Workshop: Printmaking (3).

ART 4929Cr. Advanced Workshop: Photography (3).

ART 4929Cr. Advanced Workshop: Graphic Design Problems (3).

ART 4929Cr. Advanced Workshop: Design Production and Image (3).

ART 4929Cr. Advanced Workshop: Electronic Imaging (3).

ART 4929Cr. Advanced Workshop: Ceramics (3).

ART 4930Cr. Advanced Workshop (3). Critical issues in contemporary art. The course will vary each semester and will cover topics of critical significance in 20th-century contemporary art. This is a seminar course open only to BFA students. May be repeated for a maximum of twenty-seven (27) semester hours.

ART 4931r. Instruction in Advanced Technical Problems (3–6). May be repeated to a maximum of six (6) semester hours.

Art Related Courses

Note: the following University courses are designated art related and are accepted toward the BFA degree with written approval from the director of the BFA program. Other courses may be accepted with written permission from the director of the BFA program and the chair of the department. Course descriptions can be found under the individual departments in which the courses are taught.

ADV 3000. Principles of Advertising (3).

ADV 3001. Creative Strategy (3).

ENG 3110. Film Genres (3).

FIL 3503. The Contemporary Cinema (3).

HUM 3321. Multicultural Dimensions of Film and 20th-Century Culture (3).

MMC 2000. Introduction to Mass Media (3).

PHI 3800. Philosophy of the Arts (3).

RTV 3201. Media Techniques (3).

RTV 3220. Television Production (3).

Graduate Courses

ART 5810r. Seminar in Studio Problems (4).

ART 5907r. Directed Individual Study (1–4). (S/U grade only.)

ART 5934r. Contemporary Art Seminar (1). (S/U grade only.)

Graduate Workshops

ART 5927Cr. Graduate Workshop (1–4).

ART 5928Cr. Graduate Workshop (4).

ART 5929Cr. Graduate Workshop (4).

ART 5937r. Graduate Instruction in Advanced Technical Problems (4–8).

ART 5940r. Supervised Teaching (1–3). (S/U grade only.)

ART 5972r. Graduate Show and Thesis (1–8). (S/U grade only.)

Department of ART EDUCATION

SCHOOL OF VISUAL ARTS AND DANCE

Chair: Sally McRorie; *Professors:* Anderson, Dorn, McRorie; *Associate Professors:* Finnegan, Rosal, Troeger; *Visiting Assistant Professor:* Gussak

The primary mission of the undergraduate program is to prepare certified art teachers for public and private school service. A pre-art therapy option is offered in conjunction with certification. Students have the opportunity to participate in the University's Florence, London, or other international programs as part of their course of studies. Extensive in-school observation and participation are required.

The undergraduate preservice program for the education of teachers was developed around the theoretical position of comprehensive art education. The learning structure of the program is patterned on the content and inquiry structures of mature practicing professionals in studio art, art history, art criticism, and aesthetics, and is adapted to the developmental stages, cognitive styles, and special and individual needs of students.

The principle thrust of the program is to deepen the visual and cultural literacy of future art teachers and expand the fundamental base of art knowledge from which art teachers must teach. This knowledge is taught in a variety of ways using the disciplines of art and sound educational principles in order to prepare the art education student to effectively teach students in public and private school settings and participants in community arts programs.

The Department of Art Education offers programs leading to the bachelor of science (BS), bachelor of arts (BA), master of science (MS), and master of arts (MA) degrees with certification. For graduate programs, refer to the *Graduate Bulletin*.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. EDF X005;
2. EDG 2701;
3. EME 2040*;
4. Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:
 - a) A minimum of nine (9) semester hours in English, including writing, literature, and speech;

b) A minimum of nine (9) semester hours in mathematics, (MGF, MGT, MAC and STA prefixes only) excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;

c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;

d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;

e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.

5. ART X300;
6. ART X201;
7. ART X301 or ARH 3001;
8. ART X202 or ART 2201;
9. ARH X050;
10. ARH X051;
11. **Two** 2000-level studio art I courses (six [6] semester hours) with the ART prefix;
12. **Two** of the following courses: ART X510, ART X400, ART X4XX, ART X1XX, ART X110, ART X470.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social sciences requirements.

In addition to EDG 2701, the student must take six (6) additional hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Courses specified in categories 4–12 may be applied to the corresponding requirements in liberal arts and sciences noted above.

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Requirements for a Major in Art Education

Given pending legislative changes, students should consult with a departmental advisor to determine teacher certification requirements and changes in art education requirements.

Admission to the four-year program in art education and to student teaching leading to the baccalaureate degree requires a 2.5 overall grade point average (GPA) and a 3.0 in art courses. Twenty-one (21) semester hours in art and/or art history must be completed before entering ARE 3047. Each student must also be admitted to the teacher education program in the College of Education either prior to the first semester of the senior year or during the first semester of the senior year. A GPA of 3.0 in courses in art and art education is a prerequisite for student teaching (ARE 4940). All professional education course work must also be completed prior to student teaching.

The core program in teacher certification includes ARE 3047, 4355C, 4356C, 4357, 4550C, 4936, and 4940. In addition, students must take EDF 4214 and 4604 in the College of Education. Computer literacy is a state requirement for teaching, which may be satisfied within the required hours of studio course work or within the Department of Art Education. Consult an adviser for specifics. Admission to art education is in the junior year. The degree most commonly awarded is the bachelor of science (BS) with certification in art, grades K–12, although a bachelor of arts (BA) may be earned with the addition of a foreign language. The pre-art therapy option requires psychology course work beyond that described above. The required (12) semester hours may be chosen from: CLP 4143; DEP 3103, 3305, 4204; PPE 3004; PSY 2012; and from among other courses determined in consultation with an adviser. Students in the pre-art therapy track are placed in schools with special needs students for student teaching. No minor is offered in art education.

Arts and Community Practice Certificate Program

The certificate program in the arts and community practice is designed for undergraduate and graduate students who wish to develop a focused concentration on the application of the arts to community development. This is inclusive of groups and families, and addresses all stages of human development. Particular attention will be given to prevention, enrichment, and response to social concerns.

Program requirements are based on the integration of the theoretical and practical aspects of dance, art education/therapy, and community-based generalist/clinical social work. Requirements include coursework in art education/therapy, dance, and social work totaling at least twelve (12) semester hours with at least three (3) semester hours taken from each program in certificate-approved courses (see department). Students must earn a "B" average in all courses taken for the certificate. An additional requirement is the completion of a major paper or project linking theory and practice. The program of study must be approved by the department.

Students in the BS or BA program in art education must apply through the department. Students must have a minimum 3.0 GPA to be accepted into the certificate program.

Definition of Prefix

ARE — Art Education

Undergraduate Courses

ARE 3047. Foundations of Art Education (3). Prerequisite: Twenty-one (21) semester hours of studio art and/or art history. This course includes the study of theoretical and historical foundations of art education: philosophical, psychological, and sociological approaches and their influence on curriculum development at the elementary and secondary levels. Observation in the public schools is required.

ARE 3301C. Art in Early Childhood Education (3). The role of art in the education of the young child in terms of developmental trends, individual variability, methods, media, and curriculum. On-site clinical experiences required.

ARE 3313C. Art in the Elementary Schools (3). Study of significant literature and research in the field; laboratory investigation of materials, ideas, and methods currently used in elementary schools. On-site clinical experiences required.

ARE 4355C. Teaching Studio Content and Methods in Art (3). Pre- or corequisite: ARE 3047. In this course, future teachers will develop concepts, methods, and materials of studio production. They will also examine child and adolescent development and abilities in studio art and studio classroom management. Observation and participation in schools are required.

ARE 4356C. Teaching Art Criticism and Aesthetics (3). Pre- or corequisite: ARE 3047. In this course, students will develop in their understanding of the concepts which undergird art criticism and aesthetics and will develop skills in the use of methods of art criticism. Students will also examine skills, concepts, and strategies for teaching aesthetics and art criticism in elementary and secondary schools. Observation and participation in schools are required.

ARE 4357. Teaching Art History (3). Pre- or corequisite: ARE 3047. Students will develop concepts about the nature of art history, skills in doing historical research, and skills, concepts, and strategies for teaching art history at the elementary and secondary levels. Observation and participation in schools are required.

ARE 4550C. Art Therapy/Special Populations (3). Definitions of art therapy, the development of the discipline, the exploration of special populations, human relations, and the related concepts in art education and art therapy.

ARE 4790. Women, Art and Education (3). This course is designed to raise awareness of issues related to women's contributions to the art world, as shaped by formal and informal educational experiences in the arts. Students investigate historical and contemporary education/practice of women as artists and art educators, with emphasis on theoretical feminist thought and practical considerations related to women's professional and personal contributions.

ARE 4905r. Directed Individual Study (1–3). May be repeated to a maximum of nine (9) semester hours.

ARE 4930r. Special Topics in Art and Education (3). Topics vary from term to term in response to new developments in art education. May be repeated to a maximum of six (6) semester hours as topics vary.

ARE 4931. Computer Graphic Design in Education and Art (3). Introduction to computer functions. Emphasis on visual literacy through practice and adaptation of computer processes to educational and art purposes.

ARE 4936. Senior Seminar in Art Education (3). Prerequisites: ARE 3047, 4355C, 4356C, 4357. Students examine and develop curriculum in art, explore practical art classroom management and logistics strategies, and complete preparation of teaching resources to be used in student teaching and in their careers.

ARE 4940. Student Teaching in Art (1–5). (S/U grade only.) Prerequisite: ARE 4936. Clinical experience teaching art in a public school assignment.

Graduate Courses

ARE 5245. Curriculum and Programs (3).

ARE 5253. Art in Community Service (3).

ARE 5258. Museum Education (3).

ARE 5262. Administration of Art Programs (3).

ARE 5304. Art in Childhood Education (3).

ARE 5555. Advanced Art Therapy (3).

ARE 5641. Critical Analysis (3).

ARE 5665. Managing the Arts Organization (3).

ARE 5745. Research Survey (3).

ARE 5865. Arts Administration in the Public Sector (3).

ARE 5906r. Directed Individual Study (1–3).

ARE 5910r. Supervised Research (3). (S/U grade only.)

ARE 5930r. Special Topics in Art Education (1–3).

ARE 5935r. Seminar: Current and Comparative Studies in Art Education (3).

ARE 5940. Supervised Teaching (3). (S/U grade only.)

ARE 5944r. Field Laboratory Internship (1–9). (S/U grade only.)

For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the *Graduate Bulletin*.

Department of ART HISTORY

School of Visual Arts and Dance

Chair: Paula Gerson; *Professors:* Gerson, Hahn, Neuman, Teilhet-Fisk; *Associate Professors:* Bearor, Draper, Freiberg, Rose, Weingarden; *Assistant Professor:* Jordan; *Curator:* Hudson; *Professors Emeriti:* Bosch (deceased), Bucher (deceased), Mason (deceased); *Courtesy Professors:* de Grummond, Nasgaard, Palladino-Craig, Pfaff, Pullen

The Department of Art History offers programs leading to the bachelor of arts (BA), master of arts (MA), and the doctor of philosophy (PhD) in the history and criticism of art.

The faculty includes specialists in far eastern art, medieval manuscript painting, Romanesque and Gothic architecture and sculpture, Italian and Northern European Renaissance painting, sculpture, and architecture, Baroque and 18th-century art and architecture, modern architecture, 20th-century art and criticism, American art, contemporary critical theory, history of photography, African art, Oceanic art, and Native American art. The Appleton Eminent Scholar in the Arts chair is filled each year by a distinguished art historian, whose field complements those of the permanent faculty. Members of the classics faculty trained in archaeology and art history offer courses in Aegean, Greek, Etruscan, Roman and Egyptian art.

The Department of Art History is supported by a rich array of resources, including three classrooms fully equipped for multimedia presentations and a visual resource center under the direction of two full-time curators. The resource center houses a computer-searchable collection of over 350,000 slides, digital images, videos and pedagogical CDs, and maintains a series of image-study websites related to each art history course. The University library holdings in the arts number over 50,600 volumes, not including the rare book and facsimile collection and extensive holdings in periodicals, computerized catalog information, and an excellent inter-library loan division.

The University Museum of Fine Arts houses several permanent collections and is used for temporary exhibitions. Many of these are generated by faculty and students who have also sponsored exhibitions at the Mary Brogan Museum of Art and Science of Tallahassee. The University administers the Appleton Museum in Ocala, which includes over 2,500 works in its permanent collection, and the Ringling Museum in Sarasota, with its internationally known collection of European art. The Florida State University Study Centers in Florence and London offer a range of art history courses and opportunities for the study of art. Additionally, art history students use the international programs to study language and to pursue museum studies. Internships are available at locations such as the British Museum in

London. Supervised summer research is also available on a regular basis in Polynesia, New Mexico, or West Africa. Students may gain archaeological experience at the Florida State University excavation at the Etruscan site of Cetamura in Chianti.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. ART 1201;
2. ART 1300;
3. ARH 2050;
4. ARH 2051;
5. Nine to twelve (9–12) semester hours of a foreign language (contact department for details).

Major in Art History

The bachelor of arts (BA) program in the history and criticism of art requires a total of forty-two (42) semester hours of which thirty-three (33) will be in art history and nine (9) in studio art. The foundation courses (ARH 3056, 3057, and 3530) provide a broad view of major artists and monuments from Western and non-Western art history and are to be taken as early as possible. A seminar in art history is required for all art history majors. Students must also satisfy the University language requirement for the BA degree.

Honors in the Major

The Department of Art History offers honors in the major to those who wish to pursue an extended independent research project. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Minor in Art History

A minor in art history requires fifteen (15) semester hours of course work in the department. The student may choose any five art history courses in completing this requirement.

Minor in Museum Studies

A minor in museum studies requires fifteen (15) semester hours. Of these, nine (9) semester hours are in museum studies courses, three (3) hours are in a related elective, and the remaining three (3) hours are taken in supervised internship.

Definition of Prefix

ARH — Art History

Undergraduate Courses

ARH 2000. Art, Architecture, and Artistic Vision (3). Nonchronological approach to the understanding and appreciation of works of art.

ARH 2521C. Survey in African-American Art and Aesthetics (3). This course surveys special topics in African-American art and aesthetics. We will explore power dynamics, social protest, artistic accommodation, criticism, perception, content and motivation as historical and contemporary influences on and in African-American art.

ARH 2581. Survey of "Tribal Arts" Past and Present (3). This course will study the non-Western arts as tools for interacting with other people, or with environmental or universal forces.

ARH 3056. History and Criticism of Art I (3). Introductory survey from prehistoric through late-Medieval art history.

ARH 3057. History and Criticism of Art II (3). Introductory survey from early Renaissance through modern art history including developments in American art.

ARH 3130. Survey of Greek Art and Archaeology (3). Review of the major accomplishments in Greek art from early times up to and including the Hellenistic period through a survey of principal monuments, works, and archaeological evidence.

ARH 3150. Art and Archaeology of Ancient Italy (3). A survey of Italian art and archaeology including early Italy, the Etruscans, and Rome with reference to the major monuments, works, and archaeological evidence.

ARH 3530. The Arts of Asia (3). A general introduction to the visual arts of Asia, covering primarily India, central Asia, China and Japan. The course is organized along thematic lines, with topics such as the ancient world, Buddhism, Chinese aesthetic theory and painting, and native and foreign currents in Japanese art.

ARH 3582. Arts and Cultures of the South Pacific (3). This course will explore the significance of art, past and present, for the people of Samoa, Tonga, Cook, Tahiti, Hiva Oa, Rapa Nui, Aotearoa, Hawaii, Fiji, Australia, Papua New Guinea, New Ireland, New Britain, Trobriands, Solomons, Vanuatu, Tanna, Belau, Mariam, and the Marshalls. Each region is characterized by certain art forms, religious beliefs and practices that are shaped by influences within the South Pacific and beyond.

ARH 3800r. Methods of Art Criticism (3). Undergraduate seminar in art history with changing topics. May be repeated to a maximum of twelve (12) semester hours.

ARH 3930r. Special Topics (1–3). (S/U grade only.) May be repeated to a maximum of six (6) semester hours.

ARH 4110. Art and Archaeology of the Bronze Age in the Aegean (3). A study of the major archaeological evidence related to the Bronze Age in Crete and Greece; the major sites, monuments, and artistic works.

ARH 4118. Archaeology of Ancient Egypt (3). A survey of the archaeology and art of ancient Egypt from the Predynastic to the Ptolemaic and Roman periods. An emphasis is placed on the art, architecture and culture of the Old and New Kingdoms.

ARH 4120. Etruscan Art and Archaeology (3). A study of Etruscan culture, art, and archaeology.

ARH 4131. Greek Art and Archaeology of the Fifth and Fourth Centuries B.C. (3). Survey of the accomplishments of classical Greek art through an examination of the monuments, works, and archaeological evidence.

ARH 4151. Art and Archaeology of the Early Roman Empire (3). Roman art and archaeology from Augustus through the Antonines with a survey of the major artistic accomplishments and the archaeological remains.

ARH 4173. Studies in Classical Art and Archaeology (3). Specific studies in aspects of classical art and archaeology.

ARH 4210. Early Christian and Byzantine Art (3). Prerequisite: ARH 3056 or permission of instructor. Course begins with the first manifestations of Christian art and covers audiences, patrons, and problems of the representation of religious ideas. Arts discussed include Roman catacombs, mosaics of Ravenna and Sicily, sacred spaces of martyria and churches, icons of Rome and Constantinople and late and luxurious court arts of Byzantium.

ARH 4211. Early Medieval Art (3). Prerequisite: ARH 3056 or consent of instructor. Considers the development of the uses of art in the European Middle Ages, from Barbarian metal work to the acceptance of the classical tradition, to the first mature pan-European art of Romanesque architecture and sculpture. Topics of special interest include pilgrimage, imperial imagery, manuscripts, and monasteries.

ARH 4230. Later Medieval Art (3). Prerequisite: ARH 3056 or consent of instructor. Generally called Gothic art, this course includes the cathedrals and their sculpture built by bishops and towns, as well as the castles, sumptuous arts, and manuscripts commissioned by princes and lords. Topics of special interest include the Black Death, devotional art, civic expression, and the arts of the courts.

ARH 4304. History of Renaissance Architecture (3). Prerequisite: ARH 3057 or consent of instructor. A survey of 15th- and 16th-century architecture in Italy with emphasis on works by Brunelleschi, Alberti, Bramante, Michelangelo, and Palladio. Discussion will center on how the major architectural types developed and why: churches, city palaces, public piazzas, and country villas. Particular attention will be paid to the impact of antiquity and the emergence of urban planning.

ARH 4310. Early Italian Renaissance Art: 15th Century (3). Prerequisite: ARH 3057 or consent of instructor. An examination of how social and historical issues influenced the arts during the first great cultural flowering of the Renaissance in Florence, Rome, and Venice. Discussion will center on how the requirements of the patron, the vitality of local traditions, and the interaction among the arts all contributed to the creation of the new Renaissance vocabulary.

ARH 4312. Later Italian Renaissance Art: 16th Century (3). Prerequisite: ARH 3057 or consent of instructor. This course examines works by the great masters of the Renaissance, including Leonardo da Vinci, Michelangelo, and Titian, against the backdrop of the social and political realities of the day. Discussion will include the rise of the artist-hero, the sources and meaning of Mannerism, and the impact of the religious controversies of the age.

ARH 4331. Northern European Renaissance Art (3). Prerequisite: ARH 3057 or consent of instructor. Developments in northern European 15th- and 16th-century art with emphasis on painting and printmaking: Flemish, French, German, and Dutch artists.

ARH 4352. Southern Baroque Art (3). Prerequisite: ARH 3057 or consent of instructor. This course investigates painting, sculpture, and architecture in Italy and Spain during the 17th century, stressing the theatrical, ecstatic, and virtuosic character of works produced for royalty, the Church, and the rising middle class by such masters as Caravaggio, Bernini, and Velázquez.

ARH 4353. Northern Baroque Art (3). Prerequisite: ARH 3057 or consent of instructor. An examination of the Golden Age of painting, sculpture, and architecture in France,

England, and the Netherlands, showing how such figures as Rembrandt and Vermeer encoded meaning in works of detailed realism and contributed to the rise of new subjects in art, including still life, landscape, and portraiture.

ARH 4355. 18th-Century Art (3). Prerequisite: ARH 3057 or consent of instructor. A study of painting, sculpture and architecture produced in Western Europe during the Enlightenment, with emphasis on the luxurious, sensual art of the Rococo, the rational classicism of the Palladian Revival, the new moral and philosophical image of women, and the rise of the decorative arts.

ARH 4421. Modern European Art: Postimpressionism through Surrealism (3). Prerequisite: ARH 3057 or consent of instructor. This course covers the development of art from 1880 to 1940. Topics of discussion include abstraction, Symbolism, Surrealism, as well as the relationship between the techniques and forms of abstract representation and contemporary philosophical, social, scientific and political events. The writing of artists and critics provide the basis for this inquiry.

ARH 4431. Modern European Art: Neoclassicism through Impressionism (3). Prerequisite: ARH 3057 or consent of instructor. This course treats European art from 1780-1880, concentrating on the evolving dialogue between academic and anti-academic practices through an investigation of the relationship between theory, criticism, and techniques of representation. Topics of inquiry include: David and Neo-classicism; British landscape painting; Delacroix and French Romanticism; Courbet's Realism and Manet's Naturalism; and French Impressionism.

ARH 4523. West African Art and the Diaspora: Brazil, Haiti, the United States and Suriname (3). This course is intended to invest students with an appreciation for, and an ability to identify and discuss, the arts of 18th, 19th and 20th century West African societies. It will also examine the impact of those art forms on the mind and spirits of Black populations in the Americas by giving students a framework for understanding how these arts work within social and cultural contexts.

ARH 4540. Arts of India (3). Painting, sculpture, and architecture of India.

ARH 4551. Arts of China (3). An introduction to the visual arts of China, covering the Neolithic to the modern period. The framework for the course is both chronological and thematic, with special emphasis on how the Chinese have viewed themselves and the world in different periods, and how this has been expressed in their arts. Topics include ancient China, the introduction of Buddhism, aesthetic theory and painting, and masters of landscape.

ARH 4554. Arts of Japan (3). An introduction to the visual arts of Japan, covering the ancient to the modern period. The framework for the course is both chronological and thematic, with particular focus on the relationship between culture and the visual arts. Among the topics covered are ancient Japan, Japanese aesthetics, Buddhist art, the rise of the samurai, garden architecture and tea ceremony, castle decoration, and the world of ukiyoe.

ARH 4583. The Arts of Oceania, Africa and Native America (3). This course discusses, analyzes and examines the arts of people from Oceania, Africa and Native America. It provides students with a valid framework for understanding the complexities involved with these art forms from inside and outside specific social and cultural contexts.

ARH 4585. Arts and Architecture of Polynesia (3). This course is an in-depth introduction to the archaeology, art, architecture, ceremonies and cultures of the island peoples. This includes Tonga, Western Samoa, American Samoa, Marquesas, Society, Cook, Austral and Hawaiian Islands, New Zealand, and Easter Island.

ARH 4601. Native American Arts and Architecture of the Southwest (3). This course is an in-depth discussion of the archaeology, art, architecture, ceremony, religions and culture of the Pueblo and Navajo peoples living in the Southwest. It examines issues central to the understanding of how these art forms work within the social and cultural context of the Pueblo and Navajo people.

ARH 4620. U.S. Art: Centennial through Late Modernism (3). Prerequisites: ARH 3057 or consent of instructor. What is "American" about our country and its art?

Developing a national identity in culture was a central concern during this period. Reflecting regional and multicultural responses to this and other questions of subjectivity and modernity, this course surveys painting, sculpture, architecture, photography, and material culture from 1876 to the 1950s.

ARH 4621. U.S. Art: Colonial Era to the Centennial (3). Prerequisites: ARH 3057 or consent of instructor. From European images of "discovery" to conceptions of national culture presented to visitors at the Philadelphia Centennial, this course examines an emerging national identity as reflected and developed in the arts and material culture from the Colonial period to 1876. Course content is multicultural and includes discussions of women's contributions.

ARH 4642. Art after 1940 (3). Prerequisite: ARH 3057 or permission of instructor. Course covers American and European art from Abstract Expressionism to the present. This course examines the reactions against Abstract Expressionism and investigates late-modernist practices (e.g. Pop Art, Minimalism, Conceptualism, Earth Art, Performance Art). Topics discussed include contemporary artistic practices and the relationship between "modernism" and "postmodernism".

ARH 4680. American and Ethnic Folk Art (3). This course is an introduction to American folk arts from the 17th century to the present. It provides students with a framework for understanding how folk arts worked within the social and cultural context of their time. It will also discuss the different ways folk arts have been defined, redefined, utilized, collected and understood by the art world at large.

ARH 4720. History of Graphics (3). Prerequisite: ARH 3057 or consent of instructor. Survey of artists and processes in Western printmaking from the 15th century through the 20th century.

ARH 4810. Art History Methods and Media (3). Prerequisites: ARH 3056, 3057, 3530. Seminar for undergraduate art history majors; introduction to art media and research methods.

ARH 4815r. Honors Work in Art History (3-6). May be repeated to a maximum of six (6) semester hours over two (2) semesters; written thesis.

ARH 4870. 20th-Century U.S. Women's Art (3). The earliest known sculptor in colonial America was a woman. Her work and that produced by successive women in U.S. visual culture, with a 20th-century emphasis, are the focus of this course. Students are also introduced to critical writings on representations of women in art and to the varieties of politicized responses — from Goddesses to Guerrilla Girls — to cultural bias against women.

ARH 4905r. Directed Individual Study (3). May be repeated to a maximum of nine (9) semester hours; duplicate registration is allowed in the same term.

Graduate Courses

ARH 5111. Art and Archaeology of the Bronze Age in the Aegean (3).

ARH 5119. Archaeology of Ancient Egypt (3).

ARH 5125. Etruscan Art and Archaeology (3).

ARH 5140. Greek Art and Archaeology of the Fifth and Fourth Centuries B.C. (3).

ARH 5160. Art and Archaeology of the Early Roman Empire (3).

ARH 5174r. Studies in Classical Art and Archaeology (3).

ARH 5220. Early Christian and Byzantine Art (3).

ARH 5221. Early Medieval Art (3).

ARH 5240. Later Medieval Art (3).

ARH 5321. Early Italian Renaissance Art: 15th Century (3).

ARH 5322.	Later Italian Renaissance Art: 16th Century (3).	ARH 5587.	Arts and Architecture of Polynesia (3).	ARH 6292r.	Topics in Medieval Art: Seminar (3).
ARH 5340.	Northern European Renaissance Art (3).	ARH 5605.	Native American Arts and Architecture of the Southwest (3).	ARH 6394r.	Topics in Renaissance Art: Seminar (3).
ARH 5360.	Southern Baroque Art (3).	ARH 5625.	American Art before 1940 (3).	ARH 6398r.	Topics in Baroque Art: Seminar (3).
ARH 5361.	Northern Baroque Art (3).	ARH 5648.	Art after 1940 (3).	ARH 6592r.	Topics in Eastern Art: Seminar (3).
ARH 5363.	18th-Century Art (3).	ARH 5685.	American and Ethnic Folk Art (3).	ARH 6694r.	Topics in 19th-Century Art: Seminar (3).

Program in ASIAN STUDIES

COLLEGE OF SOCIAL SCIENCES

Director: Burton M. Atkins (Political Science); *Professors:* Bowman (Public Administration and Policy), Flanagan (Political Science), Kelsay (Religion), Lo (History), Olsen (Music), Ree (Modern Languages and Linguistics), Singh (History); *Associate Professors:* Erndl (Religion), Garretson (History), Ho (Anthropology), Kim (Political Science); *Assistant Professors:* Cuevas (Religion), Grant (History), Lan (Modern Languages and Linguistics); *Visiting Professor:* Koo (Economics); *Visiting Associate Professor:* Lopez (Religion)

The Program in Asian Studies is an international area studies program that is designed to develop a student's competence in the language, history, culture, and the contemporary political and economic setting of a particular country or cultural region. This areas-studies program is focused on Asia, broadly defined as including East Asia, South Asia, and the Middle East. A major or minor in this program serves the needs of 1) general liberal arts students who wish to learn more about these important areas of the world; 2) students who wish to pursue graduate work in these or related fields; and 3) students who seek employment in or related to Asia. The program also combines area- or country-specific courses that give students the needed cultural immersion with more general comparative courses that provide them with the necessary intellectual tools, the concepts and theories, to make sense out of their particular disciplinary concentrations. Students are to select language and thematic specializations in line with their intellectual interests and career goals and design their program of studies accordingly.

In addition to the regular major in Asian studies, the program also offers a second option designed for students who want to combine linguistic, cultural, and other relevant knowledge of Asia with business skills. Students electing this option will take a significant proportion of their course work in the College of Business. This option is intended to prepare students for a career that capitalizes on their knowledge of Asia.

The undergraduate program in Asian studies is administered through the College of Social Sciences. As an interdisciplinary program, no minor is required, except in the case of the Asian studies/business option, in which the business course work constitutes a minor. Students interested in either of these degree program options should consult with the director of Asian studies.

Requirements

Asian Studies Major

Students majoring in the program are to construct their study program around four components: 1) a language requirement; 2) a history requirement; 3) area-specific course work which emphasizes one of two tracks; and 4) a concepts and theories tool requirement to be fulfilled in the students major track. The total hour requirements for a major are a minimum of twelve (12) semester hours in an approved area language plus an additional thirty-six (36) semester hours beyond the liberal studies requirements (with a grade of "C–" or better in each course) distributed across the history requirement and the two tracks.

Language Requirement

All students are required to take twelve (12) semester hours of course work in a relevant area language (Chinese, Japanese, Arabic, or some

other Asian language). Students will be encouraged to bring their chosen language up to an effective level of proficiency in both reading and speaking by either taking additional course work on the campus of The Florida State University or by participating in a semester- or summer-abroad program in their relevant cultural area as such programs become available. These programs should be administered by, affiliated with, or approved by The Florida State University. To encourage the achievement of language proficiency, language course-work hours taken beyond the twelve (12) semester hour minimum may be counted towards the required thirty-six (36) semester hours for the major.

History Requirement

Students are required to take a minimum of six (6) semester hours of work in the Asian studies history courses listed below.

Major and Minor Track Requirements

Students are to select either the social science track or the arts and humanities track as the major focus of their course work. Students are to take a minimum of twelve (12) semester hours of course work from among those area-specific courses listed for their major track and a minimum of six (6) semester hours of course work from among those area-specific courses listed for their minor track.

Concepts and Theories Tool Requirement

For each of the two tracks a larger number of concepts and theories courses are listed selected from the relevant disciplines. Students are to take a minimum of six (6) semester hours of course work from among those courses listed for their major track. Students should select

these courses with some care in consultation with the program director. The courses should be narrowly focused on one or possibly two academic disciplines most relevant to the students primary Asia-related interests and career goals.

Asian Studies Major with a Minor in Business

This degree program combines the regular Asian studies major with a planned series of economics and business courses. The requirements for this degree are twelve (12) semester hours in an approved language (Chinese, Japanese, or Arabic), twenty-one (21) semester hours in Asian studies course work, and fifteen (15) semester hours in multinational business courses. The Asian studies course work is to be divided among the area-specific social science track courses (twelve [12] semester hour minimum) and Asian history (six [6] semester hour minimum). With this degree there is no concepts and theories requirement or arts and humanities minor track requirement. However, students may freely substitute language and anthropology courses for history or social science courses in meeting the twenty-one (21) semester hour Asian studies requirement. Students are also to select between two fifteen (15) semester hour business course-work options listed below, an international marketing track or an international finance track. The prerequisites for both tracks include ECO 2013 and 2023, which may be taken as part of the students basic studies requirements. In addition, students opting for the international finance track must complete ACG 2021 as a prerequisite.

International Marketing Track

MAN 3600	Multinational Business Operations
MAN 4631	International Strategic Management
MAR 3023	Basic Marketing Concepts
MAR 4156	Multinational Marketing

Choose **one**:

MAN 4605	Cross-Cultural Management (Prerequisite: MAN 3109)
or	
MAN 4680r	Selected Topics in International Management

International Finance Track

FIN 3244	Financial Markets, Institutions, and International Finance Systems
FIN 3403	Financial Management of the Firm
FIN 4604	Multinational Financial Management
MAN 3600	Multinational Business Operations

Choose **one**:

MAN 4605	Cross-Cultural Management (Prerequisite: MAN 3109)
or	
MAN 4631	International Strategic Management
or	
MAN 4680r	Selected Topics in International Management

Honors in the Major

The Program in Asian Studies offers honors in the major to encourage talented juniors and seniors to undertake independent and original work as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Asian Studies Minor

Students minoring in the program must complete eighteen (18) semester hours of Asian studies course work beyond the liberal studies requirement. In this case none of the broader comparative concepts and theories courses will count towards the eighteen (18) semester hour minimum. Students may select freely from all area-specific courses so long as at least three (3) semester hours are taken in history and each of the two tracks.

General Courses

ASN 4905r. Directed Individual Study (1–3). May be repeated to a maximum of nine (9) semester hours.

ASN 4930r. Special Topics in Asian Studies (1–3). May be repeated to a maximum of nine (9) semester hours as topics change.

ASN 4970r. Honors Thesis (3). Six (6) hours of credit must be taken in two (2) successive semesters and must result in the production of a thesis.

Graduate Courses

Note: descriptions of the following courses can be found under the individual departments in which they are taught.

ASN 5906r.	Directed Individual Study: Chinese Civilization (1–4). (S/U grade only.)
ASN 5907r.	Directed Individual Study: Japanese Civilization (1–4). (S/U grade only.)
ASN 5910r.	Supervised Research (1–6). (S/U grade only.)
ASN 5935r.	Special Topics in Asian Studies (1–3).

For listings relating to graduate course work for thesis, master's comprehensive examination, and thesis defense, consult the *Graduate Bulletin*.

Department of BIOLOGICAL SCIENCE

COLLEGE OF ARTS AND SCIENCES

Chair: Thomas M. Roberts; *Associate Chair (Graduate Studies):* Bates; *Associate Chair (Undergraduate Studies):* Reeves; *Associate Chair (Curriculum Development):* Elam; *Professors:* Abele, Anderson, Bates, Caspar, Elam, Ellington, Fajer, Freeman, Gaffney, Herrnkind, Hofer, James, Livingston, Mariscal, Meredith, Moerland, Outlaw, Quadagno, Roberts, Roux, Swofford, Taylor, Travis, Tschinkel; *Associate Professors:* Chase, Epstein, Hurt, L. Keller, T. Keller, Levitan,

Miller, Reeves, Trombley, Winn; *Assistant Professors:* Bass, Erickson, D. Fadool, J. Fadool, Houle, Hout, Inouye, Steppan, Teem, Underwood, Wulff; *Service Professor:* Easton; *Professors Emeriti:* Beidler, Collier, DeBusk, deKloet, Elliott, Friedmann Graziadei, Heard, Homann, R. Johnson, Roeder, Short, Williams, Yerger; *Visiting Assistant Professor:* Hansen

The Department of Biological Science offers an undergraduate major in biological science that includes programs of study in most contemporary areas of biology. Specific academic tracks within the major include cell and molecular biology; ecology, evolution, and environmental biology; marine biology; physiology and neuroscience; invertebrate and vertebrate zoology; plant sciences; and pre-

professional health sciences. A special certificate program in marine biology and living resource ecology is also offered. The requirements for the baccalaureate degree in biological science include most prerequisite courses necessary for admission to medical, dental, optometry, veterinary, osteopathic, chiropractic, and other allied health professional schools.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the

University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. BSC 1010/1010L*;
2. BSC 1011/1011L*;
3. CHM 1045/1045L;
4. CHM 1046/1046L;
5. CHM 2210/2210L*;
6. CHM 2211/2211L*;
7. MAC X311* and
8. MAC X312*.

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Although MAC 2233 Calculus for Business will be accepted as a mandated equivalent to MAC 2311 Calculus with Analytical Geometry I, it is not recommended as preparation for a degree in the sciences. MAC 2233 is not acceptable as a prerequisite for MAC 2312 Calculus with Analytical Geometry II, PHY 2048C/PHY 2049C General Physics or other advanced courses in physics, chemistry, engineering, and meteorology.

Requirements for a Major in Biological Science

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*.

1. Prerequisites for Upper-Division Biological Science Courses. Registration in all 3000- and 4000-level biological science courses is allowed only after meeting the following criteria.

- a) Satisfactory completion ("C–" or better) of BSC 2010/2010L (Biological Science I with lab) and BSC 2011/2011L (Biological Science II with lab);
- b) Satisfactory completion ("C–" or better) of CHM 1045/1045L and CHM 1046/1046L or CHM 1050/1050L and CHM 1051/1051L (General Chemistry I and II with labs);
- c) A minimum combined 2.0 GPA (no forgiveness) in all biology, chemistry, physics, mathematics, and statistics courses, and their prerequisites, that are applicable to the major, from any institution attended.

2. Academic Performance

a) All courses applicable to the major, including biological science, chemistry, physics, mathematics, and statistics must be completed with a grade of "C–" or better;

b) A student who has earned more than five unsatisfactory grades (U, F, D–, D, D+) in courses required for the major in biological science (biological science, chemistry, physics, mathematics, and statistics) and their prerequisites at The Florida State University or elsewhere, whether or not repeated, will not be permitted to graduate from The Florida State University with a degree in biological science;

c) Designation, continuation, and graduation as a biological science major requires a minimum combined 2.0 GPA (no forgiveness) in all courses taken for the major from any institution, including biology, chemistry, physics, mathematics, and statistics, and their prerequisites;

d) A biological science major who applies for readmission to the college must meet the biological science degree requirements of the catalog in force on the date of readmission.

3. Co-op and Transient Study. The Florida State University biological science majors who intend to take courses for the major (biological science, chemistry, physics, mathematics, statistics) at other institutions must receive approval from the Department of Biological Science Academic Advising Office prior to enrollment. This policy applies to courses taken as part of the FAMU—FSU and TCC—FSU co-op programs as well as courses taken elsewhere.

4. Required Courses in Biological Science. Thirty-eight (38) semester hours of biological science course work are required for the degree. At least twenty (20) of the required semester hours must be taken in residence at The Florida State University. The following shall be included in the thirty-eight (38) semester hours:

- a) Nine (9) semester hours (prerequisite to all major course work in biology): BSC 2010/2010L, 2011/2011L;
- b) PCB 3063 General Genetics (3);
- c) BOT 3015 Plant Biology (2);
- d) BSC 3402L Experimental Biology Laboratory (2);
- e) PCB 4674 Evolution (3);
- f) At least one course from two of the three areas:

Area I: Cell and Molecular Biology

- | | | | |
|-----|------|---------------------------------|------------------------|
| MCB | 4403 | Prokaryotic Biology and | 4403L Laboratory (3,2) |
| PCB | 3134 | Cell Structure and Function (3) | |
| PCB | 4024 | Molecular Biology (3) | |

- | | | |
|-----|------|------------------------|
| PCB | 4253 | Animal Development (3) |
|-----|------|------------------------|

Area II: Physiology

- | | | |
|-----|------|-----------------------------------------------|
| BOT | 4503 | Plant Physiology (3) |
| PCB | 3743 | Vertebrate Physiology (3) |
| PCB | 4723 | General and Comparative Animal Physiology (3) |

Area III: Ecology and Environmental Science

- | | | |
|-----|------|--------------------------|
| BSC | 3052 | Conservation Biology (3) |
| PCB | 3043 | General Ecology (3) |
| ZOO | 4513 | Animal Behavior (4); |

g) Additional courses for major credit at the 3000- or 4000-level to complete the thirty-eight (38) semester hour requirement. No more than six (6) semester hours of honors work in biological science (BSC 4970r), six (6) semester hours of directed individual study (BSC 4900r), one (1) semester hour of undergraduate supervised teaching (BSC 4945), and two (2) semester hours of senior tutorial (BSC 4931) can be used to meet the thirty-eight (38) hour requirement; and

h) Completion of at least five biology laboratory/field courses (the letter "C" listed after the course number indicates that the course is a lecture and a lab/field combined, and the letter "L" indicates the course is a laboratory or field course).

5. Required Courses in Collateral Areas

a) **General Chemistry:** Two semesters of general chemistry with laboratory equivalent to CHM 1045/1045L plus CHM 1046/1046L or CHM 1050/1050L plus CHM 1051/1051L;

b) **Organic Chemistry:** Two semesters of organic chemistry equivalent to CHM 2210 and 2211. Many health professions programs also require CHM 2211L (Organic Chemistry II Laboratory), BCH 4053 (General Biochemistry I), and BCH 4054 (General Biochemistry II), which do not apply to the major;

c) **Mathematics/Statistics:** Either two semesters of calculus with analytical geometry equivalent to MAC 2311 and 2312 or MAC 2311, plus one semester of statistics for biology (STA 2171).

d) **Physics:** Two semesters of general physics with laboratories equivalent to PHY 2048C and 2049C (prerequisite of MAC 2311) or two semesters of college physics with laboratories equivalent to PHY 2053C and 2054C (prerequisites are MAC 1114 and MAC 1140);

6. **Minor.** The required collateral courses in chemistry constitute a chemistry minor and fulfill the College of Arts and Sciences requirement for a minor; however, the student may select other minors in consultation with an advisor.

Marine Biology Certificate Program in Living Marine Resource Ecology (Upper Division Only)

A Certificate Program in Marine Biology and Living Marine Resource Ecology provides interested students with both a challenging academic program and substantive hands-on experiences in the field. The program prepares students to pursue professional careers in the application of ecology to significant resource issues of the marine environment. The certificate requirements assure a strong knowledge base in relevant biological disciplines, hands-on research experience on marine organisms and habitats, and an awareness of major problems and solutions of marine resource ecology now confronting science and society.

Prerequisites for the certificate program include: (1) completion of prerequisites required for the major in biological science (BSC 2010/2010L, 2011/2011L; CHM 1045/1045L, 1046/1046L, and (2) a 3.0 GPA or better in the 2000-level biological science core courses (BSC 2010/2010L and BSC 2011/2011L). Students enrolling in the program will be required to complete at least sixteen (16) semester hours of specified course work as described below, and must maintain a 3.0 GPA or better in courses used for the certificate. Students wishing to enter the program retroactively may do so by the first semester of their senior year at the latest.

The certificate offers internships, scholarships, and other instructor programs that provide unique professional development opportunities for students interested in this field. These opportunities allow students to work closely with scientists in a student/mentor relationship, or to attend remote training or study programs during the summer. Selection for scholarship awards is based on academic qualifications, demonstrated interest in fisheries ecology, marine biology, and zoology, and relevance to the applicant's biological and career interests. Additional information is available through the Academic Advising Office and the department's Institute for Fishery Resource Ecology. For more information about the certificate program and list of required courses, please contact the Academic Advising Office.

Honors in the Major

The Department of Biological Science offers a program in honors in the major to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Science Teaching

Students interested in secondary education science teaching should contact the Office of Secondary Science and/or Mathematics Teaching within the department. For more information, see that section of this *General Bulletin*.

Graduate Study

The Department of Biological Science offers work leading to the master of science and doctor of philosophy degrees; consult the *Graduate Bulletin* for details.

Requirements for a Minor in Biological Science

A minimum of twelve (12) semester hours of biological science courses approved for major credit, including BSC 2010/2010L and BSC 2011/2011L and one additional biology course that counts in the major (PCB 3063 recommended); a minimum of four (4) semester hours of the twelve (12) semester hours must be taken at The Florida State University. Grades below "C-" will not be accepted for minor credit.

Undergraduate Courses

Courses Not for Major or Minor Credit

BSC 1005. General Biology for Nonmajors (3). Four selected topics in contemporary biology.

BSC 1005L. General Biology Laboratory for Nonmajors (1). May be taken concurrently with lecture or subsequent to completion of lecture with passing grade.

BSC 1005C. General Biology for Nonmajors (4).

BSC 1056C. Underwater Environments of the Big Bend (3). (S/U grade only.) This journey into the unique and unusual ecosystem of North Florida features the area's underwater systems—rivers, springs, salt marshes, bays and beaches. Saturday trips include Cypress Springs, Dixie County grass beds, Rainbow River, St. Joseph Bay, the Panama City Jetties or other sites as conditions permit. This course requires swimming skills, plus snorkel, mask and fins.

BSC 1058C. Coastal Environments of the Big Bend (3). (S/U grade only.) Explore marine life through classroom lectures and six field trips that will introduce a new ecological dimension to the way you view the marshes and beaches of the North Florida coast. Ocholockonee Bay, a local marine aquarium, the St. Marks National Wildlife Refuge, and Fiddler's Point are a part of the Saturday field trip itinerary.

ISC 3076. Science, Technology, and Society (3). The role played by science and technology in American society is considered by examining: the organization of the scientific enterprise, the realities of scientific life vs. portrayals of scientists in the media, how science is funded, its economic and its intellectual significance, dilemmas posed by progress in science and technology, and societal conditions under which science flourishes. This course cannot be used as credit toward a major or a minor in a science department. At least junior standing or permission of instructor is required.

MCB 2004. Microbiology for Health Services (3). Corequisite: MCB 2004L. Microbiology for students planning careers in the health services, with emphasis on infectious disease, food microbiology and public health.

MCB 2004L. Microbiology for the Health Services Laboratory (1). Corequisite: MCB 2004. Microbiological techniques including the isolation, typing and identification of bacteria, properties of pathogenic bacteria, and food microbiology.

PCB 2099. Human Physiology (3). A survey of the major systems and their regulation in normal function and disease in the human body.

SCE 4939r. Seminar in Contemporary Science, Mathematics, and Science Education (1). Presentations of contemporary and interesting issues in science, mathematics, or teaching methods. Content will vary from semester to semester. May be repeated to a maximum of four (4) semester hours.

Courses for Major Credit

Note: all 3000- and 4000-level biological science courses have the following minimum prerequisites: BSC 2010/2010L, 2011/2011L; CHM 1045/1045L and 1046/1046L. Additional prerequisites, if any, are included in the course listing.

Botany

BOT 3015. Plant Biology (2). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Introduction to evolutionary relationships, natural history, ecological adaptations, and physiology of plants, fungi, autotrophic protista, and prokaryotes.

BOT 3015L. Plant Biology Laboratory (1). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Corequisite: BOT 3015. Anatomy, development, and morphology and life cycles of autotrophs and fungi and other osmotrophs.

BOT 3143C. Field Botany (4). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Introductory plant taxonomy with emphasis on laboratory and field study. Orientation to principles of identification, classification, and rules of botanical nomenclature.

BOT 3800. Elementary Botany: Plants and Man (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Mans uses of plants, plant exploration and early history, plant geography, some basic botany.

BOT 4373C. Biology of Higher Plants (4). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Morphology, anatomy, and reproductive biology of ferns, fern allies, gymnosperms, and flowering plants; basic plant anatomy.

BOT 4394. Plant Molecular Biology (3). Prerequisites: BOT 3015; BSC 2010/2010L, 2011/2011L; CHM 1045/1045L, 1046/1046L. Pre- or Corequisite: PCB 3063. This course explores molecular biology and biotechnology of plant growth and development.

BOT 4503. Plant Physiology (3). Prerequisites: BOT 3015; BSC 2011/2011L; CHM 1046/1046L, 2210; PCB 3134 recommended. Introduction to the regulatory systems in plants.

BOT 4503L. Plant Physiology Laboratory (1). Prerequisites: BOT 3015; BSC 2011/2011L; CHM 1046L. Corequisite: BOT 4503.

Biological Science

BSC 2010. Biological Science I (3). Corequisites or prerequisites: BSC 2010L; CHM 1045/1045L. Basic chemistry, energetics, metabolism, and cellular organization; molecular genetics and information flow; animal and plant function.

BSC 2010L. Biological Science I Laboratory (1). Corequisites or prerequisites: CHM 1045/1045L. Corequisite: BSC 2010. This laboratory furnishes tools and techniques used to visualize, quantify, analyze biological phenomena, including experimental design and execution, recording of data, and graphic and statistical analysis of data.

BSC 2011. Biological Science II (3). Prerequisites: BSC 2010/2010L. Reproduction and development, transmission (Mendelian) genetics, population biology, ecology, and evolution.

BSC 2011L. Animal Diversity Laboratory (2). Prerequisites: BSC 2010/2010L. Introduction to animals, sponges, cnidarians, flatworms and pseudocoelomates, annelids, molluscs, arthropods, echinoderms, and chordates.

BSC 3052. Conservation Biology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. The history of the conservation movement, the research on populations of animals and plants that is relevant to man's impact upon the environment, pollution in terrestrial and aquatic ecosystems, endangered species, government regulation, and sustainable development.

BSC 3101. History of Biology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; junior or senior standing. A survey of the development of biological thought and evidence from ancient times to the present.

BSC 3312. Marine Biology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Marine geology, chemistry of the oceans, oceanic circulation, oceanographic techniques, the marine environment and marine life.

BSC 3402L. Experimental Biology Laboratory (2). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Majors only. Methodology of biological experimentation, data analysis, and reporting using selected topics (see academic advising office for selected topics offered each semester).

BSC 3930. Seminar in Biological Frontiers (1). (S/U grade only.) Prerequisite: BSC 2011/2011L. Weekly seminar covering topics in biological research. Not repeatable for credit toward major requirements.

BSC 3938. Careers in the Biological Sciences (1). (S/U grade only.) This course is intended for biology sciences majors at any point in their undergraduate career, but is most beneficial to those in their first three years. Career options in biology-related fields (including health professions) and the preparation they require are presented for students planning to immediately enter the job market or to continue their academic careers upon graduation.

BSC 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

BSC 4514. Aquatic Pollution Biology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Various aspects of environmental alteration from point and nonpoint sources on aquatic systems.

BSC 4613. Systematics (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. History of systematic theory; methods of phylogenetic analysis including distance, parsimony, and likelihood; classification of the diversity of life; the comparative method; analysis of within species variation.

BSC 4833C. Radiation Biology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; permission of instructor. Effects of ionizing radiation on biological systems at the cellular, molecular, organismal, organ, and environmental levels.

BSC 4900r. Directed Individual Study (1–4). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; a combined 3.0 GPA in biology, chemistry, physics, math, and statistics courses applied to the major; permission of biological science faculty member; permission of Department of Biological Science Advising Office at The Florida State University. Special topic supervised study or research participation in the area of the faculty members research. Graduate students may not register for this course. A maximum of six (6) semester hours may be applied to biological science major credit.

BSC 4931r. Senior Tutorial in Biological Science (1). (S/U grade only.) Prerequisites: BSC 2011/2011L; CHM 1046/1046L; senior standing (90+hrs.). Selected topics in contemporary biological science; maximum enrollment of five students in each tutorial. Repeatable one time to a maximum of two (2) semester hours credit which may be applied to biological science credit.

BSC 4933r. Selected Topics in Biological Science (1–4). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; other courses as specified; junior or senior standing. May be repeated to a maximum of eight (8) semester hours credit.

BSC 4934r. Selected Topics in Applied Biology (1–4). (S/U grade only.) Prerequisites: BSC 2011/2011L; CHM 1046/1046L. May be repeated to a maximum of eight (8) semester hours. Some sections are not for major credit.

BSC 4937. Seminar in Living Marine Resource Ecology (1). (S/U grade only.) Prerequisites: BSC 2010/2010L, 2011/2011L; CHM 1045/1045L, 1046/1046L; permission of instructor. Seminar course in marine resource ecology designed to introduce students to a broad array of current research priorities and interests in marine ecology. Students will have the opportunity to meet with resource managers and scientists from both the biological and social fields. Lecture topics range from life history studies of marine fish to the economic consequence of marine policy.

BSC 4940. Research Internship in Marine Biology (3–9). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; PCB 3043; junior or senior standing; 3.0 GPA in biology; a course in the area of research; and written approval of the associate chair. Special supervised study in marine biology at the National Marine Fisheries Services Laboratory in Panama City, the Mote Marine Laboratory, or other approved location. Students may receive up to nine (9) semester hours of credit, of which four (4) semester hours would apply to the biological science major. Offered during the summer only.

BSC 4945. Undergraduate Supervised Teaching (1). (S/U grade only.) Prerequisites: BSC 2011/2011L; CHM 1046/1046L; senior standing and permission of instructor. A maximum of one (1) semester hour may be applied to biological science major credit.

BSC 4970r. Honors Work in Biological Science (3). Prerequisite: Admission to the departments honors in the major program. Participation in a supervised research problem. May be repeated to a maximum of twelve (12) semester hours, of which six (6) semester hours may be applied to biological science major credit.

Microbiology

MCB 4403. Prokaryotic Biology (3) Prerequisites: BSC 2011/2011L; CHM 1046/1046L, 2210; PCB 3063. Corequisite: MCB 4403L. Structural and functional characteristics of microorganisms, with emphasis on prokaryotes (bacteria and archaea) and viruses. Topics include: prokaryotic cell structure and function, physiology and genetics of prokaryotes and viruses, physiological and molecular aspects of microorganisms and human disease, and biotechnological applications of microbial physiology (environmental, food, and industrial microbiology).

MCB 4403L. Prokaryotic Biology Laboratory (2). Prerequisites: BSC 2011/2011L; CHM 1046/1046L, 2210; PCB 3063. Corequisite: MCB 4403. Laboratory methods for growth, handling, and study of prokaryotes and other

types of microorganisms. Topics include: aseptic technique and isolation of pure cultures; microscopic methods; effects of environment on growth; viruses; physiological characterization methods; and methods related to medical, environmental, and food microbiology.

MCB 4603. Environmental Microbiology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; MCB 4403. The applied aspects of environmental microbiology. Topics include the basic principles of microbial ecology and biotechnological aspects of microbes and the environment. Biomediation of pollutants, biotreatments of liquid and solid wastes, and microbial control of pests.

Process Biology

PCB 3043. General Ecology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Population biology, population growth; community processes, succession, nutrient cycling and energy flow, species interactions, ecological efficiency, biogeographical ecology.

PCB 3063. General Genetics (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Introduction to the principles of transmission and molecular genetics of prokaryotes and eucaryotes and significance of these principles to other aspects of biological science.

PCB 3134. Cell Structure and Function (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Cellular chemistry and physiology, morphology, and function of cellular organelles; cellular motility, growth, division, communication, and regulation.

PCB 3743. Vertebrate Physiology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Physiological systems of vertebrates with emphasis on mammals. Mechanisms underlying physiological processes and the physico-chemical principles upon which they depend.

PCB 4024. Molecular Biology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; PCB 3063; PCB 3134 recommended. The molecular basis of cellular function with emphasis on the activities of DNA, RNA, and the regulation of gene expression.

PCB 4024L. Molecular Biology Laboratory (1). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Corequisite: PCB 4024.

PCB 4042. Perspectives in Ecology and Evolutionary Biology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Lecture, discussion, and reading in advanced concepts of ecology and evolutionary biology. Enrollment by permission of instructor.

PCB 4063Lr. Experimental Genetics Laboratory (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; PCB 3063. Laboratory methods and experiments in molecular, biochemical, or human genetics or cytogenetics. May be repeated to a maximum of six (6) semester hours.

PCB 4233. Immunology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; CHM 2210; PCB 3063, 3134, or permission of instructor. Analysis of the tissues, cells, and molecules of the immune system and their relationships to disease and transplantation.

PCB 4233L. Laboratory in Immunology (1). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; Corequisite: PCB 4233.

PCB 4253. Animal Development (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; PCB 3063. Discusses a number of topics, including fertilization, early embryonic events, organogenesis, differentiation, morphogenesis, cytoplasmic localization, determination, and differential gene expression.

PCB 4253L. Animal Development Laboratory (1). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; PCB 3063; Corequisite: PCB 4253. Laboratory experiments regarding sea urchin fertilization, frog and chick early development, gene expression, and cell-cell interactions.

PCB 4341C. Advanced Field Biology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; permission of instructor. Emphasis on conducting a series of ecological research projects in the field.

PCB 4514. Advanced Genetics and Molecular Biology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; PCB 3063. Mendelian genetics; transcriptions, DNA repair; plasmids; insertion elements; regulation of gene expression.

PCB 4674. Evolution (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; PCB 3063; senior standing (90+hrs.). Emphasis on the processes of evolution: origin of life, theories of evolution, sources of variation, natural selection, population systems, isolating mechanisms, evolution above the species level.

PCB 4723. General and Comparative Animal Physiology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L, 2210. The physiological and biochemical interactions of animals with their respective environments. Emphasis on non-mammalian vertebrate and invertebrate systems.

PCB 4731L. Experimental Physiology (2). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; a course in physics. Exploration of physiological mechanisms in nerve, muscle, heart, and central nervous systems, with emphasis on electrophysiological methods.

PCB 4843. Fundamentals of Neuroscience (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; PCB 3134, 3743, or 4723. This course will emphasize cellular and molecular approaches to neuroscience and brain function and will emphasize simple model systems including invertebrates.

Zoology

ZOO 3203. Advanced Invertebrate Zoology (2). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; and one of the following: PCB 3044 or 3063, or ZOO 3713C, or permission of instructor. Corequisite: ZOO 3203L. Structure, function, behavior, and evolution of the invertebrate phyla, especially those taxa living in the sea.

ZOO 3203L. Advanced Invertebrate Zoology Laboratory (2). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; and one of the following: PCB 3044 or 3063, or ZOO 3713C, or permission of instructor. Corequisite: ZOO 3203. Laboratory deals with the structure, function, behavior and ecology of the invertebrate phyla, especially those taxa living in the sea.

ZOO 3713C. Comparative Vertebrate Anatomy (4). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Emphasis on form and function and origin and evolution of structure.

ZOO 4204C. Biology of Higher Marine Invertebrates (5). Prerequisites: BSC 2011/2011L; and 3312 or PCB 3043 or ZOO 3203/3203L; CHM 1046/1046L. Biological specializations of crustaceans, mollusks, and echinoderms, including life history, behavior, ecology, biomechanics, and environmental adaptations.

ZOO 4232. Parasitology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. The natural history, ecology, evolution, pathogenesis, epidemiology, and control of protozoan and animal parasites of people.

ZOO 4232L. Parasitology Lab (2). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Pre- or corequisite: ZOO 4232. The morphology and anatomy of protozoan and animal parasites of people. Collection, preservation, and staining methods for selected parasites of various hosts.

ZOO 4343C. Biology of the Lower Vertebrates (4). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Systematics, ecology, and evolution of fishes, amphibians, and reptiles.

ZOO 4353C. Biology of the Higher Vertebrates (4). Prerequisites: BSC 2011/2011L; CHM 1046/1046L; permission of instructor. Systematics, ecology, and evolution of birds and mammals.

ZOO 4513. Animal Behavior (4). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. The behavior of animals: modern perspectives.

ZOO 4753C. Histology (4). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. The microscopic anatomy and functions of the cells, tissues, and glands composing the organs and systems of humans.

ZOO 4823. Insect Biology (3). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Morphology, classification, natural history, physiology, and evolution of insects.

ZOO 4823L. Insects of North Florida (2). Prerequisites: BSC 2011/2011L; CHM 1046/1046L. Pre-requisite or Corequisite: ZOO 4823. Collection, keying, and curation of local insects.

Graduate Courses

Biochemistry

BCH 5886r. Special Topics in Biochemistry and Cell Biology (1–3).

BCH 5887r. Special Topics in Biochemistry and Cell Biology (1–3).

Botany

BOT 5938r. Selected Topics in Botany (1–4).

BOT 6936r. Seminar in Botany (2). (S/U grade only.)

Biological Science

BSC 5409. Biophysical Principles of Biological Techniques (3).

BSC 5900r. Directed Individual Study (1–12). (S/U grade only.)

BSC 5932r. Graduate Tutorial in Biological Science (1) (S/U grade only.)

BSC 5936r. Selected Topics in Biological Science (1–4).

BSC 5945r. Supervised Teaching (1–2). (S/U grade only.)

BSC 6921r. Colloquium in Biological Science (1). (S/U grade only.)

Microbiology

MCB 5505. Virology (3).

MCB 5936r. Selected Topics in Microbiology (1–4).

MCB 6936r. Seminar in Microbiology (2). (S/U grade only.)

Process Biology

PCB 5047. Perspectives in Ecology and Evolutionary Biology (3).

PCB 5137. Advanced Cell Biology (3).

PCB 5345C. Advanced Field Biology (3).

PCB 5425. Population Ecology (3).

PCB 5447. Community Ecology (3).

PCB 5525. Molecular Biology (3).

PCB 5595. Advanced Molecular Biology (3).

PCB 5746. Mammalian Physiology I (3).

PCB 5747. Mammalian Physiology II (3).

PCB 5785. Biology of Muscle (3).

PCB 5795. Sensory Physiology (3).

PCB 5835. Neurophysiology (3).

PCB 5846. Neurocytology and Neurochemistry (4).

PCB 5936r. Selected Topics in Genetics and Cell Biology (1–4).

PCB 5937r. Selected Topics in Physiology (1–4).

PCB 5938r. Selected Topics in Ecology and Evolutionary Biology (1–4).

PCB 6155C. Microscopy and Electron Microscopy for the Biologist (3).

PCB 6936r. Seminar in Genetics and Cell Biology (2). (S/U grade only.)

PCB 6937r. Seminar in Physiology (2). (S/U grade only.)

PCB 6938r. Seminar in Ecology and Evolutionary Biology (2). (S/U grade only.)

Neuroscience

PSB 6070r. Current Problems in Neuroscience (2). (S/U grade only.)

PSB 6920r. Neuroscience Colloquium (1). (S/U grade only.)

PSB 6933r. Seminar in Neuroscience (1–2). (S/U grade only.)

Zoology

ZOO 5932r. Selected Topics in Marine Biology (1–4).

ZOO 5935r. Selected Topics in Zoology (1–4).

ZOO 6933r. Seminar in Marine Biology (2). (S/U grade only.)

ZOO 6934r. Seminar in Zoology (2). (S/U grade only.)

Interdepartmental BRITISH STUDIES LONDON CENTER MINOR

COLLEGE OF ARTS AND SCIENCES

Coordinator: John B. Brennan (International Programs)

The British Studies London Center Minor is concerned with the culture of Great Britain from ancient times to the present. The minor is built around the student's program of studies at The Florida State University London Study Center, allowing the student to study British culture from the perspective of various disciplines and to pursue the minor before, during, and after the student attends the London center. The minor gives greater focus to, and enhances the quality of, the student's program of studies in Britain. The sojourn in London is the essential element in the minor, providing direct involvement in contemporary British civilization as well as exposure to Britain's historical and cultural artifacts.

Requirements for a Minor in British Studies

The interdisciplinary minor requires the completion of fifteen (15) semester hours in courses approved by the British Studies London Center Minor coordinating committee. **At least nine (9) semester hours of approved courses must be taken while the student is in residence at the London Study Center.** A maximum of nine (9) semester hours may be counted in any single academic discipline. Students who intend to minor in British Studies should declare this intention with the Senior Admissions/Registration Officer of International Programs at the end of his/her semester in London.

Core Courses

These courses will be counted in the minor whether they are taken on the Tallahassee campus or in London. Descriptions of these courses can be found under the individual departments in which they are taught.

CPO 3123	Comparative Government and Politics: Great Britain (3)
ECO 3303	History of Economic Ideas (3)
ENL 2012	British Authors: Beginnings to 1790 (3)
ENL 2022	British Authors: Early Romantics to the Present (3)
ENL 3210	Medieval Literature in Translation (3)
ENL 3334	Introduction to Shakespeare (3)
ENL 4112	The Eighteenth-Century British Novel (3)

ENL 4122	The Nineteenth-Century British Novel (3)	FOW 3240	Literature and Sexuality (3)
ENL 4132	The Modern British Novel (3)	GEA 1000	World Geography (3)
ENL 4161	Renaissance Drama (3)	GEO 1331	Environmental Science (3)
ENL 4171	Restoration and Eighteenth-Century Drama (3)	GEO 1400	Human Geography (3)
ENL 4220	Renaissance Poetry and Prose (3)	HUM 3321	Multicultural Dimensions of Film and 20th Century Culture (3)
ENL 4230	Restoration and Eighteenth-Century English Literature (3)	HUM 4931r	Topics in the Civilization of Britain or Italy (3)
ENL 4240	British Romantic Literature (3)	IND 4131r	History of Interiors II (3)
ENL 4251	Victorian British Literature (3)	INR 2002	Introduction to International Relations (3)
ENL 4273	Modern British Literature (3)	INR 3502	International Organization (3)
ENL 4311	Chaucer (3)	INR 3603	Theories of International Relations (3)
ENL 4333	Shakespeare (3)	ISS 4931r	Special Topics in Social Science (1–3)
ENL 4341	Milton (3)	LIT 2081	Contemporary Literature (3)
EUH 3501	The Making of Modern England (3)	LIT 2189	Post-Colonial Literature in English (3)
EUH 3532	England, the Empire, and the Commonwealth (3)	LIT 3043	Modern Drama (3)
EUH 4500	England in the Middle Ages (3)	LIT 3383	Women in Literature (3)
EUH 4510	Tudor England (3)	LIT 4033	Modern Poetry (3)
EUH 4512	Stuart England (3)	MUH 2011	Introduction to Music History—Music Appreciation: 18th and 19th Centuries (3)
EUH 4544	Sex and Class in England, 1750–1914 (3)	MUH 2012	Music in Western Culture, 19th and 20th Centuries (3)
LIT 4184	Irish Literature (3)	REL 1300	Introduction to World Religions (3)

Related Courses

These courses may be counted in the minor only when they are taken at the London Study Center.

ANT 2410	Introduction to Cultural Anthropology (3)	REL 3145	Gender and Religion (3)
ANT 2511	Introduction to Physical Anthropology and Prehistory (3)	SYG 2010	Social Problems (3)
ARH 2000	Art, Architecture, and Artistic Vision (3)	THE 2083r	Theatre Problems (3)
ARH 3056	History and Criticism of Art I (3)	THE 3061	Introduction to Theatre in London (3)
ARH 3057	History and Criticism of Art II (3)	THE 3931r	Special Topics (3)
ARH 4353	Northern Baroque Art (3)	THE 4111	European Theatre History II (3)
CLA 2010	Introduction to Greek and Roman Civilization (3)		
CLA 3502	Women, Children, and Slaves in Ancient Rome: The Roman Family (3)		
ECO 2023	Principles of Microeconomics (3)		
ENC 3310r	Article and Essay Workshop (3)		
ENG 3110	Film Genres (3)		
ENG 3931r	Topics in English (1–3)		
ENG 4932r	Studies in English (1–3)		
EUH 2000	Ancient and Medieval Civilizations (3)		
EUH 3420	Rise and Fall of Classical Civilization (3)		
FIL 2001	Introduction to Film (3)		

All other courses, including special topics, directed individual studies, and internships, offered at the London center may be counted provided the British Studies London Center Minor coordinating committee has given prior approval for their inclusion in the minor. In addition, special topics courses offered on The Florida State University campus on a one-time basis may be counted if they are approved by the coordinating committee. To have such courses considered, petition the Coordinating Committee, A5500 University Center.

Department of CHEMICAL ENGINEERING

FAMU—FSU COLLEGE OF ENGINEERING

Chair: Michael H. Peters; *Professors:* Humphries, Locke, Peters; *Associate Professors:* Alamo, Arce, Chella, Palanki, Telotte, Vinals; *Assistant Professors:* Gibbs, Kalu, Malvadkar, Wesson; *Visiting Assistant Professors:* Chin, Ma; *Adjunct Professor:* Schreiber; *Associate in Research:* Finney; *Affiliate Faculty:* Bertram, Chen, Garmestani, Gieslese, Haik

Chemical engineering encompasses the development, application, and operation of processes in which chemical, biological, and/or physical changes of material are involved. The work of the chemical engineer is to analyze, develop, design, control, construct, and/or supervise chemical processes in research and development, pilot-scale operations, and industrial production. The chemical engineer is employed in the manufacture of inorganic chemicals (e.g., acids, alkalis, pigments, fertilizers), organic chemicals (e.g., petrochemicals, polymers, fuels, propellants, pharmaceuticals, speciality chemicals), biological products (e.g., enzymes, vaccines, biochemicals, biofuels), and materials (e.g., ceramics, polymeric materials, paper, biomaterials).

The undergraduate curriculum emphasizes the application of computer analysis in chemical engineering, as well as laboratory instruction in modern, state-of-the-art facilities in the transport phenomena/measurements and unit operations laboratories. In order to meet newly developed interests in chemical engineering and related fields, elective courses are available in bioengineering, polymer engineering, materials engineering, molecular engineering, electrochemical engineering, environmental engineering, and biomedical engineering, with additional courses under development.

The graduate in chemical engineering is particularly versatile. Industrial work may involve production, operation, research, and development. Graduate education in medicine, dentistry, and law, as well as chemical engineering and other engineering and scientific disciplines, are viable alternatives for the more accomplished graduate.

Undergraduate Laboratory and Computational Facilities

Undergraduate teaching laboratories in measurements, transport phenomena, unit operations, and process control are designed to augment classroom instruction. Our undergraduate chemical engineering laboratory experiments

feature a 20 stage distillation column for the study of organic chemical separations, the design and analysis of continuous reactor configurations, and liquid/liquid continuous extraction processes, to name a few. All experiments include computer data control and computer data acquisition systems in order to provide a "real world" experience for our students.

The department has extensive computational and laboratory facilities in a number of areas. In addition to the university computing center facilities accessible by remote terminals, students have access to College of Engineering computer labs that have either timeshared remote terminals using UNIX or desktop personal computers connected to college-wide servers. Within the Department of Chemical Engineering, undergraduate students working on research projects utilize laboratory computer terminals connected to the college servers and PCs dedicated to research use. The department requires the use of computers for data acquisition, process control, experimental design, report writing, and homework problem calculations in the chemical engineering curriculum.

Areas of Study (Majors)

Five diverse areas of study are offered by the department. These major options (chemical, environmental, bioengineering, materials, and biomedical engineering) reflect new directions in the broader field of chemical engineering.

Chemical. The most common major, it prepares students for employment or further study in traditional areas of chemical engineering.

Environmental. Chemical engineers will play a pivotal role in developing future pollution prevention strategies by improving and replacing current products and processes. Upcoming efforts will focus on integrating the design and production of goods with their ultimate disposal and reuse. Chemical engineers will provide the means to not only prevent pollution, but move to the concept of creating a sustainable society where most products are recycled repeatedly.

Bioengineering. Biochemical engineering is a highly interdisciplinary field that has arisen from the application of chemical engineering principles to the production of materials derived from living systems. A number of processes and products, including fermentation for making alcohols and various foods, the efficient use of enzymes for tanning leather, the use of bacteria for biological waste treatment, and the production of antibiotics from mold culture, have been developed and utilized in the past. Bioengineering combines biochemical engineering with other aspects of life sciences applied to engineering, such as pharmacology and biotechnology.

Materials. Chemical engineers have extensively developed and studied the molecular structures and dynamics of materials—including solids, liquids, and gases—in order to develop macroscopic descriptions of the behav-

ior of such materials. In turn, these macroscopic descriptions have allowed the construction and analysis of unit processes that facilitate desired chemical and physical changes. This constant interplay between molecular scale understanding and macroscopic descriptions is unique and central to the field of chemical engineering.

Biomedical Engineering. Biomedical engineering concerns the application of chemical engineering principles and practices to large scale living organisms, most specifically human beings. As one of the newest subdisciplines of chemical engineering, the field is a rapidly evolving one involving chemical engineers, biochemists, physicians, and other health care professionals. Biomedical research and development is carried out at universities, teaching hospitals, and private companies, and it focuses on conceiving new materials and products designed to improve or restore bodily form or function. Biomedical engineers are employed in diverse areas such as artificial limb and organ development, genetic engineering research, development of drug delivery systems, and cellular and tissue engineering. A bachelor's degree can provide employment opportunities in biotechnology companies, hospitals and clinics, and governmental research and monitoring laboratories. A biomedical engineering undergraduate degree provides background for graduate and/or medical school, especially in view of the increasing technological complexity of medical education. Many chemical engineering professionals are engaged in medical research to model living organisms (pharmacokinetic models), and to make biomedical devices (e.g., drug delivery capsules, synthetic materials, and prosthetic devices). Because of increasing interest in this field of study, the major in Biomedical Engineering also provides an avenue for students interested in pursuing a career in medicine, biotechnological patent law, or biomedical product sales and services.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. ENC 1101;
2. ENC 1102;
3. MAC 2311*;
4. MAC 2312*;
5. MAC 2313*;

6. MAP 2302;
7. CHM 1045/1045L*;
8. PHY 2048/2048L;
9. PHY 2049/2049L;
10. Six (6) semester hours in humanities;
11. Six (6) semester hours in social science;
12. Three (3) additional semester hours in humanities **or** social science.

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Requirements for a BS Degree in Chemical Engineering

A program of study encompassing at least one hundred thirty-one (131) semester hours is required for the bachelor of science (BS) degree in chemical engineering. A candidate for the bachelor's degree is required to earn a "C–" or better in all engineering courses, and must achieve a 2.0 grade point average (GPA) in the forty-five (45) semester hours of chemical engineering major courses. In addition, students must achieve a grade of "C–" or better in all courses transferred into the Department of Chemical Engineering. Students should contact the department for the most up-to-date information concerning the chemical engineering curriculum requirements.

Five majors exist within the chemical engineering bachelor's degree program. These include chemical engineering, environmental engineering, bioengineering, materials engineering and biomedical engineering. Most of the curriculum is common to all five majors, and includes topics in liberal studies, mathematics, basic science, computer science, advanced chemistry, general engineering science, and chemical engineering science and design. History/social science and humanities/fine arts electives are to be selected to satisfy the liberal studies requirement and the College of Engineering's social science and humanities national accreditation (ABET) requirement. Students in all five majors should successfully complete the following courses in addition to the liberal studies, other University, and College of Engineering requirements:

Math and Science Prerequisites

MAC 2311	Calculus with Analytic Geometry I (4)
MAC 2312	Calculus with Analytic Geometry II (4)
MAC 2313	Calculus with Analytic Geometry III (5)
MAP 3305	Engineering Mathematics I (3)
or	
ECH 3301	Introduction Process Analysis and Design for Chemical Engineers (3)

CHM 1045	General Chemistry I (3)
CHM 1045L	General Chemistry I Laboratory (1)
CHM 1046	General Chemistry II (3)
CHM 1046L	General Chemistry II Laboratory (2)
PHY 2048C	General Physics A (5)
PHY 2049C	General Physics B (5)
ECO 2023	Economics of the Price System (3)
CGS 3408	C for Nonspecialists (3)
or	
CGS 3460	FORTRAN for Nonspecialists (3)
or	
ECH 3801	Computer Applications in Chemical Engineering (3)

Advanced Chemistry

CHM 2210	Organic Chemistry I (3)
CHM 2211	Organic Chemistry II (3)
CHM 4410	Physical Chemistry I (3)
CHM 4410L	Physicochemical Measurements and Techniques I (1)
CHM 4411	Physical Chemistry II (3)
CHM XXXX	Advanced Chemistry Elective (3)

General Engineering

EGN 1004L	First Year Engineering Lab (1)
EGM 3512	Engineering Mechanics (4)
EEL 3003	Introduction to Electrical Engineering (3)
EEL 3003L	Introduction to Electrical Engineering Laboratory (1)

Chemical Engineering Science and Design

ECH 3023	Mass and Energy Balances (4)
ECH 3101	Chemical Engineering Thermodynamics (3)
ECH 3266	Introductory Transport Phenomena (3)
ECH 3274L	Transport Phenomena I Laboratory (3)
ECH 3418	Separations Processes (3)
ECH 3854	Chemical Engineering Computations (3)
ECH 4323	Process Control (3)
ECH 4323L	Process Control Laboratory (1)
ECH 4404L	Unit Operations Laboratory (3)
ECH 4504	Kinetics and Reactor Design (3)
ECH 4604	Chemical Engineering Process Design I (4)
ECH 4615	Chemical Engineering Process Design II (3)
ECH 4XXX	Chemical Engineering Electives (6) [3 for Biomedical Engineering majors]

Major Requirements

In addition to the courses listed above that are required for all majors, the following courses are specifically required for each of the four majors.

Major in Chemical Engineering

Advanced Chemistry Elective. The advanced chemistry elective is to be selected from the following courses offered in the Department of Chemistry and Biochemistry, or selected other courses in either chemical engineering or biological science specifically approved by the Chair of the Department of Chemical Engineering.

CHM 2211L	Organic Chemistry II Laboratory (3)
or	
CHM 3120C	Introduction to Analytical Chemistry (4)
or	
CHM 4135C	Instrumental Analysis (3)
or	
BCH 4053	General Biochemistry I (3)

Chemical Engineering Electives. The two chemical engineering electives (three [3] semester hours each) are to be selected from the 4000 level elective courses offered in the Department of Chemical Engineering.

Major in Chemical Engineering—Environmental

Advanced Chemistry Elective

CHM 3120C	Introduction to Analytical Chemistry (4)
or	
CHM 4135C	Instrumental Analysis (3)

Chemical Engineering Electives

ECH 4781	Chemical Engineering Environmental (3)
and	
BSC 2010	Biological Science I (3)
BSC 2010L	Biological Science I Laboratory (1)
or	
GLY 2010C	Physical Geology (4)

Major in Chemical Engineering—Bioengineering

Advanced Chemistry Elective

BCH 4053	General Biochemistry I (3)
----------	----------------------------

Chemical Engineering Electives

ECH 4743	Chemical Engineering Bioengineering (3)
----------	-----------------------------------------

and

BSC 2010 Biological Science I (3)

BSC 2010L Biological Science I
Laboratory (1)

or

MCB 2013 Microbiology (3)

Major in Chemical Engineering—Materials

Advanced Chemistry Elective

CHM 3120C Introduction to Analytical
Chemistry (4)

or

CHM 4135C Instrumental Analysis (3)

Chemical Engineering Electives

One of

ECH 4823 Introduction to Polymer Science
and Engineering (3)

or

ECH 4824 Chemical Engineering
Materials (3)

or

ECH 4937 Special Topics in Chemical
Engineering [Molecular
Engineering] (3)

or

ECH 4937 Special Topics in Chemical
Engineering [Polymers] (3)

and one of

EML 3234 Materials Science and
Engineering (3)

or

PHY 3101 Modern Intermediate
Physics (3)

or

PHY 3221 Intermediate Mechanics (3)

or

a second course from the choices above [ECH 4823,
4824, or 4937] (3).

Major in Biomedical Engineering

Biological Science Prerequisite

BSC 2010 Biological Science (3)

BSC 2010L Biological Science I
Laboratory (1)

Psychology Liberal Studies Course

PSY 2012 General Psychology (3)

Advanced Chemistry Elective

BCH 4053 General Biochemistry I (3)
(CHM 4411, Physical Chemis-
try II is not required for the
biomedical major)

Chemical & Biomedical Engineering Science and Design

BSC 2085 Anatomy and Physiology I (3)

BSC 2086 Anatomy and Physiology II (3)

Biomedical Engineering Elective (take one)

ECH 4741 Biomedical Engineering (3)

ECH 4743 Chemical Engineering/
Bioengineering (3)ECH 4904 Undergraduate Research Project
(1–3) [for a total of 9 credits]ECH 4906 Honors Work in Chemical
Engineering (1–3) [for a total
of 6 credits]

Pre-Med Electives (recommended)

BCH 4054 General Biochemistry II (3)

BSC 2011, 2011L Biological Science II
w/ Lab (3,2)

CHM 2211L Organic Chemistry II Lab (3)

PCB 3063 General Genetics (3)

PCB 3743 Vertebrate Physiology (3)

Undergraduate Research Program (URP)

The Department of Chemical Engineering offers an Undergraduate Research Program (URP) in chemical engineering to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. The program is two-tiered, with those students meeting a more stringent set of academic requirements being admitted to the Honors in the major (Chemical Engineering) program. For requirements and other information, contact the department, and see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Definition of Prefix

BME — Biomedical Engineering

ECH — Chemical Engineering

Undergraduate Courses

ECH 2050. Chemical Engineering Communications (2). Techniques for effective oral communication in settings most frequently encountered by the practicing engineer. Speaking skills will be applied in informal presentations, formal presentations, and interviews.

ECH 3023. Mass and Energy Balances (4). Prerequisites: CHM 1046; MAC 2312; Corequisites: CHM 2210; CGS 3408 or 3460; MAC 2313; PHY 2048C. This course examines material and energy balances on chemical process systems and process measurements and development of problem solving methodologies in mass and energy balances.

ECH 3032. Engineering Ethics (3). Prerequisite: junior standing in engineering. This course introduces the key theories, concepts, principles, and methodology relevant to the development of professional engineering ethics. The student will be guided in his/her development of a code of professional ethics through written work, class discussion and case analysis.

ECH 3101. Chemical Engineering Thermodynamics (3). Prerequisites: ECH 3023 and 3264 with grades of "C–" or better; MAP 3305; PHY 2049C; Corequisites: CHM 4410; ECH 3265. Energy balances and entropy analysis for systems of chemical engineering interest. Computer calculations involving real fluids, mixtures, phase equilibrium, and chemical equilibrium.

ECH 3264. Transport Phenomena I (3). Prerequisites: MAC 2313; CHM 1046; and either CGS 3408 or 3460; Corequisites: ECH 3023; MAP 3305; PHY 2049C. Theory and applications of momentum transfer analysis. Basic theory, velocity profile calculations, and design of fluid flow equipment.

ECH 3265. Transport Phenomena II (3). Prerequisites: MAP 3305; PHY 2049C; ECH 3264 with a grade of "C" or better. Corequisites: CHM 4410; ECH 3101; EEL 3003, 3003L. Theory and applications of heat transfer analysis. Temperature profile calculations and design of heat transfer equipment.

ECH 3266. Introductory Transport Phenomena (3). Prerequisites: CHM 2210; ECH 3023 and 3101, both with a "C–" or better; EGM 3512; MAP 3305. Corequisite: 3418. This course examines integral balance equations for conservation of momentum, energy and mass. Topics include the following: application to chemical processes involving fluid flow and heat and mass transfer; estimation of friction factors, and heat and mass transfer coefficients; pump selection and sizing and piping network analysis; and design of heat exchangers.

ECH 3274L. Measurements and Transport Phenomena Laboratory (3). Prerequisites: CHM 4410; ECH 2050, 3265; Corequisite: ECH 4403. Course reinforces principles of physical property measurement and transport phenomena through a series of laboratory experiments. The main emphasis of the course is placed on the written and oral communication of the lab results. There will be lecture material pertaining to the analysis of data, numerical and error analysis, and design of experiments.

ECH 3301. Introduction to Process Analysis and Design for Chemical Engineers (3). Prerequisite: MAC 2313. This course will examine the development of process models for equilibrium and dynamic systems, including stagewise processes, that arise in chemical engineering applications, and their analysis using exact and appropriate techniques.

ECH 3418. Separations Processes (3). Prerequisites: CHM 2210; ECH 3023 and 3101, both with a "C–" or better; EGM 3512; MAP 3305. Corequisite: ECH 3266. This course examines the principles of equilibrium and transport-controlled separations. Topics include analysis and design of stagewise and continuous separation processes, including distillation, absorption, extraction, filtration, and membrane separations.

ECH 3801. Computer Applications in Chemical Engineering (3). Prerequisite: MAC 2311. This course is an introduction to computational tools available for the solution of chemical engineering problems. The primary focus will be on the use of spreadsheets, high-level programming languages such as MATLAB, and computer algebra systems such as Maple in chemical engineering applications. This course also will provide an introduction to the use of chemical process simulators.

ECH 3854. Chemical Engineering Computations (3). Prerequisites: ECH 3264; either CGS 3408 or CGS 3460; MAP 3305. Introduction to the central concepts of practical chemical engineering techniques using computers for solving chemical engineering problems. Includes solution of equations in one variable, interpolation and polynomial approximation, numerical differentiation and integration, initial value problems for ordinary differential equations, direct methods for solving linear systems, iterating techniques in matrix algebra, and numerical solution of nonlinear systems of equations.

ECH 3949r. Cooperative Work Experience (0). (S/U grade only.)

ECH 4323. Process Control (3). Prerequisites: ECH 4504, 4604. A systematic introduction to dynamic behavior and automatic control of industrial processes. Synthesis of feedback control loops for linear systems and synthesis of control structures.

ECH 4323L. Process Control Laboratory (1). Corequisite: ECH 4323. Experiments designed to illustrate and apply control theory, measurement techniques, calibration, tuning of controls, characterization of sensors, and control circuits.

ECH 4403. Transport Phenomena III (3). Prerequisites: ECH 3101, 3265; CHM 4410; Corequisites: ECH 3264L; EGM 3512; CHM 4411. Principles of mass transfer theory, and the practical applications and design of mass transfer operations.

ECH 4404L. Unit Operations Laboratory (3). Prerequisites: ECH 3264L, 4403. Familiarizes students with the principles taught in ECH 4403. Preparing experimental plans and doing the required experimental work with unit operations equipment to meet specific objectives. Emphasis is on computer data analysis and on oral/written communication skills.

ECH 4504. Kinetics and Reactor Design (3). Prerequisites: ECH 3264L, 4403; Corequisite: ECH 4604. Homogeneous and heterogeneous reaction kinetics, analysis of batch, mixed, plug, and recycle reactors. Analysis of multiple reactions and multiple reactors, reactor temperature control, and catalytic reactor design.

ECH 4604. Chemical Engineering Process Design I (4). Prerequisites: ECH 3264L, 4403; ECO 2023; Corequisite: ECH 4504. Engineering economics review and cost-estimation techniques. Design of chemical process equipment. Computer-aided design calculations.

ECH 4615. Chemical Engineering Process Design II (3). Prerequisites: ECH 4504, 4604. Design of chemical process facilities and computer-aided design. An individual design project is completed by each student.

ECH 4627. Advanced Transport Phenomena (3). Prerequisites: ECH 3266, 3418. Corequisite: ECH 3274L. This course examines the following topics: molecular mechanisms for momentum, heat, and mass transport; differential balance equations for conservation of momentum, energy and mass; application of steady and unsteady-state chemical processes involving diffusive and convective mass transfer in solids, liquids and gases; interphase transfer mechanisms; and boundary layer theory and turbulent transport.

ECH 4702. Semiconductor Processing Operations (3). Prerequisite: Senior standing in chemical engineering. An introduction to semiconductor properties and processing operations. Emphasis is placed on engineering analysis of crystal growth and processing operations involved in the fabrication of integrated circuits.

ECH 4741. Biomedical Engineering (3). Prerequisite: Senior standing in chemical engineering. An introduction to the field of biomedical engineering with particular emphasis on the general engineering role. Emphasis is placed on hemodynamics, human physiology, pharmacodynamics, artificial organs, biomaterials, biomechanics, and clinical engineering.

ECH 4743. Chemical Engineering/Bioengineering (3). Prerequisite: Senior standing in chemical engineering; Corequisite: ECH 4504. Introduction to the major principles of the life sciences (microbiology, biochemistry, biophysics, genetics) that are important for biotechnological applications. Extension of the chemical engineering principles of kinetics, reactor design, heat and mass transport, thermodynamics, process control, and separation processes to important problems in bioengineering.

ECH 4781. Chemical Engineering/Environmental (3). Prerequisite: ECH 4403; Corequisite: ECH 4504. Introduction to applications of environmental engineering from a chemical engineering perspective. Thermodynamics, stoichiometry, chemical kinetics, transport phenomena, and physical chemistry are utilized in addressing pollution control and prevention processes. Analysis of particle phenomena, including aerosols and colloids. Applications of fundamentals to analyze gas and liquid waste treatment processes.

ECH 4823. Introduction to Polymer Science and Engineering (3). Prerequisite: Senior standing in chemical engineering. Introduction to the physical chemistry, reaction kinetics, reaction engineering, and processing of polymeric systems.

ECH 4824. Chemical Engineering Materials (3). Prerequisite: Senior standing in chemical engineering. Introduction to materials science and engineering from a chemical engineering perspective. Fundamentals of engineering materials, including polymers, metals, and ceramics are studied. Emphasis is placed on the strong interrelationship between materials structure and composition, synthesis and processing, and properties and performance.

ECH 4904r. Undergraduate Research Project (1–3). Prerequisites: ECH 3101, 3265. Corequisite: ECH 4403. This course consists of independent research on a topic relevant to chemical engineering. May be repeated to a maximum of nine (9) semester hours.

ECH 4905r. Directed Individual Study (1–3). Prerequisite: Senior standing in chemical engineering. May be repeated to a maximum of twelve (12) semester hours.

ECH 4906r. Honors Work in Chemical Engineering (1–3). Prerequisite: Acceptance in honors program. May be repeated to a maximum of six (6) semester hours.

ECH 4937r. Special Topics in Chemical Engineering (1–3). Prerequisite: Senior standing in chemical engineering. Topics in chemical engineering with emphasis on recent developments. May be repeated to a maximum of twelve (12) semester hours.

Graduate Courses

BME 5005. Engineering and Applied Science Aspects of Biology and Medicine (3).

BME 5020. Biophysical Chemistry and Biothermodynamics (3).

BME 5030. Biochemical Transport Phenomena (3).

BME 5105. Biomaterials (3).

BME 5385. Animal Surgical Techniques (3).

BME 5500. Biomedical Instrumentation (3).

BME 5905r. Directed Individual Study (1–3).

BME 5910. Supervised Research (3). (S/U grade only.)

BME 5935r. Biomedical Engineering Seminar (0). (S/U grade only.)

BME 5937r. Special Topics in Biomedical Engineering (3).

BME 5971r. Thesis (1–9). (S/U grade only.)

BME 6210. Biomechanics of Human Structure and Motion (3).

BME 6330. Tissue Engineering (3).

BME 6530. NMR and MRI Methods in Biology and Medicine (3).

BME 6550. Computer Aided Design and Control in Medicine and Surgery (3).

BME 6720. Biostatistical Mechanics (3).

BME 6938r. Special Topics in Biomedical Engineering (3).

BME 6980r. Dissertation (1–9).

BME 8965r. Doctoral Qualifying Exam (0).

BME 8976. Thesis Defense (0). (S/U grade only.)

BME 8985. Dissertation Defense (0). (S/U grade only.)

ECH 5052. Research Methods in Chemical Engineering (3).

ECH 5126. Advanced Chemical Engineering Thermodynamics I (3).

ECH 5128. Advanced Chemical Engineering Thermodynamics II (3).

ECH 5261. Advanced Transport Phenomena I (3).

ECH 5262. Advanced Transport Phenomena II (3).

ECH 5263r. Special Topics in Transport Phenomena (3).

ECH 5325. Advanced Process Control (3).

ECH 5526. Advanced Reactor Design (3).

ECH 5626. Chemical Process Optimization (3).

ECH 5740. Fundamentals of Biomolecular Engineering (3).

ECH 5784. Chemical Engineering Environmental (3).

ECH 5828. Introduction to Polymer Science and Engineering (3).

ECH 5840. Advanced Chemical Engineering Mathematics I (3).

ECH 5841. Advanced Chemical Engineering Mathematics II (3).

ECH 5852. Advanced Chemical Engineering Computations (3).

ECH 5905r. Directed Individual Study (1–3).

ECH 5910. Supervised Research (3). (S/U grade only.)

ECH 5934r. Special Topics in Chemical Engineering (3).

ECH 5935r. Chemical Engineering Seminar (0). (S/U grade only.)

ECH 5971r. Thesis (1–12). (S/U grade only.)

ECH 6127. Phase Equilibria (3).

ECH 6272. Molecular Transport Phenomena (3).

ECH 6283. Microrheology (3).

ECH 6506. Chemical Engineering Kinetics (3).

ECH 6536. Surface Science and Catalysis (3).

ECH 6848. Operator-Theoretic Methods in Engineering Sciences (3).

ECH 6980r. Dissertation (1–24). (S/U grade only.)

ECH 8965r. Doctoral Preliminary Exam (0). (S/U grade only.)

ECH 8976. Thesis Defense (0). (S/U grade only.)

ECH 8985. Dissertation Defense (0). (S/U grade only.)

Department of CHEMISTRY AND BIOCHEMISTRY

COLLEGE OF ARTS AND SCIENCES

Chair: Naresh Dalal; *Professors:* Allen, Cioslowski, Clark, Cross, Dalal, Dorsey, Dougherty, Fulton, Gilmer, Holton, Krafft, Light, Mann, Marshall, Rill, Safron, Saltiel, Schlenoff, Schwartz, Vickers; *Service Professor:* Rhodes; *Associate Professors:* Blaber, Chapman, Cooper, Dahmen, Goldsby, Hilinski, Logan, Stiegman; *Assistant Professors:* Alabugin, Gelb, Greenbaum, Li, Sang, Steinbock; *Visiting Assistant Professor:* Kurosu; *University Professor:* Kasha; *Coordinator of General Chemistry Laboratories:* Pulliam; *Coordinator of Upper Division Chemistry Laboratories:* Ward; *Professors Emeriti:* Choppin, DeTar, Herz, Johnsen, Leffler, Linder, Mandelkern, Mellon, Sheline, Walborsky; *Professor Emerita:* Hoffman

The Department of Chemistry and Biochemistry offers the undergraduate degrees of bachelor of science (BS) and bachelor of arts (BA) in chemistry, biochemistry, and chemical science. Students seeking BS or BA degrees in chemistry may major in chemistry or environmental chemistry.

A degree in chemistry or biochemistry is suitable preparation for a variety of career choices, including immediate employment in the chemical, biochemical, environmental, and related industries, or graduate study in chemistry, biochemistry, chemical physics, biophysics, or medicine. Students in this category should take note of the possibility of earning certification by the American Chemical Society in completing their degree requirements. Details of this program are given below. Additional work in mathematics and physics is appropriate for students planning to conduct graduate work in physical chemistry and chemical physics. For those interested in graduate work in biochemistry or biophysics, the baccalaureate degree in biochemistry or the degree in chemistry with electives including BCH 4053, 4054, and selected biology courses is recommended. Students interested in careers in the environmental sciences, ecology and ecosystem management, and environmental toxicology are encouraged to obtain chemistry degrees with a major in environmental chemistry. In every case students should plan their programs in consultation with an academic advisor. Normally students begin taking courses required for the major in the first year, and it is important to consult with a chemistry advisor as early as possible.

The baccalaureate degree in chemical science is offered to meet the needs of those students whose career goals lie outside chemistry but require a strong foundation in science. This program is appropriate, for example, for a student interested in anthropology, medical technology, oceanography, the earth sciences, food sci-

ences, or criminology, or for students planning a career in business, public policy or law with an emphasis in technology. Compared to the other degree programs in chemistry, this program has a smaller core of required courses to which students are expected to add elective work in other areas after consultation with their advisor. **The chemical science degree is not appropriate for students interested in graduate study in chemistry or closely related disciplines such as biochemistry, environmental chemistry or marine chemistry, or for students seeking employment in the chemical industry immediately upon graduation.**

Honors in the Major

The Department of Chemistry and Biochemistry offers honors in the major to encourage students to undertake independent and original research. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin* and the Chemistry Undergraduate Information Packet available from the Student Affairs Office, 208 Hoffman Teaching Laboratory, or the departmental web page.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for these University degree programs. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

Chemistry

1. CHM 1045/1045L or CHM 1040 and CHM 1041 or CHM 1045C or CHM 1045E;
2. CHM 1046/1046L or CHM 1046C or CHM 1046E;
3. MAC 2311 or MAC 2281;
4. MAC 2312 or MAC 2282;
5. Choose one of the following sequences:
 - a) CHM 2210/2210L and CHM 2211/2211L or CHM 2210C and CHM 2211C;

or

- b) PHY 2048/2048L and PHY 2049/2049L or PHY 2048C and PHY 2049C or PHY 2053C or PHY 2053/2053L and PHY 2054C or PHY 2054/2054L.

Biochemistry

1. BSC 1010/1010L and BSC 1011L or PCB X010 or PCB X011 or PCB X021 or PCB X131 or BSC X040 or BSC 2012 or ZOO 2010 or BOT 1010 or BSC X041 or BOT 2013;
2. CHM 1045/1045L;
3. CHM 1046/1046L;
4. CHM 2210/2210L*;
5. CHM 2211/2211L*;
6. MAC X312*.

Chemical Sciences

1. CHM 1045/1045L or CHM 1040 and CHM 1041 or CHM 1045C or CHM 1045E;
2. CHM 1046/1046L or CHM 1046C or CHM 1046E;
3. MAC 2311;
4. Choose one of the following sequences:
 - a) CHM 2210/2210L* and CHM 2211/2211L;

or

 - b) PHY 2053C and PHY 2054C.

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Requirements

Please review all college-wide degree requirements, including the foreign language requirement, summarized in the "College of Arts and Sciences" section of this *General Bulletin*.

Note: the University requires that students demonstrate certain computer competencies. Chemistry students are encouraged to complete this competencies requirement during their freshman year.

The bachelor of arts (BA) degree can be obtained by completion of the bachelor of science (BS) degree requirements plus additional courses required by the University as set forth in the "Undergraduate Degree Requirements" section of this *General Bulletin*.

Students who expect to transfer to The Florida State University should note that all chemistry courses at the 4000 level applied toward any of the department's majors must be taken at The Florida State University unless specifically exempted by the chair by written request.

Prospective majors should note the mathematics and physics requirements. To allow optimal flexibility in planning the upper-division programs, fulfillment of the mathematics requirements should be started in the freshman year. Chemistry, biochemistry, and environmental chemistry majors are required to take General Physics A and B (PHY 2048C and PHY 2049C) as preparation for Physical Chemistry I and II (CHM 4410 and CHM 4411). Chemical science majors may meet the physics re-

quirement with either the calculus-based or non-calculus-based (PHY 2053C and PHY 2054C) physics sequence.

The calculus courses required for the chemistry major constitute a minor in mathematics, and no other minor is necessary. The calculus and calculus-based physics courses required for the environmental chemistry major constitute an interdepartmental minor approved by the Department of Chemistry and Biochemistry. The biology courses required for the baccalaureate degree in biochemistry constitute a minor in biological sciences. The baccalaureate degree in chemical science must include a minor of twelve (12) semester hours in an approved minor field or fifteen (15) semester hours in an interdepartmental minor approved by the Department of Chemistry and Biochemistry. No courses used for satisfying liberal studies requirements may also be counted toward the minor.

Final clearance for all majors is made by the Department of Chemistry and Biochemistry. Graduating students must schedule an exit interview with the Chair of the Undergraduate Curriculum and Advising Committee. The purpose of the interview is to ensure that the final degree requirements are met that term and to discuss the information requested in the exit survey. The department will not approve graduation without an exit interview.

Academic Performance

No required course in which a student has earned a grade below "C-" may be applied toward any of the degrees in chemistry. Students must also make a "C-" or better in the first semester of a year sequence course (or obtain the instructor's permission) to continue the sequence. A student who has received more than five unsatisfactory grades (U, F, D-, D, D+) in courses required for a major offered by the Department of Chemistry and Biochemistry (chemistry, mathematics, physics, biological science, or approved outside elective) at The Florida State University or elsewhere, whether or not repeated, will not be permitted to graduate with a degree in that major.

Baccalaureate Degree in Chemistry

Major in Chemistry

Complete the two-semester sequences in general chemistry (CHM 1045, 1045L, 1046, 1046L, or CHM 1050, 1050L, 1051, 1051L); organic chemistry (CHM 2210, 2211, 2211L); physical chemistry (CHM 4410, 4410L, 4411, 4411L); analytical chemistry (CHM 3120C, 4130C); and one semester of inorganic chemistry (CHM 4610) and the associated laboratory (CHM 4610L). Also required are mathematics through calculus III and two semesters

of calculus-based physics. The physics and math requirements should be met before taking physical chemistry.

Major in Environmental Chemistry

Complete the two-semester sequences in general chemistry (CHM 1045, 1045L, 1046, 1046L, or CHM 1050, 1050L, 1051, 1051L); organic chemistry (CHM 2210, 2211, 2211L); physical chemistry (CHM 4410, 4410L, 4411, 4411L); analytical chemistry (CHM 3120C, 4130C or 4135C); and two semesters of advanced work in chemistry of the environment, including some aspects of aquatic, atmospheric and geological chemistry. Field work and modeling in environmental systems are encouraged as a part of this advanced work. A list of appropriate courses that satisfy the advanced chemistry of the environment requirement may be obtained from the environmental chemistry advisor or the departmental web page. Also required are mathematics through calculus II, two semesters of calculus-based physics, two semesters of either biology or geology (at least one of these courses must include a lab), and one semester of computer programming, numerical modeling, advanced statistics, or calculus III. Calculus III is strongly recommended as preparation for physical chemistry. The physics and math requirements should be met before taking physical chemistry.

American Chemical Society Certification

Students obtaining baccalaureate degrees in chemistry may obtain certification from the American Chemical Society (ACS). Certification requires completion of the core chemistry curriculum listed above, plus two additional upper-level chemistry courses. Independent research taken as CHM 4905r, Directed Individual Study, or 4906r, Honors Work, may be counted as upper-level chemistry courses, provided that a final report is written by the student. Students planning to obtain ACS certified degrees should have their program of studies approved by an advisor in the department.

Baccalaureate Degree in Biochemistry

Students must complete the two semester sequences in general chemistry (CHM 1045, 1045L, 1046, 1046L, or CHM 1050, 1050L, 1051, 1051L); organic chemistry (CHM 2210, 2211, 2211L); physical chemistry (CHM 4410, 4411); analytical chemistry (CHM 3120C, 4130C or 4135C); and biochemistry (BCH 4053, 4054) along with **one** of the following laboratories: physical chemistry (CHM 4410L and 4411L), biochemistry (BCH 4053L), or honors research (CHM 4906r). Mathematics through calculus II and two semesters of calculus-based physics are also required and

should be completed before taking physical chemistry. Calculus III is strongly recommended as preparation for physical chemistry. Further, a minimum of thirteen (13) semester hours of biology is required including general biology (BSC 2010, 2010L, 2011, 2011L); genetics (PCB 3063); and a biology elective from a list obtained from the biochemistry advisor or the departmental web page.

Baccalaureate Degree in Chemical Science

Complete the two-semester sequences in general chemistry (CHM 1045, 1045L, 1046, 1046L, or CHM 1050, 1050L, 1051, 1051L); organic chemistry (CHM 2210, 2211, 2211L); analytical chemistry (CHM 3120C, 4130C or 4135C); physical chemistry (CHM 3400 or both CHM 4410 and 4411); mathematics through calculus I; and a two-semester sequence in physics, either with or without the use of calculus. **Chemistry, biochemistry and environmental chemistry majors cannot double major in chemical science.**

Suggested Specialized Electives for Chemical Science

Premedicine

Students intending to study medicine are advised to satisfy the minimum requirements with BSC 2010, 2010L, 2011, 2011L; CHM 2210, 2211, 2211L; and PCB 3063. These students should prepare programs of study in consultation with premedical advisors in the Department of Chemistry and Biochemistry and with the College of Medicine.

Oceanography

Students intending to specialize in oceanography are advised to substitute CHM 4130C for 4135C and to include OCE 4011 in the program of studies, along with selected electives in biological and earth sciences (e.g., GLY 4240; OCC 5050).

Business

The baccalaureate degree in chemical science with a minor in business can prepare students for management and marketing positions in the chemical and other technical industries and also provide a strong technical background for students interested in entering programs such as that for the master of business administration (MBA) degree. Suggested minor courses are at least one course each in accounting, management, marketing, and finance and one or more business electives. In addition, courses in economics and behavioral science (satisfying liberal studies social sciences requirement) and in computer programming, statistics, and written composition beyond

basic English are recommended. Consult with the undergraduate advisor in the Department of Chemistry and Biochemistry and with a representative of the College of Business in preparing a specific program.

Requirements for a Minor in Chemistry

The requirements for a minor in chemistry include the two-semester sequence in general chemistry, CHM 1045/1045L, 1046/1046L or CHM 1050/1050L, 1051/1051L, and at least one of the following courses or course sequences: CHM 2210–2211, CHM 3120C, CHM 3400, CHM 4410–4411. A minimum of thirteen (13) semester hours is required, at least four (4) semester hours of which must be taken at The Florida State University. Grades below “C–” will not be accepted for minor credit.

Advanced Placement in Chemistry

Students with an Advanced Placement (AP) score of 3 will receive four (4) semester hours of credit in CHM 1020/1020L; an AP score of 4 earns the student credit for CHM 1045 and 1045L; an AP score of 5 earns the student credit for CHM 1045/1045L and CHM 1046/1046L. Students with an AP score of 3 are eligible to take a departmental placement exam for CHM 1045/1045L. Students with an AP score of 5 should be interviewed for placement beyond 1046L.

International Baccalaureate Diploma

International Baccalaureate (IB) diploma holders with a score of 4 will receive four (4) semester hours of credit in CHM 1020/1020L. Those with a score of 5 or higher will earn credit for CHM 1020/CHM 1020L and CHM 1045/1045L.

Policy on Reduced Credit

Students should register for reduced credit if CHM 1030 is taken after passing CHM 1020, if CHM 1045 is taken after passing CHM 1020, or if CHM 1045 is taken after passing CHM 1030, as indicated in the following table:

Sequence of Lecture Courses Taken:	Semester Hours Awarded for Each Course:		
	CHM 1020	CHM 1030	CHM 1045
CHM 1020 only	3	—	—
CHM 1030 only	—	3	—
CHM 1045 only	—	—	3

CHM 1020, then 1030	3	2	—
CHM 1020, then 1045	3	—	2
CHM 1020, then 1030, then 1045	3	2	1
CHM 1030, then 1045	—	3	2

Note: if the student has taken CHM 1020L, credit is not reduced for CHM 1045L; however, if the student goes on to take CHM 1046, credit for CHM 1046L is reduced from two (2) semester hours to one (1) semester hour.

Sequence of Lab Courses Taken:	Semester Hours Awarded for Each Course:		
	CHM 1020L	CHM 1045L	CHM 1046L
CHM 1020L only	1	—	—
CHM 1045L only	—	1	—
CHM 1020L, then 1045L	1	1	—
CHM 1045L, then 1046L	—	1	2
CHM 1020L, then 1045L and 1046L	1	1	1

Note: CHM 1020 and 1030 are not preparatory courses for CHM 1045 and should not normally be taken prior to beginning the general chemistry sequence.

Definition of Prefixes

BCH	—	Biochemistry
CHM	—	Chemistry
CHS	—	Chemistry—Specialized
ISC	—	Interdisciplinary Natural Science
PSC	—	Physical Science
SCE	—	Science Education

Undergraduate Courses

General Chemistry

CHM 1020. Chemistry for Liberal Studies (3). Intended to provide the non-science major with an introductory study of chemistry principles without an extensive use of mathematics. This course is designed for students who wish to fulfill the liberal studies science requirement with chemistry and will take no further chemistry courses. This course is not designed as a preparatory course for CHM 1045. Major topics include elementary atomic theory, gas laws, states of matter. Credit not allowed for CHM 1020 after taking CHM 1030, 1045, or equivalent.

CHM 1020L. Chemistry for Liberal Studies Laboratory (1). Prerequisite or Corequisite: CHM 1020. Laboratory, two (2) hours. Credit allowed after taking CHM 1045, but not after passing 1045L. Laboratory emphasizing major topics from CHM 1020: quantitative observations, properties of matter, separation of mixtures.

CHM 1030. Survey of General Chemistry (3). Lecture. Prerequisite: MAC 1105. The first course in general chemistry for students in nursing, nutrition and fitness, and other areas requiring a short course leading to CHM 2200C. Students taking CHM 1030 after taking CHM 1020

should contact a chemistry advisor to register for reduced credit. Credit not allowed for CHM 1030 after taking CHM 1045 or equivalent.

CHM 1045. General Chemistry I (3). Lecture, three (3) hours per week, and recitation, one (1) hour. Prerequisite: MAC 1105 with a grade of “C–” or higher or placement beyond MAC 1105 on the University’s math department exam. Corequisite: CHM 1045L. Chemical symbols, formulas, and equations; the states of matter; electronic structure and bonding. Students taking CHM 1045 after taking CHM 1020 and/or CHM 1030 should contact a chemistry advisor to register for reduced credit.

CHM 1045L. General Chemistry I Laboratory (1). Laboratory, three (3) hours per week. Corequisite: CHM 1045. Introduction to chemical laboratory. Topics include stoichiometry, atomic spectra, gases, and acids and bases. Safety goggles and a scientific calculator are required for every class.

CHM 1046. General Chemistry II (3). Lecture. Prerequisites: CHM 1045 and 1045L, or CHM 1050 and 1050L, with a grade of “C–” or higher. Corequisite: CHM 1046L. Elementary thermodynamics; acids and bases; equilibrium; rates and mechanisms of chemical reactions.

CHM 1046L. General Chemistry II Laboratory (2). Laboratory lecture, one (1) hour; laboratory, three (3) hours. Prerequisites: CHM 1045 and 1045L, or CHM 1050 and 1050L; either sequence with grade of “C–” or higher. Corequisite: CHM 1046. Introduction to quantitative techniques; semi-micro qualitative analysis of common cations. Safety goggles and scientific calculator are required for every class.

CHM 1050. Honors General Chemistry I (3). Lecture. Prerequisites: MAC 1105 and high school chemistry. Corequisite: CHM 1050L. A first general chemistry course intended for honors students or students with equivalent qualifications and an interest in majoring in science. Topics include kinetic theory, atomic theory of matter, atomic structure and the periodic chart, condensed phases, introductory chemical bonding.

CHM 1050L. Honors General Chemistry I Laboratory (1). Laboratory, three (3) hours. Corequisite: CHM 1050. Introduction to quantitative techniques. Introduction to chemical laboratory. Topics include stoichiometry, atomic spectra, gases, and acids and bases. Safety goggles and scientific calculator are required for every laboratory.

CHM 1051. Honors General Chemistry II (3). Lecture. Prerequisites: CHM 1050 and 1050L, or CHM 1045 and 1045L; either sequence with a grade of “C” or higher and with consent of instructor. Corequisite: CHM 1051L. Intended for honors students and students with equivalent qualifications. Covers the topics of CHM 1046 in greater depth. Solution equilibria, oxidation reduction and galvanic cells, chemical analysis, hydrides and oxides of the elements, kinetics, advanced bonding and structure.

CHM 1051L. Honors General Chemistry II Laboratory (2). Laboratory conference, one (1) hour; laboratory, five (5) hours. Corequisite: CHM 1051. Opportunity for research-based special projects. Safety goggles and scientific calculator are required for every laboratory.

CHM 3930r. Special Topics in Chemistry (1–3). (S/U grade only.) May be repeated to a maximum of three (3) semester hours.

CHM 4090L. Science Glassblowing (1). Laboratory, one (1) hour. Restricted to advanced science majors. Laboratory instruction of fundamental glassblowing techniques of greatest utility to the experimental scientist who may require custom glassware.

CHM 4905r. Directed Individual Study (3). Prerequisites: Upperclass standing, “B” average in chemistry courses.

CHM 4906r. Honors Work (3). For honors in the major work only. May be repeated to a maximum of nine (9) hours.

ISC 3076. Science, Technology, and Society (3). The role played by science and technology in American society is considered by examining: the organization of the

scientific enterprise, the realities of scientific life versus portrayals of scientists in the media, how science is funded, its economic and its intellectual significance, dilemmas posed by progress in science and technology, and societal conditions under which science flourishes. This course cannot be used as credit toward a major or a minor in a science department. At least junior standing or permission of instructor is required.

PSC 2801C. Physical Science for EC/EE Teachers (4). This course is designed for prospective elementary and early childhood education majors. The course integrates physics and chemistry. The course includes laboratory exercises. Students will work in groups in a hands-on, minds-on approach to learning physical science.

SCE 4939r. Seminar in Contemporary Science, Mathematics, and Science Education (1). See interdisciplinary science courses in the "College of Arts and Sciences" section of this *General Bulletin*.

Analytical Chemistry

CHM 3120C. Introduction to Analytical Chemistry (4). Lecture, two (2) hours; laboratory, six (6) hours. Prerequisites: CHM 1046, 1046L with a grade of "C-" or higher. Fundamentals of analytical chemistry. Topics include acid-base equilibria, redox potentials, complexometric titrimetry, separations, electrochemistry, and absorption spectroscopy. Satisfaction of the University's requirement for computer skills is recommended before attempting this course.

CHM 4080. Environmental Chemistry I (3). Prerequisites: CHM 1045, 1046. The application of geologic and geochemical principles to environmental issues. Topics include: an evaluation of contaminants in surface and ground water; hydrocarbon geochemistry and petroleum contamination; waste management, including solid, toxic and nuclear waste; air quality issues, including radon and asbestos; geologic hazards in upland and coastal areas; environmental methods and instrumentation, quality assurance and quality control in environmental analysis; principles of toxicology; risk assessment and risk management.

CHM 4081. Environmental Chemistry II (3). Prerequisites: CHM 2210, 2211. Organic geochemistry of natural waters and sediments. An overview of the sources of organic matter in aquatic systems, the important reactions and transport mechanisms that control the biochemical cycling of organic carbon in these systems, and the impact of naturally-occurring organic carbon on environmental and ecological processes. Attention will also be devoted to anthropogenic (xenobiotic) organic molecules. Discussion of how analytical techniques such as ¹³C NMR, mass spectroscopy and capillary electrophoresis provide useful organic biogeochemical information.

CHM 4130. Advanced Analytical Chemistry (3). Lecture, three (3) hours. Prerequisites: CHM 3120C with a grade of "C-" or higher; PHY 2048C or 2053C. Corequisite: Physical chemistry or consent of instructor. This course is the lecture portion of CHM 4130C. Not available to undergraduate chemistry majors. Normally reserved for graduate students who need a course in chemical instrumentation but who do not need the laboratory experience. Satisfaction of the University's requirement for computer skills is recommended before attempting this course.

CHM 4130C. Advanced Analytical Chemistry (4). Lecture, three (3) hours; laboratory, six (6) hours [lab meets for nine (9) weeks only]. Prerequisites: CHM 3120C with a grade of "C-" or higher; PHY 2048C or 2053C. Corequisite: Physical chemistry or consent of instructor. Topics include electronics, optical instrumentation, laboratory computers, instrumental methods of analysis, atomic emission and absorption spectroscopy, nuclear magnetic resonance spectroscopy, mass spectrometry, chromatography. Satisfaction of the University's requirement for computer skills is recommended before attempting this course.

CHM 4135C. Instrumental Analysis (3). Lecture, two (2) hours; laboratory, six (6) hours [lab meets for nine (9) weeks only]. Prerequisite: CHM 3120C with a grade of "C-" or higher. A course in instrumental analysis. An alternative (not sequel) to CHM 4130C intended for the chemical science and biochemistry majors. Topics include atomic spectroscopy, molecular absorption and fluorescence, IR and

Raman spectroscopy, mass spectrometry, chromatography. Satisfaction of the University's requirement for computer skills is recommended before attempting this course.

Biochemistry

BCH 3023C. Introduction to Biochemistry (3). Lecture, two (2) hours; laboratory, three (3) hours, alternating with one (1) hour recitation. Prerequisite: CHM 2200C. A survey of modern biochemistry with special emphasis on those concepts which might be of use to nutrition and food scientists.

BCH 4053. General Biochemistry I (3). Lecture, three (3) hours. Prerequisite: CHM 2210. Corequisites: CHM 2211, 2211L. The first biochemistry course recommended for chemistry and biology majors and for students who intend to study medicine. Structure and function of proteins, membranes, and cellular constituents. Enzyme catalysis bioenergetics. Carbohydrate metabolism.

BCH 4053L. General Biochemistry I Laboratory (3). Prerequisite: CHM 3120C. Corequisite: BCH 4053. Laboratory conference, one (1) hour; laboratory, six (6) hours. Laboratory methods in biochemistry including electrophoresis, chromatography, cell fractionation, and enzyme assays, ligand interactions, and recombinant DNA technology.

BCH 4054. General Biochemistry II (3). Lecture, three (3) hours. Prerequisite: BCH 4053. Intermediary metabolism. Structure and expression of genetic information.

BCH 4605. Mammalian Biochemistry and Genetics (3). Lecture, three (3) hours. Prerequisites: BCH 4054; PCB 3063. Biochemistry and molecular biology with the emphasis on mammalian systems. Biochemical basis of metabolic diseases.

Inorganic Chemistry

CHM 4610. Inorganic Chemistry (3). Lecture, three (3) hours. Prerequisites: CHM 2211, 2211L, 3120C; Corequisite: CHM 4410 or consent of instructor. Physical principles, systematics in the chemistry of periodic groups, descriptive chemistry of the inorganic elements. Topics such as atomic structure and the periodic classification of the elements, chemical bonding, chemical reaction, acid-base chemistry, chemistry of main group elements, and coordination chemistry of the transitional elements will be included.

CHM 4610L. Inorganic Chemistry Laboratory (1). Laboratory conference, one (1) hour; laboratory three (3) hours. Prerequisite: CHM 4610. Synthesis and characterization of inorganic compounds.

CHS 4100C. Techniques of Radiochemistry (3). Lecture, two (2) hours; laboratory, six (6) hours. Prerequisite: Physical chemistry or consent of instructor. Principles of nuclear and radiochemistry. Techniques and applications of radiotracers are studied. The course is designed to prepare students in the theory and practice of nuclear science in chemistry and related science.

Organic Chemistry

CHM 2200C. Survey of Organic Chemistry (4). Lecture, three (3) hours; laboratory, four (4) hours. Prerequisite: CHM 1030. Intended for students in nutrition and fitness (fitness option).

CHM 2210. Organic Chemistry I (3). Lecture, three (3) hours; recitation one (1) hour. Prerequisites: CHM 1046, 1046L with a grade of "C-" or higher. Fundamentals of structure and chemical behavior of organic molecules. The first course in a sequence for chemistry majors, premedicine students, biologists, and others requiring good background in organic chemistry.

CHM 2211. Organic Chemistry II (3). Lecture, three (3) hours; recitation one (1) hour. Prerequisite: CHM 2210 with a grade of "C-" or higher or permission of the instructor.

CHM 2211L. Organic Chemistry II Laboratory (3). Laboratory conference, one (1) hour; laboratory, seven (7) hours. Prerequisite: CHM 2210 with a grade of "C-" or higher. Corequisite: CHM 2211.

Physical Chemistry

CHM 3400. General Physical Chemistry (4). Lecture, three (3) hours; recitation, one (1) hour. Prerequisites: CHM 1046 and calculus I. An elementary treatment of general physical chemistry, including thermodynamics, equilibrium, electromotive force, kinetics, atomic structure, and an introduction to quantum theory. For the chemical science major and interested nonmajors.

CHM 4410, 4411. Physical Chemistry I, II (3, 3). Lecture, three (3) hours. Prerequisites: CHM 1045 or consent of instructor; MAC 2312 (MAC 2313 recommended). Corequisite: PHY 2049C. Thermodynamics, kinetic theory of gases, reaction kinetics, introduction to quantum mechanics, introduction to statistical mechanics.

CHM 4410L. Physicochemical Measurements and Techniques I (1). Laboratory, three (3) hours. Corequisite: CHM 4410. Satisfaction of the University's requirement for computer skills is recommended before attempting this course.

CHM 4411L. Physicochemical Measurements and Techniques II (2). Laboratory, six (6) hours. Prerequisite: CHM 4410L. Corequisite: CHM 4411. Satisfaction of the University's requirement for computer skills is recommended before attempting this course.

Graduate Courses

Analytical Chemistry

- CHM 5086. Environmental Chemistry I (3).
- CHM 5087. Environmental Chemistry II (3).
- CHM 5138. Mass Spectrometry (3).
- CHM 5140. Introduction to Chemical Instrumentation (3).
- CHM 5141. Introduction to Chemometrics (3).
- CHM 5151. Optical Methods of Chemical Analysis (3).
- CHM 5153. Electrochemistry (3).
- CHM 5154. Chemical Separations (3).
- CHM 5180r. Special Topics in Analytical Chemistry (1-3).
- CHM 5454. Polymer Characterization (3).
- CHM 6190r. Analytical Chemistry Seminar (1).
- CHM 6191r. Analytical Chemistry Seminar (1). (S/U grade only.)

Biochemistry

- BCH 5405. Molecular Biology (3).
- BCH 5505. Structure and Function of Enzymes (3).
- CHM 5506, 5507. Biophysical Chemistry and Macromolecules I, II (3,3).
- BCH 5745. Chemical and Physical Characterization of Biopolymers (3).
- BCH 5886r, 5887r. Special Topics in Biochemistry and Cell Biology [one to three (1-3) hours each].
- BCH 6896r. Biochemistry Seminar (1).
- BCH 6897r. Biochemistry Seminar (1). (S/U grade only.)

Inorganic Chemistry

- CHS 5455C. Intermediate Inorganic Chemistry for Secondary Science Teachers (3).

- CHM 5620. Principles of Inorganic Chemistry (3).
- CHM 5640. Current Problems in Inorganic Chemistry (2).
- CHM 5680r, 5681r. Current Topics in Inorganic Chemistry [one to three (1–3) hours each].
- CHM 6690r. Inorganic Chemistry Seminar (1).
- CHM 6691r. Inorganic Chemistry Seminar (1). (S/U grade only.)

Organic Chemistry

- CHM 5225. Advanced Organic Chemistry—Structure (3).
- CHM 5226. Advanced Organic Chemistry—Reactions (3).
- CHM 5245. Physical Organic Chemistry (3).
- CHM 5250. Advanced Organic Synthesis (3).
- CHM 5330. Graduate Survey of Organic Chemistry (3).
- CHM 5380r. Special Topics in Organic Chemistry (1–3).
- CHM 6390r. Organic Chemistry Seminar (1). (S/U grade only.)

Physical Chemistry

- CHM 5460. Thermodynamics and Statistical Mechanics (3).
- CHM 5461. Advanced Statistical Mechanics (3).
- CHM 5470. Valence Theory (3).
- CHM 5480. Quantum Mechanics (3).
- CHM 5481. Advanced Quantum Mechanics (3).
- CHM 5506, 5507. Biophysical Chemistry and Macromolecules I, II (3, 3).
- CHM 5530. Survey of Physical Chemistry (3).
- CHM 5580r, 5581r. Special Topics in Physical Chemistry [one to three (1–3) hours each].
- CHM 6590r. Physical Chemistry Seminar (1).

Multiple Area Courses

- CHM 5823r. Supervised Research (1–6). (S/U grade only.)
- CHM 5830r — 5833r. Directed Individual Study [one to six (1–6) hours each]. (S/U grade only.)
- CHM 5910 — 5913. Chemical Research [three (3) hours each].
- CHM 5935r. Chemistry Seminars (0). (S/U grade only.)

- CHM 5940r. Supervised Teaching (1–6). (S/U grade only.)
- CHM 5945. Seminar on Chemical Education (1). (S/U grade only.)
- CHM 6850r — 6851r. Techniques in Research [three (3) hours each]. (S/U grade only.)

Department of CIVIL AND ENVIRONMENTAL ENGINEERING

FAMU—FSU COLLEGE OF ENGINEERING

Chair: J. W. Wekezer; *Professors:* Dzurik, Hall, Nnaji, Yazdani; *Associate Professors:* Leszczynska, Mtenga, Ping, Sobanjo, Spainhour, Tawfiq; *Assistant Professors:* Abdel Razig, Abdullah, Abichou, Chan Hilton, Huang, Mussa

The Department of Civil and Environmental Engineering has the mission of teaching the fundamentals of civil and environmental engineering science, analysis, design, and management to enable students to assume careers as professional engineers, to conduct basic and applied research to improve the state of knowledge of civil and environmental engineering, to serve as a source of information and advice to the community on engineering matters, and to assist in the technology transfer to, and the continuing education of, professional engineers and others interested individuals in the public and private sector. In performing this mission, the department has a special task to provide opportunities for a civil and environmental engineering education for minorities and women.

Opportunities and Facilities

Many opportunities exist in the field of civil engineering that encompass planning, designing, and managing a variety of projects. Your work could be on site at a project or at a computer work station. Civil and environmental engineers often find themselves involved in many of the public work projects funded by federal, state, and municipal governments, as well as those projects undertaken by the private sector. As a **structural engineer**, you might analyze and design structures out of steel, concrete, aluminum, timber, plastic and other new materials that are able to support required loads and withstand natural disasters. An **environmental engineer**, with a background in either physical, chemical, or biological sciences, helps to prevent and solve environmental problems. Engineers in the **geotechnical** realm apply technology, field test information, and laboratory analyses related to mechanics and mathematics to create the infrastructure facilities within and on top of the earth. The structure and stabilization of soils determine how and where to construct tunnels, pipelines, and deep foundations as well as highways and other buildings. In **hydraulic and water resources engineering**, you might design, construct or maintain facilities related to the quality and quantity of water, flood prevention, wastewater treatment, and water front erosion protection. As a professional in **transportation engineering**, your purpose is to move people and things in a safe and efficient manner locally and through mass transportation systems. Transportation facilities include highways, airfields, railroads, and sea ports. Several courses are also offered in **construction engineering**.

Instructional equipment includes the MTS structures and material testing systems with computer control for data acquisition and analysis, triaxial, CBR, and shear testing equipment and seismographs for in situ and laboratory measurements of engineering properties of soils and rocks; and a self-contained glass-sided tilting flume for investigations of flow phenomena and sediment transport. A complete stand-alone automated data acquisition and analysis system is available for undergraduate student laboratory work and research. A fully equipped water quality testing lab as well as portable field testing kits are used both for classroom teaching as well as for student research and design projects.

Students have access to a large number and variety of computer systems. A network of nearly 700 computing devices is available for the academic and research efforts of the college.

The department houses the Institute for Transportation Technologies (ITT), which is a well equipped state-of-the-art, high-performance computing environment for the pursuit of transportation related research. The equipment includes a Silicon Graphics Origin 2000 technical server with sixteen parallel processors, and a cluster of workstations for fast visualization, and pre- and post- processing. This advanced computing environment is available primarily to graduate students working as research assistants with departmental faculty. The college computers are connected to a high-speed, switched, fiber-optic LAN and to the Internet via The Florida State University connection to the NSF v BNS network. Desktop computers are supported by a cluster of Sun, DEC, and SGI servers. Other nearby resources include the

School of Computational Science and Information Technology (CSIT). Additional information about the department can be obtained from the college home page: <http://www.eng.fsu.edu>.

Programs Offered

The department offers a program of study for the bachelor of science (BS) degree in civil engineering. The civil engineering major is broad-based emphasizing all aspects of civil engineering practice including structural analysis and design, geotechnical, construction/transportation, hydraulics and water resources, and environmental engineering. Within the civil engineering program, the environmental engineering major is a course of study that focuses primarily on environmental engineering, hydraulics, hydrology, water resources, and the management of all types of wastewater systems. Regardless of focus, all students are taught to apply state-of-the-art technologies to the solutions of problems in these areas.

The department offers graduate programs leading to the master of science (MS) and doctoral (PhD) degrees in civil engineering. These programs provide areas of concentration in structural, geotechnical, environmental/water resources, and construction/transportation engineering. The department also offers a certificate in water and environmental resources engineering in partnership with the Center for Professional Development. Students may enroll as special students if they intend to use the certificate credits later. Students who do not wish to receive academic credit may sign up for continuing education units (CEU's). Twelve (12) semester hours are required to complete the program. Information and registration may be found at <http://www.eng.fsu.edu/certificateprogram/>. In order to be admitted to the MS program, a student must have a bachelors degree in civil engineering, a 3.0 grade point average (GPA) in the last two years of undergraduate school, and a Graduate Record Examination (GRE) score of at least 1000. Exceptions may be granted where other evidence indicates an ability to perform satisfactory graduate work. A student without a bachelor's degree in civil engineering may be required to complete undergraduate engineering articulation courses prior to attempting more advanced work. Admission to the doctoral program requires possession of a masters degree in civil or environmental engineering or a closely allied academic discipline from an accredited college or university, good standing in the academic institution last attended, evidence of a 3.0 GPA on a 4.0 scale as an upper level undergraduate or graduate student, and a minimum score of 1100 on the GRE. Exceptional applicants with a BS degree may be admitted to the PhD program, provided they complete an MS degree in the department before obtaining the PhD degree. For more details, refer to the *Graduate Bulletin*.

Program Objectives and Attributes

The Department of Civil and Environmental Engineering has established four educational objectives for its undergraduate program that are tied directly to the mission of the college. These objectives provide a framework for detailing attributes that a graduate of the program should obtain during his or her studies. In keeping with the goals of the Accreditation Board of Engineering and Technology (ABET), the department will continually and systematically measure its success in meeting the program objectives and providing graduates with the required attributes. Because of this continuous process of outcome assessment and curriculum improvement, students should maintain close contact with the department and their faculty advisors to become aware of any new program requirements. The graduate outcomes and program educational objectives can also be obtained from the department or through the web page at <http://www.eng.fsu.edu/>.

ABET Requirements

Students are urged to contact their faculty advisor or the department academic advisor for the most current information on the civil engineering requirements for the undergraduate and graduate programs. The curriculum reflects changes due to revised ABET EC 2000 requirements. All students are required to see their advisor each semester prior to registration.

Engineering Design

Following engineering design criteria established by the Accreditation Board for Engineering and Technology (ABET), the civil engineering curricula provide excellent design experiences for students. Faculty of the civil and environmental engineering department carefully integrate design components in the curriculum with increasing complexity as students progress toward graduation. These design components offer opportunities for students to work individually and in teams on meaningful engineering design experiences building upon the fundamental concepts of mathematics, basic sciences, humanities, social sciences, engineering topics, and oral and written communication skills. Design components in engineering course work help students develop an appreciation for the variety of materials they have been required to study and the ultimate development of solutions and designs for actual applied engineering problems. Additional information about design credits can be obtained by contacting civil engineering faculty advisors and from department brochures available from the civil and environmental engineering office.

Beginning with an introductory course EGN 1004L (First Year Engineering Lab) in the freshman year, design components are integrated into the curriculum. A majority of the design experiences are incorporated into junior and senior level courses with a focus on application to future professional practices.

For example, design experience is expanded vertically in the civil curriculum when students complete EGN 3311 Civil Engineering Mechanics I, and progress to EGN 3331 Strength of Materials and then to CES 3100 Structural Analysis I. CGN 4802 Senior Design Project is offered as a culminating design experience. The environmental major includes ENV 4001 Environmental Engineering which builds on material covered in CWR 3201 Hydraulics, and is followed by CWR 4202 Hydraulic Engineering I and CWR 4101 Engineering Hydrology. CGN 4802 Senior Design Project provides significant design experience applied to one or two comprehensive problems.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. ENC 1101;
2. ENC 1102;
3. MAC 2311*;
4. MAC 2312*;
5. MAC 2313*;
6. MAP 2302;
7. CHM 1045/1045L*;
8. PHY 2048/2048L;
9. PHY 2049/2049L;
10. Six (6) semester hours in humanities;
11. Six (6) semester hours in social science;
12. Three (3) additional semester hours in humanities **or** social science.

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Requirements for the Bachelor of Science in Civil Engineering: Civil Engineering Major

In addition to college requirements, a candidate for the BS degree in civil engineering will be expected to successfully complete the following requirements:

Mathematics and Basic Engineering Sciences

CCE 3101	Construction Materials (3)
CCE 3101L	Construction Materials Lab (1)
CEG 2202C	Site Investigation (3)
EEL 3003	Introduction to Electrical Engineering (3)
EGN 1004L	First Year Engineering Lab (1)*
EGN 2123	Computer Graphics for Engineers (2)
EGN 2212	Engineering Statistics and Computation (3)
EGN 3311	Civil Engineering Mechanics (4)
EGN 3331	Strength of Materials (3)
EGN 3331L	Strength of Materials Lab (1)
EGN 3613	Principles of Engineering Economy (2)
EML 3100	Thermodynamics (2)

Civil Engineering Science and Design Core Courses (Breadth)

CEG 3011	Soil Mechanics (3)
CES 3100	Structural Analysis (3)
CWR 3201	Hydraulics (3)
CWR 3201L	Hydraulics Lab (1)
EES 3040	Introduction to Environmental Engineering Science (3)
EES 3040L	Introduction to Environmental Engineering Science Lab (1)
TTE 3004	Transportation Engineering (3)

Civil Engineering Science and Design Proficiency Courses (Depth)

Each area consists of a two-course sequence. Students must take the **first three areas** and may choose **area 4 or 5** for a total of 4 out of 5 proficiency areas (or 24 out of 30 possible credits). Students may choose from the following: 1. Structures; 2. Geotechnical; 3. Transportation; 4. Environmental; or 5. Water Resources.

*: Please consult the Department of Civil and Environmental Engineering for details.

1. Structures

CES 4605	Steel Design or CES 4702 Concrete Design (3)
CES XXXX	Structures elective (3) (may be either CES 4605, CES 4702, or another CES course.)

2. Geotechnical

CEG 4801	Geotechnical Design (3)
CEG XXXX	Geotechnical elective (3)

3. Construction and Transportation

CCE XXXX	Construction elective (3)
TTE XXXX	Transportation elective (3)

4. Environmental

ENV 4001	Environmental Engineering (3)
ENV XXXX	Environmental elective (3)

5. Water Resources

CWR 4202	Hydraulic Engineering I (3)
CWR XXXX	Water Resources, Hydraulics or Hydrology elective (3)

Major Design Experience

CGN 4800	Pre-senior Design and Professional Issues (1)
CGN 4802	Senior Design Project (3)

Civil Engineering Electives

To meet the proficiency requirement, students will select courses to supplement the required civil engineering proficiency courses and to specialize their degree program to suit their individual objectives. Each student majoring in civil engineering is required to complete a total of four or five courses or twelve to fifteen (12–15) semester hours of electives. Please check with the department for a list of elective courses.

Requirements for the Bachelor of Science in Civil Engineering: Environmental Engineering Major

In addition to college requirements, a candidate for the BS degree in civil engineering with a major in environmental engineering will be expected to successfully complete the following course requirements.

Mathematics and Basic Engineering Sciences

CEG 2202C	Site Investigation (3)
EEL 3003	Introduction to Electrical Engineering (3)
EES 2205C	Environmental Engineering Chemistry (4)
EES 3040	Introduction to Environmental Engineering Science (3)

EES 3040L	Introduction to Environmental Engineering Science Lab (1)
EGN 1004L	First Year Engineering Lab (1)*
EGN 2123	Computer Graphics for Engineers (2)
EGN 2212	Engineering Statistics and Computation (3)
EGN 3311	Civil Engineering Mechanics (4)
EGN 3331	Strength of Materials (3)
EGN 3613	Principles of Engineering Economy (2)
EML 3100	Thermodynamics (2)

Environmental Engineering Science and Design Core Courses (Breadth)

CEG 3011	Soil Mechanics (3)
CWR 3201	Hydraulics (3)
ENV 4001	Environmental Engineering (3)
ENV 4611	Environmental Impact Analysis (3) or approved substitution
TTE 3004	Transportation Engineering (3)

Environmental Engineering Science and Design Proficiency Courses (Depth)

Students are required to take all four proficiency areas for a total of twenty-four (24) semester hours: 1. Environmental; 2. Water Resources; 3. Geotechnical; 4. Construction and Transportation

1. Environmental

ENV 4561	Design of Water Quality Management Facilities (3)
ENV XXXX	Environmental Engineering elective (3)

2. Water Resources

CWR 4101	Engineering Hydrology (3)
CWR XXXX	Water Resources, Hydraulics or Hydrology elective (3)

3. Geotechnical

CEG 4801	Geotechnical Design (3)
ENV 4341	Solid and Hazardous Waste Management (3)

4. Construction and Transportation

CCE 3101	Construction Materials (optional lab) (3)
TTE XXXX	Transportation elective (3)

or

CCE XXXX	Construction elective (3)
----------	---------------------------

Major Design Experience

CGN 4800	Pre-senior Design and Professional Issues (1)
CGN 4802	Senior Design Project (3)

Environmental Engineering Electives

As indicated above, students will select courses to meet the required environmental engineering proficiency courses and to specialize their degree program to suit their individual objectives. Each student majoring in environmental engineering is required to complete a total of three courses or nine (9) semester hours of electives. Please check with the department for a list of elective courses.

Department Requirements

Transfer students and students within the program in civil engineering must achieve a GPA of 2.5 or higher in Calculus I (MAC 2311 [4]), Calculus II (MAC 2312 [4]), Physics I (PHY 2048C [5]) and Chemistry I (CHM 1045 [4], CHM 1045L [1]) prior to enrolling in any upper-level civil and environmental engineering classes. Students who do not meet this requirement may be directed to take additional academic work. A maximum of one repeat of each course is allowed in meeting this requirement. Students also must adhere to the policies set by the College of Engineering. Students must achieve a grade of "C-" or better in all transfer courses and in all courses that are prerequisites to any required or elective engineering course. In addition, students are required to earn a "C-" or better in all engineering courses without any waiver as a graduation requirement. These courses cover the areas of mathematics and basic design, basic engineering science and design, civil engineering science and design, environmental engineering science and design, proficiency and core courses, and electives.

All undergraduate students must take the Fundamentals of Engineering (FE) exam as a degree requirement and are encouraged to take the civil discipline exam during their senior year.

Definition of Prefixes

CCE	—	Civil Construction Engineering
CEG	—	Civil Geotechnical Engineering
CES	—	Civil Engineering: Structures
CGN	—	Civil Engineering
CWR	—	Civil Water Resources
EES	—	Environmental Engineering Science
EGN	—	General Engineering
ENV	—	Environmental Engineering
TTE	—	Transportation and Traffic Engineering

Undergraduate Courses

CCE 310L. Construction Materials (3). Prerequisite: EGN 3331. Properties and characteristics of construction materials for civil and highway engineering; metals, aggregates, cements, timber, concrete, and asphalt. Lab and field testing techniques are included.

CCE 310L. Construction Materials Laboratory (1). Prerequisite or Corequisite: CCE 310L. Prepare concrete and asphalt specimens; test construction materials under compression, tension, torsion loading. Write formal laboratory reports.

CCE 4004. Construction Engineering (3). Prerequisites: CCE 3101; EGN 3613. Theories, principles, and applications of engineering professionalism and ethics. Emphasis on pre-design, planning, scheduling, contracts and specification, construction methods, and equipment and safety.

CCE 4014. Construction Cost Estimating (3). Prerequisites: CCE 3101; EGN 3613. Corequisite: CCE 4004. Construction contracts, organization and cost accounting systems; preliminary cost estimation, and cost indices; estimating material, labor, and equipment costs; construction bidding practices, and bid proposals; and project budgeting and cost systems.

CCE 4031. Construction Planning and Scheduling (3). Prerequisites: CCE 4004. Planning, basic arrow diagramming, basic precedence diagramming, establishing activity duration, scheduling computations, bar charts, project controls, overlapping networks, resource leveling, and program evaluation review technique (PERT).

CEG 2202C. Site Investigation (3). Prerequisite: MAC 1114. Methods and procedures of surface mapping and subsurface sectioning including distance measurements, traverse computations and topographic mapping, photogrammetry, data collection, landform and terrain analysis, field instrumentation, and characterization of geologic materials. Use of field equipment and procedures to measure angles and distance, photo interpretation, and geological materials characterization.

CEG 3011. Soil Mechanics (3). Prerequisite: CEG 2202C; EGN 2212. Pre- or corequisite: EGN 3331. Study and test physical, index, hydraulic, and mechanical properties of soils including soil compaction. Determine total and effective stresses and analyze stress distribution in soil layers. Study principles of soil layers. Study principles of soil permeability and flow nets. Determine time dependent settlement of cohesive soil using theory of consolidation. Measure shear strength parameters using different testing methods.

CEG 4111. Foundation Engineering (3). Prerequisite: CEG 4801. Design of spread footings, pile and caisson foundations, retaining structures, and waterfront structures. Investigation of slope stability. Choice between alternative designs.

CEG 4701. Environmental Geotechnics (3). Prerequisite: CEG 3011. The geotechnical aspects of waste containment and storage. Aspects of design, construction, and performance of earthen structures for storing or disposing waste or remediating contaminated sites.

CEG 4801. Geotechnical Design (3). Prerequisites: CEG 2202C, 3011; CES 3100. Design of different geotechnical structures including shallow and deep foundations, slopes and embankments, rigid and flexible pavement, earth retaining structures and excavations, drainage and dewatering facilities, and earthwork with geosynthetics.

CES 3100. Structural Analysis I (3). Prerequisites: EGN 2212, 3311. Pre- or corequisite: EGN 3331. Loads on structures. Reactions, shear, and bending moment. Trusses. Influence lines. Deflection of determinate structures; introduction to indeterminate structures.

CES 4101. Advanced Structural Analysis (3). Prerequisites: CES 3100; EGN 3331. Review of matrix algebra. Direct stiffness method for truss analysis. Computer applications. Statically indeterminate structures. Slope-deflection and moment distribution methods. Computer modeling of structures.

CES 4330. Optimal Structural Engineering (3). Prerequisites: CES 4605, 4702; EGN 2212; MAP 3305. Course covers standard theories of structural design plus classical optimization and latest structural optimization methods.

CES 4605. Steel Design (3). Prerequisites: CES 3100; EGN 3331. Design of tension, compression, and flexural steel member according to AISC specifications. Bolted and welded connections for steel members. Choice between design alternatives, introduction of plastic design methods.

CES 4702. Concrete Design (3). Prerequisite: CES 3100; EGN 3331. Design of reinforced concrete beams, columns, one-way slabs, etc., for bending, shear, deflection, cracking and bond. As part of this class, students will learn computer and oral communication skills relevant to concrete design.

CES 4704. Advanced Concrete Design (3). Prerequisites: CES 3100, 4702; EGN 3331. Advanced topics pertaining to complex reinforced concrete elements and structures. The analysis and design for torsion, slender columns, two-way slabs, shear walls, deep beams, and the truss analogy.

CES 4711. Prestressed Concrete (3). Prerequisite: CES 4702. Theoretical background of prestressed concrete. Losses in prestressing. Design of prestressed concrete beams and slabs. Serviceability of prestressed concrete members. Precast members.

CES 4800. Timber Design (3). Prerequisite: CES 3100. Design of basic timber structures such as beams, columns, walls and diaphragms. SBC and the NDS code applications are used.

CES 4830. Masonry Design (3). Prerequisite: CES 3100. Design of basic reinforced masonry structures such as walls, columns, and foundations. SBC and code applications used.

CGN 3949r. Cooperative Work Experience (0). (S/U grade only). Field work in an approved civil engineering agency program for integration of theory and professional practice.

CGN 4800. Pre-senior Design and Professional Issues (1). Prerequisite: senior standing. Topics in this course include engineering and professional ethics; professional practice issues; and design under engineering and societal constraints. Preparation of proposals for multidisciplinary design projects are completed the following semester in CGN 4802, Senior Design Project.

CGN 4802. Senior Design Project (3). Prerequisites: student must have senior standing; completed all basic, core, and proficiency courses; and have approval of their advisor as well as permission of the instructor. A capstone senior-level design course integrating the knowledge gained in undergraduate studies. Completion of a team-based design project covering several sub-disciplines in civil or environmental engineering. Industry and professional participation.

CGN 4930r. Special Topics (1-3). Topics in civil and environmental engineering with an emphasis on recent developments. Topics and credit may vary. May be repeated to a maximum of twelve (12) semester hours.

CWR 3201. Hydraulics (3). Prerequisites: EGN 2212, 3311; MAP 3305. Fundamental concepts of fluid properties, hydrostatics, kinematics, ideal flow viscous effects, transport phenomena; drag, laminar, and turbulent flow in pipes and channels; dimensional analysis, network design.

CWR 3201L. Hydraulics Laboratory (1). Prerequisites: EGN 2212, 3311; MAP 3305. Corequisite: CWR 3201. Participation in hydraulics experiments and demonstrations and reporting experimental results in formal technical reports.

CWR 4101. Engineering Hydrology (3). Prerequisites: CWR 3201, 3201L; EGN 2212; or their equivalents. Study of the processes of the hydrologic cycle, hydrologic analyses for the planning and design of water management systems, use of application program packages.

CWR 4103. Water Resources Engineering (3). Prerequisites: CWR 4202; EGN 2212, 3613. Systems approach to complex water resources problems; application of systems analysis of water resources operations, design, and planning.

CWR 4120. Groundwater Hydrology (3). Prerequisites: CWR 3201; EES 3040. This course examines the fundamentals of groundwater flow and contaminant transport. Topics include: Darcy's law, flow nets, mass conservation, heterogeneity and anisotropy, storage properties, 3-D equation of groundwater flow, regional circulation, unsaturated flow, recharge, stream-aquifer interaction, well hydraulics, slug test analyses and contaminant transport processes.

CWR 4202. Hydraulic Engineering I (3). Prerequisites: CWR 3201, 3201L; EGN 2212; or their equivalents. Review principles of hydrology and hydraulics. Apply principles to design of water supply, urban drainage, flood control, and hydraulic energy conversion systems. Computer-aided design of hydraulics systems.

CWR 4203. Hydraulic Engineering II (3). Prerequisite: CWR 4202. Course covers methods for analyzing a broad range of unsteady flow conditions and for the design of facilities to cope with problems that may result. Students learn to apply computer programs, based on these methods, to practical water distribution and open channel systems.

CWR 4306. Urban Stormwater Runoff (3). Prerequisites: CWR 3201, 4101 or consent of instructor. The course is intended to provide an understanding of (1) storm events, stormwater runoff, and effects of urbanization on stormwater quantity and quality; (2) methods of analysis; and (3) planning and design procedures for stormwater facilities.

CWR 4822. Coastal and Estuarine Hydraulics (3). Prerequisites: CWR 3201; MAC 2313. This course examines numerous topics including coastal hydraulic principles and waves in estuaries and coastal oceans, wave properties and wave forces on coastal structures, tidal motions, mixing and transport in estuaries, and coastal engineering analysis.

EES 2205C. Environmental Engineering Chemistry (4). Prerequisites: CHM 1045, 1045L. Application of fundamental chemistry principles to major environmental processes and problems. Emphasis is on the chemistry of treatment processes for air, upon water and soil pollutants; hazardous waste identification and treatments; toxicology chemistry.

EES 3040. Introduction to Environmental Engineering Science (3). Prerequisite: CHM 1045, 1045L. Application of environmental sciences to fundamentals of environmental engineering. Emphasis is on water and air pollution, their sources and treatment; solid and hazardous waste management.

EES 3040L. Introduction to Environmental Engineering Science Laboratory (1). Prerequisite: CHM 1045, 1045L. Corequisite: EES 3040. Course covers use of field and laboratory instruments for measuring air and water quality indicators. Includes site visits.

EGN 2210. Introductory Engineering Numerical Modeling (3). Prerequisites: EGN 1004L; MAC 2311. Recognize problems for which computer solutions are appropriate; formulate mathematical models of the problems; develop solution algorithms, obtain numerical; solution of problems by hand calculation and by use of modern engineering problem solving tools such as MATHCAD.

EGN 2212. Engineering Statistics & Computation (3). Prerequisites: use of www and Internet resources; EGN 1004L; MAC 2311. Course covers problem formulation: algorithm development and programming; measurement and computational error assessment; and application of statistical and numerical modeling tools for data analysis use of Mathcad software package.

EGN 3311. Civil Engineering Mechanics (4). Prerequisites: MAC 2312; PHY 2048C. Concept of force and moment. Two and three-dimensional equilibrium of points, frames, and machines using vector algebra. Principles of friction, centroids, centers of gravity, and area moments of inertia, virtual work, motion and kinematics, force and acceleration.

EGN 3331. Strength of Materials (3). Prerequisite: EGN 3311. Axial, torsional, and flexural stresses and strains; normal stress, shear stress; Mohr's circle; torsion bending, stress, transformation of stress; safety factors; engineering applications.

EGN 3331L. Strength of Materials Laboratory (1). Prerequisite: EGN 3311. Corequisite: EGN 3331. Main topics to be covered include: stress-strain relationship, tensile members, members under the torsion, flexural behavior, thin walled vessels and column buckling. (Lab not required for environmental majors)

EGN 4906r. Directed Individual Study (1-3). Directed special project/research in an area of civil engineering science or design not covered in the curriculum. This course may be repeated.

ENV 4001. Environmental Engineering (3). Prerequisites: CHM 1045; CWR 3201; EES 2205C, 3040, 3040L. Corequisite: CWR 4202. Design of water and wastewater treatment plants; wastewater collection systems; air and water pollution control; solid waste management; contemporary environmental issues.

ENV 4041. Environmental Systems Analysis (3). Prerequisites: EES 3040, 3040L; ENV 4001; MAC 2311. Systems analysis techniques applied to the solution of environmental problems, with particular emphasis on linear and dynamic programming.

ENV 4053. Chemical Fate and Transport in the Environment (3). Prerequisites: CWR 3201 or equivalent; EES 3040. Study of the processes of pollutant chemicals transformation in and transport between air, water and soil or sediments. Use and development of predictive mathematical models for the remediation of existing contaminated sites or prevention of future contamination from new sources.

ENV 4341. Solid and Hazardous Waste Engineering (3). Prerequisite: EES 3040, 3040L; ENV 4001. Course covers definitions and characteristics of solid and hazardous wastes. History, growth and magnitude of the problem. Legislative, regulatory, and technical aspects of waste generation, storage, collection, transportation, processing, transformation and disposal. Design of waste minimization and recycling programs. Case studies of waste management.

ENV 4405. Water Reuse Engineering (3). Prerequisites: CHM 1045, 1045L; EES 3040. Corequisite: EES 2205C. Sources of water for reuse, treatment processes and systems, monitoring and control instrumentation, health and social aspects, design of facilities/systems.

ENV 4500. Environmental Unit Processes and Operations (3). Prerequisite: CWR 3201; ENV 4001. Corequisite: CWR 4202. The operational and design features of the physical, chemical, thermal, and biological treatments used in engineering for water and wastewater treatment and the management of solid and hazardous waste.

ENV 4561. Design of Water Quality Management Facilities (3). Prerequisites: CWR 3201; EES 3040, 3040L; EGN 2212. Analysis of operations, processes, and systems used in the design of facilities for maintaining water supply quality, wastewater control, and aquatic pollution control. Design of wastewater treatment plants and systems for disposal of residuals from such facilities.

ENV 4611. Environmental Impact Analysis (3). Prerequisites: EES 3040, 3040L. Analysis of various measures of environmental quality. Impact of human activity on water, land, and air resources. Benefit-cost analysis in environmental impact assessment.

TTE 3004. Transportation Engineering (3). Prerequisites: CEG 2202C; EGN 2212; junior standing. An introductory study of all modes of transportation in the United States with special emphasis on highway planning and design, construction, operation, management, and safety.

TTE 4201. Traffic Engineering (3). Prerequisite: TTE 3004. Nature, characteristics, and theories of traffic problems. Traffic survey procedures, origin-destination studies. Introduction to theory and design of automatic control of traffic systems.

TTE 4250. Traffic Operations (3). Prerequisites: EGN 2212; TTE 3004. Operation of transportation systems, monitoring, regulation, and control traffic.

TTE 4271. Intelligent Transportation Systems (3). Prerequisites: EGN 3443; TTE 3004. Course covers advanced traffic management systems (ATMS), advanced traveler information systems (ATIS), advanced vehicle control systems, commercial vehicle operations, rural ITS, human factors, institutional issues, architecture and standards, simulation and modeling.

TTE 4804. Highway Geometric Design (3). Prerequisites: CEG 2202C; TTE 3004. Principles and procedures for the geometric design of highways and streets: consideration of traffic, land use, and aesthetic factors.

Graduate Courses

- CCE 5035. Construction Planning and Scheduling (3).
- CCE 5036. Project Controls in Construction (3).
- CEG 5015. Advanced Soil Mechanics (3).
- CEG 5065. Soil Dynamics (3).
- CEG 5115. Foundation Engineering (3).
- CEG 5127. Highway and Airport Pavement Design (3).
- CEG 5415. Groundwater, Seepage, and Drainage (3).
- CEG 5705. Environmental Geotechnics (3).
- CES 5105. Advanced Mechanics of Materials (3).
- CES 5106r. Advanced Structural Analysis (3).
- CES 5144. Matrix Methods for Structural Analysis (3).
- CES 5209. Structural Dynamics (3).
- CES 5218. Fundamentals of Structural Stability Theory (3).
- CES 5325. Bridge Engineering (3).
- CES 5585. Earthquake/Wind Engineering (3).
- CES 5606. Advanced Steel Design (3).
- CES 5706. Advanced Reinforced Concrete Design (3).
- CES 5715. Prestressed Concrete (3).
- CES 5845. Composites in Civil Engineering (3).
- CES 6116. Finite Elements in Structure (3).
- CGN 5315. Probabilistic Design in Civil Engineering (3).
- CGN 5905r. Directed Individual Study (1-6). (S/U grade only.)
- CGN 5910r. Supervised Research (1-6). (S/U grade only.)
- CGN 5930r. Special Topics in Civil Engineering (1-6).
- CGN 5935r. Civil Engineering Seminar (0). (S/U grade only.)
- CGN 5971r. Masters Thesis (1-6). (S/U grade only.)
- CGN 5974. Masters Project (3). (S/U grade only.)
- CGN 6942. Supervised Teaching (3). (S/U grade only.)
- CGN 6972. Masters Thesis Defense (0). (S/U grade only.)
- CGN 6980r. Dissertation (1-24). (S/U grade only.)

CGN 8985r.	Dissertation Defense (0). (S/U grade only.)	CWR 5824.	Coastal and Estuarine Hydraulics (3).	TTE 5205.	Traffic Engineering (3).
CGN 8988r.	Doctoral Preliminary Exam (0). (S/U grade only.)	ENV 5045.	Environmental Systems Analysis (3).	TTE 5206.	Advanced Traffic Flow Analysis (3).
CWR 5125.	Groundwater Hydrology (3).	ENV 5055.	Chemical Fate and Transport in the Environment (3).	TTE 5256.	Traffic Operations (3).
CWR 5205.	Hydraulic Engineering II (3).	ENV 5105.	Air Pollution Control (3).	TTE 5270.	Intelligent Transportation Systems (3).
CWR 5305.	Urban Stormwater Runoff (3).	ENV 5407.	Water Reuse Engineering (3).	TTE 5526.	Airport Planning and Design (3).
CWR 5515.	Physical Models of Hydraulic Systems (3).	ENV 5504.	Environmental Engineering Processes and Operations (3).	TTE 5805.	Highway Geometric Design (3).
CWR 5516.	Numerical Models in Hydraulics (3).	ENV 5565.	Design of Water Quality Management Facilities (3).		
CWR 5635.	Water Resources Planning and Management (3).	ENV 5615.	Environmental Impact Analysis (3).		

For listings relating to graduate course work for thesis, dissertation, master's and doctoral examinations and defense, consult the *Graduate Bulletin*.

Department of CLASSICAL LANGUAGES, LITERATURE, AND CIVILIZATION

COLLEGE OF ARTS AND SCIENCES

Chair: W. Jeffrey Tatum; *Professors:* N. de Grummond, W. de Grummond, Glenn, Golden, Tatum; *Associate Professors:* Pfaff, Pullen, Sickinger; *Assistant Professors:* Fulkerson, Slaveva-Griffin, Stoddard; *Emeriti Faculty:* Plescia, Thompson; *Visiting Professor:* Cairns

The influence of the art, languages, literatures and cultures of the Greco-Roman world pervades every western and many non-western societies. Modern America is no exception. A meaningful appreciation of our classical past is vital both for understanding the impressive continuity of western institutions and values as well as for recognizing how recent innovations and transformations of received assumptions have rendered aspects of the classical world alien and sometimes exceptionable. The classics are crucial both to the perpetuation and to the critique of the western liberal arts education.

The Department of Classical Languages, Literature and Civilization is committed to advancing our knowledge and critical appreciation of the ancient Mediterranean world through excellence in research and in teaching. The department seeks to create an atmosphere that fosters traditional scholarly approaches to the classical past at the same time as it welcomes and encourages innovative methods and perspectives. The department values the interdisciplinarity of the classics and strives to achieve an integrated understanding of the ancient world that includes a full appreciation of history, literature, and material culture. Students are encouraged to view the classics within the context of the traditional humanities as well as in terms of the contemporary criticism of received cultural canons.

All courses in classics emphasize critical thinking, careful analysis and effective speaking and writing skills. Some who major in classics will go on to academic careers as philologists or archaeologists. Others will become teachers in the schools or specialists in museum work. But most classics majors find that their broad liberal arts background is excellent preparation for pursuing careers in the learned professions, such as government, journalism or law.

In addition to offering instruction to majors, the department participates in the University's Liberal Studies Program and offers innovative courses that satisfy the University's multicultural requirement. Courses in beginning Greek or Latin can be used to fulfill the language requirement of the College of Arts and Sciences.

The faculty in classics is distinguished in teaching and research. Several members of the faculty have received University and national teaching awards. Individual faculty members have also won numerous competitive grants. The department boasts special strengths in ancient literary criticism, the archaeology of Greece and Italy, the political and social history of Athens and of Rome, and Roman religion.

Majors and elective students alike will find many intellectual opportunities in the classics department. There is an active chapter of Eta Sigma Phi (the classics honor society) and a vigorous Student Archaeology Club. The department conducts its own archaeological field school in conjunction with its excavation of the Etruscan/Roman site of Cetamura del Chianti in Italy, application to which is open to all students. Each year the department hosts several distinguished guest speakers and a visiting professor of international stature, the Langford Family Eminent Scholar, who teaches a course specifically for undergraduates. In conjunction with the visit of each Langford Scholar, the department sponsors a major conference in which scholars from America and abroad offer lectures devoted to a single theme or issue. Recent conferences have concentrated on the comedies of Aristophanes, the Great Altar in Pergamum and the role of Greek tragedy in the ancient city-state.

Students interested in the classics are encouraged to discuss their future plans with the undergraduate advisor. Most students will find that their needs are best accommodated by the department's very flexible program in classical civilization (see below), but students who intend to pursue postgraduate research in ancient history, classical archaeology or philology will need to enter more specific programs of study. There is also a joint major in classics and religion.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for these University degree programs. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

Classics and Classical Language

1. Six to twelve (6–12) semester hours of coursework in classics or a demonstration of proficiency by testing or completion of intermediate level.

Greek, Classical

1. Six to twelve (6–12) semester hours of coursework in Greek or a demonstration of proficiency by testing or completion of intermediate level.

Latin

1. Six to twelve (6–12) semester hours of coursework in Latin or a demonstration of proficiency by testing or completion of intermediate level.

Requirements for a Major in Classics

Students should review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*. No course for which a student receives a grade of "C-" or lower may be counted toward satisfaction of major requirements. In addition, courses used to satisfy the college foreign language requirement may not be counted toward satisfaction of any major requirements. Interested students should consult with the undergraduate advisor as early as possible to choose a course of study best suited to their needs and goals.

Latin

Twenty-four (24) semester hours above the 1000 level. Two courses at the 3000 level are required, including LNW 3211, and 4340r, along with six (6) additional semester hours at the 4000 level. LNW 3010r and 3011 are recommended. At the discretion of the adviser, up to four (4) semester hours of Greek or classical civilization may be counted toward this major. Students working toward secondary school certification will have other requirements as well.

Greek

Thirty (30) semester hours chosen in consultation with the departmental adviser. This program will normally include GRE 1120 and 1121.

Classics—Program A (Latin and Greek)

Thirty (30) semester hours in Greek and Latin chosen in consultation with the departmental adviser. At least twelve (12) semester hours are required in each language. The student must take 4000 level courses in at least one of the languages. If secondary school certification is sought in connection with this program, the major must include twenty-four (24) semester hours of Latin.

Classics—Program B (Classical Civilization)

Thirty (30) semester hours chosen in consultation with the departmental adviser. These hours may be selected from any of the courses listed below. No more than twelve (12) semester hours of Latin and Greek may be counted. Either CLA 4935r or an equivalent 4000 level course chosen in consultation with the departmental adviser is required and CLA 2010 is recommended. Students are strongly encouraged to take some courses in the Greek or Latin language. Courses used to satisfy the college foreign language requirement, however, may not be counted toward the major.

Classical Archaeology

Thirty-three (33) semester hours of course work. ARH 3130 and 3150 are required in addition to three of the following advanced

archaeology courses: ARH 4110, 4118, 4120, 4131, 4151, and 4173. Competence in one ancient language at the third-semester level is required; this requirement may be fulfilled by taking the Greek language sequence of GRE 1120, 1121, and 2230, or the Latin language sequence of LAT 1120, 1121, and 2230. In addition to the twelve (12) semester hours of Latin or Greek required for the classical archaeology major, the BA degree requires twelve (12) semester hours of ancient or modern language study (three sequential four [4] semester hour courses). It is strongly recommended that the student fulfill the requirement through the study of French, German, or Italian. Six (6) semester hours of electives in classics are also required, to be chosen in consultation with the departmental adviser; only three (3) semester hours of those elective courses taken to fulfill the humanities requirements may also be counted towards the requirements of the major. Students are encouraged to participate in the classics department's excavations at Cetamura, Italy, and to study at the University's study center in Florence.

Honors in the Major

The Department of Classical Languages, Literature, and Civilization offers a program in honors in the major to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Requirements for a Minor in Classics

A minimum of twelve (12) semester hours in classical civilization, Greek, or Latin. The minor in classical civilization requires no knowledge of Greek or Latin and may consist of any four courses listed under departmental offerings in classical civilization and literature; however, with the approval of the department, appropriate courses in Greek and Latin may be included in this program. In Greek or Latin the sequence may begin at the 1000 level (provided this does not duplicate the foreign language requirements for the baccalaureate degree) or at any appropriate higher level.

Undergraduate Courses

ARH 2090. Great Discoveries in World Archaeology (3). An introduction to the discipline of archaeology and to the work of famous archaeologists through an examination of selected archaeological discoveries in Europe, Africa, Asia and the Americas.

ARH 3130. Survey of Greek Art and Archaeology (3). Survey of Greek art from the Bronze Age to the Hellenistic period and important archaeological discoveries in Greek lands.

ARH 3150. Art and Archaeology of Ancient Italy (3). Survey of art in Italy from the Etruscan and Roman periods and important Etruscan and Roman archaeological sites.

ARH 4110. Art and Archaeology of the Bronze Age in the Aegean (3). Study of the art and culture of pre-historic Crete and Greece and important monuments and archaeological sites.

ARH 4118. Archaeology of Ancient Egypt (3). Survey of the archaeology and art of ancient Egypt, from the Predynastic to the Ptolemaic and Roman periods. An emphasis on the art, architecture, and culture of the Old and New Kingdoms.

ARH 4120. Etruscan Art and Archaeology (3). Study of Etruscan art and culture and important monuments and archaeological sites.

ARH 4131. Greek Art and Archaeology of the Fifth and Fourth Centuries B.C. (3). Study of classical Greek art and important monuments and archaeological sites.

ARH 4151. Art and Archaeology of the Early Roman Empire (3). Study of Roman art from Augustus through Hadrian and important monuments and archaeological sites.

ARH 4173. Studies in Classical Art and Archaeology (3). Studies in specific aspects of the art and archaeology of Greece and Italy.

ARH 4932r. Tutorial in Classical Archaeology (1–3). Prerequisites: ARH 3130, 3150; instructor consent. Readings and discussions within a small group of advanced undergraduates concerning a specific topic or research problem in classical archaeology. May be repeated to a maximum of six (6) semester hours.

ASH 3200. History of the Ancient Near East (3). Survey of the Near East—Anatolia, Mesopotamia, Egypt, the Holy Land—in the ancient period.

CLA 2010. Introduction to Greek and Roman Civilization (3). Introduction to Greek and Roman civilization: survey of classical literature, art, and philosophy with readings in translation from outstanding Greek and Roman authors.

CLA 2011. Sports in Antiquity (3). Examines the particulars and technicalities of ancient sports and the representations of sports and sporting ideals in art, literature and law. Studies the religious context of ancient sports and the social importance of spectacles.

CLA 2110. The Greek Way: Introduction to Greek Civilization (3). A survey of the daily life and the cultural and political achievements of the ancient Greeks from Homeric times to the period of Alexander the Great.

CLA 2123. The Roman Way: Introduction to Roman Civilization (3). A survey of the daily life and the cultural and political achievements of the Romans from the founding of Rome to the later Roman Empire.

CLA 2500. Ancient Greek Athletics (3). An introduction to the athletics of ancient Greece through an examination of archaeological evidence and literary texts.

CLA 3012. Homosexuality in Antiquity (3). Combines methods of social history and literary criticism to examine attitudes toward homosexuality in Greek and Roman culture and the influence of the Greek ideal in later literary and artistic culture.

CLA 3501. Gender and Society in Ancient Greece (3). This course examines the role and status of women in ancient Greek society, as depicted in its literature, art, law and religion.

CLA 3502. Women, Children, and Slaves in Ancient Rome: The Roman Family (3). This course examines the Roman family in its various facets. Its focus will not be only on the nuclear family but also on the broader concept of family which includes slaves and dependents.

CLA 4437r. Studies in Greek History (3). Study of specified periods of Greek history, whether Archaic, Classical, or Hellenistic. May be repeated to a maximum of six (6) semester hours.

CLA 4447r. Studies in Roman History (3). Study of specified periods of Roman history in the Republic or Empire. May be repeated to a maximum of six (6) semester hours.

CLA 4780r. Classical Archaeology: Fieldwork (1-6). Excavation experience through The Florida State University Field School at Cetamura, Italy. May be repeated to a maximum of twelve (12) semester hours.

CLA 4880. Roman Law (3). Introduction to Roman civil law. This course provides a general perspective of Roman legal ideas and problems related to family law, property law, law of delicts, and law of procedure.

CLA 4909r. Honors Work (3). Up to twelve (12) semester hours may be taken in honors work.

CLA 4935r. Seminar in Classical Civilization (3-6). Prerequisite: Nine (9) semester hours of study in classical civilization or the consent of instructor. Special topics in classical culture presented around a seminar format. May be repeated to a maximum of six (6) semester hours.

CLT 3041. Word Building: Greek and Latin Elements in the English Vocabulary (3). An introduction to Greek and Latin elements in English with special attention to word roots and the development of vocabulary through the application of these roots.

CLT 3370. Classical Mythology (3). A survey of Greco-Roman myth and legend, readings from illustrative ancient authors in English translation, approaches to the study of ancient myth.

CLT 3378. Ancient Mythology, East and West (3). This course will deal in a comparative way with the shared elements and influences found in the mythological traditions of selected cultures (e.g. Sumerian, Egyptian, Mayan).

CLT 3380. Classical Drama and Its Influence (3). A survey of the development of tragedy and comedy in the classical world. The theory of tragedy and comedy will be studied and the influence of classical models on the later history of tragedy and comedy will be traced.

CLT 4291. Greek Tragedy (3). An intensive study of the tragedies of Aeschylus, Sophocles, and Euripides.

CLT 4340. Greek and Roman Epic (3). Study of the principal epics of the classical world in English translation.

CLT 4372r. Studies in Ancient Mythology (3). Specific topics in the study of ancient myth and its interpretation. May be repeated to a maximum of six (6) semester hours.

CLT 4383. Studies in Ancient Comedy and Satire (3). Study of movements in Greek and Roman comedy, Roman satire, and ancient prose fiction through readings of selected works in English translation.

CLT 4905r. Directed Individual Study (1-4). May be repeated to a maximum of nine (9) semester hours.

EUH 3420. Rise and Fall of Classical Civilization (3). A survey of the histories of Greece and Rome and their major accomplishments.

EUH 4401. The Age of Alexander the Great (3). Study of the Greek world from the death of Socrates (399 B.C.) to the Roman conquest (146 B.C., the sack of Corinth by Mummius).

EUH 4402. Classical Athens and Sparta (3). History of Greece from the beginning to Alexander the Great. Emphasis on the social and political structures of Sparta and Athens.

EUH 4412. The Roman Republic (3). Study of the history of Rome from its foundation (traditionally 753 B.C.) to the fall of the Roman Republic (31 B.C., The Battle of Actium).

EUH 4413. The Roman Empire (3). The Roman Empire from Augustus to Constantine. Emphasis on the evolution from the principate of the early empire to the monarchy of the late empire.

GRE 1120, 1121. Beginning Greek I, II (4, 4). Introduction to the basic grammar and syntax of classical Greek. Meets the foreign language requirement for the BA degree. No language laboratory required.

GRE 2230. Introduction to Greek Literature (4). Translation and commentary on selected Greek readings. Meets the foreign language requirement for the BA degree. No language laboratory required.

GRW 3104r. Readings in Greek Literature (3). Translation, commentary, and interpretation of selected Greek works. May be repeated to a maximum of six (6) semester hours with change of content.

GRW 4210r. Greek Prose Writers (3). Translation, commentary, and interpretation of readings from Greek prose writers. May be repeated to a maximum of six (6) semester hours.

GRW 4301r. Greek Drama (3). Translation, commentary, and interpretation of selected Greek plays. May be repeated to a maximum of six (6) semester hours.

GRW 4340r. Greek Poetry (3). Translation, commentary, and interpretation of readings from selected Greek poets. May be repeated to a maximum of six (6) semester hours.

GRW 4500r. Greek Philosophical Writings (3). Translation, commentary, and interpretation of readings from the Greek philosophers or religious texts. May be repeated to a maximum of six (6) semester hours.

GRW 4905r. Directed Individual Study (1-4). May be repeated to a maximum of nine (9) semester hours.

GRW 4999r. Tutorial in Greek (1-3). Prerequisites: GRW 3104; instructor consent. Intensive work by a small number of undergraduates on a specific topic or research problem in Greek studies. May be repeated as topics vary to a maximum of six (6) semester hours.

LAT 1120, 1121. Beginning Latin I, II (4, 4). Introduction to the basic grammar and syntax of classical Latin. Meets the foreign language requirement for the BA degree. No language laboratory required.

LAT 2230. Introduction to Latin Literature (4). Translation and commentary on selected Latin readings. Meets the foreign language requirement for the BA degree. No language laboratory required.

LNW 3010r. Literature of the Republic (3). Translation, commentary, and interpretation of selected works by authors before Augustus. May be repeated to a maximum of six (6) semester hours.

LNW 3011. Literature of the Augustan Age (3). Translation, commentary, and interpretation of selected works from authors of the Augustan Age.

LNW 3211. Readings in Selected Latin Prose (3). Translation, commentary, and interpretation of readings taken from the prose authors of all periods of Latin literature.

LNW 4313. Plautus and Terence (3). Translation, commentary, and interpretation of selected plays from Plautus and Terence.

LNW 4320r. Roman Lyric, Elegiac, and Pastoral Poetry (3). Translation, commentary, and interpretation of poetry selected from the Roman elegists, the lyric tradition, and Roman pastoral. May be repeated to a maximum of six (6) semester hours.

LNW 4340r. Roman Epic (3). Translation, commentary, and interpretation of the works of Vergil or the other hexameter poets. May be repeated to a maximum of six (6) semester hours.

LNW 4360r. Roman Satire (3). Translation, commentary, and interpretation of selected readings from Horace and Persius, Juvenal, Martial, Petronius, or Apuleius. May be repeated to a maximum of six (6) semester hours.

LNW 4380r. The Roman Historians and Cicero (3). Translation, commentary, and interpretation of selected works from the Roman historians or Cicero's historical speeches and letters. May be repeated to a maximum of six (6) semester hours.

LNW 4905r. Directed Individual Study (1-4). May be repeated to a maximum of nine (9) semester hours.

LNW 4999r. Tutorial in Latin (1-3). Prerequisites: LNW 3010, 3011, 3215; instructor consent. Intensive work by a small number of undergraduates on a specific topic or research problem in Latin studies. May be repeated as topics vary to a maximum of six (6) semester hours.

Graduate Courses

ARH 5111. Art and Archaeology of the Bronze Age in the Aegean (3).

ARH 5119. Archaeology of Ancient Egypt (3).

ARH 5125. Etruscan Art and Archaeology (3).

ARH 5140. Greek Art and Archaeology of the Fifth and Fourth Centuries B.C. (3).

ARH 5160. Art and Archaeology of the Early Roman Empire (3).

ARH 5174r. Studies in Classical Art and Archaeology (3).

ARH 5934r. Tutorial in Classical Archaeology (1-3).

ARH 6937r. Doctoral Seminar in Classical Archaeology (3).

CLA 5438r. Studies in Greek History (3).

CLA 5448r. Studies in Roman History (3).

CLA 5789r. Classical Archaeology: Fieldwork (1-6).

CLA 5799r. Seminar in Classical Archaeology (3).

CLA 5885. Roman Law (3).

CLA 5905r. Directed Individual Study (1-4). (S/U grade only.)

CLA 5910r. Supervised Research (1-3). (S/U grade only.)

CLA 5936. Proseminar in Classical Studies (1). (S/U grade only.)

CLA 5940r. Supervised Teaching (0-3). (S/U grade only.)

CLA 5942r. Internship in Museum Studies (3-6).

CLA 6980r. Dissertation (0). (S/U grade only.)

CLA 8964r. Preliminary Doctoral Examination (0). (S/U grade only.)

CLA 8985r. Dissertation Defense (0). (S/U grade only.)

CLT 5295r. Studies in Greek Tragedy: Aeschylus, Sophocles, and Euripides (3).

CLT 5345.	Studies in Greek and Roman Epic (3).
CLT 5379r.	Seminar in Ancient Mythology (3).
CLT 5385r.	Studies in Ancient Comedy and Satire (3).
EUH 5406.	Hellenic History (3).
EUH 5407.	Hellenistic Greece (3).
EUH 5417.	The Roman Republic (3).
EUH 5418.	The Roman Empire (3).
GRE 5069r.	Graduate Reading Knowledge Examination (0). (S/U grade only.)
GRW 5215r.	Studies in the Greek Prose Writers (3).
GRW 5305r.	Studies in Greek Drama (3).

GRW 5345r.	Greek Poetry (3).
GRW 5505r.	Greek Philosophical Writings (3).
GRW 5908r.	Directed Individual Study (1–4). (S/U grade only.)
GRW 5909r.	Tutorial in Greek (1–3).
GRW 6930r.	Seminar in Greek (3).
LAT 5069r.	Graduate Reading Knowledge Examination (0). (S/U grade only.)
LNW 5316r.	Studies in Roman Drama (3).
LNW 5325r.	Roman Lyric, Elegiac, and Pastoral Poetry (3).
LNW 5345r.	Studies in Roman Epic (3).
LNW 5365r.	Studies in Roman Satire (3).

LNW 5385r.	The Roman Historians and Cicero (3).
LNW 5908r.	Directed Individual Study (1–4). (S/U grade only.)
LNW 5932.	Tutorial in Latin (1–3).
LNW 6930r.	Seminar in Latin (3).

For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the *Graduate Bulletin*.

COGNITIVE SCIENCE: see *Graduate Bulletin*

Department of COMMUNICATION

COLLEGE OF COMMUNICATION

Chair: Donna Marie Nudd; *Professors:* Heald, Mayo, Sapolsky, Young; *Associate Professors:* Adams, Jordan, MacNamara, McDowell, Montgomery, Nudd, Payne, Pekurny, Pompper, Rackley, Rayburn, Ungurait; *Assistant Professors:* Hadley, Houck, McClung, Opel, Pashupati, Raney; *Associates in Communication:* Brey, Solomon; *Assistants in Communication:* Halvorson, Rodin, Zeigler; *Associate Scholar/Scientist:* Grise; *Visiting Assistant Professor:* Ralstin; *Professors Emeriti:* King, Minnick, Phifer, Wotring

The Department of Communication offers a degree in communication with five programs of study. These programs are organized according to various applications of communication skills and expertise in our society. This unique array of studies allows students to select a sequence of courses that directly reflects their own professional, artistic, and/or academic interests. Accordingly, one can focus on: 1) advertising; 2) public relations; 3) communication studies; 4) mass media studies; and 5) media production.

Each area of study requires a series of courses designed to meet predetermined educational and career goals. The specific goals and requirements of some areas of study are detailed in the following section entitled "Descriptions of Programs of Study." While some programs of study are professionally oriented and others stress theory and a liberal arts education, each introduces the student to the broad range of communication theory and practice and provides the student with an understanding of the fundamental human and mediated communication processes.

In terms of both academic criteria and extra-curricular accomplishments, the students in the Department of Communication are of the very highest caliber and quality. The high quality of undergraduate students is reflected

in the numerous university, state, and national scholarship and fellowship recipients. The exceptional caliber and character of communication students are also proven by their extra-curricular activities. The Speech and Debate Program is considered one of the most experienced, talented squads in the nation. The program philosophy assures each student the best competitive experience possible. It emphasizes quality competition and provides the resources to help each student excel to the best of his or her abilities. Communication students are also involved in broadcasting and cable-casting activities, including the production of a daily cable newscast, a variety of sports-related programs as part of Seminole Productions, and broadcasts on WFSU-TV, The Florida State University's PBS station. Other student activities include the Advertising Club, the student chapter of the Florida Public Relations Association, the student chapter of Women in Communication, and Lambda Pi Eta, the national honor society for undergraduate communication students.

Both in and out of the classroom, the students of the Department of Communication have an established track record of national recognition and achievement. The University's communication graduates can be found working in virtually every country in the world and every state in the nation. Our graduates occupy productive and prominent positions in government, law, commercial communication, media-related activities, private business interests, and education.

The Department of Communication offers programs of study leading to the bachelor of arts (BA), bachelor of science (BS), master of arts (MA), master of science (MS), and doctor of philosophy (PhD) degrees. Consult the *Graduate Bulletin* for information regarding graduate programs.

Note: students not formally admitted to the Department of Communication are prohibited from enrolling in more than eighteen (18) semester hours of coursework in the Department of Communication (SPC 1016 and SPC 2600 do not count toward this eighteen [18] semester hour limit).

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. Eighteen (18) semester hours **outside** the major, in addition to the thirty-six (36) hours of general education requirements.

Requirements

Entry Requirements

Communication is a limited access major. Acceptance into the Department of Communication is competitive and acceptance into some of the various programs of study within the department is highly competitive.

All students must apply separately to the Department of Communication; **admission to the University is not a guarantee of admission into the major.** Students transferring from another institution are strongly encouraged to earn an AA before matriculating at The Florida State University.

Application Process

Minimum Requirements for Application:

1. Students applying for admission to communication studies must have an overall GPA of 2.8 on all college coursework accepted by

The Florida State University. Students applying for admission to public relations, advertising, mass media studies, and media production must have an overall GPA of 3.0 on all college course work accepted by The Florida State University.

2. Students must have passed or been exempted from the CLAST examination before applying.

3. In addition, students must complete the following requirements by the end of the Spring semester in which they are applying:

- a) Forty-three (43) semester hours of college coursework accepted by The Florida State University
- b) All Liberal Studies requirements; and
- c) All Gordon Rule requirements.

The Application

Application forms are available from the departmental office, 356 *Diffenbaugh*, and can be downloaded from the College of Communication website: <http://www.comm.fsu.edu>.

Completed applications must be received by the Department of Communication by February 1st at 5:00 PM to be considered for summer/fall admission. Included in the application process must be copies of transcripts from all colleges and universities attended. Late applications will not be accepted.

The Review Process

Acceptance by a faculty committee will be based on a review of the application and all supporting documents. There are three major criteria by which all undergraduate applications in the Department of Communication will be assessed: GPA in context, strength of experience relevant to the field and evidence of potential success in a relevant field. More specifically, the faculty members reviewing the applications in all areas will consider the following:

- Record of academic success in communication and communication-related courses.
- GPA in all college course work;
- Previous high school, college or professional experiences related to the chosen field;
- Well-defined goals and expectations related to the chosen field;
- Quality of writing in student's application materials;
- Preference for a particular major (i.e. the applicant's prioritized rank ordering of the major.)

(See Department of Communication application for additional information regarding the review process.)

Note: applicants are encouraged to enroll in courses in a foreign language, computing, statistics, and writing.

Retention Standards

The Department of Communication reserves the right to discontinue enrollment of any student in the major at any time if, in the judgment of the faculty, the student does not meet the standards of the department or the major. Specifically, majors in the Department of Communication must maintain an overall University average GPA of 2.8 or they may be placed on probation or dropped from the major.

Requirements for a Major in Communication

Note: admission to The Florida State University does not guarantee admission to a major in the Department of Communication. Students applying for admission to a departmental major must also apply to the University through the Office of Admissions. The student must apply for, and be accepted into, one of the department's majors. Acceptance into each program of study is based on student qualifications and is competitive.

Different programs of study specify different graduation requirements which lead to the baccalaureate degree in communication. Descriptions of each program's required and elective course sequences are available from the Department of Communication.

The Department of Communication has the following requirements for graduation. These requirements are beyond the minimum University requirements and those specified by each major: 1) meet the department's language proficiency requirement; 2) only course work with grades of "C-" or above will count toward a student's degree in communication; 3) completion of a minor in an academic area outside the Department of Communication; and 4) no more than six (6) semester hours of the following course work combined will count toward a communication major—COM 3950r, 4905r, 4910r, and SPC 2594r. The department requires that a student wishing to intern make arrangements with the faculty advisor and submit departmental contracts the semester prior to enrollment. Internship requirements vary by program of study. Only formally admitted communication majors can register for a communication internship.

Language Proficiency Requirement

Students formally admitted into any program in the Department of Communication during or after the 2003 admission cycle must achieve proficiency in one language other than English prior to graduation. As a department, we define "language" in broad terms, understanding that a variety of skills are equally important to the field of communication. To that end, students may fulfill this requirement in one of three ways: modern language, business language or computer language proficiency.

Modern Language Proficiency. Students may satisfy the language proficiency requirement by completing course work through the 2000 level (2200 or equivalent course) of a modern language. Students may also satisfy the requirement by completing the following coursework in sign language: SPA 1612C - Beginning American Sign Language and SPA 2613, Intermediate American Sign Language. A student taking course work to fulfill the department's modern language requirement must earn at least a "C-" in each course. Native speakers of another language and other students who wish to demonstrate proficiency by means other than course work should consult the Department of Modern Languages and Linguistics or, for sign language — the Department of Communication Disorders. Upon graduation, those students who pursue this option through a spoken language (i.e. French, German, Spanish, Latin, etc.) will receive a bachelor of arts (BA) degree. Those students who pursue this option through sign language will receive a bachelor of science (BS) degree. (**Note:** the department's modern language requirement is more extensive than the University's foreign language admissions requirement. It is important to understand that although completion of two years of high school language courses or two semesters of post-secondary language will satisfy the University's admissions requirement, these courses do not satisfy the Department of Communication's modern language graduation requirements. Please consult the "Admissions" chapter of this *General Bulletin* for more information.)

Business Language Proficiency. Students may satisfy the business language proficiency requirement by completing the following course work: ECO 2013, Principles of Macroeconomics; ECO2023, Principles of Microeconomics; and STA 2023, Fundamental Business Statistics. A student taking course work to fulfill the department's business language requirement must earn at least a "C-" in each course. Upon graduation, students who pursue the business language proficiency option will receive a bachelor of science (BS) degree. The business option to satisfy the Language Proficiency Requirement is suggested for all students in the advertising and public relations majors because STA 2023 is a prerequisite for COM 3310, a required class in both of these majors.

Computer Language Proficiency. Students may satisfy the language proficiency requirement by completing any three of the following courses: CGS 3408 Introduction to Programming with the C Language; CGS 3460, FORTRAN for Non-Specialists; CIS 3931, Intermediate Topics in Computer Science: Introduction to Java Programming; or CGS 3403 - Introduction to COBOL Programming. Students taking CGS 3408 may also complete the computer language requirement by taking the following as their second and third courses: CGS 4406, Object Oriented Programming in C++ or COP 3330 Object Oriented Programming; and CIS 493 or, Special Topics in Computer Science.

A student taking course work to fulfill the department's computer language requirement must earn at least a "C-" in each course. Upon graduation, students who pursue the computer language proficiency option will receive a bachelor of science (BS) degree.

Note: there are math prerequisites for some of these courses. These would be taken in addition to the computer science courses listed above.

Required Minor

A minor of at least twelve (12) semester hours, approved by the student's advisor, is required. All work counted toward the minor must carry a grade of "C-" or better. The minor must be in a department other than the Department of Communication. Requirements for the minor are established by the minor department, which can be found under the appropriate entry of this *General Bulletin*. Students should consult their faculty advisors when selecting a minor and are encouraged to complete the minor in an area related to their career goals. See individual descriptions of majors below for suggestions. Communication majors who complete a second major outside of the Department of Communication do not need a minor.

Honors in the Major

The Department of Communication offers a program in honors in communication to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Requirements for a Minor in Communication

The Department of Communication offers a minor in communication on a space available basis only. The minor consists of twelve (12) semester hours in communication selected from the following courses:

ADV 3000	Principles of Advertising (3)
MMC 2000	Introduction to the Mass Media (3)
PUR 3000	Introduction to Public Relations (3)
ADV 3352	Mass Media Law (3)
SPC 2210	Contemporary Human Communication (3)
SPC 3513	Argumentation (3)

Only coursework with a grade of "C-" or above in four of these six courses will count toward the minor. Credit earned in meeting the OCCR (Oral Communication Competency Requirement) may not be used to satisfy the minor. At

least six (6) semester hours of the communication minor must be taken in The Florida State University Department of Communication.

In cooperation with the College of Arts and Sciences, the Department of Communication also offers an interdepartmental film studies minor. For additional information on this minor, refer to the "School of Motion Picture, Television, and Recording Arts" section of this *General Bulletin*.

Description of Programs of Study

Advertising and Public Relations

Career and Educational Goals. Students in this program will master skills necessary for a career in advertising or public relations.

Skills to be Developed. Advertising students will focus on account management, creative strategy, media planning and research skills. Public relations students will concentrate on public relations writing, tactics, research and campaign management skills.

Focus Areas. A student applying to this program is required to indicate on the application form his/her preferred focus area: advertising or public relations.

Major Hours Required. Thirty-nine (39) semester hours. Students must retake any course with a grade below "C-".

Required Minor. A minor (or second major), approved by your advisor, is required. All minor work must be in a department other than the Department of Communication. All work counted toward the minor must carry a grade of "C-" or better. Requirements for the minor are established by the minor department and can be found in this *General Bulletin*. Suggested minors include: business, psychology, English, journalism (FAMU), political science, social science, and others, depending upon one's career objectives. A fifteen (15) semester hour interdepartmental minor is also possible, provided that the course work is outside the Department of Communication and is approved in advance by the faculty advisor and the department chair.

Internship. Advertising students are required to enroll in a minimum of six (6) semester hours of internship (COM 4945r). Public relations students are required to enroll in a minimum of six (6) semester hours of PR internship (PUR 4940r). A student may enroll for up to twelve (12) semester hours of internship which will count toward the 120 hours needed for graduation from The Florida State University, but only a maximum of nine (9) semester hours may be credited toward the advertising or public relations programs of study.

Course Requirements for the Advertising and Public Relations Major

1. **Required Core Courses:** sixteen (16) semester hours;
2. **Emphasis Area (one of two areas):** thirteen to fifteen (13-15) semester hours;
3. **Internship:** six to nine (6-9) semester hours;
4. **Electives:** three to five (3-5) semester hours.

Total: thirty-nine (39) semester hours.

A specific listing of courses is available from the Department of Communication, 356 Diffenbaugh.

Communication Studies:

Career and Educational Goals. Students graduating in this program should have a solid liberal arts education with an emphasis in speech communication. Degrees in speech communication are applicable to a number of fields including law, ministry, speech writing, management and lobbying.

Major Hours Required. Thirty-nine (39) semester hours. Students must retake any course with a grade below "C-".

Required Minor. A minor (or second major), approved by your faculty advisor, is required. All minor work must be in a department other than the Department of Communication. All work counted toward the minor must carry a grade of "C-" or better. Requirements for the minor are established by the minor department and can be found in this *General Bulletin*. Recommended minors include: English, political science, psychology, theater, journalism (at FAMU), sociology, criminology, social sciences, American studies, womens studies, African American studies, British studies (The Florida State University London Program). A fifteen (15) semester hour interdepartmental minor is also possible, provided the course work is outside of the Department of Communication and is approved in advance by the faculty advisor and the department chair.

Internship. The student may complete an internship (COM 4945) as an elective. Students may register for a total of twelve (12) semester hours of internship credit, however, a maximum of three (3) semester hours may count toward the communication studies major.

Recommended Extracurricular Activities. Debate, V89, Women in Communication, student government, theatre productions, Seminole Productions, FSU Live.

Course Requirements for the Communication Studies Emphasis

Of the three areas in communication studies (applied communication, rhetorical studies and communication and culture), students select one as a primary area of concentration.

1. **Required Core Courses:** SPC 2210, 2600, 3513; nine (9) semester hours;

2. **Emphasis Area** (at least two of these courses must be at the 4000 level): four (4) three (3) semester hour courses = twelve (12) semester hours;

3. **Secondary Area:** one three (3) semester hour course;

4. **Third Area:** one three (3) semester hour course;

5. **Additional Course:** One three (3) semester hour course;

6. **Approved Electives in Communication Studies:** nine (9) semester hours.

Total: thirty-nine (39) semester hours.

A specific listing of courses is available from the Department of Communication.

Mass Communication: Mass Media Studies and Media Production

Career and Educational Goals. Students majoring in mass communication may pursue careers in broadcasting, cable, advertising, video production, arts and entertainment, emerging information technologies and related fields. The degree will also prepare students to pursue graduate study in mass communication.

Areas of Special Knowledge and Skills to be Developed. The mass communication program will expose students to the history, evolution and changing state of mass media. Students will develop an appreciation for the economic underpinning of the media, the social effects of the media, legal and ethical issues affecting the production and dissemination of products and programs, the nature of new communication technologies, and techniques employed in the production of the mass media. The major will impart such skills as writing for the media, audience research, computing, on-camera performance, video production, video editing, and developing media plans.

Focus Areas. The mass communication program consists of two emphasis areas: mass media studies and media production. A student applying to the mass communication program is required to indicate on the application form his/her preferred emphasis area. A limited number of students are accepted annually into the media production emphasis area.

Major Hours Required. Thirty-nine (39) semester hours. Students must retake any course with a grade below "C-".

Required Minor. A minor (or second major), approved by the student's faculty advisor, is required. All work must be in a department other than the Department of Communication. All work counted toward the minor must carry a grade of a "C-" or better. Requirements for the minor are established by the minor department and can be found in this *General Bulletin*. Recommended minors include: business, education, English, political science, psychology, theatre, journalism (at FAMU), sociology, criminology,

social sciences, American studies, British studies (The Florida State University London Program). A fifteen (15) semester hour interdepartmental minor is also possible, provided the course work is outside the Department of Communication and is approved in advance by the faculty advisor and department chair.

Internship. An internship (COM 4945r) is recommended. A student may enroll for up to twelve (12) semester hours of internship, but a maximum of nine (9) semester hours may be credited toward the major.

Course Requirements for the Mass Communication Emphasis

I. Focus in Mass Media Studies

- Core Courses:** twelve (12) semester hours;
- Research/Theory Courses:** six (6) semester hours;
- Techniques Courses:** three (3) semester hours;
- Activities Courses:** three (3) semester hours;
- Electives** (includes Internship): fifteen (15) semester hours;

Total: thirty-nine (39) semester hours.

II. Emphasis in Media Production

- Core Courses:** twelve (12) semester hours;
- Research/Theory Courses:** six (6) semester hours;
- Techniques Courses:** three (3) semester hours;
- Activities Courses:** six (6) semester hours;
- Production Courses:** twelve (12) semester hours;

Total: thirty-nine (39) semester hours.

A specific listing of courses is available from the Department of Communication.

ORI	— Oral Interpretation
PUR	— Public Relations
RTV	— Radio-Television
SED	— Speech Education
SPC	— Speech Communication

Undergraduate Courses

ADV 3000. Principles of Advertising (3). Advertising and promotion as related to level of economic growth, cultural influences, and sociological environments.

ADV 3001. Creative Strategy I (3). A foundation class in advertising where creativity is explored in a workshop environment.

ADV 3352. Mass Media Law (3). Comprehensive review of laws, rules, and regulations affecting both the advertising and broadcast industries as well as other forms of mass media. Includes review of libel, slander, invasion of privacy, gathering of information, and copyright laws.

ADV 4300. Media Planning (3). Prerequisite: ADV 3000 and COM 3310/3310L. Coordination of advertising and marketing research, planning, creative strategy, and selection of media and production activities leading to the development of advertising campaigns.

ADV 4500. Advertising Research (3). Prerequisite: ADV 3000. Survey, observational, and experimental methods and processes. Research design, planning, questionnaire construction, sampling, validity measurements, field work, tabulations, presentation, and interpretation.

ADV 4800. Creative Strategy II (3). Prerequisite: ADV 3000, 3001; COM 3310, 3310L. Creative and empathetic skills necessary in communicating via print and electronic media; utilizing these skills in creating integrated advertising campaigns.

COM 3120. Communication for Organizing (3). Communication and group problem solving in bureaucracies.

COM 3310. Communication Research Methods (3). Prerequisites: STA 3014, STA 2122 or QMB 3200; Corequisite: COM 3310L Introduction to communication research methods. Examines survey, experimental, observational and content analysis methods. Philosophy of science, research design, measurement, sampling, data collection, analysis, interpretation and reporting.

COM 3310L. Communication Research Methods Laboratory (1). Corequisite: COM 3310. Applications and simulations of communication research methods. Lecture material covering research design, measurement, sampling, data collection, analysis, interpretation and reporting practiced using computer technology.

COM 3332. New Communication Technology and Contemporary Society (3). Relates the design, development, and the use of new communication technologies to social, economic and policy implications. Lecture, labs, and discussion groups.

COM 3510. Political Communication and Campaigning (3). Campaigns, elections, and American politics in a communication framework; planning campaign strategies.

COM 3930r. Special Topics in Communication (3). An analysis of specialized topics of current concern in communication. May be repeated to a maximum of six (6) semester hours; duplicate registration allowed.

COM 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

COM 3950r. Communication Activities (1). (S/U grade only.) May be repeated to a maximum of four (4) semester hours; duplicate registration allowed.

COM 4121. Foundation of Organizational Communication (3). The course explores the use of communication in conjunction with the theory and practice of PM/OBM for increasing productivity and analyzing performance problems.

COM 4123. Introduction to Assessing Organizational Communication (3).

COM 4140. Fundamentals of Communication for Organizational Development (3). Introduces students to the communication issues involved in the theory and practice of organizational development.

COM 4330. Communication and the Internet (3). Develops technical and communication skills in Internet-based communication technologies. Hands-on survey of Internet technologies with focus on communication issues, problems and competencies. Lecture and lab.

COM 4465. Communication and Conflict (3). Introduces students to the theory and practice of conflict resolution with emphasis on the role of communication.

COM 4470. Desktop Multimedia (3). Course provides overview of operations and applications of software packages; principles of design and presentation for print-based as well as audio-visual productions.

COM 4480. Legal Communication (3). An analysis of how communication affects and is affected by our legal institutions and processes.

COM 4481. Attorney, Client, Pretrial Communication (3). Course introduces students to the core elements of the attorney-client relationship across a variety of contexts and the numerous elements of pretrial communication and preparation.

COM 4482. Courtroom and Jury Persuasion (3). Course introduces students to the nature and implications of effective courtroom persuasion and the process of jury analysis and jury selection.

COM 4905r. Directed Individual Study (1-3). (S/U grade only.) Instructor approval required. May be repeated to a maximum of eight (8) semester hours; duplicate registration allowed.

COM 4909r. Honors Work (3). For students in the honors program who are working on an honors thesis. May be repeated to a maximum of twelve (12) semester hours; duplicate registration not allowed.

COM 4910r. Application of Research Methods (1-3). (S/U grade only.) Instructor approval required. Experience in methods and strategies of research in communication concepts. Individually designed to accommodate student's background and objectives. May be repeated to a maximum of four (4) semester hours; duplicate registration allowed.

COM 4930r. Undergraduate Seminar in Communication (3). Explores advanced communication issues with an emphasis on research. May be repeated to a maximum of six (6) semester hours; duplicate registration allowed.

COM 4935r. Senior Seminar in Communication Studies (3). Prerequisites: COM 4481 or SPC 4680 or 4710. This course is an advanced seminar in communication studies with an emphasis in legal communication studies, communication and culture, or rhetorical studies.

COM 4937. Honors Preparatory Seminar (3). Instructor approval required. Preparatory seminar for undergraduate Honors in the Major thesis. Includes survey of subfields, faculty research, and student research proposals.

COM 4941r. Application of Instructional Methods (1-3). (S/U grade only.) To provide experience in methods and strategies of teaching communication concepts within the University context. Individually designed to accommodate students background and objectives. Instructor approval required. May be repeated to a maximum of three (3) semester hours; duplicate registration not allowed.

