HISTORY OF FLORIDA STATE UNIVERSITY

Florida State University is one of the 11 universities of the State University System of Florida. It was established as the Seminary West of the Suwanee River by act of the Florida Legislature in 1851 and first offered instruction at the postsecondary level in 1857. January 24, 2001, was not only the 150th anniversary of the founding of The Florida State University but was also the sesquicentennial of the establishment of public higher education for the State of Florida, and the University held a year-long Sesquicentennial Celebration during the year 2001. Francis Eppes, grandson of President Thomas Jefferson, was a civic leader and Intendant (Mayor) of Tallahassee who worked diligently to locate the Seminary in Tallahassee. Eppes' formative years were spent on his grandfather's estate in Virginia, and he brought many of Mr. Jefferson's views of the importance of public education in the liberal arts to the Seminary's Board of Education, of which he was a member for eleven years, including eight as its President. In 1858, the institution first became co-educational with the admission of women students when it absorbed the Tallahassee Female Academy. Its Tallahassee campus has been the site of an institution of higher education longer than any other site in the state. The first liberal arts college in the state, it was renamed the Florida State College in 1901. In 1905, the Buckman Act reorganized higher education in the state, moving the male student body to the newly established University of Florida in Gainesville and designating the Tallahassee school as the Florida Female College. It was renamed Florida State College for Women in 1909. In 1947, the school returned to co-educational status, and the name was changed to The Florida State University. A comprehensive graduate research university, it has grown from an enrollment of 2,583 in 1946 to 41,773 in the Fall semester 2014.

The main campus of the University is located in Tallahassee, the state's capital. Florida State University also offers degree programs in Panama City, Sarasota, and the Republic of Panama; instructional programs in London, Florence, and Valencia; internships opportunities in China, London, Florence, Panama, and Valencia.

The University has operated international study centers in Panama City, Republic of Panama since 1957; in Florence, Italy since 1966; in London, England since 1971; and in Valencia, Spain since 2000. At each of these locations, courses are offered during the Fall, Spring, and Summer semesters. In addition to FSU students, the centers are open to students from other U.S. institutions and throughout the world.

In addition to the Study Centers, International Programs offers programs in many other locations. These sites vary from year to year, but generally include programs in Australia, China, Costa Rica, Croatia, Czech Republic, Ecuador, France, Ireland, Japan, Russia, and Switzerland. These locations host a variety of study abroad opportunities ranging from broad curriculum offerings to faculty-led programs focusing on a particular area or major. In addition, our Center for Global Engagement hosts exchange programs in Jamaica and Germany (Beyond Borders).

The Center for Professional Development develops and deploys web-based credit and non-credit courses for degree and non-degree seeking students. It also provides continuing education and other outreach activities locally, statewide, nationally, and internationally on behalf of The Florida State University. All of the center's activities and programs support its mission to extend the resources of The Florida State University to promote lifelong learning.

The University employs 1,779 full-time faculty and more than 4,000 administrative, professional and support employees. There are 17 colleges currently offering 324 undergraduate and graduate degrees, including the Juris Doctor in Law, the Doctor of Medicine and 77 doctoral degrees.

ORDER OF THE CONFERRAL OF DEGREES

The order in which the academic degrees are conferred has been established by tradition. Beginning with the newest college in the University, the degrees are conferred in succession, proceeding toward the oldest college. Therefore, at The Florida State University, The College of Applied Studies is first and the College of Arts and Sciences is last in the conferral of academic degrees.

ACADEMIC REGALIA

Patterned from medieval university customs, today's academic regalia reflect the status, scholastic achievement and study discipline of the wearer. Colors are associated with different disciplines as seen in the trimmings of doctoral gowns and the edging of their hoods and in the tassels of caps worn by undergraduate candidates.

The rainbow of colors evident at FSU is traditional including white for the arts and humanities, brown for the fine arts, golden yellow for science, light blue for education, pink for music, citron for social work, drab for business, purple for law, apricot for nursing, maroon for human sciences and green for medicine.

Distinctions between gowns and hoods indicate the type of degree held by the wearer.

A gown worn fastened at the top and featuring long pointed sleeves is worn by those holding a bachelor's degree. The master's gown, which is worn open, has long chiseled sleeves with a slit near the upper part of the arm. The doctoral gown, also worn open, is faced with a broad strip of velvet and has crossbars of velvet on each sleeve. The bars may be of black velvet or of colored velvet indicative of the degree's discipline and agreeing with the edging of the hood.

Hoods are worn by those holding graduate degrees. The doctoral hood is longer and more elaborate than the master's hood. At FSU, the lining of the hood is garnet and gold representing the University's colors. However, a faculty member who holds a degree from another college or university wears the colors of his or her alma mater. The distinction should be made that the edging of the hood is in colors representing the wearer's discipline, but the lining of the hood is in colors representing the wearer's alma mater.

The colored tassel on the cap of an undergraduate candidate indicates the candidate's degree. Graduate candidates for degrees usually wear black tassels, although the doctoral cap may have its tassel of gold thread. At the time the bachelor's degree is conferred, the tassel is changed from the right to the left. Thereafter, it remains on the left side of the cap.

The governing force behind all of this tradition and the continuity of academic symbols dates from the Middle Ages. Officialdom dictates that the tradition should be departed from as sparingly as possible, not only to preserve the symbolism of pattern and color, but for utility as well.

Students wearing cords today are graduating with a degree of distinction. This distinction is based on all college work attempted and is awarded to undergraduates only. Students must have a 3.5 grade point average to graduate "Cum Laude" (gold cord), a 3.7 grade point average for "Magna Cum Laude" (garnet cord) and a 3.9 grade point average for "Summa Cum Laude" (garnet and gold cord).

THE MACE

With origins in the Middle Ages, the mace is an ornamental staff that symbolizes the authority of the university president.

The Florida State University mace, created from native black walnut and gold-plated silver, was designed by Ivan Johnson, FSU Professor of Art. The woodwork is the effort of James C. Smith, 1992-93 Lawton Distinguished Professor of Psychology, and the metalwork the product of FSU alumnus Donald Vodicka.

The university marshal bears the mace before the president as the academic procession enters and retires from academic convocations.

THE MEDALLION

The medallion, which hangs on a heavy chain and bears the university Seal, was first presented to then FSU President Bernard Sliger by the Alumni Association at the revived Fall Convocation in 1988. John Thrasher is the sixth president to wear the brass medallion as a symbol of the office at formal academic functions. The Alumni Association has also presented all living former presidents with this badge of honor.

THE BANNER

The Banner is the highest ranking of the armorial ensigns, types of flag with heraldic significance, dating from medieval times. A knight who had displayed particularly valorous conduct became known as a Knight Banneret and was permitted to display his coat of arms on a square flag or banner carried on his lance. The Banner marked the carrier's position in battle, in a ceremony, or at a tournament.

Like the Mace, the Banner is one of the medieval heraldic devices adopted by the faculties of universities in Scotland in the 1400s to embellish academic ceremonies. Today we use them to identify the colleges participating in formal academic convocations.
