## HISTORY OF FLORIDA STATE UNIVERSITY

In 1851, state legislators provided for the establishment of two institutions of higher learning in Florida east and west of the Suwanee River. The purpose for these schools was to instruct men and women in the art of teaching all facets of a common school education, as well as to provide instruction in the mechanic arts; husbandry; agriculture; fundamental laws; and citizens' rights and duties. In 1856, when state representatives accepted Tallahassee Mayor Francis Eppes' offer of city-owned land and the Florida Institute's existing school building, Tallahassee became the western institution's permanent home.

Following the Civil War, the Florida Institute entered a period of growth and development. By 1897 it had become the first liberal arts college in the state, and in 1901 became Florida State College. In 1905, the Legislature reorganized Florida's educational system. The school became an all-women's college and was subsequently renamed Florida State College for Women. However, when World War II ended, returning veterans required additional educational resources. In 1947, the Governor signed an act of the Legislature returning FSCW to a coeducational institution and renaming it The Florida State University.

The 1950s and 60s brought further development and expansion with the addition of new colleges and schools, such as Business, Library Science, Social Welfare (later split into Social Work and Criminology), and Nursing. The 1970s and 80s saw the establishment of programs in African American Studies, Women's Studies, and the expansion and strengthening of the Liberal Arts Program. From 1957 to 2000, FSU opened study centers in Panama City, Republic of Panama; Florence, Italy; London, England; and Valencia, Spain. FSU's International Programs offers study opportunities that vary from year to year, but can include locations in Australia, China, Costa Rica, Croatia, Czech Republic, Ecuador, France, Ireland, Japan, Russia, and Switzerland. Additionally, The Center for Global Engagement hosts exchange programs in Jamaica and Germany (Beyond Borders).

Between 2001 and 2015, a new College of Medicine opened, and regional medical campuses were added throughout the state. In 2005, The Pathways of Excellence initiative was designed to competitively hire faculty to enhance the university's standing through a series of strategic goals. Most notably, benchmarks were met that led to FSU being named a preeminent university by the Florida Legislature, which set it on a path to become one of the top 25 public universities in the nation.

In each succeeding decade, Florida State University has added to its academic organization and presently comprises seventeen independent colleges. The University offers 267 bachelors, masters, and specialist degrees as well as 84 doctoral degrees, including the Juris Doctor in Law and the Doctor of Medicine. Recent efforts have been focused on elevating the university's reputation as a preeminent research institution; presiding over a one billion dollar fundraising campaign; advancing the university's academic and research mission; championing diversity and inclusion; becoming one of the most veteran-friendly campuses in the country; and welcoming the best and brightest students in the university's history.

## ORDER OF THE CONFERRAL OF DEGREES

The order in which the academic degrees are conferred has been established by tradition. Beginning with the newest college in the University, the degrees are conferred in succession, proceeding toward the oldest college. Therefore, at Florida State University, the Dedman College of Hospitality is first and the College of Arts and Sciences is last in the conferral of academic degrees.

- Dedman College of Hospitality
- Jim Moran College of Entrepreneurship
- College of Applied Studies
- College of Medicine
- College of Motion Picture Arts
- FAMU - FSU College of Engineering
- College of Fine Arts
- College of Communication and Information
- College of Social Sciences and Public Policy
- College of Law
- College of Nursing
- College of Business
- College of Criminology and Criminal Justice
- College of Social Work
- College of Music
- College of Human Sciences
- College of Education
- College of Arts and Sciences

## ACADEMIC REGALIA

Patterned after medieval university customs, today's academic regalia reflect the status, scholastic achievement, and wearer's academic discipline. The colors on the trimmings of doctoral gowns, the edging on hoods, and the tassels of caps worn by undergraduate candidates reflect the student's academic area of study.

The colors seen at an FSU commencement ceremony are traditional and include white for the arts and humanities, brown for the fine arts, golden yellow for science, light blue for education, pink for music, citron for social work, drab for business, purple for law, apricot for nursing, maroon for human sciences, and green for medicine.

The wearer's degree is reflected by their gown and hood. A gown worn fastened at the top that features long, pointed sleeves is worn by those holding a bachelor's degree. The master's gown, which is worn open, has long, chiseled sleeves with a slit near the upper part of the arm. The doctoral gown, also worn open, is faced with a broad strip of velvet and has crossbars of velvet on each sleeve. The bars may be of black velvet or of colored velvet indicative of the degree's discipline and will agree with the hood's edging.

Hoods are worn by those holding graduate degrees. The doctoral hood is longer and more elaborate than the master's hood. At FSU, the lining of the hood is garnet and gold representing the University's colors. However, a faculty member who holds a degree from another college or university wears a hood whose lining is in the colors of his or her alma mater, with edging that represents his or her academic discipline.

The color of the undergraduate candidate's cap tassel indicates the candidate's degree. Graduate candidates-for-degree usually wear black tassels; however, the doctoral cap may have a tassel of gold thread. At the time the bachelor's degree is conferred, the tassel is changed from the right to the left side of the cap. Thereafter, it remains on the cap's left side.

The continuity of these academic symbols dates from the Middle Ages, and tradition dictates that they should be departed from as sparingly as possible, not only to preserve the symbolism of pattern and color, but for utility, as well.

Students who are wearing cords in today's ceremony are graduating with a degree of distinction. This distinction is based on all college work attempted and is awarded only to undergraduates. Students must have a 3.5 grade point average to graduate Cum Laude (gold cord), a 3.7 grade point average for Magna Cum Laude (garnet cord) and a 3.9 grade point average for Summa Cum Laude (garnet and gold cord).

## THE MACE

With origins in the Middle Ages, the mace is an ornamental staff that symbolizes the authority of the university president.

The Florida State University mace, created from native black walnut and gold-plated silver, was designed by Ivan Johnson, FSU Professor of Art. The woodwork is the effort of James C. Smith, 1992-93 Lawton Distinguished Professor of Psychology, and the metalwork the product of FSU alumnus Donald Vodicka.

The university marshal bears the mace before the president as the academic procession enters and retires from academic convocations.

## THE MEDALLION

The medallion, which hangs on a heavy chain and bears the university Seal, was first presented to then FSU President Bernard Sliger by the Alumni Association at the revived Fall Convocation in 1988. John Thrasher is the sixth president to wear the brass medallion as a symbol of the office at formal academic functions. The Alumni Association has also presented all living former presidents with this badge of honor.

## THE BANNER

The Banner is the highest ranking of the armorial ensigns, types of flag with heraldic significance, dating from medieval times. A knight who had displayed particularly valorous conduct became known as a Knight Banneret and was permitted to display his coat of arms on a square flag or banner carried on his lance. The Banner marked the carrier's position in battle, in a ceremony, or at a tournament.

Like the Mace, the Banner is one of the medieval heraldic devices adopted by the faculties of universities in Scotland in the 1400s to embellish academic ceremonies. Today we use them to identify the colleges participating in formal academic convocations.