COM 4945r. Communication Internship (1-12). (S/U grade only.) Faculty advisor's approval required. Supervised internship. Credit proportional to scope and significance of work. Credit may not be applied to graduate degrees. Individually designed to accommodate students' background and objectives. May be repeated to a maximum of twelve (12) semester hours; duplicate registration not allowed.

FIL 2000. Elements of Film (3). The purpose of this course is to provide the student with an opportunity to study classic examples of superior filmmaking and develop critical skills that will help the individual understand and evaluate film communication, literature, and art.

FIL 3106. Film and Television Writing (3). Process and techniques of film scripting, including documentary, rhetorical, and narrative forms, for the film and television media.

FIL 3503. The Contemporary Cinema: Theory and Practice (3). Review and analysis of post-1950 motion pictures with emphasis on technique and industrial evolutions.

MMC 2000. Introduction to the Mass Media (3). A historical and social overview of the mass media and their relationship to the mass communication process in a modern society.

MMC 4210. Media Legalities (3). Prerequisite: RTV 3003. Review and application of media business practices and legal requirements involved in the conception and production of media content for radio and television.

MMC 4300. Communication and Change: The Diffusion of Innovations (3). An analysis of the process of change in developing countries, particularly from the standpoint of how communication is used in the introduction, spread, and adoption of new ideas.

MMC 4602. Mass Media and Society (3). Prerequisite: MMC 2000 or RTV 3003. An analysis of the effects of mass media on public opinion and behavior. A review of social science research exploring the impact of TV on children and others.

ORI 3004. Performance Studies (3). Students collect, analyze and perform personal narratives and everyday conversations.

ORI 3110. Performance of Contemporary Literature (3). Analysis of and practical experience in the performance of poetry and prose.

PUR 3000. Introduction to Public Relations (3). Designed to introduce the student to the principles and practices of the public relations profession throughout all organizations using public relations.

PUR 3002. Public Relations Techniques (3). Prerequisite: PUR 3000 and PUR 3100. Tools and techniques of public relations. Application of public relations principles.

PUR 3100. Writing for Public Relations (3). Corequisite or prerequisite: PUR 3000. Designed to develop professional-level writing skills for public relations.

PUR 3500. Public Relations Research Methods (3). Introduction to public relations research methods. Primarily examines focus groups, content analysis, and survey methodologies.

PUR 3930. Public Relations Proseminar (1). (S/U grade only.) Corequisite: PUR 3000. Public relations majors must register for the proseminar on admission to the program. They are to become active in FPRA, PRSSA, or WIC and remain active during undergraduate work.

PUR 4600. Public Relations Management: Cases and Campaign Strategies (3). Prerequisites: PUR 3000, 3002, 3100. Designed to focus on the management function of public relations. Focus on significant cases and campaign strategies.

PUR 4940r. Public Relations Internship (1-12). (S/U grade only.) Prerequisites: PUR 3000, 3002, 3100. Practical application of classroom principles in public relations settings. May be repeated to a maximum of twelve (12) semester hours.

RTV 3001. Media Techniques (3). Introduction to basic principles and terminology associated with photography, filmmaking, television, and radio.

RTV 3003. Elements of Broadcasting (3). Surveys American broadcasting from the standpoint of communicators, organizations, content, and audience with special emphasis on research.

RTV 3101. Writing for the Electronic Media (3). Non-fiction writing for television and radio including public affairs, commercials, and documentaries.

RTV 3104. Narrative Writing for Television and Film (3). Development and writing of fictional scripts for television and film.

RTV 3220. Television Production (3). Fundamentals of studio and field production including camera, audio, lighting and production planning using the crew system.

RTV 3221. Single-Camera Video Production (3). Prerequisite: RTV 3220. Course addresses direction and production of single-camera video projects including camera, audio, lighting and linear editing.

RTV 3225r. Video Workshop (1-3). (S/U grade only.) Prerequisite: Communication major status. A course designed for students to gain experience in the production of television programs and video projects. May be repeated to a maximum of three (3) semester hours. Duplicate registration allowed.

RTV 3227. Multiple Camera Studio Production (3). Prerequisite: RTV 3220. Direction and production of multiple-camera studio video projects including camera, lighting, audio and live-to-tape switching.

RTV 3234. Television Interviewing and Hosting (3). Lecture-laboratory. Course introduces students to on camera interviewing and hosting of news and public affairs programs including research and writing components.

RTV 3236. Directing Performance for the Camera (3). Prerequisite: RTV 3220. Students will direct student actors in a workshop setting. Actors and directors will gain experience with and appreciation for those on the other side of the camera. Lecture-laboratory.

RTV 3263. Video Post Production (3). Prerequisite: RTV 3220. Advanced editing and post production techniques applied to field and studio projects. Emphasis on digital non-linear editing systems.

RTV 3264. Computer Graphics and Animation (3). Prerequisite: RTV 3220. Design and production of computer-generated graphics and animation for video projects.

RTV 3920. Television Workshop for Non-Majors (1-3). (S/U grade only.) May not be applied toward communication major. A course designed for students to gain experience in the production of television programs and video projects. May be repeated twice to a maximum of three (3) semester hours.

RTV 3926r. Radio Workshop (1-3). (S/U grade only.) General staff work in any department of the campus student-run radio station. Designed to afford both entry-level training or advanced application of skills. Students must work three (3) hours per week for one (1) hour of credit. May be repeated to a maximum of three (3) semester hours.

RTV 3941r. Radio Practicum (3-6). Prerequisite: Permission of instructor. Advanced radio work in either of two areas: management or other supervisory roles at the student radio station; or special individual projects in the application, study, or research of audio pertaining to radio broadcasting. May be repeated to a maximum of six (6) semester hours.

RTV 4467r. Television Practicum (3-6). Prerequisites: RTV 3220, 3221. Producing and directing television programs and video projects. May be repeated to a maximum of six (6) semester hours.

RTV 4504. Electronic Media Audience Measurement (3). Prerequisites: ADV 3000; RTV 3003. Course provides an understanding of: past and current methods of measuring radio, TV and cable audiences; terms and formulas used by the ratings services; the local market radio (Arbitron) and TV (Nielsen) reports; how ratings and other audience estimates are utilized in radio/TV/cable programming and sales; the newest developments in audience measurement; customized and qualitative approaches to audience measurement; and computer applications widely used in the broadcasting and advertising industries.

RTV 4802. Radio-Television Station Operation and Programming (3). Prerequisite: MMC 2000 or RTV 3003. Purpose, function, organization, and programming of the radio and television station with an emphasis on research.

RTV 4970. Senior Thesis in Production (3). Prerequisite: Senior level status; twelve (12) semester hours of 3000 level production courses; instructor permission. A culminating course for students in production. Individual students, focusing on areas they have mastered in intermediate courses, will produce senior thesis video projects.

SPC 1016. Fundamentals of Speech (3). Survey and application of communication theory, including interpersonal communication, small group communication, and public speaking.

SPC 2210. Contemporary Human Communication (3). An introductory course that surveys current scholarship in five areas of communication theory: group, rhetorical, interpersonal, legal, and performance communication.

SPC 2410. Parliamentary Law (3). The principles and rules governing voluntary organizations and deliberative assemblies.

SPC 2600. Public Speaking (3). Principles of and practical experience in public speaking.

SPC 3120. Psychology of Oral Communication (3). A study of basic psychological principles involved in communication behavior with application to individual and group communication situations.

SPC 3190. Applied Voice and Diction (3). This course covers articulation, word choice and pronunciation, and introduces the student to the speech production mechanism and how speech sounds are produced and classified.

SPC 3231. Contemporary Rhetorical Theory (3). Prerequisite: SPC 2210. This course examines rhetorical theorists of the 20th century, including Burke, Richards, Foucault, Habermas, Fisher and Weaver.

SPC 3233. Classical Rhetoric (3). Prerequisite: SPC 2210. Students examine the origins of rhetorical theory during the classical period. The course emphasizes ideas on rhetoric of Plato, Aristotle, Cicero, and Quintillion.

SPC 3301. Interpersonal Communication (3). A survey of recent literature on interpersonal communication including such topics as self-concept, emotional behavior, interpersonal conflict, and interpersonal attraction.

SPC 3331. Nonverbal Communication (3). Review of recent literature on nonverbal communication including such topics as kinesics, proxemics, kinesthetic behavior, environment, physical characteristics, and personal appearance.

SPC 3350. Listening (3). This course teaches students to understand the complexity of listening and the nature of listening in the human communication process. In order to help students learn to improve their own listening behavior, this course will stress six skill areas: 1) hearing messages, 2) understanding messages, 3) remembering messages, 4) interpreting messages, 5) evaluating messages, and 6) responding to messages.

SPC 3425. Communication in Small Groups (3). This course in small groups includes both cognitive and experiential elements. Students study how small groups function as they create their own project groups and learn by doing.

SPC 3513. Argumentation (3). This course focuses on the principles of argumentation theory and the practical applications of these principles in different argumentative situations. Traditional as well as contemporary approaches to the study of argument are combined with the settings of argument to provide a practical experience for each student.

SPC 3593r. Competitive Intercollegiate Forensics (1). Competitive debate and individual events. Experienced students will develop and perfect their speaking skills in a highly competitive, structured format of instruction and competition. May be repeated to a maximum of eight (8) semester hours.

SPC 3644. Rhetoric of Didactic Literature (3). Prerequisite: SPC 2210. An analysis of drama as an instrument for advancing a political or social thesis.

SPC 4360. Interviewing (3). An analysis of the interview process in a variety of specific contexts and the development of communication skills used in interviewing.

SPC 4445. Group Dynamics and Leadership (3). Recommended prerequisite: SPC 3425. A review of concepts and research in group process and group leadership.

SPC 4516. Evidence (3). Prerequisite: SPC 3513. The study of principles of evidence and proof in law, historical investigation, scientific discovery, and the social sciences. An analysis of argument and proof modes used for public policy decision making with an emphasis on developing standards of proof for public consumers of information as well as policymakers.

SPC 4540. Persuasion (3). A study of the psychology of attitude formation and change including theories of persuasion and principles of persuasive communication.

SPC 4605. The Principles of Speechwriting (3). Prerequisite: SPC 2600. History and principles of speechwriting, the ethical issues involved, and speechwriting skills based on sound principles of communication.

SPC 4630. Rhetoric of Womens Issues (3). Recommended prerequisite: SPC 2600. Examination of selected social and political issues which affect women today; analysis of content, lines of argument, supporting evidence, and rhetorical strategies.

SPC 4634. Rhetoric of Race Relations (3). History of the struggle for freedom and equality from pre-Civil War spokesmen to the 20th-century Black nationalists as evidenced in texts of selected public speeches and reaction to them.

SPC 4651r. Rhetoric of Contemporary Issues (3). Examination and analysis of the problems and questions which confront our society from a rhetorical perspective; how communication skills and strategies have affected our perceptions and understanding of events. May be repeated to a maximum of six (6) semester hours. Duplicate registration is not allowed.

SPC 4680. Methods of Rhetorical Criticism (3). Prerequisite: SPC 3231 or 3233. This course examines methods for the practice of doing criticism of rhetorical discourse. Topics include Aristotelian, Metaphor, narrative, post-modern, and cultural approaches to the analysis of text.

SPC 4710. Interracial/Intercultural Communication (3). An exploration of interracial and intercultural communication and the philosophies that underlie the concept.

SPC 4711. Gender and Communication (3). Course is designed to help students gain knowledge of the theory and process of gender communication (about and between genders) from an interpersonal context perspective.

Graduate Courses

ADV 5503. Media Consumer Behavior (3).

ADV 5505. Media Market Research (3).

COM 5126. Organizational Communication Theory and Practice (3).

COM 5127. Assessing Organizational Communication (3).

COM 5145. Communication Issues in Organizational Development (3). (S/U grade only.)

COM 5305r. Interactive Communication Research (1–3).

COM 5312. Research Methods in Communication (3).

COM 5314. Measurement of Listener-Viewer Attitude and Response (3).

COM 5316. Statistical Methods in Communication Research (3).

COM 5317. Content Analysis in Communication Research (3).

COM 5331. Computers in Communication Research (3).

COM 5336r. Interactive-Media Programming and Design (3).

COM 5340. Historical-Critical Methods of Research (3).

COM 5401. Analysis of Communication Theory (3).

COM 5467. System Thinking and Project Management (3).

COM 5469. Communication Planning and Dispute Resolution (3).

COM 5546. Political Communication (3).

COM 5906r. Directed Individual Study (3). (S/U grade only.)

COM 5911r. Supervised Research (1–6). (S/U grade only.)

COM 5920r. Colloquium in Communication (0–1). (S/U grade only.)

COM 5940r. Supervised Teaching (1–6). (S/U grade only.)

COM 5946r. Communication Residency (1–6). (S/U grade only.)

COM 6400r. Seminar in Communication Theory (3).

COM 6401r. Advanced Problems in Communication Theory and Research (2–8).

COM 6900. Preparation for the Preliminary Examination (2–4). (S/U grade only.)

COM 6931r. Special Topics in Communication Research (3).

MMC 5305. Comparative Systems of Mass Communication (3).

MMC 5600. Mass Communication Theory and Effects (3).

MMC 6920r. Colloquium in Mass Communication (3).

RTV 5253. New Communication Technology Theory and Research (3).

RTV 5702. Communication Regulation and Policy (3).

RTV 6425r. Advanced Seminar in New Communication Technologies (3–6).

SED 5340. Teaching Communication in College (3).

SED 5346. Teaching Oral Communication Courses (3).

SPC 5234. Classical Theories of Rhetoric (3).

SPC 5442. Group Dynamics and Leadership (3).

SPC 5545. Studies in Persuasion (3).

SPC 5614. Criticism of Contemporary Public Address (3).

SPC 5639. Rhetoric of Women's Issues (3).

SPC 5645. Rhetoric and Human Affairs (3).

SPC 5655. Political Rhetoric: Language and Persuasion (3).

SPC 6236. Contemporary Rhetorical Theory and Criticism (3).

SPC 6306. Contemporary Topics in Interpersonal Communication (3).

SPC 6920r. Colloquium in Speech Communication (3).

For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the *Graduate Bulletin*.

Department of COMMUNICATION DISORDERS

COLLEGE OF COMMUNICATION

Chair: Howard Goldstein; *Professors:* Goldstein, Hardiman, La Pointe, Wetherby; *Associate Professors:* Bourgeois, Crowley, Morris, Walker; *Assistant Professors:* Kemker, Lasker, Stierwalt; *Visiting Associate Professor:* Woods; *Associates in Communication Disorders:* Blumsack, Hudson; *Assistant in Communication Disorders:* Landis; *Professors Emeriti:* Haas, Schendel;

The mission of the Department of Communication Disorders is to prepare undergraduate and graduate students to demonstrate broad-based knowledge in communication processes and disorders and to integrate theoretical knowledge and research findings with clinical practicum experiences. The program prepares speech-language pathologists to provide effective diagnostic and treatment services to individuals with a wide variety of speech, language, and hearing impairments. It prepares clinical scientists to generate new knowledge pertaining to communication processes and innovative strategies for evaluating and managing communication disorders. The mission is operationalized through clinical and traditional instructional programs, professional and clinical service, and clinical research. The department provides education for students seeking the bachelor of science (BS), master of science (MS), advanced master (AM), and doctor of philosophy (PhD) degrees. The department does not offer a degree in education of the deaf nor in sign language interpretation.

Students enrolled in programs of the Department of Communication Disorders at The Florida State University are provided unique experiences because of the learning environment. The department is a member of the College of Communication, which provides numerous collateral educational experiences. The L.L. Schendel Speech and Hearing Clinic provides the primary teaching and research laboratory for students and faculty and provides comprehensive, multidisciplinary evaluation and treatment services to persons in the community and region with communicative disorders. This 40-room facility is the central focus of learning and service activities. Videotape laboratories, diagnostic audiology instrumentation, sound isolation rooms, non-speech systems, and a complement of other clinical resources serve for clinical instruction.

The department also maintains a number of communication science laboratories for the study of physical and psychological aspects of sound, speech, voice, and language. These facilities provide space and highly specialized equipment to students and faculty, including laboratories for study in speech science, voice science, hearing science, emerging language, and adult language.

Requirements for an Undergraduate Major in Communication Disorders

All students enter the program at the junior level and must have a minimum grade point average (GPA) of 2.8 for all course work, have successfully completed The Florida State University's liberal studies requirements, and have passed or been exempted from the CLAST. Admission to The Florida State University does not ensure admission to the Department of Communication Disorders, **nor does attainment of the minimum grade point average.** Formal application to the department is required of all entering majors. Normally, admission is for the fall semester. All materials necessary for admission applications must be submitted directly to the department by April 1st.

The curriculum leading to the baccalaureate degree combines liberal arts education with preprofessional preparation for the graduate program in the department or elsewhere. At the undergraduate level, students are provided experiences relating to the basic processes of hearing, language, and speech. The junior-year course offerings focus on the basic science and developmental foundations considered prerequisite for the speciality curricula initiated during the senior year. To qualify for graduation from the major, all undergraduates in communication disorders must earn a grade of "C-" or better for each required major course and must have an overall G.P.A. of at least 2.0 in major course work.

Speech-language pathology courses cover the nature, evaluation, and treatment of problems of articulation, language, fluency, voice, neurophysiological, and structural disorders affecting speech and language. Audiology courses are concerned with the identification, measurement, evaluation, and rehabilitation of persons with hearing impairments. Studies in communication science concern analysis and measurement of components of the production, transmission, and reception of the speech signal.

Undergraduate students learn anatomy and physiology of the speech and hearing mechanisms; sound and its perception; the development of language and communication systems; the components of the English sound system; the neurological bases of speech, language, and hearing; sign language; strategies for clinical intervention; diagnostic/evaluation strategies in speech, language, and hearing; basic concepts related to disorders in language, phonology, and fluency; and professional issues in communication disorders.

The major professional, educational, and clinical experiences occur during graduate studies leading to the master's degree. Eligibility for the certificate of clinical competence from the American Speech-Language-Hearing Association and state licensure are not possible until the requirements for the master's degree are met.

The master's of speech-language pathology program is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA) and prepares students to work in hospital, clinical, school, or private settings with a variety of developmental and acquired communication disorders.

Requirements for a Minor in Communication Disorders

Requirements for an undergraduate minor in communication disorders are twelve (12) semester hours in departmental courses, with a grade of "C" (2.0) or better in each course. At least six (6) of the twelve (12) semester hours must be completed at The Florida State University. Department approval must be obtained before taking any courses as a minor. Please note that a minor in the department does not qualify a student to apply for our graduate program in speech-language pathology nor for professional certification or licensure.

Definition of Prefixes

LIN — Linguistics
SPA — Speech/Language Pathology and Audiology

Undergraduate Courses

LIN 3200. Fundamentals of Phonetics (3). A study of the acoustical and physiological aspects of speech-sound production. An orientation to the international phonetic alphabet and its use for the broad transcription of General American English.

LIN 3200L. Fundamentals of Phonetics Laboratory (1). Prerequisites: Communication disorders majors only. Corequisite: LIN 3200. Laboratory for LIN 3200.

LIN 3710. Normal Communication Development (3). Presents an overview of the cognitive, social, and neurological bases of communication development. Delineates the stages of language development for pragmatics, semantics, and syntax. Highlights the language differences of nonstandard English dialects and bilingualism and introduces language disorders.

SPA 1612C. Beginning American Sign Language (4). This course is designed to introduce students to the vocabulary, grammar, and non-verbal aspects of American Sign Language with an emphasis on basic dialogue skills.

SPA 2613C. Intermediate American Sign Language (4). Prerequisite: SPA 1612. This course is designed to expand the students comprehension and production of American Sign Language with a primary emphasis on dialogue. Focus is on increased vocabulary, conceptual accuracy, verb inflections, and ASL idioms.

SPA 2620. Introduction to Sign Language Systems (2). Introduction to the deaf culture and to sign language as a communication system; encoding and decoding skills of Signed English and finger spelling.

SPA 2633. Deaf Culture (3). This course is designed to acquaint students with the political, cultural, educational and social parameters of Deaf culture. International and United States perspectives are included.

SPA 3000. Introduction to Language Development and Communication Disorders (3). Normal language and speech development. Overview of major communication disorders and their causes and the nature of hearing disabilities. Nonmajors only.

SPA 3201. Phonological Development and Disorders (3). Prerequisite: LIN 3200C. Types of articulation problems and their etiologies; diagnostic techniques for articulation. A laboratory is required.

SPA 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

SPA 4007r. Undergraduate Seminar in Communication Disorders (1–3). Prerequisite: Consent of instructor. A seminar to provide undergraduate students with information on critical issues in the profession or information on innovative methodologies in the remediation of communication disorders. May be repeated to a maximum of three (3) semester hours.

SPA 4011C. Introduction to Communication Science (4). Basic acoustics and speech acoustics including frequency, intensity, duration, and wave composition and their psychological correlates, pitch, loudness, time, and sound quality. Lectures, demonstrations, and required laboratory project.

SPA 4032. Introduction to Hearing Science (3). An introduction to the anatomy and physiology of the ear, instrumentation in audiometry, and psychoacoustics.

SPA 4050r. Clinical Observation and Practice (3). (S/U grade only.) Prerequisites: SPA 3201, 4302, 4400. Supervised practice in therapeutic procedures with persons with various speech-language problems. May be repeated to a maximum of three (3) semester hours. Students may enroll in more than one section during the same semester.

SPA 4101C. Anatomy and Physiology of the Speech Mechanism (4). An introduction to the anatomy and physiology of the systems underlying speech production: respiration, phonation, articulation and resonance. The anatomy and physiology of the ear is also introduced. Lecture and laboratory experiences.

SPA 4104. Neurological Bases of Communication (4). Normal neuroanatomy, neurophysiology, and neuropathologies effecting communication. Prior speech anatomy needed.

SPA 4222. Introduction to Fluency Disorders (3). Nature and causes of stuttering disorders; theory and treatment.

SPA 4302. Introduction to Clinical Audiology (3). An introduction to disorders of hearing and the measurement of hearing loss by pure-tone, speech, and impedance audiometry.

SPA 4302L. Introduction to Clinical Audiology Laboratory (1). (S/U grade only.) Prerequisite or Corequisite: SPA 4302. This course is the practical application of the techniques learned in SPA 4302.

SPA 4321. Aural (Re)habilitation I (3). Prerequisite: SPA 4302. Diagnostic-evaluation and (re)habilitation techniques.

SPA 4400. Children's Language Disorders (3). Prerequisite: LIN 3710. Introduction to etiologies, behavioral observations, tests, and basic management procedures of language impairment.

SPA 4411. Acquired Language Disorders (3). Prerequisites: LIN 3710; SPA 4104. Provides the student with the etiological, diagnostic, prognostic, psychosocial, and clinical management aspects of aphasia, apraxia, and dementia; also includes communication problems of patients with right hemisphere damage.

SPA 4501. Clinical Methods (3). This course is designed to acquaint the major with the organizational structures and operations of various professional work settings.

SPA 4800. Research Evaluation (3). Elements of quantitative research; application of psychophysiological research methods to human communication problems.

SPA 4905r. Directed Individual Study (1–3). May be repeated to a maximum of eight (8) semester hours. Students may enroll in more than one section during the same semester.

SPA 4970r. Honors Thesis in Communication Disorders (3). Prerequisites: Admission to honors program and Department of Communication Disorders. Course is available to seniors who are majoring in communication disorders and who are interested in undertaking independent and original research under the direction of a faculty member whose area of expertise matches the students interest. May be repeated to a maximum of six (6) semester hours.

Graduate Courses

SPA 5055r. Professional Tools in Speech–Language Pathology (1–3).

SPA 5132. Speech Science (3).

SPA 5133r. Instrumentation in Communication Science (1–3).

SPA 5204. Phonological Disorders (3).

SPA 5211. Voice Disorders (3).

SPA 5225. Fluency Disorders (3).

SPA 5230. Motor Speech Disorders (3).

SPA 5252. Structure-Based Communication Disorders (3).

SPA 5254. Neurologic-Based Communication Disorders (3).

SPA 5301Lr. Audiology Laboratory (1).

SPA 5305Lr. Measurement and Management of Impaired Hearing (1–3).

SPA 5322. Advanced Aural (Re)habilitation (3).

SPA 5354. Industrial Audiology (2).

SPA 5401. Language-Learning Disabilities in School-Age Children (3).

SPA 5404. Communication Intervention: Infants and Preschoolers (3).

SPA 5432. Autism and Severe Communicative Disabilities (3).

SPA 5460. Foundations of Developmental Communication Disorders (3)

SPA 5462. Current Issues in Developmental Communication Disorders (3).

SPA 5500. Clinical Practicum in the Schools (3).

SPA 5505r. Advanced Speech-Language Pathology Practicum (1–3).

SPA 5506r. Advanced Audiology Practicum (1–3).

SPA 5526L. Laboratory in Child Speech-Language Diagnostics (1–3).

SPA 5528L. Laboratory in Adult Speech-Language Diagnostics (1–3).

SPA 5553. Seminar in Clinical Differential Diagnosis (1).

SPA 5553L. Laboratory in Clinical Differential Diagnostics (2).

SPA 5554. Counseling in Speech-Language Pathology (3).

SPA 5554Lr. Supervision and Counseling in Communication Disorders (1).

SPA 5559. Augmentative Communication Systems (3).

SPA 5564. Communication and Aging (3).

SPA 5565. Seminar in Dysphagia (3).

SPA 5646. Speech and Language for the Hearing Impaired (3).

SPA 5906r. Directed Individual Study (1–3). (S/U grade only.)

SPA 5910r. Supervised Research (1–6). (S/U grade only.)

SPA 5940r. Supervised Teaching (1–6). (S/U grade only.)

SPA 5944. Speech-Language Pathology Internship (1–12). (S/U grade only.)

SPA 6231r. Seminar in Neuropathologies (1–3).

SPA 6434r. Seminar on Developmental Disabilities (1–3).

SPA 6805r. Seminar in Clinical Research Methods (3).

SPA 6825r. Seminar in Speech Pathology (1–3).

SPA 6841r. Seminar in Language (1–3).

SPA 6900r. Readings for the Preliminary Examination (1–6). (S/U grade only.)

SPA 6930r. Seminar in Special Topics (1–3).

For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the *Graduate Bulletin*.

Department of COMPUTER SCIENCE

COLLEGE OF ARTS AND SCIENCES

Chair: Ted Baker; *Professors:* Baker, Hawkes, Kohout, Lacher, Levitz, Riccardi, Whalley; *Associate Professors:* Banks, Gallivan, Mascagni, Schwartz, Turner; *Assistant Professors:* Douglas, Liu, McDuffie, VanEngelen, Yuan; *Visiting Professor:* Burmester; *Visiting Assistant Professor:* Srinivasan; *Courtesy Professors:* Conrad, Erlebacher, Simons, Gaede, Harmon, Hussaini; *Computing Resources Manager:* Sprague; *Associates in Computer Science:* Baldauf, Gaitros; *Assistants in Computer Science:* Myers, Scott, Sprague; *Assistant Scholar/Scientist:* Leach

The mission of the Department of Computer Science is to provide students with the fundamental knowledge and interdisciplinary problem-solving skills required for a fulfilling career, and to create and disseminate knowledge to improve computer science education and practice.

A student in the department can look forward professionally to employment in an industrial or financial firm, a governmental agency, or secondary, college, or university teaching.

In computer science education, whether graduate or undergraduate, keeping up with progress in the field is essential. Computer science is an exceptionally fast-moving field where knowledge is subject to rapid obsolescence and ideas progress swiftly from research to practice. The department therefore seeks to offer technical instruction on the frontier of new developments while simultaneously providing each student with a core of intellectual tools that will never become obsolete. The department views skills in communication, mathematics, and algorithmic reasoning as central and the understanding of underlying principles as more important than familiarity with specific technical products. Still, direct hands-on experience is essential to mastering these skills and principles. If students are to be adequately prepared for careers in computer science, they should have extensive experience with modern machines and software.

The department also has a number of active research programs in the following areas: computer security; cryptography; programming languages; compilers; real-time systems; databases; fault tolerance; networks; neural networks; expert networks; fuzzy sets and systems; scientific visualization; human computer interaction; computational science and engineering. These research programs enjoy external support from agencies ranging from the National Science Foundation to the private sector.

In support of the research mission, as well as in support of the instructional and public service missions, numerous research institutes and research centers have been established at the Uni-

versity. Three of these institutes and centers particularly affect the operation of the computer science programs.

The **Institute for Cognitive Sciences** was established to conduct interdisciplinary research in the field of human cognition. The Department of Computer Science is one of five participating academic departments.

The **School of Computational Science and Information Technology** (CSIT) supports graduate education, provides a leading-edge high-performance computational facility, and performs basic research in core areas of applied computer science, applied numerical mathematics and the overlap of these areas with traditional disciplines. The scope of CSIT includes the science and technology of performing, analyzing, and archiving large-scale computations over wide-area networks, and its goal is to employ large-scale computer and network resources in pursuit of scientific and technological research goals. CSIT supports multidisciplinary faculty, postdoctoral research fellows, and graduate students.

The **Office of Technology Integration** offers computing services for the entire campus through three areas. One, Academic Computing and Network Services (ACNS <http://www.acns.fsu.edu>) manages the campus backbone network and FSU-wide servers for popular services such as email, web servers, etc. ACNS also maintains a number of computer-equipped laboratories and classrooms. User Services (US <http://www.us.fsu.edu>) provides dial-up help desk support, training and software licensing. Finally, the third area, Administrative Information Systems (AIS <http://www.ais.fsu.edu>), in conjunction with the North-west Regional Data Center (<http://www.nwrdc.fsu.edu>), provide support for mainframe-based and client-server administrative computing services.

The Department of Computer Science has a full range of computing facilities available for a variety of instructional and research needs. Faculty and graduate students share a group of high-performance workstations, file servers, and compute servers over the departmental LAN. A majors laboratory supports undergraduate and graduate instructional needs through networked workstations and file servers. Dial-up access is supported through multiport modem servers. All departmental machines are connected to the local campus network and the Internet. Students and faculty whose research requires higher computational power may apply for access to a variety of state-of-the-art machines, including supercomputers and compute clusters, across the University.

Degrees Offered

The Department of Computer Science offers programs leading to the bachelor of science (BS) and bachelor of arts (BA) degrees, the master of science (MS) and master of arts (MA) degrees, and the doctor of philosophy (PhD) degree in computer and information sciences (CIS). At the bachelor and master levels, programs of study are available for

those who plan to work toward higher degrees, as well as for students planning on careers as computing professionals.

Accreditation

The undergraduate program in computer science is accredited by the Computer Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD, 21202-4012; (410) 347-7700.

Distance Learning

Both of the undergraduate majors (CS and SE) are available via Internet-supported distance learning. Certain limitations regarding students seeking admission to upper-division studies in the computer science department apply. For more information contact The Florida State University's Office for Distributed and Distance Learning at <http://www.oddl.fsu.edu>.

Honors in the Major

The Department of Computer Science offers a program in honors in the major to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. Specific prerequisites are required for admission into the upper-division program and **must** be completed by the student at either a community college or a state university prior to being admitted to this program. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.**

The following lists the common prerequisites or their substitutions necessary for admission into this upper-division degree program:

1. MAC X311;

Note: the following courses, though **not required for admission** into the upper division major, **are required for completion of the degree:**

- a) COP XXXX (introductory programming in Ada, C, C++, or PASCAL or equivalent language);
- b) MAC X312;
- c) PHYX048/X048L
- d) PHYX049/X049L or PHYX049C;
- e) Two science courses (six [6] semester hours) for science majors.

College Requirements

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*.

Requirements for Majors in Computer Science

The undergraduate program in computer science is limited access. For each admission cycle (academic year) a minimum GPA is established by the Department of Computer Science that limits enrollment to a number of students consistent with the available faculty and space. In addition, students must have completed the State of Florida Common Course Prerequisite (MAC X311 and COP XXXX-Introductory Programming in C/C++ or Java) with the grade of "C-" or better in order to be considered for entrance. Upon entrance into the program, the student must maintain a 2.5 GPA to remain in good standing in the major.

A student who has accumulated more than five grades below "C-" (including grades of "U") in mathematics, statistics, natural science, or computer science courses taken for college credit at The Florida State University or elsewhere, whether repeated or not, will not be permitted to continue as a major in the department.

There are currently two majors for the CIS bachelors degree: computer science (CS), and software engineering (SE). In the following listing of requirements, courses that are required for only one major are marked with the major abbreviation in parentheses.

A grade of "C-" or better must be earned in each of the following courses: CDA 3101; CEN 4010 (SE); COP 3330, 3331, 3502, 4020 (CS); 4530, 4531, 4610, 4710; COT 4420(CS), 4425(SE); MAC 2311, 2312; MAD 2104 and MAD 3105, or MAD 3107; SPC 2600; STA 4442; another advanced mathematics, statistics, or theoretical computer science course approved by the department, with a prerequisite of calculus or discrete mathematics.

In addition, the student must complete at least twelve (12) semester hours of computer science electives, at least nine (9) semester hours of which must be at the 4000 level. One of the electives must cover an additional programming language not presented in the other required course offerings. The student must complete PHY 2048c, 2049c and six (6) additional semester hours of science in a discipline(s) other than physics. All courses used to satisfy the science requirement must be identified as "For Science Majors" within the Liberal Studies Program (or have such a course as a prerequisite). Approval is to be requested prior to registration for the elective courses. All students are required to complete an exit survey for both the Department of Computer Science and the College of Arts and Sciences during their term of graduation. These forms may be obtained from the Academic

Coordinator's Office (*Room 203C Love Building*). Students following this degree will complete a total of at least one hundred twenty (120) semester hours in order to satisfy all University and major requirements.

Minor

The required collateral courses in mathematics, physics, and statistics constitute an acceptable interdisciplinary minor. Students may contact the undergraduate advisor for information concerning other acceptable minors.

Requirements for a Minor in Computer Science

A minor in computer science consists of twelve (12) semester hours in a specific combination of computer science courses at or above the 3000 level for which the student has obtained **written approval in advance** from the department. Students must also satisfy stated prerequisites before enrolling in any computer science course. A grade of "C-" or better must be earned in each course counted toward the minor.

Definition of Prefixes

CAP	—	Computer Applications
CDA	—	Computer Design/Architecture
CEN	—	Computer Engineering Software
CGS	—	Computer General Studies
CIS	—	Computer and Information Systems (special topics)
COP	—	Computer Programming (languages, data structures, software systems, operating systems, compiling)
COT	—	Computer Theory

Note: before taking any computer science course, the student must complete with a grade of "C-" or better each course prerequisite to that course. Moreover, a student who earns a "C-" or better in a course with one or more stated or implied prerequisites may not subsequently earn credit in the prerequisite course(s). For example, a student who has earned a "C-" or better in COP 4530 may not subsequently enroll in COP 3330; MAD 2104, nor MAD 3107.

Undergraduate Courses

Note: certain courses are sometimes offered in a distributed format and as such are available to distance learning students in addition to residential students. Contact the computer science department for details or go to <http://www.cs.fsu.edu>.

CGS 2060. Computer Literacy (3). May not be applied towards computer science major or minor. Not open to students with credit in CGS 2100. An introduction to information processing and computer applications. Hands-on experience with microcomputer applications such as word processors, spreadsheets, and database managers.

CGS 2062. Computers and Society (3). Not open to a student following the major option in computer science or to a student with credit in CGS 3063. Impact of computers on society: discussion of the nature of digital computers and the role of information processing in human affairs. This course does not teach how to use or program the computer but gives an understanding of the implications of the computer and computer science.

CGS 2100. Microcomputer Applications for Business/Economics (3). Prerequisite: MAC 1105. May not be applied towards computer science major or minor. Not open to students with credit in CGS 2060. Course enables students in business and economics to become proficient with microcomputer hardware and software applications that are typically used in the workplace. The following topics are covered: hardware concepts, operating systems, word-processing, spreadsheets, databases, networks, Internet, world wide web, multi-media presentations and information systems.

COP 2400. Assembly Language Programming (2). Prerequisite: COP 3531. Basic machine organization; number systems and data representation; assembly language programming, including calling conventions for procedures; floating point arithmetic; interrupts and exception handling; advanced architectural features and alternative architectures.

CDA 3101. Computer Organization (3). Prerequisite: COP 3330, MAD 2104 or 3107. Basic design and organization of modern computers including CPU design, memory, I/O devices, and assembly language programming.

CDA 3120. Digital Networks (3). Prerequisite: MAD 2104. Boolean algebra and switching functions; gates and IC modules; combinational systems, their simplification and decomposition; symmetric functions; threshold logic; sequential machines; analysis and synthesis; design of digital networks and logic systems.

CGS 3066. Introduction to Internet Technology (3). Prerequisite: A previous course in computer science. Basic Unix; World Wide Web, Netscape, Mosaic, Lynx, Gopher, UseNet News, Wais, Mime, Netfind, Traceroute, X.500 directory services, Xv, HTML programming. Projects include developing Internet tours via the World Wide Web and developing WWW pages for government agencies, community organizations, and businesses; topology of FSU campus network and Tallahassee Metropolitan Network.

CGS 3403. Introduction to COBOL Programming for Business (3). Prerequisite: COP 2000 or CGS 3408. May not be applied toward a computer science major. Study of the use and management of COBOL in business and government organizations. Specific programs are developed to solve typical management and data-processing problems. Structured approaches to problems and design solutions are discussed in detail. Also taught by the College of Business.

CGS 3408. Introduction to Programming with the C Language (3). Prerequisite: MAC 1140. This course is an introduction to C programming. Topics include types, operators, and expressions; control flow; IO: functions and program structure; and software design techniques. Eight to ten programming projects are required.

CGS 3410. Scientific Programming with FORTRAN (2). Prerequisites: CGS 3408 or COP 2000; MAC 2312. The use of the programming language FORTRAN in the solution of scientific programming problems. Basic syntax of the language, data types, data manipulation statements, I/O, and subprograms. The advanced features of FORTRAN related to scientific applications. Case studies involving problems such as differential equations, numerical integration, and linear/nonlinear equations.

CGS 3460. FORTRAN for Nonspecialists (3). Prerequisite: MAC 1105. May not be applied toward a computer science major. Introduction to programming; rudiments of FORTRAN, problem solving by computer, basic data types, basic control structures, arrays and subscripts, further control structures, subprograms, formatted input/output.

CGS 3468. IBM Assembly for Nonspecialists (3). Prerequisite: CGS 3408 or COP 2000. Basic machine organization. Programming in assembly language, including subroutines, macros, and I/O. Specifics of IBM mainframe families and assemblers. Job control language.

CIS 3931r. Intermediate Topics in Computer Science (2-3). Prerequisite: COP 3502. Topic and prerequisites will vary from term to term and section to section. Analyzes intermediate topics in the area of computer science. May be used as a self-contained study of a programming language in the context of applications for which the language is particularly suited. May be repeated to a maximum of nine (9) semester hours.

CIS 3943r. Internship in Computer Science (3-6). (S/U grade only.) Prerequisites: COP 4530; successful completion of 60 hours of coursework with a minimum overall GPA of 3.0, including 15 hours in computer science courses (prefixes of CAP, CDA, CEN, CGS, CIS, COP, COT) with a minimum GPA of 3.2; approval of internship coordinator required. Field placement in approved industry or government entity having significant information technology or computer science component by approval only. May be taken for variable credit and repeated (with departmental approval) but only three (3) semester hours may count towards graduation. Successful completion requires satisfactory job evaluation and demonstration of educational value of placement, usually via a paper and/or presentation. May be repeated to a maximum of twelve (12) semester hours.

CIS 3949r. Cooperative Education Work Experience (0). (S/U grade only.) Work experience with a firm or agency to be determined on an individual basis. May be repeated to a maximum of six (6) times.

COP 3252. Internet Applications Programming with Java (3). Prerequisites: CGS 4406; COP 3330; or other C++ programming course. This course covers the applications of the Java language to education, electronic commerce, scientific research, and distributed systems in general. Topics include the following: the architecture of the Web, including software protocols for passing information in typical Web applications; introduction to the Java programming language; developing Graphical User Interfaces using Swing; an introduction to distributed objects using Java Remote Method Invocation (RMI); and server-side programming using Servlets and JDBC. Emphasis is placed on practical programming using these technologies.

COP 3330. Object Oriented Programming (3). Prerequisite: CGS 3408 or a comparable course in C or C++ programming. Pre- or Corequisite: COP 3502. Object-oriented programming in a modern programming language; classes, objects, inheritance, and polymorphism; introduction to data structures and container classes.

COP 3331. Object Oriented Analysis and Design (3). Prerequisite: COP 3330. An introduction to software engineering with emphasis on practical techniques for object-oriented analysis and design. The course covers the use of the Unified Modeling Language (UML) and an associated computer-aided software engineering (CASE) tool.

COP 3502. Introduction to Computer Science (3). Prerequisites: MAC 1105 and previous computer experience. Course covers basic computer organization, computer languages and software, language translation and interpretation, object oriented design, object oriented programming, classes, objects, and inheritance, file systems and I/O.

CAP 4730. Computer Graphics (3). Prerequisite: COP 4530. Topics include: the fundamental hardware and software elements of computer graphics systems, including intelligent terminals, communication, and graphic languages; cost effective use of interactive graphics; CAD/CAM; office automation; and computer animation.

CDA 4150. Computer Architecture (3). Prerequisites: CDA 3101; MAD 3105 or 3107. High performance architecture design and analysis, including memory-system design, pipelining, vector computers, and multiprocessors.

CDA 4300. Microcomputer Data Communications (3). Prerequisites: COP 2400; CDA 3120. An introduction to microcomputer data communications geared toward the technical hardware components, the Intel 8250 UART and INTEL 8259 PIC, and interfacing user programs with these devices. Programs controlling these devices will be written in 8086 assembly language using various structured techniques.

CEN 4010. Software Engineering Principles and Practice (3). Prerequisites: see department. Topics in this course include classical and modern principles and practice of software engineering, including classical and object-

oriented approaches to architecture, design, life cycle, and project management; software metrics; change management; teams and teaming tools; reusability, portability, and interoperability; requirements and specification.

CEN 4012r. Mentored Software Project (1-6). Prerequisite: CEN 4010. Experience creating or changing a large software system; putting principles of software engineering to practice. May be repeated to a maximum of six (6) semester hours.

CEN 4516. Distributed Systems and Networks (3). Prerequisites: CDA 3101; COP 3330. Computer networks and internetworks; distributed object technology; distributed system architecture; enterprise software systems; distributed process scheduling, file systems, shared memory, computer security, and fault tolerance.

CEN 4542. Network Security and Cryptography (3). Prerequisites: COP 4530; MAD 2104 or 3107, or permission of the instructor. This course examines threats to computer networks, network vulnerabilities, techniques for strengthening passive defenses, tools for establishing an active network defense, and policies for enhancing forensic analysis of crimes and attacks on computer networks. Topics include private and public key cryptography, digital signatures, secret sharing, security protocols, formal methods for analyzing network security, electronic mail security, firewalls, intrusion detection, Internet privacy and public key infrastructures.

CEN 4681. Expert Systems (3). Prerequisites: COP 4530. Topics include: definitions and historical development, methodology tools for analysis and design, survey of existing systems, inference engines, and theory and applications of fuzzy relational products to new developments in inference engines.

CGS 4406. Object Oriented Programming in C++ (3). Prerequisite: CGS 3408. May not be applied toward a computer science major. Basics of the C++ language. Objects and classes. Programming with classes. Constructors and destructors. Function and operator overloading. Master classes. The class iostream. Base and derived classes. Templates.

CIS 4360. Introduction to Computer Security (3). Prerequisite: CGS 3408 or equivalent programming course. Course covers computer security threats and attacks, covert channels, trusted operation systems, access control, entity authentication, security policies, models of security, database security, administering security, physical security and TEMPEST, and brief introductions to network security and legal and ethical aspects of security.

CIS 4900r. Directed Individual Study (1-4). May be repeated to a maximum of twelve (12) semester hours.

CIS 4930r. Special Topics in Computer Science (3). Prerequisite: at least six (6) semester hours in computer science or software engineering at or above the 4000 level. May be repeated to a maximum of twelve (12) semester hours.

CIS 4933r. Honors Work (3). May be repeated to a maximum of nine (9) semester hours.

COP 4020. Programming Languages (3). Prerequisite: COP 3331, 4530. A survey of programming languages and language features and an introduction to compilers. Languages to be discussed include Fortran, Pascal, Ada, PL/1, APL, and Lisp. Oral presentation required.

COP 4342. Unix Tools (3). Prerequisites: COP 3330, 3502. This course is an introduction to selected Unix tools and utilities that are useful for advanced users, programmers, and system administrators, such as shell scripts, the perl language, revision control systems, debuggers, editors, and the make, awk, sed, and expect utilities.

COP 4530. Data Structures, Algorithms and Generic Programming (3). Prerequisites: COP 3330; MAD 2104 or 3107. Pre- or corequisite: CDA 3101. Definition, use and implementation of generic data structures using a modern programming language; reusable program components.

COP 4531. Complexity and Analysis of Data Structures and Algorithms (3). Prerequisite: COP 4530; MAD 3105 or 3107; STA 4442. Analysis of the complexity of algorithms, including sorting, searching, and graph algorithms; use and implementation of graphs.

COP 4610. Operating Systems and Concurrent Programming (3). Prerequisite: COP 4530. Pre- or Corequisite: CDA 3101. Design principles of batch, multi-programming, and time-sharing operating systems; linking, loading, input-output systems, interacting processes, storage management, process and resource control, file systems.

COP 4613. Real-Time Systems (3). Prerequisite: COP 4610. Survey of issues in the design and implementation of real-time computer systems. Topics include: the use of computers for controlling real-time processes, the use of Ada in embedded computer systems, and implementation of a real-time computer system.

COP 4710. Theory and Structure of Databases (3). Prerequisites: COP 3330 or CGS 4406; MAD 2104 or 3107. Theory of relational and object-oriented databases; relational database management systems and SQL; design, development, and implementation issues in database systems.

COT 4420. Theory of Computation (3). Prerequisite: COP 3331; MAD 3105 or 3107. Introduction to the theory of computation, including models of computation such as Turing machines; theory of programming languages, including grammars, parsing, syntax and semantics.

COT 4425. Formal Methods in Software Engineering (3). Prerequisites: COP 3331; MAD 3105 or 3107. Formal methods in software analysis and design, including formal specification and verification.

Graduate Courses

- CAP 5605. Artificial Intelligence (3).
- CAP 5615. Artificial Neural Networks (3).
- CAP 5625. Relational Methods in Knowledge and Software Engineering (3).
- CAP 5638. Pattern Recognition (3).
- CDA 5140. Fault Tolerance and Reliability (3).
- CDA 5155. Computer Architecture (3).
- CEN 5000. Knowledge Management and Data Engineering (3).
- CEN 5026. Applicative Foundations of Software Engineering (3).
- CEN 5035. Software Engineering (3).
- CEN 5066. Software Engineering in Graphics (3).
- CEN 5515. Data and Computer Communications (3).
- CEN 5521. Networking Personal Computers (3).
- CEN 5720. Computer-Human Interaction (3).
- CGS 5067. Advanced Navigating the Internet (3).
- CGS 5266. Digital Design (3).
- CGS 5267. Principles of Computer Organization (3).
- CGS 5275. Assembly and Machine Language (2).
- CGS 5425. Object-Oriented Programming with Data Structure (3).
- CGS 5426. Programming Language Concepts (3).
- CGS 5427. Algorithm Design and Analysis (3).
- CGS 5428. Relational Database Theory (3).
- CGS 5429. Introduction to Computer Theory (3).
- CGS 5469. FORTRAN for Graduate Nonspecialists (3).

CGS 5765.	Principles Operating Systems (3).	COP 5570.	Advanced UNIX Programming (3).
CIS 5357.	Network Security, Active and Passive Defenses (3).	COP 5611.	Operating Systems (3).
CIS 5358.	Computer Security (3).	COP 5621.	Compiler Construction (3).
CIS 5406.	Computer and Network Administration (3).	COP 5622.	Advanced Topics in Compilation (3).
CIS 5900r.	Directed Individual Study (1–4).	COP 5725.	Database Systems (3).
CIS 5910r.	Supervised Research (1–9). (S/U grade only.)	COT 5310.	Theory of Automata and Formal Languages (3).
CIS 5915r.	Graduate Software Project (1–6). (S/U grade only.)	COT 5410.	Complexity of Algorithms (3).
CIS 5920r.	Colloquium (1). (S/U grade only.)	COT 5421.	Theory of Computability (3).
CIS 5930r.	Selected Topics in Computer Science (1–3).	COT 5540.	Logic for Computer Science (3).
CIS 5935.	Introductory Seminar on Research (1). (S/U grade only.)	CAP 6616.	Autonomous Behavior in Artificial Neural Systems (3). (S/U grade only.)
CIS 5940r.	Supervised Teaching (1–9). (S/U grade only.)	CIS 6900r.	Directed Individual Study (1–12). (S/U grade only.)
COP 5025.	Programming Language Foundations (3).	CIS 6930r.	Advanced Topics in Computer Science (1–3).

CRIMINOLOGY AND CRIMINAL JUSTICE

SCHOOL OF CRIMINOLOGY AND CRIMINAL JUSTICE

Professors: Blomberg, Chiricos, Doerner, Gertz, Gould, Kleck, Maier-Katkin, Waldo; *Associate Professors:* Bullington, Coonan, Greek, White, Wollan; *Assistant Professors:* Bunger, Close, Kerbs, Li; *Visiting Professor:* Currie; *Internship Director:* Bedard; *Professors Emeriti:* Bassin, Czajkoski, Jeffery, Kirkham

The School of Criminology and Criminal Justice offers undergraduate and graduate programs leading to the bachelor of science (BS), bachelor of arts (BA), master of science (MS), master of arts (MA), and the doctor of philosophy (PhD) degrees. In addition to the general criminology and criminal justice degree programs, a dual master's program is offered with the School of Public Administration and Policy. For undergraduates, certificates are available in corrections, law enforcement, and security administration. Evening programs are offered for undergraduate and graduate students.

Refer to the "School of Criminology and Criminal Justice" section in this *General Bulletin* for additional details on degree requirements, the school, student opportunities, and financial aid.

Requirements

Admission for a Major

Students are eligible to major in criminology and criminal justice after completing a program of liberal studies with an overall grade point average (GPA) of 2.0 or above. Enrollment as a major in criminology and criminal justice requires no specific lower-division courses as prerequisites.

All students of The Florida State University must fulfill the Liberal Studies Program requirements set forth in the "Undergraduate Degree Requirements" section of this *General Bulletin*. Transfer students who have earned an associate in arts degree from a Florida public community college or state university will be considered to have met the liberal studies requirement.

Major Requirements

To major in criminology and criminal justice, a student must complete forty-five (45) semester hours in criminology, including five (5) core courses. An optional one-semester full-time internship (CCJ 4940) is available to fulfill fifteen (15) semester hours of the required course work. A minor is not required by the School of Criminology and Criminal Justice for completion of the major.

Students seeking to transfer from another major within the University, must:

- 1) Submit a written essay (no more than 500 words) stating why they are interested in the field of criminology or criminal justice studies;
- 2) Must register for 50% of their credits in criminology or criminal justice the semester immediately following their transfer into the school; and
- 3) Must be in good academic standing (2.0 or higher overall GPA) and have passed the CLAST exam.

For students transferring from another four year university, at least twenty-seven (27) semester hours must involve courses taken within the School of Criminology and Criminal Justice; the University requires the last thirty (30) semester hours prior to graduation be taken at The Florida State University. In addition, all regular University requirements must be met for both the bachelor of arts (BA) and the bachelor of science (BS) degrees.

Core Courses

The five (5) core courses are Criminology (CCJ 3011), Law Enforcement (CJE 3110), Courts (CJL 3510), Corrections (CJC 3010), and Introduction to Research Methods in Criminology (CCJ 4700). The core courses are expected to be taken at The Florida State University. A minimum grade of "C" (2.0) must be obtained in each core course.

Internships

A variety of internships are available at the local, state, and federal levels in the fields of law enforcement, courts, corrections, criminal justice planning, criminological research and private sector opportunities. The internship is available for juniors and seniors who have completed the core courses (CCJ 3011, 4700; CJC 3010; CJE 3110; CJL 3510) and have satisfied the CLAST requirement. The intern receives a satisfactory/unsatisfactory (S/U) grade, and full credit is given upon successful completion of both the academic component and work hours.

Students are advised that information pertaining to all matters of public record, such as arrests and convictions, may be required by the agencies accepting interns. Although a reasonable effort is made to place a student in an internship, The Florida State University will not be liable if a student cannot be placed. Students are usually responsible for all living and transportation expenses during the field experiences.

Minor Requirements

A minor in criminology and criminal justice may be obtained upon completion of the five (5) courses discussed above. The core courses are expected to be taken at The Florida State University. A minimum grade of "C" (2.0) must be obtained in each core course.

Certificates

The School of Criminology and Criminal Justice offers three certificate programs: corrections, law enforcement, and security administration.

Honors in the Major

The School of Criminology and Criminal Justice encourages its honor students to participate in the honors in the major program. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Definition of Prefixes

CCJ	—	Criminology and Criminal Justice
CJC	—	Criminal Justice: Corrections
CJE	—	Criminal Justice: Law Enforcement
CJJ	—	Criminal Justice: Juvenile Justice
CJL	—	Criminal Justice: Law and Process
CJT	—	Criminal Justice Technology

Undergraduate Courses

CCJ 1005. Criminology Freshmen Seminar (3). This course introduces criminology students to pivotal readings and philosophies of the criminal justice system and exposes students to a variety of speakers and opinions related to criminal justice.

CCJ 2020. Introduction to Criminal Justice (3). This course is designed to provide freshman and sophomore students with knowledge of terminology, classification systems, trends, and theories of criminal justice. Not open to criminology majors beyond their first term as a junior.

CJC 3010. Corrections (3). An overview of correctional philosophies, practices, and procedures.

CCJ 3011. Criminology (3). An examination of the field of criminology, including its theories, basic assumptions, and definitions.

CJE 3110. Law Enforcement (3). An advanced survey of law enforcement concentrating on the police, with emphasis on functions (law enforcement, order maintenance, public service) and responsibilities (e.g., preservation of constitutional rights, community relations), including organizational and management aspects.

CJL 3510. The Courts (3). Jurisdiction, policies, and procedures of courts in the administration of criminal justice.

CCJ 3654. Drugs, Alcohol, and Crime (3). History, pharmacology, health consequences, and crime-related aspects of mind-affecting drugs. Emphasis on effects on criminal behavior, the legal response to the problem, and on treatment and prevention of abuse.

CCJ 3666. Victimology (3). The role of victims in crimes, their treatment by the criminal justice system, their decisions to report crimes and help prosecute offenders, victim assistance, and victim compensation. Special focus on sexual battery and domestic violence.

CCJ 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

CJJ 4010. Juvenile Justice (3). Examination of juvenile delinquency and juvenile justice, including legal and social history, definition and explanation of delinquency, and assessment of delinquency prevention and correctional programs, with emphasis on application of philosophical, legal, and procedural principles to problems and cases of juvenile justice. May require community service hours.

CCJ 4031. The Individual and Society (3). Understanding normal human behavior and development in social context.

CJL 4064. Individual Rights and the Criminal Justice System (3). An examination of the full range of rights in criminal justice, dealing with them not only in broad philosophical and social terms but also in terms of specific instances, including the rights of the accused and extending to the rights of convicts, witnesses, victims, probationers, ex-convicts, officials, journalists, and the more generalized rights of participation by interest group advocates, taxpayers, and citizens in criminal justice policy and administration.

CJL 4110. Substantive Criminal Law (3). An examination of the central principles of criminal law, which includes the substantive elements defining criminal conduct for specific crimes and the various exculpatory conditions for criminal liability.

CJE 4114. Police Problems and Practices (3). An analysis of both the traditional and contemporary issues and problems existing in the law enforcement community. Topics represent a wide variety of concerns, including such areas as corruption, police use of deadly force, and the utilization of law enforcement to combat corporate crime, computer crime, and terrorism.

CJC 4166. Probation, Pardon, and Parole (3). Sentencing patterns and problems, social investigation, release organization, and administrative procedures.

CJC 4167. Probation and Parole Supervision (3). Techniques and theory of probation and parole supervision with emphasis on treatment and counseling, use of role-playing as a learning device, reality therapy, group process, and behavior modification procedures.

CCJ 4209. Courts and Social Policy (3). The role the courts pursue in determining social policy as it relates to criminology. Emphasis is directed toward the political and social inputs that influence judicial decision making and the role of democracy and punishment in the courts. These topics will be examined using current social policy.

CCJ 4283. Foundational and Philosophical Issues in the Criminal Justice System (3). An examination of the most important foundational and philosophical issues in the criminal justice system which includes the justification of criminal law, the relationship between law and morality, and the moral rationale of punishment.

CJC 4410. Theories and Methods of Offender Treatment (3). Theories and techniques which may be employed within the boundaries of probation, parole, or prison to influence and alter the attitudes, values, and behaviors of persons adjudicated guilty by the criminal justice system.

CJL 4410. Legal Aspects of Law Enforcement (3). The nature of law enforcement agencies in American jurisprudence—laws of arrest and rules of evidence.

CCJ 4601. Human Behavior (3). The study of the origins of human and deviant behavior from a multidisciplinary approach (biological, psychological, sociological, criminological); addresses major theories and research, including case studies illustrative of deviant behavior such as drug abuse, suicide, mental illness, and sexual deviance.

CCJ 4610. Criminal and Delinquent Behavior (3). An examination of patterns of criminal and delinquent behaviors in the light of theories and classification concepts.

CJE 4610. Crime Detection and Investigation (3). Introduction to the lawful gathering and evaluation of information concerning criminal acts, with attention to the fundamentals of investigation, the organization and management of the investigative process, and the knowledge and skills necessary for investigation.

CCJ 4662. Minorities, Crime, and Social Policy (3). The involvement of minorities, especially Afro-Americans, in crime and in the criminal justice system. Special attention is paid to the role of racism in theories of crime and in American law and to the treatment of minorities by the various components of the criminal justice system. May require community service hours.

CCJ 4663. Female Crime and Delinquency (3). A flexible forum for the study and discussion of female crime and delinquency.

CCJ 4700. Introduction to Research Methods in Criminology (3). Basic methodological and statistical issues in criminology.

CCJ 4816. Public and Private Security (3). An overview of the major topics of public and private security. The topics represent a wide variety of concerns, including such areas as historical development, the role of security in society, and current practices and standards.

CCJ 4905r. Directed Individual Study (1–4). A student registered for an individual-study course must submit a prospectus, outline, and bibliography and schedule at least one conference a week on campus. May be repeated to a maximum of twelve (12) semester hours. Enrollment requires prior approval of instructor and dean.

CCJ 4909r. Honors in Criminology (3). This course is designed for upper-division students with a grade point average of 3.2 in all courses. May be repeated to a maximum of twelve (12) semester hours.

CCJ 4933r. Seminar in Criminology (3). Varying topics of selected interest and contemporary significance, discussed in a seminar format. May be repeated to a maximum of six (6) semester hours.

CCJ 4938r. Special Topics in Criminology (3). Contents of this course vary as instructors present different developments, problems, and controversies. May be repeated to a maximum of twelve (12) semester hours. May be repeated during the same semester.

CCJ 4940. Internship in Criminology (15). (S/U grade only.) Field placement in an approved criminal justice agency for integration of theory and practice through participant observation study.

CCJ 4941r. Methods of Offender Treatment Practicum—Men Helping Men (3). Prerequisite: CCJ4341. Course allows students to implement the theories and methods of treatment in a correctional setting. Students work directly under the professor implementing and co-facilitating abuse and violence intervention.

CZECH: see Modern Languages and Linguistics

Department of DANCE

SCHOOL OF VISUAL ARTS AND DANCE

Chair: Elizabeth Patenaude; *Professors:* Davis, Farrell, Fichter, Patenaude, Sias, Young, Zollar; *Associate Professors:* Austin, Morgan, Phillips, Sandifer, Welsh; *Assistant Professors:* Corbin, Humphreys; *Assistant in Dance:* Clark

The Department of Dance offers work leading to the bachelor of fine arts (BFA) degree in dance in an environment conducive to the highest calibre of dance training, practice and scholarship. Our vision of dance in higher education encourages fluidity between the living art form and scholarly investigation, and dynamic interaction between the training of dancers and the development of scholars. This approach is intended to foster cultivation of the individual's creative, performance, and scholarly voices through exposure to diverse practical and philosophical approaches to dance studies and the development of critical thought processes.

The curriculum is designed to prepare the student who wishes to enter dance as a profession. Of the many professional avenues in which dance can be pursued and practiced, the following constitute the emphasis of the undergraduate major curriculum at this University: performance and choreography. The theoretical aspects of dance (pedagogical, historic, aesthetic) are also stressed.

To fulfill the purpose of the program, the faculty consists of outstanding artist-teachers and scholars who are committed to the model of intensive professional training within the context of a broad University education. A full production schedule offers extensive opportunities for repertory study, performance, and choreography, complemented by work with guest choreographers and visiting lecturers. Part of the department's mission is to

serve as a regional repertory center for the reconstruction and production of dance masterworks and the creation of original repertory. The program's facilities include spacious studios and **The Nancy Smith Fichter Dance Theatre.**

In addition to the dance major degree program, the department offers some liberal studies course work and elective course work for the general University student. The department also offers work leading to the master of fine arts (MFA) degree in dance and a master of arts (MA) degree in dance with a major in American dance studies. Interested students should consult the *Graduate Bulletin* for details.

The Florida State University Department of Dance is an accredited institutional member of the National Association of Schools of Dance.

Audition and Screening

All undergraduate students who wish to major in dance must audition for admission into the dance major program. Auditions are held at designated periods throughout the year.

Assessment of every dance major occurs at various times throughout each year to evaluate the student's progress in the major program. Such assessment is part of a continuous advisement and monitoring procedure. A probationary period may be established if a student is having difficulty and needs special attention. A student who cannot meet the departmental proficiency standards will be discontinued from the dance major program.

Placement and Proficiency

Intrinsic to the development of a dancer is the technical command of the instrument and the expansion of the vocabulary of movement; therefore, dance majors are continually assessed dur-

ing their curricular experiences in order to be placed at the correct level of studio work in dance technique. All students are assigned an appropriate placement level in ballet and contemporary dance upon entrance into the program and must maintain continuous participation in ballet and contemporary dance technique classes throughout enrollment in the curriculum. Students who demonstrate the skill necessary for the next level of work upon completion of a studio technique course will be permitted to enroll at the next level. If not, they will be expected to continue in designated courses at their level of technique until they are ready to advance. To meet graduation requirements, the student must achieve and maintain the ballet III level and the contemporary dance II level or the contemporary dance III level and the ballet II level; the advanced proficiency level (III) must be achieved by one semester prior to graduation.

Performance

The dance major is required to participate in a minimum of three performing experiences sponsored by the department.

Florida Teacher Certification in Dance

A program will be designed for the BFA degree-seeking student who wishes K–12 teacher certification in dance. Additional hours beyond the one hundred twenty-eight (128) semester hours required for the BFA degree are necessary to achieve full certification.

Liberal Studies

All students working toward a degree in dance are required to meet the liberal studies requirements.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common prerequisites or approved substitutions necessary for this degree program:

Dance—BFA Track

Any twenty-four (24) semester hours from the following thirty (30) semester hours will be accepted toward the major:

1. DAN 2610 (3) or DAN 2600 (3);
2. DAN 2611 (3) or DAN 2601 (3);
3. DAA 2610 (2);
4. DAA 2611 (2);
5. DAA 2656 (2) and DAA 2681 (2), or any lower level repertory courses in the 400–499 series up to four (4) semester hours;
6. Up to eight (8) semester hours of any lower level ballet technique courses (with the DAA prefix) within the 200–209 taxonomy;
7. Up to eight (8) semester hours of any lower level modern technique courses (with the DAA prefix) within the 100–109 taxonomy.

Note: although credit toward the major will be given for these, placement in upper level technique classes will continue to be based on individual student proficiency.

Minimum Requirements for the BFA in Dance

1. Dance Technique: Forty-four (44) semester hours and fulfillment of proficiency requirement. Dance technique courses include DAA 3108r++, 3109r++, 3208r++, 3209r++, 4110r++, 4210r++. The student enrolls in both ballet and contemporary dance throughout enrollment as a dance major except in the following two instances: a) during summer session, students may elect to take only one of the technique courses (either ballet or contemporary dance); b) if students have achieved and maintained the required proficiency levels in technique, they may elect to take only one of the technique courses (either ballet or contemporary dance) during one term of the senior year;

2. Dance Composition and Repertory. Eleven (11) semester hours including DAA 2610, 2611, 3614, 3654r, 4615;

++ = Limited access and limited enrollment by audition or video review (special talent). See the “Admissions” section of this *General Bulletin* for information on limited access programs.

3. Other Dance Courses. Thirty-one (31) semester hours, including DAN 3754; Dance Ensemble (one [1] semester hour of DAA 1680r, 2681r, 3684r, or 4685r); DAE 3384; DAN 2610, 2611, 3144, 3145, 3146, 3445, 3504, 3584r, and 3714.

4. Liberal Studies. Thirty-six (36) semester hours. Three (3) hours of the history and philosophy of dance courses— DAN 3144, 3145, 3146 may be applied to Area IV of liberal studies requirements;

5. Electives: Six to nine (6–9) semester hours. Students exercising the option under requirement four just above will complete nine (9) elective semester hours.

Total: One hundred twenty-eight (128) semester hours.

The applicability of previous course work to dance curricular requirements is assessed and determined by the Department of Dance. A transfer student need not earn the maximum semester hours in dance technique but must fulfill the curricular requirement of maintaining continuous participation in ballet and contemporary dance throughout enrollment in the curriculum and must achieve and maintain the required technical proficiency levels.

Undergraduate dance majors need not earn the maximum semester hours in dance technique if they are able to complete successfully all other University and departmental course requirements for graduation and if they have achieved the required technical proficiency levels prior to accumulation of the maximum hours in technique.

Honors in the Major

The Department of Dance offers a program in honors in the major to encourage talented juniors and seniors to undertake independent and original research or creative work. For requirements and other information, see the “University Honors Program and Honor Societies” section of this *General Bulletin*.

Definition of Prefixes

DAA — Dance Activities
DAE — Dance Education
DAN — Dance

Undergraduate Courses

DAN 3930r. **Special Topics in Dance (1–3).** Prerequisites: Vary depending on topic. Topics may vary from term to term. May be repeated to a maximum of nine (9) semester hours.

DAN 4900r. **Honors Study in Dance (3–6).** Admission to honors in dance program required. Written thesis for creative or academic research done as part of the honors in dance program. May be repeated to a maximum of six (6) semester hours.

Dance Technique: The following courses offer a progression of study to develop technical and performance skills, as well as concepts in dance.

Ballet

DAA 1200r. **Beginning Ballet I–Nonmajors (2).** Each course may be repeated to a maximum of six (6) semester hours.

DAA 1201r. **Beginning Ballet II–Nonmajors (2).** Faculty placement or permission of instructor required. Each course may be repeated to a maximum of six (6) semester hours.

DAA 1202r. **Beginning Ballet III–Nonmajors (2).** Faculty placement or permission of instructor required. Each course may be repeated to a maximum of six (6) semester hours.

DAA 2203r. **Intermediate Ballet–Nonmajors (2).** Faculty placement or permission of instructor required. May be repeated to a maximum of twelve (12) semester hours.

DAA 3208r++. **Ballet I (1–3).** Majors only. Faculty placement or permission of instructor required. May be repeated to a maximum of twelve (12) semester hours.

DAA 3209r++. **Ballet II (1–3).** Majors only. Faculty placement or permission of instructor required. May be repeated to a maximum of twenty-four (24) semester hours.

DAA 4210r++. **Ballet III (1–3).** Majors only. Faculty placement or permission of instructor required. May be repeated to a maximum of twenty-four (24) semester hours.

Contemporary Dance

DAA 1100r. **Beginning Contemporary Dance I–Nonmajors (2).** Each course may be repeated to a maximum of six (6) semester hours.

DAA 1101r. **Beginning Contemporary Dance II–Nonmajors (2).** Faculty placement or permission of instructor required. Each course may be repeated to a maximum of six (6) semester hours.

DAA 1102r. **Beginning Contemporary Dance III–Nonmajors (2).** Faculty placement or permission of instructor required. Each course may be repeated to a maximum of six (6) semester hours.

DAA 2103r. **Intermediate Contemporary Dance–Nonmajors (2).** Faculty placement or permission of instructor required. May be repeated to a maximum of twelve (12) semester hours.

DAA 3108r++. **Contemporary Dance I (1–3).** Majors only. Faculty placement or permission of instructor required. May be repeated to a maximum of twelve (12) semester hours.

DAA 3109r++. **Contemporary Dance II (1–3).** Majors only. Faculty placement or permission of instructor required. May be repeated to a maximum of twenty-four (24) semester hours.

DAA 4110r++. **Contemporary Dance III (1–3).** Majors only. Faculty placement or permission of instructor required. May be repeated to a maximum of twenty-four (24) semester hours.

Aspects of Dance Performance

DAA 1680r. **Dance Ensemble (1).** (S/U grade only.) Experience in dance ensemble and performance work. Official casting and faculty approval required. May be repeated to a maximum of three (3) semester hours.

DAA 2681r. **Special Dance Performance (1).** (S/U grade only.) Experience in dance ensemble and performance work. Official casting and faculty approval required. May be repeated to a maximum of three (3) semester hours.

DAA 3684r. **Dance Ensemble (1).** (S/U grade only.) Experience in dance ensemble and performance work. Official casting and faculty approval required. May be repeated to a maximum of three (3) semester hours.

DAA 3695r. Dance Performance (1–2). Majors only. Preparation and public performance of selected roles in dance repertory. Official casting and faculty approval required. May be repeated to a maximum of sixteen (16) semester hours.

DAA 4685r. Dance Ensemble (1). (S/U grade only.) Experience in dance ensemble and performance work. Official casting and faculty approval required. May be repeated to a maximum of three (3) semester hours.

Dance Composition and Repertory

DAA 2610–2611. Dance Composition [two (2) hours each]. Majors only. Prerequisite: DAN 2610. Exploration of basic rhythmic, spatial, and dynamic materials in the designing of dance movements; improvisation and exploration of various ideological and aesthetic sources.

DAA 3614. Dance Composition (2). Prerequisite: DAA 3611. Study of choreographic forms and structures, musical forms, extended temporal and dynamic studies, components of dramatic and stylistic forms.

DAA 3654r. Choreography–Repertory (2). The study and practice of selected works of dance repertory. May be repeated to a maximum of sixteen (16) semester hours. Permission of instructor required.

DAA 4615. Dance Composition (3). Prerequisite: DAA 3614. Extended choreographic process: production of extended choreographic works. Permission of instructor required.

Rhythmic and Musical Theory

DAN 2610. Rhythmic Analysis (3). Analysis of rhythmic structures and their relationship to dance form and composition.

DAN 2611. Music and Choreography (3). Prerequisite: DAN 2610. Analysis of various elements of music with relationship to dance performance and/or choreography.

Notation and Movement Analysis

DAN 3445. Labanotation (5). Prerequisite: DAN 2610. Beginning through intermediate skills are introduced and developed. Theoretical materials in labanotation are examined with emphasis on writing and developing reading skills.

DAN 3714. Movement Theory and Body Alignment (3). The study of movement theories and body alignment for the technical aspects of dance performance.

DAN 3754. Dance Conditioning (1). Studio laboratory for concepts in movement theory and body alignment.

Dance Production

DAN 3504. Dance Production (2). Study of technical aspects of production. Permission of instructor required.

DAN 3584r. Dance Theatre Laboratory (1). Assigned problems in connection with current dance theatre production. May be repeated to a maximum of four (4) semester hours.

History and Theory of Dance

DAN 2100. Introduction to History and Appreciation of Dance (3). Non-dance majors. A survey of the development of dance in human culture with emphasis on dance as an art form. The major periods of dance history, choreographic masterworks, and artists in choreography and performance will be explored through readings, discussion, media presentation, live performances, and movement laboratories. No prior dance experience is required.

DAN 3144, 3145, 3146. History and Philosophy of Dance [three (3) hours each]. 3144—Origins and development of dance; ritual and social components of dance; dance in early cultures. 3145—Evolution of dance as a theatrical art form; ballet history. 3146—Dance in contemporary times.

Pedagogy

DAE 3384. Methods and Materials in Dance Education (3). The study of the principles of learning and how they inform the processes of designing lessons and teaching dance. Includes a 5-week teaching practicum in local schools in addition to coursework on campus.

Directed Individual Study

DAN 4905r. Directed Individual Study (1–3). May be repeated to a maximum of twelve (12) semester hours.

Graduate Courses

DAA 5118r. Contemporary Dance (1–3).

DAA 5218r. Ballet (1–3).

DAA 5618. Choreography (3).

DAA 5648r. Choreographic Project (2–6). (S/U grade only.)

DAA 5688r. Dance Ensemble (1). (S/U grade only.)

DAA 5698r. Dance Performance (1–2).

DAN 5128. Theory of Dance (3).

DAN 5147. History of American Dance 1492–1892 (3).

DAN 5148. History of American Dance 1892–1960 (3).

DAN 5149. History of American Dance 1960–2000 (3).

DAN 5158. Theory of Dance Performance and Directing (3).

DAN 5190. Theory and Practice in Dance Technique (3).

DAN 5191r. Seminar Studies in Dance History and Research (3).

DAN 5508. Visual Design for Choreography (3).

DAN 5905r. Directed Individual Study (2–3).

DAN 5910. Supervised Research (2). (S/U grade only.)

DAN 5930r. Special Topics in Dance (1–3).

DeVoe L. Moore and Family Center for ECONOMIC POLICY AND GOVERNMENT

COLLEGE OF SOCIAL SCIENCES

Director: David W. Rasmussen; *Professors:* Barrilleaux, Benson, Gwartney, Holcombe, Ihlantfeldt, Rasmussen

The DeVoe L. Moore and Family Center for the Study of Critical Issues in Economic Policy and Government supports research about the role of government in a market economy, with a special emphasis on state and local regulation. An interdisciplinary unit in the College of Social Sciences, the faculty associated with the Center have well established scholarly reputations in the study of public policy. The faculty and center affiliates regularly teach graduate and undergraduate policy-related courses in the departments of Economics and Political Science and in the Askew School of Public Administration and Policy. In addition to teaching responsibilities, the faculty continues advanced scholarly research in government, economics, and public affairs.

The center produces publications designed to inform citizens and policy makers how government rules, regulations, and programs affect the economy and individuals. The center also sponsors annual conferences that bring national leaders and scholars to the University to discuss policy questions.

The center offers a certificate in political economy to all students in the University, irrespective of their major, who complete five recommended courses, including a seminar in political economy.

Department of ECONOMICS

COLLEGE OF SOCIAL SCIENCES

Chair: James Cobbe; *Professors:* Benson, Canterbury, Cobbe, Fournier, Gwartney, R. Holcombe, Ihlanfeldt, Isaac, Macesich, Macpherson, Marquis, Norrbinn, Rasmussen, Sass, Schlagenhaut, Serow, Sliger; *Associate Professors:* Beaumont, Mason, McCaleb, Prasad, Schmetmann, Zuehlke; *Assistant Professors:* Burke, Lee, Salmon, Young; *Visiting Assistant Professor:* Garriga; *Service Professor:* Laird; *Courtesy Professors:* Elzie, Fabricant, L. Holcombe, Piette, Rust, Stratis; *Professors Emeriti:* Downing, Rockwood, Sorensen

The Department of Economics offers an excellent curriculum that is as diversified as the discipline itself. The program strives to make undergraduates aware of the critical issues in economic science and policy, to provide them with a basic understanding of the tools needed to analyze those issues, and to prepare them for academic or professional opportunities beyond the baccalaureate degree. There are two undergraduate majors—the traditional “economics” major and an “applied economics” major.

The Department of Economics cooperates in the following interdivisional programs: international affairs, interdisciplinary program in social science, Asian studies, Russian and East European studies, African American studies, demography, and economic policy and government.

The department’s home page can be found at: <http://www.fsu.edu/~economic/>

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. Specific prerequisites are required for admission into the upper-division program and must be completed by the student at either a community college or a state university prior to being admitted to this program. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.**

The following lists the common prerequisites or their substitutions necessary for admission into this upper-division degree program:

Economics—Social Sciences

1) ECO X013 and ECO X023 or six (6) semester hours in economic courses (ECO prefix).

Note: The Florida State University **does not** offer an Economics–Business major.

Requirements

Admission

Admission to the undergraduate program is based upon the availability of faculty and space and upon academic performance. Students with fifty-two (52) or more **acceptable** semester hours, both ECO 2013 and 2023 completed with a grade of “C” (2.0) or better, and in good standing with the University will receive priority consideration but are not guaranteed admission to the program.

Students are expected to complete the principles sequence (ECO 2013, 2023) before declaring economics or applied economics as a major. The courses may be taken in either order. The department allows students to take the courses in the same semester, but neither recommends nor encourages it.

Majors

Majors in economics or applied economics must take at least six (6) semester hours of economics each term until the requirements for the major have been completed. Majors must also complete two of the three required core courses in economic theory by the end of their second term in the major, and the third of the core courses must be completed by the end of the third term as a major. Failure to meet either of these conditions may result in students being dropped from the economics program, in which case such students will have to be accepted in another major before they can register again for classes.

An overall grade of “C” (2.0) average in economics and supporting courses is required of majors. Majors will not receive credit toward the major requirements for courses in which a grade of less than “C–” has been received. A minimum of fifteen (15) semester hours in economics courses must be taken at The Florida State University.

A student majoring in economics or applied economics must complete the minor requirements specified by a supporting academic department. The selection of a supporting department is subject to the approval of the undergraduate adviser. Students in the applied major may complete a minor in business with only an additional six (6) semester hours of College of Business courses.

Undergraduate students who intend to major in economics should take ECO 2013, 2023, and the supporting courses before completing liberal studies. Students not completing these requirements in lower division who wish to major in economics must complete all the requirements no later than the end of the junior year.

Major in Economics

Beyond ECO 2013 and ECO 2023, the economics major requires ECO 4101, 4203, 4421, and an additional fifteen (15) semester hours of upper-division economics electives, including six (6) semester hours in one economics specialty area. Majors will also complete the

supporting courses STA 2023 and MAC 1105. Calculus is recommended especially for students contemplating graduate study.

Major in Applied Economics

In addition to ECO 2013 and ECO 2023, the major in applied economics requires ECO 3104, 3223, and 4431; twelve (12) additional semester hours of upper division economics courses; and the supporting courses ACG 2021, ACG 2071 or FIN 3403, MAC 1105, and STA 2023. Precalculus Algebra (MAC 1140) is recommended. Students in applied economics are encouraged to earn three to six semester hours of credit through the department’s internship program, which requires simultaneous registration in ECO 4944r and ECO 4922r; arrangements and approval must be obtained before the semester in which they are to be taken.

Degrees/Certificates

Majors in economics may be awarded either the bachelor of science or the bachelor of arts degree upon completion of all University requirements for those degrees.

An economics department certification of subject area concentration will be given upon request to economics majors.

Honors in the Major

The Department of Economics offers honors in the major to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the “University Honors Program and Honor Societies” section of this *General Bulletin*.

Minor in Economics

A minor requires fifteen (15) semester hours in departmental courses, including ECO 2013 and 2023, with a grade of “C” or better and at least one course selected from ECO 3104, 3223, 4101, 4203, 4421, or 4431. Students will not receive credit towards the minor for courses in which a grade less than “C–” has been received.

Economics minors must have at least a “C” (2.0) grade point average in their economics course work. ECO 2000 will not count toward the minor. No more than six (6) semester hours of transfer credit will be accepted toward the minor.

Definition of Prefixes

ECO	—	Economics
ECP	—	Economic Problems and Policy
ECS	—	Economic Systems and Development

Undergraduate Courses

ECO 2000. Introduction to Economics (3). A survey of the discipline for people taking only one economics course. Historical perspective and major principles of theory are presented. Not to be taken by students who have had or who must take ECO 2013 and 2023. Not applicable to the economics major or the economics minor.

ECO 2013. Principles of Macroeconomics (3). Aggregate economics and national income determination, money and monetary theory, present macroeconomic conditions, and aggregate policy alternatives; theory of international trade and the balance of payments; economic growth and development.

ECO 2023. Principles of Microeconomics (3). The course covers consumption, production, and resource allocations considered from a private and social point of view; microeconomic problems and policy alternatives; economics of inequality, poverty; and comparative economic systems.

ECO 3004. Debating Economic Issues (3). Prerequisites: ECO 2013, 2023. Economic analysis applied to current economic policy issues. Topics may include financial markets, Social Security, debt finance, health care, immigration, global climate change and environmental policy, regulation, welfare reform, labor market discrimination, drug policy, and topics selected by students.

ECO 3104. Applied Microeconomic Analysis (3). Prerequisites: ECO 2023; STA 2023. Applications of microeconomic theory for business and policy analysis. Topics include the theory of the firm, valuation techniques in the absence of market prices, empirical research with accounting, financial and administrative data, theory of supply and business strategy, cost-benefit methods.

ECO 3223. Financial Markets, the Banking System, and Monetary Policy (3). Prerequisites: ECO 2013, 2023. The functions of money, bank creation of deposits, and credit; Federal Reserve control of money supply; and monetary theory and policy questions.

ECO 3303. History of Economic Ideas (3). Prerequisite: any 2000-level ECO course. The evolution of economic ideas from ancient Greece to the modern period emphasizing the relationship between developments in economic analysis and cultural/technological changes. Critique of modern economic theory in terms of its sources and logical content.

ECO 3622. Growth of the American Economy (3). Prerequisites: ECO 2013, 2023. Factors in the development of economic forces, resources, institutions, and ideas relating to American economic growth analyzed through growth theories and issue debates on economic history.

ECO 3933r. Special Topics in Economics (3). Prerequisites: ECO 2013, 2023. This course code is used for special topics of current interest or to benefit from the specialties of visiting faculty. May be repeated to a maximum of six (6) semester hours. May be repeated within the same semester.

ECO 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

ECO 4101. Intermediate Microeconomic Theory (3). Prerequisites: ECO 2013, 2023. Supply, demand, cost of production, theory of the firm, factor price determination, and other microeconomic resource allocation questions.

ECO 4203. Intermediate Macroeconomic Theory (3). Prerequisite: ECO 2013, 2023. The basic model of income determination is built emphasizing the roles of real and monetary sectors of the economy. Results of empirical work are surveyed.

ECO 4224. Issues in Money and Banking (3). Prerequisite: ECO 3223. The role of monetary policy in various macroeconomic theories is emphasized. Focus on controversy over the effects monetary policy has on employment, inflation, and interest rates.

ECO 4400. Games and Decisions (3). Prerequisite: ECO 2023. A non-technical introduction to strategic decision-making. Focuses on situations involving conflict and coop-

eration and on decision-making under conditions of uncertainty and ignorance. Applies game theory and decision theory to such topics as bargaining and negotiations, contracting, auctions, and voting.

ECO 4401. Introduction to Mathematical Economics (3). Prerequisites: ECO 2013, 2023, college calculus. Uses mathematical techniques such as probability, matrix algebra, and calculus to better understand fundamental principles of economics. Applies these techniques to policy analysis.

ECO 4421. Introduction to Econometrics (3). Prerequisites: ECO 2013, 2023; STA 2023. This course introduces statistical inference, estimation theory, model building, and forecasting methods. Emphasis is on model building and policy analysis. Extensive use is made of PC econometric software.

ECO 4431. Introduction to Economic Forecasting (3). Prerequisites: ECO 2013, 2023; STA 2023. Provides a hands-on survey of forecasting methods used in business and economics. Students work extensively with computer-based statistical software to solve actual cases encountered in the business world.

ECO 4455. Experimental Economics (3). Prerequisites: ECO 2013, 2023. This course is an introduction to the use of laboratory experimental economics, a relatively new method of economics research in which the classic model of laboratory experimentation is applied to microeconomics. The course is presented using both traditional lecture format and hands-on participation in different experimental economic formats.

ECO 4504. Public Sector Economics (3). Prerequisite: ECO 2023. The logic of collective actions, principles of government expenditures, theory and practice in taxation, shifting and incidence of taxes.

ECO 4532. Economic Analysis of Politics (3). Prerequisite: ECO 2023 or permission of instructor. Economic models are used to analyze political decision making. A theory of constitutions is developed and applied to the U.S. Constitution. Models of majority rule decision making and bureaucratic supply are used to develop an understanding of supply and demand in the public sector.

ECO 4554. Economics of State and Local Government (3). Prerequisite: ECO 2023. State and local revenues, expenditures, and borrowing; intergovernmental relationships.

ECO 4704. International Trade (3). Prerequisites: ECO 2013, 2023; ECO 4101 recommended. Theory of international trade, the gains from trade, tariffs and other trade restrictions, cartels.

ECO 4713. International Finance (3). Prerequisites: ECO 2013, 2023; ECO 3223 or 4203 recommended. Balance of payments; disequilibrium and adjustments; birth, evolution, and demise of the Bretton Woods System; the managed float; international monetary reform; multinational corporations.

ECO 4905r. Directed Individual Study (1–3). May be repeated to a maximum of six (6) semester hours.

ECO 4922r. Professional Development in Economics (1–3). Prerequisite: permission of instructor. Corequisite: ECO 4944r. Covers issues that economics students encounter in the workplace: ethics, presentation skills, data gathering and analysis, as well as problems encountered in students' field study course work are discussed.

ECO 4933r. Senior Tutorial in Economics (1–3). (S/U grade only.) Prerequisites: Senior economics major or minor; or instructor's permission. This course will cover selected topics in economics. Maximum enrollment of five (5) students in each tutorial. Repeatable one time to a maximum of six (6) semester hours.

ECO 4934r. Honors Work (3). May be repeated to a maximum of nine (9) semester hours.

ECO 4944r. Field Study in Economics (1–4). Prerequisite: Permission of instructor required. Corequisite: ECO 4922r. Students receive credit toward the economics major for applied and practical experience working in a variety of organizations such as state agencies, banks, and finance departments. May be repeated to a maximum of four (4) semester hours.

ECP 3113. Economics of Population (3). Determinants and consequences of world population growth and changes, components of population growth in more- and less-developed countries, population and food supply/nonrenewable resource interrelationships.

ECP 3143. Afro-Americans in the American Political Economy (3). Prerequisites: ECO 2013, 2023. Examines the market, institutional, governmental, and social processes that have contributed to the economic well-being of African-Americans. Also covers theoretical material related to wage determination, labor market discrimination, and marriage and transitions in family structure, as well as interaction between race and class as determinants of the life chances of African-Americans.

ECP 3203. Labor Economics (3). Prerequisite: ECO 2023 or instructor's approval. Theoretical and empirical examination of wage determination, income maintenance programs, labor force, employment, unemployment, functioning of labor markets, and manpower programs.

ECP 3213. Economics of Industrial Relations (3). Industrial relations in the public and private sectors examined from the perspective of history, theory, and institutions.

ECP 3302. Economics of Natural Resources, Energy, and the Environment (3). Prerequisite: any 2000-level ECO class. The relationship between natural resource availability and growth, capital theory, economics of the environment, the U.S. energy problem and alternatives for the future, an economic appraisal of U.S. energy policy.

ECP 3322. Economics of Living Marine Resources (3). The economic role of commercial and recreational fishing industries in the U.S. and world, fishery management schemes, resources depletion and environmental deterioration, issues on current and potential food from the sea. An interdisciplinary course with no previous economics courses required.

ECP 3403. Business Organization and Market Structure (3). Prerequisite: ECO 2023. An introduction to the economic analysis of industry, a survey of market structures, oligopoly and collusion, a variety of commercial practices under imperfect competition, the welfare consequences and policy approaches to the problems of monopoly.

ECP 3451. Economics and the Law (3). Prerequisite: ECO 2000 or 2023. The course is focused on the impact of the legal system on economic activity and the role of economic analysis in assessing the relative efficiency of alternative legal rules and institutions.

ECP 3530. Economics of Health (3). Prerequisites: ECO 2013, 2023. The course provides an overall view of the U.S. health care system, focusing on the following topics: demand for medical care, health insurance, hospitals, physician services, regulation versus competition for cost containment, alternative delivery care systems, financing uncompensated care, Medicare prospective payment system, long-term care, and economic issues concerning health-related behavior (i.e., alcohol, tobacco).

ECP 3703. Business Economics (3). Prerequisites: ECO 2013, 2023. Economic decision making by the firm in relation to the industry and to the economic and regulatory environment in which it operates.

ECP 4003. Public Policy and the Quality of Life (3). Prerequisites: ECO 2013, 2023. This course examines the differences between market allocation of resources and government planning to allocate resources, and illustrates how the market mechanism can be used to improve the quality of life in areas where government allocation is often advocated. These include environmental protection, land use planning, the regulation of product quality, health care, education policy, and more.

ECP 4118 Introduction to Economic Demography (3). Prerequisites: ECO 2013, 2023. This course focuses on the acquisition of demographic and related socioeconomic data and provides an introduction to the analytical tools and skills necessary to understand and interpret the data.

ECP 4160 Economics of Aging (3). Prerequisites: ECO 2013, 2023. This course considers the factors which cause populations to become older and systematically analyzes the economic consequences of this aging. Topics considered include social security and health care financing.

ECP 4413. Government Regulation of Business (3). Prerequisite: ECO 2023. An introduction to the economic analysis of antitrust law and regulation. Topics include price fixing, monopolization, predatory pricing, exclusive dealing, tie-ins, price discrimination, mergers, antitrust enforcement policies, and case studies in economic regulation.

ECP 4505. Economics of Crime (3). Prerequisites: ECO 2013, 2023. This course examines crime and criminal justice policy using the tools of economics. The focus is on crimes against persons and property, and drug policy. Rational behavior, opportunity cost, markets, bureaucratic behavior, and policy analysis are studied in this context.

ECP 4613. Urban Economics (3). Prerequisite: ECO 2023. Trends in urban economies in the U.S. and elsewhere. Introduction to economic and demographic data sources for analysis of urban areas. Issues confronting contemporary urban places.

ECP 4623. Regional Economics (3). Prerequisites: ECO 2013, 2023. The economics of subareas of nations with special emphasis on regional economic developments. Includes the theory of the location of industry.

ECS 3003. Comparative Economic Systems (3). Prerequisites: ECO 2013, 2023. Theoretical and practical aspects of the principal forms of economic organization. Emphasis on the varieties of market-based systems, and economies in transition from centrally-planned toward market economies.

ECS 4013. Economics of Development (3). Prerequisites: ECO 2013, 2023. Economic development as a process, description and analysis; alternative overall theories of development; particular problems and policy responses to them; strategic choices in development policy. Main focus on third world economies.

ECS 4333. Transition of Soviet and Eastern European Economies (3). Prerequisites: ECO 2013, 2023. Describes and analyzes the formerly centrally planned soviet economy and its transformation. Case studies include Russia, members of the Commonwealth of Independent States and Eastern European countries. Analyzes the successes and failures of the transition process, particularly privatization and marketization.

Graduate Courses

- ECO 5005. Economic Principles for International Affairs (3).
 ECO 5111. Intermediate Microeconomic Theory (3).
 ECO 5114. Applied Microeconomics I (3).
 ECO 5115. Product Markets and the Theory of the Firm (3).

- ECO 5116. Imperfect Competition, Factor Markets, and Income Distribution (3).
 ECO 5117. Applied Microeconomics II (3).
 ECO 5204. Macroeconomic Theory I (3).
 ECO 5205. Money and National Income Determination (3).
 ECO 5206. Macroeconomic Theory, Practice, and Policy (3).
 ECO 5207. Macroeconomic Theory II (3).
 ECO 5208. Global Macroeconomics (3).
 ECO 5226. Issues in Money and Banking (3).
 ECO 5281. Financial Economics I (3).
 ECO 5282. Financial Economics II (3).
 ECO 5305. History of Economic Thought (3).
 ECO 5403. Static Optimization in Economics (3).
 ECO 5405. Introduction to Mathematical Economics (3).
 ECO 5408. Computational Economics I (3).
 ECO 5416. Theory of Statistics (3).
 ECO 5420. Basic Applied Econometrics (3).
 ECO 5423. Econometric Theory (3).
 ECO 5424. Simultaneous Equation Models (3).
 ECO 5425. Time Series Analysis (3).
 ECO 5427. Limited Dependent Variable Models (3).
 ECO 5434. Economic Forecasting (3).
 ECO 5505. Public Economics (3).
 ECO 5533. Public Choice (3).
 ECO 5705. International Trade (3).
 ECO 5706. Seminar in International Trade Theory and Policy (3).
 ECO 5715. International Finance (3).
 ECO 5716. Seminar in the Theory and Policy of International Finance (3).
 ECO 5906r. Directed Individual Study (3). (S/U grade only.)
 ECO 5907r. Directed Individual Study (3).
 ECO 5914. Supervised Research (1–6). (S/U grade only.)
 ECO 5932r. Graduate Tutorial in Economics (1–3).

- ECO 5935r. Seminar in Political Economy (1–3).
 ECO 5936r. Special Topics (1–3).
 ECO 5940r. Supervised Teaching (1–6). (S/U grade only.)
 ECO 5972. Extended Master's Paper (3). (S/U grade only.)
 ECO 6209. Topics in Macroeconomics (3).
 ECO 6936. Topics in Microeconomics (3).
 ECO 6938r. Doctoral Workshop (0–3). (S/U grade only.)
 ECO 6939r. Teaching Workshop (0–3). (S/U grade only.)
 ECP 5115. Seminar in the Economics of Population (3).
 ECP 5116. Applied Economic Demography (3).
 ECP 5117. Mathematical Demography (3).
 ECP 5205. Labor Markets (3).
 ECP 5238. Labor Compensation, Contracts, and Collective Bargaining (3).
 ECP 5312. Natural Resource Economics II (3).
 ECP 5405. Industrial Organization (3).
 ECP 5415. Social Control of Business (3).
 ECP 5536. Seminar in Health Economics (3).
 ECP 5705. Economic Concepts for Business Decisions (3).
 ECS 5005. Seminar in Comparative Economics Systems (3).
 ECS 5015. Economic Development: Theory and Problems (3).
 ECS 5028. Economics in Transition (3).

EDUCATIONAL ADMINISTRATION/ LEADERSHIP: see Educational Leadership and Policy Studies

Department of EDUCATIONAL LEADERSHIP AND POLICY STUDIES

COLLEGE OF EDUCATION

Chair: Carolyn Herrington; **Educational Administration/Leadership—Professors:** Beckham, Irvin, Kunkel, Snyder, Thomas; *Associate Professors:* Bianca, Funk, Hernandez-Gantes, Herrington; *Professors Emeriti:*

Bolden, Gant, Hale, Hinely, Kannwischer, Luebckemann, Rasmussen, Stakenas; **Higher Education—Professors:** Beckham, Lick; *Associate Professors:* Dalton, Jones, Schwartz; *Assistant Professor:* Bower; *Professors Emeriti:* Bender, Kropp, Waggaman; **Foundations of Education—Professors:** Milton, Papagiannis, Wallat; *Associate Professor:* Shargel; *Assistant Professors:* MacDonald, Monkman; *Professors Emeriti:* Grant, Schroeder; **Adult Education—Associate Professor:** Easton; *Professor Emeritus:* Jahns

The Department of Educational Leadership and Policy Studies provides preparation for a wide variety of professional careers in educational administration, higher education, voca-

tional education and policy studies. The master's, specialist in education, and doctoral degrees are offered. Although the department does not offer any undergraduate degree programs, several courses are offered at this level for persons engaged in programs of professional education. The department offers a non-degree seeking modified program for professionals who wish to be eligible for Educational Leadership level 1 certification in the State of Florida. For information on graduate programs, consult the *Graduate Bulletin*.

In addition, the department offers two certificates at the graduate level, one in Educational Policy and the other in Human Resource Development available to special students as well as degree seeking students.

State Certification Courses

The following social foundations of education courses offered in the educational foundations and policy studies department will meet the Florida Department of Education professional certification requirements: EDA 4060, EDF 4604, 5160, 5517, 5543, 5548, 5551, 5612, 5630, 5710r.

Undergraduate Courses

ADE 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

ADE 4930r. Special Topics in Adult and Community Education (3). Introduces varying topics related to the nature and methods of adult and community education. May be repeated for a maximum of twelve (12) semester hours.

EDA 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

EDA 4060. Organization and Control of Education (3). Relationships among local school districts, intermediate units, state departments of education, and the federal government.

EDF 1005. Introduction to Education (3). This course offers students a broad view of education from historical, cultural, psychological, political, social and philosophical perspectives. Includes lectures, discussions, and field experience.

EDF 2073. Diversity in and out of School: Multicultural Policies and Practices (3). The concept of multiculturalism is central to understanding the development of educational policies and practices in the twentieth century. This course provides a broad survey of the ways in which this concept helps to describe and explain current programs both in and out of school and in the university settings. Meets university multicultural requirements.

EDF 4604. Schooling in American Society (3). The study of the organization, policies, and practice of American public education and its mutual interactions with other aspects of society.

EDA 4906r. Directed Individual Study (1–3). (S/U grade only.) May be repeated to a maximum of twelve (12) semester hours.

EDH 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

Department of EDUCATIONAL PSYCHOLOGY AND LEARNING SYSTEMS

COLLEGE OF EDUCATION

Chair: Marcy Driscoll; *Professors:* Branson, Brewer, Driscoll, Kaufman, Keller, Morgan, Oosterhof, Pargman, Peterson, Reiser, Rollin, Sampson, Wager; *Associate Professors:* Kelly, Losh, Prevatt, Tate; *Assistant Professor:* Baylor; *Visiting Professor:* Tenenbaum; *Visiting Assistant Professors:* Jeong, Kamata, Proctor; *Courtesy Professor:* Groomes; *Professors Emeriti:* Beard, Burck, Burkman, Dick, Fletcher, Foster, Gagné, Hills, Johnson, King, Lathrop, Mancha, Quinly

The Department of Educational Psychology and Learning Systems offers degrees only at the masters, specialist, and doctoral levels. However, the department does offer several undergraduate courses that are part of the teacher education curriculum. For more information, refer to the *Graduate Bulletin*.

Undergraduate Courses

EDF 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

EDF 4214. Classroom Applications of Educational Psychology (3). Psychological basis for the design and delivery of instruction, as related to individual development, student characteristics, learning effectiveness, and the assessment of learning outcomes.

EDF 4440. Measurement and Evaluation in the Classroom (3). Prepares teachers for activities in testing, grading, test construction, and the interpretation and use of test scores.

EDF 4905r. Directed Individual Study (1–3). May be repeated to a maximum of twelve (12) semester hours.

EDG 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

EME 2040. Introduction to Educational Technology (3). An introduction to the use of educational technology in teaching and learning. Students will learn to use personal computers and other technology for communication, presentations, and resource acquisition.

EME 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

EME 4050. Educational Technology Theory and Practice in Instruction (3). Course focuses on the current theories and practices of using technology in teaching and learning. Students participate in a computer-supported collaborative learning environment and integrate technology into their practices.

EME 4905r. Directed Individual Study (1–3). (S/U grade only.) May be repeated to a maximum of twelve (12) semester hours.

PET 4214. Sport Psychology (3). Course explores selected psychological theories and applications relevant to sport and exercise behavior.

Graduate Courses

EDF 5400. Basic Descriptive and Inferential Statistics Applications (4).

EDF 5401. General Linear Model Applications (4).

EDF 5402. Advanced Topics in Analysis of Variance Applications (3).

EDF 5406. Multivariate Analysis Applications (3).

EDF 5409. Causal Modeling (3).

EDF 5410. Nonparametric Analysis Applications (3).

EDF 5432. Measurement Theory I (3).

EDF 5434. Measurement Theory II (3).

EDF 5435. Theory of Scaling (2).

EDF 5443. Measurement and Evaluation in the Classroom (3).

EDF 5445. Assessment of Learning Outcomes (3).

EDF 5448. Scale and Instrument Development (3).

Department of ELECTRICAL AND COMPUTER ENGINEERING

FAMU—FSU COLLEGE OF ENGINEERING

Chair: Reginald Perry; *Professors:* R. Arora, Perry, Simons, Thagard; *Associate Professors:* K. Arora, Foo, Gross, Kwan, Roberts, Tung, Zheng; *Assistant Professors:* Baldwin, Cockburn, Harvey; *Visiting Professor:* McLaren; *Visiting Assistant Professors:* Kim, A. Meyer-Baese, U. Meyer-Baese; *Assistants in Electrical Engineering:* Brooks, Imen; *Courtesy Professor:* Allen

The Department of Electrical and Computer Engineering offers bachelor of science (BS) degrees in electrical and computer engineering.

Computer engineering is concerned with the design and development of hardware and software for electronic computing devices. Reflecting the industry trend to integrate hardware and software development, the computer engineering program is designed to be a combination of a hardware-orientated electrical engineering program and a software-oriented computer science program. This blend of hardware and software allows for many and varied career opportunities, from the integrated circuit chip level, to the system and network levels.

Computer engineering students take courses in various aspects of computer design including advanced digital circuit design, microprocessor-based system design, computer architecture, operating systems, and computer networks. Advanced topics in this field include application specific integrated circuit (ASIC) design, fault-tolerant system design, parallel processing, and multiprocessor architectures.

Electrical engineering is concerned with the application of electrical and related sciences including magnetism, electronics and optics for the benefit of society. It involves the de-

sign, development and implementation of a vast variety of devices, circuits, and systems that are used in electrical power generation and distribution, machine and process control, terrestrial and satellite communications (telephone, radio and television), computers, information processing, speech recognition, radar, lasers, sensors, and other applications. This very broad field affects all aspects of modern society, particularly in this age of information processing, communications, automation and computers.

The rapid evolution of electrical and electronic technology creates constant change in this discipline. This, in turn, requires a solid foundation of science and mathematics, combined with fundamental engineering sciences and electrical engineering design skills, to provide the student with ability to professionally develop and adapt during a lifetime career. The engineering core courses and the required electrical engineering courses provide this foundation of knowledge and engineering skills.

Electrical engineering technical electives provide the student an opportunity to achieve a greater breadth of knowledge and some degree of specialization in selected areas of special interest. Electives are offered in computer engineering and the following five application areas:

1. **Microelectronics** deals with all aspects of (primarily solid-state) electronic devices, the analysis and design of analog and digital circuits, their implementation and fabrication using microelectronic techniques, and their application in a wide variety of systems;
2. **Digital signal processing and control systems** concentrate on the design and analysis of systems in which discrete and continuous signals are used for conveying information and controlling physical systems and processes. Included are the encoding, decoding, and representation of information in both the time and frequency domain;
3. **Communications** is concerned with the preparation, transmission, and reception of encoded information via media ranging from wires to fiber optic cables and space. Included are top-

ics such as AM, FM, and pulse modulation techniques; telecommunication systems; satellite telemetry; and computer networks;

4. **Electromagnetics** in the broadest sense is the study of the relationship between electric current, electric and magnetic fields, and their interactions. It is the foundation of electrical and electronic technology. The practical applications of this theory include the design of antennas, transmission lines, motors and electrical power generating and distribution equipment, microwave and optical transmission facilities, and radar;

5. **Power systems engineering** is concerned with the design and operation of electric power generation, transmission, and distribution for an increasing customer demand. It involves the modeling, analysis, and design of power system components including power transformers, electric motors, synchronous generators, and high voltage power transmission and distribution networks. Power system engineering also includes: the investigation of alternative methods for generating electrical energy, the control and reliability of complex power networks, power quality, economic factors, and environmental effects.

The department maintains well-equipped, dedicated teaching facilities for each required laboratory course and research laboratories in each major area of interest. Included are optical and microwave laboratories, power systems laboratories, parallel computing and communications simulation laboratories, and computer engineering and microelectronic design facilities. The department also has access to a large number of personal computers, advanced workstations, and specialized CAD systems. Open-access facilities are also available for electrical engineering design projects and preparation of technical documentation.

Honors in the Major

The Department of Electrical and Computer Engineering offers a program of honors in electrical engineering to encourage talented students to extend their undergraduate experience by participating in directed or independent research on a topic relative to electrical engineer-

ing that is not included in the regular curriculum. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. ENC 1101;
2. ENC 1102;
3. MAC 2311*;
4. MAC 2312*;
5. MAC 2313*;
6. MAP 2302;
7. CHM 1045/1045L*;
8. PHY 2048/2048L;
9. PHY 2049/2049L;
10. Six (6) semester hours in humanities;
11. Six (6) semester hours in social science;
12. Three (3) additional semester hours in humanities or social science.

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Common Required Courses for Bachelor of Science Degrees and Dual Majors

All candidates for bachelor of science degree in electrical engineering (BSEE), bachelor of science degree in computer engineering (BSCpE) and bachelor of science degree in dual majors (BSEE and BSCpE) are required to complete a total of one hundred and three (103) semester hours of common required courses, of which twenty-four (24) hours are social science and humanities courses, forty-five (45) hours are engineering core courses (listed below), and thirty-four (34) hours are required electrical and computer engineering courses (listed below).

Engineering Core Courses (45)

CHM 1045	General Chemistry I (3)
CHM 1045L	General Chemistry I Laboratory (1)
CGS 3408	C for Non-Specialists (3)
EGM 3512	Engineering Mechanics (4)
EGN 1004L	First Year Engineering Laboratory (1)
EGN 3613	Principles of Engineering Economy (2)
EML 3100	Thermodynamics (2)
MAC 2311	Calculus with Analytical Geometry I (4)
MAC 2312	Calculus with Analytical Geometry II (4)
MAC 2313	Calculus with Analytical Geometry III (5)
MAP 3305	Engineering Mathematics I (3)
MAP 3306	Engineering Mathematics II (3)
PHY 2048C	General Physics A (5)
PHY 2049C	General Physics B (5)

Required Electrical and Computer Engineering Courses (34)

EEL 3021	Statistical Topics in Electrical Engineering (3)
EEL 3111	Introductory Circuit Analysis (3)
EEL 3112	Advanced Circuits with Computers (3)
EEL 3112L	Advanced Circuits with Computers Laboratory (1)
EEL 3135	Signal and Linear Systems Analysis (3)
EEL 3300	Electronics (3)
EEL 3300L	Electronics Laboratory (1)
EEL 3472	Electromagnetic Fields I (3)
EEL 3512	Introduction to Communications (3)
EEL 3705	Digital Logic Design (3)
EEL 3705L	Digital Logic Laboratory (1)
EEL 4746	Microprocessor-Based System Design (3)
EEL 4746L	Microprocessor-Based System Design Laboratory (1)
EEL 4914r	Electrical Engineering Design Project (3)

Requirements for a Major in Electrical Engineering

Students majoring in electrical engineering require one hundred twenty-eight (128) semester credit hours to graduate, of which one hundred and three (103) hours are common required courses listed above and twenty-five (25) hours are technical elective courses.

Technical Electives for Electrical Engineering Majors

One (1) semester hour must be an electrical engineering (EE) laboratory elective,

Twenty-one (21) semester hours must be EE technical electives, and

Three (3) hours may be an EE or a non-EE elective.

The non-EE technical elective must be selected from a list of departmentally approved courses offered by other departments at The Florida State University or Florida A & M University. Courses not on the list may be taken with prior approval of the department.

Requirements for a Major in Computer Engineering

Students majoring in computer engineering require one hundred twenty-seven (127) semester credit hours to graduate, of which one hundred and three (103) hours are common required courses listed above. The other twenty-four (24) semester credit hours include twelve (12) semester hours of computer science courses (listed below), six (6) semester hours of required computer engineering courses: EEL 4712 Introduction to Field Programmable Logic Devices (3) and EEL 4713 Computer Architecture (3), and six (6) semester hours of technical electives.

Required Computer Science Courses (12 semester hours)

COP 3330	Object Oriented Programming (3)
COP 4530	Data Structures, Algorithms and Generic Programming (3)
COP 4610	Operating Systems and Concurrent Programming (3)
MAD 2104	Discrete Mathematics I (3)

For a current list of technical electives for the computer engineering major, see or call the department.

Requirements for a Dual Major in Electrical Engineering and Computer Engineering

Students dual-majoring in electrical engineering and computer engineering must take the common required courses (one-hundred three [103] semester hours), required CS courses (twelve [12] semester hours) and required computer engineering courses: EEL 4712 and EEL 4713 (each three [3] semester hours) plus nineteen (19) semester hours of technical electives and special requirements. For a current list of approved technical electives for a dual major, contact the department.

Technical Electives and Special Requirements for Dual Majors

One (1) semester hour must be an electrical engineering (EE) laboratory elective,

Fifteen (15) semester hours must be EE technical electives, and

Three (3) semester hours should be a second senior design project (EEL 4914) approved by the department.

For a current list of technical electives for dual majors, see or call the department.

Note: with the adoption of ABET EC-2000 policies, program requirements, educational objectives, course content and offerings, and departmental policies are subject to periodic revision and change. Students are **strongly** urged to obtain current information from their academic advisor, the academic coordinator, or by visiting the departmental web page.

ABET Engineering Criteria 2000 (EC-2000)

In keeping with ABET EC-2000 policies, graduates from the Department of Electrical and Computer Engineering must demonstrate the following program outcome objectives:

- a) An ability to apply knowledge of mathematics, science, and engineering;
- b) An ability to design and conduct experiments, as well as to analyze and interpret data;
- c) An ability to design a system, component, or process to meet desired needs;
- d) An ability to function on multi-disciplinary teams;
- e) An ability to identify, formulate, and solve engineering problems;
- f) An understanding of professional and ethical responsibility;
- g) An ability to communicate effectively;
- h) The broad education necessary to understand the impact of engineering solutions in a global and societal context;
- i) A recognition of the need for, and an ability to engage in life-long learning;
- j) A knowledge of contemporary issues;
- k) An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Students are instructed to contact their academic advisor or visit the departmental web page to obtain a listing of current program educational objectives.

Grade Requirements

In addition to University requirements regarding grades and grade point average (GPA), college policy requires that engineering major stu-

dents earn a grade in the range of "C" or better in all engineering courses and engineering core courses which apply toward the degree, and requires a GPA of 2.5 on a specified set of the engineering core courses. Any student who fails to earn a grade in the range of "C" or better in an electrical engineering course on the third attempt, or who withdraws from the course more than twice, is subject to dismissal from the electrical and computer engineering department.

A student must receive a satisfactory grade according to the above requirements in all prerequisites to a course with an EEL prefix prior to enrolling in the EEL course. Concurrent registration in an EEL course and its prerequisite(s) is not allowed. Failure to abide by this policy can result in the cancellation of enrollment in the class at any time during the semester with no refund of fees. Corequisites of an EEL course must be taken concurrently or prior to enrolling in the EEL course. As a matter of departmental policy to provide equity for FAMU and FSU students, "+/-" grades are not used for any electrical engineering courses.

Definition of Prefix

EEL — Electrical Engineering

Undergraduate Courses

EEL 3003. Introduction to Electrical Engineering (3). Prerequisites: MAC 2312; PHY 2049C. Introduction to electrical engineering concepts for non-electrical engineering majors. Covers a broad range of topics including basic circuit theory, semiconductor devices, instrumentation, amplifiers, and machines.

EEL 3003L. Introduction to Electrical Engineering Laboratory (1). Prerequisites: MAC 2312; PHY 2049C; Corequisite: EEL 3003. Laboratory in support of EEL 3003. Must be taken concurrently with first enrollment in EEL 3003. Must be dropped if EEL 3003 is dropped.

EEL 3021. Statistical Topics in Electrical Engineering (3). Prerequisite: MAP 3306. Corequisite: EEL 3512. Use of probability and statistical concepts in electrical engineering applications such as measurement uncertainty, linear regression, reliability, and noise in electrical systems. Elementary probability—sets, sample spaces, axioms, joint and conditional probability. Random variables—distribution and density functions. Operations in random variables—expectation, moments, transformation of random variables. Multiple random variables. Random processes—distribution and density functions, correlation functions, spectra characteristics. Elements of statistics: parameter estimation and hypothesis testing.

EEL 3111. Introductory Circuit Analysis (3). Prerequisite: MAC 2312; Corequisite: MAC 2313; PHY 2049C. Current, voltage, and power; resistors, inductors, and capacitors; network theorems and laws; phasors; impedances; sinusoidal steady-state analysis.

EEL 3112. Advanced Circuits with Computers (3). Prerequisite: EEL 3111; Corequisite: MAP 3305. Sinusoidal steady-state power analysis; three-phase circuits; operational amplifier; transient and forced response; frequency response; two-port networks; circuit analysis with computers.

EEL 3112L. Advanced Circuits with Computers Laboratory (1). Prerequisite: EEL 3111; Corequisite: EEL 3112. Instrumentation and measuring techniques; current, voltage, and power measurements; response of passive circuits; AC and DC design; computer application.

EEL 3135. Signal and Linear System Analysis (3). Prerequisite: EEL 3112; MAP 3305. Classification and representation of signals and systems; Laplace transform; Z-transform; convolution; state variable techniques; stability and feedback.

EEL 3216. Fundamentals of Power Systems (3). Prerequisite: EEL 3112. Introduction to the fundamentals of energy conversion; structure of power systems; and power system components: transformers, rotating machines, and transmission lines. The operation and analysis of power systems are presented.

EEL 3220. Electromechanical Dynamics (3). Prerequisites: EEL 3112, 3472; MAP 3305. Magnetic circuits; transformers; electromagnetic torques and induced voltages; induction motors; synchronous machines; DC motors.

EEL 3300. Electronics (3). Prerequisite: EEL 3112. Diode models and circuits; DC biasing of bipolar-junction and field-effect transistors; small- and large-signal transistor models; frequency analysis of single-stage AC amplifiers.

EEL 3300L. Electronics Laboratory (1). Prerequisites: EEL 3112, 3112L; Corequisite: EEL 3300. Laboratory in support of EEL 3300.

EEL 3472. Electromagnetic Fields I (3). Prerequisites: EEL 3111; MAP 3306; PHY 2049C. The electrostatic field—Gauss law; boundary conditions; capacitance; Laplaces and Poissons equations; energy, forces, and torques. The steady electric current. The magnetostatic fieldvector potential; Amperes and Biot-Stavart laws; inductance; energy, forces, and torques. Quasistatic fields; electromagnetic induction.

EEL 3473. Electromagnetic Fields II (3). Prerequisite: EEL 3472; MAP 3306. Maxwells equations, plane electromagnetic waves, group velocity, polarization, Poynting vector, boundary conditions, reflection and refraction of plane waves, skin effect, transmission line analysis, impedance matching, wave guides and cavity resonators, fundamentals of radiation and antennas.

EEL 3512. Introduction to Communications (3). Prerequisite: EEL 3112; MAP 3306. Signal analysis, Fourier series / Fourier transform, sampling theorem, distortions in signal transmission, and analog modulation AM, FM, pulse modulation, pulse-code modulation, and pulse shaping.

EEL 3705. Digital Logic Design (3). Prerequisite: CGS 3408. Fundamental topics in digital logic design, algorithms, computer organization, assembly-language programming, and computer engineering technology.

EEL 3705L. Digital Logic Laboratory (1). Prerequisite: CGS 3408. Corequisite: EEL 3705. Laboratory in support of EEL 3705.

EEL 3949r. Cooperative Work Experience (0). (S/U grade only.)

EEL 4113. Advanced Linear Networks (3). Prerequisites: EEL 3112, 3135. Synthesis of LC one-port networks synthesis of LC two-port networks; operational amplifier applications; active filters; approximation methods; switched-capacitor filters.

EEL 4213. Power Systems I (3). Prerequisite: EEL 3216. Analysis of electric power systems using system modeling for large-scale power networks; admittance and impedance matrix formation; power flow; optimal dispatch; symmetrical components; balanced and unbalanced fault analysis; and transient stability studies.

EEL 4301. Electronic Circuits and Systems Design (3). Prerequisites: EEL 3300, 3300L. Multistage amplifier analysis and design including feedback and operational amplifiers, A-to-D and D-to-A converters, waveshaping and waveforming generators including oscillators, voltage regulators, and power circuits. Includes use of computer-aided-design programs.

EEL 4301L. Electronic Circuits and Systems Laboratory (1). Prerequisites: EEL 3300, 3300L. Advanced electronic laboratory.

EEL 4313. Introduction to Digital Integrated Circuit Design (3). Prerequisite: EEL 3300. Semiconductor device physics, digital logic fundamentals, static inverter analysis, static logic gate analysis, dynamic switching analysis, combinational logic design.

EEL 4330. Microelectronics Engineering (3). Prerequisite: EEL 3300, 3300L. Design and fabrication of solid-state devices. Topics include oxidation, diffusion, metallization, photolithography, and device characterization.

EEL 4351. Solid-State Electronic Devices (3). Prerequisites: EEL 3300, 3300L. Solid-state physics as applied to electronic devices. Semiconductor materials, conduction processes in solids, device fabrication, diffusion processes, and negative conduction devices.

EEL 4376C. Introduction to Analog IC Design (3). Prerequisite: EEL 4301. Design and analysis of bipolar and MOS analog integrated circuits. Topics include operational amplifier design, analog multipliers, active loads, current sources, and active filters.

EEL 4435L. Electromagnetics Laboratory (1). Prerequisite: EEL 3473. Applications of electromagnetic field theory. Experiments include field mapping, transmission lines, spectrum analysis, impedance matching, waveguides, antennas, radar, and fiber optics.

EEL 4440. Optoelectronics and Optical Systems (3). Prerequisites: EEL 3300, 3473. Theory and applications of optical techniques in modern electronics and communications. Includes a study of optical fibers, sources, detectors, optical communication systems, integrated optics, holography, and principles of optical signal processing.

EEL 4461. Antenna Systems (3). Prerequisite: EEL 3473. Antenna theory, including Hertzian dipoles, thin linear antennas, aperture antennas, arrays, loop antenna, slots, horns, and waveguides.

EEL 4514. Principles of Communications Systems (3). Prerequisite: EEL 3512. Introduction to Fourier analysis of noise and signals; information transmission; modulation techniques AM, FM, and pulse; analog multiplexing.

EEL 4515. Digital Communication Systems (3). Prerequisite: EEL 3512. Sampling principle, spectral analysis of digital waveforms and noise, pulse and digital transmission systems, digital multiplexing, error probabilities, and system performance.

EEL 4635. Digital Control Systems (3). Prerequisite: EEL 4652. Discrete time systems; Z-transform; sampling and reconstruction; system time-response characteristics; stability analysis; digital controller design.

EEL 4652. Analysis and Design of Control Systems (3). Prerequisite: EEL 3135. Continuous system modeling; stability of linear systems; frequency response methods; the root locus method; state-space methods.

EEL 4658. Instrumentation for Measurement and Control (3). Prerequisites: EEL 3112, 4652. Design and application of sensors and transducers commonly used in industrial control and laboratory automation. Concepts and application of statistical process control are introduced.

EEL 4712. Introduction to Field Programmable Logic Devices (3). Prerequisite: EEL 3705, 3705L. Overview of PLD, CPLD and FPGA devices; introduction to hardware description languages (HDLs); combinational, sequential and FSM design using HDLs; introduction to top down design methodologies.

EEL 4713. Computer Architecture (3). Prerequisites: CGS 3408; EEL 4746. Modern computer architectures are presented by studying how the relationships between hardware and software impact performance, machine language definition, processor data path and control designs, interfacing, and advanced topics, such as caching and pipelining.

EEL 4746. Microprocessor-Based System Design (3). Prerequisite: EEL 3705, 3705L. Fundamental topics in basic computer design, structured assembly-language software design, RTL, CPU design, pipelining and superscaling, computer arithmetic, memory and I/O organization and interface, cache, and design tools.

EEL 4746L. Microprocessor-Based System Design Laboratory (1). Prerequisite: EEL 3705, 3705L; Corequisite: EEL 4746. Laboratory software development, hardware projects, and experiments in support of EEL 4746.

EEL 4748. Embedded Microcomputer Design Project (3). Prerequisites: EEL 4746, 4746L. Individual projects selected with consent of instructor. Selected lectures and an open-door Motorola 68000 laboratory.

EEL 4810. Introduction to Neural Networks (3). Prerequisites: EEL 3135, 3300. Fundamentals of neural networks: dynamical systems, associative memories, perceptrons, supervised/unsupervised learning algorithms. Applications in signal processing, pattern recognition, control, optimization and communications.

EEL 4905r. Directed Individual Study (1-3). Prerequisites: Junior-level standing and "B" average in electrical engineering courses. Normally may be repeated to a maximum of six (6) semester hours. Requires department approval.

EEL 4906r. Honors Work in Electrical Engineering (3-6). Prerequisite: Acceptance in honors program. Independent or directed research in a specialized area beyond the current curriculum in electrical engineering. May be repeated to a maximum of nine (9) semester hours.

EEL 4914r. Electrical Engineering Design Project (3). Prerequisites: senior standing; completion of all required EE courses; permission of instructor. Individual project in electrical engineering involving hardware, software, or theoretical design, documentation, and presentation of results. Must be taken for a minimum of three (3) and a maximum of six (6) semester hours.

EEL 4930r. Special Topics in Electrical Engineering (1-3). Prerequisite: Instructor consent. Special topics in electrical engineering with emphasis on recent developments. Topics and credit vary consult the instructor. May be repeated to a maximum of twelve (12) semester hours.

Graduate Courses

- EEL 5173. Signal and System Analysis (3).
- EEL 5315. Digital Integrated Circuit Design (3).
- EEL 5443. Electromagnetics and Optics (3).
- EEL 5465. Antenna Theory (3).
- EEL 5486. Advanced Electromagnetic Theory (3).
- EEL 5500. Digital Communication Theory (3).
- EEL 5542. Random Processes (3).
- EEL 5563. Optical Fiber Communications (3).

- EEL 5617. Multivariable Control (3).
- EEL 5630. Digital Control Systems (3).
- EEL 5667. Robot Kinematics and Dynamics (3).
- EEL 5707. ASIC Systems Design I (3).
- EEL 5764. Computer System Architecture (3).
- EEL 5905r. Directed Individual Study (1-3).
- EEL 5910r. Supervised Research (1-5). (S/U grade only.)
- EEL 5930r. Special Topics in Electrical Engineering (3).
- EEL 5940r. Supervised Teaching (1-5). (S/U grade only.)
- EEL 6353. Semiconductor Device Theory (3).
- EEL 6457r. Advanced Topics in Optoelectronic Systems. (3).
- EEL 6502. Digital Signal Processing I (3).
- EEL 6558r. Advanced Topics in Digital Signal Processing (3).
- EEL 6619. Robust Control (3).
- EEL 6708. ASIC Systems Design II (3).
- EEL 6799r. Advanced Topics in Computer Engineering (3).
- EEL 6905r. Directed Individual Study (1-3).
- EEL 6930r. Special Graduate Topics in Electrical Engineering (3).
- EEL 6932r. Electrical and Computer Engineering Seminar (0).
- EEL 6971r. Master's Thesis (1-6). (S/U grade only.)
- EEL 6980r. Dissertation (1-12). (S/U grade only.)
- EEL 8964. Preliminary Doctoral Examination (0). (S/U grade only.)
- EEL 8966r. Master's Comprehensive Examination (0). (S/U grade only.)
- EEL 8976. Master's Thesis Defense (0). (S/U grade only.)
- EEL 8985r. Dissertation Defense (0). (S/U grade only.)

Department of ELEMENTARY AND EARLY CHILDHOOD EDUCATION

COLLEGE OF EDUCATION

Chair: Vivian Fueyo; *Professors:* Flake, Fueyo, Hansen, Lynch-Brown, Palmer, Scott-Simmons, Wolfgang; *Associate Professors:* Clark, McCarty-Roberts (Panama City), Piazza; *Assistant Professors:* Jones, Lake, Rice; *Visiting Assistant Professor:* Almarza; *Assistants in Elementary Education:* Davis (Panama City), Rios (Panama City); *Professors Emeriti:* Green, Hafner, Kirby, Kirtland, Scott, Schluck

There are three major areas of specialization in the Department of Elementary and Early Childhood Education: early childhood education, elementary education, and reading and language arts education.

The primary missions of the Department of Elementary and Early Childhood Education are: 1) to conduct research that provides new knowledge for the improvement of practice in educational settings through the ongoing publication of basic and applied educational research, the dissemination of research findings at scholarly conferences, and the seeking of external research funding; and 2) to provide excellence in the preparation of educators at the undergraduate level in the fields of early childhood education, elementary education, and social science education. For a complete listing of all requirements concerning the continuation and graduation from a teacher education program, please refer to the "College of Education" chapter in this *General Bulletin*.

Program requirements for state-approved educator preparation programs are subject to revision based on changes in State Board of Education Rule 6A-5.066, Approval of Preservice Teacher Preparation Programs, as amended August 7, 2000.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for the following University degree programs. Specific prerequisites are required for admission into the upper-division programs and **must** be completed by the student at either a community college or a state university prior to being admitted to these programs. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.**

The following lists the common prerequisites or their substitutions necessary for admission into these upper-division degree programs:

Elementary Teacher Education

1. EDF X005;
2. EDG 2701;
3. EME 2040;
4. Fifty-one (51) semester hours, chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:
 - a) A minimum of nine (9) semester hours in English, including writing, literature and speech;
 - b) A minimum of nine (9) semester hours in mathematics, (MGF, MGT, MAC and STA prefixes only) excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;
 - c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;
 - d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;
 - e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.

The only exception to the liberal arts and sciences requirement will be if there is a specific institutional requirement (e.g., a wellness course or a freshman seminar course) for the associate in arts or baccalaureate degree.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact the department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Pre-Elementary/Early Childhood Teacher Education

1. EDF X005;
2. EDG 2701;
3. EME 2040;

4. Fifty-one (51) semester hours, chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:

- a) A minimum of nine (9) semester hours in English, including writing, literature and speech;
- b) A minimum of nine (9) semester hours in mathematics, (MGF, MGT, MAC and STA prefixes only) excluding MAT 1033, and including college algebra or higher and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;
- c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;
- d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;
- e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.

The only exception to the liberal arts and sciences requirement will be if there is a specific institutional requirement (e.g., a wellness course or a freshman seminar course) for the associate in arts or baccalaureate degree.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact the department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

EARLY CHILDHOOD EDUCATION

Professor: Wolfgang; *Assistant Professor:* Jones, Lake

The primary goal of early childhood (primary) education is to prepare educational leaders who are capable of working with the child, the family, and the community from age three, pre-k, and kindergarten through 3rd grade. Course work and extensive field experiences prepare graduates with specializations appropriate for educating the young child and designing curriculum for young children.

Undergraduate Curriculum in Early Childhood (Primary) Education Leading to a Baccalaureate Degree and Florida Teacher Certification

An undergraduate curriculum is offered for a bachelor of science (BS) degree in early childhood (primary) education preparing students with major emphasis to teach ages three, pre-k and kindergarten through 3rd grade.

Each student preparing to teach early childhood (primary) education must take EEC 4204, 4301, 4303, 4400, 4604, 4905r, 4907r, 4930r, 4943; EDF 4214; EEX 4070; FLE 4591, 4794; LAE 3414, 4314; MAE 4300; RED 4510; SCE 4310; SSE 4113. These courses are restricted to admitted early childhood (primary) education majors only and must be taken in sequenced semester blocks. Students must maintain a cumulative 2.5 GPA or better in all courses completed for the program. All early childhood (primary) education students are assigned to the most appropriate location for student teaching, or to the London program, when available. Please contact the Department of Elementary and Early Childhood Education for a complete listing of course blocks and requirements.

Admission Requirements

Early childhood education is a limited access, limited enrollment program and admission is based on availability of faculty and space. Students planning to enter early childhood education must document their experiences working with a group of young children in settings such as camp counseling, teacher aide, substitute teaching, scouting team leader, swimming instructor, or a setting approved by the program prior to acceptance into the program. The program admits students once a year for the **fall term**.

All students are urged to seek advising from the lower division advisors in the Office of Academic Services, *108 Stone Building*. All students must complete 1) the Liberal Studies degree requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*, 2) the State of Florida common prerequisite for Early Childhood majors described earlier in this section, 3) the requirements for admission into a teacher education program described in the "College of Education" section of this *General Bulletin*, 4) a "C" or better in nine (9) semester hours of college English and college math, and 5) make application into the program as follows.

Application Requirements

To be considered for admission into Early Childhood, students must submit an application and the following by **March 15th for the fall semester** (an interview may be required following submission of an application). Applicants are selected on the basis of the following criteria: GPA, SAT/ACT and CLAST (exemptions not accepted,) relevant experience, and professional promise.

1. Application form (available in *115 Stone Building* or call (850) 644-5458);
 2. Transcript of previous coursework and documentation of test scores (SAT/ACT, CLAST) and GPA;
 3. Three (3) references forms (available from the department):
 - a) One (1) from someone who taught you in either junior high school, high school or college;
 - b) One (1) from someone who has observed you interacting with children;
 - c) One (1) of your choice;
 4. Essay: your response to **Teaching in a Changing World** (1 to 2 pages);
 5. Checklist of program requirements
 6. Documentation of current coursework;
- and**
7. Student teaching location form.

Definition of Prefix

EEC — Education: Early Childhood

Undergraduate Courses

EEC 4204. Early Childhood Education Curriculum (3). The design and implementation of thematic curricula and direct instruction appropriate for children age 3 to grade 3. Microteaching required.

EEC 4301. Early Childhood Education Foundations (3). Introductory course to ECE primary education provides a background of ECE theory and research to be used for determining education practices.

EEC 4303. Expressive Arts for the Young Child (4). Prerequisites: Block I, ECE/UG Program; Corequisites: Block 2 courses. This course examines the role and value of the arts for the child. It explores developmental trends, appropriate practices, methods, media and curricula.

EEC 4400. Parents as Teachers (3). Examination of the need and importance of parental involvement in the education of young children. Includes strategies for promoting home/school interactions.

EEC 4604. Techniques of Child Study and Authentic Assessment (3). Investigates and utilizes data collection techniques/instruments to acquire information about young children.

EEC 4905r. Directed Individual Study (1–3). May be repeated to a maximum of twelve (12) semester hours.

EEC 4907r. Observation and Participation in Early Childhood Education (2–3). (S/U grade only.) This course offers students direct experiences with young children, organized in such a way that they have opportunities to put into practice those insights, principles, and understandings gained in the theory courses. May be repeated twice to a maximum of seven (7) semester hours.

EEC 4930r. Special Topics in Early Childhood (2–3). Current topics in early childhood are studied in depth. May be repeated to a maximum of nine (9) semester hours. May be repeated during the same semester.

EEC 4943. Student Teaching in Early Childhood Education (10). (S/U grade only.)

LAE 3414. Literature in the Elementary School (3). Corequisite: Block I. Approaches in building a literature program for the elementary grades. Critical survey of literature for children and consideration of teaching techniques.

LAE 4314. Language Arts for the Elementary School (3). Prerequisite: Block I. Corequisite: Block II. Designed to acquaint the prospective childhood teacher with effective strategies/materials for teaching the language arts and to introduce a variety of techniques for assessing growth in the area.

MAE 4300. Teaching Mathematics in the Primary Grades (3). To provide an overview of teaching mathematics in the primary grades.

RED 4510. Teaching Reading in the Elementary School (3). Prerequisites: Blocks I and II. Corequisite: Block III. Methods and materials for teaching developmental reading based on holistic reading/language comprehension strategies and skill development.

SCE 4310. Teaching Science in the Elementary School (3). Prerequisites: Blocks I and II. Corequisite: Block III. Designed to engage the student in self-directed, meaningful science activities for positive, cognitive, and affective growth.

SSE 4113. Elementary School Social Studies (3). Prerequisites: Blocks I and II. Corequisite: Block III. Content, applications, and materials in the social sciences, K–6.

Graduate Courses

EEC 5263. Thematic Curriculum and Direct Instruction for Young Children (3).

EEC 5269. Curriculum and Play for Young Children (3).

EEC 5305. Methods and Experiences with Young Children and Families (3).

EEC 5405. Teachers and Parents: Partners in Education (3).

EEC 5525. Childrens Centers (3).

EEC 5605. Techniques of Classroom Management and Child Study (3).

EEC 5615. Issues and Trends in Early Childhood Education (3).

EEC 5665. Historical and Theoretical Bases of Early Childhood Education (3).

EEC 5671. Research in Early Childhood Education (3).

EEC 5906r. Directed Individual Study (1–3). (S/U grade only.)

EEC 5911r. Supervised Research (1–4). (S/U grade only.)

EEC 5935r. Special Topics in Early Childhood Education (3).

EEC 5942r. Supervised Teaching (1–4). (S/U grade only.)

EEC 5947. Field Laboratory Internship (1–8). (S/U grade only.)

EEC 6516. Educational Environments for Infants and Toddlers (3).

EEC 6672. Theory and Research in Young Children's Play Curriculum (3).

EEC 6932. Doctoral Seminar in Early Childhood Education (2). (S/U grade only.)

For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the *Graduate Bulletin*.

ELEMENTARY EDUCATION

Professors: Flake, Fueyo, Hansen; *Associate Professors:* Clark, McCarty-Roberts (Panama City); *Assistant Professor:* Rice; *Visiting Assistant Professor:* Almarza; *Assistants in Elementary Education:* Davis (Panama City), Rios (Panama City)

An undergraduate curriculum is offered leading to a bachelor of science (BS) degree in elementary education preparing students to teach grades 1 through 6. Courses in elementary education are restricted to elementary education majors only. Prospective applicants who already have a bachelor's degree in another major are encouraged to seek admission to the master's degree program in elementary education.

Admission Requirements

Elementary education is a limited access, limited enrollment program based on availability of faculty and space. Students planning to enter elementary education must 1) Complete the Liberal Studies requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*; 2) Complete the State of Florida common course prerequisites for elementary education majors described earlier in this section; 3) Meet the requirements for admission into a teacher education program described in the "College of Education" section of this *General Bulletin*; 4) Achieve a "C" or better in nine (9) semester hours of college English and college Math; and 5) Make application into the program as follows.

Application Requirements

To be considered for admission into elementary education, students must submit an application and the following **any time prior to but not later than March 15 (fall semester) or October 15 (spring semester)**.

1. Application form (available in *115 Stone*) or on line at <http://www.fsu.edu/~etp/ElemEduc/ADMITLTR.htm>;
2. Transcript of previous coursework and documentation of test scores (GPA, SAT/ACT, CLAST, exemptions not accepted);
3. Minimum cumulative GPA of 2.5;
4. Three (3) reference forms (available from the department):
 - a) One (1) from someone who taught you in your freshman or sophomore year of college,
 - b) One (1) from someone who has observed you interacting with children;
 - c) One (1) of your choice;
5. Typed Essay: your response to **Teaching in a Changing World** (1 - 2 pages), and
6. Documentation of current coursework.

Required Major Courses

Each student preparing to teach elementary education must take ARE 3313C; EDE 3322, EDE 4XXX; EEC 4905r; EDF 4214; EEX 4070; FLE 4591, 4794; LAE 3414, 4314; MAE 4310, 4326; RED 4510; SCE 4310; SSE 4113. These courses are restricted to admitted elementary education majors only and **must be taken** in sequenced semester blocks. Students **must complete all** courses within a block with a grade of "C" or better, and maintain a cumulative GPA of 2.5 to be allowed to continue to the next block. For example, courses in Block I must be taken together as a block and are prerequisites for entry into Block II. Please consult the Department of Elementary and Early Childhood Education for a complete listing of course blocks and requirements.

Note: all four semesters in the program require field experiences in the public schools. EDE 4943, Student Teaching in Elementary Education (09), is only offered in the fall and spring.

Student Teaching Alternatives

Students have an option to complete their student teaching in an approved teaching center in London for the spring semester. Information about the London Program is available from the departmental London Program representative. Additionally, three geographical areas of Florida have been designated as regions where students may complete their student teaching in approved teaching centers. The department will provide a list of approved counties for student-teaching placement. The department reserves the right to restrict elementary education students with a GPA of less than 3.0 to the local area.

Honors in the Major

The elementary education program offers honors in the major to encourage talented juniors and seniors to undertake independent research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Definition of Prefixes

CGS	—	Computer General Studies
EDE	—	Education: Elementary
LAE	—	Language Arts and English Education
MAE	—	Mathematics Education
PET	—	Physical Education Theory
RED	—	Reading Education
SCE	—	Science Education
SSE	—	Social Studies Education

Undergraduate Courses

EDE 3201. The Teacher in the Elementary and Middle School (3). Corequisite: Block I. Investigation of the role of the teacher from perspectives of planning, curriculum, organization, management, and problem solving.

EDE 3322. The Child in the Elementary and Middle School (3). Corequisite: Block I. Investigation of children from diverse cultural settings in the context of elementary school learning, curriculum, and teaching.

EDE 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

EDE 4341. Technology and Learning for Elementary and Middle School (3). Prerequisite: EME 2040 or permission of instructor. Designed to help preprofessional teachers use technology for the development of higher learning skills. Included in the technology content will be animated graphics, scanned pictures, and linked files. Students will be working with students in schools applying concepts from the class. Students will acquire technology skills that will allow them to develop electronic professional portfolios.

EDE 4421. Classroom Organization and Pupil Evaluation (4). Prerequisites: Blocks I, II, and III. Corequisite: Block IV. Designed to promote growth, awareness, and competence in the areas of classroom organization and pupil evaluation.

EDE 4905r. Directed Individual Study (1-3). May be repeated to a maximum of twelve (12) semester hours.

EDE 4907r. Directed Field Experiences (1-8). (S/U grade only.) Corequisites: Block I, II, or III. Participation in a public school classroom with University supervision. May be repeated to a maximum of (8) semester hours to be taken in the following manner: at least one (1) hour in Block I, one (1) hour in Block II, and two (2) hours in Block III.

EDE 4943. Student Teaching in Elementary Education (10). (S/U grade only.) Prerequisites: Blocks I, II, and III. Corequisite: Block IV.

EDE 4970r. Honors Work (3). Open to participants in the elementary education honors program. Up to twelve (12) semester hours of honors work may be taken. Six (6) thesis hours are required. Seminars are optional.

LAE 3414. Literature in the Elementary School (3). Corequisite: Block I. Approaches in building a literature program for the elementary grades. Critical survey of literature for children and consideration of teaching techniques.

LAE 4314. Language Arts for the Elementary School (3). Prerequisite: Block I. Corequisite: Block II. Designed to acquaint the prospective childhood teacher with effective strategies/materials for teaching the language arts and to introduce a variety of techniques for assessing growth in the area.

MAE 4310. The Teaching of Elementary School Mathematics (3). Prerequisite: Block I and II; Corequisite: Block III. Develops specific instructional techniques to maximize success in the child's learning of mathematics.

MAE 4326. How Children Learn Mathematics (3). Prerequisite: Block I. Corequisite: Block II. This course focuses on children's development of mathematical content and on the development of mathematics curriculum from children's view points. Technology as a tool for learning mathematics will be included.

PET 3720C. Teaching Health and Physical Education in the Elementary School (3). Designed to acquaint the prospective elementary teacher in the design and implementation of health and motor activity programs for children in grades K-6.

RED 4510. Teaching Reading in the Elementary School (3). Prerequisites: Blocks I and II. Corequisite: Block III. Methods and materials for teaching developmental reading based on holistic reading/language comprehension strategies and skill development.

SCE 4310. Teaching Science in the Elementary School (3). Prerequisites: Blocks I and II. Corequisite: Block III. Designed to engage the student in self-directed, meaningful science activities for positive, cognitive, and affective growth.

SSE 4113. Elementary School Social Studies (3).
Prerequisites: Blocks I. Corequisite: Block II. Content, applications, and materials in the social sciences, K–6.

Department of ENGLISH

COLLEGE OF ARTS AND SCIENCES

Chair: Hunt Hawkins; *Eppes Professor:* Butler; *Kellogg W. Hunt Professor:* Bishop; *George M. Harper Professor:* Lhamon; *Francis G. Townsend Professor:* Ortiz-Taylor; *William Hudson Rogers Professor:* McElrath; *Sarah Herndon Professor:* Gontarski; *McKenzie Professors:* Burroway, Kirby; *Daisy Parker Flory Alumni Professor:* Standley; *Professors:* Berry, Bickley, Boehrer, Crook, Fenstermaker, Fowler, Hawkins, O'Rourke, Rowe, Winegardner; *Associate Professors:* Braendlin, Burke, Gardner, Johnson, Laughlin, McGregory, Montgomery,

Moore, Rosenthal, Saladin, Suarez, Walker; *Assistant Professors:* Barbour, Batker, Cooper, Dickson-Carr, Edwards, Epstein, Faulk, Foy, Goodman, Kimbrell, North, Picart, Poster, Shinn, Stuckey-French, Vitkus; *Visiting Assistant Professor:* Yang; *Professors Emeriti:* Davis, Flory, Harper, Hunt, Pugh, Randel, Reaver

The Department of English offers students a curriculum that is central to the modern liberal arts education. One of the largest degree programs in the College of Arts and Sciences, the undergraduate major in English allows students to emphasize literature or writing; students may also pursue other specialized programs such as honors in the major, an English major with an emphasis in business, teaching certification, or other independent courses of study. In addition to its primary ben-

efits to intellectual growth, the English major also offers practical preparation for professional careers in teaching, professional writing, law, medicine, business, religious affairs, and all levels of government service—local, state, and federal.

The study of literature includes not only contemporary texts but also all the historical periods of British, American and other literature. In addition to familiar period or major authors courses such as the Victorian novel or Chaucer, students will also find courses in related subjects such as linguistics, popular culture, gender studies, multiethnic literature, folklore, postcolonial literature, modern European fiction, and literary theory. All of these courses contribute to the students knowledge of human culture and how literary texts as cultural arti-

facts relate to other bodies of human knowledge such as philosophy, history, religion, psychology, classics, and modern languages.

The study of writing allows students to work not only in the familiar genres of poetry, fiction, drama, and the essay, but also to study related subjects such as rhetorical and composition theory. Students may also study the editorial and publishing process and take up internships in editing and publishing in a variety of settings.

The English honors program, traditionally the largest in the University, invites the very best students to supplement regular major work with specialized seminars and independent thesis work. Other options such as the English/business program or teaching certification allow students to supplement the major with rigorous and substantial minor courses of study.

A variety of activities and facilities are available to all majors. Two literary magazines, *The Kudzu Review* and *Sundog: The Southeast Review*, are published in the department. Many students gain journalistic experience by writing for the independent campus newspaper, the *FView & Florida Flambeau*. The writing program sponsors a year-long visiting writers series which brings twelve to fourteen writers to campus each year. The English department, in conjunction with the campus-wide Seven Days of Opening Nights program, also promotes headline writers, such as John Updike. In addition to writers series, the creative writing program has developed a visiting editors and agents series which brings editors and agents to the campus for presentations and individual consultations with Florida State University students. The department maintains a growing videotape collection to supplement classroom instruction, and two computer classrooms house computer-assisted writing instruction. All majors with a GPA above 3.0 are eligible to apply for membership in Lambda Iota Tau, the local chapter of a national literary honor society, which sponsors a variety of social events and career programs.

The department annually recognizes outstanding achievement with the following awards and honors: the Fred L. Standley Award for Undergraduate Excellence in English, the George Harper Award for Outstanding Essay Writing, an Outstanding Undergraduate Creative Writing Award, the Cody Harris Allen Undergraduate Writing Award, the John McKay Shaw Academy of American Poets Undergraduate Award, and the George Yost Essay Award, and the Mart P. and Louis Hill English Honors Thesis Award.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a com-

munity college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. ENC 1101 and ENC 1102; or six (6) semester hours of courses taught in the English Department **each** with 6,000 words of evaluated writing for a **total** of 12,000 words.

Requirements

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*.

Prerequisites For the Major

In order to satisfy prerequisites for the English major, students must accomplish the following:

1. Completion of at least fifty-two (52) semester hours of acceptable college credit with an overall GPA of at least 2.0;
2. Satisfactory completion ("C-" or better) of all courses necessary for the Gordon rule (FAC Rule 6A-10.030).

For Upper-Division Courses in the Major (Non-Liberal Studies)

Satisfactory completion (pass) of at least two semesters of college-level classical or modern foreign language courses or the equivalent (native speakers of a foreign language excepted).

Only majors who have satisfied these prerequisites will be permitted to register for upper-division nonliberal studies English courses.

Requirements for a Major in English

General Requirements: Thirty-three (33) semester hours of English in courses numbered above 1999. At least twenty-one (21) semester hours must be in courses at the 3000 and 4000 levels, including at least nine (9) semester hours at the 4000 level. Honors thesis hours may be applied toward the bachelor of arts (BA) degree, but only three (3) semester hours will be accepted for major credit. Majors who complete teacher certification requirements may count three (3) semester hours of internship elective credit at the 3000 level. One English course used to satisfy the humanities requirement for liberal studies may be counted as part of the major. All courses counted toward the major must carry the grade of "C-" or better. A minor in another department is also required.

Each student will choose one of the following areas:

1. Concentration in Literature

a) Three (3) semester hours in ENG 3014 Critical Issues in Literary Studies (must be taken before student reaches ninety [90] semester hours).

b) **Literature Courses:** At least eighteen (18) semester hours of literature courses beyond the 2000 level. Specifically required are:

- i) Three (3) semester hours in United States literature at the 3000 or 4000 level;
- ii) Six (6) semester hours in British literature before 1800, including at least three (3) semester hours before 1660, at the 3000 or 4000 level;
- iii) Three (3) semester hours in British literature after 1800 at the 3000 or 4000 level;
- iv) Three (3) semester hours in ENG 4934 **Senior Seminar in English** (must be taken after student reaches ninety [90] semester hours); and
- v) Three (3) semester hours in other literature courses at the 3000 or 4000 level.
- vi) Three (3) semester hours in ENG 3014 Critical Issues in Literary Studies.

c) **Electives:** Twelve (12) semester hours in other English courses.

2. Concentration in Writing

a) **Writing Courses:** Fifteen (15) semester hours in at least two of the following categories, of which at least nine (9) semester hours shall be in workshop courses listed below in bold type. Workshop courses with the "r" designation are repeatable with the instructor's permission. **Note:** only three (3) semester hours of ENC 3310r Article and Essay Workshop may count toward the nine (9) semester hours in workshop courses.

- i) Article and Essay: **ENC 3310r**, **ENC 4311r**; ENG 4020; ENC 4212, ENC 4500, ENC 4942r.
- ii) Fiction: CRW 3110, **CRW 4120r**.
- iii) Poetry: CRW 3311, **CRW 4320r**.
- iv) Drama: CRW 3410, **CRW 4420r**.

b) **Literature Courses:** Fifteen (15) semester hours of literature, of which at least three (3) semester hours shall be in English literature before 1900.

c) **Electives:** Three (3) semester hours in other English courses.

3. Concentration in English Studies

Students desiring to structure their own concentrations may propose a coherent program emphasizing, for example, a period, a genre, a theme, theory and criticism, or a combination of areas such as popular culture and film. The proposal, formulated in close consultation with

and approved by the student's adviser, should include a total of at least twenty-four (24) semester hours at the 3000 and 4000 levels (nine [9] of these twenty-four [24] semester hours must be at the 4000 level in English and nine [9] may be in relevant courses outside the department). The proposal must be submitted to the faculty undergraduate committee for approval before midterm in the last semester of the students junior year. To be eligible for the concentration in English studies, students must have at least a 3.0 cumulative GPA.

Exit Surveys/Interviews

To be eligible for graduation, each student must complete an exit interview or survey.

Honors in the Major

The Department of English offers honors in the major to encourage talented students to undertake independent research. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Requirements for a Minor in English

Minor: at least twelve (12) semester hours in English courses numbered above 1999. Students must have at least a "C–" average in the minor.

English Major with an Emphasis in Business

This program is designed for those students who are interested in a liberal education that will at the same time give them maximum preparation for a business career. The curriculum combines extensive training in the broad field of the liberal arts with specialized training in the field of business. At the end of four years the student graduates with a bachelor of arts degree with a major in English and an emphasis in business. Students pursuing this program will meet the requirements of the English major and take a specified number of hours in business, normally thirty (30) semester hours. For a list of the business courses required and other information concerning the program, the student should contact the director of undergraduate English studies. This program, emphasis in business, is in contrast to the eighteen (18) semester hours which constitute a minor in business for arts and sciences majors.

Undergraduate Courses

ENC 1101. Freshman Composition and Rhetoric (3). Drafting and writing of expository essays and a journal for a total of 7,000 words. May not be taken by students with credit in ENC 1149. No auditors.

ENC 1102. Freshman Writing About Literature (3). Prerequisite: ENC 1101 or 1149. Drafting and writing of essays and a journal for a total of 7,000 words on topics drawn from selected short stories, drama, and poetry. Not a literature class. No auditors.

ENC 1121. Freshman Composition and Rhetoric: Honors (3). This accelerated course is designed for honors students. Therefore, their level of performance will be expected to exceed the level attained by students in ENC 1101. Enrollment through the honors program.

ENC 1122. Freshman Writing About Literature: Honors (3). As a literature-based composition course, essay topics will be drawn from selected short stories, drama, and poetry. This accelerated course is designed for honors students; thus, their level of performance will be expected to exceed the level attained by students in ENC 1102. Enrollment through the honors program.

ENC 1142. Freshman Imaginative Writing Workshop (3). Prerequisite: ENC 1101 or 1149. Freshman-level creative writing with some critical analysis of literature; emphasizes workshop atmosphere with class participation. Workshops offered in both poetry and fiction. Written work will total 7,000 words. Should not be taken by students with final grades below C in ENC 1101. No auditors.

ENC 1144. Freshman Article and Essay Workshop (3). Prerequisite: ENC 1101 or 1149. Designed to help students attain a level of competency in nonfiction prose beyond that attained in ENC 1101. Emphasizes workshop atmosphere with class participation. Written work will total 7,000 words. No auditors.

ENC 1145. Freshman Special Topics in Composition (3). Prerequisite: ENC 1101 or 1149. Freshman-level nonfiction prose writing on selected subjects for a total of 7,000 words. Topics vary. No auditors.

ENC 1149. Basic English Skills (6). Credit by CLEP examination only.

ENC 1905r. Improving College-Level Writing (1–3). (S/U grade only.) Individualized program of instruction in writing, including CLAST skills. Open to students from all levels and major areas. May be repeated for a maximum of three (3) semester hours.

REA 1905r. Improving College-Level Reading (1–3). (S/U grade only.) Individualized program of instruction in critical and comprehensive reading, including CLAST skills. Open to students from all levels and major areas. May be repeated for a maximum of three (3) semester hours.

AML 2011. American Authors to 1875 (3). Important writings by representative American authors from the colonial period through the post Civil War era. Typically included are Franklin, Irving, Emerson, Thoreau, Poe, Hawthorne, Melville, Whitman, Douglass, and Emily Dickinson.

AML 2600. The African-American Literary Tradition (3). A survey of the canonical works of African Americans, typically including Douglass, Chesnutt, Hurston, Wright, Ellison, Baldwin, Morrison, and Walker.

ENC 2305r. Topics in Composition (3). Prerequisites: ENC 1101, 1102. Study and practice in various topics in expository writing. Instruction focuses on the conventions and purposes of particular kinds of writing or on certain aspects of composition. May be repeated to a maximum of six (6) semester hours.

ENL 2012. British Authors: Beginnings to 1790 (3). Survey of English masterworks intended for students in Liberal Studies and those exploring a literature major. Among the authors typically considered are Chaucer, Shakespeare, and Milton.

ENL 2022. British Authors: Early Romantics to the Present (3). Survey of English masterworks intended for students in liberal studies and those exploring a literature major. Among the authors typically considered are Wordsworth, Dickens, and Conrad.

LIT 2020. Introduction to the Short Story (3). Tone, narration, form, and theme in representative short stories.

LIT 2081. Contemporary Literature (3). Poetry, fiction, drama from WWI to the present. For beginning students.

LIT 2189. Postcolonial Literature in English (3). Introduction to English-language literature from third world countries that were former British colonies in Africa, Asia, and the Caribbean.

AML 3024. American Authors Since 1875 (3). Significant works by representative Realists, Literary Naturalists, Modernists, and contemporary writers. Authors typically covered include Twain, James, Crane, Chopin, Eliot, Hemingway, Frost, Fitzgerald, Faulkner, Wright, Baldwin, Morrison, and O'Connor.

AML 3311. Major Figures in American Literature (3). Examination of selected works of major American writers.

AML 3630. Latino/a Literature in English (3). Introduction to landmark Latino/a works written in English.

AML 3682. American Multi-Ethnic Literature (3). Introduction to cross-cultural literary traditions, looking at historical rationales and interconnections among communities as well as vital differences.

CRW 3110. Fiction Technique (3). Analysis of and exercises in the elements of fiction: point of view, conflict, characterization, tone, and image.

CRW 3311. Poetic Technique (3). For aspiring poets and critics. Study of the elements of poetry, some practice in writing poetry.

CRW 3410. Dramatic Technique (3). An introduction to playwriting, with emphasis on the relation of the written drama to production. Both published plays and student work will be analyzed.

ENC 3310r. Article and Essay Workshop (3). Writing of nonfiction prose. Papers totaling 8,000 words. Five private conferences. For students above the freshman level. May be repeated to a maximum of six (6) semester hours. This course will satisfy up to 7,000 words of writing requirements for FAC 6A-10.030.

ENG 3014. Critical Issues in Literary Studies (3). Introduction to the issues and debates that inform contemporary literary studies. Required of all literature track majors.

ENG 3060. The History of Standard English (3). A survey of the evolution of English sounds, inflections, syntax, vocabulary, and orthography from Anglo-Saxon times to the present.

ENG 3110. Film Genres (3). Film as a means of exploring the problems of genre studies: relationship to literary genres, historical continuity, transformation of genre in the film medium.

ENG 3115. Film Theory and Criticism (3). Close reading of forms of film criticism: history, theory, genre studies, and reviews. Typically Eisenstein, Metz, Bazin, Mulvey, Gunning, and Hansen. Some films will be viewed.

ENG 3931r. Topics in English (13). May be repeated to a maximum of twenty-four (24) semester hours.

ENL 3210. Medieval Literature in Translation (3). Literature of the Anglo-Saxon and Anglo-Norman periods: Beowulf, Romance of the Rose, Sir Gawain and the Green Knight, and others.

ENL 3334. Introduction to Shakespeare (3). An introduction to the study of Shakespeare at the college level. Consideration of representative genres comedy, history, tragedy, tragi-comedy drawn from throughout the playwrights career.

LIN 3010. Introduction to Language Study (3). The relationship between meaning, form, and sound in language, including language acquisition, dialects, and grammar.

LIT 3043. Modern Drama (3). From O'Neill, Pirandello, Miller, and Theatre of the Absurd to the present.

LIT 3383. Women in Literature (3). An examination of the representation of women in literature.

AML 4111. The 19th-Century American Novel (3). From Brown and Cooper to Hawthorne, Melville, Twain, and Crane.

AML 4121. The 20th-Century American Novel (3). Typically Dreiser, Dos Passos, Fitzgerald, Hemingway, Faulkner, Bellow, and Wright.

AML 4261. Literature of the South (3). Survey from Colonial times to the present, including Byrd, Poe, Simms, Cable, Faulkner, Warren, O'Connor, and others.

AML 4604. The African American Literary Tradition (3). An examination of selected works by major African American writers.

AML 4680r. Studies in Ethnic Literature (3). Advanced study offering a survey of a particular ethnic literary tradition and adopting a cultural studies model. May be repeated up to a maximum of twenty-four (24) semester hours.

CRW 4120r. Fiction Workshop (3). Prerequisite: Permission of instructor. Practice in short story, novella, or novel. Students will be expected to work toward submission and publication of manuscripts. May be repeated for a total of twenty-four (24) hours credit.

CRW 4320r. Poetry Workshop (3). Prerequisite: Permission of instructor. For poets who approach excellence and aspire toward publication. May be repeated for a total of twenty-four (24) hours credit.

CRW 4420r. Drama Workshop (3). Prerequisite: Permission of instructor. Students will write, revise, and prepare for submission a one to three-act play; playing time: not less than one hour. May be repeated to a maximum of twenty-four (24) semester hours.

ENC 4212. Editing: Manuscripts, Documents, Reports (3). Actual editing of another's work, synthesizing another's ideas and data, structuring and clarifying.

ENC 4311r. Advanced Article and Essay Workshop (3). Prerequisite: Permission of instructor. Writer-editor relationship between student and instructor. For writers who aspire toward publication. May be repeated to a maximum of twenty-four (24) semester hours.

ENC 4500. Theories of Composition (3). Prerequisites: ENC 3310r, permission of instructor. An examination of topics in the teaching of composition, including theories of the composing process, invention, revision, assigning, and evaluating student writing, and the relationship between writing and reading.

ENC 4942r. Internship in Editing (0-3). (S/U grade only.) Practical experience in editing, public relations, and other forms of written communications. ENC 4212 recommended as a prerequisite. May be repeated to a maximum of three (3) semester hours.

ENG 4013. Literary Criticism (3). An historical overview of critical texts that consider the nature of literature from antiquity to the early 20th century. Typically includes readings from Plato, Aristotle, Wroth, Dryden, Wollstonecraft, Wordsworth, Coleridge, Arnold, Eliot, Woolf.

ENG 4020. Rhetorical Theory and Practice (3). Prerequisites: ENC 3310r, permission of instructor. Emphasis on contemporary developments in rhetoric and their applicability to writing. For upper-division students who intend to teach English composition.

ENG 4043. Contemporary Critical Theory (3). Prerequisite: Permission of instructor. Advanced study of crosscurrents in later 20th-century critical theory.

ENG 4905r. Directed Individual Study (1-3). Topic to be approved by the director of undergraduate English studies. May be repeated to a maximum of twenty-four (24) semester hours.

ENG 4932r. Studies in English (1-3). Topics vary. For senior majors and qualified students. May be repeated to a maximum of twenty-four (24) semester hours.

ENG 4934. Senior Seminar in Literature (3). Prerequisites: Ninety (90) semester hours of college work. Topics vary. Includes an evaluation of oral communication. Required for senior English majors concentrating in literature. Does not count toward the major for concentration in writing.

ENG 4936r. Honors Thesis (3). Prerequisite: Permission required. For English honors students only. The honors student takes two semesters of thesis work. May be repeated to a maximum of six (6) semester hours.

ENG 4938. Advanced Seminar in English (3). For English Honors students only. The honors student takes two seminars. Permission required. May be repeated to a maximum of six (6) semester hours.

ENL 4112. The 18th-Century British Novel (3). Typically includes Defoe, Richardson, Fielding, Sterne, Burney, and Radcliffe.

ENL 4122. The 19th-Century British Novel (3). Typically includes Scott, Thackeray, Dickens, Trollope, Eliot, and Hardy.

ENL 4132. The Modern British Novel (3). Typically includes Conrad, Lawrence, Joyce, Woolf, Greene, Spark, and Lessing.

ENL 4161. Renaissance Drama (3). English drama by Shakespeares contemporaries and successors from Marlowe until the closing of the theatres in 1642.

ENL 4171. Restoration and 18th-Century Drama (3). Representative plays of the period 1660-1800. May include plays by Dryden, Etherege, Wycherley, Otway, Congreve, Farquhar, Steele, Rowe, Gay, Fielding, Goldsmith, and Sheridan.

ENL 4218. Middle English Romance (3). An introduction to the Medieval English romance tradition from its beginning with Geoffrey of Monmouth to Malory's *Morte d'Arthur*.

ENL 4220. Renaissance Poetry and Prose (3). Lyric poetry and prose from Wyatt and Spenser to Shakespeare and the metaphysicals: Donne, Herbert, Marvell, and Vaughan.

ENL 4230. Restoration and 18th-Century British Literature (3). Studies in British poetry and prose from 1660 to 1800.

ENL 4240. British Romantic Literature (3). Studies in poetry and prose from 1785 to 1832.

ENL 4251. Victorian British Literature (3). Studies in poetry and prose from 1830 to 1900.

ENL 4273. Modern British Literature (3). British poetry, fiction, and essays since 1900. Typically includes Hardy, Conrad, Joyce, Yeats, Lawrence, Woolf, Auden, and Lessing.

ENL 4311. Chaucer (3). The High Middle Ages in England seen through the perspective of the *Canterbury Tales* read in Middle English.

ENL 4333. Shakespeare (3). Study of representative Shakespearean dramas and their relationship to the Renaissance. Typically may include attention to relevant contemporary intellectual, historical, and political movements.

ENL 4341. Milton (3). Milton's life and works; emphasis on *Lycidas*, *Paradise Lost*, *Paradise Regained*, *Samson Agonistes*, and Milton's important libertarian prose.

ENS 4405r. Spoken English for International Teaching Assistants (1-3). (S/U grade only.) Practice and training in speaking current American English appropriate for university classrooms, development of cultural and interpersonal language skills necessary for performing duties as a teaching assistant. May be repeated to a maximum of twelve (12) semester hours.

ENS 4406r. Advanced Spoken English for International Teaching Assistants (1-2). (S/U grade only.) Development of speaking and language skills necessary for instruction in a university classroom. Emphasizes content-specific varieties of American English; practice in conversational management required for instruction. May be repeated to a maximum of eight (8) semester hours.

ENS 4407. American Pronunciation for International Teaching Assistants (1-3). (S/U grade only.) Systematic coverage of the sounds of modern American English. Emphasis is on the role of prosodic features in comprehensibility, development of critical listening, activities for developing self-monitoring competencies.

ENS 4905r. Directed Individual Study (1-3). (S/U grade only.) Typically emphasizes classroom observation, self-monitoring techniques, and specialized training. May be repeated to a maximum of twelve (12) semester hours.

LIT 4033. Modern Poetry (3). Introductory analysis of techniques and meanings. Typically includes Whitman, Dickinson, Yeats, Frost, Stevens, Eliot, Auden, Thomas, and Plath.

LIT 4044r. Readings in Dramatic Literature (3-6). Specific topics in the study of British, American, or Continental drama. May be repeated to a maximum of six (6) hours credit.

LIT 4093. Currents in Contemporary Literature (3). Diverse, resurgent, and oppositional trends in literature since 1945; Mailer, Brautigan, Bellow, and others.

LIT 4134. The European Novel Through WWI (3). Includes Balzac, Flaubert, Dostoevsky, Tolstoy, and others. In translation.

LIT 4144. The Modern European Novel (3). Typically Grass, Robbe-Grillet, Kafka, Solzhenitsyn, Calvino, Duras, Ginzburg, and Kundera in translation.

LIT 4184. Irish Literature (3). Synge, Yeats, Shaw, O'Casey, Joyce, Beckett, and others.

LIT 4304. The Literary Expression of American Popular Culture (3). An introductory course treating the wide variety of literary manifestations of American popular culture as reflections and symptoms of the concerns of modern American society.

LIT 4322. Folklore (3). Introduction to myth, legend, tale, song, ballad, beliefs, and customs.

LIT 4329. African American Folklore (3). This course provides an overview of the major forms of cultural expression developed by African Americans. The focus will be on African American folklore as a living tradition to be understood and interpreted.

LIT 4385. Major Women Writers (3). An examination of selected works by significant women writers.

Graduate Courses

AML 5017r. Studies in U.S. Literature to 1875 (3).

AML 5027r. Studies in U.S. Literature Since 1875 (3).

Major in ENTREPRENEURSHIP AND SMALL BUSINESS MANAGEMENT

COLLEGE OF BUSINESS

Director and Jim Moran Professor of Entrepreneurship: Jerome S. Osteryoung; *Professors:* Coats, Corbett, Giunipero, Hillison, Kacmar, Maroney, Martinko, Osteryoung, Perrewé; *Associate Professors:* Flynn, Matherly; *Lecturer:* Denslow

The undergraduate major in entrepreneurship and small business management (ESBM) is designed for those who want to learn more about entrepreneurial and small business fundamentals and concepts. Students admitted into this major will participate in courses and seminars staffed by faculty members, as well as entrepreneurs and small business owners/managers. Students will have opportunities to learn firsthand what is needed to start a new business venture, as well as run an existing business.

The purpose of the ESBM major is to give students the knowledge, skills, and confidence to start or run their own business.

Students who successfully complete the ESBM major will receive a bachelor of science (BS) degree in business administration. They may also major in any of the functional academic areas in the College of Business.

Students seeking the ESBM major first must be admitted to the College of Business. The final decision regarding admission to the ESBM ma-

major will be based on a student's written application and an interview with the ESBM curriculum director. Student applications must be completed by October 15 of each academic year. Information regarding admissions can be obtained from the College of Business undergraduate programs office (*RBB 328*).

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. Specific prerequisites are required for admission into the upper-division program and **must** be completed by the student at either a community college or a state university prior to being admitted to this program. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.**

The following lists the common prerequisites or their substitutions necessary for admission into this upper-division degree program:

1. ACG X021 or ACG X001 and ACG X011;
2. ACG X071;
3. CGS X100*;
4. ECO X013;
5. ECO X023;
6. MAC X233 or MAC X230;
7. STA X023 or QMB X100 (students at Florida State University may substitute STA X014).

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Requirements for a Major in Entrepreneurship and Small Business Management

All students must complete 1) the University-wide baccalaureate degree requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*; 2) the State of Florida common prerequisites for entrepreneurship and small business management majors; 3) the general business core requirements for entrepreneurship and small business management majors; 4) the general business breadth requirements for entrepreneurship and small business management majors; and 5) the major area requirements for entrepreneurship and small business management majors. **Note:** to be eligible to pursue an entrepreneurship and small business management major, students must meet the admission requirements of the College of Business. These admission requirements are described in the "College of Business" section of this *General Bulletin*.

General Business Core Requirements

All entrepreneurship and small business management majors must complete the following five (5) courses. A grade of "C–" or better must be earned in each course.

BUL	3310	The Legal Environment of Business (3).
FIN	3403	Financial Management of the Firm (3).
GEB	3213	Business Communication (3).

MAN 3240	Organizational Behavior (3).
MAR 3023	Basic Marketing Concepts (3).

General Business Breadth Requirements

All entrepreneurship and small business management majors must complete five (5) courses as follows. Each course selected must be completed with a grade of "C–" or better. No course may be used to satisfy part of the general business breadth requirements and part of the major area requirements.

ISM 3011	Introduction to Management Information Systems (3).
QMB 3200	Quantitative Methods for Business Decisions (3).

Plus three (3) electives from the following list of courses:

FIN 3244	Financial Markets, Institutions, and International Finance Systems (3).
HFT 3240	Managing Service Organizations (3).
MAN 3504	Services Operations Management (3).
MAN 3600	Multinational Business Operations (3).
MAN 4720	Strategic Management and Business Policy (3).
MAR 3700	Professional Selling (3).
REE 3043	Real Estate (3).
RMI 3011	Risk Management and Insurance (3).

Major Area Requirements

All entrepreneurship and small business management majors must complete eight (8) courses as listed below. A grade of "C–" or better must be earned in each course used to satisfy the entrepreneurship and small business management major area requirements. No course may be used to satisfy part of the major area requirements and part of the general business breadth requirements.

GEB 3130	Introduction to Entrepreneurship and Small Business Management (3).
GEB 4113	Managing the Small to Mid-Sized Company (3).
GEB 4122	Seminar in Small Business Analysis and Assistance (3).
GEB 4131	Entrepreneurial Seminar (3).

Plus four (4) electives from the following list of courses:

ACG 3171	Analysis of Financial Statement Presentation (3).
ACG 3331	Cost Accounting and Analysis for Business Decisions (3).
FIN 4424	Problems in Financial Management (3).
HFT 3000	Introduction to Hospitality and Tourism Management (3).
MAN 3504	Services Operations Management (3).
MAN 4301	Human Resource Management (3).
MAR 3323	Promotional Management (3).
MAR 3461	Principles of Purchasing (3).
MAR 4403	Sales Management (3).
REE 3043	Real Estate (3).

Definition of Prefix

GEB — General Business

Undergraduate Courses

Note: The following listed courses are restricted to ESBM majors only.

GEB 3130. Introduction to Entrepreneurship and Small Business Management (3). Prerequisites: MAN 3240; BUL 3310; MAR 3023; admission to the ESBM major. Exposes students to the knowledge and skills required to be a successful entrepreneur. Topics include: challenges of entrepreneurship, start-up, buy-out and franchising opportunities, marketing and financial concerns, and management issues. Students will have the opportunity to interact with local entrepreneurs and to complete a feasibility study for their future business.

GEB 4113. Managing the Small to Mid-Sized Company (3). Prerequisite: GEB 3130. This course addresses the management of rapidly growing entrepreneurial firms. Topics will include building an infrastructure, planning stage financing, managing under adversity and managing a business with rapid growth.

GEB 4122. Seminar in Small Business Analysis and Assistance (3). Prerequisite: Permission of the instructor. Selected seminars complemented by a 10-week, two-person student consulting team working with a local area entrepreneurial client. Closely supervised consultation with a comprehensive consulting report provided for each client.

GEB 4131. Entrepreneurial Seminar (3). Prerequisite: GEB 3130, 4113. Focus on the financial strategies for survival and expansion of existing entrepreneurial businesses, as well as for developing new business ventures. Students work on a comprehensive business plan.

Department of FAMILY AND CHILD SCIENCES

COLLEGE OF HUMAN SCIENCES

Chair: Jay D. Schvaneveldt; *Professors:* Darling, Hicks, Krantz, R. Mullis, Ralston; *Associate Professors:* Cornille, Greenwood, Hill, A. Mullis, Readdick, Rehm, Walters; *Assistant Professor:* Allison; *Associate in Family and Child Science;* Mills; *Professors Emeriti:* Dales, Hansen-Gandy, Hendrickson, Pestle, Rapp, Ridley-Bell, Zongker

The Department of Family and Child Sciences offers undergraduate degrees in two programs: family and child sciences, and family and consumer sciences education.

The **family and child sciences program** focuses on family relations, marital interaction, parent-child interaction, and the growth and development of children within a life course perspective and from an applied developmental scientific base. The program provides students with an introduction to working in applied settings, including hospitals, human service agencies, education, and child care settings. Internships and practica are made available to majors as part of their learning experience.

The major in family and child sciences includes human sciences general core courses, developmental courses in the major or minor, and an approved area of concentration in an allied field. Internships in applied settings are recommended. The family and child sciences major requires four courses as prerequisites. They include general psychology and general biology or their equivalents. In addition, students must achieve at least a "B–" in FAD 2230 and CHD 3220. Individuals who apply for the major but who have not met prerequisite requirements will be classified as Prerequisite Incomplete (P. I.).

The **family and consumer sciences education program** (previously home economics education) is a broad-based program preparing gradu-

ates to teach family and consumer sciences in middle and secondary schools, to work with the Cooperative Extension Service and to assume a variety of educator positions in business, industry and government. Students gain a background in all subject matter areas of human sciences and an understanding of the teaching-learning process. Graduates learn to appreciate the unique needs of the physically and mentally challenged, the economically disadvantaged, elderly populations, and other special-need groups.

The major in family and consumer sciences education includes the specific liberal studies courses, AMH 1000; APB 1150; CHM 1020; ECO 2000; POS 1041; PSY 2012; CGS 2060 and the following courses in the College of Human Sciences: CTE 1401, 1310, 3201; HUN 1201, 4412; FOS 3022, 3022L; HHD 3130; CHD 3220, 3240; FAD 2230; HME 4221; COA 4131 or 3151; HOE 3050; HEE 3103, 4150, 4171, 4300, 4343, 4941.

Curriculum guides stating specific degree requirements for the two undergraduate majors are available through the Department of Family and Child Sciences.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for these University degree programs. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for these degree programs:

Family and Child Sciences

1. One course (three [3] semester hours) with the APB prefix;
2. One course (three [3] semester hours) with the PSY prefix;
3. CHD X220;
4. FAD X230;
5. HUN X201.

Human Sciences, General

1. CHM X020;
2. CTE X310;
3. CTE X401;
4. ECO X013;
5. FAD X230;

6. HUN X125;
7. HUN X201.

Family and Consumer Sciences Teacher Education (Vocational)

1. EDF X005;
2. EDG 2701;
3. EME 2040;
4. Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:

a) A minimum of nine (9) semester hours in English, including writing, literature, and speech;

b) A minimum of nine (9) semester hours in mathematics, (MGF, MGT, MAC and STA prefixes only) excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;

c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;

d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;

e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history;

5. **One** course from each of the following areas for a total of fifteen (15) semester hours: biology; chemistry; economics; psychology; political science.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Note: courses in category #5 above may be applied to the corresponding requirements in liberal arts and sciences noted above.

Special Criteria for Teacher Education Program

Please refer to the "College of Education" section of this *General Bulletin* for undergraduate criteria for the teacher education program.

Criteria for Admission to Associate Teaching

Please refer to the "College of Education" entry for admission to associate teaching.

In addition, the following departmental requirements must be met for admission to associate teaching:

1. Completion of specified courses in the area of teaching field specialization;
2. An overall grade point average (GPA) of 2.5 or above in all course work completed in the teaching field specialization;
3. An overall GPA of 2.5 or above in all professional education course work completed;
4. An overall GPA of 2.0 or above in all liberal studies or general education course work.

Certifications

The major in family and child sciences with certification in early childhood or elementary education includes human sciences core courses, five courses in the major, and all courses required by the College of Education for teacher certification in Florida. Students must meet current minimum standards for grade point average, SAT/ACT scores, and tests of proficiency for admission to the major with certification.

The family and consumer sciences education major includes the requirements for teacher certification as established by the Florida Department of Education and qualifies graduates to teach both the consumer-homemaking and occupational aspects of family and consumer sciences in middle/junior high schools, high schools, and adult programs. The curriculum is approved by the State Board of Vocational Education.

Honors in the Major

The Department of Family and Child Sciences offers a program in honors in the major to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

HEE 4912r. Honors Work (3). Open to upper-division majors with an overall grade point average of 3.2 and consent of instructor. May be repeated to a maximum of six (6) semester hours.

HOE 4972r. Honors Work (3). Prerequisites: Upper-division majors with an overall grade point average of 3.5 and consent of instructor. Course provides upper-

division students in Family and Child Sciences with an opportunity to undertake an independent and original research project in their particular area of interest. May be repeated to a maximum of six (6) semester hours.

Minors

The department offers a minor in family and child sciences which requires a student to complete twelve (12) semester hours from the following list with a grade of "C" or better:

FAD 2230	Family Development (3)
CHD 3220	Child Development (3)
CHD 3472	Child Guidance (3)
FAD 3220	Life Span Development (3)

Definition of Prefixes

CHD	—	Child Development
FAD	—	Family Development
HEE	—	Home Economics Education
HOE	—	Home Economics: General

Undergraduate Courses

Family and Child Sciences

CHD 3220. Child Growth and Development: The Foundation Years (3). The study of the children from birth through middle childhood.

CHD 3240. Adolescent Growth and Development (3). The study of children from ten (10) years of age to young adulthood.

CHD 3472. Child Guidance (3). Prerequisites: CHD 3220; FAD 2230, 3220, 4936r. Students will learn principles of positive guidance to apply in guiding children during early childhood, middle childhood, and adolescence in a variety of natural contexts, including home and school.

CHD 3921. Tutorial in Applied Developmental Science (1). This course has been designed for in-depth study in child development or family relations. Topics may focus on human development, contexts for development, or application.

CHD 4225. Contexts for Early Childhood Development (3). Prerequisites: CHD 3220; FAD 2230, 3220, 4936 and twelve (12) semester hours in the major. Corequisite: FAD 4805. Students will learn to create contexts relationships, activities, and environments for the enhancement of the physical, social, emotional, and cognitive development of young children from birth to five years of age in homes and other institutions.

CHD 4250. Contexts for Middle Childhood/Adolescent Development (3). Prerequisites: CHD 3220; FAD 2230, 3220, 4936r and twelve (12) semester hours in the major. Corequisite: FAD 4805. This course has been designed to examine developmental processes of school-age children and adolescents. This course is a prerequisite course for practica experiences with these age groups. Consequently, strategies for working with school-age children and adolescents also will be addressed.

CHD 4441. Practicum in Preschool Development (3). Prerequisite: Senior standing. Normal growth and development from three to five years with emphasis on developmentally appropriate guidance, activities, and environments for preschoolers.

CHD 4451. Practicum in School Age Development (3). Prerequisite: Senior standing. Normal growth and development from five to eleven years with emphasis on developmentally appropriate guidance, activities, and environments for school age children.

CHD 4461. Practicum in Infant Development (3). Prerequisite: Senior standing. Normal growth and development from birth to three years with emphasis on developmentally appropriate guidance, activities, and environments for infants and toddlers.

CHD 4530. Parent Education and Professional Relations (3). Prerequisites: FAD 3220; FAD 2230; or permission of instructor. Special information, techniques, and resources are provided to facilitate home, school, and community relations. Professional interactions with parents, supervisors, and various social agencies are examined.

CHD 4615. Public Policy: Child and Family Issues (3). Prerequisites: FAD 3220; FAD 2230, 3220, 4936; plus twelve(12) semester hours in the major. Through readings, lecture, discussion, guest speakers, field work, research and writing, students will become familiar with the process of formulating, implementing, and evaluating public policy. Family and child issues that have resulted in policy decisions at every level will be identified and current issues that are in need of attention by policy makers will be explored. Research related to family issues and its impact on family policy will be analyzed with emphasis on enhancing the role of family and child professionals in policy process.

CHD 4630. Studying Children: Techniques and Issues (3). Prerequisite: FAD3220 or permission of the instructor. A survey of methods of child study and research.

CHD 4905r. Directed Individual Study in Child Development (1–3). May be repeated to a maximum of nine (9) semester hours.

CHD 4935r. Special Topics in Child Development: Topics Vary (3–9). Prerequisites: FAD 3220; background knowledge in child development; permission of instructor. Each topic may be taken only once. May be repeated to a maximum of nine (9) semester hours but credit is allowed only once in age level.

CHD 4944r. Internship Child Development (1–12). (S/U grade only.) Prerequisites: Senior standing and permission of instructor. Supervised practical field experiences in various professional settings related to child development, including hospitals, extension service, education faculties, government agencies. Child development majors only. May be repeated to a maximum of twelve (12) semester hours.

FAD 2230. Family Relationships: A Life Span Development Approach (3). A study of families and interpersonal relationships in a changing society. Emphasis is on a life cycle approach to understanding the dynamics of family relationships.

FAD 3220. Individual and Family Life Span Development (3). Analysis of individual and family development as it applies to professional application in human services.

FAD 3271. Ecological Contexts for Individual and Family Development (3). Prerequisites: FAD 2230, 3220. An introduction to the overarching theoretical frameworks, providing a basis for understanding individual and family development. This course serves as a foundation for all major courses.

FAD 3432. Stress and Resilience in Individuals and Families (3). Prerequisites: CHD 3220; FAD 2230, 3220, 4936; and twelve (12) semester hours of credit in major. This course provides undergraduate majors with an introduction to family-based, stress-focused mini-theories. The course will provide a framework for understanding the differences between family patterns when families are centered on growth related themes and when they are pre-occupied with a variety of stressor events.

FAD 4229. Contexts for Adult Development (3). Prerequisites: FAD 2230, 3220; plus twelve (12) semester hours in major. Corequisite: FAD 4805. This course is a prerequisite for practical experience with these age groups. Students will examine development in adults and learn strategies for enhancing the physical, social, emotional, and cognitive development of adults from an ecological perspective.

FAD 4265. Contexts for Family Development (3). Prerequisites: CHD 3220; FAD 2230, 3220, 3271. Corequisite: FAD 4805. This course is designed to provide students with an introduction to child and family services in an eco-systemic context. This course is a prerequisite for the practicum in family services. An emphasis is placed on articulation of an ethical and professional standard for students to use their working relationships with families.

FAD 4340. Later Maturity (3). Prerequisite: Background in child development or family life. Problems, potentials, and adjustments during the later years of life.

FAD 4601. Foundations of Counseling (3). Prerequisites: Senior standing, permission of instructor. Basic counseling skills for persons who, by nature of their work, are called upon to provide counseling. May be taken for graduate credit.

FAD 4805. Observation and Participation in Applied Developmental Science (3). Prerequisites: CHD 3220; FAD 2230, 3220, 4936r and twelve (12) semester hours in the major. Corequisites: FAD 4265, CHD 4295, CHD 4285 or CHD 4275. This course is designed to provide students with experience in a community setting serving children, families, and/or adults. These experiences will provide students with opportunities to relate class materials with the work environment of child and family services and to develop basic intervention skills.

FAD 4905r. Directed Individual Study (1–3). (S/U grade only.) May be repeated to a maximum of nine (9) semester hours.

FAD 4936r. Special Topics: Family or Housing (3–9). Each topic may be taken only once. Permission of the instructor required. May be repeated to a maximum of nine (9) semester hours.

Family and Consumer Sciences Education

HEE 3103. Philosophy and Methods of Teaching Home Economics (3). Coordination of goals, methods, and media and organization of instructional materials and resources. Developing a philosophy of home economics teaching. Observations-participation required.

HEE 4054. The Educative Process (3). Planned for human sciences majors who need preparation for teaching in special situations. Not open to family and consumer sciences education majors.

HEE 4150. Teaching-Learning Process in Home Economics Education (3). Prerequisite or Corequisite: HEE 3103. Educational and behavioral objectives, lesson plans, teaching techniques, motivation, and microteaching experiences. Observation-participation required.

HEE 4171. Teaching Independent Living Skills (3). Selected subject matter and teaching methods applicable to improving independent living for special needs populations throughout the life span. Clinical experience.

HEE 4300. Curriculum Development in Home Economics (3). Prerequisite: HEE 3103; Corequisite: HEE 4150. Scope, sequence, concepts, generalizations, learning experiences, evaluative processes, media, and resources related to curriculum development.

HEE 4343. Methods of Developing Functional Programs in Home Economics (3). Adaptation of curriculum and resource materials for teaching students with special needs and development of occupational home economics programs. Clinical experience.

HEE 4905r. Directed Individual Study (1–3). (S/U grade only.) May be repeated to a maximum of four (4) semester hours.

HEE 4941. Student Teaching (1–2). (S/U grade only.) Field experience in the teaching of vocational home economics.

Graduate Courses

Child Development Courses

- CHD 5266. Advanced Child Development (3).
 CHD 5906r. Directed Individual Study (1–3). (S/U grade only.)
 CHD 5912r. Supervised Research (1–3). (S/U grade only.)
 CHD 5940r. Practicum in Child Development: Varied Ages (infancy, preschool, school-age) (3–9).
 CHD 5942r. Supervised Teaching (1-3). (S/U grades only.)

 FAD 5481r. College Teaching in Family Sciences (2–3). (S/U grade only.)
 FAD 5666. Theories in Marital and Family Therapy (3).
 FAD 5900r. Readings in Family and Child Sciences (3).
 FAD 5906r. Directed Individual Study (1–3). (S/U grade only.)
 FAD 5912r. Supervised Research (1–3). (S/U grade only.)
 FAD 5934r. Seminar in Family and Child Sciences (3–9).

- FAD 5942r. Supervised Teaching (1–3). (S/U grade only.)
 FAD 5944r. Internship-Family/Child (1–12).
 FAD 5970. Special Project (3). (S/U grade only.)
 FAD 6260. Family Development and Interaction (3).
 FAD 6660. Professional Studies in Marital and Family Therapy (3).
 FAD 6661. Divorce and Post-Divorce Counseling (3).
 FAD 6662. Systems Evaluation: Assessment Intervention and Case Planning (3).
 FAD 6667. Sex Therapy (3).
 FAD 6917. Methods of Research (3).
 FAD 6930r. Special Topics: Marital and Family Therapy (Topics Vary) (3–9).
 FAD 6935r. Special Topics: Family and Child Development (Topics Vary) (3–9).
 FAD 6940r. Practicum in Marital and Family Therapy (1–5).

Family and Consumer Sciences Education Courses

- HEE 5160. Methods and Media in Home Economics Education (3).
 HEE 5340. Home Economics Program Development (3).
 HEE 5347r. International Home Economics (1–3).
 HEE 5450. Educational Measurements and Evaluation (3).
 HEE 5560. Supervision of Home Economics (3).

- HEE 5651. History and Philosophy of Home Economics (3).
 HEE 5900r. Readings in Home Economics Education (3–12).
 HEE 5905r. Directed Individual Study (1–3). (S/U grade only.)
 HEE 5911r. Supervised Research (1–4). (S/U grade only.)
 HEE 5915. Methods of Research (3).
 HEE 5935r. Special Topics in Home Economics Education (1–6). (S/U grade only.)
 HEE 5942r. Supervised Teaching (1–4). (S/U grade only.)
 HEE 6180. College Teaching of Home Economics (3).
 HEE 6936r. Home Economics Research Seminar (1–3).

The Department of Family and Child Sciences through the programs in family relations, child development, and family and consumer sciences education offers graduate programs leading to the master of science (MS) degree in the respective areas and the doctor of philosophy (PhD) degree in human sciences. For further information relating to graduate course work, and thesis, dissertation, and master's and doctoral examinations and defense, consult the *Graduate Bulletin*.

Department of FINANCE

COLLEGE OF BUSINESS

Chair: Donald A. Nast; *Professors:* Affleck-Graves, Ang, Brown, Celec, Clark, Coats, Humphrey, Nosari, Osteryoung, D. Peterson, P. Peterson, Turner; *Associate Professors:* Benesh, Christiansen, Nast, Scott; *Assistant Professors:* Cheng, Nelson; *Service Professor:* Brown; *Visiting Assistant Professor:* Inci; *Fannie Wilson Smith Eminent Scholar in Banking:* Humphrey; *Bank of America Eminent Scholar in Finance:* Ang; *Patty Hill Smith Eminent Scholar of Finance:* Affleck-Graves; *SunTrust/Tallahassee Professor of Finance:* Nast; *First Union Professor of Finance:* D. Peterson; *Jim Moran Professor of Entrepreneurship:* Osteryoung; *Charles A. Bruning Professor of Business Administration:* Nosari

Finance is considered one of the basic functions of our private enterprise system. Finance can be defined as the art and science of managing money. Each of the many firms, businesses, institutions, and governmental agencies in our economic system has the problems of obtaining, administering, and managing its funds efficiently

and wisely. Nearly every decision made by an organization has important financial implications. Thus, the finance student is introduced to and studies the theory, concepts, applications, institutional environment, and analytical tools essential for proper decision making. Finance is designed as preparation for a broad variety of careers since all organizations need individuals knowledgeable about finance. Careers may be in financial management and analysis, banking, financial institutions, financial markets, investments, portfolio analysis and management, financial planning, and multinational finance. Finance is also considered good preparation for graduate study in law or business.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. Specific prerequisites are required for admission into the upperdivision program and **must** be completed by the student at either a community college or a state university prior to being admitted to this program. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.**

The following lists the common prerequisites or their substitutions necessary for admission into this upperdivision degree program:

1. ACG X021 or ACG X001 and ACG X011;
2. ACG X071;
3. CGS X100*;
4. ECO X013;
5. ECO X023;
6. MAC X233 or MAC X230;
7. STA X023 or QMB X100 (students at Florida State University may substitute STA X014).

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Requirements

Program

Candidates for the bachelor of science (BS) or bachelor of arts (BA) degree with a major in finance must complete a minimum of one hundred twenty (120) semester hours. Normally, four semesters of work are devoted to

the Liberal Studies Program and additional foundation courses in mathematics, economics, and statistics. The finance major must complete the business common body of knowledge, which includes work in accounting, quantitative methods, management, business law, marketing, computer science, business communications, and basic finance. The finance major requirements consist of an additional eighteen (18) semester hours of work in advanced finance and accounting courses.

Requirements for a Major in Finance

All students must complete the following: (1) the University-wide baccalaureate degree requirements summarized in the "Undergraduate Degree Requirements" chapter of this *General Bulletin*; (2) the State of Florida common course prerequisites for finance majors; (3) the general business core requirements for finance majors; (4) the general business breadth requirements for finance majors; and (5) the major area requirements for finance majors. **Note:** to be eligible to pursue a finance major, students must meet the admission requirements of the College of Business. These admission requirements are described in the "College of Business" chapter of this *General Bulletin*.

General Business Core Requirements for Finance Majors:

All finance majors must complete the following five courses. A grade of "C–" or better must be earned in each course.

BUL 3310	The Legal Environment of Business (3).
FIN 3403	Financial Management of the Firm (3).
GEB 3213	Business Communications (3).
MAN 3240	Organizational Behavior (3).
MAR 3023	Basic Marketing Concepts (3).

General Business Breadth Requirements for Finance Majors:

All finance majors must complete five courses as follows. Each course selected must be completed with a grade of "C–" or better.

FIN 3244	Financial Markets, Institutions, and International Finance Systems (3).
QMB 3200	Quantitative Methods for Business Decisions (3).

Plus three (3) electives from the following list of courses:

HFT 3240	Managing Service Organizations (3).
ISM 3011	Introduction to Management Information Systems (3).
MAN 3504	Services Operations Management (3).

MAN 3600	Multinational Business Operations (3).
MAN 4720	Strategic Management and Business Policy (3).
MAR 3700	Professional Selling (3).
REE 3043	Real Estate (3).
RMI 3011	Risk Management/Insurance (3).

Major Area Requirements for Finance Majors:

All finance majors must complete six courses (eighteen [18] semester hours) as listed below. A grade of "C–" or better must be earned in FIN 4424, FIN 4504, and the two additional finance electives used to satisfy the finance major area requirements. A minimum grade point average (GPA) of 2.0 must be earned in the courses used to satisfy the finance major area requirements.

ACG 3171	Analysis of Financial Statement Presentation (3).
----------	---------------------------------------------------

Note: the two course sequence, ACG 3101 (Financial Accounting and Reporting I) and ACG 3111 (Financial Accounting and Reporting II), may be substituted for ACG 3171.

ACG 3331	Cost Accounting and Analysis for Business Decisions (3).
----------	----------------------------------------------------------

Note: the two course sequence, ACG 3341 (Cost Accounting I) and ACG 3351 (Cost Accounting II), may be substituted for ACG 3331.

FIN 4424	Problems in Financial Management (3).
FIN 4504	Investments (3).

Plus two (2) electives from the following list of courses:

FIN 4324	Commercial Bank Administration (3).
FIN 4329	Current Issues in Banking (3).
FIN 4412	Short-Term Financial Management (3).
FIN 4453	Financial Modeling and Forecasting (3).
FIN 4514	Security Analysis and Portfolio Management (3).
FIN 4604	Multinational Financial Management (3).
FIN 4934r	Senior Seminar in Finance (3).
REE 4204	Real Estate Finance (3).

Honors in the Major

The Department of Finance offers honors in the major to encourage talented students to undertake independent and original research as part of the undergraduate experience. For requirements and other information see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Definition of Prefixes

ECP	—	Economic Problems and Policy
FIN	—	Finance
GEB	—	General Business
MAN	—	Management
QMB	—	Quantitative Methods in Business

Undergraduate Courses

FIN 3140. Personal Finance (3). A study of the concepts and processes in planning, analyzing, and controlling personal financial resources. Emphasizes financial planning, cash and credit management, managing expenditures, income and asset protection, investment planning, and retirement and estate planning. For nonbusiness majors only. Credit not allowed for business majors.

FIN 3244. Financial Markets, Institutions, and International Finance Systems (3). Prerequisites: ACG 2021; ECO 2013. Study of the money and capital markets, financial institutions, financial systems, and financial environment including international finance. Emphasizes the microfinancial decision-making process of the business firm.

FIN 3403. Financial Management of the Firm (3). Prerequisites: ACG 2021; ECO 2023. Examination of the basic concepts involved in the investment, financing, and dividend decisions of the business firm. Managerial orientation with emphasis on identification, analysis, and solution of financial problems confronting the firm.

Business Majors Only

FIN 4324. Commercial Bank Administration (3). Prerequisites: FIN 3403, 3244. A study of the operations and administration of commercial banks and their role in the money and capital markets. Examines banking regulation, the lending function, investments, and the financial decision-making process.

FIN 4329. Current Issues in Banking (3). Prerequisites: FIN 3244, 3403. An examination of current and topical issues in banking that are important for policy formation and the future of the banking industry.

FIN 4412. Short-Term Financial Management (3). Prerequisites: FIN 3244, 3403. Course focuses on the decisions impacting the short-term cash flows of organizations—public, private, governmental, and non-profit. Topics include: cash management, treasury management, and working capital management.

FIN 4424. Problems in Financial Management (3). Prerequisites: FIN 3244, 3403. An advanced study of financial management that relates the underlying principles of finance to the decision-making perspective of the financial manager. Selected topics include cash budgeting, working capital management, capital budgeting, risk analysis, valuation, long- and short-term financing, dividend decision, and financial forecasting. Case analyses are included.

FIN 4453. Financial Modeling and Forecasting (3). Prerequisites: FIN 3403; QMB 3200. An introduction to financial modeling and forecasting. Emphasis is on computer models and forecasting financial variables.

FIN 4504. Investments (3). Prerequisites: FIN 3403, 3244; STA 3014. An introduction to investment/security analysis. Includes an examination of investment instruments, the investment environment, the concept of risk-return, and the interactive forces between the economy, industries, and individual firms.

FIN 4514. Security Analysis and Portfolio Management (3). Prerequisite: FIN 4504. An advanced and comprehensive coverage of investment topics including bond analysis, stock options, commodities, interest rate futures, options on futures contracts, portfolio analysis and management, and security market efficiency.

FIN 4604. Multinational Financial Management (3). Prerequisites: FIN 3403, 3244. Introduces the environment of international capital and foreign exchange markets and examines the effects of the international business environment on risk, capital budgeting, working capital management, and capital structure decisions of the firm.

FIN 4905r. Directed Individual Study (1-3). This course permits study or exploration into a specialized topic of finance that is not included in one of the other finance courses. It also permits advanced and extensive study of finance topics beyond that included in the other finance courses. The study is conducted with the direct supervision of an individual faculty member. This course may not be used as one of the two required finance electives detailed in the major requirements. May be repeated to a maximum of five (5) times with the requirement that the topic changes each time. Consent of the department chairperson is required.

FIN 4934r. Senior Seminar in Finance (3). Prerequisites: FIN 3403, 3244. May be repeated to a maximum of nine (9) semester hours as topics vary. Additional prerequisites may be required depending on the topic.

FIN 4970r. Honors Thesis (3). Prerequisite: Admission to the honors program. May be repeated to a maximum of six (6) semester hours. Six (6) semester hours of thesis are required to complete honors in the major.

Graduate Courses

- ECP 5705. Economic Concepts for Business Decisions (3).
- ECP 5706. Economic Analysis for Management (3).
- FIN 5314. Administration of Financial Institutions (3).
- FIN 5445. Problems in Financial Management (3).

- FIN 5515. Investment Management and Analysis (3).
- FIN 5605. Multinational Financial Management (3).
- FIN 5906r. Directed Individual Study (1-3). (S/U grade only.)
- FIN 5907r. Special Studies in Management (1-3).
- FIN 5917r. Supervised Research (1-3). (S/U grade only.)
- FIN 5935r. Seminar on Current Topics in Finance (3).
- FIN 5946r. Supervised Teaching (1-3). (S/U grade only.)
- FIN 6449. Seminar in Finance (1-3).
- FIN 6527. Seminar in Finance (1-3).
- FIN 6709. Seminar in Finance (1-3).
- FIN 6808. Foundations of Financial Theory (3).
- FIN 6842. Research Methods in Finance (3).
- FIN 6917r. Supervised Research (1-3). (S/U grade only.)
- FIN 6946r. Supervised Teaching (1-3). (S/U grade only.)
- GEB 5446. The Business Context (3).
- MAN 5716. Business Conditions Analysis (3).

Department of GEOGRAPHY

COLLEGE OF SOCIAL SCIENCES

Chair: Barney Warf; *Professors:* Kodras, O'Sullivan, Warf; *Associate Professors:* Baker, Elsner; *Assistant Professors:* Leib, Savitsky, Steinberg, Jacobson; *Affiliate and Adjunct Faculty:* Anderson, Martin, Meisen, Molina

The Department of Geography offers two separate majors reflecting the discipline's position straddling the social and natural sciences: the geography major and the interdisciplinary environmental studies major. While these programs overlap to some extent, they differ in their substantive focus: the geography major is oriented to social, economic, and political concerns, while the environmental studies major revolves more explicitly around human interactions with the natural, physical, and biological environment, with a stronger interdisciplinary focus. Students may double major in geography and environmental studies; a maximum of ten (10) semester hours may be double-counted toward both majors.

Several career paths await the graduating geographer in the public and private sectors. Geographers bring important knowledge and analytical techniques to resource management and

planning agencies. Their training enables geographers to determine where public facilities and infrastructure are best located so that the greatest number of people benefit. These skills are also valued by private firms investing in residential or commercial development; a geographer can pinpoint where investments are likely to yield the best returns. Geographers fill such job titles as cartographer, intelligence officer, economic analyst, and soil conservationist. Another field is metropolitan and regional planning, in which geographers are engaged in monitoring environmental problems, land use changes, waste disposal, housing, transportation patterns, and poverty. Geographers in private business are involved in industrial location research, marketing, planning for utility companies, environmental and site location consultants, real estate firms, port and airport authorities, travel agencies, and in transportation planning for airlines or trucking firms. Many institutions use geographic information systems (GIS), and consulting firms serving state and local governments are increasingly called on to provide GIS expertise. The College of Social Sciences has a geographic information systems laboratory with several microcomputers running GIS, remote sensing, and statistical software. Finally, geographers find many jobs as teachers in a world integrated to the point that an understanding of geographic differences is essential to a basic education.

The geography department has expertise in the two areas of human geography and environmental problems. Students can concentrate in one of these areas but the natural linkages between them mean that courses in both are necessary for a complete geographical education. In human geography, faculty interests cover a number of interrelated topics, including global power relationships; the terrain tactics of war; social problems such as poverty and residential segregation, and the impact of policies designed to alleviate them; and the spatial structure of services, telecommunications, and international trade. The faculty also focuses on a number of environmental and resource issues, including the impacts of natural hazards such as hurricanes, the causes and effects of deforestation, and the development of policies to solve these and similar problems.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may

be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. Two introductory courses (six [6] semester hours) in geography with the GEO prefix.

Geography Major

Geography is an integrative discipline bridging the social sciences, physical sciences, and humanities in the study of the relations between human beings and the earth. Geography is fundamentally the study of space, much as history is the study of time. Why phenomena and events occur where they do, and the ramifications they have for other places and cultures, are essential geographic questions. Within this framework, geographers examine such issues as the linkages between international development and environmental conservation, the opportunities and problems associated with growth in Florida, the geographic bases of religious and linguistic conflicts, and the implications of economic restructuring on regional power balances, deforestation, and hunger. The value of a geographic perspective is that such issues become more than isolated events when they are given theoretical grounding and are placed in a broader context of global understanding. In an interdependent world where decisions made in one country affect the lives of people in all societies, responsible world citizenship requires a solid foundation in geographic knowledge.

Major Requirements

A geography major consists of thirty (30) semester hours, including GEO 1400, 3140, 3200C, 3540, and 4162C. No geography course with a grade below "C" will apply toward completion of the major. As part of the required (30) semester hours, the student must take at least six (6) semester hours of courses at the 4000 level (excluding GEO 4162C). A maximum of three (3) semester hours of GEO 4905 Directed Individual Study (DIS) internship will be credited toward the major.

Requirements for Minor

A geography minor consists of twelve (12) semester hours of course work in geography (including GEO 1400) completed with a grade of "C" or better.

For more information contact Dr. Basil Savitsky, Undergraduate Advisor, *Department of Geography, 321 Bellamy, (850) 644-8377, bsavitsk@mailers.fsu.edu* or visit our World Wide Web site at <http://www.fsu.edu/~geog>.

Environmental Studies Major

Housed within the Department of Geography, environmental studies is an interdisciplinary program of study that provides an in-depth understanding of the social and institutional context of contemporary environmental concerns. Environmental studies offers a broad-based program that gives students a grounding in the physical sciences but emphasizes the social and policy dimensions of environmental issues, such as land use, ecosystems management, resource conservation, pollution, natural hazards, and the relations between economic development and environmental degradation. After completing the core, students are given considerable latitude to choose from among a wide number of optional courses, essentially tailoring the major to fit their own interests. The major is especially valuable for those who plan to conduct graduate work in urban planning, various social sciences, business, or law.

Major Requirements

The major in environmental studies requires forty-one (41) semester hours with a grade of "C" or better in each course; at least eighteen (18) semester hours must be taken in upper level (3000 and 4000) courses.

1. **Basic Core Curriculum:** all of the following courses (total twenty [20] semester hours).

BSC 2010/2010L	Biological Science I and Biological Science I Laboratory (CHM 1045 is prerequisite)
CHM 1045/1045L	General Chemistry I and General Chemistry I Laboratory
GEO 1331	Environmental Science
GEO 3200C	Physical Geography
GEO 4162C	Spatial Data Analysis (or equivalent)
SYA 4300	Methods of Social Science Research

2. **Environmental Issues Courses:** five (5) courses (fifteen [15] semester hours) from the following list; note that some courses listed below have prerequisites:

BSC 2011	Biological Science II (3)
BSC 3052	Conservation Biology (3)
BSC 3312	Marine Biology (3)
BSC 4514	Aquatic Pollution Biology (3)
CHM 1046	General Chemistry II (3)
ECP 3302	Economics of Natural Resources, Energy, and the Environment (3)
ECP 3322	Economics of Living Marine Resources (3)
ENV 4001	Environmental Engineering (3)
ENV 4041	Environmental Systems Analysis (3)
ENV 4341	Solid and Hazardous Waste Engineering (3)

ENV 4611	Environmental Impact Analysis (3)
GEO 4261C	Soils and Landforms (3)
GEO 4340	Living in a Hazardous Environment (3)
GEO 4372	Natural Resources Assessment and Analysis (3)
GEO 4930r	Special Topics in Geography (3)*
GLY 2010C	Physical Geology (4)
GLY 4700C	Geomorphology (3)
GLY 4820	Principles of Hydrology (3)
ISC 2003	Global Change, Its Scientific and Human Dimensions (3)
MET 2700	General Meteorology (3)
OCE 1001	Elementary Oceanography (3)
OCE 4011	Principles of Oceanography (3)
PCB 3043	General Ecology (3)
PUP 4203	Environmental Politics and Policy (3)
URP 3000	Introduction to Planning and Urban Development (3)
URP 4314	Introduction to Growth Management and Comprehensive Planning (3)
URP 4401	Coastal Ecosystems (3)
URP 4423	Introduction to Environmental Planning and Resource Management (3)
URP 4936	Special Topics in Urban and Regional Planning (3)*

3. **Elective Courses:** two (2) of the following courses (six [6] semester hours):

ECP 3113	Economics of Population (3)
GEO 3540	Economic Geography (3)
GEO 4151	Geographic Information on Processing and Systems (3)
GEO 4184	Computer Cartography (3)
GEO 4450	Medical Geography (3)
GEO 4471	Political Geography (3)
GEO 4602	Urban Geography (3)
GEO 4930r	Special Topics in Geography: Remote Sensing (3).
PAD 3003	Public Administration in American Society (3)
PAD 4603	Administrative Law (3)
PUP 3002	Introduction to Public Policy (3)
SYD 3020	Population and Society (3)
URP 4022	Collective Decision Making (3)
URP 4710	Introduction to Transportation Issues and Transportation Planning (3)

* Content of these courses varies. Please consult the environmental studies advisor for applicability

Requirements for Minor

A minor in environmental studies consists of Part I of the major requirements described above (twenty [20] semester hours), not including the liberal studies requirements. All courses must be completed with grades of "C" or better.

For more information, contact Dr. Basil Savitsky, Undergraduate Advisor, (850) 644-8377 or bsavitsk@mailier.fsu.edu, or visit the department's web site at <http://www.fsu.edu/~geog>

Graduate Programs

Graduate programs are available leading to the master of arts (MA) and master of science (MS) degrees, and the PhD in geography. The graduate program in geography leads to a research-oriented degree centered around two intellectual foci corresponding to the faculty's expertise: environmental management and social systems analysis.

Undergraduates contemplating a graduate degree in geography should take the Graduate Record Examination prior to submitting an application. Interested students should contact the Graduate Advisor, Dr. Phil Steinberg, at (850) 644-8378, or psteinbe@cos.s.fsu.edu.

Definition of Prefixes

GEA — Regional Geography
GEO — Systematic Geography

Undergraduate Courses

GEO 1000. World Geography (3). A regional survey of the human occupation of the face of the earth, local cultures, political systems, and development problems.

GEO 1331. Environmental Science (3). The causes of local and global environmental problems and their impacts, including resource use, pollution, ecosystems, and population growth.

GEO 1400. Human Geography (3). Introductory survey of world cultures, population problems, global economic restructuring, international development, and political interdependence.

GEO 2210. United States and Canada (3). The physical diversity and the cultural and political patterns of North America.

GEO 2270. Florida (3). The physical, social, and economic geography of the state, including growth, and environmental issues.

GEO 3704. East and Southeast Asia (3). Survey of the societies of East and Southeast Asia, including their historical development, cultural diversity, linkages to the world economy, and current socio-political structures.

GEO 3040. Map Analysis (3). An introduction to the acquisition, processing, and presentation of cartographic data.

GEO 3200C. Physical Geography (3). An overview of Earth-sun relations, weather, climate, landforms, water systems, soils, and vegetation.

GEO 3423. Sports Geography (3). Geographical basis of sports at different spatial scales, including locational strategies of franchises, recruiting patterns and the urban political economy of professional sports arenas.

GEO 3540. Economic Geography (3). The geography of economic activity at local, national and global scales: regional development, spatial structure of agriculture, manufacturing and services, the global economy, third world poverty, and population growth.

GEO 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

GEA 4400. Latin America (3). The contemporary Latin American landscape, its historical formation, societies and problems.

GEA 4500. Europe (3). Europe's terrain, variety of cultures, economies, and recent trends toward unity.

GEO 4520. Britain and Ireland (3). The physical and human geography of the United Kingdom and Ireland.

GEO 4554. Russia and Southern Eurasia (3). The peoples, cultures, and places of the former Soviet Union. Discusses the region's natural environment, historical development, and contemporary politics.

GEO 4151. Geographic Information Processing and Systems (3). Prerequisites: CGS 2060; GEO 3140; or consent of instructor. Survey of GIS topics, including locational control, spatial data structures, modeling and analysis, and future trends in decision support, sensors, and geographic methods.

GEO 4162C. Spatial Data Analysis (3). Introduction to quantitative analysis of spatial data including measures of central tendency and dispersion, probability, sampling, statistical testing, correlation, point pattern analysis, and trend surface analysis.

GEO 4184. Computer Cartography (3). Examination of computer mapping systems, theory, methodology, and applications.

GEO 4261C. Soils and Landforms (3). Hydraulic and geomorphological processes, and soils types and management.

GEO 4340. Living in a Hazardous Environment (3). Types of environmental hazards (natural and human-made) and their effects, techniques for the analysis of risks, strategies for recovering losses.

GEO 4357. Environmental Conflict and Economic Development (3). Examines controversies over the use, transformation, and destruction of nature, including political ecology.

GEO 4372. Natural Resource Assessment and Analysis (3). Assessment and analysis of policies concerning natural resources and environmental management in the U.S. and internationally.

GEO 4420. Cultural Geography (3). The study of the processes by which various cultural features have diffused throughout the world. Emphasis is on the contemporary cultural landscape.

GEO 4450. Medical Geography (3). Prerequisites: GEO 1400, 4185C. Applies geographical concepts and techniques to health-related problems, including the ecology of health, disease diffusion, medical cartography, and health care access.

GEO 4460. Historical Geography (3). Concepts, approaches, and research methods for analysis of spatial patterns of the past and changes through time.

GEO 4471. Political Geography (3). The spatial dimensions of political processes from the local to the global level, including elections and geopolitics of the world system.

GEO 4480. Military Geography (3). The geography of warfare; tactics and terrain, strategy and the theater of war, insurgency, war in cities, geopolitics and grand strategy.

GEO 4602. Urban Geography (3). The historical growth of cities; spatial structure of commercial, industrial, and public facilities within cities; residential segregation; urban poverty and fiscal distress, and urbanization in the third world.

GEO 4905r. Directed Individual Study (1–5). May be repeated to a maximum of nine (9) semester hours.

GEO 4930r. Special Topics in Geography (3). May be repeated to a maximum of nine (9) semester hours.

GEO 4932. Honors Work (3). May be repeated to a maximum of six (6) semester hours.

GEO 4941r. Internship (3–6). Provides students with an opportunity to apply skills in supervised situations off-campus. Course may be repeated to a maximum of six (6) semester hours. Only three (3) may be counted toward the major.

Graduate Courses

GEA 5195r. Advanced Area Studies (3).

GEO 5056. Social Theory and Spatial Structures (3).

GEO 5058. Survey of Geographic Thought (3).

GEO 5118C. Introduction to Geographical Research (3).

GEO 5157. Advanced Geographic Information Systems (3).

GEO 5159. Geographic Information Processing and Systems (3).

GEO 5165C. Quantitative Geography (3).

GEO 5262C. Soils and Landforms (3).

GEO 5287. Water Resource Analysis (3).

GEO 5345. Disaster Preparedness and Hazards Mitigation (3).

GEO 5358. Environmental Conflict and Economic Development (3).

Department of GEOLOGICAL SCIENCES

COLLEGE OF ARTS AND SCIENCES

Chair: Neil Lundberg; *Professors:* Cowart, Furbish, Loper, Lundberg, Odom, Tull, Wise, Zindler; *Associate Professors:* Arnold, Donoghue, Kish, Parker; *Assistant Professors:* Schmeekle, Streepey, Wang; *Curator:* Janecek; *Scholar Scientist:* Salters; *Courtesy Professor:* Schmidt; *Professors Emeriti:* DeVore, Osmond, Tanner, Winters

The Department of Geological Sciences offers undergraduate work for both majors and minors leading to the bachelor of science (BS) degree. Emphasis is on fundamental applications of chemistry, physics, biology, and the scientific method in the study of the earth; field experience is also stressed. Faculty members offer course work in many areas of surficial, tectonic, and stratigraphic geology and geochemistry.

The major program is intended to provide a well-rounded introduction to the study of the Earth as well as to prepare the student for more advanced study in the fields of natural resources, environmental planning, oceanography, geophysics, and other earth science specialties.

Various scholarships are offered (and part-time work is available) within the Department of Geological Sciences, with the Florida Geological Survey of the Florida Department of Environmental Protection (next door), and with other agencies of the state and federal governments.

Honors in the major can be earned by talented juniors and seniors by engaging in an independent project ending in an honors thesis. For requirements and other information, see the "University Honors Program and Honor Societies" chapter of this *General Bulletin*.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. CHM 1045/1045L or CHM 1040 and CHM 1041 or CHM 1045C or CHM 1045E;
2. CHM 1046/1046L or CHM 1046C or CHM 1046E;
3. GLY 2010C;
4. MAC 2311;
5. PHY 2048C or PHY 2048/2048L*;
6. PHY 2049C or PHY 2049/2049L*;
7. PHY 2053C*;
8. PHY 2054C.

A course in historical geology is **strongly** recommended.

Note: (*) the choice of physics sequence depends on the area of geology specialization. Contact department for details.

Requirements

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*.

Major

A minimum of thirty-eight (38) semester hours of geology, as specified below and including an elective course chosen from among senior-level and graduate-level geology courses. A major will also include one year each of chemistry with labs, physics and labs, and calculus. No geology or required chemistry, physics, or mathematics course with a grade below "C-" will apply. Based on the recommended series of chemistry, physics, and calculus courses, a candidate for the degree of bachelor of science (BS) in geology is required to successfully complete the following courses in addition to other coursework required by the College of Arts and Sciences:

MAC 2311	Calculus with Analytic Geometry I (4)
MAC 2312	Calculus with Analytic Geometry II (4)
CHM 1045	General Chemistry I (3)
CHM 1045L	General Chemistry I Laboratory (1)
CHM 1046	General Chemistry II (3)
CHM 1046L	General Chemistry II Laboratory (2)
PHY 2048C	General Physics A with Laboratory (5)
PHY 2049C	General Physics B with Laboratory (5)
GLY 2010C	Physical Geology (4)
GLY 2100	Historical Geology (3)
GLY 2100L	Historical Geology Laboratory (1)
GLY 3200C	Mineralogy and Crystallography (3)
GLY 3220C	Optical Mineralogy (2)
GLY 3310C	Igneous and Metamorphic Petrology (3)

GLY 3340C	Sedimentary Petrography (2)
GLY 3400C	Structural Geology (4)
GLY 3610C	Paleontology (4)
GLY 4511	Principles of Stratigraphy (3)
GLY 4750	Geological Field Methods (1)
GLY 4790	Field Course (6)
GLY 4XXX	Geological Elective (2)

GLY 4790 requires the expenditure of approximately \$1,400 by each student to cover the cost of travel and subsistence in the field. This amount excludes tuition. Students are expected to participate in field assignments which may require occasional physically strenuous effort.

It is recommended that students intending to transfer to The Florida State University for their junior and senior years' work in geology complete one year of college chemistry before transferring in order to avoid delays in their program of studies.

Minor

The required chemistry-mathematics combination may constitute a minor, or the student may select any other approved minor.

Requirements for a Minor in Geological Sciences

A minor in geological sciences requires a minimum of twelve (12) semester hours, including: GLY 1000 and GLY 1000L or GLY 2010C; GLY 2100; GLY2100L. At least four (4) semester hours must be at the GLY 3000 level or above.

Definition of Prefix

GLY — Geological Sciences

Undergraduate Courses

ISC 2937.	Natural Science Honors Seminar (3).
ISC 3121.	Science, Technology, and Society (3).
PSC 2800C.	Earth Science for EC/EE Teachers (4).
SCE 4939r.	Seminar in Contemporary Science, Mathematics, and Science Education (1).

Note: for complete descriptions of the above courses, see interdisciplinary science courses listed in the "College of Arts and Sciences" section of this *General Bulletin*.

GLY 1000. Dynamic Earth (3). Introduction to geology as the study of planet Earth, its internal dynamics and its surficial weathering, erosion, and sedimentary processes. Course credit may not be received for this course and also GLY 1892 or 2010C.

GLY 1000L. Dynamic Earth Laboratory (1). Prerequisite or Corequisite: GLY 1000 or 1892. Two (2) hour laboratory study of minerals, rocks, maps.

GLY 1040. How to Build a Habitable Planet (3). This course provides students with an overview of the origin of the Earth within the context of the cosmos, the processes that have shaped the planet over the eons, and our stewardship of the fragile and magnificent environment we have inherited. Focus is centered upon the development of conceptual knowledge and upon applying the scientific method to the understanding of our planet.

GLY 1042. Planetary Geology (3). Introduction to the basic geological processes that apply to the planets and moons of the solar system. Observational evidence from spacecraft and earth-based sensors of the surfaces, dynamics, structures, and geologic evolution. The Earth-moon system is presented as a basis for comparison.

GLY 1070. Living on the Water Planet (3). This course provides students with an overview of the basic physics and chemistry of water and the processes that control water supply to natural ecosystems and to human civilization. It covers the hydrologic cycle, floods, drought, groundwater, patterns of water use, threats to water quality, the effects of global climate change on future water supplies, and water issues facing the state of Florida.

GLY 1102. Dinosaurs and Disasters on an Evolving Earth (3). History of the Earth and its organisms as recorded in the fossil and rock record; principles of geological and paleontological research; evolution of the dinosaurs, mass extinctions, and effects of past continental movements on the diversity of life. Course credit may not be received for this course and also GLY 2100. GLY 2100L recommended.

GLY 1892. Environmental Issues in Geology (3). Environmental issues as they relate to geological phenomena, which include volcanic and earthquake hazards, resource and land-use planning, air and water pollution, waste disposal, glaciation and sea-level change, landslides, flooding, shoreline erosion, and global change issues. Course credit may not be received for this course and also GLY 1000 or 2010C. Credit can be received for taking GLY 1000L.

GLY 2010C. Physical Geology (4). For majors in geology and natural sciences. Two (2) hour laboratory required. Introduction to surficial and internal processes affecting a dynamic planet Earth. Course credit may not be received for this course and also GLY 1000 or 1892.

GLY 2022C. Geology for Pre-service and In-service Teachers (4). Introduction to geology with emphasis on adapting techniques, skills, and technologies learned in classes/labs for use in the secondary/elementary classroom. Topics include environmental geology, planetary geology, plate tectonics, earthquakes, volcanism, natural resources, the geology of Florida, plus the evolution of the planet and life on it.

GLY 2100. Historical Geology (3). History of the Earth and introduction to the fossil record. Course credit may not be received for this course and also GLY 1102.

GLY 2100L. Historical Geology Laboratory (1). Prerequisite or Corequisite: GLY 1102 or 2100. Laboratory study of the physical and biological evidence for the known history of the earth.

GLY 3200C. Mineralogy and Crystallography (3). Pre- or Corequisite: chemistry and physical geology. Three (3) hour laboratory required. Introduction to mineralogy, crystal chemistry, and crystallography.

GLY 3220C. Optical Mineralogy (2). Corequisite: GLY 3200C. Three (3) hour laboratory required. The optical properties of crystals and mineral identification by use of the polarizing microscope.

GLY 3310C. Igneous and Metamorphic Petrology (3). Prerequisite: GLY 3220C. Three (3) hour laboratory required. Classification, description, and origin of igneous and metamorphic rocks; relation of these rocks to tectonic processes.

GLY 3340C. Sedimentary Petrography (2). Prerequisite: GLY 3220C. Survey of sedimentary rock types, principles of description and classification, sediment genesis and transport, distribution and origin of sedimentary deposits.

GLY 3400C. Structural Geology (4). Prerequisites: GLY 2100, 2100L, 3200C. Field trip is required. Theory, processes, mechanics of rock deformation and the deformation of the Earth's crust.

GLY 3610C. Paleontology (4). Prerequisites: GLY 2100, 2100L. Review of invertebrate biology, with emphasis on hard-part nomenclature; the occurrence, distribution, evolution, and ecology of fossil invertebrates.

GLY 4240. Principles of Geochemistry (2). Prerequisites: GLY 2010C; basic chemistry. Crystal chemistry of silicates and other minerals; chemical principles applied to igneous, metamorphic, and sedimentary environments and processes; chemistry of natural aqueous systems; chemical equilibria of geologic systems.

GLY 4451. Introduction to Geophysics (3). Prerequisites: MAP 2302; PHY 2049 or consent of instructor. Plate tectonics and earth structure. Current methods of probing the interior: seismology and seismic tomography, geomagnetics, geoid and gravity, geochemistry and geochronology, heat flow, mantle convection, core convection and the geodynamo.

GLY 4511. Principles of Stratigraphy (3). Prerequisite: GLY 3340C. Analysis and synthesis of stratigraphic sequences. Depositional systems; physical and biostratigraphy; geochronology and chronostratigraphy; magnetic, seismic, and sequence stratigraphy; tectonic vs. climatic controls. Term paper required.

GLY 4551. Sedimentology (2). Prerequisite: GLY 3200C. Study of modern and ancient sedimentary deposits, measurement of sediment parameters, analysis of sediment transport modes, classification of sediments and sedimentary rocks, statistical reduction of sedimentologic data. Field trip required. Students concentrating in sedimentary geology are strongly urged to take the laboratory GLY 4551L concurrently.

GLY 4551L. Laboratory Methods in Sedimentology (1). Laboratory in standard sedimentologic methods, including textural analysis, heavy mineral separation and identification, carbonate staining, X-ray diffractometry, and statistical reduction of sedimentologic data. May be taken separately, but students concentrating in sedimentary geology should take GLY 4551L concurrently with 4551.

GLY 4700C. Geomorphology (3). Prerequisite: Senior standing. An introduction to the description of landforms and landscapes on Earth's surface. Emphasis is placed on the basic mechanisms that govern landform evolution, and on the history of geomorphic study. Several field trips are required.

GLY 4730. Marine Geology (3). Shoreline, shelf and deep ocean processes; marine sediment types and sedimentary environments; plate tectonics; origin of the ocean; paleoceanography; marine mineral resources. Includes research methods cruise for familiarization with marine geologic sampling and sensing devices. Credit received for GLY 4730 precludes credit being received for GLY 5736 or OCG 5050.

GLY 4750. Geological Field Methods (1). (S/U grade only.) Corequisite: GLY 3400C. Provides a working knowledge and some experience of techniques, procedures, and tools which are essential to geological field research, the professional geologist, and the required summer field course.

GLY 4751C. Introduction to Remote Sensing, Air Photo Interpretation and GIS for the Earth Sciences (3). Prerequisites: GLY 3400C; PHY 2049. Course covers an introduction to the study of the earth using photographic and electronic imaging acquired from aircraft and satellites; physics of the interaction between electromagnetic radiation and materials of earth's surface and hydrosphere; principles of electronic and microwave imaging; and use of digital image analysis and GIS in the study of earth resources and global change.

GLY 4790. Field Course (6). Prerequisites: GLY 3400C, 4750. Series of field problems based largely on exposures of strata and structures. Preparation of geologic maps, sections, and reports. Six weeks in May and June.

GLY 4812C. Ore Deposits (3). Prerequisites: GLY 3310C, 3400C. An introduction to the study of metallic ore deposits. Laboratory studies of ores using the reflected light microscope and economic evaluation of ore deposits.

GLY 4820. Principles of Hydrology (3). Prerequisites: CHM 1046; PHY 2049C. Fundamentals of hydrogeology with an emphasis on groundwater flow and hydrochemistry. Both theory and applications are addressed.

GLY 4884. Environmental Geology I (3). The application of geologic and geochemical principles to environmental issues. Topics include: an evaluation of contaminants in surface water; hydrocarbon geochemistry and petroleum storage tank problems; air quality issues including radon and asbestos; geologic hazards in upland and coastal areas; environmental geologic methods and instrumentation; quality assurance and quality control in environmental analysis; principles of toxicology; risk assessment and risk management; and environmental assessments.

GLY 4905r. Directed Individual Study (3). May be repeated to a maximum of nine (9) semester hours.

GLY 4989r. Honors Work (3). May be repeated to a maximum of twelve (12) semester hours.

Graduate Courses

- GLY 5020r. Current Topics in Earth Science (3).
- GLY 5021r. Current Topics in Earth Science (3).
- GLY 5135. Quaternary Geology (3).
- GLY 5230C. X-Ray Crystallography (3).
- GLY 5261. Geochronology (2).
- GLY 5265. Nuclear Geology (3).
- GLY 5267. Stable Isotopic Tracers in the Environment (3).
- GLY 5295r. Advanced Topics in Nuclear Geology (1-3).
- GLY 5298r. Advanced Topics in Geochemistry (1-3).
- GLY 5321C. Igneous Petrology (4).
- GLY 5346. Sedimentary Petrology (3).
- GLY 5395r. Advanced Topics in Petrology (1-3).
- GLY 5425. Tectonics (3).
- GLY 5435. Advanced Structural Geology (3).
- GLY 5455. Introduction to Geophysics (3).
- GLY 5465. Geomechanics (3).
- GLY 5495. Advanced Topics in Geophysics (3).
- GLY 5497r. Advanced Topics in Structural Geology (1-3).
- GLY 5516. Stratigraphy and Sequence Analysis (3).
- GLY 5556. Hydrodynamics (3).
- GLY 5573. Fluvial Processes (3).
- GLY 5575C. Shoreline Geology (3).
- GLY 5576. Stratigraphy and Sediments of Transitional Marine Environments (3).
- GLY 5577. Sedimentary Basin Analysis (3).
- GLY 5624C. Introduction to Micropaleontology (3).
- GLY 5625C. Advanced Micropaleontology (3).

- GLY 5695r. Advanced Topics in Paleontology (1–3).
- GLY 5696Cr. Mesozoic Planktonic Calcareous Nannofossils (4–8).
- GLY 5697Cr. Cenozoic Planktonic Calcareous Nannofossils (4–8).
- GLY 5735. Nearshore Marine Geology (2).
- GLY 5736. Marine Geology (3).
- GLY 5756. Advanced Field Methods (1).
- GLY 5757C. Fundamentals of Remote Sensing, Air Photo Interpretation and GIS for the Earth Sciences (4).
- GLY 5825. Physical Hydrology (3).
- GLY 5826. Numerical Modeling of Groundwater Flow (3).
- GLY 5827. Principles of Hydrology (3).
- GLY 5828. Chemical Hydrology (3).
- GLY 5845. Subsurface Geology (3).
- GLY 5868r. Advanced Topics in Sedimentation and Stratigraphy (1–3).
- GLY 5885. Geologic Hazards Assessment (3).
- GLY 5887. Environmental Geology I (3).

- GLY 5896r. Advanced Topics in Hydrology (1–3).
- GLY 5906r. Directed Individual Study (3). (S/U grade only.)
- GLY 5910r. Supervised Research (1–9). (S/U grade only.)
- GLY 5931r. Graduate Seminar (1). (S/U grade only.)
- GLY 5940r. Supervised Teaching (1–9). (S/U grade only.)
- GLY 6982r. Doctoral Seminar (1). (S/U grade only.)

HEALTH-RELATED PROGRAMS

Numerous health-related programs at The Florida State University address issues of prevention, treatment, rehabilitation, health sciences, and policy formulation. As part of an effort to develop and promote a coordinated plan for these programs, the following section lists and describes, by program/department, areas of study, services, and (in some instances) certification, opportunities for students. For more detailed information and requirements, see individual program listings in this *General Bulletin*.

Pepper Institute on Aging and Public Policy

The Pepper Institute on Aging and Public Policy has a multidisciplinary focus and plays a coordinating and facilitative role for the work of all academic units with interests in aging and social policy. As part of its Certificate in Aging Studies, the Pepper Institute promotes several courses in health care policy, adult development and aging, and health care delivery systems. The resources of the institute are used to support individual or collaborative research initiatives by providing technical assistance or a location for conducting research. As an aid to the community, the institute provides access to its information and professional staff. The institute facilitates and disseminates research information; provides opportunities for training and study; and sponsors conferences, public lectures, workshops, and symposia to promote the discussion of issues germane to the aging process and to share information with policy makers, professionals, and the community about the elderly and aging issues. Through the College of Social Sciences, the institute now offers a Master's Degree in Aging Studies.

Department of Communication Disorders

The Department of Communication Disorders has a major in communication sciences and disorders and offers bachelor's, master's, advanced master's, and doctoral degrees. The scope of the department includes the whole of human communication, both normal and disordered. Students learn the total processes of communication, develop analytical and communicative skills, and obtain experience in evaluation, treatment, and research. For information contact: pwinne@mailier.fsu.edu or (850) 644-2253.

Health Education Program

The health education program includes teacher certification or community health education and leads to either a bachelor of science (BS) or a master of science (MS) degree. This program is designed to prepare health educators to assist individuals in achieving an optimal level of health, to prevent disease and debilitating conditions from occurring, and to minimize the impact of such diseases and conditions upon individuals who have been affected. With a degree in health education, an individual may choose from such practice settings as the school system, business and industry, community agencies, and governmental and tax-supported agencies, as well as the medical care systems.

Health Policy Research

This interdisciplinary master's program prepares researchers to work with health care data in public or private sector positions. Students learn to organize, evaluate, and manage infor-

mation. In addition, they develop analytical skills in evaluation and research using electronic information systems for the analysis of state and national health issues. The program admits students with a minimum of a baccalaureate degree in any field from an accredited institution. Degree requirements of thirty-six (36) semester hours include coursework, internship and the production of a research paper. For information contact: Marie E. Cowart, Dean, College of Social Sciences at (850)644-8830. Email: mcowart@mailier.fsu.edu.

Interdisciplinary Curriculum in Health Services Administration and Policy

The graduate-level interdisciplinary curriculum in health services administration and policy is organized to train managers, policymakers, and researchers who will be able to respond to and help shape the rapidly changing health care arena.

The interdisciplinary curriculum draws upon faculty interest and expertise in health services administration and policy from throughout the University, including faculty from business, economics, law, public administration and policy, sociology, social work, urban and regional planning, geography, and education. The program consists of three core courses and nine electives that students can choose from. The three core courses—health administration and policy, health institutions and social policy, and health care finance—provide students with the fundamental knowledge and skills required for any future work within health care policy and administration. Students choose from a range of additional courses to build upon this core. Spe-

cific degree programs may require or allow additional courses. Depending upon a student's choice of electives, the program will emphasize either policy or administration..

School of Nursing

The School of Nursing offers a bachelor's and a master's degree program. The mission of the School of Nursing is to develop professional leaders in nursing for practice in diverse settings. A separate RN/BSN completion program, leading to a baccalaureate degree or directly into the master's program, is available on campus or online. Information regarding undergraduate programs is available from the advising office at (850) 644-5170. Graduates of the baccalaureate program are prepared for beginning levels of professional practice in a variety of settings. Graduates of the master's program are prepared for advanced professional positions in nursing education, nursing case management, or a blended role of clinical nurse specialist and nurse practitioner. All programs build on a foundation of family and community and prepare the graduate to function effectively and efficiently in the changing healthcare arena.

The student completing a thesis receives a master of science in nursing degree. Students not desiring to continue their education may elect a non-thesis option, leading to a master's in nursing degree. For specific information about each role specialty, contact the graduate office program at (850) 644-5974.

Department of Nutrition, Food, and Exercise Sciences

The Department of Nutrition, Food, and Exercise Sciences provides students with a solid foundation in the scientific aspects of nutrition, foods and health-related physical fitness through its bachelor, master's, and doctoral programs. Students are provided with in-depth study of the role that nutrition and physical activity play both in health and, in particular, the prevention of chronic disease. Both the major in Food and Nutrition Science, and the Exercise Physiology emphasis can be used as pre-medical programs.

To meet the growing demand for health-related practitioners, the department offers a major in exercise science. This preparatory program offers an emphasis in one of four curricular programs: fitness, exercise physiology, athletic training and pre-physical therapy. These students combine their study of nutrient metabolism, chemistry and physiology with courses in exercise physiology and health taught by the department faculty.

The dietetics major, particularly if it is followed-up by an accredited dietetic internship, prepares students to apply their expertise in nutrition science and food service management in a variety of employment settings such as hospitals, HMO's, sports nutrition and corporate wellness programs, business and industry, public health, education, research and private practice.

Students at the master's level may elect the thesis or non-thesis option in one of six areas of emphasis: nutrition science, food science, clinical nutrition, nutrition education/health promotion, sports nutrition, exercise physiology and motor control. Four areas of specialization exist at the doctoral level: exercise physiology, food science, nutrition, and motor control. Doctoral graduates continue to be recruited for traditional University teaching and research positions and many in the food sciences are hired by industry to research and develop new food products.

School of Social Work

The School of Social Work is committed to the pursuit and delivery of excellence in social work education. Through teaching, research, and service, the school educates its graduates for productive careers in diverse professional arenas, contributes to the knowledge base guiding social welfare practice and policy decisions, and offers expertise and energy to local, state, and national concerns. The school's initiatives build on the traditional heritage of social work, and are guided by a commitment to social services, including the development of caring communities. Recognizing that communities function as political, social, and familial entities, the school's efforts emphasize, but are not limited to, health care, mental health, and the special concerns of children, fami-

lies, women, and the aged. In all of its capacities, the school recognizes and values achieving mutuality among diverse community groups, and promotes models of service delivery empowering the poor and disadvantaged and ensuring the social care of all community members.

Department of Sports Management, Recreation Administration and Physical Education

The Department of Sports Management, Recreation, Administration and Physical Education offers a bachelor, master's, and doctoral degree program in physical education. An area of specialization in health and/or physical fitness may be taken with any of the above degrees. Please also refer to the College of Human Sciences for additional opportunities.

Therapeutic Recreation

The therapeutic recreation concentration, within the Department of Sports Management, Recreation Administration and Physical Education, prepares students to work with a variety of persons with illnesses and disabilities. Therapeutic recreation includes a variety of disorders. The program prepares students to be able to provide the three components of therapeutic recreation, which are: therapeutic intervention, leisure education, and recreation and leisure programming for persons with disabilities and illnesses. The program is accredited by the National Recreation and Park Association and leads to national certification by the National Therapeutic Recreation Certifying Board.

Department of HISTORY

COLLEGE OF ARTS AND SCIENCES

Chair: Richard L. Greaves; *Associate Chair (Graduate Studies):* Garretson; *Associate Chair (Undergraduate Studies):* Strait; *Professors:* Anderson, Betten, Greaves, Halpern, Horward, J. Jones, M. Jones, Jumonville, Lo, Oldson, Richardson, Ripley, Rubanowice, Singh, Tanenbaum, Wynot; *Associate Professors:* Conner, Garretson, Grant, Green, Stoltzfus, Strait; *Assistant Professors:* Childs, Creswell,

Gray, Hadden, Herrera; *Visiting Assistant Professor:* Casnovas; *Professors Emeriti:* Bartlett, Beck, Bryant, Keuchel, Moore, Rogers, Turner

History is a liberal discipline that enables students to put their lives in the contemporary world in a broad and meaningful context. It encompasses all aspects of human development chronologically, from ancient times to the present, and topically, in all areas of human interest.

An undergraduate degree in history prepares a student for vocations that require skills in critical thinking and ability in written and oral

expression. Combined with certification requirements for social sciences, it can lead to a teaching career in middle or high school. It is an excellent preparation for graduate school or law school and is also desirable for those seeking positions in government or business who require a broad, liberal education rather than technical training.

The department participates in the undergraduate programs in American and Florida studies, Asian studies, humanities, international affairs, Latin American and Caribbean studies, Russian and East European studies, and in the honors in the major program.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. Two introductory courses (six [6] semester hours) in history with an AMH, ASH, EUH, HIS, LAH, or WOH prefix.

Requirements for a Major in History

Please review all college-wide degree requirements summarized in the “College of Arts and Sciences” section of this *General Bulletin*.

Major

Thirty-three (33) semester hours, including WOH 1023, 1030; AMH 2010, 2020 (for the application of test credit to the major, see below); and a minimum of twenty-one (21) additional semester hours in history [above 2999] distributed as follows:

1. Six (6) semester hours of American history;
2. Six (6) semester hours of European history;
3. Six (6) semester hours of Latin American, Asian, African, or Russian history; and
4. Three (3) semester hours of HIS 4935, Senior Seminar

Note: senior seminar is not offered during the summer terms. Directed individual studies and tutorials may not be counted toward the major.

At least eighteen (18) of the thirty-three (33) required semester hours must be earned at The Florida State University. All graduating seniors must complete exit interviews as part of the degree.

Minor Requirement for History Majors

A minor of twelve (12) semester hours beyond liberal studies requirements in an approved departmental field or fifteen (15) semester hours in an interdepartmental area is required. Individual departments and interdepartmental areas may impose additional requirements. The student should consult the appropriate departmental listing of this *General Bulletin* to see if the department has further requirements.

The student may not count toward the major or minor any course in which a grade below “C–” is received. A minimum GPA of 2.0 within both the major and minor is required.

Double Majors

Students pursuing a double major must meet the program requirements of both majors, with the following exceptions: 1) No more than six (6) semester hours may be overlapped (i.e., counted toward both majors); and 2) No minors are required for the double major.

Test Credit Toward the Major (AP, CLEP, IB)

A student who has earned test credit in American history must not take either AMH 2010 or 2020. A student who has earned test credit in European history must not take EUH 2000, WOH 1023, or WOH 1030. Students with three (3) semester hours of test credit in an area will be required to complete the resulting three (3) semester hour shortfall per area toward the major. For information regarding the fulfillment of this policy, please contact the history department advisor.

Honors in the Major

Honors work in the major is offered to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the “University Honors Program and Honor Societies” section of this *General Bulletin*, and the associate chairman for undergraduate studies in history.

Certification in Social Science Education with History Concentration

All undergraduates interested in certification in social science education should take the core courses as part of their liberal studies requirements; therefore, they are urged to consult an adviser in the College of Education as early as possible. Students seeking certification must also apply for admission to teacher education. Application forms are obtained from the College of Education’s office of student services. A student should have and maintain a 2.75 overall GPA in all courses to be eligible.

Requirements for a Minor in History

Twelve (12) semester hours beyond liberal studies requirements in history courses numbered above 1999 are required. A grade of “C–” or better must be earned in each course counted toward the minor. At least six (6) of the twelve (12) semester hours must be earned at The

Florida State University. Directed individual studies, tutorials, and test credit may not be counted toward the minor.

Definition of Prefixes

AFH	—	African History
AMH	—	American History
ASH	—	Asian History
CLA	—	Classical and Ancient Studies
EUH	—	European History
HIS	—	History: General
LAH	—	Latin American History
WOH	—	World History

Undergraduate Courses

Note: history majors must take the sequence of either WOH 1023–1030 or EUH 2000–WOH 1023 (unless they have test credit in European history, or transfer credit equivalent to these courses); all other liberal studies history courses numbered below 2999 do not count for history major credit.

Liberal Studies Area II

HIS 1003. Writing for History (3). Prerequisites: ENC 1101 or 1149. Freshman-level nonfiction prose writing on selected historical topics for a total of 8,000 words. Historical themes vary. No auditors. May be used to fulfill the liberal studies Area II requirement in English composition; **does not fulfill the liberal studies Area III requirement for history.**

Liberal Studies Area III Courses

Note: in order to fulfill the liberal studies requirement in history, a student must complete a minimum of three (3) semester hours from this list: AMH 1000; AMH 1091, AMH 2095, AMH 2096, AMH 2097; ASH 1044, ASH 3100; EUH 2000; LAH 1093; WOH 1023, WOH 1030. Each of the courses in the history liberal studies area shall include a substantial writing component, defined as 3,000 words per course.

AMH 1000. American Civilization (3). This course is a broad survey covering the scope of American history from its early colonial beginnings to the present. The emphasis is on placing the American experience in a broad setting. As such, movements and interpretations are stressed. Should not be taken by anyone considering history as a major. May not be taken by students with test credit in American history. Course will not count as credit toward the history major.

AMH 1091. The African American Experience in the United States (3). This course will examine, both chronologically and thematically, the experience of African-Americans in the United States and their role in shaping the nation’s history. Course will not count as credit toward the history major.

AMH 2095. The American Indians and the United States (3). Course surveys American Indian relations with the people and the government of the United States, beginning in the 1760s and continuing to the present. Examines the Indians’ diplomatic and military struggles, first to retain their territories and later to maintain some level of self-determination and cultural integrity. Students will also be exposed to the Indian perspective on familiar historical events such as the Civil War, the New Deal, and the 1960s. Course will not count as credit toward the history major.

AMH 2096. Black Women in America (3). This course will examine (using both a chronological and a thematic approach) the unique experience of the African-American woman in the United States and the role that black women have played in shaping this nation's history. Course will not count as credit toward the history major.

AMH 2097. Nationality, Race, and Ethnicity in the United States (3). The history of immigration to the United States. Includes the evolution of ethnic cultures and the role of race, acculturation and assimilation, and the conflict from colonial times to the present. Course will not count as credit toward the history major.

ASH 1044. Middle Eastern History and Civilization (3). This is an introductory course on Middle Eastern history and culture with a considerable emphasis on the impact of religion: Christianity, Judaism, and Islam. The primary emphasis of the course will be to understand the historical and cultural background of the major problems facing the Middle East today. Course will not count as credit toward the history major.

ASH 3100. History of Asia (3). This course is an introduction to political, cultural, and economic Asian history from antiquity to the present. It places special emphasis not only on the study of important Asian kings and leaders but also on the various religions which originated in Asia.

EUH 2000. Ancient and Medieval Civilizations (3). This course provides a survey of Western traditions from the beginnings through the end of the Middle Ages. Emphasis is on patterns of thinking and on those institutions most distinctive for the Western tradition. Students who have previous college credit in Western civilization courses covering the same general chronological period cannot receive credit for EUH 2000. May not be taken by students with test credit in European history.

LAH 1093. Latin America: A Cross-Cultural History (3). A cross-cultural history of Latin America focusing on women, Native Americans, African-Americans, mestizos, and mulattoes in historical context. Course will not count as credit toward the history major.

WOH 1023. The Modern World to 1815 (3). This liberal studies course deals with the origins and development of political, economic, social, and intellectual antecedents of the modern world from the end of the Middle Ages to 1815. Students who have previous college credit in Western civilization courses covering the same general chronological period cannot receive credit for WOH 1023. May not be taken by students with test credit in European history.

WOH 1030. The Modern World Since 1815 (3). This liberal studies course deals with the origins and development of political, economic, social, and intellectual antecedents in the modern world since 1815. Students who have previous college credit in Western civilization courses covering the same general chronological period cannot receive credit for WOH 1030. May not be taken by students with test credit in European history.

African History

AFH 1000. African History and Civilization (3). This is an introductory course for African history and civilization. It covers the broad sweep of African history and culture. The primary emphasis will be to understand the background to some of Africa's major problems and possibilities today. Course will not count as credit toward the history major.

AFH 3451. Sub-Saharan Africa Since 1800 (3). A history of Sub-Saharan Africa since 1800 is intended to provide an understanding of the background and problems of some of the African states today.

AFH 4302. North African History: A Survey (3). This course will concentrate on the modern history of North Africa including: Maghrib, Morocco, Algeria, Tunisia, Libya, Egypt, Sudan, Ethiopia and Somalia. It is intended to provide an understanding of the background and problems of North African states today.

American History

AMH 2010. A History of the United States (3). A survey of United States history with emphasis on social, economic, and political issues up through the Civil War. May not be taken by students with test credit in American history.

AMH 2020. A History of the United States (3). A survey of the United States from the end of the Civil War to the present with emphasis on social, economic, and political problems of the 20th century. May not be taken by students with test credit in American history.

AMH 2043. Civil War in the American Mind (3). An exploration of myth, image and rhetoric of the Civil War as they have appeared in American culture since 1865. Course will not count as credit toward the history major.

AMH 2044. American Biography (3). An exploration of issues in American history from the perspectives of the men and women who dealt with aspects of those issues firsthand. The biographical figures vary from semester to semester. May be repeated to a maximum of six (6) semester hours with instructor's permission. Course will not count as credit toward the history major.

AMH 3042. Evolution of Law, Crime, and Justice in American Society: 1865 to the Present (3). This course serves as an intermediate level survey of the social and political developments in the fields of crime and law from the end of the Civil War to the present. Its focus is on the changing definitions of criminal behavior, regional patterns of crime, the changing nature of punishment and Constitutional issues relating to crime.

AMH 3310. Social History of the United States (3). An analysis of the day-to-day lives of American people. Topics treated will include morals, manners, religion, family, social class, health, and occupations.

AMH 3319. The Evolution of Law, Crime, and Justice in American Society, to 1876 (3). An intermediate level survey of the social and political developments in the fields of law and criminology, from the colonial era through Reconstruction. The course focuses upon social problems, criminal behavior, punishments, changing definitions of citizenship, and the Constitution.

AMH 3351. U.S. Political History to 1877 (3). Begins with the colonial and revolutionary background of U.S. politics. The bulk of the course studies U.S. political parties and elections from the 1790s to 1877. Special emphasis is placed on the presidency and on the groups and issues that have influenced political parties.

AMH 3352. U.S. Political History from 1877 to the Present (3). Studies U.S. political parties and elections from the end of Reconstruction to the present. Special emphasis is placed on the presidency and on the groups and issues that have influenced political parties. AMH 3351 is not a prerequisite for 3352.

AMH 3370. Economic History of the United States (3). A survey of American economic history from the early colonial beginnings to the present. The course analyzes the role of economic issues and events in American history. It proceeds chronologically, is broken into 12 time periods, and major attention is directed to the 20th century.

AMH 3373. U.S. Business History (3). This historical survey of American business from colonial times to the present includes manufacturing, industrial development, agribusiness, organized labor, finance, management approaches, and the evolution of business ethics.

AMH 3444. History of the Trans-Mississippi American West (3). This course covers the history of the Trans-Mississippi West during the 19th century. Students are expected to develop an understanding of this area as a geographical region and its role in American history beginning with the early 19th century explorations and culminating with the symbolic "closing of the frontier" of the 1890s.

AMH 3470. The Evolution of Organized Crime (3). Course discusses the evolution of organized crime in the United States, the social and legal factors that contributed to its development, and the ethnic groups involved.

AMH 3500. Labor History of the United States (3). The social history of American workers, the labor movement, labor strikes and violence, and working class politics from colonial America to the present.

AMH 3540. Military History of the United States (3). A survey of both the military experiences and issues in American history. The course analyzes war, its economic issues, technological developments, politics, and other factors that have influenced the military aspects of American history.

AMH 3544. The United States and Vietnam, 1941–1975 (3). Course examines the involvement of the United States in Vietnam from World War II through the fall of Saigon in 1975 and considers the legacy of this experience for American foreign relations and society.

AMH 4110. Colonial America to 1763 (3). A study and comparison of the founding and development of the English colonies in North America.

AMH 4130. Revolutionary America, 1760–1788 (3). Course examines the political, social and economic history of British America from the end of the Seven Years War to the ratification of the U.S. Constitution. Special emphasis will be given to the origins, course and aftermath of the colonial rebellion that became the American Revolution and led to the founding of the U.S. The course considers the fundamental causes of the Revolution and the many ways—some intended by the founders but many not—in which the former colonies were transformed by the experience.

AMH 4140. Thomas Jefferson's America (3). Examines the political and cultural history of the United States from the first presidential election through the "Era of Good Feelings." In 1789, the leaders of the new government faced a difficult and confusing task: they needed to build working political institutions out of the Constitution's vague instructions and at the same time create a stable, unified nation out of a divided and scattered collection of societies and peoples. The events of this period determined what type of nation the United States would become. Considerable attention will be devoted to Thomas Jefferson himself, as a figure who both shaped and represented his era.

AMH 4160. Andrew Jackson's America (3). Examines American politics, society and culture in the 1820s, '30s, and '40s. During these decades, the young republic experienced astonishing economic and geographic growth as its government became explicitly democratic for the first time. In the process, many older ways of life and inconvenient peoples were destroyed or shunted aside, as white farmers invaded Native American (and Mexican) lands and industrial capitalism enveloped the countryside. The course will focus on the turmoil that resulted from these changes, as well as on the era's remarkable achievements. Considerable attention will be devoted to Andrew Jackson himself, as a figure who both shaped and represented his era.

AMH 4172. The Civil War Era (3). In-depth study of the 20 years from 1845 to 1865. Emphasis will be placed on the coming of the Civil War, the secession crisis, and on both the military and nonmilitary events of the war years.

AMH 4173. Post-Civil War America, 1865–1890 (3). Analysis of post-Civil War America with emphasis on the Black role in American society and the attempt to heal the wounds of the Civil War. Other topics include the rise of big business, labor unions, and the last frontier.

AMH 4220. U.S. Progressive Era, 1890–1920 (3). This course will include a study of the development of domestic and foreign policy, the revolution of social thought, and the paradoxical path of reform in urbanized, industrial America. It will devote special attention to the nation's effort to accommodate old values with the new realities.

AMH 4231. The United States, 1920–1945: Prosperity, Depression, and World War II (3). A general course in United States history from 1920 through 1945, i.e., a study of political, economic, diplomatic, military, social, and cultural/intellectual developments during that period.

AMH 4270. The United States Since 1945 (3). This course focuses on the political and cultural issues faced by the United States during the period of the Cold War (1945 to 1988). Special attention is given to postwar affluence, suburban

America, the mass society, the movement from isolationism to interventionism, McCarthyism, the civil rights movement, social conflict in the 1960s, and the rise of postwar conservatism.

AMH 4273. America in the 1960s (3). Examines selective aspects of the era known as “the sixties.” Spanning two decades, it starts in 1954 with the decision to integrate America’s schools as a flash point for the civil rights struggle, and it concludes in 1974 with Richard Nixon’s resignation, the final statement in the Watergate affair. During those years of intense and accelerated change, civil rights, black power, the war in Vietnam, radical politics, and the counter culture divided the country so passionately that at times it appeared as though the nation might come apart.

AMH 4331. U.S. Intellectual History I: Beginning to 1880 (3). An interdisciplinary study of American thought from the Puritans to the late 19th century, asking, among other questions, what mission America assigned to itself. Among the ideas examined will be Puritanism, the Revolutionary ideology, federalism, the American Enlightenment, romanticism, individualism, and manifest destiny.

AMH 4332. U.S. Intellectual History II: 1880 to the Present (3). An interdisciplinary study of the impact on American thought of social Darwinism, industrialism, naturalism, the culture of consumption, radicalism, anticommunism, postindustrialism, and affluence. Examines the growth of cultural criticism as a task required of the 20th-century intellectual.

AMH 4402. The Old South (3). A study of the social and economic development of the Southern states from settlement by Europeans to the end of the Civil War with emphasis on the rise of the Cotton Kingdom and the causes of secession.

AMH 4403. The South Since 1865 (3). This course views the South both as a distinct region and as an area gradually coming back into “regular” American life after the Civil War. The unique problems of adjusting to defeat, the revolution in the labor system, and troubled race relations are considered.

AMH 4423. History of Florida from 1821 to the Present (3). A history of Florida from the period of its acquisition from Spain in 1821 until the present. The various “periods” in the state’s past are discussed with major attention given to the period 1920 to the present—the period of greatest growth.

AMH 4441. History of the Frontier to 1865 (3). This course examines the Westward Movement from 1763 until 1865. Social, political, economic, and military aspects of the frontier experience, and the significance of the frontier in American history, are examined.

AMH 4463. Urban America Since 1879 (3). The development of American cities and the attempts to deal with changing urban problems from 1879 to the present.

AMH 4510. United States Foreign Relations to 1900 (3). This course examines the ideas, forces, and institutions which shaped American foreign policy in the era when America evolved from an agrarian republic to an industrial empire.

AMH 4511. Twentieth-Century United States Foreign Relations (3). The focus in this course is on the responsibilities of global power and how American foreign policy changed to meet rapidly altering circumstances.

AMH 4542. War and American Society (3). This course will explore the impact of war on American diplomatic, economic, political, social, and legal developments and institutions from the American Revolution to the present.

AMH 4553. American Legal History I (3). Surveys the history of the U. S. Constitution up to 1800, including the British background, the first state constitutions, the Articles of Confederation, the Constitutional Convention, ratification debates, and first use of the Constitution in the 1790s. It concludes with the first major controversies faced by the founders, issues that the Constitution did not resolve for them easily. The course is not about constitutional interpretation or theories applied by the current Supreme Court.

AMH 4554. American Legal History II (3). This course surveys the history of both the U.S. Constitution and American law in the 19th-century. Topics include the Marshall Court, slave law and the Dred Scott decision, the impact of the

Civil War and Reconstruction on the law, and the effects of industrialization on American law. The course is not about constitutional interpretation or theories applied by the current Supreme Court.

AMH 4561. Women in 19th-Century America (3). This course examines the experiences of women in 19th century America, focusing upon the ways gender, race, ethnicity, class, religion and region interacted to shape women’s lives. Examines women’s family, work, social, and political roles. Also examines women’s contributions and quest for equality.

AMH 4562. Women in Modern America (3). This course examines the experiences and contributions of women in 20th-century America, with particular attention to the forces that served to differentiate the opportunities and roles of women from those of their male peers.

AMH 4565. Colonial and Revolutionary Era American Women’s History (3). Course explores the lives of Native American, African and European women before they came into contact in America, how that contact altered their patterns of behavior, and how major events in America affected women’s lives.

AMH 4571. Black America to 1877 (3). This course begins with the African background of Black Americans and ends with the final curtailment of Reconstruction in 1877. Although some portions of the course are topical, cutting across chronological divisions, there will be a general chronological progression from colonial times to the end of Reconstruction.

AMH 4572. Black America Since 1877 (3). This course traces the social, economic, cultural, and political activities of African-Americans from Reconstruction through the Civil Rights Movement.

AMH 4640. Humor and the American Mind (3). This course discusses American intellectual and cultural history from the 18th-century to the present, through the lens of humor. It investigates the relationship between American ideas and historical transformations. It uses humor to explore the connections and tensions between the various parts of the American mind.

Asian History

ASH 3100. History of Asia (3). This course is an introduction to political, cultural, and economic Asian history from antiquity to the present. It places special emphasis not only on the study of important Asian kings and leaders but also on the various religions which originated in Asia.

ASH 3200. History of the Ancient Near East (3). A survey of the Near East—Anatolia, Mesopotamia, Egypt, the Holy Land—in the ancient period. Also offered by the Department of Classical Languages, Literature, and Civilization.

ASH 4223. Modern Middle East (3). An examination of modern Middle Eastern history, focusing on the origins of recent problems in the imperialistic era, the clash of political and cultural traditions, national rivalries, the impact of OPEC, the Palestinians, and the Iranian Revolution.

ASH 4261. Central Asia Since the Mongols (3). This course covers Central Asian history through the medieval and modern periods, with special emphasis on the political and ethnic histories of the Central Asian peoples.

ASH 4402. China to 1898 (3). A study of China from Han through the Hundred Days’ Reform of 1898.

ASH 4404. China Since 1898 (3). A study of China from the Boxer Uprising through the Kuomintang and Communist Revolutions.

ASH 4442. History of Modern Japan (3). An examination of the history of Japan from its emergence as a modern state in the mid-19th century, through its defeat in World War II, to its current position as a leading economic power. Focus is on political and social evolution, empire building, postwar reconstruction, and U.S.-Japan relations.

ASH 4520. Traditional India (3). This course deals with the history of India from antiquity to the 17th century. It puts special emphasis not only on the study of Indian reli-

gions such as Hinduism, Buddhism, Jainism, and Sikhism, but also on the roles played by various important ancient and medieval kings.

ASH 4550. Modern India (3). This course is an introduction to the history of India from the 18th century to the present. It deals in depth with the impact of British rule on India and the lives of modern South Asian leaders like Gandhi, Nehru, and Jinnah.

Classical History

Note: the following courses are offered through the Department of Classical Languages, Literature, and Civilization.

CLA 4437r. Studies in Greek History (3). Study of specified periods of Greek history, whether archaic, classical, or Hellenistic. May be repeated to a maximum of six (6) semester hours.

CLA 4447r. Studies in Roman History (3). Study of specified periods of Roman history in the Republic or Empire. May be repeated to a maximum of six (6) semester hours.

CLA 4450r. Studies in Ancient Near Eastern History (3). Specific studies in the ancient Near East. May be repeated to a maximum of six (6) semester hours.

CLA 4880. Roman Law (3). A survey of the principles and procedures of Roman law.

EUH 3420. Rise and Fall of Classical Civilization (3). A survey of the histories of Greece and Rome and their major accomplishments.

EUH 4402. The Age of Alexander the Great (3). Study of the Greek world from the death of Socrates (399 B.C.) to the Roman conquest (146 B.C., the sack of Corinth by Mummius).

EUH 4412. The Roman Republic (3). Study of the history of Rome from its foundation (traditionally 753 B.C.) to the fall of the Roman Republic (31 B.C., The Battle of Actium).

EUH 4413. The Roman Empire (3). The Roman Empire from the Augustus to Constantine. Emphasis on the evolution from the principate of the early empire to the monarchy of the late empire.

EUH 4437. Classical Athens and Sparta (3). History of Greece from the beginning to Alexander the Great. Emphasis on the social and political structures of Sparta and Athens.

European History

EUH 2035. Hitler and Stalin: Their Era and Legacies (3). Prerequisite: 3 hours of college history. Examines the dictatorships of Hitler and Stalin in terms of their political, social and cultural dimensions and their legacies beyond World War II. Course will not count as credit toward the history major.

EUH 3004. 19th-Century Europe: A Survey (3). European history from the close of the Napoleonic Wars to the turn of the century, a period in which Europe was at the height of its wealth and power. Particular attention will be paid to the major powers.

EUH 3005. 20th-Century Europe: A Survey (3). European history from the turn of the century through the two world wars. Particular attention will be paid to the major powers in this period when Europe declined from its preeminent position.

EUH 3431. Modern Italy (3). Traces the development of Italy from the Enlightenment to the present. Discussions will concentrate on the major social, political, and intellectual currents, centering on the unification movement, the crisis of the Liberal State, and Fascism.

EUH 3451. Modern France (3). French history from the ancient regime and its fall through the turbulent 19th century, the disastrous 20th century, and recovery after the Second World War.

EUH 3462. Modern Germany (3). Traces the history of Germany from 1815 to the present. Attention is primarily directed to the origins of the German national state; the political, economic, and cultural background of Nazi Germany; and the development of two rival states in the post-World War II era.

EUH 3501. The Making of Modern England (3). A rapid survey of English history from Anglo-Saxon times to 1783. The lectures will emphasize the constitutional and legal aspects of English history, while the readings will cover broadly cultural and social aspects as well.

EUH 3532. England, the Empire and the Commonwealth (3). A history of Great Britain and the Empire-Commonwealth since 1783 and developments within the Commonwealth itself. Some consideration is given to post-World War II changes within Britain and to Britain's foreign affairs.

EUH 3533. History of Ireland (3). Surveys the history of Ireland from prehistory and the Celtic-Gaelic settlement to the near-present. Examines the waves of settlers who came to the island since the Celts, and the problem of defining the Irish (i.e. the roles of religion and ethnicity). It cannot avoid treating in depth the tangled and tragic relations of the Irish with the kingdom of England, later Great Britain.

EUH 3551. Modern Poland (3). This course will examine the social, economic, and cultural as well as political development of the Polish nation in the 19th and 20th centuries. Although particular stress will be placed on internal history, appropriate attention will focus on Poland's role in international relations.

EUH 3571. Russia to Nicholas I (3). Russian history from the emergence of the Muscovite state through the establishment of the Romanov dynasty, to the reforms of Peter the Great and the enlightened despotism of Catherine the Great, and finally the nature of the state in the early 19th century.

EUH 3572. History of Russia, 1825 to the Present (3). This course will examine the social, economic, and cultural as well as the political development of Russia from the reign of Tsar Nicholas I to the present day. Although particular stress will be on internal history, appropriate attention will be paid to Russia's role in international relations.

EUH 4121. Earlier Middle Ages (3). This course provides a survey of European history from c. 300 to c. 1150, from the origins of the medieval world in the Roman, Christian, and Germanic past through the gradual emergence of a distinctively European civilization to its first major period of expansion and accomplishment.

EUH 4122. Later Middle Ages (3). This course provides a survey of European history from c. 1150 to c. 1500, from the height of medieval civilization in Europe through the crises of the late Middle Ages to the recovery leading to a new age.

EUH 4124. The Crusades (3). This course will provide a historical understanding of: the material and spiritual basis for the reentry of Western Christendom into the Mediterranean world; the ways in which Crusaders organized, financed, and participated in Crusades and the impact this had on European institutions and thought; the interrelations of Christians (East and West) and the Muslim world in the period of the Crusades.

EUH 4140. Renaissance (3). A study of the character of medieval Italy and a survey of economic, political, and cultural changes in Western Europe.

EUH 4144. Reformation (3). An examination of the Protestant and Catholic Reformations in Europe from 1517 to the Peace of Westphalia in 1648.

EUH 4233. Rise of Nationalism (3). This course analyzes the European struggle toward democracy and nationalism from the collapse of Napoleonic Europe to the establishment of the German Empire, emphasizing the development of liberalism, socialism, communism, etc.

EUH 4241. The Holocaust in Historical Perspective (3). This course details the background and career of the Holocaust as well as the continuing problem of "Holocaust denial." Special emphasis is given to the ideas of such racists as de Gobineau and Hitler.

EUH 4242. World War I: Europe, 1900-1918 (3). This course will cover European history in the period 1900-1918 with a review of the domestic situation and foreign policy of the major Continental powers with an analysis of the origins of the war, how and why the war was fought as it was, and the experience of the major powers on the home front.

EUH 4243. Europe, 1870-1900: The Age of European Hegemony (3). This course will examine the period when the European states were at the apogee of their power and will concentrate on the domestic situation and foreign policy of the major continental powers, as well as special emphasis on Bismarkian diplomacy and the imperial rivalries in the Balkans and overseas.

EUH 4244. Fascism (3). This course deals with the organization, leaders, ideology, and governments of Fascist movements between 1919 and the end of World War II. The focus will be a comparative examination of Mussolini's Fascist dictatorship in Italy and Hitler's Nazi regime in Germany.

EUH 4250. War and the Nation State (3). This course examines the phenomenon of war in its broader social-political-economic context from a historical and comparative perspective.

EUH 4282. Europe in the Cold War and Detente (3). Deals with the post-World War II era in Europe, tracing occupation policies, the division of Europe East and West, the development of the major European states, and the efforts to arrive at detente in respect to East-West tensions.

EUH 4331. East Central Europe, 1815 to Present (3). This course will examine the social, political, economic, and cultural development of the lands traditionally known as Poland, Hungary, Czechoslovakia, and the Baltic States from the Congress of Vienna to the present. Wherever possible, attempts will be made to present issues within a comparative framework.

EUH 4332. Balkans Since 1700 (3). The course of Balkan history emphasizing the penetration of the Hapsburg and Russian empires, the decay of the Ottomans, and the emergence of the Balkan states after the wars of liberation, with stress on the cultural peculiarities of the various ethnic groups.

EUH 4452. The Age of the French Revolution, 1715-1795 (3). This course is a study of the 18th century and its transformation by the forces unleashed by the French Revolution. The radicalization of the Revolution is traced to the Terror and the overthrow of Robespierre's dictatorship.

EUH 4454. Napoleonic Europe, 1795-1815 (3). This course traces the rise of Napoleon and his impact—political, social, economic, military, etc.—on France and Europe, culminating in his defeat at Waterloo.

EUH 4465. Nazi Germany (3). Deals with the background of the Nazi regime, the character of Hitler's dictatorship, and the origins and course of WWII in its European context. Also examined is National Socialism's impact on German institutions and racial consequences.

EUH 4500. England in the Middle Ages (3). History of England from Anglo-Saxon settlements to the establishment of the Tudor Dynasty. The course covers all significant aspects of life in medieval England, but emphasis is on growth of English common law and the constitution. Of particular interest to prelaw students.

EUH 4502. England Since 1870 (3). A history of Great Britain (since 1870) from a great world power to a European Common Market member. Economic, diplomatic, imperial, social, and political affairs are considered.

EUH 4510. Tudor England (3). History of England from the Yorkist kings in the late 15th century to the end of the reign of Elizabeth I in 1603. In addition, the course will cover the major points of Scottish and Irish history in the 16th century as well as English culture.

EUH 4512. Stuart England (3). History of England from the reign of James I to the death of Queen Anne in 1714. Scottish history will be covered as well, and due attention will be given to Irish history and to such areas as the arts, literature, and political theory.

EUH 4520. England, 1714-1870 (3). This course investigates the social cultural and political history of Great Britain from 1714 to approximately 1870. Major themes include the evolution of social structures; new cultural trends; changing political culture, ideologies and institutions as well as the relationship between these perspectives.

EUH 4544. Sex and Class in England, 1750-1914 (3). Offers students a perspective on the critical relations between class and gender in industrializing England, 1750-1914. Examines the lives and activities of English women, from the poorest to the wealthiest classes, against the background of the major dislocations occurring in British society during this period.

EUH 4574. 19th-Century Russia (3). An examination of the history of Russia from 1801 to the beginning of the 20th century, with emphasis on foreign relations and the development of the political and social conflicts that resulted in the revolutions of 1917.

EUH 4576. 20th-Century Russia (3). This course will examine the social, economic, cultural, and international, as well as political, development of Russia from the final years of Tsarist rule through the Bolshevik Revolution to its emergence as one of the world's superpowers in the 1990s.

EUH 4602. European Intellectual History, 1500-1800 (3). History of ideas documenting transition from "Medieval Mind" to "Modern Mind," including impact of four Renaissances, Protestant Reformation, Scientific Revolution, and Age of Enlightenment. Interdisciplinary approach includes philosophy, literature, art, political theory, science, economic thought, religion, and music.

EUH 4603. European Intellectual History, 1800 to Present (3). History of ideas in the last two hundred years, exploring the 19th century as the Age of "Ism's" (including Liberalism, Conservatism, Communism, Romanticism, Idealism, Nationalism, Industrialism, Imperialism, Positivism, Darwinism, Historicism) and establishing the 20th century as the Age of Crisis in which traditional Western Civilization disintegrates.

Latin American History

LAH 3411. History of Mexico, Central America, and the Caribbean (3). Covers the history of Mexico, Central America, and the Caribbean nations of Cuba, Dominican Republic, Haiti, and Puerto Rico from the Indian civilizations of the remote past to the social conflicts of the present.

LAH 3456. History of Panama Since 1940 (3). Covers the history of Panama from 1940 to the present. Emphasizes the impact of WWII, politics, social change and democracy in Panama.

LAH 3500. History of South America (3). An introductory survey from the Inca Civilization to modern Chile, Peru, Argentina, etc. Emphasis is placed on the contrasts and conflicts between Indian and European culture and on basic social, economic, and political evolution. The persistence of "underdevelopment" and poverty are also explored.

LAH 3734. Latin American History Through Film (3). Introduction to Latin American history through films. Analysis of how Latin Americans are portrayed in international and national cinema. Integration of television and literature to illustrate the impact of mass media on Latin Americans.

LAH 4430. History of Mexico (3). Covers the history of Mexico from the great Indian empires to the present, emphasizing the 19th and 20th centuries. Deals with cultural and social history as well as political movements.

LAH 4470. History of the Caribbean (3). Cuba, Puerto Rico, and other Caribbean societies are the subjects of this course. European and United States colonialism and local Caribbean forces are studied to help understand the area's social, economic, and political problems and prospects.

LAH 4600. History of Brazil (3). Latin America's largest and most populous nation is the subject of this course. Themes include the evolution of Brazil's multiethnic society, the struggle for economic development, and the search for a viable political regime.

LAH 4723. Race and Class in Colonial Latin America (3). Comprehensive examination of Latin America from 1492 to 1830, with emphasis on native and African reactions to colonial rule and the creation and growth of multi-ethnic groups and their solidification into classes.

LAH 4748. Social Revolutionary Movements in Latin America (3). Thematic coverage of the history of social revolutionary movements in Latin America, using specific case studies drawn from, among others, the Mexican, Bolivian, and Cuban revolutions.

Others

HIS 3308r. Voices of War (3). Course explores in depth the impact of war on the immediate participants, the societies from which they came, and the ultimate consequences. The specific war experiences will be selected by the instructor and could cover, for example, the U.S. Civil War, WWI, WWII, the Vietnam War, or the Peloponnesian War. The material will be drawn (as available) from diaries, letters, memoirs, autobiographies, oral histories, etc. May be repeated to a maximum of twelve (12) semester hours.

HIS 3949r. Cooperative Education Work Experience (0). (S/U grade only.) This course will not count as credit toward the history major.

HIS 4070. Oral History (3). Exposes students to the use of oral history as a research technique and provides experience in conducting professionally acceptable oral history interviews. Course will not count as credit toward the history major.

HIS 4080. Archives Management (3). The nature of archives; various types of records; arranging and processing archives; restoring and protecting records; archival institutions, policies, and procedures. Course will not count as credit toward the history major.

HIS 4081. Museum Management (3). History and philosophy of museums, especially historical museums; organization and operation; planning exhibits; educational activities; and public relations. Course will not count as credit toward the history major.

HIS 4086. Historic Sites Identification and Preservation (3). The identification, preservation, and maintenance of historic sites; the historic preservation movement. Course will not count as credit toward the history major.

HIS 4906r. Directed Individual Study (1–4). May be repeated to a maximum of twelve (12) semester hours. Course will not count as credit toward the history major or minor.

HIS 4930r. Special Topics in History (3). Specialized approaches to history. Topics will vary. The course may be repeated for different topics to a maximum of nine (9) semester hours.

HIS 4931r. Tutorial in History (1–2). Prerequisites: Senior history majors and minors only; instructor's permission. Selected topics in history. A maximum enrollment of five (5) students in each tutorial. May be repeated only once and to a maximum of four (4) semester hours. Course will not count as credit toward the history major or minor.

HIS 4935r. Senior Seminar (3). Advanced training in historical methods and historiography. The historical material (African, American, Asian, British, European, Latin American, or Middle Eastern) varies from seminar to seminar depending upon the instructor's area of expertise. May be repeated to a maximum of six (6) semester hours.

HIS 4936r. Honors Work (3). Open to participants in the University's and departmental honors program. The student must complete six (6) thesis hours. This course will not count as credit toward the history major.

WOH 4244. World War II (3). Avoiding the common Eurocentric approach, this course deals with World War II on a global basis. It analyzes the character of the Pacific theater as well as that of the European war, presenting the student with insights into and contrasts between the various belligerents.

HISTORY AND PHILOSOPHY OF EDUCATION: see Educational Leadership and Policy Studies

Dedman School of HOSPITALITY

COLLEGE OF BUSINESS

Director: Robert H. Bosselman; *Professors:* Bonn, Bosselman, Brymer; *Associate Professors:* Harris, Laudadio, Ohlin; *Instructor:* Reidel; *Lecturer:* LaTour; *Assistant in Hospitality:* Lanford, Riscigno

The program in hospitality administration was established in 1947 in recognition of the demand for hotel and restaurant industry executives with the objective of providing the kind of education tomorrow's hospitality manager will need. The curriculum is designed so that students must meet high standards of achievement in general education and must acquire not only the specialized knowledge needed for their hospitality industry careers, but also understand the basic functions, objectives, and tools of management that are common to executive roles.

The Dedman School of Hospitality is located in the South Building of the University Center, which provides for the specialized academic/training objectives established by the school. In addition to classrooms, this state-of-the-art facility provides hospitality students with teaching kitchens, a satellite technology center, a publication resource center, and a placement center. The building also contains an affiliated 35,000 square-foot, professionally managed city club that provides hospitality students with real-world food and beverage experience in elegant surroundings.

One of the most rewarding benefits of an education in hospitality administration at The Florida State University is that through the years a personal, intimate, congenial climate, in which students may develop to their fullest potential, has remained a chief attraction. All of the school's energies and resources are devoted exclusively to preparing each student for a professional career.

The Dedman School of Hospitality at the University is nationally and internationally recognized as one of the best. It is consistently ranked in the top five. Many firms visit the school each year to interview students for entry-level management positions. Graduates of the program enjoy top managerial and ownership positions in clubs, restaurants, hotels, resorts, institutions, and other facets of the hospitality industry. The re-

quirement of practical, on-the-job experience, where the student applies classroom knowledge to the workplace, prepares the hospitality administration graduate for the operational challenges of industry.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. Specific prerequisites are required for admission into the upper-division program and **must** be completed by the student at either a community college or a state university prior to being admitted to this program. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.**

The following lists the common prerequisites or their substitutions necessary for admission into this upper-division degree program:

1. ACG X021 or ACG X001 and ACG X011;
2. ACG X071;
3. CGS X100*;
4. ECO X013;
5. ECO X023;
6. MAC X233 or MAC X230;
7. STA X023 or QMB X100 (students at Florida State University may substitute STA X014).

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Requirements for a Major in Hospitality Administration

All students must complete 1) the University-wide baccalaureate degree requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*; 2) the State of Florida common prerequisites for hospitality administration majors; 3) the general business core requirements for hospitality administration majors; 4) the general business breadth requirements for hospitality administration majors; and 5) the major

area requirements for hospitality administration majors. **Note:** to be eligible to pursue a hospitality administration major, students must meet the admission requirements of the College of Business. These admission requirements are described in the "College of Business" section of this *General Bulletin*.

General Business Core Requirements

All hospitality administration majors must complete the following five (5) courses. A grade of "C–" or better must be earned in each course.

BUL	3310	The Legal Environment of Business (3).
FIN	3403	Financial Management of the Firm (3).
GEB	3213	Business Communications (3).
MAN	3240	Organizational Behavior (3).
MAR	3023	Basic Marketing Concepts (3).

General Business Breadth Requirements

All hospitality administration majors must complete five (5) courses as follows. Each course selected must be completed with a grade of "C–" or better.

HFT	3240	Managing Service Organizations (3).
-----	------	-------------------------------------

Plus four (4) electives from the following list of courses:

FIN	3244	Financial Markets, Institutions, and International Finance Systems (3).
ISM	3011	Introduction to Management Information Systems (3).
MAN	3504	Services Operations Management (3).
MAN	3600	Multinational Business Operations (3).
MAN	4720	Strategic Management and Business Policy (3).
MAR	3700	Professional Selling (3).
QMB	3200	Quantitative Methods for Business Decisions (3).
REE	3043	Real Estate (3).

RMI 3011 Risk Management/
Insurance (3).

Major Area Requirements

All hospitality administration majors must complete the courses listed below. A minimum grade point average (GPA) of 2.0 must be earned in the courses used to satisfy the hospitality administration major area requirements.

FSS 3337	Quantity Food Production Management (2).
FSS 3337L	Quantity Food Production Management Laboratory (1).
FSS 4338	Food and Beverage Management (2).
FSS 4338L	Food and Beverage Management Laboratory (1).
HFT 3220	Human Resource Management in Hospitality Operations (3).
HFT 3224	Managerial Behavior in Hospitality Operations (3).
HFT 4471	Financial Management Control Systems (3).
HFT 4502	Hospitality Services Marketing and Research (3).

Plus three (3) electives from the following list of courses:

FSS 3423	Property Management for Hospitality Operations (3).
HFT 3272	Senior Services Management (3).
HFT 3277	Club Management (3).
HFT 3354	Agronomy for Golf Course Management (3).
HFT 3600	Law for Hospitality Operations (3).
HFT 3700	Tourism Management and the Environment (3).
HFT 4253	Lodging Management (3).
HFT 4294	Strategic Management in Hospitality Administration (3).
HFT 4866	Wine and Culture (3).
HFT 4930r	Special Topics in Hospitality Administration (3).

Students enrolled in the Dedman School of Hospitality must complete one thousand (1,000) clock hours of satisfactory, verifiable work experience in the hospitality industry. The one thousand (1,000) hours of work experience must be completed prior to graduation, with the last 500 hours completed while enrolled at The Florida State University.

To enhance their employment opportunities, students may choose to complete one of the concentrations described below in addition to the requirements for the major in hospitality administration.

Concentration in Professional Golf Management

HFT 3277 Club Management (3)

HFT 3354 Agronomy for Golf Course Management (3)

HFT 4930r Special Topics in Hospitality Administration [Professional Golf Management] (3)

To concentrate in professional golf management, students must present evidence, from a site approved by the PGM Director, of playing proficiency reflected in a handicap of 8 or lower, or pass a players examination administered by The Florida State University. Students must complete one thousand (1,000) clock hours under the supervision of a University approved golf professional. These hours will satisfy the work experience requirement for the major in hospitality administration.

Concentration in Management Information Systems

ISM 4030 Management Information Systems Analysis and Design (3)

ISM 4212 Information for Operating Control & Data Management (3)

One of the courses listed below:

CGS 3403 Introduction to COBOL Programming for Business (3);

ISM 4113 Information and Communications Systems Management (3);

ISM 4905 Directed Individual Study (3)

Students concentrating in management information systems are strongly encouraged to fulfill a portion of their one thousand (1,000) clock hours of work experience requirement in a hospitality computer setting.

Concentration in Senior Services Management

HFT 3272 Senior Services Management (3)

SOW 4645 Aging and Old Age: Social Work with the Aged (3)

One of the courses listed below:

ADE 5193 Education and Training in Gerontology (3);

FAD 4340 Later Maturity (3);

NUR 4284 Dynamics of Aging (3);

PSY 4930 Special Topics in Psychology: Seminar in the Psychology of Aging (3)

Students concentrating in senior services management are required to complete five hundred (500) clock hours of work experience in an approved senior services facility. These hours must be completed prior to graduation and may be applied toward the one thousand (1,000) clock hours required for the major in hospitality administration.

Summer Program in Resort and Condominium Management

HFT 3700 Tourism Management and the Environment (3)

HFT 3941 Management Internship (3)

HFT 4253 Lodging Management (3)

HFT 4502 Hospitality Services Marketing and Research (3).

These classes are taught by The Florida State University faculty at selected sites in the summer term. Classes meet for extended sessions on Sunday and Monday of each week. The remainder of the week is spent working in various departments at the selected sites. Courses completed in this program count toward the State of Florida requirement that at least nine (9) semester hours be completed in the summer term at one of the State University System senior institutions.

European Summer Study Program

Combining accelerated classroom instruction with travel and on-site observation of industry operation, the program achieves an ideal educational balance. Classes are taught in English by The Florida State University faculty. The following courses are offered:

HFT 4930r Special Topics in Hospitality Administration [International Hotel Administration] (3)

HFT 4930r Special Topics in Hospitality Administration [Special Studies in International Hospitality Administration] (3)

HFT 4930r Special Topics in Hospitality Administration [European Food & Wine] (3)

HFT 4930r Special Topics in Hospitality Administration [European Travel & Tourism] (3)

Courses completed in this program count toward the State of Florida requirement that at least nine (9) semester hours be completed in the summer term at one of the State University System senior institutions.

Definition of Prefixes

FSS — Food Service System

HFT — Hospitality, Food, Tourism

Undergraduate Courses

FSS 3337. Quantity Food Production Management (2). Corequisite: FSS 3337L. Food and beverage sanitation, production, and service; food service equipment; menu planning and costing; nutrition and safety. Introduction to basic food and beverage management concepts.

FSS 3337L. Quantity Food Production Management Laboratory (1). Corequisite: FSS 3337. Commercial quantity food production experience.

FSS 3423. Property Management in Hospitality Operations (3). The management of maintenance, energy, and engineering systems in hospitality industries; food service facilities planning, productivity work analysis, and sanitation; with computer applications.

FSS 4338. Food and Beverage Management (2). Prerequisites: FSS 3337, 3337L; Corequisite: FSS 4338L. Management methods and concepts utilized in administration of advanced food and beverage functions.

FSS 4338L. Food and Beverage Management Laboratory (1). Prerequisites: FSS 3337, 3337L; Corequisite: FSS 4338. Production and service of international cuisine.

HFT 3000. Introduction to Hospitality and Tourism Management (3). An introductory review of the segments, disciplines, career opportunities, and current issues facing the hospitality industry. Industry leaders will be featured as guest speakers. Open to nonmajors.

HFT 3220. Human Resource Management in Hospitality Operations (3). Prerequisite or Corequisite: MAN 3109. Analysis of human resource issues in the hospitality industry such as staffing, training, appraisal, wage and hour administration, discrimination, harassment, and other governmental issues.

HFT 3224. Managerial Behavior in Hospitality Operations (3). Prerequisite: HFT 3220. Analysis and development of interpersonal management skills including leadership, ethics, employee and guest relations, team building. Discussions on current issues, training, and quality management in the hospitality industry.

HFT 3240. Managing Service Organizations (3). Prerequisites: MAN 3240; MAR 3023. An in-depth examination of the concept of service and the linkages of the three most important functional areas of the firm: marketing, operations, and human resources. The course also addresses the concept of quality.

HFT 3272. Senior Services Management (3). Prerequisite: HFT 3220; Corequisite: HFT 4253. The planning, development, operation and management of retirement facilities. Explores the various types of senior living facilities, including multi-level, independent, assisted living, and skilled-nursing care centers.

HFT 3277. Club Management (3). Prerequisite: HFT 4253. The development and management of clubs, including golf course operations, organizational and financial structure, membership and guest relations, design and other amenities.

HFT 3354. Agronomy for Golf Course Management (3). An overview of horticultural and agronomic practices needed by golf course managers in the hospitality industry.

HFT 3424. Cost Control Systems in Hospitality Operations (3). Prerequisites or Corequisites: MAN 3240; ACG 2021. A detailed analysis of food, beverage, labor, and cash controls. In-depth purchasing component including furniture, fixtures, and equipment (FF&E). Computer

usage in labor control, cost analysis, and marketing mix analysis. A systems approach to management of quality through the design of appropriate controls.

HFT 3600. Law for Hospitality Operations (3). Prerequisites: HFT 3220; BUL 3310. Basic concepts of law as applied to the hospitality industry including legal definitions, innkeeper/guest relationships, liability, and other legal problems.

HFT 3700. Tourism Management and the Environment (3). Tourism management, organization, and development. Emphasis on economic and environmental issues confronting the industry such as balancing use and preservation. Open to nonmajors.

HFT 3941r. Management Internship (1-3). (S/U grade only.) Prerequisites: Three, three (3) hour courses in hospitality administration, excluding DIS; 3.0 average. A management internship program providing on-the-job management experience in some phase of the hospitality industry. HAD majors only. May be repeated to a maximum of nine (9) semester hours.

HFT 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

HFT 4253. Lodging Management (3). Prerequisite: HFT 3220. The study of hotel, motel, resort, and other types of lodging operations including functional department organization, operation, and systems. Emphasis on rooms department and computer usage in lodging properties as well as quality issues.

HFT 4294. Strategic Management and Operations Analysis in Hospitality Administration (3). Prerequisites or corequisites: all hospitality core courses. Integrative, applied course in strategic management and decision making in the hospitality industry utilizing case studies and simulation exercises. An in-depth examination of the use of various management tools for problem solving. Discussions on industry trends, multicultural, and quality issues.

HFT 4471. Financial Management Control Systems (3). Prerequisites: ACG 2021; FIN 3403. Design and interpretation of financial statements, budgets, and internal reporting systems for hospitality operations. In-depth examination of system of accounts (P&L, balance sheets, cash flow), computer usage in financial management, financial feasibility, and valuation of assets.

HFT 4502. Hospitality Services Marketing and Research (3). Prerequisite: MAR 3023. Applications of strategic market research and product/service positioning in the hospitality industry. Emphasis on competitive marketing strategies including sales, advertising, and promotions. Discussion on unique features of hospitality marketing, market research/analysis, ethics, and quality.

HFT 4866. Wine and Culture (3). An introduction to basic wine knowledge that, together with wine tasting, enhances student understanding and appreciation of wine and its place in our culture and heritage. Restricted to students 21 years of age and older. May not be taken as a S/U course.

HFT 4905r. Directed Individual Study (1-3). May be repeated up to five (5) times.

HFT 4930r. Special Topics in Hospitality Administration (1-3). In-depth study of current topics in hospitality administration. May be repeated to a maximum of twelve (12) semester hours when topics change.

HFT 4941. Field Study in Hospitality Administration (0). (S/U grade only.) 1,000 hours of satisfactory, acceptable work experience in the hospitality industry. Discussion expands and integrates the work experience to enhance management decision-making skills. Report and supervisors' evaluation required. Students should register for this class the semester in which they will complete the work experience requirement.

HFT 4970r. Honors Thesis (3). Prerequisite: Admission to the honors program. May be repeated to a maximum of six (6) semester hours. Six (6) semester hours of thesis are required to complete honors in the major.

Graduate Courses

Please see the "Department of Management" section of the *Graduate Bulletin* for the full course descriptions.

- HFT 5245. Managing Service Organizations (3).
- HFT 5477. Financial and Cost Control Systems for Hospitality and Tourism Organizations (3).
- HFT 5506. Services Marketing and Research for Hospitality and Tourism Organizations (3).
- HFT 5697. Legal Environment of Hospitality and Tourism Organizations (3).
- HFT 5908. Studies in Hospitality and Tourism (3).
- HFT 5935. Special Topics in Hospitality and Tourism (3).

HOUSING AND COMMUNITY DEVELOPMENT: see Urban and Regional Planning

Program in HUMANITIES

COLLEGE OF ARTS AND SCIENCES

Program Director: Leon Golden; *Undergraduate Seminar Instructors:* William Cloonan, David Darst, Leon Golden; *Academic Coordinator and Major Advisor:* Barbara Reis

A bachelor of arts (BA) degree in humanities offers a broad interdisciplinary education in the thought, literature, art history, and music of Western and Eastern cultures. The interdepartmental undergraduate major is offered as a preparation for graduate work in the hu-

manities and as a basic cultural background for a variety of professional fields, such as teaching, journalism, law, librarianship, foreign service, the religious professions, music, arts administration, and government service.

Requirements for a Major in Humanities

Please review all college-wide degree requirements in the "College of Arts and Sciences" section of this *General Bulletin*. All humanities majors must meet the language requirement for students seeking the bachelor of arts (BA) degree in the College of Arts and Sciences. For

alternatives to satisfy this requirement, refer to 'Foreign Language' in the "College of Arts and Sciences" section of this *General Bulletin*. If a student chooses to double major, only six (6) semester hours may be applied to both majors. For general policies pertinent to a double major, refer to 'Second Majors and Academic Regulations' in the "Academic Regulations and Procedures" section of this *General Bulletin*.

The major and minor combination comprises a minimum of thirty-nine (39) semester hours beyond the liberal studies requirements and numbered above 1999. All course work counted toward the humanities major must be completed with a "C-" or higher. All humanities majors must take HUM 2221, 2235, and 2250,

or their equivalents, before taking the required HUM 4935 seminar. Humanities majors must also take a nonwestern humanities course (x; 3 CU) and a multicultural diversity course (y; 3 CU), or their equivalents, before graduation. If these courses have not been taken to fulfill the liberal studies requirement, they may be taken as University electives or in the concentration of the major with the approval of a Program in Humanities advisor. If a student chooses to double major, only six (6) semester hours may be applied to both majors. The administrative office of the Program in Humanities has a complete listing of approved courses for departments and areas of concentration. The courses will be distributed as follows:

1. Eighteen (18) semester hours in one of the following departments: American Studies; Art History; Asian Studies; Classical Languages, Literature, and Civilization; Dance/Theatre History; English; History; Communication; Film Studies; Interior Design/Art History; Latin American and Caribbean Studies; Modern Languages and Linguistics; Music (history and theory); Philosophy; Religion; and Theatre (history and criticism); or in literature courses in a classical language numbered above 1999 or a modern language numbered above 2999;

2. Fifteen (15) semester hours in one of the following concentrations or time periods—American Studies; Asian and Middle East Studies; Black Studies; Latin American and Caribbean Studies; Women's Studies; or Classical studies, Medieval studies, Renaissance studies, 18th-century studies, 19th-century studies, 20th-century studies; with no more than two courses in this cluster being selected from any one of the above-mentioned departments;

3. Nine (9) semester hours of criticism and appreciation to be selected as follows: **one course from each of the three (3) categories listed below (a, b, and c)**

a) Choose **one** of the two courses listed below.

ARH 3056 History and Criticism of Art I (3)

ARH 3057 History and Criticism of Art II (3)

b) Choose **one** of the four courses listed below.

ENG 3014 Critical Issues in Literary Studies (3)

ENG 3115 Film Theory and Criticism (3)

ENL 3334 Introduction to Shakespeare (3)

ENL 4333 Shakespeare (3)

c) Choose **one** of the five courses listed below.

MUH 2011 Introduction to Music History—Music Appreciation: 18th and 19th Centuries(3)

MUH 2012 Music in Western Culture, 19th and 20th Centuries (3)

MUH 2051 Music Cultures of the World—Music of Tribal and Folk Culture (3)

MUH 2052 Music Cultures of the World—Ritual and Art Music of the Non-Western World (3)

MUH 3053 Minority Musics in North America (3)

Note: a minimum of six (6) of the above hours is to be taken as part of the course requirements for either the departmental or the time period/concentration segments of the program.

4. Three (3) semester hours in HUM 4935r Seminar in the Humanities. **Note:** this seminar can only be taken after receiving advisor approval and item #3 above has been completed. The seminar is **only** offered one semester a year.

All humanities majors are required to schedule regular advising appointments. Additionally, humanities majors are required to schedule a graduation check with a designated humanities advisor the semester prior to graduation. Failure to obtain advisor clearance will cause a delay in the student's graduation date.

Honors in the Major

The Program in Humanities offers a program in honors in the major to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Requirements for a Minor in Humanities

Courses taken to meet the humanities minor are **not** applicable to **any** other requirement. The undergraduate minor may be accomplished in one of the two following ways:

1. Twelve (12) semester hours in courses with a HUM prefix; or,

2. Fifteen (15) semester hours of courses specified by the humanities program. The list is available upon request. These fifteen hours are divided as six (6) semester hours in one department and nine (9) semester hours in a second department. At least six (6) of these fifteen (15) semester hours must be earned in courses numbered above 2999. All course work counted toward the humanities must be completed with a "C–" or higher.

Definition of Prefixes

HIS — History: General
HUM — Humanities
LIT — Literature

Undergraduate Courses

HUM 2221. Humanities: Homer to Gothic (3). Introduction to the thought, values, and arts of Western culture from Homer to the Gothic.

HUM 2235. Humanities: From the Renaissance to the Enlightenment (3). Introduction to the thought, values, and arts of Western culture from the Renaissance to the Enlightenment.

HUM 2250. Humanities: 18th-Century Romanticism to Postmodernism (3). Introduction to the thought, values, and arts of Western culture from 18th-Century Romanticism to the Postmodern period.

HUM 2944r. University Honors Colloquium (1). (S/U grade only.) Prerequisite: Honors students only. Each fall faculty from across the academic and creative arts spectrum explore "Art and Inquiry in the Modern University" with entering honors students. Discussions follow each weekly presentation. Students are required to write responses totaling two thousand (2,000) words. May be repeated to a total of two (2) semester hours.

HUM 3251. Humanities: Film and 20th Century Culture (3). Introduction to the thought, values, and arts of Western culture, with special emphasis on film.

HUM 3321. Multicultural Dimensions of Film and 20th-Century Culture (3). Explores diversity within Western culture by focusing on film as a key medium for shaping social and cultural attitudes and values. Primary emphasis will be placed on the themes of race and gender but the student will also be trained in the analysis and appreciation of film as a uniquely modern art form.

HUM 3324. Cultural Imperialism (3). An analysis of the significant works of literature and the other arts created under the dominant "imperial" cultures. The course focuses upon themes relating to colonial subjugation. Works will be analyzed from the perspective of the dominating culture and from the contrasting vision of the subjugated colonial cultures.

HUM 3413. Humanities: South Asian (3). Introduction to the religion, philosophy, literature, and arts of Indian and Islamic culture in their classical and modern expressions. Not offered every semester.

HUM 3416. East Asian Humanities (3). Introduction to the religion, philosophy, literature, and arts of Chinese and Japanese culture in their classical and modern expressions. Not offered every semester.

HUM 3800. Humanities: Principles of Criticism and Appreciation (3). Introduction to the principles of criticism and appreciation in the arts and the humanities.

HUM 3930r. Humanities: Special Topics (1–3). May be repeated to a maximum of six (6) semester hours.

HUM 4906r. Directed Individual Study (3). Prerequisite: Majors only. A student registered for an individual study course must schedule at least one conference a week on campus. The student should bear in mind that the DIS requirements are the same as if he or she were attending a class for three hours a week for 10 weeks. The minimum length of the paper will be 30 pages excluding footnotes and bibliography. HUM 4906r cannot count toward major course work. May be repeated to a maximum of nine (9) semester hours.

HUM 4907r. Honors Work (3). Prerequisite: Honors only. May be repeated to a maximum of six (6) semester hours.

HUM 4931r. Topics in the Civilization of Britain or Italy (3). May be repeated to a maximum of six (6) semester hours.

HUM 4935r. Seminar in the Humanities (3). Prerequisite: Majors only. The seminar "Principles of Criticism and Interpretation of Humanities" is **only** offered one semester a year. This course examines a series of perspectives for approaching and applying the kind of knowledge gained from a study in the humanities. May be repeated to a maximum of six (6) semester hours.

Department of INDUSTRIAL ENGINEERING

FAMU-FSU COLLEGE OF ENGINEERING

Chair: Ben Wang; *Professors:* Awoniyi, Braswell, Wang; *Associate Professors:* Pignatiello, Zhang; *Assistant Professors:* Okoli, Simpson; *Visiting Professor:* Li; *Visiting Associate Professors:* Liang, Owusu; *Instructor:* Cutwright; *Adjunct Professors:* Boeshaghi, Braswell; *Adjunct Instructor:* Moshir

Industrial engineering (IE) provides a broad technical background with special emphasis on manufacturing systems, computer modeling, costs, quality, management, and human factors. Industrial engineering draws upon specialized knowledge and skills in the mathematical, physical, and social sciences, together with the principles and methods of engineering design and analysis, to specify, predict, and evaluate industrial systems.

The program of study includes engineering analysis for the optimization of industrial systems, design of man-machine systems, and the scientific management of activities. Specialized training is available in the use of modern engineering tools and techniques such as computer-aided design (CAD), computer integrated manufacturing (CIM), and ergonomic (human factors) engineering.

Industrial engineers (IEs) pursue careers in manufacturing, service industries, and government. In addition, many IEs are now being employed in nontraditional fields such as hospitals, banks, insurance, and information processing. The present and future demand for IEs appears to be very high. IEs are increasingly being called upon to act as productivity catalysts in manufacturing and service organizations in order to meet regional, national, and international demand and competition.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

- ENC 1101;
- ENC 1102;

- MAC 2311*;
- MAC 2312*;
- MAC 2313*;
- MAP 2302;
- CHM 1045/1045L*;
- PHY 2048/2048L;
- PHY 2049/2049L;
- Six (6) semester hours in humanities;
- Six (6) semester hours in social science;
- Three (3) additional semester hours in humanities or social science.

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Requirements for a Major in Industrial Engineering

A candidate for the bachelor of science degree in industrial engineering (BSIE) is required to successfully complete the following courses, in addition to the other College of Engineering core requirements:

EGN	3443	Statistical Topics in Industrial Engineering (3)
EIN	3391	Introduction to Engineering Management (3)
EIN	4118	Computing Topics in Industrial Engineering (3)
EIN	4312C	Tool Engineering and Process Engineering (3)
EIN	4333	Design of Integrated Production Systems and Facilities Layout (3)
EIN	4390C	Manufacturing Processes and Materials Engineering (5)
EIN	4395C	Manufacturing Systems Engineering (3)
ESI	3312C	Operations Research I: Deterministic (3)
EIN	4243C	Ergonomics (3)
EIN	4891	Industrial Engineering Senior Design Project (3)
ESI	4234	Quality Control and Reliability Engineering (3)
ESI	4313	Operation Research II: Nondeterministic (3)
ESI	4523	Simulation of Industrial Engineering Systems (3)
XXX	XXXX	Technical Elective (with adviser's approval) (3)
XXX	XXXX	Mathematics Elective (3)
XXX	XXXX	Department Electives (6)

Industrial engineering majors **are required** to consult with their IE academic adviser before enrolling for the next academic term. Students must obtain current IE requirements and course offering schedules from the IE department.

Grade Requirements

In addition to University and college requirements regarding grades and grade point average (GPA), the Department of Industrial Engineering (IE) requires that the IE major achieve a grade within the "C" range or higher for all required IE courses.

ABET Engineering Criteria

The BSIE curriculum is designed to comply with the current ABET criteria for accrediting engineering programs. The BSIE curriculum has the following four educational objectives:

- To educate and train students to have broad technical backgrounds to work as industrial engineers in manufacturing and other industries;
- To prepare students, especially women, African Americans and other minorities for successful industrial engineering careers;
- To provide industrial engineering graduates with sufficient knowledge to continue their studies at a graduate level;
- To provide industrial engineering graduates with teamwork, communication and engineering management skills;

To achieve these curricular objectives, all industrial engineering students must demonstrate or exhibit specific graduate attributes or program outcomes. Students are instructed to contact their academic advisor or visit the departmental website at <http://www.ie.eng.fsu.edu> to obtain the current list of industrial engineering program outcomes.

Definition of Prefixes

EGN	—	General Engineering
EGS	—	Engineering Graphics
EIN	—	Industrial Engineering
EMA	—	Materials Engineering
ESI	—	Industrial Engineering Systems

Undergraduate Courses

EGN 1004L. First Year Engineering Laboratory (1). An emphasis on student time management, a variety of products and processes, and computer-aided problem solving. Product/process involves sketching and drawing pertinent diagrams by hand, and learning the history and engineering concepts involved.

EGN 2123. Computer Graphics for Engineers (2). Corequisite: MAC 2311. Course covers principles of engineering graphics: visualization, spreadsheet applications, graphical calculus, and descriptive geometry. Also introduces the engineering design process and CAD systems.

EGN 3443. Statistical Topics in Engineering (3). Prerequisite: MAC 2312. Basic statistical analysis, samples and populations, variability, hypothesis formulation, and data analysis. Use of computer software and interpretation of results.

EGN 3613. Principles of Engineering Economy (2). Prerequisite: MAC 2313. An emphasis on discrete cash flow diagrams, cash flow equivalence factors, standard criteria for comparing project proposals, special cash flow topics, special analysis, and case studies.

EIN 3391C. Introduction to Engineering Management (3). Prerequisites: EGN 2123, 3613. The evolution, history, emergence, and ethics of engineering and industrial engineering. Emphasis is placed on the management of technology and on the engineering method for product conceptualization, design, development and production. Fundamental sciences, engineering methods, information systems, economics, and behavior theory contained in engineering management principles and practices. Case studies.

EIN 3905r. Directed Independent Study (3). Prerequisite: permission of department chair. Topics vary and each case must be approved by the department chairperson. May be repeated to a maximum of six (6) semester hours.

EIN 3949r. Cooperative Work Experience (0). (S/U grade only.) May be repeated six times.

EIN 4118. Computing Topics in Industrial Engineering (3). Prerequisite: CGS 3408. State of the art computing techniques for industrial engineers. Applications of structured programming, mathematical analysis software, and engineering databases. Use in engineering of GUI languages, Internet communication, and UNIX.

EIN 4214. Occupational Safety and Hazard Control (3). Prerequisite: EIN 4243C. The history of safety, safety in the workplace, government regulations and methods of accident prevention.

EIN 4243C. Ergonomics (3). Prerequisites: EGM 3512; EGN 3443; EIN 4390C. Human characteristics and limitations in relation to physical work, mental work, and job design. Human physiological variables in relation to industrial work environment and product design. Case studies and design exercises.

EIN 4312C. Tool Engineering and Process Engineering (3). Prerequisite: EIN 4930C. Basic design techniques of various manufacturing tools, including cutting tools, inspection tools, and jigs and fixtures. Fundamental planning techniques of manufacturing processes. Design exercises.

EIN 4333. Design of Integrated Production Systems and Facilities Layout (3). Prerequisites: EGN 2123, 3613; ESI 3312C. Basic functions: demand forecasting, process planning, master scheduling, expediting, and quality control. Inventory control. Formation of systems from those basic functions. Case studies and design exercises with computer implementation.

EIN 4390C. Manufacturing Processes & Materials Engineering (5). Prerequisites: CHM 1045, 1045L; EGN 2123; PHY 2049. Introduction to industrial materials and their composition, properties, metallography, and heat treatment. Introduction to the manufacturing processes of machine industries including hot working, cold working and metal removal. Laboratory experiences.

EIN 4395C. Manufacturing Systems Engineering (3). Prerequisite: EIN 4312C. Introduction to modern manufacturing systems, with a special focus upon the integration of manufacturing resources through the use of computers. Design, planning, analysis, and control of computer integrated manufacturing systems.

EIN 4611C. Industrial Automation Topics (3). Prerequisite: EIN 4930C. Introduces and familiarizes students with the basic automation problems and the technologies used in automated production and robotic systems. Various components and systems and their applications to industrial automation will be discussed. Course will be supplemented by labs that will help students apply and evaluate the concepts studied in the classroom.

EIN 4891. Industrial Engineering Senior Design Project (3). Prerequisite: Industrial engineering senior status. Students are expected to complete a large-scale design project involving the full implementation of the IPPED process. Project includes a written report and requires the use of various design techniques and methods.

EIN 4934r. Honors Thesis (3). May be repeated to a maximum of six (6) semester hours.

EIN 4936r. Selected Topics in Industrial Engineering (3). Offered fall and spring semesters. Topics will be determined by a departmental committee on special topics, taking into consideration the needs of students who are about to graduate. May be repeated to a maximum of nine (9) semester hours.

ESI 3312C. Operations Research I: Deterministic (3). Prerequisite: MAP 3305. The following topics will be treated with emphasis on validation of algorithms and derivation of heuristics: linear programming, assignment problems CPM, network flows, discrete optimization, branch and bound solution method, and dynamic programming. Design exercises.

ESI 4234. Quality Control and Reliability Engineering (3). Prerequisites: EGN 3443. Introduction to quality and reliability engineering. Engineering process quality control techniques, engineering design for reliability, and computer integrated reliability engineering.

ESI 4313C. Operations Research II: Nondeterministic (3). Prerequisites: EGN 3443; MAP 3305. Development and application of nondeterministic, analytic models including PERT/CPM, discrete and continuous time Markov chains, queuing models including queuing networks, inventory models, and decision analysis. Case studies and design exercises.

ESI 4523. Simulation of Industrial Engineering Systems (3). Corequisite: ESI 4234. Simulation modeling and computer solution of industrial engineering systems. Modeling strategies, probability considerations, simulation languages, simulation verification, and engineering case studies.

Graduate Courses

EIN 5114C. Computing Topics in Industrial Engineering (3).

EIN 5322. Engineering Management (3).

EIN 5336. Production Control (3).

EIN 5353. Engineering Economic Analysis (3).

EIN 5392. Manufacturing Processes and Systems (3).

EIN 5398. Manufacturing Materials Processing (3).

EIN 5399. Concurrent Engineering (3).

EIN 5412. Computer-Aided Manufacturing (3).

EIN 5413. Computer Aided Process Planning (3).

EIN 5524. System Modeling and Simulation (3).

EIN 5905r. Directed Individual Study (1–3). (S/U grade only.)

EIN 5930r. Special Topics in Industrial Engineering (1–6).

EIN 5931. Leadership and Communications (3).

EIN 5936r. Graduate Seminar (0). (S/U grade only.)

EIN 6126. Global Manufacturing Strategy (3).

EIN 6357. Advanced Engineering Economy (3).

EIN 6416. Manufacturing Systems Analysis (3).

EIN 6419. Tolerance and Metrology for Precision Manufacturing (3).

EIN 6609. Advanced Computer Numerical Control and Application (3).

EIN 6901r. Master's Thesis (1–6). (S/U grade only.)

EIN 6980. Dissertation (3–24). (S/U grade only.)

EIN 8964. Preliminary Doctoral Examination (0).

EIN 8976. Master's Thesis Defense (0). (S/U grade only.)

EIN 8985r. Dissertation Defense (0).

EMA 5182. Composite Materials Engineering (3).

ESI 5154. Statistical Process Control (3).

ESI 5228. Introduction to ISO 9000 (3).

ESI 5247. Engineering Experiments (3).

ESI 5248. Environmentally Conscious Design and Manufacturing (3).

ESI 5408. Applied Optimization (3).

ESI 5417. Engineering Data Analysis (3).

ESI 5451. Project Analysis and Design (3).

ESI 5458. Optimization on Networks (3).

ESI 5524. Advanced Simulation Applications (3).

ESI 5525. Modeling and Analysis of Manufacturing and Industrial Systems (3).

ESI 5580. Applications of Knowledge Engineering (3).

ESI 6498r. Advanced Topics in Optimization (1–9).

INFORMATION STUDIES

SCHOOL OF INFORMATION STUDIES

Professors: Blazek, Hart, McClure, Robbins; *Associate Professors:* Bertot, K. Burnett, Conaway, Dresang; *Assistant Professors:* Belton, Besant, G. Burnett, Genz, Shim; *Visiting Assistant Professors:* Brooks, Gross, Heo; *Other Personnel:* Buerkle, Chavez-Hernandez, Latham, Stromberg; *Professors Emeriti:* Aaron, Hunt, Jahoda, Summers, Trezza

The School of Information Studies offers a bachelor's degree in information studies, a master of science degree which is accredited by the American Library Association, a specialist degree, and a doctor of philosophy degree. All but the bachelor's degree offer majors in information studies and library studies. The bachelor's degree offers a single major in information studies. The master's degree is required for entry-level positions in the field of library practice. Refer to the "School of Information Studies" chapter of this *General Bulletin* or to the school's website at <http://www.lis.fsu.edu> for more details concerning degree programs and other information. For complete details of graduate degree requirements, plus a description of the School of Information Studies and its facilities and opportunities, refer to the *Graduate Bulletin*.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. COP XXXX (College-level programming course in C, C++, or Java);
2. CGS 2060;
3. MAC 1105.

Note: CGS 3048 (prerequisite: MAC 1140 or MAC 2233) may be substituted for COP XXXX at The Florida State University.

Definition of Prefix

LIS — Library and Information Studies

Undergraduate Courses

LIS 2568. Multicultural Issues in Information Resources for Youth (3). Introduces students to diversity within Western society. Employs strategies for analyzing print, electronic, and digital information resources for youth that will assist students in understanding race, ethnicity, class, gender, disability and age issues in the contemporary cultural context.

LIS 3021. Technical Communication for the Information Professions (3). Course covers technical and professional documents generated and used by information professionals. Attention will be given to the writing process with emphasis on audience analysis, document design, collaboration, and peer editing.

LIS 3201. Information Needs and Preferences (3). This course provides students with an overview that emphasizes the user's perspective in the analysis of information needs and preferences. It also offers the fundamentals for a broad approach with a unifying structure to understanding human information-seeking behaviors.

LIS 3267. Information Science (3). Prerequisite: LIS 3353. This course presents the history, philosophical bases, concepts, theories and methodologies of information science. It also emphasizes the definitions and properties of information, formal and informal information systems, information origination, transfer, classification, formatting and use.

LIS 3353. Technologies for Information Services (3). Beginning beyond the computer literacy level, the course develops an appreciation for the application of computer hardware, software, and information systems for the provision of information services. Highlights features and offers up-to-date coverage of technical developments with examples of real-world software applications and the principles by which computer systems and their networks support information seekers.

LIS 3602. Information Sources and Services (3). An introduction to the basic sources and systems for the provision of information to users. Provides an integrated approach that combines print and electronic sources and comprehensive services within a broad range of user and use contexts which emphasize matching sources and services with user needs and preferences.

LIS 3946r. Field Study in Information Studies (1-6). Prerequisite: Consent of advisor. Provides students with an unpaid work experience within a major area of information studies. May be repeated to a maximum of six (6) semester hours.

LIS 3949r. Cooperative Education Work Experience (0). (S/U grade only.) Prerequisite: Consent of advisor. Paid work experience with a firm or agency to be determined on an individual basis.

Advanced Undergraduate Courses

LIS 4264. Systems Approach in the Information Environment (3). An introduction to the systems approach for problem solving in an information seeker's environment. The theories and concepts of information science are integrated with a variety of practical tools for the structured design and analysis of information systems.

LIS 4266. Theory of Information Retrieval (3). Prerequisites: LIS 3267, 4276 and 4351. The theory of information retrieval for both text and picture materials. Discussion of various retrieval, query, and knowledge representation methods beyond Boolean models, including vector, probabilistic edge-detection, 2D strings, and associative network models. Elaboration of concepts of retrieval performance, efficiency and effectiveness beyond precision and recall. Retrieval issues of user-interfaces and hypertext are explored.

LIS 4276. Quantitative Methods in Information Studies (3). Prerequisites: LIS 3201, 3602 and senior standing or consent of instructor. Details practical meth-

ods for collecting and analyzing quantitative data. Includes hypothesis testing, analysis of variance, contingency tables, correlation and experimental design.

LIS 4277. Usability and Usefulness of Information Systems (3). Prerequisites: LIS 3201 and 4276. Introduces students to the concepts of cognitive and human information processing, their application to information systems design, and the assessment of the usability and usefulness of information systems.

LIS 4301. Electronic Media Production (3). Prerequisite: LIS 3353. The understandings, skills and techniques needed for the production and utilization of various types of electronic graphic resources, with particular emphasis on visual literacy, the evaluation of graphic resources, design standards and the visual representation of information. Students will evaluate existing materials, and design and produce materials for both electronic and print formats, including pages for the World Wide Web, slide shows for visual support of verbal presentations, and documents produced with desktop publishing software.

LIS 4351. Interface Design (3). Prerequisite: LIS 3353. Introduction to the basic theory of computer interface design for information specialists and the fundamental concepts and techniques of computer programming.

LIS 4355. Natural Language Processing for the Information Professional (3). Prerequisites: LIS 3267, 4351. Studies the problems and techniques of processing natural language as an approach to providing information services. Introduces the theory of spoken language and how it differs from theories of computer-generated natural language. Includes language pattern recognition and syntactic inference, and semantic networks as applied to information systems.

LIS 4365. Advanced Web Applications (3). Prerequisite: LIS 4301. Course introduces the concepts and technical needs of client and server side application technologies for World Wide Web information servers. Teaches students how to evaluate the effectiveness of WWW applications. Acquaints students with resources available for design, production and evaluation of WWW information servers and assists students in developing strategies for locating these sources. Students gain hands-on experience in web application production, including: PERL/CGI, JavaScript, server authentication techniques, synchronized multimedia, and hypertext authoring.

LIS 4366. Website Development and Administration (3). Prerequisite: LIS 4301. Issues and techniques related to the planning, production, and management of large World Wide Web Sites, including information on organization and design, hardware and software, and cutting-edge development tools. Special emphasis paid to information provision, and the role of Web developers as providers and managers of information resources.

LIS 4410. Societal Implications of the Information Age (3). An introduction to the evolving role of information in the "Information Age." Emphasizes information services in society and contemporary information resources that fulfill society's information needs. Considers the nature of electronic sources of information as well as other information formats and sources.

LIS 4481. Managing Information Resources and Services (3). Prerequisites: three of the following: LIS 3201, 3267, 3353, 3602, 4276 and 4351. An introduction to management science and administrative issues as applied to information resources management (IRM), information centers, and information services. An emphasis is placed upon management functions, concepts and principles. IRM definitions and issues. IRM implementation and strategies. Life-cycle management, and career opportunities.

LIS 4482. Managing Networks and Telecommunications (3). Prerequisite: LIS 3353. The fundamentals of networking and telecommunications, as a means of providing information services to users. From LANs to the "Information Superhighway," the course includes an introduction to voice, data, and video telecommunications concepts, technical requirements, and application issues. Includes the techniques and management of communication systems.

LIS 4488. Network Administration for the Information Professional (3). Prerequisites: LIS 3353, 4482. Provides the information and skills necessary to perform competently in the role of network administrator or network system manager within a library and/or information center environment. Introduces students to the design, operation, and management of networked systems from local area networks to the Internet. Includes communication concepts, technical and application issues, with a focus on managing a network.

LIS 4642. Electronic Information Sources and Services (3). Prerequisite: LIS 3602. An introduction to the processes of electronic information retrieval including some theoretical principles, laboratory experiences and selected current research issues.

LIS 4701. Information Representation (3). Prerequisite: LIS 3267 and 3602. Course addresses the principles and techniques of organizing non-bibliographic information sources including unpublished and transitory materials such as archival and manuscript collections, business/office records, ephemera and local databases. Course focuses on locally produced resources created for a narrowly defined, specific, and possibly restricted information user group.

LIS 4770. Information and Image Management (3). Describes the scope and the problems involved in the administrative management of records. Emphasis centers upon the importance of managing and controlling records from the time of their creation until their vital deposition.

LIS 4905r. Directed Individual Study (1–3). (S/U grade only.) Guided studies for individual professional and subject needs. May be repeated to a maximum of six (6) semester hours.

LIS 4910r. Design Problem (3). Prerequisite: senior standing. An independent enterprise for which a student designs and implements an information studies project, working under faculty guidance. May be repeated to a maximum of six (6) semester hours.

LIS 4930r. Special Topics in Information Studies (3). Prerequisites: three of the following: LIS 3201, 3267, 3353, 3602, 4276, and 4351. A directed and supervised investigation of selected problems, issues, and trends in information studies, with an emphasis on research. It is anticipated that each offering will be different because of the evolving nature of the subject matter. May be repeated to a maximum of six (6) semester hours.

LIS 4938. Seminar in Information Studies (3). Prerequisite: Senior standing and three of the following: LIS 3232, 3267, 3342, 3602, 4276, 4351. The intensive reading and preparation of position papers concerning current issues in information studies, followed by discussions of these papers with faculty and information specialists.

LIS 4940r. Internship in Information Studies (1–6). (S/U grade only.) Prerequisite: LIS 3201, 3353, 3602 and consent of advisor. Acceptable work experience in the information industry that expands and integrates classroom work. Internship may be paid or unpaid. May be repeated for a maximum of six (6) semester hours.

LIS 4970r. Honors Work in Information Studies (3). Prerequisites: Member of the university honors program and information studies major. Course provides an opportunity for students to engage in independent and original research in a specialized area beyond the current curriculum in information studies. Course may be repeated to a maximum of six (6) semester hours. To graduate with honors in information studies, the student must complete six (6) semester hours of course work with at least a "B–" or better and an overall 3.2 GPA or higher.

Graduate Courses

- LIS 5203. Assessing Information Needs (3).
LIS 5241. International and Comparative Information Service (3).

- LIS 5260. Information Science (3).
LIS 5262. Computer Applications for Information Services (3).
LIS 5263. Theory of Information Retrieval (3).
LIS 5270. Evaluating Networked Information Services and Systems (3).
LIS 5271. Research Methods in Information Studies (3).
LIS 5275. Usability Analysis (3).
LIS 5313. Design and Production of Media Resources (3).
LIS 5316. Information Graphics (3).
LIS 5350. Design and Development of Computer Information Retrieval Systems (3).
LIS 5362. Design and Production of Network Multimedia (3).
LIS 5364. Web Site Development and Administration (3).
LIS 5367. Advanced Web Applications (3).
LIS 5402. Human Resources Management (3).
LIS 5408. Management of Information Organizations (3).
LIS 5413. Seminar in Information Policy (3).
LIS 5415. Socio-Political Process in Information Studies (3).
LIS 5426. Planning, Evaluation and Financial Management (3).
LIS 5484. Managing Networks and Telecommunications (3).
LIS 5487. Information Systems Management (3).
LIS 5489. Network Administration (3).
LIS 5511. Management of Information Collections (3).
LIS 5512. School Collection Development and Management (3).
LIS 5513. Preservation of Information Materials (3).
LIS 5524. Instructional Role of the Informational Specialist (3).
LIS 5564. Information Needs of Children (3).
LIS 5565. Information Needs of Young Adults (3).
LIS 5566. Multicultural Literature and Information Resources for Children and Young Adults (3).
LIS 5567. International Literature for Children and Young Adults (3).
LIS 5576. Information Needs of Adults (3).
LIS 5603. Introduction to Information Services (3).
LIS 5604. Library Information Services (3).
LIS 5610. Information Needs and Services in the Humanities (3).
LIS 5620. Information Needs and Services in the Social Sciences (3).
LIS 5624. Information Needs and Services in Business (3).

- LIS 5630. Information Needs and Services in Science and Technology (3).
LIS 5645. Electronic Information Sources and Services (3).
LIS 5647. Advanced Electronic Information Retrieval (3).
LIS 5661. Information Needs and Service in Government Resources (3).
LIS 5703. Information Organization (3).
LIS 5711. Cataloging and Classification (3).
LIS 5736. Indexing and Abstracting (3).
LIS 5737. Subject Analysis (3).
LIS 5771. Information and Image Management (3).
LIS 5782. Database Management Systems (3).
LIS 5900r. Directed Individual Study (1–3). (S/U grade only.)
LIS 5916r. Issues in Information Studies (1–3).
LIS 5945r. Internship (0–12). (S/U grade only.)
LIS 5971r. Thesis (3–6). (S/U grade only.)
LIS 6205. Issues in Information Behavior (3).
LIS 6269. Seminar in Information Science (3).
LIS 6278. Issues in Theory Development (3–5).
LIS 6279r. Research in Information Studies (3).
LIS 6289. Seminar in Education for Information Studies (3).
LIS 6409. Seminar in Library Administration (3).
LIS 6662. Seminar in Information Policy (3).
LIS 6759. Seminar in Library Technical Services (3).
LIS 6909r. Directed Individual Study (1–8). (S/U grade only.)
LIS 6911r. Research Collaboration (3–6).
LIS 6919r. Issues in Information Studies (1–5).
LIS 6980r. Dissertation (1–12).

Department of INTERIOR DESIGN

SCHOOL OF VISUAL ARTS AND DANCE

Chair: David Butler; *Associate Chair:* Munton; *Assistant Chair:* Dykes; *Associate Professors:* Butler, Dykes, Koenig, Munton, Myers, Ohazama, Waxman; *Adjunct Faculty:* Bowden, Camp, Field, Riordan, Slepín

Interior design is concerned with the design of all interior spaces, both residential and nonresidential, and the total field of environmental design. Students are prepared to meet professional requirements and criteria for the practice of interior design, membership in professional organizations, and licensure (if required). A professional designer was defined by the national accrediting trust, the Foundation for Interior Design Education Research (FIDER), as one who is “qualified by education, experience, and examination to enhance the function and quality of interior spaces for the purpose of improving the quality of life, increasing productivity, and protecting health, safety, and welfare of the public.” The Department of Interior Design is accredited by FIDER and the National Association of Schools of Art and Design (NASAD).

The competencies taught include elements and principles of design, design analysis, space planning and programming, drafting and technical drawing, computer aided drafting and design, graphic presentation of design solutions, history of interiors, and research methods. There is an active student chapter of the American Society of Interior Designers (ASID), the International Interior Design Association (IIDA), and the faculty includes members (allied, professional, and corporate) of ASID, IIDA, the Interior Design Educators Council (IDEC), and the American Institute of Architects (AIA).

The Florida State University produces a *Community College Counseling Manual*, which should be consulted for more specific preparation and requirements. If a student has prior interior design work experience or has taken interior design courses, a portfolio should be submitted to determine placement in the program.

The interior design program offers the bachelor of science (BS) and the bachelor of arts (BA) degrees. Students must consult the “Undergraduate Degree Requirements” section of this *General Bulletin* for BA degree requirements.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level

courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common prerequisites or approved substitutions necessary for this degree program:

1. CGS 2060 or CGS 1060;
2. CTE X431 or CTE 1401;
3. IND 3020 or IND 1020 or any level two- and three-dimensional design course.

Note: the program requires nine (9) semester hours of art, art history or other art-related courses. These may be taken at any level and may be used to satisfy performing and fine art and/or humanities liberal studies requirements.

Degree Requirements

The undergraduate degree program consists of a minimum of sixty (60) semester hours of course work in interior design, including a minimum of six (6) semester hours of electives. Students are urged to attend professional conferences and lectures as a vital part of the educational process.

Specific degree requirements include the following:

1. Liberal studies: of the thirty-six (36) required and/or twenty-four (24) elective semester hours, nine (9) should be taken in art, art history, or related courses elected by the student. The department is prepared to offer suggestions about related courses. Contact the program chair for further information if needed;
2. Interior design studio courses: twelve (12) semester hours;
3. Technical and graphic design courses: twenty-one (21) to twenty-four (24) semester hours;
4. Related studies include: design process courses, nine (9) semester hours; history of interiors, nine (9) semester hours;
5. Electives in interior design: six (6) semester hours.

Requirements for Bachelor of Arts Degree (only)

1. Electives in arts-related courses must also meet University humanities requirements;
2. Language requirement is the equivalent of two years of language proficiency (no credit requirement).

Refer to ‘The Liberal Studies Program’ subsection in the “Undergraduate Degree Requirements” section of this *General Bulletin* for specific degree requirements.

Requirements for a Major in Interior Design

Students are eligible for admission to the professional program in interior design after completing the University liberal studies requirements (see the “Undergraduate Degree Requirements” chapter of this *General Bulletin*). The interior design program is limited access based on an interview with the department chair and a minimum 3.00 GPA. Due to the maximum student/instructor ratio for studio courses, the above requirement must be completed and on record at least four semesters (excluding summer semester) prior to beginning the program. Further information may be obtained from the office of the Department of Interior Design. Junior college transfer students are urged to complete requirements for the associate in arts degree and to seek counsel from community college advisers.

Eligibility for admission to the major also includes completion of the following courses or course types. These core program requirements may be taken as part of liberal studies requirements or electives (please see department advisers for specific information prior to registration each semester) or may be taken as part of the associate in arts degree while enrolled at a qualifying community college (refer to community college counseling manual for specific information): Three (3) semester hours of textiles related to interiors (CTE 1401 or comparable approved course); three (3) semester hours of computer literacy (CGS 2060 or comparable approved course); and nine (9) semester hours of art, art history or other arts related courses. The program suggests a course in two and/or three dimensional studies as part of the arts related requirements. A similar course, however, is offered in the program if not available to students transferring from other colleges.

A specific listing of courses required for the majors in interior design is available from the department. The program maintains a degree of flexibility to meet the student’s individual professional objectives. Internship preparation and placements are available for all undergraduate students, and students are urged to elect these studies. A minor is not required but may be obtained in other appropriate areas (departmental advisement required prior to electing a minor).

Students majoring in interior design must maintain the minimum GPA for semester and overall averages. Grades of “C–” and below are not considered passing in any major course work, including electives. Students must also satisfactorily complete portfolio reviews I and II to remain in the program and satisfactorily complete portfolio review III to graduate.

Honors in the Major

The Department of Interior Design offers a program in honors in the major to encourage talented juniors and seniors to undertake independent research as part of the undergraduate experience.

For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Definition of Prefixes

CTE — Clothing and Textiles
IND — Interior Design

Undergraduate Courses

CTE 1401. Basic Textiles (3). Introduction to fibers, fabric structure, and finishes related to selection and care. Interrelationship between textile characteristics, properties, and end use.

IND 3003. Survey of Interior Design (3). For nonmajors. A survey of the elements and principles of interior design to create an awareness of the made environment and a comprehensive appreciation of design.

IND 3205. Dimensional Design (3). Exercises and experiences in fundamental design problems, with application of basic elements and principles of design. Creative studio projects in two and three dimensional design building on the graphic and technical design process.

IND 3930r. Special Topics in Interior Design (1–3). May be repeated to a maximum of twelve (12) semester hours.

IND 3949r. Cooperative Education in Interior Design (0). (S/U grade only.) Prerequisite: IND 3930r. Preparation for internship. Student employment in interior design.

Sequence Courses

IND 3306. Interior Design Graphics I (3). Graphic presentation techniques, including 1-point and 2-point perspective refinement and computer application.

IND 4302. Interior Design Graphics II (3). Prerequisite: IND 3306. Pencil and ink techniques used in sketching, rendering and design drawing, with an emphasis on schematics used in problem solving.

IND 4315r. Interior Design Graphics III (3–6). Prerequisite: IND 4302. Marker and color pencil techniques used in interior delineation, with an emphasis on materials and the development of rapid rendering skills. May be repeated to a maximum of six (6) semester hours.

IND 4311r. Interior Design Graphics IV (1–3). Advanced specialized study of contemporary graphic communication techniques with emphasis on individual professional objectives. May be repeated to a maximum of six (6) semester hours.

IND 4101r. History of Interiors I (3). The study of architecture, interior, and furniture design from antiquity through the Renaissance. May be repeated to a maximum of six (6) semester hours.

IND 4131r. History of Interiors II (3). The study of architecture, interior, and furniture design of the 17th and 18th centuries. May be repeated to a maximum of six (6) semester hours.

IND 4161r. History of Interiors III (3). The study of architecture, interior, and furniture design from the 19th century to the present. May be repeated to a maximum of six (6) semester hours.

IND 3404. Technical Design I (3). Introduction to basic technical aspects of interior design. Emphasis on basic drafting skills, drawing types, visualizations, and other essential technical systems in interiors.

IND 4424. Technical Design II (3). Prerequisite: IND 3404. Lecture and studio course covering materials, construction, and working drawings. The focus is on structure, interior materials, millwork, finishes, hardware, and specifications. Drafting and working drawings are emphasized.

IND 4431r. Technical Design III (3). Prerequisite: IND 4424. Advanced technical aspects of interior design. Emphasis on lighting, electrical plans, reflected ceiling plans, measurements, and acoustics. May be repeated to a maximum of six (6) semester hours.

IND 4461r. Technical Design IV (3). Prerequisite: IND 4424. Computer-aided design and drafting (CADD). Emphasis on creation of interior design technical and presentation drawings using computers. May be repeated to a maximum of six (6) semester hours.

IND 3600r. Design Process I (3). (S/U grade only.) The process of creative problem solving with an emphasis on application to the design process, programming, and spatial analysis of space.

IND 4601. Design Process II (3). An exploration of the relationship between humans and their environment through the study of personal and social use of space, proxemics, and spatial analysis of the built environment.

IND 4602r. Design Process III (3). Advanced analysis and research into the theory, philosophy, and professional practice of interior design concepts. May be repeated to a maximum of six (6) semester hours.

IND 4603r. Design Process IV (3). Prerequisite: IND 4601. Advanced specialized study in creative problem solving and research of the design process with emphasis on individual professional objectives. May be repeated to a maximum of twelve (12) semester hours.

IND 3217. Interior Design Studio I (3). Introduction to the fundamental elements and principles of design, design process, problem solving, space planning and specifications.

IND 4218. Interior Design Studio II (3). Prerequisite: IND 3217. Intermediate projects in creative problem solving applied to both residential and contract interiors. Emphasis on graphic communication and presentation.

IND 4227r. Interior Design Studio III (3). Prerequisite: IND 4218. Advanced projects in creative problem solving with emphasis on programming, spatial analysis, and open-office systems.

IND 4228r. Interior Design Studio IV (3). Prerequisite: IND 4227r. Advanced application of the design process with emphasis on individual professional objectives and procedures for portfolio presentation. May be repeated to a maximum of six (6) semester hours.

IND 3525r. Portfolio Review I (2). (S/U grade only.) A faculty review of all student work during the first semester. All students must register for this course in their first semester of registration in design. The course is based upon a knowledge of interior finish materials and internship preparation involving development of a professional portfolio. Satisfactory completion is required for continuation in the program.

IND 4521. Portfolio Review II (1). (S/U grade only.) A faculty review of all student work during the third semester. All students must register for this course during the same semester they register for IND 4227r, Interior Design Studio III. Continuation in the program is dependent upon a satisfactory grade in this review.

IND 4522. Portfolio Review III (1). (S/U grade only.) A faculty review of all student work after completion of the program. All students must register for this course at the same time as IND 4228r, Interior Design Studio IV. The conferring of a degree in interior design is dependent upon a satisfactory grade in this review.

IND 4156r. Historical Restoration, Research and Documentation (3–6). The study, research and documentation of restoration and preservation procedures, sources of antiquities, and reproductions. Includes field trips. May be repeated to a maximum of six (6) semester hours.

IND 4905r. Directed Individual Study (1–3). Student has the opportunity to pursue independent work in the area of delineation or resources under the direction of a faculty member. May be repeated to a maximum of twelve (12) semester hours.

IND 4947r. Internship (1–3). Student has the opportunity to pursue experience with design firm or other related field under the direction of a faculty member. May be repeated to a maximum of twelve (12) semester hours.

IND 4970r. Honors in the Major (3). For honors credit, the Department of Interior Design requires a two-term honors program consisting of six (6) thesis or project hours to be counted towards elective credit. Upon meeting The Florida State University's requirements for honors courses, the student will pursue independent creative and academic research as part of the undergraduate program.

Graduate Courses

- IND 5005. Survey of Interior Design (5).
- IND 5105r. History of Interiors Seminar I (3).
- IND 5135r. History of Interiors Seminar II (3).
- IND 5165r. History of Interiors Seminar III (3).
- IND 5175. History of Designers (2–4).
- IND 5235r. Graduate Studio I (4).
- IND 5236r. Graduate Studio II (4).
- IND 5316r. Design Graphics II (1–4).
- IND 5317r. Design Graphics I (4).
- IND 5425r. Graduate Technical Design (4).
- IND 5435r. Graduate Lighting Seminar (4).
- IND 5526. Graduate Portfolio Review II (1). (S/U grade only.)
- IND 5528. Graduate Portfolio Review I (1). (S/U grade only.)
- IND 5910r. Directed Individual Study (1–3). (S/U grade only.)
- IND 5911r. Supervised Research (1–5). (S/U grade only.)
- IND 5930r. Special Topics in Interior Design (1–4).
- IND 5944r. Field Research in Space Organization (1–8).
- IND 5945r. Supervised Teaching (1–4). (S/U grade only.)
- IND 5948r. Graduate Internship (1–3). (S/U grade only.)
- IND 5971r. Thesis (2–6). (S/U grade only.)

For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the *Graduate Bulletin*.

Program in INTERNATIONAL AFFAIRS

COLLEGE OF SOCIAL SCIENCES

Director: Burton M. Atkins, Department of Political Science

The departments of Anthropology, Economics, Geography, History, Modern Languages, Philosophy, Political Science, Religion, Sociology, Urban and Regional Planning, as well as the School of Public Administration and Policy, cooperate in the offering of an interdepartmental major and minor at the undergraduate level. The program is designed to equip students with a fundamental knowledge of the field of international affairs, to acquaint them with the basic methods of approach to the field, and to provide a basis for intelligent observation of international affairs. Employment opportunities are to be found in government service, international organizations (public, private, or non-profit), business, journalism, and teaching.

Requirements for a Major in International Affairs

Majors in international affairs must complete a minimum of thirty-nine (39) semester hours beyond the liberal studies requirements, with a grade of “C–” or better in each course. A minimum cumulative grade point average (GPA) of 2.0 in all course worked applied to the major must be maintained. All courses counted toward the international affairs major must come from the approved list of courses in the participating departments (see below). Coursework must be selected from at least three (3) participating departments. A minimum of twelve (12) semester hours, maximum of eighteen (18) semester hours must be in one department for a departmental concentration. Students may choose to obtain either a bachelor of arts (BA) degree or a bachelor of science (BS) degree, but in both cases must meet the modern foreign language requirement for the bachelor of arts (BA) degree. At least eighteen (18) semester hours must be above 2999. A maximum combined total of twelve (12) semester hours in internship, directed individual study, or upper-division honors in the major may be credited to the major.

Students are advised to coordinate their course work with foreign language study, focusing on a regional concentration (e.g., Africa, the Middle East, East or South Asia, Russia, Eastern and Central Europe, Western Europe, or Latin America). Majors are encouraged to include such courses as INR 2002, ECO 2013 and 2023, GEA 1000, and WOH 1030 among the courses they take to fulfill the liberal studies requirements (if those courses are taken to fulfill the liberal studies requirements, however, they cannot also be counted toward the major requirements).

Business Option

A major in international affairs with a concentration or emphasis in business may be selected. This option combines regular international affairs courses with a planned series of business courses with a multinational focus. Students interested in pursuing this option must have prior approval of the director of international affairs. Students are registered in the business courses on a seats available basis. For this reason, approval to pursue the business option must be re-evaluated each semester.

Students pursuing the business option select a minimum of twenty-one (21) semester hours from the approved list for the major, excluding courses from the department of economics. The remaining courses come from a pre-selected sequence of business courses in one of several tracks for either the concentration or emphasis. ECO 2013 and ECO 2023 are required prerequisite courses. A detailed course list with an outline of requirements, registration procedure and prerequisite courses is available in the international affairs program office.

Study Abroad

Students majoring in international affairs are strongly encouraged to participate in the program’s summer curriculum offered in Europe. For more information about the European summer program for international affairs majors, contact the Office of International Programs.

Students should consult with the international affairs director about any other study abroad programs they wish to pursue. Coursework taken in overseas locations must be approved in advance for credit toward the major.

Internship

The Program in International Affairs encourages students to take advantage of internships with agencies and businesses in Florida’s capital that work in the international arena. International affairs students can also take advantage of internships in Washington D.C. through the Washington Center Program, and in The Republic of Panama through FSU—Panama. Most significantly, international affairs students can apply for one of the several prestigious internships in London, where we place our students in Parliament, the American Embassy, Amnesty International, NBC, the Associated Press, the British-American Chamber of Commerce and other significant organizations.

Honors in the Major

The Program in International Affairs offers honors in the major to encourage talented students to undertake independent research. For requirements and other information, see the “University Honors Program and Honor Societies” section of this *General Bulletin*.

Double Majors

Majors in international affairs may also major in disciplines represented by the participating departments. These double majors, however, may only count nine (9) semester hours of course work toward both of their majors. For example, a double major in international affairs and economics may count ECO 4704, 4713, and ECS 4013 toward a major in international affairs and a major in economics. Any additional economics courses that are counted toward the international affairs major (up to a maximum of eighteen [18] semester hours), however, must **not** also be counted towards the economics major.

Requirements for a Minor in International Affairs

A minor consists of eighteen (18) semester hours beyond the liberal studies requirements with grades of “C–” or better. Work must be taken in at least three (3) participating departments, and all those courses must be from the approved list of courses below. Modern Language courses numbered above 2999 may count toward the minor. Nine (9) of the eighteen (18) semester hours must be numbered above 2999.

A maximum of six (6) semester hours of directed individual studies or internship credits may apply to the minor.

Approved Courses

Note: descriptions of individual courses can be found under the departments in which they are taught.

Anthropology

ANT 2410	Introduction to Cultural Anthropology (3)
ANT 3141	World Prehistory (3)
ANT 3212	Peoples of the World (3)
ANT 4241	Anthropology of Religion (3)
ANT 4274	Political Anthropology (3)
ANT 4302	Sex Roles in Cross-Cultural Perspective (3)
ANT 4323	Peoples and Cultures of Mexico and Central America (3)
ANT 4352	Peoples of Africa (3)
ANT 4362	Peoples and Cultures of Southeast Asia (3)
ANT 4363	Japanese Society and Culture (3)
ANT 4364	Chinese Society and Culture (3)

Economics

ECO 2000	Introduction to Economic Thinking (3)
ECO 2013	Principles of Macroeconomics (3)

ECO 2023	Principles of Microeconomics (3)
ECO 3303	History of Economic Ideas (3)
ECO 3622	Growth of American Economy (3)
ECO 4704	International Trade (3)
ECO 4713	International Finance (3)
ECP 3113	Economics of Population (3)
ECP 3302	Economics of Natural Resources, Energy and the Environment (3)
ECP 3322	Economics of Living Marine Resources (3)
ECS 3003	Comparative Economic Systems (3)
ECS 4013	Economics of Development (3)
ECS 4333	Transition of Soviet and Eastern European Economies (3)

Geography

GEA 1000	World Geography (3)
GEA 2210	United States and Canada (3)
GEA 3704	East and Southeast Asia (3)
GEA 4405	Latin America (3)
GEA 4500	Europe (3)
GEA 4520	Britain and Ireland (3)
GEA 4554	Russia and Southern Eurasia (3)
GEO 1331	Environmental Science (3)
GEO 1400	Human Geography (3)
GEO 3540	Economic Geography (3)
GEO 4340	Living in a Hazardous Environment (3)
GEO 4372	Natural Resource Assessment and Analysis (3)
GEO 4420	Cultural Geography (3)
GEO 4471	Political Geography (3)
GEO 4480	Military Geography (3)
GEO 4602	Urban Geography (3)

History

All history courses are on the list of courses approved for international affairs majors **except** those courses with the AMH (American History) or the HIS prefix. Only two AMH courses are on the approved list for international affairs majors, namely:

AMH 4510	United States Foreign Relations to 1900 (3)
AMH 4511	Twentieth-Century United States Foreign Relations (3)

Modern Languages

Those credit hours earned by taking courses to fulfill the modern language requirement (which must be met by all international affairs majors) cannot be counted toward the international affairs major. Students may, however, earn credit toward the major for **additional** courses in modern languages. For a departmental concen-

tration in modern languages, students must have a minimum of twelve (12) semester hours of advanced-level course work in one language including two courses in culture and/or literature. Students should consult with the international affairs advisor in modern languages to plan a course of study.

Philosophy

PHI 2010	Introduction to Philosophy (3)
PHI 3420	Philosophy of the Social Sciences (3)
PHM 3331r	Modern Political Thought (3)
PHM 3400	Philosophy of Law (3)
PHM 4340r	Contemporary Political Thought (3)

Political Science

CPO 2002	Introduction to Comparative Government and Politics (3)
CPO 3034	Politics of Developing Areas (3)
CPO 3103	Comparative Government and Politics: Western Europe (3)
CPO 3123	Comparative Government and Politics: Great Britain (3)
CPO 3303	Politics of Latin America (3)
CPO 3403	Comparative Government and Politics: The Middle East (3)
CPO 3512	Political Development in East Asia (3)
CPO 3520	Emerging Democracies in Northeast Asia: Korea, Taiwan, Japan (3)
CPO 3541	Politics of China (3)
CPO 3553	Politics of Japan (3)
CPO 3614	East European Politics (3)
CPO 3930r	Special Topics in Comparative Government and Politics (1–3)
CPO 4057	Political Violence (3)
INR 2002	Introduction to International Relations (3)

Definition of Prefix

INR	—	International Relations
PAX	—	Peace Studies

Undergraduate Courses

INR 3931r. **Special Topics (1–3).** (S/U grade only.) Topics vary. May be repeated as topics change to a maximum of nine (9) semester hours.

INR 3932r. Special Topics in International Affairs (1–3). Topics vary. May be repeated as topics change to a maximum of nine (9) semester hours.

INR 4905r. Directed Individual Study (1–3). May be repeated to a maximum of twelve (12) semester hours.

INR 4937r. Honors Work (3). May be repeated to a maximum of twelve (12) semester hours.

INR 4941r. Internship (3–6). (S/U grade only.) Prerequisites: Fifteen (15) semester hours beyond liberal studies, a cumulative GPA of 3.0 or higher, and consent of the instructor. Internship placements in approved agencies and organizations. Designed to provide practical experience in the area of international affairs. May be repeated to a maximum of six (6) semester hours.

PAX 3100. Peace, Justice, and Conflict (3). This course is designed as an introduction to the academic field of peace studies. It begins with a discussion of traditional approaches to the problem of international war. It then turns to an analysis of the difference between “negative peace,” or the absence of international war, and “positive peace,” which refers to not only the absence of war, but also to the presence of social, economic, and political justice. The course concludes with a discussion of contrasting views of alternative world futures.

PAX 3300. Poverty and Inequality in the Global System (3). This course deals with the social, political, and economic issues which have polarized the world into the “have” and “have not” nations. Special attention in this course is given to the problems and perspectives of the third world:

poverty, economic resources, cultural and political conditions, population growth, food, social service needs, the impact of technology and new modes of communication, developments in educational reform, problems of social change, and the role of third world countries in world politics.

PAX 3930r. Special Topics in Peace Studies (3). Topics vary. May be repeated to a maximum of fifteen (15) semester hours.

PAX 3940. Practicum in Peacemaking (3). (S/U grade only.) Prerequisite: At least one PAX course; Corequisite: 2.5 GPA. Field assignment for work with such agencies as Pax Christi, Florida Clearinghouse for Criminal Justice, Amnesty International, The Tallahassee Peace Coalition, etc.

PAX 4905r. Directed Individual Study (1–3). Prerequisite: At least one PAX course; Corequisite: 2.5 GPA. Supervised reading and research on selected topics in peace studies. May be repeated to a maximum of six (6) semester hours.

Graduate Courses

Interdepartmental ITALIAN STUDIES FLORENCE CENTER MINOR

COLLEGE OF ARTS AND SCIENCES

Coordinator: John B. Brennan (International Programs)

The Italian Studies Florence Center Minor is concerned with the culture of Italy from ancient times to the present. The minor is built around the student’s program of studies at The Florida State University Florence Study Center, allowing the student to pursue the minor before, during, and after the student attends the Florence Program. The minor gives greater focus to, and enhances the quality of, the student’s program of studies in Italy. The sojourn in Florence is the essential element in the minor, providing direct involvement in contemporary Italian civilization as well as exposure to Italy’s historical cultural artifacts.

Requirements for a Minor in Italian Studies

The interdisciplinary minor requires the completion of fifteen (15) semester hours in courses approved by the Italian Studies Florence Center Minor coordinating committee. **At least nine (9) semester hours of approved courses must be taken while the student is in residence at the Florence Study Center.** A maximum of nine (9) semester

hours may be counted in any single academic discipline. Students who intend to minor in Italian studies should declare this intention with the Senior Admission/Registration Officer of International Programs at the end of his/her semester in Florence.

The student must have completed at least three (3) semester hours (or the equivalent) in elementary Italian prior to attending the Florence center.

Core Courses

These courses will be counted in the minor whether they are taken on the Tallahassee campus or in Florence. Descriptions of these courses can be found under the individual departments in which they are taught:

- ARH 3150 Art and Archaeology of Ancient Italy (3)
- ARH 4120 Etruscan Art and Archaeology (3)
- ARH 4151 Art and Archaeology of the Early Roman Empire (3)
- ARH 4304 History of Renaissance Architecture (3)
- ARH 4310 Early Italian Renaissance Art: 15th Century (3)
- ARH 4312 Later Italian Renaissance Art: 16th Century (3)
- ARH 4352 Southern Baroque Art (3)
- CLA 2010 Introduction to Greek and Roman Civilization (3)
- CLA 3502 Women, Children, and Slaves in Ancient Rome: The Roman Family (3)
- CLA 4447r Studies in Roman History (3)

- CLA 4780r Classical Archaeology: Field Work (1–6)
- CLA 4880 Roman Law (3)
- EUH 3431 Modern Italy (3)
- EUH 4140 Renaissance (3)
- EUH 4244 Fascism (3)
- ITW 3391r Italian Cinema (3)
- MUS 4241 Italian Language and Diction for Singers (3)
- PHH 3061 Medieval and Renaissance Philosophy (3)
- REL 3505 The Christian Tradition (3)
- REL 4564 Modern Roman Catholicism (3)

and all Italian courses on the **2000 level or above.**

Note: each student must have completed at least one introductory course in Italian—on the freshman level—prior to studying at the Florence Center in order to qualify for a minor in Italian studies. Note also that courses used to satisfy the University’s foreign language requirement for the BA degree may not also count in the minor.

Related Courses

These courses may be counted in the minor **only** when they are taken at the Florence Study Center:

- ARH 2000 Art, Architecture, and Artistic Vision (3)
- ARH 3056 History and Criticism of Art I (3)
- ARH 3057 History and Criticism of Art II (3)

ARH 4211	Early Medieval Art (3)
ARH 4230	Later Medieval Art (3)
CLT 3370	Classical Mythology (3)
EUH 2000	Ancient and Medieval Civilizations (3)
HUM 2221	Humanities: Homer to Gothic (3)
HUM 2235	Humanities: From the Renaissance to the Enlightenment (3)
HUM 4931r	Topics in the Civilization of Britain or Italy (3)

IND 4101r History of Interiors I (3)

All other courses offered at the Florence center may be counted provided the Florence Center Minor coordinating committee has given prior approval for their inclusion in the minor. In addition, special topics courses offered on The Florida State University campus on a one-time basis may be counted if they are approved by the coordinating committee. To have such courses considered, petition the Coordinating Committee, *University Center A5500*.

Program in LATIN AMERICAN AND CARIBBEAN STUDIES

COLLEGE OF ARTS AND SCIENCES

Coordinator: Roberto Fernandez (Modern Languages and Linguistics); Cooperating Colleges, Schools, and Departments: Anthropology, Business, Economics, English, Geography, History, Modern Languages and Linguistics, Music, Philosophy, Political Science, Religion, Sociology, and Urban and Regional Planning

This undergraduate program is intended for students with a strong interest in Latin America and the Caribbean. Depending on the areas of emphasis selected, the baccalaureate program may be viewed as preparation for graduate school in various fields or as leading to professions in government and international service, multinational commerce, law, teaching, and translation. Majors and minors may wish to consider participation in the related University programs in Costa Rica and Panama. **Note:** an average of "C" must be earned for courses taken for each of the following majors.

Requirements for a Major in Latin American and Caribbean Studies

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*.

The major consists of twenty-four (24) semester hours beyond the liberal studies requirement, which are to be selected from, but not necessarily limited to, those courses listed below. Generally speaking, other courses above the 2999 level may also qualify for major credit provided they contain, as determined by the adviser, a significant emphasis on the study of the Latin American and Caribbean area. At least three of the departments or schools must be represented in courses chosen. A minimum of twelve (12) of the total major semester hours must be at or above the 4000 level. In order to qualify for completion of the major, the student must also have completed the initial

sequence or equivalent of Spanish, Portuguese, or another language considered by the adviser to be relevant to the area of study.

Minor

The minor should normally be in one of the participating departments or schools. Requirements are as specified by that department or school.

Honors in the Major

The program offers honors in the major. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Requirements for a Major with a Business Emphasis

Latin American and Caribbean studies offers a business emphasis program of study for its majors who want to develop a career-oriented preprofessional program in business while completing their liberal arts major. There are no special entrance requirements for the business emphasis program. Students who choose this plan must: 1) Complete their full College of Arts and Sciences major; 2) Satisfy the foreign language requirement in Spanish, and all other regular University requirements; and 3) In lieu of their minor, complete thirty (30) semester hours in business and related courses listed below:

ACG 2021	Introduction to Financial Accounting (3)
ACG 2071	Introduction to Managerial Accounting (3)
ECO 2013	Principles of Macroeconomics (3)
ECO 2023	Principles of Microeconomics (3)
MAN 3240	Organizational Behavior (3)
MAR 3023	Basic Marketing Concepts (3)

The student must also complete two elective courses in business (six [6] semester hours) from the fields of accounting, business law, management, marketing, finance, risk management and insurance, and real estate.

Requirements for a Minor in Latin American and Caribbean Studies

A minor will consist of fifteen (15) semester hours of courses chosen from among those included in the list of courses for majors. At least two departments or schools must be represented in the courses selected for the minor.

Recommended Interdisciplinary Courses

Note: descriptions of the following courses can be found under the individual departments in which they are taught:

ANT 4163	Mesoamerican Archaeology (3)

Definition of Prefix

LAS — Latin American Studies

Undergraduate Courses

LAS 4905r. Directed Individual Study (3). May be repeated to a maximum of six (6) semester hours when content varies. Can be repeated within same semester.

LAS 4935r. Honors Work (3). Open to participants in the University and department honors program. Participation in a supervised research problem and the production of a paper describing the results of that work. May be repeated to a maximum of nine (9) semester hours.

LAW

COLLEGE OF LAW

Professors: Abbott, Atkinson, Banoff, Christie, Crossley, D'Alemberte, Dodge, Ehrhardt, Gey, Griffith, Hirsch, Jacobs, LeBel, McHugh, Oeltjen, Ruhl, Schroeder, Seidenfeld, Stern, Van Doren, Vinson, Weidner, Yetter; *Associate Professors:* Baldwin, Garcia, Garvin, Larson, Lee, Powell, Rossi, Shepherd, Southerland; *Assistant Professors:* Bank, Gore; *Associates in Law:* Annino, Ezell, Gertz, Krieger; *Visiting Professor:* Dupre; *Visiting Associate in Law:* Busharis; *Visiting Assistants in Law:* Blenkhorn, Grippa, Oh, Pugh, Rowe, Ruvalcaba, Shelley, Varn; *Richard W. Ervin Eminent Scholar in Law:* Warner; *Edward Ball Eminent Scholar:* Abbott; *Visiting Tobias Simon Eminent Scholar:* Weston; *Professors Emeriti:* Dickson, Kennedy, Morse, Slagle, VanDercreek

The College of Law educates students for the practice of law and develops in them the breadth of vision and qualities of character necessary for meeting the full responsibilities of the legal profession. Its one aim is excellence in the preparation of students so that they will acquire the knowledge, comprehension, skills, and judgment essential to the performance of legal services in a complex and rapidly changing society. The College of Law prepares highly qualified graduates for positions as counselors, advocates, judges, law-oriented businesspersons, researchers, teachers, and philosophers of the law.

For further details of degree requirements, plus a description of the college and its opportunities, refer to the College of Law *Student Handbook*.

Program in LAW AND SOCIETY

COLLEGE OF SOCIAL SCIENCES

Director: Robert E. Crew, Jr., Office of the Dean, College of Social Sciences

The Program in Law and Society offers an interdisciplinary study of the interaction of law and legal institutions and contemporary society. It is designed to provide an appreciation and recognition of the impact of law and legal institutions on society and the ways law is shaped by the values, behavior, and organization of social, economic, and political systems. Courses from the departments of Economics, Geography, Political Science, Urban and Regional Planning, and Sociology, as well as the School of Public Administration and Policy, are included. Students may minor in law and society or select a major concentration in law and society through the interdisciplinary social sciences major. The Program in Law and Society is appropriate for a variety of educational and occupational goals since the program provides an introduction to the links between law and other human activity and serves as a broad liberal education in the social sciences. Although prelaw students may enroll in law and society, the program is not a prelaw or preprofessional program, and a minor or major concentration in law and society is not offered as preparation for law school.

Requirements for a Minor in Law and Society

A minor in law and society shall consist of at least five courses from the designated curriculum, including law and society (POS 3691), and either sociology of law (SYP 3540) or econom-

ics and the law (ECP 3451), as two of the five courses. The remaining three may be selected from the list of approved courses below.

Requirements for a Major

A primary concentration in law and society is available in the social science interdisciplinary major. It consists of introduction to law and society (POS 3691), either economics and the law (ECP 3451) or sociology of law (SYP 3540), plus four other courses from the approved list of courses. To complete the social science major with a concentration in law and society, students shall be required to select two twelve (12) semester hour minors from two social science departments. One of the minors must be in economics, political science, or sociology, and students must select twelve (12) semester hours for the minor from a department's courses included in the law and society curriculum. Students interested in the social science interdisciplinary major should refer to that departmental entry of this General Bulletin.

Courses

The following courses have been approved for the law and society program. In addition to the required courses, students shall select courses for the law and society minor and the law and society concentration in the social science major from this list. See the "Interdisciplinary Program in Social Science" entry of this *General Bulletin* for course prerequisites. Descriptions of the following courses can be found under the individual departments in which they are taught.

Economics

ECO 4504 Public Sector Economics (3)

ECO	4554	Economics of State and Local Government (3)
ECP	3302	Economics of Natural Resources, Energy, and the Environment (3)
ECP	3403	Business Organization and Market Structure (3)
ECP	3451	Economics and the Law (3)
ECP	4413	Government Regulation of Business (3)
ECP	4613	Urban Economics (3)

Geography

GEO	4340	Living in a Hazardous Environment (3)
GEO	4372	Natural Resource Assessment and Analysis (3)

Political Science

CPO	3123	Comparative Government and Politics: Great Britain (3)
POS	3122	State Politics (3)
POS	3691	Introduction to Law and Society (3)
POS	4413	The American Presidency (3)
POS	4424	Legislative Systems (3)
POS	4606	The Supreme Court in American Politics (3)
POS	4624	The Supreme Court, Civil Liberties, and Civil Rights (3)
POT	2502	Politics and Ethics (3)
POT	4205	American Political Thought I (3)
POT	4206	American Political Thought II (3)
PUP	3002	Introduction to Public Policy (3)

Public Administration and Policy

PAD 4603 Administrative Law (3)

Sociology

SYD 4700 Race and Minority Group Relations (3)

SYG 2010 Social Problems (3)

SYO 3100 Family Problems and Social Change (3)

SYO 3530 Social Classes and Inequality (3)

SYO 4300 Sociology of Politics (3)

SYP 3540 Sociology of Law (3)

SYP 4570 Deviance and Social Control (3)

Urban and Regional Planning

URP 4423 Introduction to Environmental Planning and Resource Management (3)

Other Courses

PHM 3400 Philosophy of Law (3)

SOP 3751 Psychology and the Law (3)

Students may consult with Dr. Robert E. Crew, Director, Interdisciplinary Program in Social Science, for additional information.

UNDERGRADUATE**

COLLEGE OF ARTS AND SCIENCES

Curriculum Committee: Joe Ree, Shonna Trinch, and James Wyatt, (Modern Languages and Linguistics)

Linguistics is concerned with the study of the nature of language, and there are linguistic applications in the areas of anthropology, sociology, psychology, mathematics, computer sciences, philosophy, and audiology and speech pathology.

Students (both undergraduate and graduate) who wish to minor in linguistics should choose a minor adviser from the members of the linguis-

tics curriculum committee (listed above) who will help them in designing courses of study that fill their personal and professional needs.

**Requirements for a Minor
in Linguistics**

Undergraduate

Undergraduate students in linguistics must take at least twelve (12) semester hours from the linguistics courses listed below; two of these must be core courses.

Core Courses

LIN 3041, 4030, 4040, 4512 or 4905.

Other Courses

ANT 4640; LIN 3710, 4930, 5772; PHI 3220; EXP 4640.

Graduate

Graduate students in linguistics must take at least fifteen (15) semester hours from the linguistics courses listed below; two of these must be core courses.

Core Courses

LIN 5035 or 5045, 5510.

Other Courses

LIN 5772, 5908r, 5932; SPN 5805.

**LINGUISTICS:

English; and Psychology**

Department of MANAGEMENT

COLLEGE OF BUSINESS

Chair: Dan Voich, Jr.; *Professors:* Anthony, Ferris, Fiorito, Kacmar, Martinko, Perrewé, Stepina, Voich, Wilkens; *Associate Professors:* Ketchen, Kuhn, Lamont, Matherly; *Assistant Professors:* Combs, Douglas, Hochwarter; *Assistants:* O'Connor, Ryals, Simmons, Trammell, Woodbery

The management curricula provide students with an understanding of the nature of managerial work, including both the art and the science of managing. The curricula emphasize the management of human resources, as well as strategic planning, managerial problem solving, and decision making. Within the management degree program, students choose to major in general management or human resource management consistent with their specific interests. The overall objective of these curricula is to prepare students for entry-level positions in small and large organizations, leading to line or staff management careers in either the public or private sector. Many graduates enter jobs as managerial associates, sales associates, or personnel/human resource assistants.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. Specific prerequisites are required for admission into the upper-division program and must be completed by the student at either a community college or a state university prior to being admitted to this program. Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.

The following lists the common prerequisites or their substitutions necessary for admission into this upper-division degree program:

1. ACG X021 or ACG X001 and ACG X011;
2. ACG X071;
3. CGS X100*;
4. ECO X013;
5. ECO X023;
6. MAC X233 or MAC X230;
7. STA X023 or QMB X100 (students at Florida State University may substitute STA X014).

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Requirements for a Major in General Management

All students must complete 1) the University-wide baccalaureate degree requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*; 2) the State of Florida common prerequisites for general management majors; 3) the general business core requirements for general management majors; 4) the general business breadth requirements for general management majors; and 5) the major area requirements for general management majors. **Note:** to be eligible to pursue a general management major, students must meet the admission requirements of the College of Business. These admission requirements are described in the "College of Business" section of this *General Bulletin*.

General Business Core Requirements

All general management majors must complete the following five (5) courses. A grade of "C-" or better must be earned in each course.

BUL	3310	The Legal Environment of Business (3).
FIN	3403	Financial Management of the Firm (3).
GEB	3213	Business Communications (3).
MAN	3240	Organizational Behavior (3).
MAR	3023	Basic Marketing Concepts (3).

General Business Breadth Requirements

All general management majors must complete five (5) courses as follows. Each course selected must be completed with a grade of "C-" or better.

MAN	3600	Multinational Business Operations (3).
MAN	4720	Strategic Management and Business Policy (3).

Plus three (3) electives from the following list of courses:

FIN	3244	Financial Markets, Institutions, and International Finance Systems (3).
HFT	3240	Managing Service Organizations (3).
ISM	3011	Introduction to Management Information Systems (3).
MAN	3504	Services Operations Management (3).
MAR	3700	Professional Selling (3).
QMB	3200	Quantitative Methods for Business Decisions (3).

REE	3043	Real Estate (3).
RMI	3011	Risk Management/Insurance (3).

Major Area Requirements

All general management majors must complete eight (8) courses as listed below. A grade of "C-" or better must be earned in each course used to satisfy the general management major area requirements.

MAN	4301	Human Resource Management (3).
MAN	4605	Cross Cultural Management (3).
MAN	4701	Business and Society (3).
MAN	4752	Competitive Dynamics (3).

Plus four (4) electives from the following list of courses:

MAN	4143	Contemporary Leadership Challenges (3).
MAN	4201	Organizational Analysis and Change (3).
MAN	4401	Management of Labor and Industrial Relations (3).
MAN	4441	Negotiation and Conflict Management (3).
MAN	4631	International Strategic Management (3).
MAN	4930r	Special Studies in Business (3).
MAR	3461	Principles of Purchasing (3).

Requirements for a Major in Human Resource Management

All students must complete 1) the University-wide baccalaureate degree requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*; 2) the State of Florida common prerequisites for human resource management majors; 3) the general business core requirements for human resource management majors; 4) the general business breadth requirements for human resource management majors; and 5) the major area requirements for human resource management majors.

Note: to be eligible to pursue a human resource management major, students must meet the admission requirements of the College of Business. These admission requirements are described in the "College of Business" section of this *General Bulletin*.

General Business Core Requirements

All human resource management majors must complete the following five (5) courses. A grade of "C-" or better must be earned in each course.

BUL 3310	The Legal Environment of Business (3).
FIN 3403	Financial Management of the Firm (3).
GEB 3213	Business Communications (3).
MAN 3240	Organizational Behavior (3).
MAR 3023	Basic Marketing Concepts (3).

General Business Breadth Requirements

All human resource management majors must complete five (5) courses as follows. Each course selected must be completed with a grade of "C–" or better.

MAN 4720	Strategic Management and Business Policy (3).
QMB 3200	Quantitative Methods for Business Decisions (3).

Plus three (3) electives from the following list of courses:

FIN 3244	Financial Markets, Institutions, and International Finance Systems (3).
HFT 3240	Managing Service Organizations (3).
ISM 3011	Introduction to Management Information Systems (3).
MAN 3504	Services Operations Management (3).
MAN 3600	Multinational Business Operations (3).
MAR 3700	Professional Selling (3).
REE 3043	Real Estate (3).
RMI 3011	Risk Management/Insurance (3).

Major Area Requirements

All human resource management majors must complete eight (8) courses as listed below. A grade of "C–" or better must be earned in each course used to satisfy the human resource management major area requirements.

MAN 4301	Human Resource Management (3).
MAN 4320	Staffing (3).
MAN 4390	Current Issues in Human Resource Management (3).
MAN 4401	Management of Labor and Industrial Relations (3).

Plus four (4) electives from the following list of courses:

MAN 4143	Contemporary Leadership Challenges (3).
MAN 4201	Organizational Analysis and Change (3).
MAN 4330	Compensation (3).
MAN 4350	Training and Development (3).

MAN 4441	Negotiation and Conflict Management (3).
MAN 4605	Cross Cultural Management (3).
RMI 4135	Employee Benefit Plans (3).

Definition of Prefix

GEB — General Business
MAN — Management

Undergraduate Courses

GEB 3213. Business Communications (3). Prerequisite: Must be upper division level business major. The course is designed to help business students develop the writing, verbal, and interpersonal skills that are necessary for a successful business career.

MAN 3025. Concepts of Management (3). Prerequisites: MAC 1141; ACG 2021; ECO 2023; and a behavioral science course. Introduction to the nature and process of management, with emphasis upon management of physical and human resources. (Not required for management or human resource management majors.)

MAN 3240. Organizational Behavior (3). Behavioral concepts, techniques, and applications for managing human resources in all types of organizations.

MAN 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

MAN 4143. Contemporary Leadership Challenges (3). Prerequisite: MAN 3240. Course provides broad exposure to the theories and practice of effective leadership and supervision in today's business and explores contemporary leadership challenges from a practical point of view, with opportunities to develop and practice effective leadership skills.

MAN 4201. Organizational Analysis and Change (3). Prerequisite: MAN 3240. Analysis of concepts and processes for affecting change in organizations.

MAN 4301. Human Resource Management (3). Prerequisite: MAN 3240. Survey of the human resource management function in organizations. Topics include: selection, recruiting, training, compensation, and performance appraisal.

MAN 4320. Staffing (3). Prerequisites: MAN 3240, 4301. The study of the design and operation of systems for employee recruitment and selection, including current practice and issues.

MAN 4330. Compensation (3). Prerequisites: MAN 3240, 4301. The study of the methods and implications of making wage and salary decisions for recruiting and retaining employees.

MAN 4350. Training and Development (3). Prerequisites: MAN 3240, 4301. The study of the various forms of training and development and their implementation both on and off the job.

MAN 4390. Current Issues in Human Resource Management (3). Prerequisites: MAN 3240, 4301. A seminar that probes current topics in human resource management in depth. Emphasis is on the impact of recent legal and societal developments on human resource management practice.

MAN 4401. Management of Labor and Industrial Relations (3). Corequisite: MAN 3240. A managerial perspective of labor and manpower concepts and issues in industrial and postindustrial society and work organizations.

MAN 4441. Negotiation and Conflict Management (3). Prerequisite: MAN 3240. A focus on negotiation and conflict management in business and other organizational

settings. The emphasis is on gaining an understanding of the negotiation process and strategies and developing effective negotiation and conflict management skills.

MAN 4605. Cross-Cultural Management (3). Prerequisite: MAN 3240. Course studies the unique issues of managing in non-native culture. Discusses management situations where members of more than one cultural group are included, along with strategies for maximum effectiveness in such situations.

MAN 4631. International Strategic Management (3). Prerequisites: ECO 2013, 2023; MAN 3600. Course focuses on the international dimensions of strategic management, including environmental and political issues affecting global competition. Special emphasis is given to the multinational enterprise and strategic options available for effective worldwide competitive advantage.

MAN 4680r. Explorations in International Management (3). Prerequisites: ECO 2013, 2023; MAN 3600. Selected topics in international management will vary depending upon the instructor for the course. Topics such as cultural influences on management, international personnel management, and other related management topics will be discussed. May be repeated to a maximum of six (6) semester hours.

MAN 4701. Business and Society (3). Prerequisite: MAN 3240. Examination of current and future issues in business and society with emphasis on the social responsibility of business and future challenges for business in a pluralistic society.

MAN 4720. Strategic Management and Business Policy (3). Prerequisites: FIN 3403; MAN 3240; MAR 3023. Case analysis of business and management problems for the formulation of managerial strategies and policies.

MAN 4752. Competitive Dynamics (3). Prerequisite: MAN 4720. Course applies the tools and concepts acquired in other business and management courses in a hands-on business simulation of competitive dynamics with an eye toward contemporary, emerging competitive issues confronting business senior executives and owners.

MAN 4905r. Directed Individual Study (1–3). May be repeated to a maximum of nine (9) semester hours.

MAN 4930r. Special Studies in Business (1–3). Prerequisite: Consent of the instructor. May be repeated to a maximum of nine (9) semester hours as topics vary.

MAN 4941. Field Study in Management (1–3). (S/U grade only.) Prerequisite: Consent of instructor. Provides student with on-the-job experience in major area.

MAN 4970r. Honors Thesis (3). Prerequisite: Admission to the honors program. May be repeated to a maximum of six (6) semester hours. Six (6) semester hours of thesis are required to complete honors in the major.

Graduate Courses

MAN 5204.	Organization Theory (3).
MAN 5245.	Organizational Behavior (3).
MAN 5285.	Organizational Change and Development (3).
MAN 5305.	Personnel/Human Resource Management (3).
MAN 5721.	Strategy and Business Policy (3).
MAN 5905r.	Directed Individual Study (1–3). (S/U grade only.)
MAN 5907r.	Special Studies in Management (1–3).
MAN 5911r.	Supervised Research (1–3). (S/U grade only.)

- MAN 5935r. Special Topics in Management (1–3).
 MAN 5940r. Supervised Teaching (1–3).
 (S/U grade only.)
 MAN 6235r. Doctoral Seminar in Organizational
 Theory (1–3).
 MAN 6275r. Organization Behavior I:
 Literature (1–3).
 MAN 6795r. Doctoral Seminar in Strategic
 Management: Selected Topics (3).
 MAN 6911r. Supervised Research (1–3).
 (S/U grade only.)
 MAN 6932. Doctoral Seminar in Strategic
 Management (3).
 MAN 6933r. Doctoral Seminar in Organizational
 Behavior (3).
 MAN 6934. Doctoral Seminar in Management
 Research: Data Analysis and
 Interpretation (3).
 MAN 6941r. Supervised Teaching (1–3).
 (S/U grade only.)
 MAN 6979. Seminar in Research (3).

Department of MANAGEMENT INFORMATION SYSTEMS

COLLEGE OF BUSINESS

Chair: Robert M. Mason; *Professors:* Mason, Paradise, Stair; *Associate Professor:* Kacmar; *Assistant Professors:* Bush, Chudoba, Dickey, Gallagher, Karahanna, Wasko; *Assistants:* Fisher, Payne, Wells; *Visiting Assistant:* Paul; *Thomas L. Williams, Jr. Eminent Scholar:* George; *Sprint/United Telephone of Florida Professor:* Mason

The management information systems department is the youngest department in the College of Business. It was formed to increase the emphasis on technological education in the business curriculum and to consolidate the teaching of management information systems into one unit. The purpose of the curriculum is to provide the student with a broad understanding of the role and use of managerial technology in the various functional areas of modern organizations. The overall intent is to prepare the student for entry-level positions in medium- and large-size organizations leading to high-level technical or managerial careers in both the public and private sectors.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. Specific prerequisites are required for admission into the upper-division program and

must be completed by the student at either a community college or a state university prior to being admitted to this program. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.**

The following lists the common prerequisites or their substitutions necessary for admission into this upper-division degree program:

1. ACG X021 or ACG X001 and ACG X011;
2. ACG X071;
3. CGS X100*;
4. ECO X013;
5. ECO X023;
6. MAC X233 or MAC X230;
7. STAX023 or QMB X100 (students at Florida State University may substitute STA X014).

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Requirements for a Major in Management Information Systems

All students must complete 1) the University-wide baccalaureate degree requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*; 2) the State of Florida common prerequisites for management information systems majors; 3) the general business core requirements for management

information systems majors; 4) the general business breadth requirements for management information systems majors; and 5) the major area requirements for management information systems majors. **Note:** to be eligible to pursue a management information systems major, students must meet the admission requirements of the College of Business. These admission requirements are described in the "College of Business" section of this *General Bulletin*.

General Business Core Requirements

All management information systems majors must complete the following five (5) courses. A grade of "C–" or better must be earned in each course.

BUL 3310	The Legal Environment of Business (3).
FIN 3403	Financial Management of the Firm (3).
GEB 3213	Business Communications (3).
MAN 3240	Organizational Behavior (3).
MAR 3023	Basic Marketing Concepts (3).

General Business Breadth Requirements

All management information systems majors must complete five (5) courses as follows. Each course selected must be completed with a grade of "C–" or better.

MAN 3504	Services Operations Management (3).
----------	-------------------------------------

MAN 3600	Multinational Business Operations (3).
QMB 3200	Quantitative Methods for Business Decisions (3).

Plus two (2) electives from the following list of courses:

FIN 3244	Financial Markets, Institutions, and International Finance Systems (3).
HFT 3240	Managing Service Organizations (3).
MAN 4720	Strategic Management and Business Policy (3).
MAR 3700	Professional Selling (3).
REE 3043	Real Estate (3).
RMI 3011	Risk Management/Insurance (3).

Major Area Requirements

At the time of printing, the major requirements for management information systems majors were under revision. Students may contact the College of Business Undergraduate Programs Office and Advising Center (850-644-3892) for updated information regarding these requirements. Updated information also is available at the following web site: www.cob.fsu.edu/undergrad/majors/mis.html.

Definition of Prefixes

CGS	— Computer General Studies
ISM	— Information and Management Sciences
MAN	— Management
QMB	— Quantitative Methods in Business

Undergraduate Courses

CGS 3403. Introduction to COBOL Programming for Business (3). Prerequisite: CGS 2100. Study of the use of COBOL in business and government organizations. Specific programs are developed to solve typical management and data processing problems. Structured approaches to problems and design solutions are discussed in detail. Also taught by the Department of Computer Science.

ISM 3004. Information Resources Management for Business (4). This course provides coverage of information processing concepts and technology and computer applications in a business environment using microcomputers. The importance of end-user computing in modern business organizations is stressed and the information infrastructure of typical business firms is studied.

ISM 3011. Introduction to Management Information Systems (3). Prerequisite: CGS 2100. Introduction to management information systems concepts, with emphasis on describing information requirements, managing information resources, and applying information processing technology to business and management.

MAN 3504. Services Operations Management (3). Prerequisites: CGS 2100; QMB 3200. Methodology and theory of the design and management of productive systems, especially in the services industry. Includes quantitative techniques and procedures for process analysis.

MAN 3520. Total Quality Management (3). Prerequisite: QMB 3200. Strategy and techniques at total quality management systems. Includes design and implementation of TQM in public and private organizations.

QMB 3200. Quantitative Methods for Business Decisions (3). Prerequisites: CGS 2100; MAC 2233; STA 2023. An examination of classical and modern decision-making techniques based on probabilistic concepts. Emphasizes applications to all areas of business.

CGS 4404. Advanced Application Development (3). Prerequisites: CGS 3403; ISM 4030. This course presents advanced application development methodology, technology and tools. Students work on teams in the applied study of complex systems development problems and cases.

ISM 4030. Management Information Systems Analysis and Design (3). Prerequisite: CGS 2100. In-depth treatment of the theory and practice of management information systems including information requirements analysis, design methodology, and system implementation considerations. For MIS majors only.

ISM 4113. Information and Communications Systems Management (3). Prerequisite: ISM 4030. An introduction to the design, operation, and management of telecommunication systems including electronic data interchange, office support, transborder information flow, and management support for networking. For MIS majors only.

ISM 4117. Decision Support and Expert Systems Management (3). Prerequisites: ISM 4113, 4212. Pre- or Corequisite: QMB 4700. The design, development, implementation, and management of decision support and expert systems; includes concepts of data management, modeling decision support systems, and decision making. For MIS majors only.

ISM 4212. Information for Operating Control and Data Management (3). Prerequisite: ISM 4030. Covers the theory, techniques, and applications of information management and control including organizations as information-processing systems and executive support systems. For MIS majors only.

ISM 4360. Technology Management (3). Prerequisite: ISM 4113. The strategy and theory of the creation, development, introduction, management, and marketing of new technologies and services. Management of the appropriate technological environment of an organization is emphasized. Concepts and approaches to E-commerce and E-business.

ISM 4905r. Directed Individual Study (1–3). May be repeated to twelve (12) semester hours.

ISM 4930r. Special Topics in Management Information Systems (1–3). This course provides an opportunity to study current issues in management information systems and topics not covered in other courses. May be repeated to a maximum of nine (9) semester hours as content varies. Prerequisites will vary depending on the topic of the course; refer to department for details.

ISM 4970r. Honors Thesis (3). Prerequisite: Admission to the honors program. May be repeated to a maximum of six (6) semester hours. Six (6) semester hours of thesis are required to complete honors in the major.

MAN 4521. Distribution and Logistics Management (3). Prerequisite: CGS 2100. The study of distribution and logistics systems which move physical resources from production to consumers; includes emphasis on both products and services.

MAN 4941. Field Study in Management (1–3). (S/U grade only.) Prerequisite: Consent of instructor. Provides student with on-the-job experience in major area.

QMB 4700. Operations Research for Managerial Decisions (3). Prerequisite: MAN 3504. Quantitative analysis for management decisions involving such topics as linear programming, inventory control, queuing, and project management.

Graduate Courses

ISM 5006.	Communication and Decision Processes (3).
ISM 5021.	Information and Technology Management (3).
ISM 5046.	Social and Organizational Issues in MIS (3).
ISM 5123.	Information Systems Analysis and Design (3).
ISM 5206.	Database Development and Management (3).
ISM 5226.	Network Development and Management (3).
ISM 5315.	Project Management (3).
ISM 5475.	Client/Server Applications (3).
ISM 5906r.	Directed Individual Study (1–3). (S/U grade only.)
ISM 5907r.	Information and Systems Management: Special Studies in Management (1–3).
ISM 5935r.	Special Topics in Information and Management Sciences (1–3).
ISM 6109.	Doctoral Seminar in General Systems Theory (3).
ISM 6395.	Doctoral Seminar in Management Information Systems (3).
ISM 6405.	Doctoral Seminar in Decision Processes and Structures (3).
ISM 6885.	Seminar on Applied MIS Research (3).
ISM 6917r.	Supervised Research (1–3). (S/U grade only.)
ISM 6919r.	Supervised Teaching (1–3). (S/U grade only.)
ISM 6979.	Doctoral Seminar in Research Methods and the Philosophy of Science (3).
MAN 5022.	Quality Management (3).
MAN 5501.	Operations Management (3).
MAN 6930.	Doctoral Seminar in Productive Systems Management: Planning and Control (3).
MAN 6931.	Doctoral Seminar in Productive Systems Management: Strategy and Design (3).
QMB 5355.	Quantitative Methods for Managerial Decisions (3).
QMB 5755.	Studies in Operations Research (3).
QMB 5845.	Simulation of Dynamic Systems (3).
QMB 5906r.	Directed Individual Study (1–3). (S/U grade only.)
QMB 5907r.	Special Studies in Management (1–3).
QMB 5935r.	Special Topics in Quantitative Methods (1–3).

Department of MARKETING

COLLEGE OF BUSINESS

Chair: Dennis Cradit; *Professors:* Cradit, Cronin, Downs, Giunipero, Goldsmith, Hofacker, Showalter, Stith, Zenz; *Associate Professors:* Brusco, Flynn, Freiden; *Assistant Professors:* Flint, Hartline, Knight, Overby, Raman; *Lecturers:* Brennan, Denslow

The marketing curriculum is designed to prepare students for successful careers in the many phases of marketing in both the public and private sectors. Courses are oriented toward: 1) problem solving and management decision making; 2) providing basic knowledge of the tools, types of organization, and institutions utilized in performing the various marketing functions; and 3) developing the ability to plan and implement marketing policy, strategy, and procedures.

The total curriculum is designed to impart knowledge and competence in marketing that will enable graduates to progress well in the early stages of their careers; develop the ability to analyze, plan, organize, coordinate, motivate, and control; think creatively; communicate effectively; and gain broad perspectives essential to the attainment of ownership or top management responsibilities.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. Specific prerequisites are required for admission into the upper-division program and must be completed by the student at either a community college or a state university prior to being admitted to this program. Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.

The following lists the common prerequisites or their substitutions necessary for admission into this upper-division degree program:

1. ACG X021 or ACG X001 and ACG X011;
2. ACG X071;
3. CGS X100*;
4. ECO X013;
5. ECO X023;
6. MAC X233 or MAC X230;
7. STA X023 or QMB X100 (students at Florida State University may substitute STA X014).

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Requirements for a Major in Marketing

All students must complete 1) the University-wide baccalaureate degree requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*; 2) the State of Florida common prerequisites for marketing majors; 3) the general business core requirements for marketing majors; 4) the general business breadth requirements for marketing majors; and 5) the major area requirements for marketing majors.

Note: to be eligible to pursue a marketing major, students must meet the admission requirements of the College of Business. These admission requirements are described in the "College of Business" section of this *General Bulletin*.

General Business Core Requirements

All marketing majors must complete the following five (5) courses. A grade of "C-" or better must be earned in each course.

BUL	3310	The Legal Environment of Business (3).
FIN	3403	Financial Management of the Firm (3).
GEB	3213	Business Communications (3).
MAN	3240	Organizational Behavior (3).
MAR	3023	Basic Marketing Concepts (3).

General Business Breadth Requirements

All marketing majors must complete five (5) courses as follows. Each course selected must be completed with a grade of "C-" or better. No course may be used to satisfy part of the general business breadth requirements and part of the major area requirements.

ISM	3011	Introduction to Management Information Systems (3).
MAN	3504	Services Operations Management (3).
QMB	3200	Quantitative Methods for Business Decisions (3).

Plus two (2) electives from the following list of courses:

FIN	3244	Financial Markets, Institutions, and International Finance Systems (3).
HFT	3240	Managing Service Organizations (3).
MAN	3600	Multinational Business Operations (3).
MAN	4720	Strategic Management and Business Policy (3).
MAR	3700	Professional Selling (3).
REE	3043	Real Estate (3).
RMI	3011	Risk Management/Insurance (3).

Major Area Requirements

All marketing majors must complete eight (8) courses as listed below. A grade of "C-" or better must be earned in each course used to satisfy the marketing major area requirements. No course may be used to satisfy part of the major area requirements and part of the general business breadth requirements.

MAR 3503	Behavioral Sciences Implications for Marketing (3).
MAR 4613	Marketing Research (3).
MAR 4939r	Electronic Marketing (3).
QMB 4700	Operations Research for Managerial Decisions (3).

Plus four (4) electives from the following list of courses (electives must be chosen to complete one of the three concentrations described below):

MAR 3231	Retailing Management (3).
MAR 3323	Promotional Management (3).
MAR 3461	Principles of Purchasing (3).
MAR 3700	Professional Selling (3).
MAR 3711	Sports, Recreation, and Entertainment Marketing (3).
MAR 4203	Channel Management: Structure and Strategy (3).
MAR 4403	Sales Management (3).
MAR 4453	Industrial Marketing (3).
MAR 4462	Seminar in Purchasing/Materials Management (3).
MAR 4614	Advanced Marketing Research (3).
MAR 4831	Price and Product Management (3).
MAR 4840	Services Marketing (3).
MAR 4939r	Marketing Seminar (3).

Students must select their marketing electives to complete one of the following concentrations:

Service Operations. Take MAR 4840 plus any three (3) other marketing electives from the list above.

Supply Chain Management. Take MAR 3461, and MAR 4203 plus any two (2) other marketing electives from the list above.

Sales and Customer Relationship Management. Take MAR 4403 and MAR 4939r (Marketing Seminar) plus any two (2) other marketing electives from the list above.

Definition of Prefixes

GEB	—	General Business
MAN	—	Management
MAR	—	Marketing

Undergraduate Courses

MAR 3023. Basic Marketing Concepts (3). Prerequisites: ECO 2023, one behavioral science course. A required prerequisite for all marketing courses. Gives the student an understanding of the decision areas and the ability to utilize marketing concepts to make business decisions.

MAR 3231. Retailing Management (3). Prerequisite: MAR 3023. Intensive training in the rudiments of retail operations.

MAR 3323. Promotional Management (3). Prerequisite: MAR 3023. Focuses on issues related to management of promotional tools including advertising, personal selling, sales promotion, public relations, and publicity.

MAR 3461. Principles of Purchasing (3). Prerequisite: MAR 3023. Introduction to the concepts, principles, and techniques of purchasing physical resources for all types of organizations.

MAR 3503. Behavioral Sciences Implications for Marketing (3). Prerequisite: MAR 3023. Acquaints the student with the fundamental theories and terminology currently derived from the behavioral sciences and applied to the consumer decision making process.

MAR 3700. Professional Selling (3). Prerequisite: MAR 3023. This course addresses the application of behavior and persuasive communication theories, and the techniques necessary to develop effective personal selling skills within organizations.

MAR 3711. Sports, Recreation and Entertainment Marketing (3). Prerequisite: MAR 3023. This course provides students a framework for understanding how marketing strategies and tactics can be successfully applied within sports, and within recreational and entertainment organizations.

Business Majors Only

MAR 4156. Multinational Marketing (3). Prerequisites: MAR 3023; MAN 3600. Introduces the student to marketing management decision making in international environments through the use of cases and/or business games.

MAR 4203. Channel Management (3). Prerequisite: MAR 3023. Seeks to link retailing, agency, and wholesaling management under the consumer unit channels and to demonstrate the necessity of channel integration.

MAR 4232. Advanced Retailing Management (3). Prerequisite: MAR 3231. Formulation of comprehensive, integrated marketing strategies for retail firms in contemporary environments.

MAR 4403. Sales Management (3). Prerequisite: MAR 3023. Exposes the student to concepts, activities, and analysis pertaining to sales and the management of the sales force.

MAR 4453. Industrial Marketing (3). Prerequisite: MAR 3023. This course focuses on those marketing activities involved in the marketing of products and services to organizations that use products and services in the production of consumer or industrial goods and services.

MAR 4462. Seminar in Purchasing/Materials Management (3). Prerequisite: MAR 3461. Advanced concepts in purchasing and materials management. Emphasis is on recent research and current practice to achieve strategic sourcing objectives.

MAR 4613. Marketing Research (3). Prerequisites: MAR 3023; QMB 3200. Examines marketing research as an information-providing activity for the purpose of management decision making.

MAR 4614. Advanced Marketing Research (3). Prerequisite: MAR 4613. Provides experience in designing and conducting actual marketing research studies.

MAR 4831. Price and Product Management (3). Prerequisite: MAR 3023. Familiarizes students with the scope and complexity of the marketing executives product and pricing management problem.

MAR 4840. Services Marketing (3). Prerequisite: MAR 3023. Examination of marketing in the service industries with particular emphasis on the unique aspect of services marketing, the service marketing mix, and the implementation of service strategies.

MAR 4905r. Directed Individual Study (1-3). May be repeated to a maximum of twelve (12) semester hours.

MAR 4939r. Marketing Seminar (3). Prerequisite: MAR 3023. Various topics taught by different instructors each semester. May be repeated to a maximum of six (6) semester hours.

MAR 4941. Internship in Marketing (1-3). (S/U grade only.) Prerequisites: MAR 3023, MAN 3010. Consent of instructor required. Provides student with on-the-job experience in major area.

MAR 4970r. Honors Thesis (3). Prerequisites: MAR 3023, admission to the honors in the major program. May be repeated to a maximum of six (6) semester hours. Six (6) semester hours of thesis are required to complete honors in the major.

Graduate Courses

GEB 5125. Seminar in Small Business Analysis and Assistance (3).

GEB 5446. The Business Context (3).

GEB 6904r. Readings for Examination (1-12). (S/U grade only.)

MAN 5601. Multinational Business Operations (3).

MAR 5409. Business-to-Business Sales and Marketing (3).

MAR 5465. Purchasing and Supply Management (3).

MAR 5505. Consumer Behavior (3).

MAR 5726. Electronic Business in Supply Chain Marketing (3).

MAR 5815. Marketing Management (3).

MAR 5816. Marketing Strategy (3).

MAR 5907r. Directed Individual Study (1-3). (S/U grade only.)

MAR 5908r. Special Studies in Management (1-3).

MAR 5917r. Supervised Research (1-3). (S/U grade only.)

MAR 5935r. Special Topics in Marketing (1-3).

MAR 5940r. Supervised Teaching (1-3). (S/U grade only.)

MAR 5971r. Thesis (3-6). (S/U grade only.)

MAR 6507. Quantitative Methods I: Measurement, Scaling, and Choice (3).

MAR 6575. Seminar in Marketing: Selected Topics in Consumer Behavior (3).

MAR 6658. Quantitative Methods II: Psychometric and Econometric Approaches to Marketing (3).

MAR 6665. Seminar in Marketing Models (3).

MAR 6817. Seminar in Marketing Management (3).

MAR 6828. Seminar in Marketing: Elements and Integration of Marketing Strategy (3).

MAR 6918r. Supervised Research (1-3). (S/U grade only.)

MAR 6919r. Supervised Teaching (1-3). (S/U grade only.)

MAR 6979. Seminar in Marketing: Research Methodology (3).

For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the *Graduate Bulletin*.

Department of MATHEMATICS

COLLEGE OF ARTS AND SCIENCES

Chair: DeWitt Sumners; *Associate Chair:* Bowers; *Associate Chair for Graduate Studies:* Huckaba; *Director of Basic Mathematics:* Stiles; *Director of Applied Mathematics:* Navon; *Director of Actuarial Science and Financial Mathematics:* Case; *Professors:* Aluffi, Belenot, Bowers, Bryant, Case, Erlebacher, Gilmer, Heil, Huckaba, Hunter, Hussaini, Kopriva, Mesterton-Gibbons, Mott, Navon, Nichols, Oberlin, Quine, Seppala, Sumners, Tam, Wright, Young; *Associate Professors:* Blumsack, Fenley, Kercheval, Klassen, Magnan, Mio, Nolder, Wang; *Assistant Profes-*

sors: Aldrovandi, Bertram, Hironaka, van Hoeij; *Visiting Assistant Professor:* Sussman; *Service Professor:* Novinger; *Associates in Mathematics:* Blackwelder, Boyd, Burgess, Dodaro, Grigorian, Wooland; *Assistants in Mathematics:* Kirby, Rogers; *Professors Emeriti:* Heerema, Howard, Kreimer, McWilliams; *Courtesy Professors:* Banks, Beaumont, Chen, Gallivan, Lacher, Levitz, Lin, Loper, Mascagni

The Department of Mathematics offers programs of study leading to the bachelor of science (BS) and bachelor of arts (BA) degrees, the master of science (MS) and master of arts (MA) degrees, and the doctor of philosophy (PhD) degree. (For details of the master's and doctoral degrees, see the *Graduate Bulletin*.) A degree in mathematics can be regarded as the central component of a liberal education,

either for its own sake or as preparation for professional study in another field or mathematics graduate study. Students can look forward to employment in an industrial or financial firm, a governmental agency, or teaching in a secondary, college or university institution. Actuarial Science students benefit from the eagerness of actuarial employers to reach them. Each year a dozen representatives of insurance, consulting and government firms visit the department to describe the field and to interview students for both summer internships and jobs.

A student may obtain a baccalaureate degree with a major in mathematics, applied mathematics or actuarial science. Students who intend to pursue studies in higher mathematics should choose either the mathematics major or the applied mathematics major. The major

in actuarial science is strongly oriented toward professional advancement in the insurance and financial sectors.

A directed program to fit special interests may be followed by a student with a specialized objective in mathematics, provided that the program is advocated by the student's faculty advisor and approved by the chair of the department before the student has enrolled in any 4000-level courses.

The department has a widely recognized research faculty, all of whom teach undergraduate students. Under the direction of a faculty member, selected students may choose to pursue an individual research project under Honors in the Major.

The department offers several opportunities for its majors to participate in learning activities outside the classroom. The Florida State University Mathematical Society provides a venue in which undergraduate students and faculty meet monthly to share interests and enjoy an accessible lecture by a faculty member or a distinguished visitor. The Florida State Student Actuarial Society hosts presentations by actuaries; the students share experiences about summer internships and prepare for actuarial examinations. The organization's *Resumé Book* assists matching students with jobs, and well-placed graduates of the program help current students. The department fields a team for the William Lowell Putnam Examination, a nationwide competition among mathematics students conducted annually by the Mathematical Association of America. A fall seminar is held for students to become familiar with Putnam-style problems and to hone their skills at solving them. Each year the local chapter of the national mathematics honorary society Pi Mu Epsilon inducts students of high academic achievement from each of the three majors. All of these activities offer opportunities to socialize while learning.

Departmental Programs

The Department of Mathematics offers bachelor's, master's and doctoral degrees. At the undergraduate level there are degree programs in mathematics and actuarial science. (See also "Program in Actuarial Science," this *General Bulletin*.) Within the degree program in mathematics there are major options in mathematics and applied mathematics.

Academic Performance

A grade of "C–" or better is required in all courses to be counted toward these degrees. A student who has accumulated more than five grades below "C–" (including grades of U) in mathematics or computer science courses taken for college credit at The Florida State University or elsewhere, whether repeated or not, will not be permitted to continue as a major in the department.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for these University degree programs. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for each degree program:

Mathematics

1. Three (3) semester hours of COP XXXX (computer language: Pascal, FORTRAN, C, C+, or C++);
2. MAC X311;
3. MAC X312;
4. MAC X313;
5. Successful completion of two laboratory-based science courses for respective science majors: BSC XXXX/XXXXL or CHM XXXX/XXXXL or PHY XXXX/XXXXL.

Actuarial Science

1. Three (3) Semester hours of COP XXXX (computer language: FORTRAN, C, C+, C++, or Pascal)
2. MAC X311;
3. MAC X312;
4. MAC X313;
5. ECO X013 and ECO X023.

Students are encouraged to complete the courses ACG X021, MAP X302 and STA X122 in their first two years.

A grade of "C–" or better is required in all courses to be counted towards the degrees.

Requirements

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*. The student should also obtain, from the departmental office and website, revisions to the degree guidelines since this printing.

The bachelor of arts (BA) degree in mathematics or actuarial science can be obtained by completion of the bachelor of science (BS) degree requirements plus additional courses required by the University as set forth in the "Undergraduate Degree Requirements" section of this *General Bulletin*.

Students should complete the State of Florida Common Course Prerequisites, including the physics and economics requirements, during the first two college years. Students who expect to transfer to pursue the degree program in actuarial science at The Florida State University after one or more years at another college should note above the advisability of completing additional courses mentioned above when possible.

A student who expects to continue on to doctoral work in mathematics is encouraged to complete the foreign language requirement in French, German, or Russian.

Mathematics courses at the 4000-level applied toward the mathematics, applied mathematics, or actuarial science major must be taken at The Florida State University unless specifically exempted by the chair on written request.

Baccalaureate Degree in Mathematics

Courses required for both degree options in mathematics are MAS 3105, STA 4442, and a course that exhibits proficiency in a scientific computer programming language. Courses in C, C++, FORTRAN, Java, or another approved higher-level language will provide this background. Successful completion of MAD 3703 will also suffice.

Major in Mathematics. In addition to the State of Florida Common Course Prerequisites and the courses above, the student will complete PHY 2048C or some other approved calculus-based natural or social science course and will complete the courses MAP 2302; MGF 3301; MAS 4302; MAA 4224 or 4226; and three of the following, of which at least two must be at the 4000 level: MAA 4227, 4402; MAD 2104, 3105, 3703, 4704; MAP 4103, 4153, 4180, 4202, 4216, 4331, 4341, 4342; MAS 4106, 4203, 4303; MAT 4934; MHF 4302; MTG 4302. At least one of the sequences following, or an approved substitution, must be included: MAA 4226-4227, MAD 3703-4704, MAP 4341-4342, MAS 4302-4303, MTG 4302, and MAA 4402 must be completed. Additional computer languages are recommended.

A student intending to do graduate work in pure mathematics should take MAA 4226-4227 and MAS 4302-4303. MAA 4402 and MTG 4302 are also recommended.

Major in Applied Mathematics. In addition to the State of Florida Common Course Prerequisites and the courses above, the student will complete PHY 2048C (PHY 2049C is highly recommended) and the courses MAD 3703; MAP 2302, 4103 and 4341; CGS 3410; and three of the following: MAA 4224 or 4226, 4227, 4402; MAD 4704; MAP 4153, 4180, 4202, 4216, 4342; MAS 4106; MAT 4934.

Second Majors

A student may complete a second major in another department. Also, a student may complete majors in mathematics and actuarial science or in applied mathematics and actuarial science by completing all of the prerequisite and degree requirements for each selected program.

Baccalaureate Degree in Actuarial Science

In addition to the State of Florida Common Course Prerequisites, there are interdisciplinary degree requirements. The student should obtain information about recent program updates from the academic advisor; these assure the best preparation by allowing for a timely response to recommendations of the actuarial professional societies. Representative requirements include: MAS 3105; MAP 4170, 4175; STA 4442; actuarial tutorials MAT 4930r; and three of the following: MAA 4224 or 4226; MAD 3703; MAP 2302, 4341; MAS 4106; MAD 2104 or MGF 3301; STA 2122, 4203, 4322 or 4853;. The student must also take the following courses in business and economics: ACG 2021, FIN 3403 and 4504, RMI 3011; also required are at least two of the following courses: ECO 4101, 4401, 4421; RMI 4115, 4135, 4224, 4292; FIN 4514. These courses satisfy the requirements for a minor in business and no additional minor is required.

Minor or Second Major

Information concerning acceptable minors for students majoring in a department program is available from the departmental office. The required computer science, physics, and statistics courses are collateral and may be counted toward a minor in the appropriate department.

Honors in the Major

The Department of Mathematics offers honors in the major designed to introduce the student to the process of independent and original research. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Requirements for a Minor in Mathematics

A minor in mathematics consists of twelve (12) semester hours in courses with prefixes MAA, MAC, MAD, MAP, MAS, MAT, MGF, MHF, MTG, but not including any of the courses numbered 1XXX, or MAC 2233. A grade of "C-" or better must be earned in each course counted toward the minor.

Prerequisite Courses

Before taking any mathematics course, the student must complete with a grade of "C-" or better each course prerequisite to that course. Moreover, a student who earns a "C-" or better in a course with one or more stated or implied prerequisites may not subsequently earn credit in the prerequisite course(s). For example, a student who has earned a "C-" or better in MAC 2312 may not subsequently enroll in MAC 1105, 1114, 1140, or 2311.

Credit Note 1. In exception to the preceding paragraph, a transfer student may take MAC 1105 for credit even though the student has a "C-" or better in a transfer course that has been equated to a course for which MAC 1105 is prerequisite, provided the student has taken the AMP (Advanced Mathematics Placement) test and has not yet satisfied the Area I liberal studies requirement in mathematics.

Credit Note 2. In cases in which a student has earned a "D+", "D", or "D-" in a course and subsequently takes a similar course at the same level, the hours toward graduation for the first course will be disallowed as soon as the student passes the second course. These cases are: MAC 2233 after MAC 2311; MAC 2311 after MAC 2233.

Undergraduate Courses

Note: for descriptions of interdisciplinary science courses see the "College of Arts and Sciences" section of this *General Bulletin*.

MAC 1105. College Algebra (3). Recommended background: two years of high school algebra. On basis of test scores the student may be required to take a community college course before MAC 1105. Review of algebraic operations, equations and inequalities; functions and functional notation; graphs; inverse functions; linear, quadratic, rational function; absolute value; radicals; exponential and logarithmic functions; system of equations and inequalities; applications.

MAC 1114. Analytic Trigonometry (2). Prerequisite: MAC 1105. Trigonometric functions, inverse trigonometric functions and their graphs; identities and conditional equations; solution of triangles; trigonometric form of complex numbers; DeMoivre's theorem and nth roots; introduction to plane vectors.

MAC 1140. Precalculus Algebra (3). Prerequisite: MAC 1105 or appropriate score on a mathematics placement examination. May be taken concurrently with MAC 1114. Credit must be reduced to two (2) hours for students

having a grade of "C-" or better in MAC 1141. (See Credit Note 2 above.) Functions and graphs, with emphasis on higher degree polynomial, rational, exponential, and logarithmic functions; systems of equations; solution of linear systems, matrix methods, determinants; sequences and series, induction, and the binomial theorem. Applications, approximation, and methods of proof.

MAC 1147. Precalculus Algebra/Trigonometry (5). Prerequisite: MAC 1105 or appropriate score on a mathematics placement examination. Credit must be reduced to four (4) hours for students who took MAC 1141 and received a grade of "C-" or better. This is a one-semester course encompassing the topics of MAC 1140 (Precalculus Algebra) and MAC 1114 (Analytic Trigonometry). See the topics for MAC 1140 and MAC 1114 for the topics in MAC 1147.

MGF 1106. Mathematics for Liberal Arts I (3). Recommended background: two years of high school algebra. Course is not intended for students whose programs require precalculus or calculus courses. Set theory; symbolic logic; counting principles; permutations and combinations; probability; statistics; geometry; applications and history of mathematics.

MGF 1107. Topics in Practical Finite Mathematics (3). Prerequisites: MAT 1033 or suitable placement score. Recommended background: two years of high school algebra. Topics will include financial mathematics; linear and exponential growth; numbers and number systems; history of mathematics; elementary number theory; voting techniques; graph theory; game theory; geometry; and computer applications.

MGF 1214. Environmental Mathematics (3). Recommended background: two years of high school algebra. An elementary introduction to mathematical models useful in understanding and solving environmental problems. The H.T. Odum energy diagrams for energy flows provide visual models that are translated into flow equations, which can then be solved by ordinary calculators.

MAC 2233. Calculus for Business (3). Prerequisites: Appropriate score on a mathematics placement examination or MAC 1105 or 1140 (or former course MAC 1141). Not open to students who have credit in MAC 2311 with a grade of "C-" or better. (See Credit Note 2 above.) Limits, continuity, first and higher derivatives, and the differential, with applications to graphing, rates of change, and optimization methods; techniques of integration and applications; introduction to multivariate calculus.

MAC 2311. Calculus with Analytic Geometry I (4). Prerequisites: MAC 1147, or MAC 1140 and 1114; or appropriate score on a mathematics placement examination. Polynomial, trigonometric, exponential and logarithmic functions; first and second derivatives and their interpretations; definition and interpretation of the integral; differentiation rules; implicit differentiation; applications of the derivative; antiderivatives; fundamental theorem of calculus. This course must be taken for reduced credit by students with prior credit for some of the content.

MAC 2312. Calculus with Analytic Geometry II (4). Prerequisite: MAC 2311 or MAP 2483, or appropriate score on a mathematics placement examination. Techniques of integration; applications of integration; series and Taylor series; differential equations. This course must be taken for reduced credit by students with prior credit for some of the content.

MAC 2313. Calculus with Analytic Geometry III (5). Prerequisite: MAC 2312. Functions of several variables and their graphical representations; vectors; partial derivatives and gradients; optimization; multiple integration; polar, spherical, and cylindrical coordinate systems; curves; vector fields; line integrals; flux integrals; divergence theorem and Stokes' theorem. This course must be taken for reduced credit by students with prior credit for some of the content.

MAD 2104. Discrete Mathematics I (3). Prerequisite: MAC 1140. Mathematical techniques of definition and proof, with application to discrete domains; formal logic; elementary combinatorics; digraphs and relations; graphs, trees, and multigraphs; applications.

MAP 2302. Ordinary Differential Equations (3). Prerequisite: MAC 2312. Not open to students having credit in MAP 3305. Differential equations of the first order, linear equations of the second, systems of first order equations, power series solutions, Laplace transforms, numerical methods.

MAP 2483. Biocalculus (4). Prerequisites: MAC 1114, 1140. Functions as biological models; properties of functions; recurrence relations; sequences; convergence; exponential, logarithmic and trigonometric functions; definite and indefinite integrals; derivatives and partial derivatives; the chain rule and other rules for differentiation; fundamental theorem of calculus; continuous probability distributions, means and variances; biological applications.

MAD 3105. Discrete Mathematics II (3). Prerequisite: MAD 2104. Techniques of definition and logical argument as applied in several areas of discrete mathematics; counting techniques, permutations, combinations; recurrence relations, graph and network algorithms.

MAD 3107. Mathematics in Computing (5). Prerequisite: MAC 2311. Topics covered include: set theory, symbolic logic, partial functions, algorithms, data types, binary and n-ary relations, recursion, mathematical proofs and mathematical induction.

MAD 3401. Introductory Numerical Analysis (3). Prerequisites: MAC 2312; competence in a programming language suitable for numeric computations. Polynomial interpolation, data fitting, solutions to nonlinear equations, numerical integration, and differentiation. Not open to mathematics majors.

MAD 3703. Numerical Analysis I (3). Prerequisites: MAC 2312; MAS 3105; FORTRAN or PASCAL or C. Root finding, interpolation and polynomial approximation, numerical differentiation and integration, direct and iterative methods for systems of linear equations.

MAP 3305. Engineering Mathematics I (3). Prerequisite: MAC 2313 or MAC 2312 with a grade of B or better. Not open to students having credit in MAP 2302. Ordinary differential equations, Laplace transform. Linear algebra: determinants, matrices, eigenvalues and eigenvectors. Systems of first-order differential equations.

MAP 3306. Engineering Mathematics II (3). Prerequisites: MAC 2313; MAP 2302 or 3305. Not open to students having credit in MAP 4341. Fourier series and Fourier transforms, introduction to partial differential equations.

MAS 3105. Applied Linear Algebra I (4). Prerequisite: MAC 2312. Gaussian elimination, vector spaces, least squares problems, determinants, eigenvalues and eigenvectors, linear transformations, applications.

MAS 3301. Introduction to Modern Algebra (3). Prerequisites: MAC 2312; MAD 2104 or MAS 3105. Groups, permutations and symmetries, rings, integral domains, properties of the integers, fields and rational numbers. Mathematics majors must take MAS 4302 instead.

MAT 3711. Introduction to Symbolic Computation (3). Prerequisite: MAC 2312. Generalities of programs for symbolic computation; programming mathematics; elementary computer algebra: manipulating polynomials, Groebner bases; elementary computer analysis; integration techniques.

MAT 3930r. Special Topics in Mathematics (1–3). May be repeated to a maximum of twelve (12) semester hours.

MGF 3301. Introduction to Advanced Mathematics (3). Prerequisite: MAC 2312. An introduction to the methods of mathematics through such a variety of classical and modern topics as set theory, algebra, real number topology and graph theory. Axioms and proofs will be emphasized throughout.

MAA 4224. Introduction to Analysis I (3). Prerequisites: MAC 2313; MAS 3105; MGF 3301. A rigorous treatment of elementary calculus. Topics include the completeness of the real numbers, sequences and series, limits and continuity, derivatives, integrals, the Fundamental Theorem of Calculus, and sequences and series of functions.

MAA 4226, 4227. Advanced Calculus I, II (3, 3). Prerequisites: MAC 2313; MAS 3105. Functions, sequences, limits; continuity, uniform continuity; differentiation; integration; convergence, uniform convergence. For strong students with advisor approval only.

MAA 4402. Complex Variables (3). Prerequisite: MAC 2313. Analytic functions, Cauchy-Riemann conditions; complex integration, Cauchy's theorem and integral formula; power series, analytic continuation, Riemann surfaces; residues and applications; conformal mapping.

MAD 4704. Numerical Analysis II (3). Prerequisites: MAD 3703; MAP 2302. Approximation theory, numerical solution of nonlinear systems, boundary value problems and initial value problems for ordinary differential equations.

MAE 4813. Number Systems (4). Principles and operations related to finite and infinite subsets of the real numbers are investigated, compared, and contrasted with an emphasis on understanding. Not open to students majoring in mathematics.

MAE 4815. Elements of Algebra (3). The algebra of sets and the algebra of real numbers are studied. Concepts rather than rote manipulations are emphasized. Not open to students majoring in mathematics.

MAE 4816. Elements of Geometry (3). A variety of traditional and innovative geometric topics are explored via a hands on approach. Topics include congruence, similarity, Pythagorean triples, and areas of curvilinear figures. Not open to students majoring in mathematics.

MAE 4874. Fundamental Principles of Algebra (2). Prerequisite: A 2000 level course in mathematics or two years experience in teaching secondary school mathematics. Not open to students majoring in mathematics.

MAE 4878. Introduction to Applications of Mathematics for Teachers (2). Prerequisite: A 2000 level course in mathematics or two years experience in teaching high school mathematics. Not open to students majoring in mathematics.

MAP 4103. Mathematical Modeling (3). (S/U grade only.) Prerequisites: MAP 2302; MAS 3105; PHY 2048C. Application of mathematics to real life situations, construction of mathematical models, use of elementary and advanced mathematical methods, and case studies.

MAP 4153. Vector Calculus with Introduction to Tensors (3). Prerequisite: MAC 2313. Vector calculus: gradient, divergence, curl; differential operators in orthogonal curvilinear coordinates. Line, surface, and volume integrals; Stokes' and Green's theorems. Subscript notation, Cartesian tensors; applications.

MAP 4170. Introduction to Actuarial Mathematics (4). Corequisites: MAC 2313; STA 4442. Amount function, dollar-weighted and time-weighted rates, force of interest; special annuity types, bonds, capitalization and applications. Survival theory: force of mortality and death curve, analytical functions of mortality, contingent payments; continuous and discrete single premium models.

MAP 4175. Actuarial Models (4). Prerequisites: MAP 4170; STA 4442. Survival probabilities; mortality laws, table construction, and contingent payments and annuities; premium principles and reserves for continuous, discrete and semi-continuous insurance products; multiple decrement theory (competing risks) and application to pension plans; pricing and nonforfeiture models.

MAP 4180. Game Theory and Applications (3). Prerequisites: MAC 2313; MAS 3105; MAP 2302; STA 4442. Solution concepts for noncooperative games. Nash equilibrium. Selection criteria. Evolutionary stable strategies. Cooperative games in strategic form. Characteristic function games. The prisoners dilemma. Applications.

MAP 4202. Optimization (3). Prerequisites: MAC 2313; MAD 3703; MAS 3105. Linear programming, unconstrained optimization, searching strategies, equality and inequality constrained problems.

MAP 4216. Calculus of Variations (3). Prerequisites: MAP 2302; MAA 4226. Fundamental problems, weak and strong extrema, necessary and sufficient conditions, Hamilton-Jacobi theory, dynamic programming, control theory and Pontryagin's maximum principle.

MAP 4341. Elementary Partial Differential Equations I (3). Prerequisites: MAC 2313; MAP 2302 or 3305. Separation of variables, Fourier Series, Sturm-Liouville problems, multidimensional initial boundary value problems, nonhomogeneous problems, Bessel functions and Legendre polynomials.

MAP 4342. Elementary Partial Differential Equations II (3). Prerequisite: MAP 4341. Solution of first-order quasi-linear partial differential equations, classification and reduction to normal form of linear second-order equations, Green's function, infinite domain problems, the wave equation, radiation condition, spherical harmonics.

MAS 4106. Applied Linear Algebra II (3). Prerequisites: MAC 2313; MAS 3105. Positive definite matrices, matrix computation, linear programming and game theory. Applications.

MAS 4203. Theory of Numbers (3). Prerequisite: MAS 3301 or 4302; or consent of the instructor. The Euclidean algorithm; congruencies, quadratic residues, the law of quadratic reciprocity, and an elementary discussion of arithmetic functions and distribution of primes.

MAS 4302, 4303. Introduction to Abstract Algebra I, II (3, 3). Prerequisite: MAS 3105; MGF 3301. Groups, permutation groups, subgroups, group homomorphisms, structure of groups, rings, ideals, ring homomorphisms, rings of quotients, polynomials, factorization, fields, field extensions.

MAT 4906r. Directed Individual Study (1–4). May be repeated to a maximum of twelve (12) semester hours.

MAT 4930r. Special Topics in Mathematics (1–3). (S/U grade only.) May be repeated to a maximum of twelve (12) semester hours.

MAT 4931r. Special Topics in Mathematics (1–3). May be repeated to a maximum of six (6) semester hours when subject matter changes.

MAT 4934r. Honors Work (3). May be repeated to a maximum of nine (9) semester hours.

MAT 4945r. Undergraduate Professional Internship (1–3). (S/U grade only.) Prerequisite: Permission of instructor. Supervised internships individually assigned to accommodate the student's professional development in an area of application (e.g., actuarial science; industrial applications). May be repeated to a maximum of three (3) semester hours.

MHF 4302. Mathematical Logic I (3). Prerequisite: MAS 3301 or consent of instructor. Propositional and predicate logic, models. Godel's completeness theorem and related theorems.

MTG 4212. College Geometry (3). Prerequisites: MAC 2312; MAS 3105. Fundamental topics in geometry from an advanced viewpoint, primarily designed for teachers and prospective teachers of mathematics.

MTG 4302. Elementary Topology I (3). Prerequisites: MAC 2313; MGF 3301. Topological spaces, metric spaces, connectedness, compactness, separation properties, topology of the plane, product spaces.

MTG 4303. Elementary Topology II (3). Prerequisite: MTG 4302. Function spaces, Hilbert space, quotient spaces, continua, paracompactness and metrizable, nets and filters, the fundamental group.

Graduate Courses

MAA 5306, 5307. Advanced Calculus I, II (3, 3).

MAA 5406, 5407. Theory of Functions of a Complex Variable I, II (3, 3).

MAA 5616, 5617.	Measure and Integration I, II (3, 3).	MAP 5611.	Introduction to Computational Finance (3).	MAA 6416r.	Advanced Topics in Analysis (3).
MAA 5721.	Computer Analysis (3).	MAS 5307, 5308.	Groups, Rings, and Vector Spaces I, II (3, 3).	MAA 6939r.	Advanced Seminar in Analysis (1). (S/U grade only.)
MAD 5305.	Graph Theory (3).	MAS 5311, 5312.	Abstract Algebra I, II (3, 3).	MAD 6408r.	Advanced Topics in Numerical Analysis (3).
MAD 5420.	Numerical Optimization (3).	MAS 5331r, 5332r.	Algebraic Structures I, II (3, 3).	MAD 6939r.	Advanced Seminar in Scientific Computing (1). (S/U grade only.)
MAD 5708.	Numerical Analysis II (3).	MAS 5731.	Computer Algebra (3).	MAP 6434r.	Advanced Topics in Hydrodynamics (3).
MAD 5738, 5739.	Numerical Solution of Partial Differential Equations I, II (3, 3).	MAT 5907r.	Directed Individual Study (1–4). (S/U grade only.)	MAP 6437r.	Advanced Topics in Applied Mathematics (3).
MAD 5745.	Spectral Methods for Partial Differential Equations (3).	MAT 5911r.	Supervised Research (1–5). (S/U grade only.)	MAP 6939r.	Advanced Seminar in Applied Mathematics (1). (S/U grade only.)
MAD 5757.	High Order Finite Difference Methods for Computational Acoustics and Fluid Dynamics (3).	MAT 5920r.	Colloquium (0). (S/U grade only.)	MAS 6396r, 6397r.	Advanced Topics in Algebra I, II (3, 3).
MAP 5107.	Mathematical Modeling (3).	MAT 5921r.	Graduate Mathematics Colloquium (1). (S/U grade only.)	MAS 6939r.	Advanced Seminar in Algebra (1). (S/U grade only.)
MAP 5177.	Actuarial Models (3).	MAT 5932r.	Selected Topics in Mathematics (1–3).	MAT 6908r.	Directed Individual Study (1–4). (S/U grade only.)
MAP 5207.	Optimization (3).	MAT 5933r.	Special Topics in Mathematics (1–3). (S/U grade only.)	MAT 6939r.	Advanced Graduate Seminar (1). (S/U grade only.)
MAP 5217.	Calculus of Variations (3).	MAT 5941.	Internship in College Teaching (1–3). (S/U grade only.)	MAT 6980r.	Dissertation (1–12). (S/U grade only.)
MAP 5345.	Elementary Partial Differential Equations I (3).	MAT 5945r.	Graduate Professional Internship (1–3). (S/U grade only.)	MTG 6396r.	Advanced Topics in Topology (3).
MAP 5346.	Elementary Partial Differential Equations II (3).	MAT 5946r.	Supervised Teaching (1–5). (S/U grade only.)	MTG 6939r.	Advanced Seminar in Topology (1). (S/U grade only.)
MAP 5395.	Finite Element Methods (3).	MAT 5971.	Thesis (3–6). (S/U grade only.)	For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the <i>Graduate Bulletin</i> .	
MAP 5423.	Complex Variables, Asymptotic Expansions, and Integral Transforms (3).	MHF 5206.	Foundations of Mathematics (3).		
MAP 5431.	Introduction to Fluid Dynamics (3).	MHF 5306.	Mathematical Logic I (3).		
MAP 5441.	Perturbation Theory (3).	MHF 5307.	Mathematical Logic II (3).		
MAP 5482.	Mathematical Bioeconomics (3).	MTG 5326, 5327.	Topology I, II (3, 3).		
MAP 5485.	Introduction to Mathematical Biophysics (3).	MTG 5346, 5347.	Algebraic Topology I, II (3, 3).		
MAP 5512.	Hydrodynamic Stability (3).	MTG 5376r.	Topological Structures I (3).		
MAP 5513.	Wave Propagation Theory (3).	OCP 5253.	Fluid Dynamics: Geophysical Applications (3).

Department of MECHANICAL ENGINEERING

FAMU—FSU COLLEGE OF ENGINEERING

Chair: A. Krothapalli; *Associate Chairs:* Buzyna, Collins, Hruda, Shih; *Professors:* Buzyna, Chandra, Chen, Collins, Garmestani, Gielisse, Krothapalli, Lourenco, Schwartz, Van Dommelen, Van Sciver; *Associate Professors:* Alvi, Hollis, Hruda, Luongo, Shih; *Assistant Professors:* Cartes, Foreman, Kalu; *Visiting Assistant Professors:* Haik, Moore; *Affiliated Faculty:* Howard, Johnson, Loper, Tam

The bachelor of science (BS) program in the Department of Mechanical Engineering is designed to provide background for a wide variety of careers. The discipline of mechanical engineering is very broad, but generally emphasizes an appropriate mix of thermal science, mechanics and materials, and design. Graduates typically enter various energy, aerospace, or product manufacturing industries, or into government laboratories.

The undergraduate program in mechanical engineering is designed to impart knowledge in basic and engineering sciences, to develop communication skills, to recognize economic principles, and to acquire a grasp of contemporary engineering practices. Beyond the basic core curriculum, the courses are grouped into four major areas: thermal and fluid sciences, mechanical system sciences, mechanics and materials, and engineering design. The courses in each of these areas emphasize a basic foundation in the engineering sciences combined with a strong design orientation and extensive laboratory experience. To experience individual creativity, a two-semester senior design project is carried out which couples theory and analysis with the physical world. Special emphasis is placed on communication skills through a rigorous writing of several laboratory reports and design project presentations. Computer literacy is tested through various courses, and the students are exposed to current industrial design software.

The department maintains well-equipped teaching and research laboratories in each major area of interest. Included are fluid mechanics, heat transfer, mechanics and materials, vibrations, and robotics laboratories. The Computer Aided

Design laboratory provides computer hardware capable of supporting several standard design software packages, including ICM GMS, ICM LYNX2/IMP, AutoCad, SilverScreen, and several Algor FEA modules, and Parametric Technology Corporations Pro/ENGINEER with Pro/MECHANICAL.

Departmental Educational Objectives

The mission of the mechanical engineering program is to prepare graduates for diverse careers in mechanical engineering and related fields. The following educational objectives are designed to achieve this goal:

- To provide students with an excellent core curriculum in mathematics, basic sciences, engineering science, laboratory experience, and design as well as depth through a flexible choice of related technical electives;
- To introduce engineering design early in the curriculum, with its integration throughout the curriculum, grouping together of contiguous disciplinary areas to make their

connectedness clear, and to provide a year-long capstone design experience focused on the product realization process with real world engineering practice issues;

To enable students to work individually and in teams, both in their discipline and in multidisciplinary settings, and to communicate effectively in oral, written and visual forms;

To provide a curriculum and extracurricular activities that will familiarize students in contemporary issues, and develop a sense of professionalism, creativity, ethical behavior, and leadership;

To provide a multicultural environment setting for students to prepare them for work in an increasingly multicultural society.

Educational Outcomes

The desired outcomes are that our graduates demonstrate the following:

An ability to apply knowledge of mathematics, calculus-based science and engineering to mechanical engineering problems;

An ability to design and conduct experiments, as well as to analyze and interpret data;

An ability to design thermal and mechanical systems, components, or processes to meet desired needs;

An ability to function on multi-disciplinary teams;

An ability to identify, formulate, and solve engineering problems

An understanding of professional and ethical responsibility;

An ability to communicate effectively with written, oral, and visual means;

The broad education necessary to understand the impact of engineering solutions in a global and societal context, and a knowledge of contemporary issues;

A recognition of the need for and an ability to engage in life-long learning;

An ability to use modern engineering techniques, skills, and computing tools necessary for engineering practice;

Familiarity with statistics and linear algebra.

The bachelor of science degree in mechanical engineering (BSME) program is designed to meet all ABET EC 2000 requirements relative to (a) students, (b) program educational objectives, (c) program outcomes and assessment, (d) professional component, (e) faculty, and (f) facilities and resources. Students are advised to discuss program educational objectives and outcomes with their academic advisors. Up-to-date information on the BS program is available at <http://www.eng.fsu.edu/departments/mechanical>.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a

baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. ENC 1101;
2. ENC 1102;
3. MAC 2311*;
4. MAC 2312*;
5. MAC 2313*;
6. MAP 2302;
7. CHM 1045/1045L*;
8. PHY 2048/2048L;
9. PHY 2049/2049L;
10. Six (6) semester hours in humanities;
11. Six (6) semester hours in social science;
12. Three (3) additional semester hours in humanities or social science.

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Core Program

A candidate for the bachelor of science (BS) degree in mechanical engineering is required to successfully complete the following engineering core courses (in addition to the mechanical engineering curriculum) listed below:

CHM 1045	General Chemistry I (3)
CHM 1045L	General Chemistry I Laboratory (1)
EEL 3003	Introduction to Electrical Engineering (3)
EEL 3003L	Introduction to Electrical Engineering Laboratory (1)
EGN 1004L	First Year Engineering Laboratory (1)
MAC 2311	Calculus with Analytical Geometry I (4)
MAC 2312	Calculus with Analytical Geometry II (4)
MAC 2313	Calculus with Analytical Geometry III (5)
MAP 3305	Engineering Mathematics I (3)
PHY 2048C	General Physics A (5)
PHY 2049C	General Physics B (5)

Students must earn a minimum grade in the "C" range in each of the college core courses, as well as the required and technical elective courses below. Students must meet the minimum overall grade point average (GPA) under the general requirements of the University.

Students are urged to obtain the most current information on the mechanical engineering requirements from their advisors or from the student affairs coordinator.

Mechanical Engineering Curriculum

Key features of the curriculum in mechanical engineering include the integration of relevant topical material, integration of engineering design with engineering science, the introduction to engineering design at an early stage in the curriculum, and the use of cooperative learning methodologies. The curriculum is in keeping with current trends in engineering education, industry expectations and needs, and ABET 2000 accreditation guidelines.

The following core courses comprise the mechanical engineering curriculum:

EML 3002C	Mechanical Engineering Tools (4)
EML 3004C	Introduction to Mechanical Engineering (4)
EML 3011C	Mechanics and Materials I (4)
EML 3012C	Mechanics and Materials II (4)
EML 3013C	Dynamic Systems I (4)
EML 3014C	Dynamic Systems II (4)
EML 3015C	Thermal-Fluids I (4)
EML 3016C	Thermal-Fluids II (4)
EML 3017C	Mechanical Systems I (4)
EML 3018C	Mechanical Systems II (4)
EML 3234	Materials Science and Engineering (3)
EML 4304L	Experimentation in Fluid and Thermal Sciences (2)
EML 4551C	Engineering Design Systems I (4)
EML 4552C	Engineering Design Systems II (4)
MAP 3306	Engineering Math II (3)
XXX 4XXX	Technical Electives (12)
XXX XXXX	Senior Seminar (0)

Technical Electives are generally intended to develop depth in an area of interest and must form a coherent area of concentration. A minimum of three (3) technical electives (nine [9] semester hours) must be in the Department of Mechanical Engineering.

Honors in the Major

The Department of Mechanical Engineering offers a program in honors in mechanical engineering to encourage talented juniors and seniors to undertake independent and original research as a part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Five-Year Combined BS–MS Program

The department offers a five-year combined undergraduate-graduate program leading to the bachelor of science and master of science degrees. The objective of this program is to produce, in five years of full-time study, an engineer who is fully qualified to enter into professional practice in industry. Students begin taking core graduate courses in their fourth year, and defer some undergraduate courses until the fifth year when they complete the remaining graduate course work. This program also includes a summer internship in industry between the fourth and fifth years.

Admission to the dual degree program is open to juniors who have attained a GPA of 3.2 in the mechanical engineering curriculum and whose applications are reviewed by a faculty committee. Applicants are normally invited in the spring, during the second semester of the students junior year, for fall entry. Details on the curriculum may be obtained from the mechanical engineering department office.

Definition of Prefixes

EAS	—	Aerospace Engineering
EGM	—	Engineering Mechanics
EGN	—	General Engineering
EMA	—	Materials Engineering
EML	—	Mechanical Engineering

Undergraduate Courses

EAS 3010. Fundamentals of Flight (3). Prerequisites: PHY 2049, MAC 2313. The course objective is to provide a clear introductory understanding of the science and engineering of heavier-than-air flight vehicles. Production of lift and drag, important effects of viscosity and compressibility, air-plane design characteristics, and rocket propulsion.

EAS 4101. Principles of Aerodynamics (3). Prerequisite: EML 3016C. Atmospheric flight vehicles; the reason for configuration and the nature of airflows; two-dimensional subsonic thin air; airfoils prediction of pressure, lift, and other properties of airfoils.

EAS 4202. Aerospace Structural Analysis (3). Prerequisites: EGM 3520; MAP 3306. Elements of elasticity theory, elastic and inelastic material behavior, analysis of solid and thin-walled sections, boundary value problems, application to aerospace structures.

EGM 3512. Engineering Mechanics (4). Prerequisites: MAC 2312; PHY 2048. Corequisite: MAC 2313. Topics in this course include statics and dynamics of particles and rigid bodies using vector analysis, free body diagrams, equilibrium of particles and rigid bodies, particle and general rigid body motion, work/energy, and impulse and momentum methods.

EGM 3520. Mechanics of Materials (3). Prerequisite: EGN 3311. Concept of stress and strain, Hooke's laws, torsion, bending, combined loading, Mohr's circle, deflections, design of pressure vessels, shafts, beams, columns, energy methods.

EGN 3454. Numerical Methods (3). Prerequisites: MAP 3305, CGS 2402, or their equivalents. Number representation, linear equations, interpolation, integration, ordinary differential equations, nonlinear equations, optimization, and least squares. Students solve numerical problems using library subroutines, of which a brief analysis is presented.

EMA 4225. Mechanical Metallurgy (3). Prerequisite: EML 3012C. Tensile instability, crystallography, theory of dislocations, plasticity, hardening mechanisms, creep and fracture, electron microscopy, composite materials.

EMA 4501. Optical and Electron Microscopy (3). Prerequisite: EML 3012C or permission of instructor. Fundamentals and techniques of optical and electron microscopy as applied to the determination of physical, chemical, and structural properties of materials and materials behavior in practice.

EML 3002C. Mechanical Engineering Tools (4). Prerequisites: MAC 2311; PHY 2048C. Course covers communication and data handling, computer aided design, object oriented programming, machine shop practice.

EML 3004C. Introduction to Mechanical Engineering (4). Prerequisites: MAC 2312; PHY 2048C. Course covers the engineering profession, drafting, measurements, ethics, statics, the application of chemistry, calculus and physics to engineering problems, and an overview of the engineering design process.

EML 3005. Introduction to Design (3). Prerequisites: Junior standing in mechanical engineering; EGS 1111. The design process; systems engineering in design, requirements analysis; design concepts generation, evaluation, and implementation; concurrent engineering; total quality techniques; ergonomics; materials selection in design, ethics in the engineering workplace; technical communications; design applications in individual and team projects.

EML 3011C. Mechanics and Materials I (4). Prerequisites: CHM 1045, 1045L; EML 3002C, 3004C; MAC 2313; PHY 2048C. This course is the first part of a two-part sequence integrating concepts of mechanics and principles of materials. It will provide the student with a broad based introduction to, and understanding of, the application of materials in structural design, the processing of mechanical components and the manufacture of high technology products.

EML 3012C. Mechanics and Materials II (4). Prerequisites: EML 3011C; PHY 2049C. Corequisite: EML 3234. This course is the second part of a two part sequence, integrating concepts of mechanics and principles of materials. Emphasis is on plasticity, energy methods, buckling, and materials selection and engineering, including phase equilibria, metallic materials, ceramics, polymers, and composites.

EML 3013C. Dynamic Systems I (4). Prerequisites: EML 3002C, 3004C. Corequisite: MAP 3305. This course is the first part of an integrated sequence in dynamics, vibrations and controls. Material in this first course includes the following: absolute and relative motion of particles and rigid bodies in inertial, translating and rotating coordinate frames; derivation and computer solution of differential equations of motion; single degree of freedom vibrations, and elementary feedback control.

EML 3014C. Dynamic Systems II (4). Prerequisite: EML 3013C. Corequisite: MAP 3306. This course is the second part of an integrated sequence in dynamics, vibrations and controls. Material in this second course includes the development of the equations of motion for translational and rotational mechanical systems, electrical systems, and electromechanical systems; system response using standard differential equation solution techniques and Laplace transforms; frequency response and impedances; linearization of nonlinear system models, and block diagrams and feedback control strategies.

EML 3015C. Thermal-Fluids I (4). Prerequisites: EML 3013C; MAC 2313. First of a two-part sequence presenting an integrated treatment of traditional topics on thermodynamics, fluid mechanics and heat transfer. The essential role of each of these related elements and their connections is examined in the context of real-world systems. Materials covered include: first and second laws of thermodynamics; power and refrigeration cycles; heat transfer modes including steady and time dependent conduction, convection and radiation; fluid statics; mass momentum and energy conservation; Bernoulli's equation; internal and external flows.

EML 3016C. Thermal-Fluids II (4). Prerequisites: MAP 3305, EML 3015C. Corequisite: MAP 3306. Required corequisite: EML 4304L. Second of a two-part sequence presenting an integrated treatment of traditional topics on thermodynamics, fluid mechanics and heat transfer. The essential role of each of these related elements and their connections is examined in the context of real-world systems.

EML 3017C. Mechanical Systems I (4). Prerequisites: EML 3011C, 3013C; MAP 3305. This is the first course in a sequence of two courses intended to provide the essential tools for the design and analysis of mechanical systems. Emphasis is on linkages; constraints and degrees of freedom; position, velocity, and acceleration analysis; cams, gears and gear trains, static and dynamic analysis; computer simulations and models of components and systems; team class projects involving dissection of existing machines and design and manufacture of new mechanical systems.

EML 3018C. Mechanical Systems II (4). Prerequisites: EML 3012C, 3017C, 3302L. This is the second course in a sequence of two courses intended to provide the essential tools for the design and analysis of mechanical systems. Emphasis is on materials; stress analysis; shaft design; bearings and lubrication; fasteners and connectors; joints; clutches, brakes, couplings and flywheels; flexible elements; shafts; computer simulations and models of components and systems; team class projects involving dissection of existing machines and design and manufacture of new mechanical systems.

EML 3100. Thermodynamics (2). Prerequisites: CHM 1045; MAC 2312; PHY 2048. Fundamentals of thermodynamics. System description, common properties. Properties of pure substances. Mathematical foundations. First and Second Laws of Thermodynamics, closed and open systems. Equations of state and general thermodynamic relations. For non-mechanical engineering majors.

EML 3101. Applied Thermodynamics (3). Prerequisite: EML 3100. Availability and irreversibly, gas and gas-vapor mixtures, chemical reactions, combustion, chemical equilibrium in ideal-gas relations, thermodynamic aspects of fluid flow, gas-power and vapor power cycles, refrigeration.

EML 3140. Heat Transfer (3). Prerequisites: EML 3100, 3701; MAP 3306. Fundamentals of heat transfer by conduction, convection, and radiation. Heat exchangers and heat pipes. Free and forced convection.

EML 3220. Introduction to Mechanical Vibrations (3). Prerequisites: EGN 3321; MAP 3306; CGS 2402. Study of vibrations caused by oscillatory motions of bodies and the forces associated with them.

EML 3234. Materials Science and Engineering (3). Prerequisite: CHM 1045. Includes concepts of materials science and their relevance to engineering design. Recent advances in engineering materials science.

EML 3262C. Mechanism Design (3). Prerequisite: EGN 3321; Corequisite: EML 3005. Introduction to the fundamentals of mechanism design: design methodology; analysis of the kinematics, kinetics and statics of mechanisms, cams, and gears; and computer-aided mechanism design (including solid modeling).

EML 3302L. Experimental Methods in Solid Mechanics (2). Prerequisites: EEL 3003; EEL 3003L; EML 3011C; PHY 2049C. Required corequisite: EML 3012C. Measurement techniques in solids; performance characteristic of measuring devices; tensile, impact, torsion testing combined loading metallography; vibration analysis; and reinforcement of the concepts in material science and mechanics of materials; also provides the opportunity to write good technical reports.

EML 3701. Fluid Mechanics (3). Prerequisites: MAP 3305; EGN 3321. Application of laws of statics, buoyancy, stability, energy, and momentum to the behavior of ideal and real fluids. Flow in channels and pipes. Dimensional analysis, similitude, and scale models.

EML 3949. Cooperative Work Experience (0). (S/U grade only.)

EML 4161. Cryogenics (3). Prerequisites: EML 3012C; 3016C. Fundamental aspects of cryogenic system engineering: properties of materials and fluids at low temperatures; cryogenic heat transfer and fluid dynamics; low temperature refrigeration and system engineering.

EML 4304L. Experimentation in Fluid and Thermal Sciences (2). Prerequisites: EML 3015C, 3012C. Corequisite: EML 3016C. Engineering laboratory measurements in fluid and thermal applications, including basic concepts for design of experiments, measurement devices, and their performance characteristics; measurement of fluid and thermal properties, pressure, velocity, and temperature; calibration procedures; experiments in fluid flow and heat transfer; design of engineering experimental systems; laboratory work, report writing.

EML 4312. Design and Analysis of Control Systems (3). Prerequisite: EML 3014C. Mathematical modeling of continuous physical systems. Frequency and time domain analysis and design of control systems. State variable representations of physical systems.

EML 4316. Advanced Design and Analysis of Control Systems (3). Prerequisite: EML 4312. Design of advanced control systems (using time and frequency domains) will be emphasized. Implementation of control systems using continuous (operational amplifier) or digital (microprocessor) techniques will be addressed and practiced.

EML 4421. Fundamentals of Propulsion Systems (3). Prerequisite: EML 3016C. Analysis of the performance of propulsion systems from the thermodynamic and dynamic points of view, including rocket, ramjet, turbojet, and turbofan engines as well as piston and compound piston-turbine type engines.

EML 4450. Energy Conversion Systems (3). Prerequisite: EML 3016C. Investigation of such energy conversion systems as the internal combustion engine, compressors and turbines, gas turbines, nuclear power plants, garbage burning power plants, solar, wind, geothermal and electrical systems.

EML 4500. Design of Machine Elements (3). Prerequisites: EGN 3454; EML 3005, 3234. The analysis and design of mechanical components: gears, shafts, linkages, and other integral parts of machines. Analytical techniques and design methods.

EML 4501. Machine Design (3). Prerequisite: EML 3018C. Preparation and presentation of complete designs for various devices, machines, and engineering systems.

EML 4512. Thermal-Fluid Design (3). Prerequisite: EML 3016C. Corequisite: EML 4535C. This course is intended to develop the students awareness and understanding of the relationship between fluid mechanics, thermodynamics, and heat transfer in consideration of design. Emphasis is placed upon energy systems components such as heat-exchangers, piping networks, and pumps. Includes a student project.

EML 4535C. Computer Aided Design (CAD) (3). Prerequisite: EML 3018C. Corequisite: EML 4500. Introduction to the theory and practice of computer-aided design: computer graphics, homogeneous transformations; parametric solid modeling, optimization, finite element analysis.

EML 4536. Design Using FEM (3). Prerequisite: EML 4535. The Finite Method - what it is, elementary FEM theory, structures and elements, trusses, beams, and frames, two-dimensional solids, three-dimensional solids, axisymmetric solids, thin-walled structures, static and dynamic problems, available hardware and software, basic steps in FEM analysis, pre/post processing, interpretation of results, advanced modeling techniques, design optimization, advanced materials using FEM.

EML 4542. Materials Selection in Design (3). Prerequisite: EML 3012C; senior standing in mechanical engineering. The application of materials predicated on material science and engineering case studies covering most engineering applications.

EML 4551. Engineering Design Systems I (4). Prerequisites: EML 3012C, 3014C, 3016C, 3018C. The first in a two-part course sequence presenting an integrated system design approach for engineering product realization. Course blends the perspectives of market research and planning, design, manufacturing, testing and life cycle support of a product. Material covered includes: systems engineering for product design, concept generation, economics of product development, probabilistic considerations in design, concept selection, project planning, decision making, optimum design and tolerance design.

EML 4552. Engineering Design Systems II (4). Prerequisite: EML 4551. The second part of the engineering design systems course. The material covered is a continuation of topics in the first part and the completion of a student-designed product.

EML 4558. Senior Design Project (3). Prerequisite: Senior standing in mechanical engineering. A capstone design course, integrating the knowledge gained in undergraduate studies by completion of a team or individual design project.

EML 4711. Introduction to Gas Dynamics (3). Prerequisite: EML 3016C. This course is a thorough one-dimensional treatment of compressible flows and applications to nozzle, diffuser, sound waves, tunnel, and shock tube flows.

EML 4800. Introduction to Robotics (3). Prerequisite: EML 3014C. Corequisite: EML 4535C. Basic elements of a robot, robot actuators, and servo control; sensors, senses, vision, and voice; microprocessor system design and computers; kinematic equations; motion trajectories.

EML 4905r. Directed Individual Study (1-3). Prerequisites: Junior standing, a "B" average in mechanical engineering courses. May be repeated to a maximum of twelve (12) semester hours.

EML 4921. Engineering Communications (3). Prerequisite: Approval of instructor. Mechanics of effective engineering communications; composition and style of various types of written, graphical, and oral presentations of technical information; critical analysis of specifications related to the design, testing, and performance of components and systems related to engineering practice.

EML 4930r. Special Topics in Mechanical Engineering (1-4). Prerequisite: Approval of instructor. Topics in mechanical engineering with emphasis on recent developments. Content and credit will vary. Consult the instructor. May be repeated to maximum of twelve (12) semester hours.

EML 4945r. Practical Work in Mechanical Engineering (1-3). (S/U grade only.) Prerequisite: Approval of adviser. May be repeated to a maximum of three (3) semester hours.

EML 4970r. Honors Work (3). Prerequisite: Acceptance into honors program. Participation in a supervised research project and the production of a thesis describing the results of that work. May be repeated to a maximum of six (6) required semester hours.

Graduate Courses

EGM 5351. Introduction to Finite Methods of Analysis (3).

EGM 5444. Advanced Dynamics (3).

EGM 5611. Introduction to Continuum Mechanics (3).

EGM 5630. Mechanics of Composite Materials (3).

EGM 5653. Theory of Elasticity (3).

EGM 5671. Theory of Plasticity and Viscoelasticity (3).

EGM 5810. Viscous Fluid Flows (3).

EGM 6290. Advanced Mechanical Vibrations (3).

EGM 6470. Control Systems Design (3).

EGM 6565. Computational Materials Science (3).

EGM 6845. Turbulent Flows (3).

EGM 5455. Numerical Methods in Engineering (3).

EGM 5456. Introduction to Computational Mechanics (3).

EMA 5185. Composite Materials and Structures (3).

EMA 5226. Mechanical Metallurgy (3).

EMA 5514. Optical and Electron Microscopy (3).

EML 5060. Analysis in Mechanical Engineering (3).

EML 5072. Applied Superconductivity (3).

EML 5104. Advanced Engineering Thermodynamics (3).

EML 5152. Fundamentals of Heat Transfer (3).

EML 5155. Convective Heat and Mass Transfer (3).

EML 5162. Cryogenics (3).

EML 5311. Design and Analysis of Control Systems (3).

EML 5317. Advanced Design and Analysis of Control Systems (3).

EML 5361. Multivariable Control (3).

EML 5451. Energy Conversion Systems (3).

EML 5524. Experimentation in Mechanical Engineering (3).

EML 5537. Design Using FEM (3).

EML 5543. Materials Selection in Design (3).

EML 5709. Fluid Mechanic Principles with Selected Applications (3).

EML 5710. Introduction to Gas Dynamics (3).

EML 5725. Introduction to Computational Fluid Dynamics (3).

EML 5802. Introduction to Robotics (3).

EML 5835. Advanced Robotics and Mechatronics (3).

EML 5905r. Directed Individual Study (1-6). (S/U grade only.)

EML 5910r. Supervised Research (1-6). (S/U grade only.)

EML 5930r. Special Topics in Mechanical Engineering (1-6).

EML 5935r. Mechanical Engineering Seminars (0). (S/U grade only.)

EML 5971r. Thesis (3-6). (S/U grade only.)

EML 6157. Radiative Heat Transfer (3).

EML 6365. Robust Control (3).

EML 6716r. Advanced Topics in Fluid Dynamics (3-6).

EML 6726. Advanced Computational Fluid Dynamics (3).

EML 6980r. Dissertation (2-4). (S/U grade only.)

EML 8966r. Master's Comprehensive Examination (0). (S/U grade only.)

EML 8968. Preliminary Doctoral Examination (0). (S/U grade only.)

EML 8976r. Master's Thesis Defense (0). (S/U grade only.)

EML 8985r. Dissertation Defense (0). (S/U grade only.)

For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the *Graduate Bulletin*.

MEDICINE

COLLEGE OF MEDICINE

Co-chairs, Department of Basic Medical Sciences: David Balkwill, Charles Ouimet; *Professors:* Brooks, Klatt, Payer, Posner, Scherger, Steele; *Associates in Medicine:* Clark, Sherraden; *Assistants in Medicine:* Brock, Davis, Livingston, Reyes; *Visiting Professors:* Posner, Usatine; *Courtesy Faculty:* Bertram, Blaber, Chapman, Greenbaum, Light, Meredith, Myers, Rill, Sang, Taylor, Trombley, Walker, Wright

The Florida State University College of Medicine, in partnership with local communities, employs interdisciplinary, team-based approaches and emerging technologies to train compassionate physicians to practice patient-centered medicine in rapidly changing health environments. The mission of the College of Medicine is to educate and develop exemplary physicians who practice patient-centered health care, discover and advance knowledge and are responsive to community needs, especially through service to elder, rural, and other medically underserved populations.

For complete details of degree requirements, plus a description of the college and its services, refer to the "College of Medicine" chapter of this *General Bulletin*.

Definition of Prefix

- BCC — Basic Clinical Clerkship (Required)
BMS — Biomedical Science

College of Medicine Courses

First Year Courses

- BMS 6015. Doctoring 101 (3).
BMS 6016. Doctoring 102 (6).
BMS 6017. Doctoring 103 (6).
BMS 6110C. Clinical Microscopic Anatomy and Laboratory (4).
BMS 6115C. Clinical Anatomy, Embryology and Imaging (10).
BMS 6150. Anatomy of the Nervous System (3).
BMS 6151L. Neuroanatomy Lab (1).
BMS 6204. Medical Biochemistry (3).
BMS 6301. General Medical Microbiology and Infectious Disease (2).
BMS 6302. Systemic Medical Microbiology and Infectious Disease (2).
BMS 6401. General Medical Pharmacology (2).
BMS 6402. Systemic Medical Pharmacology (2).
BMS 6510. Neurophysiology (4).
BMS 6511. Organ Physiology (4).
BMS 6520. Systemic Physiology (2).
BMS 6601. General Pathology and Immunology (4).
BMS 6602. Systemic Pathology and Laboratory Medicine (9).
BMS 6821. Psychosocial Aspects of Medicine I (2).
BMS 6822. Psychosocial Aspects of Medicine II (2).
BMS 6823. Health Issues in Medicine (2).

Second Year Courses

- Systemic Pathology
Pathologic Basis of Disease I
General Pathology and Laboratory Medicine
Medical Microbiology and Infectious Diseases
Psychosocial Aspects of Medicine
Doctoring 201
Systemic Physiology
Health Issues in Medicine
Systemic Medical Pharmacology
General Medical Pharmacology
Doctoring 202
Applied Psychosocial Aspects of Medicine
Systemic Medical Microbiology and Infectious Disease

Third and Fourth Year Courses and Clerkships

- Community Medicine
Internal Medicine Clerkship
Family Medicine Clerkship
Surgery Clerkship
Psychiatry Clerkship
Pediatric Clerkship
OB/GYN Clerkship
Advanced Internal Medicine Clerkship
Emergency Medicine Clerkship
Geriatrics Clerkship
Medical Skills and Competency Seminar
Advanced Family Medicine Clerkship
Elective Clerkships

Department of METEOROLOGY

COLLEGE OF ARTS AND SCIENCES

Chair: Robert G. Ellingson; *Professors:* *Barcilon, Ellingson, Fuelberg, T. Krishnamurti, Nicholson, +OBrien, *Pfeffer, #Ray, Zou; *Associate Professors:* Ahlquist, Kim, Ruscher; *Assistant Professor:* Liu; *Service Professor:* LaSeur; *Visiting Assistant Professor:* Cunningham; *Professors Emeriti:* Gleeson, Long, Staley, Stuart

* Also Associate, Institute of Geophysical Fluid Dynamics.

+ Joint appointment with the Department of Oceanography

Also Faculty Associate, School of Computational Science and Information Technology (CSIT)

The Department of Meteorology was founded in 1949 and throughout its history has been one of the leading meteorology programs in the country. It is the flagship meteorology department in the southeastern United States, offering degrees from the bachelor of science (BS) through the doctor of philosophy (PhD). The program at The Florida State University is considered to be one of the top five comprehensive meteorology programs in the nation.

Members of the Department of Meteorology enjoy the benefits of advanced scientific equipment and a cooperative research environment with the departments of Mathematics and Oceanography, the Geophysical Fluid Dynamics Institute (GFDI), and the School of Computational Science and Information Technology (CSIT). Scientific computations are handled on equipment ranging from PCs and Macintosh computers to networks of scientific workstations and a departmental supercomputer. A high speed network connects the department to other supercomputer centers and research laboratories via a very fast campus backbone and excellent Internet connectivity to the outside world. Several of the faculty are also actively involved in National Weather Service collaboration as Fellows of the NOAA Cooperative Institute for Tropical Meteorology.

The department maintains a full suite of weather applications software (including those supported by the Unidata program,) and receives real-time National Weather Service data feeds via NOAA PORT. We also manage our own weather satellite receiving stations for instructional and research use. A public area for current weather discussions and classes includes combinations of weather maps and computer displays. An undergraduate computing laboratory is well-populated with networked Sun terminals. The Florida Climate Center and Office of the State Climatologist are housed in the department and are equipped with archives of Florida weather and climate records, including com-

puterized CD-ROM databases. An instrumentation facility is also housed in the department, including data loggers and a variety of modern and historical instruments, and a rooftop meteorological tower for real-time local observations.

The department has a TV studio where students prepare weathercasts for class (MET 3940) and for broadcast on The Florida State University's cable Channel 6.

The EXPLORES! educational outreach program, the NOAA Cooperative Institute in Tropical Meteorology, and the Center for Ocean-Atmosphere Prediction Studies (COAPS) have all formed within the department in the 1990s. These new programs focus on faculty interactions with science teachers, operational meteorologists, and other researchers in exciting new fields of research. A new building that houses the National Weather Service in Tallahassee was completed in 2002 adjacent to the Meteorology/Mathematics building, which has further strengthened the department's ties to the weather forecast community. Partnerships and internships with state government agencies located in Tallahassee continue to offer new opportunities for our students.

National and international honors have been bestowed upon departmental faculty members. Six members of the meteorology faculty are Fellows of the American Meteorological Society (AMS). Dr. O'Brien has received the AMS Sverdrup Gold Medal, and Dr. T. Krishnamurti has received the AMS Second Half Century Award and the Rossby Research Medal, as well as the World Meteorological Organization's IMO Prize.

For additional information, see the department's web site at <http://www.met.fsu.edu>.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. MAC 2311;
2. MAC 2312;
3. PHY 2048/2048L or PHY 2048C;
4. PHY 2049/2049L or PHY 2049C.

Requirements for a Major in Meteorology

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*. A detailed handout for meteorology majors entitled Undergraduate Program in Meteorology is available in the departmental office.

Meteorology is a quantitative science requiring extensive preparation in mathematics and physics. Freshmen entering the program are urged to take the College-Level Exemption Program (CLEP) or other exemption examinations in order to realize maximum flexibility.

The Department of Meteorology offers two options for earning a bachelor of science (BS) degree: 1) the graduate preparatory option for students seeking a rigorous preparation in meteorology; and 2) the applied option for those seeking added breadth in their program in such areas as computer science, statistics, chemistry, radio and television, and applied climatology. The applied option is mainly intended for those who plan to seek employment immediately after completing the BS degree. The graduate preparatory option has stronger requirements in mathematics, physics, and meteorology and prepares students to enter graduate programs in meteorology.

Meteorology majors are advised to complete a graduation check with the academic coordinator at least one semester prior to graduation. Graduating students also must complete a written exit survey in their final semester, and if possible, an exit interview with the departmental representative. This interview will discuss information provided from the written exit survey. The College of Arts and Sciences will not approve graduation without receiving the written exit survey.

Major Options

1. Graduate preparatory option. MET 2700, 2101, 3300, 3502C, 4301, 4302, 4420, 4450, 4500C, 4501C.

2. Applied option. MET 2700, 2101, 3300, 3502C, 4301, 4420, 4500C; at least one of the following: MET 4302, 4450, 4501C; and at least twelve (12) additional semester hours in approved technical elective courses, at most three (3) semester hours of which are graded S/U. Those intending to seek employment as a meteorologist with the Federal Government should take MET 4501C and one of their elective courses should be MET 4400C.

A major in option (1) must complete PHY 2048C, 2049C, and 3101. In option (2), PHY 3101 is not required except as a corequisite for MET 4450. Students also must complete one course in statistics (STA 2122 or higher) and one in computer science (CGS 3460) in both options.

Required courses in mathematics include MAC 1114 and 1140 or 1147. The following courses, required of all meteorology majors, constitute a minor in mathematics: MAC 2311, 2312, 2313; MAP 2302 or 3305. MAP 4341 or 3306 is required in option 1) but only as a prerequisite for MET 4302 in option 2).

An additional minor in physics is obtained automatically by students in the graduate preparatory option. Computer Science also has arranged for a special minor for Meteorology majors (see department for details).

The bachelor of arts (BA) degree can be obtained by completing the bachelor of science (BS) degree requirements plus additional courses required by the University.

All 2000- and 3000- level meteorology courses must be completed with a grade of "C" (2.0) or better to continue to the 4000-level courses.

A grade point average of at least 2.00 is required for all meteorology courses numbered 2000 or higher.

Honors in the Major

The Department of Meteorology offers honors in the major to encourage talented students to undertake independent research. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Requirements for a Minor in Meteorology

Requirements for a minor in meteorology must be discussed on an individual basis with a meteorology faculty adviser or academic coordinator. Options are available and need to be matched to the students academic background. A handout is available in the meteorology department. See the academic coordinator, 404 Love Building.

Class Attendance

The Department of Meteorology does not enforce the first-day attendance policy. Students missing the first day of any class will not automatically be dropped.

Definition of Prefixes

ISC	—	Interdisciplinary Science
MAP	—	Mathematics: Applied
MET	—	Meteorology
OCP	—	Oceanography: Physical
PSC	—	Physical Science
SCE	—	Science Education

Undergraduate Courses

ISC 0760. Science, Technology, and Society (3).
PSC 2800C. Earth Science for EC/EE Teachers (4).

and

SCE 4939r. Seminar in Contemporary Science, Mathematics, and Science Education (1).

Note: for descriptions of the above courses, see interdisciplinary science courses listed in the "College of Arts and Sciences" chapter of this *General Bulletin*.

MET 1010. Introduction to the Atmosphere (3). Structure of the atmosphere; weather processes and weather systems, including climatic processes.

MET 1010L. Introductory Meteorology Laboratory (1). Corequisite: MET 1010. Two (2) hours per week. Data analysis, instruments, and weather system models.

SCE 4365C. Teaching Earth and Space Science (3). This course examines the pedagogical content knowledge needed to teach earth/space science.

Introductory Courses for Majors

MET 2101. Physical Climatology (2). Prerequisite: MET 2700. Global distribution of principal climatic elements with emphasis on physical causes.

MET 2700. General Meteorology (3). Prerequisite: MAC 2311. Corequisite: PHY 2048C. Atmospheric structure and composition; weather and circulation systems; physics of atmospheric processes.

MET 3300. Introduction to Atmospheric Dynamics (3). Prerequisites: MAC 2312 ("C-" or better); MET 2700 ("C" or better). This course will examine a variety of topics, including equations of motion, mass conservation, thermodynamics, vorticity, and geostrophic, gradient and thermal winds.

MET 3502C. Introduction to Synoptic Meteorology (1). Corequisite: MET 2700. Taking standard meteorological observations, presentation of data in coded form, and analysis and display systems; use of facsimile and computer products for basic interpretation of the atmosphere state.

MET 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

Required Courses for Majors

MET 4301. Atmospheric Dynamics I (4). Prerequisites: MET 3300 ("C" or better); MAP 2302 or 3305. Corequisite: MET 4420. Acceleration in rotating curvilinear coordinates; momentum, continuity, and energy equations; geostrophic, gradient, and thermal winds; generalized coordinates; circulation and vorticity theorems; scale analysis; Reynolds stresses; Prandtl and Ekman layers; developing baroclinic systems.

MET 4302. Atmospheric Dynamics II (3). Prerequisites: MET 4301; either MAP 4341, 3306, or a grade of B or better in MAC 2313. Linear perturbation theory; sound, gravity, and Rossby waves; numerical weather prediction; baroclinic and barotropic instability; energetics.

MET 4420. Atmospheric Physics I (3). Prerequisites: PHY 2048C, 2049C; MET 2700 ("C" or better); MAC 2313. Classical equilibrium thermodynamics; first and second law, entropy, phase changes, potentials. Physics of moist air; physics of aerosols; condensation of water vapor on aerosols.

MET 4450. Atmospheric Physics II (3). Prerequisite: MET 4420; Corequisite: PHY 3101. Microphysics and dynamics of clouds; growth of ice crystals. Radiative processes in the atmosphere; radiative transfer equation, absorption by gases, Rayleigh scattering.

MET 4500C. Synoptic Lecture-Laboratory I: Basic Analysis Techniques (3). Prerequisites: MET 3300, 3502C ("C" or better); or consent of instructor. Corequisites: MET 4301 or 5311; MET 4420; CGS 3460 or other programming language. Analysis of scalar and vector fields, introduction to the three-dimensional structure of atmospheric systems, and thermodynamic diagrams.

MET 4501C. Synoptic Lecture-Laboratory II: Four-Dimensional Structure (4). Prerequisites: MET 4301 or 5311; MET 4420, 4500C; STA 2122 or equivalent. Synoptic calculation and four-dimensional analysis of weather systems.

Elective Courses for Majors

MET 3520r. Current Weather Discussion (1). (S/U grade only.) Prerequisite: MET 2700, 3502C. Discussion of facsimile analysis and prediction materials. Three meetings per week. May be repeated to a maximum of four (4) semester hours.

MET 3940r. Weathercasting (1). (S/U grade only.) Prerequisite: MET 1010 or Corequisite: MET 2700. Practice in preparing and presenting weathercasts for radio and television. May be repeated to a maximum of four (4) semester hours.

MET 4130. Advanced Physical Climatology (2). Prerequisites: MET 2101 ("C" or better); MAC 2312. Treatment of causes of climate in terms of physical, dynamical, and geographical factors.

MET 4159r. Selected Topics in Meteorology (1-3). Prerequisite: MET 2700 ("C" or better). Corequisites: MET 2101, 3300; or consent of instructor. Selected topics in meteorology and climatology not covered in other courses. May be repeated for different material to a maximum of twelve (12) semester hours.

MET 4400C. Meteorological Instrumentation and Observations (3). Prerequisites: PHY 2048C and MET 2700, both with a grade of "C" or better. Two (2) hours lecture, three (3) hours laboratory. Theory and practice of calibration and operation of basic sensors. Measurement of temperature, heat flow, fluid flow, pressure, and moisture.

MET 4900r. Honors Work (3). May be repeated to a maximum of nine (9) semester hours.

MET 4905r. Directed Individual Study (1-3). May be repeated to a maximum of nine (9) semester hours.

MET 4945r. Meteorology Internship (1-9). (S/U grade only.) Prerequisite: Instructors approval. May be repeated to a maximum of nine (9) semester hours. Supervised internship individually assigned to accommodate students background and objectives. Credit proportional to scope and significance of work.

Graduate Courses

Dynamical Meteorology

MAP 5431. Introduction to Fluid Dynamics (3).

MAP 6434r. Advanced Topics in Hydrodynamics (3).

MET 5311. Advanced Dynamic Meteorology I (3).

MET 5312. Advanced Dynamic Meteorology II (3).

MET 5340r. Large-Scale Atmospheric Circulations (3).

MET 5541r. Dynamical Weather Prediction (3).

MET 6308r. Advanced Topics in Dynamical Meteorology (3).

OCP 5253. Fluid Dynamics: Geophysical Applications (3).

Physical Meteorology

MICROBIOLOGY: see Biological Science

Department of MIDDLE AND SECONDARY EDUCATION

COLLEGE OF EDUCATION

Chair: David Foulk

The Department of Middle and Secondary Education consists of six program areas: English education, health education, mathematics education, multilingual/multicultural education, science education, and social science education. Each of these program areas offers undergraduate degrees to prepare middle and high school teachers in specific disciplines. Successful completion of a degree qualifies candidates for certification to teach in high schools in Florida and for national certification. Please refer to the 'Teacher Preparation General Education Requirements' section of the "College of Education" chapter in this *General Bulletin* for additional details.

Program requirements for state-approved educator preparation programs are subject to revision based on changes in State Board of Education Rule 6A-5.066, Approval of Preservice Teacher Preparation Programs, as amended August 7, 2000.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for the following University degree programs. Specific prerequisites are re-

quired for admission into the upper-division programs and **must** be completed by the student at either a community college or a state university prior to being admitted to these programs. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.**

The following lists the common prerequisites or their substitutions necessary for admission into these upper-division degree programs:

English Teacher Education

- EDF X005;
- EDG 2701;
- EME 2040;
- Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics; natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:

a) A minimum of nine (9) semester hours in English, including writing, literature, and speech;

b) A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;

c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;

d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;

e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.

- SPC X600;
- One three (3) semester hour literature course;
- Three (3) semester hours of electives in English.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Note: courses specified in categories 5–7 may be applied to the corresponding requirements in liberal arts and sciences noted above.

Foreign Languages Teacher Education

1. EDF X005;
2. EDG 2701;
3. EME 2040;
4. Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:

a) A minimum of nine (9) semester hours in English, including writing, literature, and speech;

b) A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;

c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;

d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;

e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.

5. At least twelve (12) semester hours must come from the following areas: courses in elementary and intermediate grammar, composition and advanced conversation; culture and civilization in the target language.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Health Teacher Education

1. EDF X005;
2. EDG 2701;
3. EME 2040;
4. Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:

a) A minimum of nine (9) semester hours in English, including writing, literature, and speech;

b) A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;

c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;

d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;

e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.

5. **Plus** the following general program prerequisites:

a) Personal health: three (3) semester hours;

b) Three (3) semester hours of anatomy and physiology plus lab;

c) Introduction to nutrition: three (3) semester hours;

d) Six (6) semester hours of electives in health, natural and social sciences.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Note: courses specified in category 5 may be applied to the corresponding requirements in liberal arts and sciences noted above.

Biology Teacher Education

1. EDF X005;
2. EDG 2701;
3. EME 2040;
4. Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:

a) A minimum of nine (9) semester hours in English, including writing, literature, and speech;

b) A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;

c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;

d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;

e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.

5. Eight (8) semester hours of biology with lab;
6. Eight (8) semester hours of chemistry with lab or physics with lab;
7. Six (6) semester hours of electives in science.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Note: courses specified in categories 5–7 may be applied to the corresponding requirements in liberal arts and sciences noted above.

Chemistry Teacher Education

1. EDF X005;
2. EDG 2701;
3. EME 2040;
4. Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:
 - a) A minimum of nine (9) semester hours in English, including writing, literature, and speech;
 - b) A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;
 - c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;
 - d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;
 - e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.
5. Eight (8) semester hours of biology with lab or physics with lab;
6. Eight (8) semester hours of chemistry with lab;
7. Six (6) semester hours of electives in science.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Note: courses specified in categories 5–7 may be applied to the corresponding requirements in liberal arts and sciences noted above.

Earth/Space Teacher Education

1. EDF X005;
2. EDG 2701;
3. EME 2040;
4. Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:
 - a) A minimum of nine (9) semester hours in English, including writing, literature, and speech;
 - b) A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;
 - c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;
 - d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;
 - e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.
5. Eight (8) semester hours of biology with lab or chemistry with lab or physics with lab;
6. Four (4) semester hours of geology with lab;
7. Three (3) semester hours of oceanography.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Note: courses specified in categories 5–7 may be applied to the corresponding requirements in liberal arts and sciences noted above.

Physics Teacher Education

1. EDF X005;
2. EDG 2701;
3. EME 2040;
4. Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:
 - a) A minimum of nine (9) semester hours in English, including writing, literature, and speech;
 - b) A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;
 - c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;
 - d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;
 - e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.
5. Eight (8) semester hours of biology with lab or chemistry with lab;
6. Eight (8) semester hours of physics with lab;
7. Six (6) semester hours of electives in science.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Note: courses specified in categories 5–7 may be applied to the corresponding requirements in liberal arts and sciences noted above.

Middle Grades Science Teacher Education

- EDF X005;
- EDG 2701;
- EME 2040;
- Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:
 - A minimum of nine (9) semester hours in English, including writing, literature, and speech;
 - A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;
 - A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;
 - A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;
 - A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.
- Eight (8) semester hours of biology with lab or chemistry with lab or physics with lab;
- Four (4) semester hours of geology with lab;
- Three (3) semester hours of oceanography.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Note: courses specified in categories 5–7 may be applied to the corresponding requirements in liberal arts and sciences noted above.

Secondary Mathematics Education

- EDF X005;
- EDG 2701;
- EME 2040;
- Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:
 - A minimum of nine (9) semester hours in English, including writing, literature, and speech;
 - A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;
 - A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;
 - A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;
 - A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.
- Four (4) semester hours of calculus and analytic geometry I;
- Four (4) semester hours of calculus and analytic geometry II;
- Three (3) semester hours of computer programming language (applicable to microcomputer); and
- Four (4) semester hours of electives in mathematics.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Note: courses specified in categories 5–8 may be applied to the corresponding requirements in liberal arts and sciences noted above.

Junior High/Middle School Mathematics Education

- EDF X005;
- EDG 2701;
- EME 2040;
- Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:
 - A minimum of nine (9) semester hours in English, including writing, literature, and speech;
 - A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;
 - A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;
 - A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;
 - A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.
- Four (4) semester hours of biological science;
- Four (4) semester hours of calculus and analytic geometry;
- Three (3) semester hours of computer programming language (applicable to microcomputer); and
- Four (4) semester hours of electives in mathematics or physical science.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Note: courses specified in categories 5–8 may be applied to the corresponding requirements in liberal arts and sciences noted above.

Social Sciences Teacher Education

1. EDF X005;
2. EDG 2701;
3. EME 2040;
4. Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:

a) A minimum of nine (9) semester hours in English, including writing, literature, and speech;

b) A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;

c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;

d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;

e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.

5. Three (3) semester hours of American Government;

6. One course each from **four** of the following six areas for a total of twelve (12) semester hours: anthropology, cultural geography, economics, history, psychology, and sociology.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact the department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Note: courses in categories 5–6 may be applied to the corresponding requirements in liberal arts and sciences noted above.

Programs

Students **should note** that the following courses are applicable to each of the major programs in middle and secondary education, listed below.

Definition of Prefix

EDG — Education: General
EDM — Education: Middle School

EDG 2701. Teaching Diverse Populations (3). Students will acquire an understanding of the complexity and diversity in the American and Florida populations in general and the school and community populations in particular. Students will participate in a field-based experience.

EDM 3001. Introduction to Middle School (3). This course is designed to give the student an introduction to the modern middle school. It will include the philosophy and practice of the ideal middle school. The development of the middle school will be studied.

ENGLISH EDUCATION

Professor: Carroll; *Assistant Professors:* Bowman, Wood; *Professor Emeritus:* Simmons

Secondary English Education Undergraduate Program

The program in English education requires course work in English, English education, and professional education. After meeting State of Florida Common Course prerequisites, students in English education must complete a minimum of twenty-one (21) semester hours of English course work. Courses must include those that focus specifically on these areas: minority American literature, American literature, multicultural literature, Shakespeare, British literature, linguistics, and advanced composition. Students should see an advisor in English Education for specific courses satisfying these requirements.

In English education, candidates must complete LAE 3331, 3333, 4323, 4360, 4860, 4941, and 4942 (student teaching). Additional English education course work may be taken as independent study (LAE 4905r) or in special topics in teaching English (LAE 4930).

Six (6) semester hours of upper division professional education courses are required (as explained in the College of Education section of this *General Bulletin*). Students must complete all required course work before being admitted to student teaching. Students are encouraged to student teach in the local area (Area I) or in the other areas supported by the College of Education.

In addition to meeting the College of Education criteria for admission to teacher education, students must meet the following retention standards: 1) a minimum 2.75 grade point average (GPA) in English courses; 2) a minimum 3.0 GPA in English education courses; 3) a minimum 2.75 GPA in professional education courses; 4) completion

of all required English education courses with no lower than a "C"; and 5) approval by the English education faculty.

Students who fail to meet any one of these criteria will not be allowed to student teach.

Students who meet certification requirements in English may seek to obtain certification in speech. Consult the College of Communication for current speech certification requirements.

Definition of Prefixes

LAE — Language Arts and English Education
RED — Reading Education

Undergraduate Courses

LAE 3331. Teaching Literature and Drama in High Schools (3). Prerequisite: a minimum of six (6) semester hours of literature at the 2000, 3000, and/or 4000 level. Recent adolescent literature, resources and methods for teaching literature in high schools, uses of creative dramatics in teaching literature and language skills.

LAE 3333. Teaching Writing and Language in High Schools (3). Prerequisite: a minimum of six (6) semester hours in composition. Attitudes, materials, and procedures for teaching written composition, language, and grammar; planning instruction and evaluating student writing.

LAE 4323. Teaching English in the Middle School (3). Prerequisite: a minimum of six (6) semester hours of literature and six (6) semester hours of composition. Review of contemporary approaches to instruction in young adult literature, language, and language development, oral and written composition, corrective and developmental reading, and study skills. All English components will be considered in the light of early adolescent learning characteristics.

LAE 4332. Applied English Linguistics for Teachers (3). A course for prospective middle and high school teachers in contemporary approaches to English linguistics taught in Florida public secondary schools: grammar, usage, dialectology, diction (vocabulary development), semantics, and lexicography. Linguistic content will be related to contemporary theories of learning.

LAE 4360. Classroom Management and Planning Instruction in Middle/High School English (3). Prerequisites: Two from LAE 3331, 3333, and 4323. A careful consideration of the role of the secondary school-teacher of English with special attention to effective classroom management and planning for instruction and evaluation of student progress. To be taken during the final semester of course work, with LAE 4941.

LAE 4860. Using Technology in Teaching Language Arts (3). Prerequisite: EME 2040 or equivalent. Survey of the uses of technology to improve the achievement of students in English at the secondary level. Course includes: video, film, video camcorders, computers, computer software evaluation, media literacy, the Internet, homepages, CD-ROM, and Hypertext.

LAE 4905r. Directed Individual Study (1–3). May be repeated to a maximum of twelve (12) semester hours.

LAE 4930. Special Topics in Teaching English (1–3). Intensive investigations of problems and issues affecting secondary English instruction prior to and during teaching internship.

LAE 4937r. Honors Work (3). May be repeated to a maximum of six (6) semester hours.

LAE 4941. Methods and Observation/Participation in Middle/Secondary English (2). M(S/U grade only.) Prerequisites: Two of the following—LAE 3331, 3333, 4323. A series of observation and participation activities designed to provide the English education undergraduate with prestudent teaching classroom experiences. To be taken during the final semester of course work, with LAE 4360.

LAE 4942. Student Teaching in Secondary School English (1-2). (S/U grade only.) Prerequisites: All English, LAE, and EDF requirements. Internship in secondary English.

Graduate Courses

- LAE 5064. Reader Response to Literature: Research and Practice (3).
- LAE 5637r. Problems and Trends in Secondary English Curriculum (3-6).
- LAE 5736. Written Composition in the Secondary School: Theory and Research (3).
- LAE 5908r. Directed Individual Study (1-3). (S/U grade only.)
- LAE 5915r. Supervised Research (1-4). (S/U grade only.)
- LAE 5932r. Special Topics in English Education (1-3).
- LAE 5940r. Field Laboratory Internship (1-8). (S/U grade only.)
- LAE 5945r. Supervised Teaching (1-4). (S/U grade only.)
- RED 5337. Supervision and Instruction in Secondary School Reading (3).

For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the *Graduate Bulletin*.

HEALTH EDUCATION

Professors: Foulk, Sutherland

The health education program includes teacher certification or community health education and leads to either a bachelor of science (BS) or a master of science (MS) degree. This program is designed to prepare health educators to assist individuals in achieving an optimal level of health, to prevent disease and debilitating conditions from occurring, and to minimize the impact of such diseases and conditions upon individuals who have been affected. With a degree in health education, an individual may choose from such practice settings as the school system, business and industry, community agencies, and governmental and tax-supported agencies, as well as the medical care systems.

Admission to the undergraduate program (both school and community health) requires a minimum composite score of 20 on the Enhanced ACT or a combined score of 960 on the SAT I, and a passing score on each section of the CLAST (exemptions not accepted). If the student desires teacher certification, additional admission requirements are explained

in the "College of Education" section of this *General Bulletin*. For further details, see the program advisor.

Degree/Certification

The bachelor of science (BS) and master of science (MS) degrees are available. The BS degree requires sixty (60) semester hours of upper-division course work, including either student teaching or a community health field experience.

Students entering the master's degree program without an undergraduate degree in health education or some area of allied health may be required to take additional courses. Master's degree candidates desiring teacher certification as an area of specialization must meet additional requirements. For further details, refer to the *Graduate Bulletin*.

Note: students are not guaranteed a student teaching experience or community health field experience in the greater Tallahassee area. See the requirements for clinical education placements described in the "College of Education" section of this *General Bulletin*.

Definition of Prefix

HSC — Health Education and Safety

Undergraduate Courses

HSC 2100. Health Implications of our Changing Culture (3). Contemporary health problems arising from changing living patterns, morals, values, and environment.

HSC 3002. Introduction to Health Promotion (3). A survey course of the theory and practice of health education. At the completion of this course students will be able to apply one of a number of health education theories to a community or school setting and outline the steps needed to develop, implement, and evaluate a program specific to those identified needs. Types of theories include underlying theories of health education, theories of individual behavior, and theories of integrative models of behavior change. Finally students will be able to discuss the relationship between historical foundations in health education and the evolving health reform in our nation.

HSC 3120. Consumer Health (3). Demonstrate appropriate decision-making skills and other life skills as applied to the purchasing of health goods and services.

HSC 3312. Problems in Health Education (3). Prerequisite: HSC 4200. Analyzes and applies the appropriate individual and group health educators/health promotion teaching/learning interventions.

HSC 3313. Strategies for Effective Health Education Program Development (3). Prerequisite: HSC 4200; Corequisite: HSC 3312. Participate in a variety of techniques useful in educational settings; to analyze, plan, implement, and evaluate health education methodologies and strategies for a school setting.

HSC 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

HSC 4143. Preventive Approaches and Strategies in Drug Education for the Educator (3). A review of preventive strategies related to drug usage. Stressed are physiological, psychological, and sociological aspects of drug use and drug abuse.

HSC 4200. Introduction to Community Health (3). Philosophy and practice of public and community health including economic, sociologic, and legal justifications.

HSC 4300. School Health Methods/Strategies (4). Prerequisites: HSC 3312, 3313. Health instruction, services, and environment are presented and problems/issues of practicing health educators, K-12, are discussed.

HSC 4814r. Community Health Education Field Experience (5-15). (S/U grade only.) Application of theoretical knowledge and strategies to the development of health education skills in a community health setting. May be repeated to a maximum of fifteen (15) semester hours.

HSC 4870r. Student Teaching in Health Education (1-15). (S/U grade only.) Prerequisite: HSC 4300. Application of school health education theory to the practice under the direct supervision of a school health educator. May be repeated to a maximum of fifteen (15) semester hours.

HSC 4906r. Directed Individual Study (1-3). May be repeated to a maximum of twelve (12) semester hours.

HSC 4935r. Selected Special Topics in Health Education (3). An analysis of selected topics related to health education. May be repeated to a maximum of six (6) semester hours when topics vary in content and area.

Graduate Courses

- HSC 5006. Foundations of Health Promotions (3).
- HSC 5142. Health/Drug Education/Promotion Strategies in Schools (3).
- HSC 5247. Seminar in Community Health Education Program Planning and Evaluation (3).
- HSC 5506. Epidemiological Practices for Health Educators (3).
- HSC 5817r. Supervised Community Health Education Field Experience (1-12). (S/U grade only.)
- HSC 5875r. Supervised Teaching (1-4). (S/U grade only.)
- HSC 5908r. Directed Individual Study (1-3).
- HSC 5915r. Supervised Research (1-4). (S/U grade only.)
- HSC 5935r. Selected Special Topics in Health Education (3).

MATHEMATICS EDUCATION

Associate Professors: Aspinwall, Jakubowski, Presmeg, Shaw; *Assistant Professor:* Fernandez; *Professors Emeriti:* Denmark, Kalin, Nichols, Wheatley; *Distinguished Professor Emeritus:* Nichols

The secondary mathematics and middle grades mathematics teacher certification programs are fully approved by the Florida Department of Education and are accredited by the National Council for Accreditation of Teacher Education. All students are advised to see a program faculty member each semester as requirements are subject to revision based on changes in Florida Board of Education rules.

Curriculum for Teachers of Secondary School Mathematics Leading to a Baccalaureate Degree and Florida Teacher Certification

A student preparing to teach secondary school mathematics must take at least twenty-one (21) semester hours of mathematics, statistics, and/or computers beyond the common degree prerequisites. Specific course requirements are provided by the department.

Each student preparing to teach secondary school mathematics must take MAE 4320, 4330, 4335, 4862, 4940, 4945; and TSL 4324 or an approved substitute. A student must earn at least a "C" in the required courses.

Curriculum for Teachers of Middle Grades Mathematics Leading to a Baccalaureate Degree and Florida Teacher Certification

A student preparing to teach middle grades mathematics must take at least sixteen (16) semester hours of mathematics, statistics, and/or computers beyond the common degree prerequisites. Specific course requirements are provided by the department.

Each student preparing to teach middle grades mathematics must take EDM 3001; CHD 3240 or DEP 3305; MAE 4320, 4335, 4862, 4940; and TSL 4324. A student must earn at least a "C" in the required courses.

In order to satisfy state requirements in both programs, students take courses in assessment, reading in the content area, and human development and learning. Specific courses meeting these requirements are provided by the department.

In either program a student may not earn more than one "D" in a mathematics or statistics course. Should that occur, the student may retake the course. For details, refer to the forgiveness policy in the "Academic Regulations and Procedures" section of this *General Bulletin*. Some departments have specific policies with respect to grades. Please refer to these sections in this *General Bulletin*.

In addition to the College of Education criteria for admission to teacher education, the following criteria must be met: 1) pass all parts of the CLAST (exceptions to the University policy are not acceptable); 2) complete Calculus with Analytic Geometry I with a "C-" or better; 3) an overall 2.5 GPA; and 4) approval by the department. Admission to one of the programs is required prior to taking courses in the major.

Students must meet the following requirements in order to graduate from either program: 1) pass all parts of the FTCE or a state recognized alternative; 2) an overall 2.5 GPA; and 3) dem-

onstrate at a satisfactory level all of the Florida Educator Accomplished Practices at the preprofessional level during student teaching (MAE 4945.)

Definition of Prefixes

MAE — Mathematics Education

Undergraduate Courses

MAE 4320. Teaching Mathematics in the Middle School (4). Prerequisite: MAC 2311, MAE 4816, or consent of instructor. Introduces students to the nature of the student learning and mathematics curricula in grades five through nine (5–9). Appropriate pedagogical strategies for the mathematical content of the middle grades are considered.

MAE 4330. Teaching Secondary School Mathematics I (4). Prerequisite: MAC 2311, 2312, or consent of instructor; Nature of mathematics, the high school mathematics curricula, mathematics as problem solving, pedagogical strategies, use of technology such as graphing calculators, video cameras and overhead projectors in teaching mathematics.

MAE 4335. Teaching Secondary School Mathematics II (4). Prerequisite: MAC 2311 or consent of instructor; Pedagogy of early algebra, geometry, trigonometry and calculus using problem solving, cooperative learning, and appropriate technology.

MAE 4540. Techniques and Strategies Utilized in Teaching Low Achievers (2). Corequisite: MAE 4942r (minimum of one [1] credit hour.)

MAE 4551. Helping Students Read Mathematics (2). This course satisfies the state certification requirement for reading in the content area for mathematics education majors. It addresses the teaching of reading in the content of arithmetic, algebra, and geometry.

MAE 4862. Using History in the Teaching of Mathematics (3). The course examines the historical origins and evolution of key mathematics concepts. Selected topics are chosen from number systems, numeration, computation, number theory, algebra, geometry, analytic geometry, and calculus.

MAE 4905r. Directed Individual Study (1-3). May be repeated to a maximum of twelve (12) semester hours.

MAE 4940. Teaching Mathematics Practicum (4). Prerequisites: MAC 2311, MAE 4816, or permission of instructor. Instructional strategies, planning, evaluation, and class management.

MAE 4941r. Field Experiences in Teaching Mathematics (1-3). (S/U grade only.) May be repeated to a maximum of six (6) semester hours.

MAE 4942r. Field Experiences in Teaching Mathematics (1-3). (S/U grade only.) May be repeated to a maximum of six (6) semester hours.

MAE 4945. Student Teaching in Mathematics (12). (S/U grade only.) Prerequisite: MAE 4940. Supervised semester-long classroom teaching experience in a Florida public school.

Graduate Courses

MAE 5146. School Mathematics Curriculum (3).

MAE 5337. Seminar on the Teaching of Algebra (2).

MAE 5338. Seminar on the Teaching of Geometry (2).

MAE 5641r. Special Topics in Mathematics Education (2–3).

MAE 5658. Using Technology in the Teaching of Mathematics (3).

MAE 5690. Ethnomathematics (3).

MAE 5691. Mathematics Learning and Teaching (3).

MAE 5795. Seminar on Research in Mathematics Education (2).

MAE 5865. Using History in the Teaching of Mathematics (3).

MAE 5908r. Directed Individual Study (1-3). (S/U grade only.)

MAE 5915r. Supervised Research (1-4). (S/U grade only.)

MAE 5942r. Field Laboratory Internship (1-8). (S/U grade only.)

MAE 5946r. Supervised Teaching (1–4). (S/U grade only.)

MAE 6148. Curriculum in Math Education (3).

MAE 6797. Advanced Seminar on Research in Mathematics Education (4).

MAE 6938r. Doctoral Seminar in Mathematics Education (1–3).

MAE 6939. Seminar in Mathematics Teacher Education (3).

MULTILINGUAL/MULTICULTURAL EDUCATION

Professor: Jenks; *Associate Professors:* Brooks, Platt; *Assistant Professor:* Pappamihel; *Professor Emeritus:* Leamon

Multilingual/multicultural education provides instruction to individuals who are seeking teacher certification in foreign languages (undergraduate) and/or teaching English as a second language (graduate) and who are pursuing graduate degrees specializing in foreign language education, teaching English as a second language, or multicultural education. Students entering the multilingual/multicultural teacher education program are required to have a 2.5 GPA on a 4.0 scale and have a passing score on each section of the CLAST.

Curriculum for Teachers of Foreign Language Leading to a Baccalaureate Degree and Florida Teacher Certification

The bachelor of arts (BA) or bachelor of science (BS) degrees may be earned, including certification (National Council for Accreditation of Teacher Education [NCATE] approved with reciprocal agreements in more than 40 states). Course work leading to the teaching certificate requires thirty (30) upper division semester hours in each certified language and may involve more course work than minimum degree requirements. A study

abroad experience is strongly encouraged. Professional requirements include FLE 3033 (offered in fall semester) and FLE 4941 and 4945 (student teaching, offered in spring semester). Prior to student teaching, students must take and pass: 1) the ACTFL Oral Proficiency Interview in their major foreign language with a rating in the "advanced range"; and 2) the Florida Teacher Certification Exam (FTCE). Students must take TSL 4324, ESOL Instruction in Content Areas, as well as complete requirements for assessment, human development and learning, and reading.

Definition of Prefixes

ENS	—	English for Nonnative Speakers
FLE	—	Foreign Language Education
LIN	—	Linguistics
TSL	—	Teaching English as a Second Language

Undergraduate Courses

FLE 3033. Introduction to Teaching Foreign Language (4). Historical development, sequence, and objectives of foreign language study; the nature of language and teaching for communication.

FLE 4591. Second Language Testing and Evaluation (3). Prerequisites: EDF 1005; EDG 2701; EME 2040; admission into teacher education program. This course is designed to acquaint students with principles of second language assessment and standardized testing, to inform them of general principles of second language test construction and administration, including traditional and nontraditional assessments, and to provide practical experiences in preparing valid items and analyzing tests.

FLE 4794. Applied Linguistics for Second Language Learning (3). Course is designed for preservice teachers in the elementary, early childhood, and English education programs who will teach limited English proficient and other linguistic minority students pre-K-12.

FLE 4905r. Directed Individual Study (1-3). May be repeated to a maximum of twelve (12) semester hours.

FLE 4937r. Honors Work (3). Prerequisite: FLE 4941. May be repeated to a maximum of six (6) semester hours.

FLE 4941. Practicum in Multilingual/Multicultural Education (4). Prerequisites: FLE 3033; acceptable oral proficiency interview score. Practical techniques for classroom instruction of basic foreign language skills; teaching intermediate and advanced levels; use and construction of foreign language tests; techniques of planning, classroom management, ethics and school law.

FLE 4945. Associate Teaching in a Foreign Language (10). (S/U grade only.) Prerequisites: FLE 3033, 4941, passing on FTCE.

TSL 4324. ESOL Instruction in the Content Area (3). Prerequisite: Senior standing. Theory and application of second-language learning and teaching strategies for limited English-proficient students in subject matter classes. Satisfies META requirements for all teachers of LEP students except primary language arts instructors. Appropriate for renewal of all certification coverage.

TSL 4945r. Associate Teaching in English as a Second Language (2-10). (S/U grade only.) May be repeated to a maximum of ten (10) semester hours.

Graduate Courses

FLE 5195.	Development of Curriculum and Materials in Foreign Languages (3).
FLE 5295.	Reading in Foreign Language Instruction (3).
FLE 5365.	Teaching of Culture: Multicultural/Multilingual Perspectives (3).
FLE 5595.	Testing and Evaluation in Foreign Languages (3).
FLE 5775.	Seminar: Research in Second Language Learning and Teaching (3).
FLE 5795.	Applied Linguistics in Foreign Language Teaching (3).
FLE 5796r.	Seminar: Special Topics in Applied Linguistics (2-3).
FLE 5908r.	Directed Individual Study (1-3). (S/U grade only.)
FLE 5915r.	Supervised Research (1-4). (S/U grade only.)
FLE 5940r.	Field Laboratory Internship (1-8). (S/U grade only.)
FLE 5945r.	Supervised Teaching (1-4). (S/U grade only.)
FLE 6776.	Research Issues and Designs in Second Language Education (3).
LIN 5705.	Psycholinguistic Perspectives on Language Acquisition and Development (3).
TSL 5005.	Teaching of English as a Second/Foreign Language (4).
TSL 5325.	ESOL (English to Speakers of Other Languages) Instruction in the Content Areas (3).
TSL 5908r.	Directed Individualized Study (1-3). (S/U grade only.)
TSL 5915r.	Supervised Research (1-4). (S/U grade only.)
TSL 5930r.	Seminar: Current Issues in TSL (1-3).

SCIENCE EDUCATION

Associate Professors: Davis, Gallard; *Professor Emeritus:* Dawson

Curriculum for Teachers of Science Leading to a Baccalaureate Degree and Florida Teacher Certification

The program in science education requires course work in the sciences, science education, and professional education. Fifty to fifty-three (50–53) semester hours in science course work approved by the science education faculty must be taken by all students seeking the baccalaureate degree and teaching certification.

All students seeking certification must be admitted to teacher education and meet all of the requirements for pursuing a state-approved program as explained in the "College of Education" section of this *General Bulletin*. All students must complete requirements for admission to the upper division major in one of the areas of specialization. Areas of specialization are biology, chemistry, earth/space science, middle school science, and physics. In addition to the College of Education criteria for admission to teacher education, the following criteria must be met: 1) 2.5 GPA for science and mathematics courses; 2) 2.5 GPA overall; and 3) approval by the department.

Required Core Courses

Professional Education Core

EDF 4214	Classroom Applications of Educational Psychology (3)
EDF 4604	Schooling in American Society (3)
SCE 4361	Introduction to Middle School Science Teaching (3)
SCE 4362	Teaching and Learning Science (3)
SCE 4363	Advanced Topics in High School Science Teaching and Learning (3)
SCE 4944	Student Teaching in Science (10)
SCE 4948r	Practicum in Science Education (1-5)

Student teaching involves a 15-week field experience during which students teach classes in their areas of specialization. Opportunities are provided to learn about schools and the manner in which science curricula are administered within schools. The practicum is a course that is conducted in conjunction with student teaching. Students meet to discuss their school-based experiences and to integrate theory and practice.

Specialty Areas (select one)

The student will work with a faculty adviser to design a program to ensure certification and competency in one of the following areas: biological science, chemistry, physics, middle school science, and earth/space science. Students must complete fifty to fifty-three (50–53) semester hours of science for majors in a specialty area. Twenty-two (22) of these semester hours may be satisfied when completing prerequisite and liberal studies requirements for admission to the upper division major. The student will work with a faculty adviser to design a program to ensure certification and competency in one of the following areas: biological science, chemistry, physics, middle school science, and earth/space science.

Definition of Prefix

SCE — Science Education

Undergraduate Courses

SCE 4361. Introduction to Middle School Science Teaching (3). The focus of this course is on the roles and responsibilities of science teachers. There is a field component to this course.

SCE 4362. Teaching and Learning Science (3). The focus of this course is planning, instruction, learning, and classroom environment. There is extensive fieldwork and students will teach either middle or high school classes.

SCE 4363. Advanced Topics in High School Science Teaching and Learning (3). Prerequisite or corequisite: SCE 4362. This course assumes previous field experiences and focuses on issues in curriculum, assessment, and the use of technology in science instruction.

SCE 4365C. Teaching Earth and Space Science (3). This course examines the pedagogical content knowledge needed to teach earth/space science.

SCE 4905r. Directed Individual Study (1-3). May be repeated to a maximum of twelve (12) semester hours.

SCE 4920r. Science Education Colloquium (0). (S/U grade only.) Colloquium provides opportunities for sharing and to learn about current science education research. May be repeated to a maximum of eight (8) times.

SCE 4939r. Seminar in Contemporary Science and Science Education (1). May be repeated to a maximum of four (4) semester hours. Two (2) hours must be taken prior to or concurrent with SCE 4330r. Required for arts and sciences majors.

SCE 4944. Student Teaching in Science (10). (S/U grade only.) Corequisite: SCE 4948r.

SCE 4948r. Practicum in Science Education (1-5). Corequisite: SCE 4944. Must take a minimum of three (3) semester hours.

Graduate Courses

SCE 5140. Curriculum in Science Education (3).

SCE 5340. Teaching and Learning Science (3).

SCE 5366C. Teaching Earth and Space Science (3).

SCE 5625. Conceptual Learning in Middle School Science (3).

SCE 5635r. Special Problems in the Teaching of Secondary School Science (1-3).

SCE 5715. Conceptual Learning in Elementary School Science (3).

SCE 5740. Research Methods in Science Education (3).

SCE 5905r. Directed Individual Study (1-3). (S/U grade only.)

SCE 5910r. Supervised Research (1-4). (S/U grade only.)

SCE 5921r. Colloquium (1). (S/U grade only.)

SCE 5942. Internship for Graduate Students (1-10). (S/U grade only.)

SCE 5943r. Field Laboratory Internship (1-8). (S/U grade only.)

SCE 5946r. Supervised Teaching (1-4). (S/U grade only.)

SCE 5973r. Specialist in Education Thesis (1-6). (S/U grade only.)

SCE 6145. Curriculum Design in Science (3).

SCE 6335r. Teaching and Learning Science (3).

SCE 6395. Science Teacher Education (3).

SCE 6615. Problems in Elementary Science (3).

SCE 6761r. Research, Recent Developments, and Current Issues in Science Education (3-5).

SCE 6922r. Colloquium in Science Education (1). (S/U grade only.)

SCE 6938r. Advanced Seminar in Science Education (2).

SOCIAL SCIENCE EDUCATION

Professor: Lunstrum; *Assistant Professor:* Gutierrez

Admission Requirements

Students accepted into the social science teacher education program must have completed 1) the Liberal Studies requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*; 2) the State of Florida common course prerequisites for social sciences described earlier in this section; and 3) the requirements for admission into a teacher education program described in the "College of Education" section of this *General Bulletin*, which includes the following minimum standards: 2.5 GPA; passing each section of CLAST (exemptions not accepted).

Curriculum for Teachers of Middle and Secondary Social Science Leading to a Baccalaureate Degree and Florida Teacher Certification

Students preparing to teach middle and secondary school social science must complete forty-eight (48) semester hours as follows: six (6) semester hours of economics, six (6) semester hours of geography, three (3) semester hours of psychology or sociology, six (6) semester hours of American government, six (6) semester hours of American history, six (6) semester hours of world history, three (3) semester hours of public speaking at the 2000-level, one three (3) semester hour 3000/4000 course (must be a non-American, non-European history or social science course), and nine (9) semester hours in a field of concentration focused on a topic/theme related to social science instruction (e.g., American culture, area studies, world affairs, ethnic studies). The forty-eight (48)

semester hours may include courses in history and social science taken for liberal studies and those taken to meet the State of Florida common course prerequisites for admission to the upper division major.

Professional education requirements include RED 4360; SSE 4362, 4664, 4940r, 4944 and 5365r; and TSL 4324. SSE 4362, 4664, 4940r and 5365r are prerequisites for student teaching and should be taken in the fall semester preceding student teaching. Students may not use for their field of concentration any course in which they receive a grade below "C". Prior to admission to student teaching, students must achieve an overall GPA of 2.5 or higher and earn a grade of "C" or better in each social science methods courses. **Note:** additional courses mandated by the Florida Department of Education concerning assessment and human development and learning will be required. Consult your academic advisor for details.

Students who have completed a bachelor's degree in an appropriate field may also seek certification only in conjunction with course work applied toward a graduate degree. In meeting requirements for certification, these students should enroll in graduate-level professional courses. **Note:** additional courses mandated by the Florida Department of Education concerning assessment and human development and learning will be required. Consult your academic advisor for details.

Attention is called to the following information: 1) only degree-seeking students will be admitted to the social science certification program which is an integral part of the degree requirements; 2) to complete student teaching satisfactorily, students must pass the state certification tests; and 3) in the interest of effective supervision, student teachers will, of necessity, be placed in clusters within designated school systems in Florida. There can be no assurance given that students will be placed in counties based on personal preference or convenience. A signed student teaching location preference form is required.

Definition of Prefixes

EDF — Education: Foundations

EDG — Education: General

SSE — Social Studies Education

SYD — Demography and Area Studies

Undergraduate Courses

SSE 4362. Fundamentals in Teaching Social Studies (3). Corequisites: SSE 4364, 4664. Rationale for social studies instruction and an examination of traditional social science instructional methods.

SSE 4364. Skill Development in Social Studies (3). Corequisites: SSE 4362, 4664. Emphasizes strategies in dealing with reading and writing problems.

SSE 4664. Inquiry in Teaching Social Studies (3). Corequisites: SSE 4362, 4364. Provides theory and practice in discovery, problem solving, and inquiry teaching of social science.

SSE 4940r. Field Study in Social Education (1-3). (S/U grade only.) A participant observation field study course in an education setting to be arranged with the instructor. Repeatable to a limit of three (3) hours credit.

SSE 4944. Student Teaching in Social Science Education (15). (S/U grade only.) Prerequisites: SSE 4362, 4364, 4664. A 15-week, off-campus student-teaching experience in Florida schools, supervised by University faculty in social science education.

Interdepartmental MIDDLE EASTERN STUDIES MINOR

COLLEGE OF ARTS AND SCIENCES

Coordinating Committee: Peter Garretson (History; Committee Chair), Winnifred Adolph (Modern Languages), David Levenson (Religion), John Kelsay (Religion), Daniel Pullen (Classics).

The Middle Eastern Studies Minor is concerned with the cultures of the Middle East from ancient times to the present. Utilizing the resources of a number of departments and programs, it allows the student to study the region from an interdisciplinary perspective. The minor can provide a Middle East focus for work in another discipline, can build a foundation necessary for advanced degrees in middle eastern studies and can enable those planning to work in the region to gain a fuller understanding of its cultures.

Requirements for a Minor in Middle Eastern Studies

The minor will consist of fifteen (15) semester hours and must include intermediate-level competence in Hebrew (Biblical or Modern), Arabic or another Middle Eastern language approved by the committee. No more than six (6) semester hours of language courses

may be counted towards the minor. No more than three (3) semester hours used to fulfill any university language requirements may be counted towards the minor. The remaining required hours must come either from the courses listed below or be approved by the coordinating committee.

Languages

- ARA 1120. Elementary Arabic I (4)
 ARA 1121. Elementary Arabic II (4)
 ARA 2200. Intermediate Arabic (4)
 HBR 1102. Beginning Hebrew I (4)
 HBR 1103. Beginning Hebrew II (4)
 HBR 1120. Elementary Modern Hebrew I (4)
 HBR 1121. Elementary Modern Hebrew II (4)
 HBR 2200. Intermediate Modern Hebrew (4)
 HBR 2202. Intermediate Hebrew (4)

Department of MILITARY SCIENCE

COLLEGE OF ARTS AND SCIENCES

Professor: Lieutenant Colonel James E. Waldo;
Assistant Professors: Brown, Clegg, Lovins,
Storey; *Instructors:* Hightower, Powell, Roper

The military science department's Reserve Officers Training Corps (ROTC) program of instruction qualifies the student for a commission in the United States Army, Army National Guard, or United States Army Reserve. The curriculum does not provide technical training in a job specialty nor does it emphasize vocational training; rather, it complements and provides a base for normal progression in the commissioned officers' educational program.

Leadership and management objectives are included in academic periods of instruction. Practical leadership experience is gained in a field training environment by attendance at a 32-day summer camp, normally between the junior and senior years. Nursing students attend a nursing internship at Army hospitals following the normal summer camp. A leadership laboratory also provides experience in a range of leadership positions during the school year. The department offers both a four-year and a two-year program, each with its own special advantages. Students are invited to visit or write the Department of Military Science to obtain additional information.

Requirements

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*.

Core Program

The program requires four years of military science courses which consist of a two-year basic course and a two-year advanced course. Students can begin the four-year program as a freshman or as a sophomore.

There is also a two-year ROTC program for those students with only two years of college remaining. The two-year course is designed for junior college and other non-ROTC college transfer students, but may be utilized by students who did not enroll in the basic course outlined below.

Graduate students may also qualify for enrollment in the two-year course. Additional information regarding eligibility requirements for the two-year program may be obtained by contacting the Department of Military Science.

Women are encouraged to enroll and will be commissioned as officers in the United States Army upon completion of the ROTC curriculum. Job opportunities for women officers in the Army are the same as those for men, excluding a few combat arms fields.

Basic Course

The basic course is normally taken as an elective subject by students in their freshman and sophomore years. The purpose of this instruction is to qualify students for entry into the advanced course by familiarizing them with the organization of the Army, military skills, and military tradition. Students do not incur any military obligation as a result of enrolling in the basic course. Enrollment in ROTC requires proof of a doctor's physical screening. Participation in regularly scheduled physical training is required. In addition to classroom instruction, a one and a half hour leadership laboratory period is required each week.

Advanced Course

Instruction in the advanced course includes leadership and management, the exercise of command, military teaching methods, tactics, logistics, administration, history, and military justice. Leadership experience and command experience are provided by assigning advanced course students as cadet officers and noncommissioned officers. Participation in regularly scheduled physical training is a required part of the leadership training. Classroom instruction consists of two one and a quarter hour (75 minutes) periods and one and a half (90 minutes) hour leadership laboratory period each week. Only students who have demonstrated a definite potential for becoming competent officers will be selected for the advanced course.

Professional Military Education

In addition to basic and advanced ROTC courses, cadets must complete professional military education requirements consisting of one course in each of the following areas: written and oral communication skills, American military history, and computer literacy. Students should consult with the professor of military science to determine those University courses suitable for fulfilling these requirements.

Monetary Allowances

Cadets selected for admission into the advanced course qualify for a nontaxable monetary allowance of \$350–\$400 per month for up to 20 months. Cadets may also qualify for the simultaneous membership program with the United States Army Reserve or National Guard, which can provide over \$6,000 during the last two years of school. Both the United States Army Reserve and the National Guard offer additional monetary incentives for cadets who join their organizations.

Army ROTC College Scholarship Program

Financial assistance is available in the form of two- or three-year ROTC academic scholarships for selected students. Under the Army ROTC Scholarship Program, the students/ca-

dets receive full tuition. Additionally, Army scholarship recipients receive a flat-rate allowance \$600 per year for textbooks and other expenses and \$250–\$400 per month stipend for up to 10 months per year. During the 32-day advanced course summer training between the junior and senior years, Army ROTC also pays attending cadets \$22 per day plus room and board. There are also numerous national and organizational scholarships that students may compete for as a member of Army ROTC.

Textbooks and Uniforms

All textbooks, uniforms, and items of insignia incident to membership in the Army ROTC Program are furnished by the Department of Military Science.

Minor in Military Science

A minor in military science is offered and may be selected by students with the approval of their major department and the Department of Military Science. Requirement for a minor is twelve (12) semester hours of upper division coursework.

Special Activities

Throughout cadets courses in ROTC, they will have the opportunity to join and participate in a number of military affiliated organizations and activities, both on a voluntary and a selective basis. The Pershing Rifle Society is a voluntary organization that functions as a military unit participating in military ceremonies and presenting the national colors at civic events. Cadets have the opportunity to qualify for and compete with cadets from other universities and colleges in a series of military events termed Ranger Challenge. Cadets may also join Scabbard and Blade, a military honors society comprising those cadets with qualifying grades that denote scholarship.

Awards and Decorations

Awards and decorations made available by national organizations, The Florida State University, and local and national military organizations, are presented to both basic and advanced officer course cadets each year. These plaques, trophies, medals, and ribbons symbolize superior achievement in Army ROTC and other University academic courses, and in outstanding campus and cadet corps leadership.

Prerequisite for Admission to the Professional Officer Course

1. Be at least 17 years of age at time of acceptance.

2. Be able to complete the professional officer course and graduate from The Florida State University prior to reaching the age of thirty (30) at the time of commissioning.
3. Selection by the professor of military science and acceptance by the University.
4. Execute a written agreement with the government to complete the professional officer course and accept an Army ROTC commission.
5. Enlist in the Army Reserve Component-ROTC (terminated upon receiving an Army officer commission).

Those students enrolled in the four-year Army ROTC program must complete the basic course or its equivalent, or have acceptable prior military service. Veterans and students with previous ROTC training are invited to write, visit, or call the Department of Military Science (850) 644-8806/1016 to discuss their eligibility status.

Students desiring entry into the two-year Army ROTC program should contact the Department of Military Science at the beginning of the Fall semester one academic year prior to the Fall semester in which they wish to enroll in the professional officer course. This lead time is required to complete the application and a physical examination prior to enrollment in the professional officer course.

Leadership Laboratory

Leadership laboratory is open to students who are members of the Reserve Officer Training Corps or who are eligible to pursue

a commission as determined by the professor of military science. Leadership laboratory is the formalized phase of leadership training conducted by the cadets. It is scheduled for one and one half (90 minutes) hours each week for both the basic and advanced officer courses (non-contracted and contracted). All uniforms and equipment required for cadet activities are furnished.

Definition of Prefix

MIS — Military Science

Undergraduate Courses

MIS 1031. Introduction to Military Science and Skills Development (1). An introductory course designed to provide an understanding of the Army and its role in American society. Army organization, customs, and chain of command are also emphasized.

MIS 1400. Fundamentals of Leadership Development (1). An introductory course focusing on military leadership principles. Additional emphasis on improvement in written communication, oral communication, and problem-solving techniques.

MIS 2631. Basic Military Science I (2). Prerequisite: MIS 1400 or permission of the professor of military science. This course continues the development of critical military skills and leadership. Training is basic in scope and includes, but is not limited to, leadership, written and oral communications, land navigation skills, and tactics.

MIS 2632. Basic Military Science II (2). Prerequisite: MIS 2631 or permission of the professor of military science. This course continues the development of critical military skills and cadet leadership. Training is basic in scope and includes, but is not limited to, basic first aid, role of the NCO, military tactics, and written and oral communication.

MIS 2940. Basic Field Internship (4). (S/U grade only.) Prerequisite: permission of the professor of military science. An intense summer program conducted at Ft. Knox, Kentucky, for four weeks. Designed as an alternative method to meet the prerequisites of the advanced course for students who have had no basic course military science instruction. Students receive funded travel, \$21.00 per day, and University credit for attendance.

MIS 3410. Advanced Military Science I (3). Prerequisites: MIS 1031, 1400, 2631, 2632, or 2940, or permission of department chair. Develops cadet competencies and confidence through advanced leadership and technical/tactical instruction. Training will include, but is not limited to, leadership, written and oral communication, operations and tactics, land navigation, physical fitness, weapons, NBC defense training, and general military subjects.

MIS 3611. Advanced Military Science II (3). Prerequisite: MIS 3410. The course will provide selected military skills to develop competency in developing military trainees, training managers, and future U.S. Army officers. Instruction will include, but is not limited to, leadership, training management, and oral communication techniques. Continues skills development for advanced camp.

MIS 4125. Advanced Military Art (3). Prerequisite: MIS 3611. A study of advanced principles and techniques of military leadership, ethics, history, management, training/operations, and organization.

MIS 4420. Contemporary Issues in Military Law and Management (3). Prerequisite: MIS 4125. A study of junior-level officer duties relating to staff functions, company-level duties, military law/justice, and the transition to the officer corps.

MIS 4900r. Directed Individual Study (3). Prerequisites: permission of the professor of military science. Special supervised study/research with professor of military science dealing with emphasis on current issues relating to the profession of arms and national defense. May be repeated to a maximum of six (6) semester hours.

Preprofessional Program in MINISTERIAL STUDIES

COLLEGE OF ARTS AND SCIENCES

Advisor: John E. Kelsay, Department of Religion

The baccalaureate degree is required for admission to accredited theological schools. Students interested in a pretheological curriculum and information about theological seminaries should consult with Dr. John Kelsay at the *Department of Religion, 206 Dodd*.

Preministerial students are also advised that the King's Daughters Fund provides scholarships for students who are committed to a church-related vocation. Applications must be received by April 15 each year. Contact the Office of the Vice President for Student Affairs for details.

Department of MODERN LANGUAGES AND LINGUISTICS

COLLEGE OF ARTS AND SCIENCES

Chair: Mark F. Pietralunga; *Professors:* Carrabino, Cloonan, Darst, Fernandez, Fleming, Gerato, Launer, LeBlanc, Leparulo, Pietralunga, Ree, Ruppert, Spacagna, Stanley, Walters, Wyatt; *Associate Professors:* Adolph, Allaire, Cappuccio, Efimov, Galeano, Graham-Jones, Hilary, Rehder; *Assistant Professors:* Arias, Boutin, Dangler, Gomariz, Lan, Leushuis, Maier-Katkin, Mitchell, Pichugin, Poey, Romanchuk, Trinch; *Assistants in Modern Languages:* Adolph, Stepp

The Department of Modern Languages and Linguistics provides instruction in Arabic, Chinese, Czech, French, German, Hebrew, Italian, Japanese, Korean, Portuguese, Russian and Spanish, with an emphasis on culture and literature as well as language. Several courses in linguistics are offered, in addition to courses in Chinese, French, German, Italian, and Hispanic film, and courses in French, German, Italian, Russian, and Latin American literature in English translation. The literature in translation courses count toward the literature requirement in the liberal studies humanities area and may, in some cases, be accepted for major or minor credit (see individual course descriptions).

Beginning Fall 2002, all students who intend to continue study of a language at The Florida State University in which they have had previous experience (such as high school study or study abroad) must be placed into the appropriate course by the Department of Modern Languages. Students in French, German, and Spanish who continue with the same language must take the placement test before they enroll in a course in the department. Students in other languages must consult the department for the appropriate placement procedures before enrolling.

Degrees Offered

Bachelor of arts (BA) degrees and minors are offered in French, German, Italian, Slavic languages and literatures, and Spanish. All major programs will also require a minor degree. Undergraduate minors are offered in Arabic Studies, Chinese, French, German, Italian, Japanese, linguistics, Portuguese, Slavic languages and literatures, Spanish, and world literature/world film. A minor in Middle Eastern Studies is offered jointly by the Departments of Modern Languages and Linguistics, Religion, History, and Classical Languages, Literature and Civilization.

Graduate programs leading to the master of arts (MA) degree are available in French, German, Italian studies, Slavic languages and literatures (emphasis on Russian), and Spanish. Programs leading to the doctor of philosophy (PhD) degree are offered with French or Spanish as the major field of concentration. Concentrations in linguistics,

comparative and world literature, Italian, German, and Russian are available for the doctorate in humanities. For information on graduate programs, refer to the *Graduate Bulletin*.

Foreign Language Learning Center

The department's language laboratories offer state-of-the-art electronic language learning systems. Students may practice at their convenience individually (unsupervised) or with their classes under a teacher's supervision. The Foreign Language Learning Center possesses a collection of video materials, and television news from around the world can be viewed daily on the set or on-line. Students have access to a state-of-the-art computer lab plus an audio lab.

Winthrop-King Institute for Contemporary French and Francophone Studies

The Winthrop-King Institute for Contemporary French and Francophone Studies was created as a result of a generous bequest from the late Mrs. Ada Belle Winthrop-King. Launched in the spring of 2002, it is a center for interdisciplinary scholarship focusing on developments in France and the wider French-speaking world dating approximately from the French Revolution to the present, with a particular emphasis on contemporary issues. The institute supports undergraduate and graduate courses dealing with various aspects of francophone culture, organizes lecture series by outstanding scholars from a variety of fields and hosts conferences on contemporary cultural and social issues. Through its courses, conferences and research, the institute seeks to address intellectual and social developments throughout the francophone world, whether in literature, philosophy, art, history, popular culture, history, political science, etc. To this end, the institute encourages the participation of faculty and students from a variety of academic disciplines. All courses associated with the institute can be taken for credit toward their degree by French majors, minors and graduate students. Courses with French and francophone dimensions taught by colleagues outside of the French faculty are cross-listed to provide credit either in French or in the related field.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-divi-

sion program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for these degree programs:

French

1. Six to twelve (6–12) semester hours of coursework in the language.

German

1. Six to twelve (6–12) semester hours of coursework in the language.

Italian

1. Six to twelve (6–12) semester hours of coursework in the language.

Russian

1. Six to twelve (6–12) semester hours of coursework in the language.

Spanish

1. Six to twelve (6–12) semester hours of coursework in the language.

College Requirements

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*.

Note: the department reserves the right to reassign or drop students who are enrolled in a course for which they have not taken the required prerequisites, or one that does not correspond to their linguistic abilities.

Honors in the Major

The Department of Modern Languages and Linguistics offers a program in honors in the major to encourage talented seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Major in a Language with Concentration in Business

A major in French, German, Italian, Russian, or Spanish with concentration in business may be selected. The program consists of twenty-one (21) semester hours in the language beyond the language requirement plus fifteen (15) semester hours of core courses and twelve (12) semester hours in a specialized track of marketing, management, or finance in the College

of Business. Students should consult with their language adviser for a list of appropriate courses. No minor is required.

Co-major in Modern Languages and Linguistics

The department offers an interdepartmental program in which students may select co-majors from the following divisions: French, German, Italian, Slavic languages, and Spanish. The co-major consists of twenty-one (21) semester hours numbered above 1999 in each of two divisions selected. The student should consult with a divisional language adviser to select courses. No minor is required.

Double Major

Students pursuing more than one major must meet the program requirement of both majors, with the following exceptions: 1) a maximum of six (6) semester hours may overlap, that is they may be counted towards two separate majors; and 2) no minor is required.

Double Major in Modern Languages

A double major in two modern foreign languages may be approved. Please consult an advisor in each language for course advisement.

Requirements for a Major in Modern Languages and Linguistics

Note: a grade of “C–” or better must be earned in each course applied towards any major or minor degree earned in Modern Languages and Linguistics.

French Major

Thirty (30) semester hours numbered above 2999 are required, including FRW 3100, 3101; FRE 3420, 3421, 4422, 4780; and three additional 4000-level courses (nine [9] semester hours), at least two of which (six [6] semester hours) must be in French literature. One 3000–4000 level elective will complete the requirements. It is recommended that students take FRE 2220 concurrently with FRE 3420, when possible. Students are also strongly advised to take the sequence FRW 3100–3101 concurrently with the grammar/composition sequence FRE 3420–3421. Native speakers should register for courses numbered 3000 and above. Majors are eligible for the Ada Belle Winthrop-King summer scholarships to Paris, in partial fulfillment of the above-stated requirements. Majors are also eligible for the Spacagna/Winthrop-King and James/Winthrop-King

Presidential Scholarships. For more information about the French program, please visit the website: <http://www.fsu.edu/~modlang/french>.

German Major

Thirty (30) semester hours numbered above 2999 are required. Students must have a minimum of six (6) semester hours of skills courses (e.g. GER 3310, 3400) and six (6) semester hours of literature, film and culture classes (e.g. GEW 3370). A minimum of six (6) semester hours must be taken at the 4000-level. Students should consult with an advisor to ensure that they have met the distribution requirements.

Italian Major

Thirty (30) semester hours numbered above the language requirement are required. Students may pursue a program concentrating in either language skills or literature. The language concentration includes ITA 2240, 3420, 3421, plus seven language (ITA) courses at the 3000 and 4000 levels. The literature concentration includes ITA 2240, 3420, 3421; ITW 3100 and/or 3101; and twelve to fifteen (12–15) semester hours at the 4000 level in literature to equal twenty-seven (27) semester hours.

Slavic (Russian) Major

Thirty (30) semester hours numbered above 2999 are required, including at least twelve (12) semester hours of RUS/RUW course work at the 4000 level or above. Three (3) semester hours at the 4000 level must be in Russian literature. A maximum of six (6) semester hours from among the following course work may count toward the thirty (30) semester hour requirement: RUT 3110, 3500; LIN 3041, 4040; SLL 4500. FOL 3930r may also be counted toward the major and minor in Russian.

Spanish Major

Thirty-six (36) semester hours, distributed in the following manner, are required: eighteen (18) semester hours of 3000-level courses including SPN 3332, SPN 3333, SPW 3030, either SPN 3510 or SPN 3520, a departmental linguistics course (usually LIN 3041) and one 3000-level literature course. Required at the 4000-level are eighteen (18) semester hours in SPN or SPW courses, including at least one senior seminar, such as SPN 4540, SPN 4930 or SPW 4930.

Minor for Modern Languages Majors

At least twelve (12) semester hours in an approved departmental field are required. If a second foreign language is selected as the minor, the twelve (12) semester hours must be earned in courses numbered above 1999. A minimum grade of “C–” must be earned for all courses taken for the minor.

Requirements for a Minor in Modern Languages and Linguistics

Twelve (12) semester hours in linguistics or in any one of the following languages are required: Chinese, French, German, Italian, Japanese, Portuguese or Russian numbered above 1999. Spanish requires fifteen (15) semester hours numbered above 2999 including three (3) hours in Spanish literature. In addition, three (3) of the fifteen (15) hours of the Spanish minor must be in Spanish literature. Credit extended in meeting the foreign language requirement for graduation may not be used in satisfying the minor. A certificate is issued by the department upon successful completion of the minor requirements.

Requirements for a Minor in Arabic Studies

The minor requires ten (10) semester hours of the language above the 1999 level. Two of the courses may be selected from Arabic language classes within the Department of Modern Languages and Linguistics, and a third from a list of approved interdepartmental courses related to the Middle East or North Africa. No course taken for the minor may be used for the language requirement. At least five (5) of the ten (10) semester hours must be earned at The Florida State University.

Requirements for a Minor in Middle Eastern Studies

A minor in Middle Eastern Studies is now being offered jointly by the Departments of Modern Languages and Linguistics, Religion, History, and Classical Languages, Literature and Civilization. Fifteen (15) semester hours in approved interdepartmental fields will be required, including intermediate-level competence in Hebrew (Biblical or Modern), Arabic, or another approved Middle Eastern language. No more than eight (8) semester hours of language courses may be counted toward the minor. No more than four (4) semester hours used to fulfill any university language requirement may be counted toward the minor.

Requirements for a Minor in World Literature/World Film

The minor will consist of fifteen (15) semester hours. The student may select five courses from any of the following ten courses: CHT 3391r, FRT 3140, FRT 3561, FRW 3391r, GET 3130, GEW 3391r, ITT 3430, ITW 3391r, RUW 3391r, SPT 3130, SPW 3391r. Courses taken for major credit in modern languages may not be counted toward this minor.

All language and literature courses are taught primarily in the foreign language with the exception of courses in literature in translation and in film.

Undergraduate Courses

Note: graduate students wishing to take these courses denoted with an asterisk (*) must obtain permission of that course's language coordinator and the associate chair in graduate studies.

Arabic

ARA 1120. Elementary Arabic I (4). The aim is basic proficiency in the four language skills: reading, writing, speaking and listening. Basic vocabulary, sentence structure, grammar and pronunciation in Modern Standard Arabic are introduced. This course enables students to put the language they are learning to actual use. May not be taken concurrently with ARA 1121 and/or 2200 or by native speakers.

ARA 1121. Elementary Arabic II (4). Prerequisite: ARA 1120. Extended vocabulary and grammar, as well as basic conversation are emphasized. Students start conversing, reading and writing in Arabic. The skills introduced in ARA 1120 are further emphasized in this course. May not be taken concurrently with ARA 1120 and/or 2200 or by native speakers.

ARA 2200. Intermediate Arabic (4). Prerequisite: ARA 1121. The objective of this course is to solidify knowledge of basic grammar and to expand the student's vocabu-

lary. This course emphasizes reading, writing, listening and speaking. Students in this course should take two semesters of college-level Arabic or the equivalent prior to beginning this course. May not be taken concurrently with ARA 1120 and/or 1121 or by native speakers.

Chinese

Chinese Language

CHI 1120. Elementary Chinese I (4). An emphasis is placed upon speaking and listening, although an acquisition of reading and writing skills is also an integral part of the course. Some fundamental syntactic constructions introduced are: word order, nominal classifiers, verb classification, and formation of complex sentences. May not be taken by native speakers. May not be taken concurrently with CHI 1121, 2200 and/or 2300.

CHI 1121. Elementary Chinese II (4). Prerequisite: CHI 1120 or its equivalent. The skills introduced in CHI 1120 are further emphasized in this course, including speaking, listening, and reading. May not be taken by native speakers. May not be taken concurrently with CHI 1120, 2200 and/or 2300.

CHI 2200. Intermediate Chinese (4). Prerequisite: CHI 1121 or equivalent. May not be taken by native speakers. Emphasizes reading and writing and introduces more of the essential Chinese syntax. More time will be devoted to learning Chinese characters in both recognition and production levels. May not be taken concurrently with CHI 1120, 1121 and/or 2300.

CHI 2300. Chinese Grammar and Composition (4). Prerequisite: CHI 1121 or permission of instructor. Gives students an opportunity to strengthen their knowledge of basic Chinese syntax and gain better insight into the structure of modern Chinese. Students are taught to write letters, notes, and short essays in Chinese.

CHI 3501. Readings in Chinese Short Stories and Essays (3). Prerequisite: CHI 2200 or equivalent. Introduction of selected materials in modern Chinese literature. The course objectives are to train students to be able to read some carefully chosen original works and to bring to students' awareness various cross-cultural differences.

CHI 3502. Readings in Chinese Drama (3). Prerequisite: CHI 2200 or equivalent. Introduction of selected materials in modern Chinese drama. The course objectives are to train students to be able to read some carefully chosen original works and to bring to students' awareness various cultural background for the materials selected.

CHI 4503. Readings in Chinese History (3). Prerequisite: Instructor's permission. A sketch of Chinese history is introduced. Students are taught to read the text in Chinese so they will be able to expand their vocabulary to include those words necessary to understand Chinese culture and tradition.

CHI 4905r. Directed Individual Study (3). Students arrange with individual faculty members to undertake specialized study in areas outside of or in addition to the regular curriculum. May be repeated to a maximum of six (6) semester hours.

CHI 4930. Special Topics (3). Prerequisite: Divisional permission. Allows student to study literary topics of a special kind, depending on student interest and faculty expertise.

CHI 4942r. Internship in Applied Chinese (1–6). (S/U grade only.) Prerequisite: Advanced standing in Chinese. Provides academic credit for students working in governmental agencies or private business where students employ the foreign language. Departmental permission required. May be repeated to a maximum of six (6) semester hours.

CHT 3391. Chinese Cinema and Culture (3). Course studies representative films from mainland China, Hong Kong, and Taiwan. Presents Chinese cinema both as a unique genre of modern arts and a powerful social and political discourse. Taught in English.

CHT 3930r. Topics in Chinese Literature (3). This course is for students interested in Chinese culture and literature in translation. Students learn the skills of interpret-

ing literary works and understand the development of Chinese literature. May be repeated to a maximum of six (6) semester hours as content changes and with permission of the instructor.

Czech

Czech Language

CZE 4905r. Directed Individual Study (3). Students arrange with individual faculty members to undertake specialized study in areas outside of or in addition to the regular curriculum. May be repeated to a maximum of six (6) semester hours.

Film Courses

See course descriptions under individual language areas.

CHT 3391.	Chinese Cinema and Culture (3).
FRW 3391r	French Cinema (3).
GEW 3391r.	German Cinema (3).
ITW 3391r.	Italian Cinema (3).
RUW 3391r.	Russian Cinema (3).
SPW 3391r.	Hispanic Cinema (3).
PRT 3391.	Brazilian Literature and Film in Translation (3).

General Foreign Language Courses

FOL 3930r. Experiments in Modern Language (3). May be repeated to a maximum of nine (9) semester hours.

FOL 4901. Tutorial in Modern Languages, Literatures or Linguistics (1–6). (S/U grade only.) Prerequisites: Junior status or command of language; instructors permission. A maximum enrollment of five (5) students. This course allows students to pursue a topic within modern languages (linguistics, literature, culture or civilization). Number of semester hours taken depend on the content and breadth of the topic. May be repeated twice with different topics to a maximum of six (6) semester hours.

FOT 3800. Translation Practices (3). Prerequisite: Language requirement. Course provides students who have an interest in translation as a profession with sufficient information and translating skills to enable them to decide whether or not to continue to gain proficiency at the graduate level. This is not a translation course but a course about translation, although there will be translation exercises.

FOW 3240. Literature and Sexuality (3). Course focuses upon novels that explore the social and personal implications of sexual identity.

FOW 3541. Gender and Race in Literature (3). Prerequisite: One literature course. This comparative literature course explores how gender and race influence our reading, interpretation, and evaluation of European and North American literature.

FOW 4540. Franco-American Culture Wars (3). Course examines a major shift in the cultural balance of power between the United States and France. Topics range from the transition from the 19th century American awe at French achievements in fiction and painting to the ever increasing American influence on France's literary and visual art.

French

French Language

FRE 1120. Elementary French I (4). Oral comprehension, speaking, reading, and writing are stressed. May not be taken by native speakers. May not be taken concurrently with FRE 1121 and/or 2200.

FRE 1121. Elementary French II (4). Prerequisite: FRE 1120 or its equivalent. Further emphasis on oral comprehension, speaking, reading and writing. May not be taken by native speakers. May not be taken concurrently with FRE 1120 and/or 2200.

FRE 2200. Intermediate French Readings (4). Prerequisite: FRE 1121 or equivalent. Completes University language requirement for baccalaureate degree. May not be taken by native speakers. Rapid review of basic French structures and introduction of some of the finer points of French grammar. May not be taken concurrently with FRE 1120 and/or 1121.

FRE 2220. Reading and Conversation (4). Prerequisite: FRE 2200 or equivalent. Expansion of French reading skills while introducing the student to oral expression through a discussion of the readings. May not be taken by native speakers. May not be taken concurrently with FRE 1120 and/or 1121.

FRE 3244. Intermediate French Conversation (3). Prerequisites: FRE 2220 and either 3420 or 3421. Through readings about contemporary issues facing French society—such as the evolving role of women, unemployment, immigration, economic change in the new Europe and urban renewal—this course aims at developing oral communication skills in a broad cultural context.

FRE 3420. French Grammar and Composition I (3). Prerequisite: FRE 2200 or its equivalent. An in-depth study of French grammar emphasizing some subtleties of written expression.

FRE 3421. French Grammar and Composition II (3). Prerequisite: FRE 2200 or its equivalent. Further study of the subtleties of written expression in the French language.

FRE 3440. Commercial French (3). Prerequisites: FRE 2200 and 3420. Develops language and correspondence skills appropriate to business transactions in such areas as sales, finance, transportation, management, etc.

FRE 3530. Chanson (3). Prerequisite: One semester of college French or equivalent (see instructor). Does not count toward requirement for the French major but may count toward a minor in French. A survey of the popular French song from early 20th century to modern rock. In English.

FRE 4410.* Advanced Conversation (3). Prerequisites: FRE 3244 and 3421 or equivalent. Based on contemporary materials, this course is intended to develop near-native fluency.

FRE 4422.* Advanced Grammar and Composition (3). Prerequisite: FRE 3421 or equivalent. This course, intended for students with a thorough grounding in French grammar, aims at developing writing ability through the reading of a variety of sophisticated French prose works and the composition of essays based on these model texts.

FRE 4500.* French Culture and Civilization (3). Prerequisites: FRE 3244 and 3421 or permission of divisional coordinator. This course spans the two world wars. It concentrates on the institutions of the Fifth Republic, the evolution of ideas since May 1968, the development of sciences and technology, and the artistic movements since the end of World War II. It also emphasizes the role of France in the European community.

FRE 4780.* Phonetics: Theoretical and Applied (3). Prerequisites: FRE 3244 and 3421 or equivalent. Study of the International Phonetic Alphabet and its application to French with practice in reproducing accurately French sounds and intonation patterns.

FRE 4905r. Directed Individual Study (3). Students arrange with individual faculty members to undertake specialized study in areas outside of or in addition to the regular curriculum. May be repeated to a maximum of six (6) semester hours.

FRE 4930r.* Special Topics (3). Prerequisite: Divisional permission. Allows students to study literary topics of a special kind, depending on student interest and faculty expertise. May be repeated to a maximum of nine (9) semester hours.

FRE 4935r. Honors Thesis (3). May be repeated to a maximum of six (6) semester hours, three (3) hours of which may be applied to the requirements for the major with permission of the department. All honors work is directed by the students honors committee.

FRE 4942r. Internship in Applied French (1–6). (S/U grade only.) Prerequisite: Advanced standing in French. Provides academic credit for students working in governmental agencies or private business where students employ the foreign language. Departmental permission required. May be repeated to a maximum of six (6) semester hours.

French Literature in Translation

Note: FRT courses do not count toward the major unless the student reads the works in French, writes all assignments in French, and can provide a letter from the instructor granting him/her permission to take the course for major credit.

FRT 3140. Masterworks of French Literature in Translation (3). A survey of selected masterpieces of French literature, ranging from the Middle Ages to the present. The readings and instruction are in English. Can be used for minor credit in French with permission of the coordinator.

FRT 3561. French Women Writers (3). Prerequisite: ENC 1101, 1121, or equivalent. Course addresses issues of race, gender and class in a selection of works written by prominent French/Francophone writers. Taught in English. Can be used for minor credit with permission of the coordinator.

French Literature (Writings)

FRW 3100. Survey of French Literature: Origins Through 18th Century (3). Prerequisite: FRE 2220. FRE 3420 or 3421 is also recommended. An introduction to the study of early-modern French literature by reading and discussing works representative of the various schools and movements. (Fall semester only.)

FRW 3101. Survey of French Literature: Origins Through the 19th and 20th Centuries (3). Prerequisite: FRE 2220; FRE 3420 or 3421; FRW 3100 or permission of instructor. An introduction to the study of modern French literature by reading and discussing works representative of the various schools and movements. (Spring semester only.)

FRW 3391r. French Cinema (3). Study of the movements and directors of French Cinema with emphasis on the postwar New Wave. May be repeated to a maximum of six (6) semester hours. Three hours may be used for minor credit with permission of the coordinator. May not be used for major credit.

FRW 4420.* Medieval and Renaissance Literature (3). Prerequisite: FRW 3100. An introduction to the fiction and prose of the early-modern period. Emphasis is on the themes of love and friendship.

FRW 4433.* 17th- and 18th-Century Literature (3). Prerequisites: FRW 3100 or 3101. This course surveys major works in the areas of theatre, philosophy, and prose fiction. Special attention is given to the possible meanings of central concepts such as Classicism and Enlightenment.

FRW 4460.* 19th-Century Literature (3). Prerequisites: FRW 3100 or 3101. The study of major themes and issues in 19th-century literature and culture.

FRW 4480. 20th-Century Literature (3). Prerequisites: FRW 3100 or 3101. A survey of the major works (novels, theatre, poetry) and movements of 20th-century French literature.

FRW 4740.* French Literature of Quebec (3). Prerequisites: FRW 3100 or 3101. A survey of the major works (novels, theatre, poetry) of the literature of 20th-century Quebec.

FRW 4770.* Black Literature of French Expression (3). Prerequisites: FRW 3100 or 3101. An examination of the literature of Africa and the Caribbean written in French with an emphasis on Negritude, réalisme merveilleux and other literary movements.

German

German Language

GER 1120. Elementary German I (4). Introduction to German. May not be taken by native speakers. Students with more than two years of high school German or the equivalent should consult the department for placement. May not be taken concurrently with GER 1121, 1130, 1131, or 2230.

GER 1121. Elementary German II (4). Prerequisites: GER 1120, 1130, or the equivalent. May not be taken by native speakers. Students with three or four years of high school German or the equivalent should consult the department for placement. May not be taken concurrently with GER 1120, 1130, 1131 and/or 2230.

GER 1130. Elementary Conversational German (4). (Conversational method.) Introduction to German with emphasis on speaking. Additional hours arranged for conversational practice. Students with more than two years of high school German or the equivalent should consult the department for placement. May not be taken by native speakers. May not be taken concurrently with GER 1120, 1121, 1131 and/or 2230.

GER 1131. Elementary Conversational German (4). Prerequisites: GER 1120, 1130, or equivalent. (Conversational method.) Students with three or four years of high school German or the equivalent should consult the department for placement. Introduction to German with emphasis on speaking. Additional hours arranged for conversational practice. May not be taken by native speakers. May not be taken concurrently with GER 1120, 1121, 1130, and/or 2230.

GER 2230. Reading and Conversation (4). Prerequisites: GER 1121, 1131, or equivalent. Serves as final semester of the language requirement and as the transition to upper-level study. Contemporary reading matter, including films, slides, and recordings, serves as the basis for discussion. May not be taken by native speakers. May not be taken concurrently with GER 1120, 1121, 1130 and/or 1131

GER 3310. Intermediate German Grammar (3). Prerequisite: GER 2230 or equivalent, or permission of instructor. Not open to native speakers. This course focuses on the rules of German grammar and syntax and employing them correctly in speaking and writing.

GER 3400. Composition and Conversation (3). Prerequisite: GER 2230 or consent of the instructor. The objective is the ability to write and converse on general cultural topics at a level which demonstrates near mastery of German grammar and the beginning of a personal style in the language. The course is conducted in German.

GER 3440. German Business Language and Practice (3). Prerequisite: GER 2230 or permission of instructor. An introduction to business languages and practices in German-speaking countries.

GER 3500. German Studies (3). Prerequisite: GER 2230 or permission of instructor. This course, taught primarily in German, serves as an introduction to German studies. The course provides the student with an understanding of the major cultural aspects (literature, visual arts, history, politics, etc.) of German-speaking countries in the twentieth century; the emphasis is placed on Germany in the second half of the twentieth century.

GER 3502r. Topics in German Studies (3–6). Prerequisite: GER 2230 or permission of instructor. This course, taught primarily in German, presents a survey of one topic in the area of German studies. Topics may include themes from art, music, or literature placed in a cultural and historical perspective. Topics will change frequently. May be repeated to a maximum of six (6) semester hours with permission of instructor.

GER 3780. Phonetics (3). Prerequisite: GER 2230. The objectives are the acquisition of correct German sound formation by comparison with English phonetics and the improvement of the students conversational German through pronunciation exercises. The course is conducted in German.

GER 3930r. Special Topics (3). Prerequisite: GER 2230 or equivalent. Allows students to study non-literary topics of a special kind, depending on student interest and faculty expertise. May be repeated to a maximum of nine (9) semester hours when content changes.

GER 3941r. Directed Individual Tutorial Practice (3). Prerequisite: Consent of instructor. Students review grammar and improve their speaking skills by leading groups of students in the GER 11301131 classes. May be repeated to a maximum of nine (9) semester hours.

GER 4420.* Advanced Composition (3). Prerequisite: GER 3400 or equivalent. Course objective: ability to write with a developed personal style in German on intellectually demanding topics, including commentary on literature. Near mastery of German grammar is a prerequisite. The course is conducted in German.

GER 4480.* Modern German of the News Media (3). Prerequisite: GER 3400 or consent of instructor. An advanced-level skills course. Discussion of current events and mass media in German-speaking countries and work with authentic texts (newspapers and audio- and videotapes).

GER 4905r. Directed Individual Study (3). Students arrange with individual faculty members to undertake specialized study in areas outside of or in addition to the regular curriculum. May be repeated to a maximum of six (6) semester hours.

GER 4935r. Honors Thesis (3). May be repeated to a maximum of six (6) semester hours, three (3) hours of which may be applied to the requirements for the major with permission of the department. All honors work is directed by the student's honors committee.

GER 4942r. Internship in Applied German (1-6). (S/U grade only.) Prerequisite: Advanced standing in German. Provides academic credit for students working in governmental agencies or private business where students employ the foreign language. Departmental permission required. May be repeated to a maximum of six (6) semester hours.

German Literature in Translation

GET 3130. Masterpieces of German Literature in Translation: 19th and 20th Centuries (3). This course provides students the opportunity to read German literary works in English translation. The focus is on major literary texts and movements of the 19th and 20th centuries. May be counted for major or minor credit. Taught in English.

GET 4800.* Translation German-English/English-German (3). Prerequisite: GER 3400 or consent of instructor. An advanced-level skills course. Translating a variety of texts that illustrate important distinctions between German and English grammar, syntax, vocabulary, etc.

German Literature (Writings)

GEW 3320. Drama (3). Focuses on contemporary German drama in a sociohistorical context. Addresses the difficulties authors confront when dramatizing current social trends, as well as the problems of interpreting and staging a play.

GEW 3370. German Short Fiction (3). Prerequisite: GER 2230 or equivalent. Through reading and discussion of short pieces of fiction, primarily from the twentieth century, students are introduced to the principles of literary study.

GEW 3391r. German Cinema (3). Study of the contextual and stylistic features of German cinema from its classical period in the 1920s to the New German Cinema of the 1970s and 1980s. Focus is on methods of film analysis and on film criticism. May be repeated to a maximum of six (6) semester hours.

GEW 3470. Modern Life and Letters I: Before 1945 (3). Course objective: an understanding of the major cultural aspects (literature, visual arts, history, politics, etc.) of German-speaking countries from about 1900 to 1945, introduced by highlights of the past. The course is conducted in German as much as possible, but the students may use English if necessary. Verbal and written participation is required.

GEW 4591r.* Studies in an Author or Theme (3). Offers the opportunity to study either a single author in-depth or to follow a specific theme which may extend over a brief period or over centuries. Course material is often supplemented by recordings and cinematic representations. May be repeated to a maximum of nine (9) semester hours.

GEW 4592r.* Studies in a Period or Movement (3). Concentrates on a specific literary movement such as Romanticism, Realism, Expressionism, or on a period such as the Baroque, the Enlightenment, or the Weimar period. May be repeated to a maximum of nine (9) semester hours.

GEW 4900r. Directed Individual Readings in Literature (3). May be repeated to a maximum of nine (9) semester hours. Students arrange with individual faculty members to study literature outside the regular curriculum.

GEW 4930r. Special Topics (3). May be repeated to a maximum of nine (9) semester hours. Students arrange with individual faculty members to undertake study in areas outside the regular curriculum.

Hebrew

Hebrew Language

HBR 1120. Elementary Modern Hebrew I (4). No previous knowledge required. May not be taken by native speakers. Introduction to the alphabet, basic vocabulary, grammar and syntax of modern Hebrew. Oral comprehension, speaking and writing are emphasized through a communicative approach. Students are also introduced to modern Israeli culture. May not be taken concurrently with HBR 1121 and/or 2200.

HBR 1121. Elementary Modern Hebrew II (4). Prerequisite: HBR 1120 or equivalent. May not be taken by native speakers. Continues the introduction to modern Hebrew begun in HBR 1120. Cultural orientation and the practical use of Hebrew in meaningful situations. Oral comprehension, speaking and writing are emphasized through a communicative approach. May not be taken concurrently with HBR 1120 and/or 2200.

HBR 2200. Intermediate Modern Hebrew (4). Prerequisites: HBR 1120, 1121, or equivalent. May not be taken by native speakers. Completion of this course will fulfill the foreign language requirement for the College of Arts and Sciences. In a proficiency-oriented classroom, students continue their study of Hebrew. Introduction to modern Hebrew prose (fiction and non-fiction) as well as the continued development of speaking, listening, writing, and grammatical skills. May not be taken concurrently with HBR 1120 and/or 1121.

Italian

Italian Language

ITA 1120. Elementary Italian I (4). This introductory course gives the student basic grammatical structures to enable speaking, understanding, reading, and writing at the elementary level. May not be taken by native speakers. May not be taken concurrently with ITA 1121, 1131, 2230 and/or 2300.

ITA 1121. Elementary Italian II (4). Prerequisite: ITA 1120 or its equivalent. This course builds upon the student's ability to speak, understand, read and write Italian at an elementary level. May not be taken by native speakers. May not be taken concurrently with ITA 1120, 1131, 2230 and/or 2300.

ITA 1130. Elementary Conversational Italian I (4). (Dartmouth method) An introductory course emphasizing learning Italian through speaking and understanding skills at the elementary level. May not be taken by native speakers. May not be taken concurrently with ITA 1120, 1121, 1131 and/or 2300.

ITA 1131. Elementary Conversational Italian II (4). Prerequisite: ITA 1130 or its equivalent. (Dartmouth method) This course builds upon the speaking and reading skills learned at the 1130 level. May not be taken by native speakers. May not be taken concurrently with ITA 1120, 1121, 1130 and/or 2300.

ITA 2230. Reading and Conversation (4). Prerequisite: ITA 1121 or 1131. Stresses skills in reading and conversational Italian at the second-year level. Readings are supported by discussions of the materials. This course completes the baccalaureate degree requirement. May not be taken concurrently with ITA 1120, 1121, 1131 and/or 2300. May not be taken by native speakers.

ITA 2240. Conversation (3). Prerequisites: ITA 2230 or 2300. May not be taken by native speakers. This course stresses development of conversational skills at the third-year level.

ITA 3420. Grammar and Composition (3). Prerequisite: ITA 2230 or 2300. This course presents a review and further study of grammar and idiomatic constructions. Composition practice augments the skills developed.

ITA 3421. Grammar and Composition (3). Prerequisite: ITA 3420. A continuation of ITA 3420 with greater stress on theme-writing skills.

ITA 3440. Business Italian (3). Prerequisite: ITA 2230, 2300, or equivalent. This course introduces current Italian business formats and provides practice in commercial correspondence with its specialized vocabulary and syntax.

ITA 3941r. Directed Individual Tutorial Practice (3). Prerequisite: ITA 1120, 1121, 1130, 1131, or equivalent. This course develops skilled undergraduate tutors for the Dartmouth method ITA 11301131 sequence. May be repeated to a maximum of six (6) semester hours.

ITA 4410.* Advanced Italian Conversation (3). Prerequisites: ITA 3420, 3421, or their equivalents. The course is designed to develop fluency in conversation skills at the fourth-year level by means of extensive vocabulary building and practice.

ITA 4450.* Advanced Italian Composition and Style (3). Prerequisite: ITA 3421 or equivalent. The course stresses the morphological and syntactical order of Italian by means of extensive drill in controlled and free composition.

ITA 4500.* Italian Culture and Civilization (3). Prerequisite: ITA 3100, 3101, or equivalent. The course surveys Italian culture and civilization and provides a historical perspective to aspects of Italian society.

ITA 4905r. Directed Individual Study (3). Students arrange with individual faculty members to undertake specialized study in areas outside of or in addition to the regular curriculum. May be repeated to a maximum of six (6) semester hours.

ITA 4930r.* Special Topics (3). Prerequisite: Divisional permission. Allows students to study literary topics of a special kind, depending on student interest and faculty expertise. May be repeated to a maximum of nine (9) semester hours.

ITA 4935r. Honors Thesis (3). May be repeated to a maximum of six (6) semester hours, three (3) hours of which may be applied to the requirements for the major with permission of the department. All honors work is directed by the student's honors committee.

ITA 4942r. Internship in Applied Italian (1-6). (S/U grade only.) Prerequisite: Advanced standing in Italian. Provides academic credit for students working in governmental agencies or private business where students employ the foreign language. Departmental permission required. May be repeated to a maximum of six (6) semester hours.

Italian Literature in Translation

ITT 3430. Masterpieces of Italian Literature in Translation (3). After a brief overview of history of Italian literature, this course offers discussion and analysis of English translations of novels, short stories, and plays by such figures as Boccaccio, Machiavelli, Goldoni, Alfieri, Manzoni, Pirandello, Deledda, and Moravia. May be counted for major or minor credit.

Italian Literature (Writings)

ITW 3100. Survey of Italian Literature: Origins through 18th-Century (3). Prerequisite: ITA 2230, 2300 or equivalent. This course introduces students to representative literary figures and movements from the beginnings through the 18th-century (Dante to Goldoni).

ITW 3101. Survey of Italian Literature: 19th- and 20th-Centuries (3). Prerequisite: ITW 3100. This course introduces students to representative literary figures and movements from the 19th- and 20th-centuries (Alfieri to Moravia).

ITW 3391r. Italian Cinema (3). Study of modern Italian cinema from political and social realism to the postwar New Wave. May be repeated to a maximum of six (6) semester hours.

ITW 4400.* Renaissance Literature (3). Prerequisite: ITW 3100, 3101, or equivalent. This course offers selected readings and discussions of the literature of the Italian Renaissance including such figures as Alberti, Lorenzo deMedici, Poliziano, Machiavelli, Michelangelo, Ariosto, and Tasso.

ITW 4440r.* 18th- and 19th-Century Literature (3). Prerequisite: ITW 3100, 3101, or equivalent. This course offers readings and discussions of figures and movements of the 18th and 19th centuries including Goldoni, Alfieri, Foscolo, Manzoni, Leopardi, and Verga. May be repeated to a maximum of six (6) semester hours.

ITW 4480. 20th-Century Literature (3). Prerequisite: ITW 3100, 3101, or equivalent. This course offers readings and discussions of figures and movements in 20th-century Italian literature including Moravia, Svevo, Pirandelli, Silone, and others.

ITW 4481. Readings in Contemporary Italian Prose (3). Prerequisite: ITW 3100, 3101, or equivalent. This course offers readings and discussions of works of contemporary Italian writers including Pavese, Cassola, Sciascia, Berto, Ginzburg, Tomasi di Lampedusa, Buzzati, Vittorini, and Viganò.

ITW 4700r. The Trecento Writers (3). Prerequisites: ITW 3100, 3101 or equivalent. This course offers a study of the Trecento writers: Dante, Petrarch and Boccaccio. Readings and discussions are available in both English and Italian. May be repeated to a maximum of nine (9) semester hours.

Japanese

Japanese Language

JPN 1120. Elementary Japanese I (4). This course stresses speaking and listening, although the acquisition of reading and writing skills is also an integral part of the course. Some fundamental syntactic and morphological points introduced are word order, nominal particles, verbal endings, verb classification, speech levels, and the formation of some complex sentences. In addition, an introduction is given to the Japanese syllabaries and kanji. May not be taken by native speakers. May not be taken concurrently with JPN 1121, 2200 and/or 2300.

JPN 1121. Elementary Japanese II (4). Prerequisite: JPN 1120 or its equivalent. This course continues to stress speaking, reading, listening and writing skills using the syntactic and morphological points introduced in JPN 1120. Further study will be made of the Japanese syllabaries and kanji. May not be taken by native speakers. May not be taken concurrently with JPN 1120, 2200 and/or 2300.

JPN 2200. Intermediate Reading and Conversation (4). Prerequisite: JPN 1121 or equivalent. May not be taken by native speakers. This course continues to emphasize speaking and listening and introduces more of the essentials of Japanese syntax. In this course more time is devoted to reading and writing. About 400 kanji are introduced. May not be taken concurrently with JPN 1120, 1121 and/or 2300.

JPN 2300. Review Grammar and Syntax (4). Prerequisite: JPN 2200. May not be taken by native speakers. This course is designed to give students an opportunity not only to strengthen their knowledge of basic Japanese,

but to gain better insight into the structure of modern Japanese. Through graded exercises students are taught to write sophisticated Japanese. May not be taken concurrently with JPN 1120, 1121 and/or 2200.

JPN 3230. Readings in Short Stories and Essays (3). Prerequisite: JPN 2300. Selected materials in modern Japanese literature, humanities, and social sciences are introduced. The objectives of this course are to train students to be able to read some carefully chosen original works and to bring to students awareness various cross-cultural differences. May not be taken by native speakers.

JPN 4905r. Directed Individual Study (3). Students arrange with individual faculty members to undertake specialized study in areas outside of or in addition to the regular curriculum. May be repeated to a maximum of six (6) semester hours.

JPN 4930r. Special Topics (3). Prerequisite: Divisional permission. Allows students to study literary topics of a special kind, depending on student interest and faculty expertise. May be repeated to a maximum of nine (9) semester hours.

JPN 4942r. Internship in Applied Japanese (1-6). (S/U grade only.) Prerequisite: Advanced standing in Japanese. Provides academic credit for students working in governmental agencies or private business where students employ the foreign language. Departmental permission required. May be repeated to a maximum of six (6) semester hours.

JPT 4020r. Japanese Calligraphy (1). Prerequisite: JPN 1120 or its equivalent. This course is designed to teach beginning students how to write the Japanese kana syllabaries and kanji properly according to the stroke order. The art of sumi writing is also introduced. May be repeated to a maximum of two (2) semester hours.

Korean

Korean Language

KOR 1120. Elementary Korean I (4). This course places emphasis upon speaking and listening, although the learning of reading and writing skills is an integral part of the course. The writing system hangul is introduced at the outset. May not be taken by native speakers. May not be taken concurrently with KOR 1121 and/or 2200.

KOR 1121. Elementary Korean II (4). Prerequisite: KOR 1120 or its equivalent. This course continues to emphasize speaking and listening, as well as reading and writing skills. The writing system hangul is studied in further detail. May not be taken by native speakers. May not be taken concurrently with KOR 1120 and/or 2200.

KOR 2200. Reading and Conversation (4). Prerequisite: KOR 1121 or equivalent. May not be taken by native speakers. This course continues to emphasize speaking and listening skills and introduces more of the essentials of Korean grammar, but more time is devoted to reading and writing. This course completes the baccalaureate degree requirement. May not be taken concurrently with KOR 1120 and/or 1121.

Linguistics

Note: all linguistics courses taken for Spanish major credit must be taken through the modern language department.

LIN 3041. Introductory Linguistics for Foreign Language Majors (3). The purposes of this course are to develop an understanding of the nature of language, to dispel a number of myths and misconceptions about language, and to provide tools and techniques for describing linguistic data. May count toward the major in Slavic (Russian) and Spanish.

LIN 4030. Introduction to Historical Linguistics (3). This course is designed to familiarize students with the world language families, notion of relatedness, sound correspondence, comparative method, internal reconstruction, and the reconstruction of the ProtoIndo-European languages. Several theories of sound change are also discussed.

LIN 4040. Introduction to Descriptive Linguistics (3). This course attempts to develop an understanding of the organization of language, to provide tools and techniques for describing language data, and to examine various models of linguistic description. May count toward the major in Slavic (Russian) and Spanish.

LIN 4512. Introduction to Transformational Grammar (3). The purpose of this course is to expose students to the underlying principles of the transformational approach to syntax. Students are taught the mechanics of writing transformational rules. Other competing theories of the late 1960s are also discussed so that students can appreciate the strength and weakness of each theory.

LIN 4905r. Directed Individual Study (3). Students arrange with individual faculty members to undertake specialized study in areas outside of or in addition to the regular curriculum. May be repeated to a maximum of six (6) semester hours.

LIN 4930. Topics in Linguistics (3). Students arrange with individual faculty members to undertake study in areas outside the regular curriculum.

Portuguese (Brazilian)

Portuguese Language

POR 1120. Elementary Portuguese I (4). A first semester course in Portuguese for beginning students. This course will emphasize the four basic communicative skills of listening, reading, speaking and writing in a culturally authentic context. Basic grammar skills are also introduced.

POR 1121. Elementary Portuguese II (4). Prerequisite: POR 1120. A second semester course in Portuguese for beginning level students. This course will emphasize the four basic communicative skills of listening, reading, speaking, and writing in a culturally authentic context.

POR 2200. Intermediate Portuguese (4). Prerequisites: POR 1120, 1121. A third semester course in Portuguese for intermediate level students. This course will emphasize the four basic communicative skills of listening, reading, speaking, and writing in a culturally authentic context.

POR 3140. Portuguese for Advanced Students of Spanish I (3). Prerequisite: a 3000 level course in Spanish (completed or concurrent enrollment). An intensive course in Brazilian Portuguese for advanced students of Spanish. This course is based on positive transfer of applicable linguistic structures of Spanish, avoidance of negative transfer, and concentration on structures unique to Portuguese. Understanding, speaking, reading, and writing skills are practiced.

POR 3141. Portuguese for Advanced Students of Spanish II (3). Prerequisite: A 3000 level course in Spanish (completed or concurrent enrollment). A continuation of POR 3140: An intensive course in Brazilian Portuguese for advanced students of Spanish. This course is based on positive transfer of applicable linguistic structures of Spanish avoidance of negative transfer, and concentration on structures unique to Portuguese. Understanding, speaking, reading, and writing skills are practiced.

POR 4905r. Directed Individual Study (3). Students arrange with individual faculty members to undertake specialized study in areas outside of or in addition to the regular curriculum. May be repeated to a maximum of six (6) semester hours.

POR 4930r. Special Topics (3). Prerequisite: Divisional permission. Allows students to study literary topics of a special kind, depending on student interest and faculty expertise. May be repeated to a maximum of nine (9) semester hours.

PRT 3391. Brazilian Literature and Film in Translation (3). An overview of the works of prominent Brazilian writers from Machado de Assis to the present and films from *Black Orpheus* through Cinema Novo. Counts toward major or minor in Latin American and Caribbean Studies.

Russian

Russian Language

RUS 1120. Elementary Russian I (4). Introduction to basic Russian. Students with high school language experience or equivalent should consult the department for placement. May not be taken by native speakers. May not be taken concurrently with RUS 1121 and/or 2200.

RUS 1121. Elementary Russian II (4). Prerequisite: RUS 1120 or its equivalent. Continuation of RUS 1120. May not be taken by native speakers. May not be taken concurrently with RUS 1120 and/or 2200.

RUS 2200. Intermediate Russian (4). Prerequisite: RUS 1121 or equivalent. Grammar, reading, and conversation. May not be taken by native speakers. May not be taken concurrently with RUS 1120 and/or 1121.

RUS 3240. Reading and Conversation (3). Prerequisite: RUS 2200 or equivalent. Oral expression is emphasized.

RUS 3400. Conversation and Composition (3). Prerequisite: RUS 2200 or equivalent. Oral expression, writing practice, and review of grammar.

RUS 3420. Russian Grammar and Composition (3). Prerequisite: RUS 2200 or equivalent. Development of writing and grammar skills.

RUS 4410.* Advanced Russian Conversation (3). Prerequisite: RUS 3400. Styles and levels of oral expression on a wide range of topics.

RUS 4421.* Advanced Russian Grammar and Composition (3). Prerequisite: RUS 3420. Practical application of advanced language skills.

RUS 4780.* Phonetics (3). Prerequisite: RUS 2200 or consent of instructor. An understanding of the phonetic and phonemic structure of Russian with extensive oral practice.

RUS 4840.* History of the Russian Literary Language (3). Prerequisite: RUS 3420 or equivalent. The development of the phonological and grammatical systems from the earliest records to the present.

RUS 4905r. Directed Individual Study (3). Students arrange with individual faculty members to undertake specialized study in areas outside of or in addition to the regular curriculum.

RUS 4930r. Special Topics (3). May be repeated to a maximum of twelve (12) semester hours.

RUS 4935r. Honors Thesis (3). May be repeated to a maximum of six (6) semester hours, three (3) hours of which may be applied to the requirements for the major with permission of the department. All honors work is directed by the student's honors committee.

RUS 4942r. Internship in Applied Russian (1–6). (S/U grade only.) Prerequisite: Advanced standing in Russian. Provides academic credit for students working in governmental agencies or private business where students employ the foreign language. Departmental permission required. May be repeated to a maximum of six (6) semester hours.

Russian Courses in Translation

RUT 3110. Russian Literature in English Translation (3). Readings and discussion of major Russian literary works.

RUT 3500. Modern Russian Life (3). An overview of current social and cultural issues in Russian, including the legacy of the Soviet period, the relationship between literature and daily life, womens issues, ecology, mass media, and the efforts of the country to define itself in its new setting and role. No knowledge of Russian is required. May count toward the Slavic (Russian) major. Taught in English.

RUT 3800. Introductory Russian to English Translation (3). Essentials of translation techniques. Requires grade of B or better in RUS 2200 (or equivalent) or permission of the instructor.

RUT 3801r. Advanced Russian to English Translation (3). Prerequisite: Successful completion of RUS 3460 (or equivalent) or permission of the instructor. Practicum in translation of contemporary publicistic prose. May be repeated to a maximum of six (6) semester hours.

Russian Literature (Writing)

RUW 3100, 3101. Survey of Russian Literature I, II (3, 3). Prerequisite: RUS 2200 or equivalent.

RUW 3391r. Russian Cinema (3). Viewing and discussion of Soviet classics and contemporary films. Credit may be applicable to the Russian major. Knowledge of Russian recommended but not required. May be repeated when content varies to a maximum of six (6) semester hours.

RUW 4370. Russian Short Story and Povest (3). Prerequisite: RUW 3100, 3101, or equivalent.

RUW 4470r. Modern Russian Literature (3). Prerequisite: RUW 3100, 3101, or equivalent. May be repeated to a maximum of nine (9) semester hours.

RUW 5930r. Special Topics (3).

Serbo-Croatian

Serbo-Croatian Language

SEC 3131–3132. Accelerated Serbo-Croatian (three [3] hours each.) Prerequisite: SEC 3131 or equivalent for 3132. Study of the basic elements of conversational Serbo-Croatian. May not be taken by native speakers.

SEC 4905r. Directed Individual Study (3). Students arrange with individual faculty members to undertake specialized study in areas outside of or in addition to the regular curriculum.

Serbo-Croatian (Writings)

SCW 3101. Survey of Serbo-Croatian Literature (3). Readings in Serbo-Croatian literature, intensive discussion and composition on works read.

Slavic

SLL 4500. Slavic Culture and Civilization (3). Slavic culture and thought from earliest times to the modern era; intellectual currents, art, architecture, folklore, society. The main cultural forces that have helped shape thought, manners, and national consciousness among Slavic peoples.

SLL 4905r. Directed Individual Study (3). Students arrange with individual faculty members to undertake specialized study in areas outside of or in addition to the regular curriculum. May be repeated to a maximum of six (6) semester hours.

Spanish

Spanish Language

SPN 1120. Elementary Spanish I (4). This course is the first of a three-semester sequence of courses for students with no prior knowledge of the Spanish language, either at the high-school or native-speaker level. The course emphasizes oral communication and grammatical expertise, as well as listening comprehension in a culturally authentic context. Students will read short texts and write paragraphs and short compositions in Spanish. May not be taken concurrently with SPN 1121, 1130, and/or 2200. May not be taken by native speakers. Some sections may be computer-assisted.

SPN 1121. Elementary Spanish II (4). Prerequisite: SPN 1120 or its equivalent. This course is the second of a three-semester sequence of courses and is designed for students with 1120-level knowledge of Spanish. The course emphasizes oral communication and grammatical expertise, as well as listening comprehension in a culturally authentic context. Students will read short texts, poems, and write compositions in Spanish. May not be taken by native speakers. May not be taken concurrently with SPN 1120, 1130, and/or 2200.

SPN 1130. Comprehensive Elementary Spanish (4). This is a one-semester course designed for those students who have had at least two (2) years of high school Spanish (or the equivalent), but who do not feel ready to go directly into SPN 2200 Intermediate Spanish. May not be taken by native speakers. Students passing SPN 1130 with a grade of C or better are eligible to enroll in SPN 2200.

SPN 2160r. Spanish for Careers (4). Prerequisites: SPN 1120 and 1121, or 1130, or the permission of the instructor. This course introduces students to linguistic and cultural skills in Spanish needed for specific work environments such as law enforcement, education, or medicine. Course content varies with semester. May not be taken by native speakers. May be repeated as content varies to a maximum of eight (8) semester hours. With approval of the department, may fulfill the Arts and Sciences language requirement.

SPN 2200. Intermediate Spanish (4). Prerequisite: SPN 1121, 1130, or equivalent. This is the third in a three-semester sequence of courses, and is designed for students with 1121-level knowledge of Spanish. The course emphasizes oral communication and grammatical expertise, as well as listening comprehension in a culturally authentic context. Students will read short stories, poems, and articles, and will write extended compositions and papers in Spanish. May not be taken concurrently with SPN 1120, 1121, and/or 1130. May not be taken by native speakers.

SPN 2240. Intermediate Spanish II (3). Prerequisite: SPN 2200 or equivalent. This course completes the intermediate Spanish skills sequence and finishes the review of the grammar sequence begun in SPN 2200. Students deepen their functional skills in comprehending, speaking, reading and writing Spanish and gain an overview of Hispanic culture in various countries. May not be taken by native speakers.

SPN 3332. Communication in Language and Culture I (3). Prerequisite: SPN 2240 or permission of instructor. This course uses an integrated skills approach to develop an understanding of Hispanic culture and to extend the growth of communicative proficiency in Spanish.

SPN 3333. Communication in Language and Culture II (3). Prerequisite: SPN 3332 or permission of instructor. This course is the second semester of the integrated skills sequence. In this course, students will deepen their understanding of Hispanic culture and the development of communicative proficiency and accuracy in the language.

SPN 3350. Spanish for Heritage Speakers (3). This course offers intensive Spanish for heritage speakers who have had little or no formal training in the language. Writing skills are emphasized over oral communication.

SPN 3440. Language and Culture in Business (3). Corequisite: SPN 3333 or permission of instructor. This is an intermediate-level language course aimed at raising cross-cultural awareness in international business. It also is designed to better prepare students to meet the challenges of our global economy.

SPN 3510. Cultures of Iberia (3). Corequisite: SPN 3333 or permission of instructor. This course provides students with fundamental knowledge about the cultures and history of the Iberian peninsula in an effort to enhance their cultural and historical knowledge. This course also aims to improve their basic communicative skills in Spanish.

SPN 3520. Cultures of Latin America (3). Corequisite: SPN 3333 or permission of instructor. This course provides students with fundamental knowledge about the cultures and history of Latin America in an effort to enhance their cultural and historical knowledge. This course also aims to improve their basic communicative skills in Spanish.

SPN 4420.* Advanced Spanish Composition and Translation (3). Prerequisite: SPN 3333 or equivalent. Stresses composition in Spanish with less emphasis on translation from Spanish into English. For students with prior knowledge of essential points of Spanish grammar.

SPN 4440.* Business Writing in Spanish (3). Letter writing, business terminology, conducting business in the Hispanic world.

SPN 4540r. Regional Cultural Studies (3). Prerequisite: SPN 3333 or permission of instructor. This course provides students with exposure to texts and cultural productions from specific regions of Latin America, Spain or the Latino enclaves in the U.S. Texts may include historical documents, legends and myths, poetry, fiction, essays, or popular music. May be repeated to a maximum of six (6) semester hours.

SPN 4700.* Spanish Phonetics (3). Prerequisite: SPN 3333 or equivalent. Training in the production of acceptable speech sounds in Spanish and a knowledge of when to use those sounds (allophonic distribution). Class meets both in the classroom and in the language laboratory. The non-native speaker can profit most from this course.

SPN 4740. Hispanic Sociolinguistics (3). Prerequisite: SPN 3333 or permission of instructor. This course provides students with a cultural and linguistic awareness of the Spanish language and of the various and numerous societies in which it is spoken. Topics that relate to Spanish may include linguistic variation, language and gender, the sociology of language, the rights of linguistic minorities, language movements, and language policy.

SPN 4905r. Directed Individual Study in Hispanic Language (3). The approval of the faculty member, the divisional coordinator, the Associate Chair for Undergraduate Studies, and the department chair is required. The student and the faculty member will meet each week. May be repeated to a maximum of six (6) semester hours.

SPN 4930r. Studies in Hispanic Language (3). Prerequisite: Spanish majors and minors only with at least six (6) semester hours in Spanish at the 3000 or 4000 level or permission of the instructor. May be repeated when content varies for a maximum of six (6) semester hours.

SPN 4935r. Honors Thesis (3). May be repeated to a maximum of six (6) semester hours, three (3) hours of which may be applied to the requirements for the major with permission of the department. All honors work is directed by the student's honors committee.

SPN 4942r. Internship in Applied Spanish (1–6). (S/U grade only.) Prerequisite: Advanced standing in Spanish. Provides academic credit for students working in governmental agencies or private enterprise where students employ the foreign language. Departmental permission required. May be repeated to a maximum of six (6) semester hours.

Spanish Literature in Translation

SPT 3130. Latin American Literature in Translation (3). Reading and study of some of the outstanding modern prose writers of Latin America, such as Azuela, Carpentier, Borges, Rulfo, Fuentes, Garcia Marquez, Machado de Assis, and Amado. Does not count toward major or minor in Spanish. Taught in English.

Spanish Literature (Writings)

SPW 3030. Approaching Hispanic Literature (3). Corequisite: SPN 3332 or permission of instructor. This course is a multi-genre introduction to literary analysis. It seeks to further develop basic language and critical thinking skills, understanding of Hispanic cultures and interpretation of Hispanic literature.

SPW 3101. Survey of Spanish Literature (3). Prerequisite: SPN 3310. A survey of Spain's literary works from Romanticism to the present.

SPW 3103. Readings from Early Iberia (3). Prerequisite: SPW 3030 or permission of instructor. Through a variety of readings and written and oral activities, this course provides students with a fundamental knowledge of the critical issues related to the early Iberian peninsula, from approximately 1000 to 1700 A.D. Such topics may include medieval multiculturalism, the cultural role of the Church, and culture in an age of territorial expansion.

SPW 3104. Readings from Modern Spain (3). Prerequisite: SPW 3030 or permission of instructor. This course provides students, through a variety of readings and written and oral activities, with a fundamental knowledge of the critical issues related to modern Spain from 1700 to the present. Such topics may include gender issues, dictatorship and socialism, and Europeanization.

SPW 3132. Readings from Early Spanish America (3). Prerequisite: SPW 3030 or permission of instructor. Through a variety of readings and written and oral activities, this course provides students with knowledge about early Spanish America, from approximately 1492 to 1800. Topics may include the conquest, slavery, *mestizaje*, founding cultural institutions, and the aesthetics and ideologies of nation-building.

SPW 3391r. Hispanic Cinema (3). Study of the movements and directors of Hispanic cinema with emphasis on the postwar New Wave. May be repeated to a maximum of six (6) semester hours. May not be taken for major or minor literature credit. Taught in English.

SPW 3492. Readings from Modern Spanish America (3). Prerequisite: SPW 3030 or permission of instructor. Through a variety of readings and written and oral activities, this course provides students with knowledge about modern Spanish America, from 1800 to the present. Topics may include indigenous and Afro-Caribbean cultures, multiculturalism, revolutions, globalization and border issues.

SPW 4140r. The Poetics of Hispanic Love and Violence (3). Prerequisite: SPN 3333 or permission of instructor. This course explores poems and other forms of expression that address the complexities of the sentiments of love and violence in the manner that it has been expressed in Hispanic culture. It will introduce and engage these topics as they relate to issues of gender, national politics, and culture from Latin America and Spain. May be repeated to a maximum of six (6) semester hours.

SPW 4150r. Transatlantic Encounters (3). Prerequisite: SPN 3333 or permission of instructor. This course emphasizes the cultural and historical connection between Spanish America and Spain. Topics of study may include the subaltern in early Spain and Spanish America, nineteenth-century nation identities, and *Modernismo/Generacion del 98*. May be repeated to a maximum of six (6) semester hours.

SPW 4190r.* Special Topics in Hispanic Languages and Literature (3). Prerequisite: two SPW 3000 level courses or equivalent. Variable topics chosen from Spanish language movements, periods, figures, and problems. May be repeated to a maximum of six (6) semester hours.

SPW 4301r. Hispanic Culture and Performance (3). Prerequisite: SPN 3333 or permission of instructor. The study of dramatic works or performances from a Spanish-speaking region within a particular period, including its socio-historical, literary, biographical, and cultural contexts. Students may participate in a workshop production of the work(s) studied. May be repeated to a maximum of six (6) semester hours.

SPW 4481. Contemporary Spanish Women Writers (3). Prerequisite: two 3000-level literature courses. Course introduces the student to the works of 20th-century Spanish women writers and the critical attention they have received.

SPW 4491. Spanish-American Women Writers (3). Prerequisite: two 3000-level literature courses. The study of Spanish-American women writers, varying from year to year, focusing on prose fiction, non-fiction and/or drama. Supplementary readings from critical and theoretical works.

SPW 4770. Caribbean Literature (3). Prerequisite: SPN 3333 or permission of instructor. This course focuses on the reading, discussion and analysis of works by Hispanic Caribbean authors, with an emphasis on the history, cultural life and social conditions of Cuba, Puerto Rico, and the Dominican Republic as it is reflected in the literature.

SPW 4905r. Directed Individual Study in Hispanic Literature (3). The approval of the faculty member, the divisional coordinator, the Associate Chair for Undergraduate Studies and the department chair is required. The student and the faculty member will meet each week. May be repeated to a maximum of six (6) semester hours.

SPW 4930r. Studies in Hispanic Literature (3). Prerequisites: Spanish majors and minors only with at least six (6) semester hours in SPW courses at the 3000 or 4000 level or permission of the instructor. May be repeated when content varies for a total of six (6) semester hours.

Graduate Courses

MOTION PICTURE, TELEVISION, AND RECORDING ARTS

SCHOOL OF MOTION PICTURE, TELEVISION, AND RECORDING ARTS

Dean: Raymond Fielding; *Director:* Reb Braddock; *Professor:* Stowell; *Associate Professor:* Richard; *Filmmakers in Residence:* Allen, Braddock, Chase, Holland, Kaleko, Kiefer, Lottimer, Portman, Ruben; *Distinguished Visiting Filmmaker At Large:* A.C. Lyles; *Screenwriters in Residence:* Johnson, Long; *Visiting Assistant:* Ellison

The Florida State University School of Motion Picture, Television, and Recording Arts (the Film School) offers a bachelor of fine arts (BFA) and master of fine arts (MFA). The BFA combines schooling in filmmaking with solid grounding in liberal studies. The curriculum directs students through the program in such a way that they will begin learning the special language of film by making short 16mm silent films, progress to 16mm double system sound films, and culminate with a senior thesis film. The Film School funds all student production expenses, including those of the thesis films. Screenwriting, production, and film analysis are viewed as part of an integrated process. The goal of the program is to produce educated, literate, creative filmmakers; the focus of the program is on fictional narrative films. Undergraduate students in the BFA program will receive a well-rounded liberal arts education which includes writing courses. The major courses include producing, directing, screenwriting, editing, camera and lighting, sound, production management, film history, filmstyles and film aesthetics. Please consult the *Graduate Bulletin* for information regarding the MFA program.

The purpose of these curricula is to furnish the conceptual framework, the professional training, and the working environment for eventual participation in a profession that is a powerful influence in our culture. The goals of the School of Motion Picture, Television, and Recording Arts are to fully educate students and to help them become integral members of the academic community of The Florida State University, responsible members of the entertainment profession, and participants in a creative and artistic process.

The program in motion picture, television, and recording arts is under constant review and subject to change. For current information contact Reb Braddock, Director of the Undergraduate Film School.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years; they may also be completed after admission to the major.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

Motion Picture and TV Technology

1. FIL X401 History of Motion Picture I or FIL X400 History of Motion Picture.

2. FIL X100 Film and Television Writing or any general screen or script-writing course.

Requirements for a Major in Motion Picture, Television, and Recording Arts

This major emphasizes three areas: production skills, screenwriting, and interpretative analysis. Traditional classes will be supplemented with 1) problem-solving seminars simulating entertainment business dilemmas; 2) laboratory courses in production techniques; and 3) screenings and workshops conducted by active film professionals.

The degree will require completion of a minimum of one hundred twenty (120) semester hours. For a detailed listing of the required curriculum plan, visit the Film School website <http://filmschool.fsu.edu>.

Admission

This is a limited access program, therefore admission is selective and competitive. Approximately fifteen freshmen and fifteen transfer students are admitted each year as film students. A student seeking to enter the program must offer an acceptable grade point average (GPA) and be eligible for admission to FSU. Freshmen majors will not enroll in film major classes **prior** to their sophomore year in order to concentrate full-time on fulfilling liberal studies requirements. Summer enrollment of freshmen could be required in order to complete 75% of the liberal studies required prior to continuing in the fall as a sophomore. Admission into the film major as a transfer student requires that 75% of liberal studies requirements be completed by Fall admission. Applications must be made to The Florida State University Office of Admissions, as well as special application to The School of Motion Picture,

Television, and Recording Arts (available from the office of the Film School). All applicants must submit a 500 word essay describing their background, artistic experiences, creative influences, personal objectives, and future career goals, as well as a resume, two (2) letters of recommendation, transcripts from all high schools, colleges and universities attended, and SAT or ACT test scores. Deadline for application to the undergraduate program is January 31 for students seeking admission in the fall semester.

Grade Requirements

BFA students must maintain a “B” average in all major requirements.

Retention

All students must meet the University’s minimum retention standards. Additionally, continuation as a major in the Film School will depend on the development of each student’s talents, skills, professional discipline, and academic record. A student’s work and commitment are under continuous review, and any candidate who fails to maintain high standards will be dismissed from the program.

Probation and/or Dismissal

Film majors will adhere to the University Academic Honor System, Student Conduct Code, and Summons to Responsible Freedom.

At the end of each semester, the faculty and director will meet to discuss the work, behavior, grades and progress of the majors. Certain students will be notified of probation or dismissal by a letter stating their status, with an invitation to meet with the director. A student may be placed on probation or dismissal under the following circumstances:

1. Cumulative GPA falls below 3.0 in all major requirements resulting in a one semester probation. Students will be reinstated in good standing if the cumulative major GPA rises to 3.0 by the end of the following semester. Failure to raise the GPA will result in dismissal from the program. Attendance will be taken in all classes at the beginning of class. Anyone not in class at that time will be considered absent; anyone leaving class early may also be counted as absent. Approval of absences is up to the instructor and will require documentation to confirm the legitimacy of the absence;
2. Professional behavior is expected of film majors at all times. Therefore, behavior so negative, disruptive or destructive as to compromise the work of fellow students or the effectiveness of the faculty and/or inability to work positively in a collaborative environment shall constitute grounds for probation or immediate dismissal without any prior period of probation. Peer evaluations may be considered in this evaluation process. A student on probation will be reinstated in good standing if, in the judgment of the faculty and the director, behavioral problems have been corrected. A student’s failure to correct problems will result in dismissal from the program;

3. Any unauthorized use or possession, or willful destruction of Film School equipment, facilities, film stock or finished film will result in immediate notification of the proper authorities. The outcome of their decisions will determine the actions of the Film School with respect to the student(s) involved.

Liberal Studies Program

All undergraduates majoring in film are required to meet The Florida State University liberal studies requirements as specified in the “Undergraduate Degree Requirements” section of this *General Bulletin*. It is recommended students register for CHM 1020 Chemistry for Liberal Studies and PHY 1020 Fundamentals of Physics as electives or to fulfill the requirement in the natural science area of liberal studies. These courses benefit the student in preparation for sound and lighting courses.

Transfer Students

Fifteen transfer students will be accepted into the School of Motion Picture, Television, and Recording Arts for admission in the fall and they are required to have completed 75% of the liberal studies requirement prior to the fall semester. Applications must be made to The Florida State University Office of Admissions, as well as special application to the School of Motion Picture, Television, and Recording Arts (available from the office of the Film School). All applicants with an acceptable GPA must submit a 500 word essay describing their background, artistic experiences, creative influences, personal objectives, and future career goals, as well as a resume, two (2) letters of recommendation, transcripts from all high schools, colleges and universities attended, and SAT or ACT test scores. All application materials must be received by the School of Motion Picture, Television, and Recording Arts by January 31 for the applicant to be considered for admission the following fall semester. Transfer students must satisfy the same major requirements and curriculum as students who take all of their course work in the School of Motion Picture, Television, and Recording Arts.

Honors in the Major

The undergraduate Film School offers a program in honors in the major to encourage talented juniors and seniors to write a feature length screenplay (or undertake independent and original research) as part of the Bachelor of Fine Arts degree. For requirements and other information, see the “University Honors Program and Honor Societies” section of this *General Bulletin*.

Health Insurance

Students seeking degrees in certain majors, including film, assume any exposure to the particular hazards associated with that major. As

protection for our students, the Film School requires that majors present proof of health and accident insurance prior to registration in the fall semester each year. Students are expected to maintain this insurance throughout their enrollment in the Film School. Registration will be administratively canceled at the end of the second week of classes for any students failing to provide proof of insurance.

Film Studies Minor in the School of Motion Picture, Television, and Recording Arts

Director: Reb Braddock, Film School

The film studies minor will give students the opportunity to select a program of study that examines the many facets of American and international films. The interdisciplinary nature of the program allows students to experience different approaches to film study: film and cultural differences, basic film vocabulary, film history, film and social forces, film genres, film study theories, film directors, and film aesthetics.

Requirements for a Minor in Film Studies

The interdisciplinary minor requires the completion of fifteen (15) semester hours in courses approved for film studies. All students are required to take either FIL 2001 Introduction to Motion Picture and Television Appreciation or FIL 2000 Elements of Film. The remaining hours may be selected from the film studies offerings. Courses counted toward the film studies minor cannot be counted toward the major. For assistance in advisement, contact Meryl Warren, *A3111 University Center*.

Core Courses (One Required of all Minors)

FIL	2000	Elements of Film (3)
FIL	2001	Introduction to Motion Picture and Television Appreciation (3)

Other Film Studies Courses

ENG	3110	Film Genres (3)
ENG	3115	Film Theory and Criticism (3)
FIL	2400	History of Motion Pictures (3)
FIL	3106	Film and Television Writing (3)
FIL	3503	Contemporary Cinema (3)
FRW	3391r	French Cinema (3)

RUW 3391r Russian Cinema (3)
 SPW 3391r Hispanic Cinema (3)

Definition of Prefix

FIL — Film

Undergraduate Courses

FIL 2001. Introduction to Film (3). Introduction to the basic terminology, techniques, and contributions of film-making and critical analysis skills of film/video form and content.

FIL 2110. Screenwriting I (3). Prerequisite: Majors only. Introduction to the basic techniques of screenwriting and storyboarding. Exercises in story structure, dialogue, and character development. Introduction to screenwriting and storyboarding computer software.

FIL 2201. Filmmaking I (3). Prerequisite: Majors only. Provides a basic understanding of film production technology, equipment operation, terminology, and techniques.

FIL 2211. Film Editing (3). Prerequisite: Majors only. Analyzes, discusses and puts into practice the skills and techniques required to edit a narrative motion picture.

FIL 2291. Film Sound (3). Prerequisite: Majors only. Teaches the principles of sound and the basic practices involved in creating a motion picture sound track. Also covers the aesthetic use of sound in motion pictures.

FIL 2400. History of Motion Pictures (3). Prerequisite: Majors only. Overview of film as an industry, mass medium and art form.

FIL 3111. Screenwriting II (3). Prerequisite: Majors only. Development of sophisticated story ideas, treatments, character biographies, storyboards, step-outlines, first drafts, and revisions of both original ideas and adaptations.

FIL 3202. Filmmaking II (3). Prerequisite: Majors only. Provides understanding of objective oriented acting techniques and developing an effective method for working with actors in rehearsal and on set. Requires directing a short film project.

FIL 3231r. Documentary Filmmaking (1–6). Prerequisite: Majors only. View and discuss documentary films from various eras, countries, and points of view as a means of understanding personal aesthetic as a documentary filmmaker. Students plan, script, budget, shoot, edit and mix documentaries. May be repeated to a maximum of six (6) semester hours.

FIL 3251. Film Camera and Lighting (3). Prerequisite: Majors only. Provides a theoretical and practical knowledge of all aspects of cinematography cameras and lenses, filmstocks, exposure, lights, lighting and composition.

FIL 3502r. Film Styles (3–6). Prerequisite: Majors only. Analyzes motion picture form and content through the styles of filmmakers with emphasis on genres, national movements, and other topics of interest. May be repeated to a maximum of six (6) semester hours.

FIL 3932r. Special Topics (3–12). Prerequisite: Majors only. An analysis of specialized topics in motion pictures. May be repeated to a maximum of twelve (12) semester hours. May be repeated during the same semester.

FIL 3963. BFA Qualifying Exam (0). Prerequisite: Majors only. Evaluates the progress of the student and recommends continuance in the film school or directs the student toward other areas of study.

FIL 3971r. Thesis Film Support (2–12). Prerequisite: Majors only. Principles and responsibilities of grips, gaffers, assistant directors, assistant camerapersons, and production managers and performance of these responsibilities on the set of BFA thesis films. May be repeated to a maximum of twelve (12) semester hours.

FIL 4112. Screenwriting III (3). Prerequisite: Majors only. Development of thesis script story ideas, treatments, character biographies, storyboards, step-outline, first drafts, and revisions of both original ideas and adaptations.

FIL 4122. Feature Screenwriting: Development (3). Prerequisite: Majors only. Teaches the various techniques of scene breakdown, setting up, sequencing, character development and dialogue development. Also teaches rewriting techniques to strengthen first drafts.

FIL 4123. Feature Screenwriting (3). Prerequisite: Majors only. Teaches aspects of feature screenwriting format, pitching ideas, creating and developing character, story and dialogue.

FIL 4203r. Advanced Filmmaking (3–9). Prerequisite: Majors only. Advanced principles and practice of making a short, sync-sound, 16 mm film. May be repeated to a maximum of nine (9) semester hours.

FIL 4213. Production: Advanced Editing (3). Prerequisite: Majors only. Offers advanced study in film editing techniques and styles.

FIL 4253. Production: Advanced Cinematography (3). Prerequisite: Majors only. Introduces advanced lighting techniques and allows hands-on exercises stressing the creative use of lighting for mood and storytelling.

FIL 4292. Production: Advanced Sound (3). Prerequisite: Majors only. Course provides students a thorough understanding of digital sound recording, sound mixing and various stages of sound post production as it applies to 16mm filmmaking.

FIL 4501. Film Aesthetics (3). Prerequisite: Majors only. Analysis of film which attempts to answer three basic questions: 1) What is film? 2) How do we perceive film? 3) How is an aesthetic developed?

FIL 4602. Film Business Planning (3). Prerequisite: Majors only. Exposes students to current business trends and issues in the film industry; introduces case studies that examine all business aspects surrounding a feature film; introduces current readings on the film industry.

FIL 4603. Film Exhibition and Advertising (3). Prerequisite: Majors only. To provide background in the marketing, advertising and exhibition of film to the audiences of this product.

FIL 4604. Film Producing and Finance (3). Prerequisite: Majors only. An introduction to the techniques necessary to create a responsible business approach for the production of motion pictures and to create a greater individual awareness of the motion picture producer as a career.

FIL 4605. Film Law (3). Prerequisite: Majors only. Provides a working knowledge of the specialized concepts and vocabulary pertaining to entertainment-related forms of intellectual property and the contractual relationships necessary to finance, create, and license various forms of entertainment.

FIL 4905r. Directed Individual Study (1–3). (S/U grade only.) Prerequisites: Junior standing; majors only. May be repeated to a maximum of six (6) semester hours.

FIL 4910r. Application of Research and Creative Methods (1–3). (S/U grade only.) Prerequisites: Junior standing; majors only. Participation in a faculty or graduate student research and/or creative project. May be repeated to a maximum of six (6) semester hours.

FIL 4923r. Undergraduate Film Seminar (1–6). Prerequisite: Majors only. Development of a creative film project under the direction of a faculty member or industry professional in various areas. May be repeated to a maximum of six (6) semester hours.

FIL 4933. Professional Development (3). Prerequisite: Majors only. Course prepares students to enter the professional film work arena; addresses the search for employment within the film industry and the search for funds to produce independent work.

FIL 4940r. Application of Instruction Methods (1–3). (S/U grade only.) Prerequisite: Majors only. Participation in the instructional process under the strict supervision of a faculty member. May be repeated to a maximum of six (6) semester hours.

FIL 4945r. Professional Internship (3–12). (S/U grade only.) Prerequisite: Majors only. Apprenticeship experience with a company involved in film/video production, distribution, or exhibition. May be repeated to a maximum of twelve (12) semester hours.

FIL 4970r. Thesis Defense (0). (S/U grade only.) Prerequisite: Majors only. Presentation of senior thesis film to the faculty and student body for review and approval.

FIL 4972r. Thesis Film Production Management (3–6). Prerequisite: Majors only. Production management for BFA thesis films. May be repeated to a maximum of fifteen (15) semester hours.

FIL 4973r. Thesis Film (1–15). Prerequisite: Majors only. Study and practice of all the creative aspects of BFA thesis films. May be repeated to a maximum of fifteen (15) semester hours.

FIL 4975r. Undergraduate Honors Thesis (3–12). Prerequisites: Admission to undergraduate film school honors program; majors only. Student must complete a minimum of six (6) semester hours; may be repeated to a maximum of twelve (12) semester hours.

FIL 4976. Thesis Script Rewrite (3). Prerequisite: Majors only. Course trains one to articulate on paper an idea that is both discernible and visual in the form of a collection of interesting moments that add up to tell a story.

Graduate Courses

- FIL 5005. Introduction to the Motion Picture, Television, and Recording Arts Industry (6).
- FIL 5155L. Screenwriting 1: Techniques and Treatments (2–6).
- FIL 5156L. Screenwriting 2: Narrative Techniques (2–6).
- FIL 5157L. Screenwriting 3: Advanced Workshop (2–6).
- FIL 5158. Screenwriting IV: Television Workshop (3).
- FIL 5159. Screenwriting V: Motion Picture Workshop (3).
- FIL 5209L. Basic Film Production (2–6).
- FIL 5215L. Producing 1 (2).
- FIL 5216L. Producing 2 (2).
- FIL 5217r. Principles and Practice of Technical and Creative Support (3).
- FIL 5218r. Basic Video Production (3–6).
- FIL 5219. Practicum in Technical Support (3).
- FIL 5256L. Sound Workshop (2).
- FIL 5257L. Film Editing (2–4).
- FIL 5258. Production Design Workshop (3).
- FIL 5259L. Postproduction Sound Workshop (2).
- FIL 5265Lr. Directing Actors (2).
- FIL 5266r. Directing: Multicamera Workshop (3–9).
- FIL 5267Lr. Directing: Single-Camera Workshop (2).
- FIL 5268Lr. Advanced Directing (2).
- FIL 5278L. Camera and Light Mechanics (2–6).

FIL 5279L.	Lighting Workshop (2–6).
FIL 5285.	Intermediate Television Editing (3).
FIL 5286.	Advanced Television Editing (3).
FIL 5295.	Acting for the Camera (3).
FIL 5296.	Advanced Sound (2–6).
FIL 5415.	History and Criticism I (3).
FIL 5416.	History and Criticism II (3).
FIL 5505r.	Critical Studies in Film and Television (3).
FIL 5506.	Critical Methods in Motion Picture, Television, and Recording Arts (3).
FIL 5508.	Critical Methods of Film Analysis (3).
FIL 5509r.	Film Aesthetics (1).
FIL 5606.	Distribution and Financing Workshop (3).
FIL 5615Lr.	Advanced Workshop in Area of Specialization (2–12).
FIL 5616r.	Preproduction and Production Planning (3–12).

FIL 5617L.	Advanced Editing (2–6).
FIL 5705Lr.	Production Management (2).
FIL 5906r.	Directed Individual Study (3–12). (S/U grade only.)
FIL 5912r.	Supervised Research or Creative Activity (3). (S/U grade only.)
FIL 5921r.	Colloquium in Motion Picture, Television, and Recording Arts (3).
FIL 5930r.	Proseminar in Motion Picture, Television, and Recording Arts (1). (S/U grade only.)
FIL 5931r.	Special Topics in Motion Picture, Television, and Recording Arts (3–12).
FIL 5941r.	Supervised Teaching (3). (S/U grade only.)
FIL 5955r.	Apprenticeship (3–12). (S/U grade only.)
FIL 5962r.	MFA Qualifying Project (3–15).
FIL 5964.	MFA Qualifying Exam (0). (S/U grade only.)
FIL 5975r.	Thesis (3–12). (S/U grade only.)

FIL 5977r.	MFA Thesis Production (3–15). (S/U grade only.)

Program in MULTINATIONAL BUSINESS OPERATIONS

COLLEGE OF BUSINESS

Program Director: Gary Knight; *Professors:* Giunipero, Stepina; *Associate Professor:* Scott; *Assistant Professors:* Knight, Overby

The curriculum in international business leads to the development of critical thinking ability and analytical thinking skills pertaining to the issues that are faced by firms in the international marketplace, particularly those that relate to strategy formulation and implementation. As such, the international business curriculum furnishes students with the professional skills necessary to conduct international business operations.

The international business program builds upon the liberal studies program of the University and the general business requirements of the College of Business. Additional work in anthropology, economics, geography, modern languages, and political science, in particular, is encouraged.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. Specific prerequisites are required for admission into the upper-division program and must be completed by the student at either a community college or a state university prior to being admitted to this program. Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.

The following lists the common prerequisites or their substitutions necessary for admission into this upper-division degree program:

1. ACG X021 or ACG X001 and ACG X011;
2. ACG X071;
3. CGS X100*;
4. ECO X013;
5. ECO X023;
6. MAC X233 or MAC X230;
7. STA X023 or QMB X100 (students at Florida State University may substitute STA X014).

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Requirements for a Major in Multinational Business Operations

All students must complete 1) the University-wide baccalaureate degree requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*; 2) the State of Florida common prerequisites for multinational business operations majors; 3) the general business core requirements for multinational business operations majors; 4) the general business breadth requirements for multinational business operations majors; and 5) the major area requirements for multinational business operations majors.

Note: to be eligible to pursue a multinational business operations major, students must meet the admission requirements of the College of Business. These admission requirements are described in the "College of Business" section of this *General Bulletin*.

General Business Core Requirements

All multinational business operations majors must complete the following five (5) courses. A grade of "C–" or better must be earned in each course.

BUL	3310	The Legal Environment of Business (3).
FIN	3403	Financial Management of the Firm (3).
GEB	3213	Business Communications (3).
MAN	3240	Organizational Behavior (3).
MAR	3023	Basic Marketing Concepts (3).

General Business Breadth Requirements

All multinational business operations majors must complete five (5) courses as follows. Each course selected must be completed with a grade of "C–" or better.

FIN	3244	Financial Markets, Institutions, and International Finance Systems (3).
MAN	3600	Multinational Business Operations (3).
MAN	4720	Strategic Management and Business Policy (3).

Plus two (2) electives from the following:

HFT	3240	Managing Service Organizations (3).
ISM	3011	Introduction to Management Information Systems (3).
MAN	3504	Services Operations Management (3).
MAR	3700	Professional Selling (3).
QMB	3200	Quantitative Methods for Business Decisions (3).

REE 3043	Real Estate (3).
RMI 3011	Risk Management/Insurance (3).

Major Area Requirements

All multinational business operations majors must complete five (5) courses as listed below. A grade of "C-" or better must be earned in each course used to satisfy the multinational business operations major area requirements.

FIN 4604	Multinational Financial Management (3).
MAN 4605	Cross-Cultural Management (3).
MAN 4631	International Strategic Management (3).
MAR 4156	Multinational Marketing (3).

Plus one (1) elective from the following list of courses:

MAN 4610	Resources and World Enterprises (3).
MAN 4680r	Selected Topics in International Management (3).

Students may substitute an internationally oriented course outside the College of Business approved by the program director or a minor in a foreign language for the one elective above.

Definition of Prefixes

FIN	—	Finance
MAN	—	Management
MAR	—	Marketing

Undergraduate Courses

MAN 3600. Multinational Business Operations (3). Prerequisites: ECO 2013, 2023. Surveys the essentials of international production and trade and the problems managers encounter in international business environments.

Business Majors Only

FIN 4604. Multinational Financial Management (3). Prerequisites: FIN 3403, 3244. Introduces the student to financial management decision making in international environments through the use of cases, projects, and business games.

MAN 4605. Cross-Cultural Management (3). Prerequisite: MAN 3240. Course studies the unique issues of managing in non-native culture. Discusses management situations where members of more than one cultural group are included, along with strategies for maximum effectiveness in such situations.

MAN 4610. Resources and World Enterprises (3). Prerequisites: ECO 2013, 2023. Focuses on the economics and politics of world energy. Examines OPEC, the world oil industry, consuming countries, and alternative energy sources.

MAN 4631. International Strategic Management (3). Prerequisites: ECO 2013, 2023; MAN 3600. Course focuses on the international dimensions of strategic management, including environmental and political issues affecting global competition. Special emphasis is given to the multinational enterprise and strategic options available for effective worldwide competitive advantage.

MAN 4680r. Selected Topics in International Management (3). Prerequisites: ECO 2013, 2023; MAN 3600. Selected topics in international management. Topics will vary depending upon the instructor for the course. May be repeated to a maximum of six (6) semester hours.

MAR 4156. Multinational Marketing (3). Prerequisites: MAR 3023; MAN 3600. Introduces the student to marketing management decision making in international environments through the use of cases and/or business games.

MUSIC

SCHOOL OF MUSIC

Professors: Bridger, Capps, Chapo, Ciannella, Clarke, Corzine, Croft, Delp, Drew, Fowler, Gerber, Goff, Harsanyi, Hoekman, Kite-Powell, Kosloski, Kowalsky, Kubik, Louwenaar, Madsen, L. Mastrogiacomio, Meighan, Ohlsson, D. Olsen, S. Olsen, Piersol, D. Seaton, Shellahamer, Spencer, Spurgeon, Standley, Stroom, Thomas, Werdesheim, Wright, Zwilich; *Associate Professors:* Allen, Andrews, Bakan, Bowers, Brewer, Brown, Buggs, Clendinning, Dunnigan, Ebbers, Fisher, Ford-Kronholz, Georgiev, Gregory, Holzman, Keesecker, Kennedy, Lipovetsky, Mathes, Peterson, Pope, Riordan, Roman, Ryan, Stebleton, Wingate; *Assistant Professors:* Anderson, Bish, Fenton, Gaber, Jimenez, Jones, Jordan, Kelly, Punter, Van Weelden, Von Glahn; *Visiting Assistant Professors:* Killick, N. Mastrogiacomio, Ploumis-Devick, Vinayak, Wheeldon; *Program Directors:* Hodges, McArthur, G. Seaton; *Faculty Librarian:* Clark; *Assistant Librarian:* Markham

The School of Music has been a fully accredited member of the National Association of Schools of Music since 1930, and its degree requirements are in accordance with the latest published regulations of that association.

Undergraduate Degrees

The following are the undergraduate degrees offered by the School of Music:

- Performance
- Piano
- Piano pedagogy

- Organ
- Harpsichord
- Voice
- Strings (violin, viola, cello, double bass)
- Woodwinds, brasses, or percussion
- Harp
- Guitar (classical)
- Bachelor of music—music theatre
- Bachelor of music—composition
- Bachelor of music—theory
- Bachelor of music—history and literature
- Bachelor of music—therapy
- Bachelor of music education
 - Choral
 - Instrumental
 - General
- Bachelor of arts in music

In addition to the bachelor of music (BM) and bachelor of music education (BME) degrees, the bachelor of arts (BA) degree in music is offered through the School of Music. The School of Music also provides a music minor for the divisions of the University that require a minor course of study.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-divi-

sion program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

Music

1. MUT 1111*, MUT 1112*, MUT 2116*, MUT 2117*;
2. MUT 1241*, MUT 1242*, MUT 2246*, MUT 2247*;
3. One course (four [4] semester hours) with the MUN prefix;
4. Two to four (2–4) semester hours of MVx 1X1X;
5. Two to four (2–4) semester hours of MVx 2X2X;
6. Secondary Piano* (proficiency by examination).

Note: courses or requirements marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Music Composition

1. MUT 1111*, MUT 1112*, MUT 2116*, MUT 2117*;
2. MUT 1241*, MUT 1242*, MUT 2246*, MUT 2247*;
3. One course (four [4] semester hours) with the MUN prefix;
4. Two to four (2–4) semester hours of MVx 1X1X;
5. Two to four (2–4) semester hours of MVx 2X2X;

6. Secondary Piano* (proficiency by examination).

Note: courses or requirements marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Music History and Appreciation

1. MUT 1111*, MUT 1112*, MUT 2116*, MUT 2117*;

2. MUT 1241*, MUT 1242*, MUT 2246*, MUT 2247*;

3. One course (four [4] semester hours) with the MUN prefix;

4. Two to four (2–4) semester hours of MVx 1X1X;

5. Two to four (2–4) semester hours of MVx 2X2X;

6. Secondary Piano* (proficiency by examination).

Note: courses or requirements marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Music Teacher Education

1. EDF X005;

2. EDG 2701;

3. EME 2040;

4. Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:

a) A minimum of nine (9) semester hours in English, including writing, literature, and speech;

b) A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;

c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;

d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;

e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.

5. MUT 1111*, MUT 1112*, MUT 2116*, MUT 2117*;

6. MUT 1241*, MUT 1242*, MUT 2246*, MUT 2247*;

7. MVx X1X1 and MVx X2X2 (two to four [2–4] semester hours each);

8. One course (four [4] semester hours) with the MUN prefix;

9. Secondary Piano* (proficiency by examination).

Note: courses or requirements marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

At least one course taken to meet the natural science requirements in liberal studies must include a laboratory component.

Courses specified in categories 5–9 may be applied to corresponding requirements in liberal arts and sciences noted above.

Music Performance

1. MUT 1111*, MUT 1112*, MUT 2116*, MUT 2117*;

2. MUT 1241*, MUT 1242*, MUT 2246*, MUT 2247*;

3. One course (four [4] semester hours) with the MUN prefix;

4. Two to four (2–4) semester hours of MVx 1X1X;

5. Two to four (2–4) semester hours of MVx 2X2X;

6. Secondary Piano* (proficiency by examination).

Note: courses or requirements marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Music Theory

1. MUT 1111*, MUT 1112*, MUT 2116*, MUT 2117*;

2. MUT 1241*, MUT 1242*, MUT 2246*, MUT 2247*;

3. One course (four [4] semester hours) with the MUN prefix;

4. Two to four (2–4) semester hours of MVx 1X1X;

5. Two to four (2–4) semester hours of MVx 2X2X;

6. Secondary Piano* (proficiency by examination).

Note: courses or requirements marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Music Therapy

1. MUT 1111*, MUT 1112*, MUT 2116*, MUT 2117*;

2. MUT 1241*, MUT 1242*, MUT 2246*, MUT 2247*;

3. One course (four [4] semester hours) with the MUN prefix;

4. Two to six (2–6) semester hours of MVx 1X1X;

5. Two to six (2–6) semester hours of MVx 2X2X;

6. Secondary Piano* (proficiency by examination).

Note: courses or requirements marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Honors in the Major

The School of Music offers honors in the major to encourage talented students to undertake independent research. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Graduate Degrees

The following are the graduate degrees offered by the School of Music:

Master of music

Performance

Accompanying

Piano pedagogy

Choral conducting

Instrumental conducting

Jazz studies

Music theory

Composition

Musicology (both historical and ethnomusicology)

Opera

Music therapy

Master of music education

Master of arts in arts administration

Doctor of philosophy in music education

Doctor of philosophy in music

(specializations in historical musicology, ethnomusicology, and music theory)

Doctor of education in music education
 Doctor of music in composition
 Doctor of music in performance

The doctor of philosophy (PhD) degree in humanities with an emphasis in music is available from the College of Arts and Sciences.

For complete details of undergraduate degree requirements, plus a description of the school, its facilities, opportunities, and available financial assistance, refer to the "School of Music" section of this *General Bulletin*. Details of graduate programs can be found in the *Graduate Bulletin*.

Undergraduate Courses

Composition

MUC 1211. Composition (2). Prerequisites: MUT 1111, 1241; consent of composition faculty. For composition majors only. The elements of form and composition.

MUC 2221r. Composition (2). Prerequisite: MUC 1211. For composition majors only. Techniques of composition. May be repeated to a maximum of four (4) semester hours.

MUC 3231r. Composition (3). Prerequisites: MUC 2221r; consent of composition faculty. For composition majors only. May be repeated to a maximum of six (6) semester hours.

MUC 3610r. Film Scoring (3). Prerequisite: Permission of instructor. Techniques of film scoring and review of application requirements. May be repeated to a maximum of six (6) semester hours.

MUC 3620r. Jazz Composition (3). Techniques of creative jazz composition and literature. May be repeated to a maximum of (6) semester hours.

MUC 4103r. Composition (2). Prerequisite: MUT 2117. For non-composition majors only. May be repeated to a maximum of four (4) semester hours.

MUC 4241r. Composition (3). Prerequisite: MUC 3231r. For composition majors only. May be repeated to a maximum of six (6) semester hours.

Music Education

MUE 1090. Orientation to Music Education/Music Therapy (1). (S/U grade only.)

MUE 2040. Introduction to Teaching Music (3). Prerequisite: MV (B, J, K, O, S, V, W) 1310r–1319r series or consent of instructor. An introduction to music teaching and learning.

MUE 2290. Personal Growth in Music (2). Systematic study of the elements of music. For non-music majors.

MUE 2390. Teaching Music to Diverse Populations (3). An introduction to the learning problems and needs of special education, early intervention, at-risk and ESL children and those from diverse cultures, with applicable teaching methodology specific to music education curricula and goals.

MUE 2410. Choral Techniques for Non-Voice Principals (2). Prerequisite: Non-vocal music education majors, or consent of instructor. Corequisite: University Chorus (Summer) or approved substitute. Individual and group vocal techniques for the non-voice music education major.

MUE 2412. Introduction to Wind and Percussion Instruments (2). Methods of tone production and pedagogy of brass, woodwind, and percussion instruments. Required of music education choral majors.

MUE 2440. Introduction to String Instruments (2). Methods of tone production and pedagogy of string instruments. Required of music education choral majors.

MUE 3091. Orientation to Music Education/Therapy (1). (S/U grade only.) An orientation to the career options in music therapy.

MUE 3210. Elementary School Music (3). Prerequisite: MUE 2290 or consent of instructor. The teaching of music in the kindergarten and the first six grades. For non-music majors.

MUE 3311. Reading and Teaching Music: Elementary (3). This course seeks to introduce the prospective music teacher to a variety of skills and techniques necessary for successful teaching in elementary school settings.

MUE 3334. Assessment and Teaching Music: Secondary Schools (3). Prerequisite: MUE 3311. Designed for undergraduate music education majors planning to teach general music classes in secondary schools, this course provides knowledge and experiences aimed at improving the student's understanding, skills, and confidence as a teacher and musician.

MUE 3343. The Instrumental Program Strings and Orchestra (3). Required of music education instrumental majors.

MUE 3344. Teaching General Music K–12 (3). Prerequisites: MUE 3311, 3334. The rationale, sequence, and learning theory in relation to music for the general student (K–12).

MUE 3443. Introduction to Teaching String Instruments (3). Prerequisite: Admission to professional sequence, or consent of instructor. Teaching and performance techniques for string instruments.

MUE 3456. Techniques and Teaching: Oboe, Bassoon (2). The application of performance and teaching techniques and practices unique to oboe and bassoon.

MUE 3457. Techniques and Teaching: Flute, Clarinet, Saxophone (2). The application of performance and teaching techniques and practices unique to flute, clarinet, and saxophone.

MUE 3465. Techniques and Teaching: Brass Instruments (2). The application of performance and teaching techniques and practices unique to brasses.

MUE 3475. Techniques and Teaching: Percussion Instruments (2). The application of performance and teaching techniques and practices unique to percussion.

MUE 3491. Communication Skills for the Musician: Choral (2). This course introduces development of choral, verbal and non-verbal communication skills, conducting skills, and knowledge of choral literature.

MUE 3492. Choral Literature and Conducting (2). Concurrent registration in MUE 3495r is required.

MUE 3493. Communication Skills for the Musician: Instrumental (2). This course examines communication in the conducting of instrumental music in public schools. It emphasizes verbal and non-verbal rehearsal techniques and the application of pedagogical skills in the classroom.

MUE 3494. Band and Orchestral Literature and Conducting (2). Concurrent registration in MUE 3496r is required.

MUE 3495r–3496r. Music Education Laboratory (one [1] hour each.) Required of all music education majors. MUE 3495r and 3496r each may be repeated to a maximum of four (4) semester hours. 3495r Choral, 3496r Instrumental.

MUE 4044. Music Education in the American Society (3). This course analyzes the interaction of society, culture, and musical behavior with the activities, attitudes, and behaviors in the United States' school systems.

MUE 4342. The Instrumental Program in the Schools Band (2). Prerequisite: MUE 3343, 3494.

MUE 4391. Music in Special Education (3). Techniques of teaching music to children in special education programs. Open to music and non-music majors.

MUE 4392. Classroom Management, Safety, Law, and Ethics (3). This course examines the following issues: specific techniques in classroom management, discipline, crises prevention and intervention; techniques for providing a safe and positive classroom environment for all students; and knowledge concerning professional ethics and legal expectations.

MUE 4411. Choral Techniques (4). Prerequisite: MUE 3491–3492 or consent of instructor. Chorus and choral problems: organization, rehearsal, repertory, diction, intonation, tone quality, balance, blend, and style. Concurrent registration in MUE 3495r is required.

MUE 4433. Vocal Pedagogy in Music Education (2). Prerequisite: Junior standing in music education. A study of voice teaching methods for music education majors.

MUE 4480. Marching Band Techniques (1). The study of current marching band techniques, methods, and styles and their application to secondary public school music education programs.

MUE 4481. Jazz Ensemble Techniques (1). A course designed to study the implementation and administration of the jazz ensemble in the public school music program.

MUE 4690. Technology for the Music Classroom (3). Prerequisites: permission of instructor or placement in 2000-level courses. This course combines reading, discussion and hands-on projects to achieve an understanding of how computers work and how they can be incorporated effectively in the music classroom from K-12.

MUE 4940. Internship in Music (12). (S/U grade only.) Prerequisites: Senior standing, consent of instructor.

Conducting

MUG 3104. Conducting (1). Prerequisite: MUT 1112. The elements of conducting and rehearsal techniques.

MUG 4102. Advanced Conducting (2). Prerequisite: MUG 3104. Continued theory and practice of conducting.

Music History

MUH 2011. Introduction to Music History–Music Appreciation. 18th and 19th Centuries (3). For non-music majors. Meets liberal studies requirements in area IV. A survey of musical expression in relation to the background of the life and art that created it, encompassing the great periods of music history of the 18th and 19th centuries, composers and their musical masterpieces, styles, and forms.

MUH 2012. Music in Western Culture, 19th and 20th Centuries (3). For non-music majors. Meets liberal studies requirements in area IV. A survey of the music literature and composers of the 19th and 20th centuries. This course will explore music and its relation to the other arts, the historical events of the times, and the milieu in which the music literature was created.

MUH 2019. Modern Popular Music (3). A survey of the development of popular music from the 1950s to the present, examining both the music and the cultural, social, economic, technological, and political conditions surrounding that music.

MUH 2051, 2052. Music Cultures of the World I, II (3, 3). For non-music majors only. Meets the University multicultural component for the liberal studies requirements in cross-cultural studies.

MUH 2512, 2513. Music Cultures of the World I, II (2, 2). For music majors only.

MUH 3053. Minority Musics in North America (3). Studies of the diverse musics of North American minority groups, with an emphasis on Native American, African-American, Latin American, Asian, Jewish, and certain Euro-American traditions. Meets the University multicultural component for liberal studies requirements in diversity in Western culture.

MUH 3211. Survey of Music History I: Antiquity to 1750 (3). Prerequisites: MUM 2110; MUH 2512 or 2513. Required of music majors. Survey of music history from antiquity to 1750.

MUH 3212. Survey of Music History II: 1750 to Present (3). Prerequisite: MUH 3211. Required of music majors. Survey of music history from 1750 to the present.

MUH 4321. History of Music: Medieval (3). Prerequisites: MUH 3211, 3212; consent of instructor.

MUH 4331. History of Music: Renaissance (3). Prerequisites: MUH 3211, 3212; consent of instructor.

MUH 4341. History of Music: Baroque (3). Prerequisites: MUH 3211, 3212; consent of instructor.

MUH 4351. History of Music: Classical (3). Prerequisites: MUH 3211, 3212; consent of instructor.

MUH 4361. History of Music: 19th Century (3). Prerequisites: MUH 3211, 3212; consent of instructor.

MUH 4371. History of Music: 20th Century (3). Prerequisites: MUH 3211, 3212; consent of instructor.

MUH 4541. Music of Latin America I (3). A study of the diverse musical cultures of Latin America, including Native American, European, African, and Asian derived, and syncretic or mestizo forms.

MUH 4542. Music in Latin America II (3). A study of the religious and art music of Latin America from the Colonial Period to the present.

MUH 4543. Music in the Caribbean (3). A survey of the musics of the Caribbean Basin from Cuba to Trinidad-Tobago, the coastal regions of northern Venezuela and Colombia, and the eastern coasts of Central America and Mexico.

MUH 4571. Music of Indonesia (3). This course offers a survey of selected music cultures of Indonesia. The primary focus will be on gamelan music, especially that of Java and Bali. Popular and experimental Indonesian musical forms, as well as Indonesian-inspired music by Western composers, also will be investigated.

MUH 4572. Music of Japan (3). A study of the traditional music of Japan, emphasizing historical background and cultural contexts, instruments and ensembles, structures and styles, theatrical and dance forms, and contemporary music.

MUH 4582. Seminar in World Music Studies (3). The advanced study of contrasting music cultures from around the world, emphasizing both music as sound and music as culture.

MUH 4591. World Music Pedagogy (3). Prerequisites: MUH 2512, 4582. This course considers theory and practice of teaching undergraduate world music survey courses, including knowledge of and critical approaches to teaching materials in various media.

MUH 4630. Music in the United States (3). Prerequisites: MUH 3211, 3212; MUT 2117. A survey of musical activities in the United States.

MUH 4680. Introduction to Historical Musicology (3). An introduction to the history, scope, and sources of musicological research.

MUH 4681. Senior Seminar in Music History (3). Prerequisite: MUH 4680. Basic research experience in music history.

MUH 4801. History of Jazz I (1890–1950) (2). A study of the evolution of jazz, 1890–1950, including the study of ragtime, New Orleans, Chicago, pre-Swing, Swing, Be-Bop, and West Coast styles.

MUH 4802. History of Jazz II (1950 to the Present) (2). A study of the evolution of jazz, 1950 to the present, including the study of: Cool, Hard Bop, Free, Post Bop, and Pop-Jazz styles.

Music Literature

MUL 2110. Survey of Music Literature (2). Prerequisites: MUT 1111, 1112; or their equivalents. Required of music majors and minors.

MUL 3481. Keyboard Literature: Baroque–Early Classic (2). Required of piano and harpsichord performance majors.

MUL 3482. Keyboard Literature: Classic–Early Romantic (2). Required of piano performance majors.

MUL 3604. Vocal Solo Literature: German (2). Prerequisite: Junior standing. Required of voice performance majors.

MUL 4371. Music since World War II (3). Recent musical techniques and aesthetics as revealed in selected works.

MUL 4420. Chamber Music Literature for Strings (3). A study of chamber music literature for strings alone, strings with keyboard, and strings with other instruments.

MUL 4430. Guitar Literature I (2). A study of guitar literature from the Renaissance to the Pre-Classical period.

MUL 4431. Guitar Literature II (2). A study of guitar literature from the Classical period to the present.

MUL 4441–4442. Solo Music Literature Seminar: Winds (three [3] hours each.) 4441 Woodwinds, 4442 Brasses.

MUL 4483. Keyboard Literature: Romantic Period (2). Required of piano performance majors.

MUL 4484. Keyboard Literature: 20th Century (2). Required of piano performance majors.

MUL 4490. Survey of Organ Literature (1). A survey of the major schools of organ composition, with particular emphasis on the contribution of organ music to the liturgy of the Western church.

MUL 4600. Survey of Sacred Vocal Literature (1). A survey of the sacred vocal literature available for the liturgical year.

MUL 4605–4608. Vocal Solo Literature (two [2] hours each). Prerequisite: Junior standing. Required of voice performance majors. 4605 French; 4608 Contemporary Song.

MUL 4642. Survey of Sacred Choral Literature (1). A survey of sacred choral literature suitable for medium-size choirs in churches and synagogues, embracing Catholic, Protestant, or Jewish faiths.

MUL 4931r. Special Topics in Music Literature (1–3). The study of music literature. May be repeated to a maximum of twelve (12) semester hours.

Commercial Music

MUM 4210. Applied Piano Tuning (3). Prerequisite: permission of instructor. This course examines string vibration as it relates to applied piano tuning.

MUM 4211. Applied Piano Tuning II (3). Prerequisite: MUM 4210. This course examines tuning systems and temperaments appropriate for historical instruments and for the modern piano.

MUM 4220. Theory of Piano Technology I (2). Prerequisite: Sophomore standing or permission of instructor. History and fundamental principles of the modern mechanisms of the piano.

MUM 4221. Theory of Piano Technology II (2). Prerequisites: MUM 2250; permission of instructor. Introductory instruction in preparing a piano for concert performance, including tuning, voicing, and regulation.

MUM 4251. Piano Technology I. (3). Prerequisite: permission of instructor. This course is an introduction to the history of the piano, fundamental principles of the mechanisms of the modern piano, and construction techniques.

MUM 4252. Piano Technology II (3). Prerequisite: MUM 4251. Projects include highlighting beginning restoration techniques and introduction to action regulation.

MUM 4260. Organ Design and Maintenance (2). Prerequisite: Consent of instructor. Open to all upper-division organ majors and principals.

Ensembles

Note: all ensemble courses are repeatable.

MUN 2110r. Marching Chiefs (0–1). Prerequisite: By audition. Band experience in marching and concert for all University students. May be repeated to a maximum of four (4) semester hours.

MUN 2120r. Concert Band (0–1). Concert experience in a variety of literature for all University students. May be repeated to a maximum of four (4) semester hours.

MUN 2130r. Symphonic Band (0–1). Prerequisite: By audition. Concert experience in a wide variety of literature. May be repeated to a maximum of four (4) semester hours.

MUN 2140r. Wind Orchestra (0–1). Prerequisite: By audition. Professional-level performance in a wide variety of literature. May be repeated to a maximum of four (4) semester hours.

MUN 2210r. University Symphony (0–1). Prerequisite: By audition. The study and performance of works representative of a broad spectrum of orchestral literature. Participation by string majors required. May be repeated to a maximum of four (4) semester hours.

MUN 2220r. Chamber Orchestra (0–1). Prerequisite: By audition. The study and performance of works suitable for chamber orchestra. Open to selected undergraduate students. May be repeated to a maximum of four (4) semester hours.

MUN 2230r. Opera Orchestra (0–1). Prerequisite: By audition. The study and performance of works drawn from grand opera, operettas, and musicals. May be repeated to a maximum of four (4) semester hours.

MUN 2310r. University Singers (0–1). Prerequisite: By audition. The study and performance of works representative of a wide spectrum of choral literature. Open to all University students. May be repeated to a maximum of four (4) semester hours.

MUN 2311r. Choral Union (0–1). The reading, study, and performance of choral repertoire for mixed voices. Open to all University students. May be repeated to a maximum of four (4) semester hours.

MUN 2320r. Women's Glee Club (0–1). The study and performance of representative choral works for women's voices. Open to all women enrolled in the University. May be repeated to a maximum of four (4) semester hours.

MUN 2330r. Men's Glee Club (Collegians) (0–1). The study and performance of representative choral works for men's voices. Open to all men enrolled in the University. May be repeated to a maximum of four (4) semester hours.

MUN 2350r. Opera Chorus (0–1). Prerequisite: By audition. The study and performance of works drawn from grand opera, operettas, and musicals. Productions are presented in costume and makeup. May be repeated to a maximum of four (4) semester hours.

MUN 2390r. University Chorale (0–1). The study and performance of works representative of a wide spectrum of choral literature for mixed voices. Open to all University students except voice performance majors. May be repeated to a maximum of four (4) semester hours.

MUN 2420r. Woodwind Ensemble (0–1). Prerequisite: Permission of instructor. The study and performance of ensemble literature for woodwinds. May be repeated to a maximum of four (4) semester hours.

MUN 2430r. Brass Ensemble (0–1). Prerequisite: Permission of instructor. The study and performance of ensemble literature for brasses. May be repeated to a maximum of four (4) semester hours.

MUN 2440r. Percussion Ensemble (0–1). Prerequisite: Permission of instructor. The study and performance of ensemble literature for percussion. May be repeated to a maximum of four (4) semester hours.

MUN 2451r. Duo Piano (1). Prerequisite: Permission of instructor. The study and performance of duo piano and piano duet literature. May be repeated to a maximum of four (4) semester hours.

MUN 2460r. Chamber Music (0–1). Prerequisite: Permission of instructor. The study and performance of vocal and/or instrumental ensemble literature. May be repeated to a maximum of four (4) semester hours.

MUN 2470r. Collegium Musicum (0–1). Prerequisite: Permission of instructor. The study and performance of music of the Middle Ages and Renaissance periods, with emphasis on historical validity, technical proficiency, and expressive musicianship. May be repeated to a maximum of four (4) semester hours.

MUN 2471r. Baroque Ensemble (0–1). Prerequisite: Consent of instructor. May be repeated to a maximum of four (4) semester hours.

MUN 2480r. Guitar Ensemble (0–1). Prerequisite: Permission of instructor. The study and performance of ensemble literature for guitar. May be repeated to a maximum of four (4) semester hours.

MUN 2491r. World Music Ensemble (0–1). Prerequisite: Permission of instructor. May be repeated to a maximum of four (4) semester hours.

MUN 2510r. Piano Vocal/Instrumental Accompanying (0–1). May be repeated to a maximum of four (4) semester hours.

MUN 2710r. Jazz Ensemble (0–1). Prerequisite: By audition. The study and performance of jazz band literature. May be repeated to a maximum of four (4) semester hours.

MUN 2720r. Jazz-Pop Ensemble (0–1). Prerequisite: By audition. The study and performance of jazz and popular vocal music. Ensemble may include choreography, performance with larger ensembles, and off-campus concerts. May be repeated to a maximum of four (4) semester hours.

MUN 4113r. Marching Chiefs (0–1). Prerequisite: By audition. Marching band experience open to all University students with prior marching band experience. May be repeated to a maximum of four (4) semester hours.

MUN 4123r. Concert Band (0–1). Concert experience in a variety of literature for all University students. May be repeated to a maximum of four (4) semester hours.

MUN 4133r. Symphonic Band (0–1). Prerequisite: By audition. Concert experience in a wide variety of literature. May be repeated to a maximum of four (4) semester hours.

MUN 4143r. Wind Orchestra (0–1). Prerequisite: By audition. Professional-level performance in a wide variety of literature. May be repeated to a maximum of four (4) semester hours.

MUN 4144r. Chamber Winds (0–1). Professional-level performance in a wide variety of wind-oriented chamber music. Open to graduate students and selected upper-level undergraduate students. May be repeated to a maximum of four (4) semester hours.

MUN 4213r. University Symphony (0–1). Prerequisite: By audition. The study and performance of works representative of a broad spectrum of orchestral literature. Participation by string majors required. May be repeated to a maximum of four (4) semester hours.

MUN 4223r. Chamber Orchestra (0–1). Prerequisite: By audition. The study and performance of works suitable for chamber orchestra. Open to selected undergraduate students. May be repeated to a maximum of four (4) semester hours.

MUN 4233r. Opera Orchestra (0–1). Prerequisite: By audition. The study and performance of works drawn from grand opera, operettas, and musicals. May be repeated to a maximum of four (4) semester hours.

MUN 4313r. University Singers (0–1). Prerequisite: By audition. The study and performance of works representative of a wide spectrum of choral literature. Open to all University students. May be repeated to a maximum of four (4) semester hours.

MUN 4314r. Choral Union (0–1). The reading, study, and performance of choral repertoire for mixed voices. Open to all University students. May be repeated to a maximum of four (4) semester hours.

MUN 4323r. Women's Glee Club (0–1). The study and performance of representative choral works for women's voices. Open to all women enrolled in the University. May be repeated to a maximum of four (4) semester hours.

MUN 4333r. Men Glee Club (Collegians) (0–1). The study and performance of representative choral works for men's voices. Open to all men enrolled in the University. May be repeated to a maximum of four (4) semester hours.

MUN 4343r. Chamber Chorus (0–1). Prerequisite: By audition. The study and performance of accompanied and a cappella works suitable for a 24–30 voice mixed chorus. May be repeated to a maximum of four (4) semester hours.

MUN 4353r. Opera Chorus (0–1). Prerequisite: By audition. The study and performance of works drawn from grand opera, operettas, and musicals. Productions are presented in costume and makeup. May be repeated to a maximum of four (4) semester hours.

MUN 4363r. Madrigal Singers (0–1). Prerequisite: By audition. The study and performance of sacred and secular chamber music of the 16th and 17th centuries and of contemporary works suitable for a small group of singers. May be repeated to a maximum of four (4) semester hours.

MUN 4393r. University Chorale (0–1). The study and performance of works representative of a wide spectrum of choral literature for mixed voices. Open to all University students except voice performance majors. May be repeated to a maximum of four (4) semester hours.

MUN 4413r. String Ensemble (0–1). Prerequisites: By audition and/or consent of instructor. The study and performance of works for string ensemble. May be repeated to a maximum of four (4) semester hours.

MUN 4423r. Woodwind Ensemble (0–1). Prerequisite: Permission of instructor. The study and performance of ensemble literature for woodwinds. May be repeated to a maximum of four (4) semester hours.

MUN 4433r. Brass Ensemble (0–1). Prerequisite: Permission of instructor. The study and performance of ensemble literature for brasses. May be repeated to a maximum of four (4) semester hours.

MUN 4443r. Percussion Ensemble (0–1). Prerequisite: Permission of instructor. The study and performance of ensemble literature for percussion. May be repeated to a maximum of four (4) semester hours.

MUN 4454r. Duo Piano (1). Prerequisite: Permission of instructor. The study and performance of duo piano and piano duet literature. May be repeated to a maximum of four (4) semester hours.

MUN 4463r. Chamber Music (0–1). Prerequisite: Permission of instructor. The study and performance of vocal and/or instrumental ensemble literature. May be repeated to a maximum of four (4) semester hours.

MUN 4473r. Collegium Musicum (0–1). Prerequisite: Permission of instructor. The study and performance of music of the Middle Ages and Renaissance periods, with emphasis on historical validity, technical proficiency, and expressive musicianship. May be repeated to a maximum of four (4) semester hours.

MUN 4474r. Baroque Ensemble (0–1). Prerequisite: Consent of instructor. May be repeated to a maximum of four (4) semester hours.

MUN 4483r. Guitar Ensemble (0–1). Prerequisite: Permission of instructor. The study and performance of ensemble literature for guitar. May be repeated to a maximum of four (4) semester hours.

MUN 4494r. World Music Ensemble (0–1). Prerequisite: Permission of instructor. May be repeated to a maximum of four (4) semester hours.

MUN 4513r. Piano Vocal/Instrumental Accompanying (0–1). May be repeated to a maximum of four (4) semester hours.

MUN 4713r. Jazz Ensemble (0–1). Prerequisite: By audition. The study and performance of jazz band literature. May be repeated to a maximum of four (4) semester hours.

MUN 4723r. Jazz-Pop Ensemble (0–1). Prerequisite: By audition. The study and performance of jazz and popular vocal music. Ensemble may include choreography, performance with larger ensembles, and off-campus concerts. May be repeated to a maximum of four (4) semester hours.

Opera/Music Theatre

MUO 3503r. Opera Workshop (2). Prerequisite: Consent of instructor. The study of all phases of operatic production, with emphasis on and participation in staged operatic excerpts. May be repeated to a maximum of four (4) semester hours.

MUO 4006r. Music Theatre Workshop (2). Prerequisites: Music theatre major and permission of instructor. Provides opportunities for upper-division music theatre students to synthesize and refine advanced music theatre performance skills, including advanced acting, auditioning, movement, and dance. May be repeated to a maximum of eight (8) semester hours.

MUO 4451r. Performance of Stage Role (1–2). Prerequisite: Audition. May be repeated to a maximum of eight (8) semester hours.

MUO 4502r. Opera Workshop (2). The study of all phases of operatic production, with emphasis on and participation in staged operatic excerpts. May be repeated to a maximum of four (4) semester hours.

Church Music

MUR 4201. Hymnology (2). A practical and historical study of the Church's song.

MUR 4411. Organ History and Literature to the 18th Century (2). The organ and its music from the Middle Ages to the end of the 17th century.

MUR 4412. Organ History and Literature: 18th–20th Centuries (2). The organ and its music from the time of J.S. Bach to the present day.

Music

MUS 1010r. Student Recital (0). (S/U grade only.) Required of all undergraduate music majors. Unlimited repeatability.

MUS 1710. First Year Experience in Music (0). An introductory course for all first-year music students to introduce them to selected resources in the Warren D. Allen Music Library, the online search capabilities of WebLuis and FirstSearch, and the research activities of faculty from the School of Music.

MUS 2360. Introduction to Technology in Music (1). Prerequisites: MUT 1112 or equivalent; sophomore standing. Introductory survey of computer technology in music, including hardware, software, computer-based instruction, multimedia and internet.

MUS 3320. Contemporary Media (3). Understanding the world of commercial music and techniques in personal marketability.

MUS 3340. Music Instrument Digital Interface (3). Develop techniques in electronic music composition and all aspects of MIDI.

MUS 3341r. Laboratory for Music Instrument Digital Interface (2). Laboratory application of MUS 3340. May be repeated to a maximum of six (6) semester hours.

MUS 3500. Seminar in Music Technology (2). Practical and theoretical issues in music technology: purchasing and evaluating computer music systems, music hardware and software issues, copyrights and ethics in technology, historical contexts, societal and educational issues, future directions in computers and music, and other issues.

MUS 3530. Beginning C Computer Programming Techniques for Musicians (3). Introduction to microcomputer-based interactive graphics programming in the C language, including the designing and implementation of music computer programs.

MUS 3531. Multimedia for Musicians (3). Prerequisite: MUS 3500 or 3530 or permission of instructor. Provides students with a basic knowledge of multimedia hardware and software systems, particularly as they relate to music. Students will develop multimedia projects. May be repeated to a maximum of six (6) semester hours.

MUS 3533r. Computers in Music Design Seminar (3). Prerequisite: MUS 3531. Discussions and experiences in music instructional design. May be repeated to a maximum of six (6) semester hours.

MUS 3540. Electronics for Musicians (3). Prerequisite: MUS 3500. Basic concepts and practical experiences in digital and analog electronics for musicians.

MUS 3541. Digital Music Synthesis I (3). Prerequisite: Permission of instructor. This course will provide students with basic theory and history of sound, knowledge of analog and digital sound recording and manipulation techniques, and an introduction to the art of electronic music.

MUS 3542. Digital Music Synthesis II (3). Prerequisite: MUS 3541. This course will provide students with basic knowledge of both digital and analog sound distortion and synthesis and resynthesis techniques and will allow them to explore the technology and art of digital music production.

MUS 3932r. Computer Music Project (1). Prerequisite: Permission of instructor; students must first complete all courses in the Certificate in Computer Music Program (or equivalent). The development of computer-based hardware and/or software projects in music technology. May be repeated to a maximum of three (3) semester hours.

MUS 3934r. Special Topics in Music (1–3). Prerequisite: Consent of instructor. May be repeated to a maximum of nine (9) semester hours.

MUS 3942r. Music Peer Advisement Practicum (0). (S/U grade only.) Introduction to leadership skills necessary for advising and counseling in the School of Music. May be repeated to a maximum of four (4) times.

MUS 4221. French Language and Diction for Singers (3). Prerequisite: FRE 1120. This course is the study of French diction and continuation of grammar studies from FRE 1120. The focus is on proper pronunciation of the French language and on grammar and vocabulary necessary for translating texts of French melodies and operas.

MUS 4231. German Language and Diction for Singers (3). Prerequisite: GER 1120. This course is the study of German diction and continuation of grammar studies from GER 1120. The focus is on proper pronunciation of the German language and on grammar and vocabulary necessary for translating texts of German Lieder and operas.

MUS 4241. Italian Language and Diction for Singers (3). Prerequisite: ITA 1120. This course is the study of Italian diction and continuation of grammar studies from ITA 1120. The focus is on proper pronunciation of the Italian language and on grammar and vocabulary necessary for translating texts of Italian songs and operas.

MUS 4611. Psychology of Music Survey (3). Prerequisite: Basic course in psychology. Basic study of acoustics, the ear and hearing, musical systems, and the psycho-socio-physiological processes involved in musical behavior.

MUS 4612. Psychology of Music Learning (3). Prerequisite: MUS 4611. Consideration of applied research methods in psychology of music through examination of selected research studies and behavioral projects.

MUS 4743. Writing for Musicians (2). Experience in types of writing that are particularly useful to musicians: analyses, program notes, performance reviews, and research paper.

MUS 4904r. Honors Study (1–3). Prerequisite: Consent of instructor. May be repeated to a maximum of six (6) semester hours.

MUS 4905r. Directed Individual Study (1–3). Prerequisite: Consent of instructor. May be repeated to a maximum of (9) semester hours.

MUS 4928r. Workshop in Music (2–6). Techniques in instruction and administration of music programs. Unlimited repeatability as long as the subject matter changes.

MUS 4936r. Senior Tutorial in Music (1–3). (S/U grade only.) Prerequisite: Upper division music majors only. Selected topics in music. May be repeated to a maximum of six (6) semester hours.

MUS 4970r. Senior Project/Thesis/Recital (2). (S/U grade only.) Prerequisites: Senior standing, consent of instructor, and, for students performing a recital, completion by jury of MV_3000 level applied music. May be repeated to a maximum of four (4) semester hours.

Music Theory

MUT 1001. Fundamentals of Music Theory (3). An introductory course that covers the rudimentary fundamentals of music theory, including the basic properties of notation, scales, intervals, triads, and rhythmic notation.

MUT 1011. Music Theory for the Non-Music Major (3). A practical, analytical, and performance-oriented application of the fundamental materials of music theory.

Meets liberal studies requirement in area IV. Not open to students who have successfully completed one (1) or more semesters of music theory.

MUT 1111. Music Theory I (3). The materials and structures of music.

MUT 1112. Music Theory II (3). Prerequisite: MUT 1111. The materials and structures of music.

MUT 1241. Sight Singing and Ear Training I (1). The development of skills in sight singing and ear training.

MUT 1242. Sight Singing and Ear Training II (1). Prerequisite: MUT 1241. The development of skills in sight singing and ear training.

MUT 2116. Music Theory III (3). Prerequisite: MUT 1112. The materials and structures of music.

MUT 2117. Music Theory IV (3). Prerequisite: MUT 2116. The materials and structures of music.

MUT 2246. Sight Singing and Ear Training III (1). Prerequisite: MUT 1242. The development of skills in sight singing and ear training.

MUT 2247. Sight Singing and Ear Training IV (1). Prerequisite: MUT 2246. The development of skills in sight singing and ear training.

MUT 2641r. Jazz Improvisation I (1). Skills in beginning jazz improvisation. May be repeated to a maximum of three (3) semester hours.

MUT 2642r. Jazz Improvisation II (1). Knowledge and technical skills in jazz improvisation. May be repeated to a maximum of three (3) semester hours.

MUT 3353. Jazz Theory/Arranging I (3). Prerequisites: MUT 2117 and 2247. A course designed to promote skills in arranging for the jazz ensemble.

MUT 3354. Jazz Theory/Arranging II (3). Prerequisite: MUT 3353 or consent of instructor. Advanced skills in arranging for the jazz ensemble.

MUT 3421–3422. 18th-Century Counterpoint (two [2] hours each). Prerequisite: MUT 2117 and 2247. The study of contrapuntal techniques of the 18th century.

MUT 3541. Form and Style: Classic (3). Prerequisites: MUT 2117 and 2247. The study of the larger forms and procedures as expressed in the musical language of the Classic period.

MUT 3551. 19th-Century Styles (3). Prerequisites: MUT 2117 and 2247. Stylistic studies of 19th-century music.

MUT 3571. 20th-Century Styles (3). Prerequisites: MUT 2117 and 2247. Stylistic studies of 20th-century music.

MUT 3641r. Jazz Improvisation I (1). Prerequisite: Music reading is required. Skills in beginning jazz improvisation. May be repeated to a maximum of three (3) semester hours.

MUT 3642r. Jazz Improvisation II (1). Prerequisite: MUT 3641r or consent of instructor. Advanced skills in jazz improvisation. May be repeated to a maximum of three (3) semester hours.

MUT 4321. Composing and Arranging for Wind Band (3). Prerequisite: Junior standing.

MUT 4411. 16th-Century Counterpoint (3). Prerequisites: MUT 2117 and 2247. The study of contrapuntal techniques of the 16th century.

Music Therapy

MUY 3601. Music Recreation Techniques (3). Prerequisite: Class guitar (MVS 1116) or consent of instructor.

MUY 4401. Music Therapy: Methods and Practicum I (3). Prerequisites: Senior standing in music therapy, completion of MUS 4612; or consent of instructor.

MUY 4402. Music Therapy: Methods and Practicum II (3). Prerequisite: MUY 4401. The applications of music therapy in all fields of health, corrections, and special education.

MUY 4940r. Clinical Internship in Music Therapy (1–12). (S/U grade only.) Prerequisite: Completion of all course work in music therapy. Six-month resident internship in an affiliated, approved, clinical center. May be repeated once only and to a maximum of twenty (20) semester hours.

Applied Music

MV(B, J, K, O, P, S, V, W) 1010r–1019r. Applied Music (two [2] hours each). Private instruction. For students preparing for freshman level of applied music. With the exception of MVO 1010, 2020, 3030, and 4040, each course may be repeated to a maximum of four (4) semester hours. Credit earned in the MV(B, J, K, O, P, S, V, W) 1011r–1019r series will not apply to the requirement of the major or principal instrument. (See specific requirements.) Credit may be modified to one (1) hour for all instruments.

MVB 1011r.	App Mus Prep, Trumpet
MVB 1012r.	App Mus Prep, French Horn
MVB 1013r.	App Mus Prep, Trombone
MVB 1014r.	App Mus Prep, Baritone Horn
MVB 1015r.	App Mus Prep, Tuba
MVJ 1010r.	App Mus Prep, Piano, Jazz
MVJ 1011r.	App Mus Prep, Voice, Jazz
MVJ 1012r.	App Mus Prep, Violin, Jazz
MVJ 1013r.	App Mus Prep, Guitar, Jazz
MVJ 1014r.	App Mus Prep, Bass, Jazz
MVJ 1015r.	App Mus Prep, Flute, Jazz
MVJ 1016r.	App Mus Prep, Saxophone, Jazz
MVJ 1017r.	App Mus Prep, Trumpet, Jazz
MVJ 1018r.	App Mus Prep, Trombone, Jazz
MVJ 1019r.	App Mus Prep, Percussion, Jazz
MVK 1011r.	App Mus Prep, Piano
MVK 1013r.	App Mus Prep, Organ
MVO 1010r.	Modified Credit, All Instruments (1–2).
MVP 1011r.	App Mus Prep, Percussion
MVS 1011r.	App Mus Prep, Violin
MVS 1012r.	App Mus Prep, Viola
MVS 1013r.	App Mus Prep, Violoncello
MVS 1014r.	App Mus Prep, Double Bass
MVS 1015r.	App Mus Prep, Harp
MVS 1016r.	App Mus Prep, Guitar
MVV 1011r.	App Mus Prep, Voice
MVW 1011r.	App Mus Prep, Flute
MVW 1012r.	App Mus Prep, Oboe
MVW 1013r.	App Mus Prep, Clarinet
MVW 1014r.	App Mus Prep, Bassoon

MVW 1015r. App Mus Prep, Saxophone

MVO 1010r–4040r Undergraduate Coaching (one to two [1–2] hours each). All instruments. Prin only. May be repeated to a maximum of four (4) semester hours.

MVO 1010r.	App Mus Undergraduate Coaching.
MVO 2020r.	App Mus Undergraduate Coaching.
MVO 3030r.	App Mus Undergraduate Coaching.
MVO 4040r.	App Mus Undergraduate Coaching.

MVK 1111r. Class Piano (1). Prerequisites: Audition, permission of coordinator of class piano. Class instruction. For music majors other than keyboard principals and performance majors. Elementary keyboard techniques and musicianship. May be repeated to a maximum of two (2) semester hours.

MVV 1111. Class Voice (1). Prerequisite: Consent of coordinator of class voice. Class instruction in the fundamentals of voice production. Elementary level.

MVS 1116. Beginning Class Guitar (1). For beginning guitar students. Emphasis on music reading and elementary techniques.

MV(B, H, K, O, P, S, V, W) 1210r–1219r. Applied Music Secondary (two [2] hours each). Private instruction. For students whose curriculum requires study of a secondary instrument. Each course may be repeated to a maximum of four (4) semester hours. (See curricular regulations.) Credit may be modified by electing MVO 1210r (1), all instruments. All MVH courses may be taken for one to two (1–2) credit hours.

MVB 1211r.	App Mus Sec, Trumpet
MVB 1212r.	App Mus Sec, French Horn
MVB 1213r.	App Mus Sec, Trombone
MVB 1214r.	App Mus Sec, Baritone Horn
MVB 1215r.	App Mus Sec, Tuba
MVH 1210r.	App Mus Sec, Historical Instruments (1–2).
MVH 1211r.	App Mus Sec, Cupped Mouthpieces (1–2).
MVH 1212r.	App Mus Sec, Open Reeds (1–2).
MVH 1213r.	App Mus Sec, Capped Reeds (1–2).
MVH 1214r.	App Mus Sec, Recorder (1–2).
MVH 1215r.	App Mus Sec, Flute (1–2).
MVH 1216r.	App Mus Sec, Plucked Instruments (1–2).
MVH 1217r.	App Mus Sec, Bowed Strings (1–2).
MVH 1218r.	App Mus Sec, Voice (1–2).
MVH 1219r.	App Mus Sec, Dulcimer, Portative Organ, Regal, Percussion (1–2).
MVK 1211r.	App Mus Sec, Piano
MVK 1212r.	App Mus Sec, Harpsichord
MVK 1213r.	App Mus Sec, Organ
MVO 1210r.	Modified Credit, All Instruments (1).
MVP 1211r.	App Mus Sec, Percussion

 MVW 1415r. App Mus Maj, Saxophone

MVK 1612. Directed Observation in Piano Pedagogy: Preschool through Precollege (1). Provides students the opportunity to observe private and class piano and musicianship instruction on the preschool and precollege levels.

MVK 2121r. Class Piano (1). Prerequisite: MVK 1111r (2) or consent of coordinator of class piano. Class instruction. For music majors other than keyboard principals and performance majors. Sightreading, harmonizing, transposing, improvising, intermediate keyboard techniques, repertoire, and musicianship. May be repeated to a maximum of two (2) semester hours.

MVK 2125. Keyboard Improvisation (1). Prerequisite: MUT 1112. An improvisation course for keyboard principals/majors and for non-keyboard majors/principals who have met the class piano performance requirement by a proficiency exam but not the improvisation requirement.

MVS 2126. Intermediate Class Guitar (1). Prerequisite: MVS 1116 or consent of instructor. Class instruction in intermediate folk guitar styles and techniques.

MV(B, H, K, O, P, S, V, W) 2220r–2229r.

Applied Music Secondary (two [2] hours each). Private instruction. (See course description for MV[B, H, K, O, P, S, V, W] 1210r–1219r series.) For students whose curriculum requires study of a secondary instrument. Each course may be repeated to a maximum of four (4) semester hours. Credit may be modified by electing MVO 2220r (1), all instruments. All MVH courses may be taken for one or two (1–2) credit hours.

MV(B, J, K, O, P, S, V, W) 2320r–2329r.

Applied Music Principal (two [2] hours each). Private instruction. Principal instrument. (See course description for MV[B, J, K, O, P, S, V, W] 1310r–1319r series.) For students whose major is not performance. Each course may be repeated to a maximum of six (6) semester hours. Credit may be modified by electing MVO 2320r (1), all instruments.

MV(B, K, O, P, S, V, W) 2420r–2426r.

Applied Music Major (four [4] hours each: piano, harpsichord, organ, strings, harp, guitar; three [3] hours each: piano pedagogy, voice, woodwinds, brasses, percussion). Private instruction. Major instrument. (See course description for MV[B, K, O, P, S, V, W] 1410r–1416r series.) For performance majors. May be repeated to a maximum of twelve (12) semester hours by piano, harpsichord, organ, string, harp, and guitar majors; nine (9) semester hours by piano pedagogy, voice, woodwind, brass, and percussion majors. Credit may be modified by electing MVO 2420r (2), all instruments.

MVS 2520r. String Repertory (1). Required of string performance majors. May be repeated to a maximum of two (2) semester hours.

MVS 2526r. Guitar Repertory (1). Prerequisite: Consent of instructor; Corequisite: MVS 2426r. Required of guitar performance majors. Course may be repeated to maximum of two (2) semester hours.

MVK 2622. Directed Observation in Piano Pedagogy: College (1). Provides students with the opportunity to observe private and class piano instruction on the college level.

MVK 2700. Piano Accompanying Vocal (1). Techniques, artistic skills, and repertory for accompanying. Required of piano performance majors.

MVK 2701. Piano Accompanying Instrumental (1). Techniques, artistic skills, and repertory for accompanying. Required of piano performance majors.

MVK 3131r. Class Piano (1). Prerequisite: MVK 2121r (2) or permission of coordinator of class piano. Class instruction. For music majors other than keyboard principals and performance majors. Continuation of MVK 2121r with emphasis upon increased skills, including open score reading and accompanying. May be repeated to a maximum of two (2) semester hours.

MVV 3131r. Class Voice (1). Prerequisite: Permission of instructor. Class instruction. For dance and theatre majors. Fundamentals of voice production. May be repeated to a maximum of two (2) semester hours.

MVS 3136. Advanced Class Guitar (1). Prerequisite: MVS 2126 or consent of instructor. Class instruction in advanced folk guitar styles and techniques.

MV(B, H, K, O, P, S, V, W) 3230r–3239r.

Applied Music Secondary (two [2] hours each). Private instruction. (See course description for MV[B, H, K, O, P, S, V, W] 1210r–1219r series.) For students whose curriculum requires study of a secondary instrument. Each course may be repeated to a maximum of four (4) semester hours. Credit may be modified by electing MVO 3230r (1), all instruments. All MVH courses may be taken for one (1) or two (2) credit hours.

MV(B, J, K, O, P, S, V, W) 3330r–3339r.

Applied Music Principal (two [2] hours each). Private instruction. Principal instrument. (See course description for MV[B, J, K, O, P, S, V, W] 1310r–1319r series.) For students whose major is not performance. Each course may be repeated to a maximum of six (6) semester hours. Credit may be modified by electing MVO 3330r (1), all instruments.

MV(B, K, O, P, S, V, W) 3430r–3436r.

Applied Music Major (five [5] hours each: harpsichord, harp; four [4] hours each: piano, strings, woodwinds, brasses, percussion, guitar; three [3] hours each: organ, voice, piano pedagogy). Private instruction. Major instrument. (See course description for MV[B, K, O, P, S, V, W] 1410r–1416r series.) For performance majors. May be repeated to a maximum of fifteen (15) semester hours by harpsichord, and harp majors; twelve (12) semester hours by piano, string, woodwind, brass, percussion, and guitar majors; nine (9) semester hours by organ, voice and piano pedagogy majors. Credit may be modified by electing MVO 3430r (2–3), all instruments.

MVS 3501r. Orchestral Repertoire for Violin (1). (S/U grade only.) Prerequisite: Permission of the instructor. May be repeated to a maximum of two (2) semester hours.

MVS 3530r. String Repertory (1). Required of string performance majors. May be repeated to a maximum of two (2) semester hours.

MVV 3532r. Musical Theatre Repertoire (1). Prerequisite: Consent of instructor. For music theatre majors. Course may be repeated to a maximum of four (4) semester hours.

MVS 3536r. Guitar Repertory (1). Prerequisite: Consent of instructor; Corequisite: MVS 3436r. Required of guitar performance majors. Course may be repeated to a maximum of two (2) semester hours.

MVK 3631. Piano Pedagogy I (3). Prerequisite: Junior standing or consent of instructor.

MVK 3632. Piano Pedagogy II (3). Prerequisite: MVK 3631. Intermediate piano pedagogy subjects.

MVK 3930r. Continuo Playing Keyboard (1). Prerequisite: Consent of instructor. May be repeated to a maximum of two (2) semester hours.

MVW 3700r. Introduction to Baroque Flute (1). Prerequisite: Consent of instructor. Development of basic performance skills on the Baroque flute and commensurate stylistic techniques through a graduated study of available 18th-century pedagogic and performance materials. May be repeated to a maximum of four (4) semester hours.

MVW 3701r. Introduction to the Baroque Recorder (1). Prerequisite: Consent of instructor. Development of basic performance skills on the Baroque recorder and commensurate stylistic techniques through a graduated study of available 18th-century pedagogic and performance materials. May be repeated to a maximum of four (4) semester hours.

MV(B, K, P, S, V, W) 3950.

Certificate Recital (zero [0] hours credit). (S/U grade only.) Prerequisite: Consent of instructor.

MV(B, K, P, S, V, W) 3970.

Junior Recital (zero [0] hours credit). (S/U grade only.) Prerequisite: Consent of instructor. Required junior recital for performance majors.

MV(B, H, K, O, P, S, V, W) 4240r–4249r.

Applied Music Secondary (two [2] hours each). Private instruction. (See course description for MV[B, H, K, O, P, S, V, W] 1210r, 1219r series.) For students whose curriculum requires study of a secondary instrument. Each course may be repeated to a maximum of four (4) semester hours. Credit may be modified by electing MVO 4240r (1), all instruments. All MVH courses may be taken for one or two (1–2) credit hours.

MV(B, J, K, O, P, S, V, W) 4340r–4349r.

Applied Music Principal (two [2] hours each). Private instruction. Principal instrument. (See course description for MV[B, J, K, O, P, S, V, W] 1310r–1319r series.) For students whose major is not performance. Each course may be repeated to a maximum of twelve (12) semester hours, except MVJ series which may only be repeated to a maximum of six (6) semester hours. Credit may be modified by electing MVO 4340r (1), all instruments.

MV(B, K, O, P, S, V, W) 4440r–4446r.

Applied Music Major (five [5] hours each: piano, harpsichord, harp; four [4] hours each: organ, strings, woodwinds, brasses, percussion, guitar; three [3] hours each: voice, piano pedagogy). Private instruction. Major instrument. (See course description for MV[B, K, O, P, S, V, W] 1410r–1416r series.) For performance majors. May be repeated to a maximum of twenty (20) semester hours by piano, harpsichord, organ, and harp majors; eighteen (18) semester hours by string, woodwind, brass, percussion, and guitar majors; nine (9) semester hours by voice and piano pedagogy majors. Credit may be modified by electing MVO 4440r (2), all instruments.

MVS 4540r. String Repertory (1). Required of string performance majors. May be repeated to a maximum of two (2) semester hours.

MVV 4542r. Musical Theatre Repertoire (1). Prerequisite: Consent of instructor. For music theatre majors. Course may be repeated to a maximum of four (4) semester hours.

MVS 4546r. Guitar Repertory (1). Prerequisite: Consent of instructor; Corequisite: MVS 4446r. Required of guitar performance majors. Course may be repeated to a maximum credit of two (2) semester hours.

MVK 4600. Organ/Harpsichord Pedagogy (2). Prerequisite: Consent of instructor. Equips students with teaching skills in organ/harpsichord.

MVO 4640. Wind Instrument and Percussion Pedagogy (3). Prerequisite: Junior standing in major instrument. The methods and materials of wind instrument and percussion pedagogy.

MVK 4641. Advanced Piano Pedagogy I (3). Prerequisite: MVK 3632 or consent of instructor. Current and expanded pedagogy concepts and materials and techniques for teaching advanced or adult students.

MVV 4641. Vocal Pedagogy (2). Prerequisite: Junior standing in voice. A study of voice teaching methods.

MVK 4642. Advanced Piano Pedagogy II (3). Prerequisite: MVK 4641. Current and expanded pedagogy concepts and materials and techniques for teaching advanced or adult students.

MVK 4670r. Practicum in Piano Pedagogy (2). May be repeated up to four (4) semester hours.

MVK 4931. Service Playing (2). Prerequisite: Consent of instructor. Open to all upper-division organ majors and principals.

MV(B, K, P, S, V, W) 4971.

Senior Recital (zero [0] hours credit). (S/U grade only.) Prerequisite: Completion of MV_333_ required; consent of instructor. Required senior recital for performance majors.

Graduate Courses

Composition

- MUC 5110r. Composition (2).
- MUC 5251r. Composition (3).
- MUC 5615r. Film Scoring (3).
- MUC 5625r. Jazz Composition (3).
- MUC 6261r. Composition (3).

NURSING

SCHOOL OF NURSING

Professors: Flannery, Frank, Singer; *Associate Professors:* Cottrell, Dean, Epley, Faria, Grubbs, Harris, Karioth, Kohler; *Assistant Professors:* Tucker, Whiteside; *Instructor:* Jamison; *Assistants in Nursing:* Fields, King, Schall

The School of Nursing offers a bachelor of science in nursing (BSN) for generic and registered nurse students. The undergraduate program is approved by the Florida Board of Nursing and accredited by the National League for Nursing. At the completion of the program the student will have met all requirements for the BSN. The generic graduate of the nursing program will have met the academic eligibility requirements for taking the state licensing examination. The mission of the School of Nursing is to develop professional leaders in nursing for practice in diverse settings.

The program is an upper-division major with required sequential course offerings and elective courses in nursing. The nursing courses are based on concepts and principles from liberal studies, the supporting biological and behavioral sciences, and nursing. This theoretical base is used with the nursing process in the systematic development of care plans for providing nursing care to individuals and groups in a variety of health care settings.

The School of Nursing offers honors in the major to encourage talented students to undertake independent research. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

For complete details of programs offered and admission requirements, plus a description of the school, its facilities, opportunities, and available financial assistance, refer to the "School of Nursing" section of this *General Bulletin*.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. Specific prerequisites are required for admission into the upper-division program and must be completed by the student at either a community college or a state university prior to being admitted to this program. Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.

The following lists the common prerequisites or their substitutions necessary for admission into this upper-division degree program:

1. BSC X085C or any human anatomy and physiology I or human anatomy;
2. BSC X086C or any human anatomy and physiology II or human physiology;
3. Four to six (4–6) semester hours of chemistry (CHM prefix), which must be comprehensive college general chemistry (such as CHM 1030 or CHM 1032) but not lower level principles courses (such as CHM 1025). Contact the department for exceptions;
4. DEP X004 or any human growth and development across life span;
5. HUN X201 (or any human nutrition) or NUR 1192;
6. MCB X010C or any microbiology with lab;
7. PSY X012 or any general psychology;

8. STA X014 or any statistics course;
9. SYG X000 or any introduction to sociology.

Definition of Prefixes

BSC — Biological Science
NGR — Nursing: Graduate
NUR — Nursing

Undergraduate Courses

Theory/Laboratory Courses Required

Students entering the nursing major in Fall 2001 will begin a new community-based curriculum. The information for required courses may be acquired from the School of Nursing office.

BSC 2085. Anatomy and Physiology I (3). First of a two-semester human anatomy/physiology sequence emphasizing the cell, stimulus-response concept, and the skeletal-muscular and first half of the nervous systems.

BSC 2086. Anatomy and Physiology II (3). Prerequisites: BSC 2085 or permission of instructor. Continuation of a two-semester human anatomy/physiology sequence beginning with the second half of the nervous system, then continuing with endocrine, cardiovascular, respiratory, digestive, excretory and reproductive systems. Also included are fluid-electrolyte balance and immunity.

NUR 3026. Nursing Competencies for Professional Practice (3). Prerequisites: Admission to nursing. Corequisites: NUR 3026L. This course provides the basis for professional nursing practice. Included are concepts of basic human physical needs, technical, computer, and therapeutic communication skills, documentation (based on medical terminology), group process, nursing process, and APA.

NUR 3026L. Nursing Competencies for Professional Practice Lab (2). Prerequisites: Admission to nursing. Corequisites: NUR 3026. This course supports concepts presented in NUR 3026, Nursing Competencies for Professional Practice. The application of competencies and skills occurs in laboratory and various clinical settings.

NUR 3064. Nursing Assessment of the Well Family: A Lifespan Approach (2). Prerequisites: Admission to nursing. Corequisites: NUR 3064L. This course introduces the beginning nursing student to the parameters, procedures and skills required to perform and document a holistic assessment of clients in all age groups. Included are communication and interview techniques in compiling a health history, technical skills in performing a physical exam, and critical thinking skills in doing a health risk appraisal and formulating nursing diagnoses appropriate to identified problems. Clients' cultural differences, developmental stage, family structure, economic situation and health behaviors are considered when evaluating health status.

NUR 3064L. Nursing Assessment of the Well Family: A Lifespan Approach Lab (2). Prerequisites: Admission to nursing. Corequisites: NUR 3064. The focus of this course is on the application of knowledge and skills utilized in assessing a client's health status. The laboratory and various clinical sites are utilized in assessing diverse client populations across the life span. Critical thinking, along with interactive and technical skills, are used in gathering data for a health history, performing a physical exam, identifying health risks and problems, documenting findings and formulating a nursing diagnosis. A holistic approach is utilized in assessing the health of primarily healthy clients and in developing a health database.

NUR 3065. Health Assessment (2). Prerequisite: Admission to nursing major or permission of the instructor. Emphasis on skills required to obtain a normal baseline of the well individual with modifications for age and cultural variations. Development of knowledge in interactive and assessment skills, identifying health risks, and formulating nursing diagnoses.

NUR 3065L. Health Assessment Laboratory (2). Prerequisite or Corequisite: NUR 3065 or permission of the instructor. Focus on the interactive process, data collection skills, evaluating health risks, nursing diagnoses, health teaching, developmental, and biopsychosocial dimensions with consideration of cultural variations for well clients of all ages.

NUR 3105. Introduction to Professional Nursing (3). Examines the profession of nursing, societal factors that have influenced the evolution of nursing, ethical-legal components, nursing roles, the health care delivery system as a whole, and selected nursing theorists.

NUR 3116. Foundations in Nursing (3). Prerequisite: Admission to nursing major. Emphasis on scientific and nursing concepts of professional nursing practice. The nursing process is introduced and the role of the nurse as care provider is established.

NUR 3116L. Foundations in Nursing Laboratory (2). Prerequisites or Corequisites: NUR 3116, 3065/3065L. The nursing process is introduced as the tool for providing care to those with health care needs. Emphasis on performing a health assessment and establishing a nursing diagnosis with select clients in an acute or long-term setting. A nursing care plan is established for each client and basic nursing care provided. Develops basic nursing skills.

NUR 3145. Foundations of Pharmacology in Nursing (1). Prerequisites: BSC 2085, 2086. Corequisites: NUR 3105, 3116/3116L, 3065/3065L. Emphasis on the principles and concepts basic to the nurses role in drug therapy. Includes concepts of biopsychosocial and developmental diversity and the application of the nursing process in meeting the pharmacotherapeutic needs of clients.

NUR 3146. Pharmacology for Professional Nursing (1). Prerequisite: Admission to nursing program. Using the science of pharmacology and pharmacological principles underlying therapeutic interventions, this course focuses on the introduction to nursing care regarding pharmacological theory, major classifications and common characteristics of drugs.

NUR 3147. Pharmacology Related to Nursing Practice (2). Prerequisites: NUR 3065/3065, 3116/3116L, 3145. Corequisites: NUR 3215/3215L, 3457/3457L. Explores medication therapy with the primary focus on nursing implications. Emphasizes critical thinking regarding the uses, actions, and side effects of related drugs, the application of the nursing process, and the instituting of appropriate nursing roles for therapeutic outcomes.

NUR 3167. The Research Process for Professional Practice (2). Prerequisites: Term I courses. This introductory course will assist students in conceptualizing both the basic research process and the importance of research to nursing, and will enable students to understand and use published healthcare research.

NUR 3215. Adult Health Nursing I (4). Prerequisites: NUR 3105, 3116/3116L, 3145, 3065/3065L. Corequisite: NUR 3147, 3215L, 3457/3457L. Introduces the student to the role of the nurse working with adult clients experiencing illness and hospitalization for minor physiological disruptions in their health state. Emphasis is given to the incorporation of concepts and principles and the use of the nursing process to assist clients and families in resolving immediate crises and regaining an optimal level of functioning.

NUR 3215L. Adult Health Nursing I Laboratory (3). Prerequisites: NUR 3105, 3145, 3116/3116L, 3065/3065L. Corequisite: NUR 3147, 3215, 3457/3457L. Provides students with the opportunity to apply concepts, principles, and the nursing process while assisting clients and families in regaining an optimal level of functioning. Emphasis is placed on the role of the nurse as care provider and collaborator in caring for adult clients experiencing illness and hospitalization for minor physiological disruptions in their health state.

NUR 3226. Nursing the Adult Family I (3). Prerequisites: Term I courses. Corequisite: NUR 3226L. This is the first of three courses focusing on the adult. Emphasis is on general body responses and alterations in disease, pathophysiology, and holistic nursing management of the continuum of care for patients and their families in acute care settings. Critical thinking and problem solving skills are utilized to plan interventions and evaluate outcomes appropriate to health care needs for adults and their families based on the state of the disease course and their special needs. Concepts and alterations in physiologic stress and adaptation, fluid and electrolyte balance, acid/base balance, immune/inflammation response, and cellular proliferation serve as a foundation for all levels of care. Principles of rehabilitation are presented for application in all clinical courses. Diabetes, complications of surgery, and alterations in digestive and orthopedic systems are presented.

NUR 3226L. Nursing the Adult Family I Laboratory (2). Prerequisites: Term I courses. Corequisite: NUR 3226. Focus of this laboratory course is the application of technological competencies, concepts and principles, and the nursing process while providing interventions to adults and their families in the acute care and appropriate community care settings. Effectiveness of the interventions and expected outcomes are evaluated.

NUR 3287. Nursing the Aging Family (2). Prerequisite: Admission to nursing major. Utilizing a holistic perspective, this course explores the older adult family, the aging process, client responses, adaptive behaviors and nursing needs. The focus is on promoting client independence and maximizing quality of life among the age continuum through end-of-life care. Nursing and aging theories are utilized in the application of the nursing process.

NUR 3457. Nursing Care of the Childbearing Family (3). Prerequisites: NUR 3065/3065L, 3105, 3116/3116L, 3145. Prerequisite or Corequisite: NUR 3147, 3215/3215L, 3457L. Study of the family unit as it is affected by childbearing. Examination of the normal physiological, sociocultural, and psychological processes associated with childbearing and parenthood. The nurses role in health promotion is emphasized. Illness and complications of childbearing and issues and trends affecting childbearing families are explored.

NUR 3457L. Nursing Care of the Childbearing Family Laboratory (2). Prerequisites: NUR 3065/3065L, 3105, 3116/3116L, 3145. Prerequisites or Corequisites: NUR 3147, 3215/3215L, 3457. Experiences are provided for giving nursing care to families during childbearing. The focus will be on physiological, psychological, and sociocultural processes associated with childbearing and parenthood. The nurses role in health promotion is emphasized, and opportunities are provided for assessing, planning, implementing, and evaluating nursing care for childbearing families. Selected experiences related to complications of childbearing may also be provided.

NUR 3535. Mental Health Nursing (3). Prerequisites: Term I courses. Corequisite: NUR 3535L. This course focuses on individuals and small groups experiencing acute and chronic behavioral problems. Critical thinking is used

to apply psychiatric and nursing theories to the care of these clients and families in various healthcare settings. Content includes the effect of mind/body disturbances on biopsychosocial functioning, mental status, relationships, and families. Nursing care of individuals and families with maladaptive behavioral, cognitive, affective and physical assessments as well as somatic, behavioral, and environmental interventions also are explored.

NUR 3535L. Mental Health Nursing Laboratory (3). Prerequisites: Term I courses. Corequisite: NUR 3535. This laboratory applies psychiatric and nursing theories to individuals and small groups experiencing acute and chronic behavioral problems in various healthcare settings.

NUR 3615. Introduction to Family and Community Nursing (2). Prerequisite: Admission to nursing program. This course focuses on core systems of individual, family, and community nursing which provide the framework of the BSN program. Concepts discussed include: Pender's health belief model; cultural, social, and epidemiological factors relative to health and illness; concepts of acuity/chronicity, and crisis; systems theory; rehabilitation concepts; family and group theory, communication, and dynamics.

NUR 3805. Nursing: Role and Scope (3). An introductory course designed to assist the returning registered nurse student in identifying the role and scope of professional nursing practice.

NUR 3825. Values, Roles and Issues in Professional Nursing (2). Prerequisite: Admission to nursing program. This course focuses on roles, ethics, values, and the image of the nursing profession; introduction to nursing research, nursing theory, nursing model of practice, teaching/learning, and the health care system; diversity, caring and synchrony across the lifespan; and emphasis on nursing values such as altruism, autonomy, dignity, integrity, and social justice.

NUR 3949. Cooperative Education Work Experience (0). (S/U grade only.)

NUR 4069C. Advanced Health Assessment (3). Prerequisites: Admission to RN-MSN program and permission of instructor. Designed to develop students knowledge of skills for advanced health assessment, including health history and physical examination.

NUR 4080. Nursing Concepts I (4). Prerequisites or Corequisites: NUR 4069C or NGR 5001C; NUR 3805. Designed to provide the registered nursing student with the critical concepts and nursing strategies necessary for baccalaureate nurses. Emphasizes concepts related to health, interdisciplinary communication, family, teaching/learning, crisis intervention, critical thinking, and problem solving within the framework of the nursing process.

NUR 4080L. Nursing Practicum I (1). (S/U grade only.) Prerequisites or Corequisites: NUR 4069C or NGR 5001C; NUR 3805; 4115. Designed to provide the registered nurse student the opportunity to apply baccalaureate nursing strategies and the nursing process while assisting clients and families in maintaining and regaining an optimal level of wellness. Emphasis is given to the role of the nurse as a care provider, teacher, collaborator, and a problem solver in client's care across the life span.

NUR 4107. Nursing and the Healthcare System (2). Prerequisites: Term I and II courses. This course is an introduction to current healthcare delivery systems on local regional, national, and global levels. Concepts of managed health care, case management, reimbursement, legal/ethical risk management, quality outcomes, diversity and complexity of population at risk, and conservation of resources are emphasized.

NUR 4165. Introduction to Research in Nursing (2). Prerequisite: Admission to nursing major or permission of instructor. Introduces research process with emphasis on the role of research in the development of nursing knowledge. Emphasis is on the relationship between theory and method, logic, and types of research and basic statistics with the development of a research design.

NUR 4216. Adult Health Nursing II (4). Prerequisites: NUR 3147, 3215/3215L. Addresses the role of the nurse in providing care to adult clients with major disruptions in health. Expanded understanding of the nursing process; concepts and principles from nursing, humanities, and the physi-

cal and behavioral sciences. Emphasis is on assisting clients in regaining optimal level of wellness, meeting rehabilitative requirements, and/or adjusting to terminal illness.

NUR 4216L. Adult Health Nursing II Laboratory (3). Prerequisites: NUR 3147, 3215/3215L; Prerequisite or Corequisite: NUR 4216. The expanded application of the nursing process and the role of the nurse as a provider and collaborator with clients having major disruptions in health. There is opportunity to collaborate with health care professionals, to promote health, meet client rehabilitative needs, and/or assist clients and families in adjusting to terminal illness.

NUR 4255. Nursing the Adult Family II (3). Prerequisites: Term I and II courses. Corequisite: NUR 4255L. This is the second of three courses focusing on the adult. Emphasis is on alterations in disease, both acute and chronic, pathophysiology, and nursing management of the continuum of care for patients and their families in acute care and appropriate community care settings. Critical thinking and problem solving skills are utilized to plan interventions and elevate outcomes appropriate to health care needs for adults and their families based on the stage of the disease course and their special needs. Alterations in cardiac, vascular, hematologic, respiratory, sensory/neurologic and endocrine (other than diabetes) systems are presented.

NUR 4255L. Nursing the Adult Family II Laboratory (2). Prerequisites: Term I and II courses. Corequisite: NUR 4255. The focus of this laboratory course is the application of technological competencies, concepts, principles, and the nursing process while providing interventions to adults and their families in the acute care and appropriate care settings. Effectiveness of the interventions and expected outcomes are evaluated.

NUR 4284. Dynamics of Aging (3). Prerequisites: NUR 3147, 3215/3215L, or permission of instructor. Provides a holistic approach to the study of the elderly. Implications for professional practice are based on changes and adjustments occurring as part of the normal aging process. Common health disruptions in older citizens are examined.

NUR 4355. Child Health Nursing (4). Prerequisites: NUR 3147, 3215/3215L, 3457/3457L. Corequisite: NUR 4355L. Introduction to the role of the nurse in caring for children with disruptions in health as they grow and develop within a family system. Included is the incorporation of principles and concepts from the humanities and sciences and use of the nursing process in helping children and their families achieve optimal health. The most commonly occurring physiological disruptions in childhood are discussed.

NUR 4355L. Child Health Nursing Laboratory (2). Prerequisites: NUR 3147, 3215/3215L, 3457/3457L; Corequisite: NUR 4355. Principles, concepts, and the nursing process are applied in the care of children and their families who are experiencing disruptions in health. Experiences are provided for assessing, planning, implementing, and evaluating nursing care of children in a variety of settings.

NUR 4465. Nursing Care of the Childbearing Childrearing Family (4). Prerequisites: Term I and II courses. Corequisite: NUR 4465L. This course focuses on individuals and their families during the childbearing and childrearing phases of family development. Physiologic, psychologic, sociocultural, and pathophysiologic processes associated with bearing and childrearing are presented. The nurse's role in health promotion is emphasized. Illness and complications are examined. Issues related to preserving, promoting, and restoring healthy status of family members are emphasized.

NUR 4465L. Nursing Care of the Childbearing/Childrearing Family Laboratory (3). Prerequisites: Term I and II courses. Corequisite: NUR 4465. This laboratory course expands the application of the nursing process and nursing roles to the specialized care required by childbearing and childrearing families in a variety of settings.

NUR 4535. Mental Health Nursing (4). Prerequisites: NUR 3147, 3215/3215L, 3457/3457L. The study of theoretical foundations of mental health nursing practice with distressed clients and their families with emphasis on the application of the nursing process to the care of individuals and groups on the health/illness continuum. Legal issues, treatment modalities, and specific emotional disruptions are considered in the context of mental health nursing theory and practice.

NUR 4535L. Mental Health Nursing Laboratory (2). Prerequisites: NUR 3147, 3215/3215L, 3457/3457L. Prerequisite or Corequisite: NUR 4535. Mental health nursing practice with a variety of clients experiencing emotional disruptions in health, emphasizing implementation of nursing care incorporating multiple treatment modalities and theoretical considerations. Seminars with selected clinical issues and activities are provided to supplement clinical laboratory experiences.

NUR 4605L. Community Health Nursing Practicum (2). Prerequisite or Corequisite: NUR 4069C or NGR 5001C; NUR 4080/4080L, 4165, 4284, 4635. This course is designed for the registered nurse and focuses on the preparation required to begin the role of a community health nurse. Allows students to use the nursing process to provide care to clients in a variety of community settings. Emphasis is on the nurse as a change agent and a facilitator of family self-care.

NUR 4619. Community Nursing: A Synthesis of Care (1). Prerequisites: Term I, II and III courses. Corequisite: NUR 4619L. This course requires the synthesis of competencies, caring, and commitment established in previous and current courses. This synthesis consolidates two fundamental aspects of nursing practice as established by the American Association of Colleges of Nurses: "care of the sick in and across all environments and health promotion." Application of concepts such as acuity/chronicity, utilization of resources, quality of outcomes for individuals, families, and communities is required. Concept mapping and case studies are employed.

NUR 4619L. Community Nursing: A Synthesis of Care Laboratory (1). Prerequisites: Term I, II and III courses. Corequisite: NUR 4619. Home visits to multi-generational families utilizing concepts of care management, case presentations and community assessment are employed in this laboratory course.

NUR 4635. Community Health Nursing (3). Prerequisites: NUR 4165, 4216/4216L, 4284, 4355/4355L, 4535/4535L. The ANA Standards of Community Health Nursing Practice are presented as the conceptual model for practice. The nursing process is presented as the methodology for providing care. Emphasis is on the theoretical base, with a focus on a holistic approach in care of the family and community while applying the nursing process in a variety of settings.

NUR 4635L. Community Health Nursing Laboratory (2). Prerequisites: NUR 4165, 4216/4216L, 4284, 4355/4355L, 4535/4535L. Pre- or corequisite: NUR 4635. The opportunity is provided for the utilization of nursing skills in the practice of community health nursing and preparation for beginning the role as community health nurse. The nursing process is applied to identified community needs. Emphasis is on the nurse as an agent of change and increasing the clients ability to engage in self-care.

NUR 4637. Public Health Nursing (2). Prerequisites: Term I, II, III and IV courses. Corequisite: NUR 4637L. The course focuses on complexity and diversity of groups or aggregates within communities and their corresponding health care needs. The third fundamental aspect of nursing practice established by the American Association of Colleges of Nurses, "population based health care" is addressed. Topics include the philosophy and concepts of public health nursing and comparison to community health and the role of the public health nurse as a leader, change agent, case finder, and case manager in settings such as schools, industry, correctional institutions, group homes, sheltered workshops and clinical settings. The family structure and its impact on healthcare, environmental safety, effects of poverty, epidemiology, communicable disease, resources (Centers for Disease Control and research), impact of violence in community settings, disaster (both natural and man-made) and global and environmental health also are examined.

NUR 4637L. Public Health Nursing Laboratory (2). Prerequisites: Term I, II, III, and IV courses. Corequisite: NUR 4637. This course utilizes the findings from the community assessment performed in NUR 4619. Implementation of an appropriate project is performed. Clinical experiences are conducted with the guidance of a preceptor and may occur in a variety of settings.

NUR 4767. Nursing the Adult Family III (3). Prerequisites: Term I, II and III courses. Corequisite: NUR 4767L. This is the last of three courses focusing on the adult. Emphasis is on complex multi-system problems, pathophysiology, and holistic nursing management of the continuum of care for patients and their families in acute care

and appropriate community care settings. Critical thinking and problem-solving skills are utilized to plan interventions and to evaluate outcomes appropriate to health care needs for adults and their families based on the stage of the disease course and their special needs. The complexity of nursing management related to burns, brain, and spinal cord injuries, DIC, multi-system trauma, multi-system failure and organ transplantation is presented. Principles and issues related to end-of-life, hospice, and critical care are presented for application in practice.

NUR 4767L. Nursing the Adult Family III Laboratory (2). Prerequisites: Term I, II and II courses. Corequisite: NUR 4767. The focus of this laboratory course is the application of technological competencies, concepts and principles, and the nursing process while intervening with adults and their families in the acute care and appropriate community care settings. Effectiveness of the interventions and expected outcomes are evaluated. Care of patient with complex problems is emphasized.

NUR 4807L. Leadership in Nursing Practicum (2). Prerequisites: NGR 5001C or NUR 4069C; NUR 3805, 4080/4080L, 4165, 4284. Corequisite: NUR 4827. Designed for the registered nurse student. Focuses on the leadership role of the professional nurse. Provides the opportunity to apply concepts, principles, and theories of leadership and management in a variety of settings; also applies research findings to the nursing care of clients.

NUR 4815. Issues in Professional Nursing (2). Prerequisites: NUR 3147, 3215/3215L, 3457/3457L. Focus is on the transition from student to graduate. Issues confronting nurses in a practice situation are analyzed. Responsibility and accountability of the professional nurse are studied to increase awareness of options to advance the professionalization of nursing.

NUR 4827. Leadership in Nursing (2). Prerequisites: NUR 4165, 4216/4216L, 4284, 4355/4355L, 4535/4535L. Focus is on the leadership role of the professional nurse in a variety of settings. Concepts and theories of leadership and management and incorporation of research findings in the development of leadership roles are studied.

NUR 4827L. Leadership in Nursing Laboratory (2). Prerequisites: NUR 4165, 4216/4216L, 4284, 4355/4355L, 4535/4535L. Prerequisite or Corequisite: NUR 4827. Concepts, principles, and theories of leadership and management are applied in a variety of settings. Functioning in the role of nurse-leader, the student synthesizes previous learning, utilizes a problem-solving approach, and applies research findings to the nursing care of client groups.

NUR 4835. Professional Nursing Leadership and Management (2). Prerequisites: Term I, II, III, and IV courses. Corequisite: NUR 4835L. This course focuses on concepts, principles and theories of leadership, management, role development and administration. Skills required by the professional nurse leader, including delegation of responsibilities, networking, facilitation of groups, conflict resolution, case management, collaboration, budgeting, cost effectiveness and resource allocation, managing quality and performance, and teaching are emphasized.

NUR 4835L. Professional Nursing Leadership and Management Laboratory (2). Prerequisites: Term I, II, III, and IV courses. Corequisite: NUR 4835. Clinical experiences in a variety of settings will be examined.

NUR 4945. Professional Nursing Internship (4). (S/U Grade only.) Prerequisites: Term I, II, III, and IV courses. This course occurs following the completion of all required nursing courses. This capstone clinical experience requires the student to demonstrate competencies consistent with program outcomes. Synthesis of core values, core competencies, core knowledge, and role development is expected. The student collaborates with the faculty and the preceptor in choosing the care setting, and plans and organizes the learning experience to facilitate a successful transition into the profession.

Electives

NUR 3040. Multicultural Factors and Health (3). A comparative analytical approach to the study of communication, current problems, issues, health care beliefs, values, and practices of different systems and cultural norms as they affect health care practices which conflict with ethnic or cultural communication related to standards and value systems.

NUR 3076. Communication in Health Care (3). Prerequisite: ENG 1101. This course examines various communication patterns basic to individual and group relationships. Course emphasizes the development of interactive skills paramount to effective communication with individuals and groups involved with health care issues. It provides an opportunity for the validation of oral communication and a range of public speaking experiences especially related to health care.

NUR 3090. Medical Terminology (3). This course is designed to help students understand the origins of medical terms. The course will equip future members of the health care industry with a medical vocabulary. Suffixes and prefixes are reviewed. The body is approached systematically to discuss its anatomy and physiology and its basic pathology. Also discussed are those terms pertaining to relevant assessment procedures.

NUR 3135. Men's Health (3). Prerequisite: other college level biology or approval of the instructor. This survey course in the health and wellness minor focuses on concerns of men in maintaining their health. Over the lifespan, lifestyle issues such as recreation, employment, violence and sexuality are addressed. Diseases that are of concern to males are emphasized, including prostate and colon cancer, cardiovascular disease, sexual problems and sports injuries.

NUR 3195. The Individual, Death, and the Family (2). Prerequisite: REL 3191 or permission of the instructor. Explores concepts of the death and dying process as related to the role of health care givers. Direct participation with dying clients and families may be provided.

NUR 3199. Therapeutic Massage (3). Course introduces the student to the principles and techniques of therapeutic massage and develops the practical skills associated with the administration of therapeutic massage. The course will include various techniques: the pre-massage (including health history), application of therapeutic treatments, client charting (including S.O.A.P. notes), and adjustment based upon client feedback. Communication skills, ethical standards, and establishing trust in a safe environment will also be addressed. The student will be introduced to basic anatomy, indications, contraindications, and current research related to therapeutic massage.

NUR 3396. Child Life in Health Care Settings (3). Prerequisites: FAD 3220; NUR 3090. This course is designed primarily for students interested in care of children with a focus on the child with health interferences in development due to varying degrees of illness. Addresses individual and family, community, organizational and institutional concerns and the role of the child life specialist on the health care team. This course is appropriate for students in child life, social work, special education and any field where child development is a concern.

NUR 3495. Women's Health Issues: Concerns Through the Life Cycle (3). Prerequisite: BSC 1005 or BSC 2011 or permission of the instructor. Focus will be on issues related to women throughout the life cycle including sexuality, obesity, anorexia, cancer, etc. Emphasis is on prevention of illness and rights to health care access.

NUR 3617. Health and Health Alterations in the Family and Community (3). A survey course designed to help the student look at the health care professional as an agent for health promotion. The health promotion agent looks at health and health alterations in the individual, family, and community. Students will explore the concepts of health promotion, health alterations and disease prevention, including the influence of health care agents, political and economic factors on health promotion, disease prevention and future trends.

NUR 3935. Holistic and Complementary Approaches to Health and Healing (3). This course is designed to explore knowledge of practices that promote health and well-being. Emphasis is on stress management and body-mind-spirit communication. A variety of holistic and complementary approaches to health and healing are explored.

NUR 4642. Substance Abuse and the Effects on Health, Family, and Profession (3). Broad-based approach to substance abuse and the effects on health, family, and the profession; identifying groups at risk, prevention activities, and help approaches.

NUR 4826. Contemporary Clinical Ethics in Health Care (3). Provides students with the opportunity to both explore the ethical dimensions of health care practices and to develop skills in ethical decision making. Students will practice the clinical application of ethical theory in relation to current health care issues and concerns.

NUR 4905r. Directed Individual Study (1-4). May be repeated to a maximum of six (6) semester hours.

NUR 4930r. Special Topics (1-3). Topics of interest relating to nursing and other health-related issues. May be repeated to a maximum of nine (9) semester hours.

NUR 4935. Legislative Influences on Health Care and Nursing Practice (3). Current health care issues and their impact on consumers and providers are analyzed.

NUR 4975r. Honors Thesis (2-6). Honors thesis may be taken a minimum of two (2) and a maximum of three (3) times for a total of six (6) semester hours credit.

Graduate Courses

NGR 5001C. Advanced Health Assessment (3).

NGR 5002C. Advanced Health Assessment for Nurse Practitioners (1).

NGR 5051C. Advanced Wound Management (2).

NGR 5095. Holistic Nursing (3).

NGR 5121. Theories in Nursing (2).

NGR 5122. Role Development Theories (2).

NGR 5130. Contemporary Clinical Ethics in Health Care (3).

NGR 5140. Clinical Pathophysiology for Advanced Nursing Practice I (3).

NGR 5141. Clinical Pathophysiology for Advanced Nursing Practice II (3).

NGR 5152. Dynamics of Health (2).

NGR 5190. Nursing Diagnostics and Therapeutics I (2).

NGR 5191. Nursing Diagnostics and Therapeutics II (2).

NGR 5255. Dynamics of Aging (3).

NGR 5570C. Community Mental Health Nursing I (3).

NGR 5571L. Community Mental Health Nursing II (3).

NGR 5610. Conceptual Bases of Family Nursing (2).

NGR 5615L. Family Nursing I: Nursing Care of Families Experiencing Crisis Laboratory (1).

NGR 5616L. Family Nursing II Laboratory: Nursing Care of Families Experiencing Chronic and Long-term Health Problems (1).

NGR 5620C. Conceptual Bases in Community Nursing (4).

NGR 5625C. Community Health Nursing: Advanced Practice (4).

NGR 5710. Theories of Teaching of Nursing (3).

NGR 5712C. Teaching Methods in Nursing Education (3).

NGR 5720C. Administrative Methods in Nursing (3).

NGR 5721. Nursing Administration Theory (3).

NGR 5741. Nurse Practitioner I (3).

NGR 5741L. Nurse Practitioner/Clinical Nurse Specialist Laboratory I: Clinical Management of Young Families (4).

NGR 5742. Nurse Practitioner II (3).

NGR 5742L. Nurse Practitioner/Clinical Nurse Specialist Laboratory II: Clinical Management of Mature Adults and Aging Families (4).

NGR 5743L. Clinical Elective for Advanced Practice Nurses (1-6).

NGR 5747. Dynamics of Nursing Systems and Health Care (3).

NGR 5752. Clinical Nurse Specialist/Case Care Manager I (3).

NGR 5752L. Clinical Nurse Specialist/Case Care Manager I Laboratory (3).

NGR 5753. Clinical Nurse Specialist/Case Care Manager II (3).

NGR5753L. Clinical Nurse Specialist/Case Care Manager II Laboratory (4).

NGR 5754. Fundamentals of Teaching for Master's Students (1).

NGR 5758L. Nurse Practitioner Practicum (2-5).

NGR 5800. Research in Nursing (3).

NGR 5870. Computers in Nursing Research and Practice (3).

NGR 5905r. Directed Independent Study (1-3).

NGR 5910r. Supervised Research (1-3).

NGR 5930r. Special Topics in Nursing (1-3).

NGR 5932. Tutorial for Advanced Practice Nursing (1-3).

NGR 5933. Management/Care of Client with HIV (2).

NGR 5938. Research Seminar (2).

NGR 5941r. Supervised Teaching (1-5). (S/U grade only.)

NGR 5943C. Nursing Administration Practicum (3).

NGR 5945L. CNS/Case Care Manager Practicum (2-5).

NGR 5971r. Thesis (1-4).

NGR 6947C. Teaching of Nursing Practicum (3).

Department of NUTRITION, FOOD, AND EXERCISE SCIENCES

COLLEGE OF HUMAN SCIENCES

Chair: Bob Moffatt; *Professors:* Haymes, Moffatt, Overton, Sathe, Toole; *Associate Professors:* Abood, Anderson, Bertram, Cook, Dorsey, Levenson, Rankins; *Assistant Professors:* Mistry, Pantan; *Assistant in Athletic Training:* Seghal; *Adjunct Professor:* Dupont; *Coordinator of Food Service Administration:* Truesdell; *Professors Emeriti:* Erdman, Harris, Kassouny, Watts; *Affiliate Faculty:* Gibson, Oravitz; *Courtesy Faculty:* Kehayias

The Department of Nutrition, Food and Exercise Sciences offers two Bachelor of Science degrees: Food and Nutrition and Human Sciences. There are two majors under the Food and Nutrition degree: 1) Dietetics; 2) Food and Nutrition Science; the Human Science degree offers Exercise Science as a major.

The purpose of the dietetics major is to provide the foundation knowledge and skills required for the didactic component of entry-level dietetics education. This Didactic Program in Dietetics (DPD) is currently granted developmental accreditation status by the Commission on Accreditation for Dietetics Education (CADE) of the *American Dietetic Association (ADA)*, 216 W. Jackson Blvd., Chicago, IL 60606-6995, 312/899-5400. Completion of the DPD program, which entails satisfying the graduation requirements for the dietetics major plus the food service management laboratory (FSS4315L Institutional Organization and Administrative Laboratory) as an elective, meets the academic requirements for membership in the ADA. Graduates of the DPD program are eligible to apply to graduate school and/or post-baccalaureate, accredited dietetic internships. The dietetic internship, which provides the competencies for the supervised practice component of dietetics education, is in turn required for eligibility to take the national Registration Examination for Dietitians. Careers are available for dietitians in clinical, research, community, food service, management, and educational settings and consulting.

The food and nutrition science major has a strong science base that prepares students for job opportunities in the food industry, government agencies, careers in the medical field as well as graduate study in the field.

The exercise science major prepares professionals with expertise in fitness, exercise physiology, athletic training/sports medicine and pre-physical therapy. Students in the fitness option are prepared for graduate study as well as positions as personal trainers and health fitness instructors with both hospital-based wellness programs and corporate fitness programs. The exercise physiology option prepares students for

graduate study in exercise physiology and for medical school. Students in the pre-physical therapy option complete course work required for entrance to physical therapy programs. The athletic training/sports medicine option provides the course work required by the National Athletic Trainers' Association Board of Certification (NATABOC), and the Commission on Accreditation for Allied Health Education Programs (CAAHEP). Athletic training/sports medicine is offered to students interested in working with injury prevention, recognition and immediate care, rehabilitation, health care management and professional development in a sports medicine environment. Athletic training/sports medicine students have an opportunity to gain clinical experience in a variety of sports settings, both on and off campus. Access to clinical opportunities are limited. These opportunities require the following:

- 1) a minimum GPA of 2.5 or better;
- 2) admittance into PET 3940r;
- 3) student must meet all technical standards for admission.

See academic advisor for details. To qualify to take the NATABOC certification examination, students must have a minimum of 1500 hours of clinical/field experience in at least two years.

For each undergraduate major, students may have the opportunity to apply knowledge and skills through supervised practicums. In the practicum courses, students may be assigned to work with specific medical, food service or community agencies or an adult fitness class.

Academic Performance

1. Students who earn more than five unsatisfactory grades (U, F, D-, D, D+) in any course required for the majors in dietetics, food and nutrition science or exercise science (including chemistry, biological sciences, statistics, or required electives) at The Florida State University or elsewhere, whether or not repeated, will not be permitted to graduate with a degree in food and nutrition or human sciences.
2. In order to graduate with a degree in food and nutrition or human sciences students must have a minimum GPA of 2.5.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for the dietetics major:

Dietetics

1. BSC X010;
2. BSC X085/X086 or BSC X085C/X086C or BSC X093C/X094C, or PET 3201C or HSC 3549 or PCB 3702;
3. CGS X060 or CGS X061;
4. CHM X200C or CHM X210/X210L and CHM X211/X211L;
5. CHM X045/X045L and CHM X046/X046L or CHM X030C or CHM X025C (**Note: CHM X030C and CHM X025C, each by itself, can substitute for CHM X045/X045L and CHM X046/X046L**);
6. ECO X013 or ECO X023 or ECO X000;
7. HUN X201 or NUR 1192;
8. MAC 1105 or MAC X142;
9. MCB 2004/2004L or MCB X020C or MCB X020/X020L or MCB X013C;
10. PSY X012 or PSY X020 or PSY X113.

A grade of "C-" or better is required in all courses to be counted toward the degree.

Core Program

1. **Liberal Studies.** Required courses which may be taken in fulfillment of liberal studies include: basic nutrition, general chemistry, organic chemistry, general psychology, family relationships, mathematics, and statistics.
2. **Graduation Requirements** (see the "Undergraduate Degree Requirements" section of this *General Bulletin*). For multicultural: HUN 2125 is recommended if the requirement is not satisfied with liberal studies. For computer skills: all majors require a similar course or certification (select BSC 2010L, if taken at FSU). For oral communication: HEE 4054 is certified.
3. **College of Human Sciences Core.** The college core is to be met by taking the following courses: HOE 3050, and FAD 2230 or HEE 4054.
4. **Core Courses required for all majors/options.** CGS 2060 (or equivalent such as BSC 2010L if taken at FSU); CHM 1045/1045L and 1046/1046L or CHM 1030; CHM 2200C or 2210; HUN 1201, 3224; MAC 1105 or better; BSC 2085/2086 or PET 3301C; STA 2122 or 3014; three (3) semester hours of electives in the department.

Bachelor of Science

The Department of Nutrition, Food and Exercise Sciences offers two bachelor of science degrees—Food and Nutrition and Human Sciences. To complete requirements for these degrees the following are required: 1) liberal studies requirements; 2) general graduation requirements for the University; 3) the preceding college core require-

ments; and 4) specific requirements for the area of emphasis chosen. Additional courses may be required to complete the one hundred twenty (120) semester hours required for the degrees. A minimum grade of "C–" or better must be earned for all required courses. A course may not be retaken more than twice (for a total of three times).

The following are the specific requirements for each major (or area of emphasis) within the degree of food and nutrition (dietetics, food and nutrition sciences) and human sciences (exercise science options).

Dietetics (General Option). Lower division: see liberal studies requirements, college and department core and common prerequisites. Upper division: BCH 3023C; DIE 3003, 4244, 4244L, 4315; FAD 4601; FOS 3026, 3026L, 4114C; FSS 4135, 4315; HUN 3226; three (3) semester hours of department electives. Students fulfilling DPD requirements must take FSS 4315L.

Dietetics (Sports Nutrition Option). Lower division: see liberal studies, college and department core, dietetics common prerequisites. Upper division: BCH 3023C; DIE 3003, 4244, 4244L, 4315; FAD 4601; FOS 3026, 3026L, 4114C; FSS 4135, 4315; HSC 2400; HUN 3224, 3226; PET 3361, 3380C. Students fulfilling DPD requirements must take FSS 4315L.

Dietetics (Gerontology Option). Lower division: see liberal studies, college and department core, dietetics common prerequisites; use ECO 2013 for economics. Upper division: BCH 3023C; DIE 3003, 4244, 4244L, 4315; FAD 4601; FOS 3026, 3026L, 4114C; FSS 4135, 4315; HUN 3224, 3226; PET 4076; ISS 4944r; plus six (6) semester hours from courses approved for the undergraduate Certificate in Aging Studies offered by the Pepper Institute on Aging. Students fulfilling DPD requirements must take FSS 4315L.

Food and Nutrition Science. Lower division: see liberal studies, college core plus: BSC 2010, 2010L; ECO 2013 or equivalent; CHM 1045, 1045L, 1046, 1046L, 2210, 2211, 2211L; HUN 1201; MAC 1113, 1140, 2311; MCB 2004, 2004L; PHY 2053C; PSY 2012; STA 2122 or 3014. Upper division: BCH 3023C; CHM 3120C; FOS 3022, 3022L, 4114C; HEE 4054; HUN 3224, 3226; PET 3301C or PCB 3063 or 3134; three (3) semester hours of food and nutrition electives.

Exercise Science (Exercise Physiology Option). Lower division: see liberal studies and college core plus: BSC 2010, 2010L, 2011, 2011L; CHM 1045, 1045L, 1046, 1046L, 2210, 2211; HUN 1201; MAC 1113, 1140; PHY 2053C, 2054C; PSY 2012; STA 2122. Upper division: BCH 3023C; HEE 4054, or FAD 4601; one (1) semester hour of HUN 4905r; PET 3102, 3301C, 3302C, 3380C, 4021, 4224C, 4384C; three (3) semester hours of department electives.

Exercise Science (Nutrition and Fitness Option). Lower division: see liberal studies and college core plus: CGS 2060; CHM 1030, 2200C, HSC 2400; MAC 1105 or better; PSY 2012; STA 2122 or 3014. Upper division: FOS 3395; HEE 4054; HUN 3224, 3226; HSC 4711;

PET 3102, 3301C, 3302C, 3368, 3380C, 3621, 4224C, 4384C; three (3) semester hours of department electives.

Exercise Science (Pre-Physical Therapy Option). Lower division: see liberal studies and college core plus: BSC 2010; 2010L, 2011, 2011L; CHM 1045, 1045L, 1046, 1046L, 2200C or 2210; HSC 2400; HUN 1201; MAC 1113, 1140; PHY 2053C, 2054C; PSY 2012; STA 2122. Upper division: FAD 4601; HUN 3224, 3226; HSC 4711; PET 3102, 3301C, 3302C, 3380C, 3621, 4021C, 4224C, 4623, 4076; three (3) semester hours of department electives.

Exercise Science (Athletic Training Option). Lower division: see liberal studies and college core plus: BSC 2010, 2010L; CHM 1030, 2200C; HSC 2400; HUN 1201; PSY 2012; STA 2122. Upper division: FAD 4601; HSC 4711; HUN 3224; PET 3102, 3301C, 3302C 3368, 3380C, 3621, 3627, 3633, 3660, 4021C, 4384C, 4623, 4632C, 4661. Students fulfilling clock hours for NATABOC certification must also take athletic training practicum hours as electives. See athletic training academic advisor.

Honors in the Major

The Department of Nutrition, Food and Exercise Sciences offers a program in honors in the major to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. Students complete a senior thesis which usually involves six (6) semester hours, and present an honors seminar. For requirements and other information, see "University Honors Program and Honor Societies" sections of this *General Bulletin* and your advisor.

Requirements for a Minor in Food and Nutrition or in Nutrition and Fitness

A minimum of twelve (12) semester hours are required for a minor. Students should be aware that many courses have additional prerequisites.

A minor in nutrition and food science must include HUN 1201; FOS 3395 or FOS 3022; plus any six (6) hours from PET 3361, FOS 4114C or any courses with prefixes HUN or DIE.

A minor in exercise science must include HUN 1201; PET 3301C, 3368, and 3380C, and any other upper-level PET course in the department.

Master's and Doctoral Degrees

The Department of Nutrition, Food and Exercise Sciences offers work leading to the master of science (MS) in nutrition and food science, the master of science (MS) in movement science, the doctor of philosophy (PhD) in hu-

man sciences, and the doctor of philosophy (PhD) in movement science. Consult the *Graduate Bulletin* for details.

Definition of Prefixes

DIE	—	Dietetics
FOS	—	Food Science
FSS	—	Food Service System
HSC	—	Health Education and Safety
HUN	—	Human Nutrition
PET	—	Physical Education Theory

Undergraduate Courses

Note: these courses are open to all majors. Please note prerequisites.

DIE 3003. Introduction to Dietetics (1). (S/U grade only.) An introduction to dietetics, the professional opportunities for registered dietitians, and the role of the American Dietetic Association in dietetics education and practice.

FOS 1003. Food Science and Technology (3). Introduces basic food science vocabulary, processing techniques, principles and quality control parameters, as well as professional opportunities. An elective course for nonmajors.

FOS 3395. Food and the Consumer (3). Prerequisites: CHM 1030; HUN 1201. Food composition, nutritional quality, and safety. Influence of food processing on food quality and safety. Consumer aspects of food including food selection, food management, and safety.

HSC 2400. First Aid (2). Successful completion allows students to earn American Red Cross certification in community first aid and safety. This includes adult CPR, child CPR, and first aid. In addition, OSHA recommendations, blood borne pathogen precautions and injuries will be discussed.

HUN 1201. The Science of Nutrition (3). Elements of nutrition and factors influencing the ability of individuals to maintain good nutrition status.

HUN 2125. Food and Society (3). Impact of society on human food ways, role of food and nutrition in national development and global politics. For nonmajors.

HUN 3412. Life Cycle Nutrition (3). Prerequisite: HUN 1201. Nutrition during pregnancy, lactation, and growth. Effects of nutrition on mother and child. Interrelationships of diet, nutrition, emotional development, behavior, stress and aging. Open to non majors.

PET 2084. Personal Fitness and Wellness (3). Integrates aspects of nutrition, diet, fitness and health/wellness for personal well being. This course cannot be used as a department elective.

PET 3102. Introduction to Exercise Sciences (1). (S/U grade only.) An introduction to fields of study and careers in areas of exercise physiology, motor behavior, athletic training, health and fitness, physical therapy. Students will examine preparation for careers, including the role of various accrediting organizations. Current professional issues will be discussed. This course is open to non-majors.

PET 3301C. Functional Anatomy and Physiology I (4). The study of the functional anatomy and physiology of the skeletal, muscular, cardiovascular, respiratory, digestive, urinary and endocrine systems, and part of the nervous system. This course serves as the first part of a two-semester sequence.

PET 3302C. Functional Anatomy and Physiology II (4). Prerequisite: PET 3301C. Continuation of a two semester sequence of functional anatomy and physiology which includes the integumentary, nervous, lymphatic, immune and reproductive systems.

Advanced Undergraduate Courses

DIE 4225C. Diet Assessment (2). Prerequisite: Senior status. This elective for dietetics majors focuses on diet assessment in the computer lab using commercially available software. Emphases include the strengths and weaknesses of diet surveys, methods of recording diet intake, food composition data and the standards used to judge adequacy.

DIE 4244. Nutrition in Disease (3). Prerequisites: HUN 3224 or BCH 3023, PET 3301C or BSC 3086. Corequisite: HUN 3225. Metabolism in disease and the adaptation of diet in the treatment or prevention of disease.

DIE 4244L. Nutrition in Disease Laboratory (1). Prerequisite: DIE 3003. Corequisite: DIE 4244. Application of the principles and concepts of nutrition therapy to meet nutrient, medical, social, and psychological needs of patients.

DIE 4315. Community Nutrition (3). Prerequisites: HUN 1201; DIE 3003. The planning, implementation, and evaluation of nutrition programs in the community; public nutrition policy formulation.

FOS 3026. Foods (3). Prerequisites: HUN 1201; CHM 1030. Introduction to the physiochemical properties of food and the relationship of these properties to preparation techniques and food quality. Management and service of food.

FOS 3026L. Foods Laboratory (1). Prerequisite or Corequisite: FOS 3022. Introduction to the physiochemical properties of food and the relationship of these properties to preparation techniques and food quality. Management and service of food.

FOS 4114C. Food Science (4). Prerequisites: CHM 2200C; FOS 3026, 3026L. Chemistry of foods and their behavior during processing. Assessment of food quality.

FOS 4914r. Tutorial in Food Science (1). (S/U grade only.) Small group discussions or project work. Topics selected in contemporary issues or current research. Maximum enrollment of ten (10) students per tutorial. May be repeated when topics change to a maximum of four (4) semester hours.

FSS 4135. Institutional Food Economics (3). Prerequisites: DIE 3003; ECO 2000 or 2013; FOS 3026. Cost analysis, cost containment, organizational structure, food laws, and food and beverage procurement in health care settings.

FSS 4315. Institutional Organization and Administration (3). Prerequisites: DIE 3003; FOS 3026. Managerial concepts and administration concerns involved with institutional food production.

FSS 4315L. Institutional Organization and Administration Laboratory (3). Prerequisites: FSS 4315, FOS 3026L and permission of instructor. Practical laboratory experience in the application of management concepts to institutional food administration.

HSC 4711. Wellness/Health Risk Reduction (3). Emphasis is on positive lifestyle practices to reduce one's risk for disease and for the maintenance of health and vitality. Topics include health behavior, stress, psychological health, chronic diseases, sexually-transmitted infections, immunology, and psychoactive substance use and abuse.

HSC 4999r. Tutorial in Health Promotion (1). (S/U grade only.) Small group discussions or project work. Topics selected in contemporary issues or current research. Maximum enrollment of ten (10) students per tutorial. May be repeated when topics change to a maximum of four (4) semester hours.

HUN 3224. Intermediary Metabolism of Nutrients I (3). Prerequisites: HUN 1201; CHM 2200C. Part of a two-semester sequence emphasizing the physiochemical role of carbohydrates, lipids, and proteins in metabolic pathways; their integration and regulation; bases for determining requirements for energy-yielding nutrients and energy and dietary standards; cell growth and body composition.

HUN 3226. Intermediary Metabolism of Nutrients II (3). Prerequisites: HUN 1201, BCH 3023C or HUN 3224, PET 3301 or BSC 3086. Part of a two-semester sequence. Emphasizes the physiochemical role of vitamins, minerals, and water in metabolic pathways; their integration and regulation; bases for determining requirements for vitamins, minerals, and water and dietary standards; nutrition surveys and evaluation of nutrition status.

HUN 3934r. Special Topics in Food and Nutrition (3–6). Prerequisite: HUN 1201. Topics in community nutrition, food science and technology, developmental and metabolic aspects of nutrition. May be repeated to a maximum of six (6) semester hours as content changes. Consult instructor.

HUN 4905r. Directed Individual Study (1–3). May be repeated to a maximum of six (6) semester hours.

HUN 4913r. Honors Thesis (3–6). May be repeated to a maximum of six (6) semester hours.

HUN 4914r. Tutorial in Nutrition (1). (S/U grade only.) Small group discussions or project work. Topics selected in contemporary issues or current research. Maximum enrollment of ten (10) students per tutorial. May be repeated when topics change to a maximum of four (4) semester hours.

HUN 4931. Honors Seminar (1).

HUN 4941r. Nutrition Practicum (1–4). (S/U grade only.) Prerequisites: HEE 4054, 2.50 GPA. Supervised field experience with a selected government or nongovernment agency at the local or state level. May be repeated to a maximum of four (4) semester hours.

PET 3361. Nutrition and Sports (3). Prerequisites: HUN 1201; PET 3301C. The effects of sports training upon individual nutrient stores and requirements. The effects of nutrient intake upon sports performance.

PET 3380C. Applied Exercise Physiology (4). Prerequisite: PET 3301C. The nature of muscular, metabolic, cardiovascular, and respiratory adjustment to acute and chronic exercise.

PET 3621. Athletic Training I (3). Prerequisite: HSC 2400; Corequisite: PET 3301C. Basic topics and issues pertaining to athletic training as established by the National Athletic Trainers Association. Treatment and rehabilitation of athletic injuries will be introduced.

PET 3627C. Therapeutic Exercise and Rehabilitation (2). Prerequisites: PET 3621, 4623. This course includes advanced principles of therapeutic exercise and rehabilitation related to athletic training and sports medicine. NATABOC competencies and proficiencies serve as a basis for this course, which includes advanced study in flexibility techniques, cardiorespiratory rehabilitation, isometric, isotonic, isokinetic applications, joint mobilizations, special bracing, taping and individual rehabilitation protocol.

PET 3633C. Orthopedic Joint and Extremity Assessment (2). Prerequisites: PET 3621, 3627C, 4623, 4632C. This advanced course provides upper-level students in athletic training with the opportunity to perform orthopedic exams for each joint studied. This includes history, inspection, palpation, functional, ligamentous, and neurological tests appropriate for each joint.

PET 3660. Administration of Athletic Training Programs (3). Prerequisite: PET 3621. This course will explore the aspects of athletic training organization and administration. Topics include program management, human resource management, athletic insurance, risk management, ethical consideration, pre-participation in physical exams and preparation of facility design.

PET 3932r. Special Topics in Wellness and Exercise Science (3–6). Topics in wellness, health promotion, exercise physiology, biomechanics and motor behavior. Consult instructor. May be repeated as content changes to a maximum of six (6) semester hours.

PET 3940r. Sports Medicine Practicum (0–3). Prerequisites: HSC 2400 or equivalent; permission of the instructor; 2.5 GPA. Provides the competencies and clock hours required for certification as an athletic trainer. Students must apply through the department, typically in the

spring of the freshman year. May be repeated with permission to a maximum of three (3) semester hours. Additional clock hours may be obtained without academic credit by registering for zero (0) hours.

PET 4076. Physical Dimensions of Aging (4). The course deals with the quality of life, individual differences as we age, physical decline of physiological systems (cardiovascular, muscular, joints, bone, neuromuscular), health, exercise, and well-being, and the pathology of aging. Assists students in developing an understanding of the physical aspects of aging to apply to settings such as physical therapy, sports medicine, and health and fitness programs in hospitals and retirement communities.

PET 4213. Success in Sports (3). Prerequisite: PSY 2012. The course will focus on profiles of elite athletes. Emphasis will be placed on inherited and acquired capacities for elite performance. Pertinent supporting factors which enhance performance will be studied.

PET 4224C. Motor Control and Learning (4). Prerequisite: PET 3301C. Examines theories, principles, and practical applications in motor control and learning. Attention is given to the physiological and psychological foundations of motor control and learning. The motor control and learning laboratory portion of this course constitutes one (1) credit of the four (4) credit course. Required for nutrition and fitness majors.

PET 4312C. Biomechanics (4). Prerequisite: PET 3301C. The course is structured into two major instructional units: foundations of human movement, and mechanical analysis of human motion. These units function to stimulate interest in quantitative biomechanics that integrates basic anatomy, physics, calculus and neurophysiology for the study of human movement. This knowledge will assist students in developing an understanding of the biomechanical principles to incorporate in applied settings such as physical therapy, sports medicine and health and fitness programs.

PET 4384C. Exercise Testing and Prescription (3). Prerequisite: PET 3380C. Course examines techniques of evaluation for physical fitness and health with a particular emphasis on aerobic capacity, flexibility, strength, and body composition and to design, implement, and administer programs for developing physical fitness and lifestyle changes.

PET 4623. Athletic Training II (3). Prerequisite: PET 3621. Advanced topics pertaining to athletic training. Evaluation, therapies and rehabilitation of athletic injuries. Required for NATABOC and CAAHEP.

PET 4632C. Therapeutic Modalities (3). Prerequisite: PET 3621. This course trains students in common physical therapy modalities employed by sports medicine. Where applicable, modalities of treatment will examine biophysical principles, effects of treatment, application techniques, and indications and contraindications to treatment. Safety is emphasized during instruction and practical experience.

PET 4661. Issues in Sports Medicine (3). Prerequisites: PET 3621, 4623. Course addresses advanced issues relevant to athletic training and sports medicine. Current topics include athletic training/sports medicine administration, athletic training/sports medicine pharmacology, advanced assessment techniques and orthopedic surgical observation.

PET 4914r. Tutorial in Exercise Physiology (1). (S/U grade only.) Small group discussions or project work. Topics selected in contemporary issues or current research. Maximum enrollment of ten students per tutorial. Repeatable to a maximum of four (4) semester hours when the topic changes.

PET 4948r. Practicum in Exercise Sciences (1–6). Prerequisites: 2.75 GPA; HSC 2400 or equivalent; PET 3380C; permission of instructor. Supervised field experience in exercise physiology or motor control. May include research, athletic training or, community fitness projects. May be repeated to a maximum of six (6) semester hours with permission of the instructor.

Graduate Courses

DIE 5248. Clinical Nutrition in the Treatment and Prevention of Disease (4).

FOS 5424. Food Preservation (3).

FOS 5930r.	Seminar in Food and Nutrition Science (1).	HUN 6248r.	Advances in Nutrition and Food Science (3–12).	PET 5389.	Cardiorespiratory and Anthropometric Evaluation and Development of Exercise Programs (3).
FOS 5936.	Selected Topics in Food Science and Technology (3).	HUN 6906r.	Directed Individual Study (1–6). (S/U grade only.)	PET 5930r.	Seminar in Movement Sciences (1).
FOS 6351C.	Physical and Chemical Techniques in Food and Nutrition (3).	HUN 6911r.	Supervised Research (3–6). (S/U grade only.)	PET 6339.	Neuromuscular Integration in Motor Skills (3).
FOS 6930r.	Seminar in Food and Nutrition Science (1).	HUN 6930r.	Food and Nutrition Seminar (1).	PET 6365.	Exercise and the Cardiorespiratory System (4).
HSC 5603.	Models of Health Behavior (3).	HUN 6940r.	Supervised Teaching (1–3). (S/U grade only.)	PET 6368.	Metabolic Responses to Exercise (3).
HUN 5242.	Carbohydrates, Fats, and Proteins (3).	HUN 8945r.	Supervised Field Experience (1–9). (S/U grade only.)	PET 6386.	Environmental Aspects of Exercise (3).
HUN 5243.	Vitamins and Minerals (3).	PET 5077.	Physical Dimensions of Aging (4).	PET 6930r.	Seminar in Movement Sciences (1).
HUN 5802.	Research Design and Methodology (2).	PET 5227.	Motor Memory (3).	PET 6931r.	Advanced Topics (1–4).
HUN 5802L.	Research Design and Methodology Laboratory (3).	PET 5228.	Motor Control (3).	PET 8945r.	Exercise Physiology Internship (1–9). (S/U grade only.)
HUN 5910r.	Supervised Research (1–3). (S/U grade only.)	PET 5235C.	Motor Skill Learning (3).		
HUN 5930r.	Food and Nutrition Seminar (1–4).	PET 5355C.	Advanced Exercise Physiology (3).		
HUN 5938r.	Special Topics in Nutrition (3).	PET 5367.	Nutrition and Exercise Performance (3).		

For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the *Graduate Bulletin*.

Department of OCEANOGRAPHY

COLLEGE OF ARTS AND SCIENCES

Chair: David Thistle; *Professors:* Burnett, Chanton, Clarke, Dewar, Hsueh, Iverson, Krishnamurti, Landing, Marcus, Nof, O'Brien, Stern, Thistle, Weatherly, Winchester; *Associate Professor:* Speer; *Assistant Professors:* Kostka, St. Laurent; *Director, Edward Ball Marine Laboratory:* Iverson; *Director, Women in Math Science, and Engineering Program:* Marcus; *Professor Emeritus:* Sturges

The Department of Oceanography offers no undergraduate major; however, undergraduate programs in the Departments of Chemistry and Biochemistry and Physics provide interdisciplinary options in oceanography. Undergraduates interested in pursuing a graduate degree in oceanography at The Florida State University may use the information below for proper preparation in each of the four areas of specialization in oceanography.

General Undergraduate Preparation. Students should complete one year of college physics (preferably with calculus), one year of college chemistry, and one year of calculus.

Specialty Undergraduate Preparation. Biological: one year of organic chemistry, bachelor of science (BS) or bachelor of arts (BA) in biology. Chemical: BS or BA in chemistry, differential equations. Geological: BS or BA in geology. Physical: BS or BA in physics, chemistry, geology, geophysics, meteorology, or mathematics, or a BS in engineering; intermediate or advanced mechanics; differential equations; advanced calculus, including vector calculus; partial differential equations.

Definition of Prefixes

ISC	—	Interdisciplinary Natural Science
MAP	—	Mathematics: Applied
OCB	—	Oceanography: Biological
OCC	—	Oceanography: Chemical
OCE	—	Oceanography
OCG	—	Oceanography: Geological
OCP	—	Oceanography: Physical
PEN	—	Physical Education Activities (General): Water, Snow, Ice
PSC	—	Physical Science

Undergraduate Courses

Elementary

ISC 2003. Global Change, Its Scientific and Human Dimensions (3). Prerequisites: Two years high school science, two years high school math. Global environmental change, scientific and human dimensions, and international public policy implications.

OCE 1001. Elementary Oceanography (3). Prerequisite: MGF 1106 or 1107. Structure and motion of the ocean and its environs, properties, populations, and energy budget. Not intended for upper-division science or mathematics majors. Upper-division science or mathematics majors are encouraged instead to take OCE 4011.

PSC 2800C. Earth Science for EC/EE Teachers (4). For a complete description, see interdisciplinary science courses listed in the "College of Arts and Sciences" section of this *General Bulletin*.

Science Preparatory

ISC 4931r. Special Topics in Environmental Science (1–3). Analyzes new scientific developments in the Earth's changing environment system and its links to human activities and policies. An emphasis on ocean, atmosphere, and terrestrial environments, and the human dimensions of their change will strengthen students' interdisciplinary understanding of environmental science. Specific topics will vary from year to year. May be repeated to a maximum of nine (9) semester hours.

OCE 4011. Principles of Oceanography (3). Prerequisite: A science major or minor. Dynamic motions and life processes in the marine environment. Long-term geologic history of the oceans and recent changes caused by man.

Advanced

OCB 4637. Marine Benthic Ecology (3). Prerequisite: ZOO 4203C or as a corequisite with permission of instructor. The physical setting and ecological organization of the communities found in the rocky intertidal, in the fouling habitat, on sandy beaches, in subtidal soft bottoms, and in the deep sea are presented through lectures, substantial reading, and class discussions.

OCC 4002. Basic Chemical Oceanography (3). Prerequisites: CHM 1046. Chemical composition of seawater, carbon dioxide system, nutrients, trace elements, and biogeochemistry.

OCE 4017r. Current Issues in Environmental Science (3). Taught at an introductory level, this class includes discussions of current ground-breaking research, environmental problems and approaches to solving them. This course consists of presentations by experts on their current research topics or environmental issues. May be repeated to a maximum of six (6) semester hours.

OCG 4050. Geological Oceanography (3). Structural and oceanographic setting of continents and ocean basins, plate tectonics, ocean margins, marine sediments, and ocean history.

Specialized Instruction

OCE 4905r. Directed Individual Study (1–3). (S/U grade only.) May be repeated to a maximum of ten (10) semester hours.

OCE 4906r. Directed Individual Study (1–4). Prerequisite: Consent of instructor. May be repeated, subject to limitations that may apply from the individual student's major departments, to a maximum of eighteen (18) semester hours.

OCE 4930r. Studies in Oceanography (1–4). Prerequisite: See instructor. Topics vary. May be repeated to a maximum of nine (9) semester hours when content changes.

PEN 1136. Theory and Practice of Compressed-Gas Diving (3). An introduction to the field of compressed-gas diving that exposes the students to the use of underwater technology and techniques in support of science.

Graduate Courses

Note: some graduate courses the department offers are open to advanced undergraduates with consent of the instructor. For more information, refer to the “Department of Oceanography” entry in the *Graduate Bulletin*.

Core Curriculum

- OCB 5050. Basic Biological Oceanography (3).
 OCC 5050. Basic Chemical Oceanography (3).
 OCG 5051. Basic Geological Oceanography (3).
 OCP 5050. Basic Physical Oceanography (3).

Biological Oceanography

- OCB 5515. Marine Microbiology (3).
 OCB 5565. Marine Primary Production (3).
 OCB 5566. Zooplankton Ecology (3).
 OCB 5600. Biological Fluid Dynamics (3). (S/U grade only.)
 OCB 5636. Marine Microbial Ecology (3).
 OCB 5639. Marine Benthic Ecology (3).

Chemical and Geological Oceanography

- OCC 5052. Aquatic Chemistry (3).
 OCC 5062. Marine Isotopic Chemistry (3).

- OCC 5065. Environmental Chemistry (3).
 OCC 5415. Marine Geochemistry (3).
 OCC 5416. Organic Geochemistry (3).
 OCC 5417. Geochemical Ocean Tracers (3).
 OCC 5554. Atmospheric Chemistry (3).
 OCG 5457. Stable Isotopes as Tracers in Aquatic Ecosystems (3).

Physical Oceanography

- MAP 5431. Introduction to Fluid Dynamics (3).
 MAP 6434r. Advanced Topics in Hydrodynamics (2).
 OCP 5056. Introduction to Physical Oceanography (3).
 OCP 5160. Ocean Waves (3).
 OCP 5253. Fluid Dynamics: Geophysical Applications (3).
 OCP 5255. Stability of Geophysical Fluid Flows (3).
 OCP 5259. Eddies and Rings as Heat-Exchange Mechanisms (3).
 OCP 5262. Coastal Ocean Dynamics (3).
 OCP 5263. Equatorial Dynamics (3).
 OCP 5265. Main Ocean Thermocline (3).
 OCP 5271. Turbulence (3).
 OCP 5285. Dynamic Oceanography (3).
 OCP 5551. Physics of the Air-Sea Boundary Layer (2).

Specialized Instruction and Seminar

- OCB 5930r. Special Topics in Biological Oceanography (1–3).
 OCC 5930r. Special Topics in Chemical Oceanography (1–3).
 OCP 5930r. Special Topics in Physical Oceanography (1–3).
 OCE 5009. Advanced General Oceanography (3).
 OCE 5419C. Advanced Biogeochemistry: Field Methods and Concepts (3).
 OCE 5908r. Directed Individual Study (1–12). (S/U grade only.)
 OCE 5910r. Supervised Research (1–5). (S/U grade only.)
 OCE 5940r. Supervised Teaching (1–5). (S/U grade only.)
 OCB 5939r. Biological Oceanography Seminar (1). (S/U grade only.)
 OCC 5939r. Chemical Oceanography Seminar (1). (S/U grade only.)
 OCP 5939r. Physical Oceanography Seminar (1). (S/U grade only.)

For listings relating to graduate course work for thesis, dissertation, and master’s and doctoral examinations and defense, consult the *Graduate Bulletin*.

Department of PHILOSOPHY

COLLEGE OF ARTS AND SCIENCES

Chair: Russell M. Dancy; *Professors:* Dancy, Hodges, Mele; *Associate Professors:* Dalton, Matthews, Morales, Rawling; *Assistant Professor:* Nahmias; *Visiting Professor:* Ruse; *Visiting Assistant Professor:* Maslen; *Courtesy Professor:* Levitz

The undergraduate program in philosophy is designed to enable students to gain an understanding of the substantive issues philosophers have struggled with through the ages. Students majoring in philosophy can expect to develop their abilities to engage in critical examination and evaluation. Such skills have proven to be of great value in almost any type of human endeavor. The program serves as a basis for professional training in other fields, such as law, education, politics, journalism, or theology; or as foundation for future professional training in philosophy. The department offers degrees at all levels.

The department participates in the honors program, as well as the undergraduate programs in the following departments or programs: American Studies, Humanities, Latin American and Caribbean Studies, Political Science, International Affairs, and Religion. In addition, it offers more than ten courses in the University’s Liberal Studies Program (see listing under Lib-

eral Studies Program, Area IV in the “Undergraduate Degree Requirements” section of this *General Bulletin*).

Students have considerable latitude to design the content of a major that meets their needs and interests. For example, a student might focus primarily on ethics; on social and political philosophy; on logic and philosophy of science; on the history of philosophy or some distinct period such as ancient, modern, or contemporary; on epistemology; or on cognitive studies. Many students will find it possible to combine a major in philosophy with a major in another discipline. The department welcomes such arrangements.

The department’s distinguished faculty is actively engaged in teaching, research, writing, publishing, and editing. Students majoring in philosophy can be assured that not only will they receive an excellent education in the history of philosophy but they will also have the opportunity to acquaint themselves with the latest developments in the discipline. The journal *Social Theory and Practice* is edited and published by the department.

The department offers regular colloquia in which local faculty, graduate students, and guests from other universities present papers and lead discussions on philosophical topics. In addition, the department regularly sponsors conferences; topics have included biomedical ethics, moral education, philosophy of language, Wittgenstein, Plato, Aristotle, Kant, ethical theory, history and philosophy of science in science teaching, hu-

man rights, Kantian themes in ethics, and philosophy and biology. Werkmeister conferences on a variety of topics are held annually.

The department offers monthly gatherings for undergraduate majors and prospective majors. These gatherings sometimes focus around talks dealing with either philosophical issues or concerns for majors; other gatherings simply allow majors to get to know each other and members of the faculty.

State of Florida Common Course Prerequisites

No statewide common course prerequisites have been identified for this program.

Though no statewide prerequisites are required, faculty in this program recommend that students take courses with the PHH, PHI, PHM or PHP prefix at the lower level.

Requirements for a Major in Philosophy

Please review all college-wide degree requirements summarized in the “College of Arts and Sciences” section of this *General Bulletin*. **Note:** the required courses listed below may be offered only once a year. Students should check with the department at least two semes-

ters before graduation to make sure they will have the opportunity to complete the requirements.

Thirty (30) semester hours in philosophy are required for the major, including the following:

1. **Logic (3 semester hours)**

PHI 3130 Introduction to Symbolic Logic (3)

2. **History of Philosophy (6 semester hours)**

Ancient Philosophy—one of:

PHH 3130 Plato and His Predecessors (3)

PHH 3140 Aristotle to Augustine (3)

and

Modern Philosophy

PHH 3400 Modern Philosophy (3)

3. **Ethics (3 semester hours)**

PHI 3670 Ethical Theory (3)

4. **Contemporary Metaphysics and Epistemology (3 semester hours). One of:**

PHI 3220 Introduction to Philosophy of Language (3)

PHI 3300 Knowledge and Belief (3)

PHI 3320 Philosophy of Mind (3)

PHI 4500 Metaphysics (3)

PHH 4600r Contemporary Philosophy (3)

5. **Seminar for Majors, to be taken in the junior or senior year (3 semester hours)**

PHI 4938r Seminar for Majors (3)

Additional requirements: At least twenty-one (21) semester hours in the major must be at the 3000 level or above; at least fifteen (15) semester hours must be completed in the philosophy department at The Florida State University; and completion of a minor.

Grades below “C–” will not be accepted for major or minor credit, nor will courses taken for “S/U” credit.

Requirements for a Minor in Philosophy

Twelve (12) semester hours in philosophy are required for the minor, including:

1. **Logic (3 semester hours). One of:**

PHI 2100 Reasoning and Critical Thinking (3)

PHI 3130 Introduction to Symbolic Logic (3)

2. **History (3 semester hours). One of:**

PHH 3130 Plato and His Predecessors (3)

PHH 3140 Aristotle to Augustine (3)

PHH 3061 Medieval and Renaissance Philosophy (3)

PHH 3400 Modern Philosophy (3)

PHH 3500 Nineteenth-Century Philosophy (3)

At least six (6) semester hours must be at the 3000 level or above. Students must receive a letter grade of “C–” or better in all courses that count toward the minor.

Minor in Political Philosophy

Twelve (12) semester hours in philosophy are required for the minor, including:

1. **Logic (3 semester hours). One of:**

PHI 2100 Reasoning and Critical Thinking (3)

PHI 3130 Introduction to Symbolic Logic (3)

2. **Nine (9) semester hours from:**

PHM 2121 Philosophy of Race, Class and Gender (3)

PHM 2300 Introduction to Political Philosophy (3)

PHM 3123 Philosophy of Feminism (3)

PHM 3331r Modern Political Thought (3)

PHM 3350 Introduction to Marxist Philosophy (3)

PHM 3400 Philosophy of Law (3)

PHM 4340r Contemporary Political Thought (3)

At least six (6) semester hours must be at the 3000 level or above. Students must receive a letter grade of “C–” or better in all courses that count toward the minor.

Honors in the Major

Honors work in the major is offered to encourage talented juniors and seniors to undertake independent and original research. Successful completion of honors work results in honors credits and graduation with distinction. For requirements and other information, see the “University Honors Program and Honor Societies” section of this *General Bulletin*.

Definition of Prefixes

PHH — Philosophy: History
PHI — Philosophy
PHM — Social and Political Philosophy
PHP — Philosophers and Schools

Undergraduate Courses

PHI 2010. Introduction to Philosophy (3). An introduction to some of the central problems in philosophy. Students will also learn how to construct and criticize arguments, and develop their own philosophical positions.

PHI 2100. Reasoning and Critical Thinking (3). An introductory logic course intended to provide students with an understanding of and practice in using reasoning to support conclusions and decisions. The course emphasizes acquisition of the skills necessary to draft clear, persuasive arguments and is particularly useful for those planning further studies in fields such as Law or Business.

PHI 2620. Environmental Ethics (3). An examination of environmental issues past and present, and how they have made an impact upon contemporary society. Also analyzes the historical development of environmental perspectives and the ethical theories that have been generated by these approaches.

PHI 2630. Ethical Issues and Life Choices (3). A course that will draw on ethical theories to explore the major ethical issues that one faces as one makes decisions about the kinds of activities to engage in and the kind of life to lead. Issues such as those involving life and death (e.g., abortion, euthanasia, animal rights) and social justice (e.g., discrimination, responsibility to future generations) will be examined.

PHI 2635. Biomedical Ethics (3). A study of the controversial ethical issues that arise within the practice of medicine and within biomedical research. Case studies and thought experiments will be used to explore the moral and professional responsibilities of those working in the medical profession.

PHI 3130. Introduction to Symbolic Logic (3). An examination of the fundamentals of modern symbolic logic (propositional and predicate calculi), with special attention to the evaluation of symbolized arguments using the techniques of natural deduction. Topics include validity, soundness, proof, symbolization, truth-tables, truth-trees, and truth-functional and quantificational inference.

PHI 3220. Introduction to Philosophy of Language (3). An exploration of major philosophical contributions to the understanding of language and its functions in communication. Discussion of the concepts of meaning, truth, reference, understanding, and interpretation. Readings include classics of 20th century philosophy.

PHI 3300. Knowledge and Belief (3). A critical analysis of contemporary theories about the fundamentals of human knowledge: what ought to count as knowledge; how we get it; the roles of certainty, doubt, and skepticism; and the means by which we might maximize it.

PHI 3320. Philosophy of Mind (3). Analysis of central issues in the philosophy of mind. Topics may include: the mind-body problem, the unity of the mind, the nature of consciousness, artificial intelligence, and free will.

PHI 3400. History and Philosophy of Science (3). A close look at some of the crucial philosophical problems of the sciences as they have developed throughout history, from Aristotle through Galileo, Pasteur, and Einstein, including what methods count as scientific, along with a consideration of how science has changed the world and the role of values.

PHI 3420. Philosophy of the Social Sciences (3). A study of the special methodological and value problems that arise when human beings engage in the scientific study of themselves as groups and individuals.

PHI 3641. Business Ethics (3). An identification and a discussion of defensible solutions for moral and ethical problems as they arise in the conduct of business and economic transactions. International business settings and the ethical problems arising from the need to design products and services that appeal to diverse national and world populations are considered.

PHI 3670. Ethical Theory (3). A study of the nature of morality and moral reasoning through critical analyses of the writings of classical and contemporary ethical theorists directed to answering the questions, “What is good?” and “What ought I to do?”

PHI 3700. Philosophy of Religion (3). Analysis of major issues in philosophy of religion. Topics may include the rationality of religious belief, faith, religious experience, religious language, evil, the relation between religion and morality. Also offered by the Department of Religion.

PHI 3800. Philosophy of the Arts (3). An introduction to central issues in philosophy of the arts and aesthetics. Topics may include the nature of beauty, the nature of art, realism in painting, interpretation in literature, the nature of dance, and expressiveness in music. Readings include both historical and contemporary sources.

PHI 3881. Philosophy of Music (3). An introduction to the contemporary literature regarding the philosophy of music. Questions posed include: What is music? Does music express emotions? How is music to be evaluated? How does one "understand" music? Why can cross-cultural understanding of music be difficult? What constitutes an authentic performance?

PHI 3882. Philosophy in Literature (3). An exploration of how metaphysical and moral ideas function within the structure of selected novels and plays.

PHI 3930r. Selected Topics (1–3). (S/U grade only.) May be repeated to a maximum of three (3) semester hours.

PHI 4134. Modern Logic I (3). Prerequisite: PHI 3130, equivalent, or permission of instructor. An intermediate course in modern symbolic logic, with special attention to the semantic evaluation of symbolized arguments. Topics include schemata and interpretation, models, satisfiability, normal forms, expressive completeness, proof procedures, metalogical laws, soundness and completeness theorems.

PHI 4137. Modern Logic II (3). Prerequisite: PHI 4134. An advanced course in modern symbolic logic. Topics discussed include the compactness theorem, the logic of identity, names and descriptions, second-order logic, type theory, the ancestral, the Frege-Russell definition of natural number, and Gödel's incompleteness results.

PHI 4500. Metaphysics (3). Critical consideration of recent philosophical work from a variety of points of view on the question of what exists, for example: matter, mind, time, space, universal properties, causes, and essences.

PHI 4905r. Directed Individual Study (1–3). May be repeated to a maximum of six (6) semester hours.

PHI 4912r. Honors Work (3). May be repeated to a maximum of twelve (12) semester hours.

PHI 4930r. Philosophical Problems (3). An examination of selected philosophical problems from an advanced point of view. May be repeated to a maximum of nine (9) semester hours.

PHI 4938r. Seminar for Majors (3). Variable-content seminar for majors to do in-depth work in selected philosophical topics/areas and to practice writing a substantive philosophical paper. May be repeated once with permission of instructor to a maximum of six (6) semester hours.

PHI 4999r. Tutorial in Philosophy (1–3). Critical readings and discussions of important classical and contemporary philosophical texts. Variable content. Variable credit: one to two (1–2) semester hours for a reading course; two to three (2–3) semester hours for a reading course with substantial writing. Repeatable with permission of instructor to a maximum of twelve (12) semester hours.

History of Philosophy

PHH 3061. Medieval and Renaissance Philosophy (3). A survey of Western philosophy from the third to the 16th century, beginning with the work of Christian, Jewish, and Arabic philosophers, and then turning to the rise of humanism, individualism, and science.

PHH 3130. Plato and His Predecessors (3). Ancient Greek philosophy from its beginnings to the work of one of its greatest practitioners. Questions posed include: What is there? What can I know about it? What should I do?

PHH 3140. Aristotle to Augustine (3). Philosophy from the "Master of Those Who Knew" (Aristotle) through to the end of the ancient world and the dominance of Christianity. Topics include: the structure of the World-Order, God, Man's place.

PHH 3400. Modern Philosophy (3). A critical study of the theories of 17th- and 18th-century Western philosophers through a careful examination of representative texts from both the empiricist and rationalist traditions.

PHH 3500. 19th-Century Philosophy (3). An exploration of the diverse styles, ideas, and systems of such philosophers as Hegel, Kierkegaard, Schopenhauer, Marx, Mill, Bradley, and Nietzsche.

PHH 3700r. American Philosophy (3). An examination of major trends in American philosophy from Jonathan Edwards through 19th- and 20th-century American idealism and the pragmatic movement with emphasis on Peirce, James, and Dewey. May be repeated once with the permission of the instructor to a maximum of six (6) semester hours.

PHH 4600r. Contemporary Philosophy (3). The main recent philosophical movements are surveyed through selected central representatives. Those considered may include Frege and his background, Russell and Moore, early Wittgenstein, logical positivists and their successors, Husserl and his phenomenology, Heidegger, Sartre, later Wittgenstein and his successors. May be repeated with permission of instructor to a maximum of nine (9) semester hours.

Social and Political Philosophy

PHM 2121. Philosophy of Race, Class and Gender (3). Concentration on contemporary philosophical discussions of race, class, and gender. Topics include the analysis of key institutions (e.g., work, the economy, family, education) and social issues (e.g., identity, sexuality, violence, social change).

PHM 2300. Introduction to Political Philosophy (3). An introduction to the main issues in political philosophy: the justification of political authority, role of law, political obligation, neocolonialism, disobedience, revolution, rights, the appropriate ends of government, patterns of distribution and justice.

PHM 3123. Philosophy of Feminism (3). A comprehensive survey of the most important schools of thought and issues in feminist philosophy, with emphasis on feminist politics and ethics. Liberal, socialist, Marxist, and radical feminism and their differing views about equality and subjection are discussed. Criticisms of now traditional theories from women of color and of "difference" theorists are analyzed. Also considered are problems of particular concern to feminists: the family, sexuality, occupational freedom, harassment, rape, pornography, and domestic violence.

PHM 3331r. Modern Political Thought (3). Major political ideas of the modern world emphasized through a study of selected political theorists such as Machiavelli, Hobbes, Locke, Rousseau, Hume, Burke, Hegel, Marx, Engels, Bentham, Mill, Jefferson, Madison, Lenin, and Mussolini. May be repeated to a maximum of nine (9) semester hours. Also offered by the Department of Political Science.

PHM 3350. Introduction to Marxist Philosophy (3). A critical overview of the premises and theses of Marxism concerning the understanding of history, economic realities, political struggles, and ideologies as found in the principle works of its founders.

PHM 3400. Philosophy of Law (3). A comprehensive survey of the most important schools of thought, traditional problems, and current issues in Anglo-American philosophy of law. Chief theories discussed are natural law, positivism, realism (including the law and economics movement), and critical legal studies (including race and gender theory). Also explored are different views about the interpretation of law and the role of the judiciary in American politics. Includes analysis of legal cases and consideration of issues such as justice, equality, liberty, privacy, and punishment.

PHM 4340r. Contemporary Political Thought (3). An exploration of a set of issues, a trend, or a school of thought in contemporary political philosophy. May be repeated to a maximum of nine (9) semester hours. Also offered by the Department of Political Science.

Philosophers and Schools

PHP 3786r. Existentialism (3). An introduction to existential philosophy through detailed and critical analysis of selected major works in the field with special attention to Heidegger and/or Sartre. May be repeated to a maximum of nine (9) semester hours.

PHP 4930r. Studies in Major Philosophers (3). A detailed study of a major philosopher (e.g., Plato, Aristotle, Kant, etc.) or school of philosophy (e.g., the Stoics, the Marxists). May be repeated to a maximum of nine (9) semester hours.

Graduate Courses

- PHH 5105r. Greek Philosophy (3).
- PHH 5405r. Modern Philosophy (3).
- PHH 5505r. 19th-Century Philosophy (3).
- PHH 5609r. Contemporary Philosophy (3).
- PHH 6009r. Studies in the History of Philosophy (3).
- PHI 5135. Modern Logic I (3).
- PHI 5136. Modern Logic II (3).
- PHI 5908r. Directed Individual Study (1–3). (S/U grade only.)
- PHI 5913r. Supervised Research (1–5). (S/U grade only.)
- PHI 5934r. Topics in Philosophy (3).
- PHI 5945r. Supervised Teaching (1–5). (S/U grade only.)
- PHI 5955r. Seminar in Advanced Philosophical Writing (1). (S/U grade only.)
- PHI 5956. Introduction to Philosophical Methods (3).
- PHI 5971r. Thesis (1–6). (S/U grade only.)
- PHI 5998r. Tutorial in Philosophy (1–3).
- PHI 6205r. Philosophical Logic (3).
- PHI 6225r. Philosophy of Language (3).
- PHI 6306r. Epistemology (3).
- PHI 6325r. Philosophy of Mind (3).
- PHI 6406r. Philosophy of Science (3).
- PHI 6425r. Philosophy of Social Sciences (3).
- PHI 6506r. Metaphysics (3).
- PHI 6607r. Ethics (3).
- PHI 6808r. Aesthetics (3).
- PHI 6935r. Seminar in Philosophical Topics (3).
- PHI 6960r. Preliminary Examination Preparation (3). (S/U grade only.)
- PHI 6980r. Dissertation (1–12). (S/U grade only.)
- PHM 6205r. Social and Political Philosophy (3).

Department of PHYSICS

COLLEGE OF ARTS AND SCIENCES

Chair: Kirby Kemper; *Associate Chair:* Van Winkle; *Professors:* Baer, Berg, Brooks, Cottle, Crow, Dagotto, Dennis, Duke, Edwards, Fisk, Hagopian, Kemper, Kimel, Manousakis, Moreo, W. Moulton, Owens, Petrovich, Prosper, Rikvold, Riley, Robson, Schlottman, Schrieffer, Skofronick, Tabor, Van Winkle, von Molnar, Wahl; *Associate Professors:* Blessing, Bonesteel, Capstick, Dobrosavljevic, Lind, Ng, Shaheen; *Assistant Professors:* Adams, Cao, Eugenio, Piekarewicz, Reina, Xiong, Yang; *Visiting Assistant Professors:* Hong, Wiedenhofer; *Professors Emeriti:* Albright, Desloge, Fletcher, Fox, Hunt, Kromhout, G. Moulton, Philpott, Plendl, Sheline, Testardi

The Florida State University's Department of Physics offers many exciting programs and opportunities for students interested in learning physics. Our physics curriculum is flexible, structured according to the student's long-range goals, and provides a solid foundation for future graduate work or immediate employment opportunities. Interdisciplinary degree options are available and many students pursue double majors which include physics. There are many reasons students seek the challenges and rigors which come from making physics a part of their undergraduate studies. Those who do find themselves in a field which both expands their abilities and provides them with an immense feeling of accomplishment. Perhaps the most important benefits gained from physics training are the confidence and the ability to tackle complex technical problems. As a result of this training, physicists find themselves capable of contributing in many professions.

Physics is the foundation of all sciences and has been the pursuit of some of the greatest minds in all history including Aristotle, Galileo, Newton, Maxwell, Einstein, and Dirac. Their discoveries and quest for knowledge form the foundation of our physics program. This proud tradition and passion for inquiry has produced a modern professional community of physicists whose contributions are continually expanding and changing our society. Whether it is on the end of the spaceboom fixing the Hubble space telescope, creating and developing the World Wide Web, searching for the fundamental fabric of our universe, exploring safer and more reliable ways to diagnose and treat illnesses, or finding new and better ways to live, you will always find physicists on the frontier. So if you enjoy mathematics and science and are ready for a challenge, you should make physics a part of your education.

The internationally recognized faculty includes many who have earned prestigious awards for their research and teaching, including the Nobel prize. The faculty believe that the quality of teaching, at all levels, is enhanced by a strong research program. Undergraduates, graduate students, and post-doctoral fellows

participate in all aspects of research in physics at The Florida State University. In fact, most undergraduate physics majors participate in research projects and many are co-authors on publications. This research includes strong programs in the areas of computational, experimental and theoretical physics in high energy, nuclear, condensed matter, and atomic and molecular physics. There are also many opportunities for interdisciplinary research, particularly in the Center for Materials Research and Technology (MARTECH), the National High Magnetic Field Laboratory (NHMFL), the School of Computational Science and Information Technology (CSIT), the Institute of Molecular Biophysics (IMB), and, as a separate degree program, in Chemical Physics.

Available experimental facilities include: a 9.5 MV Super FN Tandem Van de Graaff accelerator with superconducting post accelerator, 3- and 4-MV Van de Graaffs, electron spin resonance and electron double nuclear resonance spectrometers, a detector development laboratory for high-energy particle detectors, liquid helium refrigerators, thin film preparation facilities including sputtering and laser ablation, ultrahigh vacuum instrumentation including surface analysis (LEED, Auger, optical) and molecular beam epitaxy, synthesis and characterization facilities for novel materials, three X-ray diffractometers with various sample stages for high and low temperature studies, multi-sample analysis and small angle studies, scanning electron, tunneling and optical microscopies with image analysis, SQUID and vibrating sample magnetometers, and a helium atom surface scattering facility. The NHMFL provides a modern infrastructure enabling research in magnetic fields including the highest powered DC fields in the world, mainly used for materials science research; and facilities providing the highest fields in the world for nuclear, ion cyclotron and electron magnetic resonance spectrometers as well as magnetic resonance imaging.

Computers are an integral part of almost all research programs in the department. The computational infrastructure is upgraded continuously to keep pace with advances in technology. The department is fully connected to the Internet, and maintains a Physics Instructional Computer Laboratory (PICL) for students. In addition to using computers in research, students are expected to utilize numerical methods for problem solving in their course work.

Programs Offered

The Department of Physics offers programs leading to the following degrees: bachelor of science (BS), bachelor of arts (BA), master of science (MS), and doctor of philosophy (PhD). There is a targeted, five (5) year program of study leading to both BS and MS degrees in computational physics. An undergraduate interdisciplinary program designed to prepare students to work in areas that combine physics with other fields. The departmental course offerings include courses for non-science majors, courses

for nonphysical science majors, courses for K-12 educators, and courses for physical science majors. Honors work is available. Details may be obtained from the chair of the department.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for these University degree programs. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

Physics

1. CHM 1045/1045L or CHM 1040 and CHM 1041 or CHM 1045C or CHM 1045E;
2. CHM 1046/1046L or CHM 1046C or CHM 1046E;
3. MAC 2311 or MAC X281;
4. MAC 2312 or MAC X282;
5. MAC 2313 or MAC X283;
6. PHY 2048/2048L or PHY 2048C;
7. PHY 2049/2049L or PHY 2049C.

Interdisciplinary Physics Program

1. CHM 1045/1045L or CHM 1040 and CHM 1041 or CHM 1045C and CHM 1045E;
2. CHM 1046/1046L or CHM 1046C or CHM 1046E;
3. MAC 2311;
4. MAC 2312;
5. Choose **between** the CHM or PHY sequence:
 - a) CHM 2210/2210L and CHM 2211/2211L or CHM 2210C and CHM 2211C;

Or

- b) PHY 2048/2048L and PHY 2049/2049L or PHY 2048C and PHY 2049C or PHY 2053C and PHY 2054C.

Requirements

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*.

A brochure stating degree requirements in detail and containing outlines of undergraduate programs that will meet all departmental and

University requirements is available from the departmental undergraduate affairs office. Students expecting to major in physics or in the interdisciplinary program in physics should obtain this brochure as soon as possible.

The University Oral Competency Communication requirement may be satisfied by taking PHY 3091 Communications in Physics or PHY 4990r Senior Seminar.

Physics Program

A major is required to take general physics A (PHY 2048C or 2048/2048L), general physics B (PHY 2049C or 2049/2049L), intermediate mechanics (PHY 3221), intermediate modern physics (PHY 3101), mathematical physics (PHZ 3113), intermediate electricity and magnetism (PHY 4323), thermal and statistical physics (PHY 4513), quantum theory of matter A (PHY 4604), intermediate laboratory (PHY 3802L), advanced laboratory (PHY 4822Lr), and at least three of the following courses: optics (PHY 3424), advanced dynamics (PHY 4241), quantum theory of matter B (PHY 4605), computational physics (PHZ 4151C), physics of stars (AST 4217), particle and nuclear (PHZ 4390), condensed matter physics (PHY 4XXX). A major must also complete PHY 4990r, one semester of general chemistry (CHM 1045/1045L or CHM 1050/1050L), mathematics through differential equations (MAP 2302) or engineering mathematics I (MAP 3305), calculus III (MAC 2313), and satisfy the language requirement with French, German, Japanese, or Russian.

Students who are planning to conduct graduate work in physics are strongly advised to include advanced dynamics (PHY 4241), and, if possible, quantum theory of matter B (PHY 4605) in their programs.

No physics course with a grade below "C-" may be used to satisfy the above requirements.

In addition to satisfying the above requirements, the student must satisfy the general requirements of both the College of Arts and Sciences and the University with the exception that a minimum of one hundred twenty-four (124) semester hours rather than one hundred twenty (120) semester hours is required for graduation.

The Department of Physics will withhold acceptance as a physics major until the student, in consultation with one of the upper-division physics advisers, has laid out an acceptable program of studies.

Interdisciplinary Program in Physics

The interdisciplinary program in physics is designed to prepare a student for work in areas which combine physics with other fields, such as management, high school teaching, medi-

cine, political science, oceanography, environmental sciences, philosophy, computer science, and others.

An interdisciplinary physics major is required to take the following:

1. General physics A (PHY 2048C or 2048 and 2048L), general physics B (PHY 2049C or 2049 and 2049L), intermediate modern physics (PHY 3101);
2. At least three of intermediate mechanics (PHY 3221), intermediate electricity and magnetism (PHY 4323), optics (PHY 3424), mathematical physics (PHZ 3113), medical physics (PHZ 3701), thermal and statistical physics (PHY 4513), quantum theory of matter A (PHY 4604), quantum theory of matter B (PHY 4605), computational physics (PHZ 4151C);
3. Intermediate laboratory A (PHY 3802L), and at least one (1) additional hour of laboratory credits from among the following courses (where the number of laboratory credits associated with each course is indicated after the course number): intermediate laboratory B (PHY 3803L [1]), advanced laboratory (PHY 4822Lr 2]), computational physics (PHZ 4151C);
4. A mathematics minor is required that must include mathematics through differential equations (MAP 2302) or engineering mathematics I (MAP 3305), plus an additional three (3) hours of credit at the 3000 level or greater;
5. One semester of general chemistry (CHM 1045/1045L or CHM 1050/1050L);
6. A suitable set of courses in some discipline other than physics. The number and nature of these courses must be individually arranged and approved in advance by the committee of physics advisers.

No physics course with a grade below "C-" may be used to satisfy the above requirements.

The Department of Physics will withhold acceptance as an interdisciplinary physics major until the student, in consultation with one of the upper-division physics advisers, has laid out an acceptable program of studies.

Computational Physics BS/MS Program

This five-year program is designed to train graduates in physics and computing. By combining a rigorous physics program with extensive instruction in computer science and computational physics, students acquire formal and practical training in both physics and computing. Consequently, they are prepared for scientific and technical jobs requiring extensive software development and/or computing.

At the end of five years students have obtained a bachelor of science degree with a major in physics, a dual minor in computer science and mathematics, and a master of science degree in physics. Students may select either a thesis or a non-thesis MS program.

Minor

The required mathematics for all physics programs is sufficient to constitute an acceptable minor in mathematics, but a student who so desires may take some other approved minor.

Honors in the Major

The Department of Physics offers a program in honors in the major to encourage talented juniors and seniors to undertake independent research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Minor in Physics

To obtain a minor in physics a student is required to take general physics A (PHY 2048C or 2048), general physics B (PHY 2049C or 2049), and at least one of the following courses: intermediate modern physics (PHY 3101), intermediate mechanics (PHY 3221), intermediate electricity and magnetism (PHY 4323), optics (PHY 3424), thermal and statistical physics (PHY 4513). Grades below "C-" will not be accepted for a minor.

PSC	—	Physical Science

Undergraduate Courses

ISC 3121. Science, Technology, and Society (3).

SCE 4939r. Seminar in Contemporary Science, Mathematics, and Science Education (1).

Note: for descriptions of the above courses, see interdisciplinary science courses listed in the "College of Arts and Sciences" section of this *General Bulletin*.

Courses for Non-Science Majors

AST 1002. Planets, Stars, and Galaxies (3). Introductory astronomy. Basic astronomical concepts; gravitation and other cosmic forces; planets, moons, and other components of the solar system; nature and evolution of the sun and of other stars; structure of galaxies and of the universe as a whole. (Astronomy for liberal studies.)

AST 1002L. Introductory Astronomy Laboratory (1). Corequisite: AST 1002. Elective laboratory to accompany AST 1002. One period per week for two (2) hours. Experiments, measurements, and observations of planetary, stellar, galactic, and extragalactic astronomy. (Astronomy laboratory for liberal studies.)

AST 3033. Recent Advances in Astronomy and Cosmology (3). Prerequisites: a course in astronomy and fulfillment of the basic math requirement, or consent of instructor. Modern concepts and recent discoveries such as black holes, quasars, and the Big Bang.

PHY 1020. Fundamentals of Physics (3). A liberal studies course for the non-science major with a minimum of mathematics. Survey of light, mechanics, electricity, and magnetism and an introduction to atomic, nuclear and subnuclear physics with emphasis on how the physicist approaches the problem of describing nature. A qualitative, descriptive approach is used. Cannot be taken for credit by students who already have credit in PHY 2048C, 2053C, or equivalent.

PHY 1020L. Fundamentals of Physics Laboratory (1). Corequisite: PHY 1020. Elective laboratory to accompany PHY 1020. One period per week for two (2) hours. Experiments in mechanics, optics, electricity, and magnetism. (Liberal studies laboratory.)

PHY 2464. Physical Basis of Music (3). A study of musical sound using basic physical principles. Applications to musical instruments, room acoustics, and high-fidelity systems.

College Physics for Non-physical Science Majors

PHY 2053C. College Physics A (4). Prerequisites: MAC 1140 and 1113 with grades of "C-" or better; or appropriate score on a mathematics placement examination. Corequisite: CHM 1045. An introduction to mechanics, heat, and waves for non-physical science majors. Examples from biology, geology and medicine are incorporated. First course in a two-semester sequence. Calculus not required. Two lectures, one recitation, and one laboratory each week. Students who have previously received credit for PHY 2048C may not register for PHY 2053C. (Must sign up for PHY 2053L.)

PHY 2053L. College Physics A Laboratory (0).

PHY 2054C. College Physics B (4). Prerequisite: PHY 2053C or 2048C. An introduction to electromagnetism, light, and modern physics for non-physical science majors. Two lectures, one recitation, and one laboratory each week. Students who have previously received credit for PHY 2049C may not register for PHY 2054C. (Must sign up for PHY 2054L.)

PHY 2054L. College Physics B Laboratory (0).

PHZ 3701. Medical Physics (3). Corequisite: PHY 2054C or 2049C. Applications of physics in physiology and medicine.

Physics for K–12 Educators

PHY 4012C. Physics for Science Teachers A (3). Intended for pre-service and in-service middle and high school science teachers who are not seeking certification in physics. Forces, work and mechanical energy, linear momentum, centripetal force, gravity, and rotational motion waves. Labs are incorporated into class time. Cannot be used toward the requirements for the degree in physics.

PHY 4013C. Physics for Science Teachers B (3). Prerequisite: PHY 4012C. The second semester of the introductory physics sequence intended for pre-service and in-service middle and high school science teachers who are not seeking certification in physics. Electricity, magnetism, light, atomic physics, nuclear science, and the physics of stars. Cannot be used toward the requirements for the degree in physics.

PHY 4120C. Physics of the 20th Century (3). Prerequisites: PHY 2049C, 2054C, or 4013C. Experimental observations that have led to the development of quantum mechanics, relativity and modern theories of the creation of the universe will be explored. The course is descriptive rather than emphasizing the mathematical power of current physics theories. Laboratory work will be an integral part. Designed for pre- and in-service high school teachers. Can be used for science credit for science education majors in masters and doctoral degree programs, but not for a major or minor in physics.

PSC 2801C. Physical Science for EC/EE Teachers (4). This course is designed for prospective elementary and early childhood education majors. The course integrates physics and chemistry with the laboratory integral to the course. Students will work in groups in a hands-on, minds-on approach to learning physical science.

General Physics for Physical Sciences

PHY 2048C. General Physics A (5). Corequisite: MAC 2311. An introduction to mechanics, waves, and thermodynamics for physical science majors, designed to be taken as a sequence with PHY 2049C. Calculus is used. Course consists of lectures, recitations, and laboratory. A student who has taken PHY 2053C or an equivalent course may take PHY 2048 rather than 2048C. (Must sign up for PHY 2048L.)

PHY 2048. General Physics A without Laboratory (3). Same course as PHY 2048C, except that the student does not take the laboratory. May only be taken by students who have passed PHY 2053C or an equivalent course.

PHY 2048L. General Physics A Laboratory (0).

PHY 2049C. General Physics B (5). Prerequisite: PHY 2048C or 2048 with a grade of "C" or better, or consent of instructor. Corequisite: MAC 2312. An introduction to electricity, magnetism, and optics for physical science majors. Calculus is used. Course consists of lectures, recitations, and laboratory. A student who has taken PHY 2054C or an equivalent course may take PHY 2049 rather than 2049C. (Must sign up for PHY 2049L.)

PHY 2049. General Physics B without Laboratory (3). Same course as PHY 2049C, except that the student does not take the laboratory. May only be taken by students who have passed PHY 2054C or an equivalent course.

PHY 2049L. General Physics B Laboratory (0).

Required Courses for Majors

PHY 3101. Intermediate Modern Physics (3). Prerequisite: PHY 2049C. Special relativity. Quantum properties of light and matter, origins of the universe.

PHY 3221. Intermediate Mechanics (3). Prerequisite: PHY 2048C. Corequisite: MAP 2302 or 3305. Principles and applications of the Newtonian mechanics of particles and systems of particles. Noninertial reference frames, simple and damped harmonic motion, central force motion, motion of a rigid body in a plane.

PHY 4323. Intermediate Electricity and Magnetism (3). Prerequisites: PHY 2049C; PHZ 3113. Electrostatics, magnetostatics, time-varying electric and magnetic fields, Maxwell's equations.

PHY 4513. Thermal and Statistical Physics (3). Prerequisite: MAC 2313. Corequisite: PHY 3101. The fundamental laws of thermodynamics and their application to simple systems. The kinetic theory of an ideal gas. An introduction to the classical and quantum statistical mechanics of weakly interacting systems.

PHY 4604. Quantum Theory of Matter A (3). Prerequisites: PHZ 3113; PHY 3101. Quantum mechanics and its applications to particles, nuclei, atoms, molecules, and condensed matter.

PHZ 3113. Mathematical Physics (3). Prerequisite: PHY 2049, 2049C, or 2054C. Corequisite: MAP 2302 or 3305. Mathematical methods applied to physical systems; vectors, specialized techniques of integration, integral transforms, special functions, boundary-value problems, numerical methods.

Elective Courses

AST 4217. The Physics of Stars (3). Prerequisite: PHY 3221. Corequisite: PHY 4604. This course serves as an introduction to star formation, evolution, and death through simple theoretical modeling and through a strong emphasis on the underlying physics concepts.

PHY 3424. Optics (3). Prerequisite: PHY 2049C. Geometrical optics, wave optics, optical instrumentation, properties of light, lasers, fiber optics.

PHY 4241. Advanced Dynamics (3). Prerequisites: PHY 3221, 4323. This course examines a variety of topics including Hamiltonian dynamics and electrodynamics of particles, waves in continuous media, relativistic dynamics, and electrodynamics of particles.

PHY 4605. Quantum Theory of Matter B (3). Prerequisite: PHY 4604. Quantum mechanics and its applications to particles, nuclei, atoms, molecules, and condensed matter.

PHZ 3400. Phenomena in Condensed Matter Physics (3). Topics to be covered in this course include crystal structures, phonons and thermal properties, electron energy bands, metals, semiconductors, superconductors, and magnetism.

PHZ 4390. Particle and Nuclear Physics (3). Prerequisites: PHY 4323, 4604. This course will examine the properties of nuclei and particles, nuclear and particle decays, the Standard Model, and accelerator and detector techniques.

PHZ 4601. Special and General Relativity (3). Prerequisites: PHY 3221, 4323. This course examines the following topics: special theory of relativity; tensor analysis and curvature; general theory of relativity; experimental tests; black holes; gravitational radiation; and cosmology.

Intermediate, Advanced, and Computational Laboratories

PHY 3802L. Intermediate Laboratory A (1). Corequisite: PHY 3101. Experiments in optics, modern physics, and electricity and magnetism. The emphasis is on the development of experimental technique, assessment of the validity of experimental data, and on the development of skill in the written presentation of results.

PHY 3803L. Intermediate Laboratory B (1). Prerequisite: PHY 3802L. Experiments in atomic spectroscopy, mechanics, radio-frequency and microwave measurements, vacuum technique, and data accumulation with microprocessors. The area of emphasis is arranged between the student and the instructor.

PHY 4822Lr. Advanced Laboratory (2). Prerequisite: PHY 3802L. Experiments in atomic physics, nuclear physics, and other areas of modern physics. Students are expected to work without detailed instructions. The course may be repeated to a maximum of six (6) semester hours for special projects arranged in advance between the student and the instructor.

PHZ 4151C. Computational Physics Laboratory (3). Prerequisites: COP 2000; MAP 3305; PHY 2049C. An introduction to the use of computers to solve computationally intensive problems, including basic instruction in physics problem solving using numerical solutions of differential equations, numerical integration, Monte Carlo methods, linear algebra and symbolic algebra. Provides instruction in computational techniques and software development skills and practice in using network and software development tools including telnet, ftp, spreadsheets, databases, code management tools, and the World Wide Web.

Research and Special Topics

PHY 3936r. Special Topics in Physics (1–3). (S/U grade only.) May be repeated to a maximum of twelve (12) semester hours.

PHY 3949r. Cooperative Work Experience (0). (S/U grade only.)

PHY 4905–4908r. Directed Individual Study [one to three (1–3) hours each]. Each course may be repeated to a maximum of eighteen (18) semester hours.

PHY 4910r. Research Participation (2). Projects in theoretical or experimental physics arranged in advance between the student and a member of the teaching faculty of the physics department. May be repeated to a maximum of eight (8) semester hours.

PHY 4936r. Special Topics in Physics (3). Prerequisite: Senior standing or permission of instructor. Advanced applications of physics to topics of interest, such as relativity, astrophysics, particle physics, advanced solid state physics, or advanced nuclear physics. Offered on demand. May be repeated to a maximum of twelve (12) semester hours.

PHY 4937r. Undergraduate Tutorial in Physics (1–3). (S/U grade only.) Prerequisite: Upper division undergraduate standing. Selected topics in modern physics. Examination of primary research literature. May be repeated to a maximum of fifteen (15) semester hours. A maximum of eight (8) students allowed in each tutorial.

PHY 4970r. Honors Work (3). May be repeated to a maximum of eighteen (18) semester hours.

PHY 4975. Senior Thesis (1). Prerequisite or Corequisite: PHY 4910. A written report and an oral presentation discussing research work done under PHY 4910. The grade is assigned by a committee of three faculty members.

PHY 4990r. Senior Seminar (1). Prerequisite: PHY 3101. Corequisites: PHY 3091 and 4910r. Students present results of their physics research to the class for discussion. May be repeated to a maximum of two (2) semester hours.

Other Courses

PHY 1090. Discovering Physics (1). This course serves as the introduction to the exciting work currently being done by physicists. Topics include the physics and the day-to-day work done to answer questions in elementary particle physics, nuclear physics, and condensed matter physics.

PHY 3091. Communication in Physics (2). Prerequisite: PHY 2048. Corequisite: PHY 2049. Instruction and practice in oral communications for physicists. Students will choose physics topics in consultation with instructor and present them to the class.

PHY 3092r. Readings In Physics (1). Readings in physics topics of current or historical interest beyond the core content of PHY 2048 and 2049. May be repeated to a maximum of two (2) semester hours.

PHY 4222. Advanced Mechanics (3). Prerequisite: PHY 3221. Kinematics and dynamics of rigid bodies, introduction to Lagrangian and Hamiltonian mechanics, dynamics of oscillating systems.

PHY 4324. Advanced Electricity and Magnetism (3). Prerequisite: PHY 4323. Applications of Maxwell's equations, electromagnetic waves, and radiation.

Graduate Courses

PHY 5083C, 5084C. Physics in the Secondary Science Classroom A, B (3,3).

PHY 5142. Current Topics in Physics: Part II (3).
 PHY 5154C. Visualization and Symbolic Application Methods in Physics (3).
 PHY 5157. Advanced Numerical Applications in Physics (3).
 PHY 5158C. Management of Scientific Computations (3).
 PHY 5226. Intermediate Mechanics (3).
 PHY 5227. Advanced Mechanics (3).
 PHY 5246. Theoretical Dynamics (3).
 PHY 5326. Intermediate Electricity and Magnetism (3).
 PHY 5327. Advanced Electricity and Magnetism (3).
 PHY 5346, 5347. Electrodynamics A, B (3, 3).
 PHY 5515. Thermal and Statistical Physics (3).
 PHY 5524. Statistical Mechanics (3).
 PHY 5607r, 5608r. Quantum Theory of Matter (3, 3).
 PHY 5645, 5646. Quantum Mechanics A, B (3, 3).
 PHY 5657. Group Theory and Angular Momentum (3).
 PHY 5667. Quantum Field Theory (3).
 PHY 5669. Quantum Field Theory B (3).
 PHY 5670. Quantum Mechanics C (3).
 PHY 5846C. Techniques in Experimental Physics (3).
 PHY 5904r. Directed Individual Study (3).
 PHY 5909r. Directed Individual Study (1–12). (S/U grade only.)

PHY 5918r. Supervised Research (1–6). (S/U grade only.)
 PHY 5920r. Colloquium (1). (S/U grade only.)
 PHY 5930. Introductory Seminar on Research (1). (S/U grade only.)
 PHY 5940r. Supervised Teaching (1–6). (S/U grade only.)
 PHY 6165. Issues in Advanced Physics (3).
 PHY 6935r. Advanced Seminar (1). (S/U grade only.)
 PHY 6937r. Selected Topics in Physics (1–3).
 PHY 6938r. Special Topics in Physics (3). (S/U grade only.)
 PHY 6941r. Graduate Tutorial in Physics (1–3). (S/U grade only.)
 PHZ 5156C. Computational Physics Laboratory (3).
 PHZ 5305. Nuclear Physics I (3).
 PHZ 5307. Nuclear Physics II (3).
 PHZ 5354. High-Energy Physics I (3).
 PHZ 5355. High-Energy Physics II (3).
 PHZ 5491. Condensed Matter Physics I (3).
 PHZ 5492. Condensed Matter Physics II (3).
 PHZ 5606. Special and General Relativity (3).

For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the *Graduate Bulletin*.

PHYSIOLOGY: see Biological Science

Department of POLITICAL SCIENCE

COLLEGE OF SOCIAL SCIENCES

Chair: Dale L. Smith; *Professors:* Atkins, Barrilleaux, Berry, Crew, Flanagan, Glick, G. Parker, Ringquist, Scholz; *Associate Professors:* Carsey, Claggett, Hensel, Jackson, Kemp, Kim, Mondak, Moore, S. Parker, Smith; *Assistant Professors:* Canache, Lubell, Martin, Mitchell, Powers; *Professors Emeriti:* Bone, Dye, Flory, Gray, Palmer, Rody, St. Angelo, Vanderoef; *Affiliated Faculty:* Feiock

The political science major offers an undergraduate education in the liberal arts tradition, preparing the graduate for a variety of careers by emphasizing the acquisition of skills in communication and analysis; and by encouraging independent thought, tolerance, and informed interest in current affairs. More specifically, the study of political science provides background for careers in government at the local, state, and national levels; in international organizations; political campaigns; interest groups and lobbying organizations; journalism; business; and the law.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. Two introductory courses (six [6] semester hours) in political science with the POS, INR or CPO prefix.

Requirements for a Major in Political Science

A political science major consists of thirty (30) semester hours in political science with a grade of "C–" or better in each course, with the following restrictions:

- at least twenty-one (21) semester hours in courses numbered 3000 and above;
- at least twenty-one (21) semester hours in an assembled classroom (as distinguished from individual credit for honors, directed studies, and internships); and
- at least twelve (12) semester hours in an assembled classroom at The Florida State University (including the study abroad program).

The political science program includes six sub-fields of study: American government (course prefix is POS), comparative politics (CPO), international relations (INR), political theory (POT; PHM 2300, PHM 3331r and PHM 4340r can be counted as POT courses), public policy (PUP), and public administration (PAD) — PAD courses are listed under the School of Public Administration. Interdisciplinary social science courses (ISS)

may count as political science courses if the instructor is a faculty member in political science. The instructor will stipulate the political science subfield for which the course should be counted.

Majors must take at least three introductory courses, choosing from: CPO 2002, INR 2002, POS 1041, POS 2001, PUP 3002, PAD 3003, and either POT 3003 or PHM 2300 (but not both). **Note:** CPO 2002, INR 2002, POS 1041, and PUP 3002 are prerequisites to most of the upper-level courses in their respective subfields.

Majors also must take at least six (6) semester hours in any three subfields. The introductory courses listed above can be counted toward this subfield requirement.

POS 3713, Understanding Political Science Research is required of all majors.

Political science majors are required to have a minor or second major and to meet the requirements stipulated by that department or program. Public administration is not permitted as a minor because classes in that area count toward the political science major.

Honors in the Major

The department offers a program of honors in the major to encourage qualified juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Internships

An optional internship in political science is designed to allow students to earn up to six (6) semester hours of credit in political science while also garnering practical experience in government and politics. The prerequisites for internship are: completion of at least sixty (60) semester hours; completion of fifteen (15) semester hours in political science with a "C-" or better, including POS 3713; a grade point average of 3.0 overall in political science courses; permission from the internship director.

For complete details interested students should contact the department.

Requirements for a Minor in Political Science

Students majoring in other departments or programs may minor in political science with fifteen (15) semester hours of political science with grades of "C-" or better. A maximum of six (6) semester hours of PAD and PHM prefixes combined may be counted toward the minor. At least nine (9) semester hours must be at the 3000 level or above, and at least six (6) of those must be earned at The Florida State University.

Definition of Prefixes

CPO	—	Comparative Politics
INR	—	International Relations
PHM	—	Philosophy of Man and Society
POS	—	Political Science

PUP	—	Public Policy
SYD	—	Demography and Area Studies

Undergraduate Courses

American Government

POS 1041. American Government: National (3). Investigates how the national government is structured and how the American political system operates. Covers the philosophical and constitutional foundations of American government, the branches of the national government, the mechanisms by which citizens are connected to their government, and the policy outputs of government.

POS 1112. American Government: State and Local (3). A study of the organization, functions, and policies of governments below the national level (state, county, and city).

POS 3122. State Politics (3). Prerequisite: POS 1041 or consent of instructor. Government and politics in the American states. Looks at the governor, the legislature, and the courts; the history of federalism; and policies, practices, and social institutions that affect state government. Includes a study of state policies in such areas as welfare, education, crime, and the environment.

POS 3142. Urban Politics (3). Prerequisite: POS 1041 or consent of instructor. Examines the structure and operation of city governments and the political forces that drive decision making. Includes an examination of different forms of local government and the role of political parties, interest groups, and individuals. Examines the varying social and economic factors affecting U.S. cities.

POS 3182. Florida Government (3). Prerequisite: POS 1041 or consent of instructor. The history and current organization of Florida government — the executive, legislative, and judicial branches. Considers such topics as the Florida Constitution, how Florida compares to other state governments, and the effects of interests outside state government.

POS 3204. Public Opinion and Electoral Behavior (3). Prerequisite: POS 1041 or instructor permission. This course explores political attitudes and behavior. It examines such topics as the sources of political knowledge; how political attitudes are formed and changed; how public opinion is measured; and why people vote the way they do.

POS 3263. Political Elites and Representation (3). Prerequisite: POS 1041 or consent of instructor. Considers the major areas related to representation in American government: how public officials are elected, the nature of their interactions with citizens, how policy is made at the national level, and the level of popular control.

POS 3443. Political Parties and Campaigning (3). Prerequisite: POS 1041 or consent of instructor. Course describes, explains, and evaluates the structure, activities, and functions of political parties in the United States. Examines party organization and leadership, nominations and elections, the American electorate, and political campaigning.

POS 3463. Interest Groups in Democratic Politics (3). Prerequisite: POS 1041 or consent of instructor. The activities of lobbyists and interest groups in the U.S. and Florida as they relate to the initiation, formulation, enactment, and interest group administration of public policies.

POS 3691. Introduction to Law and Society (3). Prerequisite: POS 1041 or consent of instructor. Course surveys the American legal system including the role of lawyers; sources and types of law; and courts, legislatures, executive agencies, and other law-making institutions. Also links law and legal behavior to the social, economic, and political features of modern society. (Required for students in the Law and Society Program.)

POS 3931r. Special Topics in Government (1–3). Prerequisite: POS 1041 or consent of instructor. Varies with the instructor and semester. May be repeated to a maximum of nine (9) semester hours.

POS 4210. Economic Interpretations of American Politics (3). Prerequisite: POS 1041 or consent of instructor. Introduces students to economic interpretations of American politics in a nonmathematical fashion, critically evaluating these explanations against empirical research on constitution making, bureaucratic behavior, congressional decision making, electoral choice, the behavior of political parties and interest groups, and public policy outcomes.

POS 4275. Political Campaigns (3). Prerequisite: POS 1041 or consent of instructor. The planning and administration of electoral campaigns for students interested in campaign participation as volunteers or professionals.

POS 4284. Courts, Law, and Politics (3). Prerequisite: POS 1041 or consent of instructor. Survey of the judicial system and its links to politics in the United States. Covers the U.S. Supreme Court, other federal courts, and state and local courts. Topics include legal education and law careers, role of lawyers in court, selection of judges, how civil and criminal cases get to and through the courts, plea bargaining, judicial decision-making, and court-made public policy.

POS 4413. The American Presidency (3). Prerequisite: POS 1041 or consent of instructor. The evolution and power of the American presidency and the relations of the President with the branches of government. Also offered by the School of Public Administration and Policy.

POS 4424. Legislative Systems (3). Prerequisite: POS 1041 or consent of instructor. Congress and the behavior of its members. Includes the recruitment and election of members of Congress, the functioning of party leaders and congressional committees, the influences on congressional policy-making, and the sources of stability and change in Congress.

POS 4606. The Supreme Court in American Politics (3). Prerequisite: POS 1041 or consent of instructor. Reviews the political role of the Supreme Court with particular attention to case law concerning judicial review, commerce power, federalism, and presidential and legislative power.

POS 4624. The Supreme Court, Civil Liberties, and Civil Rights (3). Prerequisite: POS 1041 or consent of instructor. Reviews recent interpretations of the Bill of Rights and 14th Amendment case law with special attention to freedom of expression, equal protection, and criminal due process rights.

Comparative Politics

CPO 2002. Introduction to Comparative Government and Politics (3). Addresses government institutions and current political parties throughout the world, as well as theories that explain similarities and differences among countries. Topics may include electoral systems, parliamentary systems, causes of political change, democratization, political culture, ideologies, and economic and social policy. Examples from Western democracies, the third world, and current or former communist countries.

CPO 3034. Politics of Developing Areas (3). Prerequisite: CPO 2002 or consent of instructor. Course examines how economic and social conditions affect politics and government in Africa, Asia, Latin America, and/or the Middle East. Typical topics include theories of economic development, cultural influences on politics, religious and ethnic conflict, changing roles of women in the developing world, foreign aid, causes and consequences of poverty, causes of revolution, environmental policies, military regimes, and corruption.

CPO 3103. Comparative Government and Politics: Western Europe (3). Prerequisite: CPO 2002 or consent of instructor. Political behavior and institutions in Britain, Germany, France, and other European countries and transnational developments in Europe, such as the postindustrial society phenomenon, terrorism, Eurocommunism, and European federation.

CPO 3123. Comparative Government and Politics: Great Britain (3). Prerequisite: CPO 2002 or consent of instructor. The political and governmental system of Great Britain within a comparative framework. Comparison and contrast with the United States emphasized.

CPO 3303. Politics of Latin America (3). Prerequisite: CPO 2002 or instructor consent. Course examines Latin American politics after the mid-20th century. Examines the historical, economic, and international contexts in which Latin American political systems function, and identifies challenges to democracy and development. The specific Latin American countries covered will vary.

CPO 3403. Comparative Government and Politics: The Middle East (3). Prerequisite: CPO 2002 or consent of instructor. The political systems of the Middle East and their social, economic, and cultural foundations.

CPO 3512. Political Development in East Asia (3). Prerequisites: CPO 2002 or instructor permission. This course provides a comprehensive look at the events and people shaping Asian-Pacific history since the mid-18th century, and relates them to the shape of current Pacific Basin relations. The western colonial impact on and the subsequent political development of eleven northeast and southeast Asian countries is covered including: China, Hong Kong, Japan, Korea, Taiwan, Singapore, the Philippines, Indonesia, Malaysia, Thailand and Vietnam.

CPO 3520. Emerging Democracies in Northeast Asia: Korea, Taiwan, Japan (3). Prerequisite: CPO 2002 or instructor permission. An introduction to politics in Korea, Taiwan, and Japan. Looks at 20th century political developments to better understand contemporary events in these countries. Deals with political issues such as electoral systems, party systems, "economic miracles", the process of democratization, the potential future role of these countries in world affairs, North Korean nuclear development, and unification of the Korean Peninsula.

CPO 3541. Politics of China (3). Prerequisite: CPO 2002 or consent of instructor. An introduction to the politics of the People's Republic of China, its political history and contemporary organization. Covers such topics as Chinese communism, the Cultural Revolution, the post-Mao era, the two Chinas, and popular movements and reform. Also examines current issues.

CPO 3553. Politics of Japan (3). Prerequisite: CPO 2002 or consent of instructor. Japanese society and culture, political behavior, and political institutions. Also included are Japan's foreign relations with the United States, China, the former Soviet Union, and Southeast Asia.

CPO 3614. East European Politics (3). Prerequisite: CPO 2002 or consent of instructor. Examines the past and future of East Europe, focusing on the political, social, and economic legacies of the pre-World War I and inter-war periods, and the Stalin and post-Stalin periods. The collapse of communism and the democratization process are also examined.

CPO 3930r. Special Topics in Comparative Government and Politics (1–3). Prerequisites: CPO 2002 or consent of instructor. Topics vary with the instructor and semester. May be repeated to a maximum of nine (9) semester hours.

CPO 4057. Political Violence (3). Prerequisite: CPO 2002 or instructor permission. Course introduces the student to scholarly writing on violent political conflict. Reviews theories of guerilla struggle and counter-insurgency, as well as the philosophy of non-violent direct action and several theories of conflict resolution. Course also explores the human costs of political violence.

International Relations

INR 2002. Introduction to International Relations (3). Introduces students to the study of international relations. Major topics include the different actors that participate in international relations and the different goals they pursue, the processes of conflict and cooperation, and recent trends in international politics.

INR 3004. Geography, History, and International Relations (3). Prerequisite: INR 2002 or instructor permission. Course introduces students to the impact of geography and history on international relations and considers the ways these forces influence national and international processes. Topics include the role of geography in international

economics and trade, regional integration, geopolitics, territorial and resource disputes, and how decision-makers learn from history.

INR 3502. International Organization (3). Prerequisite: INR 2002 or consent of instructor. Course covers the role of global and regional international organizations in contemporary world politics. Special emphasis is placed on the United Nations system, including its structure, activities, influence, and role in world integration.

INR 3603. Theories of International Relations (3). Prerequisite: INR 2002 or consent of instructor. This course provides a more detailed examination of the process of international relations than the introductory course. Topics include the major approaches to foreign policy decision making, prominent explanations of international conflict, and process of international economics.

INR 3771. Domestic Politics and International Relations (3). Prerequisite: INR 2002 or permission of instructor. Course explores the influence of the political, economic, and social structures of nation-states on international relations, both in the area of military conflict and international economic relations.

INR 3933r. Special Topics in International Relations (1–3). Prerequisites: INR 2002 or consent of instructor. Topics vary with the instructor and semester. May be repeated to a maximum of nine (9) semester hours.

INR 4083. International Conflict (3). Prerequisite: INR 2002 or consent of instructor. This course examines historical patterns in warfare, and considers the conditions that influence war and peace between nation-states. Topics include causes of war, outcomes and aftermath of war, and approaches to peace.

INR 4102. American Foreign Policy (3). Prerequisite: INR 2002 or consent of instructor. The role of the U.S. President, State Department, Congress, Central Intelligence Agency, and Defense Department in making foreign policy. Examines the decision-making process and domestic sources of foreign policy, such as the electorate, public opinion, interest groups, and the media. Looks at the past and the future of American foreign policy with an emphasis on current issues.

INR 4244. Studies in International Politics: Latin America (3). Prerequisite: INR 2002 or consent of instructor. Latin America in the international political system, with emphasis on the United States and Latin America.

INR 4274. Studies in International Politics: The Middle East (3). Prerequisite: INR 2002 or consent of instructor. Developments in the international politics of the Middle East and North Africa, historical background to Middle Eastern conflicts, wars and crises with a focus on the Arab-Israeli conflict.

INR 4334. American Defense Policy (3). Prerequisite: INR 2002 or consent of instructor. The evolution and organization of American defense policy as well as an assessment of its current capabilities.

INR 4702. Political Economy of International Relations (3). Prerequisite: INR 2002 or consent of instructor. Course examines the interaction between politics and economics in international relations. Topics covered include international trade, the global monetary system, multinational corporations, regional integration, and economic development.

Public Policy

PUP 3002. Introduction to Public Policy (3). An introduction to the development of public policy in the United States. Covers main policy areas including housing, education, the economy, etc.

PUP 3323. Women and Politics (3). Prerequisite: POS 1041 or instructor permission. Course surveys the relations between gender and politics, governance, and public policy. Looks at the impact of government policies on socialization and how this socialization influences political participation. Topics include vote choice, women as candidates and in elective office, women as appointees, and the differential impact of public policies on women and men. Focuses as well on the racial and ethnic differences among women with respect to participation, vote choice, recruitment, and behavior once in office.

PUP 4024. Interest Groups, Social Movements, and Public Policy (3). Prerequisite: PUP 3002 or instructor permission. Course examines the varied effectiveness of interest groups and movements on public policy formation, with emphasis on resources, organizational structure, ideology, strategies, and tactics.

PUP 4103. Politics of Taxing and Spending (3). Prerequisite: PUP 3002 or instructor permission. Examines public budgeting in the broadest sense of the term, through the study of taxing and spending policy in the U.S. Examines various models of fiscal choice that provide alternative perspectives for evaluating and explaining the spending and taxing choices of government.

PUP 4203. Environmental Politics and Policy (3). Prerequisite: PUP 3002 or instructor permission. This course focuses on the actions taken by government to protect and improve environmental quality in the United States. It includes such topics as the underlying scientific principles, the major actors in policy making, existing legislation, and future challenges. Background in science is not necessary.

PUP 4744. Public Policy and Business (3). Prerequisites: POS 1041; PUP 3002. A survey and analysis of public policies affecting business and industry.

PUP 4931r. Special Topics in Public Policy (1–3). Prerequisite: PUP 3002 or consent of instructor. Policy alternatives and the policy-making process on a specific contemporary policy question in America, e.g., science research and development, energy, regulation, taxes, environment. Varies with the instructor and semester. May be repeated to a maximum of nine (9) semester hours.

Political Theory

PHM 3331r. Modern Political Thought (3). Major political ideas of the modern world emphasized through a study of selected political theories, attention to differentiating modern from ancient and medieval political thought. Also offered by the Department of Philosophy.

PHM 4340r. Contemporary Political Thought (3). Emphasis on a selected set of issues, trend, or school of thought in contemporary political philosophy. Also offered by the Department of Philosophy.

POT 2502. Politics and Ethics (3). Study of conflicts between power and traditional ideas of morality and ethics.

POT 3003. Introduction to Political Thought (3). Study of the writings of several major political theorists of the past that explore the major issues that define the field of political theory.

POT 3075. Culture and Politics (3). Values, beliefs, and symbols—in short, culture—underlie and energize the processes of politics and government. Covers the analysis of those social and cultural forces that often structure or determine political events.

POT 3102. Political Thought in Fiction (3). An inquiry into politics and political thought as they appear in fiction, including literature, cinema, theatre, and television.

POT 4004. Values and Politics: Conflicting World Views and the Issues that Divide Us (3). Prerequisite: any one of: CPO 2002; POS 1041, 2001; POT 3003; PUP 3713; or instructor permission. Explores the historical evolution of three competing world views—theism, modernism and postmodernism—beginning in the Middle Ages. Course links this evolution in Western thought to shifting perspectives in how Americans view their world, especially after 1960. The resulting conflict in world views has given rise to a new agenda of value-based issues that are presently eclipsing the traditional economic issues in public debate. Through class discussions and debates the following issues will be covered: abortion, euthanasia, religion in the schools, pornography, homosexuality, teenage pregnancy, minority rights, feminism, substance abuse, criminal justice, the environment, and personal privacy.

POT 4205. American Political Thought I (3). Course explores and analyzes the major thinkers of American political thought from its beginnings up to the Civil War period. Included topics are Puritanism, the American Revolution, the making and ratifying of the Constitution, Jeffersonian and Jacksonian democracy, the nature of the union, and the issue of slavery.

POT 4206. American Political Thought II (3). Course explores and analyzes the major thinkers and major themes in American political thought from the post Civil War period to the present. Included topics are social Darwinism, Populism, Progressivism, the New Deal and its critics, and post World War II political thought.

POT 4904r. Readings in Political Thought (3). Issues or topics in the general area of political theory determined through consultation between instructor and student. May be repeated to a maximum of nine (9) semester hours.

Others

POS 2001. Introduction to Political Science (3). An introduction to the discipline of political science involving an examination of its major sub-fields, concepts, and methodologies.

POS 3713. Understanding Political Science Research (3). Prerequisite: Any one of the following—POS 1041; CPO 2002; INR 2002; PUP 3002; POT 3003; or consent of instructor. Doing political science as opposed to reading it. Includes introductory examinations of survey research, computer applications, data analysis, and philosophy of science. Required for all political science majors.

POS 3930r. Advanced Undergraduate Seminar (1–3). Prerequisite: At least twelve (12) semester hours of political science or consent of instructor. Seminar on topics of major theoretical or policy relevance to political scientists. Opportunity for discussion and instructor interaction. Topic varies. May be repeated to a maximum of six (6) semester hours.

POS 3949r. Cooperative Education Work Experience (0). (S/U grade only.) Prerequisite: POS 1041 or consent of instructor.

POS 4715. Politics and the Theory of Games (3). Prerequisites: One of the following—CPO 2002; INR 2002; POS 1041, and completion of the mathematics liberal studies requirements. Course discusses elementary theories of individual and group decision-making which are used to analyze various political phenomena such as the arms race, legislative politics, majority rule in democracies, voting and elections, and coalition governments.

POS 4905r. Directed Individual Study (1–3). Prerequisite: At least twelve (12) semester hours of political science or consent of instructor. Involves some combination of research, reading, writing, field study, other scholarly activities, and evaluation. May be repeated to a maximum of twelve (12) semester hours.

POS 4935r. Honors Work (3). When offered as a seminar, selected topics are used to develop outstanding scholarship; also offered for individual students engaged in senior honors thesis. Contact the department for details on prerequisites and requirements. May be repeated to a maximum of twelve (12) semester hours.

POS 4941r. Internship (1–6). Prerequisites: Completion of at least sixty (60) semester hours, completion of twelve (12) semester hours in political science with a “C–” or better, completion of POS 3713 with a “C–” or better, a grade point average of 3.0 overall in political science courses; permission from the internship director. For complete details interested students should contact the department.

Graduate Courses

Comparative Politics

- CPO 5036. Politics of Developing Areas (3).
CPO 5091. Core Seminar in Comparative Government and Politics (3).
CPO 5127. Seminar in Comparative Government and Politics: Great Britain (3).

- CPO 5407. Seminar in Comparative Government and Politics: The Middle East (3).
CPO 5557. Seminar in Comparative Government and Politics: Japan (3).
CPO 5644. Russian Politics (3).
CPO 5740. Comparative Political Economy (3).
CPO 5934r. Selected Topics (3).
CPO 6910. Advanced Research in Comparative Politics (3).

International Relations

- INR 5007. Seminar in International Relations: International Politics (3).
INR 5036. International Political Economy (3).
INR 5037. Development, Dependence, and Inequality (3).
INR 5090. Rational Choice and International Relations (3).
INR 5265. Russian Foreign Policy (3).
INR 5275. Middle East Foreign Policy (3).
INR 5315. Foreign Policy Analysis (3).
INR 5934r. Selected Topics (3).
INR 6910. Advanced Research in International Relations (3).

American Government

- POS 5032r. Seminar in American Government and Public Policy: Selected Topics (3).
POS 5045. Seminar in American Government and Public Policy: National Government (3).
POS 5127. State Government and Politics (3).
POS 5208r. Selected Topics in Political Behavior (3).
POS 5227. The Executive (3).
POS 5237. Seminar in American Government and Public Policy: Public Opinion (3).
POS 5274. The Campaign Process (3).
POS 5277. Electoral Politics (3).
POS 5287. Seminar in American Government and Public Policy: Judicial Politics (3).
POS 5427. Legislative Politics (3).
POS 5456. Interest Groups and Policy (3).
POS 5698r. Selected Topics (3).
POS 5724. Economic Models of American Politics (3).
POS 6910. Advanced Research in American Government (3).

Methods of Political Analysis

- POS 5726. Social Choice Theory (3).
POS 5736. Research Design (3).
POS 5737. Political Science Data Analysis (3).
POS 5746. Quantitative Analysis in Political Science (3).

- POS 5747. Advanced Quantitative Analysis in Political Science (3).
POS 5749. Political Science Research Practicum (3).
POS 5750. Game Theory (3).

Political Theory

- POT 5934r, 5936r. Seminar in Political Thought: Selected Topics (3, 3).

Public Policy

- PUP 5005. Public Policy: Institutions and Processes (3).
PUP 5006. Policy Implementation and Evaluation (3).
PUP 5007. Models of Public Policy-Making (3).
PUP 5009r. Public Policy (3).
PUP 5207. Environmental Politics and Policy (3).
PUP 5335. Aging Politics and Policy (3).
PUP 6910. Advanced Research in Public Policy (3).

Other

- POS 5909r. Directed Individual Study (1–3).
POS 5919r. Supervised Research (1–5). (S/U grade only.)
POS 5940r. Supervised Teaching (1–5). (S/U grade only.)
POS 5946r. Teaching Political Science at the College Level (3).
POS 6930r. Profession of Political Science (0–6). (S/U grade only.)
SYD 5145. Population Policy (3).

Department of PSYCHOLOGY

COLLEGE OF ARTS AND SCIENCES

Chair: Robert Contreras; *Associate Chair:* Berler; *Professors:* Bailey, K. Berkley, Brigham, Carbonell, Charness, Contreras, Ericsson, Glendenning, Joiner, Kistner, Lang, Madsen, Megargee, Ouimet, Rashotte, Smith, Stephan, Torgesen, Wagner, Weaver; *Associate Professors:* Boroto, Hyson, Kelley, B. Licht, M. Licht, Lonigan, Meyer, Zwaan; *Assistant Professors:* Johnson, Kline, Loney, Plant, Scheffers, Taylor; *Visiting Assistant Professors:* Eckel, Wang; *Research Associates in Psychology:* Berler, Henderson; *Associates in Psychology:* Akbar, Sachs-Ericsson; *Assistants in Psychology:* Murphy, Peeler; *Administrative and Professional:* Bigbie, Donaldson, Foster, Kinsey, Saunders; *Associated Faculty:* Davis, Ferris, Kendall-Reed, Kerr, Patrick, C. Rashotte, Tenebaum, Walker; *Professors Emeriti:* Baker, Hokanson, Kennedy, Kenshalo, Miller

The undergraduate program in psychology offers introductory survey courses to give the liberal studies student a broad background in the study of behavior, as well as upper-division courses for the advanced student who has more specialized interests. The undergraduate major includes a rigorous course of study that covers the methodology and content needed to understand the causes of behavior in humans and animals. It is the intent of the program that the level of knowledge attained by the successful major will be such that the student is well prepared for graduate-level studies in any of the specialty areas in psychology or for advanced training in a professional school (e.g., law or medical school). Although some students may not wish to pursue graduate studies, this program assures that the successful major will attain a strong science-based liberal arts education.

Majors are required to take several laboratory courses and qualified students are encouraged to work in the department's research laboratories or to participate in research in educational and clinical settings. Students preparing for graduate school are strongly encouraged to consult early with the departmental advisement office about opportunities for intensive study in a specialty area while pursuing the major. The optional areas of emphasis include clinical psychology, cognitive psychology, psychobiology/neuroscience, social psychology, and performance management. For the student wishing to study abroad for a semester, courses in psychology may be available at the London Study Center in social sciences.

Admission Requirements

Due to limitations in the number of faculty and physical resources, admission to the undergraduate program for students who began college work in Fall 1992 or thereafter will be based on a minimum GPA and the successful completion of prerequisite course requirements. Students who be-

gan college work prior to Fall 1996 should check with the Psychology Department Advising Office for specific requirements that may apply to them. Admission for students who began college work Fall 1996 or thereafter will be based on the completion of the following requirements: 1) completion of at least fifty-two (52) semester hours; 2) a minimum GPA of 2.6 in all courses attempted; and 3) completion with a "C-" or better of STA 2122 or equivalent, PSY 2012 or equivalent, and one biology course as specified in the common course prerequisites.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. Specific prerequisites are required for admission into the upper-division program and **must** be completed by the student at either a community college or a state university prior to being admitted to this program. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.**

The following lists the common prerequisites or their substitutions necessary for admission into this upper-division degree program:

1. One course (three [3] semester hours) in any level general biology course or BSC X200-209 or ZOO X010;
2. PSY X012;
3. One course (three [3] semester hours) from any level in statistics.

Note: the following course, though **not required for admission** into the upper division major, **is required for completion of the degree:**

- a) One course (three [3] semester hours) in any lower-level psychology class within the psychology inventory.

Course Requirements for a Major

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*.

For the bachelor of science (BS) degree in psychology, the requirements listed below, along with the requirements of the College of Arts and Sciences, must be fulfilled. For the bachelor of arts (BA) degree, nine (9) additional semester hours in the humanities and history are required above and beyond the requirements for the BS degree.

The Psychology Department offers a broad selection of courses in order for each student to select a curriculum appropriate for his/her needs. All students must fulfill the major requirements, listed below, which ensure a balanced program of study. Any of the courses listed below, if presented by the student toward fulfillment of the major, must be completed with a minimum grade

of "C-." Additionally, no student who has accumulated more than four grades below "C-" (F, D-, D, D-, U) in psychology courses taken for credit at The Florida State University or elsewhere will be permitted to continue toward a degree with a major in psychology. Students may repeat no more than one psychology course with a grade less than "C-" to meet this requirement. For example, a student who accumulates four "D" or "F" grades in psychology courses, then receives one more "D" or "F" grade in a psychology course, may elect to repeat that course (or one of the other courses with a grade below "C-") to improve the grade. If the student succeeds and receives a "C-" or better, he/she may continue in the major. If the student does not get a "C-" or better, he/she will be required to seek another major. The Department of Psychology Undergraduate Advising Office will make every attempt to notify a student when he/she has accumulated two "D's" or more in psychology courses and counsel him/her accordingly.

In an effort to maintain quality and to give students a direct way to affect the program, the Department of Psychology randomly selects 20% of its graduating seniors to participate in an interview. Each selected student is required to meet briefly with a member of the undergraduate training committee to answer a few questions about their experiences in and impressions of the department. For these students, completion of the interview is required for graduation.

Class Attendance

The Department of Psychology enforces a strict first-day attendance policy. Students missing the first day of any class will be dropped.

Required Upper-Level Courses in Psychology

Thirty-three (33) semester hours of upper-level psychology courses are required for the major. These hours must include:

1. EXP 3000 and 3000L;
2. Two of DEP 3103, SOP 3004, PPE 3004, CLP 4143;
3. Two of EXP 3422/3422L, EXP 3503/3503L, EXP 3202/3202L, PSB 3004/3004L;
4. PSY 4604;
5. One of PSB 2000, CBH 3304, EXP 3203/3203L, PSB 4240, or PSB 4854 (not required if EXP 3202/3202L or PSB 3004/3004L is taken)
6. Twelve (12) additional semester hours of psychology courses, including a minimum of three (3) semester hours at the 4000 level. A maximum of six (6) semester hours of directed individual studies may be applied to these twelve (12) elective semester hours in psychology.

Honors in the Major

The Department of Psychology offers a program in honors in the major to encourage talented juniors and seniors to undertake independent and

original research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Requirements for a Minor in Psychology

Twelve (12) semester hours of psychology, including PSY 2012, are required for a minor in psychology. Grades below "C–" will not be accepted for credit toward the minor. A minimum of six (6) of the required semester hours must be completed at The Florida State University. No courses used for satisfying liberal studies requirements may also count toward the minor. Exceptions: 1) transfer students with an approved AA from an State of Florida, Division of Colleges and Universities' community college, and 2) students whose major does not require a minor.

Areas of Special Emphasis

Several areas of emphasis are available for students, especially those planning a graduate career in psychology or another field of science. The areas are clinical psychology, cognitive psychology, neuroscience, and social psychology. A recommended course listing in each area of emphasis is available from the psychology department's undergraduate advising office. The recommended curriculum provides students with a strong background in scientific method and content pertinent to their areas of particular interest.

The Certificate in Performance Management is designed for undergraduate students who desire to prepare for a career in business management or for graduate work in organizational behavior management, industrial/organizational psychology or related fields. The program offers students the opportunity to specialize in the application of behavior principles in the workplace or an organizational setting. Students are required to take four (4) courses and earn at least a grade of "B" in each. These courses include EAB 3703, EXP 3422, INP 3313 and INP 4314.

Bachelor's Degree in Psychology at Panama City

Students may complete the requirements for the bachelor of science in psychology at the Panama City Campus. Students transferring to the Panama City Campus must have completed an approved A.A. degree (or equivalent). Students should refer to the common core requirements for this degree program.

Specific course rotation varies, based on the availability of instructional faculty and the needs of current students; no firm schedule of course offerings is possible. Within each calendar year (including the summer term), however, an attempt is made to offer both EXP 3000 and PSY 4604. In addition, at least one course

from Area A below typically is available each year. Several courses from Area B usually are offered every year.

A master's degree with a specialty in applied behavior analysis also is offered at the Panama City Campus.

Admission Requirements

For all students who first began college work during the Fall 1996 semester or thereafter, admission requirements for the Panama City Campus include:

1. An approved A.A. degree;
2. A minimum GPA of 2.6 in all attempted courses;
3. Completion with a "C–" or better of STA 2122 or equivalent, PSY 2012 or equivalent, and one biology course as specified in the common course prerequisites.

Note: the following course, though not required for admission into the upper division major, is required for completion of the degree:

- a) One course (three [3] semester hours) in any lower-level psychology class within the psychology inventory.

Required Upper-Level Courses for a Psychology Major

Thirty (30) semester hours of upper-level psychology courses and three (3) semester hours of PSY 2012 General Psychology are required for the major. Please note that PSY 2012 is not offered at the Panama City Campus.

I. The following courses are required for all majors:

- EXP 3000;
- EXP 3000L (when offered); and
- PSY 4604.

II. **AREA A:** Two of the following lecture/lab combinations are required:

- EXP 3202, EXP 3202L (when offered);
- EXP 3422, EXP 3422L (when offered);
- EXP 3503, EXP 3503L (when offered);
- PSB 3004, PSB 3004L (when offered).

III. **AREA B:** Two of the following courses are required:

- CLP 3003, 3305; DEP 3305; EAB 3703;
- EDP 3003; INP 3003; PPE 3004; SOP 3004.

IV. **Other Required Courses:** Twelve (12) additional semester hours of upper-level psychology courses.

For further information about admission, degree requirements, minor requirements, or the foreign language requirements for the bachelor's degree program, contact: *Undergraduate Advising Office, Department of Psychology, The Florida State University, Tallahassee, FL 32306-1270, (850) 644-4260.*

Definition of Prefixes

Undergraduate Courses

General Psychology

PSY 2012. General Psychology (3). An introduction to the field of psychology covering such topics as learning, perception, intelligence, personality, and social behavior.

PSY 2023. Careers in Psychology (1). (S/U grade only.) Prerequisite: PSY 2012. This course is intended for psychology majors who are early in their undergraduate careers. Discussions cover options in psychology and related fields for those students planning to enter the job market or graduate/professional school upon graduation. Students will learn how to best prepare themselves to compete for these options.

EXP 3000. Approaches to the Study of Behavior (3). Prerequisites: PSY 2012; STA 2122 or equivalent. Corequisite: EXP 3000L. Introduction to philosophical and methodological issues in the empirical study of behavior.

EXP 3000L. Approaches to the Study of Behavior Laboratory (1). Prerequisite: STA 2122 or equivalent. Corequisite: EXP 3000. Introduction to the basic logic of experimentation in psychology by running simple experiments, analyzing the data, and interpreting the results. Simple techniques and concepts in data analysis and interpretation will be stressed.

PSY 4604. History and Systems of Psychology (3). Prerequisite: EXP 3000; PSY 2012; junior or senior standing; or consent of instructor. Covers the philosophical and scientific antecedents of modern psychology and the history of psychology as an independent scientific discipline.

Experimental—Psychobiology/Neuroscience

CBH 3304. Behavioral Genetics (3). Prerequisite: PSY 2012. The effects of inheritance on human and animal behavior with consideration of evolutionary perspectives in psychology.

EXP 3202. Sensation and Perception (3). Prerequisites: EXP 3000, 3000L. Corequisite: EXP 3202L. The role of the senses in behavior and the perceptual organization of sensory information.

EXP 3202L. Sensation and Perception Laboratory (1). Prerequisites: EXP 3000, 3000L. Corequisite: EXP 3202.

EXP 3203. Animal Sensory Processes (3). Prerequisites: EXP 3000, 3000L. Corequisite: EXP 3203L. Animal psychophysics and electrophysiology in the study of animal senses.

EXP 3203L. Animal Sensory Processes Laboratory (1). Prerequisites: EXP 3000, 3000L. Corequisite: EXP 3203.

EXP 3422. Conditioning and Learning (3). Prerequisites: EXP 3000, 3000L. Corequisite: EXP 3422L. How experience affects behavior and physiological functioning of animals and humans.

EXP 3422L. Conditioning and Learning Laboratory (1). Prerequisites: EXP 3000, 3000L. Corequisite: EXP 3422.

PSB 2000. Introduction to Brain and Behavior (3). A study of the basic principles of brain functions and how they relate to animal and human behavior. (Cannot be taken after PSB 3004.)

PSB 3004. Physiological Psychology (3). Prerequisites: PSY 2012; three (3) hours in biology; or permission of instructor. Corequisite: PSB 3004L. Current problems, theories, and techniques in physiological psychology with emphasis on central nervous system mechanisms.

PSB 3004L. Physiological Psychology Laboratory (1). Corequisite: PSB 3004.

PSB 4240. Biological Basis of Brain Dysfunction (3). Prerequisites: Junior or senior standing; PSB 2000 or 3004 or an introductory course in biology. This course will examine the biology of brain dysfunction in schizophrenia, obsessive compulsive disorder, mania, depression, drug abuse, Alzheimer's disease, Parkinson's disease, Huntington's disease, and Tourette's syndrome. These pathological processes will be explored from both biological and psychological perspectives.

PSB 4461. Hormones and Behavior (3). Prerequisites: PSY 2012; PSB 2000 or 3004, or three (3) semester hours in biology. Provides students with current knowledge of interactions between hormones and behavior with emphasis on the brain regulation of hormone-behavior interaction in mammalian species including humans.

PSB 4641. Pain and Suffering (3). Course combines formal lectures, student-teacher discussions and student presentations to understand what we currently know and how we can increase our knowledge about the multifaceted (genetic, biological, physiological, psychological, sociocultural) mechanisms underlying pain.

PSB 4854. Biopsychology of Sexual Behavior (3). Prerequisites: PSY 2012; PSB 2000 or 3004, or three (3) semester hours in biology. A study of biological and sociocultural determinants of sexual development particularly as it relates to sexual orientation, sexual preference, and purported gender differences in personality, cognition, and mental disorders.

Human Learning and Cognition

EXP 3404. Human Memory and Learning (3). Prerequisites: EXP 3000, 3000L. Course introduces issues related to human memory and learning. Theories of memory, including memory systems, capacity and duration of memory, and basic memorial processes. Applied issues include disorders of memory (e.g., Alzheimer's disease), repressed memories and memory improvement.

EXP 3503. Cognitive Psychology (3). Prerequisites: EXP 3000, 3000L. Corequisite: EXP 3503L. Contemporary approaches to human learning, memory, and higher mental processes.

EXP 3503L. Cognitive Psychology Laboratory (1). Prerequisites: EXP 3000, 3000L. Corequisite: EXP 3503.

EXP 4640. Psychology of Language (3). Prerequisites: psychology majors—EXP 3000; other majors—permission of instructor. This course will focus on the mental processes involved in language use (e.g., speech, comprehension, conversation, and writing). EXP 3000 is required for psychology majors. Majors from relevant areas such as language, communications, philosophy, computer science and education should contact the instructor for permission to take the course.

Clinical—Personality

CLP 3003. Psychology of Adjustment (3). Prerequisite: PSY 2012. Human adjustments and the resulting forms of behavior. Abnormal and normal behavior are contrasted. Special emphasis on the determinants of adjustments.

CLP 3305. Clinical and Counseling Psychology (3). Prerequisite: PSY 2012. A survey of the theory, research, and treatment procedures in the clinical process.

CLP 4143. Abnormal Psychology (3). Prerequisite: PSY 2012. Causes of personality disorganization, diagnosis and treatment of mental illness, developments in experimental psychopathology.

CLP 4343r. Current Issues in Clinical Psychology (3). Prerequisites: PSY 2012; junior or senior standing. A study of current issues in clinical psychology. May be repeated to a maximum of six (6) semester hours.

CLP 4950. Abnormal Psychology Field Experience (1). (S/U grade only.) Prerequisites: CLP 4143, permission of instructor.

PPE 3004. Psychology of Personality (3). Prerequisite: PSY 2012. An introduction to methods, theory, and research in personality.

PSY 3820. Health Psychology (3). Prerequisite: PSY 2012. This course is a survey of health psychology and behavioral medicine. Topics include mind/body connections, health and disease, stress and coping, and psychology in medical settings.

PSY 4303. Theory, Application, and Evaluation of Tests (3). Prerequisites: EXP 3000, 3000L. Basic test and measurement theory essential in the construction, appropriate use, and evaluation of achievement, aptitude, intelligence, interest, and personality tests.

Life-Span Development

DEP 3103. Child Psychology (3). Prerequisite: PSY 2012. An approach to the study of children.

DEP 3305. Psychology of Adolescent Development (3). Prerequisite: PSY 2012. Recent research dealing with adolescents. Emphasis is placed on the influence of growth and on the role of cultural pressures on behavior.

DEP 4204. Psychology of Exceptional Children (3). Prerequisite: DEP 3103. The identification, causes, and treatment of a variety of psychological disorders of childhood are discussed. Topics covered include assessment and classification of disorders, classroom management, learning disabilities, hyperactivity, mental retardation, and autism.

DEP 4404. Psychology of Adult Development and Aging (3). Prerequisite: PSY 2012. The study of the major psychological issues of adulthood and aging, including: age-related changes in psychological, social, and physical functioning; interpersonal and family relationships; career development and retirement; mental and physical health; death and bereavement; and coping with the process of aging. Prior introductory courses in personality, social, cognition, and/or sensation-perception are not required but they are recommended.

EDP 3003. Educational Psychology (3). Prerequisite: PSY 2012. The application of psychology to the problems of education.

Social

SOP 3004. Social Psychology (3). Prerequisite: PSY 2012. Review of the theories of interpersonal behavior and group dynamics.

SOP 3742. Psychology of Women (3). Prerequisite: PSY 2012. Systematic study of research and theory including psychological differences and similarities between sexes.

SOP 3751. Psychology and the Law (3). Prerequisite: PSY 2012. An examination of the interface between psychology and legal issues. Research on judges, juries, defendants, and police are among topics covered, as well as the role of psychologists in the legal system.

SOP 3782. Psychology of the African American (3). Prerequisite: PSY 2012. A critical examination of the psychocultural forces which shape and determine the unique behavior of African Americans.

SOP 4214. Experimental Social Psychology (3). Prerequisites: PSY 2012, SOP 3004. Course covers in-depth analysis of several central areas of social psychology with an emphasis on designing and carrying out research in these areas.

SOP 4722. Prejudice and Stereotyping (3). Prerequisites: EXP 3000, 3000L; PSY 2012; SOP 3004. This course explores the nature of prejudice and stereotyping in our society using a social psychological perspective.

Behavioral-Performance Management

EAB 3703. Applied Behavior Analysis (3). Prerequisite: PSY 2012. This course introduces the basic principles of behavior and exposes students to settings where techniques based on learning theory can be used therapeutically.

INP 3303. Business Psychology (3). Prerequisite: PSY 2012. Vocational selection, psychological principles of supervision and leadership, emotional problems of employees, selling, and advertising.

INP 3313. Behavior Analysis in Business and Industry (3). Prerequisites: EAB 3703; EXP 3422, 3422L; PSY 2012. Behavior principles as they are applied in business, industry, and government.

INP 4314. Advanced Topics in Performance Management (4). Prerequisite: INP 3313 and permission of instructor. Implementation and analysis of performance management principles via a project carried out in a business setting; motivation, compensation, and systems issues in performance technology.

Multiple Areas

ISC 3076. Science, Technology, and Society (3). Science is considered as an enterprise in modern society that produces technological advances and new perspectives on reality. Interrelations among science, technology, and society are examined. Enrollment is open to students who have attained at least junior standing or by permission of instructor.

PSY 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

PSY 4039r. Honors Work (3). May be repeated to a maximum of nine (9) hours.

PSY 4911r–4914r. Directed Individual Study (one to three [1–3] hours each.) (S/U grade only.) Prerequisites: Junior or Senior standing and consent of instructor. Study on a selected topic as designated by the student and the directing professor. Each course may be repeated to a maximum of three (3) semester hours. Only six (6) semester hours may be counted toward the major. These total credits must be reduced by the comparable number of credits taken for PSY 4920r, such that a maximum of twelve (12) credits of PSY 4911r–4914r in combination with PSY 4920r may be taken. A total of six (6) credits of PSY 4911r–4914r in combination with PSY 4920r may be counted toward the major.

PSY 4920r. Research Topics (1–3). (S/U grade only.) Prerequisites: Junior standing, consent of instructor. Participation in a group research project on a selected topic as designated by the directing professor. May be repeated to a maximum of twelve (12) semester hours; only six (6) semester hours may be counted toward the major. These total credits must be reduced by the comparable number of credits taken for PSY 4911r–4914r such that a maximum of twelve (12) credits of PSY 4920r in combination with PSY 4911r–4914r may be taken. A total of six (6) credits of PSY 4920r in combination with PSY 4911r–4914r may be counted toward the major.

PSY 4930r. Special Topics in Psychology (3). May be repeated to a maximum of nine (9) semester hours. A maximum of two (2) special topics courses may be taken in the same semester.

PSY 4970r. Honors Seminar (1). (S/U grade only.) Prerequisite: Acceptance in the honors in psychology program. Exposure to state-of-the-art research of psychology faculty to increase breadth in the discipline and to help select a thesis topic and research mentor. Forum for informal discussion of project development, research design, data collection and analyses, and thesis presentation. May be repeated to a maximum of four (4) semester hours; only two (2) semester hours may be counted toward the major.

SCE 4939r. Seminar in Contemporary Science, Mathematics, and Science Education (1). For description, see the interdisciplinary science courses listed in the "College of Arts and Sciences" section of this *General Bulletin*.

Graduate Courses

General

- PSY 5605. History and Systems of Psychology (3).
PSY 6945. Teaching Psychology Practicum (3).

Applied Behavior Analysis

- EAB 5700. Basic Principles of Behavior (3).
EAB 5701. Basic Methods of Applied Behavior Analysis (3).
EAB 5710. Behavioral Analysis in Developmental Disabilities and Autism (3).
EAB 5711. Behavioral Analysis in Mental Health and Aging (3).
EAB 5721. Behavioral Analysis in Education and Performance Management (3).
EAB 5780. Ethical and Professional Issues in Applied Behavior Analysis (3).
EAB 5796. Research Methods in Applied Behavior Analysis (3).
EAB 5940, 5941. Behavioral Analysis Practicum (3). (S/U grade only.)
EAB 6769r. Seminar on Skinner's Theory of Behaviorism (3).

Clinical—Personality

- CLP 5195. Theories of Psychotherapy (3).
CLP 5196. Techniques of Behavioral Change (3).
CLP 5375. Concepts and Methods of Clinical Psychology (3).

- CLP 5475. Child Psychopathology and Intervention (3).
CLP 5932. Law and Ethics (3).
CLP 5941r, 5942r. Clinical Practicum: Psychological Evaluation [one to three (1–3) hours each]. (S/U grade only.)
CLP 6169. Abnormal Psychology for Graduate Students (3).
CLP 6349r. Seminar in Clinical Theory (3).
CLP 6920r. Current Issues in Clinical Psychology (1). (S/U grade only.)
CLP 6944r, 6947r. Clinical Practicum: Change of Behavior [one to three (1–3) hours each]. (S/U grade only.)
PPE 5055. Personality Theory (3).
PSY 5325. Assessment I (3).
PSY 5326. Assessment II (3).
PSY 6940r. Psychological Clerkship (3–6). (S/U grade only.)
PSY 6948r. Psychology Internship (1–6). (S/U grade only.)

Human Learning and Cognition

- EXP 5508. Cognition and Perception (3).
EXP 6609r. Seminar in Higher Mental Processes (3).
EXP 6920r. Current Issues in Cognitive/Behavioral Science (1). (S/U grade only.)

Life—Span Development

- DEP 5165. Developmental Psychology (3).

Psychobiology/Neuroscience

- EXP 5406. Conditioning and Learning (3).
EXP 5717. Animal Psychophysics (3).

- PSB 5056. Biological Psychology (3).
PSB 5057. Neuroscience Methods: Molecules to Behavior (2). (S/U grade only.)
PSB 5216. Anatomy of the Nervous System (3).
PSB 5218L. Neuroanatomy Laboratory (1).
PSB 6059r. Seminar in Physiological Psychology (3).
PSB 6070r. Current Problems in Neuroscience (2). (S/U grade only.)
PSB 6920r. Neuroscience Colloquium (1). (S/U grade only.)
PSB 6933r. Seminar in Neuroscience (1–2).

Social

- SOP 5053. Social Psychology (3).
SOP 6848. Seminar in Psychology and Law (3).

Multiple Area Courses

- PSY 5908r. Directed Individual Study (1–3). (S/U grade only.)
PSY 5916r. Selected Research Topics (3).
PSY 5917r. Supervised Research (1–5). (S/U grade only.)
PSY 5947r. Supervised Teaching (1–5). (S/U grade only.)
PSY 5973r. Thesis (1–6). (S/U grade only.)
PSY 6656r. Preliminary Examination Preparation (1–9). (S/U grade only.)
PSY 6919r. Seminar in Current Research Topics (1–3).

For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the *Graduate Bulletin*.

Reubin O'D. Askew School of PUBLIC ADMINISTRATION AND POLICY

COLLEGE OF SOCIAL SCIENCES

Director: William Earle Klay; *Professors:* Askew, Berry, Bowman, Bradley, Chackerian, deHaven-Smith, Feiock, Grizzle, Guy, Klay, Reid; *Associate Professors:* Brower, Coursey; *Affiliate Faculty:* Imershein; *Visiting Professors and Adjunct Faculty:* Alam, Crispo, Croushorn, Easterling, French, Germany-Griggs, Greenfield, Jurand, Lynch, Parry; *Professors Emeriti:* Hartsfield, Page, Sherwood, Waldby

The Reubin O'D. Askew School of Public Administration and Policy is one of the most highly ranked schools of its type in the nation. The school does not offer a major to undergraduate students, but it does offer a minor as well as a concentration in the Interdisciplinary Program

in Social Science (ISS). For more information on the ISS, please contact the College of Social Sciences, Office of the Dean.

A minor in public administration is available to students in all majors except political science, where undergraduate courses in public administration are applied directly to the political science major. For other students, the minor in public administration consists of four courses, totaling twelve (12) semester hours, that are passed with a grade of "C" or better. Courses should be approved by the school in consultation with the student. Regularly scheduled undergraduate classes include:

- Public administration in American society
- Budgets and finances in managing public affairs
- American public service
- Administrative law
- Local government administration
- American legal systems
- Selected topics in public administration

Directed individual study
(faculty approval required)

One of the following Department of Political Science courses may be substituted for one of the above: state politics, urban politics, Florida government and the American presidency.

The school, upon application from the student, recognizes successful completion of requirements for the undergraduate minor with a certificate that indicates the student's understanding of public administration, including the role of government agencies in society and administrative processes. In order to qualify for the certificate, the student must pass four courses, totaling twelve (12) semester hours, with a grade of "C" or better. Courses must be approved by the school in consultation with the student. If approved by the director of undergraduate studies, some transfer credits may be accepted. The certificate credential is not intended as a diploma or degree.

The application procedure requires that students notify the school of their intention to complete a minor and that they wish to receive a certificate upon successful completion of the required twelve

(12) semester hours. Students may do this prior to or following completion of the minor. It is recommended that the student check with the director of undergraduate studies to be sure courses taken will apply to the certificate.

Both degree-seeking and special students are eligible for the undergraduate certificate program.

Graduate Programs

Graduate study provides professional preparation for careers in government, higher education, private consulting, and in non-profit organizations, and can be pursued in several ways. The school offers two graduate degree programs: the fully-accredited master of public administration (MPA), and the doctor of philosophy (PhD) in public administration. The MPA program prepares students for professional management and policy roles in a variety of public sector and nonprofit environments. The doctorate is a research degree designed to prepare students for college and university teaching, advanced research, and advanced administrative practice.

The school also offers dual degrees with the College of Law (MPA/JD), the School of Social Work (MPA/MSW), the School of Criminology and Criminal Justice (MPA/MSC), the Department of Urban and Regional Planning (MPA/MSP), and the interdisciplinary program in the College of Social Sciences in Health Policy Research (MPA/MS). Consult the *Graduate Bulletin* for details of the programs and courses offered.

Public administration courses often serve well as an area of specialization within other degree programs. The study of public administration adds a dimension to career competencies, enhancing the student's career mobility, flexibility, and opportunities.

Additional information (such as handbooks and syllabi) is available on the Askew school's home page: <http://askew.fsu.edu>.

Definition of Prefix

PAD — Public Administration and Policy
POS — Political Science

Undergraduate Courses

PAD 3003. Public Administration in American Society (3). A general introductory course in public administration. Management of large-scale government bureaucracies including organization, career systems, and financing. The role of bureaucracies in modern society in the formulation and implementation of public policy.

PAD 3931r. Selected Topics in Public Administration (1–6). Varying topics. Contact school. May be repeated to a maximum of nine (9) semester hours.

PAD 3941r. Public Service Internship (3–6). (S/U grade only.) Prerequisite: PAD 3003 or equivalent. Participant observation of the administration of policy in public service organizations. Internship with faculty supervision, on-campus seminars, discussion papers. May be repeated to a maximum of six (6) semester hours.

PAD 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

PAD 4223. Budgets and Finances in Managing Public Affairs (3). Concepts and practices in budgeting and financial processes such as planning, goal setting, and implementation.

PAD 4332. Strategic Leadership for Communities (3). This course will teach the principles and skills of strategically managing agencies and communities. Strategic planning, community visioning, and organizational assessments will be covered. Managerial leadership roles and responsibilities in organizing community planning and change also will be covered.

PAD 4414. American Public Service (3). Structure and political role of the civil service, evolution of government employment, current personnel policies, rights and responsibilities of public servants, and labor management relations. The impact of the public service on American society is explored.

PAD 4456. Quality Management Systems (3). Addresses the theory, design, and implementation of quality management systems in public organizations compared to that in other sectors of the economy. Examines the need for and origins of quality management philosophies, techniques, transition strategies, case studies, and future scenarios. May be repeated to a maximum of six (6) semester hours.

PAD 4603. Administrative Law (3). Study of the constitutions, statutes, executive orders, and procedures that control the administrative authorities of government. (Also offered by the Department of Political Science.)

PAD 4803. Local Government Administration (3). An introduction to administrative problems and processes in municipal, county, and special district governments.

PAD 4905r. Directed Individual Study (1–3). May be repeated to a maximum of twelve (12) semester hours.

PAD 4936r. Special Topics in Public Administration (3). Topics will vary. May be repeated to a maximum of nine (9) semester hours.

POS 4413. The American Presidency (3). The roles of the American president, especially their relationship to government administration. (Also offered by the Department of Political Science.)

Graduate Courses

PAD 5035. Policy Development and Administration (3).

PAD 5041. Ethics and Public Administration (3).

PAD 5050. The Profession of Public Administration (3).

PAD 5106. Public Organizations (3).

PAD 5227. Managing Public Financial Resources (3).

PAD 5275. Political Economy of Public Administration (3).

PAD 5327. Public Program Evaluation (3).

PAD 5335. Strategic Leadership for Communities (3).

PAD 5352. Environmental Policy and Management (3).

PAD 5417. Human Resource Management (3).

Department of RELIGION

COLLEGE OF ARTS AND SCIENCES

Chair: John Kelsay; *Professors:* Corrigan, Kelsay, Sandon, Twiss; *Associate Professors:* Erndl, Levenson; *Assistant Professors:* Burkes, Cuevas, Kalbian, Kangas, Kavka; *Visiting Assistant Professor:* Koehlinger; *Visiting Instructor:* Lopez; *Professors Emeriti:* Carey, Jones, Moore, Rubenstein, Wellborn

Since its founding in 1965, the Department of Religion at The Florida State University has been a leader among America's public institutions in the academic study of religion. The department offers instruction in the religious traditions of the world and the religious dimensions of human life. While covering a wide range of religious phenomena and the interaction of religion with other cultural forms, there are particular concentrations in the religions of western antiquity, religions of Asia, religion in America, and religion, ethics and philosophy.

Located in the humanities area of the College of Arts and Sciences, the department participates actively in the University's liberal studies program. A number of religion courses are approved for humanities credit in liberal studies and for literature and multicultural requirements. The department is committed to offering several liberal studies honors courses and honors augmented courses each semester. Members of the department regularly teach in the Bryan Hall living and learning community. Our students are encouraged to take advantage of the University's international programs, especially those in London and Florence.

A concentration in religion provides the opportunity to acquire a broad liberal arts education, as the study of religion involves exposure to a wide variety of different cultural expressions and methods of analysis. While some religion majors and minors go on to graduate work and positions in the various areas of religion and religious studies, the issues and methods encountered are applicable to a number of different professional fields and interests.

The department is housed in Dodd Hall. The facilities of the department include a small library of standard reference works for the use of religion students.

College Requirements

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*.

State of Florida Common Course Prerequisites

No statewide common course prerequisites have been identified for this program.

Though no statewide prerequisites are required, faculty in this program recommend that students take several courses with REL prefix at the lower level.

Degree in Religion

Major

To complete a bachelor of arts (BA) degree with a major in religion, a student must take (in addition to other college requirements) thirty (30) semester hours of religion courses. For purposes of the major requirement, religion courses are divided into the following three (3) areas:

Western: REL 2121, 2210, 2243, 3128, 3146, 3194, 3280, 3293r, 3363, 3370, 3430, 3505, 3600, 4203r, 4290r, 4320r, 4323, 4324, 4511, 4541, 4564, 4611, 4613, 4671, 4914r;

Asian: REL 2315, 2350, 3316, 3335, 3337, 3340, 4333, 4908r, 4912r;

Issues and Approaches: REL 3142, 3145, 3170, 3177r, 3191; PHI 3700.

Note: the areas in which REL 3936r, 4190r, 4304r, 4491r, 4905r and 4932r fall depend on the topic. Students should inquire at the department office for a current list of all courses and their areas.

Majors will choose either the extensive option (two [2] courses from each of the three areas, and electives) or the intensive option (four [4] courses from one area and one [1] from each of the other two, and electives). At least six (6) courses must be at the 3000/4000 level, of which two (2) must be at the 4000 level. Majors must take at least one religion course with a seminar format (either a course listed as a seminar or one approved as such by the departmental Director of Undergraduate Studies). In some cases, with the approval of the departmental Director of Undergraduate Studies, up to two courses from other departments may count toward a religion major (PHI 3700 counts as a course offered by the Department of Religion). Courses in which the student receives a grade below "C-" will not be counted toward the major.

Minor

Religion majors must complete twelve (12) semester hours in an approved departmental field.

Honors in the Major

The Department of Religion offers an honors program in religion to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Joint Major in Religion and Classics

The departments of Religion and Classical Languages, Literature, and Civilization cooperate in a joint major designed for students with a special interest in religion in the ancient world. Students interested in this program should discuss it with the undergraduate director of either department.

Cooperation with Other Programs and Departments

Because religion touches many facets of human life, the study of religion is inherently interdisciplinary. The department therefore participates in a number of interdepartmental programs, including the following: American Studies, Asian Studies, African American Studies, Humanities, and Women's Studies. In addition, students of religion will find related courses in other departments, including Anthropology; Art History; Classical Languages, Literature, and Civilization; English; History; Philosophy; and Sociology. Students undertaking a major or minor in religion should discuss such courses with the director of undergraduate studies in religion.

Minor in Religion

Students wishing to minor in religion must take a minimum of twelve (12) semester hours of credit. At least six (6) semester hours of credit must be earned in courses at the 3000 level or higher. Courses in which the student receives a grade below "C-" will not be counted toward the minor. As they develop their minor, students should consult with the director of undergraduate studies in religion.

Definition of Prefixes

HBR — Hebrew (Modern)
PHI — Philosophy
REL — Religion
SAL — Sanskrit

Undergraduate Courses

HBR 1102, 1103. Beginning Hebrew I, II (4, 4). Introduction to the basic grammar, syntax, and phonology of modern and classical Hebrew. Meets the foreign language requirement for the BA degree. No language laboratory required.

HBR 2202. Intermediate Hebrew (4). Translation and commentary of selected Hebrew readings. Meets the foreign language requirement for the BA degree. No language laboratory required.

REL 1300. Introduction to World Religions (3). A survey of the major living religious traditions of the world, with attention to their origins in the ancient world and their classic beliefs and practices.

REL 2121. Religion in the United States (3). An examination of the scope and nature of religious movements and institutions in the United States.

REL 2210. Introduction to the Old Testament (3). The history, religious thought, and social institutions of ancient Israel as reflected primarily in its literature.

REL 2243. Introduction to the New Testament (3). An introduction to the writings of the New Testament in the context of the historical development of early Christianity.

REL 2315. Religions of South Asia (3). History and culture of the religious traditions of South Asia. A study of the manifestations of Hinduism, Buddhism, Jainism, Islam, Sikhism, and Christianity in India, Pakistan, Bangladesh and Sri Lanka.

REL 2350. Religions of East Asia (3). An introduction to the history, thought and practice of religion in China, Korea, and Japan. Confucianism, Taoism, Buddhism, and popular religious traditions from ancient through modern times are covered.

REL 3128r. Topics in Religion in the Americas (3). Prerequisite: REL 2121 or instructor's consent. May be repeated to a maximum of six (6) semester hours.

REL 3142. Religion, the Self, and Society (3). Interpretation of religious phenomena by the major social theorists of modern times. The course is divided into two parts: 1) the psychology of religion and 2) the sociology of religion.

REL 3145. Gender and Religion (3). A consideration of the impact of gender on religion. Includes cross-cultural studies, theoretical works, and gender issues within religious traditions.

REL 3146. Gender and the Bible (3). This course will examine female figures and images of the Bible, while surveying the various approaches to feminist analysis. Special attention will be given to the production of knowledge about gender in biblical history.

REL 3170. Religious Ethics and Moral Problems (3). A discussion of contemporary moral problems such as deception, sexual activities and relations, and capital punishment from the standpoints of major religious traditions.

REL 3177r. Topics in Ethics (3). Consideration of themes and problems in modern ethics. May be repeated to a maximum of nine (9) semester hours.

REL 3191. Death and Dying (3). Practical and theoretical perspectives on the critical dimensions of death as it is experienced in modern society.

REL 3194. The Holocaust (3). An examination of the origins, the process, and the consequences of the destruction of the European Jews during World War II.

REL 3280. Biblical Archaeology (3). Course introduces archaeological methods and excavation results in the region of Syro-Palestine. Archaeological data is viewed alongside narrative reports in Biblical Literature.

REL 3293r. Topics in Biblical Studies (3). Prerequisite: REL 2210, 2243 or instructor's permission. Selected topics dealing with biblical writings in their ancient historical contexts and/or their interpretation in later periods. May be repeated to a maximum of nine (9) semester hours.

REL 3335r. Hindu Texts and Contexts (3). A study of selected Hindu scriptures, their commentarial traditions, and their religious and cultural contexts. Topics vary; may include devotional (bhakti) poetry, Ramayana, Bhagavad Gita, etc. May be repeated to a maximum of nine (9) semester hours.

REL 3337. Goddess, Women, and Power in Hinduism (3). Female power in Hindu cosmology, mythology, and society. A study of Hindu goddesses, women, and female symbolism and the multifaceted relationship among them.

REL 3340. The Buddhist Tradition (3). A survey of the Buddhist tradition from its beginnings through the modern period. Some attention to its contemporary forms.

REL 3363. The Islamic Tradition (3). An introduction to the basic terms and history of the religious tradition of Islam.

REL 3375. Afro-Caribbean Religions (3). A survey of the roots and current manifestations of the religions of the African diaspora, with a focus upon both the Caribbean and Latin America. Special attention will be given to Vodou and Santeria.

REL 3430. Issues and Thinkers in Western Religious Thought (3). An introduction to the Western tradition of religious thought as illustrated by the writings of some of its greatest representatives. Readings in such primary sources as Augustine, Dante, Erasmus, Luther, Pascal, Hegel, and Kierkegaard.

REL 3505. The Christian Tradition (3). The major beliefs, practices, and institutional forms of Christianity in historical perspective.

REL 3600. The Jewish Tradition (3). A survey of the varieties of institutional structures, beliefs, and religious practices of post-biblical Judaism in their historical contexts.

PHI 3700. Philosophy of Religion (3). Philosophical analysis of major problems in religion: religious language, faith, revelation, existence and nature of God, immortality. Also offered by the Department of Philosophy.

REL 3936r. Special Topics in Religion (1-3). May be repeated to a maximum of nine (9) semester hours.

REL 4190r. Undergraduate Religion and Culture Seminar (3). Problems and issues in religion and culture. Topics vary. Intended for advanced undergraduate students. Permission of the instructor required. May be repeated to a maximum of nine (9) semester hours.

REL 4203r. Readings in Classical Hebrew Texts (1-3). Prerequisite: HEB 2230 or instructor consent. Intensive work on specific religious texts in classical Hebrew (ancient or medieval). Choice of texts will vary. May be repeated to a maximum of twelve (12) semester hours.

REL 4290r. Undergraduate Biblical Studies Seminar (3). Advanced work in biblical studies for undergraduates. Topics vary. Permission of the instructor required. May be repeated to a maximum of nine (9) semester hours.

REL 4304r. Undergraduate History of Religions Seminar (3). Problems and issues in the history of religions. Topics vary. Intended for advanced undergraduate students. Permission of the instructor is required. May be repeated to a maximum of nine (9) semester hours.

REL 4321. Religions of the Graeco-Roman World (3). The religions of the Graeco-Roman world with special emphasis on traditional religious forms, mystery religions, and developments in philosophy. Some attention will be given to Judaism, Christianity, and Gnosticism in their broader social, cultural, and historical contexts.

REL 4323. Religions of the Ancient Near East (3). The religious traditions of the ancient Near East, including Egypt, Mesopotamia, and Syria/Palestine, from earliest historical times to the onset of the Hellenistic age.

REL 4324r. Tutorial in Greek Religious Texts (1-3). Selected readings in Greek of Jewish, Christian and other religious texts from the ancient world. A basic knowledge of Greek grammar is presumed. May be repeated to a maximum of twelve (12) semester hours.

REL 4333. Modern Hinduism (3). Selected topics on the Hindu tradition in 19th and 20th century India. Includes modern Hindu thinkers, reform movements, popular religion, Hindu nationalism, and pluralism. Attention also to Hindu-inspired religious movements outside India and to other topics of student interest.

REL 4491r. Undergraduate Religious Thought Seminar (3). Topics vary. Intended for advanced undergraduate students. Permission of the instructor required. May be repeated to a maximum of nine (9) semester hours.

REL 4511. Christianity in Late Antiquity (3). Christian thought, institutions, lifestyles, and literature in their social, cultural, and historical contexts from the time of Jesus to the early Middle Ages.

REL 4541. Modern Protestantism (3). The development of the Protestant traditions in the modern era. The course will emphasize the innovative responses made in Protestant thought and practice to the key developments in culture and society.

REL 4564. Modern Roman Catholicism (3). The Catholic Church from the Council of Trent to the present day; special consideration given to Vatican II, current problems, and leading thinkers.

REL 4613. Modern Judaism (3). The development of Judaism as a religious and cultural phenomenon in Europe, North America, and the Middle East from the European Enlightenment to the birth of the State of Israel.

REL 4617. Judaism in the Graeco-Roman World (3). A history of the Jews and the development of Jewish religious ideas, literature, institutions and practices from the Maccabean Revolt to the redaction of the Babylonian Talmud.

REL 4671. Gender and Judaism (3). Examines the roles of men and women in various Jewish communities and the responses of contemporary Jews to feminist initiatives and critiques.

REL 4905r. Directed Individual Study (1-3). Supervised reading and research on selected topics. May be repeated to a maximum of nine (9) semester hours.

REL 4908r. Tutorial in Pali (1-3). A study of the grammar, vocabulary and style of the Pali canon to better understand both Buddhist philosophical concepts and the culture of ancient Buddhist India. May be repeated to a maximum of twelve (12) semester hours.

REL 4912r. Tutorial in Sanskrit Texts (1-3). Prerequisite: SAL 4101 or its equivalent. Readings in Sanskrit of selected religious texts. Topics will vary. May be repeated to a maximum of twelve (12) semester hours.

REL 4914r. Tutorial in Latin Religious Texts (1-3). Readings in Latin of selected religious texts. Topics will vary. A basic knowledge of Latin grammar is presumed. May be repeated to a maximum of twelve (12) semester hours.

REL 4932r. Honors Work (3). Students completing this program are awarded their diploma "With Honors in Religion." Interested students should consult with the director of the program. May be repeated to a maximum of nine (9) semester hours.

SAL 4100, 4101. Elementary Sanskrit I, II (3, 3). Introduction to the morphology and syntax of Sanskrit and introduction to Sanskrit texts.

Department of RISK MANAGEMENT/ INSURANCE AND REAL ESTATE AND PROGRAM IN BUSINESS LAW

COLLEGE OF BUSINESS

Chair: Dean H. Gatzlaff; *Professors:* Boggs, Carson, Corbett, Diskin, Maroney, Marshall, Sirmans, Stauber, Vickory; *Associate Professors:* Eastman, Gatzlaff; *Assistant Professors:* Cole, Dumm, McCullough; *Assistant in Business Law and Real Estate:* Woodyard; *Payne H. and Charlotte Hodges Midyette Eminent Scholar in Insurance:* Carson; *Robert L. Atkins Memorial Professor in Risk Management and Insurance:* Eastman; *Kenneth G. Bacheller Professor of Real Estate:* Sirmans; *Mark C. Bane Professor in Business Administration:* Gatzlaff; *Kathryn Magee Kip Professor:* Maroney; *Independent Life & Accident Insurance Company Professor:* Corbett; *State Farm Insurance Professor:* Marshall

The **Risk Management/Insurance and Real Estate** degree programs are designed to meet the academic needs of professional insurance, risk management, and real estate practitioners. The term "profession" connotes an occupation requiring advanced education and training and the ability to meet standards deemed desirable for the protection of the public.

The **Business Law** curriculum is a nondegree, service program serving all students in the College of Business. A basic knowledge of business law is essential to the successful transaction of business and economic affairs. Advanced and specialized courses are available to students who wish a more comprehensive knowledge of business law in relation to such fields as accounting, finance, insurance, and real estate.

For information on graduate programs, refer to the *Graduate Bulletin*.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this department's University degree programs. Specific prerequisites are required for admission into these upper-division programs and **must** be completed by the student at either a community college or a state university prior to being admitted to these programs. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into these programs.**

The following lists the common prerequisites or their substitutions necessary for admission into these upper-division degree programs:

Risk Management/Insurance

1. ACG X021 or ACG X001 and ACG X011;
2. ACG X071;
3. CGS X100*;
4. ECO X013;
5. ECO X023;
6. MAC X233 or MAC X230;
7. STA X023 or QMB X100 (students at Florida State University may substitute STA X014).

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Real Estate

1. ACG X021 or ACG X001 and ACG X011;
2. ACG X071;
3. CGS X100*;
4. ECO X013;

5. ECO X023;
6. MAC X233 or MAC X230;
7. STA X023 or QMB X100 (students at Florida State University may substitute STA X014).

Note: courses marked with an asterisk (*) have at least one acceptable substitute. Contact the department for details.

Degree Programs

Risk Management/Insurance Program

The objective of the curriculum in risk management/insurance is to acquaint the student with the effects of risk and uncertainty upon business and society. The analysis of risk and the methods of meeting risk, as necessary in proper perspective as parts of a broad business curriculum.

Students may coordinate their academic programs with the licensing examinations of the state of Florida and with the professional examinations of the Chartered Property and Casualty Underwriters (CPCU) program, the Chartered Life Underwriters (CLU) program, and other professional programs.

Requirements for a Major in Risk Management/ Insurance

All students must complete 1) the University-wide baccalaureate degree requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*; 2) the State of Florida common prerequisites for risk management/insurance majors; 3) the general business core requirements for risk management/insurance majors; 4) the general business breadth requirements for risk management/insurance majors; and 5) the major area requirements for risk management/insurance majors.

Note: to be eligible to pursue a risk management/insurance major, students must meet the admission requirements of the College of Business. These admission requirements are described in the "College of Business" section of this *General Bulletin*.

General Business Core Requirements

All risk management/insurance majors must complete the following five (5) courses. A grade of "C–" or better must be earned in each course.

BUL	3310	The Legal Environment of Business (3).
FIN	3403	Financial Management of the Firm (3).
GEB	3213	Business Communications (3).
MAN	3240	Organizational Behavior (3).
MAR	3023	Basic Marketing Concepts (3).

General Business Breadth Requirements

All risk management/insurance majors must complete five courses as follows. Each course selected must be completed with a grade of "C–" or better.

REE	3043	Real Estate (3).
RMI	3011	Risk Management and Insurance (3).

Plus three (3) electives from the following list of courses:

FIN	3244	Financial Markets, Institutions, and International Finance Systems (3).
HFT	3240	Managing Service Organizations (3).
ISM	3011	Introduction to Management Information Systems (3).
MAN	3504	Services Operations Management (3).
MAN	3600	Multinational Business Operations (3).
MAN	4720	Strategic Management and Business Policy (3).
MAR	3700	Professional Selling (3).
QMB	3200	Quantitative Methods for Business Decisions (3).

Major Area Requirements

All risk management/insurance majors must complete six (6) courses as listed below. A grade of "C–" or better must be earned in each course used to satisfy the risk management/insurance major area requirements.

RMI	4115	Life Insurance Products (3).
RMI	4224	Property and Casualty Insurance Products (3).

RMI	4292	Property and Casualty Insurance Operations (3).
RMI	4347	Commercial Risk Management (3).

Plus at least two (2) electives from the following list of courses:

RMI	4135	Employee Benefit Plans (3).
RMI	4295	Advanced Property and Casualty Insurance (3).
RMI	4420	Legal and Political Aspects of Insurance (3).

Students also should consider completing RMI 4308r Seminar in Risk and Its Control (3); topics in this course vary by term. Selection of electives should be made after consultation with a faculty adviser in order to satisfy the student's interests and to qualify the student for the state licensing examination and professional designations.

Real Estate Program

The real estate program provides a foundation for students seeking a broad understanding of the real estate market and its participants. Students are introduced to such concepts as urban economics, market behavior, valuation, finance, investment analysis, and real estate law. In general, the curriculum is designed to develop the fundamental skills necessary to make effective real estate business, investment, and consumption decisions. More specifically, the program equips students to enter a wide variety of real estate related professions (e.g. investment and portfolio analysis, institutional lending and mortgage banking, brokerage, appraisal, property management, and property development).

Completion of the real estate major meets, or exceeds, the educational requirements necessary to take the state examinations required to receive the real estate salespersons's license and appraisal certification in Florida.

Requirements for a Major in Real Estate

All students must complete 1) the University-wide baccalaureate degree requirements summarized in the "Undergraduate Degree Requirements" section of this *General Bulletin*; 2) the State of Florida common prerequisites for real estate majors; 3) the general business core requirements for real estate majors; 4) the general business breadth requirements for real estate majors; and 5) the major area requirements for real estate majors.

Note: to be eligible to pursue a real estate major, students must meet the admission requirements of the College of Business. These admission requirements are described in the "College of Business" section of this *General Bulletin*.

General Business Core Requirements

All real estate majors must complete the following five (5) courses. A grade of "C–" or better must be earned in each course.

BUL	3310	The Legal Environment of Business (3).
FIN	3403	Financial Management of the Firm (3).
GEB	3213	Business Communications (3).
MAN	3240	Organizational Behavior (3).
MAR	3023	Basic Marketing Concepts (3).

General Business Breadth Requirements

All real estate majors must complete five (5) courses as follows. Each course selected must be completed with a grade of "C–" or better.

REE	3043	Real Estate (3).
RMI	3011	Risk Management and Insurance (3).

Plus three (3) electives from the following list of courses:

FIN	3244	Financial Markets, Institutions, and International Finance Systems (3).
HFT	3240	Managing Service Organizations (3).
ISM	3011	Introduction to Management Information Systems (3).
MAN	3504	Services Operations Management (3).
MAN	3600	Multinational Business Operations (3).
MAN	4720	Strategic Management and Business Policy (3).
MAR	3700	Professional Selling (3).
QMB	3200	Quantitative Methods for Business Decisions (3).

Major Area Requirements

All real estate majors must complete the five (5) courses listed below. A grade of "C–" or better must be earned in each course used to satisfy the real estate major area requirements.

REE	4103	Real Estate Appraisal (3).
REE	4143	Real Estate Market Analysis (3).
REE	4204	Real Estate Finance (3).
REE	4313	Real Estate Feasibility Analysis (3).
REE	4433	Legal Environment of Real Estate (3).

Selection of upper-division electives to satisfy the University-wide total hours requirement should be made after consultation with the student's faculty adviser.

Definition of Prefixes

- BUL — Business Law
 REE — Real Estate
 RMI — Risk Management/Insurance

Undergraduate Courses

BUL 3310. The Legal Environment of Business (3). An introduction to the legal setting in which business operates. Emphasis on public and regulatory law and on the social, political, and ethical aspects of legal issues in business. Subjects include the nature of law and legal process, administrative law, business and the Constitution, statutory and common law, agency/unemployment law, and related topics.

BUL 3330. Law for Accountancy (4). Basic concepts of law as applied to the accounting profession, including contracts, agency, partnerships and corporations, property, wills and trusts, securities regulation, consumer protection, and antitrust. Students may not receive credit for both BUL 3310 and 3330.

BUL 3350. Uniform Commercial Code Business Law Problems (3). Prerequisite: BUL 3310 or 3330. Uniform Commercial Code. The law of sales, commercial paper, secured transactions, competition, and the antitrust laws; professional liability.

BUL 3360. The Law of Business (3). Prerequisite: BUL 3310. Business organizations and relations; the law of agency, partnerships, and corporations; real and personal property; environmental law.

REE 3043. Real Estate (3). Survey introduction to real estate, real estate evaluation, and real estate investment decision making. The course, in addition to REE 4433, meets the FREC educational requirement for real estate sales licensing.

RMI 3011. Risk Management/Insurance (3). Prerequisite: STA 3014. An introduction to the principles of risk management and insurance and their application to personal and business pure risk problems.

REE 4103. Real Estate Appraisal (3). Prerequisite: REE 3043. The course acquaints the student with the appraisal process and the basics of appraisal language. It also demonstrates the application of a variety of valuation techniques to both residential and income properties.

REE 4143. Real Estate Market Analysis (3). Prerequisites: REE 3043, 4103. (Note: REE 4103 and 4143 cannot be taken concurrently.) Topics in this course include techniques of real estate market analysis, survey research, and applications of computers to real estate problems.

REE 4204. Real Estate Finance (3). Prerequisites: REE 3043; FIN 3403. An intermediate treatment of real estate finance, investment, and tax analysis. Coverage includes mortgage markets, financing devices, and quantitative evaluation of real estate projects.

REE 4313. Real Estate Feasibility Analysis (3). Prerequisite: REE 3043. A course synthesizing real estate finance, investment analysis, and project planning. Project oriented, treating the comprehensive feasibility analysis process.

REE 4433. Legal Environment of Real Estate (3). Prerequisites: BUL 3310; REE 3043. An intermediate treatment of the legal environment of real estate and real estate decision making. The course emphasizes common law rules and legal considerations inherent in contemporary real property decisions. The course, in addition to REE 3043, meets the FREC educational requirements for real estate sales licensing.

REE 4905r. Directed Individual Study (1–3). May be repeated to a maximum of nine (9) semester hours.

REE 4970r. Honors Thesis (3). Prerequisite: Admission to the honors program. May be repeated to a maximum of six (6) semester hours. Six (6) semester hours of thesis are required to complete honors in the major.

RMI 4115. Life and Health Insurance Products (3). Prerequisite: RMI 3011. Analysis of personal and business life and health insurance needs, characteristics of plans appropriate to meet needs. Life insurance rating, receiving, underwriting, and financial statement analysis are also studied.

RMI 4135. Employee Benefit Plans (3). Prerequisite: RMI 3011. Study of basic concepts and managerial concerns underlying the group insurance mechanism and the characteristics of various qualified retirement planning vehicles.

RMI 4224. Property and Casualty Insurance Products (3). Prerequisite: RMI 3011. Analysis of more common basic insurance contracts—their use and coverage afforded as a fundamental basis for understanding legal, underwriting, marketing, financial, and other insurance functions.

RMI 4292. Property and Casualty Insurer Operations (3). Prerequisites: FIN 3403; RMI 3011, 4224. A discussion of the composition, financial structure, and operations of the insurance industry. Special consideration is given to consumer problems and solutions.

RMI 4295. Advanced Property and Casualty Insurance (3). Prerequisites: RMI 3011, 4224. A study of business insurance problem evaluation and planning with proposed solutions utilizing comprehensive coverage package programs.

RMI 4308r. Seminar in Risk and Its Control (3). Prerequisite: Consent of instructor. May be repeated to a maximum of six (6) semester hours.

RMI 4347. Commercial Risk Management (3). Prerequisites: FIN 3403; RMI 4224. Application of the risk management process. Includes risk control, risk financing, and business risk management problems.

RMI 4420. Legal and Political Aspects of Insurance (3). Prerequisites: BUL 3310; RMI 3011. Insurance contracts and marketing—judicial doctrines of contract construction, claims processes, insurance institutions, governmental regulation, and sponsorship of insurance.

RMI 4905r. Directed Individual Study (1–3). May be repeated up to three (3) times.

RMI 4970r. Honors Thesis (3). Prerequisite: Admission to the honors program. May be repeated to a maximum of six (6) semester hours. Six (6) semester hours of thesis are required to complete honors in the major.

Interdisciplinary Program in RUSSIAN AND EAST EUROPEAN STUDIES

COLLEGE OF SOCIAL SCIENCES

Director: Ljubisa S. Adamovich (Economics); *Professors:* Adamovich (Economics), Launer (Modern Languages and Linguistics), Macesich (Economics), Oldson (History), O'Sullivan (Geography), Wynot (History); *Associate Professor:* Efimov (Modern Languages and Linguistics); *Assistant Professor:* Grant (History)

The Interdisciplinary Program in Russian and East European Studies is an international area studies program that is designed to develop a student's competence in the language, history, culture, and the contemporary political and economic setting of a particular country or cultural region. This area studies program is focused on Russia and Eastern Europe. A major or minor in this program serves the needs of 1) general liberal arts students who wish to learn more about this important area of the world; 2) students who wish to pursue graduate work in this or related fields; and 3) students who seek employment in or related to Russia or Eastern Europe. This program also combines area- or country- specific courses, which give students the needed cultural immersion, with more general comparative courses, which provide them with the necessary intellectual tools, the concepts and theories, to make sense out of their particular disciplinary concentrations. Students are to select language and thematic specializations in line with their intellectual interests and career goals and design their program of study around them.

Requirements

Students majoring in the program are to construct their study program around four components: 1) a language requirement; 2) a history requirement; 3) area-specific course work that emphasizes one of two tracks; and 4) a concepts and theories tool requirement to be fulfilled in the student's major track. The total hour requirements for a major are a minimum of twelve (12) semester hours in an approved area language plus an additional thirty-six (36) semester hours beyond the liberal studies requirements (with a grade of "C" or better in each course) distributed across the history requirement and the two tracks. As an interdisciplinary program, no minor is required.

Language Requirement

All students are required to take twelve (12) semester hours of course work in a relevant area language (Russian, German, Czech, Serbo-Croatian, or some other East European language). Students will be encouraged to bring their chosen language up to an effective level of proficiency in both reading and speaking by either tak-

ing additional course work on The Florida State University campus or by participating in a semester or summer abroad program in their relevant cultural area that is administered by, affiliated with, or approved by The Florida State University, as such programs become available. To encourage the achievement of language proficiency, language course work hours taken beyond the twelve (12) semester hour minimum will be counted towards the required thirty-six (36) semester hours for the major.

History Requirement

Students are required to take a minimum of six (6) semester hours of work in the Russian and East European history courses listed below.

Major and Minor Track Requirements

Students are to select either the social science track or the arts and humanities track as the major focus of their course work. Students are to take a minimum of twelve (12) semester hours of course work from among those area specific courses listed for their major track and a minimum of six (6) semester hours of course work from among those area specific courses listed for their minor track.

Concepts and Theories Tool Requirement

For each of the two tracks, a larger number of concepts and theories courses are listed, selected from the relevant disciplines. Students are to take a minimum of six (6) semester hours of course work from among those courses listed for their major track. Students should select these courses with some care, and in consultation with the program director. Courses should be narrowly focused on one or possibly two academic disciplines most relevant to the student's primary Russian and East European-related interests and career goals.

Minor

Students minoring in the program must complete eighteen (18) semester hours of Russian and East European course work beyond the liberal studies requirement. In this case none of the broader comparative concepts and theories courses will count towards the eighteen (18) semester hour minimum. Students may select freely from all area specific courses so long as at least three (3) semester hours are taken in history and each of the two tracks.

Russian and East European History

EUH 3551	Modern Poland (3)
EUH 3571	Russia to Nicholas I (3)

Definition of Prefix

EUS — Russian and East European Studies

Undergraduate Courses

EUS 4905r. Directed Individual Study (1–3). May be repeated to a maximum of nine (9) semester hours.

EUS 4970r. Honors Thesis (3). Six (6) hours of credit must be taken in two (2) successive semesters and must result in the production of a thesis. May not be repeated for more than a maximum of six (6) semester hours.

Graduate Courses

EUS5906r. Directed Individual Study (1–3). (S/U grade only.)

EUS5910r. Supervised Research (1–3). (S/U grade only.)

For listings relating to graduate course work for thesis and master's examination and defense, consult the *Graduate Bulletin*.

Interdisciplinary Major in SECONDARY SCIENCE AND/OR MATHEMATICS TEACHING (SSMT)

COLLEGE OF ARTS AND SCIENCES

Director and Advisor: Dr. Ellen Granger, Office of Science Teaching Activities

This interdisciplinary major was designed to address the critical shortage of science and mathematics teachers in the state of Florida. Students completing this four-year program will receive a bachelor of science (BS) degree from the College of Arts and Sciences and are qualified for certification to teach in high schools in Florida and for national certification.

The SSMT program includes several unique features: 1) The condensed pedagogy component frees students to take additional courses in their areas of specialty; 2) In most cases, a student will be certified to teach in two areas. This feature prepares teachers for the reality of the sec-

ondary school environment, where teachers are often required to teach more than one subject; and 3) A seminar course addresses specific problems and issues related to science and mathematics teaching at the secondary level.

Students must complete a basic science/math core and courses from one of the seven specialty tracks (mathematics/physics, physics/chemistry, physics/earth-space science, biology/chemistry, biology/earth-space science, biology/psychology, mathematics/statistics.) Each specialty track has been certified as an approved teacher education program by the Florida Department of Education.

Students may obtain a double major by completing the major requirements for any of the individual science or math departments in addition to the program listed below. In most cases, the second major requires about twenty-one (21) to twenty-six (26) additional semester hours in the department granting the second major, as opposed to a minimum of thirty (30) semester hours of work, should the student decide to obtain a second degree after graduation.

All students must complete the University's liberal studies requirements, including computer and oral competency, core courses, and one of the specialty tracks.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. Specific prerequisites are required for admission into the upper-division program and **must** be completed by the student at either a community college or a state university prior to being admitted to this program. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.**

The following lists the common prerequisites or their substitutions necessary for admission into this upper-division degree program:

1. EDF X005;
2. EDG 2701;
3. EME 2040;
4. Forty-five (45) semester hours chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:

a) A minimum of nine (9) semester hours in English, including writing, literature, and speech;

b) A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033, and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;

c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;

d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;

e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.

5. MAC 1113;

6. MAC 1140.

7. Fifteen (15) semester hours in the science/mathematics area of specialization. Contact department for details.

The Common Course Prerequisites listed above apply to each of the seven tracks in secondary science/math teacher education.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Note: courses specified in category 4 may be applied to the corresponding requirements in liberal arts and sciences noted above.

College Requirements

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" chapter of this *General Bulletin*. Please refer to the 'Planning Guide to Teacher Education Program' section in the "College of Education" chapter of this *General Bulletin*. Contact the program director for details.

Secondary Science and/or Mathematics Track I: Biology/Chemistry

1. Liberal Studies:

See the "Teacher Preparation General Education" section of the "College of Education" chapter in this *General Bulletin* and the State of Florida Common Course Prerequisites listed above.

2. Science/Math Core (includes liberal studies, natural science):

BSC 2010 Biological Science I (3)

BSC 2010L Biological Science I Laboratory (1)

CHM 1045 General Chemistry I (3)

CHM 1045L General Chemistry I Laboratory (1)

PHY 2048C General Physics A (5)

or

PHY 2053C College Physics A (4)

3. **Modern Language:** twelve (12) semester hours (department depends on language selected).

4. Education Core:

EDF 4214 Classroom Applications of Educational Psychology (3)

EDF 4440 Measurement and Evaluation in the Classroom (3)

EME 2040 Introduction to Educational Technology (3)

RED 4360 Teaching Reading in Middle/Secondary Schools (3)

SCE 4939r Seminar in Contemporary Science, Mathematics, and Science Education (1)

TSL 4324 ESOL Instruction in the Content Area (3)

5. Advanced Courses Required for Specialization:

BCH 4053 General Biochemistry I (3)

BOT 3015 Plant Biology (2)

BSC 2011 Biological Science II (3)

BSC 2011L Animal Diversity Laboratory (2)

BSC 3402L Experimental Biology Laboratory (2)

Interdisciplinary Program in SOCIAL SCIENCE

COLLEGE OF SOCIAL SCIENCES

Director: Robert E. Crew, Jr., Office of the Dean, College of Social Sciences

The Interdisciplinary Program in Social Science (ISS) provides a multidisciplinary view of contemporary social issues and problems. The program offers students an opportunity to draw on the several disciplines of social science as they seek an understanding of public affairs and answers to questions about society. The departments whose courses may be utilized in the program are Anthropology, Economics, Geography, History, Political Science, Sociology, and Urban and Regional Planning, along with the School of Public Administration and Policy.

The program will be particularly appealing to students who have wide-ranging interests in social issues. Its flexibility permits students to pursue specialized and preprofessional interests and to expose themselves to the variety of perspectives of the social sciences.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

- Two introductory courses for six (6) semester hours in a social science discipline.

Requirements

A major in the interdisciplinary program requires forty-two (42) semester hours, including nine (9) semester hours in courses taken to satisfy liberal studies requirements. For the usual major, work must be taken in at least three departments within

the program. There must be a primary concentration of eighteen (18) semester hours in one department, a second concentration of twelve (12) semester hours in another department, while the remaining twelve (12) semester hours may be distributed among any of the remaining social science departments. Students must complete a total of twenty (20) semester hours in courses numbered above 2999. A minimum cumulative grade point average (GPA) of 2.0 on all course work applied to the major must be maintained.

Students may also, rather than selecting courses in the manner identified above, seek an interdisciplinary concentration in four topical areas of study. These are environmental affairs, law and society, urban studies, and public service. Each of these concentrations are multicourse programs focusing on the named topics. For details about these concentrations, see the program director.

Degrees

The courses of study offered by the Interdisciplinary Program in Social Science lead to the bachelor of arts (BA) and bachelor of science (BS) and to master of arts (MA) and master of science (MS) degrees.

Requirements for a Minor for Psychology Majors at the Panama City Campus

A minor in the Interdisciplinary Program in Social Sciences is available for psychology students at the Panama City campus. Students may obtain the minor by successfully completing a total of fifteen (15) semester hours of course work in interdisciplinary social science participating departments, which include interdisciplinary social science, anthropology, economics, geography, history, political science, sociology and urban and regional planning.

Honors in the Major

The ISS program participates in the upper-division honors in the major. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Definition of Prefixes

CPS	—	Comparative Policy Studies
ISS	—	Social Science: Interdisciplinary

Undergraduate Courses

CPS 4321. Comparative Policy Studies: Contemporary Southeast Europe (3). Contemporary problems and prospects for Southeast Europe.

CPS 4905r. Directed Individual Study (3). May be repeated to a maximum of nine (9) semester hours.

ISS 4905r. Directed Individual Study (1–3). May be repeated to a maximum of six (6) semester hours.

ISS 4906r. Directed Individual Study (3). May be repeated to a maximum of six (6) semester hours.

ISS 4907r. Honors Work (3). May be repeated to a maximum of six (6) semester hours.

ISS 4931r. Special Topics (1–3). May be repeated with permission of the Director of the Interdisciplinary Program in Social Science to a maximum of eighteen (18) semester hours.

ISS 4944r. Internship (3–6). Students are placed in a variety of employment situations related to their academic interest and conduct, under faculty supervision, research related to a problem or issue facing the sponsor of the internship. May be repeated to a maximum of six (6) semester hours.

Graduate Courses

CPS 5325. Joint Seminar in Comparative Resource Development I (3).

CPS 5424. Research Seminar in Comparative Political and Administrative Organization (3).

CPS 5454. Research Seminar in Science, Technology, and Environmental Policy (3).

CPS 5474. Research Seminar in International and Comparative Law (3).

CPS 5906r. Directed Individual Study (3). (S/U grade only.)

CPS 5911r. Supervised Research (1–9). (S/U grade only.)

ISS 5125. Introduction to Economics for Executives (3).

ISS 5905. Direct Individual Study (3).

ISS 5930r. Special Topics in Social Science (1–3).

ISS 5945. Internship (3–6).

ISS 5942r. Supervised Teaching (1–3). (S/U grade only.)

ISS 5951r. Problem Analysis Project (3).

SOCIAL WORK

SCHOOL OF SOCIAL WORK

Professors: Bardill, Figley, Mazza, McNeece, Smith, Thyer; *Associate Professors:* Abell, Graham, Maddox, Maxwell, Vinton; *Assistant Professors:* Altholz, Cash, Crook, Delva, T. Gomory, Ryan, Sellers; *Visiting Assistant Professors:* F. Gomory, Lager, T. Perry; *Faculty Administrators:* Berry, P. Lager; *Associate in Field Instruction:* Keroack; *Associate in Research:* Bax; *Assistants in Field Instruction:* Allen, Boone, Calohan, Detweiler, Gallego, Giddens, Schultz, Sheheen, Sherman, Wright, Yanke; *Assistant in Field Instruction and Academic Advising:* Mathis; *Associate in Social Work:* Lee

The School of Social Work offers programs of study leading to the 1) bachelor of arts (BA) and bachelor of science (BS) degrees, which are designed to enable students to give direct service to individuals, families, groups, and communities at the generalist level of social work practice; 2) master of social work (MSW) degree, which is designed, as an advanced practice degree, to increase the skills of professional social workers to more advanced competencies acquired through two concentrations—the clinical social work concentration and the social policy and administration concentration; and 3) doctor of philosophy (PhD) degree, which is designed to advance the social work profession through the development of researchers/scholars and educators. Doctoral students choose a concentration area of study from among social welfare administration, direct practice, or clinical social work.

For complete details of undergraduate degree requirements, plus a description of the School of Social Work, its opportunities, and available financial assistance, refer to the “School of Social Work” section of this *General Bulletin*. Refer to the *Graduate Bulletin* for graduate programs.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

Three (3) semester hours in **each** of the following:

1. American government (American national government or American government);
2. Biology (human biology or anatomy and physiology);
3. Economics (microeconomics or macroeconomics [ECO prefix]);
4. Introductory psychology;
5. Introductory sociology/social problems.

Definition of Prefix

SOW — Social Work

Undergraduate Courses

SOW 1502r. Human Services Experience (1). (S/U grade only.) Volunteer experience in a social agency or community program providing human service. Thirty (30) hours of volunteer work required per hour of credit. May be repeated to a maximum of three (3) semester hours.

SOW 3203. Introduction to Social Work and Social Welfare (3). This course surveys the philosophy, history, and services of social welfare as well as the values, methods, and practice settings of the profession of social work.

SOW 3350. Interviewing and Recording in Social Work (3). Overview of the basic elements of interviewing and recording as utilized in various helping professions.

SOW 3701. Alcohol Use and Abuse (2). Course examines the physiological, sociological, cultural, and psychological responses to alcohol use and abuse in the United States. Lectures, group discussion, and experiential learning help students assess their own values in relation to drinking. Alcoholism is discussed as it affects the individual and the family.

SOW 3949. Cooperative Education Work Experience (0). (S/U grade only.)

SOW 4104. Human Behavior in the Social Environment I (3). Prerequisites: SOW 1502, 3203, 3350. This course focuses on the individual and various systems such as families, groups, organizations and communities. Theoretical explanations of psychosocial development across the life cycle also are explored.

SOW 4108. Women's Issues and Social Work (3). This course is designed to acquaint students with the oppressive focuses that affect women throughout life and the role that social work plays in addressing these issues.

SOW 4152. Human Sexuality (3). Survey of issues and problems associated with human sexuality, intended for social workers and others in helping professions. Emphasis on sexually oppressed groups, sexual life cycle from a psychosocial perspective, and student's attitudes and values regarding sexuality.

SOW 4232. Social Welfare Policies and Programs (3). Prerequisites: SOW 1502, 3203, 3350; economics and national government. Provides a beginning understanding of the relationship between social policy, social welfare, and American society. Particular attention will be paid to the nature of our present social welfare system and its impact on disadvantaged populations. Majors only.

SOW 4242. Social Services for Families and Children (3). Contemporary practice and policies in the area of social services for families and children. Attention given to historical roots and trends in child welfare services and to the societal values underlying them. Major U.S. programs serving parents and children are examined.

SOW 4280. Ethics in Social Work Practice (3). This course provides students with a framework of knowledge and skills to prepare them for effective ethical decision-making which adheres to the NASW Code of Ethics.

SOW 4302. Peer Advising in Social Work (3). Prerequisites: SOW 1502, 3203, 3350. This course offers students an opportunity to develop and strengthen interviewing, assessment, problem-solving, networking, and communication skills through participation in the School of Social Work Peer Advising Center.

SOW 4323. Theory and Practice of Social Work with Groups (3). A practice-oriented course to develop group leaders who have an understanding of group dynamics and possess effective leadership skills to facilitate group development and work. The course will focus on both task and treatment groups.

SOW 4332. Theory and Practice of Community Organization (3). Examines contemporary models of social work practice from a macrosystems perspective. Community organizing, social planning, and the tactical use of group structures and processes in community organizing are emphasized as strategic processes in the identification, prevention, and solution of major social problems.

SOW 4340. Theories and Models of Social Work Practice (3). This is one of three courses in the practice foundation curriculum. The course is designed to introduce students to a range of theories and models of social work practice from an ecological framework. Majors only.

SOW 4341. Social Work Practice (3). Prerequisites: SOW 1502, 3203, 3350. A beginning course in social work practice focusing on individuals, families and communities. Content includes: social work values, assessments, contracts, crisis intervention, family systems techniques, recording, working with minority and women clients, termination, and skill development component. Majors only.

SOW 4403. Introduction to Social Work Research (3). Prerequisites: SOW 1502, 3203, 3350. An overview of methods and issues in social research designed to teach students to be critical consumers of others' research as well as to provide them an experience in conducting their own research. Includes design, data collection, data analysis, and interpretation. Methods of evaluating practice are presented. Majors only.

SOW 4414. Measurements in Social Work Research (3). Prerequisites: SOW 4403. Statistical procedures which have practical application to research in the social work profession. Majors only.

SOW 4510. Undergraduate Field Instruction (12). (S/U grade only.) Prerequisites: completion of all required social work courses; a 3.0 GPA in social work courses; Corequisite: SOW 4522. Supervised generalist experience in a social agency totaling five hundred twelve (512) hours. Internships are available fall, spring, and summer semesters. Due to a limited number of agencies in the Tallahassee area, however, students may be placed outside of this area. Students should plan for the possibility of relocation. Students must submit an application to the Office of Field Instruction. Majors only.

SOW 4522. Integrative Field Seminar (3). To be taken concurrently with SOW 4510. Designed to assist students in integrating theoretical concepts with actual social work practice; examines professional issues faced by practitioners. Majors only.

SOW 4602. Social Work in Health Settings (3). Exploration of the characteristics of health and medical care programs in the U.S. and the parameters of social work practice within them. Patterns of service delivery, standards, rural-urban differences, and racial/ethnic and gender considerations in service delivery are addressed.

SOW 4620. Diversity in Social Work Practice (3). This course will enhance students' understanding of human diversity and will prepare them to work with ethnic minorities, women, gays and lesbians and people with disabilities. Students also will understand the connections between diversity issues and social and economic justice.

SOW 4622. Social Work with Black Families (3). Theories and research relevant to examining selected forces that impact on African-American family structures and functions. Major consideration is given to misconceptions, misplaced emphasis, and myths about the African-American family in contemporary America and to appropriate models and strategies for intervention.

SOW 4627. Mental Health of Diverse Populations (3). This course examines various factors that impact the mental health of minorities, women and other diverse populations. Special focus on mental health needs, accessibility and services will be addressed.

SOW 4633. The Social Worker in the Public School System (3). Designed to give students an in-depth understanding of current school social work practices; focuses on the multidisciplinary team approach, alternative models of service delivery, the impact of Florida and federal legislation, and the characteristics of client problems encountered in the field.

SOW 4645. Aging and Old Age: Social Work with the Aged (3). An introduction to the field of aging. Course purposes include making students aware of their own attitudes toward aging and the aged, dispelling myths and stereotypes about the aged, and assessing past and present efforts to meet the needs of the elderly.

SOW 4654. Social Work With Children (3). Designed to increase the knowledge and understanding essential for effective interventions in the psychological and behavioral disorders of children and to develop special skills in working with children and their parents in the area of direct social work practice.

SOW 4658. Mental Health and Child Welfare (3). This course provides students with the knowledge and skills to relate to theory, research and implications of child and adolescent maltreatment in child development and mental health issues. This course is part of a child welfare certificate program.

SOW 4680. Living with AIDS: Prevention Intervention and Care (3). Provides a comprehensive overview of the biopsychosocial implications of HIV/AIDS-related illness. Research and policy implications are reviewed, with a focus on the roles of service providers responding to the needs of severely impacted groups.

SOW 4681. Mental Retardation: New Service Models (3). Course identifies policies, regulations, proposed legislation, or laws dealing with the problem of mental retardation. Addresses the major research contributions to the field of retardation and the implications of this research for practice. Focuses on the interdisciplinary systems of services needed by the retarded.

SOW 4702. Chemical Dependency Problems and Programs (3). Students are introduced to the etiology and epidemiology of chemical dependency. Both physiological and psychological aspects of addiction are covered. Major programs and treatment modalities used in social work practice for chemically dependent clients are examined.

SOW 4905r. Directed Individual Study (1–4). Prerequisites: Eight (8) credit hours in social work; 2.75 GPA; consent of instructor. May be repeated to a maximum of eight (8) semester hours. See departmental guidelines.

SOW 4911r. Honors Work in Social Work (1–4). Prerequisites: Junior standing; 3.2 or higher GPA; at least one term of twelve (12) or more semester hours; junior college transfers with membership in Phi Theta Kappa may be admitted directly. A thesis, completed over a period of two or three semesters, based on traditional library research and critical analysis. May be repeated to a maximum of eight (8) semester hours.

SOW 4935r. Seminar in Social Work: Selected Topics (3). May be repeated to a maximum of twelve (12) semester hours as topics change.

Graduate Courses

SOW 5105. Human Behavior and the Social Environment I (3).

SOW 5106. Human Behavior and the Social Environment II (3).

SOW 5109. Women's Issues and Social Work (3).

SOW 5125. Psychopathology in Clinical Practice (3).

SOW 5153. Human Sexuality (3).

SOW 5156. Emotional and Social Aspects of Illness (3).

SOW 5214r. Policy Innovations in Social Welfare (3).

SOW 5235. Policies and Programs in Social Services (3).

SOW 5238. Advanced Policy Analysis (3).

SOW 5281. Ethics in Social Work Practice (3).

SOW 5282. Legislative Advocacy (3).

SOW 5324. Group Treatment in Social Work Practice (3).

SOW 5334. Organization and Community System Change (3).

SOW 5335. Theories and Models of Social Work Practice (3).

SOW 5340. Theory and Practice of Poetry Therapy (3).

SOW 5342. Practice I: Social Work Practice with Individuals, Families and Small Groups (4).

SOW 5344. Practice II: Social Work with Task Groups, Communities, and Organizations (3).

SOW 5345. Advanced Social Services Administration (3).

SOW 5353. Marital and Couple Counseling in Social Work Practice (3).

SOW 5356. Social Work Practice (3).

SOW 5363. Evaluation of Social Work Practice (3).

SOW 5364. Theory and Practice of Psychodynamic Social Work (3).

SOW 5365. Behavioral Approaches to Social Work Practice (3).

SOW 5366. Social Networking and Case Management in Social Work (3).

SOW 5367. Theory and Practice of Crisis Intervention and Brief Treatment (3).

SOW 5369. Integrative Seminar in Advanced Social Work Practice (3).

SOW 5371. Dynamics of Social Services Systems (3).

SOW 5372. Supervision, Consultation, and Staff Development in Social Work (3).

SOW 5376. Budgeting and Finances in the Social Services (3).

SOW 5377. Personnel Administration in the Social Services (3).

SOW 5378. Data Management and Technologies in the Social Services (3).

SOW 5383. Theory and Practice of Administration for the Human Services (3).

SOW 5404. Introduction to Social Work Research (3).

SOW 5415. Measurement and Analysis in Social Work (3).

SOW 5435. Evaluation Research (3).

SOW 5455. Grant Writing and Grant Management (3).

SOW 5532r. Graduate Field Instruction I (5–10). (S/U grade only.)

SOW 5535r. Graduate Field Instruction II (6–12). (S/U grade only.)

SOW 5537r. Field Instruction: Special Placement (3–12). (S/U grade only.)

SOW 5603. Social Work in Health Settings (3).

SOW 5611. Family Counseling in Social Work (3).

SOW 5612. Intensive Family Practice in Social Work (3).

SOW 5614. Family Violence Across the Life Span (3).

SOW 5623. Social Work with Black Families (3).

SOW 5628. Mental Health of Diverse Populations (3).

SOW 5635. The Social Worker in the Public School System (3).

SOW 5646. Aging and Old Age: Social Work with the Aged (3).

SOW 5655. Social Work with Children and Adolescents (3).

SOW 5656. Child Welfare Practice (3).

SOW 5659. Mental Health and Child Welfare (3).

SOW 5671. Mind/Body, Medicine (3).

SOW 5683. Mental Retardation: Social Work Practice and Issues (3).

SOW 5688. Living with AIDS: Prevention Intervention and Care (3).

SOW 5712. Chemical Dependency Problems and Programs (3).

SOW 5908r. Directed Individual Study (1–4). (S/U grade only.)

SOW 5915r. Supervised Research (1–3).

SOW 5938r. Social Work Seminars: Selected Topics (3).

SOW 5941r. Supervised Teaching (1–3). (S/U grade only.)

SOW 6358. Assessment Methods in Social Work Practice Research (3).

SOW 6375Lr. Teaching Tutorial Laboratory (1–3). (S/U grade only.)

SOW 6398. History and Philosophy of Social Welfare Services and Policies (3).

SOW 6399. Social Policy Analysis (3).

SOW 6492. Theory, Design, and Problem Formulation in Social Work (3).

SOW 6494. Advanced Research in Social Work (3).

SOW 6693. Theories and Models of Social Work Practice (3).

SOW 6694. Research Issues in Direct Practice (3).

SOW 6696. Course Design and Curriculum Building in Social Work (3).

SOW 6697.	Philosophies of Science in Social Work (3).	SOW 6916r.	Supervised Research (1–5). (S/U grade only.)	SOW 6945r.	Family Therapy Practica (1–12).
SOW 6904r.	Reading in Social Work/Social Welfare (1–6). (S/U grade only.)	SOW 6936r.	Dissertation Seminar (2–5). (S/U grade only.)	SOW 6960.	Preliminary Prep (0–12). (S/U grade only.)
SOW 6909r.	Directed Individual Study (1–6). (S/U grade only.)	SOW 6938r.	Selected Topics in Social Work (3).	For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the <i>Graduate Bulletin</i> .	
		SOW 6942r.	Supervised Teaching (1–3). (S/U grade only.)		

Department of SOCIOLOGY

COLLEGE OF SOCIAL SCIENCES

Chair: Isaac Eberstein; *Professors:* Armer, Eberstein, Fendrich, Hardy, Hazelrigg, Imershein, Isaac, Kinloch, Martin, Orcutt, Quadagno; *Associate Professors:* Brewster, Dahms, Ford, Padavic; *Assistant Professors:* Barrett, Heron, Reid, Reynolds, Taylor; *Professor Emeritus:* Nam; *Affiliate Faculty:* Chiricos, Miles, Milton, Papagiannis, Sly

Few fields have as broad a scope as sociology, the study of human groups and social life. The sociology major's interests range from the nuclear family to the many types of societies, from crime to religion, from the divisions of race and class to the integrating symbols of culture, from the sociology of occupations to politics. At The Florida State University, the Department of Sociology examines all of these matters and others. Current research is ongoing in such diverse areas as sex roles, race relations, the welfare state, and population.

There are several reasons for pursuing a sociology degree. First, sociology addresses circumstances and events that affect students' lives today and in the future. Second, a sociology major provides a broad-based, liberal arts education that promotes understanding and sharpens analytical skills. Third, a sociology major is excellent preparation for a career in professions that require an ability to think and write analytically. Sociology graduates have found employment in academia, business, law, medicine, politics, and government. Fourth, sociology prepares students for advanced graduate work in anticipation of careers in research and teaching.

Sociology majors learn how to analyze the employment, termination, and promotional practices of organizations; anticipate the changes humans will undergo in their life; practice market research; detect social trends; analyze statistical data; evaluate public policies; assess the impact of technological innovations; interpret political and social change in the world system; conduct surveys and interpret their results; project fertility and mortality patterns; and appreciate classic theories of social order and change.

The facilities and resources available to sociology majors include access to the microcomputer lab in the College of Social Sciences

and opportunities to work closely with faculty on research projects. The department provides a wide range of courses on important aspects of social life, leading to greater understanding of human society and a variety of skills that are increasingly essential for citizens in a postindustrial, information-based, and rapidly changing global society.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. Sociology majors should complete two (2) lower-level courses with the prefixes of SYA, SYD, SYG, SYO, or SYP.

Core Program

For acceptance as a sociology major, students must have successfully completed The Florida State University's math and English requirements for liberal studies with a grade point average (GPA) of 2.0 or better. Sociology majors are encouraged to complete all liberal studies requirements before admission to the College of Social Sciences.

Degrees

Students may earn a bachelor of arts (BA) or a bachelor of science (BS) degree in sociology.

Major

Students must complete thirty (30) semester hours in sociology, with a grade of "C–" or better in each course, including: SYA 4010 Sociological Theory, SYA 4300 Methods of So-

cial Research, and SYA 4400 Social Statistics. Students may take a regular sociology major, which consists of twenty-one (21) additional semester hours from any sociology offerings. Alternatively, students may elect to concentrate in *Work and Industry* (SYA 4930r Selected Topics in Sociology such as Work and Industry in the South, The Changing Workplace, and American Labor Movement in Film, SYO 4374 Gender and Work, or SYO 4350 Sociology of Business; Labor; and Government), or *Applied Sociology* (SYO 4400 Sociology of Health Care, SYP 3730 Aging and Society, SYP 3540 Sociology of Law, SYP 4340 Public Opinion Analysis, and SYD 3020 Population and Society). Students selecting a concentration must complete twelve (12) semester hours in their concentration and the remaining nine (9) semester hours from any sociology offerings.

Transfer students must earn a minimum of fifteen (15) semester hours in sociology at The Florida State University. Transfer of the required upper-division courses (SYA 4010, 4300, and 4400) is subject to the approval of the departmental chair.

Minor

A minor may be earned by completing any twelve (12) semester hours in sociology with a grade of "C–" or better in each course. At least six (6) of the twelve (12) semester hours must be completed at The Florida State University.

Honors in the Major

The Department of Sociology offers a program of honors in the major to encourage talented juniors and seniors to undertake independent and original research as part of their undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Definition of Prefixes

DEM	—	Demography
SYA	—	Sociological Analysis
SYD	—	Demography and Area Studies
SYG	—	Sociology: General
SYO	—	Social Organization
SYP	—	Social Processes

Undergraduate Courses

Introductory Course

SYG 1000. Introductory Sociology (3). An introduction to the fundamentals of sociology. Emphasis is placed on exposure to the basic findings of empirical research studies in a wide range of areas traditionally examined by sociologists.

Sociological Theory and Methods of Research

SYA 4010. Sociological Theory (3). This course introduces the student to the kind of theory which has developed in the field of sociology since its foundation, moving through to the contemporary scene. Major theoretical fields, major theorists, and dominant theoretical issues which continue to be part of the sociological approach to explanation are covered.

SYA 4300. Methods of Social Research (3). Broad coverage of research design, data collection, and data analysis. This is a required course for sociology majors.

SYA 4400. Social Statistics (3). This course involves the application of statistical techniques to sociological data as illustrated in the research and writing of social scientists. As a course for majors, it represents an important part of the student's methodological training with respect to the statistical analysis of data typically used by sociologists. The student is expected to carry out a number of exercises involving the statistical analysis of sociological data and to interpret the results.

The Family

SYG 2430. Marriage and the Family (3). This course is concerned with the processes of marriage and family relationships in a changing society. Topics covered include interpersonal attraction, heterosexual love relationships, pre-marital and marital sexuality, marital and family interaction, and alternative family forms. The major course objective is to familiarize students with the process of heterosexual and parent-child interaction over the life cycle from a sociological perspective.

SYO 3100. Family Problems and Social Change (3). A basic sociological approach to conditions, issues, and problems of familial organization within the context of changing institutional structures of modern society. Attention is given to such questions as: how have spouse roles changed, and why? how do changes in the organization of work affect family experience? how are family and kinship patterns affected by an aging population? etc.

Personality and Society (Social Psychology)

SYP 3000. Social Psychology of Groups (3). This course represents the study of social psychology from a sociological perspective. Specifically, it is an analysis of the influence of the groups and the individual on each other, including the study of norms, group pressure, leadership, motivation, and social personality.

SYP 3300. Collective Action and Social Movements (3). There have been scores of social movements in the U.S. and around the world in this century. The course explores the origins and organization of social movements, the dilemmas and challenges facing social movements, the relationship between social movements and political institutions and the role of social movements in causing social change.

SYP 4340. Public Opinion Analysis (3). An examination of the role of the mass media influences on public opinion, techniques of opinion measurement, and the impact of opinion polls on attitudes and behavior.

Population and Human Ecology

SYD 3020. Population and Society (3). This course examines the causes and consequences of population change in the United States and the world with an assessment of the impact of demographic change on various social institutions.

Social Issues and Change

SYD 3800. Sociology of Sex and Gender (3). This course provides a look at the sociological facets of gender and its effect in society.

SYD 4700. Race and Minority Group Relations (3). An introduction to prevalent sociological concepts and theories utilized in the study of dominant-subordinate relationships between groups. The social significance of minority status is emphasized. Once introduced, concepts and theories are applied to the experiences of several nonwhite ethnic groups in the US with special attention being devoted to contemporary black-white relationships. The reemergence of white ethnicity is discussed in relation to the above.

SYG 2010. Social Problems (3). This course represents a study of various contemporary social problems in an urbanized society which may include such topics as education, the family, politics, the economy, race relations, drug use and alcoholism, over-population, and other issues.

SYO 4374. Gender and Work (3). This course is an introduction to the cultural and structural mechanisms that reproduce gendered outcomes in the workplace. It addresses occupational segregation, the wage gap, sex differences in promotions, unpaid family work, explanations of inequality, strategies for change and resistance to change, and the intersections of gender, race, and class.

SYO 4550. Comparative Sociology (3). This course deals with variations and patterns of development in individuals and social institutions across societies.

SYP 3400. Social Change (3). This course is concerned with the context, essential sources, dynamics, and consequences of social development, modernization, and societal change.

SYP 3730. Aging and the Life Course (3). In coming years, Americans will have to make important decisions regarding the consequences of population aging. This course explores how changing life course patterns have influenced retirement, health care, politics, and family structure. It also considers the policy choices that will have to be made in the twenty-first century as the baby boom generation reaches retirement age.

SYP 4570. Deviance and Social Control (3). This course focuses on major theories and research traditions, including structural and social psychological causes of deviant behavior, processes of labeling deviants, and social conflict over definition and treatment of deviance.

Social Organization

SYD 3600. The Community in Urban Society (3). An introduction to the community as a changing form of social organization with emphasis on community field studies (ethnographies), theories of communal organization, and the study of community-specific processes such as power distribution and decision making, conflict, stratification, and the dynamics of land-use change. Special attention is given to the study of the metropolitan community in US society and its inner city and suburbs.

SYO 3200. Sociology of Religion (3). A basic sociological perspective on the social organization and forms of religious life in modern society. Religious groups are studied as organizations that contribute to social stability, social conflict, and social change.

SYO 3530. Social Classes and Inequality (3). Basic theory of social stratification is presented and used in description of the stratification system in the United States and other nations. Opportunity for social mobility in the social structure is assessed and compared with rates of mobility in other countries.

SYO 4250. Sociology of Education (3). This course presents a sociological approach to the study of education as a social institution, its structure, functions, and role in contemporary life.

SYO 4300. Sociology of Politics (3). This course deals with American political institutions, political organizations, pressure groups, and the public's participation in political processes. Discussion focuses on current political issues from a sociological perspective.

SYO 4350. Sociology of Business, Labor, and Government (3). The primary focus of this course is on the interrelationships among business and production organizations, labor interests and struggles, and the state and state policies, from various theoretical and historical perspectives. In addition to critical evaluation of conventional political-economic perspectives, the course will examine recent sociological work on the state, the labor movement, and industry.

SYO 4400. Sociology of Health Care (3). An introduction to the organizational, economic and political structures and problems of American health care. Also introduces several of the sociological approaches that examine these issues.

SYP 3540. Sociology of Law (3). This course examines the interrelationship between the legal order and the social order. Limitations of civil and criminal law for conflict management and for implementation of social policy are considered.

Others

SYA 4905r. Directed Individual Study (3). Consent of instructor and departmental chair required. May be repeated to a maximum of nine (9) semester hours.

SYA 4930r. Selected Topics in Sociology (3). May be repeated to a maximum of nine (9) semester hours.

SYA 4931r. Honors Work (3). May be repeated to a maximum of nine (9) semester hours.

SYA 4932r. Tutorial in Sociology (1). Prerequisite: upper division sociology majors or minors only. Reading and analysis of primary literature on selected topics in contemporary sociology. May be repeated to a maximum of three (3) semester hours.

Graduate Courses

Sociological Theory

SYA 5125. Classical Social Theory (3).

SYA 5126. Contemporary Sociological Theory (3).

Department of SPECIAL EDUCATION

COLLEGE OF EDUCATION

Chair: Mary Frances Hanline; *Professors:* English, Koorland, Schwartz; *Associate Professors:* Burkhead, Ebener, Edwards, Hanline, Lewis, Menchetti, Oseroff, Ponder; *Assistant Professors:* Rollins, Rosenblum, Thompson; *Visiting Assistant Professors:* Bruno, L. Jones; *Professors Emeriti:* Jones, Tait

There are four major degree areas of specialization in the Department of Special Education: emotional disturbance/learning disabilities, mental disabilities, rehabilitation studies, and visual disabilities. Within the four it is possible to emphasize early childhood special education, special education technology, or transition. Please refer to the 'Teacher Preparation General Education Requirements' section of the "College of Education" chapter in this *General Bulletin* for additional details.

Program requirements for state-approved educator preparation programs are subject to revision based on changes in State Board of Education Rule 6A-5.066, Approval of Preservice Teacher Preparation Programs, as amended August 7, 2000.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for the following University degree programs. Specific prerequisites are required for admission into the upper-division program and **must** be completed by the student at either a community college or a state university prior to being admitted to these programs. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.**

The following lists the common prerequisites or their substitutions necessary for admission into this upper-division degree program:

Education of Mentally Handicapped

1. EDF X005;
2. EDG 2701;
3. EME 2040;
4. Fifty-one (51) semester hours must be chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:

a) A minimum of nine (9) semester hours in English, including writing, literature and speech;

b) A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033 and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;

c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;

d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;

e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.

The only exception to the liberal arts and sciences requirement will be if there is a specific institutional requirement (e.g., a wellness course or a freshman seminar course) for the associate in arts or baccalaureate degree.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact the department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Education of the Blind and Visually Handicapped

1. EDF X005;
2. EDG 2701;
3. EME 2040;
4. Fifty-one (51) semester hours must be chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:
 - a) A minimum of nine (9) semester hours in English, including writing, literature, and speech;
 - b) A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033 and including college algebra or higher, and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;
 - c) A minimum of nine (9) semester hours in the natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;
 - d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;
 - e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.

The only exception to the liberal arts and sciences requirement will be if there is a specific institutional requirement (e.g., a wellness course or a freshman seminar course) for the associate in arts or baccalaureate degree.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the

student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact the department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Education of Specific Learning Disabled

1. EDF X005;
2. EDG 2701;
3. EME 2040;
4. Fifty-one (51) semester hours must be chosen from the following liberal arts and sciences areas: communications, mathematics, natural and/or physical sciences, fine arts and/or humanities, and social sciences. These hours must include:
 - a) A minimum of nine (9) semester hours in English, including writing, literature, and speech;
 - b) A minimum of nine (9) semester hours in mathematics (MGF, MGT, MAC and STA prefixes only), excluding MAT 1033 and including college algebra or higher and geometry. MGF 1106 Liberal Arts Mathematics I meets the intent of the program approval rule with respect to the inclusion of geometry in the mathematics requirement;
 - c) A minimum of nine (9) semester hours in natural and/or physical sciences, including earth science, life science, and physical science, with a minimum of one associated lab;
 - d) A minimum of six (6) semester hours in the humanities, including philosophy and fine arts;
 - e) A minimum of twelve (12) semester hours in the social sciences, including general psychology and American history.

The only exception to the liberal arts and sciences requirement will be if there is a specific institutional requirement (e.g., a wellness course or a freshman seminar course) for the associate in arts or baccalaureate degree.

Education courses may not be used to meet these communications, mathematics, natural and/or physical science, humanities, or social science requirements.

In addition to EDG 2701, the student must take six (6) additional semester hours with an international or diversity focus. The eligible courses will be determined by the institution where the student is currently earning his or her AA or baccalaureate degree. Foreign language courses may be used to meet this requirement. Contact the department and/or adviser for details.

Eligible courses will be determined by the community college or university where the student currently is earning the Associate in Arts or baccalaureate degree and will be published in the institution's catalog and in the *Community College Counseling Manual*.

Therapeutic Recreation

1. BSC X084 or PET 3301 or a three (3) semester hour combination of anatomy and either physiology or exercise physiology;
2. DEP X004 or RCS 3061. This course must be a human growth and development across the life span;
3. HSC X531 or any medical terminology course;
4. PSY XXXX, general psychology course

Emotional Disturbance/ Learning Disabilities

This degree major is designed to prepare individuals for careers as public school teachers of students with mild/moderate emotional disturbances and learning disabilities. The program leads to certification in emotionally handicapped, specific learning disabilities, and varying exceptionalities.

This degree major is a three-year training program that culminates in the simultaneous awarding of the bachelor of science (BS) and master of science (MS) degrees. Students must maintain a 3.0 grade point average (GPA) during the junior/senior years of study or earn a 1000 on the general aptitude section of the Graduate Record Examinations (GRE) in order to be admitted for the third (master's) year of study.

Education of the Mentally Handicapped

This degree major is designed to prepare persons for careers as teachers of children and youth with mental disabilities. The teacher is equipped to teach all levels of severity at the elementary and secondary level in public schools, private schools, or in residential facilities.

Visual Disabilities

The objective of the visual disabilities degree major is to prepare specialists to provide services to individuals who are either blind or have low vision. The bachelor's degree program prepares individuals as 1) classroom teachers; and 2) orientation and mobility specialists. Students are drawn from the southeastern area of the United States and, following graduation, are employed in a variety of settings that offer services to children and youth with visual impairments.

Continuation Requirement

All special education majors must earn a minimum grade of “C-,” “satisfactory,” or “pass” in each required course.

Admission Requirements

1. Students are admitted during the fall and spring semesters. It is preferable that program applications be submitted to the department by March 15th for the fall and November 1st for the spring semester, but late applications are considered.
2. A 2.5 GPA minimum during the freshman and sophomore years is required;
3. Previous experience with individuals with disabilities (for example, volunteer work) is helpful;
4. An interview with program faculty;
5. All admission criteria for teacher certification must be met (listed in the “College of Education” section of this *General Bulletin*);

Note: the admission policies for these programs currently are under review and had not been finalized by the publication of this *General Bulletin*. Contact the Department of Special Education for the most current admission policies.

Rehabilitation Services

Professor: English; *Associate Professors:* Burkhead, Ebener; *Assistant Professors:* Rollins, Thompson

The purpose of the baccalaureate program in rehabilitation services is to provide students with professional knowledge and competencies required of entry-level, direct-service providers in a wide variety of public and private service agencies. Among the kinds of occupations available for graduates are mental health technicians, case managers, psychological aides, behavior specialists, job coaches and advisors, disability-focused assistants, gerontological assistants, drug and alcohol treatment specialists, occupational specialists and correctional specialists.

Admission

New students are admitted in the fall, spring, and summer semesters. Students must complete an interview with the program coordinator and must meet the University requirements for initial admission and/or matriculation from the lower division.

Degree Requirements

The baccalaureate degree in rehabilitation services requires students to complete sixty (60) semester hours at the upper-division level. This curriculum includes nine courses (forty [40] semester hours) in rehabilitation services

and seven required electives (twenty [20] semester hours). Rehabilitation core courses include: MHS 4001; RCS 4060, 4081, 4109, 4240, 4300, 4820, 4840; and SDS 4481. The required elective courses consist of completing a minimum of one course in seven knowledge domains that are relevant to rehabilitation. The seven domains include: Assessment; Human Growth and Development; Abnormal Behavior; Family Systems; Self-Management for Wellness; Social Systems and Disciplines; and Organizational Life. A complete and current listing of the menu of choices for satisfying the completion of required elective courses is available through the undergraduate student advisor. A grade of “C” or better is required for satisfactory completion of all program course work.

Minor

A minor is available in rehabilitation services. Courses required for the minor are: RCS 4081, 4109, 4240; and RCS 4300.

Definition of Prefixes

RCS	—	Rehabilitative Counseling Services

Undergraduate Courses

EDG 2701. Teaching Diverse Populations (3). Students will acquire an understanding of the complexity and diversity in the American and Florida populations in general and the school and community populations in particular. Students will participate in a field-based experience.

EED 4011. Introduction to the Socially and Emotionally Disturbed (3). Designed to introduce students to the history of and evolving trends in providing services for emotionally handicapped children and youths, to investigate theories of causality, and to analyze various approaches for improving academic and social behavior.

EEX 2010. Survey of Special Education (3). To provide the student with a basic understanding of the history, current concepts, and emerging alternative strategies for the special education of all exceptional students.

EEX 3601. Applied Behavior Analysis for Special Educators (3). Corequisite: EEX 3820. Introduction to behavioral principles and procedures useful for managing the behavior of students with handicaps. For majors only.

EEX 3820. Practicum in Direct Observation (2). Corequisite: EEX 3601. Direct observation and recording techniques for analysis of classroom management strategies.

EEX 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

EEX 4070. Designing Inclusive Educational Learning Environments (3). Prerequisites: EEX 2010; EMR 4011. This course provides the knowledge and skills necessary for creating learning environments that will accommodate children with and without disabilities.

EEX 4200. The Development of Individuals with Special Needs (3). Examination of the impact of disabilities on development throughout the life cycle.

EEX 4212. Educational Diagnosis for Exceptional Children (3). Development of performance skills for administering formal and informal test instruments. For majors only.

EEX 4223. Individualized Educational Planning (3). Corequisite: EEX 4847. Provides students with the opportunity to demonstrate effective use of diagnostic skills. For majors only.

EEX 4230. Individualized Instruction for Exceptional Students (3). Corequisite: EEX 4941. Knowledge and performance in implementing individualized instructional practices with exceptional students. For majors only.

EEX 4243. Technology for Students With Disabilities (3). This course introduces classroom applications of technology for students with disabilities.

EEX 4280. Foundations of School to Community Transition (3). Prerequisites: EEX 2010; EMR 4011. This course addresses the ways in which schools, agencies, and the community can work cooperatively to prepare students for the transition from their school years to their adult years.

EEX 4751. Collaboration with Families, Schools, and the Community (3). This course provides the knowledge and skills necessary for collaborating with families, other professionals and community members.

EEX 4770. Study of Human Exceptionality (3). This course will increase learner knowledge and awareness of the characteristics and needs of people with exceptionalities, and acquaint learners with the resources, issues, and trends related to appropriately meeting these needs.

EEX 4840r. Supervised Practicum (1–3). May be repeated to a maximum of six (6) semester hours. Designed as a practicum for the assessment of the profoundly handicapped or the moderately/severely retarded and to provide experience in various aspects of assessment. For majors only.

EEX 4847. Practicum in Individualized Planning (2). Corequisite: EEX 4223. Diagnose individual exceptional children and plan appropriate instruction.

EEX 4861. Student Teaching in Special Education (11–12). (S/U grade only.) Student teachers will teach students with disabilities for one semester within a public school setting, full-time, and under the supervision of a certified special education teacher.

EEX 4905r. Directed Individual Study (1–3). May be repeated to a maximum of twelve (12) semester hours.

EEX 4920. Pre-Student Teaching Seminar (1). (S/U grade only.) Prepares last-term majors in special education for the transition from student to professional, lays the groundwork for the culminating activity of student teaching, and acquaints the new professionals with their future role and responsibility to the field of exceptional student education.

EEX 4930r. Special Topics in Special Education (1–3). Topics will vary from term to term. May be repeated to a maximum of nine (9) semester hours.

EEX 4941. Practicum with Mildly Handicapped Students (2). Corequisite: EEX 4230. Perform work designated in EEX 4230 in special education practicum site.

EEX 4970r. Honors Work in Special Education (3). Prerequisite: Acceptance in honors program. Corequisites: EDF 5481 or EEX 5931 or equivalent. This course is designed to provide qualified upper-division majors in special education an opportunity to undertake an independent and original research project. May be repeated to a maximum of nine (9) thesis hours with instructor approval.

EGI 4011. Introduction to Gifted and Talented Students (3). Nature and needs of these exceptional children and youth including the special groups of underachieving, culturally diverse, women, and handicapped gifted.

EGI 4230. Educational Strategies for the Gifted and Talented (3). Prerequisite: EGI 4011. Education provisions, procedures, and practices for the gifted.

ELD 4050. Introduction to Specific Learning Disabilities (3). Designed to introduce the student to the changing field of learning disabilities with emphasis on the various theories that have shaped the field.

EMR 4011. Introduction to Mental Disabilities (3). Designed to provide students with an overview of the basic knowledge pertinent to mental disabilities. Special attention is given to the educational, social and psychological aspects of mental disabilities.

EMR 4213. Curriculum-based Academic Assessment and Adaptations for Students With Mental Disabilities (3). Prerequisites: EEX 2010; EMR 4011. This course focuses upon teaching academic skills to students with mild to moderate mental disabilities.

EMR 4360. Functional Reading, Academics, and Life Skills for Individuals with Mental Disabilities (3). This course is designed to prepare teachers to teach functional reading and related academic skills to individuals with mental disabilities.

EMR 4804r. Practicum and Seminar in Mental Disabilities (2). This practicum is required each semester prior to student teaching so that students may apply the knowledge and skills they have learned in lecture courses. May be repeated to a maximum of six (6) semester hours.

EPH 4024. Introduction to the Physically Handicapped (3). Designed as an overview of those with physical handicaps. Medical, psychological, and educational aspects of the disability and their implications for the classroom teacher are presented.

EVI 4011. Introduction to Visual Disabilities (3). Designed to provide an overview of the population of people who have visual impairments and the role of specialized service providers. Special attention is given to the effects of visual impairment on development and learning.

EVI 4110. Assessment of Visually Impaired Students (3). Prerequisites: EVI 4011, 4121, 4211. Students are prepared in this course to participate in the comprehensive assessment of individuals with visual impairments, including those students who have multiple disabilities, by using formal and informal instruments and authentic assessment procedures appropriate to the population. Students will be prepared for their future consulting role as members of transdisciplinary assessment teams.

EVI 4121. Functions of the Eye and Implications of Low Vision (3). Introduction to the anatomy and physiology of the human eye and visual mechanism, including its embryologic development. Specific emphasis on the most common eye pathologies in children and adults and their effects on visual functioning.

EVI 4211. Literary Braille (3). Corequisite: EVI 4011. In this course students will develop skills in the preparation of materials for blind students in the literary braille code using a braillewriter and the slate and stylus. Interlining and proofreading are emphasized.

EVI 4212. Advanced Braille (2). Prerequisites: EVI 4011, 4211. Students preparing to be teachers of blind children will learn to use and teach the Nemeth Code for braille mathematics and will become familiar with braille music, as well as with foreign language and computer codes.

EVI 4220. Introduction to Orientation and Mobility (3). Provides future teachers of students with visual impairments with an appreciation and a realistic understanding of the problems inherent in the orientation and mobility experienced by visually impaired individuals. Stresses techniques for teaching O/M in indoor environments.

EVI 4250. Teaching Skills of Adult Living to Visually Impaired Learners (3). Prerequisite: EVI 4011. The philosophical basis for and the strategies of teaching social, personal management and career development skills to individuals with visual impairments.

EVI 4311. Teaching Reading and Writing to Students with Visual Impairments (3). Prerequisites: EVI 4011, 4211, 4121. Discusses the strategies and techniques necessary for determining the mode of reading and for teaching reading and writing skills to students with visual impairments.

EVI 4312. Academic Modifications in the Public School Class (3). Prerequisites: EVI 4011, 4211, 4121. Introduces the strategies and techniques necessary for adapting materials and for supporting students with visual impairments in public schools through direct instruction, consultation and collaborative activities.

EVI 4330. Teaching Students with Visual Impairments and Other Disabilities (3). Introduces the techniques and strategies necessary for meeting the needs of students with visual impairments who have additional disabling conditions. An emphasis will be placed upon working with both blind and low vision students with mental disabilities.

MHS 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

MHS 4001. The Human Services Profession (3). An exploration of the nature of human service work. Analyzes past, present, and future issues in human service work. Human service professions and systems approaches. Personal, career, and family development. The delivery of human services. Program development and evaluation, with a special emphasis upon the rehabilitation process.

MHS 4460r. Crisis Intervention Counseling: Theory and Practice (1-3). Training in basic helping skills for dealing with people in crisis situations, specifically telephone hotline training. May be repeated to a maximum of six (6) semester hours.

MHS 4905r. Directed Individual Study (1-3). May be repeated to a maximum of twelve (12) semester hours.

RCS 1065. Disability in Western Culture (3). This course provides an understanding of disability and its implications within the context of Western culture; includes definitions of disability; historical and current cultural views; implications of disability for daily life.

RCS 3061. Survey of Life Span Development: Preventive and Interventive Strategies for People with Normal or Abnormal Development, Disabilities, or Disease (4). Course examines the human development, both normal and abnormal of an individual across the entire age span, from psychomotor, cognitive and affective perspectives. Special emphasis is placed on the adolescent, young, adulthood, middle adulthood and late adulthood developmental stages of life.

RCS 4039. Helping Strategies and Case Management in Rehabilitation (3). Training in basic interviewing techniques and case management skills in rehabilitation. Includes case recording, ecological assessment, individual treatment planning, crisis intervention, referral and interdisciplinary collaboration.

RCS 4060. Psychosocial Aspects of Diversity (4). Examines the psychological and the social factors related to adjustment and diverse populations, including minorities, women, persons with disabilities and other adults.

RCS 4081. Medical Aspects of Disability and Chronic Illness (3). An introduction to the structure of medicine in the United States. A survey of medical spe-

cialties and terminology; a survey of body systems, common malfunctions, therapeutic services, and restorative techniques.

RCS 4240. Psychosocial Aspects of Rehabilitation (3). An overview of the psychological and social factors related to the adjustment or adaptation to a disability and to the provision of rehabilitation services. The relationship between disability and culture will also be explored.

RCS 4300. Vocational Aspects of Rehabilitation (3). Theories, methods, and practices of career development, utilizing occupational information and labor market trends, understanding of requirements and characteristics of a variety of occupations, job analysis, and job modification and restructuring.

RCS 4820r. Internship in Rehabilitation Services (7-15). (S/U grade only.) Prerequisite: permission of advisor. Full or half semester internship in a human services setting. May be repeated to a maximum of fifteen (15) semester hours.

RCS 4840. Field Experience in Rehabilitation (3). (S/U grade only.) Prerequisite: Advisor permission. Supervised clinical practice in a rehabilitation agency or community service organization. Duties are in activities like interviewing, assessment, case management, service coordination, teaching and coaching of life skills.

RCS 4930r. Special Topics in Rehabilitation Counseling (1-4). Special topics in rehabilitation counseling are studied in depth. May be repeated for a maximum of twelve (12) semester hours.

Graduate Courses

- EED 5223. Advanced Study of Emotional Disturbance (3).
- EED 5320. Precision Teaching Methods for Emotional Disturbances (3).
- EED 5941. Practicum in Emotional Disturbance/Learning Disability (3).
- EEX 5017. Typical and Atypical Early Development (3).
- EEX 5245. Introduction to Special Education Technology (3).
- EEX 5285r. Seminar in Transition (3).
- EEX 5286. Preparing Individuals for Transition (3).
- EEX 5455. Assessment and Methods in Early Childhood Special Education (3).
- EEX 5456. Program Development for Young Children with Disabilities (3).

Department of SPORTS MANAGEMENT, RECREATION ADMINISTRATION AND PHYSICAL EDUCATION

COLLEGE OF EDUCATION

Chair: Charles Imwold; *Professors:* Imwold, Johnson, Mundy, Pitts, Ragheb, Rider; *Associate Professors:* Bass, Beeler, Clement, Dunn, Fletcher, Lynn, Ratliffe; *Assistant Professors:* Jackson, Mondello, Quartermen; *Visiting Assistant Professor:* Kent; *Assistant in Leisure and Recreation Services:* Suren; *Assistants in Physical Education:* Dipert, Martin, Nobles, Spangler, Walsdorf; *Visiting Assistant:* Reynaud; *Professors Emeriti:* Burton, Cannon, Everett, Fox, Jones, Tait, Veller, Wells

The Department of Sports Management, Recreation Administration and Physical Education offers a bachelor of science degree in physical education with two majors, one leading to K-12 teacher certification in physical education, and one in sports management.

Students seeking admission to either of the department's majors must have a 2.5 GPA and a "C" in all math and English courses. In addition, students seeking admission for physical education teacher certification must have passing scores on all four subtests of the Florida

College Level Academic Skills Test (CLAST). **Passing scores do not include exemption scores.** For both the teacher certification and sports management program, a minimum grade of "C-" or better must be earned in each departmental prerequisite and program course in order to move on to the next course in the program sequence. At any point where a student has a combination of three unforgiven "D"s and "F"s, the student may be dismissed from the program. Please refer to the "Teacher Preparation General Education Requirements" section of the "College of Education" chapter in this *General Bulletin* for additional details.

The department utilizes centralized advising procedures and all entering students must be advised by the coordinator of undergraduate studies.

Program requirements for state-approved educator preparation programs are subject to revision based on changes in State Board of Education Rule 6A-5.066, Approval of Preservice Teacher Preparation Programs, as amended August 7, 2000.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for the following University degree programs. Specific prerequisites are required for admission into the upper-division

program and must be completed by the student at either a community college or a state university prior to being admitted to these programs. **Students may be admitted into the University without completing the prerequisites, but may not be admitted into the program.**

The following lists the common prerequisites or their substitutions necessary for admission into these upper-division degree programs:

Leisure Services – Professional

1. DEP X004 or RCS 3061 (this course must be a human growth and development across the life span).

Physical Education (Sports Management)

1. Nine (9) semester hours of coursework with a business emphasis;
2. Anatomy and physiology I with lab;
3. Care and prevention of athletic injuries or anatomy and physiology II with lab;
4. Four to five (4-5) semester hours of skill development courses in physical activities;
5. Three (3) semester hours of conditioning, fitness and wellness courses in physical activities.

At least one course taken to meet the natural science requirements in liberal studies and/or general program prerequisites must include a laboratory component.

Recreation and Leisure Services Administration

Coordinator: Cheryl Beeler; *Professors:* Fletcher, Mundy, Ragheb; *Associate Professors:* Beeler, Dunn; *Assistant in Leisure Recreation Services:* Suren

The recreation and leisure services administration program offers courses leading to the bachelor of science (BS) and master of science (MS) degrees in recreation and leisure services administration. The program is nationally accredited by the National Recreation and Park Association's Council on Accreditation. The bachelor's degree is designed to prepare individuals for professional positions in such settings as resort and commercial recreation; employees' recreational division of corporate and industrial companies; college and university student activities and intramurals; health/fitness centers and spas; military morale, welfare, and recreation; hospitals, rehabilitation centers, psychiatric hospitals, and drug/alcohol abuse centers; retirement communities or senior centers; convention and visitors' bureaus; municipal and county recreation departments; and youth service organizations.

With a bachelor's degree from this program, students may qualify for employment as recreation program coordinator, therapeutic recreation specialist, program/activities director or coordinator, assistant recreation center director, athletic/aquatic coordinator, and fitness specialist.

At the graduate level, the master's degree is designed to prepare individuals for administrative and management positions of recreation/leisure/park agencies. Students may select one of many curricular concentrations, such as public administration, gerontology, or college teaching. The graduate curriculum is designed to meet the interests and needs of the students. Course work may be designed for other specialty areas, such as leisure education and counseling, therapeutic recreation, computer applications in leisure delivery systems, and leisure research.

Admission

Applicants for admission to The Florida State University must also apply directly to the recreation and leisure services administration program. Admission to the undergraduate program is based upon: 1) formal application (interview is highly recommended); and 2) successful completion of the required State of Florida common course prerequisites and a passing score on each section of the CLAST. For application materials, contact: *Undergraduate Coordinator, Recreation and Leisure Services*

Administration, 215 Stone Building, The Florida State University, Tallahassee, FL 32306-4458.

Degree Requirements

To earn a bachelor's degree in recreation leisure services administration, students must successfully complete a minimum of sixty (60) semester hours at the upper-division level. The sixty (60) semester hours include: 1) thirty (30) semester hours of required course work—LEI 3161, 3420, 3400, 4500, 4521, 4574, 4602, 4881, 4930; 2) two (2) semester hours of fieldwork—LEI 4921r; 3) fifteen (15) semester hours of internship—LEI 4940r; and 4) thirteen (13) semester hours of elective course work. Students must be certified in First Aid/CPR prior to enrolling in LEI 4940 Practicum in Leisure Services.

Students in therapeutic recreation are required to successfully complete the required core course work, fieldwork, and internship, as well as the following courses: LEI 4703, 4712, 4713, 4816; and abnormal psychology. Therapeutic recreation students are not required to take LEI 4574.

To be eligible for the internship, which is scheduled the last semester of the program of study, students must have earned a 2.5 cumulative GPA in all college course work and a 2.5 GPA in all courses bearing the prefix LEI. A minimum grade of "C–" or better must be earned in all program course work.

Teacher Certification Program

The teacher certification program provides the academic course work and the pre-professional public school experience necessary to become an effective teacher. Course work is arranged in a specific four semester sequence designed to culminate in student teaching. The placement of student teachers will be concentrated in area I. The course of study leading to a baccalaureate degree and teacher certification encompasses three areas of work: 1) required block and foundation courses; 2) required elementary and secondary courses; and 3) professional education requirements. Additionally, all physical education teacher certification majors are required to take TSL 4324, ESOL Instruction in the Content Area.

Students may only enter this program at the beginning of the fall semester and must enroll in the following courses: PEO 4006; and PET 3020, 4300, 4640C, 4710, 4710L.

A GPA of 2.5 is required for admission to student teaching. All students must meet the requirements for admission to teacher education and professional education, which are explained in the "College of Education" section of this *General Bulletin*.

Sports Management Program

The sports management program provides academic course work necessary to prepare a person to pursue a graduate degree in sports management, or entry level employment in a variety of work environments. The course of study leading to a baccalaureate degree with a major in sports management encompasses four areas of work: 1) required block and foundation courses; 2) business practices; 3) sports content; and 4) electives. Prerequisites for sports management may be selected from 2000-level business and/or economics classes.

Noncredential/Nondegree Programs

Coaching Specialization

The course of study for a specialization in coaching includes PEO 2013; PET 2303C, 2622C, 4203, 4300; and at least two of the following: PEO 2624, 3219, 3644; PEP 3304. In addition, students must hold a current cardiopulmonary resuscitation (CPR) certification at the completion of the program. A minimum grade of "C–" must be earned in all program work. Students are provided an additional option of obtaining a national certification within this specialization through the American Coaches Education Program (ACEP).

Undergraduate Courses

Elective Courses for Nonmajors

Note: the courses with the repeat designation of "r" may be repeated for a maximum of two (2) semester hours.

- PEL 1111. **Bowling (1)**. (S/U grade only.)
- PEL 1121. **Golf (1)**. (S/U grade only.)
- PEL 1124r. **Varsity Golf (1)**. (S/U grade only.)
- PEL 1214r. **Varsity Softball (1)**. (S/U grade only.)
- PEL 1219r. **Varsity Baseball (1)**. (S/U grade only.)
- PEL 1321. **Volleyball (1)**. (S/U grade only.)
- PEL 1324r. **Varsity Volleyball (1)**. (S/U grade only.)
- PEL 1341. **Tennis (1)**. (S/U grade only.)
- PEL 1344r. **Varsity Tennis (1)**. (S/U grade only.)
- PEL 1441. **Racquetball (1)**. (S/U grade only.)
- PEL 1511. **Soccer (1)**. (S/U grade only.)
- PEL 1544r. **Varsity Soccer—Women (1)**. (S/U grade only.)
- PEL 1621. **Basketball (1)**. (S/U grade only.)
- PEL 1624r. **Varsity Basketball (1)**. (S/U grade only.)
- PEL 1644r. **Varsity Football (1)**. (S/U grade only.)
- PEL 1646. **Flag Football (1)**. (S/U grade only.)
- PEM 1012r. **Adapted Physical Education Activities (1)**. Prerequisite: Departmental permission required. Physical education activities designed to enhance the motor ability, fitness, and leisure activities in the handicapped student. May be repeated to a maximum of four (4) semester hours.
- PEM 1101r. **Physical Conditioning (1)**. (S/U grade only.)
- PEM 1131r. **Basic Weight Training (1)**. (S/U grade only.)
- PEM 1141. **Aerobic Conditioning (1)**. (S/U grade only.)
- PEM 1171. **Aerobic Dance (1)**. (S/U grade only.)
- PEM 1304r. **Varsity Track (1)**. (S/U grade only.)
- PEM 1314r. **Varsity Cross-Country (1)**. (S/U grade only.)
- PEM 1405. **Self-Defense/Martial Arts (1)**. (S/U grade only.)
- PEM 1952. **Circus Activities (1)**. (S/U grade only.)
- PEN 1121. **Basic Swimming (1)**. (S/U grade only.)
- PEN 1124r. **Varsity Swimming (1)**. (S/U grade only.)
- PEN 1144. **Tarpon (1)**. (S/U grade only.)
- PEN 1231. **Basic Sailing (1)**. (S/U grade only.)
- PEN 1234. **Blue Water Sailing (1)**. (S/U grade only.)
- PEP 1001r. **Contemporary Activities Techniques (1)**. (S/U grade only.) May be repeated during the same semester.
- PEQ 1231. **Sailing Instructor (1)**. (S/U grade only.)
- PET 2104. **Lifestyle Patterns for Optimal Well-Being (3)**. This course is designed to integrate the health-related disciplines found in the Department of Nutrition, Food, and Exercise Sciences. Intended as an elective for the general student population.

Courses For Physical Education Majors

- DAE 4300. **Educational Dance (2)**. Prerequisites: PET 4710, 4710L. Follows the movement framework for educational dance with a focus on the exploration of themes and the refinement of movement sequences and creative dances.
- PEO 2013. **Sports Officiating (2)**. Prerequisites: PET 4300, 4302C.
- PEO 2624. **Theory and Practice of Basketball (2)**. Teaching and coaching techniques in basketball including current trends and offensive and defensive systems.
- PEO 3219. **Theory and Practice of Baseball (2)**. All phases of baseball technique, strategy, teaching, and coaching procedures.
- PEO 3644. **Theory and Practice of Football (2)**. Organization, game theory, and the fundamental techniques of playing, teaching, and coaching.
- PEO 4006. **Educational Games I (3)**. An analysis of fundamental games skills using the content development framework, movement analysis framework and games stages for planning and teaching games content in physical education classes.
- PEO 4009. **Educational Games II (3)**. Prerequisites: PEO 4006; PET 4300. An analysis of racquet sports and team sports using the content development framework and games stages for planning and teaching games content in physical education classes.
- PEP 3304. **Theory and Practice of Track and Field (2)**. Concepts of the fundamental techniques in track and field, emphasis on varsity coaching and instructional methods.
- PEP 4206. **Educational Gymnastics (2)**. Prerequisites: PET 4710, 4710L. Corequisites: PET 4713, 4713L. Follows the movement framework with a focus on developing a variety of gymnastics responses and a broad repertoire of gymnastics movements. Covers the content of a K–12 curriculum.
- PEQ 1115. **Water Safety Instruction (1)**. Prerequisite: valid Advanced Life Saving Certification.
- PET 2303C. **Applied Anatomical and Physiology Concepts (4)**. Prerequisite: CHD 3220. Anatomical and physiological functions of the human body are applied to movement and physical fitness. Lecture and laboratory activities relate information to teaching physical education in schools.
- PET 2622C. **Care and Prevention of Sport Injuries (3)**. Prerequisite: PET 2303C. This course discusses specific sport injuries, their treatment, and preventive procedures.
- PET 3020. **Foundations of Physical Education (3)**. Acquaints physical education majors with the basis for, heritage of, and current trends in the field of study.
- PET 3949r. **Cooperative Education Work Experience (0)**. (S/U grade only.)
- PET 4203. **Principles and Problems of Coaching (3)**. The study of vital sociopsychological aspects of coaching.
- PET 4253. **Lesbian and Gay Sport Studies (3)**. This course provides an overview of lesbian and gay people in sport with a historical and contemporary socio-cultural perspective involving both the lesbian and gay sport industry and the mainstream sport industry.
- PET 4254. **Gender Issues in Sport and Physical Activity (3)**. The course will critically examine the relationship between gender and sport/physical activity.

PET 4300. **Human Movement Studies (3)**. Explores the developmental, biomechanical, and motor learning principles affecting human movement. Emphasizes movement assessment in field-based settings.

PET 4382C. **Applied Physical Fitness Concepts (3)**. Prerequisites: PET 3020, 4302C. This course is designed to examine techniques of evaluation for physical fitness and health, with a particular emphasis on aerobic capacity, flexibility, strength, and body composition. It entails the design, implementation, and administration of programs for developing physical fitness and lifestyle changes.

PET 4401. **Administration of Sport and Physical Education (3)**. Problems in planning, organizing, and conducting a program in physical education and sports in both school and nonschool settings are covered.

PET 4432. **Early Childhood Physical Education (3)**. Prerequisite: PET 4710. A required course for all physical education majors to be certified K–8. The course content focuses on the development of preschool and primary grade children. Emphasis on the role of educational games, dance, and gymnastics in the development of motor, cognitive, and affective skills.

PET 4461. **Event and Special Projects (3)**. Promotion in Sport. Topics and issues involved in the promotions and marketing of sporting events. An examination of the evolution of large scale corporate marketing strategies.

PET 4462. **NCAA Compliance and Institutional Control (3)**. This course prepares students to administer the rules and regulations of the NCAA bylaws.

PET 4471. **Issues in Sport Management (3)**. This course introduces students to the major topics, trends, problems and issues involved in athletics and sport management.

PET 4491. **Legal Issues in Physical Education (3)**. This course introduces students to the legal structures, major laws, regulations and precedents in law in sport and physical education.

PET 4492. **Career in Professional Sport (3)**. Covers issues related to professional sports including sport agents, contracts, the draft process, salary negotiations, and insurance.

PET 4510. **Tests and Measurements in Physical Education (2)**. Prerequisite: PET 3020. Corequisite: PET 4510L. The techniques for measuring and evaluating physical education learning outcomes.

PET 4510L. **Tests and Measurements Practicum (1)**. Prerequisite: PET 3020. Corequisite: PET 4510. Practical application of skills and knowledge acquired in PET 4510 through the utilization of technology.

PET 4625. **Issues in Sports Medicine (3)**. Prerequisites: HSC 2400C; PET 3301C. Corequisite: PET 3600. Course covers advanced issues including sports medicine administration, sports medicine pharmacology, advanced assessment techniques and orthopedic surgical observation.

PET 4640C. **Adapted Physical Education (3)**. Principles and methods of adapting regular programs and providing special programs of physical education appropriate to needs of handicapped students. Laboratory and fieldwork experiences included.

PET 4710. **Instructional Aspects of Physical Education (2)**. Prerequisite: PET 3020. Corequisite: PET 4710L. Instructional methods in physical education emphasizing the physical activity needs of students and effective teaching styles.

PET 4710L. **Physical Education Instructional Practicum (1)**. Prerequisite: PET 3020. Corequisite: PET 4710. Focuses on the application of effective instructional methods in the school physical education setting.

PET 4713. **Physical Education Instruction I, K–12 (3)**. Prerequisites: PET 4710, 4710L. Corequisite: PET 4713L. Focus is on teaching physical education to upper

elementary, middle, and high school students, with instruction on developmental needs, teaching skills, analysis and observation, and curriculum.

PET 4713L. Physical Education Practicum, K-12 (1). Prerequisites: PET 4710, 4710L. Corequisite: PET 4713. Development of effective instructional skills through the planning, teaching, and assessment of experiences with upper elementary, middle, and high school students.

PET 4714. Physical Education Instruction II, K-12 (3). Prerequisites: PET 4713, 4713L. Corequisite: PET 4714L. Focus on teaching physical education to primary elementary and high school students, with instruction on developmental needs, teaching skills, analysis and observation, and curriculum.

PET 4714L. Physical Education Practicum II, K-12 (1). Prerequisites: PET 4713, 4713L. Corequisite: PET 4714L. Development of effective instructional skills through the planning, teaching, and assessment of experiences with primary elementary and high school students.

PET 4905r. Directed Individual Study (1-3). Undergraduate study of a research problem, not to be used in lieu of a class. May be repeated to a maximum of twelve (12) semester hours.

PET 4930r. Special Topics in Physical Education (1-3). An analysis of selected topics in the field of physical education. May be repeated to a maximum of twelve (12) semester hours.

PET 4940r. Practicum in Physical Education (1-6). (S/U grade only.) Noncertification program. May be repeated to a maximum of ten (10) semester hours (for physical education noncertification majors only.)

PET 4942r. Practicum in Sport Administration (3). For sport management students only. Practical experience is integrated with theoretical concepts in the sport management environment.

PET 4945. Student Teaching in Physical Education (9). (S/U grade only.) Prerequisites: PET 4432, 4710, 4713. Corequisite: PET 4401. A one semester school experience in the role of a professional educator.

Recreation and Leisure Services Courses

LEI 1181. Leisure and Recreation: A Cross-Cultural Approach (3). An examination of the leisure and recreation behaviors of people in different cultures. The cultural, political, social, and economic influences on leisure and recreation behaviors will be examined.

LEI 3161. Philosophical, Social, and Behavioral Foundations of Leisure (4). Introduces students to concepts and foundations of the movement of recreation/leisure/play. Discusses dynamic social and cultural forces to concepts which influence leisure.

LEI 3400. Program Planning in Leisure Systems (4). Develop, apply, and evaluate the program planning process of assessment, defining program objectives, development, implementation, and evaluation.

LEI 3420. Analysis and Utilization of Leisure Activities (4). Development and understanding of leisure activities and how these activities meet the needs of individuals in today's society.

LEI 3701. Human Development and Functioning in Leisure (4). Examines the role of human development and functioning for the entire age spectrum, including disabilities.

LEI 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

LEI 4500. Administration of Leisure Systems (4). The course is designed to introduce students to the fundamental concepts, theories, principles, and practices of administering and budgeting for a leisure service agency.

LEI 4521. Supervision of Personnel in Leisure Systems (4). Prerequisites: LEI 3161, 3420, 3701. The course is designed to introduce students to the fundamental concepts, theories, principles, and practices in supervising personnel in leisure delivery systems.

LEI 4574. Design and Delivery of Leisure Programs (3). Designed to provide students an introduction into marketing leisure programs, services, and facilities. Media strategies and applications specific to the leisure field will be studied.

LEI 4602. Planning and Maintenance of Facilities in Leisure Systems (3). Provide basic information for the planning and maintenance of leisure areas and facilities.

LEI 4703. Introduction to Therapeutic Recreation (3). An introductory survey of the field of therapeutic recreation practice including: the study of concepts, history, and philosophy; nature and settings of service delivery; enabling legislation; and roles and functions of therapeutic recreation professionals.

LEI 4712. Clinical Aspects of Therapeutic Recreation (4). In-depth survey of the concepts associated with the clinical application of therapeutic recreation including: medical and psychiatric terminology; etiology, characteristics, and implications of leisure needs by the ill and disabled; adaptive devices and assistive techniques.

LEI 4713. Principles and Procedures of Therapeutic Recreation Practice (3). An in-depth study of principles and practices used in therapeutic recreation service delivery, unique administrative concerns to service participation in health care industries, and professional issues relevant to therapeutic recreation practice.

LEI 4816. Leisure Education (3). This course focuses upon developing an understanding of the goals, objectives and philosophy of leisure education. It also includes the methods and techniques utilized to educate for leisure as well as planning and implementing leisure education in a variety of settings.

LEI 4881. Assessment, Research, and Evaluation in Leisure Systems (3). Enables students to assess leisure functions, interests, and behaviors and teach students to understand and critique research findings in leisure settings.

LEI 4906r. Directed Individual Study (1-3). May be repeated to a maximum of twelve (12) semester hours.

LEI 4921r. Fieldwork in Leisure Services (1-3). (S/U grade only.) Provides the student an opportunity to gain practical experience in an organized leisure setting. May be repeated to a maximum of six (6) semester hours.

LEI 4930. Senior Seminar in Leisure Studies (1). Prerequisite: LEI 3161. The seminar is designed to introduce the current problems facing the leisure profession and the practitioner and to teach students to effectively discuss issues in a seminar setting.

LEI 4932r. Special Topics in Leisure Services (3). Current topics in Leisure Services are studied in depth. May be repeated to a maximum of nine (9) semester hours.

LEI 4940r. Practicum in Leisure Services (1-5). Full-time experience in a leisure agency under the supervision of a professional practice practitioner. May be repeated to a maximum of thirty (30) semester hours.

SDS 3340r. Introduction to Career Development (1-3). Principles and practices of career planning and management, including use of self-assessment, career resources, and employability skill guides. May be repeated to a maximum of three (3) semester hours.

SDS 4481. Communication and Human Relations (3). Relevant dimensions of the helping relationship and the development of effective communications skills.

Graduate Courses

PET 5947r.	Practicum in Sport Administration (3).	PET 6497.	Seminar in Administration of Physical Education and Athletics (3).	For listings relating to graduate course work for thesis, dissertation, and master's and doctoral examinations and defense, consult the <i>Graduate Bulletin</i> .	

Department of STATISTICS

COLLEGE OF ARTS AND SCIENCES

Chair: Myles Hollander; *Director, Statistical Consulting Center:* Zahn; *Professors:* Hollander, Leysieffer, Lin, McKeague, Sethuraman, Zahn; *Service Professor:* Meeter; *Associate Professors:* Huffer, Niu, Song; *Assistant Professors:* Li, Srivastava; *Visiting Assistant Professor:* Bunea; *Assistant in Statistics:* Ramsier; *Professors Emeriti:* Basu, Bradley, Marsaglia, Proshan

The Department of Statistics offers programs leading to the bachelor of science (BS) degree (including an honors degree) in statistics with emphases in statistics and probability theory. These are mathematical disciplines that describe concepts of uncertainty in a quantitative way. The disciplines draw inspiration from the many areas to which they are applied. A statistician could be called upon to help decide whether an anesthetic has an adverse health effect upon operating room nurses, recognize images taken by remote sensors, analyze errors of measurement in a scientific experiment, determine public attitudes in an opinion poll, determine if a medical or pharmacological patient intervention is successful, or work with a team to design and analyze an experiment. Random phenomena such as these are handled through the use of probability models, which serve as guides in decision making, interpretation of data, and allocation of resources. Some courses in the curriculum emphasize the construction of probability models, whereas others focus upon the methodology of application of these models.

In the study of statistics, students use and enrich their mathematical expertise and orient their study of the mathematical sciences toward useful and relevant purposes in society. Significant opportunities for well-trained persons with one or more of the specializations of statistics or probability arise in many career environments, such as the social sciences, the natural sciences, business, industry, the health services, and government services. Flexible, individually planned programs of study for minors or majors, including an honors option,

are available. Interested students should contact the director of the undergraduate program for more information.

The Department of Statistics offers a wide selection of undergraduate courses in statistical methods for nonmajors with minimal background in mathematics. STA 2122 or STA 2171 is a prerequisite for the remaining courses in the series, which are STA 3024, 4102, 4202, 4203, 4222, 4502, and 4702.

The Department of Statistics maintains a laboratory for computational vision, a statistical consulting center, a departmental library and reading room, the Wilcoxon Memorial Room, and provides facilities for computation in connection with course work and research. Instruction is available and use of computers is arranged for approved purposes. The statistics department has extensive computing facilities, which include a local area network of microcomputers, printers and a new laboratory for computational vision equipped with high-performance computers and accessories.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. One course for three (3) semester hours (COP prefix) in a computer language (Pascal, FORTRAN, C, C+, or C++);
2. MAC X311;
3. MAC X312;

4. One laboratory-based science course for four (4) semester hours from the following: BSC XXXX/XXXXL or CHM XXXX/XXXXL or PHY XXXX/XXXXL.

Requirements

Please review all college-wide degree requirements summarized in the "College of Arts and Sciences" section of this *General Bulletin*.

Requirements for a Major in Statistics

Major

Eighteen (18) semester hours in statistics courses numbered at the 4000 level are required, including STA 4322 and 4442.

Note: STA 2122 or STA 3032 may be taken in place of a 4000 level course other than those specified. Additional requirements include CGS 3408 or 3460; MAC 2312, 2313; and MAS 3105. A grade of "C–" or better must be earned in each statistics, mathematics, or computer science course counted toward the major. At least nine (9) semester hours of statistics courses counted toward the major must be taken in the Department of Statistics at The Florida State University. Other statistics courses must be approved by the department.

Options

STA 4322 and 4442 constitute a basic core. Further courses may be selected for emphasis in statistical methodology, statistical theory, probability theory, stochastic processes, or actuarial science (MAP 4170, 4175). Students anticipating graduate study in statistics are encouraged to take additional mathematics courses such as MAA 4226, 4227, and MTG 4302.

Minor

The minor may be in any of the departmental or interdepartmental fields approved by the College of Arts and Sciences. A minor in mathematics may include MAC 2311, 2312, 2313, and MAS 3105.

Honors in the Major

The Department of Statistics offers honors in the major to encourage talented students to undertake independent research. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

Requirements for a Minor in Statistics

Required are twelve (12) semester hours in statistics courses numbered at the 4000 level, including either STA 2122 or 4442. (**Note:** STA 2122 or STA 3032 may be considered equivalent to a 4000 level course). Courses should be selected in consultation with the director of the undergraduate statistics program. A grade of "C–" or better must be earned in each course counted toward the minor. At least six (6) semester hours in statistics courses counted toward the minor must be taken in the Department of Statistics at The Florida State University. Other statistics courses must be approved by the department.

Examples of Options

1. A minor in statistical methodology with minimal mathematical prerequisites: STA 2122, plus eight (8) semester hours selected from any of 4102, 4202, 4203, 4222, 4502, and 4702;
2. A minor with statistical theory as well as methodology: STA 4322 and 4442 or 3032, plus six (6) hours selected from any of 4102, 4202, 4203, 4222, 4502, 4702, and 4853.

Definition of Prefixes

QMB — Quantitative Methods in Business
STA — Statistics

Undergraduate Courses

ISC 3121. **Science, Technology, and Society (3)**,
SCE 4939r. **Seminar in Contemporary Science, Mathematics, and Science Education (1)**.

Note: for descriptions of the above courses, see interdisciplinary science courses listed in the "College of Arts and Sciences" section of this *General Bulletin*.

QMB 3200. **Quantitative Methods for Business Decisions (3)**.

STA 1013. **Statistics through Example (3)**. Fundamental concepts of statistics including descriptive measures, randomness, estimation of proportions, central tendency, rare event principle, association versus causation, and risks.

STA 2023. **Fundamental Business Statistics (3)**. Prerequisite: MAC 1105 or its equivalent. No credit is given for STA 2023 if "C–" or better has been previously earned in STA 2122, 2171, or 3032. High school students who earn a "3" or better on the AP statistics exam will be given credit

for STA 2023. Elementary probability, binomial and normal distributions, sampling, statistical applications in business. Also offered by the College of Business.

STA 2122. **Introduction to Applied Statistics (4)**. Prerequisite: MAC 1105. Subsequent credit for STA 5126 is not permitted. No credit is given for STA 2122 if a "C–" or better is earned in STA 2171, 3032 or QMB 3200. Only two (2) hours credit given for STA 2122 if "C–" or better previously earned in STA 2023 or 3014. Data collection, sample variation, basic probability, confidence intervals, hypothesis testing, analysis of variance, contingency tables, correlation, regression.

STA 2171. **Statistics for Biology (4)**. Prerequisite: MAC 2311. STA 2171 is for biology majors only. Other students must have approval from the Department of Statistics. Only two (2) semester hours of credit are given for STA 2171 if "C–" or better has been previously earned in STA 2023. No credit is given for STA 2171 if a "C–" or better has been previously earned in STA 2122 or 3032, or QMB 3200. This course provides an introduction to statistics emphasizing applications to biology. Topics include: Descriptive statistics, elementary probability, the binomial and normal distributions, confidence intervals and hypothesis tests for means and proportions, correlation and regression, contingency tables and goodness-of-fit tests as well as analysis of variance.

STA 3024. **Intermediate Applied Statistics (3)**. Prerequisite: STA 2122 or 2171. Course covers linear and multiple regression; one-and-two-way analysis of variance; chi-square and contingency tables; design, analysis, evaluation and interpretation of statistical models. Well-prepared students can skip STA 3024 and take either STA 4202 or 4203. STA 3024 does not count toward statistics majors or statistics minors.

STA 3032. **Probability and Statistics for Sciences and Engineering (5)**. Prerequisite: MAC 2312. Only two (2) semester hours of credit is given for STA 3032 if a "C–" or better previously has been earned in STA 2122, 2171, or 4442. This course will cover calculus-based probability, discrete and continuous random variables, joint distributions, sampling distributions and the central limit theorem. Topics include descriptive statistics, interval estimates and hypothesis tests, ANOVA, correlation, simple and multiple regression, analysis of categorical data, and statistical quality control.

STA 4102. **Computational Methods in Statistics I (3)**. Prerequisites: At least one previous course in statistics above STA 1013; some previous programming experience; or permission of the instructor. Matlab and a programming language (C/Fortran) will be used. Floating point arithmetic, numerical matrix analysis, multiple regression analysis, non-linear optimization, root finding, numerical integration, Monte-Carlo sampling, survey of density estimation.

STA 4103. **Computational Methods in Statistics II (3)**. Prerequisite: STA 4102 or permission of the instructor. Matlab and a programming language (C/Fortran) will be used. A continuation of STA 4102 in computational techniques for linear and non-linear statistics. Statistical image understanding, elements of pattern theory, simulated annealing, Metropolis-Hastings algorithm, Gibbs sampling.

STA 4202. **Analysis of Variance and Design of Experiments (3)**. Prerequisites: STA 2122, 2171, 3032, or QMB 3200. Subsequent credit for STA 5206 is not permitted. Only two (2) hours credit will be given for STA 4202 if "C–" or better has been earned previously in STA 3024. One and two-way classifications, nesting, blocking, multiple comparisons, incomplete designs, variance components, factorial designs, confounding.

STA 4203. **Applied Regression Methods (3)**. Prerequisites: STA 2122, 2171, 3032, or QMB 3200. Subsequent credit for STA 5207 is not permitted. Only two (2) hours credit will be given for STA 4203 if "C–" or better has been earned previously in STA 3024. General linear hypothesis, multiple correlation and regression, residual analysis, and model identification.

STA 4222. **Sample Surveys (3)**. Prerequisite: A course in statistics above STA 1013 or consent of instructor. Simple, stratified, systematic, and cluster random sampling. Ratio and regression estimation, multistage sampling.

STA 4321. **Introduction to Mathematical Statistics (3)**. Prerequisite: MAC 2313. Subsequent credit for STA 5354 is not permitted (for nonmajors only). Distributions of random variables, conditional probability and stochastic independence, special distributions, sampling distributions, estimation, tests of hypotheses, regression, one way ANOVA. Credit for STA 4322 is not permitted.

STA 4322. **Mathematical Statistics (3)**. Prerequisites: STA 4442; MAC 2313. Subsequent credit for STA 5325 is not permitted. Sufficiency, point estimation, confidence intervals, hypothesis testing, regression, linear models, Bayesian analysis.

STA 4442. **Introductory Probability I (3)**. Prerequisite: MAC 2312. Subsequent credit for STA 4442 is not permitted if "C–" or better has been previously earned in STA 3032. Subsequent credit for STA 5440 is not permitted. Random variables, probability distributions, independence, sums of random variables, generating functions, central limit theorem, laws of large numbers.

STA 4502. **Applied Nonparametric Statistics (3)**. Prerequisite: A course in statistics above STA 1013 or consent of instructor. Subsequent credit for STA 5507 is not permitted. Application of nonparametric tests, estimates, confidence intervals, and multiple comparison procedures.

STA 4664. **Statistics for Quality and Productivity (3)**. Prerequisites: STA 4322 or consent of instructor and one of: STA 2122, 2171, 3032, or 4442. Deming's ideas, graphical methods, control charts, design of experiments for product and process improvement.

STA 4702. **Applied Multivariate Analysis (3)**. Prerequisite: STA 4203 or 4322. Subsequent credit for STA 5707 is not permitted. Principal components and factor analysis, canonical correlation, discriminant analysis, multivariate analysis of variance, multidimensional contingency tables, cluster analysis.

STA 4853. **Time Series and Forecasting Methods (3)**. Prerequisites: QMB 3200 or equivalent; STA 2122, 2171, 3032; knowledge of PC's or UNIX. Autoregressive, moving average and mixed models, autocovariance and autocorrelation functions, model identification, forecasting techniques, seasonal model identification, estimation and forecasting, intervention and transfer function model identification, estimation and forecasting. Subsequent credit for STA 5856 is not permitted.

STA 4905r. **Directed Individual Study (2–3)**. (S/U grade only.) May be repeated to a maximum of twelve (12) semester hours.

STA 4930r. **Selected Topics in Statistics, Probability, or Operations Research (2–3)**. May be repeated to a maximum of twelve (12) semester hours.

STA 4970r. **Honors Thesis in Statistics (3)**. Students selected by the University and the department honors programs may take this course. Consent of the thesis adviser is mandatory. May be repeated to a maximum of six (6) semester hours.

Graduate Courses

STA 5106. Computational Methods in Statistics I (3).

STA 5107. Computational Methods in Statistics II (3).

STA 5126. Introduction to Applied Statistics (4).

STA 5166. Statistics in Applications I (3).

STA 5167. Statistics in Applications II (3).

STA 5168. Statistics in Applications III (3).

STA 5169. Advanced Applied Statistics (3).

STA 5176. Statistical Modeling with Application to Biology (3).

STA 5206.	Analysis of Variance and Design of Experiments (3).	STA 5707.	Applied Multivariate Analysis (3).	STA 6246r.	Advanced Topics in Applied Statistics (2–3).
STA 5207.	Applied Regression Methods (3).	STA 5746.	Multivariate Analysis (3).	STA 6346.	Advanced Statistical Inference (3).
STA 5208.	Linear Statistical Models (3).	STA 5807r.	Topics in Stochastic Processes (3).	STA 6466.	Advanced Probability (3).
STA 5225.	Sample Surveys (3).	STA 5856.	Time Series and Forecasting Methods (3).	STA 6468r.	Advanced Topics in Probability and Statistics (2–3).
STA 5325.	Mathematical Statistics (3).	STA 5906r.	Directed Individual Study (1–12). (S/U grade only.)	STA 6555.	Nonparametric Curve Estimation (3).
STA 5326.	Distribution Theory and Inference (3).	STA 5910r.	Supervised Research (1–6). (S/U grade only.)	STA 6709.	Spatial Statistics (3).
STA 5327.	Statistical Inference (3).	STA 5920r.	Statistics Colloquium (1). (S/U grade only.)	STA 6858.	Advanced Time Series Analysis (3).
STA 5334.	Limit Theory of Statistics (3).	STA 5934r.	Selected Topics in Statistics, Probability, or Operations Research (2–3).	STA 6906r.	Directed Individual Study (1–12). (S/U grade only.)
STA 5440.	Introductory Probability I (3).	STA 5936.	Graduate Orientation Seminar (1). (S/U grade only.)		
STA 5446.	Probability and Measure (3).	STA 5939.	Introduction to Statistical Consulting (3). (S/U grade only.)		
STA 5447.	Probability Theory (3).	STA 5940r.	Supervised Consulting (1–3). (S/U grade only.)		
STA 5507.	Applied Nonparametric Statistics (3).	STA 5941r.	Supervised Teaching (1–6). (S/U grade only.)		
STA 5619.	Operations Research: Linear and Dynamic Programming (3).				
STA 5666.	Statistics for Quality and Productivity (3).				
STA 5676.	Reliability Theory and Life Testing (4).

TAX ACCOUNTING: see Accounting

Department of TEXTILES AND CONSUMER SCIENCES

COLLEGE OF HUMAN SCIENCES

Chair: Rinn M. Cloud; *Professors:* Cloud, Davis, Goldsmith, Moore; *Associate Professors:* Baillie, Fiorito, Grise, Heitmeyer; *Assistant Professors:* Black, Kind; *Visiting Assistant Professor:* Kim; *Associate in Merchandising:* McLaughlin; *Assistant in Apparel Design:* Welch; *Visiting Instructor:* Hattaway; *Professors Emeriti:* Adam, Avery, Edgeworth, Kittles, Kuehne, Warden; *Eminent Scholar:* Susan Watkins

From the hustle and bustle of the New York garment district to a planned community in the Appalachian mountains, from Rodeo Drive in California to the Kennedy Space Center in Florida, graduates from the Department of Textiles and Consumer Sciences (TCS) find opportunities for exciting careers with apparel, textile, retailing and residential housing firms.

Students seeking a BS degree may select from four majors: apparel design and technology, merchandising, textiles, or housing (with emphasis in residential housing management, residential design evaluation, or interior products retailing). These stimulating areas of study allow the student to combine an interest in business, art, science, and/or technology with direct, practical application to the design, distribution, merchandising and management of fashion products, residential housing and other consumer goods and services. Students prepare for executive management positions in industry or government through which they address the needs of individuals, families, and communities for fashionable and functional ap-

parel and textile products, profitable retail businesses, and successful residential environments.

Department facilities include leading-edge technology for each major. The **Lectra Computer-Aided Design Laboratory** includes 10 workstations for computer-aided design and manufacturing of apparel and textiles. The **Burdines Merchandising Technology Laboratory** provides hands-on experience with the latest in merchandise presentation and inventory management technology. The latest color communication technology along with modern chemical and physical testing facilities and computerized testing equipment are found in the **Textile Evaluation and Research Laboratory Complex**. Three-dimensional structural design software in the **CHS Multimedia Lab** allows housing students to plan residential environments to meet diverse needs for single and multi-family dwellings.

The **Historic Costume and Textiles Laboratory** houses an outstanding teaching and study collection of historic costumes dating from the early 1800's. The historic textiles collection includes the unique Carter Collection of pre-Columbian Peruvian textiles from the late 1400's.

An excellent teaching and research faculty provides students with a challenging academic environment. Due to their strong commitment to the personal and professional development of students, the faculty provide outstanding academic advising for students. Honors in the major projects and other directed individual study experiences allow students who meet eligibility requirements to pursue particular areas of individual interest. Team projects, computer projects, field trips, and speakers from the textile, apparel, housing, and retail industries are a regular part of the learning environment. In-

ternships are required in the merchandising and housing programs, but are optional in other majors. The highly popular TCS summer study abroad program provides unique opportunities for students to study global aspects of the field while visiting international sites. Student organizations such as Fashion, Inc., the Collegiate Merchandising Association, the student chapter of the American Association of Textile Chemists and Colorists, and the Residential Sciences Organization, supplement classroom learning by providing opportunities to develop leadership skills in professional settings.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

Apparel Design and Technology

1. One course in art history or appreciation (ARH prefix) for three (3) semester hours;
2. CTE X310;
3. CTE X401;
4. FAD X230;

5. ECO X013;
6. ECO X023;
7. PSY X012.

Merchandising

1. ACG X021;
2. CGS X060;
3. CTE X312;
4. CTE X401;
5. ECO X013;
6. ECO X023;
7. FAD X230;
8. PSY X012.

Textiles

1. Two courses in chemistry (CHM prefix) for six (6) semester hours or two courses in physics (PHY prefix) for six (6) semester hours;
2. CTE X312;
3. CTE X401;
4. ECO X013;
5. ECO X023;
6. FAD X230;
7. Two courses in mathematics (MAC prefix) for six (6) semester hours;
8. PSY X012.

Housing

1. ECO X000;
2. FAD X230;
3. PSY X012.

Note: contact the department for additional information.

Honors in the Major

The Department of Textiles and Consumer Sciences offers a program of honors in the major to encourage talented juniors and seniors to undertake independent and original research as part of the undergraduate experience. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*. Interested students who meet eligibility requirements should discuss this opportunity with their faculty advisor early in their junior year.

Requirements for Majors

Students are eligible to enter the Department of Textiles and Consumer Sciences when they have met the University requirements for transfer to an upper-division program, including an overall GPA of 2.0 and completion of all math requirements. A separate application to the department is not required.

Students in the merchandising and housing majors must achieve and maintain a GPA of 2.4 to remain in good standing in the program, to intern, and to graduate. Students in other departmental majors must maintain a GPA of 2.25 to intern and to graduate. Each student is assigned an advisor and is expected to meet with the advisor and/or attend group advising sessions each semester. Advisors assist students with the proper sequencing of courses and provide other course planning and career guidance.

All students must meet the requirements of the College of Human Sciences core as well as those of their particular major.

College of Human Sciences Core

All students in the department are required to complete the College of Human Sciences core requirements consisting of the following eight (8) semester hours: HOE 3050 (2), FAD 2230 (3), and one three (3) semester hour course in the college outside their major field of study **to be selected from a list of approved courses available from the department.**

Apparel Design and Technology

Apparel design and technology is a highly competitive but rewarding field for the creative individual. A successful designer is able to predict consumer reaction and to work within the financial constraints of the production and manufacturing process to design apparel that is both fashionable and functional. The curriculum prepares students to apply the elements and principles of visual design to meet the physical, social, psychological, and aesthetic apparel needs of individuals. Graduates seek positions in major design centers such as New York, Atlanta, Dallas, Miami, or Los Angeles, or work with apparel firms throughout the United States or abroad. Typical starting positions include assistant designer, stylist, assistant product development specialist, and product manager.

Design courses are sequenced such that it requires a minimum of six regular (non-summer) semesters, beginning with a spring semester, to complete studio courses. The first course in the sequence, CTE 1310, may be passed by credit examination. See department for details prior to the first spring semester. A grade of "C–" or better must be achieved in all courses required for the major. Detailed curriculum guide sheets and a sequencing plan are available through departmental advisors. An acceptable portfolio and a 2.25 GPA are also required to remain in good standing, to intern and to graduate.

Merchandising

Merchandising prepares students for entry-level retail management and buying positions in a variety of exciting retailing and merchandise-related organizations. The curriculum emphasizes retail merchandise management and analytical skills associated with the retail buying, distribution, and merchandising of all consumer goods. Internships within the retail industry or with vendors provide real-world business experiences. Graduates of the program are sought by recruiters from the top retail firms. The recruiters visit campus to give presentations and interview students who may be interested in joining their organizations.

Completion with a grade of "C–" or better in MGF 1106 or 1107 or MAC 1102 or 1105 is a prerequisite to merchandising courses. Detailed curriculum guide sheets and a sequencing plan are available through departmental advisors. A GPA of 2.4 is required to remain in good standing, to intern and to graduate.

Internship

Merchandising students are required to complete an internship (CTE 4882) during one semester of their senior year. The internship provides the student with a chance to apply classroom learning to actual work experience. A student must have an overall GPA of 2.4 in order to enter the intern block and to be eligible for interning. In addition, the student must have completed all liberal studies requirements including CLAST; CTE 1401, 1401L, 3201, 3763, 3806, 3835, 4822; and MAR 3023. Eligibility for a buying internship requires completion of CTE 4822 with a grade of "B–" or better. Application for internship must be made by the student one year prior to the intern semester. Additionally, an intern clearance form and graduation check must be completed with the academic advisor the semester before the scheduled internship.

Three merchandising block courses and an intern preparation course are taken during the first half of the intern semester. All material normally covered in a full semester, including the final examination, is completed during the accelerated period. The second half of the semester is the off-campus internship or practicum. The Department of Textiles and Consumer Sciences is responsible for acquiring the internship positions and, through a process explained during the intern block course work, for placing the students. The intern typically is paid as an employee by the company. During the internship, the student is responsible for any assignments given by the department and the retail organization. The interning student is also responsible for housing and relocation arrangements and expenses. Each intern is cooperatively evaluated by both the company and the TCS intern supervisor.

To assure a placement that best meets the professional needs of each student, the department has recruited retail organizations over a wide geographic area. Applicants for the internship

are generally not assigned to their home cities or to the immediate or general vicinity of the campus. Candidates are advised that the Department of Textiles and Consumer Sciences exercises the final responsibility for identifying the internship semester and the company in which the student will intern. Submission of an application by a candidate is an agreement to accept an assignment in a location where the objectives of the internship can best be achieved. Failure to accept an assignment relieves the Department of Textiles and Consumer Sciences and the University of any further responsibility to provide an internship.

A candidate for internship is expected to meet the standards set by pertinent state laws and by the cooperating firms. Candidates should be aware that, consistent with applicable law, information pertaining to all public records (such as arrest and/or conviction in a court of law) may be routinely furnished to the cooperating stores as well as to prospective employers. The Department of Textiles and Consumer Sciences will take all reasonable steps to place a student in an internship but will not be liable if a student cannot be placed.

Textiles

The textiles program prepares students for a wide variety of challenging careers in textile product development, quality assurance, or textile testing and analysis and provides an excellent base for graduate studies. Students gain an understanding of the many factors affecting textile product performance, consumer demand, and choice of textile products. They obtain a strong background in textile science including fiber, yarn, fabric, color, and finish technology. Product development concepts and principles are applied to a wide range of softgoods products with particular emphasis on apparel and interior textiles. Students who minor or double major in merchandising may also find employment in textile marketing.

A grade of "C-" or better must be achieved in all courses required for the major. Detailed curriculum guide sheets and a sequencing plan are available through departmental advisors. A GPA of 2.25 is required to remain in good standing and to graduate.

Housing

The housing major focuses on the design and management of residential environments. Students may select from three areas of emphasis: residential housing management, residential design evaluation, and interior products retailing. Regardless of emphasis, an internship is required. The housing program is supported by an advisory board with representatives from residential property management firms and their vendors.

The residential housing management emphasis combines an interest in the residential environment with the business aspects of developing and managing residential properties. Internships and entry-level executive management positions are available throughout Florida and the nation. Graduates may choose to work in one of several residential settings including apartment communities, student housing, affordable housing, military housing, retirement communities, and other multi-family environments. Career tracks include community manager, multi-property supervisor, marketing and training or asset manager.

Students with interest in the design aspects of residential housing may emphasize residential design evaluation. In this emphasis, students learn to critically analyze housing needs of diverse populations and to assess the functionality and aesthetics of various design solutions to meet those needs. Coursework explores the effects of residential design on physical characteristics such as energy use, as well as its effects on the social and psychological health of individuals and families. Internships and entry-level positions are available with home design and construction firms, residential property management companies, and government agencies.

An emphasis in interior products retailing combines housing courses with a minor in retail management. Students prepare for entry-level management positions with home and interior products retailers and interior decorator firms. Internships are available across a wide geographic area. For guidelines regarding the retail management minor and its internship requirements, please refer to the 'Minor In Retail Management' section below.

A grade of "C-" or better must be achieved in all courses required for the major. Detailed curriculum guide sheets and a sequencing plan are available through departmental advisors. A GPA of 2.4 is required to remain in good standing, to intern and to graduate.

Requirements for Minors

Minor in Consumer Products and Process

This minor provides basic knowledge of selected consumer products and the process by which they flow to the consumer. It is useful to anyone in a career providing goods or services to consumers or families.

Requirements. COA 3151; CTE 1401, 3806, and HHD 3120; plus two courses from the following: COA 4131; CTE 3602, 3763, 4460; HHD 3130; HME 4221.

Minor in Retail Management

Due to the multifaceted nature of their operations, retail companies hire graduates from a wide variety of majors but give preference to those with retail training and experience. The minor in retail management focuses on store management, providing students with a basic foundation in retail store operations and merchandise management. The minor consists of eighteen (18) semester hours (excluding prerequisites) including an internship in a retail setting. Prerequisites for the minor are ACG 2021 or STA 1013 or 3014; ECO 2013 or 2023; MGF 1106 or 1107 or MAC 1102 or 1105 with a "C-" or better; and MAR 3023. In the two semesters prior to the intern semester, students must complete the first six (6) semester hours of the minor, CTE 3806 and 4822, respectively.

Students must have completed at least ninety (90) semester hours, including the above listed courses, and have at least a 2.4 GPA to be eligible to enroll in CTE courses beyond CTE 3806 and to intern. During the semester of the internship, the students complete CTE 4811, 4882 (five [5] semester hours), 4890, and 4892 (one [1] semester hour). Please read the information regarding internships for merchandising majors that describes how the intern program works and the policies under which it operates. **Students desiring to minor in retail management should make an appointment with the department's intern coordinator as soon as possible after reaching junior status.**

Minor in Textiles

This minor imparts basic knowledge in the area of textile science to students in other disciplines such as housing, interior design, chemistry, engineering, criminology, and communication. The requirements include CTE 1401, 1401L, 3784, 4421, 4441C or 4442C, 4460, and one additional course to be selected from CTE 3431, 3763, 4441C, 4442C. Departmental majors who desire a minor in textiles must take at least twelve (12) semester hours not required in their major.

Minor in Housing

At least twelve (12) semester hours in the housing area are required for a minor. HHD 3120 and 3130 are required, plus six (6) additional semester hours of the student's choice from the following courses: HHD 3230, 3820, 4250, 4136; CTE 1401.

Definition of Prefixes

COA	—	Consumer Economics
CTE	—	Clothing, Textiles and Merchandising
HEE	—	Home Economics Education
HHD	—	Housing
HME	—	Home Management
HOE	—	Home Economics: General

Undergraduate Courses

COA 3151. Consumer Competence in a Complex Society (3). Improving levels of living through increased consumer competence. The consumer movement and current issues.

COA 4131. Family Financial Analysis (3). Prerequisites: Junior standing, economics recommended. Principles and problems of money management, credit, insurance, housing, transportation, taxes, and investments.

COA 4905r. Directed Individual Study in Family Economics and Home Management (1–3). May be repeated to a maximum of six (6) semester hours.

COA 4935r. Special Topics in Consumer Economics: Topics Vary (3–9). Study of various consumer or resource management issues/trends. May be repeated to a maximum of twelve (12) semester hours as topics vary.

COA 4944r. Consumer Education Practicum (1–6). A working/learning experience in consumer affairs. May be repeated to a maximum of six (6) semester hours.

CTE 1310. Basic Apparel Construction (3). This course examines the basic methods of apparel construction using hand and machine sewing techniques. Open to apparel design and family and consumer sciences education majors only. (Spring semester only.)

CTE 1401. Introductory Textile Science (3). Introduction to physical and chemical aspects of fibers, yarns, fabrics, finishes, and textiles coloration. Interrelationships between textile characteristics, properties and end-use requirements.

CTE 1401L. Apparel Textiles Laboratory (1). Prerequisite or corequisite: CTE 1401. Laboratory identification and analysis of apparel textiles for end-use performance. Hands-on experience in the identification and analysis of fibers, yarns, fabrics, finishes, and textile coloration.

CTE 3201. Visual Design in Clothing and Textiles (3). Introduction to design as process and product; clothing and textiles applications of functional, structural, and decorative design; optical illusions; art elements and principles; design analysis.

CTE 3319. Intermediate Apparel Construction (3). Prerequisites: CTE 1310 (“C–” or better). Corequisite: CTE 3742. This course examines intermediate principles and techniques of apparel construction using original student design and pattern work. Open to apparel design majors only. (Fall semester only.)

CTE 3341. Advanced Clothing Construction (3). Prerequisites: CTE 1401, 1401L, 3201, 3319, 3742 (all “C–” or better). Traditional and contemporary techniques for the construction and design of tailored and nontailored garments. Open to apparel design majors only. (Spring semester only.)

CTE 3431r. Textile Product Development (3–6). Prerequisite: CTE 1401. Topics in textile product development. Focus on stages of product development for specific end-use areas. May be repeated to a maximum of six (6) semester hours when topics vary.

CTE 3515. History of Clothing and Textiles I (3). Clothing and textiles as a reflection of the arts, customs, economy, and religion of the times from the beginning of recorded history to the 15th century, through those areas of the world having major influence on the development of Western dress.

CTE 3516. History of Clothing and Textiles II (3). Clothing and textiles as a reflection of the arts, customs, religion, technological development, and economy of the times covering Western dress from the 15th century to the present.

CTE 3602. Sociopsychological Aspects of Clothing (3). Introduction to the behavioral aspects of clothing. Behavioral theories that govern the use of clothing in various cultural contexts.

CTE 3734. Fashion Design and Illustration (3). Prerequisites: CTE 1310, 1401, 1401L, 3201. Developing skills and techniques to visually present creative apparel design. Open to apparel design majors only. (Spring semester only.)

CTE 3742. Flat Pattern Design (3). Pre- or corequisites: CTE 1401, 1401L, 3201, 3319. Theories of pattern design using flat pattern techniques to create fashionable apparel. Open to apparel design majors only. (Fall semester only.)

CTE 3763. Fundamentals of Apparel Evaluation (3). Prerequisite: CTE 1401, 1401L. Quality evaluation of apparel products in relation to performance and price.

CTE 3784. Apparel Production (3). Prerequisites: CTE 1401, 1401L. Analysis of apparel production methods and related functions such as the role of the designer, forecasting fashion, garment costing, and employment opportunities.

CTE 3806. Merchandising Principles (3). An overview of businesses that design, produce, distribute and sell fashion and basic goods. Theoretical foundations and practical application of the principles of retail merchandising. Career opportunities in retail organizations.

CTE 3835. Merchandise Presentation and Inventory Analysis (3). Prerequisite: CTE 3806. Analysis of consumer trends, inventory needs, and merchandise presentation methods to drive a business from a store and buying perspective using visual merchandising methods, current inventory analysis software, retail store reports, and the Burdines Merchandising Technology Laboratory.

CTE 3881. Pre-Professional Merchandising Field Experience (3). Prerequisites: CTE 1401, 1401L, 3201, 3763, 3806. This optional pre-internship course is designed to introduce the student, prior to the intern block, to a hands-on approach to basic retail merchandising in the following areas: selling, merchandising, product knowledge, inventory control and management.

CTE 4421r. Advanced Topics in Textiles (3–9). Prerequisites: CTE 1401, 1401L. Topics of current technology and research in textile science. Specific topics will vary. May be repeated to a maximum of nine (9) semester hours when topics vary.

CTE 4441C. Textile Performance and Analysis (3). Prerequisites: CTE 1401, 1401L. Physio-chemical evaluation of textile materials for specific end uses and compliance with industry specifications, certified-performance programs, and government regulations. Emphasis on properties influencing color and color loss, moisture content, detergency and refurbishment, weathering, and other physio-chemical properties that influence safety and functional performance. (Spring semester only.)

CTE 4442C. Textile Testing and Evaluation (3). Prerequisites: CTE 1401, 1401L. Physical/mechanical evaluation of textile materials for specific end uses and compliance with industry specifications, certified-performance programs, and government regulations. Emphasis on strength, elasticity, flexibility, frictional wear, thermal transmission/resistance and other physical/mechanical properties that influence durability and comfort. (Fall semester only.)

CTE 4460. Textiles in the Global Economy (3). Prerequisites: CTE 1401; one economics course. Economic factors of production, distribution, and consumption of textile products. The impact of legislation, regulations, and international trade on the global textile and apparel market. (Spring/Summer semesters only.)

CTE 4712. Special Problems in Clothing Design (3). Prerequisites: CTE 3341, 3734, 4773 (all “C–” or better). Functional and creative designs for individuals with special needs. Research and problem solving in a specialized area of apparel design. Open to apparel design majors only. (Spring semester only.)

CTE 4725r. Advanced Apparel Design (3–6). Prerequisites: CTE 3341, 3734, 4752, 4773 (all “C–” or better). This course examines Creative designing, including integration of various advanced design methods to create

appealing, fashionable and functional apparel. May be repeated to a maximum of six (6) semester hours. Open to apparel design majors only.

CTE 4752. Design Through Draping (3). Prerequisites: CTE 1401, 1401L, 3319, 3742 (all “C–” or better). The fundamentals of draping on the human form as a method of fashion design. Open to apparel design majors only. (Fall semester only.)

CTE 4773. Computer Applications in Apparel Design (3). Prerequisite: CTE 3734, 3742 (all “C–” or better). This course examines the use of the computer as a design tool, to conceptualize apparel design ideas and create original artwork, patterns, and markers. Open to apparel design majors only. (Fall semester only.)

CTE 4811. Merchandising Outlets (3). Prerequisites: CTE 3806, 4822; MAR 3023; senior standing; 2.4 GPA. Study of retail firms for fashion merchandising, emphasizing organizational structure and operational methods. This course is part of the intern block for merchandising majors and minors.

CTE 4822. Quantitative Merchandising Management (3). Prerequisites: CTE 3806; grade of “C–” or better in MGF 1106 or 1107 or MAC 1102 or 1105; 2.4 GPA. Principles of effective merchandising management through mathematical procedures. Examines problems and formulates solutions in merchandise buying: planned stocks, open-to-buy, markups, markdowns, and other buying formulas.

CTE 4826. Merchandising Buying (3). Prerequisites: CTE 1401, 1401L, 3201, 3763, 3806, 4822; MAR 3023; senior standing; 2.4 GPA. This course examines techniques and theories of retail buying, concentrating on buying functions, and the strategic role of the buyer in retail management. This course is part of the intern block for merchandising majors only.

CTE 4832. Family-Owned Business: Issues and Trends (3). Discussion of issues resulting from the interaction between a family and the business that is owned by that family. Guest speakers include family business owners, bankers, accountants, lawyers and government officials who deal with family businesses.

CTE 4882. Professional Merchandising Internship (5). (S/U grade only.) Prerequisites: CTE 3806, 4822; MAR 3023; 2.4 GPA. Pre- or corequisite: CTE 4811, 4890, 4892. An internship in a retail setting giving the student an understanding of merchandising functions by positioning the student in retail management, buying, or product development. Both professional development and career preparation are emphasized. This course is part of the intern block for merchandising majors and minors.

CTE 4890. Executive Merchandising Management (3). Prerequisites: CTE 3806, 4822; MAR 3023; 2.4 GPA. Roles and responsibilities of executive merchandising managers in retail culture; critical competitive challenges in the global, quality, social, and technological environment of various retail settings. This course is part of the intern block for merchandising majors and minors.

CTE 4892. Intern/Career Preparation (1). Prerequisites: CTE 3806, 4822; MAR 3023; 2.4 GPA. Pre- or co-requisites: CTE 4811, 4890. Preparation for merchandising internships and retail careers. Professional development and responsibilities of interns and executive trainees in retail operations. This course is part of the intern block for merchandising majors and minors.

CTE 4905r. Directed Individual Study (1–6). May be repeated to a maximum of six (6) semester hours.

CTE 4937r. Special Topics (1–3). Analysis of current issues and practices in textiles and consumer sciences. May be repeated to a maximum of twelve (12) semester hours as topics vary.

CTE 4940. Apparel Design Internship (6). (S/U grade only.) Prerequisite: CTE 4725. This course is an internship in the apparel industry, giving students a better understanding of apparel design functions by positioning students in apparel design and manufacturing. The internship will incorporate applied problems in apparel design and manufacturing, emphasizing student participation in business and industry.

CTE 4970r. Honors Work (3). This course provides qualified, upper-division majors in textiles and consumer sciences an opportunity to undertake an independent and original research project in their particular area of interest. May be repeated to a maximum of six (6) thesis hours. A minimum of two semesters is required to complete an honors project.

HHD 2152. Multicultural Perspectives in Residential Environments (3). This course surveys cultural factors affecting how humans develop and inhabit ancient and contemporary residential environments of the world, including lifestyle, social structure, economic development, political and legal systems, environmental/ecological settings and technology.

HHD 3120. Principles of Housing (3). Social, economic, and policy aspects of residential environments including supply-demand mechanisms, constraints upon individuals and families, government programs, consumer protection, and housing finance. (Fall semester only.)

HHD 3130. Evaluation of Housing Design (3). Evaluation of residential environments including housing type; space planning; special needs; floor plan design; and energy conservation. Basic design of residential housing including historic styles. (Fall semester only.)

HHD 3230. House Plans, Materials, and Construction (3). Prerequisites: HHD 3120, 3130. Traditional and innovative materials and methods of construction, plans reading, rehabilitation, and remodeling of single and multi-family residential structures. (Spring semester only.)

HHD 3820. Introduction to Housing Management (3). Prerequisite: HHD 3120. Basic principles in the management of residential housing with focus on the roles and responsibilities of the property manager for multi-family housing units. (Spring semester only)

HHD 4135. Accessible Housing (3). Prerequisites: HHD 3120, 3130. An analysis of residential housing needs and constraints for the elderly and persons with disabilities including housing design features and barrier-free design, community services, housing options, and public policy.

HHD 4250. Housing Designs and Human Behavior (3). Prerequisites: HHD 3120, 3130. The interrelationship between the built environment and the behavior of man including physical, psychological, and social needs.

HHD 4905r. Directed Individual Study in Housing (1-6). May be repeated to a maximum of six (6) semester hours.

HHD 4940r. Internship in Housing (1-6). (S/U grade only.) Prerequisites: Housing majors only with grade of "C-" or better in HHD 3120, 3130, 3230, 3820; 2.4 GPA. Su-

pervised practical field experiences in various areas of housing professions. May be repeated to a maximum of nine (9) semester hours.

HME 4221. Family Resource Management (3). Analysis of family decision making, goals, values, and resources.

HOE 3050. Developments and Trends in Home Economics (2). Course covers professionalism, career awareness, the job market, and current trends and developments in the human sciences.

HOE 3330. Human Sciences and Human Development: Global Perspectives (3). A study of the uniformity of basic human needs worldwide and the diverse ways of meeting them according to culture, climate, and resources using family as the core coordinating and delivery system.

Graduate Courses

COA 5150. Family Economics (3).

COA 5906r. Directed Individual Study (1-3). (S/U grade only.)

COA 5912r. Supervised Research (1-3). (S/U grade only.)

COA 5942r. Supervised Teaching (1-3). (S/U grade only.)

COA 5945r. Consumer Education Practicum (3-6).

COA 6936r. Special Topics: Consumer Economics or Resource Management—topics vary (3-9).

CTE 5426. Recent Developments in Textiles (3).

CTE 5535r. Advanced History of Costume (3).

CTE 5536r. Selected Studies in Historic Textiles (3).

CTE 5605. Theoretical and Cultural Aspects of Clothing (3).

CTE 5729. Experimental Clothing Design (3).

CTE 5754r. Advanced Draping (3).

CTE 5760r. Creative Design: Exhibition and Competition (3).

CTE 5805. Current Trends in Fashion Merchandising (3).

CTE 5815. Retail Technologies (3).

CTE 5816. Merchandising Organization (3).

CTE 5828. Merchandising Buying (3).

CTE 5833. Family-Owned Businesses: Issues and Trends (3).

CTE 5834. Merchandising Theory and Research (3).

CTE 5884. Advanced Fashion Merchandising Practicum (4). (S/U grade only.)

CTE 5906r. Directed Individual Study (1-3).

CTE 5911. Research Analysis in Clothing and Textiles (3).

CTE 5912r. Supervised Research (1-3). (S/U grade only.)

CTE 5930r. Clothing and Textiles Seminar (1).

CTE 5942r. Supervised Teaching (1-3). (S/U grade only.)

CTE 6900r. Readings in Clothing and Textiles (1-3).(S/U grade only.)

CTE 6932r. Clothing and Textiles Seminar (1).

CTE 6936r. Special Topics in Clothing/Textiles/Fashion Merchandising (3).

HEE 5347. International Home Economics (1-3).

HHD 5136. Accessible Housing (3).

HHD 5251. Environment and Human Behavior (3).

HHD 5906r. Directed Individual Study (1-3). (S/U grade only.)

HHD 5915r. Supervised Research (1-3). (S/U grade only.)

HHD 5942r. Supervised Teaching (1-3). (S/U grade only.)

HHD 6936r. Special Topics in Housing: Topics Vary (3).

HOE 6938r. Proseminar in Home Economics (1-2). (S/U grade only.)

THEATRE

SCHOOL OF THEATRE

Professors: S. Baker, Byrnes, Chappell, Judy, Karioth, Lazier, Muscha, Richey, Simmons, Wallace, Wise; *Associate Professors:* Degen, Gelabert, Hogan, Holshue, Jordan, Leahy, Lickson, Redmond, Simotes; *Assistant Professors:* Archbold, Coleman, Cooper, Edmondson, Gonzalez, Sandahl; *Visiting Assistant Professor:* Johnson; *Assistant:* Mayfield; *Burt Reynolds Eminent Scholar Chair in Theatre:* TBA; *Hoffman Eminent Scholar Chair in Theatre:* TBA; *Professor Emeritus:* Fallon

The School of Theatre is a fully accredited member of the National Association of Schools of Theatre, and its degree requirements

are in accordance with the latest published regulations of that association. The School of Theatre offers degrees and course work at both undergraduate and graduate levels. In order to major in theatre, a student must meet with an academic advisor in theatre. Several programs require an audition and/or interview for entrance.

The bachelor of arts is a flexible, broad based liberal arts degree, providing a basic knowledge of, and experience in, theatre arts. The bachelor of fine arts (BFA) offers an intensive program of training in acting, design/technology, or music theatre. The master of arts/master of science (MA/MS) degrees offer a blend of academic courses and production training on an advanced level. The master of fine arts (MFA) degree provides training to achieve professional-level competencies in either acting,

directing, scene design, costume design, lighting design, technical production, or theatre management. The doctor of philosophy (PhD) in theatre is a research degree that indicates the perfection of individual skills in theatre scholarship.

The School of Theatre offers honors in the major to encourage talented students to undertake independent research. For requirements and other information, see the "University Honors Program and Honor Societies" section of this *General Bulletin*.

For complete details of degree requirements, plus a description of the school, its facilities and opportunities, refer to the "School of Theatre" section of this *General Bulletin*.

State of Florida Common Course Prerequisites

The State of Florida has identified common course prerequisites for this University degree program. These prerequisites are lower-level courses that are required for preparation for the University major prior to a student receiving a baccalaureate degree from The Florida State University. They may be taken either at a community college or in a university lower-division program. It is preferred that these common course prerequisites be completed in the freshman and sophomore years.

The following lists the common course prerequisites or approved substitutions necessary for this degree program:

1. THE X000 or any three (3) semester hour introductory course from 001–035 at the 1 or 2 level;
2. THE X305 or THE X300;
3. THE X925;
4. TPA X290;
5. TPA X200 or TPA X210;
6. TPP X190 or TPP X110;
7. Nine (9) additional semester hours of any combination of THE, TPA, and TPP courses.

Definition of Prefixes

THE	—	Theatre (general)
TPA	—	Theatre Production and Administration
TPP	—	Theatre Performance and Training

Undergraduate Courses

THE 2000. Introduction to Theatre (3). For nonmajors. Historical development, basic elements for appreciation and evaluation of performances.

THE 2020. Introduction to Theatre for Majors (3). A survey course of the field of theatre, its various divisions and the School of Theatre. Preparation for independent research and communication about the profession and the school.

THE 2083r. Theatre Problems (3). Topics change per semester depending upon instructor. May be repeated to a maximum of six (6) semester hours.

THE 2100. Introduction to Theatre History (3). Survey of theatre history and drama from Greeks to present. This course is a prerequisite for THE 4110, 4111, 4236, 4244, 4245, 4260, and 4481.

THE 3061. Introduction to Theatre in London (3). This introductory course is designed to acquaint students with the components of the theatrical experience as they relate specifically to current dramaturgy and stagecraft in London. It is to be offered only at The Florida State University London Study Center. It should be viewed as a companion class to THE 3000 Introduction to Theatre, for majors and nonmajors, but may be taken independently. It makes use of the theatrical resources in the city of London, including attendance at leading theatres, backstage tours, and lectures by prominent theatre artists.

THE 3931r. Special Topics in Theatre (3). (S/U grade only.) Topics change per semester depending upon instructor. May be repeated to a maximum of six (6) semester hours.

THE 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

THE 4110. European Theatre History I (3). Prerequisite: THE 2100. An in-depth study of European theatre history from the Greeks through the Renaissance.

THE 4111. European Theatre History II (3). Prerequisite: THE 2100. An in-depth study of European theatre history after the Renaissance, with a major emphasis on the modern era (1870 to the present).

THE 4233. History of African-American Drama (3). A survey of the history of African-Americans in the American theatre from the African Gove Theatre to the present, and of playwrights from William Wells Brown to August Wilson.

THE 4236. A Cultural History of the American Theatre and Drama from Beginnings to Present (3). Prerequisite: THE 2100. Examination of American theatre and drama in its cultural and social context.

THE 4244. Musical Theatre History I (3). Prerequisite: THE 2100; MUL 2211; DAN 4115; or instructor approval. A survey of the popular musical theatre from the beginnings to the 1940s, including the development of comic opera, operetta, the revue tradition, and musical comedy.

THE 4245. Musical Theatre History II (3). Prerequisite: THE 2100; MUL 2211; DAN 4115; or consent of instructor. A survey of musical theatre in America since the 1940s, including Rodgers and Hammerstein, Weill, Lerner and Loewe, Loesser, Bernstein, Sondheim, the Black musical, and the rock musical.

THE 4260. Historic Costume for the Stage (3). Prerequisite: THE 2100. Survey of history of Western clothing and relationship to stage.

THE 4268. History of Architecture and Decor (3). Examination of principal periods of architectural development and interior design from Ancient Egypt through the Art Deco movement of the 1930's.

THE 4305. Play Analysis (3). Line by line script examination, analyzing how playwrights of various periods achieved characterization, structure, and plotting. Prerequisite for TPP 4310 and THE 4481.

THE 4432. Latin American and Caribbean Theatre (3). Prerequisite: THE 2100. Examination of the cultural and artistic origins of Latin-American and Caribbean Theatre. Course includes reading and discussion of plays and articles concerning theatre of various regions.

THE 4433. Gender, Race and Performance (3). Advanced introduction to contemporary theories/practices of performance of race/gender on stage and in everyday life using feminist theories of performance. Read plays by women of color, white women, one African-American man.

THE 4481. Dramaturgy (3). Prerequisites: THE 2100, 4305; and/or consent of instructor. This course is an introduction to production dramaturgy with emphasis on conducting research and preparing written reports. Topics include surveys of the critical literature, cultural background and biography, production history and text preparation.

THE 4905r. Directed Individual Study (1–3). May be repeated to a maximum of twelve (12) semester hours.

THE 4913r. Theatre Tutorial (1–3). (S/U grade only). Selected topics in theatre. Upper division theatre majors only. May be repeated to a maximum of six (6) semester hours.

THE 4917r. Honors Work (3). Open only to students in the honors program. Covers specialized honors course work culminating in an honors thesis. May be repeated to a maximum of twelve (12) semester hours.

THE 4923r. Theatre Encounters Workshop (3). Prerequisite: Permission of instructor. A workshop production of a major dramatic work together with extensive study of the social, literary, and cultural contexts. Includes dramaturgical research and written assignments. May be repeated to a maximum of six (6) semester hours.

THE 4935r. Selected Subjects in Theatre Studies (3). In-depth examination of various topics not covered in the regular course offerings. For seniors and juniors who have completed at least fifty percent of their major requirements. May be repeated to a maximum of nine (9) semester hours.

THE 4990r. Theatre Forum (0). (S/U grade only.) Required each semester for undergraduate majors. Attendance required at all school meetings and designated activities scheduled at other times. May be repeated up to thirty (30) times.

TPA 2000. Creative Design for Theatre (3). Introduces the fundamental elements of design including spot, line, shape, and color while relating these elements to theatrical production design.

TPA 2200C. Introduction to Stage Craft (2). Studies and practice in the construction, handling, rigging, and shifting of scenery.

TPA 2201. Introduction to Technical Theatre (3). Corequisite: TPA 2201L. This class is an introduction to the technical elements required to produce a theatrical production. Elements from scene and costume construction, along with lighting, sound and stage management, will be discussed.

TPA 2201L. Introduction to Technical Theater Laboratory (2). Corequisite: TPA 2201. Students will gain direct experience in scene, costume or lighting production.

TPA 2211. Principles of Technical Theatre (3). Prerequisites: TPA 2201 and 2201L. Provide understanding of operation and management of scene shop as well as studying different and advanced techniques of theatrical production. New materials and adaptation of existing materials will be studied.

TPA 2220C. Introduction to Stage Lighting (2). A study of the fundamentals of lighting and basic instrumentation, electricity, and design concepts.

TPA 2248. Stage Makeup (2). Introduction to basic makeup for the stage. Emphasis is on modeling of the face with makeup.

TPA 2290–2292. Technical Theatre Laboratory [one (1) hour each]. Prerequisite: Consent of instructor. Practical experience in the nonacting areas of theatre production, to include running the box office, disseminating publicity materials, constructing scenery and properties, applying basic techniques for costume construction in practical situations, and serving on lighting, running, or maintenance crews.

TPA 3208. Drafting for the Stage (3). Prerequisite: TPA 2201. Introduction to tools and techniques, including preparation of plates showing construction details and perspective.

TPA 3230C. Costume Techniques and Wardrobe Practices (2). To understand the contribution of costume technology to the theatre production process. Describes and analyzes the various positions held by persons practicing costume technology. To explore, by practical experience, various aspects of costume technology. Hands-on group projects required.

TPA 3293, 3294. Technical Theatre Laboratory [one (1) hour each]. Prerequisite: Consent of instructor. Advanced practical experience in the nonacting areas of theatre production, to include running the box office, disseminating publicity materials, constructing scenery and properties, applying basic techniques for costume construction in practical situations, and serving on lighting, running, or maintenance crews.

TPA 4014. Model Making (3). This course acquaints students with current model building techniques and systems. Students will gain experience in constructing most of the elements commonly associated with models such as doors, windows, textures, fences, trees, and props.

TPA 4020. Lighting Design I (3). Prerequisite: TPA 2201. This course acquaints students with the design process and the various tools by which a lighting designer researches and expresses his/her art. The course includes script analysis, producing light plots, and basic drafting.

TPA 4021. Lighting Design II (3). Prerequisites: TPA 3208, 4020. This course is an overview of the lighting design process for a variety of spaces from concept to finished product. Emphasis is on script analysis. Content includes instruction in the creation and use of paperwork as well as practical aspects of lighting in both the proscenium and non-proscenium venues.

TPA 4024. Lighting Design III (3). Prerequisite: TPA 4021. This course encompasses lighting design for a variety of production styles such as musicals, opera, dance, comedy and tragedy.

TPA 4040. Costume Design for the Stage (3). Prerequisite: THE 4260 or consent of instructor. Exploration of the elements and principles of design as they relate to stage costuming. Work includes design projects.

TPA 4060. Principles of Scenic Design (3). Prerequisite: TPA 3208. Beginning design techniques including ground plan, perspective, and model building.

TPA 4064. Scene Design Theory and Practice (3). Prerequisites: TPA 3208, 4060. This course demonstrates a clear process for developing a design idea and executing the final presentation.

TPA 4071. Rendering for the Stage (3). Rendering techniques for the set, costume, and lighting designer in various media. Professional equipment required.

TPA 4077. Scene Painting (3). Traditional scene painting techniques for theatre and film. Professional equipment required.

TPA 4078. Advanced Scene Painting (3). This is an advanced studio course that will develop skills introduced in TPA 4077 with non-traditional scenic techniques and non-traditional materials.

TPA 4084. Life Drawing for Designers (3). This course explores the problems of figure drawing as they relate specifically to the theatrical designer using live, nude and draped models.

TPA 4217. Welding Techniques for Scenery Construction (3). A studio course that introduces the basic equipment, materials and techniques required for the cutting and welding of metals used in scenery construction.

TPA 4223. Theatrical Lighting Technology (3). Prerequisite: TPA 2201. This course explores a variety of practical skills and tools that are necessary for a career as a master electrician, programmer or other non-design application. It encompasses work in electricity, trouble shooting, special effects, light board programming and advanced technology.

TPA 4234. Costume Crafts (3). Exploration of various costume craft techniques and materials, including clay, plaster, leather, thermoplastics, casting, and metals, and their relationship to theatrical apparel.

TPA 4238. Stage Costume Millinery Techniques (3). Exploration into various millinery techniques including the blocked, constructed buckram, straw, and restored hats with emphasis on both historical and theatrical interpretations.

TPA 4239. Techniques and Sources of Historical Costume Reproduction for the Stage (3). Prerequisites: THE 4260; CTE 3734, 4751. Sources for and methods of evaluation of patterns for historical reproductions of clothing for stage use.

TPA 4240. Costume Studio Management (3). Principles and methods of costume studio management. Course work includes the managing of a production currently being produced by the School of Theatre.

TPA 4244. Fabric Modification for Stage Costumes (3). A survey of two-and-three-dimensional fabric modification techniques as they relate to theatrical costumes. Basic techniques covered include dyes, painting mediums, printing processes, sewing and off-loom techniques.

TPA 4250. AutoCAD for the Stage (3). Students will learn to apply theatrical drafting standards to AutoCAD. This course will cover basic DOS commands and structure, drafting in 2D AutoCAD, and drafting in 3D AutoCAD (including basic modeling commands).

TPA 4400. Theatre Management (3). Designed to provide an introduction to the economic and managerial aspects of American theatre especially as they apply to nonprofit and professional theatre.

TPA 4601. Stage Management (2). Methods and techniques of managing simple dramatic shows to complex multiscene productions. Must be taken before stage managing a Mainstage production. Consent of instructor required.

TPA 4905r. Directed Individual Study (1-3). May be repeated to a maximum of twelve (12) semester hours.

TPA 4922r. BFA Design/Technology Workshop (2). Prerequisite: BFA candidates only. Evaluation and supervision of all design/technology work. May be repeated to a maximum of eight (8) semester hours.

TPA 4940r. Internship in Stage Design, Technical Theatre, and Management (1-3). (S/U grade only.) Prerequisites: Completion of all course work in theatre, approval of faculty in appropriate specialist area. Resident internship in an approved professional theatre, shop, or enrichment center. May be repeated to a maximum of six (6) semester hours.

TPP 2110r. Acting Technique I: Basic Process (3). Prerequisite: Permission of instructor. Introduction of the basic acting process. Emphasis on living truthfully in imaginary circumstances through honest listening and response. May be repeated to a maximum of nine (9) semester hours.

TPP 2111r. Acting Technique II: Contemporary American Realism (3). Prerequisites: TPP 2110r; and/or permission of instructor. Scene study and basic characterization. May be repeated to a maximum of nine (9) semester hours.

TPP 2120. Creative Improvisation: Form and Idea in Acting (2). Introductory course in acting; examines fundamental interrelationships between the actor's physical, vocal, and psychological potential in creating a clear and simple dramatic statement.

TPP 2185. Orientation to Acting (3). General survey of the development of acting and actor training, Stanislavsky to Hagen, with exercises in the basics of the actor's process and audition technique.

TPP 2190L, 2191L, 2192L, 4193L-4195L. Theatre Rehearsal and Performance [two (2) hours each]. (S/U grade only.) Prerequisite: Permission of instructor. Assignment of a specific role and/or responsibility. Opportunity for student to receive additional supervision and critique, as well as credit, for participation in rehearsal and performance.

TPP 3510r. Movement Techniques for Theatre I (3). Prerequisite: Permission of instructor. Exercises for self-awareness, physical strength, flexibility, and versatility for the actor. May be repeated to a maximum of six (6) semester hours.

TPP 3511r. Movement Techniques for Theatre II (3). Prerequisite: TPP 2510r; and/or permission of instructor. Styles of movement and dance, creative presentations, and daily warm-ups. May be repeated to a maximum of (6) semester hours.

TPP 3531. Stage Fight I (3). This course explores how actors use physical text to expand choices in their work, including hand-to-hand combat and found weapons. Paramount to the structure of the class is examination of the emotional/psychic strain this work creates for actors.

TPP 3532. Stage Fight II (3). Prerequisite: TPP 3531. A continuation of Stage Fight I, this class focuses on the use of found weapons, quarter-staffs, and rapiers/daggers in combat. Hand-to-hand work and tumbling are essential to class progression.

TPP 3710r. Voice Techniques for Theatre I (3). Prerequisite: Permission of instructor. Basic vocal skills, creation of a free and flexible voice; control of speech variables. May be repeated to a maximum of six (6) semester hours.

TPP 3711r. Voice Techniques for Theatre II (3). Prerequisite: TPP 2710r; permission of instructor. Exercises in diction and articulation, study of International Phonetic Alphabet, correction of regionalisms.

TPP 4112r. Acting Techniques III: Acting Problems in Genre and Style (3). Prerequisites: TPP 2110r, 2111r, 3711; and/or permission of instructor. Acting workshop oriented to particular problems the actor confronts in dealing with historic periods in dramatic literature or material of postrealistic and contemporary styles and thought. May be repeated to a maximum of nine (9) semester hours.

TPP 4224. Audition Techniques (3). Course is designed as a workshop for advanced actors who are preparing to enter graduate study programs or seek professional work in theatre with some attention paid to work in film and television. This course will examine the audition process from the perspectives of both the aspiring performer and the prospective employer.

TPP 4310. Directing I (3). Corequisite: THE 4305. A basic techniques course with emphasis on script analysis, fundamentals of staging, and work with actors.

TPP 4311. Directing II (3). Prerequisites: TPP 4310; permission of instructor. Advanced undergraduate directing with emphasis on practical scene work.

TPP 4512r. Advanced Movement for the Theatre (3). Prerequisite: TPP 2510r, 3511r; and/or permission of instructor. Advanced movement techniques and exploration of repertory and choreography. May be repeated to a maximum of six (6) semester hours.

TPP 4600. Fundamentals of Playwriting (3). Introductory course to the craft of playwriting. Functions as a workshop and focuses on the mechanics of structure, form, and marketing.

TPP 4712r. Voice Techniques for Theatre III (3). Prerequisites: TPP 2710r, 2110r, 3711; and/or permission of instructor. The incorporation of vocal techniques into acting problems. Exercises in acting styles. Vocal characterization. Emphasis on vocal freedom and flexibility. May be repeated to a maximum of six (6) semester hours.

TPP 4730r. Dialects for Stage (3). Prerequisites: TPP 2710r, 2110r, 3711; and/or permission of instructor. The techniques of acquiring a dialect for stage performance. Scene study and monologues performed in dialects. Content may vary from semester to semester. May be repeated to a maximum of six (6) semester hours.

TPP 4905r. Directed Individual Study (1-3). May be repeated to a maximum of twelve (12) semester hours.

TPP 4922r. Performance Workshop in Acting/ Directing (2). Prerequisites: BFA candidates only; permission of instructor. Course provides evaluating systemization, supervision, and critiques for performance work required for BFA program. May be repeated to a maximum of ten (10) semester hours.

TPP 4923r. Musical Theatre Workshop (2). Prerequisites: BFA candidates only; permission of instructor. Course provides evaluation, systemization, supervision, and critiques of all performance work undertaken to isolate acting and musical problems which occur in musical theatre and to seek their solution in performance. May be repeated to a maximum of eight (8) semester hours.

TPP 4940r. Internship in Theatre Performance (1–3). (S/U grade only.) Prerequisites: Completion of all course work in theatre, approval of faculty in appropriate specialist area. Resident internship in an approved professional theatre, shop, or enrichment center. May be repeated to a maximum of six (6) semester hours.

Graduate Courses

- THE 5084r. Theatre Problems (3).
- THE 5119. Masters of Modern Drama (3).
- THE 5120. Advanced Theatre History I: Classical and Medieval (3).
- THE 5130. Advanced Theatre History II: Renaissance and 18th Century (3).
- THE 5160. Advanced Theatre History III: 19th and 20th Centuries (3).
- THE 5238. History of African-American Drama (3).
- THE 5265r. Historic Costume II (3).
- THE 5269. History of Architecture and Décor (3).
- THE 5273r. Seminar: Selected Topics in History of Performance (Acting and Directing) (3).
- THE 5274. Seminar: Theory and History of Directing (3).
- THE 5317r. Seminar: Selected Topics in Dramatic Literature and Dramatic Theory (3).
- THE 5437. Gender, Race, and Performance (3).
- THE 5485. Shakespearean Dramaturgy (3).
- THE 5486. Graduate Dramaturgy (3).
- THE 5506. Seminar: Dramatic Theory and Criticism—20th Century (3).
- THE 5541. Seminar in Theatrical Theory: The Tragic Dramatic Form (3).
- THE 5542. Seminar in Theatrical Theory: The Comic Dramatic Form (3).
- THE 5905r. Directed Individual Study (3). (S/U grade only.)
- THE 5910. Theatre Bibliography and Research (3).
- THE 5916r. Supervised Research (1–9). (S/U grade only.)
- THE 5918r. Theatre Tutorial (1–3).
- THE 5925r. Writing Workshop (1–3). (S/U grade only.)
- THE 5927r. Graduate Theatre Laboratory (2). (S/U grade only.)
- THE 5940r. Internship in Theatre (2–12). (S/U grade only.)
- THE 5943r. Supervised Teaching (1–9). (S/U grade only.)
- THE 6272. Seminar: Theory and History of Acting (3).
- THE 6531. Methods of Theatre Criticism (3).
- THE 6915. Doctoral Research Potentials (0). (S/U grade only.)
- TPA 5015. Stage Machinery Design and Construction (3).
- TPA 5016. Model Making (3).
- TPA 5025. Lighting Design I (3).
- TPA 5026. Lighting Design II (3).
- TPA 5027. Lighting Design III (3).
- TPA 5028. Lighting Design IV (3).
- TPA 5029. Lighting Design V (3).
- TPA 5042r. Advanced Costume Design for the Stage (3).
- TPA 5047. Advanced Costume Rendering (3).
- TPA 5062. Scene Design: Theory and Practice (3).
- TPA 5065. Principles of Scene Design (3).
- TPA 5067r. Scenic Design III (3).
- TPA 5069r. Scenic Design IV (3).
- TPA 5079. Scene Painting (3).
- TPA 5080r. MFA Practicum in Design for the Stage (2–15).
- TPA 5086. Life Drawing for Designers (3).
- TPA 5089. Advanced Technical Theatre: Problems in Scene Painting (3).
- TPA 5203. Drafting (3).
- TPA 5207. Technical Directions (3).
- TPA 5213. Stage Rigging (3).
- TPA 5227. Theatrical Lighting Technology (3).
- TPA 5235r. Selected Topics in Stage Costuming and Makeup Technology (3).
- TPA 5236. Advanced Costume Crafts (3).
- TPA 5237r. Selected Topics in Costume Design for the Stage (3).
- TPA 5243. Costume Fitting and Advanced Draping (3).
- TPA 5245. Fabric Modification for Stage Costumes (3).
- TPA 5246. Advanced Stage Costume Millinery Techniques (3).
- TPA 5280r. MFA Practicum in Technical Theatre (2–15).
- TPA 5285. Technical Production and Management (3).
- TPA 5286r. Selected Topics in Technical Theatre (3).
- TPA 5405. Principles of Theatre Management (3).
- TPA 5407. Fundraising in the Arts (3).
- TPA 5408. Business and Legal Issues in the Arts (3).
- TPA 5409. Audience Development and Arts Marketing (3).
- TPA 5470r. MFA Practicum in Management (2–15).
- TPA 5905r. Directed Individual Study (3). (S/U grade only.)
- TPA 5930r. Select Topics in Management (3).
- TPA 5940r. MFA Internship in Technical Theatre, Stage Design, and Management (2–15).
- TPP 5145r. Acting Techniques I (3).
- TPP 5225. Audition Techniques (3).
- TPP 5284r. MFA Practicum in Acting (1–15).
- TPP 5380r. MFA Practicum in Directing (2–15).
- TPP 5381–5383. Problems in Directing [three (3) hours each].
- TPP 5515r. Movement I (3).
- TPP 5516r. Movement II (3).
- TPP 5651. Advanced Play Analysis (3).
- TPP 5715r. Voice I (3).
- TPP 5716r. Voice II (3).
- TPP 5906r. Directed Individual Study (3). (S/U grade only.)
- TPP 5940r. MFA Internship in Theatre Performance (2–15). (S/U grade only.)

Department of URBAN AND REGIONAL PLANNING

COLLEGE OF SOCIAL SCIENCES

Chair: Charles Connerly; *Professors:* Connerly, Cowart, Stiftel; *Associate Professors:* Deyle, Doan, Miles, Thompson; *Assistant Professors:* Audirac, Chapin, Deka, Smutny; *Planner-in-Residence:* Casella; *Professor Emeriti:* Frank, RuBino

Urban and regional planning is an interdisciplinary field that is concerned with the management of population growth and decline in urban, suburban, and rural areas. It is concerned with the uses of land to accommodate population; the provision of employment, services, and facilities needed by this population (for example, housing, hospitals, roads and other transportation facilities, schools, parks and recreation, and health services); and the impacts of this population on the environment (air, water, and land), society, and governance.

Planners study these issues and develop policies and plans to accommodate population growth and the problems that arise from this growth. Planners are concerned with the development of coordinated policy responses to these issues; they practice a broad view that focuses on the interrelationships between problems and the necessary interrelatedness of solutions. Above all, planners are concerned with improvements to the quality of life of our communities. They attempt to address these issues in ways that recognize the diverse interests of both genders and those of varying social and economic groups.

Planning is practiced at all levels of government, including local, regional, state, multistate, and national levels. Planners are also found in the private sector; in the employment of development firms, law firms, banks, and specialized resource firms (mining, forestry, etc.); in public interest organizations; and in international settings.

The Department of Urban and Regional Planning offers three nonmajor programs for undergraduates interested in planning and urban affairs. These programs are designed to complement an existing major for those students who wish to develop an appreciation of planning or who wish to lay the foundation for graduate study in planning. These programs are the undergraduate planning studies minor, certificate and pregraduate programs. Within each of these three programs, students may satisfy their minor requirements.

Because of the variety of issues and contexts within which planners work, there is no one undergraduate background that is universally more important than others. Students may com-

bine their interests in planning and urban affairs with undergraduate majors in the variety of social sciences, physical or natural sciences, business, engineering, design professions, communications, criminology and criminal justice, and others.

Planning Studies Minor Program

This program is designed for students who wish to apply their major field to problems and issues in planning and urban affairs. The program consists of a series of courses at the 3000 and 4000 levels that provide an overview of planning and that introduce the student to issues, organizations, policies, and implementation strategies. Students may earn a minor in urban and regional planning by completing a four-course sequence that is composed of two required courses and two elective courses. URP 3000 is a prerequisite for all of the required and elective courses. Electives are chosen from among a set of introductory courses representing the major policy areas taught by the department. These include growth management and comprehensive planning, planning for developing areas, environmental planning and resource management, health planning, housing and community development, and transportation planning.

Students interested in the planning studies minor program are advised to see the department's Director of Undergraduate Programs for advice on the availability of courses.

Required Courses

URP 3000	Introduction to Planning and Urban Development
URP 4022	Collective Decision Making

Elective Courses (Choose Two)

URP 4314	Introduction to Growth Management and Comprehensive Planning
URP 4401	Coastal Ecosystems, Environmental Issues and Coastal Zone Management
URP 4402	Sustainable Development
URP 4423	Introduction to Environmental Planning and Resource Management
URP 4523	Introduction to Health Planning
URP 4618	Introduction to Planning for Developing Regions
URP 4710	Introduction to Transportation Issues and Transportation Planning
URP 4741	Introduction to Issues in Housing and Community Development
URP 4936r	Special Topics in Urban and Regional Planning

The Certificate Program in Urban and Regional Planning

The certificate program is intended for undergraduate students who want to delve more deeply into the field of planning. The program requires two courses in addition to the four required for the minor and is issued only in conjunction with the applicant's receipt of a bachelor of arts or science degree and a grade of "C-" or better in all courses. One of these two courses is ECO 2023 Economics of the Price System (3). The second course should be chosen from a list available from the undergraduate program advisor.

Pre-graduate Minor Program

This undergraduate program is designed for students who anticipate continuing to graduate school to earn the professional master's degree in planning. Students in this program are given the opportunity to begin graduate-level course work in their senior year and thereby may satisfy some of the requirements of a graduate degree while still completing their undergraduate credit hour requirements. This program is closely coordinated with the department's graduate program, offering students the possibility of preferred admission with advanced standing at the graduate level. Students make application for advanced standing after admission to the master's program.

The pregraduate program allows acceleration toward the master of science in planning degree upon satisfactory completion of one required undergraduate course and one to four of the eligible URP graduate courses listed below. URP 3000 is a prerequisite/corequisite for all these courses.

Admission to the pregraduate program is available only to those undergraduates who are beginning or in their senior year and who have maintained a cumulative grade point average (GPA) of at least 3.2 or who have earned a score of at least 1000 on the combined verbal and quantitative portions of the GRE and who have taken or are registered for URP 3000. Students completing this program with an upper-division GPA of at least 3.0 may be offered admission to the master's program in planning with advanced standing for up to twelve (12) semester hours of course work in which the grade of "B" or higher was earned.

Required Courses

URP 3000	Introduction to Planning and Urban Development
----------	------------------------------------------------

Elective Courses (Choose One to Four)

URP 5101	Planning Theory and Practice
----------	------------------------------

URP 5125	Plan Implementation
URP 5201	Methods of Planning Analysis I: Research and Evaluation
URP 5211	Methods of Planning Analysis II: Statistics
URP 5312	Issues of Comprehensive Planning and Growth Management
URP 5421	Introduction to Environmental Planning
URP 5520	The U.S. Health Care System
URP 5610	Introduction to Planning for Developing Regions
URP 5711	The Transportation Planning Process
URP 5742	Problems and Issues in Housing and Community Development
URP 5845	The Growth and Development of Cities

Note: a guide to undergraduate studies in urban and regional planning is available from the department and should be consulted by all students enrolling in the minor planning studies or pre-graduate programs.

A minor can be earned concurrent with work on the pregraduate program. The minor is composed of a four-course sequence: URP 3000, 4022, and at least two additional graduate courses included in the list above.

Multicultural Studies

A variety of Urban and Regional Planning undergraduate courses explore perspectives of different cultural groups on questions related to urban life and the development of human settlements. Approved for credit under the University's baccalaureate Multicultural requirement for Cross-cultural (X) courses are: URS 1006 World Cities; and URP 4618 Planning for Developing Regions. Approved under the requirement for Diversity in Western Cultures (Y) is: URP 4402 Sustainable Development Planning in the Americas.

Definition of Prefixes

URP	—	Urban and Regional Planning
URS	—	Urban and Regional Studies

Undergraduate Courses

Liberal Studies Area III

URS 1006. World Cities: Quality of Life (3). Major world cities are examined in terms of their natural, social and built environments in order to assess those factors that promote quality-of-life and sustainability. Prospects for future growth and change are considered in light of demographic, cultural, economic and political trends.

Upper Division Courses

URP 3000. Introduction to Planning and Urban Development (3). Introduces planning concepts and the role of planning in formulating policy, meeting critical problems, and shaping the future urban environment.

URP 3949r. Cooperative Education Work Experience (0). (S/U grade only.)

URP 4022. Collective Decision Making (3). Prerequisites: URP 3000 or permission of instructor. Outlines efficiency, equity, and environmental quality as competing bases for public decisions. Examines tools for contributing to public decisions in varying circumstances including unitary and diverse decision makers, certain and uncertain environments, and simple and complex goals.

URP 4314. Introduction to Growth Management and Comprehensive Planning (3). Prerequisite: URP 3000 or permission of instructor. An introduction to the problems and needs for growth management and comprehensive planning for US cities, highlighting various planning approaches and strategies available for meeting development, growth, and land-use problems.

URP 4401. Coastal Ecosystems, Environmental Issues and Coastal Zone Management (3). Prerequisite: URP 3000 or permission of instructor. This course will provide an introduction to coastal environments in terms of their basic ecological functioning, human impacts and management issues. Florida coastal ecosystems will be emphasized, including salt marsh and mangroves, estuaries, barrier islands, sea grass meadows, coral reefs and continental shelves.

URP 4402. Sustainable Development Planning in the Americas (3). Prerequisite: URP 3000 or permission of instructor. Examines various dimensions of the "sustainable development" paradigm and its local-global policy implications, issues, and controversies with a focus upon North American and Latin America. Organized in three modules: 1) environmental philosophies that have influenced the movement; 2) North American approaches to planning for sustainable development; and 3) critical issues of sustainable development in Latin America.

URP 4423. Introduction to Environmental Planning and Resource Management (3). Prerequisite: URP 3000 or permission of the instructor. A general introduction to the problems of resource management and environmental planning, with an overview of problems and potential solutions and their relation to other public policy areas such as land-use control and regional development.

URP 4523. Introduction to Health Planning (3). Prerequisite: URP 3000 or permission of the instructor. Examines the structures, policies, resources, and services of the health care system, including both the public and private sectors and systems for acute, chronic, and long-term care. Focuses on planning and policy needs and implications.

URP 4531. Policy and Planning for the Aged (3). This course examines issues faced by older people and the current federal and state policies designed to address these issues. It explores these policies and issues, in the context of both political economy and the long-term care continuum from independence to dependence.

URP 4618. Planning for Developing Regions (3). Prerequisite: URP 3000 or permission of instructor. This course will introduce the student to the field of development planning and gives the student exposure to the interplay between theory and practice. Topics include concepts of development, measurement and indicators of patterns of development, rural development, urban development, preparation of development plans, and implementation of development plans.

URP 4710. Introduction to Transportation Issues and Transportation Planning (3). Prerequisite: URP 3000 or permission of instructor. An introduction to contemporary US transportation problems, sources of funding, and legislation. Presents the theory and methods employed by planners in the process of resolving transportation problems.

URP 4741. Introduction to Issues in Housing and Community Development (3). Prerequisite: URP 3000 or permission of instructor. Focuses on the operation of the housing market, the nature of the housing and community development problem, and the gradual development of a national housing and community development policy since the 1930s. Relationships between public and private sectors are examined.

URP 4936r. Special Topics in Urban and Regional Planning (3). A selected topics seminar for the discussion of unique and timely planning related issues. Content varies. May be repeated to a maximum of six (6) semester hours.

Graduate Courses

Planning Theory and Practice

URP 5101.	Planning Theory and Practice (3).
URP 5122.	Planning Dispute Resolution (3).
URP 5125.	Plan Implementation (3).
URP 5131.	Legal Foundations for Planning (3).
URP 5311.	Advanced Planning Problems (3).
URP 5504.	Planning for Social Change and Citizen Participation (3).
URP 5544.	Gender and Development (3).
URP 5944.	Dispute Resolution Practicum (3).
URP 5945.	Internship in Planning (3). (S/U grade only.)
URP 6102.	Seminar in Planning Theory (3).

Planning Methods

URP 5201.	Methods of Planning Analysis I: Research and Evaluation (3).
URP 5211.	Methods of Planning Analysis: Statistics (3)
URP 5222.	Policy Analysis for Planning Decisions (3).
URP 5257.	Fiscal Impact Analysis (3).
URP 5261.	Methods of Planning Analysis III: Plan Development (3).
URP 5272.	Urban and Regional Information Systems (3).
URP 5279.	Urban and Regional Information Systems Practicum (3).
URP 6202.	Design of Policy-Oriented Research (3).

Urban Growth Process

URP 5847.	Growth and Development of Cities (3).
URP 6846.	Seminar in Urban Theory (3).
URP 6847.	Seminar in Regional Theory (3).

Planning for Developing Regions

URP 5610.	Introduction to Planning for Developing Regions (3).
URP 5611.	Strategies for Urban and Regional Development in Less-Developed Countries (3).
URP 5614.	Population and Development Planning (3).

- URP 5616. Project Planning in Developing Countries (3).
 URP 5619r. Special Topics in Development Planning (3).

Environmental Planning and Natural Resource Management

- URP 5421. Introduction to Environmental Planning and Natural Resource Management (3).
 URP 5422. Coastal Planning (3).
 URP 5424. Sustainable Development Planning in the Americas (3).
 URP 5425. Methods of Environmental Analysis (3).
 URP 5427. Environmental Legislation and Policy (3).
 URP 5428. Pollution Control (3).
 URP 5429r. Special Topics in Environmental Planning and Resource Management (3).

Growth Management and Comprehensive Planning

- URP 5231. Site Design and Land-Use Analysis (3).
 URP 5312. Perspective and Issues of Comprehensive Planning and Growth Management (3).
 URP 5313. Growth Management Implementation (3).
 URP 5316. Land-Use Planning (3).

- URP 5350. Pedestrian-oriented Communities (3).
 URP 5389r. Special Topics in Comprehensive Planning and Growth Management (3).
 URP 5731. The Planning of Community Infrastructure (3).

Transportation Planning

- URP 5711. The Transportation Planning Process (3).
 URP 5716. Transportation and Land Use (3).
 URP 5717. Methods of Transportation Planning (3).
 URP 5719. Special Topics in Transportation Planning (3).

Housing and Community Development

- URP 5540. State and Local Economic Development Planning (3).
 URP 5615. Infrastructure and Housing in Less-Developed Countries (3).
 URP 5742. Problems and Issues in Housing and Community Development (3).
 URP 5745. Housing and Community Development Methods (3).
 URP 5749r. Special Topics in Housing and Community Development (3).
 URP 5885. Neighborhood Planning (3).

Health Planning

- URP 5520. The U.S. Health Care System (3).
 URP 5521. Epidemiological Bases of Health Planning (3).
 URP 5522. Regulatory Aspects of Health Care (3).
 URP 5524. Resource Allocation in Health Policy and Programs (3).
 URP 5530. Policy and Planning for the Aging (3).

Other Courses for Graduate Students

- URP 5905r. Directed Individual Study (1–3). (S/U grade only.)

Program in WOMEN'S STUDIES

COLLEGE OF ARTS AND SCIENCES

Director: Joyce Carbonell (Psychology/Women's Studies); *Participating Faculty:* Hartwell (Art); Finnegan (Art Education); Bearor (Art History); N. DeGrummond, Fulkerson, Sickinger, Tatum (Classical Languages, Literature, and Civilization); Jordan, Nudd (Communication); Bush-Baskette (Criminology and Criminal Justice); Young (Dance); MacDonald, Monkman (Educational Foundations); Schwartz (Educational Leadership); Cooper, Gardner, Laughlin, McGregory, Montgomery, Ortiz-Taylor, Picart, Rosenthal, Rowe, Saladin (English); Green, Hadden (History); Boutin, Cappuccio, Cloonan, Graham-Jones, Poey, Stanley, Walters (Modern Languages and Linguistics); Davis (Nursing); Marcus (Oceanography); Morales (Philosophy); Lynn, Pitts (Physical Education); Kemp (Political Science); Carbonell (Psychology); Erndl, Kalbian (Religion); Maxwell, Mathiesen (Social Work); Brewster, Martin, Padavic, Reid (Sociology); Davis (Textiles and Consumer Sciences); Gonzalez, Sandahl (Theatre); Miles (Urban and Regional Planning)

Women's studies courses are taught by faculty in more than 20 departments throughout the University.

Women's studies is an interdisciplinary and interdepartmental program that examines the status, accomplishments, and perspectives of women in history, culture, and contemporary society. Women's studies further seeks to delineate the richness and diversity of women's experiences and viewpoints by exploring the dynamics of gender, race, culture, and class.

By placing women at the center of inquiry, women's studies courses offer new perspectives on human history and the human condition. Using gender as a category of analysis, these classes examine the systematic arrangements in society that have shaped the lives of women and men and reevaluate traditional gender-based stereotypes. The courses foster critical analysis of assumed truths about society by examining paradigms based upon the feminist scholarship of the last three decades. By encouraging inquiry into the full range of the human experience, women's studies enriches the University curriculum and prepares students for life in a rapidly changing, complex world.

Students pursuing research in women's studies at The Florida State University will find a rich array of materials on women and gen-

der in the government document holdings, special collections, and numerous microform manuscript collections of the Strozier Library and in the extensive collections of the College of Law Library, Mildred and Claude Pepper Library and the Jean Gould Bryant Library of Women's Studies. The nearby State Archives is an additional source of research material.

Women's studies graduates have described women's studies as a versatile major that prepared them for life, not just a career. In particular, graduates have cited its interdisciplinary focus, its attention to developing critical thinking skills, and its ability to empower students with a new sense of their potential and the courage to design their own careers and life plan. Women's Studies graduates can be found in nearly all occupations.

The Women's Studies Program offers an undergraduate major within the interdisciplinary bachelor's degree Program in Humanities and an interdisciplinary minor at the undergraduate, MA, and PhD levels.

For more information and updates see the Women's Studies Program website at <http://www.fsu.edu/~womenst>.

Admission Requirements

Please review all college-wide degree requirements in the "College of Arts and Sciences" section of this *General Bulletin*.

Any student with a 2.0 grade average who meets the admission requirements of the College of Arts and Sciences is eligible to declare a major in women's studies. Students who wish to declare a major in women's studies must apply for admission with the women's studies office and complete an advising form.

Requirements for a Major in Women's Studies

Students are required to take thirty-three (33) semester hours of women's studies courses and approved cross-listed courses distributed as described below. Only one of these courses that is used to satisfy the requirement for liberal studies may also be counted toward the fulfillment of the major. Honors thesis hours may be applied toward the bachelor of arts (BA) degree, but only three (3) semester hours will be accepted for major credit. All courses counted toward the major must carry the grade of "C–" or better. Majors must maintain a 2.0 grade point average for graduation. Women's studies majors are required to complete a minor, and are strongly encouraged to complete a minor in a single discipline. No course used to satisfy requirements for a minor may be counted for the major.

Double Majors

Students pursuing a double major must meet the program requirements of both majors, with the following exceptions: 1) No more than six (6) semester hours may be counted toward both majors; and 2) No minors are required for the double major.

Distribution

WST Requirement

Nine (9) semester hours in WST interdisciplinary courses: a) WST 3251 Women in Western Culture: Images and Realities (3); b) WST 4931 Seminar in Women's Studies; c) either WST 4930r Topics in Women's Studies (3), or WST 4940r Women's Studies Internship (3–6) as approved by the program director. Check with the women's studies office each term for a list of possible courses that can be used to fulfill these credits.

Cross-listed Core Courses

At least twelve (12) semester hours of cross-listed courses listed below. Specifically required are three (3) semester hours from each of the four groups below:

Group A

AMH 4561	Women in 19th Century America (3)
AMH 4562	Women in Modern America (3)
AMH 4565	Colonial and Revolutionary Era American Women's History (3)
CLA 3501	Gender and Society in Ancient Greece (3)
CLA 3502	The Roman Family (3)
REL 3145	Gender and Religion (3)
REL 3146	Gender and the Bible (3)
REL 3337	Goddesses, Women and Power in Hinduism (3)
REL 4671	Gender and Judaism (3)

Group B

ANT 4302	Sex Roles in Cross-Cultural Perspective (3)
PHM 3123	Philosophy of Feminism (3)
PUP 3323	Women and Politics (3)
SOP 3742	Psychology of Women (3)
SPC 4630	Rhetoric of Women's Issues (3)
SYD 3800	Sociology of Sex and Gender (3)
SYO 4374	Gender and Work (3)

Group C

ARH 4870	20th Century U.S. Women's Art (3)
FOW 3240	Literature and Sexuality (3)
FRT 3561	French Women Writers (3)
LIT 3383	Women in Literature (3)
LIT 4385	Major Women Writers (3)
SPW 4481	Contemporary Spanish Women Writers (3) (In Spanish)
SPW 4491	Spanish American Women Writers (3) (In Spanish)
THE 4433	Gender, Race and Performance (3)

Group D

CCJ 4663	Female Crime and Delinquency (3)
HOE 3330	Human Sciences and Human Development: Global Perspectives (3)
NUR 3495	Women's Health Issues: Concerns Through the Life Cycle (3)
PET 4253	Lesbian and Gay Sport Studies (3)
PET 4254	Gender Issues in Sport and Physical Activity (3).
SOW 4108	Women's Issues and Social Work (3)
SOW 4627	Mental Health of Minorities and Women (3)

Electives

Twelve (12) semester hours may be selected from among the following options: a) WST 4904r Directed Individual Study in Women's Studies, WST 4930r Topics in Women's Studies, WST 4940r Women's Studies Internship; b) the cross-listed courses in Groups A-D; c) approved related courses, special topics courses, seminars and workshops. Majors should consult the women's studies offerings in The Florida State University Course Lookup System, at <http://apps.oti.fsu.edu/servlet/RegistrarCourseLookupSearchForm>, and check with the women's studies office each term for a list of approved courses that can be used to fulfill elective credits.

Exit Surveys/Interviews

To be eligible for graduation, students majoring and minoring in women's studies must complete an exit interview or survey.

Honors in the Major

The Women's Studies Program offers a program in honors in the major to encourage talented students to undertake independent and original research. Students admitted to honors in the major may apply up to six (6) semester hours of honors thesis hours (WST 4970r Honors Thesis—Women's Studies) toward the bachelor of arts degree, but only three (3) semester hours of WST 4970r will be accepted for major credit. For requirements and other information, see the "University Honors Program and Honor Societies" chapter of this *General Bulletin*.

Requirements for a Minor in Women's Studies

At least fifteen (15) semester hours of approved courses, distributed as follows:

- At least three (3) semester hours of interdisciplinary women's studies courses selected from WST 3251 Women in Western Culture: Images and Realities, WST 4930r Topics in Women's Studies, WST 4931 Seminar in Women's Studies;
- At least nine (9) semester hours of cross-listed core courses;
- The remaining three (3) semester hours may be selected from approved WST courses, cross-listed core courses, approved special topics courses or related courses.

Minors should consult the women's studies offerings in The Florida State University Course Lookup System, at <http://apps.oti.fsu.edu/servlet/RegistrarCourseLookupSearchForm>, and check with the women's studies staff each term for a list of approved courses that can be used to fulfill these three credits.

Only one approved course from the student's major may count toward the women's studies minor, and only if the course has not been used for credit toward the major. Courses counted for the minor may not be used to fulfill requirements for liberal studies or the major. Students who intend to minor in women's studies should declare their intent with the Program Director at least two semesters before graduation. Students must have at least a "C-" average in the minor.

Note: see the appropriate individual departments for full course descriptions.

Definition of Prefix

WST — Women's Studies

Undergraduate Courses

WST 3251. Women in Western Culture: Images and Realities (3). An interdisciplinary examination of women's roles in the development of Western culture, focusing on women's contributions to music, literature, theatre, art, religion, political thought, and science. Concurrently, this course examines what it meant to be female in each era of Western civilization.

WST 4904r. Directed Individual Study (1-3). Prerequisite: Approval of women's studies director. For advanced undergraduates who desire to supplement the regular course offerings by independent reading or research under guidance. May be repeated to a maximum of three (3) semester hours.

WST 4930r. Topics in Women's Studies (3). This course explores specific topics or themes in gender/women's studies based on a feminist approach. A variety of topics from different fields of study will be offered from an interdisciplinary perspective. Topics of material not covered in the regular curriculum will be offered. May be repeated to a maximum of six (6) semester hours.

WST 4931. Seminar in Women's Studies (3). Prerequisite: At least two women's studies core courses; Corequisite: Approval of program director. This senior seminar examines how cultures structure and represent gender in a variety of arenas. Through critical reading of key contemporary works of feminist theory and intensive investigation of multidisciplinary case studies students study the variety of representations of woman's experience.

WST 4940r. Women's Studies Internship (3-6). (S/U grade only.) Prerequisite: Two core courses in women's studies; Corequisite: Approval of program director. The internship offers practical experience working on women's issues or with women as a focus group in governmental and private agencies, women's organizations, or business. Internships may be arranged for junior and senior minors and majors in women's studies with the women's studies office. May be repeated to a maximum of six (6) semester hours.

WST 4970r. Honors Thesis-Women's Studies (3-6). Prerequisite: WST 3251. The honors thesis in Women's Studies is a research document of an interdisciplinary nature, drawing on the various categories in humanities and the social sciences represented in the Women's Studies Program. Permission of WST director required. May be repeated to a maximum of six (6) semester hours.

Graduate Courses

WST 5905r.	Directed Independent Study (1-3). (S/U grade only.)
WST 5934r.	Topics in Women's Studies (3).
WST 5936r.	Interdisciplinary Topics in Feminist Theory (3).

UNIVERSITY FACULTY, PROFESSIONAL AND ADMINISTRATIVE PERSONNEL

Those whose names are preceded by a dot or a plus are members of the graduate faculty. Membership on the graduate faculty falls into one of three categories on the basis of functional responsibility:

- May teach graduate-level courses and may serve as major professor for master's degree students;
- + May serve as major professor for doctoral students as well;
- * Hold doctoral directive status awarded by the University of Florida for cooperative program.

Changes in faculty, professional, and administrative staff made after September 30, 2001, may not be reflected in the following list.

- Abbot, Fredrick M.**, L.L.M., California at Berkley; Professor of Law and Edward Ball Eminent Scholar in International Law
- Abdel Razig, Yassir**, Ph.D., Purdue; Assistant Professor of Civil and Environmental Engineering
- Abdullah, Nakola**, Ph.D., Northwestern; Assistant Professor of Civil and Environmental Engineering
- Abel, Carol L.**, M.A., Visiting Associate in Research, Academic Affairs
- + **Abele, Lawrence G.**, Ph.D., Miami; University Provost, and Professor of Biological Science
- + **Abell, Joseph N.**, Ph.D., Florida State; Associate Professor of Social Work
- Abell, Terry S.**, M.S., Coordinator, Clinical Programs, Social Work
- **Abichou, Tarek**, Ph.D., Wisconsin; Assistant Professor, Civil Engineering
- + **Abood, Doris A.**, Ph.D., Tennessee; Associate Professor of Nutrition, Food, and Exercise Sciences
- Adamick, Steven H.**, M.A., Coordinator, Facilities Planning, Facilities Planning and Construction
- **Adamovich, Ljubisa S.**, Ph.D., Belgrade; Scholar/Scientist/Engineer, Dean's Office, College of Social Sciences
- Adams, Jonathan L.**, Ed.D., Boston University; Associate Professor of Communication
- Adams, Mailea D.**, B.S., Coordinator, Accounting, Center for Health Equity
- Adams, Raishell M.**, M.S., Coordinator, Academic Support Services, Computer Science
- Adams, Rebecca J.**, M.L.S., Associate Librarian, University Libraries
- Adams, Sandra**, Ph.D., Florida; Visiting Assistant in Research, Institute for Science and Public Affairs
- **Adams, Todd**, Ph.D., Notre Dame; Assistant Professor of Physics
- **Adolph, Winnifred R.**, Ph.D., North Carolina; Associate Chair and Associate Professor of Modern Languages and Linguistics
- Adolph, Wolfgang E.**, M.A., Associate in Modern Languages and Linguistics
- + **Affleck-Graves, John**, Ph.D., Cape Town; Professor and Patty Hill Smith Eminent Scholar of Finance
- Agner, William S., Jr.**, B.S., Assistant Controller, Controller
- Agüero, Dawn B.**, M.L.S., Instructor Librarian, Institute for Science and Public Affairs
- Agwonobi, Jennifer B.**, B.S., Coordinator, University Relations/Publications Affairs, Office of the Vice President
- + **Ahlquist, Jon E.**, Ph.D., Wisconsin; Associate Professor of Meteorology

- Ainsworth, James E.**, M.S., University School Instructor, Developmental Research School
- **Akbar, Na'im**, Ph.D., Michigan; Associate in Clinical Psychology, Psychology
- + **Alamo, Rufina G.**, Ph.D., Madrid; Associate Professor of Chemical Engineering and Associate Scholar/Scientist, Institute of Molecular Biophysics
- + **Alabugin, Igor V.**, Ph.D., Moscow State; Assistant Professor of Chemistry
- Albee, Amy M.**, M.S., Coordinator, Student Affairs, Dean of Students
- Aldridge, Amy S.**, A.S., Coordinator, Business and Financial/Auxiliary Services, ABA
- Aldrovandi, Ettore**, Ph.D., International School for Advanced Studies; Assistant Professor of Mathematics
- Alexander, Cassandra V.**, B.S., Coordinator, Academic Support Systems, Undergraduate Studies
- Alexander, Dianne G.**, Ph.D., Florida State, Director, Medical/Health Administration, Communication Disorders
- Alexander, Karen E.**, M.S. Coordinator, Research Programs/Services, Program in Medical Science
- Alexander, Mary M.**, Ph.D., Florida State; Assistant in Student Teaching, College of Education
- Alexander, Mildred G.**, M.S., University School Assistant Professor, Developmental Research School
- Alexander, Roosevelt B.**, B.S., Assistant Director, Business and Financial/Auxiliary Services, Controller
- Alfano, Cathleen S.**, M.S., Research Associate, Learning Systems Institute
- Alford, Deborah M.**, M.M.Ed., University School Instructor, Developmental Research School
- **Allaire, Joseph L.**, Ph.D., Wayne State; Associate Professor of Modern Languages and Linguistics
- Allen, Barbara L.**, B.S., Executive Assistant, Vice President for Academic Affairs
- Allen, Charles M., Jr.**, M.S., Coordinator, Advance/Alumni Affairs, WFSU-TV
- Allen, Charles W.**, Assistant in Film, School of Motion Picture, Television and Recording Arts
- Allen, Leslie H.**, M.S., Assistant in Field Instruction, School of Social Work and Center for Professional Development
- Allen, Margaret R.**, M.S., Coordinator, Academic Support Systems, Undergraduate Studies
- + **Allen, Michael L.**, Ph.D., North Texas; Associate Professor of Music
- + **Allen, Susan D.**, Ph.D., Southern California; Professor of Chemistry and Electrical and Computer Engineering
- Allen, Terice D.**, B.S., Visiting University School Instructor, Developmental Research School
- Allen, Willie C.**, Ph.D., Florida State; Visiting Instructor, College of Education
- + **Allison, Barbara N.**, M.Ed., Assistant Professor of Family and Child Sciences
- Allher, Irmin B.**, Ph.D., Syracuse; Associate Librarian and Department Head, University Libraries
- **Almarza, Dario J.**, Ph.D., Iowa; Visiting Assistant Professor of Educational Theory and Practice, Education
- **Altholz, Judith A.**, Ph.D., Florida State; Assistant Professor of Social Work
- Altman, Burton H.**, M.L.S., Librarian, Strozier Library, Pepper Collection
- Altun, Julie E.**, B.S., Coordinator, Academic Support Systems, Undergraduate Studies
- + **Aluffi, Paolo**, Ph.D., Brown; Professor of Mathematics

- Alvarado, Angela L.**, M.A., Coordinator, Academic Support Services, Center for Academic Retention and Enhancement
- Alvarez, Rafael G.**, M.P.A., Director University Planning and Analysis, Budget and Analysis
- + **Alvi, Farrukh S.**, Ph.D., Pennsylvania State; Associate Professor of Mechanical Engineering
- Ambrose, Darren U.**, B.S., Assistant Athletic Coach, Women's Soccer
- Amos, Kimberly L.**, M.S., Coordinator, Continuing Education, Center for Professional Development
- Amsler, Eva**, B.M., Visiting Assistant Professor of Music
- Andersch, Samantha L.**, M.A., Assistant Athletic Coach, Athletics
- Andersen, Kim M.**, B.S., Specialist, Computer Systems Control, Northwest Regional Data Center
- Anderson, James R.**, M.S., Faculty Administrator and Director, Florida Resources and Environmental Analysis Center
- Anderson, Julie D.**, B.A., Coordinator, Continuing Education, Center for Professional Development
- **Anderson, Leon, Jr.**, M.M., Assistant Professor of Music.
- + **Anderson, Loran C.**, Ph.D., Claremont Graduate School; Professor of Biological Science and Curator, Herbarium
- Anderson, Paula J.**, B.S., Coordinator, Information/Publication Services, Admissions
- + **Anderson, Rodney D.**, Ph.D., American; Professor of History
- + **Anderson, Thomas L.**, Ph.D., Georgia; Professor of Art Education
- **Anderson-Lazier, Kathryn M.**, Ph.D., Nebraska; Associate Professor of Nutrition, Food, and Exercise Sciences
- Andrews, Michael D.**, M.A., Assistant Athletic Coach, Football
- **Andrews, Pamela L.**, M.M., Associate Professor of Music
- + **Ang, James S.**, Ph.D., Purdue; Professor of Finance and Bank of America Eminent Scholar in Banking
- Annino, Paolo G.**, J.D., Florida State; Associate in Law
- + **Anthony, William P.**, Ph.D., Ohio State; Professor of Management
- Antista, Marsha S.**, M.S.T., Coordinator, Continuing Education, Center for Professional Development
- Antoine, Catherine A.**, B.S., Coordinator, Information/Publications Services, Strozier Library
- Apthorp, James W.**, B.S., Faculty Administrator, Collins Center for Public Policy, Social Sciences
- Arakeri, Vijay H.**, Ph.D., California Institute of Technology, Pasadena; Visiting Associate Scholar/Scientist, Mechanical Engineering
- Arbogast De, Brian K.**, B.S., Coordinator, Computer Applications, School of Information Studies
- + **Arce, Pedro E.**, Ph.D., Purdue; Associate Professor of Chemical Engineering
- Archbold, Ann M.**, M.F.A., Assistant Professor of Theatre
- + **Arias, Santa**, Ph.D., Wisconsin at Madison; Assistant Professor of Modern Languages and Linguistics
- Arline, Terrell K.**, M.U.R.P., J.D., Florida; Visiting Instructor of Urban and Regional Planning
- Armbrecht, William K., Sr.**, M.A., Coordinator Student Affairs, University Union
- + **Armer, J. Michael**, Ph.D., Wisconsin; Professor of Sociology
- Armstrong, Bonnie H.**, Ph.D., Syracuse, Assistant in Distance Learning
- Armstrong, Gordon M.**, B.S., Coordinator, Research Programs/Services, Graduate Research

- Armstrong, J. Bruce**, B.A., Visiting University School Instructor, Developmental Research School
Armstrong, Margaret, M.A., Assistant in Research, Educational Services Program
Armstrong, Patricia L., M.S.W., Coordinator, Human Services, Center for Prevention
Arnegger, Joseph, B.F.A., Coordinator, Museum Operations, Ringling Museum
+ **Arnold, Anthony J.**, Ph.D., Harvard; Associate Professor and Associate Chair of Geological Sciences
Arnold, Linda L., B.M., Coordinator, Computer Applications, Florida Information Research Network
Aron, Anthony E., Physician, Thagard Health Center
+ **Arora, Krishna**, Ph.D., Indian Institute of Technology; Associate Professor of Electrical and Computer Engineering
+ **Arora, Rajendra K.**, Ph.D., St. Andrews; Professor of Electrical and Computer Engineering
Arosemena, Brenda L., B.S., Coordinator, Academic Support Services, School of Nursing
Arsenault, Brian A., M.S., Visiting Assistant in Research, Florida Resources and Environmental Analysis Center
Ash, Barbara C., B.S., Coordinator, Research Information, Graduate Studies and Research
Ash, Steven M., B.A., University School Associate Professor, Developmental Research School
Asher, Eva G., M.S., Coordinator, Student Affairs, Vice President for Student Affairs
Ashmore, Margaret G., M.S.W., Specialist, Student Counseling, Student Counseling Center
Askew, Reubin O'D., J.D., Florida; Reubin O'D. Askew Eminent Scholar in Florida Government and Politics, Distinguished Professor of Public Administration and Policy, Senior Fellow, Florida Institute of Government, Reubin O'D. Askew School of Public Administration and Policy
+ **Aspinwall, Leslie N.**, Ph.D., Florida State; Associate Professor of Curriculum and Instruction
• **Atkeson, Beverly M.**, Ph.D., Georgia; Director, Research Programs/Services, Multi-Disciplinary
+ **Atkins, Burton M.**, Ph.D., Kentucky; Professor of Political Science
Atkinson, Deborah S., M.S., Coordinator Computer Applications, Office of Technology Integration
Atkinson, Robert E., Jr., J.D., Yale; Professor of Law
Atwell, Scott F., B.A., Assistant Director Information and Publications Service, Media Relations
+ **Audirac-Zazueta, Ivonne**, Ph.D., Florida; Assistant Professor of Urban and Regional Planning
Augustyniak, Rebecca H., M.L.S., Librarian, Educational Services Program
• **Austin, Anjali**, Certificate in Classical Ballet; Associate Professor of Dance
Austin, Caroline D., B.A., Director Radio/TV Station, WFSU-FM
Austin, Oliver L., B.S., Coordinator, Computer Applications, Office of Technology Integration
Avery, Lyn M., B.S., Coordinator, Human Resources/Personnel Relations, Human Resources
+ **Awoniyi, Samuel A.**, Ph.D., Cornell; Professor and Associate Dean of Industrial Engineering, FAMU/FSU College of Engineering
Aycock, Mary E., B.S., Coordinator, Accounting, Controller's Office
+ **Baer, Howard A.**, Ph.D., Wisconsin; Professor of Physics
Bagshaw, Roderick, B.C.L., Visiting Professor of Law
Bailey, James G., M.S., Assistant Professor of Aerospace Studies
+ **Bailey, Jon Scott**, Ph.D., Kansas; Professor of Psychology
Bailey, Mark W., Ph.D., University of Virginia; Visiting Assistant Professor of Computer Science
Bailey, Marie A., M.S.W., Coordinator, Research Programs/Services, Pepper Institute on Aging
Bailey, William D., B.S., University School Instructor, Developmental Research School
Bailey-Brown, Priscilla, B.S., Coordinator, Accounting, Controller - FSU Foundation
+ **Bakan, Michael B.**, Ph.D., California at Los Angeles; Associate Professor of Music
Baker, Charles E., B.S., Assistant Athletic Coach, Intercollegiate Athletics, Baseball
Baker, Charles F., Ph.D., Coordinator, Computer Applications, Office of Technology Integration
Baker, Doris C., M.S.L.S., Librarian, University Libraries
+ **Baker, Earl J.**, Ph.D., Colorado; Associate Professor of Geography
Baker, H. Carlyle, B.S., Director, University Computer Systems, Office of Technology Integration
Baker, John L., Ph.D., Florida State University; Visiting Assistant Professor and Program Director, Music
Baker, Patrick D., B.S., Head Athletic Coach, Women's Soccer
+ **Baker, Stuart E.**, Ph.D., City University of New York; Service Professor of Theatre
+ **Baker, Theodore P.**, Ph.D., Cornell; Chair and Professor of Computer Science
Baldauf, Kenneth J., M.S., Associate in Computer Science
Baldino, Susan D., B.S., Coordinator, Academic Programs, School of Visual Arts and Dance
Baldwin, Margaret A., J.D., Minnesota; Associate Professor of Law
Baldwin, Shawn N., Bch., Coordinator, Human Services, Center for Prevention
• **Baldwin, Thomas L.**, Ph.D., Virginia Polytechnic Institute; Assistant Professor of Electrical and Computer Engineering
Balicas, Luis, Ph.D., Paris XI-Orsay; Visiting Assistant Scholar/Scientist, National High Magnetic Field Laboratory
+ **Balkwill, David L.**, Ph.D., Pennsylvania State; Professor and Co-chair of Basic Medical Sciences, Distinguished Research Professor, 1998-1999
Ballow, Michael R., B.S., Assistant Controller, Controller
Balser, Benedict S., Ed.S., Coordinator, Academic Services, College of Education
Balthrop, Mary A., B.S., Coordinator Academic Support Services, International Programs
Bank, Steven A., J.D., Chicago Law; Assistant Professor of Law
+ **Banks, David C.**, Ph.D., North Carolina at Chapel Hill; Associate Professor of Computational Science
Banner, Shawn W., B.S., Assistant in Research, Center for Study of Teaching and Learning
Banoff, Barbara A., J.D., Santa Clara; Professor of Law
Barber, Donna M., M.S., Associate in Research, Institute for Science and Public Affairs
Barber, Kathleen S., B.S., Coordinator, Academic Support Services, Motion Pictures, TV, Recording Arts
Barber, Kimberly A., M.S., Associate University Registrar, Registrar
• **Barbour-Brennan, Paula**, Ph.D., Yale; Assistant in English
+ **Barcilon, Albert I.**, Ph.D., Harvard; Professor of Meteorology
Bardill, Donald R., Ph.D., Smith; Professor of Social Work
Bardin, Rebecca L., M.S., Coordinator, Budgeting, Ringling Museum
Bardolph, Anne D., M.S., Librarian, Law Library
Bargeron, Dawn L., M.S., Coordinator, Student Affairs, Campus Recreation
Barker, James M., Ph.D., Florida State; Assistant in Distance Learning
Barnard, Tracie A., B.S., Coordinator, Career Development Services, Career Development
Barnes, Antonius G., M.A., Associate Director, Student Affairs, Panama City Campus
Barnes, Carley R., M.S., Coordinator, Student Affairs, Dean of Students
Barnes, David A., M.A., Visiting University School Instructor, Developmental Research School
Barnes, Steven B., B.S., Coordinator, Computer Applications, Communication Disorders
Barnette, Bobby L., A.A., Coordinator, Academic Support Services, Chemistry
Barnhill, John C., Jr., M.S., Director of Admissions, Office of Admissions
Barrett, Anne E., Ph.D., Duke; Assistant Professor of Sociology
Barrett, Debra P., M.S., University School Professor, Developmental Research School
+ **Barrilleaux, Charles J.**, Ph.D., State University of New York at Binghamton; Professor of Political Science
Barron, Delores, M.S., Assistant in Beacon Learning Center Evaluation, Education
Barrow, Stephen P., Ph.D., Pennsylvania; Assistant in Research, School of Computational Science and Information Technology
Barwick, Suzanne L., B.S., Visiting Associate in Public Relations/Marketing, College of Human Sciences
Bass, Ann, Assistant Director, Business and Financial Auxiliary Services, Postal Services
• **Bass, Edwin J.**, Ed.D., Southern Mississippi; Service Associate Professor of Physical Education
+ **Bass, Henry W.**, Ph.D., North Carolina State; Assistant Professor of Biological Science
Basso, Emma M., M.S.W., Visiting Assistant Professor of Social Work
+ **Bates, George W.**, Ph.D., Washington; Associate Chair and Professor of Biological Science
+ **Bathke, Allen W., Jr.**, D.B.A., Florida State; Associate Professor of Accounting
• **Batker, Carol**, Ph.D., Massachusetts; Associate Professor of English
Battle, Brian J., M.S., Coordinator, Intercollegiate Athletics, Athletics
Bauer, Charles M., M.S., Coordinator, Computer Applications, Academic Computer and Network Services
Bauer, Jeffrey T., M.S., Director, University Computer Systems, Office of Technology Integration
Bax, James Anthony, Ph.D., Miami; Associate in Research, Social Work
+ **Baylor, Amy**, Ph.D., South Carolina; Assistant Professor of Educational Research
Beals, Lillie W., B.S., Coordinator, Computer Applications, Office of Technology Integration
Beard, Charles F., B.S., Coordinator, Computer Applications, Center for Professional Development
+ **Beaor, Karen A.**, Ph.D., Texas at Austin; Associate Professor of Art History
Beasley, Sherry C., B.S., Coordinator Research Programs/Services, Physics
Beattie, Noreen C., M.A., M.S., Visiting Instructional Specialist, Psychology
Beaumont, Gregory J., Ph.D., Florida State; Instructor of English and Director, Academic Programs, Office of Undergraduate Studies
+ **Beaumont, Paul M.**, Ph.D., Pennsylvania; Associate Professor of Economics
Becker, Joy E., B.S., University School Instructor, Development Research School
Becker-Powell, Jean M., M.S.W., Visiting Associate Professor of Social Work
+ **Beckham, Joseph C.**, J.D., Ph.D., Florida; Allan Tucker Professor of Educational Policy Studies and Leadership, 2000
Beckles, Jeffrey A., B.A., Visiting University School Instructor, Developmental Research School
Bedard, Laura E., Ph.D., Faculty Administrator and Director of Internship, Criminology and Criminal Justice
Bedell, George S., M.F.A., Assistant in Art Development, Visual Arts and Dance
Beech, Martha C., Ph.D., Kent State; Research Associate, Learning Systems Institute
• **Beeler, Cheryl S.**, R.Ed., Indiana; Associate Professor of Human Services and Studies
Beeman, Daniel E., Ph.D., Florida State; Associate in Research, Institute for Science and Public Affairs

- Behnke, Dana M.**, B.S., Coordinator, Admissions/Registrar, Admissions
- Behnke, Jennifer I.**, B.S., Coordinator, Student Affairs, University Union
- Beidler, John L.**, M.S.T., Coordinator, Research Programs/Services, College of Medicine
- Belans, Joseph P.**, B.S., Specialist, Computer Applications, Florida Information Resource Network
- Belk, Adria L.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- + **Bell, Cecelia L.**, B.A., Coordinator, Information/Publications Services, Graduate Research
- Bell, Janice L.**, Ph.D., Ohio State University; Visiting Associate in Human Sciences, College of Human Sciences Dean's Office
- Bell, Kathleen B.**, B.A., Coordinator, Broadcasting, Media Relations
- + **Bellenot, Steven F.**, Ph.D., Claremont Graduate School; Professor of Mathematics
- **Belton, Benjamin K.**, Ph.D., Emory; Assistant Professor of Information Studies
- Bembry, John F.**, M.S., Coordinator, Accounting, Contoller
- Benavides, Nancy L.**, J.D., Maryland; Director and Faculty Administrator, College of Law
- + **Benesh, Gary A.**, Ph.D., Virginia Polytechnic Institute; Associate Professor of Finance
- Bennett, Beverly H.**, M.S., Coordinator, Administrative Services, College of Arts and Sciences
- Benson, Alan B.**, A.A., Coordinator, Computer Applications, Office of Technology Integration
- + **Benson, Bruce L.**, Ph.D., Texas A&M; Professor of Economics, Distinguished Research Professor, 1991-1992
- Bentz, Steven J.**, M.B.A., Coordinator, Accounting, Contoller
- + **Berg, Bernd**, Ph.D., Freie Universität Berlin; Professor of Physics
- Berger, Donnie S.**, B.S., Coordinator, Student Affairs, Campus Recreation
- Bergquist, Gilbert T., Jr.**, Ph.D., Florida State; Assistant in Research, Florida Center for Public Management
- Bergstrom, Richard N.**, B.S., Coordinator, Accounting, Contoller
- + **Berkley, Karen J.**, Ph.D., Washington; Professor of Psychology, McKenzie Professor
- Berler, Ellen S.**, Ph.D., State University of New York; Research Associate Clinical Psychology, Psychology
- Bernal, Alvaro G.**, M.Acc., Assistant Contoller, Contoller
- Berndt, Linda L.**, B.S., Assistant Athletic Coach, Softball
- Berne-Anderson, Thesla A.**, B.S., Assistant in Medicine, College of Medicine
- Bernstein, Keith**, Coordinator, Statistical Research, Budget and Analysis
- + **Berry, Frances S.**, Ph.D., Minnesota; Professor of Public Administration and Policy
- Berry, Janet K.**, M.S.W., Faculty Administrator and Director of Part-time Programs, School of Social Work
- + **Berry, Ralph M.**, Ph.D., Iowa; Professor of English
- + **Berry, William D.**, Ph.D., Minnesota; Marian D. Irish Professor of Political Science, 1999
- Bertolami, Mark C.**, M.S.P., Associate Director, Facilities Planning, Facilities Planning and Construction
- + **Bertot, John C.**, Ph.D., Syracuse; Associate Professor of Information Studies
- + **Bertram, John E.**, Ph.D., Chicago; Associate Professor, Nutrition, Food and Exercise Sciences
- Bertram, Richard**, Ph.D., Florida State; Assistant Professor of Mathematics
- **Besant, Michele**, Ph.D., Wisconsin; Assistant Professor of Information Studies
- Best, David**, B.A., Associate Director, Purchasing, Purchasing
- Bestor, Tracy**, B.A., Coordinator, Continuing Education, Center for Professional Development
- Betta, Pamela A.**, Ph.D., Adelphi University; Visiting Assistant Professor of Nursing
- + **Betten, Neil B.**, Ph.D., Minnesota; Professor of History and Director of Contract Administration, Office of the President
- Beula, Brian J.**, B.S., Assistant Director, Physical Plant, Facilities Operations and Maintenance
- Beyer, Walter, III**, M.S., Assistant Contoller, Contoller
- **Biance, Michael C.**, Ed.D., Florida Atlantic, Associate in Educational Administration
- Bickley, Karen L.**, M.A., Faculty Administrator, Director of Credit Programs, Center for Professional Development
- + **Bickley, R. Bruce, Jr.**, Ph.D., Duke; Professor of English and Director, University Honors Program
- Bienkiewicz, Ewa A.**, Ph.D., Coordinator, Research Programs/Services, Institute of Molecular Biophysics
- Bigbie, Michael B.**, B.S., Specialist, Computer Research, Psychology
- **Billings, Bruce**, Ph.D., Pennsylvania State; Assistant Professor of Accounting
- Bird, Mark D.**, Ph.D., Stanford; Scholar/Scientist/Engineer, National High Magnetic Field Laboratory
- Birken, Brittany O.**, M.S., Visiting Research Associate, Human Sciences
- Birken, Robert P.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- Bischoff, Robert K.**, B.F.A., Executive Assistant, University Relations
- **Bish, Deborah F.**, Ph.D., Arizona State; Assistant Professor of Music
- + **Bishop, Wendy**, Ph.D., Indiana of Pennsylvania; Kellog W. Hunt Professor of English, 2000
- + **Blaber, Michael**, Ph.D., California at Irvine; Associate Professor of Chemistry
- Blachford, Anne W.**, B.S., Assistant Athletic Coach, Athletics
- + **Black, Catherine M.**, Ph.D., Minnesota; Assistant Professor of Textiles and Consumer Sciences
- Blackwelder, Martha A.**, M.A., Associate in Mathematics
- Blair, Jeff A.**, B.S., Coordinator, Research Programs/Services, Florida Resources and Environmental Analysis Center
- Blakely, Carolyn R.**, B.A., Assistant Director, Student Financial Aid, Financial Aid
- **Blakely, George C.**, M.F.A., Professor of Studio Art
- Blanchard, Susan H.**, Ph.D., South Florida; Assistant in Student Teaching, Educational Theory and Practice
- Blanton, Brent S.**, B.S., Coordinator, Academic Support Services, Registrar's Office
- Blanton, Robin C.**, M.S., Coordinator, Public Functions, Dance
- Blassick, Kenneth A.**, B.A., Coordinator, Computer Systems Control, College of Medicine
- + **Blazek, Ronald**, Ph.D., Illinois; Professor of Information Studies
- Blenkhorn, Tamara G.**, J.D., Florida; Visiting Assistant in Law, Law
- + **Blessing, Susan K.**, Ph.D., Indiana; Associate Professor of Physics
- Blizzard, Lindsey A.**, B.S., University School Instructor, Developmental Research School
- + **Blomberg, Thomas G.**, D.Crim., Berkeley; Associate Dean and Professor of Criminology and Criminal Justice
- Blomquist, Martha-Elin**, Ph.D., California at Berkeley; Assistant in Criminology, Panama City Branch
- Blumsack, Judith T.**, Ph.D., Florida State; Associate in Communication Disorders, Communication Disorders
- + **Blumsack, Steven L.**, Ph.D., Massachusetts Institute of Technology; Associate Professor of Mathematics
- **Bocz, George R.**, M.Ed., Associate Professor of Studio Art
- Bodiford, Linda C.**, Coordinator, Admissions/Registration, Admissions
- + **Boehrer, Bruce T.**, Ph.D., Pennsylvania; Professor of English
- Bogdan, Ferenc**, M.S., Assistant in Research, National High Magnetic Field Laboratory
- **Boggs, H. Glenn II**, J.D., Florida State; Professor of Risk Management/Insurance, Real Estate and Business Law
- Bole, Scott T.**, B.S., Coordinator Research/Programs Services, National High Magnetic Field Laboratory
- Bolinder, Rose Marie**, B.S., Visiting University School Instructor, Developmental Research School
- Boline, William D.**, A.S., Coordinator, Computer Applications, Office of Technology Integration
- + **Bonesteel, Nicholas E.**, Ph.D., Cornell; Associate Professor of Physics
- **Bonn, Mark A.**, Ph.D., Texas A&M; Professor of Hospitality
- Bonnici, Laurie J.**, Ph.D., Florida State; Visiting Assistant Professor of Information Studies
- Bonninghausen, Russell L.**, Coordinator, Research Programs Services, National High Magnetic Field Laboratory

- Branciforte, Robert N.**, B.S., Coordinator, Accounting, Housing
- Brandt, Bruce L.**, Ph.D., Rochester; Scholar/Scientist/Engineer, National High Magnetic Field Laboratory
- + **Branson, Robert K.**, Ph.D., Ohio State; Professor of Educational Research, and Director, Center for Performance Technology
- Braswell, Carmen E.**, B.S., Coordinator, Public Functions, Office of the Vice-President
- Braswell, David T.**, Assistant Athletic Coach, Athletics
- Braswell, John R.**, M.S., Assistant in Distance Learning
- + **Braswell, Robert N.**, Ph.D., Oklahoma State; Professor of Industrial Engineering
- Braun, Kathy J.**, B.A., Coordinator, Academic Programs, Art History
- Breault, David L.**, M.A., Coordinator, Clinical Programs, Multidisciplinary Center
- Brennan, John B.**, M.A., Director Academic Programs, International Programs
- Brennan, John George**, B.S., Lecturer of Marketing
- Brennan, Michael P.**, B.G.S., Visiting Assistant and Research, Institute for Science and Public Affairs
- Brennan, Susan**, B.S., Coordinator, Computer Applications Florida Information Resource Network
- Brewer, Amy I.**, B.S., Coordinator, Education/Training Programs, Florida Institute of Government
- + **Brewer, Charles E.**, Ph.D., City University of New York; Associate Professor of Music
- + **Brewer, James K.**, Ph.D., Florida State; Professor of Educational Research
- + **Brewster, Karin L.**, Ph.D., Washington; Associate Professor of Sociology
- Brewton, Catherine A.**, B.S., Coordinator, Research Programs/Services, Pepper Institute on Aging
- Brey, James R.**, M.A., Associate in Communication, Communication
- Brey, William W.**, Ph.D., Florida State; Assistant Scholar/Scientist/Engineer, National High Magnetic Field Laboratory
- Breyer, Carol A.**, Ph.D., Maryland, Research Associate, Center for Policy Studies in Education
- + **Bridger, Carolyn A.**, D.M.A., Iowa; Professor of Music
- Bridges, Fran T.**, B.S., Coordinator, Computer Systems Control, Academic Computer and Network Services
- Bridges, Jon B.**, B.A., Coordinator, Academic Support Services, College of Arts and Sciences
- + **Brigham, John Carl**, Ph.D., Colorado; Professor of Psychology
- Brinson, Richard W.**, Director, Student Affairs, Circus Recreation, and Instructor of Physical Education
- Brock, Laura E.**, M.A., M.S., Assistant in Medicine
- Brookens, Kristin V.**, Coordinator, Administrative Services, Athletics
- Brooks, Alison R.**, B.S., Visiting University School Instructor, Developmental Research School
- Brooks, Duane D.**, M.S., Athletic Trainer, Athletics
- Brooks, Erin H.**, M.S., Visiting Assistant in Research, Learning Systems Institute
- + **Brooks, Frank B.**, Ph.D., Ohio State; Associate Professor of Curriculum and Instruction
- Brooks, Geoffrey W.**, Ph.D., Florida State; Assistant in Electrical Engineering, Panama City Branch
- + **Brooks, Jack R.**, Music Specialist, Dance
- + **Brooks, James**, Ph.D., Oregon; Professor of Physics
- Brooks, Maria**, B.S., Coordinator, Student Affairs, International Student Center
- Brooks, Mary A.**, B.A., Visiting University School Instructor, Developmental Research School
- Brooks, Robert F.**, Ph.D., Florida State; Visiting Assistant Professor, Information Studies
- Brooks, Robert G.**, M.D., Wayne State; Faculty and Academic Administrator and Professor of Family Medicine and Associate Dean of Health Affairs
- Brooks, Steven G.**, M.B.A., Research Associate, Center for Policy Studies in Education
- Brosnan-Maddox, Susan**, M.S., Coordinator, Clinical Programs, Communication Disorders
- + **Brower, Ralph S.**, Ph.D., State University of New York at Albany; Associate Professor of Public Administration
- + **Brown, Amy L.**, Ed.D., Columbia; Associate Professor of Music
- Brown, Betty L.**, M.S.T., Specialist Computer Applications, Academic Computing and Network Service
- + **Brown, Carol Lynch**, Ph.D., Ohio State; Professor of Educational Theory and Practice
- Brown, Carolyn V.**, M.S.W., Associate Director of Student Affairs, Multicultural Student Support Center
- Brown, Cassandra D.**, B.A., Business Manager, Controller
- Brown, Cheryl L.**, J.D., Assistant Dean, Student Affairs, Dean of Students
- Brown, Demetrius L.**, M.S., Coordinator, University Housing, Housing
- Brown, James.**, M.S., Assistant Professor of Military Science
- Brown, Jeremy D.**, Birmingham, England; Director and Faculty Administrator of International Programs
- Brown, Patrick A.**, A.A., Instructor of Military Science
- Brown, Sharon N.**, B.S., Assistant Director, Business Auxiliary/Financial Services, Controller
- + **Brown, Stewart L.**, Ph.D., Florida; Service Professor of Finance
- Browning, James C.**, Coordinator, Computer Applications, College of Engineering
- Bruce, Jeanie Z.**, B.S., Coordinator, Accounting, Controller
- Brumage, Kimberly H.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- Brumage, Scott J.**, B.A., Coordinator, Computer Applications, Office of Technology Integration
- Brunel, Louis C.**, Ph.D., Lyon; Scholar/Scientist/Engineer, National High Magnetic Field Laboratory, Institute of Molecular Biophysics, and Department of Physics
- Bruno, John A.**, Ph.D., University of Illinois; Assistant in Learning Communities, Living Learning Center
- **Brusco, Michael J.**, Ph.D., Florida State; Associate Professor, Marketing
- + **Bryant, John L.**, Ph.D., Georgia; Orville G. Harrold Professor of Mathematics, 2000, Distinguished Research Professor, 1994-1995
- Bryer, Erik D.**, B.A., Coordinator, Computer Applications, Oceanography
- **Brymer, Robert A.**, Psy.D., Denver; Professor of Hospitality
- Buchanan, Harvey L., Jr.**, B.S., Associate Director, Business Financial/Auxiliary Services, Telecommunications
- Buchanan, Jennifer N.**, Ph.D., Florida State; Assistant in Communication and Associate Dean, College of Communication
- Buchanan, Richard L.**, M.S., Research Associate, Center for the Study of Teaching and Learning
- Bucior, Andrew P. III**, B.A., Coordinator, Admissions/Registrar, Admissions
- Buckler, Robert L.**, B.S., Coordinator, Information/Publications Services, Controller
- Buckner, Brian K.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
- Buendia, Gloria M.**, Ph.D., California at San Diego; Visiting Scholar/Scientist, Computational Science and Informational Technology
- Buerkle, Harry W.**, M.S., Visiting Instructor, Information Studies
- Buggs, Claritha**, M.M., Associate Professor of Music
- Bulecza, Susan R.**, B.S.W., Coordinator, Human Science, Center for Prevention
- Bull, Daniel H.**, B.S., Coordinator, Purchasing, Purchasing
- + **Bullington, Bruce**, Ph.D., California at Los Angeles; Associate Professor of Criminology and Criminal Justice
- Bullock, Carol A.**, Ph.D., Florida State, Coordinator, Academic Support Services, Economics
- Bulusu, Subrahmanyam**, Ph.D., Southampton, U.K.; Visiting Research Associate of Meteorology
- Bunea, Florentina**, Ph.D., Washington at Seattle; Visiting Assistant Professor of Statistics
- Bunger, Amy B.**, Ph.D., George Mason; Assistant Professor of Criminology
- Burch, Stacey M.**, B.S., Coordinator, Academic Support Services, Modern Languages
- Burdette, Brian W.**, M.S., Assistant Athletic Coach, Physical Education
- Burg, Mary A.**, Ph.D., Florida; Visiting Instructor of Social Work

- Burgess, Karen M.**, M.S., Associate in Mathematics
- Burgin, Jeffrey T.**, M.S.T., Coordinator, Student Affairs, Office of the Vice-President for Student Affairs
- **Burggraf, Ray L.**, M.F.A., Professor of Studio Art
- + **Burke, Helen M.**, Ph.D., Southern Mississippi; Associate Professor of English
- **Burke, Mary A.**, Ph.D., Johns Hopkins; Assistant Professor of Economics
- Burke, Robert R.**, M.S., Coordinator, Information/Publications Services, National High Magnetic Field Laboratory
- + **Burkes, Shannon L.**, Ph.D., Chicago; Assistant Professor of Religion
- + **Burkhead, E. Jane**, Ph.D., Missouri; Associate Professor of Human Services and Studies
- + **Burmester, Michael V.D.**, Ph.D., Rome; Visiting Professor of Computer Science
- + **Burnett, Gary D.**, Ph.D., Princeton; Assistant Professor of Information Studies
- + **Burnett, Kathleen M.**, Ph.D., California at Berkeley; Associate Dean and Associate Professor of Information Studies
- + **Burnett, William C.**, Ph.D., Hawaii; Professor of Oceanography
- Burnette, Richard R. III**, Ph.D., Florida State, Associate Director, Admissions
- Burnham, Cassandra S.**, M.S., Visiting University School Instructor, Developmental Research School
- Burns, Gregory L.**, M.Ed., University School Assistant Professor, Developmental Research School
- Burrage, Lisa K.**, B.A., Coordinator, Academic Support Services, School of Theatre

- + **Burroway, Janet G.**, M.A., Service Professor of English, McKenzie Professor, and Robert O. Lawton Distinguished Professor, 1995-96.
- Burroughs, Joanne M.**, B.S., Coordinator, Human Services, Undergraduate Studies
- Busch, Susan M.**, M.S., Coordinator, Education/Training Programs, Undergraduate Studies
- **Bush, Ashley A.**, Ph.D., Georgia State; Assistant Professor of Information Science and Management
- Busharis, Barbara J.**, J.D., New York; Visiting Associate in Law
- Butler, Barbara A.**, B.S., Coordinator, Administrative Services, National High Magnetic Field Laboratory
- **Butler, David M.**, M.A., Chair and Associate Professor of Interior Design
- Butler, Judson R.**, M.S., Associate in Research, Learning Systems Institute
- + **Butler, Robert D.**, M.A., Francis Eppes Professor of English holding Michael Shaara chair of Creative Writing
- Butler, Sedra E.**, M.S., Coordinator, Student Financial Aid, Financial Aid
- + **Buzyna, George**, Ph.D., Yale; Professor of Mechanical Engineering and Research Associate, Geophysical Fluid Dynamics Institute
- Bye, Raymond E.**, Ph.D., Kent State; Faculty Administrator and Vice-President for Research, Office of Research
- Byers, Joseph A.**, Ph.D., Florida State; Associate Scholar/Scientist/Engineer, Social Work
- Byers, Michael D.**, B.S., Associate Director, Northwest Regional Data Center
- Byrd, Steven E.**, M.Ed., University School Associate Professor, Developmental Research School
- **Byrnes, William J.**, M.F.A., Associate Dean for Production and Professor of Theatre
- Cady, Sharon E.**, B.S., Coordinator, Accounting, Controller
- Cain, Joseph C.**, Ph.D., University of Alaska; Scholar/Scientist, Geophysical Fluid Dynamics Institute
- Cairns, Francis J.**, Ph.D., Liverpool; Visiting Professor of Classics
- Caito, Curtis A.**, B.S., Coordinator, Accounting, Controller
- Caleen, Katherine C.**, M.L.S., Associate in Research, Center for Teaching and Learning
- Calhoun, Sandra H.**, B.S., Associate Director, Academic Support Services, Distance Learning
- Calhoun, Teresita A.**, B.S., University School Instructor, Developmental Research School
- Callaway, Jamie E.**, B.S., Coordinator, Human Resources/Personnel Relations, Human Resources
- Callen, Krista P.**, M.S.T., Coordinator, Computer Applications, Center for Professional Development
- Calohan, Claire J.**, M.S.W., Assistant in Social Work, Panama City Branch
- Campbell, Anna B.**, M.L.S., Instructor Librarian, Educational Services Program
- Campbell, Darnella W.**, B.S., Coordinator, Continuing Education, Center for Professional Development
- Campbell, Janeth A.**, M.S.T., Coordinator, Accounting, Sponsored Research Accounting
- Campbell, John R.**, B.S., Assistant in Recruitment, Aerospace Studies
- Campbell, Richard M.**, M.B.A., Coordinator, Accounting, Athletics
- Campbell, Patrick J.**, M.S., Visiting University School Instructor, Developmental Research School
- Camputaro, Justin T.**, M.A., Coordinator, Student Affairs, University Union
- **Canache, Damarys J.**, Ph.D., Pittsburgh; Assistant Professor of Political Science
- Cane, Michael**, M.S., Instructor of Military Science
- **Cannell, Susan**, M.F.A., Assistant Professor of Art
- Cannon, Richard E.**, M.F.A., Coordinator, Academic Support Services, School of Theatre
- + **Canterbery, E. Ray**, Ph.D., Washington at St. Louis; Professor of Economics
- Cantrell, Kurtis R.**, B.S., Coordinator, Research Program Services, National High Magnetic Field Laboratory
- Cao, Gang**, Ph.D., Temple; Associate Scholar/Scientist, National High Magnetic Field Laboratory
- + **Cao, Jianming**, Ph.D., Rochester; Assistant Professor of Physics
- Cao, Wenz-Hong**, M.S., Coordinator, Computer Applications, Office of Technology Integration
- Capitani, Sue A.**, M.A., Coordinator, Academic Programs, International Programs
- Capellini, Charlene H.**, M.A., Assistant in Distance Learning
- + **Capps, William Marvin**, D.M.A., Catholic; Professor of Music
- + **Cappuccio, Brenda Logan**, Ph.D., Kentucky; Associate Chair and Associate Professor of Modern Languages and Linguistics
- + **Capstick, Simon Charles**, Ph.D., Toronto; Associate Professor of Physics
- Carbone, Dona Patricia**, M.S., Visiting University School Instructor, Developmental Research School
- + **Carbonell, Joyce L.**, Ph.D., Bowling Green State; Professor of Psychology
- Carey, Teresa L.**, B.A., Coordinator, Research Programs/Services, Sponsored Research Services
- Carlyle, Ryan A.**, B.S., Coordinator, Computer Applications, School of Computational Science
- Carnaghi, John R.**, M.S., Vice President for Finance and Administration
- Carnduff, John L., Jr.**, M.B.A., Professor of Aerospace Studies
- Carpio, Eric J.**, M.A., Associate Director, Admissions/Registration, Student Services
- Carr, Charles L.**, M.A., Associate Director, Intercollegiate Athletics, Athletics
- Carr, Darryl B.**, Ph.D., University of California, Santa Barbara; Associate Professor of English
- + **Carrabino, Victor**, Ph.D., Massachusetts; Professor of Modern Languages and Linguistics, and Director of International Programs
- Carraway, Maxwell, Jr.**, B.S., University Registrar
- + **Carroll, Pamela S.**, Ed.D., Auburn; Professor of Curriculum and Instruction
- Carruth, Debra L.**, B.S., Coordinator, Academic Support Services, Undergraduate Studies
- + **Carsey, Thomas M.**, Ph.D., Indiana; Associate Professor of Political Science
- Carson, James M.**, M.A., Ph.D., Georgia; Eminent Scholar and Professor of Risk Management and Insurance
- Carter, Joanna L.**, M.A., Coordinator, Academic Support Services, Biological Science
- Carter, John M.**, B.S., Coordinator, Academic Support Services, Undergraduate Studies
- Carter, Kathryn**, Coordinator, Administrative Services, Undergraduate Studies
- Carter, Leigh A.**, M.S., Psychologist, School of Social Work
- Carter, Linda D.**, B.Ed., Coordinator, Administrative Services, Oceanography
- Carter, Ryan A.**, M.S., Coordinator, Admissions/Registrar, Admissions
- **Cartes, David A.**, Ph.D., Dartmouth College; Assistant Professor of Mechanical Engineering
- Caruthers, Kent**, Ed.D., Oklahoma State; Visiting Instructor of Educational Leadership
- Carver, David D.**, B.A., Coordinator, Management Analysis, Business-FIMAT
- **Casanovas, Joan**, Ph.D., New York at Stony Brook; Visiting Assistant Professor of History
- + **Case, Bettye Anne**, Ph.D., Alabama; Professor of Mathematics
- Case, Jenene L.**, Coordinator, Clinical Programs, Employee Assistance Program
- Casey, Patricia B.**, M.A.T., University School Instructor, Developmental Research School
- **Cash, Scottye J.**, Ph.D., Texas at Arlington; Assistant Professor of Social Work
- + **Caspar, Donald L.**, Ph.D., Yale; Professor of Biological Science, and National Academy of Sciences
- Cassels, Joan W.**, M.A., Assistant in International Programs and Academic Administrator, International Programs
- Casto, Cathi M.**, M.S.W., Coordinator, Clinical Programs, Communication Disorders
- Catanese, Fabrizio M.**, Diplomadi Licenza in Matematica, Pisa; Visiting Associate Professor of Mathematics
- Cates, Anse C.**, B.A., Associate Director of Business and Finance, Business Services
- Caussyn, David D.**, Ph.D., Florida State; Assistant Scholar/Scientist, Physics
- Casseaux, Josette Lynne R.**, B.A., Coordinator, Research/Program Services, Physics
- Ceci, Michele E.**, B.S., Associate Director, Business Financial/Auxiliary Services, International Programs
- + **Celander, Robert E., Jr.**, B.A., Coordinator, Research Information, Graduate Studies and Research
- + **Celec, Stephen E.**, Ph.D., North Carolina; Professor of Finance
- + **Chackerian, Richard**, Ph.D., Washington; Professor of Public Administration
- Chamberlin, Carol Jill**, Assistant in Public Administration, Public Administration and Policy
- Chan Hilton, Amy**, Ph.D., Virginia; Assistant Professor of Civil and Environmental Engineering
- + **Chandra, Namas**, Ph.D., Texas A&M; Krishnamurty Karamcheti Professor of Engineering, 2000, and of Mechanical Engineering
- Chandrasekhar, Michelle M.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- Chang, Peter W.**, M.A., Librarian, University Libraries
- + **Chanton, Jeffrey Paul**, Ph.D., North Carolina; Professor of Oceanography and Geological Sciences
- **Chapin, Timothy S.**, M.A., Assistant Professor of Urban and Regional Planning
- + **Chapman, Michael S.**, Ph.D., California at Los Angeles; Associate Professor of Chemistry
- + **Chapo, Eliot**, Professor of Music
- **Chappell, Fred D.**, B.A., Professor of Theatre
- + **Charness, Neil H.**, Ph.D., Carnegie-Mellon; Professor of Psychology
- Chase, Prescott B.**, Ph.D., Southern California; Associate Professor of Biological Science
- Chase, Steve J.**, B.S., Associate in Film, School of Motion Picture, Television and Recording Arts
- Chatterjee, Somnath**, M.S., Coordinator, Computer Applications, Office of Technology Integration
- Chavez-Hernandez, Maria T.**, M.L.S., Librarian, School of Information Studies
- + **Chella, Ravindran**, Ph.D., Massachusetts; Associate Professor of Chemical Engineering
- + **Chen, Ching-Jen**, Ph.D., Case Western Reserve; Professor of Mechanical Engineering and Mathematics, and Dean, College of Engineering
- Chen, Jennifer J.**, M.F.A., Visiting Assistant Professor of Art
- **Cheng, Yingmei**, Ph.D., Pennsylvania; Assistant Professor of Finance
- Chiasson, Susan**, M.L.S., Instructor/Librarian, Strozier Library
- Childs, Jamee L.**, B.A., Visiting University School Instructor, Developmental Research School
- **Childs, Matthew D.**, Ph.D., Texas; Assistant Professor of History
- + **Chin, Wei C.**, Ph.D., Washington; Visiting Assistant Professor of Chemical Engineering
- Childers, Earl G.**, B.S., Coordinator, Computer Applications, Academic Computing and Network Services
- Chiricos, Christine A.**, M.S., Assistant in Research, Institute of Science and Public Affairs
- + **Chiricos, Theodore G.**, Ph.D., Massachusetts; Professor of Criminology and Criminal Justice
- Chiu, Tsao Y.**, Ph.D., Florida; Director and Professor of Beaches and Shores Resource Center, Institute for Science and Public Affairs
- Cho, Min S.**, B.A., Coordinator, Education/Training Programs, Student Affairs

- Chodyla, Katarzyna J.**, M.S., Assistant in Research, Biological Science
- Chow, Shong Yu**, M.A., Research Associate, Information Studies
- Christ-Janer, Arland F.**, J.D., Chicago; Faculty Administrator and Director, Ringling Center for the Cultural Arts
- + **Christiansen, William A.**, Ph.D., Utah; Associate Professor of Finance
- Christie, Donna R.**, J.D., Georgia; Professor and Associate Dean of Law
- Christie, Roberta A.**, M.L.S., Director of Student Affairs, International Student Center
- + **Christopher, Russell L.**, J.D., Michigan; Visiting Assistant Professor of Law
- Christle, Ranelle A.**, M.A., Research Associate, Learning Systems Institute
- **Chudoba, Katherine M.**, Ph.D., Arizona; Assistant Professor of Information Management Sciences
- + **Ciannella, Yvonne**, B.A., Professor of Music
- + **Cioslowski, Jerzy**, Ph.D., Georgetown; Professor of Chemistry, and Scholar/Scientist, School of Computational Science and Technology
- + **Cituk, Ann P.**, Ph.D., Psychologist, Multidisciplinary Center
- + **Claggett, William**, Ph.D., Minnesota; Associate Professor of Political Science
- Clancy-Menchetti, Jeanine L.**, M.A., Assistant in Cognitive Behavioral Science, Psychology
- Clark, Cheryl L.**, M.S.W., Coordinator, Human Services, Center for Prevention
- Clark, Dan O.**, M.M., M.L.S., Librarian, Music Library
- **Clark, Jack A.**, M.F.A., Assistant in Dance, Dance
- + **Clark, Jeffrey A.**, Ph.D., Illinois; Professor of Finance
- Clark, Jennifer S.**, B.S., Coordinator, Academic Support Services, Computer Science
- Clark, Joanne**, M.S., Assistant Director, Student Financial Aid, Financial Aid
- Clark, Joseph S.**, M.A., Assistant in Distance Learning, Academic Affairs
- Clark, Lorelei**, M.A., Coordinator, Academic Support Services, Distance Learning
- Clark, Margaret C.**, M.A., Visiting Instructor Librarian, Law
- Clark, Nancy B.**, M.Ed., Visiting Associate in Medicine, Medical Education
- **Clark, Robert C.**, Ed.D., Tennessee at Knoxville; Associate Professor of Educational Theory and Practice, and Associate Dean, College of Education
- + **Clark, Ronald J.**, Ph.D., Kansas; Professor of Chemistry, Distinguished Teaching Professor, 1989–1990
- Clark-Rosier, Sonia Y.**, M.S.T., Coordinator, Clinical Programs, Center for Prevention
- + **Clarke, Allan J.**, Ph.D., Cambridge; Distinguished Research Professor, 2000 – 2001, Professor of Oceanography
- Clarke, Carrie C.**, M.P.H., Visiting Assistant in Research, Institute for Science and Public Affairs
- + **Clarke, Karen E.**, M.M., Professor of Music
- Cleckley, Mary R.**, B.A., Visiting University School Instructor, Developmental Research School
- Clegg, Frank S.**, M.B.A., Assistant Professor of Military Science
- + **Clement, Annie**, J.D., Cleveland State; Associate Professor of Physical Education
- Cleddinning, David**, M.L.S., Librarian, University Libraries
- + **Cleddinning, Jane Piper**, Ph.D., Yale; Associate Professor of Music
- Cleveland, Mae E.**, Ph.D., Florida State; Coordinator, Clinical Programs, Student Health Services
- + **Cloonan, William**, Ph.D., North Carolina at Chapel Hill; Richard L. Chapple Professor of Modern Languages and Linguistics, 1999
- Cloos, Jonathan A.**, B.S., Associate in Mechanical Engineering
- **Close, Billy R.**, M.S., Assistant Professor of Criminology and Criminal Justice
- + **Cloud, Rinn M.**, Ph.D., North Carolina at Greensboro; Chair and Professor of Textiles and Consumer Sciences
- + **Coats, Pamela K.**, Ph.D., Nebraska at Lincoln; Professor of Finance
- + **Cobbe, James H.**, Ph.D., Yale; Chair and Professor of Economics
- Cockburn, Elisa M.**, M.B.A., Coordinator, Student Affairs, International Student Center
- + **Cockburn, Juan C.**, Ph.D., Minnesota; Assistant Professor of Electrical and Computer Engineering
- Cocke, Steven D.**, Ph.D., Texas at Austin; Research Associate, Meteorology
- Coffey, Karen J.**, B.S., Coordinator, Admissions/Registration, Admissions
- Cole, Cassandra R.**, Ph.D., Georgia; Assistant Professor of Risk Management and Insurance
- Cole, Kathleen J.**, M.S., University School Instructor, Developmental Research School
- Cole, Renee S.**, M.L.S., Instructor/Librarian, Academic Affairs
- Coleman, Felicia C.**, Ph.D., Florida State; Associate in Research, Biological Science
- Coleman, Michael J.**, B.S., Assistant in Research, National High Magnetic Field Laboratory
- **Coleman, Robert H.**, M.F.A., Assistant Professor of Theater
- Collins, Christine J.**, B.A., Instructional Specialists, Housing/Alumni Village
- + **Collins, Emmanuel**, Ph.D., Purdue; Associate Chair and Professor of Mechanical Engineering
- Collins, Rhonda W.**, B.S., Coordinator, Information/Publication Service, Vice President Finance and Administration
- Collman-Gustafson, Jill Caree**, B.S., University School Instructor, Developmental Research School
- Colorado, Lourdes**, B.A., Instructional Specialist, Alumni Village
- Colvin, Gloria P.**, M.S.L.S., Visiting Librarian, Library/Administration
- **Combs, James G.**, Ph.D., Louisiana State; Assistant Professor of Management
- Combs, John T.**, B.S., Specialist, Computer Research, National High Magnetic Field Laboratory
- Compton, Heather**, B.A., Assistant Athletic Coach, Athletics
- + **Conaway, Charles W.**, Ph.D., Rutgers; Associate Professor of Information Studies
- Conaway, Frances A.**, B.A., Coordinator, Information/Publications Services, University Communication
- Conerly, Emaly C.**, M.S.L., Department Head and Associate Librarian, University Libraries
- + **Conner, Valerie Jean**, Ph.D., Virginia; Associate Professor of History
- + **Connerly, Charles E.**, Ph.D., Michigan; Chair and Professor of Urban and Regional Planning
- Connolly, Sarah L.**, M.S.T., Assistant Dean, Student Affairs, Dean of Students
- Conover, Christopher M.**, B.S., Assistant Director, Radio/TV, WFSU—FM Radio
- Conrad, Larry D.**, J.D., Faculty Administrator, Academic Affairs
- Conrad, Rita M.**, Ph.D., Florida State; Visiting Assistant Professor of Information Studies
- Contreras, Linda K.**, M.P.H., Associate in Research, College of Medicine
- + **Contreras, Robert J.**, Ph.D., Michigan State; Chair and Professor of Psychology
- Converso, Judith A.**, Ed.S., Research Associate, Learning Systems Institute
- Convertino, Kitty J.**, M.S., Assistant Director, Internal Management Auditor, Inspector General
- + **Cook, Laura R.**, Ph.D., Iowa State; Associate Professor of Nutrition, Food, and Exercise Sciences
- Cooley, Lyn A.**, B.S., Associate Director, Business Financial/Auxiliary Services, Ringling Museum
- Coonan, Terence S.**, J.D., Cincinnati; Associate Professor of Criminology and Criminal Justice and Director, Center for the Advancement of Human Rights, Institute for Science and Public Affairs
- Cooper, Helen J.**, Ph.D., Warwick; Visiting Assistant in Research, National High Magnetic Field Laboratory
- Cooper, Henry J.**, Ph.D., Virginia; Research Associate, Meteorology
- Cooper, John P.**, B.S., Assistant in Art
- **Cooper, Mark G.**, Ph.D., Brown; Assistant Professor of English
- Cooper, Martha, H.**, M.A., Assistant Professor of Theatre
- + **Cooper, William T. III**, Ph.D., Indiana; Associate Professor of Chemistry
- Copeland, Heidi B.**, B.S., Visiting University School Instructor, Developmental Research School
- Copeland, Scott W.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
- Copello, Michele P.**, M.S., Visiting University School Instructor, Developmental Research School
- + **Corbett, Richard B.**, Ph.D., Georgia State; Professor of Risk Management/Insurance, Real Estate and Business Law
- Corbin, Douglas J.**, M.A., Assistant Professor of Dance
- Corbitt, Hollie M.**, B.A., Coordinator, Educational Media/Communications, Health Services
- Cordell, Myrtice J.**, Coordinator Purchasing, Purchasing
- Corley, R. Chris**, Ph.D., Florida State; Visiting Assistant Professor of Music
- + **Cornille, Thomas A.**, Ph.D., Florida State; Associate Professor of Family and Child Sciences
- + **Corrigan, John A.**, Ph.D., Chicago; Professor of Religion
- Cory, Cynthia J.**, Ph.D., Florida State; Visiting Instructor of English
- Coryell, Patricia S.**, A.A., Coordinator, Administrative Services, University Union
- + **Corzine, Michael L.**, D.M.A., Eastman School of Music; Professor of Music
- + **Cottle, Paul D.**, Ph.D., Yale; Professor of Physics and Assistant Dean of the College of Arts and Sciences
- **Cottrell, Barbara H.**, M.S.N., Associate Professor of Nursing
- Cottrill, William W.**, B.S., Coordinator, Academic Programs, Meteorology
- Coughlin, R. Shawn**, B.S., Coordinator, Computer Applications, Center for Professional Development
- + **Coursey, David**, Ph.D., Syracuse; Associate Professor of Public Administration and Policy
- Coury, David P.**, B.S., Inspector General
- Coury, Deborah V.**, B.S., Director, Business and Financial/Auxiliary Services
- + **Cowart, James B.**, Ph.D., Florida State; Professor of Geological Sciences
- + **Cowart, Marie E.**, Ph.D., Columbia; Professor of Urban and Regional Planning and Dean, College of Social Sciences
- Cox, Jeannette R.**, M.L.S., Librarian, University Libraries
- Cox, Terrance H.**, M.S., Associate in Research, Criminology
- + **Cradit, J. Dennis**, Ph.D., Iowa; Chair and Professor of Marketing
- Craig, Michael R.**, M.S., University School Instructor, Developmental Research School
- Cramer, Dayton M.**, L.J.D., Associate General Counsel, General Counsel
- Crandall, Paige D.**, M.A., Associate Director of Student Affairs, Housing
- Crawford, Coleman**, Assistant Athletic Coach, Intercollegiate Athletics
- Crawford, Gary B.**, B.S., Coordinator, Assistant Controller, Controller
- Crawl, Rolandis J.**, B.S., Assistant in Recruiting, Aerospace Studies
- **Creswell, Michael**, Ph.D., Chicago, Assistant Professor of History
- Crew, Alicia A.**, M.S., Associate Director, Multi-purpose Facilities, Campus Recreation
- Crew, Lois B.**, B.S., Coordinator, Administrative Services, School of Visual Arts and Dance

- + **Crew, Robert E., Jr.**, Ph.D., North Carolina; Professor, Political Science, and Associate Dean, College of Social Sciences
- + **Croft, James E.**, D.M.E., Oklahoma; Professor of Music
- + **Cronin, J. Joseph, Jr.**, Ph.D., Ohio State; Professor of Marketing
- + **Crook, Danny G.**, A.S., Coordinator, Research Programs/Services, NHMFL
- + **Crook, Eugene J.**, Ph.D., Illinois; Director of London Study Abroad Program
- + **Crook, Wendy P.**, Ph.D., Rutgers; Assistant Professor of Social Work
- + **Crosnier, Laurence**, Ph.D., Laboratoire de Physiques des Océans; Visiting Research Associate, Oceanography
- + **Cross, Louis, B.S.**, Coordinator, Research Programs/Services, Florida Resources and Environmental Analysis Center
- + **Cross, Timothy A.**, Ph.D., Pennsylvania; Distinguished Research Professor, 2000 – 2001, Professor of Chemistry
- + **Crossley, Mary A.**, J.D., Vanderbilt University; Professor of Law
- + **Crow, Jack E.**, Ph.D., Rochester; Professor of Physics, and Director, National High Magnetic Field Laboratory
- + **Crowell, Brian K.**, B.A., Coordinator, Academic Programs, Center for Professional Development
- + **Crowley, Perry W.**, M.B.A., Director, Business Financial/Auxiliary Services, Controller
- + **Crowley, Donna J.**, M.A., Associate Professor of Communication Disorders
- + **Crystal, Nathan M.**, L.L.M., Harvard Law; Visiting Professor of Law
- + **Cuccio, Vincent E.**, Ed. Spec., University School Assistant Professor, Developmental Research School
- + **Cuevas, Bryan J.**, Ph.D., Virginia; Assistant Professor of Religion
- + **Cuevas, Francisco**, M.S., Associate Director, Housing
- + **Cunningham, Philip**, Ph.D., Albany; Visiting Assistant Professor of Meteorology
- + **Currie, Elliot P.**, Ph.D., California at Berkeley; Visiting Professor of Criminology
- + **Currie, Jennifer S.**, M.A., Assistant in Curatorial, Ringling Museum
- + **Curtis, Kathleen S.**, Ph.D., Pittsburgh; Research Associate, Psychology
- + **Cutwright, Ronald**, Ph.D., Massachusetts Institute of Technology; Instructor of Industrial Engineering and Visiting Assistant in Distance Learning
- + **Dagotto, Elbio R.**, Ph.D., Instituto Balseiro; Professor of Physics and Scholar/Scientist, School of Computational Science and Information Technology
- + **Dahlrose, John R.**, M.S., Director, Academic Support Services, Undergraduate Studies
- + **Dahlstrom, Robert L.**, M.B.A., Assistant in Communication, Communication
- + **Dahmen, Klaus H.**, Ph.D., Swiss Federal Institute of Technology; Associate Professor of Chemistry
- + **Dahms, Harry F.**, Ph.D., New School for Social Research; Associate Professor of Sociology
- + **Dailey, John Scott**, Ph.D., Florida State; Director, Florida Institute of Government
- + **Dalal, Nar S.**, Ph.D., British Columbia; Chair and Professor of Chemistry
- + **D'Alemberte, H. Talbot**, J.D., Florida; Professor of Law and University President
- + **Dallet, Jane L.**, M.L.S., Research Associate, Center for the Study of Teaching and Learning
- + **Dalton, Bryon L.**, Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- + **Dalton, Dava D.**, M.S., Assistant in Research, Oceanography
- + **Dalton, Jon C.**, Ed.D., Kentucky; Associate Professor of Educational Leadership, Director, Center for the Study of Values in College Student Development
- + **Dalton, Peter C.**, Ph.D., Rochester; Associate Professor of Philosophy
- + **Daly, Janice A.**, Ph.D., Florida State; Assistant Director, Educational/Training Programs, Student Health Services
- + **Daly, Kathleen M.**, B.S., Director of Governmental Relations, University Relations
- + **Dancy, Russell M.**, Ph.D., Harvard; Chair and Professor of Philosophy
- + **Dangler, C. Jean**, Ph.D., Emory; Assistant Professor of Modern Languages and Linguistics
- + **Daniels, Bruce E.**, M.Ed., Coordinator, Academic Support Services, Student Services
- + **Daniels-Mckinney, Cherie Y.**, M.S., Coordinator, Educational/Training Programs, Thagard Student Health Center
- + **Darabi, Abbas**, Ph.D., Florida State; Assistant Professor of Educational Research, Learning Systems Institute
- + **Darling, Carol Anderson**, Ph.D., Michigan State; Margaret Rector Sandels Professor of Human Sciences, 1999, Distinguished Teaching Professor, 1996–1997, and Professor of Family and Child Sciences
- + **Darst, David H.**, Ph.D., Kentucky; Professor of Modern Languages and Linguistics
- + **Davis, Ervin**, B.S., Assistant in Medical Sciences
- + **Davis, Katherine A.**, M.S., Assistant in Elementary Education, Panama City Branch
- + **Davis, Kelly L.**, B.S., Coordinator, Academic Support Services, Motion Picture, Television, and Recording Arts
- + **Davis, Lynda J.**, M.F.A., Professor of Dance
- + **Davis, Marian L.**, Ph.D., California at Los Angeles; Professor of Textiles and Consumer Sciences
- + **Davis, Mary T.**, M.S., Visiting University School Instructor, Developmental Research School
- + **Davis, Nancy T.**, Ph.D., Georgia; Associate Professor of Curriculum and Instruction
- + **Davis, Patricia M.**, M.S., University School Professor, Developmental Research School
- + **Davis, Rosalyn B.**, B.S., Coordinator, Space Utility and Analysis, Registrar
- + **Davis, Wegman M.**, Professional Engineer, Campus Design
- + **Dawkins, Timothy B.**, B.S., Coordinator, Internal Auditing, Inspector General
- + **Day, Sheryl Lee**, Ph.D., Florida State; Visiting Instructor of Special Education
- + **Dayhoff, Danny**, B.S., Associate Controller, Facilities, Operations and Maintenance
- + **Dean, Patricia R.**, M.S.N., Associate Professor of Nursing
- + **Dean, Roslyn P.**, M.S., Coordinator, Academic Support Services, College of Medicine
- + **Dearwater, Stephen R.**, M.S., Coordinator of Injury Control, Pepper Institute on Aging, College of Social Sciences
- + **De Blij, Tanya P.**, M.S., Coordinator, Computer Applications, Office of Technology Integration
- + **Deboer, Diana L.**, Coordinator Administrative Services, National High Magnetic Field Laboratory
- + **Deckert, Thomas C.**, M.S.T., Coordinator, Construction Projects, Environmental Health and Safety
- + **Dee, Carol Elizabeth Callaway**, B.S., Florida; Assistant Professor of Accounting
- + **Degen, John A.**, Ph.D., Indiana; Associate Professor of Theatre
- + **Degroft, Aaron H.**, Ph.D., Florida State; Assistant Curator, Ringling Museum of Art
- + **de Grummond, Nancy T.**, Ph.D., North Carolina; M. Lynette Thompson Professor of Classics, 1999
- + **de Grummond, W. W.**, Ph.D., North Carolina; Service Professor of Classics
- + **DeHaven-Smith, Lance M.**, Ph.D., Ohio State; Professor of Public Administration and Policy, and Director, Florida Institute of Government
- + **Dejong, Lorraine C.**, M.A., Instructor, Human Resources
- + **Deka, Devajyoti**, Ph.D., Southern California; Visiting Assistant Professor of Urban and Regional Planning
- + **Delegal, John D.**, B.S., Coordinator, Intercollegiate Athletics, Athletics
- + **Delp, Roy E.**, M.M., Professor of Music
- + **Del Rossi, Ann**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- + **Delva, Jorge**, Ph.D., Hawaii; Assistant Professor of Social Work
- + **Demmel, Zelda A.**, M.S.W., Visiting Assistant Professor of Social Work
- + **Denman, Sarah E.**, A.A., Coordinator, Advancement/Alumni Affairs, Panama City Campus
- + **Dennis, Lawrence C.**, Ph.D., Virginia; Professor of Physics and Program Director, Computational Science and Information Technology
- + **Dennison, Elaine V.**, A.S., Specialist, Computer Applications, FIRN
- + **Denslow, Diane L.**, M.B.A., Lecturer, Finance
- + **Dent, Stephanie**, Ph.D., Vanderbilt University; Assistant Professor, Special Education
- + **Depascale, Christine L.**, M.S., Visiting Associate in Research, Academic Affairs
- + **DePew, Judith H.**, M.S., Department Head and Librarian, University Libraries
- + **Dernovskaya, Irina V.**, M.S., Coordinator, Computer Applications, Office of Technology Integration
- + **Deshmukh, Abhijit**, Ph.D., Purdue; Assistant Professor of Industrial Engineering
- + **Desmedt, Yvo G.**, Ph.D., Katholieke; Professor of Computer Science
- + **Detweiler, Nancy L.**, M.S.W., Assistant in Field Instruction, Social Work
- + **Dewar, William K.**, Ph.D., Massachusetts Institute of Technology; Professor of Oceanography and Faculty Associate, School of Computational Science and Information Technology
- + **Dewitt, Wayne T.**, B.A., Associate Director, Business and Financial Auxiliary Services, Business Services
- + **Dexter, Joe E.**, M.S., University School Assistant Professor, Developmental Research School
- + **Dexter, Nadine D.**, M.S., Coordinator, EducMedia/Communications, Program in Medical Science
- + **Dexter, Norma J.**, M.B.A., Assistant in Business Administration
- + **Deyle, Robert E.**, Ph.D., State University of New York; Associate Professor of Urban and Regional Planning
- + **Dhoray, Russell V.**, M.S., Visiting Assistant in Research, Learning Systems Institute
- + **Dhanarajan, Pushparani**, M.S., Associate in Biological Science, Biological Science
- + **Diamonti, Michelle P.**, A.A., Coordinator, Education Media/Communications, Center for Professional Development
- + **Diaz, Nereida**, B.S., Visiting University School Instructor, Developmental Research School
- + **Diaz-Avalos, Ruben**, Ph.D., Brandeis; Assistant Scholar/Scientist, Institute of Molecular Biophysics
- + **Diaz-Obando, Evangelina**, M.S., Visiting Assistant Professor of Curriculum and Instruction
- + **Dickey, Daryl R.**, B.A., Assistant Athletic Coach, Athletics
- + **Dickey, Felisha P.**, M.S.W., Coordinator, Human Services, Center for Prevention
- + **Dickey, Michael H.**, Ph.D., Louisiana State; Assistant Professor of Information Management Sciences, Business
- + **Dickson-Carr, Darryl B.**, Ph.D., California at Santa Barbara; Associate Professor of English
- + **DiGabriele, Linda M.**, B.S., Associate Director, Multipurpose Facility, Theatre
- + **Dilling, Janet D.**, M.P.A., Visiting Assistant in Public Affairs, Public Affairs Center
- + **Dipert, Courtney E.**, M.S., Assistant in Physical Education
- + **Dipert, Courtney E.**, B.S., Assistant Athletic Coach, Athletics
- + **Dirickson, Calvin B.**, Assistant Director Student Financial Aid, Student Financial Aid
- + **Dirks, Paul E., Jr.**, M.Ed., Director of Multipurpose Facilities, Campus Recreation

- + **Diskin, Barry A.**, Ph.D., Georgia State; Professor of Risk Management/Insurance, Real Estate and Business Law
- Dixon, Iain R.**, M.S., M.E., Associate in Research, National High Magnetic Field Laboratory
- Dixon, Sallie A.**, B.S., Coordinator, Construction Projects, Facilities, Planning and Construction
- Dixon, Sandra S.**, M.S., Coordinator, Human Resources/Personnel Relations, Personnel Services
- Dixon, Teresa E.**, M.A., Coordinator, Clinical Programs, Communication Disorders
- + **Doan, Peter L.**, Ph.D., Cornell; Associate Professor of Urban and Regional Planning
- Dobrin, Michele B.**, B.S., Visiting University School Instructor, Developmental Research School
- + **Dobrosavljevic, Vladimir**, Ph.D., Brown; Associate Professor of Physics
- Dodaro, Kenneth A.**, M.S., Associate in Mathematics, Mathematics
- Dodge III, Joseph M.**, LL.M., New York University Law; Professor of Law
- + **Doerner, William G.**, Ph.D., Tennessee; Professor of Criminology and Criminal Justice
- Doesaran, Ramesh**, Ph.D., Toronto; Visiting Lecturer of Criminology and Criminal Justice
- Dollhoph, Sherry L.**, Ph.D., Michigan State; Visiting Assistant in Research, Biological Science
- Dollar, Valerie J.**, M.S., Coordinator, Academic Support Services, School of Music
- Donahue, John N.**, E.D.S., Coordinator, Student Affairs, Dean of Students
- Donaldson, James A.**, M.S., Specialist, Computer Research, Psychology
- Donaldson, Paula H.**, B.S., Assistant in Research, Institute for Science and Public Affairs
- Donnell, Marianne**, M.A., Librarian, University Libraries
- + **Donoghue, Joseph F.**, Ph.D., Southern California; Associate Professor of Geological Sciences
- Doolittle, Martha C.**, B.S., Associate Director, Purchasing
- + **Doran, Glen H.**, Ph.D., California at Davis; Professor and Chair of Anthropology
- Dorceus, Margaret M.**, B.S., Coordinator, Human Services, Center for Prevention
- + **Dorn, Charles M.**, Ed.D., Texas; Professor of Art Education
- + **Dorsey, Jodee L.**, Ph.D., Tennessee at Knoxville; Associate Professor of Nutrition, Food, and Exercise Sciences
- + **Dorsey, John G.**, Ph.D., Cincinnati; Katherine Blood Hoffman Professor of Chemistry, 2000
- + **Dougherty, Ralph C.**, Ph.D., Chicago; Professor of Chemistry
- Douglas, Ceasar, Ph.D.**, University of Mississippi; Assistant Professor of Management
- **Douglas, Ian W.**, Ph.D., Glasgow Caledonian; Assistant Professor of Computer Science
- Douglas, Jeffrey P.**, B.A., Coordinator, Academic Support Programs, Dean of Students
- Douglas, Kathleen**, B.S., Coordinator, Student Affairs, Alumni Village Pre-School
- Dowling, Diane J.**, B.A., Associate Director, Academic Programs, Undergraduate Studies, Honors Program
- Downing, Lawrence E.**, A.A., Coordinator, Telecommunications, Telecommunications
- **Downs, Phillip E.**, Ph.D., North Carolina at Chapel Hill; Professor of Marketing
- Dozier, James R.**, B.S., University School Instructor, Developmental Research School
- Dragovitsch, Peter**, Ph.D., Coordinator, Computer Applications, Office of Technology Integration
- Drake, Gwendolyn R.**, B.S., Coordinator, Research Program Services, Biological Science
- Drake, Richard M.**, Instructor of Military Science
- **Draper, Jerry L.**, Ph.D., North Carolina; Dean, School of Visual Arts and Dance, and Associate Professor of Art History
- Dray, Debra A.**, B.A., Coordinator, Advance/Alumni Affairs, Ringling Museum
- Drayton, Carey M.**, B.S., Director Safety and Security, Public Safety
- + **Dresang, Eliza T.**, Ph.D., Wisconsin at Madison; Associate Professor of Information Studies
- + **Drew, John R.**, D.M.A., Kentucky; Professor of Music
- + **Driscoll, Marcy P.**, Ph.D., Massachusetts; Chair and Professor of Educational Research
- Dugger, Roderic**, B.S., Assistant Director, University Computer Systems, Office of Technology Integration
- Duke, Dennis W.**, Ph.D., Iowa State; Professor of Physics
- **Dumm, Randy E.**, Ph.D., Georgia; Assistant Professor of Risk Management/Insurance, Real Estate and Business Law
- Dunaway, Margaret F.**, B.S., Coordinator, Human Services, Center for Prevention
- Duncan, Anna H.**, M.S., University School Assistant Professor, Developmental Research School
- Duncan, Carol G.**, Ph.D., Columbia; Visiting Eminent Scholar, Art History
- Duncan, Catherine M.**, M.A., Coordinator, Academic Support Services, Undergraduate Studies
- **Dunn, Cheryl L.**, Ph.D., Michigan; Assistant Professor of Accounting
- **Dunn, Julia K.**, Ph.D., Illinois; Associate Professor of Human Services and Studies
- Dunn, Michael B.**, M.S., Assistant Director Radio/Television, WFSU-TV
- + **Dunnigan, David Patrick**, M.M., Associate Professor of Music, and Director, Marching Chiefs
- Dupre, Anne P.**, J.D., University of Georgia School of Law; Visiting Professor of Law
- Dupuy, Janet R.**, B.S., Coordinator, Computer Applications, Distance Learning
- Durham, Ann E.**, B.S., Academic Administrator, Graduate Studies
- Durham, Lisa A.**, B.S., Coordinator, Construction Projects, Facilities, Planning and Construction
- Durham, Robert K.**, B.S., Coordinator, Environmental Health and Safety-Fire Safety
- **Durtschi, Cindy**, Ph.D., Arizona; Assistant Professor of Accounting
- Dusenbury, Diane L.**, M.S., Coordinator, Research Programs/Services, College of Social Science
- + **Dusenbury, Richard B.**, Ph.D., Wisconsin at Madison, Ph.D., Florida; Associate Professor of Accounting
- Dushdurova, Valida V.**, M.S., Coordinator, Admissions/Registration, College of Law
- Dutrow, Jeffrey M.**, B.S., Assistant in Biological Science, Biological Science
- Dwyer, Colin F.**, B.F.A., Visiting Assistant in Research, Educational Services Program
- Dyal, Gerald M.**, B.S., Coordinator, Administrative Services, College of Medicine
- **Dykes, Charles C.**, M.S., Associate Professor of Interior Design
- Dyson, Gregory W.**, M.B.A., Assistant Professor of Military Science
- + **Dzurik, Andrew A.**, Ph.D., Cornell; Professor of Civil and Environmental Engineering
- Dzurik, Jan R.**, B.S., Visiting University School Instructor, Developmental Research School
- Earp, Alice C.**, M.S., Assistant Director Academic Support Services, Undergraduate Studies
- + **Eastman, Kevin L.**, M.A., Associate Professor of Risk Management/Insurance, Real Estate and Business Law
- + **Easton, Dexter M.**, Ph.D., Harvard; Service Professor of Biological Science
- + **Easton, Peter A.**, Ph.D., Florida State; Associate Professor of Educational Foundations and Policy Studies
- **Ebbers, Paul D.**, M.M., Associate Professor of Music
- Ebbers, Suzanne J.**, M.A., Assistant in Research, Learning Systems Institute
- Eberhardt, Julie L.**, B.S., Coordinator, Computer Applications, Office of Technology integration
- + **Ebener, Deborah J.**, Ph.D., Wisconsin; Associate Professor and Chair of Human Services and Studies
- + **Eberstein, Isaac Warren**, Ph.D., Texas at Austin; Chair and Professor of Sociology, and Research Associate, Center for the Study of Population
- + **Eckel, Lisa A.**, Ph.D., Western Ontario; Visiting Assistant Professor of Psychology
- Edgar, Sylvia**, L.J.D., Coordinator, Student Affairs, Dean of Students
- Edmonds, Mary B.**, B.A., Assistant Director, Information/Public Services, Media Relations
- **Edmondson, Laura**, Ph.D., Texas; Assistant Professor of Theatre
- + **Edwards, Barbara J.**, Ed.D., Kentucky; Associate Professor of Special Education
- Edwards, Clebern R. II**, B.A., Visiting University School Instructor, Developmental Research School
- **Edwards, Leigh H.**, Ph.D., University of Pennsylvania; Assistant Professor of English
- + **Edwards, Steve**, Ph.D., Johns Hopkins; Professor of Physics, Dean of the Faculties and Deputy Provost
- + **Efimov, Nina**, Ph.D., Florida State; Associate Professor of Modern Languages and Linguistics
- Eggebraatten, Gary B.**, Specialist, Computer Systems Control, School of Computational Science and Informational Technology
- Ehrhardt, Charles W.**, J.D., Iowa; Professor of Law
- Eichin, Mary B.**, B.S., Visiting University School Instructor, Developmental Research School
- + **Elam, John S.**, Ph.D., Minnesota; Associate Chair and Professor of Biological Science
- Ellingson, Robert G.**, Ph.D., Florida State; Professor and Chair of Meteorology
- Elish, Jill A.**, B.A., Coordinator, Information/Publications Services, Media Relations
- + **Ellington, W. Ross**, Ph.D., Rhode Island; Program Director and Professor of Biological Science
- Elliot, Lynn T.**, M.S.N., Visiting Assistant in Nursing
- Elliott, Susan E.**, B.A., Assistant University Registrar, Registrar
- Ellis, Marc H.**, Ph.D., Marquette; Visiting Professor of Religion
- Ellison, Amy S.**, M.F.A., Visiting Assistant in Film, School of Motion Picture, Television, and Recording Arts
- Ellison, Daryl H.**, B.S., Associate Director, Physical Plant, Facilities Planning and Construction
- + **Elsner, James Brian**, Ph.D., Wisconsin at Milwaukee; Professor of Geography
- Emmett, Mark R.**, Ph.D., Texas; Associate Scholar/Scientist, National High Magnetic Field Laboratory
- Emerick, Joling**, B.S., Coordinator, Computer Applications, Office of Technology Integration
- Eng, Tek-Lian M.**, B.A., Coordinator, Admissions/Registration, Admissions
- Engel, Lloyd M.**, Ph.D., Princeton; Associate Scholar/Scientist, National High Magnetic Field Laboratory
- Engelhardt, Rebecca J.**, M.A., Coordinator, Museum Operations, Ringling Museum
- + **English, R. William**, Ph.D., Wisconsin at Madison; Professor of Human Services and Studies
- Epley, Deanna**, Ph.D., Miami; Associate in Nursing
- **Epstein, Andrew D.**, Ph.D., Columbia; Assistant Professor of English
- + **Epstein, Lloyd M.**, Ph.D., Indiana; Associate Professor of Biological Science
- Epstein, Susan A.**, M.S.L.S., Associate Librarian, Career Center
- Erdem, Aysegul**, B.S., Specialist, Computer Research, Meteorology
- Erdos, Paul**, Ph.D., Institute of Theoretical Physics; Visiting Scholar/Scientist, Center for Biomedical and Toxicological Research
- + **Erickson, Gregory M.**, Ph.D., Berkeley; Assistant Professor of Biological Science

- Erickson, Thomas A.**, M.A., Visiting Assistant in Research, Center for Prevention
- + **Ericsson, Karl A.**, Ph.D., Stockholm; FSCW/Kingsbury Eminent Scholar in Honor and Memory of Dr. Edward Conradi, Psychology
- + **Erlebacher, Gordon**, Ph.D., Columbia; Professor of Mathematics
- + **Erndl, Kathleen M.**, Ph.D., Wisconsin; Associate Professor of Religion
- **Eugenio, Paul M.**, Ph.D., University of Massachusetts; Assistant Professor of Physics
- Evans, Chris A.**, B.S., Coordinator, Accounting, Controller
- Evans, Joe**, M.P.A., Instructor of Industrial Engineering
- Evans, Linda R.**, M.S.W., Visiting Assistant Professor of Social Work
- Evans, Mark S.**, M.L.S., Librarian, Law Library
- Everett, Cynthia J.**, M.A., Assistant in Distance Learning, Distance Learning
- Everett, Genevieve E.**, Ed.S., University School Associate Professor and Secondary Principal, Developmental Research School
- + **Fadool, Debra Ann**, Ph.D., Florida; Visiting Assistant Professor of Biological Science
- + **Fadool, James M.**, Ph.D., Michigan State; Visiting Assistant Professor of Biological Science
- Fagg, Deborah R.**, B.A., Executive Assistant, Vice President for Student Affairs
- Fahey, Collen E.**, B.S., Coordinator, Computer Applications, Center for Professional Development
- Fair, Michael Glen**, B.S., University School Instructor, Developmental Research School
- Faires, Michael D.**, M.S., Assistant Vice President for Administrative Affairs, Facilities Operations and Maintenance
- Fairhurst, Brian P.**, B.S., Faculty Administrator and Associate Program Director, National High Magnetic Field Laboratory
- Fairley, Elizabeth P.**, M.L.S., Librarian, University Libraries
- + **Fajer, Piotr G.**, Ph.D., Leeds; Professor of Biological Science
- Falconer, Mary K.**, Ph.D., Florida State; Research Associate, Social Work
- + **Falk, Dean**, Ph.D., University of Michigan; Professor of Anthropology
- Falmlen, Rodney L.**, M.S., Coordinator, Student Financial Aid, Student Financial Aid
- Fantham, Rosamund E.**, Ph.D., Liverpool University; Visiting Eminent Scholar of Classics
- **Faria, Sandra**, D.S.N., Alabama at Birmingham; Associate Professor of Nursing
- Farmer, Cecelia F.**, A.S.C., Coordinator, Administrative Services, School of Computational Science
- Farrell, Suzanne**, Francis Eppes Professor of Dance
- **Farrow, Lawrence**, Associate Professor of Music
- Fassig, Regina H.**, B.S., Coordinator, Academic Support Services, Human Science
- + **Faught, Michael K.**, Ph.D., Arizona; Assistant Professor of Anthropology
- **Faulk, Barry J.**, Ph.D., Illinois; Assistant Professor of English
- + **Feiock, Richard C.**, Ph.D., Kansas; Professor of Public Administration and Policy
- Feiock, Ruth S.**, M.S., Coordinator, Management Analysis, Vice President of Academic Affairs
- + **Fendrich, James M.**, Ph.D., Michigan State; Professor of Sociology
- Fenley, Sergio R.**, Ph.D., Princeton; Associate Professor of Mathematics
- Fennell, Leslie A.**, B.S., Assistant Director Human Resources/Personnel Relations, Personnel Services
- + **Fennema, Martin G.**, Ph.D., Illinois at Champaign; Associate Professor and Chair of Accounting
- + **Fenstermaker, John J.**, Ph.D., Ohio State; Distinguished Teaching Professor, 2000–2001; Distinguished Research Professor 2001–2002; Professor of English
- **Fenton, Kevin A.**, Ph.D., Florida State; Assistant Professor of Music
- Ferguson, Geraldine B.**, B.S., Business Manager, Office of Technology Integration
- Ferguson, Hege K.**, B.A., Coordinator, Admissions/Registration, Admissions
- Ferguson, Karen M.**, M.A., Assistant Professor of Aerospace Studies
- **Fernandez, Maria L.**, Ph.D., University of Georgia; Assistant Professor of Curriculum and Instruction
- + **Fernandez, Roberto G.**, Ph.D., Florida State; Professor of Modern Languages and Linguistics
- Ferner, James A.**, B.S., Associate Director for Facilities and Administration, and Scholar/Scientist, National High Magnetic Field Laboratory
- + **Ferris, Gerald R.**, Ph.D., Illinois at Urbana-Champaign; Francis Eppes Professor of Management
- Fichter, Nancy S.**, Ph.D., Texas Womens's University; Visiting Professor of Dance
- **Fichter, Robert W.**, M.F.A., Professor of Studio Art
- Field, Sullen**, B.A., Coordinator, Advance/Alumni Affairs, Ringling Museum
- **Fielding, Raymond E.**, Ph.D., Southern California; Dean and Professor of Motion Picture, Television, and Recording Arts
- Fields, Anika**, Ph.D., Tennessee; Director, University Counseling Center, Florida State University Counseling Center
- Fields, Regina M.**, M.S.N., Assistant in Nursing, Nursing
- + **Figley, Charles R.**, Ph.D., Pennsylvania State; Professor of Social Work
- Finch, Brian K.**, Ph.D., Texas; Assistant Professor of Sociology
- Finch, Julie M.**, M.S., Coordinator, Human Sciences, Center for Prevention and Early Intervention
- Finebloom, Elliot P.**, M.S., Coordinator, Sports Information, Athletics
- Finley, Amy M.**, M.S., Associate Librarian, Educational Services Program
- + **Finnegan, June E.**, Ph.D., Missouri at Columbia; Associate Professor of Art Education
- Finney, Janice V.**, B.S., Associate Director, Admissions
- Finney, Wright C.**, M.S., Associate in Academic and Research Affairs, Chemical Engineering
- Fiore, Giordano B.**, B.S., Associate in Biological Science, Biological Science
- + **Fiorito, Jack T.**, Ph.D., Illinois; J. Frank Dame Professor of Management, 1999
- + **Fiorito, Susan S.**, Ph.D., Oklahoma State; Associate Professor of Textiles and Consumer Sciences
- Fisher, Alice A.**, B.S., Associate in Research, Educational Services Program
- + **Fisher, Douglas L.**, M.M., Associate Professor of Music
- Fisher, Elizabeth**, Ph.D., Oxford; Visiting Professor of Law
- Fisher, Frederick A.**, M.A., Assistant in Information and Management Science
- Fisher, Lisa E.**, Coordinator, Research Programs/Services, Pepper Institute on Aging
- Fisher, Richard D.**, M.A., M.Ed., Faculty Administrator and Director, Challenger Learning Center
- Fisher, William W.**, M.F.A., Visiting Assistant Professor of Art
- + **Fisk, Zachary**, Ph.D., California at San Diego; Paul A.M. Dirac Professor of Physics, 1999, and National Academy of Sciences
- Fitzgerald, Kathryn L.**, M.S., Visiting University School Instructor, Developmental Research School
- Fitzgerald, Kevin R.**, B.S., Athletic Trainer, Athletics
- + **Flake, Janice L.**, Ph.D., Illinois; Professor of Educational Theory and Practice
- + **Flanagan, Scott C.**, Ph.D., Stanford; Service Professor of Political Science
- Fleeger, Samuel M.**, B.S., Coordinator, Computer Applications, Center for Professional Development
- Fleischer, Janice M.**, J.D., Miami; Coordinator, Research Programs/Services, Institute of Science and Public Affairs
- **Fleming, Raymond R.**, Ph.D., Harvard; Professor of Modern Languages and Linguistics
- Fletcher, Carole N.**, M.S., Visiting University School Instructor, Developmental Research School
- + **Fletcher, Donna Newcomer**, Ph.D., Florida State; Associate Professor of Human Services and Studies
- **Flint, Daniel J.**, Ph.D., Tennessee; Assistant Professor of Marketing
- Flodin, Mark W.**, M.D., Southern Alabama, Physician, Student Health Services
- Flower, James R.**, B.A., Visiting Assistant in Director's Office, Ringling Museum
- + **Flynn, Elizabeth R.**, Ph.D. Alabama; Associate Professor of Marketing
- Flynn, John L.**, Ph.D., Florida State; Assistant in Distance Learning
- Follman, Joseph M.**, M.A., Coordinator, Educational/Training Programs, Center for Civic Education and Services
- + **Foo, Simon**, Ph.D., South Carolina; Associate Professor of Electrical and Computer Engineering
- **Ford, W. Scott**, Ph.D., Kentucky; Associate Professor of Sociology
- **Ford-Kronholz, Barbara J.**, M.M., Michigan; Associate Professor of Music
- Ford, Ray**, B.S., Coordinator, Information/Publications Services, Housing
- **Foreman, Frederick J.**, M.S., Assistant Professor of Mechanical Engineering and Director of Minority Programs
- Forrester, Sheila M.**, Ph.D., Florida State; Visiting Instructor of Music
- Forster, Charles H.**, B.S., Assistant Director, Student Affairs, Multicultural Student Support Center
- Forsythe, Linda H.**, Coordinator, Academic Support Services, Undergraduate Advising Center
- + **Fortenberry, Norman L.**, Sg.D., Massachusetts Institute of Technology; Associate Director and Assistant Professor of Mechanical Engineering
- Foss, Donald J.**, Ph.D., Minnesota; Dean, College of Arts and Sciences, and Professor of Psychology
- Fosheim, Kristian J.**, Ph.D., Oslo; Visiting Scientist, National High Magnetic Field Laboratory
- Foster, Diane K.**, M.L.S., Instructor Librarian, Academic Affairs
- Foster, Elizabeth F.**, Ph.D., Coordinator, Academic Support Services, Psychology
- + **Foulk, David F.**, Ed.D., Tennessee; Chair and Professor, Department of Curriculum and Instruction
- + **Fournier, Gary M.**, Ph.D., Virginia; Professor of Economics
- + **Fowler, Douglas R.**, Ph.D., Cornell; Professor of English
- Fowler, Karey G.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- + **Fowler, Nancy Carolyn**, Ph.D., Ohio State; Professor of Music
- Foy, Margaret H.**, M.S., Visiting University School Instructor, Developmental Research School
- Foys, Martin K.**, Ph.D., Loyola; Assistant Professor of English
- Frame, Adrienne O.**, M.S.T., Assistant Director, Student Affairs, Housing
- **Frank, Deborah I.**, Ph.D., Florida State; Professor of Nursing
- Frankenberger, Margarita M.**, M.S., Coordinator, Educational/Training Programs, Stavros Center
- Franklin, Lisa H.**, B.A., Coordinator, Educational/Training Programs, Undergraduate Studies
- Franklin, Sharon P.**, M.S., Coordinator, Educational/Training Programs, Center for Prevention and Early Childhood
- Fraser, Bruce T.**, M.S., Visiting Research Associate, Information Studies
- Fraser, John A.**, M.A., Associate in Research and Director of Technology Transfer, Office of Research
- Fratello, Bradley P.**, Ph.D., Washington in St.Louis; Visiting Assistant Professor of Art History

- Frawley, Anthony D.**, Ph.D., Australian National University; Staff Physicist, Physics
- Frecker, Alicia P.**, E.D.S., Psychologist, Social Work
- Freeman, Charles S.**, Ph.D., Florida State; Visiting Assistant Professor of Music
- + **Freeman, Marc Edward**, Ph.D., West Virginia; Lloyd M. Beidler Professor of Biological Science, 2000, Distinguished Research Professor, 1994-1995
- Freeman, Sarah B.**, Visiting University School Instructor, Developmental Research School
- + **Freiberger, Jack W.**, Ph.D., New York; Associate Professor of Art History
- **Freiden, Jon B.**, Ph.D., Oklahoma; Associate Professor of Marketing
- French, Elizabeth S.**, M.F.A., Assistant Professor of English
- Freitag, Steven E.**, Coordinator, Research Programs/Services, Chemistry
- Frentz, Kevin T.**, Ph.D., Coordinator, Educational/Training Programs, Health Services Center
- Frichter, George M.**, IV, Ph.D., Florida State; Assistant in Research, Physics
- Friedrich, Charles T.**, A.S., Assistant Director, Telecommunications
- Frost, Geraldine A.**, B.A., Coordinator, Academic Support Services, College of Social Sciences
- Frost, Shawn B.**, Ph.D., Florida State; Assistant in Neuroscience, Psychology
- Fu, Riqiang**, Ph.D., Wuhan Institute; Assistant Scholar/Scientist, Chemistry
- + **Fuelberg, Henry E.**, Ph.D., Texas A&M; Professor of Meteorology
- + **Fueyo, Vivian**, Ph.D., Kansas University; Chair and Professor of Educational Theory and Practice
- Fulcher, Terry A.**, Coordinator, Management Analysis, Vice President's Office, Finance and Administration
- Fulkerson, Laurel**, Ph.D., Columbia; Assistant Professor of Classics
- + **Fulton, Robert L.**, Ph.D., Harvard; Professor of Chemistry
- **Funk, Fanchon Felice**, Ed.D., Tennessee; Associate Professor of Educational Leadership, and Academic Administrator, Learning Systems Institute
- + **Furbish, David J.**, Ph.D., Colorado; Chair and Professor of Geological Sciences
- **Gaber, Brian D.**, M.M., Assistant Professor of Music
- Gadson, Leekamase**, B.S., Coordinator, Admissions/Registrar, Admissions
- Gaede, Constance B.**, Ed.D., Indiana; Associate in University Teacher Education, College of Education, Dean's Office
- **Gaede, Owen F.**, Ph.D., Illinois; Professor of Computer Science, and Director, Office of Interactive Learning
- + **Gaffney, Betty Jean**, Ph.D., Stanford; Professor of Biological Sciences
- Gainer, Vickie L.**, B.S., Coordinator, Advancement/Alumni Affairs, Panama City Campus
- Gaines, Rebecca H.**, B.A. Visiting University School Instructor, Developmental Research School
- Gaitanis, Cynthia P.**, M.A., Visiting University School Instructor, Developmental Research School
- Gaitros, David A.**, M.S., Associate in Computer Science, Computer Science
- Galant, Kim**, Ph.D., Florida State; Assistant in Communication Disorders
- Galas, John K.**, M.A., Assistant Athletic Coach, Athletics
- + **Galeano, Juan C.**, Ph.D., Kentucky; Associate Professor of Modern Languages and Linguistics
- Gallagher, Kevin P.**, Ph.D., Weatherhead School of Management; Assistant Professor of Information and Management Sciences
- + **Gallard, Alejandro J.**, Ph.D., Michigan State; Associate Professor of Curriculum and Instruction
- + **Gallivan, Kyle A.**, Ph.D., Illinois; Professor of Computer Science
- Gan, Zhehong**, Ph.D., Utah; Assistant Scholar/Scientist, National High Magnetic Field Laboratory
- Gans, Mitchell D.**, Coordinator, Computer Applications, Office of Technology Integration
- Garcia-Roig, Lilian**, M.F.A., Associate Professor of Art
- Gardella-Lewis, Rose M.**, M.A., Coordinator, Human Resources/Personnel Relations, Human Resources
- Gardner, Jackson V.**, B.S., Coordinator, Budgeting, Budget and Analysis
- + **Gardner, Joann**, Ph.D., Johns Hopkins; Associate Professor of English
- Gardner, Lisa G.**, B.A., Coordinator, Admissions/Registrar, Admissions
- Garis, Jeffrey W.**, Ph.D., Pennsylvania State; Director of Career Development Services, Career Center
- Garis, Susan H.**, M.M.Ed., Assistant Director Academic Support Services, College of Business
- + **Garmestani, Hamid**, Ph.D., Cornell; Associate Professor of Mechanical Engineering
- + **Garretson, Peter P.**, Ph.D., London; Associate Chair and Associate Professor of History
- **Garriga, Carlos**, Ph.D., University of Barcelona; Visiting Assistant Professor of Economics
- Garshelis, Nikki T.**, M.S., Coordinator, Public Functions, Ringling Museum
- Garvey, Neal M.**, M.B.A., Coordinator, Business and Financial Auxiliary Services, Finance and Administration
- Garvin, Larry T.**, J.D., Yale; Professor of Law
- Gaskins, Angela H.**, B.S., Director, Business Finance/Auxiliary Services, Controller
- **Gatzlaff, Dean H.**, Ph.D., Florida; Associate Professor and Chair of Risk Management/Insurance, Real Estate and Business Law
- Gault, Robin R.**, Ph.D., Librarian, Law Library
- Gavrilin, Andrey V.**, Ph.D., Moscow; Visiting Assistant Scholar/Scientist, Office of Research
- Ge, Ling**, M.S., Research Associate, Civil and Environmental Engineering
- Geiger, Dione C.**, M.A. Associate Director, Research/Program Services, Sterling Committee
- **Gelabert, Kate W.**, M.F.A., Associate Professor of Theatre
- + **Gelb, Lev D.**, Ph.D., Cambridge; Assistant Professor of Chemistry
- Gelormino, Jill E.**, Ph.D., State University of New York; Director, Research Programs/Services, Child Development
- **Genz, Marcella D.**, Ph.D., University of California, Berkeley; Assistant Professor of Information Studies
- + **George, Alan D.**, Ph.D., Florida State; Associate Professor of Electrical and Computer Engineering
- George, Joey F.**, Ph.D., California at Irvine; Thomas L. Williams, Jr., Eminent Scholar in Management Information Sciences
- + **Georgiev, Lubomir Z.**, Associate Professor of Music
- **Gerard, Gregory J.**, Ph.D., Michigan State; Assistant Professor of Accounting
- **Gerato, Erasmo G.**, Ph.D., Wisconsin; Director, Linkage Institutes, and Professor of Modern Languages and Linguistics
- Gerato, Lorilyne**, B.S., Director, Space Utilization and Analysis, Facilities Planning
- + **Gerber, Larry J.**, M.M., Professor of Music
- Gernatt, Theresa A.**, M.S.M., Assistant Athletic Coach, Women's Basketball
- Gerrey, Mary C.**, M.I.S., Assistant in Research, Educational Services Program, Institute of Science and Public Affairs
- + **Gerson, Paula Lieber**, Ph.D., Colombia; Chair and Professor of Art History
- Gertel, Susan D.**, M.S.Ed., Visiting University School Instructor, Developmental Research School
- + **Gertz, Marc G.**, Ph.D., Connecticut; Professor of Criminology and Criminal Justice
- Gertz, Sally C.**, J.D., Florida State; Assistant in Law, Law
- Gessner, Linda J.**, Ph.D., Florida State; Assistant in Communication Disorders, Communication Disorders
- Gey, Steven G.**, J.D., Columbia; Professor of Law
- Gibbons, Margie Rush**, M.S., University School Assistant Professor, Developmental Research School
- + **Gibbs, Stephen J.**, Ph.D., Wisconsin; Assistant Professor of Chemical Engineering and Assistant Program Director, National High Magnetic Field Laboratory
- Gibson, Karen E.**, B.S., Coordinator Purchasing, Purchasing
- Gibson, Robin M.**, B.A., Coordinator, Intercollegiate Athletics, Intercollegiate Athletics
- Giddens, Annie L.**, M.S.W., Assistant in Field Instruction, Social Work
- + **Gielisse, Peter J.**, Ph.D., Ohio State; Professor of Mechanical Engineering
- Giles, Stephen W.**, M.S., Assistant Athletic Coach, Athletics
- Giletto, John B.**, M.F.A., Visiting Associate Professor of Asolo Conservatory
- Gill, Barbara**, M.A., Research Associate and Associate Program Director, Learning Systems Institute
- Gill, Robert W.**, B.S., Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- Gilley, Pamela N.**, B.S., Coordinator, Business Financial/Auxiliary Services, Academic Business Administrators, Controller
- Gillis, Christopher A.**, Coordinator, Computer Applications, Psychology
- + **Gilmer, Penny J.**, Ph.D., California at Berkeley; Professor of Chemistry
- + **Gilmer, Robert**, Ph.D., Louisiana State; Professor of Mathematics, Robert O. Lawton Distinguished Professor 1981-1982
- Gitlin, David E.**, Ph.D., Florida; Psychologist, Student Counseling Center
- + **Giunipero, Larry C.**, Ph.D., Michigan State; Professor of Marketing
- Gladden, James M.**, M.A., Associate Head Athletic Coach, Football
- Gladwin, William J., Jr.**, J.D., Southwestern University; Associate General Counsel, General Counsel
- Glass, Debra B.**, B.S., Pharmacist, Student Health Services
- Gleason, Greg A.**, L.J.D., Associate General Counsel, General Counsel
- + **Glendenning, Karen K.**, Ph.D., Ohio State; Professor of Psychology
- + **Glenn, Justin M.**, Ph.D., Princeton; Service Professor of Classics
- **Glenn, Timothy D.**, M.F.A., Assistant Professor of Dance
- + **Glick, Henry R.**, Ph.D., Tulane; Professor of Political Science
- + **Godbey, Cynthia L.**, M.A., Research Associate, Center for Policy Studies in Education
- Goddard, Melissa K.**, A.S.C., Coordinator, Business Financial/Auxiliary Services, Academic Business Administrators, Controller
- Goddard, Robert E.**, M.S., Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- Goellner, Jody M.**, B.S., Coordinator, Admissions/Registration, Admissions
- Goetze, Nicholas K.**, B.S., Head Athletic Coach, Athletics
- + **Goff, C. Bryan**, M.M., Professor of Music
- Goffigan, Walter E.**, B.S., Coordinator, Academic Support Services, Athletics
- Golden, Allison M.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
- + **Golden, Leon**, Ph.D., Chicago; Professor of Classics and Director, Program in Humanities
- Goldman, Joel H.**, Ph.D., Maryland; Associate Scholar/Scientist, Physics

- + **Goldsby, Kenneth A.**, Ph.D., North Carolina; Associate Professor of Chemistry, Distinguished Teaching Professor, 1997-1998, Director, University Honors Program
- + **Goldsmith, Elizabeth B.**, Ph.D., Michigan State; Professor of Textiles and Consumer Sciences
- + **Goldsmith, Ronald E.**, Ph.D., Alabama; Professor of Marketing
- + **Goldstein, Howard**, Ph.D., Vanderbilt; Chair and Professor of Communication Disorders
- Goldstein, Jeren S.**, M.A., Assistant in Distance Learning
- Goli, Umesh B.**, Ph.D., Kent State; Assistant in Research, Institute of Molecular Biophysics
- **Gomariz, Jose**, Ph.D., Illinois; Assistant Professor of Modern Languages
- Gomory, Francine M.**, C.S.W., Visiting Assistant Professor of Social Work
- + **Gomory, Tomi**, Ph.D., Berkely; Assistant Professor of Social Work
- Gontarski, Marsha**, Ph.D., Florida State; Visiting Instructor of Educational Theory and Practice
- + **Gontarski, Stan E.**, Ph.D., Ohio State; Sarah Herndon Professor of English, 1999, Distinguished Research Professor, 1999 – 2000
- + **Gonzalez, Anita**, Ph.D., Wisconsin; Assistant Professor of Theatre
- Gonzalez, Cheryl**, B.S., Assistant Director, Human Resources/Personnel Relations, Personnel/Services
- Gonzalez, Evelyn J.**, M.B.A., Assistant in Public Management, Florida Center for Public Management
- Goodlett, Karen C.**, B.S., Coordinator, Human Resources/Personnel Relations, Personnel Services
- **Goodman, Robin J.**, Ph.D., New York University; Assistant Professor of English
- Goodson, Ludy A.**, M.A., Assistant in Distance Learning, Distance Learning
- Goonesekera, Ranil**, Coordinator, Information/Publications Services, University Communications
- Gordon, Larry J.**, Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- Gore, Stephanie**, J.D., Chicago; Assistant Professor of Law
- Gorin, Marcia**, M.A., Librarian, University Libraries
- Gor'Kov, Lev P.**, Dr.Sc., Ioffe Physical Technical Institute, Leningrad; Professor of Physics, and Program Director, National High Magnetic Field Laboratory
- Gor'Kov, Petr L'Vovich**, M.S., Assistant in Engineering, National High Magnetic Field Laboratory
- Gormin, David A.**, Ph.D., Florida State; Coordinator, Research Programs and Services, Chemistry
- Gorsuch, Christopher J.**, M.L.S., Assistant Department Head and Librarian, University Libraries
- Gotlesman, Ian**, Coordinator, Computer Applications, Academic Computing and Network Services
- Gough, Amy E.**, M.S., Assistant Director, Admissions, Admissions
- + **Gould, Leroy C.**, Ph.D., Washington; Professor of Criminology and Criminal Justice
- Gowan, T. Dave**, Ph.D., Coordinator, Academic Support Services, Undergraduate Studies
- Graf, Jo A.**, Ph.D., Florida State; Head Athletic Coach, Softball
- Graham, Denison C.**, B.S., Assistant Director, Business Financial/Auxiliary Services, WFSU-TV ABA Program
- Graham, Keith A.**, B.S., Coordinator, Intercollegiate Athletics
- Graham, Mimi A.**, Ed.D., Miami; Associate in Research, Center for Prevention and Early Intervention
- **Graham, Pamela W.**, M.S.W., Director of the Masters of Social Work Program and Associate Professor of Social Work
- Graham-Jones, Brian**, B.A., Assistant in Research, Criminology
- + **Graham-Jones, Jean**, Ph.D., California at Los Angeles; Associate Professor of Modern Languages and Linguistics
- Granger, Donna E.**, Ph.D., Florida State; Associate in Research, Biological Science
- + **Grant, Jonathan A.**, Ph.D., Wisconsin at Madison; Associate Professor of History
- Grant, Reginald C.**, M.S.T., Coordinator, Information/Publications Services, School of Information Studies
- Grasso, Filipinas S.**, B.S., Coordinator, Student Affairs, Campus Recreation
- Gratt, Gary J.**, B.S., Pharmacy Manager, Student Health Services
- Graves, Robert M.**, B.A., Assistant Director, University Computer Systems, Office of Technology Integration
- + **Gray, Edward G.**, Ph.D., Brown; Assistant Professor of History
- Gray, James M.**, B.A., Coordinator, Student Affairs, University Union
- Gray, Laymon L., Jr.**, B.S., Assistant in Research, Center for Biomedical and Toxic Research
- Gray, Nancy S.**, M.S.N., Visiting Assistant in Nursing
- + **Greaves, Richard L.**, Ph.D., London; Chair and Professor of History, Robert O. Lawton Distinguished Professor 1989-1990
- + **Greek, Cecil E.**, Ph.D., New School for Social Research; Associate Professor of Criminology and Criminal Justice
- Green, A. Bennett, Jr.**, M.R.E., Program Director, Psychology
- Green, Benjamin C.**, M.A., Assistant in Public Management, Center for Public Management
- Green, Danette L.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- + **Green, Elna C.**, Ph.D., Tulane; Associate Professor of History
- Green, Lana R.**, M.S., Coordinator, Academic Support Services, College of Medicine
- + **Greenbaum, Nancy L.**, Ph.D., Pennsylvania; Assistant Professor of Chemistry
- Greene, Gerald D.**, Coordinator, Computer Applications, Center for Prevention and Early Intervention
- + **Greenwood, Bonnie B.**, Ph.D., Florida State; Associate Dean, Human Sciences, and Associate Professor of Family and Child Sciences
- Greenwood, Linda E.**, Coordinator, Equal Opportunity Programs, Inspector General
- Greer, Diane P.**, B.S., Coordinator, Advancement/Alumni Affairs, Office of the Vice President

- Grek, Marcia Lynn**, M.Ed., Visiting Instructional Specialist, Psychology
- Griffith, Elwin J.**, J.D., Brooklyn; LL.M., New York University School of Law; Professor of Law
- Griffith, Winston**, B.S., Associate Director of Facilities Planning, Campus Design
- Grigorian, Ishkhan H.J.**, M.A., Associate in Mathematics
- + **Grindal, Bruce T.**, Ph.D., Indiana; Professor of Anthropology
- Grippa, Kimberly A.**, J.D., Florida State; Visiting Assistant in Law
- + **Grise, Kay S.**, Ph.D., Tennessee; Associate Professor of Textiles and Consumer Sciences
- Grise, Phillip J.**, Ph.D., Florida State; Associate, Scholar/Scientist, Communication
- + **Grizzle, Gloria A.**, Ph.D., North Carolina; Professor of Public Administration and Economic Policy and Government
- Groeniger, Scott D.**, M.F.A., Assistant Professor of Art
- Groh, James A.**, M.S., Coordinator, Computer Applications, College of Education
- **Groomes, Freddie L.**, Ph.D., Florida State; Associate Professor of Human Services and Studies, Executive Assistant, and Director of Equal Opportunity and Pluralism.
- + **Gross, Frank B., III**, Ph.D., Ohio State; Associate Professor of Electrical and Computer Engineering
- Gross, Joshua M.**, Ph.D., Psychologist, FSU Student Counseling Center
- Gross, Linda F.**, B.M.Ed., Faculty Administrator, Dean of the Faculties
- **Gross, Melissa R.**, Ph.D., California at Los Angeles; Visiting Assistant Professor of Information Studies
- Grossman, Sheryl A.**, M.S., Coordinator, Educational/Training Programs, Florida Resources and Environmental Analysis Center
- **Grubbs, Laurie M.**, M.S.N., Associate Professor of Nursing
- Grunstein, Davina**, M.F.A., Visiting Assistant Professor of Art
- Gryski, Gerald S.**, Ph.D., Massachusetts; Instructor of Political Science
- Gu, Jiujing, M.S.**, Assistant in Research, Meteorology
- Gundlach, Scott R.**, A.A.S., Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- Gurel, Lance W.**, M.S., Coordinator, Accounting, Controller
- Gussak, David E.**, Ph.D., Emporia State; Visiting Assistant Professor of Art Education
- Gutherie, David R.**, M.S.N., Visiting Assistant in Nursing
- Gutherie, Jean M.**, B.A., Visiting Instructional Specialist, Housing/Alumni Village
- **Gutierrez, Robert**, Ed.D., Florida International; Assistant Professor of Educational Theory and Practice
- + **Guy, Mary E.**, Ph.D., South Carolina; Professor of Public Administration and Policy and Jerry Collins Eminent Scholar in Public Administration
- Guyer, Robert L.**, J.D., Florida; Visiting Instructor of Political Science
- + **Gwartney, James D.**, Ph.D., Washington; Professor of Economics, and Research Associate, Economic Policy and Government Program
- Habib, Ellen M.**, M.S., Coordinator, Administrative Services, School of Information Studies
- Hablewitz, Craig S.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
- **Hackworth, Jason R.**, Ph.D., Rutgers; Assistant Professor of Geography
- + **Hadden, Sally E.**, Ph.D., Harvard; Assistant Professor of History
- **Hadley, Patrick D.**, Ph.D., Ohio State; Assistant Professor of Communication
- Hagan, John**, Ph.D., Alberta; Visiting Professor of Criminology
- Hagen, Kristen K.**, M.S., Coordinator, Student Affairs, International Student Center
- **Hagen, Richard L.**, Ph.D., Illinois; Service Associate Professor of Psychology
- Haggins, Odell, Jr.**, B.S., Assistant Director, Intercollegiate Athletics, Football
- Hagopian, Sharon L.**, Ph.D., Pennsylvania; Staff Physicist, Physics
- + **Hagopian, Vasken**, Ph.D., Pennsylvania; Joseph E. Lannutti Professor of Physics, 1999, and Distinguished Research Professor, 1997 – 1998
- + **Hahn, Cynthia J.**, Ph.D., Johns Hopkins; Gulnar K. Bosch Professor of Art History, 2000
- + **Haik, Yousef S.**, Ph.D., Florida State; Associate Scholar/Scientist/Engineer, Engineering
- Hall, Donovan W.**, M.S., Assistant in Research, National High Magnetic Field Laboratory
- Hall, John C.**, Assistant in Research, Center for Prevention and Early Intervention

- Hall, John M.**, M.A., Research Associate, Institute for Science and Public Affairs
- Hall, Linda**, M.F.A., Visiting Assistant Professor of Art
- **Hall, Millard W.**, Ph.D., Illinois; Professor of Civil and Environmental Engineering
 - Hall, Vanessa L.**, B.S., Coordinator, Computer Applications, College of Medicine
 - + **Halpern, Paul G.**, Ph.D., Harvard; Service Professor of History
 - Halvorson, Sandra H.**, Ph.D., Florida State; Assistant in Instruction, College of Communication Panama City Branch Campus
 - Hamilton, Lori C.**, B.S., Coordinator, Admissions/Registration, Admissions
 - Han, Ke**, Ph.D., Oxford; Assistant Scholar/Scientist, Office of Research
 - Han, Kerang**, Ph.D., Ohio State; Associate in Engineering, Industrial Engineering
 - Handschy, Patricia**, B.A., Coordinator, Administrative Services, School of Social Work
 - Handy, David G.**, M.S., Coordinator, Research Programs/Services, Home and Family Life
 - Hankin, Michael D.**, B.A., Coordinator, Management Analysis, Vice President for Finance and Administration
 - Hankinson, Allison B.**, B.A., Visiting Instructional Specialist, Psychology
 - + **Hanline, Mary**, Ph.D., California at Berkeley; Associate Professor and Chair of Special Education
 - Hanna, Paul M.**, M.S., Specialist, Computer Research, College of Social Sciences
 - Hannahs, Scott Thiers**, Ph.D., California at Los Angeles; Research Associate, National High Magnetic Field Laboratory
 - Hansard, Margaret L.**, B.S., Coordinator, Academic Support Services, Undergraduate Studies
 - + **Hansen, John N.**, Ph.D., Wisconsin; Service Professor of Educational Theory and Practice
 - + **Hansen, Thomas F.**, Ph.D., Oslo; Visiting Assistant Professor of Biology
 - Haq, Quzi M.**, B.S., Specialist, Computer Systems Control, FIRN
 - Harden, Christina G.**, B.S., Instructional Specialist, Educational Research Center for Childhood Development
 - **Hardiman, Carole J.**, M.S., Professor of Communication Disorders
 - + **Hardy, Melissa A.**, Ph.D., Indiana; Raymond F. Bellamy Professor of Sociology, 2000, and Program Director, Pepper Institute on Aging
 - Hare, Joan T.**, Ph.D., Florida State; Assistant Scholar/Scientist, Institute of Molecular Biophysics
 - + **Hargreaves, Alec G.**, Ph.D., University of Sussex; Ada Belle Winthrop-King Chair in French
 - Hargrove, Kevin L.**, B.A., Coordinator, Administrative Services, Athletics
 - Harkema, Reinard, Jr.**, Ph.D., Florida State; Specialist, Computer Research, Oceanography
 - Harley, Frances M.**, M.P.A., Director, Environmental Health and Safety
 - Harmon, George J.**, M.S., Associate Librarian, University Libraries
 - Harper, Andrew H.**, B.B.A., Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
 - Harper, Kathleen M.**, Ph.D., D.V.M., Georgia; Associate in Research, Laboratory Animal Resources
 - Harper, Neil J.**, B.S., Head Athletic Coach, Women's Swimming
 - Harrell, Stephanie B.**, B.S., Visiting University School Instructor, Developmental Research School
 - Harrell, Theresa M.**, B.S., Coordinator, Administrative Services, Florida Center for Public Management
 - Harris, Donald C.**, M.A., Specialist, Student Counseling, Student Counseling Center
 - Harris, James O.**, M.D., Mississippi; Faculty Administrator, Associate Dean and Interim Chair, Internal Medicine
 - Harris, John C.**, B.S., Business Manager, Facilities, Operations, and Maintenance
 - Harris, Kimberly J.**, Ed.D., Virginia Polytechnic Institute; Associate Professor of Hospitality
 - Harris, Marvin.**, B.A., Coordinator, Student Affairs, Student Government
 - Harris, Phaedra**, M.S., Coordinator, Human Resources/Personnel Relations, Human Resources
 - **Harris, Tonya A.**, M.N., Associate Professor of Nursing
 - + **Harrison, Dianne F.**, Ph.D., Washington; Professor of Social Work, Associate Vice-President for Academic Affairs, and Acting Dean of Graduate Studies
 - Harrison, George T.**, B.S., Associate Controller, Controller
 - + **Harsanyi, Janice**, B.M., Professor of Music
 - Hart, David R., Jr.**, M.A., Athletic Director, Intercollegiate Athletics
 - Hart, Michael F.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
 - Hart, Stephanie L.**, B.A., Coordinator, Academic Support Services, Undergraduate Studies
 - + **Hart, Thomas L.**, Ph.D., Case Western Reserve; Professor of Information Studies
 - + **Hartline, Michael D.**, Ph.D., Memphis; Assistant Professor of Marketing
 - **Hartwell, Janice E.**, M.F.A., Associate Professor of Studio Art
 - **Harvey, Bruce A.**, Ph.D., Georgia Institute of Technology; Assistant Professor of Electrical and Computer Engineering
 - Harvey, Cheryl Mariell**, B.S., Coordinator, Continuing Education, Center for Professional Development
 - Hascicek, Yusuf S.**, Ph.D., Oxford; Scholar/Scientist, National High Magnetic Field Laboratory
 - + **Hasselback, James R.**, Ph.D., Michigan State; Professor of Accounting
 - Hassler, Laura B.**, Ph.D., Florida State; Associate Professor and Acting Director, Learning Systems Institute
 - Hattaway, Patricia J.**, M.S., Visiting Instructor, Textiles and Consumer Sciences
 - + **Hawkes, Lois W.**, Ph.D., London; Professor of Computer Science
 - + **Hawkins, Hunt**, Ph.D., Stanford; Professor and Chair of English
 - Hawkins, Thomas C.**, M.B.A., Director, Business Financial/Auxiliary Services, Controller
 - Hayes, Carole**, M.S., Assistant in Distance Learning, Distance Learning
 - Hayes, Fyanne**, Coordinator, Educational Media/Communications, Ringling Museum
 - + **Haymes, Emily M.**, Ph.D., Pennsylvania State; C. Etta Walters Professor of Exercise Science, 2000, Professor of Nutrition, Food, and Exercise Sciences
 - Hays, James R.**, Ph.D., Florida State; Visiting Instructor of English
 - Hays, Kenneth M.**, B.S., Specialist, Computer Systems Control, Academic Computing and Network Services
 - Hayward, Patricia C.**, Ph.D., Florida State; Associate Vice President for Academic Support and Enrollment Management, Office of the Provost
 - + **Hazelrigg, Lawrence E.**, Ph.D., Texas at Austin; Professor of Sociology
 - + **Heald, Gary R.**, Ph.D., Michigan State; Associate Dean and Professor of Communication
 - Hecker, Karl Heinz**, Ph.D., Florida State; Visiting Research Associate, Biological Science
 - Hedick, Katherine M.**, B.S., Coordinator, Information/Public Services, National High Magnetic Field Laboratory
 - Heffron, Audrey Stevenson**, B.S., Assistant in Public Affairs, Florida Public Affairs Center
 - Heggins, Jimmy L.**, B.S., Assistant Athletic Coach, Football
 - Heidler, Elizabeth A.**, M.S.T., Coordinator, University Housing, Housing
 - + **Heil, Wolfgang H.**, Ph.D., Rice; Professor of Mathematics
 - Heiman, Carol A.**, M.S., Associate in Biological Science, Biological Science
 - Heintz, Roy C.**, B.S., Assistant Athletic Coach, Athletics
 - + **Heitmeyer, Jeanne D.**, Ph.D., Florida State; Associate Professor of Textiles and Consumer Sciences
 - Helin, Tracey A.**, M.S., Ed.S., Visiting University School Instructor, Developmental Research School
 - Helfand, Leonard T.**, L.J.D., Associate General Counsel, General Counsel
 - Heller, Urs M.**, Ph.D., Rutgers; Scholar/Scientist, School of Computational Science and Information Technology
 - Hemphill, Lia S.**, M.B.A., Visiting Instructor, Center for Professional Development
 - Henderson, Colleen T.**, B.S., Assistant Director, Telecommunications, Telecommunications
 - Henderson, James R.**, B.A., Director, University Computer Systems, Office of Technology Integration
 - Henderson, Jennifer L.**, B.A., Coordinator, Human Resources/Personnel Relations, Human Resources
 - Henderson, Phyllis G.**, M.S., Assistant Director, Business Financial/Auxiliary Services, Academic Business Administrators, Controller
 - Henderson, Ross P.**, M.S., Research Associate, Psychology
 - Hendrickson, Christopher**, Ph.D., Texas at Austin; Associate Scholar/Scientist, National High Magnetic Field Laboratory
 - Hendry, Jeffrey H.**, M.A., Assistant Director, Research/Program Services, Florida Institute of Government
 - Henker, Linda M.**, B.S., Coordinator, Accounting, Controller
 - Henley, Robert W.**, M.B.A., Associate Director, Human Resources/Personnel Relations, Human Resources
 - Hennessey, James E.**, Ph.D., Psychologist, Student Counseling Center
 - Henning, Linda A.**, Coordinator, Administrative Services, Alumni Affairs
 - Henricks, Henry E.**, Coordinator, Research Programs and Services, Chemistry
 - + **Hensel, Paul R.**, Ph.D., Illinois; Associate Professor of Political Science
 - Hensley, Laura E.**, M.B.A., Assistant Director, Business Financial/Auxiliary Services, Academic Business Administrators, Controller
 - Hensley, Linda B.**, B.S., Coordinator, Academic Support Services, Motion Picture, TV, and Recording Arts
 - + **Henthorn, Ronald F.**, M.S., Associate University Registrar, Registrar
 - Heo, Misook**, Ph.D., Pittsburgh; Visiting Assistant Professor of Information Studies
 - Herbert, Shawn M.**, Coordinator, Academic Support Services, College of Business
 - Hernadez, Gema G.**, D.P.A., Nova; Visiting Lecturer of Public Administration
 - Hernandez, Henry K.**, B.A., Faculty Administrator and Program Director, Florida Office of Collegiate Volunteerism
 - Hernandez, Minerva C.**, M.D., Physician, Thagard Health Center
 - + **Hernandez-Gantes, Victor M.**, Ph.D., Virginia Polytechnic Institute; Associate Professor of Educational Leadership
 - Herndon, Roy C.**, Ph.D., Florida State; Director, Center for Biomedical and Toxic Research
 - Hernet, Christin A.**, B.S., Coordinator, Human Resources/Personnel Relations, Human Resources
 - **Heron, Melonie P.**, Ph.D., Pennsylvania State; Assistant Professor of Sociology
 - Herr, Yvette D.**, M.S., Associate University Registrar, Panama City Campus
 - Herrera, Alberto Jr.**, M.L.S., Assistant Director and Librarian, University Libraries

- **Herrera, Robinson A.**, Ph.D., California at Los Angeles; Assistant Professor of History
- Herrero, Daisy B.**, M.A., Assistant Director, Academic Support Services, Minority Academic Programs
- Herring, Brenda H.**, M.S., Coordinator, Research Programs/Services, Florida Resources and Environmental Analysis Center
- Herring, Laurie M.**, B.A., Coordinator, Academic Support Services, College of Engineering
- + **Herrington, Carolyn D.**, Ph.D., Florida; Chair and Associate Professor of Educational Leadership
- + **Herrnkind, William Frank**, Ph.D., Miami; Robert K. Godfrey Professor of Biological Science, 2000
- Herzog, Catherine P.**, M.S., Assistant in Beacon Learning Center Evaluation, Panama City Branch
- Hestor, Melanie M.**, M.S., Visiting University School Instructor, Developmental Research School
- Hickman, Michael M.**, B.S., University School Instructor, Developmental Research School
- Hicks, Kimberly D.**, Coordinator, Academic Support Services, College of Business
- + **Hicks, Mary Ward**, Ph.D., Pennsylvania State; Professor of Family and Child Sciences
- Higbee, Scott A.**, M.S.W., Visiting Assistant Professor of Social Work
- Higgins, Harrison T.**, M.S., Research Associate in Urban and Regional Planning
- Hightower, Jimmy L., Jr.**, B.S., Courtesy Assistant in Administration, Military Sciences
- + **Hilary, Richard B.**, Ph.D., Wisconsin; Associate Professor of Modern Languages and Linguistics
- + **Hilinski, Edwin F.**, Ph.D., Yale; Associate Professor of Chemistry
- Hilker, Jerry D.**, B.S., Coordinator, Insurance and Risk, Athletics
- + **Hill, E. Wayne, Ph.D.**, North Carolina; Associate Professor of Family and Child Sciences
- Hill, Laschel E.**, Coordinator, Admissions/Registration, College of Law
- Hill, Mollie H.**, Assistant in Community Clinical Relations, College of Medicine
- + **Hillison, William A.**, Ph.D., Florida; Professor of Accounting
- Hines, Twanna A.**, M.S., Coordinator, Information/Publications Services, International Programs
- Hipes, Daniel L.**, M.S., Assistant Director, Research Programs/Services, Florida Resources and Environmental Analysis Center
- + **Hironaka, Eriko**, Ph.D., Brown; Assistant Professor of Mathematics
- Hirsch, Adam J.**, Ph.D., J.D., Yale; Professor of Law
- Hitron, John W.**, Ph.D., Washington; Associate Director, Research Programs and Services, Marine Facilities Laboratory
- + **Ho, Ting Jui**, Ph.D., Indiana; Associate Professor of Anthropology
- Ho, Tin-Lun**, Ph.D., Cornell; Visiting Scholar Scientist, National High Magnetic Field Laboratory
- **Hochwarter, Wayne A.**, Ph.D., Florida State; Assistant Professor of Management
- Hocker, Anita G.**, Ed.D., University of South Florida; Coordinator, Academic Programs, Curriculum and Instruction
- Hodge, Stephen W.**, M.B.A., Research Associate, Florida Resources and Environmental Analysis Center
- **Hodges, Anne R.**, D.M., Florida State; Program Director of Music
- Hodges, Beth E.**, B.A., Coordinator, Research Programs/Services, Sponsored Research
- + **Hodges, Donald Clark**, Ph.D., Columbia; Professor of Philosophy
- Hoecherl, Scott A.**, B.A., Coordinator, Research/Program Services, Pepper Institute on Aging
- + **Hoekman, Timothy**, D.M.A., Michigan; Professor of Music
- + **Hofaker, Charles F.**, Ph.D., California at Los Angeles; Professor of Marketing
- + **Hofer, Kurt G.**, Ph.D., Vienna; Professor of Biological Science, Distinguished Teaching Professor, 1989–1990, Robert O. Lawton Distinguished Professor, 1994–1995
- + **Hoffman, James J.**, Ph.D., Nebraska; Professor of Management
- Hogan, Jeffrey E.**, M.S., University School Assistant Professor, Developmental Research School
- Hogan, Terry Lynn**, Ph.D., Bowling Green State; Associate Dean and Associate Professor, Theatre
- + **Holcombe, Randall G.**, Ph.D., Virginia Polytechnic Institute; Professor of Economics
- Holden, Robert T.**, Ph.D., Vanderbilt; Assistant Director, University Computer Systems, Academic Computer and Network Services
- Holden, Vicki S.**, B.S., Assistant Director, Multipurpose Facility, School of Theatre
- Holgate, Katherine S.**, Coordinator Business and Financial Auxiliary Services, Finance and Administrative – ABA—Ringling Museum
- Holland, Daniel Harty**, B.A., Assistant in Film, School of Motion Picture, Television and Recording Arts
- Holland, Jack M.**, B.S., Visiting Assistant in Research, Center for Prevention and Early Intervention Policy
- + **Hollander, Myles**, Ph.D., Stanford; Chair and Professor of Statistics, Distinguished Research Professor 1995–1996, and Robert O. Lawton Distinguished Professor, 1998–1999
- Hollins, Thomas N.**, M.A., Assistant Dean, Student Affairs, Dean of Students
- + **Hollis, Patrick J.**, Ph.D., Cornell; Associate Professor of Mechanical Engineering
- Holshue, Lucinda A.**, M.F.A., Associate Professor and Assistant Program Director of Theatre
- + **Holton, Robert A.**, Ph.D., Florida State; Matthew Suffness Professor of Chemistry, Distinguished Research Professor, 1999–2000
- + **Holzman, Bruce**, D.M.A., Associate Professor of Music
- Honeycutt, Noreen J.**, Ph.D., Maryland; Visiting Assistant Professor of Social Work
- **Hong, Seunghun**, Ph.D., Purdue; Visiting Assistant Professor of Physics
- **Hook, Charles E.**, M.F.A., Associate Professor of Studio Art
- Hook, Karl S.**, B.S., University School Associate Professor, Developmental Research School, Assistant in Research, National High Magnetic Field Laboratory
- Hoover, Myrna P.**, M.S., Associate Director, Career Development Services, Career Center
- Hoover, Terry Davis**, Ph.D., Florida State; Visiting Assistant in Research, Office of Research
- Hornsby, Patricia J.**, Ed.S., Florida; Research Associate, Center for Studies in Teaching and Learning
- Horrigan-Filloon, Ann L.**, B.S., Coordinator, Human Services, Center for Prevention
- Horton, Jeffrey N.**, B.S., Coordinator, Management Analysis, College of Business
- + **Horward, Donald D.**, Ph.D., Minnesota; Professor of History and Ben Weider Eminent Scholar in Napoleonic and French Revolutionary Studies, Distinguished Teaching Professor, 1989–1990
- Hoskins, James H.**, Visiting Associate Professor of Asolo Conservatory
- + **Houck, Davis W.**, Ph.D., Pennsylvania; Assistant Professor of Communication
- Houff, Susanne M.**, M.Ed., Coordinator, Academic Support Services, Undergraduate Studies
- Houle, Arthur J.**, B.S., Coordinator, Computer Systems Control, Academic Computer and Network Services
- + **Houle, David C., Ph.D.**, State University of New York; Assistant Professor of Biological Science
- + **Houpt, Thomas A.**, Ph.D., Harvard; Assistant Professor of Biological Science
- Houston, Debra**, Ph.D., South Florida; Associate in Research, Learning Systems Institute
- Howard, Joyce**, Ph.D., Associate Dean of Students, Dean of Students
- Howard, Leasa B.**, B.S., Coordinator, Human Resources/Personnel Relations, Human Resources
- Howard, Robert M.**, B.A., Assistant Director, Multipurpose Facility, University Union
- Howell, Richard L.**, M.S., Research Associate, Center for Policy Studies in Education
- Hruda, Simone**, B.S., Associate Chair and Associate Professor, Mechanical Engineering
- + **Hsueh, Ya**, Ph.D., Johns Hopkins; Professor of Oceanography, and Research Associate, Geophysical Fluid Dynamics Institute
- Hu, Fang Qiang**, Ph.D., Florida State; Visiting Research Associate, Computational Science and Engineering Program
- Hu, Lei**, M.S., Coordinator, Research Programs/Services, Biological Science
- + **Huang, Wenrui**, Ph.D., Rhode Island; Visiting Assistant Professor of Civil and Environmental Engineering
- Huber, Charlotte H.**, M.S., Coordinator, Academic Programs, International Programs
- + **Huckaba, Sam W.**, Ph.D., Purdue; Professor and Associate Chair of Mathematics
- Hudson, Delores Y.**, M.S., Associate in Communication Disorders, Communication
- Hudson, Harriette A.**, Coordinator, Human Resources/Personnel Relations, Human Resources
- Hudson, Jean L.**, M.A., Assistant in Art History, Art History
- Hudson, Lori D.**, B.A., University School Instructor, Developmental Research School
- Hudson, William E.**, M.A., Faculty Administrator and Coordinator of Multicultural Student Support Center
- + **Huffer, Frederick W.**, Ph.D., Stanford; Associate Professor of Statistics
- Hultquist, Dwayne E.**, B.S., Head Athletic Coach, Men's Tennis
- + **Humphrey, David B.**, Ph.D., California at Berkeley; Professor of Finance and Fannie Wilson Smith Eminent Scholar in Banking
- Humphreys, Sheila M.**, Assistant Professor of Dance
- Humphries, Frederick S.**, Ph.D., Pittsburgh; Professor of Chemical Engineering
- Hungerford, Kenneth W.**, L.J.D., Coordinator, Research Programs/Services, Sponsored Research
- + **Hunter, Christopher**, Ph.D., Cambridge; Professor of Mathematics, McKenzie Professor
- Hurst, Charles T.**, B.S., Associate Director, Intercollegiate Athletics, Central Administration
- Hurst, Dena Lynne**, B.A., Assistant in Research, Institute for Science and Public Affairs
- + **Hurt, Myra M.**, Ph.D., Tennessee; Associate Professor of Biological Science
- + **Hussaini, Mohammed Yousuff**, Ph.D., California; Professor of Mathematics and Thinking Machines, Inc., Eminent Scholar in Data Parallel Super Computing
- Hutlon, Jessica D.**, B.S., Coordinator, Accounting, Controller
- Hutto, Lori K.**, M.S., Visiting University School Instructor, Developmental Research School
- + **Hyson, Richard L.**, Ph.D., Colorado; Associate Professor of Psychology
- Hytnen, Eric**, M.L.S., Librarian, University Libraries
- **Icerman, Joe D.**, Ph.D., North Carolina; Associate Dean, College of Business, and Associate Professor of Accounting
- + **Icerman, Rhoda C.**, D.B.A., Florida State; Professor of Accounting
- Iglesias, Eileen M.**, M.S., Coordinator, Research Programs/Services, College of Education
- + **Ihlanfeldt, Keith R.**, Ph.D., Washington; Professor of Economics and DeVoe L. Moore Eminent Scholar in Economic Policy and Government
- Iliif, William R.**, M.S., Coordinator, Business and Financial/Auxiliary Services, Business Services

- Imen, Kamran**, Ph.D., Southern California; Assistant in Electrical Engineering
- + **Imershein, Allen W.**, Ph.D., North Carolina; Professor of Sociology
- + **Imwold, Charles H.**, Ph.D., Pittsburgh; Chair and Professor of Physical Education
- + **Inci, Ahmet C.**, Ph.D., Michigan; Visiting Assistant Professor of Finance
- Ingles, Kevin J.**, B.S., Visiting Assistant in Research, Meteorology
- Inouye, Brian D.**, Ph.D., Duke; Assistant Professor of Biological Science
- Ira, Maria Lowrde M.**, M.A., Coordinator, Student Affairs, International Student Center
- Irizarry, Armando, J.D.**, Michigan; Visiting Assistant Professor of Law
- + **Irvin, Judith L.**, Ph.D., Florida State; Professor of Educational Leadership
- Irwin, Jason R.**, M.F.A., Visiting Assistant Professor of Art
- + **Isaac, Larry W.**, Ph.D., Indiana; Professor of Sociology
- + **Issac, Robert M.**, Ph.D., California Institute of Technology; Quin Eminent Scholar Chair of Economics
- Isaac, Susan A.**, M.B.A., Associate in Economics
- + **Iverson, Richard L.**, Ph.D., Oregon State; Program Director and Professor of Oceanography
- Jackson, Alfred J.**, M.S.S.W., Visiting Instructor of Social Work, Center for Professional Development
- Jackson, Dale R.**, Ph.D., Coordinator, Research Programs/Services, Florida Resources and Environmental Analysis Center
- + **Jackson, Edgar N.**, Ph.D., New Mexico; Assistant Professor of Physical Education
- Jackson, Jesse L.**, M.S., Principal and University School Assistant Professor, Developmental Research School
- Jackson, Robert A.**, Ph.D., Indiana University; Associate Professor of Political Science
- Jacobs, Joseph W.**, J.D., Yale; Professor of Law
- **Jacobson, Rupert Daniel**, Ph.D., Queens of Belfast; Assistant Professor of Geography
- Jacobson, Thomas L.**, B.S., Assistant Director, Environmental Health and Safety, Environmental Health and Safety
- + **Jakubowski, Elizabeth Henderson**, Ed.D., Georgia; Associate Dean, College of Education, and Associate Professor of Curriculum and Instruction
- Jakubowski, Eric D.**, Ph.D., Florida State; Visiting Instructor of Curriculum and Instruction
- James, Denise O.**, Specialist, Computer Systems Control, Florida Information Resource Network
- + **James, Frances C.**, Ph.D., Arkansas; Pasquale Graziadei Professor of Biological Science, 1999, and Distinguished Research Professor 1995 – 1996
- + **James, Patrick**, Ph.D., Maryland; Professor of Political Science
- Jamison, Barbara J.**, M.S.N., Instructor of Nursing
- Janasiewicz, Bruce A.**, Ed.D., Indiana; Academic Administrator, Undergraduate Studies
- Janecek, Thomas R.**, Ph.D., Michigan; Associate Curator, Geological Sciences
- Jarrard, John B.**, B.S., Coordinator, Computer Applications, Center for Professional Development
- Jeffrey, Patrick S.**, B.S., Assistant Athletic Director, Men's Swimming
- Jenkins, Althea O.**, Ed. D., Nova; Librarian and Director of University Libraries
- Jenkins, Ann D.**, M.S., Coordinator, Continuing Education, Center for Professional Development
- Jenkins, Clifford T.**, B.S., Coordinator, Accounting, Health Services
- + **Jenks, Frederick L.**, Ph.D., Wayne State, Professor of Curriculum and Instruction
- Jennings, Cheryl D.**, Ph.D., Associate Director Educational/ Training Programs, Stavros Center
- Jennings, Danielle J.**, M.S.W., Coordinator, Human Services, Center for Prevention
- Jensen, Peter E.**, B.S., Specialist, Computer Applications, National High Magnetic Field Laboratory
- Jensen, Ysonde G.**, B.S., Coordinator, Administrative Services, National High Magnetic Field Laboratory
- **Jeong, Allan C.**, M.S., Visiting Assistant Professor of Educational Research
- Jernigan, James**, B.S., Specialist Computer Systems Control, College of Business
- Jernigan, Jill M.**, M.S., Visiting Assistant in Public Management, Florida Center for Public Management
- Jernigan, Mary W.**, M.S., Assistant Director, Educational/Training Programs, Employee Assistance Program
- Jewell, Sonia L.**, B.A., Director, Research Programs/Services, Sponsored Research
- Jimeian, Jane M.**, B.S., Assistant in Research, Oceanography
- **Jimenez, Alexander E.**, D.M., Florida State; Assistant Professor of Music
- Joanos, Betty W.**, Ph.D., Florida State; Coordinator, Advancement and Alumni Affairs, Alumni Affairs
- Johnson, Angelia Y.**, Assistant Athletic Coach, Athletics
- Johnson, Ann F.**, Ph.D., Coordinator, Research Programs/Services, Florida Resource and Environmental Analysis Center
- Johnson, Barbara M.**, M.A., Assistant in Research, Educational Services Program
- Johnson, Christine E.**, M.S., Associate in Research, Learning Systems Institute
- Johnson, Claudia H.**, Ph.D., Florida State; Associate in Film, School of Motion Picture, Television, and Recording Arts
- + **Johnson, David E.**, Ph.D., Cornell; Associate Professor of English
- + **Johnson, Dewayne J.**, Ph.D., Texas A&M; Professor of Physical Education
- Johnson, E. Marlene**, M.F.A., Visiting Assistant Professor of Theatre
- Johnson, Elizabeth L.**, M.S., Coordinator, Computer Applications, International Programs
- Johnson, Faye F.**, M.Ed., Visiting Assistant in Research, Center for Prevention and Early Intervention Policy
- Johnson, Ida S.**, Coordinator, Student Financial Aid, Financial Aid
- + **Johnson, James Franklyn**, Ph.D., California at Riverside; Assistant Professor of Psychology
- Johnson, Kelli F.**, B.A., Specialist, Student Counseling, Student Counseling Center
- Johnson, Kenneth C.**, B.S., Specialist, Computer Systems Control, College of Medicine
- Johnson, Kurtis F.**, Ph.D., Chicago; Specialist Computer Research, Physics
- Johnson, Latasha N.**, B.A., Coordinator, Admissions/Registration, Admissions
- Johnson, Merry A.**, M.S., Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- Johnson, Nan Edith**, Ph.D., Pennsylvania State; Visiting Professor of Sociology
- Johnson, Rhett**, B.S., Coordinator, Space Utility and Analysis, Registrar
- Johnson, Roxanne B.**, Coordinator, Research/Program Services, Center for Prevention and Early Intervention
- Johnson, Tanya L.**, M.S., Coordinator, Intercollegiate Athletics, Athletics
- Johnson, Terri L.**, B.S., Coordinator, Academic Support Services, Meteorology
- Johnson, Willete J.**, M.S., Visiting Assistant in Research, Computational Science and Information Technology
- Johnston, Helena S.**, B.S., Assistant Director, Business Financial/Auxiliary Services, International Programs
- + **Joiner, Thomas E., Jr.**, Ph.D., Texas at Austin; Bright-Burton Professor of Psychology
- Jones, Danae S.**, B.A., Coordinator, Broadcasting, WFSU-FM Radio
- Jones, Faye R.**, B.S., Coordinator, Administrative Services, Academic Business Administration-Controller
- Jones, Evan A.**, Ph.D., Rochester; Assistant Professor of Music
- + **Jones, Ithel**, Ed.D., Georgia; Assistant Professor of Educational Theory and Practice
- + **Jones, James P., Jr.**, Ph.D., Florida; Professor of History, Distinguished Teaching Professor, 1990–1991
- **Jones, Lee J.**, Ph.D., Ohio State; Associate Dean, and Associate Professor of Educational Leadership
- Jones, Linda W.**, B.S., Visiting University School Instructor, Developmental Research School
- Jones, Lisa Pickles**, M.S., Visiting Instructional Specialist, Psychology
- + **Jones, Maxine D.**, Ph.D., Florida State; Professor of History
- Jones, Penelope A.**, B.S., Coordinator, Telecommunications
- Jones, Robert M.**, J.D., California at Davis; Director, Conflict Resolution Consortium, Institute for Science and Public Affairs
- Jones Devine, Judith J.**, Ph.D., Tennessee; Assistant in Graduate Studies
- **Jordan, Dale F.**, B.F.A., Associate Professor of Theatre
- + **Jordan, Felecia F.**, Ed.D., West Virginia; Associate Professor of Communication
- Jordan, Kimberly S.**, M.S., Coordinator, Career Development Services, Career Center
- Jordan, Rodney B.**, B.A., Assistant Professor of Music
- **Jordan, William F.**, Ph.D., Georgia State; Service Professor of Accounting
- + **Josserand, J. Kathryn**, Ph.D., Tulane; Associate Professor of Anthropology
- Jost, Jon E.**, B.A., Coordinator, Intercollegiate Athletics, Athletics
- Judy, George E.**, M.F.A., Professor of Theatre
- Jue, Dean K.**, M.S., Director, Florida Resources and Environmental Analysis Center, Institute for Science and Public Affairs
- Jue, Sally S.**, B.S., Coordinator, Research Programs/Services, Florida Resources and Environmental Analysis Center
- Juhan, Mixon M.**, Ed.D., Florida; Visiting Associate in Research, Learning Systems Institute
- Jugger, Sharal J.**, B.S., Coordinator, Accounting, Controller
- Julian, Christopher J.**, M.F.A., Visiting Assistant in Film, School of Motion Picture, Television, and Recording Arts
- + **Jumonville, Neil T.**, Ph.D., Harvard; William Warren Rogers Professor of History, 1999
- Jurand, Robert B.**, J.D., Memphis; Associate General Counsel, Office of the General Counsel
- + **Kacmar, Charles J.**, Ph.D., Texas A&M; Associate Professor of Information and Management Science
- + **Kacmar, K. Michele**, Ph.D., Texas A&M; Charles A. Rovetta Professor of Management, 2000, Professor of Management
- Kalb, John M.**, Ph.D., Florida State; Director, Institutional Research, Budget and Analysis
- **Kalbian, Aline V.**, Ph.D., Virginia; Assistant Professor of Religion
- Kaleko, Jed M.**, M.F.A., Assistant in Film, Motion Picture, Television, and Recording Arts
- + **Kalu, Eric E.**, Ph.D., Texas A&M; Assistant Professor of Chemical Engineering
- + **Kalu, Peter N.**, Ph.D., London; Associate Professor of Mechanical Engineering
- + **Kamata, Akihito**, Ph.D., Michigan State; Visiting Assistant Professor of Educational Research
- **Kaminsky, Stuart M.**, Ph.D., Northwestern; Professor of Motion Picture, Television, and Recording Arts and Director, Graduate Film Conservatory

- **Kangas, David J.**, Ph.D., Yale; Assistant Professor of Religion
- Kanyicska, Bela**, B.S., Visiting Associate in Research, Biological Science
- + **Karahanna, Elena**, Ph.D., Minnesota; Assistant Professor of Management Information Sciences
- Karantinos, Christa G.**, Coordinator, Student Affairs, University Union
- **Karioth, E. Joseph**, Ph.D., Minnesota; Professor of Theatre
- **Karioth, Sally J.**, Ph.D., Florida State; Associate Professor of Nursing
- Karl, Matthew C.**, B.S., Coordinator, Telecommunications, Telecommunications
- + **Kaufman, Roger**, Ph.D., New York; Professor of Educational Research, and Director of Learning Systems Institute
- Kaup, Barbara**, Ph.D., Technische Universität Berlin; Visiting Assistant in Cognitive Science
- Kaushik, Rajiv**, M.S., Coordinator, Computer Applications, Office of Technology Integration
- **Kavka, Martin T.**, Ph.D., Rice; Assistant Professor of Religion
- Keating, Patrick J.**, B.S., Director Radio/TV Station
- Keelean, Matthew J.**, M.A., Coordinator, Curriculum Publications, Registrar
- + **Keesecker, Jeffrey**, M.M., Associate Professor of Music
- Keicheval, Alec N.**, Ph.D., California at Berkeley; Associate Professor of Mathematics
- Keiffer, Ralph J.**, M.P.A., Assistant Director, Continuing Education, Florida Center for Public Management
- Keith, Lydia M.**, M.F.A., Coordinator, Student Affairs, Union Art Center
- Kelleher, Edward T.**, M.S.W., Visiting Instructor of Academic Affairs
- + **Keller, John M.**, Ph.D., Indiana; Professor of Educational Research
- + **Keller, Laura R.**, Ph.D., Virginia; Associate Professor of Biological Science
- + **Keller, Thomas C.S., III**, Ph.D., Virginia; Associate Professor of Biological Science
- Kellett, Nancy**, M.S., Coordinator, Computer Applications, Office of Technology Integration
- + **Kelley, Colleen M.**, Ph.D., Stanford; Associate Professor of Psychology
- Kelley, Lisa D.**, M.S., University School Instructor, Developmental Research School
- Kelley, Melanie S.**, M.S., Assitant in Beacon Learning Center, Panama City Branch
- Kelley, Thomas B.**, Ph.D., Florida State; Assistant in Criminology, Panama City Branch
- Kelly, Deborah G.**, B.S., Coordinator, Computer Applications, Academic Computing and Network Services
- + **Kelly, F. Donald**, Ph.D., Florida; Associate Professor of Human Services and Studies
- Kelly, Rhonda L.**, M.S., Athletic Trainer, Athletics
- **Kelly, Steven N.**, Ph.D., Kansas; Assistant Professor of Music
- + **Kelsay, John E.**, Ph.D., Virginia; Richard L. Rubenstein Professor of Religion, 2000, Chair and Professor of Religion
- Kelsky, Jaime L.**, B.A., Coordinator, Academic Support Services, Distance Learning
- **Kemker, Brett E.**, Ph.D., Florida; Assistant Professor of Communication Disorders
- Kemp, Kathleen A.**, Ph.D., Northwestern; Associate Professor of Political Science
- Kemper, Ann**, M.S., Visiting Instructor Librarian, Law Library
- + **Kemper, Kirby W.**, Ph.D., Indiana; Robert O. Lawton Distinguished Professor, 2002 – 2003, John David Fox Professor of Physics, 2000, Distinguished Research Professor, 1993 – 1994, Chair and Professor of Physics
- Kendal-Reed, Martin S.**, Ph.D., Warwick; Visiting Assistant Scholar/Scientist, Arts and Sciences Dean's Office
- Kennedy, Anthony D.**, Ph.D., Sussex; Associate Professor of Physics and Scientist, School of Computational Science and Information Technology
- Kennedy, Holly E.**, M.M., M.M.E., University School Assistant Professor, Developmental Research School
- Kennedy, Lauren M.**, M.S., Assistant Dean, Student Affairs, Dean of Students
- Kennedy, Randall L.**, J.D., Yale; Visiting Eminent Scholar, Law
- **Kennedy, William L.**, M.M., Associate Professor of Music
- Kennell, Patrick C.**, M.S., Coordinator, Continuing Education, Center for Professional Development
- Kenney, Steven**, Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- **Kent, Robert Aubrey William**, M.S., Visiting Assistant Professor of Physical Education
- Kenyon, James J.**, M.A., Assistant in Research, Criminology
- Keranen, Joyce**, B.S., Visiting Assistant in Research, Institute for Science and Public Affairs
- Kerbs, John**, Ph.D., Michigan; Assistant Professor of Criminology
- Kerce, Kingsley F.**, M.S., Associate in Distance Learning, Distance Learning
- Kerns, Sandra J.**, M.S.W., Florida State; Visiting Instructor of Social Work
- Keroack, Karen**, M.S.W., Associate in Field Instruction, Social Work and Center for Professional Development
- Kerr, Barbara**, B.S., Instructor of Theatre
- Kerr, Donald R.**, Ph.D., Lehigh, Florida State; Psychologist, Psychology
- + **Ketchen, David J., Jr.**, Ph.D., Pennsylvania State; Associate Professor of Management
- Khankhasayev, Mikhail**, Ph.D., Joint Institute for Nuclear Research; Research Associate, Center for Biomedical and Toxicological Research
- Kidwell, Candence K.**, Ph.D., Florida State; Assistant in English, English
- **Kiefer, Douglas W.**, Donald Brittain Professor of Cinematography, 2000, and Associate in Film, School of Motion Picture, Television, and Recording Arts
- **Killick, Andrew P.**, Ph.D., Washington; Visiting Assistant Professor of Music
- Kilpatrick, Tonya C.**, B.S., Coordinator, Administrative Services, Institute of Molecular Biophysics
- Kim, Eundeok**, Ph.D., Iowa State; Visiting Assistant Professor of Textiles and Consumer Sciences
- + **Kim, HeeMin**, Ph.D., Washington; Associate Professor of Political Science
- Kim, Hyun S.**, Ph.D., Ohio State; Visiting Assistant in Research, National High Magnetic Field Laboratory
- Kim, Jeeyoung**, M.S., Assistant in Meteorology, Meteorology
- **Kim, Keonwook**, Ph.D., Florida; Visting Assistant Professor of Electrical and Computer Engineering
- + **Kim, Kwang Y.**, Ph.D., Texas A & M; Associate Professor of Meteorology
- **Kimbrell, James H.**, Ph.D., Missouri, Assistant Professor of English
- Kimbrough-Haggins, Robin L.**, B.S., Coordinator, Advancement/Alumni Affairs, Vice President of Student Affairs
- + **Kimel, Jacob Daniel, Jr.**, Ph.D., Wisconsin; Professor of Physics
- Kincannon, William C.**, Assistant in Mechanical Engineering
- Kincey, Sundra D.**, M.B.A., Coordinator, Academic Support Services, Undergraduate Studies
- **Kind, Kennita R.**, Ph.D., Georgia; Assistant Professor of Textiles and Consumer Sciences
- Kindell, Carolyn E.**, M.S., Coordinator, Research Programs/Services, Florida Resources and Environmental Analysis Center
- Kinerson, Leonard J.**, A.A., Coordinator, Computer Applications, Religion
- Kines, Austin J.**, M.S., Assistant Athletic Coach, Athletics
- King, F.J.**, Ph.D., Texas; Visiting Research Associate, Educational Services Program
- King, Lance E.**, B.S., B.A., Assistant in Biological Science
- King, Raynell**, B.S., Coordinator, Accounting, Controller
- King, Roy I.**, M.S., Visiting Associate in Research, Florida Resources and Environmental Analysis Center
- King, Susan S.**, M.S.N., Assistant in Nursing
- King, Tameka L.**, B.S., Visiting University School Instructor, Developmental Research School
- Kingsbury, Celia M.**, Ph.D., Florida State; Visiting Instructor of English
- + **Kinloch, Graham**, Ph.D., Purdue; Associate Dean for Academic Affairs, and Professor of Sociology
- Kinnally, Nancy M.**, M.A., Coordinator, Information/Publications Services, College of Medicine
- Kinney, James R.**, M.B.A., Coordinator, Accounting, Controller
- Kinney, Marcelle A.**, Ph.D., Florida; Visiting Instructor of Public Administration and Policy
- Kinney, Venita A.**, Coordinator, Administrative Services, Institute of Science and Public Affairs
- Kinsaul, Alisa J.**, B.S., Coordinator, Information and Public Service, Panama City Campus
- Kinsey, Jenny L.**, M.S., Associate Director, Research Programs/Services, National High Magnetic Field Laboratory
- + **Kirby, David K.**, Ph.D., Johns Hopkins; Professor of English, McKenzie Professor
- Kirby, Penelope A.**, Ph.D., Florida State; Assistant in Mathematics
- + **Kish, Stephen A.**, Ph.D., North Carolina; Associate Professor and Associate Chair of Geological Sciences
- Kissinger, Mildred N.**, M.S., Research Associate, Center for Teaching and Learning, College of Education
- + **Kistner, Janet A.**, Ph.D., State University of New York; Professor of Psychology
- + **Kite-Powell, Jeffery T.**, Ph.D., Hamburg; Professor of Music
- Kittel, Gina M.**, M.S., Assistant Director, Student Affairs, Center for Civic Education and Service
- Kitterman, Thomas W.**, M.S.T., Specialist, Computer Systems Control, Academic Computing and Network Services
- Kiwala, John A.**, B.S., Coordinator, Research Programs and Services, Graduate Studies and Research
- Kizirian, Lucy B.**, Ph.D., Florida State; Psychologist, Student Counseling Center
- + **Klassen, Eric P.**, Ph.D., Cornell; Associate Professor of Mathematics
- Klatt, Edward C.**, M.D., Loma Linda; Professor of Medicine
- Klawinski, Mark J.**, M.S.T., Coordinator, Environmental Health and Safety, Environmental Health and Safety
- + **Klay, William Earle**, Ph.D., Georgia; Professor of Public Administration and Policy Studies and Director, Askew School of Public Administration and Policy
- + **Kleck, Gary D.**, Ph.D., Illinois at Urbana-Champaign; Professor of Criminology and Criminal Justice
- + **Kline, John P.**, Ph.D., Arizona; Assistant Professor of Psychology
- **Klooster, Daniel J.**, Ph.D., California at Los Angeles; Assistant Professor of Geography
- Knerr, Richard J.**, Coordinator, Computer Systems Control, Northwest Regional Data Center
- Knight, Amy L.**, M.S., Coordinator, Research Programs/Services, Florida Resources and Environmental Analysis Center
- **Knight, Gary A.**, Ph.D., Michigan State; Assistant Professor of Marketing

- Knight, Gary R.**, M.S., Director, Research Programs/Services, Florida Resources and Environmental Analysis Center
- Knight, Sherrell L.**, B.S., Coordinator, Telecommunications, Telecommunications
- Knowles, Thomas N.**, M.B.A., Assistant Vice President for Administrative Affairs, Facilities Planning and Construction
- Knox, Claire A.**, B.S., Coordinator, Administrative Services, School of Criminology
- Knox, Jimmie C.**, B.S., Coordinator, Computer Systems Control, Academic Computing and Network Services
- Koch, Mark R.**, M.S., Assistant Professor of Aerospace Studies
- + **Kodras, Janet E.**, Ph.D., Ohio State; Professor of Geography
- **Koehlinger, Amy L.**, M.A., Visiting Assistant Professor of Religion
- Koenig, Christopher C.**, Ph.D., Florida State; Associate in Research, Biological Science
- **Koenig, Peter A.**, M.A., Associate Professor of Interior Design
- Koerner, Fredrick K.**, B.S., Assistant in Research, School of Computational Science and Information Technology
- **Kohler, Patricia L.**, M.S.N., Associate Professor of Nursing
- + **Kohout, Ladislav**, Ph.D., Essex; Professor of Computer Science
- Kohout-Stabile, Isabel**, Ph.D., London; Scholar/Scientist, Center for Prevention and Early Intervention
- Kollar, Loreen K.**, B.S., Coordinator, Education and Training Programs, Center for Biomedical and Toxicological Research
- Koontz, Christine M.**, Ph.D., Florida State; Research Associate, Florida Resources and Environmental Analysis Center
- + **Koorland, Mark A.**, Ph.D., Florida; Professor of Special Education
- Kopel, Scott A.**, J.D., Coordinator, Computer Applications, English
- + **Kopriva, David A.**, Ph.D., Arizona; Professor of Mathematics and Mechanical Engineering
- Koschatzky, Richard K.**, B.S., Visiting University School Instructor, Developmental Research School
- **Koschnik, Albrecht O.**, Ph.D., Virginia; Visiting Assistant Professor of History
- Kosiewski, Gillian M.**, B.S., Assistant Director Institutional Research, Budget and Analysis
- + **Kosloski, Gary W.**, D.M., Indiana; Professor of Music
- + **Kostka, Joel E.**, Ph.D., Delaware; Assistant Professor of Oceanography
- Kott, Roger A.**, Coordinator, Educational/Training Programs, Center for Professional Development
- Koutsandreas, John D.**, M.S., Research Associate, Center for Biomedical and Toxicological Research
- + **Kowalsky, Frank**, D.M.A., Catholic; Joseph A. White Professor of Music, 2000
- Kozar, Mary A.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- + **Krafft, Marie E.**, Ph.D., Virginia Polytechnic Institute; Professor of Chemistry
- Krafft, Peter A.**, M.A., Director, Florida Resource and Environmental Analysis Center
- Krantz, Murray**, Ph.D., Pennsylvania State; Professor of Family and Child Sciences
- Krawetz, Sandra.**, B.A., Associate Director, Advancement/Alumni Affairs, Ringling Museum
- Kreimer, Caroline L.**, B.A., Specialist, Computer Research, College of Business
- Krieger, Lawrence S.**, J.D., Florida; Associate in Law, Law
- Kriegner, Lawrence S.**, M.A., Visiting Assistant in Research, Center for Policy Studies in Education
- + **Krishnamurti, Ruby E.**, Ph.D., California at Los Angeles; Professor of Oceanography, and Research Associate, Geophysical Fluid Dynamics Institute
- + **Krishnamurti, Tiruvalam N.**, Ph.D., Chicago; Professor of Meteorology, Robert O. Lawton Distinguished Professor 1985–1986
- Krivit, Nancy K.**, M.S.W., Coordinator, Human Services, Center for Prevention
- Kromhout, Ethan A.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
- + **Krothapalli, Anjaneyulu**, Ph.D., Stanford; Chair and Professor of Mechanical Engineering, and Don Fuqua Eminent Scholar in Engineering and Science
- Krupenevich, Scott T.**, B.S., Specialist, Computer Research, Florida Resources and Environmental Analysis Center
- Krzystek, Jerzy**, Ph.D., Institute of Physics, Polish Academy of Sciences; Associate Scholar/Scientist, National High Magnetic Field Laboratory
- + **Kubik, Ladislav**, Ph.D., Prague Academy of Music
- Kublin, Kary S.**, M.S., Visiting Assistant in Communication Disorders, Center for Autism
- Kuehn, Linda K.**, B.S., Visiting Assistant in Research, Florida Resources and Environmental Analysis Center
- **Kuhn, David G.**, Ph.D., Pennsylvania State; Associate Professor of Management
- Kuhns, Philip L.**, Ph.D., William and Mary; Associate Scholar/Scientist, National High Magnetic Field Laboratory
- Kung, Robin J.**, Ph.D., Colorado State; Associate Scholar/Scientist, Geophysical Fluid Dynamics Institute
- Kunkel, Richard C.**, Ph.D., St. Louis; Professor of Educational Leadership and Dean of Education
- Kuperberg, J. Michael**, Ph.D., Florida A & M; Associate in Research, Center for Biomedical and Toxicological Research
- + **Kurosu, Michio**, Ph.D., Osaka; Visiting Assistant Professor of Chemistry
- Kutter, Mary Y.**, Ph.D., Florida State; Visiting Instructor of Mathematics
- + **Kwan, Bing W.**, Ph.D., Ohio State; Associate Professor of Electrical and Computer Engineering
- Kynoch, John G.**, B.S., Assistant Director, Research Programs/Services, National High Magnetic Field Laboratory
- Lacey, Mark D.**, M.B.A., Coordinator, Human Resources/Personnel Relations, Human Resources
- + **Lacher, Robert C.**, Ph.D., Georgia; Professor of Computer Science
- La Count, Edna E.**, B.S., Visiting University School Instructor, Developmental Research School
- Ladd, Kathleen S.**, M.S., Coordinator, Statistical Research, Pepper Institute on Aging
- Lager, Patricia B.**, M.S.W., Faculty Administrator and Director of Field Instruction, School of Social Work
- Lager, Thomas W.**, J.D., Florida State; Visiting Assistant Professor of Social Work
- LaHart, David E.**, Ph.D., Florida State; Research Associate, Florida Resources and Environmental Analysis Center
- Lake, Michael P.**, M.S., Assistant Director, University Budget, Budget and Analysis
- **Lake, Vickie E.**, Ph.D., Texas at Austin; Assistant Professor of Educational Theory and Practice
- Lamb, William E.**, Coordinator, Space Utilization/Analysis, Vice President Finance and Administration
- Lambie, Carla M.**, B.S., Coordinator, Management Analysis, Financial Aid
- Lamm, James E.**, Ph.D., Florida State; Assistant in Research, Meteorology
- + **Lamont, Bruce T.**, Ph.D., North Carolina at Chapel Hill; Professor of Management
- Lampman, Susan J.**, M.S.W., Coordinator, Continuing Education, Pepper Institute on Aging
- **Lan, Feng**, Ph.D., Notre Dame; Assistant Professor of Modern Languages
- + **Landing, William M.**, Ph.D., California at Santa Cruz; Professor of Oceanography
- Landis, Elizabeth K.**, M.S., Assistant in Communication Disorders, Communication Disorders
- **Landry, Timothy D.**, Ph.D., Missouri; Assistant Professor of Marketing
- Landford, Ernest E., Jr.**, Ed.D., Brigham Young; Assistant in Hospitality
- + **Lang, Alan R.**, Ph.D., Wisconsin; Professor of Psychology
- LaPlante, Mario**, M.F.A., Visiting Assistant Professor of Art
- + **LaPointe, Leonard L.**, Ph.D., Colorado; Professor of Communication Disorders
- LaRow, Timothy E.**, Ph.D., Research Associate, Meteorology
- Larson, John W.**, J.D., Iowa; Associate Professor of Law
- Larson, Pamela J.**, B.A., Visiting Assistant in Health Policy, Social Sciences
- + **LaSeur, Noel E.**, Ph.D., Chicago; Service Professor of Meteorology
- Lasker, Joanne P.**, Ph.D., Nebraska; Assistant Professor of Communication Disorders
- Lasseigne, David Glenn**, Ph.D., Northwestern; Visiting Scholar/Scientist/Engineer, Computational Science and Education
- Lata, John W.**, M.S., Coordinator, Intercollegiate Athletics, Athletics
- Latham, Don L.**, Ph.D., Georgia; Faculty Administrator/Academic Administrator of Information Studies
- La Tour, Charles M.**, B.S., Lecturer of Hospitality
- Laudadio, Dante M.**, Ph.D., Michigan State; Associate Professor of Hospitality
- + **Laughlin, Karen**, Ph.D., Toronto; Associate Professor of English
- + **Launer, Michael K.**, Ph.D., Princeton; Service Professor of Modern Languages and Linguistics
- Laurienzo, Elizabeth D.**, M.B.A., Specialist, Computer Applications, Office of Technology Integration
- Lauterbach, Sarah H.**, Ed.D.; Columbia; Visiting Associate Professor of Nursing
- Lavine, Tammy J.**, B.S., Coordinator, Accounting, Controller
- Lawson, Carmen V.**, Assistant in Research, National High Magnetic Field Laboratory
- Layne, Mary L.**, B.A., Coordinator, Administrative Services, National High Magnetic Field Laboratory
- Layzell, Daniel T.**, Ph.D., Florida State; Visiting Instructor of Educational Leadership
- Lazor, Joseph A.**, M.S., Assistant Director, University Computer Systems, Office of Technology Integration
- Le, Richard N.**, B.S., Coordinator, Environmental Health and Safety, Environmental Health and Safety
- Leach, Robin H.**, Ph.D., Florida State; Associate Dean for Student Affairs, Dean of Students
- Leach, Stephen P.**, Ph.D., Florida State; Assistant Scholar/Scientist, Computer Science, Distinguished Teaching Professor 1994 – 1995
- Leader, Glenn C.**, M.A., Visiting Assistant Professor of Theatre
- **Leahy, Gerard J.**, M.F.A., Associate Professor of Theatre
- Lebed, Andrei G.**, Ph.D., Landau Institute for Theoretical Physics; Visiting Scholar/Scientist, National High Magnetic Field Laboratory
- LeBel, Paul A.**, J.D., Florida; Professor of Law
- + **LeBlanc, Leona B.**, Ph.D., Kansas; Professor of Modern Languages and Linguistics
- LeBlanc, Rita E.**, M.S., Associate in Research, Institute for Science and Public Affairs
- Lebow, David G.**, Ph.D., Florida State; Visiting Assistant Professor of Educational Research
- Lee, Brian M.**, M.D., Physician, Thagard Health Center
- Lee, Cheryl B.**, B.A. Coordinator, Administrative Services, Biological Science
- Lee, Earl, Jr.**, M.S.W., Associate in Social Work, Social Work
- Lee, Gabrielle W.**, M.D., Shanghai Medical University, China; Assistant in International Programs and Academic Administration, International Programs

- Lee, James D., A.A.**, Assistant Director, University Computer Systems, Academic Computer and Network Services
- Lee, Jared W., B.S.**, Coordinator, Accounting, Controller
- Lee, Marian H.**, Coordinator, Administrative Services, Intercollegiate Athletics
- Lee, Ming-Kuo, Ph.D.**, Illinois; Visiting Scholar/Scientist, Computational Science and Education
- Lee, Sandy R., Ph.D.**, Florida State; Visiting University School Instructor, Developmental Research School
- Lee, Susan Chung Shar, Ph.D.**, Wisconsin at Madison; Assistant Professor of Economics
- Lee, Tahirih V., J.D.**, Yale; Associate Professor of Law
- Leeka, David L., M.S.**, Director, Business and Finance Auxiliary Services, Business Services
- LeFils, Dennis W., M.A.**, Coordinator, Education/Training Programs, Undergraduate Studies
- Legler, David M., Ph.D.**, Florida State; Research Associate, Meteorology
- **Leib, Jonathan I., Ph.D.**, Syracuse; Associate Professor of Geography
 - Leigh, Tobyn, B.S.**, Coordinator, Information/Publication Services, School of Theatre
 - Leiva, Diane M., M.S.**, Coordinator, Research/Program Services, Thagard Health Center
 - Lemery, Susan E., B.S.**, Coordinator, Business Financial/Auxiliary Services, Academic Business Administration
 - Lengacher, Robert W., B.S.**, Visiting University School Instructor, Developmental Research School
 - Lentz, Russell D., J.D.**, Coordinator, Research Programs/Services, Sponsored Research
 - Lenz, Janet G., Ph.D.**, Florida State; Associate Director of Career Development Services, Career Center
 - Leonard, Dale E., B.S.**, Coordinator, Academic Support Services, Institute of Molecular Biophysics
 - Leonard, Jane J., M.S.**, University School Instructor, Developmental Research School
 - Leonard, Margaret B., B.A.**, Coordinator, Information and Public Services, University Communications/Publications
 - Leonard-Ray, Sharmin V., M.S.**, Instructional Specialist, Educational Research Center for Child Development
 - + **Leparulo, William E.,** Dottore in Materie Letterarie, Salerno; Professor of Modern Languages and Linguistics
 - Lepoer, Mary J., M.S.**, Coordinator, Academic Support Services, Modern Languages
 - Lerch, Reinhart A., M.S.**, Coordinator, Information/Publications Services, Distance Learning
 - Lesch, Bernard L.,** Coordinator, Research Programs/Services, Graduate Research
 - Leslie, Elsa M., B.S.**, Specialist, Computer Applications, FIRN
 - + **Leszczynska, Danuta, Ph.D.**, Technical University of Wroclaw; Associate Professor of Civil and Environmental Engineering
 - **Leushuis, Reinier, Ph.D.**, Princeton, Visiting Assistant Professor of Modern Languages and Linguistics
 - + **Levenson, Cathy W., Ph.D.**, Chicago; Associate Professor of Nutrition, Food, and Exercise Sciences
 - + **Levenson, David B., Ph.D.**, Harvard; Associate Professor of Religion, Distinguished Teaching Professor, 1992-1993
 - Leverone, Barbara R., A.A.**, Associate Professor of Theatre, and Assistant Program Director, Asolo Conservatory
 - + **Levitan, Don R., Ph.D.**, Delaware; Associate Professor of Biological Science
 - + **Levitz, Hilbert, Ph.D.**, Pennsylvania State; Professor of Computer Science
 - Levy, Ann K., Ph.D.**, Florida State, Director Research Programs and Services, Educational Research Center for Child Development
 - Lewers, Shawn W., M.S.**, Coordinator, Computer Applications, College of Social Science
 - Lewis, Constance C., M.S.**, University School Professor, Developmental Research School
 - Lewis, Constance M., B.S.**, Coordinator, Statistical Research, Budget and Analysis
 - Lewis, Lucy R., B.S.**, Assistant Controller, Panama City Campus
 - Lewis, Paul J., Ed.D.**, South Florida; Visiting Instructor of Special Education
 - Lewis, Perry O., B.S.**, Specialist, Computer Applications, Public Safety
 - Lewis, Rachel B., M.S.**, Associate in Research, Learning Systems Institute
 - + **Lewis, Sandra, Ed.D.**, California at Berkeley; Associate Professor of Special Education
 - + **Leysieffer, Frederick W., Ph.D.**, Michigan; Professor of Statistics and Associate Vice President for Academic Affairs, Office of the Provost
 - + **Lhamon, William T., Jr., Ph.D.**, Indiana; George M. Harper Professor of English, 2000, and Distinguished Teaching Professor, 1990 – 1991
 - + **Li, Hong, Ph.D.**, California Institute of Technology; Assistant Professor of Chemistry
 - + **Li, Lei, Ph.D.**, Berkeley; Assistant Professor of Statistics
 - Li, Spencer D., Ph.D.**, Illinois, Assistant Professor of Criminology
 - + **Liang, Zhiyong, Ph.D.**, Beijing; Visiting Associate Professor of Industrial Engineering
 - + **Licht, Barbara G., Ph.D.**, Illinois at Urbana-Champaign; Associate Professor of Psychology
 - + **Licht, Mark H., Ph.D.**, Illinois at Urbana-Champaign; Associate Professor of Psychology
 - + **Lick, Dale W., Ph.D.**, California at Riverside; Professor of Educational Leadership, Learning Systems Institute
 - Lickson, Jean McDaniel, M.F.A.**, Associate Professor of Theatre
 - + **Light, Robley J., Ph.D.**, Duke; Professor of Chemistry
 - Lilly, John T.,** Assistant Athletic Coach, Football
 - Lin, Pi-Erh, Ph.D.**, Columbia; Professor of Statistics
 - + **Lind, David M., Ph.D.**, Rice; Associate Professor of Physics
 - **Lindbloom, Terri L., M.F.A.**, Associate Professor of Art
 - Lindner, William H., B.S.**, Director, Continuing Education, Center for Professional Development
 - Lindsay, Christopher J.,** Coordinator, Computer Applications, College of Arts and Sciences
 - Lindsay, Stanley A., Ph.D.**, Purdue; Assistant in Communication
 - Lindsley, Janice L., M.A.**, Coordinator, Academic Support Services, Undergraduate Studies
 - Linick, Barbara K., B.A.**, Coordinator, Information/Publications Services, Ringling Museum
 - Linn, Max A., Ph.D.**, Florida State; Visiting Assistant Professor of Curriculum and Instruction
 - Linn, Stephan L., Ph.D.**, Miami; Associate Scholar/Scientist, School of Computational Science and Information Technology
 - Linville, Connie L., B.S.**, Coordinator, Business and Financial/Auxiliary Services, National High Magnetic Field Laboratory
 - **Lipovetsky, Leonidas, M.S.**, Associate Professor of Music
 - Liswith, Theodore J., M.S.W.**, Coordinator, Academic Support Services, Undergraduate Studies
 - Litchfield, Brenda C., Ph.D.**, Florida State; Instructional Learning Resource Coordinator, Center for Instructional Development and Services
 - Little, Martha D., B.S.**, Internal Auditor/Investigator, Inspector General
 - Little, Nicole D., B.S.**, Coordinator, Computer Applications, Center for Professional Development
 - + **Liu, Guosheng, Ph.D.**, Nagoda University; Assistant Professor of Meteorology
 - Liu, Hui, Ph.D.** Institute of Atmospheric Physics; Visiting Assistant in Research, Meteorology
 - Liu, Qing, M.S.I.E.**, Coordinator, Research Information, Industrial Engineering
 - Liu, Xiuwen, Ph.D.**, Ohio State; Assistant Professor of Computer Science
 - Livingston, Helen N., Ed.D.**, Alabama; Assistant in Medical Sciences, Medicine
 - + **Livingston, Robert J., Ph.D.**, Miami; Professor of Biological Science, and Director, Center for Aquatic Research and Resource Management
 - Llovera, Claudia, B.A.**, Coordinator, Academic Support Services, College of Engineering
 - + **Lo, Winston W., Ph.D.**, Harvard; Professor of History
 - Lochner, Eric J., M.S.**, Research Associate, Physics
 - + **Locke, Bruce R., Ph.D.**, North Carolina State; Professor of Chemical Engineering
 - Lockwood, Erica N., B.A.**, Visiting University School Instructor, Developmental Research School
 - Logan, Joshua J., B.A.**, Visiting University School Instructor, Developmental Research School
 - + **Logan, Timothy M., Ph.D.**, Chicago; Associate Dean and Associate Professor of Chemistry
 - **Loney, Bryan R., Ph.D.**, Alabama; Assistant Professor of Psychology
 - Longworth, Rebecca K., M.A.**, Research Associate, Institute of Science and Public Affairs
 - Long, Donna J., Ph.D.**, Florida State; Visiting Instructor of English
 - Long, Pamela J. Hosey, Ph.D.**, Tulane; Visiting Assistant Professor of Modern Languages and Linguistics
 - Long, Terry N., M.S.**, Head Athletic Coach, Track
 - **Long, Timothy R., B.A.**, Assistant in Film, School of Motion Picture, Television, and Recording Arts
 - Longstreth, Catherine A., Ed.D.**, Miami; Visiting Lecturer and Academic Administrator, Office of Provost
 - Lonigan, Christopher J., Ph.D.**, State University of New York at Stony Brook; Associate Professor of Psychology
 - Loomis, Ormond H., Ph.D.**, Indiana; Assistant in English
 - + **Loper, David E., Ph.D.**, Case Western Reserve; George W. DeVore Professor of Geological Sciences, 1999, Director, Geophysical Fluid Dynamics Institute and Distinguished Research Professor, 1991–1992
 - Lopez, Carlos A., Ph.D.**, Harvard; Visiting Instructor of Religion
 - + **Losh, Susan, Ph.D.**, Michigan; Associate Professor of Educational Research
 - Lottimer, Emund P., B.A.**, Visiting Assistant in Film, School of Motion Picture, Television and Recording Arts
 - Loughmiller, Cliff, B.S.**, Coordinator, Research Programs/Services, Graduate Research
 - + **Lourenco, Luiz M., Ph.D.**, Oporto; Ph.D., Brussels; Professor of Mechanical Engineering
 - + **Louwenaar, Karyl J., D.M.A.**, Eastman School of Music; Professor of Music
 - Lovins, Robert A., M.A.**, Instructor of Military Science, Military Science
 - Lowe, David H., M.S.**, Specialist, Computer Research, Biological Science
 - Lowe, Howard A.,** Specialist, Computer Systems Control, Northwest Regional Data Center
 - Loyd, Nora K., M.S.**, Coordinator, Budgeting, Budget and Analysis
 - + **Lubbers, Alice W., B.S.**, Coordinator, Computer Applications, Office of Technology Integration
 - **Lubell, Mark N., M.A.**, Assistant Professor of Political Science
 - Luesebrink, Michael J., M.L.S.**, Associate Librarian, University Libraries
 - Lumsden, Ann S., Ph.D.**, Florida State; Assistant in Biological Science, Biological Science
 - Lumsden, Jill A., M.S.**, Coordinator, Career Development Service, Career Development

- + **Lundberg, Neil S.**, Ph.D., California at Santa Cruz; Professor and Chair of Geological Sciences
- Luno, Jeremy A.**, B.F.A. Coordinator, Academic Support Services, Motion Picture, TV, and Recording Arts
- + **Lunstrum, John P.**, Ed.D., Indiana; Professor of Educational Theory and Practice
- Lunt, Samuel D.**, B.S., Coordinator, Intercollegiate Athletics, Intercollegiate Athletics
- + **Luongo, Cesar A.**, Ph.D., Stanford; Associate Professor of Mechanical Engineering
- Lupiani, Brian.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
- Lupiani, Michaela**, B.A., Coordinator, Academic Support Services, Oceanography
- Lupo-Anderson, Angela**, Ph.D., Florida State; Academic Administrator, Associate Dean of the Faculties, and Assistant Professor of Curriculum and Instruction
- Lusher, William R.**, M.S., Assistant in Research, Meteorology
- Lutz, Jonathan R.**, M.S., M.A., Assistant Librarian, Law
- Lutz, Robert V.**, M.S., Assistant in Biological Sciences
- Lyday, Lloyd A.**, J.D., Florida; Visiting Associate in Research, Florida Resources and Environmental Analysis Center
- Lynch, Thomas A.**, Ph.D., Florida State; Associate in Research, Florida Resources and Environmental Analysis Center
- + **Lynn, Susan K.**, Ph.D., South Carolina at Columbia; Associate Professor of Physical Education
- Lyon, Gordon W.**, Ph.D., Cambridge; Visiting Assistant Professor of Philosophy
- Lyons, Aundrea L.**, Coordinator Academic Support Systems, Athletics
- Lyons, Betty N.**, B.A., Coordinator, Academic Support Services, Human Sciences
- Lyons, Christopher F.**, B.S., Coordinator, Physical Plant, Ringling Museum
- Lyons, James E.**, B.S., Assistant in Research, School of Computational Science and Information Technology
- Lyons, Penny L.C.**, Assistant in Administration, Military Science
- + **Ma, Teng**, Ph.D., Ohio State; Visiting Assistant Professor of Chemical Engineering
- Maatta, Stephanie L.**, M.S., Coordinator, Academic Support Services, School of Information Studies
- + **Mabe, Alan R.**, Ph.D., Syracuse; Professor of Philosophy, Dean, Graduate Studies, and Associate Vice President for Program Development and Faculty Support
- + **MacDonald, Victoria M.**, Ed.D., Harvard; Assistant Professor of Education Foundations and Policy Studies
- MacEnulty, Patricia B.**, Ph.D., Florida State; Visiting Assistant in Film, School of Motion Picture, Television, and Recording Arts
- + **Macesich, George**, Ph.D., Chicago; Professor of Economics
- Macesich, Susana S.**, Ph.D., Belgrade; Coordinator, Student Financial Aid, Financial Aid
- Mack, Charles E.**, M.S.W., Specialist, Student Counseling, Student Counseling Center
- MacNamara, Stephen R.**, J.D., Florida State; Associate Professor of Communication
- + **MacPherson, David A.**, Ph.D., Pennsylvania State; Abba Lerner Professor of Economics, 1999
- Madden, Deborah**, B.S., Instructional Specialist, Educational Research Center for Child Development
- Maddox, Beverly K.**, M.S., Visiting University School Instructor, Developmental Research School
- **Maddox, Martha K.**, M.S.W., Director of Undergraduate Program and Associate Professor of Social Work
- Madriz, Dimas E.**, M.A., Assistant in International Programs and Academic Administrator of International Programs
- **Madsen, Charles H., Jr.**, Ph.D., Illinois; Professor of Psychology
- + **Madsen, Clifford K.**, Ph.D., Florida State; Professor of Music, Alumni Professor, Robert O. Lawton Distinguished Professor 1988 – 1989, Distinguished Teaching Professor, 1989 – 1990
- Magazu, Brian**, M.B.A., Assistant Professor of Aerospace Studies
- + **Magnan, Jerry F.**, Ph.D., Miami; Associate Professor of Mathematics, and Scholar/Scientist, School of Computational Science and Information Technology
- Maher, Deborah B.**, M.L.S., University Librarian, University Libraries
- Mahler, Linda R.**, Ph.D., Florida State; Academic Administrator, Undergraduate Studies, and Assistant Professor of Human Services and Studies
- Mahoney, Susan D.**, B.S., Business Manager, Housing
- **Maier-Katkin, Birgit E.**, Ph.D., Pennsylvania State; Assistant Professor of Modern Languages and Linguistics
- + **Maier-Katkin, Daniel**, J.D., Columbia; Dean and Professor of Criminology and Criminal Justice
- Maige, Angela K.**, Coordinator, Accounting, Facilities, Operations and Maintenance
- Maige, Stephanie W.**, B.S., Coordinator, Accounting, Controller
- Maily, Linda V.**, M.Ed., Associate in Research, Criminology
- Makinen, Kathy J.**, M.S., Coordinator, Statistical Research, Economic Policy and Government
- Malarney, Patricia J.**, M.S., Assistant Director of Multipurpose Facilities, Campus Recreation
- Malone-Wallace, Maicel D.**, B.S. Assistant Athletics Coordinator, Athletics
- Malvadkar, Shreekant**, Ph.D., Princeton; Assistant Professor of Chemical Engineering
- Manausa, Michael E.**, M.S., Coordinator, Computer Applications, Institute for Science
- Manciagli, Bruce J.**, M.S., Coordinator, Continuing Education, Center for Professional Development
- + **Mann, Charles K.**, Ph.D., Virginia; Professor of Chemistry
- Mann, Patricia S.**, M.S.W., Coordinator, Human Service, Center for Prevention
- + **Manousakis, Efstratios**, Ph.D., Illinois; Professor of Physics, and Scholar/Scientist, School of Computational Science and Information Technology
- Maple, Thomas S.**, Ph.D., Director, Career Development Services, Student Services
- Mara, Ferdinando**, Ph.D., Genoa; Visiting Professor of Mathematics
- + **Marcus, Nancy H.**, Ph.D., Yale; Mary Sears Professor of Oceanography, Director, Program for Women in Math, Science, and Engineering, and Robert O. Lawton Distinguished Professor, 2001 – 2002
- Marelli, Dan C.**, Ph.D., Florida State; Assistant in Academic Diving, Academic Diving Program
- + **Mariscal, Richard N.**, Ph.D., California at Berkeley; Professor of Biological Science
- Markham, Gary W.**, M.A., Assistant Librarian, Music
- Markiewicz, William D.**, M.A., Scholar/Scientist, National High Magnetic Field Laboratory
- Markos, Aynalem S.**, B.A., Coordinator, Budgeting, Budget and Analyses
- Marks, Emsley L.**, Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- Marky, Raymond L.**, Specialist, Computer Applications, Center for Professional Development
- Marley, Thomas J.**, Ph.D., Purdue; Associate Professor of Mathematics
- + **Maroney, Patrick F.**, J.D., Florida; Professor of Risk Management/Insurance, Real Estate and Business Law
- + **Marquis, Milton H.**, Ph.D., Indiana; Professor of Economics
- + **Marrinan, Rochelle A.**, Ph.D., Florida; Associate Professor of Anthropology
- + **Marshall, Alan George**, Ph.D., Stanford; Kasha Professor of Chemistry, 1999, Distinguished Research Professor, 1998 – 1999
- Marshall, Darryl A.**, B.S., Director, Student Financial Aid, Financial Aid
- + **Marshall, Robert A.**, Ph.D., Pennsylvania; Professor of Risk Management/Insurance, and Real Estate and Program in Business Law
- Marshall, William S.**, M.S., Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- Marshburn, Kevin M.**, M.S., Coordinator, University Housing, University Housing
- Martin, Charles D.**, Ph.D., Florida State; Visiting Instructor of English
- Martin, Danyele P.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- **Martin, Lanny W.**, Ph.D., Rochester; Assistant Professor, Political Science
- Martin, Michael D.**, M.S., Head Athletic Coach, and Assistant in Physical Education
- Martin, Michael D. Jr.**, B.A., Visiting Assistant in Physical Education
- + **Martin, Patricia Y.**, Ph.D., Florida State; Professor of Sociology, Alumni Professor
- Martin, Patrick M.**, M.S.A., Coordinator, Intercollegiate Athletics, Athletics
- Martin, Sarah P.**, B.A., Director of Advancement and Alumni Affairs, College of Arts and Sciences
- Martin, Timothy D.**, B.S., Associate University Registrar, Registrar
- Martin, Virginia M.**, B.S., Coordinator, Academic Support Services, Chemistry
- Martinez, Harry R.**, Ph.D., Florida State; University School Professor, Developmental Research School
- + **Martinko, Mark J.**, Ph.D., Nebraska; Professor of Management
- + **Mascagni, Michael V.**, Ph.D., New York University; Associate Professor of Computer Science
- **Maslen, Ceiddwen A.**, Ph.D., Princeton; Visiting Assistant Professor of Philosophy
- Mason, Katherine Pieper**, Ed.D., Florida; Dean, School of Nursing, and Professor of Nursing.
- Mason, Michael O.**, B.S., Coordinator, Human Services, Center for Prevention and Early Intervention
- + **Mason, Patrick L.**, Ph.D., New School For Social Research, New York; Associate Professor and Director, African American Studies Program
- + **Mason, Robert M.**, Ph.D., Georgia Institute of Technology; Professor of Business and Chair, Management Information Sciences
- Massey, Romeo M.**, Ph.D., Florida State; Faculty Administrator, Educational Services Program
- Masterman, Marjorie K.**, M.P.A., Faculty Administrator, Chemistry
- + **Mastrogiacomo, Leonard J.**, B.M., Post Graduate Diploma, Juilliard; Professor of Music
- + **Matherly, Timothy A.**, D.B.A., Indiana; Associate Professor of Management
- + **Mathes, James R.**, Ph.D., Florida State; Associate Professor of Music
- Mathews, Chad W.**, B.S., Coordinator, Student Affairs, Circus
- Mathis, Keith V.**, M.S.W., Assistant in Field Instruction, Social Work
- + **Matthews, Patricia**, Ph.D., Iowa; Associate Professor of Philosophy
- Mattson, Susan A.**, Ph.D., Florida State; Visiting Instructor of Education
- + **Maxwell, Margaret Sharon**, Ph.D., Florida State; Associate Professor of Social Work
- May, James W.**, M.S., Assistant in Research, Institute for Science and Public Affairs
- Mayfield, Richard C.**, M.F.A., Assistant in Theatre and Program Director of Theatre
- + **Mayo, John K.**, Ph.D., Stanford; Dean, College of Communication, and Professor of Communication
- + **Mazza, Nicholas F.**, Ph.D., Florida State; Professor of Social Work
- McArthur, Vicki H.**, Ph.D., Florida State; Program Director, Music
- McAuley, Michael G.**, M.S., Psychologist, School of Social Work

- McAvoy, Leslie J.**, M.S., Coordinator, University Housing, Housing
- **McCaleb, Thomas S.**, Ph.D., North Carolina at Chapel Hill; Associate Professor of Economics, and Program Director, Office of Dean of Social Sciences
 - McCall, Bryan T.**, B.S. Athletic Trainer, Athletics
 - McCall, Dolores E.**, M.S., Coordinator, Continuing Education, Center for Professional Development
 - McCall, Melissa F.**, B.S., Coordinator, Academic Programs, Housing
 - McCammion, Stephen D.**, M.S., Visiting Assistant in Research, Center for Study of Teaching and Learning
 - **McCarty, Betty Jo**, Ed.D., Oklahoma State; Associate Professor of Educational Theory and Practice
 - McClung, Ransom R.**, M.S., Associate Director, Internal Management Auditing, Inspector General
 - McClung, Steven R.**, Ph.D., Tennessee; Assistant Professor of Communication
 - + **McClure, Charles R.**, Ph.D., Rutgers; Francis Eppe Professor of Information Studies
 - McComb, Robert S.**, B.A., Coordinator, Business Financial/Auxiliary Services, Ringling Museum
 - McConnell, Barry**, Ph.D., Columbia; Specialist, Computer Applications, Center for Professional Development and Public Service
 - + **McConnell, Michael**, B.M., Associate Professor of Music
 - McCord, Scott W.**, M.S., Coordinator, Computer Applications, Office of Technology Integration
 - McCormick, Mary M.**, J.D., Florida, M.L.S.; Librarian, Law Library
 - McCoy, Antionette M.**, M.A., Faculty Coordinator, College of Medicine
 - McCullough, Kathleen A.**, Ph.D., Georgia; Assistant Professor of Risk Management and Insurance
 - McCullough, Lori A.**, B.S., Visiting Assistant in Communication Disorders, Center for Autism
 - McCully, Pamela D.**, B.A. Coordinator, Accounting, College of Medicine
 - McCune, Nancy N.**, B.S., Coordinator, Academic Support Services, Undergraduate Studies
 - McDaniel, Deborah M.**, B.A., Coordinator, Information/Public Services, WFSU-TV
 - McDaniel, Eileen L.**, M.S., University School Professor and Program Director for Research, Developmental Research School
 - McDaniel, James C.**, B.S., Assistant Director, Radio/TV Station
 - McDaniel, Linda B.**, Coordinator, Research Programs/Services, Sponsored Research
 - McDaniel, Pamela C.**, Assistant University Registrar, Registrar
 - McDaniel, Robert E.**, B.S., Visiting Assistant in Public Affairs, Florida Public Affairs Center
 - McDaniel, Michael A.**, M.A., Coordinator, Continuing Education, Florida Center for Public Management
 - McDermott, Stella M.**, M.S., Assistant in Research, Learning Systems Institute
 - McDonald, Juliette L.**, M.Ed., Associate Director, Career Development Services, Career Center
 - + **McDowell, Stephen D.**, Ph.D., York; Associate Professor of Communication
 - + **McDuffie, Ernest L.**, Ph.D., Florida Institute of Technology; Assistant Professor of Computer Science
 - + **McElrath, Joseph R.**, Ph.D., South Carolina; William Hudson Rodgers Professor of English, 1999
 - McElroy, Kelvin D.**, B.B.A., Instructor of Aerospace Studies
 - McElroy, Kerry E.**, B.S., Coordinator, Student Affairs, Campus Recreation
 - McElroy, Maria N.**, M.B.A., Assistant Professor of Aerospace Studies
 - McErlean, Laura C.**, M.S., Coordinator, Student Affairs, Campus Recreation
 - McFarlain, Richard C.**, J.D., General Counsel
 - McFatter, Jennifer M.**, B.A., Coordinator, Academic Support Services, Mathematics
 - McGarrah, Charles R.**, M.S., Coordinator, Student Affairs, Dean of Students
 - McGehee, Lizabeth A.**, B.A., Coordinator, Continuing Education, Center for Professional Development
 - + **McGregory, Jerrilyn**, Ph.D., Pennsylvania; Associate Professor of English
 - McHugh, Donna H.**, R.N., Associate Director, University Relations/Public Affairs, Vice President for University Relations
 - McHugh, William F.**, J.D., Albany Law School; Professor of Law
 - McInnes, Melayne M.**, M.S., Visiting Assistant Professor of Economics
 - McIntosh, Daniel G.**, Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
 - + **McIntyre, Edward V.**, Ph.D., North Carolina; Professor of Accounting
 - McIver, Michael S.**, B.S., Coordinator, Educational Media/Communication, Center for Professional Development
 - McKay, Allen**, B.S., Visiting University School Instructor
 - McKay, Jan P.**, M.S., Associate in Research, Center for Performance Technology
 - + **McKeague, Ian W.**, Ph.D., North Carolina; Ralph A. Bradley Professor of Statistics, 2000
 - McKee, Linda R.**, M.A., Coordinator, Museum Operations, Ringling Museum
 - McKee, MaryKate**, B.S., Coordinator, Academic Programs, Educational Research
 - McKenzie, Chad E.**, B.S., Coordinator, Student Affairs, Campus Recreation
 - McKnight, Amy O.**, B.A., Coordinator, Administrative Services, Educational Leadership
 - McKnight, Thomas D.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
 - McLanahan, John W.**, Ph.D., Cincinnati; Academic Administrator, Learning Systems Institute
 - McLaren, Peter G.**, Ph.D., Dundee; Visiting Professor and Visiting Director of Electrical and Computer Engineering
 - McLaren, William S.**, B.S., Coordinator, Computer Applications, Athletics
 - McLaughlin, Jimmy D.**, B.S., Associate in Merchandising, Textiles and Consumer Sciences
 - McLeod, Paul A.**, M.D., Alabama at Birmingham; Visiting Faculty/Academic Administrator, Medicine
 - McMillian, Stacey M.**, I.D., Coordinator, Management Analysis, College of Communication
 - McNally, Stacy Shor**, J.D., Vermont Law, Assistant in Research, Criminology
 - McNally, Susan R.**, B.S., Visiting University School Instructor, Developmental Research School
 - + **McNece, C. Aaron**, Ph.D., Michigan; Walter W. Hudson Professor of Social Work , 2000
 - McNish, David P.**, B.S., Visiting University School Instructor, Developmental Research School
 - McPherson, Andrea D.**, M.S., Associate Controller, Controller
 - + **McRorie, Sally E.**, Ph.D., Kansas; Chair and Professor of Art Education
 - McTague, Doris M.**, M.S., Assistant in Survey Research, Pepper Institute on Aging
 - McVey, Sandra L.**, B.S., Assistant Controller, Controller
 - **McWilliams, Ralph D.**, Ph.D., Tennessee; Service Professor of Mathematics
 - Meade, James L.**, M.S., Coordinator, Academic Support Services, School of Music
 - Meade, Larry G.**, B.S., University School Instructor, Developmental Research School
 - Meaders, Harlis J.**, M.A., Assistant Athletic Coach, Intercollegiate Athletics
 - Medlock, Robyn E.**, B.A., Visiting University School Instructor, Developmental Research School
 - + **Meeter, Duane A.**, Ph.D., Wisconsin; Service Professor of Statistics
 - + **Megargee, Edwin I.**, Ph.D., California at Berkeley; Professor of Psychology
 - + **Meighan, Patrick J.**, M.M., Professor of Music
 - Meisen, Daniel S.**, Associate in Research, Florida Resource and Environmental Analysis Center
 - + **Mele, Alfred R.**, Ph.D., Michigan; Professor of Philosophy
 - Meleney, Mark P.**, B.S., Director, Academic Support Services, Intercollegiate Athletics
 - Meliori, Jeanne C.**, M.A., Coordinator, Information/Publications Services, School of Criminology
 - Melton, Diane J.**, B.A., Coordinator, Administrative Services, Ringling Museum
 - Melton, James H.**, M.S., Director, Advancement/Alumni Affairs, University Relations
 - Melton, Jeremy C.**, B.S., Athletic Trainer, Athletics
 - Menacof, Nick E.**, M.S., Coordinator, Intercollegiate Athletics, Athletics
 - Menard, Steven L.**, B.A., Coordinator, Computer Systems Control, Northwest Regional Data Center
 - + **Menchetti, Bruce M.**, Ph.D., Illinois; Associate Professor of Special Education
 - Mercier, Denise**, Coordinator, University Relations/Public Affairs, Community College Relations
 - Meredith, K. Patricia**, B.A., Visiting Assistant in Research, Institute Molecular Biophysics
 - Meredith, Kathleen P.**, B.S., Coordinator, Academic Support Services, College of Medicine
 - + **Meredith, Michael**, Ph.D., Pennsylvania; Professor of Biological Science and Director, Program in Psychobiology
 - Merlau, Teri A.**, M.S., Coordinator, Clinical Programs, Communication Disorders
 - Merling, Mitchell F.**, Ph.D., Brown; Visiting Assistant Curator of Ringling Museum
 - Merritt, James D.**, B.A., Assistant in Meteorology, Meteorology
 - **Messersmith, Mark L.**, M.F.A., Associate Professor of Art
 - + **Mesterton-Gibbons, Michael P.**, Ph.D., Oxford; Professor of Mathematics
 - Metianu, Michaela N.**, B.S., Coordinator, Student Affairs, International Student Center
 - Meyer, Hansen W.**, A.A., Coordinator, Computer Applications, College of Communications
 - **Meyer, James B.**, Ph.D., Wisconsin; Associate Professor of Psychology
 - **Meyer-Baese, Anke**, Ph.D., Darmstadt; Visiting Assistant Professor, Electrical and Computer Engineering
 - **Meyer-Baese, Uwe**, Ph.D., Darmstadt; Visiting Assistant Professor, Electrical and Computer Engineering
 - Meyrich, Victor J.**, B.S., Assistant Director, Multipurpose Facility, School of Theatre/Asolo
 - Midgelow, Vida L.**, Ph.D., University of Surrey; Visiting Assistant Professor of Dance
 - Mikati, Jamileh F.**, Ph.D., Florida State; Visiting Assistant Professor of Educational Theory and Practice
 - Miksa, Shawne D.**, M.L.S., Florida State; Visiting Instructor, Information Studies
 - Mikutel, Douglas W.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
 - Miles, Delbert H.**, Ph.D., Georgia Institute of Technology; Visiting Research Associate, Center for International Studies
 - + **Miles, Rebecca S.**, Ph.D., Cornell; Associate Professor of Urban and Regional Planning
 - Milford, Joann S.**, B.S., Assistant Director, Clinical Programs, Multidisciplinary Center
 - Miller, Ashley M.**, B.S., Coordinator, Accounting, Controller
 - Miller, Edward L.**, B.S., Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
 - Miller, George**, B.S., Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
 - Miller, John R.**, Ph.D., Virginia; Scholar/Scientist, National High Magnetic Field Laboratory
 - Miller, Laura C.**, M.S., Assistant Director, Business Financial/Auxiliary Services, Parking Services
 - Miller, Lauren E.**, M.S., Assistant Dean, Student Affairs, Dean of Students

- Miller, Ryan E.**, B.S., Coordinator, Computer Applications, School of Information Studies
- Miller, Steven H.**, Ph.D., Florida State; Assistant in Biological Science
- Miller, Susannah C.**, B.S., Coordinator, Human Resources/Personnel Relations, Human Resources
- + **Miller, Thomas E.**, Ph.D., Michigan State; Associate Professor of Biological Science
- Millman, Howard J.**, M.A., Director, School of Theatre
- Mills, Brenda L.**, M.A., Coordinator, Information/Publications Services, English
- Mills, Steven D.**, M.Ed., and Ed.S., Associate in Family and Child Sciences
- + **Milton, Sande D.**, Ph.D., Cornell; Professor of Educational Foundations and Policy Studies
- Minnick, Charlotte S.**, Ph.D., Florida State; Faculty Administrator, Director of Clinical Education, and Instructor, Educational Theory and Practice
- Minnix, Robert J.**, J.D., Washington, Associate Director, Intercollegiate Athletics, Athletics
- Minor, Sandi W.**, B.S., Coordinator, Business Financial/Auxiliary Services, Academic Business Administration-Controller
- Minsker, Heather A.**, Ed.S., M.S., Visiting University School Instructor, Developmental Research School
- + **Mio, Washington**, Ph.D., New York; Associate Professor of Mathematics
- Miot, Danielle T.**, M.A., Coordinator, Academic Support Services, Undergraduate Studies
- Mirfield, Peter N.**, M.A., Visiting Professor, Law
- Mistry, Anahita M.**, Ph.D., Hyderabad; Assistant Professor of Nutrition, Food, and Exercise Sciences
- **Mitchell, James G.**, Ph.D., Cornell; Assistant Professor of Modern Languages
- **Mitchell, Sarah B.**, M.A., Assistant Professor of Political Science
- Mixon, Juhan M.**, Ed.D., Florida; Visiting Associate in Research, Learning Systems Institute
- Mizell, James T.**, A.A., Coordinator, Business Financial/Auxiliary Services, Academic Business Administration-Controller
- Mobley, Sheri L.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
- Modrow, William**, M.L.S., Instructor Librarian, University Libraries
- Moeller, William F.**, M.G.A., Director, Student Affairs, Center for Civic Education and Service
- + **Moerland, Timothy S.**, Ph.D., Maine; Professor of Biological Science, and Associate Dean, College of Arts and Sciences
- Moerlins, John E.**, M.S., Research Associate, Center for Biomedical and Toxicological Research
- + **Moffatt, Robert J.**, Ph.D., Michigan; Georgia Alice Stamford Professor of Exercise Science, 2000, and Chair and Professor of Nutrition, Food, and Exercise Sciences
- Molina, Laurie E.**, M.S., Associate Scholar/Scientist, Florida Resources and Environmental Analysis Center
- Moncrieff, David**, Ph.D., Manchester; Associate Scholar/Scientist, School of Computational Science and Information Technology
- + **Mondak, Jeffrey J.**, Ph.D., Indiana; Associate Professor of Political Science
- **Mondello, Michael J.**, Ph.D., Florida; Assistant Professor of Physical Education
- Monk, Brenda H.**, Ph.D., Coordinator, Academic Support Services, Athletics
- **Monkman, Karen L.**, Ph.D., University of Southern California; Assistant Professor, Education Foundations and Policy Studies
- Monroe, Blair A.**, M.S., Visiting Assistant in Research, Florida Resources and Environmental Analysis Center
- Monroe, Larry W.**, B.S., Visiting University School Instructor, Developmental Research School
- + **Montgomery, Daniel J.**, Ph.D., Washington; Associate Professor of Communication
- + **Montgomery, Maxine L.**, Ph.D., Illinois; Associate Professor of English
- Moody, Lara E.**, M.A., Visiting University School Instructor, Developmental Research School
- Moore, Carl A.**, Ph.D., Northwestern; Visiting Assistant Professor of Mechanical Engineering
- Moore, Clark M.**, B.A., Academic Administrator, School of Computational Science and Information Technology
- + **Moore, Dennis D.**, Ph.D., North Carolina; Associate Professor of English, Distinguished Teaching Professor, 1998 – 1999
- + **Moore, James C.**, Ph.D., Florida State; Associate Service Professor of Communication
- Moore, Jeremy P.**, B.S., Coordinator, Accounting, Academic Business Administration-Controller
- Moore, Joy R.**, M.S., Coordinator, Clinical Programs, Communication Disorders
- Moore, Kurt**, M.A., Director of Corporate Research Development, Office of the Vice President for Research
- + **Moore, Mary Ann**, Ph.D., Florida State; Professor of Textiles and Consumer Sciences
- + **Moore, William H.**, Ph.D., Colorado at Boulder; Associate Professor of Political Science
- + **Morales, Maria H.**, Ph.D., Pennsylvania; Associate Professor of Philosophy
- + **Moreo, Adriana**, Ph.D., Universidad Nacional de Cuyo; Professor of Physics and Scholar/Scientist, School of Computational Science and Information Technology
- Morey, Steven L.**, Ph.D., Florida State; Research Associate, Meteorology
- **Morgan, Anthony T.**, B.S., Associate Professor of Dance
- + **Morgan, Robert M.**, Ph.D., Ohio State; Professor of Educational Research, and Director, Learning Systems Institute
- Morgan, Thomas**, M.B.A., Coordinator, Computer Applications, Office of Technology Integration
- Morrill, David M.**, B.A., Coordinator, Information/Public Services, College of Law
- Morris, Charles A.**, Ph.D., Coordinator, Intercollegiate Athletics, Athletics
- Morris, Pamela J.**, B.A., Director, Information/Publications Services, University Communications
- Morris, Perry E.**, B.S., Coordinator, Computer Applications, Vice President Finance and Administration
- + **Morris, Richard J.**, Ph.D., Florida; Associate Professor of Communication Disorders
- Morrogh, Earl H.**, M.S., Visiting Instructor of Information Studies
- Mortazavi, Behzad**, Ph.D., Florida State; Visiting Assistant in Research, Oceanography
- + **Morton, Richard M.**, Ph.D., Pennsylvania State; Associate Professor of Accounting
- Morton, Susan J.**, M.M., Visiting Associate in Accompanying, Music
- Mose-Manning, Lakeisha R.**, B.S., Coordinator, Research Programs/Services, Center for Teaching
- Moser, Rita M.**, Ph.D., Florida State; Director, Housing, Housing
- Mosley, Yvonne L.**, B.S., Coordinator, Computer Applications, Vice President of Student Affairs
- Mosrie, David L.**, Ed.D., Florida; Visiting Instructor of Educational Leadership
- Mostoller, Jane**, J.D., Associate General Counsel, General Counsel
- + **Mott, Joe L.**, Ph.D., Louisiana State; Professor of Mathematics
- + **Moulton, William G.**, Ph.D., Illinois; Professor of Physics
- Mozely, Jack K.**, B.S., Coordinator, Information/Public Services, Center for Professional Development
- + **Mtenga, Primus V.**, Ph.D., Wisconsin at Madison; Associate Professor of Civil and Environmental Engineering
- Muldoon, Caitrin S.**, Coordinator, Admissions/Registration, Admissions
- Mulford, Kimberly J.**, Coordinator, Computer Applications, Human Resources
- Mullen, Carol Ann**, Ph.D., Toronto; Visiting Instructor of Educational Research
- Mullins, Christine Jennifer**, B.A., Visiting Instructional Specialist, Housing/Alumni Village
- + **Mullis, Ann K.**, Ph.D., Iowa State; Associate Professor of Family and Child Sciences
- + **Mullis, Ronald L.**, Ph.D., Iowa State; Professor of Family and Child Sciences
- + **Mundy, Clair Jean**, Ed.D., Columbia; Professor of Human Services and Studies
- **Munton, Peter**, M.A., Associate Chair and Associate Professor of Interior Design
- Murphy, David J.**, B.A., Coordinator, Computer Applications, Florida Information Resource Network
- Murphy, Franklin D.**, M.A., Executive Assistant to the President, President's Office
- Murphy, Harry A.**, Ph.D., Florida State; Assistant in Psychology, Panama City Branch
- Murphy, James B.**, Ph.D., Florida State; Visiting Research Associate, Academic Affairs and Support in Distance Learning
- Murphy, James J.**, Ph.D., Florida State; Visiting Associate Professor of Art History
- Murphy, Marcia G.**, M.B.A., Associate Controller, Accounting, Controller
- Murphy, Mary C.**, R.N., B.S., University School Assistant Professor, Developmental Research School
- Murphy, Patrick M.**, M.S., University School Associate Professor, Developmental Research School
- Murphy, Peter R.**, B.S., Assistant Director, Research Programs/Services, National High Magnetic Field Laboratory
- Murphy, Timothy P.**, M.S., Associate in Research, National High Magnetic Field Laboratory
- Murphy, William B.**, J.D., North Carolina at Chapel Hill; Visiting Associate in Law
- Murphy-Purdue, Lola A.**, A.A., Coordinator, Human Resources/Personnel Relations, Human Resources
- Murray, James H.**, M.A., Coordinator, Career Development Services, Career Center
- Murray, Renee R.**, B.S., Coordinator, Environmental Health and Safety, Environmental Health and Safety
- Murray, Stephanie L.**, B.A., Coordinator, Computer Systems Control, Northwest Regional Data Center
- Musat, Claudia E.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
- **Muscha, Colleen L.**, M.F.A., Professor of Theatre
- **Mussa, Renatus**, Ph.D., Arizona State; Assistant Professor of Civil and Environmental Engineering
- Mustard, William A.**, B.S., Director, Research Programs/Services, College of Business—Marketing
- Myers, Aron L.**, B.S., Coordinator, Information/Publication Services, WFSU—FM
- Myers, Edmund G.**, Ph.D., Oxford; Staff Physicist, Physics
- **Myers, Karen L.**, M.S., Associate Professor of Interior Design
- Myers, Robert L.**, M.S., Assistant in Computer Science, Computer Science
- Nadolski, Chester J.**, M.S., Assistant Professor of Military Science
- **Nahmias, Edward A.**, Ph.D., Duke; Assistant Professor of Philosophy
- Naitove, Eric J.**, Coordinator, Telecommunications, Office of Technology Integration
- Nalon, Judith L.**, M.A., Associate in Research, Learning Systems Institute
- Nalon, P. Suzann**, M.A., Associate in Research, Learning Systems Institute
- + **Nasgaard, Roald**, Ph.D., Institute of Fine Arts; Chair and Professor of Art
- Nash, Evelyn M.**, Ph.D., Kansas; Visiting Associate Professor of Special Education
- + **Nast, Donald A.**, Ph.D., Pennsylvania State; Chair and Associate Professor of Finance
- Nast, Ruth A.**, B.S., Coordinator, Student Affairs, International Student Center

- + **Navon, Ionel M.**, Ph.D., Witwatersrand; Professor of Mathematics and Meteorology and Program Director, School of Computational Science and Information Technology
- Neelis, Jason**, M.A., Visiting Instructor, Religion
- Neill, James R.**, Ph.D., Florida State; Specialist, Computer Applications, Florida Information Resource Network
- Nelson, Ardel A.**, Ph.D., Wayne State; Visiting Assistant Professor of Hospitality
- **Nelson, James M.**, Ph.D., University of Arizona; Assistant Professor in Business
- Nelson, Roy M.**, Ph.D., Florida State; Visiting Instructor of Biological Science
- Nelson-Fenwick, Jennifer M.**, B.S., Coordinator, Admissions/Registration, Panama City Campus
- Nerona, Katherine**, B.S., Coordinator, Admissions/Registration, Admissions
- Nesmith, Cathleen C.**, M.S., Coordinator, Research Programs/Services, Florida Resources and Environmental Analysis Center
- + **Neuman, Robert M.**, Ph.D., Michigan; Professor of Art History
- Neville, Gloria J.**, M.S., Coordinator, Human Services, Center for Prevention
- Newham, David A.**, Coordinator, Academic Support Services, School of Music
- Newsome, Kimberley E.**, M.S., Research Associate, Institute for Science and Public Affairs
- + **Ng, Hon Kie**, Ph.D., McMaster; Associate Professor of Physics
- Ng, Kwong B.**, Ph.D., Rutgers; Assistant Professor of Information Studies
- Nichols, Angela B.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- Nichols, Donna K.**, B.S., Director, Accounting Systems/Finance, Controller
- + **Nichols, Warren D.**, Ph.D., Chicago; Professor of Mathematics
- + **Nicholson, Sharon E.**, Ph.D., Wisconsin; Professor of Meteorology and Distinguished Research Professor, 1997-1998
- + **Niu, Xufeng**, Ph.D., Chicago; Associate Professor of Statistics
- + **Nnaji, Soronadi**, Ph.D., Arizona; Visiting Professor of Civil and Environmental Engineering
- Nobles, Dennis A.**, M.S., Assistant Athletic Coach, Intercollegiate Athletics
- + **Nof, Doron**, Ph.D., Wisconsin; Professor of Oceanography
- Nola, Michael L.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
- Nolan, Thelma J.**, Ph.D., Nova Southeastern; Assistant in Research, Criminology
- + **Nolder, Craig A.**, Ph.D., Michigan; Associate Professor of Mathematics
- + **Norrbin, Stefan C.**, Ph.D., Arizona State; Professor of Economics
- **North, Marcy L.**, Ph.D., Michigan; Assistant Professor of English
- Norton, Helen B.**, Ph.D., Florida State; Visiting Instructor of Academic Affairs
- Norwood, Dianna C.**, B.S., Assistant Director, Business and Financial/Auxiliary Services, Business Services-FSUCard
- + **Nosari, Eldon Joe**, Ph.D., Kentucky; Associate Dean, College of Business, and Professor of Finance
- Novak, Susan S.**, M.S.N., Visiting Assistant in Research, Institute for Science and Public Affairs
- **Novinger, Phillip**, Ph.D., Kentucky; Service Associate Professor of Mathematics
- Nowak, David J.**, Coordinator, Computer Applications, Distance Learning
- + **Nudd, Donna M.**, Ph.D., Texas at Austin; Chair and Associate Professor of Communication
- Nunez, Judy K.**, Coordinator, Academic Support Services, School of Theatre
- Nunnery, Cebron L.**, B.S., Assistant Director, University Computer Systems, Office of Technology Integration
- Nute, Dale H.**, Ph.D., Florida State; Visiting Research Associate, Academic Affairs
- Oakley, Catherine A.**, B.A., Coordinator, Academic Support Services, Undergraduate Studies
- Oakley, Donald T.**, Sc.D., Harvard; Research Associate
- Oba, Shino**, M.S., Coordinator, Statistical Research, Pepper Institute on Aging
- + **Oberlin, Daniel M.**, Ph.D., Maryland; Professor of Mathematics
- Oberlin, Maureen F.**, M.A., University School Assistant Professor, Developmental Research School
- Oberther, Stephen M.**, B.S., Coordinator, Computer Applications, Computer Science
- + **O'Brien, James J.**, Ph.D., Texas A&M; Professor of Meteorology and Oceanography, Robert O. Lawton Distinguished Professor, 1999 – 2000, Distinguished Research Professor, 1990 – 1991, and Russian Academy of Natural Science
- O'Connell, Daniel W.**, J.D., Florida; LL.M., Missouri; Director of Research Programs and Services, Institute of Science and Public Affairs
- O'Connor, Deborah A.**, Ph.D., Florida State; Assistant in Business Communications, Management
- **Odita, Donald O.**, M.F.A., Associate Professor of Art
- + **Odum, A. Leroy**, Ph.D., North Carolina; Professor of Geological Sciences
- O'Duor, Lucy N.**, B.S., Coordinator, Accounting, Controller
- Oeltjen, Jarret C.**, J.D., Nebraska; Professor of Law
- Oetting, Jonathan B.**, M.S., Coordinator, Research Programs/Services, Florida Resources and Environmental Analysis Center
- Ogawa, Gail S.**, Ph.D., Florida State; Visiting Assistant in Research, Learning Systems Institute
- Ogletree, Rebecca R.**, M.B.A., Assistant in Research, Center for Study of Teaching and Learning
- Oh, Peter B.**, J.D., Chicago; Visiting Assistant in Law
- **Ohazama, Tasuku**, M.A., Associate Professor of Interior Design
- Ohlin, Jane Boyd**, J.D., Florida State; Associate Professor of Hospitality
- + **Ohlsson, Eric P.**, B.M.Ed., Professor of Music
- Okasako, Mark Y.**, B.S., Coordinator, Broadcasting, WFSU-TV
- + **Okoli, Okenua Izejiora**, Ph.D., Warwick, Coventry; Assistant Professor of Industrial Engineering
- + **Oldson, William O.**, Ph.D., Indiana; Professor of History
- Olenych, Marie C.**, M.S., Visiting University School Instructor, Developmental Research School
- Oloff, Danese P.**, B.S., Visiting University School Instructor, Developmental Research School
- Oliphant, Kelley A.**, B.S., Coordinator, Business Financial Auxiliary/Services, Academic Business Administration-Controller
- + **Olsen, Dale A.**, Ph.D., California at Los Angeles; Distinguished Research Professor, 2000 – 2001, Professor of Music
- Olsen, Peggy S.**, B.A., Coordinator, Advancement/Alumni Affairs, Ringling Museum
- + **Olsen, Stanford D.**, B.M., Lucille P. and Elbert B. Shelfer Eminent Scholar in Music
- + **Oosterhof, Albert C.**, Ph.D., Kansas; Professor of Educational Research
- Oosterhof, Darlene K.**, A.B., Assistant in Research, Meteorology
- Opel, Andrew R.**, Ph.D., North Carolina; Assistant Professor of Communication
- Opsahl, Stephen P.**, Ph.D., Texas at Austin; Assistant Scholar/Scientist, Oceanography
- Oravetz, Randal E.**, B.S., Assistant Director, Intercollegiate Athletics
- + **Orcutt, James D.**, Ph.D., Minnesota; Professor of Sociology
- O'Reilly, James**, B.S., Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- Orndorff, Vernon R.**, M.A., University School Instructor, Developmental Research School
- + **O'Rourke, James**, Ph.D., Washington; Professor of English
- Orrick, Diana M.**, M.S., Coordinator, Computer Systems Control, Academic Computing and Network Services
- Orth, William K.**, B.S., Coordinator, Research Programs and Services, National High Magnetic Field Laboratory
- + **Ortiz-Taylor, Sheila L.**, Ph.D., California at Los Angeles; Francis G. Townsend Professor of English, 2000
- + **Oseroff, Andrew B.**, Ed.D., Pittsburgh; Associate Professor of Special Education
- Ossowski, Thomas J.**, M.F.A., Visiting Assistant Professor of Theatre
- O'Steen, Judith**, B.A., University School Associate Professor, Developmental Research School
- + **Osteryoung, Jerome S.**, Ph.D., Georgia State; Professor of Finance
- + **O'Sullivan, Patrick M.**, Ph.D., London School of Economics; Professor of Geography
- + **Ouimet, Charles C.**, Ph.D., Brown; Professor and Co-Chair of Basic Medical Sciences
- + **Outlaw, William H., Jr.**, Ph.D., Georgia; Professor of Biological Science
- **Overby, Jeffrey Wade**, Ph.D., Tennessee; Assistant Professor of Marketing
- Overstreet, Janice L.**, M.S., Coordinator, Clinical Programs, Communication Disorders
- Overstreet, Paige A.**, M.S., Assistant in Communication Disorders
- + **Overton, J. Michael**, Ph.D., Iowa; Professor of Nutrition, Food, and Exercise Sciences
- Overton, Pamel A.**, M.A., Coordinator, Intercollegiate Athletics, Athletics
- Owens, Angela B.**, Coordinator, Research Programs/Services, Center for Prevention
- + **Owens, Joseph F., III**, Ph.D., Tufts; Chair and Guenter Schwarz Professor of Physics, 2000, Distinguished Research Professor, 1994 – 1995
- **Owusu, Yaw A.**, Ph.D., Pennsylvania State; Visiting Associate Professor of Industrial Engineering
- Pace, Theresa A.**, Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- + **Padavic, Irene**, Ph.D., Michigan; Associate Professor of Sociology
- Painter, Thomas A.**, M.S., Associate in Research, National High Magnetic Field Laboratory
- + **Palanki, Srinivas**, Ph.D., Michigan; Associate Professor of Chemical Engineering
- Palazesi, Louis (Mark)**, M.S., Assistant Director, Human Resources/Personnel Relations, Human Resources
- Palios, Michael J.**, B.S., Coordinator, Advancement/Alumni Affairs, Alumni Affairs
- Palladino-Craig, Allys**, M.F.A., Director, University Art Gallery
- Palm, Eric C.**, Ph.D., Texas A&M; Research Associate, National High Magnetic Field Laboratory
- + **Palmer, Barbara C.**, Ph.D., Florida State; Professor of Educational Theory and Practice
- Palmer, Jenne E.**, M.E.E., Research Associate, College of Education
- Palo, Gail A.**, Ed.S. Specialist, Student Counseling, Student Counseling Center
- Pamidi, Sastry V.**, Ph.D., Bombay; Assistant Scholar/Scientist of National High Magnetic Field Laboratory
- Pan, Laura D.**, M.S., Coordinator, Human Services, Center for Prevention
- Panke, Julia E.**, B.S., Coordinator, Career Development Services, Career Services
- Pankey, Brigitte M.**, M.S., Assistant in Communication Disorders
- + **Panton, Lynn B.**, Ph.D., Florida; Assistant Professor of Nutrition, Food, and Exercise Sciences
- + **Papagiannis, George J.**, Ph.D., Stanford; Professor of Educational Foundations and Policy Studies
- **Pappamihel, Nancy E.**, Ph.D., University of Texas; Assistant Professor of Education
- Paquette, Celeste M.**, M.D., Florida, Associate Director, Clinical Services, Student Health Services
- Paquette, Elizabeth A.**, B.S., Assistant in Engineering, Engineering Dean's Office

- + **Paradise, David B.**, Ph.D., Texas Tech; Associate Professor of Information Management Sciences
- + **Pargman, David**, Ph.D., New York; Professor of Educational Research
- Park, Thomas R.**, Ph.D., Florida State; Visiting Associate Professor of Physical Education
- + **Parker, Glenn R.**, Ph.D., California; Professor of Political Science and Research Associate, Economic Policy and Government Program; Distinguished Research Professor, 1991-1992
- Parker, Paul C.**, Ph.D., Florida State; Research Associate, Learning Systems Institute
- Parker, Pennie L.**, M.S., Coordinator, Intercollegiate Athletics, Athletics
- + **Parker, Suzanne L.**, Ph.D., Florida State; Associate Professor of Political Science, and Program Director, Economic Policy and Government
- + **Parker, William C.**, Ph.D., Chicago; Associate Chair and Associate Professor of Geological Sciences
- + **Parkinson, William A.**, Ph.D., Michigan; Assistant Professor of Anthropology
- Parramore, James V.**, Coordinator, Telecommunications, Telecommunications
- Parramore, Walter B.**, J.D., Florida State; Director, University Purchasing, Purchasing
- Parsons, Charles D.**, B.A., Coordinator, Computer Applications, Distance Learning
- **Pashupati, Kartik**, Ph.D., Michigan State; Assistant Professor of Communication
- **Patenaude, Elizabeth W.**, M.F.A., Chair and Professor of Dance
- **Paterson, Jeffrey S.**, Ph.D., Georgia; Associate Professor of Accounting
- Patrick, Lucia**, M.L.S., Librarian and Department Head, University Libraries
- Patten, Janet K.**, B.A., Associate Director, Research Programs/Services, National High Magnetic Field Laboratory
- Patterson, Marvin D.**, Ph.D., Nova; Research Associate, Center for Studies in Vocational Education
- Patterson, Wyntress G.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- **Patton, Corrine L.**, Ph.D., Yale; Assistant Professor of Religion
- Patton, Linda L.**, M.L.S., Librarian, University Libraries
- Paul, Phyllis M.**, M.M.E., University School Instructor, Developmental Research School
- Paul, Richard L.**, M.B.A., Visiting Assistant in Information and Management Sciences
- Paulhus, Brian**, M.B.A., Visiting University School Instructor, Developmental Research School
- Payer, Andrew F.**, Ph.D., Loyola; Professor and Academic Administrator, Biomedical Sciences
- Payne, Jimmy F.**, Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- Payne, Walter S.**, M.S., Information and Management Sciences
- Peace, Victoria N.**, B.S., Coordinator, Clinical Programs, Communication Disorders
- Pearce, Stuart B.**, M.S., Coordinator, Intercollegiate Athletics, Athletics
- Pearson, Sharon E.**, B.S., Coordinator, Accounting, Controller
- Pecha, Jeanne M.**, B.S., Visiting Associate in Computer Development, Dean's Office of Human Sciences
- Peck, Alan R.**, B.S., Associate Director, Physical Plant, Facilities Operations and Maintenance
- Peck, Robert D.**, B.A., Coordinator, Human Services, Center for Prevention
- Pedersen, Christian L.**, B.S., Coordinator, Research Programs/Services, FREAC
- Peeler, Colin M.**, Ph.D., Washington State; Assistant in Psychology, Psychology
- **Pekurny, Robert G.**, Ph.D., Minnesota; Associate Professor of Communication
- Pemberton, Carlisle A.**, Ph.D., Manitoba; Visiting Professor of Economics
- Pendell-Jones, Allison M.**, M.S., Coordinator, Academic Support Services, College of Social Sciences
- Pendelton, Amy M.**, B.A., University School Instructor, Developmental Research School
- Pennex, Ruth S.**, J.D., Florida State; Associate in Law
- Pequignot, Jacquelyn J.**, M.S.W., Assistant Dean, Student Affairs, Dean of Students
- Peresich, Joseph G.**, M.S., Coordinator, Computer Systems Control, Northwest Regional Data Center
- Perez, Carla J.**, Ph.D., Texas Woman's; Assistant in Design Technology, Textiles and Consumer Sciences
- **Perpener, John O.**, Ph.D., New York; Associate Professor of Dance
- + **Perrewe, Pamela L.**, Ph.D., Nebraska; Associate Dean of Graduate Programs, and Professor of Management
- Perry, Deborah L.**, B.A., Coordinator, Academic Support Services, History
- + **Perry, Reginald J.**, Ph.D., Georgia Institute of Technology; Chair and Professor of Electrical and Computer Engineering
- **Perry, Robin E.**, Ph.D., California; Visiting Assistant Professor of Social Work
- Personnette, Michelle R.**, M.A., Coordinator, Information/Publications Services, Challenger Learning Center
- Pesta, George B.**, M.A., Assistant in Research, Criminology
- Pete, Kelita A.**, M.S., Coordinator, Administrative Services, Environmental Health and Safety
- + **Peters, Elizabeth H.**, Ph.D., Florida; Associate Professor of Anthropology
- Peters, Margaret F.**, B.S., Coordinator, Student Affairs, Circus, and Instructor of Physical Education
- + **Peters, Michael H.**, Ph.D., Ohio State; Elvin J. Dantin Professor of Engineering, 2000, and Chair and Professor of Chemical Engineering
- Peters, Robert L.**, J.D., Florida State; Lecturer of Risk Management and Insurance
- Peterson, Barbara K.**, B.S., Assistant Director, Physical Plant, Facilities, Operations, and Maintenance
- + **Peterson, David R.**, Ph.D., North Carolina; Professor of Finance
- + **Peterson, Gary W.**, Ph.D., Duke; Professor of Human Services and Studies, and Associate Dean, College of Education
- Peterson, Michael A.**, B.S., Business Manager, Thagard Health Center
- + **Peterson, Pamela P.**, Ph.D., North Carolina; Professor of Finance
- **Peterson, William F.**, M.M., Associate Professor of Music
- Petrisor, Ioana G.**, B.A., Assistant in Research, Center for Biomedical and Toxicological Research
- + **Petrovich, Fred L.**, Ph.D., Michigan State; Professor of Physics
- **Pfaff, Christopher A.**, Ph.D., Institute of Fine Arts; Associate Professor of Classics
- Pfeffer, Richard L.**, Ph.D., Massachusetts Institute of Technology; Carl-Gustaf Rossby Professor of Meteorology, 1999, and Distinguished Research Professor, 1996 - 1997
- Pfeil, Jason A.**, M.S., Visiting Assistant in Research, Academic Affairs
- Phelps, Daniel C.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- Phillip-Guide, Earle C.**, B.A., Specialist, Computer Applications, Florida Information Resource Network
- Phillips, David S.**, B.A., Visiting University School Instructor, Developmental Research School
- Phillips, Gregory J.**, M.S.S., Assistant Director, Intercollegiate Athletics
- **Phillips, Patricia H.**, M.F.A., Associate Professor of Dance
- Phillips, Sherilyn H.**, Coordinator, Administrative Services, College of Social Sciences
- Phillips, Susan**, Ph.D., Florida State; Visiting Research Associate, Economic Policy and Government Center
- + **Piazza, Carolyn L.**, Ph.D., Pittsburgh; Associate Professor of Educational Theory and Practice
- **Picart, Caroline Joan S.**, Ph.D., Pennsylvania State; Assistant Professor of English
- Pichugin, Valentina**, Ph.D., Russian Language Institute, Academy of Sciences of the U.S.S.R.; Assistant Professor of Modern Languages and Linguistics
- Pickard, Kenneth W.**, Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- + **Piekarewicz, Jorge**, Ph.D., Pennsylvania; Assistant Professor of Physics
- Pieno, John A.**, M.S., Assistant in Social Sciences
- Pierno, Ronald J.**, J.D., Florida State; Lecturer of Accounting
- + **Piersol, Jon R.**, Ph.D., Iowa; Dean and Professor of Music
- **Pietralunga, Mark F.**, Ph.D., California at Berkeley; Victor Oelschlagler Professor of Modern Languages, 2000, and Chair and Professor of Modern Languages and Linguistics
- + **Pignatiello, Joseph J., Jr.**, Ph.D., Ohio State; Associate Professor of Industrial Engineering
- Pigott, Wendy E.**, B.S., Coordinator, Academic Support Services, English
- Pincus, Debra D.**, Ph.D., Institute of Fine Arts; Visiting Eminent Appletton Scholar of Art History
- + **Ping, Wei-Chou Virgil**, Ph.D., Texas at Austin; Associate Professor of Civil and Environmental Engineering
- Pittle, Kevin D.**, M.S., Coordinator, Admissions/Registration, Office of Admissions
- Pittman, Mary J.**, B.S., Coordinator, Accounting, Controller
- + **Pitts, Brenda G.**, Ed.D., Alabama; Professor of Physical Education
- **Pitts, James E.**, Ph.D., Kentucky; Professor of Information and Management Science and Director of International Programs
- **Plant, Elizabeth Ashby**, Ph.D., Wisconsin; Assistant Professor of Psychology
- + **Platt, Elizabeth J.**, Ph.D., Illinois; Associate Professor of Curriculum and Instruction
- Platt, Mary G.**, M.S., Specialist, Computer Applications, Controller
- Platt, Sherri L.**, B.S., University School Visiting Instructor, Developmental Research School
- Plettli, David R.**, B.A., Athletic Trainer, Athletics
- Ploumis-Devick, Evelyn**, Ph.D., Assistant Vice President, Student Affairs, Vice President of Student Affairs
- + **Poey, Delia M.**, Ph.D., Louisiana State; Assistant Professor of Modern Languages and Linguistics
- + **Pohl, Mary E.**, Ph.D., Harvard; Professor of Anthropology
- Pollard, Brynmor T.I.**, LL.M., London; LL.M., New York; Visiting Professor of Law
- Pollock, Phillip M.**, M.S., Coordinator, Information/Publications Services, College of Law
- Pollock, William E.**, B.S., Specialist, Computer Systems Control, Florida Information Resource Network
- Pompper, Donnalyn**, Ph.D., Temple; Associate Professor of Communication
- **Ponder, Purvis E.**, M.A., Associate Professor of Special Education
- Ponder, Roger**, Ph.D., Florida State; Assistant in English
- Poole, Brenda H.**, B.S., Coordinator, Accounting, Controller
- + **Pope, Jerrold L.**, D.M.A., Rutgers; Associate Professor of Music
- Pope, Olivia H.**, J.D., Jones School of Law; Academic Administrator, Office of Research
- Popovic, Dragana**, Ph.D., Brown; Associate Scholar/Scientist, National High Magnetic Field Laboratory

- Porras, Ana E.**, M.A., Instructor of College Programs, Panama Canal Branch
- **Portman, Richard R.**, Gordon Sawyer Professor of Recording Arts, 1999, and Associate in Film, School of Motion Picture, Television, and Recording Arts
 - Portorreal, David A.**, M.F.A., Coordinator, Academic Programs, Motion Picture, Television, and Recording Arts
 - Posey, Risetete**, M.B.A., Coordinator, Computer Applications, Office of Technology Integration
 - Posnansky, Gary R.**, Ph.D., Florida State; Visiting Assistant in Communication, Panama City Branch
 - Posner, Philip**, Ph.D., State University of New York Downstate; Visiting Professor and Academic Administrator of Medicine
 - Pospichal, James J.**, Ph.D., Florida State; Research Associate, Geological Sciences
 - **Poster, Carol**, Ph.D., Missouri; Assistant Professor of English
 - Pottinger, Leslie A.**, B.A., Assistant Professor of Physical Education
 - Potts, Isabelle M.**, J.D., Texas; Assistant in Research, Criminology
 - Potts, Susan J.**, M.S.W., Visiting Assistant in Research, Institute for Science and Public Affairs
 - Powell, Barbara A.**, Coordinator, Accounting, Controller
 - Powell, David F.**, J.D., Texas; Associate Professor of Law
 - Powell, Joanna M.**, M.A., Visiting Assistant in Research, Institute for Science and Public Affairs
 - Powell, Sharon Y.**, Associate Director, Research Programs and Services, College Programs
 - Powell, Vernon Lee, Jr.**, B.A., Instructor of Military Science
 - Powellson, Michael W.**, Ph.D., Coordinator, Statistical Research, Center for Prevention
 - Powers, Britton C.**, B.S., Coordinator, Computer Applications, Career Development
 - **Powers, Nancy R.**, Ph.D., Notre Dame; Assistant Professor of Political Science
 - Prasad, Akshintala**, Ph.D., Madras; Scholar/Scientist, Biological Science
 - + **Prasad, Kislaya**, Ph.D., Syracuse; Associate Professor of Economics
 - + **Presmeg, Norma C.**, Ph.D., Cambridge; Associate Professor of Curriculum and Instruction
 - Prevatt, Bruce C.**, Ph.D., Virginia Polytechnic Institute; Director, Education and Training Programs, Employee Assistance Program
 - + **Prevatt, Frances A.**, Ph.D., Virginia; Associate Professor of Human Services and Studies
 - Price, Benjamin E.**, B.S., Assistant in Public Management, Florida Center for Public Management
 - Prieto, Eileen S.**, M.S., Coordinator, Clinical Programs, Communication Disorders
 - Printiss, David J.**, B.S., Coordinator, Research Programs/Services, Florida Resources and Environmental Analysis Center
 - Pritchett, Nikki J.**, Ph.D., Psychologist, Student Counseling Center
 - **Proctor, Briley E.**, Ph.D., Florida; Visiting Assistant Professor of Human Services and Studies
 - + **Prosper, Harrison B.**, Ph.D., Manchester; Professor of Physics
 - Pruett, Rebecca F.**, M.S., Assistant in Research, Center for Prevention and Early Intervention
 - Pryor, Ruth C.**, Associate in Research, Meteorology
 - Pucci, John A.**, Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
 - Pugh, Bryan T.**, J.D., Florida State; Visiting Assistant in Law, Law
 - + **Pullen, Daniel J.**, Ph.D., Indiana; Associate Professor of Classics
 - Pullen, Robert E.**, B.S., Coordinator, Human Resources/Personnel Relations, Human Resources
 - Pulliam, Elizabeth J.**, M.S., Coordinator, Chemistry
 - **Punter, Melanie L.**, Assistant Professor of Music
 - Purdum, Elizabeth D.**, M.S., Research Associate, Florida Resources and Environmental Analysis Center
 - Purinton, Jeffrey L.**, B.S., Coordinator, Sports Information, Athletics
 - Purvis, Mark E.**, B.S., Coordinator, Telecommunications, Telecommunications
 - Purvis-Montford, Emily**, M.S., Research Associate, Family and Child Sciences
 - Putch, Sastry P.**, Ph.D., North Carolina State; Visiting Professor of Civil and Environmental Engineering
 - + **Quadagno, David M.**, Ph.D., Illinois; Professor of Biological Science
 - + **Quadagno, Jill B.**, Ph.D., Kansas; Professor of Sociology, and Mildred and Claude Pepper Eminent Scholar in Social Gerontology
 - **Quarterman, Jerome**, Ph.D., Ohio State; Associate Professor of Physical Education
 - Quero-Munoz, José H.**, B.S., Coordinator, Accounting, Controller
 - + **Quine, John R.**, Ph.D., Michigan; Professor of Mathematics
 - Quing, Liu**, M.S., Visiting Assistant in Engineering, Industrial Engineering
 - Quinn, John P.**, B.S., Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
 - **Rackley, Sandra W.**, Ph.D., Florida State; Dean of Undergraduate Studies, and Associate Professor of Communication
 - Ragans, Sherrill W.**, M.A., Associate Vice President, Student Affairs, Vice President for Student Affairs
 - **Ragheb, Mounir**, Ph.D., Illinois; Professor of Human Services and Studies
 - Rai, Atul**, Ph.D., New York; Assistant Professor of Accounting
 - Raimondi, Nicole M.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
 - **Ralstin, Laura A.**, Ph.D., Alabama; Visiting Assistant Professor of Communication
 - + **Ralston, Penny A.**, Ph.D., Illinois; Dean, College of Human Sciences, and Professor of Family and Child Sciences
 - **Raman, Pushkala**, M.B.A., Assistant Professor of Marketing
 - Ramaswamy, M.A.**, Ph.D., California Institute of Technology; Professor of Mechanical Engineering
 - Ramos, Johanna L.**, M.S., University School Visiting Instructor, Developmental Research School
 - Ramsey Jr., Earl D.**, E.D.S., Georgia; Research Associate, Center for Study of Teaching and Learning
 - Ramsier, Steven W.**, Ph.D., Clemson; Assistant in Statistics
 - Randle, Dawn C.**, B.S., Assistant Director, University Relations/Public Affairs, University Relations
 - **Raney, Arthur A.**, Ph.D., Alabama; Assistant Professor of Communication
 - + **Rankins, Jenice**, Ed.D., Columbia; Associate Professor of Nutrition, Food, and Exercise Sciences
 - Rant, Jeffrey W.**, Ed.S., University School Instructor, Developmental Research School
 - Rappa, Lawrence J.**, M.S., Coordinator, Accounting, Controller
 - Rashotte, Carol A.**, Ph.D., Florida State; Research Associate, Psychology
 - + **Rashotte, Michael**, Ph.D., Toronto; Professor of Psychology, Distinguished Teaching Professor, 1990-1991
 - + **Rasmussen, David W.**, Ph.D., Washington; James H. Gapinski Professor of Economics, 2000, and Director, DeVoe L. Moore and Family Center for Critical Issues, and Professor of Economics
 - Rasmussen, Dennis R.**, Ph.D., California at Riverside; Associate in College Programs and Academic Administrator, International Programs
 - Rasmussen, Dorothy D.**, M.S., Associate Director, Academic Programs, Center for Civic Education and Service
 - Rasmussen, Howard M.**, M.S., Assistant in Research, Florida Center for Public Management
 - Ratliff, Ricky R.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
 - Ratliffe, J. Laraine**, M.A.T., University School Instructor, Developmental Research School
 - + **Ratliffe, Thomas A.**, Ed.D., Georgia; Associate Professor of Physical Education
 - Raulerson, John E.**, M.F.A., Coordinator, Academic Programs, Art
 - + **Rawling, John P.**, Ph.D., California at Berkeley; Associate Professor of Philosophy
 - + **Ray, Peter S.**, Ph.D., Florida State; Professor of Meteorology, and Faculty Associate, School of Computational Science and Information Technology
 - + **Rayburn, Jay D.**, Ph.D., Florida State; Associate Professor of Communication
 - Rea, Clyde G.**, M.A., Assistant Director Business and Finance/Auxiliary Services, National High Magnetic Field Laboratory
 - + **Readdick, Christine A.**, Ph.D., Florida State; Associate Professor of Family and Child Sciences
 - + **Reardon, Robert C.**, Ph.D., Florida State; Professor of Human Services and Studies and Director, Career Placement Center
 - Reazin, Ronald D.**, M.A., Coordinator, Computer Applications, Office of Technology Integration
 - Record, Kimberly S.**, B.A., Associate Director, Intercollegiate Athletics, Athletics
 - Redfearn, Stephanie W.**, J.D., Academic Administrator and Assistant Dean, College of Law
 - Redmond, Barbara**, M.F.A., Associate Professor and Assistant Program Director, Theatre
 - + **Ree, Joe J.**, Ph.D., Indiana; Professor of Modern Languages and Linguistics
 - Reese, Larry D.**, B.S., Assistant Vice President for Administrative Affairs and Controller, Controller
 - + **Reeves, Robert H.**, Ph.D., New York; Associate Professor and Associate Chair of Biological Science
 - Reeves, Sharon E.**, B.S., Academic Administrator, Arts and Sciences Dean's Office
 - + **Rehder, Ernest C.**, Ph.D., Florida; Associate Professor of Modern Languages and Linguistics
 - + **Rehm, Marsha L.**, Ph.D., Minnesota; Associate Professor of Family and Child Sciences
 - + **Reid, Lori L.**, Ph.D., Arizona; Assistant Professor of Sociology
 - + **Reid, Sue Titus**, Ph.D., Missouri at Columbia; J.D., Iowa; Professor of Public Administration and Policy
 - Reifenheiser, Paul M.**, Ph.D., Florida State; Visiting Instructor, English
 - + **Reimers, Jane L.**, Ph.D., Michigan; Chair and Professor of Accounting
 - Reina, Laura**, Ph.D., International School for Advanced Studies; Assistant Professor of Physics
 - Reis, Barbara R.**, B.S., Coordinator, Academic Support Services, Humanities
 - + **Reiser, Robert A.**, Ph.D., Arizona State; Professor of Educational Research, Distinguished Teaching Professor, 1999-2000
 - Reist, Aimee B.**, M.S., Associate Librarian, Information Studies
 - Renand, Beverly C.**, M.A., Assistant in Research, Institute of Science and Public Affairs
 - Renwick, Judith A.**, M.A., University School Assistant Professor, Developmental Research School
 - Respress, Trinetia L.**, Ph.D., East Tennessee State; Assistants in Research, Criminology
 - Respress, William**, Ph.D., Coordinator, Student Affairs, Vice President of Student Affairs
 - Reyes, Arnel P.**, Associate Scholar/Scientist/Engineer, National High Magnetic Field Laboratory
 - Reyes, Elena**, Ph.D., Florida State; Assistant in Medicine and Assistant Professor of Medical Humanities and Social Sciences
 - Reynaud, Barbara C.**, Ph.D., Florida State; Visiting Assistant in Physical Education
 - + **Reynolds, John R.**, Ph.D., Ohio State, Assistant Professor of Sociology
 - Reynolds, Todd M.**, B.S., Courtesy Assistant in Recruiting, Aerospace Studies

- Rhodes, Peter**, Ph.D., Oxford; Visiting Langford Eminent Scholar of Classics
- + **Rhodes, William C.**, Ph.D., Johns Hopkins; Service Professor of Chemistry
- Rhyne, Clinton E.**, Ph.D., California School of Professional Psychology; Visiting Assistant in Clinical Psychology
- Riccardi, Ann M.**, M.I.L.S., Research Associate, Center for Study of Teaching and Learning
- + **Riccardi, Gregory A.**, Ph.D., New York at Buffalo; Professor of Computer Science and Scholar/Scientist, School of Computational Science and Information Technology
- Riccardi, Samuel A.**, Ph.D., Ohio State; Professor of Chemical Engineering
- **Rice, Diana C.**, Ph.D., Indiana State; Assistant Professor of Educational Theory and Practice
- Rice, Susan S.**, B.S., Coordinator, Human Resources/Personnel Relations, Human Resources
- Rich, James L.**, Coordinator, Telecommunications, Office of Technology Integration
- **Richard, Valliere T.**, Ph.D., Florida State; Associate Professor of Motion Picture, Television, and Recording Arts
- Richards, Robin D.**, B.S., Research Associate, Center for Teaching and Learning
- Richardson, Angela C.**, M.S.W., Director Academic Support Services, Minority Academic Programs
- + **Richardson, Joe M.**, Ph.D., Florida State; Professor of History
- **Richey, Michael M.**, Ph.D., Florida State; Professor of Theatre
- Richter, Peter**, Ph.D., Eötvös University; Research Associate, Center for Biomedical and Toxicological Research
- Riddle, Kimberly A.**, B.S., Coordinator, Research Programs and Services, Biological Science
- Riedel, Robert A.**, A.B., Instructor of Hospitality
- **Riggin, Leslie J.**, Ph.D., Cornell; Assistant Professor of Educational Research
- + **Rikvold, Per Arne**, Ph.D., Temple; Professor of Physics and Scholar/Scientist, School of Computational and Information Technology
- + **Riley, Mark A.**, Ph.D., Liverpool; Raymond K. Sheline Professor of Physics, 2000
- + **Rill, Randolph L.**, Ph.D., Northwestern; Professor of Chemistry
- Rine, Steven P.**, B.S., Coordinator, Information/Publication Services, University Communications
- Rinehart, Robert W.**, B.S., Coordinator, Admissions/Registration, Registrar's Office
- + **Ringquist, Evan J.**, Ph.D., Wisconsin at Madison; Professor of Political Science
- + **Riordan, George T.**, D.M., Florida State; Academic Administrator, Music
- Rios, Cristina**, M.S., Assistant in Elementary Education, Educational Theory and Practice
- + **Ripley, C. Peter**, Ph.D., Florida State; Professor of History
- Riscigno, James Albert**, M.B.A., Assistant in Hospitality, Hospitality
- Ritzenthaler, Brakeltak K.**, Ph.D., Florida State; Program Director, Deans Office, Engineering
- Robbins, Cheryl L.**, M.S., Assistant in Research, Center for Health Equity, College of Medicine
- + **Robbins, Jane B.**, Ph.D., Maryland; Dean and Professor of Information Studies
- Roberson, Bettina**, B.S., Coordinator, Administrative Services, College of Education
- **Roberson, Keith A.**, M.F.A., Assistant Professor of Art
- Roberts, Anthony K.**, B.S., Coordinator, Research Programs/Services, FREAC
- Roberts, John D.**, M.S., Specialist, Computer Research, Chemistry
- Roberts, Kathryn M.**, B.S., Coordinator, Information/Publications Services, National High Magnetic Field Laboratory
- + **Roberts, Rodney G.**, Ph.D., Purdue; Associate Professor of Electrical and Computer Engineering
- + **Roberts, Thomas M.**, Ph.D., Notre Dame; Chair and Professor of Biological Science
- Robins, Andrew M.**, M.S., Assistant Athletic Coach, Intercollegiate Athletics
- Robinson, Alice E.**, Ed.D., Florida International, Director, High School/Community College Relations, University Relations
- Robinson, Barbara C.**, M.L.S., Assistant Director, Academic Support Services, College of Business
- Robinson, Charles**, B.S., Coordinator, Accounting, National High Magnetic Field Laboratory
- Robinson, Denise G.**, M.S., Assistant Director, Medical/Health Administration, Thagard Health Center
- Robinson, Joan G.**, B.A., Coordinator, Information/Publications Services, Criminology
- Robinson, Juanita Lewis**, M.A., University School Assistant Professor, Developmental Research School
- Robinson, Sarah B.**, M.S.W., Visiting Assistant Professor of Social Work
- Robinson, Steve A.**, Head Athletics Coach, Athletics - Basketball
- Robison, J. Jeffrey**, M.S., Executive Assistant, President's Office
- + **Robson, Donald**, Ph.D., Melbourne, Australia; Professor of Physics, and Scientist/Scholar, School of Computational Science and Information Technology; and Robert O. Lawton Distinguished Professor, 1990-1991
- Roby, Christopher J.**, M.S., Associate Director, Multipurpose Facilities, University Union
- **Roche, James W.**, M.F.A., Professor of Studio Art
- Rodgers, Bruce E.**, M.A., Assistant Director, Multipurpose Facility, School of Theatre
- Rodgers, Guadalupe D.**, B.S., Coordinator, Administrative Services, Physics
- Rodgers, Ryan P.**, Ph.D., Florida State; Assistant Scholar/Scientist, National High Magnetic Field Laboratory
- Rodin, Mark A.**, B.S., Program Director, Communication
- Rogers, Leslie E.**, B.S., Coordinator, Public Functions and University Relations
- Rogers, Linda M.**, M.S., Assistant in Mathematics, Mathematics
- Rohani, Faranak**, M.S., Associate in Research, Educational Services Program
- + **Rolf, William J.**, Specialist, Music, School of Dance
- + **Rollin, Stephen A.**, Ed.D., Massachusetts; Program Director and Professor of Human Services and Studies
- + **Rollins, Carolyn W.**, Ph.D., Southern Illinois; Assistant Professor of Human Services and Studies
- **Roman, Mary Brigid**, M.M., Associate Professor of Music
- **Romanchuk, Robert L.**, Ph.D., California at Los Angeles; Assistant Professor of Modern Languages and Linguistics
- Romeuf, Sophie C.**, B.A., Coordinator, Administrative Services, Modern Languages
- Ronald, Margaret L.**, M.A., Research Associate, Center for Educational Research and Policy Studies
- Roper, Brian Kelly**, Instructor of Military Science
- + **Rosal, Marcia**, Ph.D., Queensland; Professor of Art Education
- Rosario, Ramona**, Ph.D., Florida Institute of Technology; Visiting Instructor of Electrical and Computer Engineering
- + **Rose, Patricia**, Ph.D., Columbia; Associate Professor of Art History
- **Rosenblum, L. Penny**, Ph.D., Arizona; Assistant Professor of Special Education
- + **Rosenthal, Laura J.**, Ph.D., Northwestern; Associate Professor of English
- Ross, Janice S.**, M.L.S., Associate Librarian, Law Library
- Ross, Julian E.**, D.M.A., Rutgers; Visiting Assistant Professor of Music
- Rossi, James E.**, J.D., Iowa; LL.M., Yale; Associate Dean and Associate Professor of Law
- Rothman, Howard B.**, Ph.D., Stanford; Courtesy Professor of Communication Disorders
- Rousch, Sandra W.**, M.P.H., Assistant in Research, Institute for Science and Public Affairs
- Rouse, Deborah H.**, M.L.S., Instructor Librarian, Library/Special Collections
- + **Roux, Kenneth H.**, Ph.D., Tulane; Professor of Biological Science
- + **Rowe, Anne E.**, Ph.D., North Carolina; Professor of English, and Associate Dean, Dean's Office
- Rowe, Suzanne E.**, J.D., Columbia; Visiting Associate in Law, Law
- Rozier, Alice R.**, Ph.D., Director High School or Community College Relation, Community College and Interinstitutional Relations
- + **Rubanowice, Robert J.**, Ph.D., Connecticut; Service Professor of History
- Ruben, Andrew D.**, Visiting Assistant in Film, School of Motion Picture, Television and Recording Arts
- Rubin, Lawrence R.**, M.S., Associate Director, Physical Plant, Facilities, Planning and Construction
- + **Rubini, Gail**, M.B.A., M.F.A., Associate Professor of Art
- Rubinstein, Sallie**, M.L.S., Associate Librarian, University Libraries
- Rucker, Johanna P.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- Rudasill, Susann E.**, Ed.D., Nova Southeastern University; Faculty Administrator and Associate Director of Programs, Center for Professional Development
- Ruhl, John B.**, LL.M., George Washington; J.D., Virginia; Professor of Law
- **Ruiz, Marilyn O.**, Ph.D., Florida; Assistant Professor of Geography
- Rumsey, Linda G.**, M.L.S., Coordinator, Human Resources/Personnel Relations, Human Resources
- + **Ruppert, Peter C.**, Ph.D., Iowa; Professor of Modern Languages and Linguistics
- + **Ruscher, Paul H.**, Ph.D., Oregon State; Associate Professor of Meteorology
- + **Ruse, Michael E.**, Ph.D., Bristol; Visiting Professor of Philosophy
- Rushing, Linda A.**, M.S., Assistant in Research, Criminology
- Russell, James D.**, Ed.D., Indiana; Visiting Research Associate, Learning Systems Institute
- Ruth, DiAnn K.**, B.A., University School Instructor, Developmental Research School
- **Rutkovsky, Paul**, M.F.A., Associate Professor of Studio Art
- Ryals, Mary J.**, Ph.D., Florida State; Assistant in Business Communication, Management
- + **Ryan, Pamela L.**, M.A., Associate Professor of Music
- **Ryan, Scott Douglas**, Ph.D., Case Western Reserve University; Assistant Professor of Social Work
- Rychlik, Michael C.**, M.S., Visiting Assistant in English Education, Curriculum and Instruction
- Ryneanson, Richard L., III**, B.A., Assistant in Aerospace Studies
- Sabo, Michael E.**, A.A., Assistant in Research, National High Magnetic Field Laboratory
- Sacher, Lesley K.**, M.S., Director, Medical/Health Administration, Thagard Health Center
- Sachi, Afsar A.**, Coordinator, Research/Program Services, National High Magnetic Field Laboratory
- Sachs-Ericsson, Natalie J.**, Ph.D., Southern Illinois; Associate in Clinical Psychology, Psychology
- Sadler, Karen A.**, B.S., Visiting Assistant in Neuroscience, Psychology
- + **Safron, Sanford A.**, Ph.D., Harvard; Professor of Chemistry
- + **Saladin, Linda A.**, Ph.D., California; Associate Professor of English
- Sale, Geraldine N.**, Ph.D., Florida; Associate Professor of Accounting, Panama City Branch
- **Salmon, Tim C.**, Ph.D., Johns Hopkins; Assistant Professor of Economics

- Salters, Vincent J.M.**, Ph.D., Massachusetts Institute of Technology; Scholar/Scientist, National High Magnetic Field Laboratory
- + **Saltiel, Jack, Ph.D.**, California Institute of Technology; Professor of Chemistry
- Sample, John A.**, Ph.D., Florida State; Visiting Assistant Professor of Educational Foundations and Policy Studies
- + **Sampson, James P., Jr.**, Ph.D., Florida; Professor of Human Services and Studies
- Sams, Jack G.**, M.S., Assistant Director, Research Programs/Services, Technology Transfer
- Samwel, Corine S.**, M.A., Coordinator, Research Programs/Services, Registrar
- + **Sandahl, Carrie E.**, Ph.D., Wisconsin; Assistant Professor of Theatre
- Sanders, Gayla B.**, B.S., Visiting Assistant in Research, National High Magnetic Field Laboratory
- Sanders, Teresa A.**, B.S., Coordinator, Accounting, Thagard Health Center
- **Sandifer, James R.**, B.A., Associate Professor of Dance
- + **Sandon, Leo**, Ph.D., Boston; Professor of Religion, Distinguished Teaching Professor, 1990 – 1991
- Sandon, Marvel L.**, M.S., University School Professor, Developmental Research School
- Sanfilippo, Janet C.**, M.A., Associate in Research, Educational Services Program
- + **Sang, Qing-Xiang**, Ph.D., Georgetown; Assistant Professor of Chemistry
- + **Sapolsky, Barry S.**, Ph.D., Indiana; Professor of Communication
- Sarjeant, Veronica D.**, B.S., Director, Florida Information Resource Network
- Sarrao, John L.**, Ph.D., California at Los Angeles; Visiting Assistant Scholar/Scientist, National High Magnetic Field Laboratory
- Sarrapochiello, Lina S.**, B.A., University School Instructor, Developmental Research School
- + **Sass, Tim R.**, Ph.D., Washington; Associate Professor of Economics
- + **Sathe, Shridhar**, Ph.D., Utah State; Professor of Nutrition, Food, and Exercise Sciences
- Saunders, Sandra L.**, B.S., Coordinator, Administrative Services, Psychology
- + **Savitsky, Basil**, Ph.D., Clemson; Assistant Professor of Geography
- Sawicki, Mark T.**, B.S., Professional Engineer, Campus Design
- Sawyer, Leslie B.**, B.A., Coordinator, Continuing Education, Center for Professional Development
- Scalerci, Michelle A.**, B.A., Assistant in Art History, Ringling Museum
- Scanlan, Glenn L.**, B.S., Contoller
- Schaefer, Kathy J.**, M.S., Visiting Instructional Specialist, Psychology
- Schaefer, Martin W.**, B.S., Coordinator, Computer Applications, Human Resources
- Schaffer, Scott P.**, M.S., Research Associate, Learning Systems Institute
- Schall, Mary Beth A.**, M.S.N., Assistant in Nursing, Nursing
- Schaller, John S.**, Ph.D., Florida State; Visiting Instructor of Biological Science
- **Scheffers, Marten K.**, Ph.D., Illinois at Urbana; Assistant Professor of Psychology
- Scherdin, Robert L.**, B.S., Coordinator, Computer Systems Control, Northwest Regional Data Center
- Scherger, Joseph E.**, M.D., California at Los Angeles School of Medicine; Dean, College of Medicine and Professor of Primary Care Medicine, Department of Family Medicine
- Scheuch, Katherine L.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- Schilling, Cindy L.**, B.S., Coordinator, Accounting, Contoller
- + **Schlagenhauf, Don E.**, Ph.D., Illinois; Professor of Economics and Rod and Hope Brim Eminent Scholar in Economics
- + **Schlenoff, Joseph**, Ph.D., Massachusetts; Professor of Chemistry
- + **Schlottmann, Pedro U. J.**, Ph.D., Munich; Professor of Physics
- Schmauch, Matthew W.**, M.S., Coordinator, Academic Support Service, Athletics
- + **Schmeeckle, Mark W.**, Ph.D., Colorado; Assistant Professor of Geological Sciences
- + **Schmertmann, Carl P.**, Ph.D., California at Berkeley; Associate Professor of Economics
- Schmidt, Brian G.**, B.S., Assistant in Accelerator Technology, Physics
- Schmidt, Linda C.**, J.D., Florida State; Associate General Counsel, Office of the General Counsel
- Schneider, Margaret A.**, B.F.A., Coordinator, Museum Operations, Ringling Museum
- Schneider, Mary E.**, Coordinator, Academic Support Services, Political Science
- + **Schneider-Muntau, Hans J.**, Ph.D., Stuttgart; Professor of Mechanical Engineering and Associate Director, National High Magnetic Field Laboratory
- Schnittker, Dennis W.**, B.S., Coordinator, Educational Media/Communications, Media Relations
- + **Scholz, John T.**, Ph.D., California at Berkeley; Eppes Professor of Political Science
- Schrader, David F.**, M.S., Coordinator, Computer Applications, Academic Computer and Network Services
- Schrader, Linda B.**, Ph.D., Florida State; Visiting Assistant Professor of Educational Research
- + **Schrieffer, John R.**, Ph.D., Illinois; Professor of Physics, University Eminent Scholar Chair in Physics, and Nobel Laureate in Physics, 1972
- Schrock, Douglas P.**, Ph.D., North Carolina State; Assistant Professor of Sociology
- Schroeder, Edwin M.**, J.D., Tulane; Professor of Law, and Director, Law Library
- Schultetus, Richard S.**, M.A., Coordinator, Computer Applications, Office of Technology Integration
- Schultz, Daniel J.**, M.S.W., Assistant in Field Instruction, Social Work
- Schultz, Gary E.**, M.S., Coordinator, Research Programs/Services, Florida Resources and Environmental Analysis Center
- + **Schvaneveldt, Jay D.**, Ph.D., Florida State; Professor and Chair of Family and Child Sciences
- Schwabe, Annette M.**, Coordinator, Statistic Research, Pepper Institute on Aging
- + **Schwartz, Daniel G.**, Ph.D., Portland State; Associate Professor of Computer Science
- + **Schwartz, Justin**, Ph.D., Massachusetts Institute of Technology; Associate Program Director, National High Magnetic Field Laboratory, and Professor of Mechanical Engineering
- + **Schwartz, Louis**, Ed.D., Columbia; Professor of Special Education
- + **Schwartz, Martin A.**, Ph.D., Stanford; Professor of Chemistry
- + **Schwartz, Robert A.**, Ph.D., Indiana; Associate Professor of Educational Leadership
- Schwerzel, Sharon**, M.L.S., Department Head and Librarian, University Libraries
- Scott, Darryl A.**, B.S., Assistant in Research, Educational Services Program
- + **Scott, Elton**, D.B.A., Florida State; Associate Professor of Finance
- Scott, Jane Wells**, M.S., Visiting University School Instructor, Developmental Research School
- Scott, Marilyn K.**, M.S., Assistant in Computer Science, Computer Science
- Scott, Martha A.**, M.S., Coordinator, Education/Training Programs, Human Resources
- Scott, Roy W.**, Ph.D., Florida State; Assistant in Research, Criminology
- Scott, Tracie L.**, B.S., Coordinator, Career Development Services, Career Center
- Scott, Winston E.**, M.S., Vice President, Student Affairs
- + **Scott-Simmons, Diana**, Ed.D., Ball State; Professor of Educational Theory and Practice
- Scott-Trautman, Lisa A.**, Ph.D., Nebraska; Assistant Professor of Communication Disorders
- Searcy, Dan M.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
- **Seaton, Gayle**, D.M., Florida State; Program Director, Music
- + **Seaton, S. Douglass**, Ph.D., Columbia; Professor and Acting Assistant Dean of Music
- Seavy, Magaret A.**, Coordinator, Research Programs/Services, Biological Sciences
- Sehgal, Angela K.**, M.S., Assistant in Athletic Training, Nutrition, Food and Exercise Sciences
- Seidenfeld, Mark**, J.D., Stanford; Associate Dean and Professor of Law
- Selken, Nancy R.**, Ph.D., Florida State; Assistant Director, Housing, Housing Operations
- Sellers, Robin J.**, Ph.D., Florida State; Associate in History, History
- **Sellers, Sherrill L.**, Ph.D., University of Michigan; Assistant Professor of Social Work
- Selvey, Anne S.**, Ph.D., Florida State; Psychologist, Multidisciplinary Center
- Semrau, Susan P.**, M.B.A., Head Athletic Coach, Athletics
- + **Seppala, Mika K.**, Ph.D., Helsinki; Professor of Mathematics
- + **Serow, William**, Ph.D., Duke; Professor of Economics, and Director, Center for the Study of Population
- Serventi, Steven Louis**, M.S., Visiting Assistant Professor of Social Work
- + **Sethuraman, Jayaram**, Ph.D., Indian Statistical Institute; Professor of Statistics, and Robert O. Lawton Distinguished Professor, 1993 – 1994
- Sexton, William T.**, B.S., Assistant Athletic Coach, Athletics - Football
- Seymour, Elizabeth A.**, B.S., Assistant Director, Academic Support Services, International Programs
- Shackelford, Carolyn S.**, B.S., Director, Human Resources/Personnel Relations, Human Resources
- Shacochis, Robert G.**, M.F.A., Associate in English
- Shaffel, Matthew R.**, Ph.D., Yale; Assistant Professor of Music
- Shahane, Meena A.**, Ph.D., Poona; Physician, Thagard Health Center
- Shaheen, Arlene B.**, M.S.W., Assistant in Social Work, Panama City Branch
- + **Shaheen, Shahid A.**, Ph.D., Ruhr; Associate Professor of Physics
- Shambaugh, Margie L.**, B.F.A., Coordinator, Museum Operations, Appleton Museum
- + **Shargel, Emanuel I.**, Ph.D., Cornell; Associate Professor of Educational Foundations and Policy Studies
- + **Shaw, Kenneth**, Ed.D., Georgia; Associate Professor, Academic Administrator, and Associate Dean, College of Education
- Shaw, Robert A.**, M.S., Visiting Assistant in Information Studies
- Shearer, Barbara S.**, M.S.L.S., Librarian, Medicine
- Shearer, Virginia**, Coordinator, Educational Media/Communications, Ringling Museum
- Sheffer, Patricia A.**, B.A., Visiting University School Instructor, Developmental Research School
- Sheffield, Sheila R.**, M.S., Visiting Assistant in Research, Institute of Science and Public Affairs
- + **Shellahamer, Bentley R.**, Ph.D., Ohio State; Assistant Dean and Professor of Music
- Shelley, Angela B.**, J.D., Florida State; Visiting Assistant in Law, Law
- Shelton, Judy N.**, M.S., Coordinator, Clinical Programs, Communication Disorders
- Shepherd, Lois L.**, J.D., Yale; Associate Professor of Law
- Sheppard, Sandra L.**, M.S., Coordinator Human Resources/Personnel Relations, Human Services
- Sherraden, Sarah D.**, M.S.N., Associate in Medicine and Academic Administration
- Sherrrod, Robert J.**, M.B.A., Coordinator, Accounting, Contoller
- Shi, Yuhang**, Ph.D., State University of New York; Research Scientists, Data Analysis Center

- + **Shields, William L.**, Ph.D., Stanford; Professor of Mechanical Engineering
- + **Shih, Chiang**, Ph.D., Southern California; Associate Professor and Associate Chair of Mechanical Engineering
- **Shim, Won-Sik**, Ph.D., Rutgers; Visiting Assistant Professor of Information Studies
- Shingles, Shirley B.**, M.Ed., Visiting University School Instructor, Developmental Research School
- Shinn, Allen E.**, M.A., M.S., Librarian, University Libraries
- **Shinn, Christopher A.**, Ph.D., California at Santa Cruz; Assistant Professor of English
- Shively, J. Brett**, M.S., Coordinator, Human Resources/Personnel Relations, Human Resources
- Shively, Kikume M.**, B.S., Coordinator, Administrative Services, School of Music
- Shoplock, Barbara M.**, M.S., Associate in Biological Science, Biological Science
- Shouppe, Jamey D.**, B.S., Assistant Athletic Coach, Athletics
- + **Showalter, Michael J.**, Ph.D., Ohio State; Professor of Marketing
- Shrum, Donna A.**, M.L.S., University School Associate Professor, Developmental Research School
- Shuler, Paul E., Jr.**, B.S., B.A., Coordinator, Environmental Health and Safety, Radiation Safety Office
- **Sias, Richard J.**, F.S.T.D., A.T.C., Professor of Dance
- **Sickinger, James P.**, Ph.D., Brown; Associate Professor of Classics
- Sidani-Tabbaa, Amal**, Ph.D., Florida State; Visiting Assistant Professor of Curriculum and Instruction
- **Siebert, Darcy C.**, Ph.D., North Carolina; Assistant Professor of Social Work
- Sikes, Michael**, Ph.D., Florida State; Visiting Assistant Professor of Art Education
- Simmons, Angela D.**, M.S., Assistant Dean, Student Affairs
- Simmons, Joyce M.**, Ph.D., Duke; Assistant in Business Communication, Management
- Simmons, Melanie J.**, M.S., Associate in Research, Institute for Science and Public Affairs
- Simmons, Pat M.**, B.A., Professor of Theatre
- Simmons, Venecia R.**, B.S., Assistant Director, Research Programs/Services, Undergraduate Studies
- Simonds, Patricia K.**, M.L.S., Librarian, Law Library
- + **Simons, Fred O.**, Ph.D., Florida; Professor of Electrical and Computer Engineering, Engineering
- **Simotes, Tony**, M.F.A., Associate Professor of Theatre, Theatre
- + **Simpson, James**, Ph.D., Arizona State; Assistant Professor of Industrial Engineering
- Simpson, William D.**, M.F.A., Coordinator, Education Media/Communications, Learning Systems Institute
- **Singer, Evelyn T.**, Ph.D., Marquette; Professor of Nursing
- **Singer, Ronald V.**, Ph.D., Michigan State; Academic Administrator, Student Counseling Center and Nursing
- + **Singh, Bawa Satinder**, Ph.D., Wisconsin; Professor of History
- Singh, Karen L.**, Ph.D., Wisconsin; University School Professor, Developmental Research School
- + **Sirmans, George Stacy**, Ph.D., Georgia; Professor of Risk Management/Insurance, Real Estate and Business Law
- Skiles, Daniel E.**, M.A., Assistant Director, Educational/Training Programs, Thagard Health Center
- Skinner, Dianne L.**, B.S., Coordinator, Public Functions, Registrar
- Skinner, Douglas M.**, Assistant in Military Science
- + **Skofronick, James G.**, Ph.D., Wisconsin; Professor of Physics
- Slater, Linda E.**, B.S., Coordinator, Accounting, Controller
- Slaton, Michelle M.**, B.S., Coordinator, Accounting, Controller
- **Slaveva-Griffin, Svetoslava E.**, Ph.D., Iowa; Assistant Professor of Classics
- **Sliger, Bernard F.**, Ph.D., Michigan State; President Emeritus, Professor of Economics, Gus A. Stavros Eminent Scholar in Economic Education, and Director, Stavros Center for Economic Education
- Slone, Christina S.**, B.S., Coordinator, Academic Programs, International Programs
- + **Sly, David F.**, Ph.D., Brown; Professor of Sociology
- Smilowitz, Nancy B.**, B.S., Associate Director, Advancement/Alumni Affairs, College of Arts and Science
- Smit, Marie C.**, B.S., Coordinator, Research Programs/Services, Chemistry
- Smith, Beatrice E.**, M.S., Visiting Assistant in Research, Office of Research
- + **Smith, Dale L.**, Ph.D., Massachusetts Institute of Technology; Chair and Associate Professor of Political Science
- Smith, Donna C.**, M.A., Coordinator, Statistical Research, Budget and Analysis
- Smith, G. Robert**, B.S., Lecturer in Accounting
- Smith, Gary W.**, Ph.D., Florida State; Assistant in Finance, Finance
- Smith, J. Todd**, M.A., Coordinator, Computer Applications, Office of Technology Integration
- + **Smith, James C.**, Ph.D., Florida State; Professor of Psychology, Robert O. Lawton Distinguished Professor 1992 – 1993, and Distinguished Teaching Professor, 1993 – 1994.
- Smith, John A.**, B.S., Faculty Administrator, Florida Resources and Environmental Analysis
- Smith, Kimberly Y.**, B.S., Assistant Director, Physical Plant, Building Services
- Smith, Marilyn B.**, B.S., Assistant Director, Student Financial Aid, Student Financial Aid
- Smith, Matthew**, M.S., Assistant in Research, Meteorology
- Smith, Michael P.**, M.S., Director, Research Programs/Services, Center for Tobacco Education
- Smith, Pamela D.**, Visiting University School Instructor, Developmental Research School
- Smith, Patrick A.**, B.S., Assistant Director, Advancement/Alumni Affairs, College of Arts and Science
- Smith, Paul M.**, B.S., Assistant in Research, Florida Institute of Government
- Smith, Robin R.**, M.S., Associate in Biological Science, Biological Science
- Smith, Scott A.**, Ph.D., California at Santa Barbara; Associate in Research, National High Magnetic Field Laboratory
- Smith, Shawn R.**, M.S., Associate in Research, Meteorology
- + **Smith, Thomas E.**, Ph.D., Washington; Associate Dean and Professor of Social Work
- Smith, Velma**, M.S.L.S., Associate Librarian, University Libraries
- + **Smutny, Gayla A.**, Ph.D., California at Irvine; Assistant Professor of Urban and Regional Planning
- Snajdr, Edward K.**, Ph.D., Pittsburgh; Visiting Research Associate, Criminology Research Program
- Snyder, Bonnie**, B.A., Coordinator, Information/Publication Services, International Programs
- + **Snyder, William R.**, Ph.D., Illinois; Professor of Educational Leadership
- **Sobanjo, John O.**, Ph.D., Texas A&M; Associate Professor of Civil and Environmental Engineering
- Sobodowski, Joseph J.**, B.A., Visiting University School Instructor, Developmental Research School
- Soderstrom, Amy G.**, B.S., Pharmacist, Thagard Health Center
- Solomon, Barry J.**, M.S., Associate in Communication, Communication
- Solomon, Jesse W.**, Specialist in Education, Visiting University School Instructor, Developmental Research School
- Solomon, Lewis D.**, J.D., Yale; Visiting Professor of Law
- Somasundaram, Thayumanasamy**, Ph.D., Indian Institute of Science; Assistant in Research, Institute of Molecular Biophysics
- Somers, Sally W.**, M.L.S., Librarian and Assistant Director, University Libraries
- + **Sommer, Sally R.**, Ph.D., New York; Professor of Dance
- + **Song, Kaisheng**, Ph.D., California at Davis; Associate Professor of Statistics
- Songsirdej, Sudarat**, Specialist, Music, School of Music
- Soriano, Kirsten L.**, B.S., Coordinator, Public Functions, University Relations
- Southard, Elizabeth S.**, J.D., Florida State; Academic Administrator, Office of Research
- Southard, Margarida F.O.**, Ph.D., Florida State; Visiting Assistant Professor of Educational Research
- Southerland, Harold P.**, J.D., Wisconsin; Associate Professor of Law
- Southerland, Joanna C.**, B.S., Coordinator, Academic Programs, Graduate Studies
- + **Spacagna, Antoine E.**, Ph.D., Ohio State; Professor of Modern Languages and Linguistics
- Spaid, Suzanne E.**, M.A., University School Instructor, Developmental Research School
- **Spainhour, Lisa K.**, M.S., Associate Professor of Civil and Environmental Engineering
- Spalding, Jeffrey John**, M.F.A., Visiting Faculty Administrator and Director of Museum Operations, Appelton Museum
- Spangler, Paul C.**, B.S., Assistant Athletic Coach, Athletics
- Speake, Dianne L.**, Ph.D., Texas; Visiting Professor and Associate Dean of Nursing
- Spears, Patricia A.**, M.S., Assistant Scholar/Scientist, Biological Science
- Speer, Kevin G.**, Ph.D., Woods Hole Oceanographic Institute; Associate Professor of Oceanography
- Spencer, Beverly B.**, B.A., Vice President for University Relations/Public Affairs, Office of the Vice President for University Relations
- Spencer, Jessie M.**, B.A., Coordinator, Administrative Services, MARTECH
- + **Spencer, Peter**, D.M.A., West Virginia; Professor of Music
- Spencer, Raymond R.**, M.A., Coordinator, Education Media/Communications, Modern Languages
- Spike, Stephanie K.**, M.S., Coordinator, Computer Applications, Office of Technology Integration
- Spingler, David C., Jr.**, B.S., Assistant in Cryogenics and Accelerator Technology, Physics
- Spotsville, Michael W.**, B.S., Coordinator, Computer Applications, Florida Information Resource Network
- Sprague, Wayne E.**, J.D., Florida; Assistant in Computer Science, Computer Science
- + **Spurgeon, Phillip C.**, B.M., Professor of Music
- + **Srinivasan, Ashok**, Ph.D., California; Visiting Assistant Professor of Computer Science
- + **Srivastava, Anuj**, D.Sc., Washington University in St. Louis; Assistant Professor of Statistics
- St. Clair, Sharon G.**, M.B.A., Coordinator, Accounting, Controller
- St. Laurent, Louis**, Ph.D., Massachusetts Institute of Technology; Assistant Professor of Oceanography
- Stafford, Jesyca D.**, B.S., Visiting University School Instructor, Developmental Research School
- + **Stair, Ralph M., Jr.**, Ph.D., Oregon; Service Professor of Management Information Sciences
- **Stallins, Jon A.**, Ph.D., Georgia; Assistant Professor of Geography
- + **Standley, Fred L.**, Ph.D., Northwestern; Professor of English, Alumni Professor
- + **Standley, Jayne M.**, Ph.D., Florida State; Ella Scoble Opperman Professor of Music, 2000
- Stanley, III, Boiling C.**, M.S.W., Faculty Administrator, Coordinator of Recruitment and Admissions, Social Work
- **Stanley, Patricia H.**, Ph.D., Virginia; Professor of Modern Languages and Linguistics

- Stanley, Theodore A.**, M.M., D.M., Florida State; Coordinator, Academic Support Services, School of Music
- Stannard, Laura L.**, Ph.D., Florida State; Visiting Assistant Professor of Special Education
- Stanton, Gregg R.**, M.S., Assistant in Advanced Academic Diving, and Director, Advanced Academic Diving Program, Panama City Branch
- Staron, John D.**, M.B.A., Associate Director, Physical Plant, Facilities Operations and Maintenance
- **Stauber, Alvin, J.D.**, North Carolina; Professor of Risk Management/Insurance, Real Estate and Business Law
 - **Stebleton, Michelle M.**, M.M., Associate Professor of Music
 - Steele, David J.**, Ph.D., Wisconsin; Professor of Family Medicine
 - + **Steinberg, Philip E.**, Ph.D., Clark; Assistant Professor of Geography
 - + **Steinbock, Oliver**, Ph.D., Georg-August; Assistant Professor of Chemistry
 - + **Stephan, Friedrich K.**, Ph.D., California at Berkeley; Curt P. Richter Professor of Psychology and Neuroscience, 2000, and Professor of Psychology
 - **Stephens, Margaret A.**, B.S., Coordinator, Computer Applications, College of Medicine
 - Stephens, Monica Y.**, Ph.D., Brown; Visiting Assistant in Research, Oceanography
 - Stephenson, Franklin H.**, B.S., Coordinator, Research Information, Sponsored Research
 - Stephenson, Kenneth R.**, Ph.D., Wisconsin; Visiting Professor of Mathematics
 - Stephenson, Mary A.**, M.S., Specialist, Computer Systems Control, Academic Computing and Network Services
 - + **Stepina, Lee P.**, Ph.D., Illinois; Professor of Management
 - Stepp-Greany, Jonita E.**, Ed.D., Florida; Associate in Modern Languages and Linguistics, Modern Languages and Linguistics
 - + **Steppan, Scott J.**, Ph.D., Chicago; Assistant Professor of Biological Science
 - Stern, Maxine G.**, B.A., Assistant in Research
 - + **Stern, Melvin E.**, Ph.D., Massachusetts Institute of Technology; V.W. Ekman Professor of Oceanography, 1999, Distinguished Research Professor 1995 – 1996, and National Academy of Sciences
 - Stern, Nat S.**, J.D., Harvard; Associate Dean and Professor of Law
 - Stevens, "Jill" Bernadette G.**, Coordinator, Administrative Services, International Programs
 - Stevenson, Mary J.**, Ph.D., Florida State; Research Associate, Learning Systems Institute
 - Stewart, Gail A.**, B.A., Visiting University School Instructor, Developmental Research School
 - Stewart, Jeanne**, D.S.N., Alabama; Professor of Nursing
 - Stewart, Lisa A.**, B.S., Assistant Director, Student Financial Aid, Student Financial Aid
 - Stewart, Martha J.**, M.F.A., Director of Advancement/Alumni Affairs, Education
 - + **Stieglman, Albert E.**, Ph.D., Columbia; Associate Professor of Chemistry
 - Stierwalt, Julie A.G.**, Ph.D., Iowa; Assistant Professor of Communication Disorders
 - + **Stiftel, Bruce**, Ph.D., North Carolina at Chapel Hill; Professor of Urban and Regional Planning
 - **Stiles, Wilbur J.**, Ph.D., Georgia Institute of Technology; Associate Professor of Mathematics
 - Stinchfield, John R.**, B.S., Visiting University School Instructor, Developmental Research School
 - Stinson, Daniel F.**, Coordinator, Business and Finance/Auxiliary Services, Business Services-Computer Store
 - + **Stith, Melvin T.**, Ph.D., Syracuse University; Professor of Marketing and Dean, College of Business
 - Stith, Patricia L.**, Ph.D., Florida State; Academic Administrator, Undergraduate Studies
 - **Stoddard, Kathryn**, Ph.D., Virginia; Assistant Professor of Classics
 - **Stoecklin, Sara F.**, Ph.D., Florida State; Assistant in Software Engineering, Computer Science
 - + **Stoltzfus, Nathan**, Ph.D., Harvard; Associate Professor of History
 - Stone, Alva T.**, M.S., Librarian, Law Library
 - Stoppa, Kuno P.**, Ph.D., Specialist, Computer Research, GFDI
 - Stopper, Kuno P.**, Ph.D., Specialist, Computer Research, Geophysical Fluid Dynamics Institute
 - Storey, David S.**, M.B.A., Instructor of Military Science
 - Story-Sofge, Barbara A.**, Ed.D., Auburn; Visiting University School Instructor and Visiting Coordinator, Developmental and Research School
 - Stoun, Douglas J.**, M.M.E., Coordinator, Computer Applications, School of Music
 - + **Stowell, H. Peter**, Ph.D., Washington; Professor of English and Motion Picture, Television, and Recording Arts
 - + **Strait, Paul W.**, Ph.D., Princeton; Associate Chair and Associate Professor of History
 - Stratton, Cheryl B.**, Ed.D., Alabama; Assistant in Distance Learning
 - Straus, Phyllis**, M.F.A., Coordinator, Art
 - Strazulla, Ronald J.**, M.S., University School Associate Professor, Developmental Research School
 - + **Streem, James K.**, M.S., Professor of Music
 - **Streepey, Margaret M.**, Ph.D., Michigan; Assistant Professor of Geological Sciences
 - Street, Debra A.**, Ph.D., Florida State; Visiting Assistant Scholar/Scientist, Pepper Institute on Aging
 - Stricherz, James N.**, M.S., Specialist, Computer Research, Statistics
 - Striffler, Mark G.**, B.A., Associate Director, Multipurpose Facility, University Union
 - Strobel-Ball, Kimberly**, Coordinator, Construction Projects, Facilities Planning and Construction
 - Strode, Georgianna A.**, B.S., Coordinator, Computer Applications, Florida Resources and Environment Analysis Center
 - Stromberg, Alan M.**, Ph.D., Florida State; Assistant in Information Studies, Panama City Branch
 - Strong, Gregory**, Coordinator, Computer Applications, College of Law
 - Strong, Kawanna R.**, B.S., Coordinator, Accounting, Controller
 - Strouts, Paul A.**, M.B.A., Assistant Vice President, Administrative Affairs, Vice President Finance and Administration
 - Stubbs, Charles E.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
 - **Stuckey-French, Elizabeth C.**, M.F.A., Iowa; Assistant Professor of English
 - Stuckey-French, Ned**, Ph.D., Iowa; Assistant in English
 - Stutzman, Mary A.**, Ph.D., Michigan State; Research Scientist, Social Sciences
 - + **Suarez, Virgilio F.**, M.F.A., Professor of English
 - Sudano, Holly A.**, M.Acc., Assistant in Accounting
 - Sullivan, Barbara A.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
 - Sullivan, Claudia P.**, M.S., Visiting University School Instructor, Developmental Research School
 - Sullivan, Julia M.**, Ph.D., Florida State; Instructor of Modern Languages and Linguistics
 - Sullivan, Margie A.**, Ph.D., Coordinator, Intercollegiate Athletics, Athletics
 - Sullivan, Phyllis W.**, B.S., Coordinator, Purchasing, Purchasing
 - Sumlar, Nina R.**, M.D., Physician, Thagard Health Center
 - Sumner, Marian J.**, Coordinator, Administrative Services, Human Sciences
 - + **Sumners, Dewitt Lee**, Ph.D., Cambridge; Professor and Chair of Mathematics, Robert O. Lawton Distinguished Professor, 1997 – 1998, Distinguished Research Professor 1992 – 1993
 - Suren, Asuncion T.**, Ed.D., Temple; Assistant in Recreation and Leisure Services
 - Sussman, Mark M.**, Ph.D., California at Los Angeles; Visiting Assistant Professor of Mathematics
 - **Sutherland, Mary S.**, Ed.D., Alabama; Professor of Curriculum and Instruction
 - Sweeney, Christine E.**, M.A.; Visiting University School Instructor, Developmental Research School
 - Swiger, Laurie A.**, M.S., Coordinator, Intercollegiate Athletics, Athletics
 - Switzer, Beth**, M.S., Assistant Director, Radio/TV Station, WFSU-TV
 - Swenson, Charles A.**, Ph.D., Texas A&M; Research Associate, National High Magnetic Field Laboratory
 - Swofford, David L.**, Ph.D., Illinois; Professor of Biological Science
 - Swofford, Ruth D.**, B.S., Visiting Assistant in Research, Learning Systems Institute
 - Tabor, Michelle A.**, Ph.D., Florida State; Visiting Assistant Professor of Music
 - + **Tabor, Samuel L.**, Ph.D., Stanford; Distinguished Research Professor, 2001–2002; Professor of Physics
 - Tackett, Natalie E.**, B.S., Coordinator, Research Programs/Services, Pepper Institute on Aging
 - Tackett, Samantha J.**, M.S., Associate in Research, Learning Systems Institute
 - Tagliareni Nicholas, B.S.**, Visiting Assistant in Research, Institute for Science and Public Affairs
 - Talarico, Sandra C.**, B.F.A., Director, Appleton Museum of Art, School of Visual Arts and Dance
 - Talbot, Randy W.**, B.S., Assistant Vice President, Advancement/Alumni Affairs, Development Office
 - Talton, Joseph C.**, B.S., Coordinator, Budgeting, Engineering
 - + **Tam, Christopher K. W.**, Ph.D., California Institute of Technology; Professor of Mathematics and Mechanical Engineering, and Research Associate, Geophysical Fluid Dynamics Institute, Distinguished Research Professor, 1990 – 1991, Robert O. Lawton Distinguished Professor, 2000 – 2001
 - Tam, Delia P.**, M.L.S., Librarian, University Libraries
 - Tamayo, Michael F.**, B.A., University School Instructor, Developmental Research School
 - Tamm, Scott W.**, B.S., Faculty Administrator, Arts and Sciences, Dean's Office
 - Tammearu, Peter O.**, D.M., Florida State; Visiting Assistant Professor of Music
 - + **Tanenbaum, Jan K.**, Ph.D., California at Berkeley; Professor of History
 - Tang, To-Ha'**, Coordinator, Computer Applications, Office of Technology Integration
 - Taniere, Anne**, Ph.D., Valenciennes; Visiting Associate Scholar/Scientist, Mechanical Engineering
 - Tanner, Katharine S.**, B.A., Coordinator, Student Affairs, Dean of Students
 - Tanzy, Peter R.**, J.D., Florida State; Specialist, Computer Applications, Florida Information Resource Network
 - Tappen, Mary J.**, M.Ed., Research Associate, Center for Study of Teaching and Learning
 - + **Tate, Richard L.**, Ph.D., Illinois; Associate Professor of Educational Research
 - Tatum, Tanya D.**, M.S., Associate Director, Medical/Health Administration, Thagard Health Center
 - + **Tatum, William Jeffrey**, Ph.D., Texas; Olivia Nelson Dorman Professor of Classics, 2000, and Chair and Professor of Classics
 - + **Tawfiq, Kamal**, Ph.D., Maryland; Associate Professor of Civil and Environmental Engineering
 - Taylor, Dianne W.**, M.S., Assistant in Research, Institute of Molecular Biophysics
 - **Taylor, Jeanette E.**, Ph.D., Minnesota; Assistant Professor of Psychology
 - Taylor, John N.**, M.S., Coordinator, Research Programs/Services, Industrial Engineering
 - Taylor, John R.**, B.S., Assistant Director, University Computer Systems, Office of Technology Integration
 - Taylor, John R.**, Ph.D., Miami; Assistant Professor of Sociology
 - + **Taylor, Kenneth A.**, Ph.D., California at Berkeley; Distinguished Research Professor, 2001–2002; Professor of Biology
 - Taylor, Lisa A.**, M.A., Assistant Director, Multipurpose Facility, University Union

- Taylor, Ombra S.**, L.L.M., Coordinator, Academic Support Services, School of Theatre
- Taylor, Thomas A.**, Ph.D., Virginia Polytechnic Institute; Associate in Growth Management Conflict Resolution, Institute for Science and Public Affairs
- Taylor, Valeta K.**, B.S., Specialist, Computer Applications, Florida Information Resource Network
- Tchourioukanov, Kirill I.**, M.S., Coordinator, Computer Applications, National High Magnetic Field Laboratory
- Teaf, Christopher**, Ph.D., Arkansas for Medical Science, Research Associate, Center for Biomedical and Toxicological Research, and Research Associate, Program in Medical Science
- Teague, Deborah Coxwell**, Ph.D., Florida State; Assistant in English
- Tedder, Homer G.**, B.S., Specialist, Computer Applications, Business Services
- Tedder, Norma E.**, Ph.D., Tennessee; Visiting Instructor, Academic Affairs, Center for Professional Development
- + **Teem, John L.**, Ph.D., Brandeis; Assistant Professor of Biological Science
- Tefertiller, Alec C.**, B.F.A., Coordinator, Admissions/Registration, Admissions
- + **Teillet-Fisk, Jehanne H.**, Ph.D., California at Los Angeles; Professor of Art History
- Tellis, Kenneth B.**, B.S., Coordinator, Academic Programs, Office of Student Services
- + **Telotte, John C.**, Ph.D., Florida; Associate Professor of Chemical Engineering
- + **Tenenbaum, Gershon**, Ph.D., Chicago; Visiting Professor, Education Research
- Tenenbaum, Hony M.**, M.A., Visiting Associate in Research, Learning Systems Institute
- Teske, April L.**, B.S., Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- **Thagard, Norman E.**, M.D., Texas; Director of College Relations, Professor of Electrical and Computer Engineering, and Bernard F. Sliger Eminent Scholar Chair
- Theodoropoulos, Alexandros A.**, M.S., Assistant in Research, Computational Science and Information Technology
- Thiel, John E.**, B.S., Specialist, Computer Systems Control, Northwest Regional Data Center
- Thistle, Anne B.**, Ph.D., Coordinator, Research Information, Biological Sciences
- + **Thistle, David**, Ph.D., Scripps Institution of Oceanography; Chair and Professor of Oceanography
- + **Thomas, Andre**, D.M.A., Illinois; Owen F. Sellers Professor of Music, 1999
- Thomas, Glenn R.**, M.S., Director and University School Professor, Developmental Research School
- + **Thomas, Hollie B.**, Ph.D., Purdue; Professor of Educational Leadership
- Thomas, Janice**, Ph.D., Florida State, Research Associate, Center for Study of Teaching and Learning
- Thomas, Joyce M.**, B.A., Coordinator, Student Financial Aid, Student Financial Aid
- Thomas, Ronald C.**, M.S., Assistant in Distance Learning
- Thomas, Sherry A.**, B.S., Assistant Director, Research Programs/Services, Center for Study of Teaching
- Thomas, Tina M.**, B.S., Coordinator, Sports Information, Intercollegiate Athletics
- Thomas, Tod M.**, A.A., Visiting Instructional Specialist, Office of Research
- Thomes, Christopher P.**, M.S., Coordinator, Information/Publications Services, Panama City Campus
- Thompson, Bernadine A.**, B.S., Coordinator, Academic Support Services, College of Business—Undergraduate Office
- + **Thompson, Dan R.**, M.P.H., Associate in Research, Institute for Science and Public Affairs
- + **Thompson, Gregory L.**, Ph.D., California at Irvine; Associate Professor of Urban and Regional Planning
- Thompson, Gregory W.**, B.A., Associate Director, Research Programs/Services, Contracts and Grants
- Thompson, Janet A.**, Coordinator, Purchasing, Purchasing
- Thompson, Jori C.**, Ph.D., Specialist, Student Counseling, Student Counseling Center
- Thompson, Robert N.**, B.A., Architect, Campus Design
- Thompson, Steven M.**, M.S., Assistant in Research, Computational Science and Information Technology
- **Thompson, Virginia C.**, Ph.D., Wisconsin Madison; Assistant Professor of Human Services and Studies
- Thorner, Walter W., III**, B.F.A., Coordinator, Education Media Communications, National High Magnetic Field Laboratory
- Thurston, Eydie R.**, B.A., Coordinator, Admissions/Registration, Admissions
- Thurston, Lee F.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
- Thurston, Lewis S.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
- Thyer, Bruce A.**, Ph.D., Michigan; Dean and Professor, Social Work
- Toole, Gregory K.**, M.L.S., M.A., Librarian, University Libraries
- + **Toole, Tonya, Ph.D.**, Pennsylvania State; Professor of Nutrition, Food, and Exercise Sciences
- Toplosky, Vince J.**, B.S., Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- + **Torgesen, Joseph K.**, Ph.D., Michigan; Robert M. Gagne Professor of Psychology and Education, 2000, Distinguished Research Professor, 1996 – 1997, and Professor of Psychology
- Towns, Barbara W.**, M.S.W., Coordinator, Education Media/Communications, Multidisciplinary Center
- Townsend, Janice M.**, Coordinator, Research Programs/Services, Vice President for Research
- Tozer, Stanley W.**, Ph.D., Johns Hopkins; Associate Scholar/Scientist, National High Magnetic Field Laboratory
- Tracy, Linda H.**, M.S., Assistant in Research, Learning Systems Institute
- Trammel, Michael D.**, Ph.D., Florida State, Assistant in Business Communication, Management
- Tranchard, Beverly A.**, B.S., Coordinator, Research/Program Services, National High Magnetic Field Laboratory
- + **Travis, Joseph**, Ph.D., Duke; Professor of Biological Science, Director, Computational Science and Information Technology, and Robert O. Lawton Distinguished Professor, 1996 – 1997
- Travis, Richard A.**, M.S., Coordinator, Academic Support Services, Motion Picture/TV/Recording Arts
- Traxler, Matthew J.**, Ph.D., Oregon; Visiting Assistant in Cognitive Science, Psychology
- Trexler, Melaine F.**, B.A., Visiting University School Instructor, Development Research School
- Trimble, Susan B.**, Ed.D., Florida State; Visiting Instructor of Educational Leadership
- Trinch, Shonna L.**, Ph.D., Pittsburgh; Assistant Professor of Modern Languages
- Triner, Donald R.**, M.S., Visiting Associate in Research, Learning Systems Institute
- + **Troeger, Betty J.**, Ph.D., North Texas State; Associate Professor of Art Education
- + **Trombley, Paul Q.**, Ph.D., Oregon; Associate Professor of Biological Science
- Truesdell, Delores D.**, M.S., Associate in Food Science, Nutrition, Food, and Exercise Sciences
- Truesdell, Terry T.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
- + **Tschinkel, Walter R.**, Ph.D., California at Berkeley; Margaret Y. Menzel Professor of Biological Science, 1999
- Tsuyuki, Tadashi**, M.S., Visiting Assistant in Research, Meteorology
- Tucker, Denise A.**, M.S.N., Assistant Professor of Nursing
- + **Tull, James F.**, Ph.D., Rice; Professor of Geological Sciences
- + **Tung, Leonard J.**, Ph.D., Texas Technological University; Associate Professor of Electrical and Computer Engineering, Engineering
- Turner, Angelia F.**, M.S., Research Associate, Center for Teaching and Learning
- Turner, Ilona N.**, B.A., Coordinator, Academic Programs, Computer Science
- + **Turner, James C. Jr.**, Ph.D., Carnegie-Mellon; Associate Professor of Computer Science
- Turner, Marsha K.**, Ph.D., Coordinator, Academic Programs, Center for Civic Education and Service
- Turner, Nancy A.**, Ph.D., Florida State; Director, Multipurpose Facility, University Union
- **Turner, Robert G.**, Ph.D., Kentucky; Professor of Finance
- Twigg, Pamela D.**, M.S., Assistant in Research, Institute for Molecular Biophysics
- + **Twiss Jr., Sumner B.**, Ph.D., Yale; Professor of Religion
- Tyre, Patricia**, B.S., Coordinator, Human Resources/Personnel Relations, Human Resources
- Ulrich, Arthur T.**, B.S., Director, Student Affairs, Student Government
- Underwood, Nora C.**, Ph.D., Duke; Assistant Professor of Biological Science
- Unger, Heather K.**, B.S., Coordinator, Admissions/Registration
- Unger, Myrna P.**, M.S., Associate Director Career Development Services, Career Center
- **Ungurait, Donald F.**, Ph.D., Wisconsin; Associate Professor of Communication
- Urbanic, Andrew N.**, B.A., Associate Director, Intercollegiate Athletics, Athletics
- Usatine, Richard P.**, M.D., Columbia; Visiting Professor and Faculty Administrator of Medicine
- Uzendoski, Michael A.**, Ph.D., University of Virginia; Assistant Professor of Anthropology
- Van De Burgt, Lambertus J.**, Ph.D., Rutgers; Coordinator, Research Programs and Services, Chemistry
- Vandersip, Christopher**, M.S., Specialist, Computer Research, Meteorology
- + **Van Dommelen, Leonard L.**, Ph.D., Cornell; Professor of Mechanical Engineering, and Scholar/Scientist, School of Computational Science and Information Technology
- Van Dooren, Paul M.**, Ph.D., Katholieke; Visiting Professor of Computer Science
- Van Doren, John W.**, LL.B., Yale; Professor of Law
- Van Dyke, John R.**, B.S., Coordinator, Educational Media Communications, Learning Systems Institute
- + **van Engelen, Robert A.**, Ph.D., Leiden; Visiting Assistant Professor of Computer Science
- Van Gorder, Stephen**, M.S., Assistant in Research, Oceanography
- **van Hoeij, Mark**, Ph.D., Nijmegen; Assistant Professor of Mathematics
- van Hoeij, Susan I.**, B.A., Coordinator, Research Programs/Services, Sponsored Research
- Vannoy, Reid E.**, M.P.A. Assistant in Public Management, Florida Center for Public Management
- + **Van Sciver, Steven W.**, Ph.D., Washington; Professor of Mechanical Engineering and Distinguished Research Professor, 1996 – 1997, and Program Director, National High Magnetic Field Laboratory
- Van Tol, Johan**, Visiting Assistant Scholar/Scientist, Office of Research
- **Van Weelden, Kimberly D.**, Ph.D., Arizona; Assistant Professor of Music
- Van Wert, Johanna R.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
- + **Van Winkle, David H.**, Ph.D., Colorado; Chair and Professor of Physics
- Varchol, Barbara M.**, Ed.D., Indiana; Dean, Student Affairs, Dean of Students
- Varn, Jessica E.**, J.D., Florida State; Visiting Assistant in Law, Law
- Vaughan, Sarah E.**, B.S., Coordinator, Information/Publication Service, University Relations

- Vaughn, Joseph B., Jr., Ph.D., Florida; Research Associate, Chemistry
- Vempaty, Somaraju, Ph.D., Florida State; Visiting Research Associate, Arts and Sciences
- Verdias, Lazaro B., M.S., Coordinator, Statistical Research, Budget and Analysis
- Vernick, Stacie H., M.S., Coordinator, Career Development Services, Career Center
- Verraneault, Ronald E., A.A., Assistant in Research, National High Magnetic Field Laboratory
- Versen, Susan U., M.A., Coordinator, Admissions/Registration, Office of Admissions
- Vicker, Daniel R., Ph.D., Florida State; Assistant in Research, Florida Center for Public Management
- Vickers, Cynthia S., M.P.A., Associate Director, Human Resources/Personnel Relations, Human Resources
- + Vickers, Thomas J., Ph.D., Florida; Associate Chair and Professor of Chemistry
- + Vickory, Frank A., J.D., Florida State; Professor of Risk Management/Insurance, and Real Estate and Program in Business Law
- + Vinals, Jorge, Ph.D., Barcelona; Program Director, School of Computational Science and Information Technology, and Associate Professor of Chemical Engineering
- Vinayak, Nalini, B.A., Visiting Assistant Professor of Music
- Vinson, J. Kenneth, LL.M., Yale; Professor of Law
- + Vinton, Linda S., Ph.D., Wisconsin at Madison; Associate Professor of Social Work
- Viouchkov, Youri, M.S., Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
- Vitkus, Daniel J., Ph.D., Columbia University; Assistant Professor of English
- Vivancos, Emilio P., M.S., Assistant in Computer Science, Computer Science
- + Voich, Dan, Jr., Ph.D., Illinois; Chair and Professor of Management
- Voight, Kathryn V., M.A., Coordinator, Internal Auditing, Inspector General
- Voiselle, Charles E., A.A., Coordinator, Computer Applications, Center for Professional Development
- + Von Glahn, Denise, Ph.D., Washington; Assistant Professor of Music
- + Von Molnar, Stephan, Ph.D., California at Riverside; Professor of Physics and Director, Center for Materials Research and Technology
- Wacongne-Speer, Sophie, Ph.S., M.I.T.; Associate Scholar/Scientist, Oceanography
- Waddell, Douglas K., M.S., Coordinator, Academic Support Services, Undergraduate Studies
- + Wager, Walter W., Ed.D., Indiana; Professor of Educational Research
- + Wagner, Richard K., Ph.D., Yale; Alfred Binet Professor of Psychology, 1999
- + Wahl, Horst D., Ph.D., Vienna; Professor of Physics
- Wahl, Michelle, M. S., Visiting Assistant in Educational Theory and Practice
- + Waldo, Gordon P., Ph.D., Ohio State; Service Professor of Criminology and Criminal Justice
- Walk, Deborah W., M.L.S., Assistant Curator, Ringling Museum
- + Walker, Eric C., Ph.D., North Carolina at Chapel Hill; Associate Professor of English, and Distinguished Teaching Professor 1995 - 1996
- Walker, James C., Ph.D., Florida State; Associate Scholar/Scientist, College of Arts and Sciences, Dean's Office
- Walker, Jaqueline A., M.S., Coordinator, Academic Support Services, Undergraduate Studies
- Walker, Peter M., B.S., Assistant Director, Business Financial/Auxiliary Services
- + Walker, Virginia G., Ph.D., Florida State; Associate Professor of Communication Disorders
- Walkup, Janna L., B.S., Athletic Trainer, Athletics
- Wallace, Aimee E., A.A., Coordinator, Advancement/Alumni Affairs, University Relations
- Wallace, Elizabeth A., M.S., Specialist, Computer Research, Ringling Museum
- Wallace, Steven W., M.F.A., Dean and Professor, Theatre
- + Wallat, Cynthia, Ph.D., Pittsburgh; Chair and Professor of Educational Foundations and Policy Studies
- Wallheiser, Pamela H., M.S., Visiting University School Instructor, Developmental Research School
- Walls, Marshall D., M.S., Athletic Trainer, Athletics
- Walsdorf, Kristie L., M.S., Assistant in Physical Education
- Walsh, Charles M., B.A., Coordinator, Sports Information, Athletics
- Walsh, Robert P., B.T., Associate in Research, National High Magnetic Field Laboratory
- + Walters, Lori J., Ph.D., Princeton; Professor of Modern Languages and Linguistics
- Walters, Milens M., M.Ed., University School Instructor, Developmental Research School
- + Walters-Chapman, Connor M., Ph.D., Ohio State; Associate Professor of Family and Child Sciences
- Walton, Harold A., M.S., Associate Director, Physical Plant, Facilities Operations and Maintenance - Grounds
- Walworth, Darcy P., B.M., Coordinator, Academic Programs, School of Music
- + Wang, Hsu-Pin, Ph.D., Pennsylvania State; Simon Ostrach Professor of Engineering, 2000, Chair and Professor of Industrial Engineering
- Wang, James K., Ph.D., Coordinator, Computer Applications, Office of Technology Integration
- Wang, Qi, Ph.D., Ohio State; Associate Professor of Mathematics
- Wang, Shang-Yih, Ph.D., Florida; Engineer, Beaches and Shores Resource Center
- + Wang, Yang, Ph.D., Utah; Assistant Professor of Geological Sciences
- Wang, Yongjie, Ph.D., State University of New York; Associate in Research, National High Magnetic Field Laboratory
- Wang, Zhongguo, Ph.D., West Virginia; Visiting Assistant in Research, Chemistry
- + Wang, Zuoxin, Ph.D., Massachusetts; Visiting Assistant Professor of Psychology
- Ward, Brian H., Ph.D., Coordinator, Academic Programs, Chemistry
- + Ward, Cheryl A., Ph.D., Texas A&M; Assistant Professor of Anthropology
- Ward, James T., Coordinator, Computer Systems Control, Northwest Regional Data Center
- Ward, John M., B.S., Coordinator, Construction Projects, Campus Design
- Ward, Maryanne B., Ph.D., Florida State; Visiting Instructor of Special Education
- + Warf, Barney L., Ph.D., Washington; Chair and Professor of Geography
- Warmath, David S., M.S., Associate in Neuroscience, Psychology
- Warner, Thomas E., J.D., Florida, Richard W. Ervin Eminent Scholar in Law
- Warren, Meryl R., Coordinator, Administrative Services, Film School
- Wasko, Molly M., Ph.D., Maryland; Assistant Professor of Information and Management Sciences
- Wasserman, Howard M., J.D., Northwestern; Visiting Assistant Professor of Law
- Waters, Judy L., B.S., Coordinator, Academic Support Services, School of Criminology
- Watkins, George L., M.S., Associate Director, Physical Plant, Facilities Operations, and Maintenance
- Watkins, Susan L., B.S., Coordinator, Business Financial/Auxiliary Services, Academic Business Administration-Controller
- Watkins, Timothy D., Ph.D., Florida State; Visiting Assistant Professor of Music
- Watson, Angel A., B.S., Coordinator, Research Programs/Services, Center for Prevention
- Watson, Barbara L., M.S., Coordinator, Academic Support Services, Distance Learning
- Watson, Rosemary M., A.A., Coordinator, Human Resources/Personnel Relations, Human Resources
- Watt Jimmy D., B.S., Assistant in Research, Criminology
- Waxman, Bernard W., M.A., Coordinator, Intercollegiate Athletics, Athletics
- Waxman, Lisa J. Kinch, M.S., Associate Professor of Interior Design
- + Weatherly, Georges L., Ph.D., Nova; Professor of Oceanography
- Weathersbee, Susan W., B.S., Coordinator, Business Financial/Auxiliary Services, College of Human Sciences
- + Weaver, George E., Ph.D., Iowa; Associate Dean and Professor of Psychology
- Weaver, Mark L., Ph.D., Florida; Research Associate, Mechanical Engineering
- Weeks, Lucretia R., M.S., University School Instructor, Developmental Research School
- Wegenast, Todd J., B.A., Coordinator, Environmental Health and Safety, National High Magnetic Field Laboratory
- Wei, Xing, Ph.D., Utah; Assistant in Research, National High Magnetic Field Laboratory
- Weidner, Donald J., J.D., Texas; Dean and Professor of Law
- Weijers, Hubertus W., M.S., Visiting Assistant in Research, National High Magnetic Field Laboratory
- + Weingarden, Lauren S., Ph.D., Chicago; Associate Professor of Art History
- Weinhold, Penny J., B.S., Coordinator, Student Affairs, Panama City Campus
- Weisman, Pam M., M.S., Coordinator, Clinical Programs, Communication Disorder
- + Wekezer, Jerzy W., Ph.D., Technical University of Gdansk; Chair and Professor of Civil and Environmental Engineering
- Welch, Janine E., B.A., Coordinator, Accounting, Controller
- Welch, Lauretta, M.S., Assistant in Apparel Design, Textiles and Consumer Sciences
- Wells, Eric R., B.S., Coordinator, Student Financial Aid, Financial Aid
- Wells, Frederick A., M.S., Assistant in Information and Management Sciences
- Wells, Teion L., M.S., Psychologist, Psychology
- Welsh, Thomas M., Ph.D., Kansas; Associate Professor of Dance
- Welsh-Ovcharov, Bogomila, Ph.D., Utrecht; Visiting Eminent Scholar, School of Visual Arts and Dance
- Wensing, Karen M., M.L.S., Librarian, University Libraries
- + Werdeshim, Gary, M.A., Professor of Music
- Werner, Robert M., D.V.M., Academic Administrator, Laboratory Animal Resources
- + Wesson, G. Dale, Ph.D., Michigan State; Visiting Assistant Professor of Chemical Engineering
- West, Joseph, Ph.D., Virginia Polytechnic Institute; Chair and Associate Professor of Hospitality
- West, Marlene A., M.S., Visiting University School Instructor, Developmental Research School
- Wester, A. Ray, B.S., Assistant Director, University Computer Systems
- Weston, Burns H., LL.B., Yale; Visiting Tobias Simon Eminent Scholar Chair of Law
- Wetenhall, John, Ph.D., Director, Museum Operations, Ringling Museum
- + Wetherby, Amy, Ph.D., California at Santa Barbara; Laurel L. Schendel Professor of Communication Disorders, 2000
- Wettstein, Eve E., E.D.S., Psychologist, School of Social Work
- + Whalley, David, Ph.D., Virginia; Professor of Computer Science
- + Wheeldon, Marianne, Ph.D., Yale; Visiting Assistant Professor of Music
- Wheeler, Wesley K., B.S., Coordinator, Computer Applications, Athletics

- Wheelock, Jennifer R.**, Ph.D., Florida State; Visiting Instructor of English
- Whitaker, Barbara J.**, Coordinator, Administrative Services, Panama City Campus
- White, Amy J.**, M.S., Coordinator, Academic Support Services, Athletics
- White, Amy L.**, B.S., Visiting University School Instructor, Developmental Research School
- White, Barbara A.**, M.A., Associate in Research, Institute of Science and Public Affairs
- White, Blanche B.**, M.S., Visiting in Speech Pathology, Communication
- **White, James David**, J.D., Stetson; Associate Professor of Criminology and Criminal Justice
 - White, James S.**, Ph.D., Coordinator, Academic Programs, Engineering
 - White, Kevin J.**, Coordinator, M.A., Academic Support Services, Athletics
 - White, Randall T.**, Ph.D., Coordinator, Computer Applications, Mathematics
 - White, Michelle A.**, M.L.S., Visiting Instructor Librarian, University Libraries
 - **Whiteside, Patrica A.**, Ph.D., Florida State; Assistant Dean and Assistant Professor of Nursing
 - Whitney, Kimberly L.**, M.S., Coordinator, Academic Support Services, Undergraduate Studies
 - Wickham, Bob**, B.S., Assistant Director, University Computer Systems, Office of Technology Integration
 - Wideman, Willie J.**, M.S., Assistant Director, Student Financial Aid, Student Financial Aid
 - **Wiedenhoever, Ingo L.**, Ph.D., Cologne; Visiting Assistant Professor of Physics
 - Wiedinger, Arthur R.**, J.D., Associate General Counsel, General Counsel
 - Wilcox, Erica S.**, B.S., Coordinator, Administrative Services, Florida Information Research Network
 - Wilder, Dolores J.**, Ed.D., Tennessee; Visiting Instructor of Educational Leadership
 - Wilgenbusch, James C.**, Ph.D., George Mason; Assistant in Research, Computational Science and Information Technology
 - **Wilke, Dina J.**, Ph.D., Wisconsin; Assistant Professor of Social Work
 - **Wilkins, Paul L.**, Ph.D., Ohio State; Professor of Management
 - Wilkes, Robert G.**, M.S., Assistant Athletics Coach, Athletics
 - Williams, Charles F.**, B.S., Assistant Director, Physics Plant, Central Utilities Plant
 - Williams, Debi J.**, B.S., Coordinator, Business Financial/Auxiliary Services, Academic Business Administration-Controller
 - Williams, Kenneth E.**, M.M., University School Instructor, Developmental Research School
 - Williams, Marcia A.**, B.S., Coordinator, Academic Support Services, Human Sciences
 - Williams, Michael S.**, B.S., Associate Controller, Controller
 - Williams, Michael V.**, B.S., Coordinator, Business Financial/Auxiliary Services, Academic Business Administration-Controller
 - Williams, Nathalie K.**, B.S., Coordinator, Public Functions, Ringling Museum
 - **Williams, Pat W.**, M.F.A., Professor of Art
 - Williams, Suzanne D.**, M.A., Assistant in Research, Criminology
 - Williams, Vaughan**, B.S., Coordinator, Research Programs/Services, National High Magnetic Field Laboratory
 - Williams, Velda**, B.S., Coordinator, Academic Support Services, Public Administration and Policy
 - Willingham, Lloyd W.**, M.S., Coordinator, Insurance and Risk, Environmental Health and Safety
 - Willis, Benjamin B.**, B.S., Visiting University School Instructor, Developmental Research School
 - Willoughby, William J.**, B.S., Assistant Director, University Computer Systems, Academic Computer and Network Services
 - Wills, Angela D.**, B.S., Visiting University School Instructor, Developmental Research School
- Wilson, Robert L.**, B.A., Assistant Director, Intercollegiate Athletics, Intercollegiate Athletics
- Wiltshire, Michael W.**, B.S., Coordinator, Research Programs/Services, Lab Animal Resources
- + **Winchester, John W.**, Ph.D., Massachusetts Institute of Technology; Professor of Oceanography
 - Windsor, Dawn S.**, B.S., Coordinator, Internal Auditing, Inspector General
 - + **Winegardner, Mark D.**, M.F.A., Professor of English
 - **Wingate, David B.**, M.S., Associate Professor of Music
 - Wingate, Mark L.**, D.M.A., Assistant Professor of Music
 - Winger, Craig A.**, M.S., Visiting University School Instructor, Developmental Research School
 - Winger, Ian L.**, B.S., Assistant in Engineering, Physics
 - Winkler, Hanspeter**, Ph.D., Swiss Federal Institute of Technology; Associate in Research, Institute for Molecular Biology
 - + **Winn, Alice A.**, Ph.D., Michigan State; Associate Professor of Biological Science
 - Winnicki, Tomasz M.**, Ph.D., D.Sc., Technical University of Wroclaw; Visiting Scholar/Scientist, Center for Biomedical and Toxicological Research
 - **Wise, James E.**, M.F.A., Professor of Theatre and Assistant Program Director, Asolo Conservatory
 - Wise, Jean-Marc**, M.A., Instructional Specialist, Center for Professional Development
 - + **Wise, Sherwood W.**, Ph.D., Illinois; Professor of Geological Sciences
 - Wishart, David P.**, Ph.D., Florida State; Assistant in Research, Mechanical Engineering
 - Wishart, Joyce A.**, M.B.A., Assistant Director, Multipurpose Facility, School of Theatre
 - Wojcik, Jamison M.**, B.S., Specialist, Computer Research, Florida Resources and Environmental Analysis Center
 - Wolfe, Kamie C.**, B.S., Coordinator, Clinical Programs, Communication Disorders
 - + **Wolfgang, Charles H.**, Ph.D., Pittsburgh; Professor of Educational Theory and Practice
 - + **Wollan, Laurin A.**, J.D., Chicago; Associate Professor of Criminology and Criminal Justice
 - Wonder, Nancy M.**, Ph.D., Missouri; Visiting Instructor of Human Services and Studies
 - Wood, Albert L.**, Ed.D., Louisiana State; Coordinator, Education Dean's Office
 - Wood, Natalie W.**, B.S., Coordinator, Student Financial Aid, Financial Aid
 - **Wood, Susan**, Ph.D., Florida; Assistant Professor of Curriculum and Instruction
 - Woodall, Donnie M.**, A.A., Coordinator, Computer Applications, Controller
 - Woodall, Sharon S.**, B.S., Assistant Director, Business and Financial Auxiliary Service/Controller
 - Woodbery, Bonnie L.**, Ph.D., Florida State; Assistant in Business Communications, Management
 - Woodruff, Myra J.**, Visiting Associate Professor of Dance
 - Woodruff, Stephen L.**, Ph.D., Michigan; Assistant Scholar/Scientist, National High Magnetic Field Laboratory
 - + **Woods, Juliann**, Ph.D., Oregon; Associate Visiting Professor of Communication Disorders
 - Woodsum, Glenn C.**, M.S., Associate in Research, Biological Science
 - Woodworth, Mary J.**, B.S., Coordinator, Accounting, Controller
 - Woodyard, William M.**, J.D., West Virginia University; Assistant in Real Estate, Department of Risk Management and Insurance
 - Wooland, James R.**, M.S., Associate in Mathematics, Mathematics
 - Workman, Donald R.**, Ph.D., Florida State; Visiting Assistant in Nursing
 - Wright, Clive O.**, M.A., Research Associate, Center for Study of Teaching and Learning
 - Wright, Deidre J.**, M.L.S., Instructor Librarian and Assistant Department Head, University Libraries
- Wright, Edward N.**, Ph.D., Georgetown; Faculty Administrator and Dean, Panama City Branch
- **Wright, T. Perrin, Jr.**, Ph.D., Wisconsin; Associate Chair and Associate Professor of Mathematics
 - **Wright, Thomas G.**, M.M., Professor of Music
 - Wu, Li-Hsiang**, B.S., Coordinator, Computer Applications, Office of Technology Integration
 - Wulff, Jeanette L.**, Ph.D., Yale; Assistant Professor of Biological Science
 - + **Wyatt, James L.**, Ph.D., National University of Mexico; Ph.D., Texas; Professor of Modern Languages and Linguistics
 - Wyatt-Magalian, Catherine A.**, M.F.A., Assistant in Art, Art
 - Wyckoff, James A.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
 - + **Wynot, Edward D.**, Ph.D., Indiana; Professor of History
 - Xie, Jinpeng**, Ph.D., Coordinator, Computer Applications, Office of Technology Integration
 - Xin, Yan**, Ph.D., Cambridge; Visiting Assistant in Research, Office of Research
 - + **Xiong, Peng**, Ph.D., Brown; Assistant Professor of Physics
 - Yaeger, Glen B.**, M.A., Coordinator, Environmental Health and Safety
 - Yancey, Teresa D.**, M.S., University School Instructor, Developmental Research School
 - + **Yang, Kun**, Ph.D., Indiana; Assistant Professor of Physics
 - **Yang, Yumi**, Ph.D., California; Visiting Assistant Professor of English
 - Yang, Zenghai**, M.S., Visiting Assistant in Research, Civil and Environmental Engineering
 - Yanke, Forrest H.**, Ph.D., Oxford; Assistant in Field, Social Work
 - Yao, Yuanzheng**, M.S., Assistant in Oceanographic Computing, Meteorology
 - + **Yasinsac, Alec F.**, Ph.D., Virginia; Assistant Professor of Computer Science
 - + **Yazdani, Nur**, Ph.D., Maryland; Professor of Civil and Environmental Engineering
 - Yeargan, Jonathan K.**, B.S., Coordinator, Administrative Services, Human Resources
 - Yetter, John F.**, J.D., Duquesne, LL.M., Yale; Professor of Law
 - Yon, Eddie L.**, B.S., Coordinator, Computer Applications, Office of Technology Integration
 - Yon, Gregory H.**, B.S., Coordinator, Continuing Education, Center for Professional Development and Public Service
 - Yotter, Priscilla A.**, Coordinator, Academic Programs, Distance Learning
 - You, Chengxia**, Ph.D., Specialist, Computer Research, Florida Resources and Environmental Analysis Center
 - Young, Andrea C.**, Ph.D., Florida State; Visiting Research Associate, Academic Affairs and Distance Learning
 - **Young, Eric R.**, Ph.D., Carnegie Mellon; Assistant Professor of Economics
 - + **Young, Eutiquio**, Ph.D., Maryland; Professor of Mathematics
 - + **Young, Marilyn J.**, Ph.D., Pittsburgh; Wayne C. Minnick Professor of Communication, 2000
 - Young, Mary Penelope**, M.A., Assistant in Research of Criminology
 - + **Young, Patricia Henry**, M.A., Professor of Dance
 - Young, William S.**, B.S., Professional Engineer, Campus Design
 - Youssef, Saul**, Ph.D., Carnegie-Mellon; Scholar/Scientist, School of Computational Science and Information Technology
 - + **Yuan, Xin**, Ph.D., Pittsburgh; Visiting Assistant Professor of Computer Science
 - Yurus, Sakurako H.**, B.S., Coordinator, Accounting, Controller
 - + **Zahn, Douglas A.**, Ph.D., Harvard; Professor of Statistics
 - Zapata, Dana H.**, B.S., Coordinator, High School/Community College Relations, Community College and Interinstitutional Relations

Zaremba, Maureen T., B.A., Coordinator, Public Functions, Ringling Museum
Zavala-Hidalgo, Jorge, Ph.D., CICESE; Visiting Research Associate of Meteorology
Zawrotny, Michael E., Ph. D., Specialist, Computer Research, Institute of Molecular Biophysics
Zdenck, Ericka N., B.A., Coordinator, Educational/Training Programs, Center for Civic Education and Services
Zeigler, Mark T., M.S., Assistant in Communication
Zeller, Richard E., Ph.D., Ohio State; Visiting Assistant Professor of Geography
+ **Zenz, Gary Joseph**, Ph.D., Wisconsin; Professor of Marketing
Zervigon-Hakes, Anita M., Ph.D., Florida State; Associate in Research, Florida Resources and Environmental Analysis Center
+ **Zhang, Chun**, Ph.D., Iowa; Associate Professor of Industrial Engineering
Zhang, Tianming, Ph.D., Coordinator, Computer Applications, Office of Technology Integration
+ **Zheng, Jian-Ping.**, Ph.D. E.E., State University of New York at Buffalo; Associate Professor of Electrical and Computer Engineering
Zhou, Hua, M.S., Specialist, Computer Applications, Center for Prevention and Early Intervention
Ziegler, Roy A., M.L.S., Librarian and Department Head of University Libraries Collection Development
Zierden, David F., M.S., Assistant in Research, Meteorology
Zimanyi, Laszlo, Ph.D., Hungary University; Visiting Research Assistant of Chemistry
+ **Zindler, Gregory Alan**, Ph.D., Massachusetts Institute of Technology; Chair and Professor of Geological Sciences
• **Zollar, Willa Jo**, M.F.A., Nancy Smith Fichter Professor of Dance, 1999
+ **Zou, Xiaolei**, Ph.D., Institute of Atmospheric Physics; Professor of Meteorology
+ **Zuehlke, Thomas W.**, Ph.D., Florida; Associate Professor of Economics
Zurko, Max J., M.S., University School Instructor, Developmental Research School
+ **Zwaan, Rolf A.**, Ph.D., Utrecht; Associate Professor of Psychology
Zwaan-Dijkstra, Katinka, Ph.D., Utrecht; Visiting Assistant in Psychology
Zwilich, Ellen T., D.M.A., Julliard; Francis Eppes Professor of Music

DISTINGUISHED RESEARCH PROFESSORS

Harper, William C., M.S., Distinguished Research Professor, 1990–1991, Professor of Studio Art (Retired)
O'Brien, James J., Ph.D., Texas A&M; Distinguished Research Professor, 1990–1991, Robert O. Lawton Distinguished Professor, 1999–2000, Professor of Meteorology and Oceanography, and Russian Academy of Natural Science
Tam, Christopher K. W., Ph.D., California Institute of Technology; Distinguished Research Professor, 1990–1991, Robert O. Lawton Distinguished Professor, 2000–2001, Professor of Mathematics and Mechanical Engineering
Loper, David E., Ph.D., Case Western Reserve University; Distinguished Research Professor, 1991–1992, George W. DeVore Professor of Geological Sciences, 1999, and Director, Geophysical Fluid Dynamics Institute
Parker, Glenn R., Ph.D., California; Distinguished Research Professor, 1991–1992, Professor of Political Science
Benson, Bruce L., Ph.D., Texas A&M; Distinguished Research Professor, 1992–1993, Professor of Economics

Graziadei, Pasquale P., M.D., Pavia, Italy; Distinguished Research Professor, 1992–1993, Professor of Biological Science (Retired)
Summers, Dewitt L., Ph.D., Cambridge; Distinguished Research Professor, 1992–1993, Robert O. Lawton Distinguished Professor, 1997–1998, and Professor of Mathematics
Kemper, Kirby W., Ph.D., Indiana; Distinguished Research Professor, 1993–1994, John David Fox Professor of Physics, 2000, and Robert O. Lawton Distinguished Professor, 2002–2003
Nam, Charles B., Ph.D., North Carolina; Distinguished Research Professor, 1993–1994, Professor of Sociology (Retired)
Turner, Ralph V., Ph.D., Johns Hopkins; Distinguished Research Professor, 1993–1994, Service Professor of History
Bryant, John L., Ph.D., Georgia; Distinguished Research Professor, 1994–1995, Professor of Mathematics
Freeman, Marc E., Ph.D., West Virginia; Distinguished Research Professor, 1994–1995, Lloyd M. Beidler Professor of Biological Science, 2000
Owens, Joseph F., III, Ph.D., Tufts; Distinguished Research Professor, 1994–1995, Chair and Guenter Schwarz Professor of Physics, 2000
Hollander, Myles, Ph.D., Stanford; Distinguished Research Professor, 1995–1996, Robert O. Lawton Distinguished Professor, 1998–1999, and Professor of Statistics
James, Frances C., Ph.D., Arkansas; Distinguished Research Professor, 1995–1996, Pasquale Graziadei Professor of Biological Science, 1999
Stern, Melvin E., Ph.D., Massachusetts Institute of Technology; Distinguished Research Professor, 1995–1996, V. W. Ekman Professor of Oceanography, and National Academy of Sciences
Pfeffer, Richard, Ph.D., Massachusetts Institute of Technology; Distinguished Research Professor, 1996–1997, Carl-Gustaf Rossby Professor of Meteorology
Torgesen, Joseph, Ph.D., Michigan; Distinguished Research Professor, 1996–1997, Robert M. Gagne Professor of Psychology and Education, 2000, and Professor of Psychology
Van Sciver, Steven W., Ph.D., Washington; Distinguished Research Professor, 1996–1997, Professor of Mechanical Engineering
Hagopian, Vasken, Ph.D., Pennsylvania; Distinguished Research Professor, 1997–1998, Joseph E. Lannutti Professor of Physics, 1999, and Professor of Physics
Myles, John F., Ph.D., Wisconsin; Distinguished Research Professor, 1997–1998, Professor of Sociology
Nicholson, Sharon E., Ph.D., Wisconsin; Distinguished Research Professor, 1997–1998, Professor of Meteorology
Balkwill, David L., Ph.D., Pennsylvania State; Distinguished Research Professor, 1998–1999, Professor of Biological Science
Hirsh, Barry T., Ph.D., Virginia; Distinguished Research Professor, 1998–1999, Professor of Economics
Marshall, Alan George, Ph.D., Sanford; Distinguished Research Professor, 1998–1999, Kasha Professor of Chemistry, 1999
Gontarski, Stan E., Ph.D., Ohio State; Distinguished Research Professor, 1999–2000, Professor of English
Holton, Robert A., Ph.D., Florida State; Distinguished Research Professor, 1999–2000, Professor of Chemistry
Clarke, Allan J., Ph.D., Cambridge; Distinguished Research Professor, 2000 – 2001, Professor of Oceanography
Cross, Timothy A., Ph.D., Pennsylvania; Distinguished Research Professor, 2000 – 2001, Professor of Chemistry
Olsen, Dale A., Ph.D., California at Los Angeles; Distinguished Research Professor, 2000 – 2001, Professor of Music

Fenstermaker, John J., Ph.D. Ohio State; Distinguished Research Professor, 2001–2002, Distinguished Teaching Professor, 2000–2001, Professor of English
Tabor, Samuel, Ph.D., Stanford; Distinguished Research Professor, 2001–2002, Professor of Physics
Taylor, Kenneth A., Ph.D. California at Berkeley; Distinguished Research Professor 2001–2002, Professor of Biological Science

DISTINGUISHED TEACHING PROFESSORS

Clark, Ronald J., Ph.D., Kansas; Distinguished Teaching Professor, 1989–1990, Professor of Chemistry
Hofer, Kurt G., Ph.D., Vienna; Distinguished Teaching Professor, 1989–1990, Robert O. Lawton Distinguished Professor, 1994–1995, Professor of Biological Science
Horward, Donald D., Ph.D., Minnesota; Distinguished Teaching Professor, 1989–1990, Eminent Scholar and Professor of History
Madsen, Clifford K., Ph.D., Florida State; Distinguished Teaching Professor, 1989–1990, Alumni Professor, 1985–1988, Robert O. Lawton Distinguished Professor, 1988–1989, Professor of Music
Mellon, Edward K., Ph.D., Texas; Distinguished Teaching Professor, 1989–1990, Chair and Professor of Chemistry (Retired)
Jones, James P., Ph.D., Florida; Distinguished Teaching Professor, 1990–1991, Professor of History
Lhamon, W. T., Jr., Ph.D., Indiana; Distinguished Teaching Professor, 1990–1991, George M. Harper Professor of English, 2000
Rashotte, Michael E., Ph.D., Toronto; Distinguished Teaching Professor, 1990–1991, Professor of Psychology
Rogers, William W., Ph.D., North Carolina; Distinguished Teaching Professor, 1990–1991, Professor of History (Retired)
Sandon, Leo, Ph.D., Boston; Distinguished Teaching Professor, 1990–1991, Chair and Professor of Religion, and Director, Program in American Studies
Burroway, Janet G., M.A., Distinguished Teaching Professor, 1991–1992, Service Professor of English, Robert O. Lawton Distinguished Professor, 1995–96, and McKenzie Professor, 1986
Levenson, David B., Ph.D., Harvard; Distinguished Teaching Professor, 1992–1993, Associate Professor of Religion
Smith, James C., Ph.D., Florida State; Distinguished Teaching Professor, 1993–1994, Professor of Psychology, Robert O. Lawton Distinguished Professor, 1992–1993
Leach, Stephen P., Ph.D., Florida State; Distinguished Teaching Professor, 1994–1995, Assistant Scholar/Scientist of Computer Science
Walker, Eric C., Ph.D., North Carolina at Chapel Hill; Distinguished Teaching Professor, 1995–1996, Associate Professor of English
Darling, Carol A., Ph.D., Michigan State; Distinguished Teaching Professor, 1996–1997, Professor of Family and Child Sciences, and Margaret Rector Sandels Professor of Human Sciences, 1999
Goldsbey, Kenneth A., Ph.D., North Carolina; Distinguished Teaching Professor, 1997–1998, Associate Professor of Chemistry
Moore, Dennis D., Ph.D., North Carolina; Distinguished Teaching Professor, 1998–1999, Associate Professor of English
Reiser, Robert A., Ph.D., Arizona State; Distinguished Teaching Professor, 1999–2000, Professor of Educational Research
Fenstermaker, John J., Ph.D., Ohio State; Distinguished Teaching Professor, 2000 – 2001, Distinguished Teaching Professor, 2001 – 2002, Professor of English

McKENZIE PROFESSORS

Berkley, Karen J., Ph.D., Washington; McKenzie Professor 1989, Professor of Psychology
Burroway, Janet G., M.A., McKenzie Professor 1986, Service Professor of English
Dye, Thomas R., Ph.D., Pennsylvania; McKenzie Professor 1986, Service Professor of Political Science
Hintikka, Jaako, Ph.D., Helsinki, Finland; McKenzie Professor 1986–1990, Professor of Philosophy (Retired)
Howard, Louis N., Ph.D., Princeton; McKenzie Professor 1986, Professor of Mathematics (Retired)
Hunter, Christopher, Ph.D., Cambridge; McKenzie Professor 1991, Chair and Professor of Mathematics
Kirby, David K., Ph.D., Johns Hopkins; McKenzie Professor 1989, Professor of English
Winstead, William O., M.M., McKenzie Professor 1986–1988, Professor of Music (Resigned)

DAISY PARKER FLORY ALUMNI PROFESSORS

Madsen, Clifford K., Ph.D., Florida State; Alumni Professor 1985–1988, Distinguished Professor 1988–1989, Distinguished Teaching Professor, 1989–1990, Professor of Music
Martin, Patricia Y., Ph.D., Florida State; Alumni Professor 1989, Professor of Sociology
Standley, Fred L., Ph.D., Northwestern; Alumni Professor 1985, Professor of English

THE PRESIDENT AND THE PROVOST'S NAMED PROFESSORSHIP PROGRAM

Beckham, Joseph C., J.D., Ph.D., Florida; Allan Tucker Professor of Educational Policy Studies and Leadership, 2000, Chair and Professor of Educational Leadership
Berry, William D., Ph.D., Minnesota; Marian D. Irish Professor of Political Science, 1999, Professor of Political Science
Bishop, Wendy, Ph.D., Indiana of Pennsylvania; Kellogg W. Hunt Professor of English, 2000, Professor of English
Bryant, John L., Ph.D., Georgia; Orville G. Harrold Professor of Mathematics, 2000, Distinguished Research Professor, 1994–1995, Professor of Mathematics
Chandra, Namas, Ph.D., Texas A&M; Krishnamurthy Karamcheti Professor of Engineering, 2000, and Professor of Mechanical Engineering
Cloonan, William J., Ph.D., North Carolina at Chapel Hill; Richard L. Chapple Professor of Modern Languages and Linguistics, 1999, and Professor of Modern Languages and Linguistics
Darling, Carol A., Ph.D., Michigan State; Margaret Rector Sandels Professor of Human Sciences, 1999, Distinguished Teaching Professor, 1996–1997, and Professor of Family and Child Sciences
de Grummond, Nancy T., Ph.D., North Carolina; M. Lynette Thompson Professor of Classics, 1999, and Professor of Classics
Dorsey, John, Ph.D., Cincinnati; Katherine Blood Hoffman Professor of Chemistry, 2000, and Professor of Chemistry
Fiorito, Jack T., Ph.D., Illinois; J. Frank Dame Professor of Management, 1999, and Professor of Management
Fisk, Zachary, Ph.D., California at San Diego; Paul A.M. Dirac Professor of Physics, 1999, National Academy of Sciences, and Professor of Physics

Freeman, Marc, Ph.D., West Virginia; Lloyd M. Beidler Professor of Biological Science, 2000, Distinguished Research Professor, 1994–1995, and Professor of Biological Science
Gontarski, Stanley E., Ph.D., Ohio State; Sarah Herndon Professor of English, 1999, Distinguished Research Professor, 1999–2000, and Professor of English
Hagopian, Vasken, Ph.D., Pennsylvania; Joseph E. Lannutti Professor of Physics, 1999, Distinguished Research Professor, 1997–1998, and Professor of Physics
Hahn, Cynthia, Ph.D., Johns Hopkins; Gulnar K. Bosch Professor of Art History, 2000, and Professor of Art History
Hardy, Melissa, Ph.D., Indiana; Raymond F. Bellamy Professor of Sociology, 2000, Professor of Sociology, and Program Director, Pepper Institute on Aging
Haymes, Emily M., Ph.D., Pennsylvania State; C. Etta Walters Professor of Exercise Science, 2000, and Professor of Nutrition, Food, and Exercise Sciences
Herrnkind, William F., Ph.D., Miami; Robert K. Godfrey Professor of Biological Science, 2000, and Professor of Biological Science
James, Frances C., Ph.D., Arkansas; Pasquale Graziadei Professor of Biological Science, 1999, Distinguished Research Professor, 1995–1996, and Professor of Biological Science
Joiner, Thomas, Ph.D., Texas at Austin; Bright-Burton Professor of Psychology, 2000, and Professor of Psychology
Jumonville, Neil T., Ph.D., Harvard; William Warren Rogers Professor of History, 1999, and Professor of History
Kacmar, K. Michele, Ph.D., Texas A&M; Charles A. Rovetta Professor of Management, 2000, and Professor of Management
Kelsay, John, Ph.D., Virginia; Richard L. Rubenstein Professor of Religion, 2000, Chair and Professor of Religion
Kemper, Kirby, Ph.D., Indiana; John David Fox Professor of Physics, 2000, Distinguished Research Professor, 1993–1994, Robert O. Lawton Distinguished Professor, 2002–2003, and Professor of Physics
Kiefer, Douglas W., Donald Brittain Professor of Cinematography, 2000, and Associate in Film, School of Motion Picture, Television, and Recording Arts
Kowalsky, Frank, D.M.A., Catholic; Joseph A. White Professor of Music, 2000, and Professor of Music
Lhamon, William T., Ph.D., Indiana; George M. Harper Professor of English, 2000, Distinguished Teaching Professor, 1990–1991, and Professor of English
Loper, David E., Ph.D., Case Western Reserve; George W. DeVore Professor of Geological Sciences, 1999, Director, Geophysical Fluid Dynamics Institute, Distinguished Research Professor, 1991–1992, and Professor of Geological Sciences
MacPherson, David A., Ph.D., Pennsylvania; Abba Lerner Professor of Economics, 1999, and Professor of Economics
Marcus, Nancy H., Ph.D., Yale; Mary Sears Professor of Oceanography, Professor of Oceanography, and Robert O. Lawton Distinguished Professor, 2001–2002
Marshall, Alan G., Ph.D., Stanford; Kasha Professor of Chemistry, 1999, Distinguished Research Professor, 1998–1999, and Professor of Chemistry
McElrath, Joseph R., Ph.D., South Carolina; William Hudson Rogers Professor of English, 1999, and Professor of English
McKeague, Ian, Ph.D., North Carolina; Ralph A. Bradley Professor of Statistics, 2000, and Professor of Statistics
McNece, C. Aaron, Ph.D., Michigan; Walter W. Hudson Professor of Social Work, 2000, and Professor of Social Work

Moffatt, Robert J., Ph.D., Michigan; Georgia Alice Stamford Professor of Exercise Science, 2000, and Chair and Professor of Nutrition, Food, and Exercise Sciences
Ortiz-Taylor, Sheila, Ph.D., California at Los Angeles; Francis G. Townsend Professor of English, 2000, and Professor of English
Owens, Joseph, Ph.D., Tufts; Guenter Schwarz Professor of Physics, 2000, Distinguished Research Professor, 1994–1995, and Professor of Physics
Peters, Michael, Ph.D., Ohio State; Elvin J. Dantin Professor of Engineering, 2000, and Chair and Professor of Chemical Engineering
Pfeffer, Richard L., Ph.D., Massachusetts Institute of Technology; Carl-Gustaf Rossby Professor of Meteorology, 1999, Distinguished Research Professor, 1996–1997, and Professor of Meteorology
Pietralunga, Mark F., California at Berkeley; Victor Oelschlagler Professor of Modern Languages, 2000, Chair and Professor of Modern Languages and Linguistics
Portman, Richard R., Gordon Sawyer Professor of Recording Arts, 1999, and Assistant in Film, School of Motion Picture, Television, and Recording Arts
Rasmussen, David, Ph.D., Washington; James H. Gapinski Professor of Economics, 2000, Director, DeVoe L. Moore and Family Center for Critical Issues, and Professor of Economics
Riley, Mark, Ph.D., Liverpool; Raymond K. Sheline Professor of Physics, 2000, and Professor of Physics
Standley, Jayne, Ph.D., Florida State; Ella Scoble Opperman Professor of Music, 2000, and Professor of Music
Stephan, Friedrich, Ph.D., California at Berkeley; Curt P. Richter Professor of Psychology and Neuroscience, 2000, and Professor of Psychology
Stern, Melvin E., Ph.D., Massachusetts Institute of Technology; V.W. Ekman Professor of Oceanography, 1999, Distinguished Research Professor, 1995–1996, National Academy of Sciences, and Professor of Oceanography
Tatum, W. Jeffrey, Ph.D., Texas; Olivia Nelson Dorman Professor of Classics, 2000, Chair and Professor of Classics
Thomas Andre, D.M.A., Illinois; Owen F. Sellers Professor of Music, 1999, and Professor of Music
Torgesen, Joseph, Ph.D., Michigan; Robert M. Gagne Professor of Psychology and Education, 2000, Distinguished Research Professor, 1996–1997, and Professor of Psychology
Tschinkel, Walter R., Margaret Y. Menzel Professor of Biological Science, 1999, and Professor of Biological Science
Wagner, Richard K., Ph.D., Yale; Alfred Binet Professor of Psychology, 1999, and Professor of Psychology
Wang, Hsu-Pin (Ben), Ph.D., Pennsylvania State; Simon Ostrach Professor of Engineering, 2000, Chair and Professor of Industrial Engineering
Wetherby, Amy, Ph.D., California at Santa Barbara; Laurel L. Schendel Professor of Communication Disorders, 2000, and Professor of Communication Disorders
Young, Marilyn, Ph.D., Pittsburgh; Wayne C. Minnick Professor of Communication, 2000, and Professor of Communication
Zollar, Jawole Willa Jo, M.F.A., Nancy Smith Fichter Professor of Dance, 1999, and Professor of Dance

THE ROBERT O. LAWTON DISTINGUISHED PROFESSORS

Rogers, William Hudson, Ph.D., Virginia; Distinguished Professor 1957–1958, Professor of English, (Deceased 7/11/75)

Irish, Marian Doris, Ph.D., Yale; Distinguished Professor 1958–1959, Professor and Chair of Political Science (Deceased 11/11/01)

Liddell, Anna Forbes, Ph.D., North Carolina; Distinguished Professor 1959–1960, Professor of Philosophy (Deceased 8/30/79)

Grunwald, Ernest Max, Ph.D., California; Distinguished Professor 1960–1961, Professor of Chemistry (Resigned)

Housewright, Wiley Lee, Ed.D., New York; Distinguished Professor 1961–1962, Professor and Dean, School of Music (Retired)

Kasha, Michael, Ph.D., California; Distinguished Professor 1962–1963, Professor of Chemistry and Director, Institute of Molecular Biophysics (Retired)

Hoffman, Dorothy Lois Breen, Ph.D., Illinois; Distinguished Professor 1963–1964, Professor of Modern Languages and Linguistics (Deceased 3/7/85)

Floyd, Carlisle, Jr., M.M., Distinguished Professor 1964–1965, Professor of Music (Resigned)

Watts, Betty Monaghan, Ph.D., Washington, St. Louis; Distinguished Professor 1965–1966, Professor of Food and Nutrition (Retired)

Sheline, Raymond K., Ph.D., California at Berkeley; Distinguished Professor 1966–1967, Professor of Chemistry and Physics, and Royal Danish Academy of Science and Letters (Retired)

Choppin, Gregory R., Ph.D., Texas; Sc.D., Loyola; Distinguished Professor 1967–1968, Professor of Chemistry

Nichols, Eugene D., Ph.D., Illinois; Distinguished Professor 1968–1969, Professor and Head of Mathematics Education (Retired)

Frieden, Earl, Ph.D., Southern California; Distinguished Professor 1969–1970, Professor of Chemistry (Retired)

Bradley, Ralph Allan, Ph.D., North Carolina; Distinguished Professor 1970–1971, Professor and Head of Statistics (Deceased 10/30/01)

Beidler, Lloyd Mumbauer, Ph.D., Johns Hopkins; Distinguished Professor 1971–1972, Professor of Biological Science (Retired)

Hunt, Kellogg Wesley, Ph.D., Iowa; Distinguished Professor 1972–1973, Professor of English (Deceased 11/4/98)

Savage, I. Richard, Ph.D., Columbia; Distinguished Professor 1973–1974, Professor of Statistics (Resigned)

Kenshalo, Daniel Ralph, Ph.D., Washington; Distinguished Professor 1974–1975, Professor of Psychology (Retired)

Fallon, Richard Gordon, M.A., Distinguished Professor 1975–1976, Professor and Dean, School of Theatre (Retired)

Nikolaidi, Elena, Distinguished Professor 1976–1977, Professor of Music (Retired)

Rubenstein, Richard Lowell, Ph.D., Harvard; Distinguished Professor 1977–1978, Professor of Religion (Retired)

Hess, Seymour L., Ph.D., Chicago; Distinguished Professor 1978–1979, Professor of Meteorology (Deceased 1/15/82)

Harper, George M., Ph.D., North Carolina; Distinguished Professor 1979–1980, Professor of English (Retired)

Walborsky, Harry M., Ph.D., Ohio State; Distinguished Professor 1980–1981, Professor of Chemistry (Retired)

Gilmer, Robert, Ph.D., Louisiana State; Distinguished Professor 1981–1982, Professor of Mathematics

Gagne, Robert M., Ph.D., Brown; Distinguished Professor 1982–1983, Professor of Research, Development, and Foundations (Retired)

Taylor, J. Herbert, Ph.D., Virginia; Distinguished Professor 1983–1984, Professor of Biological Sciences, and Program Director, Institute of Molecular Biophysics (Deceased 12/29/98)

Mandelkern, Leo, Ph.D., Cornell; Distinguished Professor 1984–1985, Professor of Chemistry (Retired)

Proschan, Frank, Ph.D., Stanford; Distinguished Professor 1984–1985, Professor of Statistics (Retired)

Krishnamurti, Tiruvalam N., Ph.D., Chicago; Distinguished Professor 1985–1986, Professor of Meteorology

Simberloff, Daniel, Ph.D., Harvard; Distinguished Professor 1986–1987, Professor of Biological Science (Resigned)

Herz, Werner, Ph.D., Colorado; Distinguished Professor 1987–1988, Robert O. Lawton Professor of Chemistry (Retired)

Madsen, Clifford K., Ph.D., Florida State; Distinguished Professor 1988–1989, Alumni Professor 1985–1988, Distinguished Teaching Professor 1989–1990, Professor of Music

Greaves, Richard L., Ph.D., London; Distinguished Professor 1989–1990, Professor of History

Robson, Donald, Ph.D., Melbourne, Australia; Distinguished Professor 1990–1991, Professor of Physics, and Scientist/Scholar, School of Computational Science and Information Technology

Fichter, Nancy Smith, Ph.D., Texas Woman's University; Distinguished Professor 1991–1992, Chair and Professor of Dance (Retired)

Friedmann, E. Imre, Ph.D., Vienna; Distinguished Professor 1991–1992, Professor of Biological Science (Retired)

Smith, James C., Ph.D., Florida State; Distinguished Professor 1992–1993, Distinguished Teaching Professor 1993–1994, Professor of Psychology

Sethuraman, Jayaram, Ph.D., Indian Statistical Institute; Distinguished Professor 1993–1994, Professor of Statistics

Hofer, Kurt G., Ph.D., Vienna; Distinguished Professor 1994–1995, Distinguished Teaching Professor 1989–1990, Professor of Biological Science

Burroway, Janet G., M.A., Distinguished Professor 1995–1996, McKenzie Professor, Service Professor of English

Travis, Joseph, Ph.D., Duke; Distinguished Professor 1996–1997, Professor of Biological Science

Summers, Dewitt L., Ph.D., Cambridge; Distinguished Research Professor, 1992–1993, Distinguished Professor 1997–1998, and Professor of Mathematics

Hollander, Myles, Ph.D., Stanford; Distinguished Professor, 1998–1999, Distinguished Research Professor, 1995–1996, Professor of Statistics

O'Brien, James J., Ph.D., Texas A&M; Distinguished Professor, 1999–2000, Distinguished Research Professor, 1990–1991, Professor of Meteorology and Oceanography, and Russian Academy of Natural Science

Tam, Christopher K. W., Ph.D., California Institute of Technology; Distinguished Professor, 2000–2001, Professor of Mathematics and Mechanical Engineering, and Research Associate, Geophysical Fluid Dynamics Institute, Distinguished Research Professor, 1990–1991

Marcus, Nancy H., Ph.D., Yale; Distinguished Professor, 2001–2002, Mary Sears Professor of Oceanography, Professor of Oceanography, and Director, Program for Women in Math, Science, and Engineering

Kemper, Kirby W., Ph.D., Indiana; Distinguished Professor, 2002–2003, Chair and Professor of Physics, and John David Fox Professor of Physics, Distinguished Research Professor, 1993–1994

NATIONAL ACADEMY OF SCIENCES THE FLORIDA STATE UNIVERSITY MEMBERS

Beidler, Lloyd, Ph.D., Johns Hopkins; Distinguished Professor 1971–1972, Professor of Biological Science (Retired)

Caspar, Donald L., Ph.D., Yale; Professor of Biological Science

Fisk, Zachary, Ph.D., California at San Diego, Paul A.M. Dirac Professor of Physics, 1999

Howard, Louis, Ph.D., Princeton; McKenzie Professor 1986, Professor of Mathematics (Retired)

Kasha, Michael, Ph.D., California at Berkeley; Distinguished Professor 1962–1963, Professor of Chemistry/Institute of Molecular Biophysics (Retired)

Schrieffer, John R., Ph.D., Illinois; Nobel Laureate in Physics, 1972; Professor of Physics, National High Magnetic Field Laboratory

Stern, Melvin E., Ph.D., Massachusetts Institute of Technology; Distinguished Research Professor, 1995–1996, V.W. Ekman Professor of Oceanography, 1999

Taylor, J. Herbert, Ph.D., Robert O. Lawton Distinguished Professor 1983–1984, Service Professor of Biological Science (Deceased 12/29/98)

FOREIGN ACADEMIES THE FLORIDA STATE UNIVERSITY MEMBERS

Boyd, Monica, Ph.D., Duke; Mildred and Claude Pepper Distinguished Professor of Sociology, and Royal Society of Canada

O'Brien, James J., Ph.D., Texas A&M; Professor of Meteorology and Oceanography, Robert O. Lawton Distinguished Professor, 1999–2000, Distinguished Research Professor, 1990–1991, and Russian Academy of Natural Science

Sheline, Raymond K., Ph.D., California at Berkeley; Service Professor of Chemistry and Physics, Robert O. Lawton Distinguished Professor 1966–1967, and Royal Danish Academy of Science and Letters (Retired)

NOBEL LAUREATE

Schrieffer, John R., Ph.D., Illinois; Professor of Physics, Nobel Laureate in Physics, 1972

RETIRED FACULTY

- * Professor Emeritus
- Distinguished Professor Emeritus
- * **Aaron, Shirley**, (1975–1994), Ph.D., Professor of Information Studies
- * **Abcarian, Gilbert**, (1967–1992), Ph.D., Professor of Political Science
- * **Adam, Eleanore**, (1953–1979), M.A., Chair and Professor of Textiles and Consumer Sciences
- * **Adams, Jane L.**, (1946–1966), M.A., Assistant Professor and Night Director, University Union
- * **Albertson, Robert W.**, (1955–1998) University School Associate Professor, Developmental Research School
- * **Albrecht, Grace**, (1950–1973), M.C.S., Research Associate and Assistant to the Vice President for Academic Affairs
- * **Albright, John R.**, (1963–1995), Ph.D., Professor of Physics
- * **Alderman, Nelda Cumming**, (1952–1976), M.S., Assistant Professor, Developmental Research School
- * **Alderson, John J.**, (1968–1992), M.S.W., Professor of Social Work
- * **Alexander, Lucille C.**, (1981–1995), B.S., Assistant in Nursing, School of Nursing
- * **Alford, Attie America**, (1947–1968), M.A., Assistant Professor and Assistant Librarian, Library
- * **Allbritton, Carol H.**, (1966–1968, 1969–1989), B.S., University School Instructor, Developmental Research School

- Allen, Ruby**, (1978–1999), Ph.D., Professor of Theatre and Assistant Program Director, Asolo State Theatre
- * **Almarode, Richard**, (1962–1994), M.S., Associate Professor of Hospitality
- * **Armstrong, W. Earl**, (1964–1969), Ed.D., Professor of Higher Education
- Auer, Emma**, (1969–1976), Professor of Marketing
- * **Avery, Carol E.**, (1979–1995), Ph.D., Chair and Professor of Textiles and Consumer Science
- Baker, Barbara N.**, (1971–1993), M.S., Research Associate, Institute of Molecular Biophysics
- * **Baker, Howard D.**, (1950–1991), Ph.D., Professor of Psychology
- **Baker, Mae-Louise**, (1979–1996), M.A., M.S., Associate Professor of Theatre
- * **Baker, Richard M., Jr.**, (1950–1969), Ph.D., Professor of Marketing
- Ballard, Lois Schnoor**, (1948–1964), M.M., Associate Professor of Music
- Ballas, Parascho P.**, (1978–1979), M.S., Lecturer/Field Representative, Hospitality Education Program, College of Business
- Banghart, Frank W.**, (1965–1991), Ed.D., Professor of Educational Leadership
- Barnes, Ailene Barger Thompson**, (1954–1957), M.A., Assistant Professor of English
- Barnes, Lehman W.**, (1970–1991), Ph.D., Associate Professor of Childhood Education
- * **Bartlett, Richard A.**, (1955–1989), Ph.D., Professor of History
- Bashinski, Marian C.**, (1966–1986), M.A., Associate Professor of English
- Bassins, Alexander**, (1968–1995), Ph.D., Professor of Criminology and Criminal Justice
- * **Beard, Jacob G.**, (1966–1997), Ph.D., Professor of Educational Research
- Beard, Robert W.**, (1960–1998), Ph.D., Professor of Philosophy
- * **Beck, Earl R.**, (1949–1989), Ph.D., Professor of History
- Bedi, Hardip S.**, (1986–1998), Ph.D., Research Associate, Meteorology
- **Beidler, Lloyd M.**, (1950–1993), Ph.D., LL.D., Professor of Biological Science, Robert O. Lawton Distinguished Professor 1971–1972
- Bell, Frederick W.**, (1973–2001), Ph.D., Professor of Economics
- * **Bell, Trevor**, (1972–1996), National Diploma in Painting, Service Professor of Studio Art
- * **Bender, Louis W.**, (1970–1991), Ed.D., Professor of Educational Leadership
- * **Bjerregaard, Carl E.**, (1976–1993), M.M., Professor of Music
- * **Black, Homer A.**, (1958–1989) C.P.A., Ph.D., Professor of Accounting
- Black, Sarah Anne**, (1960–1985), M.Ed., University School Associate Professor, Developmental Research School
- * **Blake, Garth K.**, (1957–1996), Ed.D., Service Professor of Educational Leadership
- Bland, Larson M.**, (1982–1998), Ed.D., Academic Administrator and Dean Emeritus, Panama City Branch Campus
- Bock, John C.**, (1983–1998), Ph.D., Professor of Educational Foundations and Policy Studies, and Director, Center for International Studies, Learning Systems Institute
- Boda, John**, (1947–1988), D.M.A., Professor of Music
- * **Bolden, John H.**, (1973–1988), Ed.D., Professor of Educational Leadership
- * **Bolick, Mildred Irene**, (1936–1965), Ph.D., Professor of Zoology and Biological Science
- Bolin, Calvin E.**, (1961–1983), M.Ed., University School Associate Professor, Developmental Research School
- Bourgeois, Louis C., III**, (1964–1993), Ph.D., Associate Professor of Modern Languages and Linguistics
- Braendlin, Hans Peter**, (1968–1994), Ph.D., Associate Professor of Modern Languages and Linguistics
- Brahoney, James P.**, (1968–1974), Ph.D., Assistant Professor of Professional and Clinical Programs
- Braswell, Ronald C.**, (1976–2000), D.B.A., Professor of Finance
- Brock, Frances R.**, (1986–1996), Ph.D., Associate in Research, Educational Services Program
- Brock, Vandall Kline**, (1970–1999), Ph.D., Professor of English
- Brubaker, Bill Ray**, (1966–1998), Ph.D., Professor of English
- Brueckheimer, William R.**, (1964–1990), Ph.D., Professor of Geography
- Bryant, Jean G.**, (1972–2001) Ph.D., Assistant Professor of History, and Director, Women's Studies Program
- * **Burck, Harman D.**, (1960–1997) Ph.D., Professor of Human Services and Studies
- Burdick, Lois B.**, (1967–1999), M.L.S., Associate Director, University Libraries
- * **Burkman, Ernest, Jr.**, (1960–1990), Ed.D., Professor of Educational Research
- * **Burton, Elsie C.**, (1974–1992), Ph.D., Professor of Physical Education
- * **Cairns, Grace Edith**, (1948–1970), Ph.D., Professor of Philosophy and Religion
- Caldwell, B. Willis**, (1951–1977), Ph.D., Assistant Professor and Director of Admissions
- Cancelon, Elaine D.**, (1972–2001), Ph.D., Professor of Modern Languages and Linguistics
- * **Cannon, Frances C.**, (1951–1990), Ed.D., Professor of Human Services and Studies
- * **Carey, John J.**, (1960–1986), Ph.D., Professor of Religion
- Carleton, Frederica B.**, (1959–1970), Ed.D., Associate Professor of Home and Family Life
- Carroll, Benjamin H.**, (1946–1974), Associate Professor of English
- Carroll, Gary B.**, (1978–1997), B.A., Assistant in Research, Educational Services Program
- Carroll, Myrtle M.**, (1958–1974), M.A., Instructor and Associate Librarian, Library
- Carter, Bonnie J.**, (1943–1958), B.S., Home Improvement Specialist, Home Demonstration Extension
- Carter, Odessa**, (1955–1956, 1961–1977), Associate Professor, Developmental Research School
- Carter, Robert C.**, (1970–1987), M.S., Associate Professor of Nursing
- * **Cason, Ernest Wesley**, (1939–1967), Ph.D., Professor of Education
- Cassidy, Dennis S.**, (1963–1991), B.A., University Curator, Geological Sciences
- * **Champion, John E.**, (1956–1985) C.P.A., Ph.D., Service Professor of Accounting
- Chapard, Louis**, (1964–1970), M.A., Lecturer, Modern Languages and Linguistics
- Chapman, Kenneth R.**, (1966–1991), Ph.D., Staff Physicist and Professor of Physics
- Chentnik, Chester G.**, (1969–1980), D.B.A., Associate Professor of Management
- * **Choppin, Gregory R.**, (1956–2001), Ph.D., Sc.D., Professor of Chemistry, Robert O. Lawton Distinguished Professor, 1967–1968
- * **Clapp, Robert George**, (1947–1972), M.A., Professor of Information Studies
- Clark, Lincoln F.**, (1983–1995), Professor of Music
- Clarkson, Jane S.**, (1973–2000), M.L.S., Department Head and Librarian, University Libraries
- Clay, Louise S.**, (1969–1990), M.S., Librarian, University Libraries
- Cobb, Martha A.**, (1949–1967), M.A., Assistant Professor and Head Counselor
- * **Collier, Albert**, (1962–1977), B.A., Professor of Biological Science
- Collins, Wesley C.**, (1972–1986), M.Ed., Associate Professor of Music
- Connors, Robert M.**, (1989–1999), M.S., Visiting Research Associate, Center for the Study of Teaching and Learning
- Cook, Jamie G.**, (1964–1995), Ph.D., Associate Professor of Nursing
- Cooklin, Gerald A.**, (1981–2000), M.S., Visiting Associate in College Programs
- Couch, Darrell V.**, (1985–1998), M.A., Lecturer of Management Information Sciences
- * **Cox, Beverly H.**, (1959–1989), M.A., Professor of Nursing
- Coyne, Robert F.**, (1959–1997), Ph.D., Assistant Professor of English
- Craig, Sara P.**, (1964–1977), M.A., Assistant Professor, Developmental Research School
- Crittenden, John F.**, (1975–1987), Ph.D., Visiting Associate Professor of Childhood Education
- Cullar, Wendy M.**, (1966–1996), Ed.D., Program Director, Center for Educational Technology
- * **Czajkoski, Eugene H.**, (1966–1993), D.P.A., Professor of Criminology and Criminal Justice and Dean Emeritus, School of Criminology
- * **Dales, Ruth**, (1948–1976), Ph.D., Professor of Home and Family Life
- * **Dann, Elias**, (1968–1997), Ph.D., Professor of Music
- * **Dantin, Elvin J.**, (1984–1994), Ph.D., Professor of Civil and Environmental Engineering
- * **Davis, Bertram H.**, (1974–1990), Ph.D., Professor of English
- Davis, Robert H.**, (1957–1989), Ph.D., Professor of Physics
- Dawirs, Harvel N.**, (1962–1990), Ph.D., Professor of Communication
- Dawson, George O.**, (1967–2001), M.A.T., Professor of Curriculum and Instruction
- Dawson, Harvel N.**, (1962–1990)
- * **Deans, Helen**, (1948–1977), M.Ed., Professor, Developmental Research School
- Dearmond, Genevieve**, (1949–1959), M.A., Head Counselor
- Deasy, Leila Calhoun**, (1970–1986), Ph.D., Professor of Social Work
- de Baroncelli, Maria**, (1971–1984), Associate Professor of Dance
- * **De Busk, A. Gib**, (1957–1990), Ph.D., Professor of Biological Science
- Decosmo, James V.**, (1950–1978), M.S., Assistant Professor of Movement Science and Physical Education
- * **de Kloet, Siwo R.**, (1967–1996), Ph.D., Professor of Biological Science
- DeLaney, Charles O.**, (1976–2000), M.M., Professor of Music
- * **Denmark, Ewell Thomas, Jr.**, (1958–1989), Ph.D., Professor of Curriculum and Instruction
- Densmore, Virginia Nolting**, (1967–1992), M.M.E., University School Professor, Developmental Research School
- DePew, John N.**, (1972–2000), Ph.D., Professor of Information Studies
- Deshaies, Arthur E.**, (1963–1989), M.F.A., Professor of Studio Art
- * **Desloge, Edward A.**, (1959–1994), Ph.D., Professor of Physics
- * **DeTar, Delos F.**, (1960–1998), Ph.D., Professor of Chemistry, Institute of Molecular Biophysics
- Deterding, Floyd M.**, (1961–1979), M.S., University School Assistant Professor, Developmental Research School
- * **Devore, George W.**, (1961–1991), Ph.D., Professor of Geological Sciences
- Dick, Walter**, (1968–2001), Ph.D., Professor of Educational Research
- * **Dickinson, Nellie Bond**, (1935–1965), M.A., Chair and Professor of Dance, Physical Education, Recreation
- Dickson, David F.**, (1966–1999), LL. B., Ph.D., Professor of Law

- Dixon, Alice P.**, (1976–1997), M.S.L.S., Department Head and Librarian, University Libraries
- * **Dobson, Jack T.**, (1951–1979), Ph.D., Professor of Management
- * **Downing, Paul B.**, (1980–1999), Professor of Economics, and Research Associate
- Driggs, Don F.**, (1962–1986), Ph.D., Associate Professor of Psychology
- Driscoll, William J.**, (1980–1993), Ed.D., Director, Continuing Studies, Center for Professional Development and Public Service
- Dukas, Peter.**, (1954–1976), M.B.A., Professor of Hotel and Restaurant Administration
- Dunham, Richard M.**, (1965–1997), Ph.D., Professor of Psychology
- Duparc, Rovana C.**, (1945–1947, 1961–1977), Assistant Professor of Food and Nutrition
- * **Duxbury, Vivian M.**, (1950–1971), M.A., Professor and Dean Emerita of Nursing
- * **Dye, Thomas R.**, (1968–1997), Ph.D., Professor of Political Science, McKenzie Professor
- Dyson, James W.**, (1965–1989), Ph.D., Professor of Political Science
- Earhart, Eileen M.**, (1984–1989), Ph.D., Professor and Chair of Family and Child Sciences
- Eckhart, Lewis.**, (1983–1992), B.S., Assistant in Engineering, FAMU/FSU Engineering Laboratory
- * **Edgeworth, Galor M.**, (1958–1997), M.S., Associate Professor of Textiles and Consumer Sciences
- Eichenberger, Rodney.**, (1990–2000), M.A., Professor of Music
- Elfner, Lloyd F.**, (1967–1992), Ph.D., Professor of Psychology
- Elliot, Paul R.**, (1971–2000), Ph.D., Professor of Biological Science
- * **Erdman, Anne Marie.**, (1957–1978), Ph.D., Professor of Food and Nutrition
- Erdos, Paul.**, (1958–1961, 1967–1977), D.Sc., Professor of Physics
- Evans, Joseph.**, (1965–1990), M.S., Librarian, University Libraries
- * **Everett, Peter W.**, (1959–1991), Ph.D., Professor of Physical Education
- **Fallon, Richard G.**, (1957–1989), M.A., Dean Emeritus and Professor of Theatre, Robert O. Lawton Distinguished Professor, 1975–1976
- Fauls, Donald J.**, (1954–1986), B.S., Assistant Professor of Movement Science and Physical Education, and Intercollegiate Athletic Trainer
- Faust, Federic L.**, (1970–1998), Ph.D., Professor of Criminology and Criminal Justice
- * **Fernald, Edward A.**, (1960–1998), Ph.D., Professor of Geography, Associate Vice President for Research, and Director, Institute for Science and Public Affairs
- * **Fichter, Nancy Smith.**, (1955–1997), Ph.D., Professor of Dance, Robert O. Lawton Distinguished Professor, 1991–1992
- Fidel, Mira.**, (1968–1991), Dottore en Lettere, Associate Professor of Modern Languages and Linguistics
- Finney, Wright C.**, (1980–1991), M.S., Associate in Research, Physics
- * **Fletcher, Harold J.**, (1966–1998), Ph.D., Professor of Educational Research
- Fletcher, Neil R.**, (1961–2001), Ph.D., Professor of Physics
- * **Flory, Claude R.**, (1945–1978), Ph.D., Professor of English
- * **Flory, Daisy Parker.**, (1942–1984), Ph.D., Professor of Political Science and Dean of the Faculties Emerita
- * **Fordyce, Phillip R.**, (1963–1994), M.S., Professor of Educational Research
- * **Foster, Garret Richard.**, (1963–1997), Ph.D., Service Professor of Educational Research
- * **Fox, Grace I.**, (1933–1971), Ph.D., Professor of Physical Education, Health and Recreation*
- Fox, John D.**, (1959–1994), Ph.D., Professor of Physics
- * **Frank, James E.**, (1969–1997), D.P.A., Associate Professor of Urban and Regional Planning
- Free, Opal M.**, (1965–1985), Advanced M.L.S., Instructor, Department Head and Librarian
- **Friedmann, E. Imre.**, (1996–2000), Ph.D., Professor of Biological Science, Robert O. Lawton Distinguished Professor, 1991–1992
- Frink, Inez.**, (1938–1942; 1948–1968), Ed.D., Assistant Professor of Business
- Gaar, Alice C.**, (1981–1995), Ph.D., Librarian, University Libraries
- **Gagne, Robert M.**, (1969–1986), Ph.D., Professor of Educational Research, Development, and Foundations, Robert O. Lawton Distinguished Professor 1982–1983
- * **Gallups, William C.**, (1966–1993), C.P.A., Ph.D., Professor of Accounting
- * **Gant, James L.**, (1970–1994), Ph.D., Associate Professor of Educational Leadership
- Gappa-Levi, Lavon.**, (1990–2000), Ph.D., Director, Center for Teaching Assistant Development, Graduate Studies, and Associate Professor, Educational Leadership
- Gareau, Frederick H.**, (1963–1996), Ph.D., Professor of Political Science
- * **Garland, E. Henry.**, (1960–1992), M.A., University School Professor, Developmental Research School
- George, Lawrence C.**, (1970–2001), L.L.B., Professor of Law
- * **Giddis, William J.**, (1971–1993), Ed.D., Program Director and Professor of Educational Leadership
- * **Gillies, Mary Karleen.**, (1952–1971), M.A., Professor of Nursing
- * **Givens, Azzura B.**, (1947–1998), Ph.D., Professor of Modern Languages and Linguistics
- * **Gleeson, Thomas A.**, (1949–1994) Ph.D., Professor of Meteorology
- Glick, Richard E.**, (1959–1993), Ph.D., Professor of Chemistry and Chemical Engineering
- Glotzbach, Robert.**, (1950–1984), Ed.D., Professor of Music
- Gombosi, Marilyn Purcell.**, (1968–1992), M.A., Professor of Music
- Good, Ronald G.**, (1968–1987), Ph.D., Professor of Curriculum and Instruction
- * **Goodner, Dwight B.**, (1949–1978), Ph.D., Professor of Mathematics and Computer Science
- Goodson, Nona Maughan.**, (1947–1973), M.A., Assistant Professor of Home and Family Life
- Gordon, Earl Logan.**, (1968–1989), M.Ed., Instructor of Sociology, and Program Director, Horizons Unlimited
- * **Gottschalk, Shimon S.**, (1972–1998), Ph.D., Professor of Social Work
- Graddy, Avanel B.**, (1970–1988), M.S., Librarian, University Libraries
- * **Grant, Sydney R.**, (1969–1994), Ed.D., Professor of Educational Foundations and Policy Studies
- * **Gray, Richard B.**, (1958–1986), Ph.D., Professor of Political Science
- * **Graziadei, Pasquale P.**, (1967–1996), M.D., Professor of Biological Science
- * **Green, Virginia P.**, (1969–1995), Ph.D., Professor of Educational Theory and Practice
- * **Greene, John T.**, (1958–1976), Ph.D., Professor of Sociology
- * **Gruender, C. David.**, (1967–1999), Ph.D., Professor of Philosophy
- Haas, William H.**, (1970–1996), Ph.D., Professor of Communication Disorders
- * **Hafner, Lawrence E.**, (1971–1991), Ed.D., Professor of Childhood Education
- Hager, Leila Venable.**, (1923–1951), M.A., Professor of Home Economics
- * **Hale, Gifford Graham.**, (1956–1980), Ed.D., Professor of Educational Leadership
- Halpern, Leopold E.**, (1974–2000), Ph.D., Research Associate, Physics
- Ham, Richard E.**, (1984–1999), Ph.D., Professor of Communication Disorders
- * **Hand, Samuel E.**, (1965–1975), Ed.D., Professor of Adult Education, and Director, Continuing Education
- * **Hansen-Gandy, Sally L.**, (1974–1996), Ph.D., Associate Professor of Family and Child Sciences
- Hanson, Morgan A.**, (1964–1995), Ph.D., Professor of Statistics
- Harlan, Harriett Sheddan.**, (1953–1973), M.A., Instructor of Elementary Education
- **Harper, George M.**, (1970–1990), Ph.D., Professor of English, Robert O. Lawton Distinguished Professor 1979–1980
- Harper, William C.**, (1970–1990), M.S., Professor of Studio Art, Distinguished Research Professor, 1990–1991
- * **Harris, Natholyn D.**, (1971–2001), Professor of Nutrition, Food, and Exercise Sciences
- Harrison, Thomas J.**, (1987–1999), Ph.D., Professor of Electrical and Computer Engineering, Engineering
- Harrow, Anita J.**, (1990–1995), Ph.D., Associate Professor of Educational Leadership
- * **Hartsfield, Annie Mary.**, (1942–1943, 1957–1989), Ph.D., Associate Professor of Public Administration and Political Science, and Research Associate, Institute for Social Research
- Hathway, James.**, (1967–1979), Research Associate, College of Education
- Haworth, Charles T.**, (1968–1991), Ph.D., Professor of Economics
- Haworth, Joan Gustafson.**, (1969–1989), Ph.D., Associate Professor of Economics
- Haynes, Frances Field.**, (1926–1962), B.L.S., Associate Professor, Reference Librarian, and Head of Public Services, Library
- Heard, William H.**, (1962–2000), Ph.D., Professor of Biological Science
- * **Heck, William Ross.**, (1959–1993), C.P.A., Ph.D., Professor of Accounting
- * **Heerema, Nickolas.**, (1951–1990), Ph.D., Professor of Mathematics
- Henderson, Robert K.**, (1993–1998), M.B.A., Assistant in Public Management, Florida Center for Public Management
- * **Hendrickson, Norejane J.**, (1967–1984), Ph.D., Professor of Family and Child Science
- * **Herz, Werner.**, (1949–1994), Ph.D., Professor of Chemistry, Robert O. Lawton Distinguished Professor, 1987–1988
- Hill, Alton S.**, (1974–1993), Ph.D., Visiting Research Associate, Florida Resources and Environmental Analysis Center
- Hillman, Laura T.**, (1980–1995), M.A., Associate Professor of Music
- * **Hills, John R.**, (1966–1991), Ph.D., Professor of Educational Research
- * **Hinely, Willie H.**, (1957–1998), Ed.D., Professor of Educational Leadership
- * **Hintikka, Jaakko.**, (1978–1990), Ph.D., Professor of Philosophy, McKenzie Professor
- Hodge, Billy Joe.**, (1967–2000), Ph.D., Professor of Management
- Hoetker, William J.**, (1974–1994), Ed.D., Professor of Curriculum and Instruction
- Hoffer, Thomas William.**, (1972–1996), Ph.D., Professor of Communication
- * **Hoffman, Katherine B.**, (1940–1984), M.A., Professor of Chemistry
- * **Hokanson, Jack E.**, (1959–1999), Ph.D., Professor of Psychology
- Holbrook, Anthony.**, (1966–1992), Ph.D., Professor of Communication Disorders
- Homann, Peter.**, (1962–2000), Ph.D., Professor of Biological Science
- **Housewright, Wiley L.**, (1947–1980), Ed.D., Dean Emeritus and Professor of Music, Robert O. Lawton Distinguished Professor 1961–1962
- Howard, Jimmy D.**, (1992–2001), M.A., Research Associate, Center for Studies in Teaching and Learning

- * **Howard, Louis N.**, (1981–1995), Ph.D., Professor of Mathematics and Mechanical Engineering, McKenzie Professor, and National Academy of Sciences
- Hudson, Dale L.**, (1972–1992), M.M., M.L.S., Librarian, University Libraries
- Hudson, William A.**, (1968–1975), M.A., Assistant Professor of Vocational Education
- Hulet, Richard E.**, (1982–1989), Ed.D., Professor of Educational Leadership
- **Hunt, Kellogg W.**, (1947–1973), Ph.D., Professor of English, Robert O. Lawton Distinguished Professor 1972–1973
- * **Hunt, Mary Alice.** (1953–1995), Ph.D., Associate Dean and Professor of Information Studies
- * **Hunt, Robert H.**, (1964–1995), Ph.D., Professor of Physics
- * **Hurst, Ralph N.**, (1953–1979), M.F.A., Professor of Art Education
- * **Ingham, Roy J.**, (1965–1993), Ph.D., Associate Professor of Educational Foundations and Policy Studies
- Jackson, Norman A.**, (1979–1996), Ph.D., Academic Administrator, College of Education
- * **Jahns, Irwin R.**, (1966–1998), Ph.D., Professor of Educational Foundations and Policy Studies
- * **Jahoda, Gerald.** (1963–1991), D.L.S., Professor of Information Studies
- James, Herman G.**, (1959–1997), Ph.D., Associate Professor of Modern Languages and Linguistics
- * **Jeffrey, C. Ray.** (1970–1995), Ph.D., Professor of Criminology and Criminal Justice
- * **Johnsen, Russell H.**, (1951–1993), Ph.D., Professor of Chemistry, and Dean Emeritus, Graduate Studies
- * **Johnson, F. Craig.** (1969–1994), Ph.D., Professor of Educational Research
- * **Johnson, Ivan E.**, (1952–1980), Ed.D., Professor of Art Education and Craft Design
- Johnson, Patricia L.**, (1972–1988), Ph.D., Associate Professor of Human Services and Studies
- Johnson, Rita D.**, (1973–1983), M.S., University School Assistant Professor, Developmental Research School
- * **Johnson, Robert M.**, (1968–1996), Ph.D., Vice President for Research, Professor of Biological Science, Dean of Graduate Studies, and Research Emeritus
- * **Johnson, Roy H.**, (1961–1997), D.M., Professor of Music
- * **Jones, Billie Jo.** (1972–1989), Ph.D., Professor of Movement Science and Physical Education
- Jones, Charles O.**, (1964–1989), Ed.D., Associate Professor of Educational Leadership
- * **Jones, Gideon R.**, (1963–1993), Ed.D., Professor of Special Education
- Jones, James F.**, (1962–1991), M.A., Assistant Director, University Libraries
- * **Jones, William R.**, (1976–1998), Ph.D., Professor of Religion, and Program Director, Black Studies
- * **Kaelin, Eugene F.**, (1965–1996), Ph.D., Professor of Philosophy
- * **Kalin, Robert.** (1956–1989), Ph.D., Professor of Curriculum and Instruction
- * **Kannwischer, Nell D.**, (1943–1945, 1946–1947, 1954–1955, 1963–1964, 1968–1969, 1974–1983), Ph.D., Professor of Educational Leadership
- **Kasha, Michael.** (1951–1995), Ph.D., Professor of Chemistry, and Robert O. Lawton Distinguished Professor, 1962–1963, and National Academy of Sciences
- * **Kassouny, Margaret E.**, (1973–1987), Ph.D., Professor of Nutrition and Food Science
- * **Kennedy, Robert H.**, (1976–1996), LL.B., Professor of Law
- Kennedy, Wallace A.**, (1957–1999), Ph.D., Professor of Psychology
- Kenniston, Francis W.**, (1971–1988), M.A., Associate Professor of Studio Art
- **Kenshalo, Daniel R.**, (1950–1989), Ph.D., Professor of Psychology, Robert O. Lawton Distinguished Professor 1974–1975
- * **Kerr, John Robert.** (1971–1998), D.B.A., Professor of Marketing
- Keuchel, Edward F.**, (1970–2001), Ph.D., Professor of History
- Kilpatrick, Howard T.**, (1981–1991), M.S., Assistant in Meteorology, Meteorology
- King, Donald C.**, (1965–1989), Ph.D., Professor of Marketing
- King, F. J.**, (1961–1994), Ph.D., Professor of Educational Research
- * **King, Thomas R.**, (1963–1998), Ph.D., Professor of Communication
- Kinoshita, Shin'ichi.** (1964–1984), Ph.D., Professor of Mathematics
- * **Kirby, Clara L.**, (1982–1991), Ed.D., Associate Professor of Childhood Education, and Academic Administrator, Panama City Campus
- * **Kirk, Colleen J.**, (1970–1990), Ed.D., Professor of Music
- * **Kirkham, George L.**, (1971–1991), D.Crim., Associate Professor of Criminology and Criminal Justice
- * **Kirtland, Fay.** (1952–1976), M.A., Professor of Instructional Design and Personnel Development
- * **Kittles, Emma H.**, (1979–1995), Ph.D., Professor of Textiles and Consumer Sciences
- Koster, Richard M.**, (1964–2000), M.A., Visiting Scholar, College Programs
- Kraft, Richard H.P.**, (1967–1999), Ph.D., Professor of Educational Leadership
- * **Kreimer, H. Frederick.** (1962–1995), Ph.D., Professor of Mathematics
- Kromhout, Ora M.**, (1974–1992), Ph.D., Research Associate, Center for Studies in Vocational Education
- * **Kromhout, Robert A.**, (1956–1992), Ph.D., Professor of Physics
- * **Kropp, Russell P.**, (1953–1994), Ed.D., Professor of Educational Leadership, Director of Planning, College of Education, and Assistant to the Provost
- Kuehn, Virginia Rae.** (1960–2001), M.S., Librarian, University Libraries
- * **Kuehne, Theodore H.**, (1976–1993), M.A., Professor of Textiles and Consumer Sciences
- Laird, William L., Jr.** (1960–2001), Ph.D., Professor of Economics
- Lamberth, Minnie.** (1951–1973), Assistant Professor, Developmental Research School
- LaRock, Paul A.**, (1968–1992), Ph.D., Professor of Oceanography
- * **Lastinger, Samuel Thomas.** (1953–1972), Ed.D., Professor of Counselor Education and Student Teaching Program
- * **Lathrop, Robert L.**, (1972–1999), Ph.D., Professor of Educational Research
- * **Leamon, M. Phillip.** (1968–1990), Ph.D., Professor of Curriculum and Instruction
- * **Leffler, John E.**, (1950–1989), Ph.D., Professor of Chemistry
- Leffler, Nell F.**, (1951–1952, 1965–1990), M.A., Librarian, University Libraries
- Levi, Darrell E.**, (1975–2000), Ph.D., Professor of History
- * **Linder, Bruno.** (1957–1998), Ph.D., Professor of Chemistry
- Loeb, Thomas L.**, (1971–1998), University School Assistant Professor, Developmental Research School
- Logan, Elisabeth.** (1985–2001), Ph.D., Associate Professor of Information Studies
- Long, Bruce E.**, (1967–1996), M.A., Associate Professor of Educational Leadership
- Long, Leighton Mike.** (1953–1977), B.S., Assistant Professor of Professional and Clinical Programs
- * **Long, William H.**, (1960–1992), Ph.D., Professor of Meteorology
- * **Lovano-Kerr, Jessie.** (1982–1998), Ph.D., Professor of Art Education
